his constituents, Mr. Sheean receives their congratulations and those of his fellow members with becoming modesty, only assuring them that he does not court the task of ressur-recting another bill under like circumstances. Mr. Sheean introduced a bill last week to repeal the section of the mulct law requiring 65 per cent of the voters to sign a petition for a saloon and also the section requiring the consent of all property owners within 50 feet of a saloon site, making a majority petition sufficient, and requiring the consent of owners of adjoining property only. It is not at all certain that this bill will meet with the luck of the one spoken of above, but as Mr. Sheean has shown himself to be somewhat of a legislative hero, there is no telling what he may accomplish once he becomes thoroughly interested.

Death of Stephen King.

Stephen King died at his home in this city last Monday morning about 5 o'clock after a very brief illness which was brought to an end with only one night's duration.

Judge King, as he was commonly called, was born April 27, 1821, and died March 14, 1897, making him most seventy-seven years old at the time of his death.

In the early history of the county Mr. King settled here and has since that time been a prominent factor in both political and financial affairs. He was the first judge of Harrison county, was later elected to the position of superintendent of schools, county treasurer and county recorder. The deceased was a member of the Methodist church, as well a member of the Odd Fellows' and Masonic orders, and has always been held in high esteem by the members of all these organizations.

The funeral services took place Tuesday at 2 o'clock p. m., at the Methodist church, in charge of Chrysolite lodge A. F. and A. M., the remains being followed to their last resting place by a large cortege of friends.

has stood the disgraceful condition of affairs in Cuba, just as long as it intends to, and that if Spain does not at once voluntarily recognize the independence of Cuba, the United States will help the Cubans to force her to do so. This talk on this subject among congressmen is plain and outspoken, and practically all one way.

The new Spanish Minister talks as though the most important issue between Spain and the U. S. was the negotiation of a reciprocity commercial treaty, and says he expects the representatives of the alleged autonomy government of Cuba, who will have charge of all the interests of the island during the negotiations, to reach Washington in a few days. No one believes that such a farce as negotiation for a reciprocity treaty would be, under existing circumstances, will be allowed to begin by the administration, and the Minister is probably only indulging in such talk for the purpose of trying to impress us with the peaceable intentions of Spain toward us. He is wasting time. We know Spain's real attitude towards us—an attitude that has worked the American people up to such a pitch that the determination to thrash Spain has become universal among us.

Senator Jones, of Arkansas, voiced the almost unanimous sentiment of congress when he said concerning the report that a movement had been started with a view to bring about an alliance between England and the United States: "I do not think that there is anything in the report, for it would be one of the most foolish things this or any other administration ever undertook. In the first place, we do not need any alliance to conduct our own quarrels. We are able to take care of ourselves, and an alliance with some other power, particularly those on the other side of the water would be especially repugnant to the people of this country. I am confident

The basis of appeal for franchise lies & he very for all democracy.
