his grandnephew, Mrs. J. J. Jolly, again, where they remained until Wednesday at 1 p. m., when they were taken to the family lot in the Spurgin cemetery, when after a fitting service they were laid to rest by the side of his companion and three of their children.—Pleasantville News.

LAFAYETTE JOLLY.

Last week Dr. Jolly suffered a stroke of paralysis which resulted in his death on Tuesday, Sept. 7. Dr. Jolly has been an invalid for the past twelve years as the result of a paralytic stroke which deprived him of the use of his lower limbs. He was one of the best known old settlers of this section of Marion county, and in past years was considered one of the most skillful medical practitioners. Also he was a former representative from Marion county in the state legislature. The funeral will be held this afternoon at 2 o'clock, the local Masonic lodge, of which Dr. Jolly was one of the oldest members, having charge of the services.—Pleasantville News.

SCOTT.

Mr. William Scott, member of 34th Iowa Inf., died August 5, 1909, at his home near Sanger, California, of internal cancer. He was a brother-in-law of Mrs. Wm. Moose and Mrs. S. A. Lake of this city.

SHEPHERD.

Mrs. John Shepherd, formerly of Knoxville, died at her home in Valley Junction, yesterday. The remains were brought to Knoxville last night. Burial to be at Pleasant Ridge cemetery. She was a daughter of the late Ed. Cottrell, of Dallas township.

marry on \$500 a year."

"And have a snug surplus," suggested her dad, "for such incidentals as grub and clothes and house rent."—Philadelphia Bulletin.

Still Possible.

"Uncle, can't I be a pirate when I grow up?"

"Sure you can, son. What do you want to pirate—books or plays?"—Louisville Courier-Journal.

The Critic.

"What do you think of this picture?"

"Rotten!"

"Why, it was taken from life."

"Pity the artist wasn't."—Cleveland Leader.

The trouble isn't with one slandering tongue so much as with a thousand listening ears.

"You should love your neighbor as yourself."

"But my wife won't let me have any affluities."—New York Press.

Saltmaking in Spain.

The Spanish method of producing salt, as employed near Cadiz, is by allowing the sun to evaporate the water from what are known as "pans," small ponds prepared for the purpose of a uniform depth of about eighteen inches. These are flooded directly from the sea three or four times a year, and in time there is left a deposit of about three inches of salt, which is piled in the open in the form of small pyramids until sold. This method has the advantage of being inexpensive and of not requiring machinery. The only requisites are a hot sun and a soil which will not permit the water to filter through, as the salt in solution would then be lost. Something depends also upon the analysis of the water. For instance, the water of the Mediterranean has a greater specific gravity than that of the Atlantic.

This third respects first place. States is on other flags seven red which is adopted but when the designer the flag, and six red seal today. sion whether changed to the flag, but it was been adopted "peace" flag depleted. its feathers black.
