Re: Span of Control Policy Report - Board of Regents

Dear Governor Reynolds and Members of the General Assembly:

Pursuant to Iowa Code §262.9C (5), attached is the 2021-2022 Annual Span of Control Report of the Board of Regents.

If you have any questions or need more information, please don't hesitate to contact this office.

Sincerely,

Mark J. Braun
Executive Director

ANNUAL SPAN OF CONTROL REPORT

Actions Requested:

- ▶ Receive the report;
- ▶ Approve the exclusion of departments with 28 or fewer FTEs from span of control calculations; and
- ▶ Approve submission of the report to the Governor and the Iowa General Assembly in accordance with Iowa Code §262.9C and Board Policy §2.1(3)(G).

Executive Summary: Span of control analysis is one consideration in determining the appropriate staff mix for each institution along with: (1) skills and expertise to perform the various forms of work required; (2) degree of oversight and regulation required in each context; (3) risk of errors; and (4) other considerations balancing efficiency with quality and effectiveness of the work.

Calculations to determine span of control ratios are based upon October 1 payrolls at the five institutions.

Employees involved with direct patient care, faculty, and employees in other areas of the institutions that must maintain different span of control ratios due to federal or state regulations were not included in calculation of the ratios.

The resulting analysis represents a comparison of numbers of merit exempt and professional staff at each institution that have administrative supervision as any portion of their overall job responsibilities as compared to the number of other employees with no supervisory responsibilities. This analysis is based upon headcount and does not measure the amount of effort spent by individuals to fulfill their supervisory responsibilities. Each institution has unique considerations, which impact individual calculations.

For consistency with other reports, the universities have defined “departments” as those entities identified in the institutional budgets. SUI requests exclusion of 329 departments (pages 2-10); ISU – 155 departments (pages 11-14); and UNI – 106 departments (pages 15-17). These departments are consistent with those previously excluded by the Board.

After applying the statutory criteria to October 1 payroll data, excluding faculty, direct patient care employees and departments with 28 or fewer FTEs, no departments at the special schools met the criteria for calculating span of control.

Ratios for the three universities for the last five years are as follows:

	2018	2019	2020	2021	2022
University of Iowa	1/9.71	1/9.44	1/9.10	1/9.18	1/8.68
Iowa State University	1/13.41	1/14.27	1/11.68	1/10.85	1/10.52
University of Northern Iowa	1/14.16	1/12.05	1/11.38	1/10.26	1/10.40

Background: SF 2088 (the state reorganization bill) passed in the 2010 session of the General Assembly amended Chapter 262 of the Iowa Code to include a provision regarding span of control. The amendment, effective March 20, 2010, requires the Board to develop and maintain a policy setting a target aggregate ratio of employees who perform supervision to all other employees at one to fifteen. In Board of Regents Policy 2.1(3)(G), the BOR has met the

requirements to develop and maintain a policy regarding span of control as set forth in the Iowa Code. The institutions continue to seek the most efficient and effective staffing mix to achieve and maintain excellence in fulfillment of their threefold mission of teaching, research, and service. They also continue to examine span of control as analysis is provided for other annual reports to the Board, including the Annual Human Resources Report.
