Class Size 2013-2014

Introduction

Class size reduction for the early elementary grades remained a state goal in 2013-2014, continuing efforts initiated by the Iowa Early Intervention Block Grant Program (House File 743) in 1999. Iowa's class size reduction goals established in Iowa Code Chapter 256D are 17 students per one teacher for basic skills instruction, provide direction and resources to help districts achieve a high level of student success in basic skills, especially reading skills; and increase communication and accountability regarding student performance.

Table 1 provides a breakdown of funding from FY2000 through FY2014.

Notes: * The FY 2004 appropriation was reduced as a result of an across-the-board cut after the initial appropriation and then received a partial restoration of funds.

Methodology

Public school districts report the number of kindergarten, first, second, and third grade classroom sections, students, teachers, and aides by building during the Fall Basic Educational Data Survey (BEDS). Special education teachers and aides are not included in the reporting. Physical education, art, music, and other "specialty" and "pull-out" program (such as Title I reading and math) teachers are also excluded from the teacher count.

¹ Beginning in FY2010, funding of the Iowa Early Intervention Block Grant Program was rolled into the State Aid formula. This allows the funding of this program to grow along with the overall funding of school districts across Iowa.

Some districts utilize multi-age classrooms for their K-3 students. For example, a classroom may combine first and second grade students in one room. Districts may report these combination classrooms as grade level “Other” on the Class Size submission. These classrooms are not included in this report.

The Department of Education calculated average class size for kindergarten through third grade at the district and state level. Average class size equals the number of students divided by the number of classrooms for each grade level.

$$\text{Average Class Size} = \text{Number of Students} / \text{Number of Classrooms}$$

Since average class size uses the number of classrooms as the denominator, adding additional teachers to a classroom does not lower the average class size for that grade level (refer to Appendix B for the full-time equivalent [FTE] of classroom teachers). The use of classroom aides also does not reduce average class size at the district or state level.

Findings

This report provides class size data from 1998-1999 to 2013-2014 for kindergarten through third grade. Average class size increased slightly in 2013-2014 for all grades except kindergarten when compared to 2012-2013 (see Table 2 and Figure 1). Kindergarten through second grade average was at the highest level since 1998-1999. This is the fourth consecutive year all grades showed average class size of 20 or above. Third grade continued to show the highest average class size per classroom of the grades examined, at 21.5 students per classroom for 2013-2014, and remained above 20 students in each year studied.

Overall, the increase in average class size in 2013-2014 continued the trend in recent years. This is the fourth year in a row grades kindergarten through second showed class sizes at or above the 1998-1999 levels. Since the inception of the Class Size reduction funding, third grade class sizes continue to be below 1998-1999 levels.

Average class sizes have declined for kindergarten through second grade from 1998-1999 through 2001-2002, but increased in each of the subsequent years through 2005-2006. In 2006-2007, kindergarten average class sizes declined slightly, but have continued to climb since. Third grade showed a decline from 1998-1999 through 2002-2003, but experienced alternating increases and decreases through 2005-2006. Starting in 2006-2007, third grade showed either steady or increasing class sizes through 2013-2014.

The smallest districts were more likely to meet the state goal of 17.0 students per classroom in 2013-2014. The average class size for all grades was below 17.0 students per classroom for the <300 enrollment category. The larger districts were more likely to show the highest average class sizes in 2013-2014. The 2,500-7,499 and 7,500+ enrollment categories experienced average class sizes of 21 or more for all grades for the past five years. The average class size for these enrollment categories remained above 20 students per classroom for the past twelve years. Since the inception of the Class Size reduction funding, districts with 600 students or greater have been unable to reach the goal of 17 students per classroom for all grades.

The average class size for the smallest ten districts in the state was less than 12.6 students per classroom for all grades. The average class size for the largest ten districts in the state was above 22.2 students per classroom for all grades.

The percentage of classrooms above the state goal of 17 students per classroom increased in 2012-2013 for kindergarten and third grade from the previous year. The greatest increase was in kindergarten classrooms where the percent of classrooms above 17 students went from 79.3 percent in 2011-2012 to 80.3 percent in 2012-2013. First and second grade showed a slight decrease from 2011-2012.

This is the third year the growth in the number of teachers has not outpaced the growth in the number of students for first grade from 1998-1999 to 2012-2013 (see Figures 3 and 4). The number of first grade students increased 8.8 percent since 1998-1999, but the number of first grade teachers increased only 6.7 percent during the same period. The number of students outpaced the growth in the number of classrooms for kindergarten through second grade (see Figures 2 and 3). Kindergarten showed an increase in students of 15.9 percent, while the increase in the number of classrooms was 12.6 percent since 1998-1999.

Changes in enrollment from 1998-1999 to 2013-2014 outpaced the changes in average class size during the same period for kindergarten, second, and third grade (see Tables 9 and 10). During this period, average class size declined 0.9 percent for third grade while enrollment decreased 1.3 percent. Kindergarten class size increased by only 3.0 percent while the enrollment increased by 15.3 percent when compared to 1998-1999.

Expenditures

District expenditures decreased slightly in FY 2013 to \$30,383,745 with salaries consuming the largest percentage of the total. Purchased Services, Supplies and Other categories were below 1.0 percent each (see Table 11 and Figure 5).

In FY 2013, the largest districts (+7,500) spent the smallest percentage of early intervention funds on staff salaries at 73.3 percent. Smaller districts in the 300-599 and 600-999 enrollment categories spent the highest percentage of funds on staff salaries, above 77 percent, yet paid fewer benefits than the larger districts. The smallest districts utilized purchased services, and supplies the most in FY 2013 at just over 3 percent. Overall, the percentage difference of categorical expenditures did not vary significantly among the enrollment categories.
