**July 2024**

**Project:**

Iowa Electronic Grant Management System (GEM\$) - IowaGrants.gov

**Description:**

IowaGrants.gov is an all-inclusive grant identification portal and a comprehensive enterprise-wide grant management system. The system is available to all state agencies that administer a variety of state and federal competitive and pass-through grant programs, eliminating the costs of continued investments in the development and operation of agency-unique grant management systems. It provides public and private entities, seeking funding through state administered grant programs, with a single portal to search for open solicitations or ongoing grant programs. External users of the system include city and county entities, all of Iowa's school districts, non-profit organizations and the general public.

**Progress of Work:**

The project continues to solicit the use of IowaGrants.gov by all state agencies that apply for grants.
