Notes:

- 1) The rollback percentage is the portion of the assessed value of a property subject to taxation. For example, a residential home valued at \$100,000 in assessment year 2020 (FY 2022) will be taxed on \$56,409 of the value. This example does not include the impact of exemptions or credits such as the Homestead Tax Credit.
- 2) The residential rollback applies to farm dwellings.
