INTRODUCTION

Class size reduction for the early elementary grades remains a funded state program in 2015-2016, continuing efforts initiated by the Iowa Early Intervention Block Grant Program (House File 743) in 1999. Iowa's class size reduction program established in Iowa Code Chapter 256D goals are 17 students per one teacher for basic skills instruction, provide direction and resources to help districts achieve a high level of student success in basic skills, especially reading skills; and increase communication and accountability regarding student performance.

Table 1 provides a breakdown of funding from FY2000 through FY2016.

Notes: *The FY 2004 appropriation was reduced as a result of an across-the-board cut after the initial appropriation and then received a partial restoration of funds.

** Beginning in FY2010, funding of the Iowa Early Intervention Block Grant Program was rolled into the State Aid formula. This allows the funding of this program to grow along with the overall funding of school districts across Iowa.

METHODOLOGY

Public school districts report the number of kindergarten, first, second, and third grade classroom sections, students, teachers, and aides by building on the Fall Basic Educational Data Survey (BEDS) collection. Special education teachers and aides are not included in the reporting. Physical education, art, music, and other “specialty” and “pull-out” program (such as Title I reading and math) teachers are also excluded from the teacher count.

Some districts utilize multi-age classrooms for their K-3 students. For example, a classroom may combine first and second grade students in one room. Districts may report these combination classrooms as grade level “Other” on the Class Size submission. These classrooms are not included in the Class Size Survey file that supports the majority of this report.

The Department of Education calculated average class size for kindergarten through third grade at the district and state level. Average class size equals the number of students divided by the number of classrooms for each grade level.

$$\text{Average Class Size} = \text{Number of Students} / \text{Number of Classrooms}$$

Since average class size uses the number of classrooms as the denominator, adding additional teachers to a classroom does not lower the average class size for that grade level (refer to Appendix B for the full-time equivalent [FTE] of classroom teachers). The use of classroom aides also does not reduce average class size at the district or state level.

FINDINGS

This report provides class size data from 1998-1999 to 2015-2016 for kindergarten through third grade. Average class size did not change much in 2015-2016 (see Table 2 and Figure 1). Third grade continued to show the highest average class size per classroom of the grades examined, at 21.6 students per classroom for 2015-2016, and remained above 20 students in each year reported.

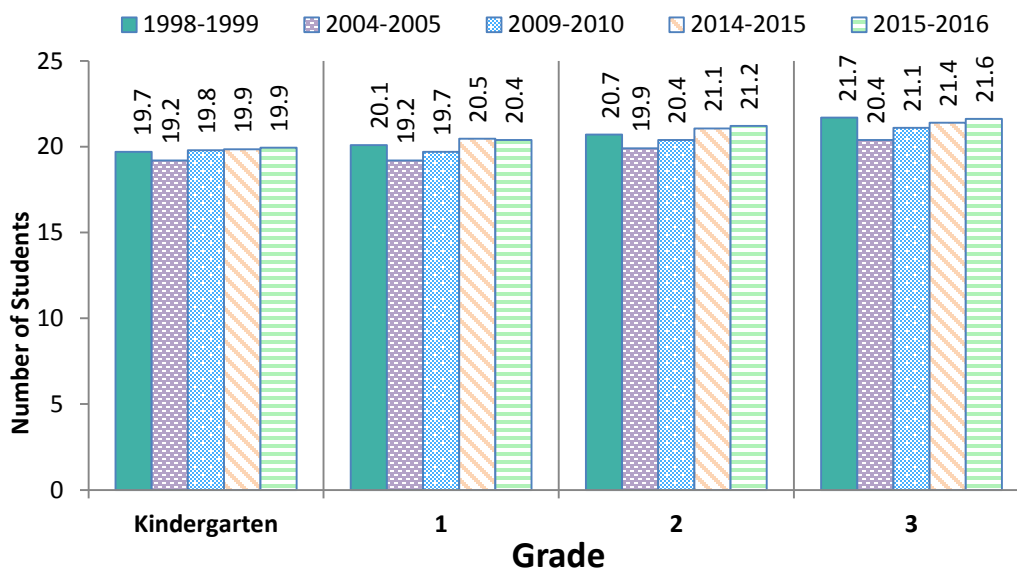

Overall, the average class sizes remains similar to the reported levels from 1998-1999. In 2015-2016, kindergarten and first grade class sizes are slightly above 1998-1999 at .2 and .3 respectively. Second grade has the largest increase (.5) between 1998-1999 and 2015-2016. However, class sizes were slightly lower for third grade (.1) over this same period.

The smallest districts of less than 300 student were the only size category able to meet the state goal of 17.0 students per classroom in 2015-2016. The average class size for all grades fluctuated between 15.4 to 16.0 students per classroom for the <300 enrollment category. The larger districts were more likely to show the highest average class sizes in 2015-2016. The 2,500-7,499 and 7,500+ enrollment categories experienced average class sizes of 21.1 or more for all grades in 2015-2016. Since the inception of the Class Size reduction funding, districts with 600 students or greater have been unable to reach the goal of 17 students per classroom for all grades.

In 2015-2016, the most notable increase was in third grade in the percent of classrooms exceeding the 17 students per classroom. Between 1998-1999 and 2015-2016 the percent of class sizes over 17 percent has increased across all grade levels in this report. The largest increase was in first grade (7.1) followed by kindergarten (6.7), third grade (4.9) and second grade (2). Increases can also be found between 1998-1999 and 2015-2016 in the percent above 21 with the exception of first grade, which saw a decline. The percent of classrooms above 25 students decreased between 1998-1999 and 2015-2016 with the exception of second grade which saw an increase. The percent of classrooms with average class sizes above 30 remains negligible.

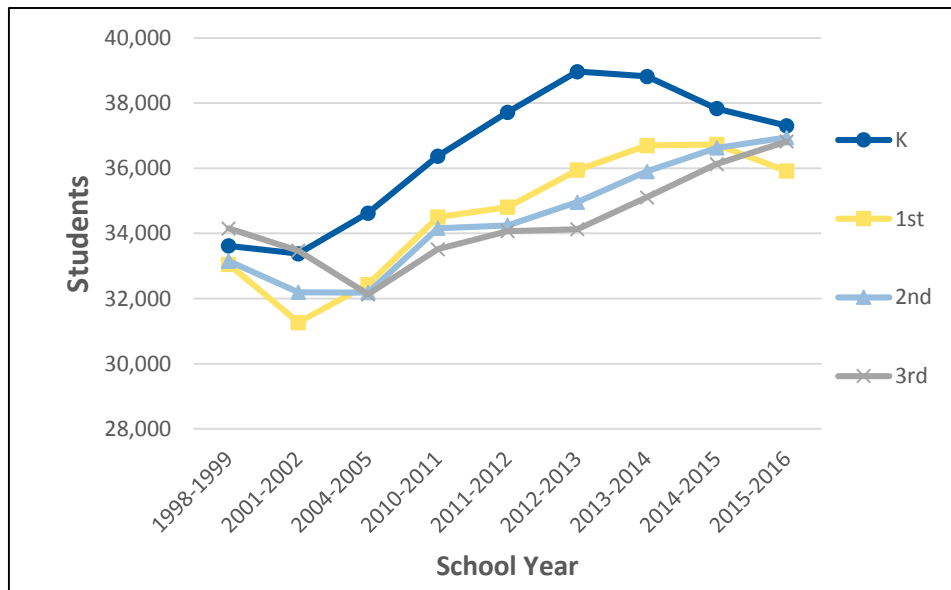

Figure 3 below shows first grade enrollments dipping below second and third grade enrollments from 2014-2015 to 2015-2016. At the same time, second and third grade enrollments increased. Between 1998-1999 to 2015-2016 there is a long term trend increase overall in the number of teachers serving kindergarten through third grade. Over this same period there is also a long term trend increase in the number of classrooms at these grade levels.

Changes in enrollment from 1998-1999 to 2015-2016 outpaced the changes in average class size during the same period (see Tables 9 and 10). Kindergarten continued to see the largest increase in enrollment at 9.7% from 1998-1999 to 2015-2016. Note: These enrollment figures are from a different source system and include “other” classes that are not included in the Class Size Survey source file.

EXPENDITURES

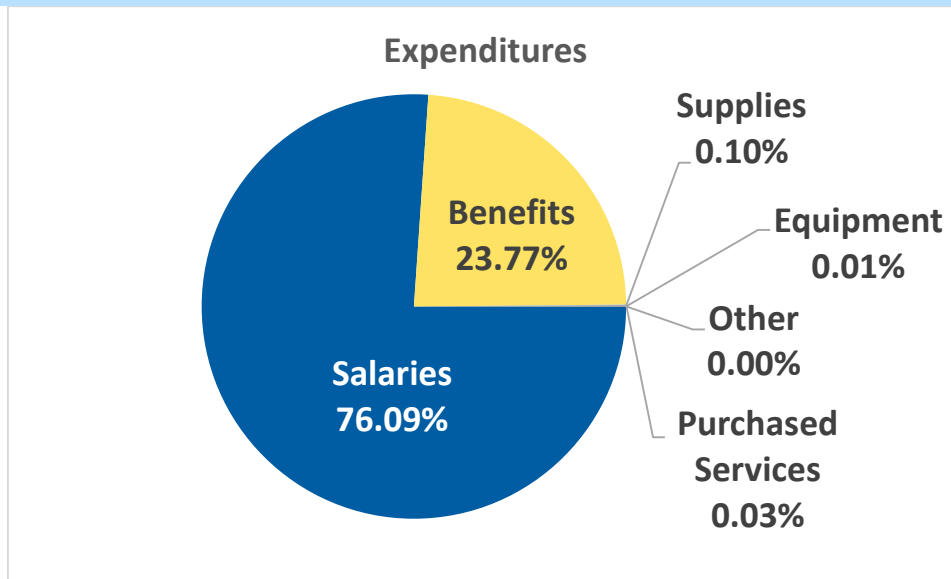

The most recent expenditure data available is from Fiscal Year 2015 (FY 2015) District expenditures increased in FY 2015 to \$32,215,100. As it would be expected, salaries and benefits accounted for the largest percentage of the total. The combination accounts approximately 99 percent of expenditures. Purchased Services, Supplies, Equipment, and Other categories were below 1.0 percent total (see Table 11 and Figure 5).

With the exception of the smallest districts (<300 students), the percent of funds attributed to salaries declined consistently as enrollment increased. The smallest districts utilized purchased services, and supplies the most in FY 2015 but these expenditures remained relatively small at 2.48%.
