Iowa code section 8.62 -Use of reversion: Iowa Judicial Branch

Training and Technology Reversion Report: June 30, 2016

In FY 16 the Judicial Branch had available $25,098.55 from our FY 15 appropriation as allowed per Iowa code section 8.62. This money was used to provide a technology enhancement of upgraded software called WebLogic.

Weblogic is the upgrade to our current Oracle Application Server software which is coming to end of life. Weblogic will provide the Judicial Branch with added capabilities and compliances for our internal Case Management system which is often referred to as ICIS.
