Proud Citizen of Wayne County

The August census is the last of the three pheasant counts conducted. This survey is conducted in every county of Iowa the first half of August. Starting at sunrise the Officers and Biologists drive slowly along a prescribed 30 mile route and count the number of cocks, hens and chicks seen. This survey is very important because it tells us how good the production of young was during the reproductive season. Of course, the better the hatch the better are the fall hunting prospects. Data collected from this years survey indicate no significant change from last years statewide pheasant population. These surveys not only follow the changes in pheasant numbers during any given year, but when conducted for many years they make it possible for us to follow the changes in ring-neck numbers and distribution all over the state.

Asa was a highly respected and well-loved member of the Gravel Ridge Community. He was born and lived his life of seventy-nine years on the same farm in that neighborhood. Throughout his youth though much of the time without parental guidance, Asa was a law unto himself, but he was not attracted by the restless and coarse ways of many with whom he had to make contact. Instead, he became an example boy and man, one from whom the best was expected and to whom all could turn with respect.

He attended school at Gravel Ridge and at the Kirksville Normal School.

He remained an incessant reader all his life. On January 3, 1915 he was united in marriage to Alice Marie Roberston, and immediately established his home on the farm formerly owned by his father.

Karl LeCompte Respected Corydon Citizen Is Taken

By ROBERT K. BECK

The Honorable Karl M. LeCompte, 85, Corydon's most illustrious citizen, newspaperman, Republican, politician, State Senator and U.S. Congressman, a true gentleman in every sense of the word, Wayne County civic leader, died very suddenly Saturday afternoon while in Centerville attending the annual Pancake Day festivities.

Death was attributed to a heart attack.

A member of the United States Congress for twenty years, he was well known throughout southern Iowa, indeed the state and the nation. He was first elected to the United States House of Representatives in 1938 and continuously served in that capacity until his voluntary retirement in 1958.

Widely known

Thus, while his roots and his first love rested in the Corydon community and the Wayne county area where he was born, reared and subsequently followed his newspaper profession, he was likewise on a first name basis with thousands of people in many communities and counties throughout Iowa.

He knew Presidents of the United States, high governmental officials at all levels and was a widely respected congressman who became a household name throughout his congressional district which spread from Creston to Newton to Bloomfield.

He was in Centerville Saturday to partake in the annual Pancake Day celebration. Just shortly before he died he reminisced with friends that he had attended each of the 24 Pancake Days except one in 1959 when he was hospitalized. "It's always a great day," he said with enthusiasm.

In good spirits

He was in good spirits and apparently good health as he greeted numerous friends. He had arrived about 11 a.m., stayed through the parade and watched the marching bands perform, and then prepared to return to Corydon. As his car reached the intersection at Haynes and State near the Elks Club he stopped the car, slumped over in his seat. An ambulance was summoned and he was taken to the hospital but he was pronounced dead upon arrival by Dr. M. G. Parks.

While he rose to great heights in the political arena, first serving as a State Senator, later in the United States Congress, his basic love was rural Iowa, his home community, and his newspaper, the Corydon Times-Republican.

Loved newspapering

He was content to enter his newspaper office, roll up his sleeves, pound out a news story, or set type on the linotype machine, and become a practicing country newspaper publisher-editor. He often said that printers ink was part of his blood. Publishing a newspaper was more than a responsibility, hard work and effort, it was an obligation, a great love affair, a way of life for Karl LeCompte.

*The Honorable Karl LeCompte
 1887-1972*

As he appeared as a U. S. Congressman

He was born into the newspaper profession. His father, C. F. LeCompte founded the Times-Republican just 100 years ago. For 95 of those years the Times-Republican remained within the LeCompte family, first his father, then Karl's brother, W. R. (Rollie) LeCompte, and in 1910 when Rollie passed away Karl, just graduated from the University of Iowa, returned home and joined his ailing father in publishing the T.R.

Mr. LeCompte retained the T.R. until 1967 when he sold it to News Consolidated Inc., simply because he had reached the age when he felt like he must pass along the burden of publishing a weekly newspaper.

Country newspaperman

Karl was recognized in the publishing profession as a true adherent of country newspapering. He liked names in print. He wanted his newspaper to stand for those things best for Wayne county. He was not ashamed to get printers ink on his hands, nor

hesitant to compose an ad, and sit down and peck-out a column or news story. He was meticulous about writing style and copy preparation.

He was recognized for his outstanding contribution to the profession by the Iowa Press Association in 1962 when he was awarded the highest honor in his profession, the Master-Editor Publisher Award which states that "He has worked hard, lived honorably, thought soundly, influenced unselfishly and is entitled to the highest honor in his profession." He was at one time a member of the Iowa Press Association Board of Directors.

He was in the newspaper profession during the days when he would ride a bicycle to the railroad station each day to get the names of people leaving and arriving to record personal items.

In 1912 the Times-Republican was consolidated with the Wayne County Democrat. In 1924 C. F. LeCompte died and Karl became the sole owner.

Elected to office

While the TR was a large part of Karl LeCompte's life, his still greater achievements were in the field of politics. He started his elective office career in 1916 when he was elected to the Iowa State Senate serving until 1920.

One thing that displayed so well his character was the fact that LeCompte voluntarily entered the army as a private during World War I. The country had declared war against Germany in 1917 and even though LeCompte had an exempt status because of his Senate position, he wanted to serve in uniform.

In 1919 he returned to his Senate duties. His father, now enjoying better health, operated the TR along with his son Karl.

Ran for Congress

Karl continued his active work with the Republican party but did not stand for office again until 1938. Congressman Lloyd Thurston of Osceola decided to contest for the U.S. Senate leaving his congressional post vacant. LeCompte tossed his hat in the ring, won a three-way primary contest, and then the general election in November.

As a member of the House of Representatives in the U.S. Congress he represented the fourth congressional district. He was noted for his prompt attention to constituency requests, his prolific letter-writing. People having birthdays and gaining unusual recognition always received a cordial note from their congressman.

Rathbun Dam connection

He was sent back to congress again and again, standing for ten elections and winning ten times. He was in congress when the Rathbun Dam project was authorized in 1954 and when the initial planning appropriation was made in 1956. Even though it was a highly controversial project in that day, LeCompte gave his approval to this action which started the project on its way to eventual completion.

He served under President Roosevelt, Truman and Eisenhower, knowing each. He likewise served with Richard Nixon while he was a congressman, later a U.S. Senator and Vice President of the United States.

Knew Nixon

When President Nixon was at the Rathbun dedication in 1971, the President spotted Mr. LeCompte in the massive crowd, made a special effort to reach for LeCompte's hand and extend greetings.

publisher's comments

By Roger Bryant

It was not my good fortune to know Karl LeCompte personally for a long while. However, my recent contacts with him had been numerous. Each week I tried to drop-in at Karl's downtown Corydon office just to visit, frequently talked newspapering, a profession he loved, or perhaps politics, or the community of Corydon, or a host of other things. I always felt refreshed and better enlightened after a chat with Karl.

I, of course, really knew Karl many years ago, but we just had not met. I knew of him as a former congressman, a distinguished citizen, as an elder statesman in the newspaper profession. His reputation was widespread.

My first meeting with Mr. LeCompte was last June at Snyder's Cafe. It had just been announced that I was coming to Corydon as the new T-R publisher. I had not as yet moved to Corydon or started working with the paper. So it was a chance meeting. We were personal strangers to one another, but we were introduced and he immediately made me feel very much

at ease in his presence. He was so cordial in his welcome, so interested in me and my family and expressed his desire to help in anyway possible. It was one of my early favorable impressions about Corydon and one of its most distinguished citizens.

I was aware, of course, of his rich background in the newspaper business and his long ownership of the Times-Republican. During our weekly visits he recounted some of his newspaper experiences, how he did about everything in the shop from running a linotype or the press or write a news story, edit copy, solicit ads. Even when he was busy with his congressional duties he would roll up his sleeves and get back into the printers ink when he returned to Corydon.

I quickly gained the impression during my weekly visits that he was a man interested in his community and its progress. He spoke of how pleased he was that young folks seemed to be taking so much interest in community activities.

I was talking with Nancy Coates about and she commented that in one era. She thought of him as a great

I was talking with Nancy Coates about
 Karl and she commented that in one
 way he represented the passing of an
 era. She thought of him as a great
 gentleman, one of the old school. He
 would quickly rise to his feet when a
 lady entered the room, she observed.
 He was always polite, certainly
 courteous.

In my visits with him he reflected
 occasionally about his congressional ca-
 reer, which I knew to be long and dis-
 tinguished. Somehow it seemed to me
 that he was a humble man. He knew
 Presidents. He knew important people.
 But he would leave you the impression
 that after all he was just another citi-
 zen.

I wish I could speak more adequately
 to Mr. LeCompte's great career and his
 life, but I have turned to others whom I
 know are people who have know him
 for many many years.

The article that we carry about Mr.
 LeCompte on the front page of the TR
 was written by a fellow newspaperman
 who had know Mr. LeCompte for years,
 know him as a publisher, as a con-
 gressman, as a person. The article
 is written by Robert K. Beck of Cen-
 terville, a newspaper colleague and long
 standing friend of Mr. LeCompte. It
 seems to me he is well qualified to
 write Karl's story.

I should like to call your attention to
 the picture page in this issue of the TR
 depicting the congressional career of
 Mr. LeCompte. You will find it
 interesting.

We've also collected comments from
 people in Corydon and elsewhere, each
 giving their observations.

Early Sunday morning John Clayton,
 a TR reporter, columnist and one who
 was tutored and worked with Karl Le-
 Compte contacted me. He had already
 voluntarily written his own comments
 about Mr. LeCompte, so this comes from
 a man who knew Karl in his newspaper
 profession. So the balance of this
 column will be Johnny Clayton's
 remarks.
