Carmine Boal
Chief Clerk of the House
State Capitol
LOCAL

Dear Mr. Marshall and Ms. Boal:

Enclosed please find a copy of the 2014 report to the General Assembly relative to the analysis of employee turnover in nursing facilities. This report was prepared pursuant to directive contained in House File 2539, Section 71 (82nd G.A.).

In accordance with this legislation, the Department of Human Services was directed to submit a report on an annual basis to the governor and general assembly, which provides an analysis of direct care worker and other nursing facility employee turnover.

Sincerely,

Jennifer Davis Harbison
Policy Advisor

Enclosure

Iowa Department of Human Services

Direct Care Worker In Nursing Facilities Turnover Report

December 2014

I. Introduction and Background

The 2001 Iowa Acts (HF 740) directed the Iowa Department of Human Services (DHS) to begin reimbursing nursing facilities under a modified price-based case-mix reimbursement system beginning July 1, 2001. The components of the case mix reimbursement system resulted from a series of meetings that involved providers, industry association representatives, advocacy organizations, and state agency staff.

Throughout the process, the advocacy organizations stressed the importance of including a provision in the reimbursement structure that would financially recognize a nursing facility's capacity to provide quality of life and appropriate access to medical assistance program beneficiaries in a cost-effective manner. With consensus and support of the organizations that participated in the discussions, reference to an Accountability Measures initiative was included in the legislation. The legislation directed DHS to implement a process to collect data for measurements and develop a program to increase nursing facility payments effective July 1, 2002 based on achievement of multiple favorable outcomes.

Following passage of the legislation, DHS convened a workgroup comprised of industry representatives, advocacy groups, state agency representatives and others interested in long-term care. The charge to the workgroup was to refocus reimbursement on quality, encourage compliance with the Health Care Financing Association (HCFA) (now the Centers for Medicare and Medicaid Services, or CMS) quality indicators and survey process, and to do so in a format that was measurable. Per the legislation, a portion of the Medicaid rates under the new case mix system would be based on a facility's achievement of certain accountability measures that would, in turn, link to reimbursement.

The workgroup ultimately settled on ten measures which then went through the administrative rule review process resulting in enactment of 441 IAC 81.6(16)g. Each measure developed was designed to be an "objective" and "measurable" nursing facility characteristic that indicated quality care, efficiency or a commitment to care for special populations. Members of the workgroup recognized that no single measure ensured a "good facility". There was also recognition that the measures would need to be reviewed and modified as more data became available.

One of the ten measures implemented was High Employee Retention Rate. This data was not available prior to the implementation of the Accountability Measures. Therefore, the cost report form, (DHS Form 470-0030, Financial and Statistical Report) was modified to include an additional schedule (Schedule I-1) to collect employee retention data. All nursing facilities are required to submit the Financial and Statistical Report to Iowa Medicaid Enterprise on an annual basis within three months after the nursing facilities fiscal year end.

A workgroup made up of industry representatives, advocacy groups, state agency representatives and other interested parties, met annually to review the Accountability Measures in context of the goals developed when the Accountability Measures were initially implemented in SFY 2001. In early 2008 the workgroup concluded, based on research

II. Observations

The summary below uses data from nursing facilities who submitted Schedule I-1 of the Financial and Statistical Report, Form 470-0030. The data represents Schedule I-1 forms received with fiscal year ends occurring during calendar year 2013. However, not all nursing facilities complied with the requirements or did not submit complete data that could be used in the analysis.

Schedule I-1 collects data for the following job classifications: administrator, business office, laundry, housekeeping, maintenance, director of nursing, registered nurse, licensed practical nurse, certified nurse's aide, activities, social services, medical records services, medical director, dietary and other. An employee turnover rate is calculated for each job classification, a facility-wide rate and a nursing only rate. The nursing only rate includes the director of nursing, registered nurse, licensed practical nurse and certified nurse's aide. Contracted employees are not reported. Therefore the number of providers reporting data for each job classification varies.

The table below provides a summary of the employee turnover rates by job classification for cost reports received with fiscal year ends occurring during calendar year 2013. See *Appendix A* for employee turnover rates by job classification for each nursing facility that submitted data.

Job Classification	Number of Providers	Number of providers with Zero Turnover	Minimum Turnover Rate	Maximum Turnover Rate	Average Turnover Rate
Administrator	425	348	0%	600%	23%
Business Office	425	299	0%	212%	18%
Laundry	425	275	0%	400%	26%
Housekeeping	425	137	0%	600%	39%
Maintenance	425	291	0%	1200%	28%
Director of Nursing	425	322	0%	1100%	30%
