Members of the Iowa General Assembly and Other Interested Citizens:

This document contains a range of facts, both financial and non-financial, regarding the State of Iowa. The data is intended to be used as a reference on subjects that historically generate questions. Included again this year are a variety of "Fact Maps". The intent is to provide useful and timely information in a format that conveys a readily identifiable picture of specific issues. See page 230 for more information.

Information in each table is provided on the State fiscal year basis (July 1 through June 30), unless otherwise noted or in a national comparative chart. Reference may be made to Calendar Year (CY) and Federal Fiscal Year (FFY). Information not available or not applicable is indicated by "NA" in various tables.

This FACTBOOK includes updated information from the FACTBOOK 2011, tables, maps, and graphs of interest. National comparative tables are incorporated throughout this report. The source for all national comparative data, unless otherwise noted, is State Rankings 2012 published by Morgan Quitno, Lawrence, Kansas.

FACTBOOK 2012 can be accessed at:

Please contact the Fiscal Services Division of the Legislative Services Agency if you have questions concerning the data provided within FACTBOOK 2012. Your suggestions for additions, deletions, or other modifications for next year's FACTBOOK are encouraged.

TOTAL FUND BALANCE - GAAP BASIS  
FY 2002 - 2011**

GAAP = Generally Accepted Accounting Principles

---

- This chart represents the total fund balance of the General Fund on a GAAP basis of accounting and includes both reserved and unreserved fund balances for FY2002 - FY2010 and spendable and nonspendable fund balances for FY2011. Reserved fund balances are those that have a statutory restriction on the expenditure of the funds, while unreserved fund balances have no statutory restriction. Nonspendable fund balances include inventories, prepaid items, noncurrent receivables and principle on endowments. These resources cannot be spent because they are either not in a spendable form or are legally required to remain intact. Spendable fund balances include resources that are available for spending and further classified as restricted, committed, assigned, or unassigned, based on the level of spending constraint, if any.
- Fund balance information is of central importance to bond rating analysts when conducting credit reviews. Users of financial statements examine fund balance information to identify the available current financial resources that can be used to repay long-term debt, reduce property taxes, add new governmental programs, expand existing ones, or enhance the financial position of the government.

**Notes:**

Other resources for infrastructure funding beyond RIIF were created with various tax-exempt (restricted capital) bond issues.

- 1) The RCF received \$540.0 million in net proceeds in FY 2002 from securitization of tobacco settlement payments from the Master Settlement Agreement.
- 2) The RC2 received \$100.5 million net proceeds in FY 2006 after the refunding of the RCF bonds. Appropriations were first made from it in FY 2007.
- 3) The FY 2009 PBF received \$130.7 million in net proceeds from bonds issued and secured with judicial fines and fees.
- 4) The RBC and RBC2 received net proceeds of \$545.0 million and \$150.0 million, respectively, from bonds issued in 2009 and 2010. Appropriations from the RBC were made for FY 2009, although the funds did not become available until FY 2010.
- 5) The TRF was created during the 2006 Legislative Session and receives a standing appropriation of \$17.5 million from the General Fund. In FY 2009 through FY 2011, the TRF received its funding from the RIIF instead of the General Fund. For those years, the TRF received \$17.5 million in FY 2009, \$14.5 million in FY 2010, \$10.0 million in FY 2011, and \$15.5 million in FY 2012. The appropriations from the RIIF to the TRF have been subtracted to avoid double counting. During the 2008 Legislative Session, the VIF was eliminated effective FY 2009, and the remaining balance was transferred back to the RIIF.
- 6) The VIF was created during the 2004 Legislative Session and received \$15.0 million from the RIIF in FY 2006 and and FY 2007, and \$50.0 million from the RIIF in FY 2008. The appropriations from the RIIF to the VIF have been subtracted to avoid double counting. During the 2008 Legislative Session, the VIF was eliminated effective FY 2009, and the remaining balance was transferred back to the RIIF.
- 7) The General Assembly sometimes appropriates from other sources for the purposes of infrastructure. In FY 2011, \$6.6 million was appropriated from the Cash Reserve Fund for infrastructure projects related to flood recovery. Also in FY 2011, \$2.0 million from the Underground Storage Tank Fund was appropriated for passenger rail. In FY 2013, \$5.0 million was appropriated for community college infrastructure from the Mortgage Servicing Settlement Fund. These are one-time appropriations and are not regular sources of infrastructure funding.

RIIF = Rebuild Iowa Infrastructure Fund

**\*Does not include balance forward**

Notes:

- 1) The Rebuild Iowa Infrastructure Fund (RIIF) was first funded in FY 1996 with a \$50.0 million GAAP Deficit Account appropriation. The General Assembly also dedicated two other sources of revenue to the RIIF, the interest earnings from the Cash Reserve and Economic Emergency Funds, and funds from the State Wagering Taxes after other allocations are made in accordance with Iowa Code section 8.57.
- 2) During the 2000 Legislative Session, SF 2453 (FY 2001 Infrastructure Appropriations Act) created the Environment First Fund (EFF) and provided a standing appropriation from the RIIF. The Act provided that interest earned on the EFF is deposited in the RIIF.
- 3) Changes were made to wagering tax allocations during the 2000, 2001, 2009, and 2010 Legislative Sessions. For more information on the distribution of wagering taxes see the Fact Book page entitled State Gambling Wagering Tax Allocations.
- 4) Beginning in FY 2010, the unsecuritized Master Settlement Agreement tobacco payments transfer into the RIIF. For FY 2012, the amount is estimated at \$15.9 million and is reflected in the "Other" column.
- 5) Wagering tax totals include the transfers back to the RIIF from the unneeded amounts that were allocated for debt service on the 2009 and 2010 revenue bonds, debt service on school infrastructure bonds, and the Federal Subsidy Holdback Fund. In addition, any license fees paid by casinos are included in the wagering tax totals. For FY 2013, the license fee paid by Lyon County was \$1.0 million.

**Notes:**

- 1) The above allocations do not include wagering taxes paid to cities, counties, the Gamblers Treatment Fund, the County Endowment Fund, or to the State for tourism marketing and cultural grants. The allocations do include casino license fees and pari-mutuel taxes.
- 2) The transfer to the Endowment for Iowa's Health Account occurred for six fiscal years per SF 533 (FY 2002 Tobacco Settlement Trust Fund Appropriations Act), beginning in FY 2002 and ending in FY 2007.
- 3) Beginning in FY 2010, the Gamblers Treatment Fund was eliminated per HF 811 (FY 2010 Health and Services Appropriations Act), and the \$6.0 million that had gone to that Fund began transferring to the General Fund. The amount transferred to the General Fund is \$66.0 million.
- 4) Any amount unneeded for the Revenue Bonds debt service, Federal Subsidy Holdback Fund, and School Infrastructure Bonds debt service transfers back to the Rebuild Iowa Infrastructure Fund (RIIF) before the close of the fiscal year. Those transfers are not included in the totals for the RIIF above.
- 5) The increase in actual FY 2012 compared to FY 2011 is due to the projected revenue from the new Lyon County casino.
- 6) For FY 2013, the allocation to the General Fund was decreased by \$26.0 million. Of that, \$20.0 million was deposited in the Technology Reinvestment Fund and \$6.0 million was deposited in the RIIF.

- 2) The total Iowa exports for 2011 increased by 16.1% compared to 2010.
- 3) In 2011, soybean products, corn, and pork comprised approximately 80.1% of all Iowa exports.
- 4) In 2011, corn exports increased 42.6% and meat and animal exports increased 30.9%.

**Notes:**

- 1) The Environment First Fund appropriation to REAP remained at \$15.0 million for FY 2010. Statute requires 28.0% of REAP funds to be allocated for the purchase of land or open spaces. As funding for REAP increases, the amount of money for land purchases also increases.
- 2) Data represents land approved for purchase. This may differ from land actually purchased. The Natural Resource Commission approves the purchase of land before the Department of Natural Resources (DNR) can make the purchase. If the actual amount of land is lower, the DNR notifies the Commission.
- 3) Data does not include land purchased by local governments through DNR programs or federal land acquired through the DNR.

### Notes:

- 1) The decrease for FY 2010 compared to FY 2009 was the result of budget reductions implemented in FY 2010, including a 10.0% across-the-board reduction, enactment of the State Early Retirement Incentive Program, and State agencies not receiving additional funding for the increased salary and benefit costs associated with the collective bargaining agreements. These actions were in response to the declining General Fund revenues brought on by the economic recession.
- 2) Workforce data does not include the Board of Regents, Community-Based Corrections, or Fair Authority employees.

### Notes:

- 1) State Fair fiscal years run November 1 to October 31. State capital appropriations are reflected in the prior fiscal year. For example, for SFY 2006 the State appropriated \$750,000 for capitals. This is reflected in the State Fair's fiscal year 2005.
- 2) Other revenue includes campground fees, attractions, commercial exhibitors, sales of promotional items, and miscellaneous sources.
- 3) Vendor Sales are as reported by vendors and include food, beer, and merchandise. The State Fair receives a varying percentage of vendor proceeds.
- 4) For FY 2001, the number for vendor sales does not include beer sales. In FY 2001, the Fair changed the payment method used by vendors on beer sales. Vendors paid a flat rate of \$125 per keg rather than 25.0% of sales.

[For additional information see the related Budget Unit Fiscal Topic.](#)

### Notes:

- 2) As of June 2011, the Academic Building Revenue Bonds outstanding principal includes \$101.2 million at University of Iowa, \$165.0 million at Iowa State University, and \$57.3 million at University of Northern Iowa.
- 3) Present value savings of \$9.4 million from refunding Academic Building Revenue Bonds for calendar years 2001 through 2011 (to date) have been incorporated into the tuition replacement estimates above.
- 4) Between 1981 and 2011, initial net interest rates for Academic Building Revenue Bonds (excludes refunding bonds) varied between 3.96% and 11.19%; bonds with high interest rates have been refunded.
- 5) The tuition replacement appropriation is made by the General Assembly to help pay the debt service on the Academic Revenue Building Bonds. Since FY 2009, the appropriation has been made from the Rebuild Iowa Infrastructure Fund.

**Notes:**

- 1) Public Assistance collections include repayments from the Family Investment Program (FIP) and include Temporary Assistance for Needy Families (TANF) collections made on behalf of other states.
- 2) Nonpublic Assistance collections are distributed to families that have requested enforcement services from the Department of Human Services, to families that formerly received benefits, or have children in foster care.
- 3) Due to enactment of federal and State welfare reform legislation enacted in 1996 and 1997 and implemented in July 2000, public assistance collections decreased as more money collected was sent directly to families, rather than being retained by the State.
- 4) The FY 2008 collections include one-time economic stimulus offsets.
- 5) The FY 2009 collections include one-time American Recovery and Reinvestment Act (ARRA) payments.
- 6) Collections have been affected by the reduction in staff resources and difficult economic conditions including a significant decline in the receipt of payments from unemployment benefits without a corresponding increase in collections from income withholding through employees and new employee hires.

\*Population estimates used to calculate percent of lowans on Medicaid are based on the calendar year.

Notes:

- 1) The Unduplicated Eligibles column refers to persons eligible to receive services under the Medical Assistance Program, not to persons that have received services during the past year.
- 2) The State match rate may not equal State Dollars Expended divided by Total Dollars Expended due to different matching rates for different categories of service and due to counties funding a portion of the nonfederal share.
- 3) These numbers are based on reports dated June 26, 2012.
- 4) The cost per eligible decrease of 9.5% in FY 2006 can be attributed to a larger-than-normal growth in unduplicated eligibles of 10.7% and the loss of \$65.0 million in federal Intergovernmental transfer funds that are no longer counted as Medical Assistance expenditures.

**Notes:**

- 1) Revenues are shown for months distributed to the DOT that occur the month after collection. So the fiscal year reflects the revenue receipt collection timeframe of June through May.
- 2) Due to accounting procedures related to when revenues are collected and distributed, the registration fees collected for TIME-21 during the last month of the fiscal year are deposited in the next fiscal year. The amount transferred to TIME-21 for FY 2011 reflects the portion in excess of \$392.0 million collected from FY 2010 plus the amount in excess of \$392.0 million that was collected in FY 2011 through May.

- 1) The Primary Road Fund includes the State share of the Revitalize Iowa Sound Economy (RISE) Program.
- 2) Beginning in FY 2004, 1.75% of the statutory allocation to the Primary Road Fund is annually transferred to the Transfer of Jurisdiction Fund to go to counties and cities because jurisdiction of approximately 700 miles of State primary roads, classified as Local Service Roads, were transferred to the local entities.
- 3) Funds allocated to the RISE Program are used for the establishment, construction, improvement, and maintenance of roads and streets that promote economic development in the State.
- 4) Beginning in FY 2009, TIME-21 funds are distributed as follows: 60.0% to the Primary Road Fund, 20.0% to the Secondary Road Fund, and 20.0% to the Street Construction Fund. These distributions are not reflected here. For FY 2009 the total TIME-21 distribution was \$5.3 million. For FY 2012, the total TIME-21 distribution was \$122.5 million.

- 2) Iowa ranks 13th in the nation in number of miles of roadway.
- 3) There are approximately 38 miles of road for every 1,000 people in Iowa.
- 4) Primary highways make up 8.2% of the State's total road system.
- 5) Approximately 91.6% of all semi-truck traffic is traveled on the primary highway system.

2011	4,092	293	174
2012	4,084	260	125

**Note:**

The decrease in the total number of bridges from 2002 through 2004 is mainly due to the transfer of jurisdiction of those bridges to the counties and cities.

**Functionally Obsolete**

Bridges classified as functionally obsolete do not have land widths, shoulder widths, or vertical clearances adequate to serve traffic demand, or the bridge may not be able to handle occasional roadway flooding. While it is not unsafe for all vehicles, the older design features cannot adequately accommodate current traffic volumes or vehicle sizes and weights.

**Structurally Deficient**

A bridge is structurally deficient if there is significant deterioration of the bridge deck, supports, or other major components. Bridges that are structurally deficient are restricted to carrying lower weight vehicles or closed if they are found to be unsafe. The classification of a bridge as “structurally” deficient does not mean the structure is unsafe and most structurally deficient bridges can continue to serve traffic safely if they are properly inspected and maintained.

## 2010 CENSUS INFORMATION FOR IOWA

### NATIONAL COMPARISON

- Iowa had an estimated 3,046,355 residents in 2010 according to the U.S. Census Bureau, a gain of 120,031 compared to the 2000 census. This gain of 4.1% was less than the growth rate for the nation (9.7%).
- With the exception of Illinois, surrounding state populations grew at a rate greater than Iowa in the last decade. However, their growth rates were also less than the national average.
- Ten states, (Michigan, Rhode Island, Louisiana, Ohio, New York, West Virginia, Vermont, Massachusetts, Illinois, and Pennsylvania) had a slower growth rate than Iowa.
- Six states accounted for 54.0% of the total national population growth: Texas, California, Florida, Georgia, North Carolina, and Arizona.
- Iowa's population increased by 10.5% since 1960. Only two states, North Dakota and West Virginia, had a smaller growth rate than Iowa during this time.
- Iowa's population growth of 27.0% during the last 100 years is the lowest growth rate in the nation during this time period.
- In 1910, Iowa was the 15th most populous of the 46 states and the District of Columbia. By 2010, Iowa ranked 30th in terms of population.

### IOWA FACTS

- The farm population decreased substantially while small towns remained relatively stable. The number of people living in the country, but not in small towns or on farms, increased throughout the last 55 years.
- The total number of people aged 75 years or older has increased each of the last five decades. Data from the 2010 Census indicates Iowa had more residents 75 years old or older than children under the age of 5. There are 21 other states where this occurred.
- Projections by Woods and Poole Economics, Inc., indicate that Iowa's population will continue to age and grow slowly.
- In 2010 Iowa had 947 incorporated places.
  - There were 663 places with less than 1,000 residents.
  - There were 124 places with between 1,000 and 1,999 residents.
  - There were 80 places with between 2,000 and 4,999 residents.
  - There were 42 places with between 5,000 and 9,999 residents.
  - There were 28 places with between 10,000 and 49,999 residents.
  - There were 10 places with greater than 50,000 residents.
- Twenty-two of Iowa's counties gained residents since 2000. Of these, 16 counties had increases greater than 1,000 people.
- Population gains for Polk, Dallas, Johnson, and Linn counties exceeded 10,000 people.
- Sixty-six counties experienced declining populations. Forty-four had population declines of at least 500 people. A total of 17 counties had declines greater than 1,000 people.
- Six counties had populations in excess of 100,000 people: Black Hawk, Johnson, Linn, Polk, Scott, and Woodbury. These six counties account for 38.4% of Iowa's total population.

## Introduction

The Legislative Services Agency presents the following “Fact Maps.” Data compiled for these maps is comprised of a wide variety of information from reliable sources. The intent is to provide useful and timely information in a format that conveys a readily identifiable picture of specific issues. Information provided includes:

- Property tax data for cities, counties, and school districts
- Local government budget data
- Property valuation data by classification
- Tax data including income tax, sales tax, local option sales tax, and property tax credits
- K-12 public education data including school district budgets, expenditures, staff salary, and enrollments
- Community College data including property tax, budget, and enrollments
- Regents enrollment and funding
- Farmland values
- Other information related to programs of the Economic Development Authority, the Department of Human Services, and the Department of Corrections
- Population data from the U.S. Census Bureau

Each map lists the sources of the information displayed. In most cases, the information has been compiled from sources outside the LSA, and the LSA has relied on those sources to verify the accuracy of the information. Requests for the data used in the maps should be made to the LSA.

The LSA will continue to compile data from a variety of sources, update existing data, and develop maps that provide informative comparisons on a regional basis. These maps will be presented in a variety of LSA publications and online resources, with the long-term goal of offering an interactive mapping interface online for use by legislators, staff, and the general public.

# County Government Expenditures Per Capita from All Funds FY 2012

*Note: County expenditures is the total a county spends for administration, public safety and legal services, mental health and social services, education, roads and transportation, debt service, capital projects, and other items. The revenues to fund these services come from property and other taxes, State tax replacements (such as property tax credits), federal and State grants, pass-through revenues, and other revenues. Per capita expenditures are calculated by dividing a county's total expenditures by the 2010 population. There is a negative relationship between county size (either total expenditures or population) and per capita expenditures. That is, the larger counties spend less per person for county government service which can be attributed to economies of scale.*
