Class Size 2011-2012

Introduction

Class size reduction for the early elementary grades remained a state goal in 2011-2012, continuing efforts initiated by the Iowa Early Intervention Block Grant Program (House File 743) in 1999. Iowa's class size reduction goals established in Iowa Code Chapter 256D are 17 students per one teacher for basic skills instruction, provide direction and resources to help districts achieve a high level of student success in basic skills, especially reading skills; and increase communication and accountability regarding student performance.

Table 1 provides a breakdown of funding from FY2000 through FY2012.

Notes: * The FY 2004 appropriation was reduced as a result of an across-the-board cut after the initial appropriation and then received a partial restoration of funds.

Methodology

Public school districts report the number of kindergarten, first, second, and third grade classroom sections, students, teachers, and aides by building during the Fall Basic Educational Data Survey (BEDS). Special education teachers and aides are not included in the reporting. Physical education, art, music, and other "specialty" and "pull-out" program (such as Title I reading and math) teachers are also excluded from the teacher count.

Some districts utilize multi-age classrooms for their K-3 students. For example, a classroom may combine first and second grade students in one room. Districts may report these combination classrooms as grade level "Other" on the Class Size submission, but these classrooms are not included in this report. The Department of Education calculated average class size for kindergarten through third grade at the district and state level. Average class size equals the number of students divided by the number of classrooms for each grade level.

$$\text{Average Class Size} = \text{Number of Students} / \text{Number of Classrooms}$$

¹ Beginning in FY2010, funding of the Iowa Early Intervention Block Grant Program was rolled into the State Aid formula. This allows the funding of this program to grow along with the overall funding of school districts across Iowa.

Since average class size uses the number of classrooms as the denominator, adding additional teachers to a classroom does not lower the average class size for that grade level (refer to Appendix B for the full-time equivalent [FTE] of classroom teachers). The use of classroom aides also does not reduce average class size at the district or state level.

Findings

This report provides class size data from 1998-1999 to 2011-2012 for kindergarten through third grade. Average class size increased in 2011-2012 for all grade levels with the exception of third grade, which remained steady, when compared to 2010-2011 (see Table 2 and Figure 1). All averages were at the highest level since 1998-1999. This is the second year all grades showed average class size of 20 or above. Third grade continued to show the highest average class size per classroom of the grades examined, at 21.5 students per classroom for 2011-2012, and remained above 20 students in each year studied.

Overall, the increase in average class size in 2011-2012 continued the trend in recent years. This is the second year in a row grades kindergarten through second showed class sizes at or above the 1998-1999 levels. Since the inception of the Class Size reduction funding, third grade class sizes continue to be below 1998-1999 levels.

Average class sizes have declined for kindergarten through second grade from 1998-1999 through 2001-2002 but increased in each of the subsequent years through 2005-2006. In 2006-2007, kindergarten average class sizes declined slightly, but have continued to climb since. Third grade showed a decline from 1998-1999 through 2002-2003, but experienced alternating increases and decreases through 2005-2006.

Smaller districts were more likely to meet the state goal of 17.0 students per classroom than larger districts in 2011-2012. The average class size for all grades was below 17.0 students per classroom for the <300 enrollment category in 2011-2012. The larger districts were more likely to show the highest average class sizes in 2011-2012. The 2,500-7,499 and 7,500+ enrollment categories experienced average class sizes of 21 or more for all grades in 2011-2012. The average class size for these enrollment categories remained above 20 students per classroom for the past ten years. Since the inception of the Class Size reduction funding, districts with 600 students or greater have been unable to reach the goal of 17 students per classroom for all grades.

The average class size for the smallest ten districts in the state was less than 11 students per classroom for all grades. The average class size for the largest ten districts in the state was above 21.5 students per classroom for all grades.

The percentage of classrooms above the state goal of 17 students per classroom increased in 2011-2012 for second and third grade from the previous year. The greatest increase was in the second grade classrooms where the percent of classrooms above 17 students went from 83.7 percent in 2010-2011 to 85.6 percent in 2011-2012. Kindergarten and first grade showed a slight decrease from 2010-2011.

This is the second year the growth in the number of teachers has not outpaced the growth in the number of students for each grade level from 1998-1999 to 2011-2012 (see Figures 2-4). For example, the number of first grade students increased 5.3 percent since 1998-1999, but the number of first grade teachers increased only 3.5 percent during the same period. The number of students outpaced the growth in the number of classrooms for kindergarten through second grade. Kindergarten showed an increase in students of 12.2 percent, while the increase in the number of classrooms was 9.9 percent since 1998-1999.

Changes in enrollment from 1998-1999 to 2011-2012 outpaced the changes in average class size during the same period for kindergarten, second, and third grade (see Tables 9 and 10). During this period, average class size declined .9 percent for third grade while enrollment decreased 3.2 percent. Kindergarten class size increased by only 2.0 percent while the enrollment increased by 12.4 percent when compared to 1998-1999.

Expenditures

District expenditures increased in FY 2011 to \$30,095,067 with salaries consuming the largest percentage of the total. Purchased Services, Supplies and the Other categories were below 1.0 percent each (see Table 11 and Figure 5).

In FY 2011, the largest districts (+7,500) spent the smallest percentage of early intervention funds on staff salaries at 75.7 percent. Small districts in the <300 and 300-599 enrollment categories spent the highest percentage of funds on staff salaries, above 79 percent, yet paid fewer benefits than the larger districts. The very smallest districts utilized purchased services, and supplies the most in FY 2011 at around 2 percent. Overall, the percentage difference of categorical expenditures fluctuated very little based on the size of a district.
