Eric Heitz, Administrative Consultant
Dennis McClain, Consultant

Overview

Authority

This report serves as the annual update under Iowa Code 256.7(32). In addition, on April 17, 2024, Chapter 15 Online and Virtual Learning rules were simplified as a result of Executive Order 10. The following subsection addresses the required data collected for the Approved Online Schools in Iowa Annual Report to the Legislature and the required report:

District responsibilities. A school district providing educational instruction and course content delivered primarily over the Internet shall annually submit to the department, in the manner prescribed by the department, data that includes but is not limited to the following:

> (1) Student achievement and demographic characteristics.

> (2) Retention rates.

> (3) The percentage of enrolled students' active participation in extracurricular activities.

> (4) Academic proficiency levels, consistent with requirements applicable to all school districts and accredited nonpublic schools in this state.

> (5) Academic growth measures, which shall include either of the following:

>> 1. Entry and exit assessments in, at a minimum, math and English for elementary and middle school students, and additional subjects, including science, for high school students.

>> 2. State-required assessments that track year-over-year improvements in academic proficiency.

> (6) Academic mobility. To facilitate the tracking of academic mobility, school districts shall request the following information from the parent or guardian of a student enrolled in educational instruction and course content that are delivered primarily over the Internet:

>> 1. For a student newly enrolling, the reasons for choosing such enrollment.

>> 2. For a student terminating enrollment, the reasons for terminating such enrollment.

> (7) Student progress toward graduation. Measurement of such progress shall account for specific characteristics of each enrolled student, including but not limited to age and course credit accrued prior to enrollment in educational instruction and course content that are delivered primarily over the Internet, and shall be consistent with evidence-based best practices.

Department responsibilities. The department shall compile and review the data collected pursuant to this subrule and shall submit its findings and recommendations for the continued delivery by school districts of educational instruction and course content delivered primarily over the Internet in a report to the general assembly by January 15 annually.

Approved Online Schools

As required by legislation, the school districts with approved online schools in Iowa have submitted data to the Iowa Department of Education (Department) for the school year 2023-24. The number of Department-approved online schools reporting has decreased from 19 in 2022-23 to 15 in 2023-24. All 15 schools listed have been approved to allow open enrolled students to participate in an approved online school which offers course content delivered primarily over the internet during the 2023-24 school year. The most current list is located on the Department website on the [Online Learning](#) web page.

Approved Online Schools in Iowa

District	Name of School	Grade Levels Served	Date Approved
CAM	Iowa Connections Academy (IACA)	K-12	Pre-existing legislature approval
Clayton Ridge	Iowa Virtual Academy (IAVA)	K-12	Pre-existing legislature approval
Davis County	Davis County (DC) Online	6-12	04/20/21
Des Moines	DMPS Virtual Campus	9-12	08/28/19: Grades 9-12 5/4/21: Grades 6-8
Dubuque	Dubuque Online School	6-12	03/29/22

Shenandoah	IGNITE	K-12	03/16/21
Sidney	Sidney Virtual SAC School	K-12	06/25/20
Williamsburg	Williamsburg Online School	K-12	08/11/21

2023-24 Enrollment

Enrollment into an approved online school as defined by Iowa Code 256.7(32) decreased from the 2022-23 school year. Note, however, that several districts discontinued allowing open enrollment for their online schools and are no longer included in this report. Of the remaining online programs, several experienced an increase in enrollment from 2022-23 to 2023-24.

Note: An asterisk (*) indicates there are fewer than 20 students in that particular cell. No data will be publicly reported for those cells to protect student privacy pursuant to state and federal law.

Enrollment Comparison of School Years 2022-23 and 2023-24 by District

District	School	2022-23	2023-24
CAM	Iowa Connections Academy (IACA)	987	1,284

2023-24 Academic Achievement

Achievement data for virtual schools shows a wide range of proficiency, with all virtual schools except Mid-Prairie below the state average. The following table shows the average percent of students testing proficient on the Iowa Statewide Assessment of Student Progress (ISASP) for the 2023-24 school year for all virtual schools.

Note: The results reported below are for students in grades 3-11 for English language arts (ELA) and mathematics and grades 5, 8 and 10 for science.

2023-24 ISASP Average Percent Testing Proficient

District	ELA	Mathematics	Science
CAM	61.86	44.99	42.22
Clayton Ridge	50.58	37.59	31.48
Davis County	55.56	33.33	11.11
Des Moines	56.06	31.38	27.72
Dubuque	39.91	23.29	24.32
Iowa City	66.67	34.71	55.56
Marshalltown	47.89	28.17	12.12
Mason City	57.14	28.21	25.00
Mid-Prairie	90.00	70.00	66.67
Oelwein	43.75	36.61	30.95
Oskaloosa	60.87	39.13	20.00
Ottumwa	31.82	20.00	8.33

Williamsburg	*	*	*
State Average	**71.40**	**69.50**	**62.44**

Consolidated Accountability and Support Application (CASA) Data

Additional data was collected from districts via the Consolidated Accountability and Support Application (CASA) including retention rates (percent of students returning from the previous school year), extracurricular participation rates (percent of online students participating in extracurricular activities), three-year trend data (percent of students proficient in ELA, mathematics and science over a three-year period), reasons for academic mobility (reasons students cited for enrolling or disenrolling from online programming) and graduation rates (percent of students on track for graduation).

Findings from each additional data set are summarized below:

- Retention rates ranged from 28.4 percent to 59.26 percent. The average of the percentages (not a total percentage of students retained) is 42.08 percent.
- Extracurricular participation rates increased from 2022 in six schools and decreased in seven schools. Only four schools had participation rates above 10 percent. This data does not reflect the ability of an open-enrolled student to participate in their resident district as allowed by [Iowa Code 282.18 (10)](#).
- Three-year trend data for academic achievement has decreased significantly since the 2021-22 school year. ELA proficiency decreased by an average of 7.21 percent, math by 1.01 percent and science by 16.20 percent.
- Students continue to cite anyplace/anytime learning as the leading reason for enrollment into the online academies. Miscellaneous is the leading response for enrollment termination.
- Average graduation rates increased minimally for each cohort except first- and third-year cohorts, which decreased slightly.

Summary

All of the required components by Iowa Administrative Code chapter 15.12(2) are included in the Appendix of this report. Enrollment trends at each institution should be examined closely. Several online schools experienced an increase in enrollment. There were several large districts who discontinued allowing open enrollment for their online schools. They are now programs within their district serving resident students or no longer providing online services. Survey respondents continue to note that flexible learning is the primary motivation for enrolling in an online school. The overall drop in student achievement over the past three years should be noted.

Note: Data provided by the Department include: student achievement, demographic characteristics, academic proficiency levels and state-required assessments that track year-over-year improvements in academic proficiency and retention rates. Data provided by the districts include: percent of student participation in extracurricular activities, academic mobility and progress toward graduation. For the Oskaloosa Virtual Academy, the district provided all the data due to the closure of the building.
