

Iowa Department of Management
Grants Enterprise Management System Compliance Report (8.9)

July 2023

Project:

Iowa Electronic Grant Management System (GEM\$) - IowaGrants.gov

Description:

IowaGrants.gov is an all-inclusive grant identification portal and a comprehensive enterprise-wide grant management system. The system is available to all state agencies that administer a variety of state and federal competitive and pass-through grant programs, eliminating the costs of continued investments in the development and operation of agency-unique grant management systems. It provides public and private entities, seeking funding through state administered grant programs, with a single portal to search for open solicitations or ongoing grant programs. External users of the system include city and county entities, all of Iowa's school districts, non-profit organizations and the general public.

Progress of Work:

The project continues to solicit the use of IowaGrants.gov by all state agencies that apply for grants. In December 2022, the state of Iowa successfully migrated to the newest user interface of the webgrants system, resulting in additional costs in FY23 for this one-time transition.
