SERVICES/ PRODUCTS/ ACTIVITIES

Name: Lean

Description: Lean is a collection of principles, methods and tools that improve the speed and efficiency of any process by eliminating waste. In FY 2013 the Department of Management (DOM), the Iowa Economic Development Authority and the Department of Human Services worked collaboratively to support the Office of Lean Enterprise.

Why we are doing this: Iowans expect that state government will provide them with the best possible services at the lowest cost. Lean can help increase value for Iowans by reducing waste and helping to change the culture of state government to one that increasingly focuses on efficiency and improved results.

What we are doing to achieve results: DOM's Office of Lean Enterprise has worked to recruit and develop Lean facilitators throughout the course of the Lean journey. In FY 13, DOM sponsored a Lean event to establish a standardized training process for new facilitators. This process will be launched in FY 14.

Sixty-six leadership staff from seventeen agencies attended an introduction to Lean methodology training. this past June. Six agencies represented during this training have since sponsored a Lean event.

Processes that cross agencies are being identified for Lean events. The collaboration between agencies results in a broader impact to the customer. For example, the Department of Inspections and Appeals and the Department of Human Services co-sponsored an event that reviewed the investigation process that occurs between DHS and DIA for eligibility decisions. Another example of collaboration amongst agencies includes the Iowa Department of Cultural Affairs and Iowa Department of Management co-sponsoring an event to review how the Executive Branch manages records. This event consisted of staff from seven different state agencies.

DOM will continue to help to ensure the processes selected for improvement by agencies are critical to the success of respective agencies, linked to their strategic plan or focused on customer expectations.
