

INNOVATION FUND TAX CREDIT

2024 ANNUAL REPORT

The Innovation Fund Tax Credit (Iowa Code Chapter 15E.52) was created to stimulate venture capital investment in innovative Iowa businesses. IEDA's rules for administering the program can be found at 261 IAC Chapter 116.

Individual investors receive tax credits equal to 25% of an equity investment in a certified Innovation Fund. Certified Innovation Funds make investments in businesses whose principal place of business is Iowa that are applying novel or original methods to the manufacture of a product or the delivery of a service. "Innovative businesses" include, but are not limited to, businesses engaged in advanced manufacturing, biosciences and information technology.

To be eligible as a certified Innovation Fund, the fund must meet the following criteria:

- Proposes to provide multiple rounds of funding and early-stage private sector funding to innovative businesses with a high growth potential, and proposes to focus such funding on innovative businesses that show potential to produce commercially viable products or services within a reasonable period of time.
- Proposes to evaluate all prospective innovative businesses using a rigorous approach and proposes to collaborate and coordinate with the authority and other state and local entities in an effort to achieve policy consistency.
- Proposes to collaborate with the Regents institutions of Iowa and to leverage relationships with such institutions in order to potentially commercialize research developed at those institutions.
- Proposes to obtain at least \$15 million in binding investment commitments and to invest a minimum of \$15 million in companies that have a principal place of business in Iowa.

Applications for certification are reviewed by IEDA staff to determine if all criteria have been met and make a recommendation to the Board. If all the criteria are met, the Board certifies the fund. Four funds were certified as of June 30, 2024: Next Level Ventures Fund I LLLP, Next Level Ventures Fund II LLLP, Next Level Ventures Fund III LLLP, and ISA Ventures Fund LLLP.

To receive a tax credit certificate, an investor must submit an application by March 31 of the year following the calendar year in which the equity investment was made. Tax credits are available on a first-come, first-served basis. A tax credit certificate may be transferred once. Any tax credit in excess of the taxpayer's liability for the tax year may be credited to the tax liability for the following five years or until depleted, whichever comes first.

The total amount of tax credits available for investment in Innovation Funds for fiscal year 2024 was \$8 million. IEDA issued a total of \$1,440,669.75 in tax credits in FY2024.

During fiscal year 2024, Innovation Fund Tax Credit claims totaled \$1,453,078. The amount of tax credits transferred totaled \$519,971.75.

FUND INFORMATION
