Foreign Animal Disease Preparedness and Response Fund

Purpose and History

The Foreign Animal Disease Preparedness and Response Strategy was established in [SF 510](#) (FY 2018 Agriculture and Natural Resources Appropriations Act). The General Fund appropriation is deposited into the Foreign Animal Disease Preparedness and Response Fund, administered by the Department of Agriculture and Land Stewardship (DALs) with input from various livestock organizations. The goal of the Strategy is to develop a practical and cost-effective plan that will be implemented to control and/or eradicate foreign animal diseases.

In 2015, 77 Iowa farms and backyard poultry flocks were affected by an outbreak of High Pathogenic Avian Influenza. This was the largest animal disease outbreak in the history of the United States, and the threat of future outbreaks persists.

Funding History

Funding to the Foreign Animal Disease Preparedness and Response Fund began in FY 2018 with a \$100,000 General Fund appropriation from the Agriculture and Natural Resources Appropriations Subcommittee. This appropriation was increased to \$250,000 in FY 2019, \$500,000 in FY 2020, \$750,000 in FY 2022, and \$1.0 million in FY 2024.
