Fiscal Note Version – As amended by the Conference Committee Report

Description

Senate File 171, as amended by the Conference Committee Report requires a 1.25% State percent of growth rate to be applied to each of the regular school aid State cost per pupil amounts for FY 2016.

Background

The school aid formula provides funding through a mix of State aid and property tax to school districts and Area Education Agencies (AEAs). In general, funding is generated on a per pupil basis with the per pupil amounts providing an overall budget limitation. There are five FY 2016 State cost per pupil funding levels that will be increased by a 1.25% State percent of growth for FY 2016. The following table provides the supplemental State aid amounts (also referred to as per pupil growth amounts) and State cost per pupil amounts for FY 2016 based on a 1.25% growth rate. The supplemental State aid amounts will be applied to all corresponding district and AEA cost per pupil amounts.

Regular School Aid Per Pupil Components	FY 2015 State Cost Per Pupil Amount	FY 2016 State Percent of Growth	Supplemental State Aid	FY 2016 State Cost Per Pupil
Regular Program	\$ 6,366.00	1.25%	\$ 80.00	\$ 6,446.00
Special Education Program	6,366.00	1.25%	80.00	6,446.00
AEA Special Education Support	279.53	1.25%	3.49	283.02
AEA Media Services	52.11	1.25%	0.65	52.76
AEA Educational Services	57.51	1.25%	0.72	58.23

In addition to the State percent of growth and supplemental State aid for FY 2016, enrollments, weightings, and taxable valuations within each school district have an impact on the amount of total school aid funding, including the amount of State aid and local property tax required to generate the total funding amount.

Assumptions

Assumptions include:

- Estimates are based on October 2014 certified enrollments and supplementary weightings for FY 2016 approved by the School Budget Review Committee (SBRC) on January 21, 2015.
- Statewide taxable valuation growth of 2.6% for FY 2016. Based on these assumptions, the statewide total for the uniform levy is estimated to account for \$30.4 million of the school foundation property tax change in FY 2016 (including the uniform levy portion of the commercial/industrial rollback replacement payment). The estimated increase in the uniform levy amount is not impacted by the establishment of the State percent of growth rate.

- Property tax adjustment aid amounts are based on the statewide taxable valuation growth factor applied to each school district's FY 2016 taxable valuation amount.
- Other legislation may have an impact on the amount of State aid and property tax generated though the school aid formula. The fiscal impact in the table on the following page includes the provisions in [SF 172](#) (State Categorical Supplemental State Aid FY 2016), as amended by the Conference Committee Report.
- State aid includes funding from the State General Fund and other funds appropriated or deposited in the Property Tax Equity and Relief (PTER) Fund that is used to provide additional property tax relief through the school aid formula.
- Establishing an FY 2016 State percent of growth will also impact the amount of funding generated for the Statewide Voluntary Preschool Program. Funding for the Program is provided with State General Fund dollars and is included in the overall State aid total.
- Districts eligible for the 101.0% budget adjustment will approve use of that provision. The Legislative Services Agency (LSA) estimate includes a total budget adjustment of \$16.5 million, based on the FY 2016 State percent of growth and budget enrollments.
- Beginning in FY 2016, the additional \$15.0 million State aid reduction to AEAs implemented in FY 2015 will be restored.

Fiscal Impact

The table on the following page provides the estimated fiscal impact of [SF 171](#), as amended by the Conference Committee Report, includes the provisions in the [SF 172](#), as amended by the Conference Committee Report. These changes will result in a total General Fund expenditure for State school aid in FY 2016 of \$2,965.3 million, an increase of \$99.8 million (3.5%) compared to FY 2015. This includes:

- Restoration of the \$15.0 million reduction in State aid to the AEAs. Under current law, the reduction will total \$7.5 million (a statutory reduction implemented annually).
- \$31.1 million in property tax replacement payment (PTRP) funding, an increase of \$5.6 million compared to FY 2015. [Senate File 173](#) (Education Funding Supplemental for FY 2016 Act) requires State aid to account for the entire increase in the cost per pupil amount due to the State percent of growth in FY 2016.
- Based on the [SF 172](#), as amended by the Conference Committee Report, \$398.2 million for the State categorical supplements, an increase of \$56.4 million (16.5%) compared to FY 2015. This includes \$282.9 million for the teacher salary supplement, \$32.1 million for the professional development supplement, \$33.0 million for the early intervention supplement, and \$50.2 million for the teacher leadership supplement (new school aid funding provision in FY 2016).
- \$73.1 million for preschool formula funding, an increase of \$3.2 million compared to FY 2015. The preschool formula funding is included in the State aid amount, but is not included in the combined district cost total.

The combined district cost (reflecting the total school aid funding level for school districts and AEAs generated through the school aid formula) is estimated to increase \$145.6 million (3.5%) compared to estimated FY 2015.

Any legislative action impacting school aid provisions will have an impact on FY 2016 school aid amounts. Additionally, any variations in the assumptions noted may result in significant changes in the FY 2016 estimates provided in the following table.
