Ringsted Abandons nied by Evelyn Pone. And Project Interest and State Legis afore compiled by Collenteers and staff at the State Historical Society of low Library, Des Moines, downight

Des Moines, Ia., Jan. 20-INS-Attorney General Fred D. Everett today ordered county attorneys throughout the state "crack down" on violations of state gambling, beer and liquor

In a form letter to all county attorneys he advised them that they represented "the first line of defense against all criminal activities.

Everett called their attention to the sections of the code covering gambling and added:

"These statutes as amended | are very broad, and bring within their terms all gambling devices, including slot machines and any 'other machines used for gambling, or any slot machines or device with an element of chance attending such operation.' This, in our opinion, includes punchboard, punch cards, and every device of every kind and character 'with an element of chance attending such operations'."

He then called attention to the sections of the code relating to liquor enforcement which designate the county attorney as the head of the enforcement division. of the state liquor control commission, and the designation of sheriffs and police officers as supplementary aids to the county attorneys."

"It is now, and shall be," Everett said, "the continuing policy of the attorney general's office to insist upon the enforcement at all times of the laws of the state as they may be enacted by the legislature, and to this end we ask your cooperation, and this office will give you its full support.

"You will, of course, realize that specific reference to the above statutes should not be construed as any intimation that all the other criminal laws are not to be strictly enforced. We invite any service you may require of this office or of the state bureau of investigation to this end."
