Water Quality Grants	These projects target flood control and water quality improvement projects. These projects will improve water quality through wastewater treatment improvements in state parks and reduced sediment and nutrient delivery in watersheds. Future flooding events will have a diminished impact on vulnerable areas through structural improvements on flood-damaged land and stormwater best management practices. By updating the low-head dam infrastructure in selected small communities, the public will be safer and river habitats will benefit. Most importantly, state and local economies will be strengthened with new jobs and additional recreation opportunities from these projects.	102%	\$ 13,500,000	\$ 465,107	\$ 13,817,581	\$ 147,526	June, 2013
