— We print the Green paper on green paper this week for several reasons. First of all because green denotes life and growth. The Green paper is getting there. It is with a good feeling along. The paper we know it will be a special advantage, because every Democrat and Republican want in the country will be talking about it and many of them will want one. There's nothing to be being advertised. Nothing like having people talk about a paper. If they abuse him. If other people want to talk the paper to get with the or any look. Man's people have wondered why we publish every word and talk about it. We do it because it pays. It pays to be heard. We do it because certain fellows are turning you. It pays to have some know about you. As the Democrat and Republican are not lashed this week. If other enough extra copies to send to most of their readers so they shall not be without a local paper. Don't forget to get the green paper. Give it to your neighbors. Have them read it. When your copy is worn out, come in and get a new one. It's the only one that you can get. It's the only one that you can get. It's the only one that you can get. It's the only one that you can get.

— When you are tired of paying the price for goods, call on the Chicago Clothing Company. They have the best of the best.
