Dear Mr. Marshall and Ms. Boal:

Enclosed please find copies of a report to the General Assembly relative to Nursing Facilities Private Room Supplementation.

This report was prepared pursuant to the directive contained in Iowa Code section 249A.4(10).

Please feel free to contact me if you need additional information.

Sincerely,

A handwritten signature in red ink, appearing to read "Paige M. Thorson".

Nursing Facilities Private Room Supplementation Report

May 2016

Introduction

In 2012 the Iowa Legislature enacted Senate File 2160 which allowed nursing facilities to collect additional payment above the Medicaid payment from residents and families who desire a private room. This is referred to as private room supplementation. The legislation set out numerous requirements that must be met for facilities who supplement the Medicaid rate by charging for a private room.

During the 2014 session of the 85th General Assembly, the Iowa legislature enacted House File 2463, which changed the minimum occupancy requirement for facilities eligible to accept private room supplementation, and which required facilities to report data on their usage of this option to the Department of Human Services (DHS) annually by January 15 and for DHS to submit the compiled data to the legislature annually by May 1. This report is filed in accordance with that requirement.

Body

Senate File 2160 added subsection 249A.4 to the Iowa Code. This set out requirements for when private room supplementation may be used and directed DHS to adopt administrative rules to implement the law. After following the normal rulemaking process including an opportunity for public comment, the rules became effective on July 1, 2013.

The rules establish circumstances when private room supplementation is not allowed, including:

- Any time period during which the private room is therapeutically required.
- When no room other than the private room was available.
- When the nursing facility only provides one type of room or all private rooms.
- When the facility's occupancy rate was less than 80 percent (the minimum occupancy level was subsequently reduced to 50 percent in HF 2463).
- As a precondition of admission, expedited admission, or continued stay in a facility.

The nursing facility must also ensure that all appropriate care is provided to all residents regardless of the availability of private room supplementation.

The rules also address the amount that may be charged for private room supplementation. The amount that a nursing facility may charge for a private room is based on the difference between the Medicaid rate for a semi-private room and the facility's private-pay rate for a private room; however, total payment for the private room cannot exceed the average private room rate for each facility.

Additionally, when a facility offers private rooms for a supplemental charge, the facility must inform all residents and their legal representatives of the following:

- That if the resident desires a private room, the resident or resident's family may directly pay the facility for the amount of supplementation.
- The nursing facility's policy if a resident residing in a private room converts from private pay to Medicaid payment but the resident is not willing or able to pay supplementation for the private room.

- A list of the private rooms for which supplementation is available, including a description.
- The process for an individual to take legal responsibility for providing supplementation, including identification of the individual and the extent of the legal responsibility.

The rules also require that nursing facilities document in the resident's record information about any supplemental charges for a private room including the portion of the total charge reimbursed by Medicaid, and the portion of the total charge reimbursed through supplementation.

In 2014, the legislature enacted additional reporting requirements in HF 2463. The department adopted rules which were effective March 1, 2015, to implement this change. The rules require facilities that are utilizing supplementation to report:

- The total number of beds available at the nursing facility, the number of such beds available in private rooms, and the number of such beds available in other types of rooms.
- The average occupancy rate of the facility on a monthly basis.
- The total number of residents for whom supplementation was utilized.
- The average private pay charge for a private room in the nursing facility.
- For each resident for whom supplementation was utilized, the total charge to the resident for the private room, the portion of the total charge reimbursed under the Medicaid program, and the total charge reimbursed through supplementation.

Conclusion/Recommendations

Because the department did not know in advance which facilities were receiving supplementation for private rooms, DHS provided a form for all nursing facilities to complete for calendar year 2015. Facilities that were not charging for private rooms needed only to indicate as such on the form; those that were receiving supplementation were to complete all of the required information. The form was distributed to the nursing facility provider associations who agreed to provide it directly to the facilities.

Because of the transition to managed care, the department extended the deadline for facility reporting to February 29, 2016, in order to give facilities adequate time to complete and submit the form.

Completed forms were received from 167 of the 438 nursing facilities in Iowa, for a response rate of 38 percent. Information from Iowa's nursing facility associations indicates that very few facilities are utilizing private room supplementation; as such it is likely that those facilities that did not respond are not charging supplementation for a private room. Due to the transition to managed care, the department delayed plans to incorporate the data collection form into the cost reporting form that facilities use for setting rates.

Of the 167 facilities that submitted data, only 15 facilities (9 percent) reported charging a supplemental amount for provision of a private room. There were a total of 27 residents

Nursing Facilities Private Room Supplementation Report
May 2016

who received private rooms due to supplemental payments. The total amount charged for supplementation was \$161,165.21. Individual totals charged for supplementation ranged from \$1,525 to \$26,527.92. Appendices A and B provide additional detail for all facilities that reported data.
