Fiscal Note Version - New

Requested by Senator Hubert Houser

Description

Senate File 2075 requires the Department of Natural Resources (DNR) to submit copies for manure management plans and other related documents in an electronic version to the county where an animal confinement operation is located. The copies are emailed after the DNR has approved the manure management plan that is submitted annually to the Department. Currently, paper copies of these documents are mailed to the counties, and many county offices do not have sufficient room to store the documents.

Assumptions

1. The DNR estimates they will need 0.5 FTE position at each of the six field offices across the State for a total 3.00 FTE positions. These persons will scan and email documents from the field office to the county offices. The estimated cost is \$50,000 per FTE position for a total annual cost of \$150,000.
2. The DNR estimates the one-time cost to purchase additional computers and scanning equipment at \$17,000.
3. The DNR estimates the annual cost for support supplies at \$5,000.

Fiscal Impact

The estimated fiscal impact of Senate File 2075 is an increase in expenditures of \$172,000 and 3.00 FTE positions for FY 2007 and \$155,000 for FY 2008 and each year after.
