**RE: Authorization of Registration and Lobbying Activities under House Rule 20**

Dear Meghan,

For all executive branch offices and departments that require the Governor's authorization under House Rule 20, I authorize the head of the office or department to decide whether to register the office or department and lobby for or against bills, resolutions, or study bills. At my direction, each head of an executive branch office or department shall direct their legislative liaison with respect to such registrations and lobbying activities and approve them in advance.

Despite this general authorization, I am retaining the right to direct executive branch offices and departments, their heads, and their legislative liaisons with respect to these registrations and lobbying activities on any bill, resolution, or study bill.

Sincerely,

A handwritten signature in cursive script that reads "Kim Reynolds".

Kim Reynolds  
Governor of Iowa
