

State Library of Iowa

SFY10 Annual Report - Use of Iowa Communications Network

July 1, 2009 - June 30, 2010

The State Library continues to rely on the Iowa Communications Network (ICN) for video, data and voice services. Internet access through the ICN makes it possible for the State Library to provide its main Web site <http://www.statelibraryofiowa.org/> plus the State Data Center <http://www.statelibraryofiowa.org/sdc> and Iowa Center for the Book <http://www.iowacenterforthebook.org/>. These Web sites provide Iowans access to a wide range of resources from library catalogs and census data to resources to stimulate public interest in books, reading, literacy and libraries. The State Library Web sites had 3,457,213 hits in FY10.

Librarians use the Web sites for numerous reasons, including the statewide electronic interlibrary loan system. Iowans use the State Data Center Web site to access census demographic data and maps as well as current estimates of population, housing, economic, and government characteristics. Thousands of data tables, demographic profiles, and maps are available to Iowans on the site.

Iowa Publications Online, <http://publications.iowa.gov/> provides Internet access to over 8,833 State of Iowa documents that have been published electronically. A search engine allows patrons to find documents by title, author, subject, keyword, or year. Since fewer state publications are published in print and older electronic documents are often removed from state agency Web sites, IPO provides a valuable, permanent archive of state documents for the public as well as state agencies.

State Library Use of the ICN video teleconferencing

The State Library logged 108 hours (1,765 billable hours) on the ICN for workshops, training and meetings. There were 1,672 participants in 46 sessions at 763 sites. State Library staff and those who participate in state-sponsored events continue to save in time and travel costs. Many Iowans, especially those in rural areas, would not be able to participate in these events if extended travel was required.

Cost savings for video room use

In addition to providing services and information to larger audiences, the State Library has realized cost savings from ICN use. The following assumptions and calculations were used in this report:

- If meetings and training sessions were not held over the ICN, all participants would travel to Des Moines as the originating site. Mileage is figured from remote sites to Des Moines.
- At least one participant from each remote site would have traveled to Des Moines.
- Participant counts are based on registration, counts conducted during the sessions, or estimates.
- Distance calculations are based on shortest distance on a map from remote site to Des Moines.
- Productivity costs calculated for consultant travel to individual sites (the average hourly salary/ benefits [\$26.31/hour] × round trip mileage between sites ÷ driving speed of 55 mph).
- ICN costs for FY2010 were actual ICN charges based on rates afforded by the E-rate discounts for the State Library.
- Room charge costs are derived from actual billings when possible.
- Savings = (Productivity + Lodging + Meals + Travel-In) - (ICN Cost + Room Charge).
- Travel-In [participants * distance * \$.39 * 2]
- Travel (Y/N) N means the session would not have been held if not on the ICN.

The attached spread sheet includes:

1. State Library-sponsored programs originating at the State Library.
2. State Library-sponsored programs originating in ICN rooms of other agencies.
3. Programs and meetings sponsored by other agencies and attended by State Library staff to save travel expenses.

Based on the above assumptions, the State Library realized \$283,016 in savings in FY10 using the ICN. System charges from the ICN totaled \$11,148 and individual room charges totaled \$3,150. Total charges for ICN video use, room use and satellite costs in FY10 were \$14,298.

Highlights of FY10 ICN video room use by the State Library of Iowa

- **Serving Job Seekers:** The State Library and Iowa Workforce Development (IWD) developed a partnership over the last year in order to better serve unemployed Iowans. The partnership was formally kicked off with an ICN program on October 13, 2009 for public library staff and IWD managers.
- The Census Awareness program was offered with approximately 121 attending. The purpose of the program was to increase city and county officials' awareness of the 2010 census and encourage them to form local census committees. Presenters, including state and regional Census Bureau staff and representatives of local Iowa census committees, described the importance of the census to Iowa communities, the value of community participation in the census, and plans for mobilizing community involvement to promote the census.
- **A Sense of Place:** Landscaping Public Library Grounds Using Iowa Native Plants was held over the ICN on February 24, 2010. Forty-one librarians and local government

representatives attended. The speaker was Inger Lamb, president of Iowa Prairie Network and owner of Prairie Landscapes of Iowa. Lamb has a PhD in Plant Science from Ohio State University and 15 years experience working with native prairie species.

- The Public Library Standards and Accreditation Program, administered by the State Library of Iowa, was revised during FY10. The Public Library Standards Advisory Task Force used the ICN for their meetings.
- Make a Splash Read – Literacy Story Hour was an ICN session for 42 children’s librarians that provided suggestions for using the summer library program theme and the six literacy skills for library story hours.
- The Public Library Management 1 and 2 courses (PLM) help library staff acquire, maintain and develop basic skills in order to provide the best service possible to their customers and community. PLM 1 and 2, required for public librarian certification, were offered five times during the year. 110 students participated. Contact: Alysia Peich
- Public library board members were provided with training on Iowa’s Open Meetings Law which was attended by 51 at 26 sites. Trustee Essentials, offered twice, was attended by 48 at 21 sites. Contact: Sandy Dixon
- The Iowa Center for the Book (ICB) stimulates public interest in books, reading, literacy and libraries. The ICB used the ICN to offer an evening program designed to help library staff, trustees and community members lead book discussions on the 2010 All Iowa Reads book *Driftless* by David Rhodes. There were 77 participants at 40 sites. Contact: Annette Wetteland.

Benefits to Iowans

Without the ICN, Iowans would not have access to the State Library’s Web sites. The Web sites provided Iowans access to library catalogs, the publications of state government, census information, E-mail reference and many other services. The main Web site features Live Chat, a new and very popular service which enables customers to immediately connect with a professional librarian.

Iowans value the opportunity to attend classes and meetings at local ICN sites. If not for the ICN, many librarians would be unable to pursue continuing education to improve library services.

Thanks to the ICN’s recording capabilities, people unable to attend an event on a specific day can still “participate” days later, at their convenience. The State Library’s recorded ICN workshops are the most sought after videos and DVDs in the State Library’s collection.

Benefits to State Library of Iowa

The ICN increases efficiency by cutting travel time and expenses. Using the ICN increases attendance and participation from the different geographic areas of the state. Training is provided within critical time frames and guarantees information equity. Without the ICN, it would not be practical to offer many of our workshops. Lastly, without the ICN, the State

Library would not receive the input to assess needs and develop programs to meet them.

State Library Use of ICN Data Service

ICN Internet services provide support for Iowa's electronic library information network (SILO) and for the State Library's integrated library system including the State Library's online catalog. During FY10, SILO provided access to the Iowa Locator, which contains records for 15 million items owned by over 700 Iowa libraries of all types. SILO Interlibrary Loan allows libraries to share materials with each other to meet the information needs of Iowans. Libraries used the electronic interlibrary loan service to fill 108,197 requests for library materials.

Because of the ICN, librarians across the state can communicate with each other through electronic mailing lists maintained by State Library. In most cases, librarians use the mailing lists to track down hard-to-find materials needed by customers and to solve common problems.

Future

The State Library will continue to offer access to ICN video conferencing through the meeting rooms in the Ola Babcock Miller building. The rooms are available to all state agencies and to library-related groups.

In addition to data, voice and video services, the State Library will continue to rely on the ICN to support SILO and its numerous services. The ICN remains vital in helping the State Library fulfill its mission to provide statewide access to information for all Iowans.
