Fiscal Note Version – Final Action

Description
Senate File 529 creates the Fraud in Assisted Reproduction Act. The Bill prohibits the following:
• A person from engaging in a practice or act the person knows or reasonably should have
  known provides false information to a patient related to an assisted reproduction procedure
  or treatment.
• A health care professional or a health facility from using or providing a patient with human
  reproductive material for assisted reproduction other than that to which the patient expressly
  consented in writing, or with human reproductive material for assisted reproduction that is
  not provided with the donor's consent or in a manner other than that to which the donor
  consented.

A health care professional or health facility that violates these provisions is subject to license,
permit, or certification revocation. A violation by a health care professional constitutes
unprofessional conduct.

The Bill also provides that a health care professional commits sexual abuse in the fourth degree
when the health care professional uses or provides a patient with human reproductive material
for assisted reproduction other than that to which the patient expressly consented in writing in
violation of the Fraud in Assisted Reproduction Act.

Sexual abuse in the fourth degree is punishable as an aggravated misdemeanor, or as a Class
D felony if the health care professional uses or provides the health care professional's own
human reproductive material for assisted reproduction. Sexual abuse in the fourth degree is a
Tier III sex offense if the perpetrator is a health care professional who used the health care
professional's own human reproductive material for assisted reproduction.

The Bill provides that an information or indictment for sexual abuse in the fourth degree may be
commenced at any time after the commission of the offense.

The Bill provides for a private cause of action for damages to be brought for certain violations of
the Fraud in Assisted Reproduction Act.

Background
An aggravated misdemeanor is punishable by up to two years in prison and a fine of at least
$855 but not more than $8,540. A Class D felony is punishable by up to five years in prison and
a fine of at least $1,025 but not more than $10,245. Registration as a Tier III sex offender
requires an offender to report in person to verify the offender’s registration information every
three months.
Assumptions

- The following will not change over the projection period: charge, conviction, and sentencing patterns and trends; prisoner length of stay (LOS); revocation rates; plea bargaining; and other criminal justice system policies and practices.
- A lag effect of six months is assumed from the effective date of this Bill to the date of first entry of affected offenders into the correctional system.
- Marginal costs for county jails cannot be estimated due to a lack of data. For purposes of this analysis, the marginal cost for county jails is assumed to be $50 per day.

Correctional Impact

Senate File 529 establishes new criminal offenses and applies specifically to health care professionals. The correctional impact cannot be estimated for the Bill due to a lack of existing conviction data. **Table 1** below shows estimates for sentencing to State prison, parole, probation, or community-based corrections (CBC) residential facilities; LOS under those supervisions; and supervision marginal costs per day for all convictions of Class D felonies and aggravated misdemeanors for sex offenses. Refer to the Legislative Services Agency (LSA) memo addressed to the General Assembly, *Cost Estimates Used for Correctional Impact Statements*, dated January 18, 2022, for information related to the correctional system.

Minority Impact

Senate File 529 establishes new criminal offenses. As a result, the Criminal and Juvenile Justice Planning Division of the Department of Human Rights cannot use prior existing data to estimate the minority impact of the Bill. Refer to the LSA memo addressed to the General Assembly, *Minority Impact Statement*, dated January 18, 2022, for information related to minorities in the criminal justice system.

Fiscal Impact

Senate File 529 establishes new criminal offenses and applies specifically to health care professionals, and the fiscal impact cannot be estimated due to a lack of existing conviction data. The average State cost per offense for an aggravated misdemeanor ranges from $4,900 to $9,500. The average State cost per offense for a Class D felony ranges from $9,100 to $16,600. The estimated impact to the State General Fund includes operating costs incurred by the Judicial Branch, the Indigent Defense Fund, and the Department of Corrections. The cost would be incurred across multiple fiscal years for prison and parole supervision.
The fiscal note for this Bill was prepared pursuant to Joint Rule 17 and the Iowa Code. Data used in developing this fiscal note is available from the Fiscal Services Division of the Legislative Services Agency upon request.
