Notes:

- 1) Fort Madison's current capacity includes 152 medium-security beds at John Bennett Facility, 180 minimum-security beds at the farms, and 200 maximum-security beds in the Clinical Care Unit.
- 2) Anamosa's current capacity includes 88 minimum-security beds at Luster Heights.
- 3) Newton opened in 1965 as a prerelease center. In 1998, the construction of a medium-security prison on the adjoining institution grounds was completed.
- 4) Oakdale's current capacity includes 30 beds for women. Mount Pleasant has 100 beds for women.
- 5) Design capacity does not include violator beds at Mitchellville and Newton.
- 6) Oakdale's current capacity increased by 158 beds in September 2007.

- The General Assembly approved additional beds at Fort Madison and Mitchellville during the 2008 Legislative Session. This increases preliminary design capacity to 7,842 beds when all construction is completed. The estimated completion date is FY 2014.
- The Criminal and Juvenile Justice Planning Division has released its preliminary ten-year prison population forecast.
 - If policies and practices remain the same, the prison population is projected to reach approximately 9,025 inmates by FY 2019.
 - By FY 2019, and without any additional prison beds, overcrowding will reach 115.0% of design capacity. This figure is based on the assumption that the additional beds authorized during the 2008 Legislative Session for Fort Madison and Mitchellville will be operating by FY 2019.
 - If the prison population reaches 9,025 inmates, no additional prisons will need to be built, other than the expansions authorized at Fort Madison and Mitchellville.
