**About FamilySearch Pedigree Resource File:**

The Pedigree Resource File is a new lineage linked database of records available on compact disc containing family history records submitted by individuals through FamilySearch Internet Genealogy Service. Family information is organized in family groups and pedigrees and includes submitted notes and sources. Many charts and reports can be printed from this data. Each disc contains about 1.1 million names. With the publication of every five discs, a master index for those discs will be published and packaged with that set of discs. With the publication of every 25 discs, a master index for those discs will also be published and packaged with that volume of discs. Discs may be purchased as sets or volumes.

---

**Please Note:**

Submitter information is provided to help in the coordination of personal family history research. Use of this information for any other purpose, including marketing, advertising, or commercial solicitation, is strictly prohibited.
