The Accelerated Career Education (ACE) Infrastructure Program was established by Iowa Code 260G. ACE funding must be used on Qualified Projects. Capital Projects consist of "vertical infrastructure", defined by Iowa Code 8.57 to include "only land acquisition and construction; major renovation and major repair of buildings; routine, recurring maintenance; all appurtenant structures; utilities; site development; recreational trails; renewable fuel infrastructure programs; and debt service payments on academic revenue bonds issued in accordance with chapter 262A for capital projects at board of regents institutions. 'Vertical infrastructure' does not include operational expenses or leasing of a building, appurtenant structure, or utility without a lease-purchase agreement." Renovations and Major Repairs are defined in 2018 Iowa Acts, chapter 1163, division II, section 55, subsection 1, paragraph C as including, "life, health, and fire safety needs, including compliance with the Americans With Disabilities Act."
