

STATE OF IOWA

TERRY BRANSTAD, GOVERNOR
KIM REYNOLDS, LT. GOVERNOR

DEPARTMENT OF EDUCATION
JASON E. GLASS, DIRECTOR

To: General Assembly

From: Iowa Department of Education
Jeff Berger, Deputy Director

Subject: School district reporting of dues, fees, and revenues paid to and received from Educational Organizations

Date: January 31, 2012

Per the requirements of Iowa Code 279.38 and 279.38A, the Iowa Department of Education submits information collected from school districts related to membership dues, fees, revenues or dividends paid to or received from Educational Organizations. Data included in this report are for fiscal year 2011, meaning the payment or receipt of revenue occurred in FY11. In some cases, a district may have paid multiple years of a given fee in FY11.

In determining what data points should be collected and reported, the Department included expenditures or revenues paid directly by the local school board to an organization that supports functions related to board operations. Board operation in this context includes not only direct board support, but also the implementation of board policy, management of personnel, and transacting the business of the board. All of the information collected in this report is already public through local school board minutes.

It is possible that this reporting could be expanded to other organizations with membership fees in the future, if it is determined that the above criteria apply to that organization's fees or dues. The data included in this report directly reflect what was submitted by each district. All school districts but one complied with the reporting request.

The Department did some basic screening of data for information that was obviously in error. An example: We would not expect a district to pay one million dollars for a membership fee. In those cases, we worked with the district to correct the obvious error. But the Department did not generally verify that the data submitted were accurate. It is likely, especially for a first time submission on a new reporting requirement, that some of the information submitted by districts contains errors. Caution should be taken when interpreting the data presented.

Grimes State Office Building - 400 E 14th St - Des Moines IA 50319-0146

PHONE (515) 281-5294 FAX (515) 242-5988

www.iowa.gov/educate

Championing Excellence for all Iowa Students through Leadership and Service

The Department worked with the organizations included in this reporting to identify the categories of data to be collected. The Department also allowed the organizations to preview the data collected and to respond to the Department with any concerns noted. The Department did not alter data submitted as a result of feedback from the organizations unless it could be confirmed by the district that the data should be corrected.

It should also be noted that IC 279.38 and 279.38A includes language related to Iowa Code Chapters 21 and 22. The Department wants to be clear that simply because information is included in this reporting on a given organization, the inclusion of those data does not imply that the organization is subject to the provisions of Iowa Code Chapters 21 and 22.

The tables that follow provide summary data as reported by the districts in the categories requested. The by-district detailed spreadsheet is also included with this submission.

Some organizations provided some cautions about the data. Those comments are included here.

From Dan Smith of the School Administrators of Iowa

1. The total numbers reported under the heading of SAI Membership Annual Dues includes dollars other than district expenditures for SAI Dues. Included in this figure could be dues to SAI's national affiliates AASA, NASSP, and NAESP. SAI serves as the agency to collect these dues for the national associations but some members pay the nationals directly. For the FY 2011, SAI collected dues for nationals in the following amounts: AASA- \$94,085, NASSP- \$113,066, NAESP- \$82,916 for a total of \$290,067.
2. Also included in the totals listed from districts are amounts that have been withheld from the pay of administrators at the administrator's request in order to pay in full or in part for his/her SAI membership. We know this to be the case in some instances but we have no way to know the exact amount or number of individuals to whom this applies.
3. Some of the amounts listed in SAI Annual Membership Dues are for years other than FY 2011.
4. The totals for Conference/Registrations include amounts for events that were sponsored jointly with other organizations including the Iowa Department of Education.

5. The totals for Conference/Registrations include amounts for school district employees other than administrators as some of our events are attended by teachers and support staff.
6. The totals for Convention Registrations include amounts for school district employees other than administrators as our preconference was attended by district teams that included teachers.
7. I have no idea what the category of Subscriptions/Services means as it applies to SAI.
8. The category of Parental Assistance Center Grant (iSPIN) is part of the federal grant for the Parent Information Resource Center (PIRC) for which SAI is a partner with AEA 267 as joint recipients. The PIRC grant is a required part of our annual audit.
9. Iowa's Bus Emissions Education Program Grant (BEEP) is a partnership between the Iowa Department of Education, Iowa Department of Natural Resources, Iowa Student Transportation Association, IASB and SAI. The group seeks grants to help districts make environmental changes to their transportation fleets.
10. Administrator Mentoring and Induction is a program that SAI provides to help persons who are new principals or superintendents meet the Iowa Code requirement to have a formal mentoring program.
11. School Administration Manager Project (SAMs) is offered to districts on a fee for service basis and provides coaching, data analysis, and support for buildings that enroll their principal in the SAMs program.
12. The AEA Superintendent Network is a partnership between SAI and Iowa's AEA system to provide the Instructional Rounds model through the Superintendent Network.

From Tom Downs, Jackie Black and Galen Howsare of the Iowa Association of School Boards

NOTES

- 1) 35% of the PR Express Subscription fee is paid by IASB to the Washington State School Directors' Association
- 2) This sponsorship agreement has been terminated effective 6-30-2011.
- 3) IASB has received no funds for this service since 2009.
- 4) Annual dividend given to IASB for disbursement to participating member districts. IASB receives a sponsorship fee.
- 5) LGS receives an administrative fee for accounting services. IASB receives a sponsorship fee.
- 6) LGS owned business. IASB receives a sponsorship fee.
- 7) Although IASB/LGS helps administer this program, it has its own separate board of directors and a 28E agreement with districts.
