## Fire Service Training Revolving Fund

### Purpose and History

The Fire Service Training Revolving Fund was established to support the development and delivery of fire service training programs by the Fire Service Training Bureau (FSTB) throughout the State of Iowa. Established in 2019 Iowa Acts, chapter [163](#) (FY 2020 Justice System Appropriations Act), the Fund is administered by the State Fire Marshal Division of the Department of Public Safety (DPS). The Fund helps pay for mobile training units, training equipment and specialized courses through the FSTB. The annual appropriation by the General Assembly in the Justice System Appropriations Act covers general operational and training support for volunteer fire fighters.

### Funding

The Fund is sustained by fees collected from training programs outlined in 661 IAC [53](#) such as workshops and conferences, courses, certification testing, and fire education materials provided by the FSTB. All moneys in the Fund that remain unexpended or unobligated and any interest earned do not revert at the close of the fiscal year and remain available for expenditure for these purposes.

Expenditures from the Fund are used exclusively for costs associated with delivering and administering fire service training. This includes instructor compensation, equipment maintenance purchases, program development, and logistical support for mobile training delivery.
