Comments	Nursing facilities must apply to receive these funds. 10 facilities have been approved to use these renovation funds. The projects for which funding has been requested have already been completed.	Nursing facilities must apply to receive these funds. 10 facilities have been approved to use these renovation funds. The projects for which funding has been requested have already been completed.	Nursing facilities must apply to receive these funds. 7 facilities have been approved to use these renovation funds. The projects for which funding has been requested have already been completed.	Nursing facilities must apply to receive these funds. 14 facilities have applied, but funding has not yet been approved so the estimated project cost is not yet known.	Nursing facilities must apply to receive these funds. No facilities have applied, so funding has not yet been approved and the estimated project cost is not yet known.	For construction costs of a new building to house the Hopefully Yours Thrift & Gift Shop in Burlington, Iowa to be used by Hope Haven Area Development Center to provide vocational, community employment, and community living services to persons with disabilities.	For construction costs of an outpatient therapy center (On With Life in Ankeny, Iowa) to provide rehabilitation and independent living services to people who have sustained a traumatic brain injury due to a stroke, tumor, aneurysm, or other brain injury. Construction included an aquatic therapy pool, redesign of the dining room, a wellness center with therapy areas, and multi-purpose space. The project also included remodeling of former outpatient space for family housing.	Renovation & Improvements started August 14, 2014 and completed June 30, 2015. Funding included DMACC provided in-kind gift of \$175,000 and New Hope Village fund raising of \$229,300. DMACC in-kind gift was labor provided by students, instructors, etc. New Hope Village funds were used for furnishings, construction finish work, and ongoing overhead expenses.	Construction and expansion of inpatient mental health facilities and the construction of an outpatient clinic building. \$5M has been transferred to Broadlawns, of which \$45,870 has been spent.	The funds were used to expand the existing Altoona site and to build a new site in Waterloo/Cedar Falls. This allowed expansion of ABA services in both locations.	Project costs to be covered with a combination of RIIF, federal funds (including HBE grants), and other funding sources applicable for the project scope. State dollars includes appropriations from Fund 0943 in SFY 2012-2015 along with other state funding sources.	The Technology Funds provided assistance to equip 3 new autism centers with the technology needed to provide ABA services to children and their families.	This technology appropriation was used to purchase technology infrastructure for the expanded Altoona site and for the new site in Waterloo/Cedar Falls which were funded by the SFY15 RIFF construction appropriation of \$825,000. Other costs listed in that appropriation also apply to this appropriation.	Four Oaks reported \$2,000,000 in other private funds. Funds were used for the construction of a new PMIC facility in Mason City.	The \$800,000 in RIIF funds was used for the purchase and renovation of a building in Davenport to house an autism center.	The fund recipient reports the project is still active, it has not yet requested reimbursement, and it plans to expand the full appropriated amount and the matching fund requirements within the allowed time period.
