in their homes only a week ago had to remove their household goods and seek higher ground. The high water crept up during the night from watersheds of two miles of the river that has its headwaters in Concho county, about 100 miles west of here. Residents up the river telephoned A. Blasig, manager of the chamber of commerce, and a general alarm was given. Before daylight there was great activity as efforts were made to protect the town from a repetition of last year's flood that wrought \$350,000 property damage and made 200 persons homeless.

Established Cross headquarters, established last week to care for several hundred persons driven from their homes at that time, was hastily re-opened to receive families again coming from the lowlands along the river. A number of women and children were given shelter while the men assisted in preparations to protect the city.

Four hundred sheep were drowned in the railroad shipping pens. Flood water came within 100 yards of the business district but was receding. Houses were washed from two high camps. Three hundred feet of track were reported washed out between the Santa Fe between Valera and Talpa.

PROMINENT OTTUMWA WAS FORMER STATE REPRESENTATIVE.

Mr. Graham had been a patient in the local hospital since September 25. Heart disease was assigned as the cause of death.

Samuel L. Graham was born in Washington county, Pa. He attended the graded and high school in Washington and was a student at Washington and Jefferson college. He was graduated from Waynesburg college at Waynesburg, Pa., and later took a course in the Yale law school in constitutional and commercial law.

MISSOURI WEATHER.

Parana toward Colonia Mineira. But from the statements from both quarters it was believed that the federal and insurgent armies were in actual contact over a 200-mile front in an engagement which may mean a decisive reversal of advantage, or prolongation of the conflict while federal columns carry the conflict into the wilds of Rio Grande do Sul.

Dr. Getulio Vargas, president of Rio Grande do Sul, left Porto Alegre yesterday to assume direct charge of the revolutionary force probably making his headquarters at Curitiba, capital of Parana.

Two major movements appear to be under way today elsewhere in the republic. Capt. Jaurez Taveira who Saturday a week ago took Fribambuco, has taken Alagoas, its capital, Maceio, with his army of 3,000 and 2,000 volunteers. Captain Tavora announced that all of Brazil northeast of the Sao Francisco was in rebel hands and that he was advancing into the state of Bahia. He announced that the president of the state of Ceara, Mattos Peixoto, had been

Santa Monica, Calif., Oct. 13.—In a Sunday article I stated that at the dinner party was our cannibalism. I was wrong, as usual for I just learned of this cannibalism. Crossing the divide from Utah to Colorado in 1872, a man named Packard evidently practiced it. He was convicted in Del Norte, Colo., and the judge passed sentence as follows: "Packard, you have committed the world's most heinous crime. You not only murdered your companions, but you ate up every one of them. You are a democrat in Hillsdale county. You are to hang by the neck till you are dead, and may God have mercy on your republican soul." They live off the democrats but this is the only one we could ever

Jenkins also stated, under cross-examination, that he appeared before the Van Buren county grand jury in Keosauqua at the time the indictments were brought against Wiegner and other officers of the bar- ing institution.

The state may rest its case today or Wednesday. At that time a motion from the defense for a directed verdict in their favor will probably be made. In event of overruling of such a motion by Judge George W. Dashiell, defense counsel will then proceed with the examination of some thirty more witnesses.
