
BUDGET UNIT BRIEF – FY 2018

Fiscal Services Division

December 13, 2017

Ground Floor, State Capitol Building

Des Moines, Iowa 50319

515.281.3566

Justice Data Systems (Criminal Justice Information System)

Purpose

The Criminal Justice Information System (CJIS) enables and facilitates the automated exchange of criminal justice information among local, State, and federal criminal justice agencies. This initiative is developing a seamless, real-time electronic information sharing system for members of the criminal justice community in Iowa. Current collaboration with other criminal justice systems includes the County Attorney ProLaw Case Management and Judicial Dialog Case Management systems, the Traffic and Criminal Software (TraCS) system, the Iowa Corrections Offender Network (ICON), Iowa Online Warrants and Articles, the Iowa Court Information System (ICIS), and others. Funds are used for operation of the System, further development, information technology and network hosting, and software needed for the System.

The CJIS has a number of exchanges that are 100.00% implemented. Full implementation means that the CJIS centralized computer system is fully programmed to receive and transmit information to be exchanged and that all possible State, local, and, in some cases, federal agencies are actively sharing information through the CJIS. The fully implemented exchanges include:

- The adult data warehouse.
- The juvenile data warehouse.
- Protective orders.
- Protective orders served.
- Orders for presentence investigations.
- Presentence investigation reports.
- National Instant Criminal Background Check System (NICS).
- Operating while intoxicated dispositions.
- Sex offender address updates.

Funding

This appropriation has been funded from the Technology Reinvestment Fund and the Rebuild Iowa Infrastructure Fund.

Related Statutes and Administrative Rules
