the miuling business and has been_offered a right good sum for his cjalm. Charley Rudd also is ont there in the same business and was offered $\$ 500$ for a small clalm he has. Good Inck to the boys.
-A. C. Lester, our County Recorder, -- copyrighted an Improved index for rds of deeds, mortgages, Judgments, otc. By his way of spacing and tabbing one ordinary book will Jast as long as two have heretofore. Wehope hils syztem will be appreciated and adopted generally.
-Shoes, shoes, shòes, stoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, shoes, thoes, shoes, the ta mous Drew, Selby \& Co'make, for Ladles, at Moore Bros.
-Now, listen to what we tell you. If yoil want the cholcest, nicest, freabest meats at all tlmes, and fullweight every time, go to Kinnick Bros.', south slde. You'll always find that. clever, accommodatling, gentlemanly fellow, Mr. West, to walt on you and you can rely on falr treatment in every instance. Mind what we tell you. Don't forget it.
Zoa-Phors is compounded solely for dis. eases ef women. Here it bas no equal.
-Geo. Carl is "getting in hls work" fine out at Sumner. A few days-ggo he sold a $\$ 1500$ blll ot finishing lumber for a house for one man. He figured against Hannibal, Kansas City, Chicago, Cun${ }^{2}$ Ingham, Oarrollton, and other polts
numerous to mention:. He knows nis"business protty theroughly and attends to it strictly.

- Last Frlday night a destructive fire occurred In Falrfield. Loss, a bout $\$ 30,000$. A force of fire fighters and a volunteer bücket brigade was all the protection they had. Bloomfield is In about the same shape. Perhaps our turn will come next and then everybody will be swearing becaase we've no flre englíe. Let us not be "penny wise and pound foollsh.". Let us have some preparation for ari event that Is likely to oceur any thmo,
Dafimond Dyes are so perfect and 80 beautiful that It is a pleasure to use them. Equally good for dark or light colors, 10 cents.
- In responise to some Inquirles con-: cerning his bnsiness, Jacob Detmuth furnlshes the following: He has shlpped - 53 car losids of hoops from Bloomfleld and West Grove; 130 'from Ottumwa; aid 20 from Milton. Théso were shipped to Chfesgo, the state prisons of Indiana and tilinols, and to London and Liverpool, England. He tellis us that the best two out of - 66 hoop shavers: 1 s George. Multon and Nelson Brown (colored).

Iton had shaved as thousand hoops tp Aprillst. He says he will oompete at the Cbleago and $8 t$ Loals falrs with the hoops of Mllton aud Brown. Jake ts dolng a big bustness. He is a splendid man, hard-woflyg and onergetic, and richly, dererves the success that. has ctosenese hiloweffperffitorial and State Legislator
yardis of dirt to do It. It is now ready for a fine residence which of course MrTrebllcock will put there. He may well feel proud of his location.
-The Bethodist festival last night was a success, soclally and financlaily. Gross recelpts were \$44.45. The Methodist $80^{-}$ clety owes the young ladles and all that lent their ald a vote of thanks for taking hold and ralsing money to repalr the old bullding that has for many years been Irrevérently and disrespectfally denominated a church.
-Jacob Ebe and Miss Libble Lough were married at the bride's home In this county last Thursday evening, and started for thelr future home in Californla Friday morning. Itis not our privilege to be acquainted wilth the groom, but we know the bride to be one of Davis countg's best girls. That:they may livelong and be happy is the wish of the Lzaal Tender.
-Jacob Stober was perhaps the happlest mäflast Friday that we have seen for some time. He had just pald off a $\$ 2500$ mortgage that the hard times of 78, and along there, compelled him to contract. To get clear of a mortgage is ennugh to make any man rejolce: We are sorry that every other man In thls conntry is not as fortunate as Bro. Stober.
--David Fergason, one of our oldest and best citizens, dled May 1st, at 5 p.m., and was buried yesterday atternoon, at the 'Odd Fellows' cometery. .Funeral services occurred at the house; at 2 p. m., and were conducted by Kev. Allender A large crowd of sympathizing friends. attended the funeral. Next week twe will publish a short blography of this good man. During his illness and till the last sad Ites "were, performed many kind friends volunteered their services in minIstering to the wants of the departed and In alding the bereaved ones, and on their behalf we return heartfelt thanks to all.
-Last Thursday night about 10 qualock. our friend Chris McAvoy met with a serlous accldent. He was out in his barn laking care of a horse that had got on a a wire fence. Had a lantern with him. Atter working awhlle he lay down and covered bimself with a quilt. In a few moments his lantern exploded, setting fire to everything In the barn. Three horses, 000 bushels corn, 200 bu. oats, considerable mill stuff, hay, harness, and other thinges.wers burned Iay In hls efforts to get his horses ory of the barn, Cbrls's hands were burned to a crlsp, his tace burned so the skin all come offi his halr, bls whlakers and eye-brows were all burned off, and his ears badly burned. The inside of his throde wes also burned. Drs. Stielton were summoned soon as possible. He is getting all right and is consldered out ot danger. Thls la a torrlble blow, to Chrls and all hea rtly sympathize with hlm.

## Odd Fellowship.

At the Odd Fellows' celebration al thelr hall In this elty April 26th, Rev. B. F. Soook detivered the opening address, a short extraot from which we print below. It does not do the Brother entire Justice, as we were not able to get the best'part of his speeoh, but what we haye is a credit to blm , and every,true member ot the orde: will feel thankful for his falthtul and able presentation of the pfaolples of the order. His remarks were as follows :
Ladies and Gentlemen:
We estecm it in an honor to speak in behalf of so just an Institution as Amegican Odd Fellowshlp.

Societles as well as nations glory in an antiquated origin.-Butin-this-praetical age, we rather glory in, utllity than in antiquity.

When we go to mill we seek the mill that does the best work. We'do not stop to lnquire how lung it has been running nor by whom it was bullt. When we harvest graln we no longer use the memorable slckle of the times of Father Abraham, but we employ. the improved machine ot the progress of the 19th century, As an organized society, American Odd Fellowship is of modern date.
Thomils Wildey, a great and : good man, planted thls beautiful tree on Amerlean soll. Arriving in the city of Balt!more he determined to establish this Institution in the New World. Aprll 2B, 1819, Lodge No. 1 was organized in the above city. As the vast mountalns are made of ilttle gralna of sand, as the broad Mississippl is made ot little brooks, as the tall oak is grown from the tiny acorn, so from the small beginning ot Lodge No. I of the 目ve true men, the principles of our sublime order have grown to a great tree, whose outatretch Ing branches afford refreshing shelter to the wayworn and . Weary of all natlons.
In 64 years we bave initlated a million men. We have relleved more than one-hundred-thousand widowed tamilies, and spent. thirty-million dollars in relier ot needy human sufferers:

Our present membership numbers more than 500,000 men. These are tound In Lodges scattered over the continent of America, in tbeyBritush Isles, Germany, Turkey, Swltzorland. South America, and ln the contluent of Atrica, as far remote as the cape of Good Hope. From the above it is apparent that Odd Fellowshlp is one of the great establlshed institations of the world. No institution of human origin has grown to such great results, so wide, so bigh, in so short a time.

That it is a great factor in our clvilizatlon to-day, that it is a lliving, actual foree for good, working with a feelling heart and belping hand to alleviate human ill, and to make the world better and happler, is a tact tally racognized by the best men-In our land.
What, therefore, are the principles that torm the inner lite of this great institu-
 recognize the existence of a great First Cause ot all thlnge.

## One of our Oldest and Best Citizens Gone.

One by one our old ploneers are leaving us. Davld Ferguson bld farewell to all things carthly Mlay 2d, and went to his long home. We know it is well with him for his life was a preparation for-lt.

Decensed born in Guernsey county, Ohlo, August 3d, 1S08, and remained there about 20 years. March 27, 1S33, he was married to Elizabeth Rodurlck, who proved a talthful companton to, hlm till his death. In June of that year he. came west and on the 10th of that month landed on the west bank of the Missisa slppl river. Slice'that time he has-lived In Vain Buren and Davla countles. In 1861 was elected to the lowa legislature from thls county; He was a charter member of Bloomfleld J oige, I. O. O. F., and remalned a member of the order till hls demise. In 1848 he moved on, the farm on which hedied, and lived there till he was culled home. He ralsed a famlly ot 8 boys and 3 girls, all of whom survive hlm. Thirteen grandcchlldret and seven chlldren atterided his funeral. His famlly have all tollowed the tootsteps of their father and mother and are all upright, useful citlzens.

Mr. Ferguson was among the first men we ever knew. We always found him the rame - plain, outspoken, bold and fearless In his opinions, ever upholding what he theught was right and condemning the wrong wherever he found It. He was a hard worker, a successful farmer, a publlo spirited man and always ready and willing to assist wherever be thought the good and welfare of the; people demanded It. The worla wis better for his having lived in it and sustained a great loss when he left It.e
-Geo: Welford, J. W. Pottorff and his two little yfothers tound a nest of young toxes a te v days ago. We have four of them on fxhibtion. They are, as the sayIng ts, "real cute." Soon as we can capo Iture a Republican or Democrat that will call at this oftice to see the oftical records on the bond and nontaxation-ot-national-bank-notes question we'll get up a comblattion and joln Barnum.

## NIP AND TUCK.

You should not fall to see Nip and Tuck at Taylor's Opera House to-night. It will be a rich treat for the people of Bloomfield, as they havo been hoaxed so much with "snlde" companles. Read the following press notices from all over the country:

Harry Webber's Nip and Tuck Comblnation 22d (second visit this season), to dillad dyweshartieersjandrstaffert thenstidty Histor ever prosented In this city. It is brimfull of sallent points.-Cor. N. Y. Mirror.

## Fortio Chrontele.

## IN MEMORIAM.

(Affectionately insaribed to the bereaved frlonds of our young brother, Henry Dunlavy.)

## By Lettiz Línden.

And is Henry dead? Oh! no it cannot be-
That blithe young form so full of energy;
Lles shrouded in the tomb-that brow so talr,
And laughing eyes and smile of beauty rare,
Can be no more; yes, his spirit has fled.
Then lay him gently down with earth's early dead
Tread allently, sottly, friends around bis bler:
Heap the clods lightly-a loved one lles here.

Ah! lles bepeath the grey icy sod.
Resting; hls spirit gone to God.
In ilfo's sweet springtime, the soul's most happy hour.
Evicr hence to bloom In heaven's fadeless bower.
He was naught to me of blood or kln,
But the beantiful soul whlch entered within
That manly form was lovely to see; This the tle which bound him to me.
Ah'! I seo hlm now' ns little ago he Societperdlowa Library, Des Moines, lowa.
Mong frlends, mid the gloamlng of the old grey wood.
on three sides, during most of my school dnys, hy raw prairie. If ithare herol rightly informed, much of the credit for the building of this school honse nut the policy upon which the school was conducted in those early days was the th l:ard-headed old Billy Carson and a few others who appreciated the ralue of education for their children, and seconded him in his plans.

The Ethell family was a numerous family in Davis county in the plonect days. There are none of the name left there now except my brother John and his family, and they had no part in the pioneer life.

Henry C. Ethell.

## DAVID FERGUSON

My father, David Ferguson, decended from a vigorous stock. His immedinte ancestors were mixed up in the troubles between Ireland and England. The land laws were such that the landlords were able to charge exorbitant rents, and it became difficult for the common people to get the use of suitalile and sufficient land to provide the necessary food for their families. The result wns that a constant and successive conflict was going on, often resulting in insurrections and armed revolt. About the same time England was having trouble with her American Colonies and the people of Ireland were strongly sympathetic with the Colonies. As a result of the persecutions in Ireland many of her people in one way or another, escaped and came to America. David Fergason's father was one of those who escaped. Those people largely settled in New England and some in the Southern Colonies. The vast quantities of land opened for settlement was what attracted them. Freedom from persecntiou and poverty was another dominant cause of emigration. They came with the map of Ireland on their faces. Many of them had enough Scotch blood in their reins to fit them as sturdy pioneers.

My grandfather was an Irish weaver and was a commissioned otlicer in the army in Ireland. He left without permission and came to America. By reason of that fact he never dared to go back. He worked for 7 years before he got money enough to send and bring his family over. Finally the family shipped by sail boat but were shipwrecked on the way and had to go hack. The next time they started the weather and sea were propitious and the family was reunited in Ohio in 1807. My father was the only child of the fumily born in America, and this was in 1808 in Ohio. He was married in Ohio and caine by steamboat to Iowa. They came down the Ohio and up the Mississippi to Davenport where they landed on the west bank of the river. Davenport then had only one log house. My father was a cabinet maker, had learned nis trade as a bound boy. His assets on landing was a set of cabinct and carpenter tools and $\$ 500$ in gold. A little later he came down to Fort Madison and worked driving oxen or any work he could find to do at that time. In 1839 be came to Van Buren county and located, and attended the first public land sale in Iowa Territory at Burlington and bought 160 acres of public land at $\$ 1.25$ per acre. His claim was selected about 3 miles northwest of Pittsburgh, near the Chequest. He and a neighbor went together to the Burlington land sale. He had $\$ 200$ in gold carrying it on his person. His companion was on horseback and he on foot. The gold was a solid weight to carry and his horse-
put the gold in the sack and was careful to tie the sack well. Shortly after the man fell behind along the road for a short time. When he finally caught up their attention was called to the fact that the sack was untied and the gold gone. They went back but failed to find any gold. M- father was then satisfied where the gold had gone and told the man to hand over that gold or be would take it from him by force. He showed by his manner that he meant pusiness and the man sheepishly and cowardly dng it up. Names could be given but the next generation might olject. They went on together to the land sale and my father used his $\$ 200$ to pay for his land.

Father built a $\log$ cabin and being a carpenter was able to put in more conveniences than most of his neighbors. His ox team did the farming and he bad time to do a good deal of earpenter work for others. They raised what they ate, made bread from corn parched by the fire and ground in a coffee mill. The fireplace took the place of a stove, a long legged skillet with an iron lid covered with hot coals cooked much of the food. Corn bread, called .Johnny cakes, were baked on a board placed near the fire and when done were about 3 inches wide, 18 inches long and half inch thick. Sometimes one of these hard baked ones, left over, was nsed to paddle the children. My father took some granite nigger heads and made the first pair of burrs in the nelghborhood, put up the frame, the sweep and with an ox team started the little mill. Some of the neighbors gathered in to see the first grist of meal and insisted that my father have the first output. But the burrs were rough and there was so much grit got into the meal that it was not eatable. My father bought a cow for $\$ 7.50$ and paid for her by splitting rails at $\$ 1.25$ per thousand. He was elected from Van Buren County to the Territorial Legislature in Iowa. Here is a cony of an old tax receipt given him in that County.
"Received of David Ferguson thirty cents, his tax for the year one thousand eight hundred and thirty-nine.

Chas. HL. King, Deputy Sheriff V. B. Co.-I. T,"
The coming into sale of Davis County laud had its appenl and father sold out and moved here in 1844. He purchased a farm about 3 miles northeast of Bloomfield and there he lived until his death in 1883. That farm was well located and right on the Mormon trail made some years later. 'There was a one room $\log$ cabin and he added another room, and with the loft it became a comfortable home for his large family of 12 children. He made the improvement and esed his tools, a carpenter set, shaying horse and drawing knife, a frow for riving clapboards and shingles and in the house the implements for spinning and weaving. He would make the beam, handles and wooden mould hoard for plows and Billy D. Evans would make the iron plow shares. They also made shovel plows and other farm implements. He put out the first orchard in the neighborhood with the fine early varieties of apples and did his own grafting. Near us in the grove was a permanent camp ground for religious meetings wilh a well and necessary room for tents and campers. During my time I saw them cut the small grain with a hand sickle and remember of some late immigrants from Switzerland going after the hands and gleaning any grain dropped in the field. It reminds one of Ruth the gleaner of Bible times. The threshing of grain was done with flail or tramped out by oxen or horses. A spot of solid ground was selected and cleaned off, or a space on the barn floor. The wheat or rye was piled on the place and the horses or oxen were
driven or led over it until the grain was tramped out. The grain was thet thrown up and the chaff blown avay by the wind. The grain was thus prepared for the mill. We laid off the ground with shovel plow, dropped the corn hy hand and covered it with hoes. My father and Mr. Ad Brewster made the first cane mill about 1857, of wood, and it took lots of soft soap to keep it from screeching. They made sorghum for the neighbors far and near. I remember of the hog buyers passing in winter with large droves of fat hogs, going to the river market. They often stopped over night with us. Father always had pens for use and corn to sell and we children always had jolly times listening to the wild west stories of these men. Isaac Siwinney was an early hog buyer in the neighborhood. He would load into his wagon a large pair of steelyard scales and frame large enough to hold and weigh one hog at a time, would go from farm to farm, buy and weigh each lot, pay cash at the time and have the hogs driven to his place over north.

The place selected for the town of Richmond was a community center for years. It furnished a good play ground and we used to meet there for our sports and games-town ball, black man, bull pen, and ring-around-a-rosy. The old and young made it a place of pastime and holidays. In 1857 my father was elected as a member of the Legislature from this County. The Judges of Election brought the books and ballots to our house to be counted. My mother cooked supper for them. At that election Harvey Dunlavy and James Pollard were also elected as members from this County. They went to Des Moines in a bob-sled and came home at the end of the session on a steamboat as far as Ottumwa. That was going some. I heard my father say thrt a Resolutiou wan offered, giving to Geovernor Kirkwood full power, really unlimited power, to do anything he might deem necessary concerning war matters. His was the only opposing vote and that was because he thought such a power was too great to give any man and resembled the powers of a King. The Civil War made necessary Internal Revenue taxes on all businesses almost. Here is a copy of a Revenue Receipt given him at the time:
"United States Internal Revenue, Collector's Office, District, State of Iowa, February 7, 1865. Received of D. Ferguson of Bloomfield the sum of forty cents in full for his Excise Tax on Slaughtering, as per Dec. list of the Assessor of said District sent to me for collection for the year ending 1865.
E. T. Cole, Dept. Collector."

From this account given from hearsay in past and largely from memory, it will be seen that my father and mother knew all the hardships and sacrifices of the early pioneers. They raised a large family of sturdy children who helped to develop Davis County. Doctor Clay Young of Bloomfield and Kenneth Baldridge, editor of the Bloomfield Democrat, are two of the grandsons, and Mrs. Maude Welch, wife of Arthur B. Welch, druggist, Is one of the granddaughters.

Frank W. Ferguson.

## DANIEL HEADRICK

My father and mother were Kentuckians. I was named for my father. The first move was to Indiana and next to the new Iowa Territory. The immigration to the Territory had then attracted many, as the reports of the prospects were flattering. My father made the trip and purchased a claim of 120 acres about three milles southwest of Bloomficld, with a one room $\log$ eabin
