Department of Human Services

Rule Summary

Removes the requirement for an annual cost report for privately operated residential care facilities (RCFs) and changes the cost reimbursement methodology to be based on the maximum per diem rate.

Fiscal Impact

Agency Response: Minimal fiscal impact. Only 17 of the 121 RCFs have daily rates below the current maximum for persons residing in RCFs and receiving State supplementary assistance. Increasing their current daily rate to the current annual maximum would increase expenditures to the General Fund by $98,011 annually.

LSA Response: The LSA concurs.

Rule Summary

Aligns program and payment changes under the competitive child welfare services procurement for Supervised Apartment Living (SAL) based on the Child Welfare Crisis Intervention, Stabilization, and Reunification Services request for proposal, with new contracts anticipated to begin October 1, 2017. Alignment will address payment, service determinations, and eligibility.

State or Federal Law Implemented: Iowa Code section 234.6.

ARC 3259C

ARC 3260C
Fiscal Impact: No fiscal impact, as the cost of the program is expected to remain within the amount currently budgeted for this service. Rather than billing for individual units of service, providers will receive a fixed per diem payment per bed and may earn incentive payments. The new contracts are effective October 1, 2017.

LSA Response: The LSA concurs.

Rule Summary: Implements the cost containment strategy to adjust the Iowa Medicaid anesthesia conversion factor to equal the calendar year 2017 Medicare anesthesia conversion factor, as adjusted for the State, and converted to a per-minute amount. Each January 1 thereafter, the Department shall apply the applicable Medicare anesthesia conversion factor adjusted for the State, converted to a per-minute amount.

Fiscal Impact: This change is estimated to save the General Fund $3.1 million in FY 2018 and FY 2019. Savings estimates assume fee-for-service claim utilization rates for the calendar year 2015, and that these rates will be the same for managed care in future years. It is also assumed that managed care contractors are using the current Medicaid anesthesia conversion factor. Savings will be realized in managed care through an adjustment to the capitation rates.

LSA Response: The LSA concurs.

Rule Summary: Implements the cost containment strategy to adjust the inpatient diagnostic related group (DRG) cost outlier threshold formula to be the greater of two times the statewide average DRG payment for that case, or the hospital’s individual DRG payment for that case, plus $75,000. The current formula is the greater of two times the statewide average DRG payment for that case, or the hospital’s individual DRG payment for that case, plus $16,000.

Fiscal Impact: This change is estimated to save the General Fund $10.0 million in FY 2018 and FY 2019.

LSA Response: The LSA concurs.

Rule Summary: Implements the cost containment strategy to adjust Medicaid reimbursement rates for physician services rendered in facility settings (e.g., hospitals), by applying a “site of service” differential to reflect the difference between the cost of physician services when provided in a health facility setting and the cost of physician services when provided in a physician’s office.

Fiscal Impact: As a result of the implementation of the site of service differential, this change is estimated to save the General Fund $2.0 million in FY 2018 and FY 2019. This rulemaking follows the Medicare practice that reduces the Medicaid fee schedule based on certain locations to better account for overhead related to a professional service. The initial savings estimate was based on only the top 20 codes.

LSA Response: The LSA concurs.
Rule Summary: Implements the cost containment strategy to adjust the reimbursement policy in order to eliminate the primary care physician rate increase originally authorized by the federal Health Care and Education Reconciliation Act of 2010, that allows qualified primary care physicians to receive the greater of the Medicare rate or Medicaid rate for a specified set of “primary care” Current Procedural Terminology (CPT) procedure codes.

Fiscal Impact: This change is estimated to save the General Fund $5.0 million in FY 2018 and FY 2019. Based on fee-for-service experience prior to the transition to managed care, the annual cost of the primary care physician increase is $16.0 to $17.0 million. This includes claims for both the regular Medicaid and Iowa Health and Wellness Plan populations. Based on the average State match rate for these groups, the estimated State share is $5.0 million.

LSA Response: The LSA concurs.

Rule Summary: Implements the cost containment strategy to ensure that the total reimbursement for Medicare Part A and B crossover claims is limited to the actual Medicaid reimbursement rate.

Fiscal Impact: This change is estimated to save the General Fund $7.7 million in FY 2018 and FY 2019. The State’s Medicaid actuary estimated the crossover payment amount for inpatient hospital and physician claims according to the Medicaid fee schedule, and compared these repriced amounts to the amount the Department of Human Services paid to determine the potential savings.

LSA Response: The LSA concurs.

Department of Administrative Services

Rule Summary: Reviews and updates existing administrative rules for the Terrace Hill Commission, including the Terrace Hill Endowment for the Musical Arts (THEMA), to be consistent with statute and to reflect and clarify Commission practice.

State or Federal Law Implemented: Iowa Code section 8A.326.

Fiscal Impact: No fiscal impact. The Terrace Hill Endowment for the Musical Arts operates solely on private funds.

LSA Response: The LSA concurs.

Rule Summary: Addresses the possession of pistols and revolvers and the use of fireworks on the Capitol Complex in relation to HF 517 (Weapons Omnibus Act) and SF 489 (Fireworks Legalization Act).

State or Federal Law Implemented: Iowa Code section 8A.104(5).

Fiscal Impact: The rulemaking itself does not have a fiscal impact. However, the fiscal impact for the legislation it implements, HF 517 and SF 489, cannot be determined at this time.

Fiscal Impact  Agency Response:  No fiscal impact. School districts will have greater flexibility in utilization of certain categorical funds.

LSA Response:  The LSA concurs.

ARC 3271C

Rule Summary  Implements the changes made to the Beginning Teacher Mentoring and Induction Program in HF 642 (FY 2018 Education Appropriations Act) and also makes changes based on HF 291 (Collective Bargaining Act).

State or Federal Law Implemented:  Iowa Code chapter 20 and Iowa Code sections 284.1, 284.4, and 284.5.

Fiscal Impact  Agency Response:  Pursuant to HF 642, the State no longer appropriates funds specified for the Beginning Teacher Mentoring and Induction Program. The Department estimates annual savings of approximately $4.0 million, as this was the average approximate amount previously allocated to the Program.

LSA Response:  Although school districts are now no longer mandated to provide services associated with the Beginning Teacher Mentoring and Induction Program, they may voluntarily continue to do so with assistance from professional development categorical funds. At this time, there is not sufficient information to determine any additional fiscal impact.

State or Federal Law Implemented:  Iowa Code section 256.7(5).
Fiscal Impact  
**Agency Response:** Increased costs will be incurred by students taking the courses. The increase in fees will better cover the cost to the State to provide the courses and administer the program. Revenue from the administrative fees in 2016 was $142,880. It is estimated that the increased fees will result in annual revenue of $214,320, an increase of $71,440 or 50.0%.

**LSA Response:** The LSA concurs. The Department has provided additional information regarding the revenue impact of the increased course fee. The average cost of providing one course is estimated to be $1,094. The community colleges report that the number of students served per course ranges from 4 to 19. The Department has determined that increasing the course fee to $140 per student will allow community colleges to break even with an average course enrollment of 7 to 8 students. Courses with fewer students enrolled will result in a net loss, while larger enrollments will result in a net gain for colleges.

**Fiscal Impact**  
**Agency Response:** No fiscal impact. School districts may experience a reduction in expenditures because of the repeal of the mandate.

**LSA Response:** The LSA concurs in part. While school districts are not expected to incur new costs, any districts that have implemented portions of this mandate have done so voluntarily. At this time, there is not sufficient information to determine any additional fiscal impact.

**Rule Summary**  
Implements changes made by the enactment of HF 642 (FY 2018 Education Appropriations Act), including the requirement that districts continue to provide intensive reading instruction to students not proficient in reading after third grade. Agency Response: Money was allocated within the Act to provide for any extra costs. Remaining costs are paid for from the SOS budget.

LSA Response: For FY 2018, the General Assembly appropriated a total of $2.1 million to the administration and elections line item under the Secretary of State’s Office in HF 640 (FY 2018 Administration and Regulation Appropriations Act), an increase of $700,000 compared to FY 2017. Language in SF 516 (FY 2018 Standing Appropriations Act) declared that the $700,000 increase to the Secretary of State’s General Fund appropriation was sufficient for the implementation of new Iowa Code section 48A.10A (voter identification cards) in HF 516 (Secretary of State Election Integrity Act).

At the time of the rulemaking analysis, the Secretary of State’s Office reported being in the very preliminary stages of implementing the requirements of HF 516, including:

- Working with the Department of Administrative Services (DAS) to issue a Request for Proposal (RFP) for the voter identification cards;
- Developing voter educational materials;
- Working with the IVoters System vendor, Arikkan, to reprogram changes in the IVoters System;
- Working with the Treasurer's Office and the Department of Management (DOM) to establish the Electronic Poll Book and Polling Place Technology Revolving Loan Fund created in HF 516.

The estimated cost in the Fiscal Note for HF 516 to the Secretary of State’s Office for voter identification cards, educational materials, and IVoters reprogramming costs ranged between $200,000 and $555,000, with the primary cost being voter identification cards. House File 516 also created a revolving loan fund for e-poll books and polling place technology but did not include an appropriation. The Secretary of State’s Office may use a portion of the appropriation in HF 640 for the revolving loan fund. The Office is in the process of developing separate rules for the revolving loan fund program.
