**Iowa Department of Revenue (IDR)
Tax Gap Compliance Project
Revenue and Expenditure Report for Fiscal Year 2004
Code of Iowa, Section 421.17(23)
November, 2004**

IDRF Tax Gap Compliance Project Background:

In November 1999, the Iowa Department of Revenue and Finance (IDR) partnered with NCR Government Systems Corporation to design, develop, and implement a data warehouse and automated audit processing/transaction system. The partnership with NCR is funded through performance-based procurement in accordance with the Code of Iowa, Section 421.17(23).

The Tax Gap project targets the promotion of voluntary tax compliance, enhanced and improved customer services and audit efficiency, and increased tax revenues. Through this initiative, opportunities to fully utilize multiple and complex data sources are available to the department to identify non-filer of tax returns and non-payers of taxes.

While the original contract with NCR Government Systems Corporation covered a three-year and six-month period, the Tax Gap project goals and accomplishments are continuing efforts. IDR continued this partnership in 2005 and is currently reviewing new measures of opportunity and success in consideration of extending this partnership for an additional 12-month period. We have projected that this project will continue to generate at least \$10,000,000 in revenues each year on an ongoing basis beyond the contract period.

Purpose of Report:

This report is being distributed to support the requirement per the Code of Iowa, Section 421.17(23), to report the amount of costs incurred and paid for services to create or administer systems or programs which identify non-filers of returns or non-payers of taxes administered by the Iowa Department of Revenue.
