Grants Enterprise Management System Compliance Report (8.9)
July 2018

Project:

Iowa Electronic Grant Management System - IowaGrants.gov

Description:

IowaGrants.gov is an all-inclusive grant identification portal and a comprehensive enterprise-wide grant management system. The system is available to all state agencies that administer a variety of state and federal competitive and pass-through grant programs, eliminating the costs of continued investments in the development and operation of agency-unique grant management systems. It provides public and private entities, seeking funding through state administered grant programs, with a single portal to search for open solicitations or ongoing grant programs. External users of the system include city and county entities, all of Iowa's school districts, non-profit organizations and the general public.
