It is the policy of the Iowa Department of Education not to discriminate on the basis of race, creed, color, sex, sexual orientation, gender identity, national origin, sex, disability, religion, age, political party affiliation, or actual or potential parental, family or marital status in its programs, activities, or employment practices as required by the *Iowa Code* sections 216.9 and 256.10(2), Titles VI and VII of the Civil Rights Act of 1964 (42 U.S.C. § 2000d and 2000e), the Equal Pay Act of 1973 (29 U.S.C. § 206, et seq.), Title IX (Educational Amendments, 20 U.S.C. §§ 1681 – 1688) Section 504 (Rehabilitation Act of 1973, 29 U.S.C. § 794), and the Americans with Disabilities Act (42 U.S.C. § 12101, et seq.).

If you have questions or complaints related to compliance with this policy by the Iowa Department of Education, please contact the legal counsel for the Iowa Department of Education, Grimes State Office Building, 400 E 14th St, Des Moines IA 50319-0146, telephone number 515/281-5295, or the Director of the Office for Civil Rights, U.S. Department of Education, Citigroup Center 500 W. Madison Street, Suite 1475 Chicago, IL 60661-7204

INTRODUCTION

Charter school legislation was passed in Iowa during the 2003 session. It allowed for ten (10) charter schools in Iowa. The 2006 legislative session lifted the charter school cap to twenty (20); however, no funding was allocated. During the 2009 General Assembly, the charter school law was expanded to Innovation Zones, which is a public attendance center established by a consortium which must include at least two school districts and an area education agency. During the 2013-2014 school year, there were three (3) public charter schools in the state of Iowa. Schools with public charter school status are:

1. Northeast Iowa Charter High School: West Central Community School District
2. Prescott Elementary Charter School: Dubuque Community School District
3. Storm Lake / Iowa Central / Buena Vista Early College High School: Storm Lake Community School District

An approved charter application constitutes, at a minimum, a four-year enforceable, renewable contract between a local school board and the State Board of Education. The chart below illustrates the current status and timelines.

Charter	School District	Charter Status Year	Renewal Status	Next Charter Period	Next Renewal Year
Storm Lake Early College Charter	Storm Lake CSD	2005-2006	Renewed 2010 2014	2014 - 2018	2017-2018
Northeast Iowa Charter School	West Central (Maynard)	2005-2006	Renewed 2009 2013	2013 - 2017	2016-2017
Prescott Elementary Charter School	Dubuque CSD	2006-2007	Renewed 2010 2014	2014 - 2018	2017-2018

The purpose of a charter school shall be to accomplish the following:

- Improve student learning.
- Increase learning opportunities for students.
- Encourage the use of different and innovative methods of teaching.
- Require the measurement of learning outcomes and create different and innovative forms of measuring outcomes.
- Establish new forms of accountability for schools.
- Create new professional opportunities for teachers and other educators, including the opportunity to be responsible for the learning program at the school site.
- Create different organization structures for continuous learner progress.
- Allow greater flexibility to meet the education needs of a diverse and constantly changing student population.
- Allow for the allocation of resources in innovative ways through implementation of specialized school budgets for the benefit of the schools served.

Iowa's public charter schools are guided by goals developed by Iowa's original charter school application to the United States Department of Education (USDE), the State Board of Education, Iowa Code, and goals outlined by each charter school. In its initial charter school application to the USDE, the Iowa Department of Education (DE) outlined five goals. These goals are:

- Establish charter schools during the next three years representing a diversity of programs.
- Provide technical assistance for charter schools throughout development and implementation.
- Collect and analyze outcomes of the charter schools again, at a minimum, the state goals for school and student improvement.
- "Incent," document, and disseminate best or promising practices.
- Grow the Public Charter Schools Program beyond initial pilots.

Iowa's charter schools are a part of the State's program of public education and:

- Meet all application federal, state, and local health and safety requirements and laws prohibiting discrimination on the basis of race, creed, color, national origin, gender, sexual orientation, gender identity, marital status, socio-economic status, disability, and religion.
- Operate as non-sectarian, non-religious public schools.
- Are free of tuition and application free to Iowa resident students between the ages of five and twenty-one (5-21) years.
- Are subject to and comply with Chapters 216 and 216A relating to civil and human rights.
- Provide special education services in accordance with Chapter 256B.
- Are subject to the same financial audits, audit procedures, and audit requirements as a school district.
- Are subject to and comply with Chapter 284 relating to the Student Achievement and Teacher Quality program.
- Are subject to and comply with Chapters 20 and 279 relating to contracts with and discharge of teachers and administrators.
- Are subject to and comply with the provision of Chapter 285 relating to the transportation of students.
- Are subject to and comply with the provisions of Chapters 21 and 22 relating to open meetings for Charter Advisory Council meetings.

As a part of its application, each public charter school has developed goals for the charter school. These goals are specific to each charter, which does not allow for comparison between or among charter schools. At the end of each school year, Iowa charter schools complete an end-of-the-year report documenting progress toward each of its goals in accordance with Iowa Code 256F.10 (1) which states: *A charter school or innovation zone school shall report at least annually to the school board or innovation zone consortium, advisory council, and the state board the information required by the school board or innovation zone consortium, advisory council, or the state board. The reports are public records subject to chapter 22.* Limited data are available for assessing success of charter schools in Iowa.

This report serves as an update on the progress of the six charter schools in Iowa in accordance with Iowa Code 256F.10 (2) which states: *Not later than December 1 annually, the*

state board shall submit a comprehensive report with findings and recommendations to the general assembly. The report shall evaluate the state's charter school and innovation zone school programs generally, including but not limited to an evaluation of whether the charter schools and innovation zone schools are fulfilling the purposes set forth in section 256F.4, subsection 2. The report also shall contain, for each charter school or innovation zone school, a copy of the charter school or innovation zone school's mission statement, attendance statistics and dropout rate, aggregate assessment test scores, projections of financial stability, the number and qualifications of teachers and administrators, and number of and comments on supervisory visits by the department of education and describes self-reported progress each school has made towards its goals.

NORTHEAST IOWA CHARTER HIGH SCHOOL

SCHOOL/DISTRICT INFORMATION

Northeast Iowa Charter High School
305 Pember
Maynard, IA 50655

West Central Community School District
Administrator: Stuart Fuhs, Superintendent/High School Principal

CHARTER'S MISSION:

To produce a literate, lifelong learner who is visionary and productive, aware of self, accepting of cultural differences, sensitive to others, and who applies knowledge to make morally responsible decisions in an ever-changing global society.

DESCRIPTION OF CHARTER:

Northeast Iowa Charter High School consists of a partnership between Northeast Iowa Community College (NICC) and West Central High School for 11th through 12th grade students to provide unlimited learning opportunities producing a high qualified work force.

The Charter Snapshot

First Year of Charter: 2005-2006

Charter Renewal: 2008-2009, 2012-2013

Financial Stability: This district does not have a negative unspent authorized budget.

Number of Teachers: Three full-time (3 FTE) are funded through the charter but are employees of the district. Two additional teachers are employed as adjunct instructors to teach language art and speech courses. The remaining instructors are employed by NICC with classes being taught face-to-face at West Central or one of NICC's campuses. The charter also utilizes online offerings, hybrid courses, internships, the ICN, and other delivery system.

Qualifications: All teachers hold Iowa licenses.

Number of Administrators: 1 (FTE)

Qualifications: Administrator holds an Iowa license.

STUDENT ACHIEVEMENT AND GOALS

The primary design of the Northeast Iowa Charter High School is to provide students with career academics and pathways with a postsecondary institution that gives them access to rigorous and relevant courses not available at West Central. It provides students with a fast track to

completion of postsecondary training in either an AA or four-year course of study beyond postsecondary enrollment option (PSEO) options. Students have access to expanded programming specific to career orientated areas based on current business and industry standards and needs. Programs and courses not available in the resident district, West Central, are provided by NICC. Instruction included the integration of upper level math, science and technical reading skills into vocational coursework. The partnership with NICC had resulted in a more rigorous and relevant curriculum for the students. The anticipated results were for improved student achievement in math, reading and science; which has been achieved. In addition, students with special needs and other at-risk students are provided with employability skills training, vocational training and remedial math and English courses for success in high school and postsecondary courses. NICC provides access to their Development Educational Program which delivers extensive transition strategies, tutoring and specialized services to the students. Students in the West Central's Learning Success Center, (an alternative diploma option for students who desire a high school education and are struggling in the regular school setting), also have the opportunity to participate in the charter school, which will lead them into completion of a postsecondary training program.

The partnership between the charter school, local district, and NICC provides students with a combination of local offerings, college campus offerings, and distance learning opportunities that would not be possible at just West Central or with the Senior Plus legislation. It is basically a school within a school that prepares the students for the ever changing workplace structure. This is done by providing each student with an individualized plan of instruction to meet each of their unique needs and aspirations. The original plan was based on concepts generated by Tech Prep, School-to-Work and *High Schools That Work* research. Since then, Science, Technology, Engineering, and Mathematics (STEM) programs and Project Lead the Way objectives have been incorporated as well. Plans are underway to have a West Central teacher provide Project Lead the Way courses to all area schools through the Regional Academy for Math and Science in Oelwein, IA. The anticipated result will be continued improvement in achievement scores for math, science and reading and preparation for success in engineering disciplines.

The opportunity for students to enter the labor market with high skills at an earlier stage in their career at a minimum level of expense has proven to be a huge success for this charter school. The support of faculty, Northeast Community College and West Central administration, school board members, community business leaders and parents for the public charter school is 100 percent. Following are the goals of the charter and the results:

First Year of Charter: 2005-2006

Charter Renewal Dates: 2008-2009, 2012-2013

Students Enrolled in Charter: 40 (2013-2014)

Forty of Forty Three (40/43) seniors and juniors were enrolled in the charter in 2013-2014, for a 93 percent participation rate. They took a total of 685 college credits. An

average of 11.13 credits were taken by all juniors and seniors in the charter for 2012-2013.

Senior demographics:

Total N: 29 (27 of 29 graduating senior in 2014 took charter classes for 96.6 percent participation)

Males 16; Females 13

Low SES: <10 (<10 took charter classes; 5 of 5 for 100 percent)

IEP: <10 (<10 took charter classes, 2 out of 2)

Minority: 1 of 1

Junior demographics:

Total N: 14 (13 of 14 took charter classes for 93.3 percent participation)

Males 8; Females 6

Low SES: <10 (<10 took charter classes 3 out of 4)

IEP: <10 (<10 took charter classes, 0 out of 1)

Minorities: 0

Total Percentage of All Drop-outs (7-12) for West Central School District: 0 out of 131 (0 percent)

**NORTHEAST IOWA CHARTER HIGH SCHOOL
GOALS AND PROGRESS**

GOAL 1: Increase the percent of graduates who complete postsecondary training from West Central Community School District.

PROGRESS: See chart below for detailed information regarding the number of students and postsecondary credits earned by graduation.

Northeast Iowa High School Charter: Senior Credits

<p>Senior Class 2004: 28 graduates</p> <ul style="list-style-type: none"> • 17 took college courses • 5 earned 15 hours credit or more • 0 earned 30 hours credit or more • 0 earned 40 hours credit or more 	<p>Senior Class 2005: 18 graduates</p> <ul style="list-style-type: none"> • 9 took college courses • 3 earned 15 hours credit or more • 0 earned 30 hours credit or more • 0 earned 40 hours credit or more
--	---

<p>Senior Class 2006: 23 graduates</p> <ul style="list-style-type: none"> • 22 took college courses • 16 earned 15 hours credit or more • 3 earned 30 hours credit or more • 0 earned 40 hours credit or more 	<p>Senior Class 2007: 33 graduates</p> <ul style="list-style-type: none"> • 30 took college courses • 22 earned 15 hours credit or more • 12 earned 30 hours credit or more • 3 earned 40 hours credit or more
<p>Senior Class 2008: 33 graduates</p> <ul style="list-style-type: none"> • 30 took college courses • 22 earned 15 hours credit or more • 12 earned 30 hours credit or more • 3 earned 40 hours credit or more • 2 earned AA degrees 	<p>Senior Class 2009: 22 graduates</p> <ul style="list-style-type: none"> • 22 took college courses • 14 earned 15 hours credit or more • 8 earned 30 hours credit or more • 3 earned 40 hours credit or more
<p>Senior Class 2010: 23 graduates</p> <ul style="list-style-type: none"> • 22 took college courses • 5 earned 5 or more credits • 3 earned 15 hours credits or more • 3 seniors earned 30 hours credit or more 	<p>Senior Class 2011: 23 graduates</p> <ul style="list-style-type: none"> • 15 totaled 348 credits • 5 earned over 6 credits • 2 earned over 20 credits • 5 earned over 30 credits • 2 earned over 50 credits
<p>Senior Class 2012: 26 graduates</p> <ul style="list-style-type: none"> • 23 of 26 took 469 credits • 16 earned 15 hours of credit or more • 7 earned 30 hours of credit or more • 1 earned more than 40 hours of credit 	<p>Senior Class 2013: 23 graduates</p> <ul style="list-style-type: none"> • 22 totaled 715 credits • 7 earned 15 hours of credit or more • 6 earned 30 hours of credit or more • 7 earned 40 hours of credit or more • 2 earned over 50 credits

<p>Senior Class 2014: 28 graduates</p> <ul style="list-style-type: none"> • 27 totaled 786 credits • 22 earned 15 hours of credit or more • 13 earned 30 hours of credit or more • 6 earned 40 hours of credit or more • 2 earned over 50 credits 	
--	--

GOAL 2: Continue to raise Iowa Assessment proficiencies for 11th grade students in reading, mathematics, and science.

PROGRESS: Iowa Assessment scores for 11th grade charter students increased in science, mathematics and reading.

Northeast Iowa Charter High School: Percentage of Junior Class Charter Students Proficient in Reading, Mathematics, and Science on Iowa Assessments

	2005-2006	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014
Reading	83%	96%	83%	86%	86.8%	86.8%	94.6%	100%	74%
Math	75%	92%	94%	90%	95.6%	95.6%	100%	100%	100%
Science	78%	96%	83%	100%	82.5%	82.5%	94.6%	100%	93%

GOAL 3: Provide special needs and at-risk students with the opportunity to develop individualized courses of study working toward a high school diploma and developing employability skills.

- **Graduation rate for charter school students is 100 percent since inception in 2005.**

PROGRESS:

11th Grade Iowa Assessment Proficiencies for 2013-2014:

	All Students	Low SES	IEP
Reading	74%	60%	0%
Math	100%	100%	100%
Science	93%	100%	100%

Total Senior Students Earning College Credits compared to Low SES and IEP Senior Students

	2007-08	2008-09	2009-10	2010-2011	2011-2012	2012-2013	2013-2014
All Seniors	30 of 33	22 of 22	22 of 23	15 of 23	23 of 26	22 of 23	27 of 29
Low SES	3 of 4	3 of 3	3 of 3	4 of 4	7 out of 7	7 out 7	5 out 5
IEP	3 of 5	4 of 4	4 of 4	2 of 2	0 of 1	1 out 1	2 of 2

GOAL 4: Increase the percentage of students that graduate with a dual concentration of vocational and academic credits.

PROGRESS: The number of students graduating with dual concentration increased from 47 percent in 2004-2005 pre-charter to more than 96.4 percent in 2012-2013. Data indicates that the charter is providing increased opportunities for students who are low income and who have IEPs, as well as students in the general population.

Northeast Iowa Charter High School: Students Graduating with Dual Concentration

	2004-05	2005-06	2006-07	2007-08	2008-09	2009-10	2010-11	2011-12	2012-13	2013-14

Is the charter school an effective, viable organization with effective leadership?

The charter school has impacted almost all the students who attend the West Central School District. The charter has an active board that is committed to providing educational opportunities to those that wish to participate. The Advisory Board meets regularly to review data on the charter school and make further recommendations to increase its effectiveness.

What role has the advisory council played in the school?

The advisory council reviews all the data and helps give direction to the charter. In the spring of 2011, the council made recommendations to organize nights where all the stakeholders (college staff, parents, students) could meet and discuss offerings. The results of those meetings saw a spike in interest and increased involvement by the students.

Are parents, students, teachers, and other stakeholders satisfied? How is information and input gathered from parents?

We receive constant feedback from our many stakeholders as to their satisfaction with the charter. Our students are asked to evaluate the college courses they take and their instructors. We are made aware of the results. The deans at the college attend our advisory council meetings and provide feedback. Our parents are required to review course selections and must give their approval.

We survey graduates at one year and five years and have received very positive comments on the opportunities made available through the charter. Most comment on how great the opportunity was to take courses on campus and at West Central. The experience they gained has helped them immensely in their postsecondary choices. Our parents participated in a school climate survey in 2011 and were very positive about the educational opportunities made available to their children. Their support for the charter school is overwhelming.

Is the school financially sound?

The Northeast Iowa Charter High School is fully funded to meet the needs of its students. The West Central School District does not have a negative unspent authorized budget.

		CHARTER			
					SOLVENCY
FISCAL YEAR END	REVENUE	EXPENDITURES	UNSPENT BALANCE	RATIO	
2014	\$ -	\$ 112,665.11	\$ (51,250.33)	-4.8%	
2013	\$ -	\$ 90,662.19	\$ 179,311.31	2.9%	
2012	\$ -	\$ 75,936.93	\$ 609,586.86	16.6%	
2011	\$ -	\$ 68,450.16	\$ 702,197.11	21.1%	
2010	\$ -	\$ 47,362.51	\$ 833,398.93	26.0%	
2009	\$ -	\$ 64,189.85	\$ 975,982.93	32.3%	
2008	\$ 5,079.27	\$ 143,295.59	\$ 751,103.22	24.5%	
2007	\$ 175,000.00	\$ 175,000.00	\$ 703,982.00	23.4%	
2006	\$ 225,000.00	\$ 225,000.00	\$ 512,427.53	17.1%	
	\$ 405,079.27	\$ 1,002,562.34			

The charter school has the full support of the school board, community, and parents. The school board is determined to keep the solvency ratio of the school district positive.

Describe the successes and challenges the charter school has experienced since its inception? What impact have these had on the charter school and its future?

Some might point to the six students that were able to obtain their AA degree by the summer they had graduated from high school as our biggest achievement. But the success of a special education student, who neither parent had ever taken a college course, is our brightest moment.

As a senior with just elective credits remaining to graduate from high school, we were able to help get her on her way to a career in Early Childhood Education. We took her to campus and met with the program coordinator and helped her register for sixteen college credits. We transported her to campus and she made the dean’s list that spring. She completed her diploma program the following year and her AA degree the following year. Today she is employed as a preschool teacher something she always dreamed about.

The biggest challenge has been the coordination between the many course offering and delivery systems available to our students. Our students have opportunities to take college courses on the Calmar campus of NICC, in the Regional Academy of Science and Math (RAMS) in Oelwein, at West Central High School where classes can be face-to-face or on the ICN and through online offerings that might be a hybrid, synchronized, or the traditional online format.

The future looks very bright for the Northeast Iowa Charter. Members of the class of 2014 have positioned themselves to take full advantage of the charter options as students will be pursuing college course work in Automotive Technology, Criminal Justice, Cosmetology, Dairy Science, Industrial Electrician, and Agriculture – Forestry. These students will be attending class in Calmar and well on their way to a brighter future. We also will continue to have students working to meet graduation requirements associated with AA and BA degrees.

Some qualitative data:

- As a result of the charter school, more students are transferring to higher education with more college credits than ever before.
- Students are taking a more rigorous course load earlier in their high school career than prior to entering the charter for flexibility in their schedules for their junior and senior year. Most take seven or more classes per semester
- Students with IEP's and who are Low SES have had an increased opportunity for participation in college. Both are finding success at the college level as a result of the charter participation.
- All interviewees, including charter and non-charter students, high school, and college faculty, and advisory members feel the charter is good for students, families, and the West Central School District. Numerous individuals referenced the support of the school board and administration for their commitment to maintaining the charter.
- The Charter Advisory Committee has a good understanding of the requirements of the charter, the responsibilities of the Advisory Committee to the charter, and a high degree of confidence in the leadership and administration at both NICC and West Central. The group operates independently from the school Board of Directors (BOD); the superintendent is responsible for communicating between the advisory committee and BOD.

Dubuque, IA 52001

CHARTER'S MISSION:

The mission of Prescott Elementary Charter School, an Expeditionary Learning Charter School for the Arts, is to empower each child to achieve his/her potential and to become a strong contributing member of society.

DESCRIPTION OF CHARTER:

Serves students in grades K-5, intertwining Expeditionary Learning Outward Bound, Iowa's Positive Behavior Support (PBS) Initiative, and a visual and performing arts-infused curriculum. The school is the charter (school-wide charter).

The Charter Snapshot

First Year of Charter: 2006-2007

Charter has been renewed: August, 2010 and March of 2014

Number of students enrolled in the Charter: 276 PK-5th

Student Demographics:

Grade levels and numbers of students:

- PK-43, K-39, 1st-34, 2nd-51, 3rd- 41, 4th-40, 5th-38

Subgroups and numbers in each category:

- Race- 49 percent
- Socio-economic status – 87 percent
- IEP- 32 percent
- Gender- 54 percent Male; 46 percent Female
- ELL -12 percent

Parent Choice: Each year, the Prescott Charter School enrollment period is advertised on the Dubuque Community School District website and on the local television channel. It explains the enrollment process and welcomes all families from across the district to attend Prescott School. As each parent begins the enrollment process at Prescott, the charter school instructional design is shared with the parents, and they are told that they have the option of enrolling in the charter school, or may be assigned to another Dubuque Community School District Elementary School. Also, each year, because of our schools in need of assistance (SINA) designation, parents who have students enrolled at Prescott receive a letter in the U.S. mail explaining to them their options for enrollment.

Number of full-time teachers and administrators: 33

Highlights for the Year

Summary of the highlights from the year:

Our biggest highlight of the year was our renewal of the charter school. The process of renewal gave us the opportunity to share our story with our local school board, our families, the community, and with the Iowa State Board of Education. In sharing our story, the feedback that we received from these groups was very affirming. We were renewed to continue our Prescott Charter for another four years.

We continued our work with our goal to improve reading instruction for our students. Last year, we focused on the workshop model for reading and writing. This year we deepened that practice with closer alignment to the core, and we also worked on strengthening our formative assessments to drive instruction.

We also began the work on a new character and social skill curriculum which includes specific interventions for students along each stage of the continuum. We focused on the creation of these strategies for two years. This year, we revisited the continuum and made revisions based upon staff feedback and school data analysis.

Our school is an Expeditionary Learning School for the Arts.

Expeditionary Learning

- Curriculum is taught through multi-disciplinary in-depth learning units called expeditions. Through these expeditions, all standards and benchmarks are taught to the students.
- Each grade embarks on three learning expeditions per year.
- Active student engagement is encouraged through hands-on learning experiences.
- Emphasis is placed on bringing experts into the classroom and taking students out into the community to learn in the natural setting.
- Service is a part of each expedition.

- Learning celebrations take place at the end of each expedition so that students can share their learning with a public audience. Parents, families, friends, and community members attend these celebrations.

Arts Emphasis

- The visual arts, drama, music, and dance are incorporated in expeditions.
- During each expedition, there is a primary arts focus that is supported by the art specialist. The art, music, and movement teacher are assigned to a grade for a trimester expedition. The three expeditions each have a different arts focus.
- General education teachers and art specialists co-teach lessons.
- Students have the opportunity to learn in a fully-equipped music keyboard lab.
- Before- and after-school programs are offered in the arts.
- A Rise and Shine program which provides enrichment classes for all K-1, 2-3 and 4-5 are offered for students before the start of the day. These classes begin 45 minutes before the start of the day. This has been one measure to address tardiness.

Climate and Culture

- Teachers loop with students for a two-year connection with students and families. Teachers stay with students for Kindergarten/1st, 2nd /3rd and 4th /5th.
- Each day, all classes in the school begin the day with a morning meeting. All support staff are included in the morning meeting on a rotating basis. In the morning meeting, students are engaged in activities designed to build a strong school culture, teach social skills, and welcome and greet the students
- There is a common set of school expectations called the “Prescott Promise.” The specifics of the Prescott Promise are described, and examples provided for each of the common areas of the school.
- The *10 Expeditionary Learning Design Principles* are emphasized.
- The staff of Prescott collaborated to create a character and social skill continuum for our students. For each stage of the continuum, specific strategies are suggested for the teacher to encourage movement along the continuum, thus making students stronger citizens.

Co-teaching

- General education teachers and special education teachers co-teach so that all students benefit and most special education services can be delivered in the general education setting.
- Co-teaching allows us to fully- integrate students with behavioral needs as well as the continuum of students with cognitive disabilities.
- All students identify both the general education teacher and the special education teacher as their own teachers. There is no distinction between the two staff.
- Surveys from parents indicate a strong preference for this model of services. This was true for both parents of typically developing students as well as students with special needs.

PRESCOTT ELEMENTARY CHARTER SCHOOL GOALS AND PROGRESS

GOAL 1: Increase student achievement in **reading** on an annual basis to make continual progress towards meeting the annual yearly targets determined by the Iowa Department of Education.

PROGRESS: We continue to make slow, steady progress in the area of reading. Both ITP and MAP provide evidence of this growth. The data below demonstrates the progress that has been made throughout our years as a charter school.

(In the school year of 2011-2012, the IPBS test was re-normed and renamed to become the Iowa Test of Progress. This change could have impacted the data.)

GOAL 2: Increase student achievement in **math** on an annual basis to make continual progress towards meeting the annual yearly targets determined by the Iowa Department of Education.

PROGRESS: We continue to make slow and steady progress in math. As we examine the change in performance from the beginning of the charter school until this year, we see that each grade level we accelerate scores more, thus closing the achievement gap.

GOAL 3: Increase student achievement in **science** on an annual basis to make continual progress towards meeting the annual yearly targets determined by the Iowa Department of Education.

PROGRESS: We continue to make steady growth in science. The ITP scores provide evidence of this growth. We have made the most growth in the content area of science versus the other content areas.

GOAL 4: Increase student achievement in **social studies** on an annual basis.

PROGRESS: The progress in social studies has been slow and steady.

GOAL 5: Increase student involvement with and **staff implementation of the Expeditionary Learning** Core Practices and Design Principles.

PROGRESS: We have deepened the implementation of Expeditionary Learning by creating a PK-5 expedition curriculum map that aligns with the Iowa Core and provides both a horizontal articulation and a vertical continuum. We have increased the opportunities that teachers have to observe each other, provide feedback to each other, and collaboratively plan. The reflections completed at the end of an observation indicated strong implementation of the Expeditionary Learning components.

A new Expeditionary Learning Implementation Review was created last year. All planning guides are shared and public to be accountable.

The review rates each of the following areas between 1 and 5. One is initial implementation and 5 is exemplary implementation. Our scores were as follows:

- Mapping skills and content-4
- Case studies-2
- High quality work-4
- Projects and products-4
- Guiding questions-5
- Learning expeditions-5
- Fieldwork, experts, and service learning-3
- College and career readiness-3
- Global skills and knowledge-3

Other progress toward this goal:

- A curriculum map for all grade level expeditions has been created.
- Professional development has been provided in a variety of areas and instructional protocols focused on increasing student engagement and monitored implementation.
- Each grade level team has participated in three half-day collaborative planning sessions to refine the learning expeditions throughout the year.
- Our learning expeditions are not only more closely aligned with the core, but we have also deepened our knowledge and skill in writing meaningful formative and summative assessments.

GOAL 6: Increase student participation in the visual and performing arts.

PROGRESS: The number of students participating in arts programming has increased since the beginning of the charter. Prior to the charter school opening there were no after-school programs in the arts.

- We have a before-school arts program that averages 50 students per day.
- All expeditions have an infused component of the arts.
- A variety of partnerships within the community, individual donors, and other donations provide the financial support for the enrichment classes that occur in the arts.
- Soup Luncheon: The students of Prescott put on an annual Soup Luncheon for members of the community. During the luncheon, a variety of music groups performed and a student art show was added this year. Money raised through the luncheon is used to support the arts program.
- Paper Dress Show: Each year as part of the 4th grade expedition on the human body, our students host a Paper Dress Show. Students designed paper dresses to model on a runway during a fashion show. This has become an annual event for the last three years. Now the entire school district is invited to participate. This year a Skype opportunity was added to enable students from different grade levels to work together.
- Prescott PanrhythmiXs: This is the school's steel drum band. This group is sponsored by the Dubuque Drum and Bugle Corps. Students perform at various community events throughout the city. Since students have left us and move on to the middle school, they have expressed a desire to continue with the steel band. Our music teacher has begun a steel band ensemble for the students in middle school so they can continue with art form.
- We have increased the opportunities for students to have experiences in drama. For two years we have performed an all-school musical. Students in grades K-5 have an

opportunity to participate in this production together. This past year, 120 students participated. We also have a 5th grade play about American History and a 1st grade play about Fairy Tales.

Student Achievement Data

(Average RIT Score at each Grade Level)

MATH Measures of Academic Performance Comparison 2006-2013
(Average RIT Score at Each Grade Level)

Individual Goals On MAP- 2006-2013

% increase of students meeting their

Individual goals on MAP

Reading

Increase of 12.1 percent - 2nd highest growth of all of the elementary schools in the district for the same period of time.

Math

Increase of 22.4 percent- Highest growth of all elementary schools in the district for the same amount of time.

ITBS

We have made progress in all subtests of the ITBS from where we began in 2006 until 2012.

1st Grade Title 1 Data

We had the lowest scores of all the Title 1 buildings when the charter opened. We now have the highest scores.

We had the highest increase in the percentage of students reaching grade level expectations. We had a growth of 28.2 percent.

Longitudinal Progress of Title Building Spring Scores					
	School A	School B	School C	School D	Prescott
06-07	69.4	47.6	46.3	75.6	46.2
07-08	74.5	84.4	70.5	74.4	63.4

Student Participation in Arts Programming

OTHER TEACHER RETENTION

Progress: The first year after we opened as a charter school, a large number of teachers left Prescott. Nearly 40 percent of the teachers left. These were teachers who had been with us during the transition from a traditional school to a charter school. Despite being part of the decision-making, after a year of the charter school model, they selected to transfer to other more traditional schools. Since then, we have continued to retain more teachers. More teachers are making a purposeful decision regarding the type of instruction and the commitment to the implementation of the charter design. We are becoming a much more stable staff which is allowing us to more deeply implement all of the components of the charter instructional design.

TEACHER RETENTION DATA

ATTENDANCE RATE FOR STUDENTS: 94.9 percent for 2013-2014

Program Evaluation

- The charter was evaluated by Linda Munger for the first four years and an external report was sent to the state at the end of each of those years. The cost of this evaluation was covered through the charter grant. Now that these funds are no longer available, she has not completed an evaluation since 2009.
- Our implementation of Expeditionary Learning is completed by our Expeditionary Learning School designers. The Expeditionary Learning school designer also works with our staff to align professional development with the goals and needs of our building to increase the quality of our implementation.
- Each year, our school submits a SINA plan to the Iowa Department of Education. That plan matches and is aligned with our charter school plan. An external evaluator from the Iowa Department of Education reviews our plan and our progress and provides feedback to our school each spring in the form an external report.
- Each year as part of the SINA process, our school improvement plan undergoes a peer review by another other schools. This past year, our staff presented our plan and

progress to the leadership teams of five Dubuque Schools who all had all been identified as a SINA school.

- We work collaboratively with the Dubuque Community School's District staff. Although we may have a different instructional design as a charter school, the curriculum staff of the district offer us support and feedback regarding our progress toward the Iowa Core Standards.
- Because of our SINA restructuring plan, representatives from our district meet with our leadership team to help us to review and structure our work in student improvement.
- The Advisory Council meets monthly. The Council reviews progress toward the goals and provides an external perspective regarding our work.

Is the charter school successful?

- Prescott is making slow and steady growth in all identified academic areas as well as in increasing opportunities in the arts for our students. Despite increasing number of low SES students, IEP students, ELL students and a more diverse population, the progress has been gradual and steady. The charter school instructional design is making a positive impact upon student performance.
- Parents completed a survey year and when asked why they continue to choose Prescott as their school home, parent's greatest response was the Expeditionary Learning structures and the co-teaching.
- This past year, we presented our data and the story of the progress of our school since we became a charter school. We presented to the local school board, parents, the Advisory Council and to the Iowa State Board of Education. From all of these different groups we received high compliments for our accomplishments. The members of the Iowa State Board of Education said that we were "models of what a charter school should be, and encouraged us to share with others what we are learning and doing."

STORM LAKE/IOWA CENTRAL/BUENA VISTA EARLY COLLEGE CHARTER SCHOOL

SCHOOL / DISTRICT INFORMATION:

Storm Lake Community School District
 621 Tornado Dr.
 Storm Lake, IA 50588

Administrators: Dr. Carl Turner, Superintendent
 Beau Ruleaux, Principal

MISSION STATEMENT:

The mission of the Early College Charter High School Program would be to make higher education more accessible, affordable, and attractive to all students and especially those who did not see a college degree in their future due to language and/or economic barriers, and, thereby help to increase Storm Lake’s high school graduation and successful college completion rates for all of its graduates and especially a portion of its most disadvantaged youth.

DESCRIPTION OF CHARTER:

The intent behind the Storm Lake/Iowa Central/Buena Vista Early College Charter High School was to create a “school within a school” that would increase the number of minority students that graduate from high school and continue their education, and to provide increased options for college credit offerings to all Storm Lake High School (SLHS) students.

The Charter Snapshot

First Year of Charter: 2005
Charter Renewal: 2010, 2014

Number of students enrolled in the charter school: **33**

Explain how parents in the district are offered a choice between the charter school and another school.

All students and their parents are given a choice between participation in the traditional high school and the opportunity to apply for and participate in the charter

high school. They are then given the opportunity to choose between graduating and continuing on in the charter high school for their final year. These options were discussed at parent meetings which were held on October 22 and October 24, 2013, as well as March 18 and 20, 2014.

How many teachers and administrators does the charter school employ?

Nine teachers at SLHS teach charter courses for a total of 3.59 FTE. The high school principal and charter advisor also oversees charter. Additionally, Storm Lake Community School District contracts with outside agencies/colleges to provide other career/technical education.

Highlights for the Year

This year, representatives from our Charter Advisory Committee along with current and former charter students, traveled to Des Moines and met with the State Board of Education as part of our renewal process. The charter program was granted a four-year extension to the program. The year continued to get better as six students completed their program of study. Three students completed the carpentry program, two students obtained their AA degree (one continued on to a four-year college), and another completed the Licensed Practical Nursing (LPN) program. The student who completed the LPN program went on to pass the state nursing boards for certification and is on track to finish the Registered Nursing program at the end of the 2014-2015 academic year. Additionally, there were 21 students who chose to continue on with their education and pursue a two-year or four-year program, so they will be completing their program at their own expense.

Goal Reporting

Goal 1: Increase the number of first-generation, Low SES, English Language Learner (ELL) and Non-Caucasian students attaining advanced postsecondary degrees/certificates or college credits.

Rationale: As shown in Table 2, the overall number of students attaining a degree or certification increased from the last few years despite a lower number of enrollment from previous years. The subgroups of this category are equal or slightly higher than last year.

Table 2

	2010-2011 # of students attaining degrees or certification		2010-2011 # of students attaining college credit		2010-2011 Total		2011- 2012 # of students attaining degrees or certificati on		2011-2012 # of students attaining college credit		2011-2012 Total

Goal 2: Provide a more rigorous/relevant college/prep curriculum.

Rationale: As shown in Table 3, the number of concurrent enrollment courses dramatically increased in the 2013-2014 academic year. This increase was due to the increased number of FlexNet or online courses and PSEO courses students enrolled in. See Table 4 for a breakdown of the course offerings at Storm Lake High School as well as the FlexNet and PSEO courses.

Goal 3: Raise ITED/Iowa Assessment scores in Reading, Math, and Science

Rationale: The school district started using the Iowa Assessment instead of the ITED during the 2011-2012 academic year, thus serves as our baseline data. As shown in Table 5, during 2013-2014 the math and reading scores increased for our 11th grade students, while the science scores decreased slightly. However, Table 5 shows the sub-group for math increased across the board. Along with the majority of the reading and science sub-group scores. As requested by the State Board, the MAPS assessment will be used to indicate/measure student growth.

Table 5

Goal 4: Increase the number of dual-credit/concurrent enrollment credit earned.

Rationale: Table 6 shows that there was a slight decrease in the number of concurrent enrollment credits earned during high school as well as after high school. This is attributed to the difference in enrollment between the 2012-2013 and 2013-2014 school years. Table 7 shows the breakdown of these credits obtained by the various subgroups.

Table 6

Number of College Credits Earned after Four Years of High School								
2005-2006	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014
102	788	1664	1894	3130	1197	790	887	846.5
Number of College Credits Earned during Four Years of High School								
		1553*	1716*	2153	1035	582	631	372

*Note; beginning with charter school class of 2007-2008, we began tracking the college credit earned during the traditional four years of high school as well as the credits earned after the traditional four years of high school. We recognize that many of our charter high school students are making significant progress in their charter program of study while they enrolled strictly in the high school setting.

Table 7

Number of Credits Earned	In Traditional High School	Outside of Traditional High School	Total
First Generation	215	610	825
Low SES	154	330	484
ELL	28	62	90
Non-Caucasian	56	299	355
Caucasian	316	547.5	863.5

Goal 5: All students will have individual learning plans.

Rationale: All students entering the charter program will have an individual learning plan mapped out with the charter counselor and other Iowa Central Community College officials. Table 8 shows the number of charter students who completed their program and of study and how many students earned college credits during their charter year.

Table 8

COMPLETERS									
	2005-2006	2006-2007	2007-2008	2008-2009	2009-2010	2010-2011	2011-2012	2012-2013	2013-2014
Program Completers *	0	1	8	39	22*	13	5	2	6
Charter Credits**	0	1	1	18	36*	20	39	53	21

* These students completed their program of study and earned their degree. **These students will remain enrolled in college but beginning in 2014 but will no longer be considered part of the charter or some of these students are gainfully employed.

7-12 Dropout Rate Dropout rate (secondary only)

2004-2005	.937%
2005-2006	2.00%
2006-2007	2.53%
