 Tax Gap Compliance Project
 Revenue and Expenditure Report for Fiscal Year 2014
 Code of Iowa, Section 421.17(23)
 October 2014**

IDR Tax Gap Compliance Project Background:

In November 1999, the Iowa Department of Revenue (IDR) partnered with NCR Government Systems Corporation, now known as Teradata Corporation, to design, develop, and implement a data warehouse and automated audit processing/transaction system. The Tax Gap Compliance Project is funded through the collections from the Program, in accordance with the Code of Iowa, Section 421.17(23).

The Tax Gap project targets the promotion of voluntary tax compliance, enhanced and improved customer services and audit efficiency, and increased tax revenues. Through this initiative, opportunities to fully utilize multiple and complex data sources are available to the department to identify non-filers of tax returns and non-payers of taxes.

While the original contract with Teradata Corporation covered a three-year and six-month period, the Tax Gap project goals and accomplishments are continuing efforts. We estimate that this project will continue to generate at least \$10,000,000 in revenues each year on an ongoing basis beyond.

Purpose of Report:

This report is being distributed to support the requirement per the Code of Iowa, Section 421.17(23), to report the amount of costs incurred and paid for services to create or administer systems or programs which identify non-filers of returns or non-payers of taxes administered by the Iowa Department of Revenue.
