Senator, 75, Taken Ill in N.Y.

Succumbs in Sleep At Friends' Home

Bourke B. Hickenlooper, former Republican governor of Iowa and U.S. senator, died in his sleep early Saturday at Shelter Island, N.Y., where he had been visiting friends. He was 75.

A Cedar Rapids lawyer, Senator Hickenlooper served two 2-year terms as state representative, two terms as lieutenant governor and was governor in 1943 and 1944 before serving 24 years as a U.S. senator.

He did not seek re-election in 1968 and closed out his political life with Senate colleagues and others paying tribute to his distinguished career, particularly his major role in the development of nuclear weapons.

A principal author and sponsor of the Atomic Energy Act of 1954, Senator Hickenlooper was one of only four members of Congress to have served continuously on the Joint Congressional Committee on Atomic Energy from 1946 to 1968. He was its first active chairman in the dawn of the nuclear age.

His role in foreign affairs also was significant as he rose to be the ranking Republican on the Senate Foreign Relations Committee and a confidant of presidents.

After his retirement, Senator and Mrs. Hickenlooper continued living in their home at Chevy Chase, Md. Mrs. Hickenlooper died last Dec. 17 after having been ill about 2 1/2 years with a heart condition.

Sold House

Senator Hickenlooper recently sold his house and was to move into an apartment in Washington, D.C., his daughter, Mrs. Jane Oberlin of Des Moines, said Saturday.

She said her father, while waiting for the apartment to be ready for occupancy, went to Shelter Island — an island off the tip of Long Island — Friday as a house guest of two longtime friends, Mr. and Mrs. Harry Holthusen.

Mrs. Oberlin said she received word that her father, who had not been ill, complained of not feeling well at dinner time. A physician examined him later in the evening and the senator went to bed early. Mrs. Holthusen found him dead in bed about 4:15 a.m. Iowa time Saturday.

Mrs. Oberlin said an autopsy will be performed. The body will be taken to Washington, D.C., for viewing before services and burial at Cedar Rapids. Details are still being arranged.

In addition to the daughter, Senator Hickenlooper is survived by a son, David B. Hickenlooper of Bloomfield, Ia., and four grandchildren.

Memorials

The family suggests memorial contributions to the Hickenlooper—

...ry. But, he said, the Cambodians lacked equipment needed to take over two main South Vietnamese bases at Kret, on Highway 7 east of Phnom Penh, and at the ferry station of Neak Luong on the Mekong River, 40 miles southwest of the capital.

Sirik Matak said American aid would hasten the day when the Cambodian army would be able to shoulder the responsibility for his nation's defense. To this end, the forthcoming visit of the U.S. commander in chief for Pacific, Adm. John McCain, would help the Cambodian army take over from the South Vietnamese, Sirik Matak added.

Relations between the Cambodians and the Vietnamese, traditionally sworn enemies, have been badly strained by the behavior of the Saigon troops here. Officially, both governments have tried to keep the alliances working, recognizing that at least for the time being both South Vietnam and Cambodia need each other.

Air Strike

In Saigon, the U.S. command reported an American fighter-bomber attacked an anti-aircraft site inside North Vietnam in the fifty-fifth "protective reaction" strike this year. The Air Force F105 fired a missile Friday at what was be-

Dog Patrol Out; Guard Your Pooch!

By David Eastman
Warning to Des Moines dog owners: When you send the kids off to school in the morning, don't send the family pooch along.

While the children are cavorting in the classroom, the dog may wind up dozing in the dogcatcher's truck.

Chief Humane Officer Frank Perry of the Des Moines-Polk County Health Department has set a quota of 500 dogs for his men to pick up in September, and they'll be concentrating on school yards.

Last Monday, Perry's crew of dogcatchers plucked up 38 dogs from around schools in the city, and they didn't let up the rest of the week.

But that's fewer dogs than last year, when the humane officers plucked up more than 60 dogs the first day of school.

"As far as the number of dogs running loose on school grounds, this is the best year we've had in the last five," Perry said.

"The dogs are used to hanging around the children all summer, and when school starts they just want to follow the kids," Perry explained.

"We try to watch some of

Rain, Hail Hit Western Iowa

Skies were clear to partly cloudy over most of Iowa Saturday morning, but strong thunderstorms swept through some western parts of the state.

Marble-sized hail caused tree damage and power outages at Red Oak.

Early morning lows ranged from 68 degrees at several cities to 76 at Council Bluffs. Des Moines had a low of 74.

IN NORTH VIETNAM

Say Soldiers Fear To Protect Har

HONG KONG (AP)—Soldiers in the army newspaper said Saturday.

Their "brave" action, reported Quan Doi Nhan Dan, "prevents the current of water from hitting against the dikes and destroying segments of them."

In one area, students from a military medical school and party members "plunged into the current to protect the vital parts of the dikes from the fierce floodwaters... clinging to the dikes during seven successive days in the hope of mending the broken parts of the dikes," it said.

The soldiers, it said, are "forgetting to eat and to sleep in order to protect the dikes and save our people and the state's property."

Reports from the army newspaper and the Communist party newspaper, Nhan Dan, were broadcast by Radio Hanoi. Neither gave any figures for casualties or damage in the floods, described as the worst in North Vietnam since the end of the world War II.

However, Nhan Dan carried a communique from the central party council saying that "dikes and dams are greatly damaged" by the floods, which are "a big natural disaster."

Most of the flooded areas are ricefields, the communique said.

The official Vietnam News Agency said the Soviet Union and Communist China have pledged to send emergency relief supplies to North Vietnam.

The amount of money not to be closed.

Senator Hickenlooper was perhaps best known during his long career in the Senate for his service on the Joint Committee on Atomic Energy, which he served as chairman when Republicans controlled the Congress. This picture was taken in July, 1954, after long debate ended in approval of President Eisenhower's atomic energy bill. From left are Senate Minority Leader William Knowland of California, Vice President Richard Nixon and Senator Hickenlooper.

Five men occupied the White House during the years Senator Hickenlooper held his Senate seat, and he was instrumental in the adoption of legislation sought by all of them — Democrats as well as Republicans. Here, Hickenlooper confers with President Eisenhower in the President's White House office. The occasion was an upcoming visit to Iowa by the President, who was to speak at National Field Days near Colfax in September, 1956. Other Presidents Hickenlooper served were Roosevelt, Truman, Kennedy, Johnson.

bert Hoover Presidential Library at West Branch or to a charity of the donor's choice.

Senator Hickenlooper recently was made a director of the library and "was very proud of that and looking forward" to his duties, Mrs. Oberlin said.

Many of Senator Hickenlooper's papers were sent to the library when he retired, to be available for examination by students and authors interested in the early years of the atomic energy program and foreign affairs since World War II.

Born at Blockton, Ia., Senator Hickenlooper received his bachelor's degree from Iowa State University and his law degree from the University of Iowa. He was a second lieutenant in the Army, in World War I and served with a field artillery unit in France.

5 Presidents

Senator Hickenlooper, regarded as a conservative Republican, had a career in Washington spanning the administrations of five presidents, from Franklin D. Roosevelt through Lyndon B. Johnson. He served longer in the Senate than any other Iowan except William B. Allison, who was there from 1873 to 1908.

In Senator Hickenlooper's first years in Washington, the great bipartisan figure was the late Senator Arthur Vandenberg, a Michigan Republican who was an important figure in getting GOP support for president Harry Truman's first foreign aid program, the Marshall Plan.

In later years, Senator Hickenlooper was regarded as the "Vandenberg" of Presidents John F. Kennedy and Lyndon Johnson.

His "Periodic Rose Garden walks with President Kennedy, were an important part of American foreign policy in the 1961-63 period, and the personal relationship between the two men was excellent.

As ranking Republican on the Foreign Relations Committee, Senator Hickenlooper toured more than 65 countries and talked with kings, presidents and prime ministers.

Senator Hickenlooper was a

U.S. representative to the United Nations in 1959 and 1960 and recently completed duties as a member of President Nixon's commission for the observance of the twenty-fifth anniversary of the United Nations.

Shortly before his retirement, the Joint Committee on Atomic Energy passed a special resolution praising the Iowa senator for his contribution to the development of nuclear power.

Adm. Hyman Rickover, father of the nuclear submarine, and former Adm. Lewis L. Strauss, who was a member of the Atomic Energy Commission during some of its most controversial days, joined in the accolade.

Another tribute came from Senator Spessard Holland (Dem., Fla.), who said of Senator Hickenlooper:

"His voice has always been a steady one—a voice of conservatism, a voice of patriotism and a voice of decency."

Tale of Sawdust And a Fickle Legislature

SACRAMENTO, CALIF. (AP) — Gov. Ronald Reagan of California says sawdust on butcher shop floors demonstrates the fickle ways of the State Legislature.

"I can't remember when a butcher shop didn't have sawdust on the floor," Reagan told an audience of businessmen Friday.

"But last year, someone decided it was unhealthy, and sure enough, a bill came to my desk, passed unanimously. . . . Reluctantly, I signed a bill banning sawdust on butcher shop floors.

"And this year I signed a law putting it back," he said. He added that reinstatement of the sawdust was introduced because butchers said they were slipping on the smooth floors.

World Parley

PITTSBURGH, PA. (REUTERS) — More than 1,200 transportation experts from around the world are expected in Pittsburgh Wednesday for the fifth annual International Conference on Urban Transportation. The opening session of the three-day meeting will hear an address by Vice President Spiro Agnew.

Hickenlooper was ranking Republican member of the Foreign Relations Committee before his 1968 retirement, and he frequently was called to top-level meetings at the White House. Here, Minnesota Senator Hubert Humphrey (left) and Indiana Representative Charles Halleck (right) stop in Cedar Rapids in October, 1962, to pick up Hickenlooper on their way to Washington for a meeting of congressional leaders with President John F. Kennedy. The three are in the doorway of an Air Force jet.

China's Eyes On Concorde

LONDON, ENGLAND (AP) — Communist China is interested in the Anglo-French Concorde supersonic jetliner, and a sales team will go to Peking in three weeks, informed sources said Saturday.

They said a team of experts from British Aircraft Corp. and France's Aerospatiale, builders of the Concorde, has been invited by the mainland Chinese government.

The Chinese first showed interest in the plane, estimated to cost \$28.8 million, at last year's Farnborough air show in England. They have been kept up to date with Concorde test flights since then, the sources said.

Urge Japan-China Tie

TOKYO, JAPAN (AP) — Seven scholars, including three Nobel Prize winners, urged the government Saturday to normalize relations with Communist China and work for Peking's entry into the United Nations.

Hopes Increase As Dock-Strike Talks Continue

SAN FRANCISCO, CALIF. (REUTERS) — Hopes of the west coast dock strike ending increased with the announcement that longshoremen and management would continue bargaining into the Labor Day weekend.

The strike, which started July 1, has caused a logjam of ships and dock cargo in 24 ports and nearly shut off shipping to Alaska and Hawaii.

Thursday, a Honolulu news paper reported that one of the key issues of the strike had been agreed — a jurisdictional battle between Longshoremen and Teamsters on who should handle containerized or pre-ratified cargo. There was no immediate confirmation of this from either party.

An industry source said he believed the talks would have been postponed until after the holiday weekend if there had been no progress Friday.

U-Thant Firm On Quitting Post

UNITED NATIONS, N.Y. (AP) — U. Thant has reaffirmed he intends to quit his job as secretary general of the United Nations at the end of his second five-year term Dec. 31.

"I took up my duties as secretary general 10 years ago in the midst of deep international divisions which were close to breaking the very foundations of the United Nations," Thant said Friday in a message to an inter-parliamentary union meeting in Paris.

"I am leaving the organization this year in the midst of signs of détente, of convergence of interests and of a possible entente among nations."

Rhodes Man Injured in Crash Here

Terry E. Lanning, 26, of Rhodes, was listed in fair condition at Broadlawn Polk County Hospital with face cuts suffered in a traffic accident near Forty-ninth Street and Urbandale Avenue at 1:45 a.m. Saturday.

Police said Lanning's truck was westbound on Urbandale Avenue when it left the pavement striking an anchor wire of a utility pole and traveling 435 feet before hitting a second utility pole.

Lanning was charged with failure to have control of his vehicle.

Auto Hits Train, Driver Charged

Gary D. Skoog, 30, of 2515 E. Ovid Ave., was treated for cuts and bruises at Broadlawn Polk County Hospital after his car struck a train at 2:25 a.m. Saturday.

Police said Skoog's car was westbound in the 5200 block of S.W. Park Avenue, when it struck a switch engine standing on the Rock Island Railroad tracks across the street. The engine started up and dragged the car 116 feet north before the auto was freed, police said.

The engineer told police that he was not aware at first that his train had been struck.

Police charged Skoog with failing to have his car under control.

Puerto Ricans Charge Bias By U.S. Unit

WASHINGTON, D.C. (AP) — Two Puerto Ricans dismissed from a Cabinet-level committee on Spanish-speaking people say they plan to file formal complaints charging that the panel discriminates against Puerto Ricans.

Carlos Alvarez, a consultant, and Alejandro Palau, a lawyer, made the statement through an attorney Friday.

They were dismissed Aug. 1 from the Cabinet Committee on Opportunities for Spanish Speaking People.

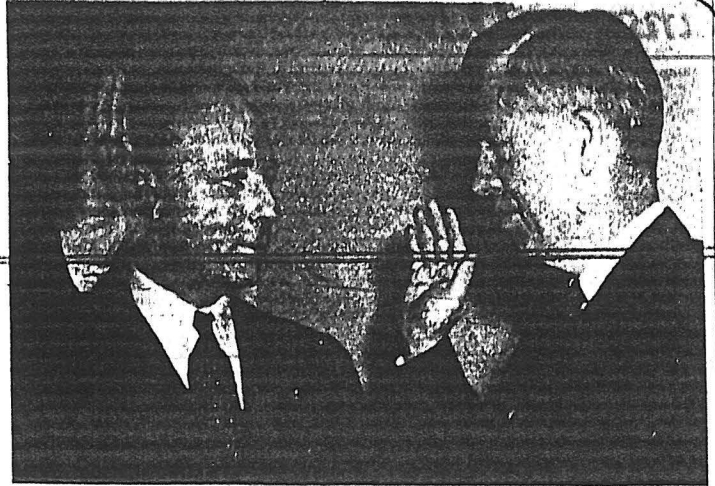

Albert Pierluissi, attorney representing Alvarez, said the pair contends the committee "has engaged in a pattern of discrimination and practice that excluded Puerto Ricans."

The committee was set up in 1969 to help assure participation by Spanish-speaking Americans in federal programs.

Scenes From Hickenlooper's Long Career

Bourke B. Hickenlooper's career in public office began with his election to the Iowa Legislature in 1934, and less than 10 years later he was serving as governor. Here the newly elected governor (right) is joined by Lt. Gov. Robert D. Blair in acknowledging ovation given them after taking the oath of office before a joint session of the Legislature in 1943. The new governor was a native of Blockton, Ia.

After serving one term as governor, Hickenlooper sought election to the U.S. Senate. His victory in the 1944 election marked the beginning of 24 years' of service in the Senate, longer than that of any other Iowan except William B. Allison. Here, the new senator (left) is sworn in for his first term in January, 1945, by a fellow Iowan, Henry Wallace, who served as vice-president under Franklin D. Roosevelt.

Senator Hickenlooper was perhaps best known during his long career in the Senate for his service on the Joint Committee on Atomic Energy, which he served as chairman when Republicans controlled the Congress. This picture was taken in July, 1954, after long debate ended in approval of President Eisenhower's atomic energy bill. Rain Breaks Iowa Heat; Too Little, Late for Crops

Thunderstorms moved across Iowa Saturday, bringing rain to parched crops and a long spell of hot, humid weather.

FOR SOME PEOPLE

omni EYE DIVIDENDS OF SIX FIRMS

WASHINGTON, D.C. (AP) — Six companies which reportedly have increased dividends were rebuked Saturday by the Cost of Living Council (COLC) and called on to explain their actions.

It was the first such administrative move to curb dividend increases which were not specifically prohibited in President Nixon's wage-price freeze order — an omission repeatedly attacked by unions and Democratic politicians.

Paul W. McCracken, acting chairman of the COLC, told the firms in a telegram the council "takes a serious view of any change in dividend rates that would be inconsistent with the President's program."

The presidents of the firms were asked to meet with the council Tuesday "to explain the circumstances surrounding your reported action."

The telegrams were sent to Yale A. Blank, president, Martin Yale Industries, Inc., Chicago, Ill.; Charles L. Coughlin, president, Briggs and Stratton Corp., Milwaukee, Wis.; Victor Posner, chairman and president, National Propane Corp., New Hyde Park, N.Y.; Louis Pomez, president, Volume Shoe Co., St. Louis, Mo.; and John Siemsen, president and chief executive, Selas Corp. of America, Dresher, Pa., and Max

OLD SOLDIERS CAN'T GET IN IOWA HOME

Close 35-Bed Unit; Economy Move

By Dan Efler (Register Staff Writer)

MARSHALLTOWN, IA. — Jake Rutt, of Hampton and Oliver Schweiger of Dows served in World War I and were members in the Hampton Barracks of the Association of World War I Veterans.

Both are in their seventies and suffer from the infirmities of age. Rutt has suffered a stroke and is confined to a Hampton nursing home; Schweiger has a skin condition that occasionally renders his legs useless.

Both applied in January, 1970, for admission to the Iowa Soldiers' Home at Marshalltown, where they would receive lodging and treatment at less expense than in nursing homes. They still are waiting.

"I'd like to get into the home because it would cost only about half of what the nursing home costs," said Schweiger, a bachelor who lives alone and cares for himself at his home in Dows.

Chances Dim

The chances for admission of Rutt, Schweiger and the 218 others on the Soldiers' Home waiting list dimmed when the Home stopped accepting new patients in April, and when Commandant Jack Dack announced last week that a 35-bed, maximum nursing care facility would close because of lack of funds.

"It's a question of cutting out a part of the operation or weakening the entire program," said Dack. "We hope to reopen the nursing section, but not until we have the money."

Dack said about \$180,000 is needed to reopen the facility. He and veterans group lobbyists tried to get the money in the closing days of the last

Bourke B. Hickenlooper "Voice of Decency"

Hickenlooper Iowa Rites On Thursday

Funeral plans were made Saturday for Bourke B. Hickenlooper as public officials of both parties eulogized the former Iowa governor and U.S. senator of 24 years.

Senator Hickenlooper died in his sleep early Saturday morning at Shelter Island, N.Y., where he had been visiting friends. He was 75.

Senator Hickenlooper's career as an Iowa Republican political leader spanned 34 years — from his election to the Iowa Legislature in 1934 to his retirement from the U.S. Senate in 1968 after serving four, six-year terms.

Senator Hickenlooper's body will be taken to a Washington, D.C., funeral home for viewing Monday and Tuesday.

His funeral will be at 1:30 p.m. Thursday at First Presbyterian Church in Cedar Rapids with burial at Cedar Memorial Cemetery.

Services are being arranged by Turner's Funeral Home.

Honorary pallbearers will be Donald Hutchison of Algona; Dr. E. J. Sommers, John Henry, John Chateaufort and Dan O'Brien, all of Des Moines; James Milroy of Vinton; Judge Warren Reese of Anamosa; Charles Strickland of Clear Lake; Harold Rowe, James Yuill, Dr. M. J. Foster, Milo Chehak and James Canfield, all of Cedar Rapids; and Fred Rhodes of Washington, D.C.

Cause of death tentatively was attributed to an abnormal dilation of the aorta, the great artery that carries blood from the heart.

C. R. Lawler

A Cedar Rapids lawyer when he entered politics, Senator Hickenlooper was a Linn County representative in the Legislature from 1934 to 1938, served two terms as Iowa lieutenant governor, 1939 to 1942, was governor for one term in 1943 and 1944 and served as a U.S. senator from 1945 through 1968.

As a senator, he was best known for his work on development of nuclear weapons and his influence on foreign policy.

During the dawn of the nuclear age, he chaired the Joint Congressional Com-

MOST DEADLY VEHICLE ON IOWA ROADS

Twenty Fatalities So Far This Year

By Nick Lamberlo

The motorcycle is the most dangerous mode of travel on Iowa highways, according to figures released Saturday by State Public Safety Commissioner Michael Sellers.

Sellers said the chances are four out of five that an Iowan involved in an accident on a motorcycle will be killed or injured.

For a person in a car involved in an accident, the chances of being killed or hurt drop to one in three, Sellers said.

In other words, Sellers said, research by his staff shows the chances of being killed or injured in a motorcycle accident in Iowa are almost 2½ times greater than in a car crash.

Motorcycles are proliferating at a rabbit-like pace in Iowa, Sellers said, from 55,775 registered in the first seven months of 1970, to 73,101 the same period this year—an increase of 31 per cent.

The fatality rate for motorcycle accidents in Iowa is running 25 per cent ahead of last year for the first seven months of 1971, while the fatality rate for all vehicles is down 12 per cent, Sellers said.

Through July, there have been 20 motorcycle fatalities in Iowa, compared to 16 for a similar period a year ago, Sellers said.

In 1969, there were 29 motorcycle fatalities in the state and in all of 1970 there were 41, with most of those in the last five months of each year, Sellers said.

"I'm going to be visiting legislators and encouraging them to pass some type of mandatory helmet and eye protection law, similar to those enacted in

Suggests Drugs For Politicians

WASHINGTON, D.C. (AP) — The president of the American Psychological Association (APA) suggested Saturday development of a drug to be administered to successful politicians to prevent abuse of power in public office.

Beyond this initial step, Dr. Kenneth B. Clark said such a drug might be useful for all mankind "to contain human cruelty and destructiveness" and perhaps eliminate such social curses as racism and war.

Clark, first Negro president of the APA, said politicians should be the first to receive such a drug because they hold "life and death powers over mankind" in this nuclear age.

Brief

Leaps to Death

A woman was killed on rural Columbus, N.C., road when she apparently leaped from a station wagon being driven by her husband. Officers said Willie Dean Dade, 26, related that he and his wife Josephine got into an argument and she jumped from the car while it was traveling at about 40 miles an hour. He said he stopped the car, returned to his wife, and seeing she appeared dead, drove the car into a utility pole in an attempt to kill himself. He suffered minor injuries and was charged with reckless driving.

Airport Mishap

LaGuardia Airport baggage handler Peter Luis dropped a suitcase and a pistol inside went off hitting him in the right shoulder. Luis, 27, of Levittown, N.Y., was reported in fair condition at Elmhurst General Hospital. The owner of the bag, containing the .22-caliber pistol — Manuel C. Fanning, 36, San Francisco, was held on charges of illegal possession of a gun and reckless endangerment.

Dead

David Street, 51, popular singer of the 1950s who appeared on Broadway Open House and the Hit Parade, died of cancer at Valley Presbyterian Hospital in Los Angeles. He once was married to actress Debra Paget.

Hickenlooper, shown here in 1956, served one term as Iowa's governor. He is shown being sworn in for his first term in the U.S. Senate, by fellow Iowan, Vice President Henry Wallace, in January, 1956.

About a month after Hickenlooper appeared with another Iowan, former President Herbert Hoover, at a luncheon of the Women's National Republican Club in New York City.

After then Vice President Dwight D. Eisenhower approved the atomic energy bill was approved. Senator Hickenlooper was a sponsor of the Atomic Energy Act of 1954.

session of the Iowa Legislature, but failed.

No new patients have been admitted to the home since April because the entire 65-bed home has been absorbing patients moved from the closed institution. The home ordinarily accepted about 10 male patients a month, Dack said.

"We won't turn patients out of the home and we won't lay off staff," Dack said. "Instead, we will just move the patients to other sections, and not reduce staff members who remain."

The Marshalltown facility received a \$5.4 million appropriation for the 1971-73 biennium. Dack will account for about 40 per cent of operating costs. The other 60 per cent will be covered equally from the U.S. Veterans Administration and patient fees.

Patients assessed

Patients are assessed on a formula based on their available income and assets.

Dack said the nursing facility would be a maximum-care facility where patients received the best care from 25 staff members.

Off-and when we reopen the center, it might take as long as three or four months to get going to full capacity again,"

heard. "It's no overnight thing recruit and train staff members. You just don't open a minimum-care center in one day."

Dack said an increased state appropriation is necessary to reopen the care center since patient fees are only as high as county Soldiers' Relief Commissions veterans groups feel they should be and because there is the likelihood of increased assistance from the Veterans Administration.

"Soldiers' Home will continue to freeze on new admissions until beds become available," Dack said he could not say when that might be.

"It depends on a lot of things, including the possible effects of President Nixon's wage-price freeze," he explained. "The patients in the section being closed are being placed in other areas of the home, so in effect, we added 35 names to the available waiting list."

BELGRADE FAIR

mittee on Atomic Energy; at retirement he was the ranking Republican on the Senate Foreign Relations Committee and a confidante of Presidents.

Senator Hickenlooper's political career produced many accolades.

"His voice always has been a steady one—a voice of conservatism, a voice of patriotism and a voice of decency," Senator Spessard Holland (Dem., Fla.) once said.

U.S. Senator Harold Hughes, who succeeded Mr. Hickenlooper in the Senate, said Saturday, "In nearly four decades of public service, Bourke Hickenlooper served his state and his country with uncommon ability and dedication. Iowans who mourn his passing today will long revere his memory."

"Faithful Servant"

Gov. Robert Ray called Senator Hickenlooper "a giant Iowan, a dedicated giant, a faithful servant of Iowa."

"First in the Legislature, then as governor and for 24 years as a United States Senator, Hick worked tirelessly for our people. Nearly half his life span was devoted to public service," said Ray.

"From the small community of Blackson on the Ringgold-Taylor County line, Hick rose to a position of tremendous respect and stature in the high councils of this nation.

"His death was a personal loss to me, and I am sad-

dened at the passing of a truly great American," said Ray. "At the same time, we all can be grateful for all the outstanding contributions this outstanding citizen made to his state and country."

Representative Wiley Mayne (Rep., Ia.) said Senator Hickenlooper was "a true statesman in every sense of the word, his leadership recognized by his colleagues in the Senate and valued by his constituents."

"I remember gratefully the encouragement and assistance he gave me through the years, especially when I first ran for Congress, and mourn the loss of a good friend."

Representative John Culver (Dem., Ia.) said Senator Hickenlooper's record of public service was "consistently characterized by loyalty and devotion to the principles to which he was dedicated."

—Since 1963, when he announced he would not run for a fifth term as senator, Senator Hickenlooper had continued to live in Chevy Chase, Md.

"Mrs. Hickenlooper died last Dec. 17 of a heart condition after a 2½-year illness."

Not long ago, Senator Hickenlooper sold his house and was waiting to move into an apartment in Washington, D.C., his daughter, Mrs. Jane Oberlin of Des Moines, said Saturday.

Visiting Friends

Friday he went to visit long-time friends, Mr. and Mrs. Harry Holthusen at their home on Shelter Island, off the tip of Long Island, Mrs. Oberlin said.

Senator Hickenlooper, who

had not been ill, complained of not feeling well Friday night and went to bed early after being examined by a physician, his daughter said.

Mrs. Holthusen found him dead in bed about 4:15 a.m. (Iowa time) Saturday.

Besides Mrs. Oberlin, Senator Hickenlooper is survived by a son, David, of Bloomfield, and four grandchildren.

The family suggests memorials to the Herbert Hoover Presidential Library at West Branch or to a charity of the donor's choice.

Senator Hickenlooper recently was named a director of the Hoover Library and "was very proud of that and looking forward" to his duties, Mrs. Oberlin said.

Papers at Library

Many of the senator's papers were sent to the Hoover Library when he retired, to be available for study.

Senator Hickenlooper received his bachelor's degree from Iowa State University and his law degree from the University of Iowa. He was a second lieutenant in the Army in World War I and served with a field artillery unit in France.

Senator Hickenlooper, regarded as a conservative Republican, had a career in Washington spanning the administrations of five Presidents, from Franklin D. Roosevelt through Lyndon B. Johnson. He served longer in the Senate than any other Iowan except William B. Allison, who was there from 1873 to 1908.

Calls Top Hitler Aide Soviet Spy

NEW YORK, N.Y. (AP)—Gen. Reinhard Gehlen, a former Nazi officer and head of the West German intelligence service after the war, reportedly claims in a forthcoming book that Martin Bormann, Adolf Hitler's top aide, was a Russian spy and that he died in the Soviet Union less than three years ago.

The revelation is one of many in the manuscript said to be the memoirs of Gehlen, 69, who retired in 1968.

According to reports in the New York Post and New York Times here Saturday, the book is being printed behind closed doors, in Mainz, and will be serialized beginning Sept. 10 in the conservative Hamburg newspaper, Die Welt.

In the book, Gehlen disputes earlier accounts of the fate of Bormann, which have presumed that he either died outside Hitler's Berlin bunker, or fled to hiding in South America.

The memoirs, citing unimpeachable reports, said Bor-

MARTIN BORMANN

mann fled to the Russian lines as the Soviets closed in on the bunker and was granted sanctuary in the Soviet Union.

Gehlen surrendered with his entire staff to Gen. George Patton. Under Hitler, Gehlen had served as chief intelligence officer of the Wehrmacht on the Russian front.

In 1947, the Central Intelligence Agency authorized him to head up the West German Secret Services.

Other portions of the manuscript reportedly reveal that:

—Gehlen was given \$6 million a year by the U.S. for 23 years to operate an anti-Communist espionage network.

—He helped found Israel's intelligence operations and ex-Nazis now are spying for that country against Arab nations.

—When Gehlen and a small group of German officers saw that defeat was inevitable even as Nazi armies were still advancing, he hid his espionage records, organized his close aides for future operations and fled to the mountains of Bavaria to await the end of the war.

The memoirs, whose existence has not been publicly acknowledged, also reportedly include a detailed analysis of Soviet political and military goals for the next two decades coupled with a plea for the buildup of military strength by western nations to contain Communist expansion.

Jetliner Skids Off Runway at Moline

MOLINE, ILL. (AP)—A United Airlines jetliner, bound from Los Angeles, Calif., to Baltimore, Md., skidded off the runway during a scheduled landing in Moline Saturday. There were no injuries. Authorities said the Boeing 727 aircraft, carrying 42 passengers and a crew of six, touched down on the 5,800-foot runway at Quad Cities Airport during a heavy rain storm. The plane went off the end of the runway by 500 feet. Its wheels became bogged down in the mud.

NEPAL TALKS

KATMANDU, NEPAL (REUTERS)—Indian Foreign Minister Swaran Singh arrived Friday on a three-day visit for talks with Nepalese leaders.

"You get us except maybe coming down I straight," I say sitting next to that hasn't been weeks. "Most though, we're thing things fit even notice."
