Mary Breyfogle, Consultant

It is the policy of the Iowa Department of Education not to discriminate on the basis of race, creed, color, sexual orientation, gender identity, national origin, sex, disability, religion, age, political party affiliation, or actual or potential parental, family or marital status in its programs, activities, or employment practices as required by the Iowa Code sections 216.9 and 256.10(2), Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. § 2000d2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681 – 1688), Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.). If you have questions or complaints related to compliance with this policy by the Iowa Department of Education, please contact the legal counsel for the Iowa Department of Education, Grimes State Office Building, 400 E. 14th Street, Des Moines, IA 50319-0146, telephone number: 515-281-5295, or the Director of the Office for Civil Rights, U.S. Department of Education, John C. Kluczynski Federal Building, 230 S. Dearborn Street, 37th Floor, Chicago, IL 60604-7204, telephone number: 312-730-1560, FAX number: 312-730-1576, TDD number: 800-877-8339, email: OCR.Chicago@ed.gov

Introduction

Iowa Code section 279.60: Assessments – access to data – reports

The 2014 General Assembly passed legislation requiring local school districts to complete the following:

- Administer Teaching Strategies GOLD™ early childhood assessment to every resident prekindergarten or four-year-old child whose parent or guardian enrolls the child in the district;
- Administer a valid and reliable universal screening instrument as prescribed by the Iowa Department of Education (Department) to every kindergarten student enrolled in the district (Iowa Code section 270.60);
- Collect from each parent, guardian or legal custodian of a kindergarten student enrolled in the district, information including, but not limited to, preschool attendance and demographic factors;
- Report the results of assessment and preschool information to the Department no later than January 1 of that school year; and

Submit findings and recommendations annually in a report to the governor, the general assembly, the Early Childhood Iowa State Board, and the Early Childhood Iowa area boards.

Report of Preschool Participation

Districts reported the number of students who had attended preschool at any time 12 months prior to registering for kindergarten. Districts gathered the information through parent reports or district records. Preschool participation has been defined to include attending any district or non-district preschool program including Head Start, local private preschools, and preschools funded by Early Childhood Iowa scholarships. Data analysis should consider variations in preschool design due to differing program requirements and/or local expectations. In 2021-2022, districts reported 79 percent of students entering kindergarten for the first time attended a preschool program in the prior year.

Preschool—Assessment Tool Used

Iowa Code section 279.60 requires preschool programs under the authority of the Department to administer Teaching Strategies GOLD™ (GOLD). This is an online, ongoing, portfolio-based assessment system for children from birth to grade three. GOLD blends portfolio-based assessment for all areas of development and learning with performance tasks to predict school success across developmental areas. Specifically, the developmental domains on GOLD are: social-emotional, physical, language, cognitive, literacy, mathematics, social studies, science and technology, and the arts. Documentation is also collected on an ongoing basis across areas of development and examined regularly to assist teachers in completing progress checkpoints. Up to three times a year, teachers complete a progress checkpoint for each child across the required developmental domains based on analysis of portfolio evidence. Levels used to indicate how a child is progressing at a checkpoint are based on widely held expectations for child development. Depending on the frequency and amount collected, data may be used by teachers for both formative and summative purposes.

Kindergarten—Assessment Tool Used

The Department aligned the kindergarten assessment requirements of Iowa Code section 279.60 with Iowa Code section 279.68, the statutory requirements for ensuring that all students are at or above benchmark in reading by the end of third grade. This law requires each school district to assess all students enrolled in kindergarten at the beginning of the school year, for their level of reading or reading readiness, on a locally-determined or statewide assessment. Locally determined assessments that districts select must meet minimum standards for reliability and validity established by the Department. To support districts in the implementation of Iowa Code section 279.68, the Department reviewed early literacy assessments for universal screening and progress monitoring to determine valid and reliable instruments.

Table 1 depicts the various kindergarten literacy assessment instruments used in school districts. Each of these assessment tools measures early literacy concepts, including print letter names and sounds, and beginning sounds (phonemic awareness) in young children. One assessment tool commonly used by districts is the Formative Assessment System for Teachers (FAST).

Table 1. Number and Percent of Iowa Public School Districts and Kindergarten Assessment Tools Administered in Fall 2022

Kindergarten Assessment	No. of Public Districts Using as Default Assessment in Fall 2022	Percent of Public Districts Using as Default Assessment in Fall 2022
FAST earlyReading	324	99%
i-Ready Diagnostics	1	< 1%
MAP Growth Reading	1	< 1%
STAR Early Literacy	1	< 1%

Preschool—Assessment Results

In the GOLD Comparative Report, children were compared to a readiness benchmark reflecting objectives and performance typical of students at entry to kindergarten. The objectives and readiness benchmarks for specific domains were established by the Teaching Strategies research team. Data shown in Table 2 represents preschool children who met the GOLD kindergarten readiness benchmark in various developmental domains in spring 2022. This includes data from all preschool programs in GOLD under the Department Statewide License with Teaching Strategies (although some programs are not under Department authority).

Table 2. Spring 2022 Assessment of Kindergarten Readiness for Preschool

Teaching Strategies GOLD Area of Development	No. of 4-Year-Old Children Assessed	Percent at or Above Benchmark
Social-Emotional	25,417	91.2%
Physical	25,392	95.8%
Language	25,344	90.7%
Cognitive	25,286	92.5%
Literacy	25,278	93.8%
Mathematics	25,255	88.8%

Kindergarten—Assessment Results

To determine kindergarten performance, students are compared based on a criterion or benchmark aligned with relevant outcomes. A composite or total score is calculated based on assessment subtests. The composite score is reported to determine the percent of children at benchmark meeting expectations regarding early reading skills at the beginning of kindergarten. In fall 2021, 37,706 kindergarten students were assessed using FAST; data indicate 26,336 students (68 percent) of those assessed were at or above the benchmark for kindergarten (Figure 1).

Figure 1. Percent of Students in Kindergarten At or Above Benchmark in Beginning Reading Skills Using an Approved Early Literacy Screening Assessment Measure, 2017-2022

Data Source: FastBridge Learning Data System, 2017-2019 data; Student Success Data System, 2020-2022 data; 2017-2021 data includes only FAST screeners; 2022 data includes all approved screeners.

The year-by-year trend results are shown in Figure 2. By the end of kindergarten, children have grown in their development of early literacy skills. Due to the suspension of state assessments in Iowa during the health pandemic in spring 2020, data for spring administration is not available.

Figure 2. State Screening Data Trends for the Percent of Students in Kindergarten At or Above Benchmark in Beginning Reading Skills, 2017-2022

Data Source: FastBridge Learning Data System, 2017-2019 data; Student Success Data System, 2020-2022 data; 2017-2021 data includes only FAST screeners; 2022 data includes all approved screeners.

Summary

Results suggest statewide efforts to increase proficiency of literacy skills are positively impacting student learning in kindergarten. In preschool, statewide efforts have included implementation of the Iowa Quality Preschool Program Standards, the National Association for the Education of Young Children Accreditation Standards and Assessment Items, the Head Start Program Performance Standards, and early literacy instructional strategies. Ongoing efforts in the alignment of assessment, curriculum, and instruction to assist in closing the achievement gap for young children are needed. Recommendations supportive of such efforts include:

- Continue state funding supporting the implementation, monitoring, and evaluation of quality preschool programming.
- Support quality preschool programs through maintaining program standards and implementation of Iowa Early Learning Standards (IELS) to prepare children for success in kindergarten.
- Support quality professional development addressing the Iowa Quality Preschool Program Standards, Iowa Early Learning Standards, and the alignment of IELS with the kindergarten standards of the Iowa Academic and Recommended standards.
- Provide quality professional development addressing early literacy content to teachers in preschool classrooms to support appropriate language, early reading, and early writing learning.
- Provide quality professional development addressing early mathematical and numeracy topics to support early math instruction, including number sense, in preschool programs.
- Provide technical assistance through area education agency early childhood consultants.
