## PREFACE TO 2019 IOWA CODE

IOWA CODE — ANNUAL ELECTRONIC PUBLICATIONS — BIENNIAL PRINTED HARDBOUND VOLUMES. This Iowa Code is published pursuant to Iowa Code chapters 2A and 2B by the Legislative Services Agency. An official copy in PDF format and an unofficial, more user-friendly and searchable version of the Iowa Code are published following each regular session of a General Assembly on the Internet and on the Iowa Law Infobase. Printed hardbound volumes of the Iowa Code and the Tables and Indexes are published following the second regular session of a General Assembly.

CODE CONTENTS AND EFFECTIVE AND APPLICABILITY DATES. This 2019 Iowa Code includes all enactments with a January 1, 2019, or earlier effective date from the 2018 Session of the Eighty-seventh Iowa General Assembly and includes enactments from prior sessions that were effective on or before that date. Unless otherwise indicated in the text or in a footnote, new sections, amendments, and repeals from the 2018 Session were effective on or before July 1, 2018. Refer to specific enactments to determine effective and applicability dates not shown. The Table of Contents enumerates the titles and subtitles in this Iowa Code, and each volume contains an analysis by title, subtitle, and chapter. Republished, codified and original versions of the Constitution of the State of Iowa are included at the beginning of Volume I.

EDITORIAL DECISIONS. All duplicative or nonconflicting amendments to a Code section or part of a Code section were harmonized as required under Iowa Code sections 2B.13 and 4.11. A strike or repeal prevailed over an amendment to the same material. If amendments were irreconcilable, the last amendment in the Act, or latest in date of enactment, was codified as provided in Iowa Code sections 2B.13 and 4.8. Code Editor's Notes at the end of Volume VI explain editorial decisions. Iowa Code section 2B.13 governs editorial changes and their effective dates.

HISTORIES AND NOTES. Bracketed material at the end of Code sections traces the sections' histories up through 1982. Beginning with the 1983 Legislative Session, Code section histories are traced by citing all Iowa Acts amending or enacting the Code sections. The history of a transferred section includes the publication year and the Code section from which the transfer took place. An explanatory note describing the most recent changes in each new, amended, or revised Code section follows the history. Internal reference citations follow Code titles, subtitles, chapters, chapter subunits, or sections.

TABLES AND INDEXES. A separate Tables and Indexes volume is published annually and contains conversion tables of Senate and House files and Joint Resolutions to Iowa Acts chapters, tables of disposition of Iowa Acts, tables of Code sections altered, tables of corresponding sections, an Iowa Constitution Index, a General Index, and a Skeleton Index.

EDITORIAL STAFF. The 2019 Iowa Code senior legal editorial staff included Ed Cook, Senior Legal Counsel; Michael Duster, Senior Legal Counsel; Rachele Hjelmaas, Legal Editor; John Heggen, Legal Editor; and Nicholas Schroeder, Legal Counsel. The editorial staff of the Iowa Code welcomes comments and suggestions for improvements.

2. A special session of the general assembly shall be designated as an extraordinary session in the particular year of a numbered general assembly.

## 2B.17 Official legal publications — citations.

1. An official legal publication designated as such by the legislative services agency as provided in sections 2.42 and 2A.1, is the official and authoritative version of the statutes, administrative rules, or court rules of the state of Iowa.

2. a. The codified version of the state's constitution shall be known as the Constitution of the State of Iowa.  
b. For statutes, the official versions of publications shall be known as the Iowa Acts, the Iowa Code, and the Code Supplement for supplements for the years 1979 through 2011.

c. For administrative rules, the official versions of the publications shall be known as the Iowa Administrative Bulletin and the Iowa Administrative Code.

d. For court rules, the official version of the publication shall be known as the Iowa Court Rules.

3. The legislative services agency may adopt a style manual providing a uniform system of citing the codified Constitution of the State of Iowa and the official versions of publications listed in subsection 2, including by reference to commonly accepted legal sources. The legislative services agency style manual may provide for a different form of citation for electronic and printed versions of the same publication. Nothing in this section affects rules for style and format adopted pursuant to section 2.42.

4. The codified Constitution of the State of Iowa, and statutes enacted and joint resolutions enacted or passed by the general assembly shall be cited as follows:

a. The codified Constitution of the State of Iowa shall be cited as the Constitution of the State of Iowa, with a reference identifying the preamble or boundaries, or article, section, and subunit of a section. Subject to the legislative services agency style manual, the Constitution of the State of Iowa may be cited as the Iowa Constitution.

b. The Iowa Acts shall be cited as the Iowa Acts with a reference identifying the year of the publication in conformance with section 2.2, and the chapter of a bill enacted or joint resolution enacted or passed during a regular session, or in the alternative the bill or joint resolution chamber designation, and the section of the chapter or bill or subunit of a section. A bill or joint resolution enacted or passed during a special session shall be cited by the extraordinary session designation in conformance with section 2.2. If the Iowa Acts have not been published, a bill or joint resolution may be cited by its bill or joint resolution chamber designation.

c. The Iowa Code shall be cited as the Iowa Code. Supplements to the Iowa Code published for the years 1979 through 2011 shall be cited as the Code Supplement. Subject to the legislative services agency style manual, the Iowa Code may be cited as the Code of Iowa or Code and the Code Supplement may be cited as the Iowa Code Supplement, with references identifying parts of the publication, including but not limited to title or chapter, section, or subunit of a section. If the citation refers to a past edition of the Iowa Code or Code Supplement, the citation shall identify the year of publication. The legislative services agency style manual shall provide for a citation form for any supplements to the Iowa Code published after the year 2013.

5. Administrative rules shall be cited as follows:

a. The Iowa Administrative Bulletin shall be cited as the IAB, with references identifying the volume number which may be based on a fiscal year cycle, the issue number, and the ARC number assigned to the rulemaking document by the administrative rules coordinator pursuant to section 17A.4. Subject to the legislative services agency style manual, the citation may also include the publication's page number.

b. The Iowa Administrative Code shall be cited as the IAC, with references to an agency's identification number placed at the beginning of the citation and with references to parts of the publication, including but not limited to chapter, rule, or subunit of a rule.

6. The Iowa Court Rules shall be cited as the Iowa Court Rules, with references to the rule number and to subunits of the publication, which may include but are not limited to the Iowa Rules of Civil Procedure, the Iowa Rules of Criminal Procedure, the Iowa Rules of Evidence, the Iowa Rules of Appellate Procedure, the Iowa Rules of Professional Conduct, and the Iowa Code of Judicial Conduct. Subject to the legislative services agency style manual, the names of the rules may be abbreviated.

Chapters of the Code are cited as whole numerals; as chapter 135 or chapter 135A.

Sections are cited as decimal numerals; as section 135.101 or section 135A.2. Sections are often divided into subunits. The following is an example of the hierarchical structure of a Code section:

Section: 8C.7A	Subparagraph division: (a)
Subsection: 3	Subparagraph subdivision: (iv)
Paragraph: c	Subparagraph part: (A)
Subparagraph: (3)	Subparagraph subpart: (I)

The above Code section example may be abbreviated as 8C.7A(3)(3)(a)(iv)(A)(I).

2. Constitute the state board for career and technical education under chapter 258.

3. Procedures provided for approval of programs shall include procedures for enforcement of the prescribed standards and shall not include a procedure for the waiving of any of the standards prescribed. The board may establish by rule and collect from practitioner preparation institutions located outside this state an amount equivalent to the department's necessary travel and actual expenses incurred while engaged in the program approval process for the institution located outside this state. Amounts collected under this subsection shall be deposited in the general fund of the state.

4. Adopt, and update annually, a five-year plan for the achievement of educational goals in Iowa.

5. Adopt rules under chapter 17A for carrying out the responsibilities of the department.

6. Hear appeals of persons aggrieved by decisions of boards of directors of school corporations under chapter 290 and other appeals prescribed by law. The state board may review the record and shall review the decision of the director of the department of education or the administrative law judge designated for any appeals heard and decided by the director under chapter 290, and may affirm, modify, or vacate the decision, or may direct a rehearing before the director.

7. Adopt rules under chapter 17A for the use of telecommunications as an instructional tool for students enrolled in kindergarten through grade twelve and served by local school districts, accredited or approved nonpublic schools, area education agencies, community colleges, institutions of higher education under the state board of regents, and independent colleges and universities in elementary and secondary school classes and courses. The rules shall include but need not be limited to rules relating to programs, educational policy, instructional practices, staff development, use of pilot projects, curriculum monitoring, and the accessibility of licensed teachers.

a. When curriculum is provided by means of telecommunications, it shall be taught by an appropriately licensed teacher. The teacher shall either be present in the classroom, or be present at the location at which the curriculum delivered by means of telecommunications originates.

b. The rules shall provide that when the curriculum is taught by an appropriately licensed teacher at the location at which the telecommunications originates, the curriculum received at a remote site shall be under the supervision of a licensed teacher. The licensed teacher at the originating site may provide supervision of students at a remote site or the school district in which the remote site is located may provide for supervision at the remote site if the school district deems it necessary or if requested to do so by the licensed teacher at the originating site. For the purposes of this subsection, “*supervision*” means that the curriculum is monitored by a licensed teacher and the teacher is accessible to the students receiving the curriculum by means of telecommunications.

c. The state board shall establish an advisory committee to make recommendations for rules required under this subsection on the use of telecommunications as an instructional tool. The committee shall be composed of representatives from community colleges, area education agencies, accredited or approved nonpublic schools, and local school districts from various enrollment categories. The representatives shall include board members, school administrators, teachers, parents, students, and associations interested in education.

8. Rules adopted under this section shall provide that telecommunications shall not be used by school districts as the exclusive means to provide any course which is required by the minimum educational standards for accreditation.

9. Develop evaluation procedures that will measure the effects of instruction by means of telecommunications on student achievement, socialization, intellectual growth, motivation, and other related factors deemed relevant by the state board, for the development of an educational database. The state board shall consult with the state board of regents and the practitioner preparation departments at its institutions, other practitioner preparation departments located within private colleges and universities, educational research agencies or facilities, and other agencies deemed appropriate by the state board, in developing these procedures.

10. Adopt rules pursuant to chapter 17A relating to educational programs and budget limitations for educational programs pursuant to sections 282.29, 282.30, 282.31, and 282.33.

11. Prescribe guidelines for facility standards, maximum class sizes, and maximum in classroom pupil-teacher and teacher-aide ratios for grades kindergarten through three and before and after school and summer child care programs provided under the direction of the school district. The department also shall indicate modifications to such guidelines necessary to address the needs of at-risk children.

12. Elect to a two-year term, from its members in each even-numbered year, a president of the state board, who shall serve until a successor is elected and qualified.

13. Adopt rules and a procedure for accrediting all apprenticeship programs in the state which receive state or federal funding. In developing the rules, the state board shall consult with schools and labor or trade organizations affected by or currently operating apprenticeship or training programs. Rules adopted shall be the same or similar to criteria established for the operation of apprenticeship programs at community colleges.

14. Require each community college which establishes a new jobs training project or projects and receives funds derived from or associated with the project or projects to establish a separate account to act as a repository for any funds received.

15. Reserved.

16. Adopt rules that set standards for approval of family support preservice and in-service training programs, offered by area education agencies and practitioner preparation institutions, and family support programs offered by or through local school districts.

17. Receive and review the budget and unified plan of service submitted by the division of library services.

18. Adopt rules that include children who retain some sight but who have a medically diagnosed expectation of visual deterioration within the definition of children requiring special education pursuant to section 256B.2, subsection 1. Rules adopted pursuant to this subsection shall provide for or include, but are not limited to, the following:

a. A presumption that proficiency in braille reading and writing is essential for satisfactory educational progress for a visually impaired student who is not able to communicate in print with the same level of proficiency as a student of otherwise comparable ability at the same grade level. This presumption includes a student as defined in paragraph "b". A student for whom braille services are appropriate, as defined in this subsection, is entitled to instruction in braille reading and writing that is sufficient to enable the pupil to communicate with the same level of proficiency as a pupil of otherwise comparable ability at the same grade level.

b. A pupil who retains some sight but who has a medically diagnosed expectation of visual deterioration in adolescence or early adulthood may qualify for instruction in braille reading and writing.

c. Instruction in braille reading and writing may be used in combination with other special education services appropriate to a pupil's educational needs.

d. The annual review of a pupil's individual education plan shall include discussion of instruction in braille reading and writing and a written explanation of the reasons why the pupil is using a given reading and writing medium or media. If the reasons have not changed since the previous year, the written explanation for the current year may refer to the fuller explanation from the previous year.

e. A pupil as defined in paragraph "b" whose primary learning medium is expected to change may begin instruction in the new medium before it is the only medium the pupil can effectively use.

f. A pupil who receives instruction in braille reading and writing pursuant to this subsection shall be taught by a teacher licensed to teach students with visual impairments.

19. For a school or school district with a school calendar measuring instructional time in days pursuant to section 279.10, subsection 1, define the minimum school day as a day consisting of six hours of instructional time for grades one through twelve. The minimum hours shall be exclusive of the lunch period, but may include passing time between classes. Time spent on parent-teacher conferences shall be considered instructional time. A school or school district may record a day of school with less than the minimum instructional hours as a minimum school day if any of the following apply:

a. If emergency health or safety factors require the late arrival or early dismissal of students on a specific day.

b. If the total hours of instructional school time for grades one through twelve for any five consecutive school days equal a minimum of thirty hours, even though any one day of school is less than the minimum instructional hours because of a staff development opportunity provided for the professional instructional staff or because parent-teacher conferences have been scheduled beyond the regular school day. Furthermore, if the total hours of instructional time for the first four consecutive days equal at least thirty hours because parent-teacher conferences have been scheduled beyond the regular school day, a school or school district

may record zero hours of instructional time on the fifth consecutive school day as a minimum school day.

20. Adopt rules that require the board of directors of a school district to waive school fees for indigent families.

21. Develop and adopt rules incorporating accountability for, and reporting of, student achievement into the standards and accreditation process described in section 256.11. The rules shall provide for all of the following:

a. Requirements that all school districts and accredited nonpublic schools develop, implement, and file with the department a comprehensive school improvement plan that includes, but is not limited to, demonstrated school, parental, and community involvement in assessing educational needs, establishing local education standards and student achievement levels, and, as applicable, the consolidation of federal and state planning, goal-setting, and reporting requirements.

b. A set of core academic indicators in mathematics and reading in grades four, eight, and eleven, a set of core academic indicators in science in grades eight and ten, and another set of core indicators that includes but is not limited to graduation rate, postsecondary education, and successful employment in Iowa. Annually, the department shall report state data for each indicator in the condition of education report.

(1) Rules adopted pursuant to this subsection shall specify that the statewide summative assessment of student progress administered by school districts for purposes of the core academic indicators shall be the summative assessment developed by the Iowa testing program within the university of Iowa college of education and administered by the Iowa testing program's designee.

(2) For the school year beginning July 1, 2018, and each succeeding school year, the rules shall also require all of the following:

(a) That all students enrolled in school districts in grades three through eleven be administered an assessment in mathematics and English language arts, including reading and writing, during the last quarter of the school year and all students enrolled in school districts in grades five, eight, and ten be administered an assessment in science during the last quarter of the school year.

(b) That the assessment, at a minimum, assess the core academic indicators identified in this paragraph "b"; be aligned with the Iowa common core standards in both content and rigor; accurately describe student achievement and growth for purposes of the school, the school district, and state accountability systems; provide valid, reliable, and fair measures of student progress toward college or career readiness; and meet the summative assessment requirements of the federal Every Student Succeeds Act, Pub. L. No. 114-95.

(c) That the assessment be available for administration in both paper-and-pencil and computer-based formats and include assessments in mathematics, science, and English language arts, including reading and writing.

(d) That the assessment be peer-reviewed by an independent, third-party evaluator to determine that the assessment is aligned with the Iowa core academic standards, provides a measurement of student growth and student proficiency, and meets the summative assessment requirements of the federal Every Student Succeeds Act, Pub. L. No. 114-95. The assessment developed by the Iowa testing program within the university of Iowa college of education shall be adjusted as necessary to meet the requirements of this subparagraph (2) as determined by the peer review.

22. Adopt rules and a procedure for the approval of para-educator preparation programs offered by a public school district, area education agency, community college, institution of higher education under the state board of regents, or an accredited private institution as defined in section 261.9, subsection 1. The programs shall train and recommend individuals for para-educator certification under section 272.12.

23. Adopt rules directing the community colleges to annually and uniformly submit data from the most recent fiscal year to the division of community colleges and workforce preparation, using criteria determined and prescribed by the division via the management information system.

a. Financial data submitted to the division by a community college shall be broken down by fund.

b. Community colleges shall provide data to the division by a deadline set by the division. The deadline shall be set for a date that permits the division to include the data in a report submitted for state board approval and for review by December 15 of each year by the house and senate standing education committees and the joint subcommittee on education appropriations.

c. The department shall include a statewide summary of the financial data submitted in accordance with paragraph "a" in the annual condition of community colleges report, which upon approval of the state board, shall be submitted to the general assembly on or before February 1 of each year.

24. Adopt rules on or before January 1, 2001, to require school districts and accredited nonpublic schools to adopt local policies relating to health services, media services programs, and guidance programs, as part of the general accreditation standards applicable to school districts pursuant to section 256.11. This subsection shall be applicable strictly for reporting purposes and shall not be interpreted to require school districts and accredited nonpublic schools to provide or offer health services, media services programs, or guidance programs.

25. Adopt rules establishing standards for school district and area education agency professional development programs and for individual teacher professional development plans in accordance with section 284.6.

26. a. Adopt rules that establish a core curriculum and high school graduation requirements for all students in school districts and accredited nonpublic schools that include at a minimum satisfactory completion of four years of English and language arts, three years of mathematics, three years of science, and three years of social studies.

(1) The rules establishing high school graduation requirements shall provide that any student, at any grade level, who satisfactorily completes a high school-level unit of instruction at a school accredited under section 256.11 has satisfactorily completed a unit of the high school graduation requirements for that area of instruction and the school district or accredited nonpublic school of enrollment shall issue high school credit for the unit to the student unless the student is unable to demonstrate proficiency or the school district or accredited nonpublic school determines that the course unit completed by the student does not meet the school district's or accredited nonpublic school's standards, as appropriate. If a student is denied credit under this subparagraph, the school district or accredited nonpublic school denying credit shall provide to the student's parent or guardian in writing the reason for the denial.

(2) The rules shall allow a school district or accredited nonpublic school to award high school credit to an enrolled student upon the demonstration of required competencies for a course or content area, as approved by a teacher licensed under chapter 272. The school district or accredited nonpublic school shall determine the assessment methods by which a student demonstrates sufficient evidence of the required competencies.

(3) The rules establishing a core curriculum shall address the core content standards in subsection 28 and the skills and knowledge students need to be successful in the twenty-first century. The core curriculum shall include social studies and twenty-first century learning skills which include but are not limited to civic literacy, health literacy, technology literacy, financial literacy, family life and consumer sciences, and employability skills; and shall address the curricular needs of students in kindergarten through grade twelve in those areas. The state board shall further define the twenty-first century learning skills components by rule.

(4) The rules shall provide for the establishment of high-quality standards for computer science education taught by elementary, middle, and high schools, in accordance with the goal established under section 284.6A, subsection 1, setting a foundation for personal and professional success in a high-technology, knowledge-based Iowa economy. Such rules shall be applicable only to school districts and accredited nonpublic schools receiving moneys from the computer science professional development incentive fund under section 284.6A, or from other funds administered by the department for the same purposes as specified in section 284.6A, subsection 2.

b. Continue the inclusive process begun during the initial development of a core curriculum for grades nine through twelve including stakeholder involvement, including but not limited to representatives from the private sector and the business community, and alignment of the core curriculum to other recognized sets of national and international standards. The state board shall also recommend quality assessments to school districts and accredited nonpublic schools to measure the core curriculum.

c. Neither the state board nor the department shall require school districts or accredited nonpublic schools to adopt a specific textbook, textbook series, or specific instructional methodology, or acquire specific textbooks, curriculum materials, or educational products from a specific vendor in order to meet the core curriculum requirements of this subsection or the core content standards adopted pursuant to subsection 28.

27. Adopt by rule the Iowa standards for school administrators, including the knowledge and skill criteria developed by the director in accordance with section 256.9, subsection 47.

28. Adopt a set of core content standards applicable to all students in kindergarten through grade twelve in every school district and accredited nonpublic school. For purposes of this subsection, “*core content standards*” includes reading, mathematics, and science. School districts and accredited nonpublic schools shall include, at a minimum, the core content standards adopted pursuant to this subsection in any set of locally developed content standards. School districts and accredited nonpublic schools are strongly encouraged to set higher expectations in local standards. As changes in federal law or regulation occur, the state board is authorized to amend the core content standards as appropriate.

29. Adopt rules establishing nutritional content standards for foods and beverages sold or provided on the school grounds of any school district or accredited nonpublic school during the school day exclusive of the food provided by any federal school food program or pursuant to an agreement with any agency of the federal government in accordance with the provisions of chapter 283A, and exclusive of foods sold for fundraising purposes and foods and beverages sold at concession stands. The standards shall be consistent with the dietary guidelines for Americans issued by the United States department of agriculture food and nutrition service.

30. Set standards and procedures for the approval of training programs for individuals who seek an authorization issued by the board of educational examiners for the following:

b. Employment as a school administration manager responsible for assisting a school principal in performing noninstructional duties.

31. a. Adopt by rule guidelines for school district implementation of section 279.68, including but not limited to basic levels of reading proficiency on approved locally determined or statewide assessments and identification of tools that school districts may use in evaluating and reevaluating any student who may not be or who is determined not to be reading proficiently and is persistently at risk in reading, including but not limited to initial assessments and subsequent assessments, alternative assessments, and portfolio reviews. The state board shall adopt standards that provide a reasonable expectation that a student’s progress toward reading proficiency under section 279.68 is sufficient to master appropriate grade four level reading skills prior to the student’s promotion to grade four.

b. Adopt rules for the Iowa reading research center and for implementation of the intensive summer literacy program developed and administered pursuant to section 256.9, subsection 49.

c. Adopt rules to establish standards for the identification, selection, and use of research-based educational and instructional models for students identified as limited English proficient, and standards for the professional development of the instructional staff responsible for implementation of those models.

Measurement of such progress shall account for specific characteristics of each enrolled student, including but not limited to age and course credit accrued prior to enrollment in educational instruction and course content that are delivered primarily over the internet, and shall be consistent with evidence-based best practices.

(2) The department shall compile and review the data collected pursuant to this paragraph "b" and shall submit its findings and recommendations for the continued delivery of educational instruction and course content by school districts delivered primarily over the internet, in a report to the general assembly by January 15 annually.

(d) At the direction of the state board of education.

(e) The school budget review committee submits to the department a recommendation for a fiscal review pursuant to section 257.31, subsection 18.

(2) The number and composition of the membership of an accreditation committee shall be determined by the director and may vary due to the specific nature or reason for the visit. In all situations, however, the chairperson and a majority of the committee membership shall be from the instructional and administrative program specialty staff of the department of education. Other members may include instructional and administrative staff from school districts, area education agencies, institutions of higher education, local board members and the general public. An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the nonpublic school or school district being visited.

(3) Rules adopted by the state board may include provisions for coordination of the accreditation process under this section with activities of accreditation associations.

(4) Prior to a visit to a school district or nonpublic school, members of the accreditation committee shall have access to all annual accreditation report information filed with the department by that nonpublic school or school district.

(5) After visiting the school district or nonpublic school, the accreditation committee shall determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation whether the school district or nonpublic school shall remain accredited. If the recommendation is that a school district or nonpublic school not remain accredited, the accreditation committee shall provide the school district or nonpublic school with a report that includes a list of all of the deficiencies, a plan prescribing the actions that must be taken to correct the deficiencies, and a deadline date for completion of the prescribed actions. The accreditation committee shall advise the school district or nonpublic school of available resources and technical assistance to improve areas of weakness. The school district or nonpublic school shall be provided with the opportunity to respond to the accreditation committee's report. The director shall review the accreditation committee's report and the response of the school district or nonpublic school and shall provide a report to the state board along with copies of the accreditation committee's report, the response to the accreditation committee's report, and other pertinent information. At the request of the school district or nonpublic school, the school district or nonpublic school may appear before the state board and address the state board directly regarding any part

of the plan specified in the report. The state board may modify the plan. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school district or school shall remain accredited.

11. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected.

a. The accreditation team shall make a report and recommendation to the director and the state board. The committee recommendation shall specify whether the school district or nonpublic school shall remain accredited. For a school district, the committee report and recommendation shall also specify under what conditions the district may remain accredited. The conditions may include but are not limited to providing temporary oversight authority, operational authority, or both oversight and operational authority to the director and the state board for some or all aspects of the school district in order to bring the school district into compliance with minimum standards.

b. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected.

c. If the deficiencies have not been corrected, and the conditional accreditation alternatives contained in the report are not mutually acceptable to the state board and the local board, the state board shall deaccredit the school district and merge the territory of the school district with one or more contiguous school districts at the end of the school year. The state board may place a district under receivership for the remainder of the school year. The receivership shall be under the direct supervision and authority of the area education agency in which the district is located. The decision of whether to deaccredit the school district or to place the district under receivership shall be based upon a determination by the state board of the best interests of the students, parents, residents of the community, teachers, administrators, and school district board members and upon the recommendations of the accreditation committee and the director.

d. In the case of a nonpublic school, if the deficiencies have not been corrected, the state board may deaccredit the nonpublic school. The deaccreditation shall take effect on the date established by the resolution of the state board, which shall be no later than the end of the school year in which the nonpublic school is deaccredited.

12. If the state board deaccredits a school district and merges the territory of the school district with one or more contiguous school districts, the deaccredited school district ceases to exist as a school corporation on the effective date set by the state board for deaccreditation. Notwithstanding any other provision of law, the contiguous school districts receiving territory of the deaccredited school district are not considered successor school corporations of the deaccredited school district.

a. Division of assets and liabilities of the deaccredited school district shall be as provided in this paragraph "a" and in sections 275.29 through 275.31.

(1) If one or more of the contiguous school districts receiving assets and liabilities of the deaccredited school district utilizes the equalization levy, only that territory in the school district imposing the equalization levy that comprises territory of the deaccredited school district shall be taxed.

(2) Income surtax revenue and revenues generated by property taxes shall be distributed proportionately based on taxable value of the territory received by one or more school districts contiguous to the deaccredited school district.

(3) Revenues that are based on student enrollment shall be distributed based on percentages of students who were enrolled in the deaccredited school district in the school year immediately prior to deaccreditation and who now reside in territory received by one or more school districts contiguous to the deaccredited school district.

(4) If the deaccredited school district has a negative fund balance in its general fund at the time it is deaccredited by the state board, the director may order that the positive balance from one or more other funds of the deaccredited school district be transferred to the deaccredited school district's general fund.

b. Prior to the effective date set by the state board for deaccreditation, the school district shall remain responsible for, and may retain such authority as is necessary to complete, all of the following:

(1) Execution of one or more quitclaim deeds, in fulfillment of the merger of territory received by one or more contiguous school districts from the deaccredited school district.

(2) Preparation of and payment for a final audit of all the district's financial accounts.

(3) Preparation and certification of a final certified annual report to the department.

c. The provisions of section 275.57 apply when deaccreditation of a school district and merger of the territory of such school district with a contiguous school district that is currently divided into director districts leads to the formation of new director districts.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for matriculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:

(1) Courses comprising the limited program.

(2) Health requirements for personnel.

(3) Plant facilities.

(4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph "b" of this subsection shall be placed on the special accredited list of college preparatory schools probationally if the school complies with the requirements of paragraph "a" of this subsection, but a probational accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established by law and administrative rules adopted pursuant to the law and the nonpublic grade school must show progress toward reaching a grade one through grade six program.

15. The board of directors of a school district or the authorities in charge of a nonpublic school may award credit toward graduation to a student if the student successfully completes basic training for service as a member of the Iowa army national guard, the Iowa air national guard, the active military forces of the United States, the army national guard of the United States, or the air national guard of the United States.

16. a. Notwithstanding subsections 1 through 12, a nonpublic school may be accredited by an approved independent accrediting agency instead of by the state board as provided in this subsection. The state board shall maintain a list of approved independent accrediting agencies comprised of at least six regional or national nonprofit, nongovernmental agencies recognized as reliable authorities concerning the quality of education offered by a school and shall publish the list of independent accrediting agencies on the department's internet site. The list shall include accrediting agencies that, as of January 1, 2013, accredited a nonpublic school in this state that was concurrently accredited under this section; and any agency that has a formalized partnership agreement with another agency on the list and has member schools in this state as of January 1, 2013.

b. A nonpublic school that participates in the accreditation process offered by an independent accrediting agency on the approved list published pursuant to paragraph "a" shall be deemed to meet the education standards of this section. However, such a school shall comply with statutory health and safety requirements for school facilities.

c. If the state board takes preliminary action to remove an agency from the approved list published on the department's internet site pursuant to paragraph "a", the department shall,

at least one year prior to removing the agency from the approved list, notify the nonpublic schools participating in the accreditation process offered by the agency of the state board's intent to remove the accrediting agency from its approved list of independent accrediting agencies. The notice shall also be posted on the department's internet site and shall contain the proposed date of removal. The nonpublic school shall attain accreditation under this subsection or subsections 1 through 12 not later than one year following the date on which the state board removes the agency from its list of independent accrediting agencies.

**256.12 Sharing instructors and services.**

1. The director, when necessary to realize the purposes of this chapter, shall approve the enrollment in public schools for specified courses of students who also are enrolled in private schools, when the courses in which they seek enrollment are not available to them in their private schools, provided the students have satisfactorily completed prerequisite courses, if any, or have otherwise shown equivalent competence through testing. Courses made available to students in this manner shall be considered as compliance by the private schools in which the students are enrolled with any standards or laws requiring private schools to offer or teach the courses.

2. a. This section does not deprive the respective boards of public school districts of any of their legal powers, statutory or otherwise, and in accepting the specially enrolled students, each of the boards shall prescribe the terms of the special enrollment, including but not limited to scheduling of courses and the length of class periods. In addition, the board of the affected public school district shall be given notice by the department of its decision to permit the special enrollment not later than six months prior to the opening of the affected public school district's school year, except that the board of the public school district may waive the notice requirement. School districts and area education agency boards shall make public school services, which shall include special education programs and services and may include health services, services for remedial education programs, guidance services, and school testing services, available to children attending nonpublic schools in the same manner and to the same extent that they are provided to public school students. Service activities shall be similar to those undertaken for public school students. Health services, special

education support, and related services provided by area education agencies for the purpose of identifying children with disabilities, assistance with physical and communications needs of students with physical disabilities, and services of an educational interpreter may be provided on nonpublic school premises with the permission of the lawful custodian of the property. Other special education services may be provided on nonpublic school premises at the discretion of the school district or area education agency provider of the service and with the permission of the lawful custodian of the property.

b. Students enrolled in nonpublic schools who receive services pursuant to this subsection shall be weighted at the level provided for in section 256B.9, subsection 1.

c. A local school district providing services pursuant to this subsection shall submit an accounting to the department of education by August 1 following the school year for the actual costs of the special education programs and services provided. The department shall review and approve or modify the accounting by September 1 and shall notify the department of administrative services of the approved accounting amount. The department of administrative services shall adjust the September payment to the local school district for the next fiscal year by the difference between the amount generated by the weighting for the provision of services to nonpublic school students, as provided in this subsection, and the amount of the actual costs as reflected in the local school district's accounting. Any amount paid by the department of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 during that fiscal year to all school districts in the state. The portion of the total amount of the approved accounting amount that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year.

The boards may also provide by agreement that the districts will combine their enrollments for one or more grades. Courses and grades made available to students in this manner shall be considered as complying with any standards or laws requiring the offering of such courses and grades. The boards of directors of districts entering into such agreements may provide for sharing the costs and expenses of the courses. If the agreement provides for whole grade sharing, the costs and expenses shall be paid as provided in sections 282.10 through 282.12.

2. There is appropriated from the general fund of the state to the department of education the sum of one hundred twenty-five thousand dollars for the purpose of establishing the fund created by subsection 1. #### **256.16 Specific criteria for teacher preparation and certain educators.**

1. Pursuant to section 256.7, subsection 5, the state board shall adopt rules requiring all higher education institutions providing practitioner preparation to do the following:

a. (1) Administer a preprofessional skills test offered by a nationally recognized testing service to practitioner preparation program admission candidates. Rules adopted shall require institutions to deny admission to the program to any candidate who does not successfully pass the test.

(2) Administer, prior to a student's completion of the practitioner preparation program and subject to the director's approval, subject assessments designed by a nationally recognized testing service that measure pedagogy and knowledge of at least one subject area; or, a valid and reliable subject-area-specific, performance-based assessment for preservice teacher candidates, centered on student learning. A student shall not successfully complete the program unless the student achieves scores above the twenty-fifth percentile nationally on the assessments administered pursuant to this subparagraph.

b. Include preparation in reading theory, knowledge, strategies, and approaches; and for integrating literacy instruction into content areas. Such preparation shall address all students, including but not limited to students with disabilities; students who are at risk of academic failure; students who have been identified as gifted and talented or limited English proficient; and students with dyslexia, whether or not such students have been identified as children requiring special education under chapter 256B.

c. Include in the professional education program, preparation that contributes to the education of students with disabilities and students who are gifted and talented, and preparation in classroom management addressing high-risk behaviors including, but not limited to, behaviors related to substance abuse. Preparation required under this paragraph must be successfully completed before graduation from the practitioner preparation program.

d. Require that each student admitted to an approved practitioner preparation program participate in field experiences that include both observation and participation in teaching activities in a variety of school settings. These field experiences shall comprise a total of at least fifty hours in duration, at least ten hours of which shall occur prior to a student's acceptance in an approved practitioner preparation program. The student teaching experience shall be a minimum of fourteen weeks in duration during the student's final year of the practitioner preparation program. The program shall make every reasonable effort to offer the student teaching experience prior to a student's last semester, or equivalent, in the program, and to expand the student's student teaching opportunities beyond one semester or the equivalent.

e. Require that faculty members in professional education maintain an ongoing involvement in activities in elementary, middle, or secondary schools. The activities shall include at least forty hours of team teaching during a period not exceeding five years in duration at the elementary, middle, or secondary level.

f. Include instruction in skills and strategies to be used in classroom management of individuals, and of small and large groups, under varying conditions; skills for communicating and working constructively with pupils, teachers, administrators, and parents; preparation in reading theory, knowledge, strategies, and approaches, and for integrating literacy instruction into content areas in accordance with this section; and skills for understanding the role of the state board and the functions of other education agencies in the state. Rules adopted in accordance with this paragraph shall be based

upon recommendations of the department after consultation with teacher education faculty members in colleges and universities.

*g.* Prescribe minimum experiences and responsibilities to be accomplished during the student teaching experience by the student teacher and by the cooperating teacher based upon recommendations of the department after consultation with teacher education faculty members in colleges and universities. The student teaching experience shall include opportunities for the student teacher to become knowledgeable about the Iowa teaching standards, including but not limited to a mock evaluation performed by the cooperating teacher. The mock evaluation shall not be used as an assessment tool by the practitioner preparation program. The student teaching experience shall consist of interactive experiences involving the college or university personnel, the student teacher, the cooperating teacher, and administrative personnel from the cooperating teacher's school district.

*h.* Offer annually a workshop of at least one day in duration for prospective cooperating teachers. The workshop shall define the objectives of the student teaching experience, review the responsibilities of the cooperating teacher, and provide the cooperating teacher with other information and assistance the institution deems necessary.

*i.* Provide practitioner preparation students with instruction in the use of electronic technology for classroom and instructional purposes.

*j.* Annually solicit the views of the education community regarding the institution's practitioner preparation programs.

*k.* Submit evidence that the college or department of education in the institution is communicating with other colleges or departments in the institution so that practitioner preparation students may integrate teaching methodology with subject matter areas of specialization.

*l.* Submit evidence that the performance evaluation of a student teacher is a cooperative process that involves both the faculty member supervising the student teacher and the cooperating teacher. The rules shall require that each institution develop a written evaluation procedure for use by the cooperating teacher and a form for evaluating student teachers, and require that a copy of the completed form be included in the student teacher's permanent record.

*m.* If the rules adopted by the board of educational examiners for issuance of any type or class of license require an applicant to complete work in student teaching, pre-student teaching experiences, field experiences, practicums, clinicals, or internships, enter into a written contract with any school district, accredited nonpublic school, preschool registered or licensed by the department of human services, or area education agency in Iowa, to provide for such work under terms and conditions as agreed upon by the contracting parties. The terms and conditions of a written contract entered into with a preschool pursuant to this paragraph shall require that a student teacher be under the direct supervision of an appropriately licensed cooperating teacher who is employed to teach at the preschool. Students actually teaching or engaged in preservice licensure activities in a school district under the terms of such a contract are entitled to the same protection under section 670.8 as is afforded by that section to officers and employees of the school district, during the time such students are so assigned.

2. A person initially applying for a license shall successfully complete a professional education program containing the subject matter specified in this section, before the initial action by the board of educational examiners takes place.

3. The committee shall establish a sampling technique that randomly selects courses for audit. The audit shall include but not be limited to a review of the course syllabus, teacher qualifications, examples of student products, and results of student assessments. Standards for review shall be established by the committee and approved by the department. Audit findings shall be submitted to the institutions providing the classes audited and shall be posted on the department's internet site.

4. If the committee determines that a postsecondary course offered to high school students in accordance with chapter 261E does not meet the standards established by the committee pursuant to subsection 3, the course shall not be eligible for future supplementary weighting under section 257.11. If the institution makes changes to the course sufficient to cause the course to meet the standards of the committee, the committee may reinstate the eligibility of the course for future supplementary weighting under section 257.11.

To that end, each school is encouraged to instill the highest character and academic excellence in each student, in close cooperation with the student's parents, and with input from the community and educators.

*b.* Schools should make every effort, formally and informally, to stress character qualities that will maintain a safe and orderly learning environment, and that will ultimately equip students to be model citizens. These qualities may include caring, civic virtue and citizenship, justice and fairness, respect, responsibility, trustworthiness, giving, honesty, self-discipline, respect for and obedience to the law, citizenship, courage, initiative, commitment, perseverance, kindness, compassion, service, loyalty, patience, the dignity and necessity of hard work, and any other qualities deemed appropriate by a school.

2. The department of education shall assist schools in accessing financial and curricular resources to implement programs stressing these character qualities. Schools are encouraged to use their existing resources to implement programs stressing these qualities. Whenever possible, the department shall develop partnerships with schools, nonprofit organizations, or an institution of higher education, or with a consortium of two or more of those entities, to design and implement character education programs that may be integrated into classroom instruction and may be carried out with other educational reforms.

The division of library services of the department of education is hereby authorized to enter into interstate library compacts on behalf of the state of Iowa with any state bordering on Iowa which legally joins therein in substantially the following form and the contracting states agree that:

1. *Article I — Purpose.* Because the desire for the services provided by public libraries transcends governmental boundaries and can be provided most effectively by giving such services to communities of people regardless of jurisdictional lines, it is the policy of the states who are parties to this compact to cooperate and share their responsibilities in providing joint and cooperative library services in areas where the distribution of population makes the provision of library service on an interstate basis the most effective way to provide adequate and efficient services.

3. *Article III — Content.* Any such agreement for the cooperative or joint establishment, operation or use of library services, facilities, personnel, equipment, materials or other items not excluded because of failure to enumerate shall, as among the parties of the agreement:

5. *Article V — Administrator.* Each state shall designate a compact administrator with whom copies of all agreements to which the state or any subdivision thereof is party shall be filed. The administrator shall have such powers as may be conferred by the laws of the administrator's state and may consult and cooperate with the compact administrators of other party states and take such steps as may effectuate the purposes of this compact.

6. *Article VI — Effective date.* This compact shall become operative when entered in by two or more entities having the powers enumerated herein.

7. *Article VII — Renunciation.* This compact shall continue in force and remain binding upon each party state until six months after any such state has given notice of repeal by the legislature. Such withdrawal shall not be construed to relieve any party to an agreement authorized by articles II and III of the compact from the obligation of that agreement prior to the end of its stipulated period of duration.

8. *Article VIII — Severability — construction.* The provisions of this compact shall be severable. It is intended that the provisions of this compact be reasonably and liberally construed.

### **256B.2 Definitions — policies — funds.**

1. As used in this chapter:

a. “*Children requiring special education*” means persons under twenty-one years of age, including children under five years of age, who have a disability in obtaining an education because of a head injury, autism, behavioral disorder, or physical, mental, communication, or learning disability, as defined by the rules of the department of education. “*Children requiring special education*” includes children receiving special education services, who reach the age of twenty-one during an academic year, and who elect to receive special education services until the end of the academic year.

b. “*Special education*” means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in this subsection; transportation and corrective and supporting services required to assist children requiring special education, as defined in this subsection, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

2. It is the policy of this state to require school districts and state-operated educational programs to provide or make provision, as an integral part of public education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. To the maximum extent possible, children requiring special education shall attend regular classes and shall be educated with children who do not require special education. Whenever possible, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education. Special classes, separate schooling, or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational disability is such, that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapters 263, 269, and 270, upon the request of the board of directors of an area education agency, the department of human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall cooperate with the board of regents to provide the services required by this chapter.

3. Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

4. Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter, and chapter 257. It shall be the primary responsibility of each school district to provide special education to children who reside in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and

equally be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in cooperation with one or more other districts.

5. Moneys received by the school district of the child's residence for the child's education, derived from moneys received through chapter 257, this chapter, and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 6.

To cooperate with school districts or area education agency boards in arranging for any child requiring special education to attend school in a district other than the one in which the child resides when there is no available special school, class, or instruction in the districts in which the child resides.

9. To cooperate with existing agencies such as the department of human services, the Iowa department of public health, the state school for the deaf, the Iowa braille and sight saving school, the children's hospitals, or other agencies concerned with the welfare and health of children requiring special education in the coordination of their educational activities for such children.

10. To investigate and study the needs, methods and costs of special education for children requiring special education.

11. To provide for the employment and establish standards for the performance of special education support personnel required to assist in the identification of and educational programs for children requiring special education.

12. To provide for the establishment of special education research and demonstration projects and models for special education program development.

#### **256B.4 Powers of board of directors.**

1. The board of directors of a school district or area education agency, with the approval of the director of the department of education, may provide special education programs and services as defined in this chapter. If services are provided by the area education agency, the board of directors of the area education agency with the cooperation of the local school districts within its jurisdiction may:

a. Establish and operate special education programs and classes for the education of children requiring special education.

b. Acquire, maintain, and construct facilities in which to provide education, corrective services, and supportive services for children requiring special education.

c. Make arrangements with participating school districts for the provision of special education, corrective, and supportive services to the children requiring special education residing in the school districts.

d. Employ special education teachers and personnel required to furnish corrective or supportive services to children requiring special education services.

e. Provide transportation for children requiring special education services that are in need of transportation in connection with any programs, classes, or services.

2. The board of directors of the local district or the area education agency shall employ qualified teachers certified by the authority provided by law as teachers for children requiring such special education. The maximum number of pupils per teacher shall be determined by the board of directors of the local district or the area education agency board in accordance with the rules and regulations of the state board of education.

3. The board of directors of the local district or the area education agency may establish and operate one or more special education centers to provide diagnostic, therapeutic, corrective, and other services, on a more comprehensive, expert, economical, and efficient basis than can be reasonably provided by a single school district. The services, if offered by the area education agency board, may be provided in the regular schools using personnel and equipment of the area education agency or, if it is impractical or inefficient to provide them on the premises of a regular school, the area education agency may provide services in its own facilities. To the maximum extent feasible, centers shall be established at and in conjunction with, or in close proximity to, one or more elementary and secondary schools. Local districts or the area education agencies may accept diagnostic and evaluation studies

conducted by other individuals, hospitals, or centers, if determined to be competent. Children requiring special education services may be identified in any way that the department of education determines to be reliable. #### **256B.6 Parent's or guardian's duties — review.**

1. When the school district or area education agency has provided special education services and programs as provided herein for any child requiring special education, either by admission to a special class or by supportive services, it shall be the duty of the parent or guardian to enroll the child for instruction in such special classes or supportive services as may be established, except in the event a doctor's certificate is filed with the secretary of the school district showing that it is inadvisable for medical reasons for the child requiring special education to receive the special education provided; all the provisions and conditions of chapter 299 shall be applicable to this section, and any violations shall be punishable as provided in chapter 299.

2. A child, or the parent or guardian of the child, or the school district in which the child resides, may obtain a review of an action or omission of local authorities pursuant to the procedures established by the state board of education on the ground that the child has been or is about to be:

a. Denied entry or continuance in a program of special education appropriate to the child's condition and needs.

b. Placed in a special education program which is inappropriate to the child's condition and needs.

c. Denied educational services because no suitable program of education or related services is maintained.

d. Provided with special education which is insufficient in quantity to satisfy the requirements of law.

e. Assigned to a program of special education when the child does not have a disability.

3. When a child requiring special education attains the age of majority or is incarcerated in an adult or juvenile, state or local, correctional institution, all rights accorded to the parent or guardian under this chapter transfer to the child except as provided in this subsection. Any notice required by this chapter shall be provided to both the child who has reached the age of majority or is incarcerated in an adult or juvenile, state or local, correctional institution and the parent or guardian. If rights under this chapter have transferred to the child and the child has been determined to be incompetent by a court or determined unable to provide informed educational consent by a court or other competent authority, then rights under this chapter shall be exercised by the person who has been appointed to represent the educational interest of the child. The director of the department of education may establish standards for determining whether a public agency, as defined in section 28E.2, is competent to determine

whether a child is unable to provide informed educational consent, and the procedures by which such determination shall be made and reviewed.

4. Notwithstanding section 17A.11, the state board of education shall adopt rules for the appointment of an impartial administrative law judge for special education appeals. The rules shall comply with federal statutes and regulations.

#### **256B.8 Exceptions.**

1. It is not incumbent upon the school districts to keep a child requiring special education in regular instruction when the child cannot sufficiently profit from the work of the regular classroom, nor to keep a child requiring special education in the special class or instruction for children requiring special education when it is determined by the diagnostic educational team that the child can no longer benefit from the instruction or needs more specialized instruction available in special schools. However, the school district shall count the child requiring special education in the enrollment as provided in sections 256B.9, 257.6, and 273.9 and shall ensure that appropriate educational provisions are made for the child requiring special education.

2. An area education agency director of special education may request approval from the department of education to continue the special education program of a person beyond the period specified in section 256B.2, subsection 1, paragraph "a", if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruptions in that person's special education program. Approval may be granted by the department to continue the special education program of that person for up to three years or until the person's twenty-fourth birthday.

3. No provision of this chapter shall be construed to require or compel any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of the person's church or religious denomination, are opposed to medical or surgical treatment for disease to take or follow a course of physical therapy, or submit to medical treatment, nor shall any parent or guardian who is a member of such church or religious denomination and who has such religious convictions be required to enroll a child in any course or instruction which utilizes medical or surgical treatment for disease.

**256B.9 Weighting plan — audits — evaluations — expenditures.**

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:

a. Pupils in a regular curriculum are assigned a weighting of one.

b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and pupils with disabilities placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths. This paragraph also applies to children requiring special education who require specially designed instruction while assigned to a regular classroom for basic instructional purposes.

c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths. This paragraph also applies to children requiring special education who require substantial modifications, adaptations, or special education accommodations in order to benefit from instruction in an integrated classroom.

d. Children requiring special education who have severe disabilities or who have multiple disabilities are assigned a weighting of four and four-tenths. This paragraph also applies to children requiring special education who have severe and profound disabilities.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils, carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educational modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to section 256.12, subsection 2, sections 273.1 to 273.9, and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and for providing services to nonpublic school students pursuant to section 256.12, subsection 2, and the director of the department of education shall make recommendations to the school budget review committee for needed alterations to make the weighting plan suitable for subsequent school years. The school budget review committee shall establish the weighting plan for each school year and shall report the plan to the director of the department of education. The school budget review committee may establish weights to the nearest hundredth. The school budget review committee shall not alter the weighting assigned to pupils in a regular curriculum, but it may increase or decrease the weighting assigned to each category of children requiring special education by not more than two-tenths of the weighting assigned to pupils in a regular curriculum. The state board of education shall adopt rules under chapter 17A to implement the weighting plan for each year and to assist in identification and proper indexing of each child in the state who requires special education.

5. The division of special education shall audit the reports required in section 273.5 to determine that all children in the area who have been identified as requiring special education have received the appropriate special education instructional and support services, and to verify the proper identification of pupils in the area who will require special education instructional services during the school year in which the report is filed. The division shall

certify to the director of the department of management the correct total enrollment of each school district in the state, determined by applying the appropriate pupil weighting index to each child requiring special education, as certified by the directors of special education in each area.

6. The division may conduct an evaluation of the special education instructional program or special education support services being provided by an area education agency, school district, or private agency, pursuant to sections 273.1 to 273.9 and this chapter, to determine if the program or service is adequate and proper to meet the needs of the child; if the child is benefiting from the program or service; if the costs are in proportion to the educational benefits being received; and if there are any improvements that can be made in the program or service. A written report of the evaluation shall be sent to the area education agency, school district, or private agency evaluated and to the president of the senate and speaker of the house of representatives of the general assembly.

7. The costs of special education instructional programs include the costs of purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child certified under the special education weighting plan in subsection 1, paragraph "b", as a pupil with disabilities who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975, and for the school year beginning July 1, 1976, shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

**256B.10** Reserved.

**256B.11 Program plans.**

1. Program plans submitted to the department of education pursuant to section 273.5 for approval by the director of the department of education shall establish all of the following:

- a. That there are sufficient children requiring special education within the area.
- b. That the service or program will be provided by the most appropriate educational agency.
- c. That the educational agency providing the service or program has employed qualified special educational personnel.
- d. That the instruction is a natural and normal progression of a planned course of instruction.
- e. That all revenue raised for support of special education instruction and services is expended for actual delivery of special education instruction or services.

f. Other factors as the state board may require.

2. Notwithstanding subsection 1 and section 273.5, subsection 6, the director of the department of education may authorize the area education agency to submit a statement assuring that the requirements of subsection 1 are satisfied in lieu of submitting a special education instructional and support program plan.

**256B.15 Reimbursement for special education services.**

1. The state board of education in conjunction with the department of education shall develop a program to utilize federally funded health care programs, except the federal medically needy program for individuals who have a spend-down, to share in the costs of services which are provided to children requiring special education.

2. The department of education shall designate an area education agency to develop a system for collecting the information necessary to implement procedures for billing and collecting the costs of the services. The area education agency shall begin to develop the system immediately. The area education agency shall consult with and work jointly with state agencies and federal agencies to determine procedures and standards which shall be initiated by all area education agencies to qualify for receipt of benefits under federal programs.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those services. If it is determined that services are required from other service providers, these providers shall be reimbursed for those services.

4. All services referred to in subsection 1 shall be initially funded by the area education agency and shall be provided regardless of subsequent subrogation collections. The area education agency shall make a claim for reimbursement to federally funded health care programs.

5. Not later than July 1, 1988, the area education agency designated by the department of education shall have developed the program for collecting for the services provided. The program shall be distributed to all of the area education agencies in the state. All area education agencies shall begin collecting the information on July 1, 1988.

6. Effective November 1, 1988, all area education agencies in the state shall participate in the program and begin billing for and collecting for the covered services and shall bill for services provided retroactive to July 1, 1988. Retroactive Title XIX billing is contingent upon state plan approval. Nothing contained in this section shall be construed to allow nonlicensed individuals to perform services which otherwise require licenses under the laws of this state or to allow licensed providers to perform services outside their scope of practice.

7. The area education agencies shall transfer to the department of human services an amount equal to the nonfederal share of the payments to be received from the medical assistance program pursuant to chapter 249A. The nonfederal share amount shall be transferred to the medical assistance account prior to claims payment. This requirement does not apply to medical assistance reimbursement for services provided by an area education agency under part C of the federal Individuals With Disabilities Education Act. Funds received under this section shall not be considered or included as part of the area education agencies' budgets when calculating funds that are to be received by area education agencies during a fiscal year.

8. Students or their parents or guardians covered by a federal health care program shall provide health care information to an area education agency or local school district.

9. The department of education and the department of human services shall adopt rules to implement this section.

10. The department of human services shall offer assistance to the area education

Outreach activities and rent for facilities not owned by the school district are permissive uses of the administrative funds.

h. The costs of transportation involving children participating in the preschool program and other children may be prorated.

2. *Eligible student enrollment.*

(b) National norm-referenced achievement tests.

(c) Alternative testing.

(2) In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in the student's senior year, then the provisions of paragraph "c" shall apply.

c. *Transfers during senior year.* Should a military student transferring at the beginning or during the student's senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with paragraphs "a" and "b".

8. *Article VIII — State coordination.*

a. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies and military installations concerning the state's participation in, and compliance with, this compact and interstate commission activities. While each member state may determine the membership of its own state council, its membership must include at least: the director of the department of education, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

b. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

c. The compact commissioner responsible for the administration and management of the state's participation in this compact shall be appointed by the governor or as otherwise determined by each member state.

d. The compact commissioner and the military family education liaison designated in sections 256H.2 and 256H.3 shall be ex officio members of the state council, unless either is already a full voting member of the state council.

9. *Article IX — Interstate commission on educational opportunity for military children.* The member states hereby create the interstate commission on educational opportunity for military children. The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

a. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

b. Consist of one interstate commission voting representative from each member state who shall be that state's compact commissioner.

(1) Each member state represented at a meeting of the interstate commission is entitled to one vote.

(2) A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission.

(3) A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the interstate commission, the governor or state council may delegate voting authority to another person from the compact commissioner's state for a specified meeting.

(4) The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication.

c. Consist of ex officio, nonvoting representatives who are members of interested organizations. Such ex officio members, as defined in the bylaws, may include but not be limited to members of the representative organizations of military family advocates, local education agency officials, parent and teacher groups, the United States department of defense, the education commission of the states, the interstate agreement on the qualification of educational personnel and other interstate compacts affecting the education of children of military members.

d. Meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the member states, shall call additional meetings.

e. Establish an executive committee, whose members shall include the officers of the interstate commission and such other members of the interstate commission as determined by the bylaws. Members of the executive committee shall serve a one-year term. Members of the executive committee shall be entitled to one vote each. The executive committee shall have the power to act on behalf of the interstate commission, with the exception of rulemaking, during periods when the interstate commission is not in session. The executive committee shall oversee the day-to-day activities of the administration of this compact including enforcement and compliance with the provisions of this compact, its bylaws and rules, and other such duties as deemed necessary. The United States department of defense shall serve as an ex officio, nonvoting member of the executive committee.

f. Establish bylaws and rules that provide for conditions and procedures under which the interstate commission shall make its information and official records available to the public for inspection or copying. The interstate commission may exempt from disclosure information or official records to the extent disclosure would adversely affect personal privacy rights or proprietary interests.

g. Give public notice of all meetings and all meetings shall be open to the public, except as set forth in the rules or as otherwise provided in this compact. The interstate commission and its committees may close a meeting, or portion thereof, where it determines by two-thirds vote that an open meeting would likely do any of the following:

(1) Relate solely to the interstate commission's internal personnel practices and procedures.

(2) Disclose matters specifically exempted from disclosure by federal and state statute.

(3) Disclose trade secrets or commercial or financial information which is privileged or confidential.

(6) Disclose investigative records compiled for law enforcement purposes.

(7) Specifically relate to the interstate commission's participation in a civil action or other legal proceeding.

h. Cause its legal counsel or designee to certify that a meeting may be closed and shall reference each relevant exemptible provision for any meeting, or portion of a meeting, which is closed pursuant to this provision. The interstate commission shall keep minutes which shall fully and clearly describe all matters discussed in a meeting and shall provide a full and

accurate summary of actions taken, and the reasons therefore, including a description of the views expressed and the record of a roll call vote. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission.

i. Collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. Such methods of data collection, exchange, and reporting shall, in so far as is reasonably possible, conform to current technology and coordinate its information functions with the appropriate custodian of records as identified in the bylaws and rules.

j. Create a process that permits military officials, education officials, and parents to inform the interstate commission if and when there are alleged violations of this compact or its rules or when issues subject to the jurisdiction of this compact or its rules are not addressed by the state or local education agency. This section shall not be construed to create a private right of action against the interstate commission or any member state.

10. *Article X — Powers and duties of the interstate commission.* The interstate commission shall have the following powers:

a. To provide for dispute resolution among member states.

b. To promulgate rules and take all necessary actions to effect the goals, purposes, and obligations as enumerated in this compact. The rules shall have the force and effect of statutory law and shall be binding in the compact states to the extent and in the manner provided in this compact.

c. To issue, upon request of a member state, advisory opinions concerning the meaning or interpretation of this compact, its bylaws, rules, and actions.

g. To borrow, accept, hire, or contract for services of personnel.

h. To establish and appoint committees including but not limited to an executive committee as required by article IX of this compact which shall have the power to act on behalf of the interstate commission in carrying out its powers and duties under this compact.

i. To elect or appoint such officers, attorneys, employees, agents, or consultants, and to fix their compensation, define their duties, and determine their qualifications; and to establish the interstate commission's personnel policies and programs relating to conflicts of interest, rates of compensation, and qualifications of personnel.

j. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it.

k. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve, or use any property, real, personal, or mixed.

l. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal, or mixed.

m. To establish a budget and make expenditures.

n. To adopt a seal and bylaws governing the management and operation of the interstate commission.

o. To report annually to the legislatures, governors, judiciary, and state councils of the member states concerning the activities of the interstate commission during the preceding year. Such reports shall also include any recommendations that may have been adopted by the interstate commission.

p. To coordinate education, training, and public awareness regarding this compact, its implementation and operation for officials and parents involved in such activity.

q. To establish uniform standards for the reporting, collecting, and exchanging of data.

r. To maintain corporate books and records in accordance with the bylaws.

s. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact.

t. To provide for the uniform collection and sharing of information between and among member states, schools, and military families under this compact.

11. *Article XI — Organization and operation of the interstate commission.*

a. The interstate commission shall, by a majority of the members present and voting, within twelve months after the first interstate commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of this compact, including but not limited to:

- (1) Establishing the fiscal year of the interstate commission.
- (2) Establishing an executive committee, and such other committees as may be necessary.
- (3) Providing for the establishment of committees and for governing any general or specific delegation of authority or function of the interstate commission.
- (4) Providing reasonable procedures for calling and conducting meetings of the interstate commission, and ensuring reasonable notice of each such meeting.
- (5) Establishing the titles and responsibilities of the officers and staff of the interstate commission.
- (6) Providing a mechanism for concluding the operations of the interstate commission and the return of surplus funds that may exist upon the termination of this compact after the payment and reserving of all of its debts and obligations.
- (7) Providing start-up rules for initial administration of this compact.

b. The interstate commission shall, by a majority of the members, elect annually from among its members a chairperson, a vice chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the interstate commission. The officers so elected shall serve without compensation or remuneration from the interstate commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for ordinary and necessary costs and expenses incurred by them in the performance of their responsibilities as officers of the interstate commission.

c. (1) The executive committee shall have such authority and duties as may be set forth in the bylaws, including but not limited to the following:

(a) Managing the affairs of the interstate commission in a manner consistent with the bylaws and purposes of the interstate commission.

(b) Overseeing an organizational structure within, and appropriate procedures for the interstate commission to provide for the creation of rules, operating procedures, and administrative and technical support functions.

(c) Planning, implementing, and coordinating communications and activities with other state, federal, and local government organizations in order to advance the goals of the interstate commission.

(2) The executive committee may, subject to the approval of the interstate commission, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation, as the interstate commission may deem appropriate. The executive director shall serve as secretary to the interstate commission, but shall not be a member of the interstate commission. The executive director shall hire and supervise such other persons as may be authorized by the interstate commission.

d. The interstate commission's executive director and its employees shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of interstate commission employment, duties, or responsibilities; provided, that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the interstate commission's executive director and employees or interstate commission representatives, acting within the scope of such person's employment

or duties for acts, errors, or omissions occurring within such person's state shall not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this paragraph "d" shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(2) The interstate commission shall defend the executive director and its employees and, subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorney's fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

12. *Article XII — Rulemaking functions of the interstate commission.*

a. The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of this compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted under this compact, then such an action by the interstate commission shall be invalid and have no force or effect.

b. Rules shall be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure Act of 1981, uniform laws annotated, as amended, as may be appropriate to the operations of the interstate commission.

c. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the interstate commission's authority.

d. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt this compact, then such rule shall have no further force and effect in any compacting state.

13. *Article XIII — Oversight, enforcement, and dispute resolution.*

a. *Oversight.*

(1) The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and shall take all actions necessary and appropriate to effectuate this compact's purposes and intent. The provisions of this compact and the rules promulgated under this compact shall have standing as statutory law.

(2) All courts shall take judicial notice of this compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the interstate commission.

(3) The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission shall render a judgment or order void as to the interstate commission, this compact, or promulgated rules.

b. *Default, technical assistance, suspension, and termination.*

(1) If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the interstate commission shall:

(a) Provide written notice to the defaulting state and other member states, of the nature of the default, the means of curing the default, and any action taken by the interstate commission. The interstate commission shall specify the conditions by which the defaulting state must cure its default.

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If the defaulting state fails to cure the default, the defaulting state shall be terminated from this compact upon an affirmative vote of a majority of the member states and all rights, privileges, and benefits conferred by this compact shall be terminated from the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

(3) Suspension or termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

(5) The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

(6) The defaulting state may appeal the action of the interstate commission by petitioning the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

*c. Dispute resolution.*

(1) The interstate commission shall attempt, upon the request of a member state, to resolve disputes which are subject to this compact and which may arise among member states and between member and nonmember states.

(2) The interstate commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

*d. Enforcement.*

(1) The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) The interstate commission, may by majority vote of the members, initiate legal action in the United States district court for the District of Columbia or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of this compact, its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

(3) The remedies in this compact shall not be the exclusive remedies of the interstate commission. The interstate commission may avail itself of any other remedies available under state law or the regulation of a profession.

*14. Article XIV — Financing of the interstate commission.*

*a.* The interstate commission shall pay, or provide for the payment of the reasonable expenses of its establishment, organization, and ongoing activities.

*b.* The interstate commission may levy on and collect an annual assessment from each member state to cover the cost of the operations and activities of the interstate commission and its staff which must be in a total amount sufficient to cover the interstate commission's annual budget as approved each year. The aggregate annual assessment amount shall be

allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

c. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate commission pledge the credit of any of the member states, except by and with the authority of the member state.

d. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

15. *Article XV — Member states, effective date, and amendment.*

a. Any state is eligible to become a member state.

b. This compact shall become effective and binding upon legislative enactment of this compact into law by no less than ten of the states. The effective date shall be no earlier than December 1, 2007. Thereafter it shall become effective and binding as to any other member state upon enactment of this compact into law by that state. The governors of nonmember states or their designees shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of this compact by all states.

c. The interstate commission may propose amendments to this compact for enactment by the member states. An amendment shall not become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

16. *Article XVI — Withdrawal and dissolution.*

a. *Withdrawal.*

(1) Once effective, this compact shall continue in force and remain binding upon each and every member state; provided that a member state may withdraw from this compact by specifically repealing the statute which enacted this compact into law.

(2) Withdrawal from this compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member jurisdiction.

(3) The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of the notice.

(4) The withdrawing state is responsible for all assessments, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

(5) Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting this compact or upon such later date as determined by the interstate commission.

b. *Dissolution of compact.*

(1) This compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in this compact to one member state.

(2) Upon the dissolution of this compact, this compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

17. *Article XVII — Severability and construction.*

a. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

b. The provisions of this compact shall be liberally construed to effectuate its purposes.

c. Nothing in this compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

18. *Article XVIII — Binding effect of compact and other laws.*

*a. Other laws.*

(1) Nothing in this compact prevents the enforcement of any other law of a member state that is not inconsistent with this compact.

(2) All member states' laws conflicting with this compact are superseded to the extent of the conflict.

*b. Binding effect of the compact.*

(1) All lawful actions of the interstate commission, including all rules and bylaws promulgated by the interstate commission, are binding upon the member states.

(2) All agreements between the interstate commission and the member states are binding in accordance with their terms.

(3) In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

### **257.1 State school foundation program — state aid.**

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

#### *2. State school foundation aid — foundation base.*

a. For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

b. For the budget year commencing July 1, 1999, and for each succeeding budget year the regular program foundation base per pupil is eighty-seven and five-tenths percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil. The combined foundation base is the sum of the regular program foundation base, the special education support services foundation base, the total teacher salary supplement district cost, the total professional development supplement district cost, the total early intervention supplement district cost, the total teacher leadership supplement district cost, the total area education agency teacher salary supplement district cost, and the total area education agency professional development supplement district cost.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services provided through the area education agencies, and the teacher salary supplement, the professional development supplement, the early intervention supplement, and the teacher leadership supplement, the department of management shall round amounts to the nearest whole dollar.

4. *Legislative review.* The provisions of this chapter shall be subject to legislative review at least every five years. The review shall be based upon a school finance formula status report containing the recommendations of a legislative interim committee appointed to conduct a review of the school finance formula, to be prepared with the assistance of the department of education, in association with the departments of management and revenue. The report shall include recommendations for school finance formula changes or revisions based upon demographic changes, enrollment trends, and property tax valuation fluctuations observed during the preceding five-year interval; an analysis of the operation of the school finance formula during the preceding five-year interval; and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no later than January 1, 2005, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

**257.3 Foundation property tax.**

1. *Amount of tax.*
  - a. Except as provided in subsections 2 and 3, a school district shall cause to be levied each year, for the school general fund, a foundation property tax equal to five dollars and forty cents per thousand dollars of assessed valuation on all taxable property in the district. The county auditor shall spread the foundation levy over all taxable property in the district.
  - b. The amount paid to each school district for the tax replacement claim for industrial machinery, equipment and computers under section 427B.19A shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation property tax rate to the amount computed under section 427B.19, subsection 3, paragraph “a”, as adjusted by paragraph “d”, if any adjustment was made.
  - c. Replacement taxes under chapter 437A or chapter 437B shall be regarded as property taxes for purposes of this chapter.
  - d. The amount paid to each school district for the commercial and industrial property tax replacement claim under section 441.21A shall be regarded as property tax. The portion of the payment which is foundation property tax shall be determined by applying the foundation

property tax rate to the amount computed under section 441.21A, subsection 4, paragraph “a”, and such amount shall be prorated pursuant to section 441.21A, subsection 2, if applicable.

2. *Tax for reorganized and dissolved districts.*

a. Notwithstanding subsection 1, a reorganized school district shall cause a foundation property tax of four dollars and forty cents per thousand dollars of assessed valuation to be levied on all taxable property which, in the year preceding a reorganization, was within a school district affected by the reorganization as defined in section 275.1, or in the year preceding a dissolution was a part of a school district that dissolved if the dissolution proposal has been approved by the director of the department of education pursuant to section 275.55.

b. In succeeding school years, the foundation property tax levy on that portion shall be increased to the rate of four dollars and ninety cents per thousand dollars of assessed valuation the first succeeding year, five dollars and fifteen cents per thousand dollars of assessed valuation the second succeeding year, and five dollars and forty cents per thousand dollars of assessed valuation the third succeeding year and each year thereafter.

c. The foundation property tax levy reduction pursuant to this subsection shall be available if either of the following apply:

(1) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of fewer than six hundred pupils.

(2) In the year preceding the reorganization or dissolution, the school district affected by the reorganization or the school district that dissolved had a certified enrollment of six hundred pupils or greater, and entered into a reorganization or dissolution with one or more school districts with a certified enrollment of fewer than six hundred pupils. The amount of foundation property tax reduction received by a school district qualifying for the reduction pursuant to this subparagraph shall not exceed the highest reduction amount provided in paragraphs “a” and “b” received by any of the school districts with a certified enrollment of fewer than six hundred pupils involved in the reorganization pursuant to subparagraph (1) of this paragraph “c”.

d. For purposes of this section, a reorganized school district is one which absorbs at least thirty percent of the enrollment of the school district affected by a reorganization or dissolved during a dissolution and in which action to bring about a reorganization or dissolution is initiated by a vote of the board of directors or jointly by the affected boards of directors to take effect on or after July 1, 2007, and on or before July 1, 2019. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, 2019, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

3. *Railway corporations.* For purposes of section 257.1, the “*amount per pupil of foundation property tax*” does not include the tax levied under subsection 1 or 2 on the property of a railway corporation, or on its trustee if the corporation has been declared bankrupt or is in bankruptcy proceedings.

**257.4 Additional property tax.**

1. *Computation of tax.*

a. A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the following:

(1) The product of the regular program foundation base per pupil times the weighted enrollment in the district.

(2) The product of special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

(3) The total teacher salary supplement district cost.

(4) The total professional development supplement district cost.

(5) The total early intervention supplement district cost.

(6) The total area education agency teacher salary supplement district cost.

(7) The total area education agency professional development supplement district cost.

(8) The amount of the school district property tax replacement payment to be received by the school district under section 257.16B.

(9) The total teacher leadership supplement district cost.

b. For the budget year beginning July 1, 2008, and succeeding budget years, the department of management shall annually determine an adjusted additional property tax levy and a statewide maximum adjusted additional property tax levy rate, not to exceed the statewide average additional property tax levy rate, calculated by dividing the total adjusted additional property tax levy dollars statewide by the statewide total net taxable valuation. For purposes of this paragraph, the adjusted additional property tax levy shall be that portion of the additional property tax levy corresponding to the state cost per pupil multiplied by a school district's weighted enrollment, and then multiplied by one hundred percent less the regular program foundation base per pupil percentage pursuant to section 257.1, and then reduced by the amount of the property tax replacement payment to be received under section 257.16B. The district shall receive adjusted additional property tax levy aid in an amount equal to the difference between the adjusted additional property tax levy rate and the statewide maximum adjusted additional property tax levy rate, as applied per thousand dollars of assessed valuation on all taxable property in the district. The statewide maximum adjusted additional property tax levy rate shall be annually determined by the department taking into account amounts allocated pursuant to section 257.15, subsection 4, and the balance of the property tax equity and relief fund created in section 257.16A at the end of the calendar year.

2. *Supplemental aid.*

a. However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 257.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

b. For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. *Application of tax.* No later than June 15 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the

county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

#### **257.5 Continuation of supplemental aid.**

1. A reorganized school district, as defined in section 257.4, subsection 2, receiving supplemental aid prior to July 1, 1991, under section 442.9A, Code 1991, shall continue to receive supplemental aid as provided in that section for the five-year period specified in that section.

2. There is appropriated from the general fund of the state to the department of management for each fiscal year an amount sufficient to pay the supplemental aid to school districts under this section. Supplemental aid shall be paid in the manner provided in section 257.16.

3. For the purpose of the department of management's determination of the portion of a school district's budget that was property tax and the portion that was state aid under section 257.36, supplemental aid shall be considered property tax.

89 Acts, ch 135, §5; 91 Acts, ch 178, §3; 2016 Acts, ch 1011, §121

#### **257.6 Enrollment.**

##### *1. Actual enrollment.*

a. Actual enrollment is determined annually on October 1, or the first Monday in October if October 1 falls on a Saturday or Sunday, and includes all of the following:

(1) Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

(2) Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.

(3) Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil. This subparagraph applies to pupils enrolled in grades nine through twelve under section 299A.8 and to pupils from accredited nonpublic schools accessing classes or services on the accredited nonpublic school premises or the school district site, but excludes accredited nonpublic school pupils receiving classes or services funded entirely by federal grants or allocations.

(4) Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.

(5) Resident pupils receiving competent private instruction from a licensed practitioner provided through a public school district pursuant to chapter 299A shall be counted as three-tenths of one pupil. Revenues received by a school district attributed to a school district's weighted enrollment pursuant to this subparagraph shall be expended for the purpose for which the weighting was assigned under this subparagraph. If the school district determines that the expenditures associated with providing competent private instruction pursuant to chapter 299A are in excess of the revenue attributed to the school district's weighted enrollment for such instruction in accordance with this subparagraph, the school district may submit a request to the school budget review committee for a modified supplemental amount in accordance with section 257.31, subsection 5, paragraph

“n”. A home school assistance program shall not provide moneys received pursuant to this subparagraph, nor resources paid for with moneys received pursuant to this subparagraph, to parents or students utilizing the program. Moneys received by a school district pursuant to this subparagraph shall be used as provided in section 299A.12.

(6) Resident pupils receiving competent private instruction under dual enrollment pursuant to chapter 299A shall be counted as one-tenth of one pupil.

(7) A student attending an accredited nonpublic school or receiving competent private instruction under chapter 299A, who is participating in a program under chapter 261E, shall be counted as a shared-time student in the school district in which the nonpublic school of attendance is located for state foundation aid purposes.

(8) Pupils who are enrolled in public schools within the district under section 282.1, subsection 3, in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

b. A school district shall certify its actual enrollment to the department of education by October 15 of each year, and the department shall promptly forward the information to the department of management.

c. The department of management shall adjust the enrollment of the school district for the audit year based upon reports filed under section 11.6, and shall further adjust the budget of the second year succeeding the audit year for the property tax and state aid portions of the reported differences in enrollments for the year succeeding the audit year.

2. *Basic enrollment.* Basic enrollment for a budget year is a district’s actual enrollment for the base year. Basic enrollment for the base year is a district’s actual enrollment for the year preceding the base year.

3. *Additional enrollment because of special education.*

a. A school district shall determine its additional enrollment because of special education, as defined in this section, by November 1 of each year and shall certify its additional enrollment because of special education to the department of education by November 15 of each year, and the department shall promptly forward the information to the department of management.

b. For the purposes of this chapter, “*additional enrollment because of special education*” is determined by multiplying the weighting of each category of child under section 256B.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. *Budget enrollment.* Budget enrollment for the budget year is the basic enrollment for the budget year.

5. *Weighted enrollment.*

a. Weighted enrollment is the budget enrollment plus the district’s additional enrollment because of special education calculated by November 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

b. Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

6. *Students excluded.* For the school year beginning July 1, 2008, and each succeeding school year, a student shall not be included in a district’s enrollment for purposes of this chapter or considered an eligible pupil under section 261E.6 if the student meets all of the following:

a. Was eligible to receive a diploma with the class in which they were enrolled and that class graduated in the previous school year.

b. Continues enrollment in the district to take courses either provided by the district or offered by community colleges under the provisions of section 257.11, or to take courses under the provisions of section 261E.6.

Subsection 11, paragraph d amended

**257.11 Supplementary weighting plan.**

1. *Regular curriculum.* Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. *District-to-district sharing.*

a. In order to provide additional funds for school districts which send their resident pupils to another school district, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall be eligible for supplementary weighting pursuant to this subsection. A school district which executes a whole grade sharing agreement and which adopts a resolution jointly with other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, 2019, shall receive a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this paragraph for a maximum of three years. Receipt of supplementary weighting for a second and third year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, 2019.

d. A school district which hosts a regional academy shall be eligible to assign its resident students attending classes at the academy a weighting of one-tenth of the percentage of the student's school day during which the student attends classes at the regional academy. The maximum amount of additional weighting for which a school district hosting a regional academy shall be eligible is an amount corresponding to thirty additional students. The minimum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to fifteen additional students if the academy provides both advanced-level courses and career and technical courses.

3. *District-to-community college sharing and concurrent enrollment programs.*

a. In order to provide additional funds for school districts which send their resident high school pupils to a community college for college-level classes, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the class would not otherwise be implemented without the assignment of additional weighting, pupils attending a community college-offered class or attending a class taught by a community college-employed instructor are assigned a weighting of the percentage of the pupil's school day during which the pupil attends class in the community college or attends a class taught by a community college-employed instructor times seventy hundredths for career and technical courses or forty-six hundredths for liberal arts and sciences courses. The following requirements shall be met for the purposes of assigning an additional weighting for classes offered through a sharing agreement between a school district and community college. The class must be:

(1) Supplementing, not supplanting, high school courses required to be offered pursuant to section 256.11, subsection 5.

(2) Included in the community college catalog or an amendment or addendum to the catalog.

(3) Open to all registered community college students, not just high school students. The class may be offered in a high school attendance center.

(4) For college credit and the credit must apply toward an associate of arts or associate of science degree, or toward an associate of applied arts or associate of applied science degree, or toward completion of a college diploma program.

(5) Taught by an instructor employed or contracted by a community college who meets the requirements of section 261E.3, subsection 2.

(6) Taught utilizing the community college course syllabus.

(7) Taught in such a manner as to result in student work and student assessment which meet college-level expectations.

c. Notwithstanding paragraph “b”, subparagraph (1), a school district that otherwise meets the requirements of this subsection may enter into a sharing agreement with a community college under which the community college may offer, or provide a community college-employed instructor to teach, one or more classes in only one of the six career and technical education service areas specified in section 256.11, subsection 5, paragraph “h”, and the pupils enrolled in such a class shall be assigned additional weighting in accordance with this subsection if the number of pupils enrolled in such a class exceeds five and the school district’s total enrollment does not exceed six hundred pupils.

4. *At-risk programs and alternative schools.*

a. In order to provide additional funding to school districts for programs serving at-risk pupils, alternative program and alternative school pupils in secondary schools, and pupils identified as potential dropouts or returning dropouts as defined in section 257.39, a supplementary weighting plan for such pupils is adopted. A supplementary weighting of forty-eight ten-thousandths per pupil shall be assigned to the percentage of pupils in a school district enrolled in grades one through six, as reported by the school district on the basic educational data survey for the base year, who are eligible for free and reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. §1751-1785, multiplied by the budget enrollment in the school district; and a supplementary weighting of one hundred fifty-six one-hundred-thousandths per pupil shall be assigned to pupils included in the budget enrollment of the school district. Amounts received as supplementary weighting under this subsection shall be utilized by a school district to develop or maintain at-risk pupils’ programs, alternative programs and alternative school programs, and returning dropout and dropout prevention programs approved pursuant to section 257.40.

b. Notwithstanding paragraph “a”, a school district which received supplementary weighting for an alternative high school program for the school budget year beginning July 1, 1999, shall receive an amount of supplementary weighting for the next three school budget years as follows:

(1) For the budget year beginning July 1, 2000, the greater of the amount of supplementary weighting determined pursuant to paragraph “a”, or sixty-five percent of the amount received for the budget year beginning July 1, 1999.

(2) For the budget year beginning July 1, 2001, the greater of the amount of supplementary weighting determined pursuant to paragraph “a”, or forty percent of the amount received for the budget year beginning July 1, 1999.

(3) For the budget year beginning July 1, 2002, and succeeding budget years, the amount of supplementary weighting determined pursuant to paragraph “a”.

c. If a school district receives an amount pursuant to paragraph “b” which exceeds the amount the district would otherwise have received pursuant to paragraph “a”, the department of management shall annually determine the amount of the excess that would have been state aid and the amount that would have been property tax if the school district had generated that amount pursuant to paragraph “a”, and shall include the amounts in the state aid payments and property tax levies of school districts. The department of management shall recalculate the supplementary weighting amount received each year to reflect the amount of the reduction in funding from one budget year to the next pursuant to paragraph “b”, subparagraphs (1) through (3). It is the intent of the general assembly that

when weights are recalculated under this subsection, the total amounts generated by each weight shall be approximately equal.

d. Amounts that a school district receives as supplementary weighting pursuant to this subsection or as a modified supplemental amount received under section 257.41 may be used in the budget year for purposes of providing district-wide, building-wide, or grade-specific at-risk and dropout prevention programming targeted to pupils who are not deemed at risk.

e. Notwithstanding paragraph “d” and section 282.24, if a pupil has been determined by the school district to be likely to inflict self-harm or likely to harm another pupil and all of the following apply, the school district may use amounts received pursuant to paragraph “a” to pay the instructional costs necessary to address the pupil’s behavior during instructional time when those services are not otherwise provided to pupils who do not require special education and the costs exceed the costs of instruction of pupils in a regular curriculum:

(1) The pupil does not require special education.

(2) The pupil is not in a court-ordered placement under chapter 232 under the care and custody of the department of human services or juvenile court services.

(3) The pupil is not in the state training school or the Iowa juvenile home pursuant to a court order entered under chapter 232 under the care and custody of the department of human services.

(4) The pupil is not placed in a facility licensed under chapter 135B, 135C, or 135H.

5. *Shared operational functions — increased student opportunities — budget years beginning in 2014 through 2024.*

a. (1) In order to provide additional funding to increase student opportunities and redirect more resources to student programming for school districts that share operational functions, a district that shares with a political subdivision one or more operational functions of a curriculum director, master social worker, independent social worker, or school counselor, or one or more operational functions in the areas of superintendent management, business management, human resources, transportation, or operation and maintenance for at least twenty percent of the school year shall be assigned a supplementary weighting for each shared operational function. A school district that shares an operational function in the area of superintendent management shall be assigned a supplementary weighting of eight pupils for the function. A school district that shares an operational function in the area of business management, human resources, transportation, or operation and maintenance shall be assigned a supplementary weighting of five pupils for the function. A school district that shares the operational functions of a curriculum director, a master social worker or an independent social worker licensed under chapters 147 and 154C, or a school counselor shall be assigned a supplementary weighting of three pupils for the function. The additional weighting shall be assigned for each discrete operational function shared. However, a school district may receive the additional weighting under this subsection for sharing the services of an individual with a political subdivision even if the type of operational function performed by the individual for the school district and the type of operational function performed by the individual for the political subdivision are not the same operational function, so long as both operational functions are eligible for weighting under this subsection. In such case, the school district shall be assigned the additional weighting for the type of operational function that the individual performs for the school district, and the school district shall not receive additional weighting for any other function performed by the individual. The operational function sharing arrangement does not need to be a newly implemented sharing arrangement to receive supplementary weighting under this subsection.

(2) For the purposes of this section, “*political subdivision*” means a city, township, county, school corporation, merged area, area education agency, institution governed by the state board of regents, or any other governmental subdivision.

b. School districts that share operational functions with other school districts are not required to be contiguous school districts. If two or more districts sharing operational functions are not contiguous to each other, the districts separating those districts are not required to be a party to the operational functions sharing arrangement.

c. Supplementary weighting pursuant to this subsection shall be available to a school district during the period commencing with the budget year beginning July 1, 2014, through

the budget year beginning July 1, 2024. The maximum amount of additional weighting for which a school district shall be eligible in a budget year is twenty-one additional pupils. Criteria for determining the qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of increased student opportunities.

d. Supplementary weighting pursuant to this subsection shall be available to an area education agency during the period commencing with the budget year beginning July 1, 2014, through the budget year beginning July 1, 2024. The minimum amount of additional funding for which an area education agency shall be eligible in a budget year is thirty thousand dollars, and the maximum amount of additional funding for which an area education agency shall be eligible is two hundred thousand dollars. The department of management shall annually set a weighting for each area education agency to generate the approved operational sharing expense using the area education agency's special education cost per pupil amount and foundation level. Criteria for determining the qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of increased student opportunities.

e. This subsection is repealed effective July 1, 2025.

6. *Shared classes delivered over the Iowa communications network.*

a. A school district that provides a virtual class to a pupil in another school district and the school district receiving that virtual class for a pupil shall each receive a supplemental weighting of one-twentieth of the percentage of the pupil's school day during which the pupil attends the virtual class.

b. Fifty percent of the funding the school district providing the virtual class receives as a result of this subsection shall be reserved as additional pay for the virtual classroom instructor. If an instructor's contract provides additional pay for teaching a virtual class, the instructor shall receive the greater amount of either the amount provided for in this paragraph or the amount provided for in the instructor's contract.

c. A school district receiving a virtual class for a pupil from a community college, which class meets the sharing agreement requirements in subsection 3, shall receive a supplemental funding weighting of one-twentieth of the percentage of the pupil's school day during which the pupil attends the virtual class.

d. For the purposes of this subsection, "virtual class" means either of the following:

(1) A class provided by a school district to a pupil in another school district via the Iowa communications network's video services.

(2) A class provided by a community college to a pupil in a school district via the Iowa communications network's video services.

7. *District to community college innovative sharing project.* A school district that collaborates with a community college to provide pupils enrolled in the school district's high school with a class that uses an activities-based, project-based, and problem-based learning approach that is offered through a partnership with a nationally recognized provider of rigorous and innovative science, technology, engineering, and mathematics curriculum for schools, which provider is exempt from taxation under section 501(c)(3) of the Internal Revenue Code, is eligible to assign its resident pupils attending the class an additional weighting of the percentage of the pupil's school day during which the pupil attends a class described in this subsection times seventy hundredths. To qualify for additional weighting, the class must supplement, not supplant, high school courses required to be offered pursuant to section 256.11, subsection 5.

8. *Pupils ineligible.* A pupil eligible for the weighting plan provided in section 256B.9 is not eligible for supplementary weighting pursuant to this section unless it is determined that the course generating the supplemental weighting has no relationship to the pupil's disability. A pupil attending an alternative program or an at-risk pupils' program, including alternative high school programs, is not eligible for supplementary weighting under subsection 2.

9. *Shared classes and curriculum standards.* A school district shall ensure that any course made available to a student through any sharing agreement between the school district and a community college or any other entity providing course programming pursuant to this section to students enrolled in the school district meets the expectations contained

in the core curriculum adopted pursuant to section 256.7, subsection 26. The school district shall ensure that any course that has the capacity to generate college credit shall be equivalent to college-level work.

10. *School finance appropriations report.* The department of education shall annually prepare a report regarding school finance provisions or programs receiving a standing appropriation, including supplementary weighting programs. The report shall provide information regarding amounts received or accessed by school districts pursuant to the provisions or programs, whether the amounts received represent an increase or decrease over amounts received during the previous budget year and the percentage increase or decrease, conclusions regarding the adequacy of amounts received by school districts and whether the amounts received are equitable between school districts based upon input from the school districts and analysis by the department, and the rationale for current trends being observed by the department and projections regarding possible trends in the future. The report shall be submitted to the general assembly by January 1 each year, and copies of the report shall be forwarded to the chairpersons and members of the committee on education in the senate and in the house of representatives.

### **257.11A Supplementary weighting and school reorganization.**

1. In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing pursuant to section 257.11 and the school district has approved an action to bring about a reorganization to take effect on and after July 1, 2007, and on or before July 1, 2019, the reorganized school district shall include, for a period of three years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. For the purposes of this subsection, the weighted enrollment for the period of three years following the effective date of reorganization shall include the supplementary weighting in the base year used for determining the combined district cost for the first year of the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district.

2. For purposes of this section, a reorganized district is one in which the reorganization was approved in an election pursuant to sections 275.18 and 275.20 and takes effect on or after July 1, 2007, and on or before July 1, 2019. Each district which initiates, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution to take effect on or after July 1, 2007, and on or before July 1, 2019, shall certify the date and the nature of the action taken to the department of education by January 1 of the year in which the reorganization or dissolution takes effect.

3. A school district shall be eligible for a combined maximum total of six years of supplementary weighting under the provisions of this section and section 257.11, subsection 2, paragraph “c”.

**257.12 Adjustment in state foundation aid.**

1. If a school district is required to repay property taxes paid for school taxes levied on property originally assessed at five million dollars or more because the assessment was subsequently reduced by the action of the property assessment appeal board or judicial action and the amount of the reduction in the assessment equals at least one hundred thousand dollars or two percent of the assessed value of all taxable property in the district prior to the reduction, whichever is less, the school district is eligible for an adjustment in state foundation aid. To receive the adjustment in state foundation aid, the school district shall apply to the department of management prior to the beginning of the budget year following the budget year in which the repayment of the property taxes occurred. The department of management shall determine the amount of adjustment in state foundation aid pursuant to subsection 2.

2. The department of management shall determine the amount of state foundation aid which the school district would have received under section 257.1 if the amount of the school district's foundation property tax was determined using the reduced assessment of the applicable property. The difference between the amount of the state foundation aid using the reduced assessment and the amount of state foundation aid actually received under section 257.1 equals the amount of the adjustment in state foundation aid to be paid to the school district.

3. The adjustment in state foundation aid under this section shall be paid as provided in section 257.16. If the application to receive an adjustment in state aid was filed prior to April 15, the adjustment shall be paid in the budget year. If the application is made after April 15, the adjustment shall be paid in the following budget year.

**257.13 On-time funding budget adjustment.**

1. For the school budget year beginning July 1, 2001, and succeeding budget years, if a district's actual enrollment for the budget year, determined under section 257.6, is greater than its budget enrollment for the budget year, the district shall be eligible to receive an on-time funding budget adjustment. The adjustment shall be in an amount equal to the difference between the actual enrollment for the budget year and the budget enrollment for the budget year, multiplied by the district cost per pupil.

2. The board of directors of a school district that wishes to receive an on-time funding budget adjustment shall adopt a resolution to receive the adjustment and notify the school budget review committee annually, but not earlier than November 1, as determined by the department of education. The school budget review committee shall establish a modified supplemental amount pursuant to subsection 1.

3. If the board of directors of a school district determines that a need exists for additional funds exceeding the on-time funding budget adjustment pursuant to this section, a request for a modified supplemental amount based upon increased enrollment may be submitted to the school budget review committee as provided in section 257.31.

1. For the budget year commencing July 1, 2016, and succeeding budget years, a school district shall be eligible for a budget adjustment in an amount equal to the difference between the regular program district cost for the budget year and one hundred one percent of the regular program district cost for the base year.

2. The board of directors of a school district that wishes to receive a budget adjustment for a budget year pursuant to this section shall adopt by May 15 of the base year for which the budget adjustment is sought, a resolution to receive the budget adjustment and shall notify the department of management of the adoption of the resolution and the amount of the budget adjustment to be received.

### **257.15 Property tax adjustment.**

#### *1. Property tax adjustment for 1991-1992.*

a. For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442, Code 1989, were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442, Code 1989, shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

b. For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

4. a. *Allocations for maximum adjusted additional property tax levy rate calculation and adjusted additional property tax levy aid.* The department of management shall allocate from amounts appropriated pursuant to section 257.16, subsection 1, and from funds appropriated from the property tax equity and relief fund created in section 257.16A for the purpose of calculating the statewide maximum adjusted additional property tax levy rate and providing adjusted additional property tax levy aid as provided in section 257.4, subsection 1, paragraph “b”, an amount equal to the sum of subparagraphs (1) and (2) as follows:

(1) From the amount appropriated from the general fund of the state pursuant to section 257.16, subsection 1, equal to the following:

- (a) For the budget year beginning July 1, 2006, six million dollars.
- (b) For the budget year beginning July 1, 2007, twelve million dollars.
- (c) For the budget year beginning July 1, 2008, eighteen million dollars.

(d) For the budget year beginning July 1, 2009, and succeeding budget years, twenty-four million dollars.

(2) From the amount appropriated from the property tax equity and relief fund created in section 257.16A.

b. After lowering all school district adjusted additional property tax levy rates to the statewide maximum adjusted additional property tax levy rate under paragraph “a”, the department of management shall use any remaining funds at the end of the calendar year to further lower additional property taxes by increasing for the budget year beginning the following July 1, the state foundation base percentage. Moneys used pursuant to this paragraph shall supplant an equal amount of the appropriation made from the general fund of the state pursuant to section 257.16 that represents the increase in state foundation aid.

b. Each school district that satisfies the criteria of subsection 1 shall receive transportation equity aid in an amount equal to the school district’s actual enrollment for the school year,

excluding the shared-time enrollment for the school year, multiplied by the school district's transportation cost per pupil differential for the budget year.

If the balance of the fund exceeds the amount necessary to make all transportation equity aid payments and all transportation base funding payments, moneys remaining in the fund at the end of a fiscal year, notwithstanding section 8.33, shall remain in the fund and shall be available for expenditure for the purposes of this section in subsequent fiscal years.

4. For budget years beginning on or after July 1, 2018, if funding is available as provided in subsection 3, paragraph "b", each school district in the state shall receive a transportation base funding payment in an amount equal to the school district's enrollment used under subsection 2, paragraph "d", multiplied by the lesser of the statewide average transportation cost per pupil or the school district's transportation cost per pupil for the budget year. If an amount appropriated for a budget year is insufficient to pay all transportation base funding payments, the department of management shall prorate such payment amounts.

5. a. The sum of the transportation equity aid payment and the transportation base funding payment paid to a school district for a budget year shall not exceed the school district's actual transportation cost used to calculate the school district's transportation cost per pupil under subsection 2, paragraph "d", for the budget year.

The educational improvement program shall be funded by either an educational improvement property tax or by a combination of an educational improvement property tax and an educational improvement income surtax. The method of raising the educational improvement moneys shall be determined by the board. Subject to the limitation in section 298.14, if the board uses a combination of an educational improvement property tax and an educational improvement income surtax, the board shall determine the percent of income surtax to be imposed, expressed as full percentage points, not to exceed twenty percent.

4. The department of management shall establish the amount of the educational improvement property tax to be levied or the amount of the combination of the educational improvement property tax to be levied and the amount of the school district income surtax to be imposed for each school year that the educational improvement amount is authorized. The educational improvement property tax and income surtax, if an income surtax is imposed, shall be levied and imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26. Moneys received by a school district under the educational improvement program are miscellaneous income.

5. Once approved at an election, the authority of the board to use the educational improvement program shall continue until the board votes to rescind the educational improvement program or the voters of the school district by majority vote order the discontinuance of the program. The board shall submit at an election held on a date specified in section 39.2, subsection 4, paragraph "c", the proposition whether to discontinue the program upon the receipt of a petition signed by not less than one hundred eligible electors or thirty percent of the number of electors voting at the last preceding school election, whichever is greater.

6. Participation in an educational improvement program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in school reorganization under chapter 275 has approved an educational improvement program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the educational improvement program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

7. Notwithstanding the requirement in subsection 1 that the regular program district cost per pupil for a budget year is one hundred ten percent of the regular state cost per pupil, the board of directors may participate in the educational improvement program as provided in this section if the school district had adopted an enrichment levy of fifteen percent of the state cost per pupil multiplied by the budget enrollment in the district prior to July 1, 1992, and upon expiration of the period for which the enrichment levy was adopted, adopts a resolution for the use of the instructional support program established in section 257.18. The maximum percent of the regular district cost of the district that may be used under this subsection shall not exceed five percent.

### **257.31 Duties of the committee.**

1. The school budget review committee may recommend the revision of any rules, regulations, directives, or forms relating to school district budgeting and accounting, confer with local school boards or their representatives and make recommendations relating to any budgeting or accounting matters, and direct the director of the department of education or the director of the department of management to make studies and investigations of school costs in any school district.

3. The committee shall review the proposed budget and certified budget of each school district, and may make recommendations. The committee may make decisions affecting budgets to the extent provided in this chapter. The costs and computations referred to in this section relate to the budget year unless otherwise expressly stated.

4. Not later than January 1, 1992, the committee shall adopt recommendations relating to the implementation by school districts and area education agencies of procedures pertaining to the preparation of financial reports in conformity with generally accepted accounting principles and submit those recommendations to the state board of education. The state board shall consider the recommendations and adopt rules under section 256.7 specifying procedures and requiring the school districts and area education agencies to conform to generally accepted accounting principles commencing with the school year beginning July 1, 1996.

5. If a district has unusual circumstances, creating an unusual need for additional funds, including but not limited to the circumstances enumerated in paragraphs "a" through "n", the committee may grant supplemental aid to the district from any funds appropriated to the department of education for the use of the school budget review committee for the purposes of this subsection. The school budget review committee shall review a school district's unexpended fund balance prior to any decision regarding unusual finance circumstances. Such aid shall be miscellaneous income and shall not be included in district cost. In addition to or as an alternative to granting supplemental aid the committee may establish a modified supplemental amount for the district. The school budget review committee shall review a school district's unspent balance prior to any decision to establish a modified supplemental amount under this subsection.

a. Unusual increase or decrease in enrollment.

b. Unusual natural disasters.

c. Unusual initial staffing problems.

d. The closing of a nonpublic school, wholly or in part, or the opening or closing of a pilot charter school.

e. Substantial reduction in miscellaneous income due to circumstances beyond the control of the district.

f. Unusual necessity for additional funds to permit continuance of a course or program which provides substantial benefit to pupils.

g. Unusual need for a new course or program which will provide substantial benefit to pupils, if the district establishes the need and the amount of necessary increased cost.

h. Unusual need for additional funds for special education or compensatory education programs.

i. Year-round or substantially year-round attendance programs which apply toward graduation requirements, including but not limited to trimester or four-quarter programs. Enrollment in such programs shall be adjusted to reflect equivalency to normal school year attendance.

j. Unusual need to continue providing a program or other special assistance to non-English speaking pupils after the expiration of the five-year period specified in section 280.4.

k. Circumstances caused by unusual demographic characteristics.

l. Any unique problems of school districts.

m. The addition of one or more teacher librarians pursuant to section 256.11, subsection 9, one or more guidance counselors pursuant to section 256.11, subsection 9A, or one or more school nurses pursuant to section 256.11, subsection 9B.

n. Unusual need for additional funds for the costs associated with providing competent private instruction pursuant to chapter 299A.

6. a. The committee shall establish a modified supplemental amount for a district when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

b. The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

7. a. The committee may authorize a district to spend a reasonable and specified amount from its unexpended fund balance for the following purposes:

(1) Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

(2) The costs associated with the demolition of an unused school building, or the conversion of an unused school building for community use, in a school district involved in a dissolution or reorganization under chapter 275, if the costs are incurred within three years of the dissolution or reorganization.

(3) The costs associated with the demolition or repair of a building or structure in a school district if such costs are necessitated by, and incurred within two years of, a disaster as defined in section 29C.2, subsection 4.

b. Other expenditures, including but not limited to expenditures for salaries or recurring costs, are not authorized under this subsection. Expenditures authorized under this subsection shall not be included in a modified supplemental amount or district cost, and the portion of the unexpended fund balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended fund balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 through 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

10. All decisions by the committee under this chapter shall be made in accordance

with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 256B.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 256B.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance exceeding ten percent of the additional funds generated for special education, not to include any previous carryover, from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. (1) If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

(2) There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that have a positive balance determined under paragraph "a" for the base year, or the state aid portion of all of the positive balances determined under paragraph "a" for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph "b", supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph "b".

(3) A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to

instruct the director of the department of management to increase the district's modified supplemental amount and will fund the modified supplemental amount increase either by using moneys from its unexpended fund balance to reduce the district's property tax levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the modified supplemental amount and shall make the supplemental aid payments.

(4) If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under sections 257.32, 257.40, and 260C.18B.

17. *a.* If a district's average transportation costs per pupil exceed the state average transportation costs per pupil determined under paragraph "c" by one hundred fifty percent, the committee may grant transportation assistance aid to the district. Such aid shall be miscellaneous income and shall not be included in district cost.

*b.* To be eligible for transportation assistance aid, a school district shall annually certify its actual cost for all children transported in all school buses not later than July 31 after each school year on forms prescribed by the committee.

*c.* A district's average transportation costs per pupil shall be determined by dividing the district's actual cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount received for transporting nonpublic school pupils under section 285.1, by the district's actual enrollment for the school year excluding the shared-time enrollment for the school year as defined in section 257.6. The state average transportation costs per pupil shall be determined by dividing the total actual costs for all children transported in all districts for a school year, by the total of all districts' actual enrollments for the school year.

*d.* Funds transferred to the committee in accordance with section 321.34, subsection 22, are appropriated to and may be expended for the purposes of the committee, as described in this section. However, highest priority shall be given to districts that meet the conditions described in this subsection. Notwithstanding any other provision of the Code, unencumbered or unobligated funds transferred to the committee pursuant to section 321.34, subsection 22, remaining on June 30 of the fiscal year for which the funds were transferred, shall not revert but shall be available for expenditure for the purposes of this subsection in subsequent fiscal years.

18. If a school district exceeds its authorized budget or carries a negative unspent balance for two or more consecutive years, the committee may recommend that the department implement a phase II on-site visit to conduct a fiscal review pursuant to section 256.11, subsection 10, paragraph "b", subparagraph (1), subparagraph division (e).

**257.36 Special education support services balances.**

1. Notwithstanding chapters 256B and 273 and sections of this chapter relating to the moneys available to area education agencies for special education support services, for each school year, the department of education may direct the department of management to deduct amounts from the portions of school district budgets that fund special education support services in an area education agency. The department of management shall determine the amount deducted from each school district in an area education agency on a proportional basis. The department of management shall determine from the amounts deducted from the portions of school district budgets that fund area education agency special education support services the amount that would have been local property taxes and the amount that would have been state aid and for the next following budget year shall increase the district's total state school aid available under this chapter for area education agency special education support services and reduce the district's property tax levy for area education agency special education support services by the amount necessary for the property tax portion of the deductions made under this section during the budget year.

**257.37 Funding media and educational services.**

Media services and educational services provided through the area education agencies shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the supplemental state aid for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the supplemental state aid for media services in the budget year times the enrollment served in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

2. Up to thirty percent of the budget of an area for media services may be expended for media resource material including the purchase or replacement of material required in section 273.6, subsection 1. Funds shall be paid to area education agencies as provided in section 257.35.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the supplemental state aid for educational services by multiplying the state educational services cost per pupil in the base

year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the supplemental state aid for educational services in the budget year times the enrollment served in the area in the budget year. Funds shall be paid to area education agencies as provided in section 257.35.

4. *“Enrollment served”* means the basic enrollment plus the number of nonpublic school pupils served with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole grade sharing agreement or open enrollment receives services through an area other than the area of the pupil’s residence, the pupil shall be deemed to be served by the area of the pupil’s residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the enrollment report submitted pursuant to section 257.6, subsection 1, the number of nonpublic school pupils within each school district for media and educational services served by the area. However, the school district shall not include in the enrollment report nonpublic school pupils receiving classes or services funded entirely by federal grants or allocations.

5. a. If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

b. This subsection applies only to media and educational services which cannot be diverted for religious purposes.

c. Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

6. For the budget year beginning July 1, 2002, and each succeeding budget year, notwithstanding the requirements of this section for determining the budgets and funding of media services and education services, an area education agency may, within the limits of the total of the funds provided for the budget years pursuant to section 257.35, expend for special education support services an amount that exceeds the payment for special education support services pursuant to section 257.35 in order to maintain the level of required special education support services in the area education agency.

For the budget year beginning July 1, 2009, the department of management shall add together the teacher compensation allocation made to each area education agency for the fiscal year beginning July 1, 2008, pursuant to section 284.13, subsection 1, paragraph “i”, Code 2009, and the phase II allocation made to each area education agency for the fiscal year beginning July 1, 2008, pursuant to section 294A.9, Code 2009, and divide that sum by the special education support services weighted enrollment in the fiscal year beginning July 1, 2009, to determine the area education agency teacher salary supplement cost per pupil. For the budget year beginning July 1, 2010, and succeeding budget years, the area education agency teacher salary supplement district cost per pupil for each area education agency for a

budget year is the area education agency teacher salary supplement district cost per pupil for the base year plus the area education agency teacher salary supplement supplemental state aid amount for the budget year.

b. For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted area education agency teacher salary supplement district cost of an area education agency for a budget year is less than one hundred percent of the unadjusted area education agency teacher salary supplement district cost for the base year for the area education agency, the area education agency shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted area education agency teacher salary supplement district cost is the area education agency teacher salary supplement district cost per pupil for each area education agency for a budget year multiplied by the special education support services weighted enrollment for that area education agency.

(2) The total area education agency teacher salary supplement district cost is the sum of the unadjusted area education agency teacher salary supplement district cost plus the budget adjustment for that budget year.

d. For the budget year beginning July 1, 2009, the use of the funds calculated under this subsection shall comply with requirements of chapter 284 and shall be distributed to teachers pursuant to section 284.3A. For the budget year beginning July 1, 2010, and succeeding budget years, the use of the funds calculated under this subsection shall comply with the requirements of chapter 284 and shall be distributed to teachers pursuant to section 284.3A.

2. *Area education agency professional development supplement cost per pupil and district cost.*

a. For the budget year beginning July 1, 2010, and succeeding budget years, the area education agency professional development supplement district cost per pupil for each area education agency for a budget year is the area education agency professional development supplement district cost per pupil for the base year plus the area education agency professional development supplement supplemental state aid amount for the budget year.

b. For the budget year beginning July 1, 2010, and succeeding budget years, if the department of management determines that the unadjusted area education agency professional development supplement district cost of an area education agency for a budget year is less than one hundred percent of the unadjusted area education agency professional development supplement district cost for the base year for the area education agency, the area education agency shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted area education agency professional development supplement district cost is the area education agency professional development supplement district cost per pupil for each area education agency for a budget year multiplied by the special education support services weighted enrollment for that area education agency.

(2) The total area education agency professional development supplement district cost is the sum of the unadjusted area education agency professional development supplement district cost plus the budget adjustment for that budget year.

#### **257.41 Funding for programs for returning dropouts and dropout prevention.**

1. *Budget.* The budget of an adopted program for at-risk students, secondary students who attend alternative programs or alternative schools, or returning dropouts and dropout prevention for a school district, after subtracting funds received under section 257.11, subsection 4, paragraphs "a" through "c", and from other sources for that purpose, including any previous carryover or amount designated from the school district's flexibility account under section 298A.2, subsection 2, shall be funded annually on a basis of one-fourth or more from the district cost of the school district and up to three-fourths through establishment of a modified supplemental amount. Annually, the department of management shall establish a modified supplemental amount for each such school district equal to the difference between the approved budget for the program for that district and the sum of the amount funded from the district cost of the school district plus funds received under section 257.11, subsection 4, and from other sources for that purpose, including any previous carryover or amount designated from the school district's flexibility account under section 298A.2, subsection 2.

2. *Appropriate uses of funding.* Appropriate uses of the funding for an adopted program include but are not limited to the following:

a. Salary and benefits for staff including but not limited to instructional staff, instructional support staff, administrative staff, and guidance counselors, salary and benefits or contract payments for psychologists licensed under chapter 154B, licensed independent social workers or master social workers under chapter 154C, licensed mental health counselors under chapter 154D, and salary and benefits for school-based youth services staff who are working with at-risk or dropout prevention programs, alternative programs, and alternative schools, in a traditional or alternative setting, or who are working with students who are participating in such programs or schools, if such person's time is dedicated to working with the program or with such students in order to provide services beyond those which are provided by the school district to students who are not participating in such programs or alternative schools. However, if such person works part-time with students who are participating in a program or alternative school and the person has another unrelated assignment, only the portion of the person's time that is related to the program or alternative school may be charged to the program or school. For each such person who works part time or on a contract basis with the program or with students who are participating in a program or alternative school, the school district shall have the authority to designate the portion of the person's time and the corresponding amount of salary and benefits or contract

payment amount that is related to the program or alternative school and shall include such designation as part of the program plan under section 257.38, if applicable. For purposes of this paragraph, if an alternative setting is necessary to provide for a program which is offered at a location off school grounds and which is intended to serve student needs by improving relationships and connections to school, decreasing truancy and tardiness, providing opportunities for course credit recovery, or helping students identified as at risk to accelerate through multiple grade levels of achievement within a shortened time frame, the tuition costs for a student identified as at risk shall be considered an appropriate use of the program funding under this section.

b. Professional development for all teachers, counselors, and staff identified in paragraph “a” who are working with at-risk students under a program or an alternative school setting.

c. Research-based resources, materials, software, supplies, and purchased services that meet all of the following criteria:

(1) Meets the needs of kindergarten through grade twelve students identified as at risk.

(2) Are beyond those provided by the regular school program.

e. Costs incurred for programs authorized under section 257.11, subsection 4, paragraph “d”.

f. Any purpose determined by the board of directors that directly benefits students participating in the adopted program.

g. School security personnel costs.

3. *Limitation.* For the fiscal year beginning July 1, 2013, and each succeeding fiscal year, the ratio of the amount of the modified supplemental amount established by the department of management compared to the school district’s total regular program district cost shall not exceed two and one-half percent. However, if the school district’s highest such ratio so determined for any fiscal year beginning on or after July 1, 2009, but before July 1, 2013, exceeded two and one-half percent, the ratio may exceed two and one-half percent but shall not exceed the highest such ratio established during that period.

4. *Other uses.* Notwithstanding subsection 2 and section 282.24, if a student has been determined by the school district to be likely to inflict self-harm or likely to harm another student and all of the following apply, the school district may use the modified supplemental amount established under subsection 1 to pay the instructional costs necessary to address the student’s behavior during instructional time when those services are not otherwise provided to students who do not require special education and the costs exceed the costs of instruction of students in a regular curriculum:

a. The student does not require special education.

b. The student is not in a court-ordered placement under chapter 232 under the care and custody of the department of human services or juvenile court services.

c. The student is not in the state training school or the Iowa juvenile home pursuant to a court order entered under chapter 232 under the care and custody of the department of human services.

The secretary of state shall submit the transcript of the proceedings to the executive council; and if it approves of a sale at a less sum, it shall certify the approval to the auditor of the county from which the transcript came. All school lands sold in pursuance of law shall be subject to taxation from and after the execution and delivery of a contract of purchase. All sales made, where the full price is not paid, shall be subject to the law relative to the prevention or punishment of waste, and in all such cases the township trustees in each township are charged with the duty of preventing the commission of waste upon any school lands lying in their township, and, if attempted, they shall apply by petition for an injunction to stay the same, and if granted the writ shall issue without bond, and the court issuing it may make such order in the premises as shall be equitable and best calculated to prevent threatened injury, and may adjudge damages for any injury done, the costs to abide the event of the action, and the damages adjudged shall be paid to the county treasurer and the county treasurer shall forthwith pay the same to the state treasurer which shall become a part of the permanent school fund.

**257C.2 Legislative findings.**

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa and the improvement of the financing procedures for Iowa’s schools.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. Iowa schools face a serious and increasing problem with cash flow difficulties caused, among other factors, by increasing reliance on state school foundation aid, delays in the payment of state school foundation aid, and the periodic payment of property taxes for school purposes.
4. As a result of their increasing cash flow difficulties, Iowa schools have had to borrow on a short-term basis larger amounts of funds more often, thus increasing their borrowing costs significantly.
5. The short-term borrowing costs of Iowa schools are a direct burden on the taxpayers of the state.
6. It is necessary to create the authority to provide a means for Iowa schools to reduce substantially or eliminate their short-term borrowing costs and thus reduce costs to the taxpayers.
7. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned or granted.

#### **260C.14 Authority of directors.**

The board of directors of each community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the director and ensure that all career and technical education offerings are competency-based, provide any minimum competencies required by the department of education, comply with any applicable requirements in chapter 258, and are articulated with local school district career and technical education programs. If an existing private educational institution or an existing vocational institution offering a career and technical education program within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the director shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the director shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid duplication were not entered into and an economic impact statement relating to the board’s decision.

2. Have authority to determine tuition rates for instruction. Tuition for residents of Iowa shall not exceed the lowest tuition rate per semester, or the equivalent, charged by an institution of higher education under the state board of regents for a full-time resident

student. b. The selection of investment contracts to be included within the plan established by the board shall be made either pursuant to a competitive bidding process conducted by the board, in coordination with employee organizations representing employees eligible to participate in the plan, or pursuant to an agreement with the department of administrative services to make available investment contracts included in a deferred compensation or similar plan established by the department pursuant to section 8A.438, which plan meets the requirements of this subsection. The determination of whether to select investment contracts for the plan pursuant to a competitive bidding process or by agreement with the department of administrative services shall be made by agreement between the board and the employee organizations representing employees eligible to participate in the plan.

c. The board may make elective deferrals in accordance with the plan as authorized by an eligible employee for the purpose of making contributions to an investment contract in the plan on behalf of the employee. The deferrals shall be made in the manner which will qualify

contributions to the investment contract for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. In addition, the board may make nonelective employer contributions to the plan.

u. "*Total growth support amount*" means the sum of the eligible growth support for all the community colleges.

3. *Distribution formula.* Moneys appropriated by the general assembly from the general fund to the department for community college purposes for general state financial aid for a budget year shall be allocated to each community college by the department as follows:

a. If the inflation rate is equal to two percent or less:

(1) *Base funding allocation.* The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) *Marginal cost adjustment.* After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college's allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) *Three-year rolling average of full-time equivalent enrollment.* If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) *Extraordinary growth adjustment.* If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college's eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(5) *Additional three-year rolling average FTEE allocation.* If the increase in total state general aid exceeds four percent over the base funding allocation, all remaining moneys shall be distributed based upon each college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

b. If the inflation rate is greater than two percent but less than four percent:

(1) *Base funding allocation.* The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) *Marginal cost adjustment.* After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college's allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) *Three-year rolling average of full-time equivalent enrollment.* If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) *Extraordinary growth adjustment.* If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be based as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college's eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support

amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(5) *Inflation adjustment.* If the increase in total state general aid exceeds four percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(6) *Additional three-year rolling average FTEE allocation.* If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

c. If the inflation rate equals or exceeds four percent:

(1) *Base funding allocation.* The moneys shall first be allocated in the amount of general state financial aid each community college received in the base year. If the appropriation is less than the total of the amount of general state financial aid each community college received in the base year, the moneys shall be allocated in the same proportion as the allocation of general state financial aid each community college received in the base year.

(2) *Marginal cost adjustment.* After the base funding has been allocated, each community college shall be allocated up to an additional two percent of its base funding allocation. The community college's allocation shall be in the same proportion as the allocation of general state financial aid each community college received in the base year.

(3) *Three-year rolling average of full-time equivalent enrollment.* If the increase in the total state general aid exceeds two percent over the base funding allocation, an amount up to an additional one percent of the base funding allocation shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(4) *Inflation adjustment.* If the increase in total state general aid exceeds three percent over the base funding allocation, an amount up to the inflation adjustment amount shall be distributed to each community college in the same proportion as the allocation of general state financial aid each community college received in the base year.

(5) *Extraordinary growth adjustment.* If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (4), an amount up to an additional one percent of the base funding allocation shall be based as follows:

(a) Forty percent of the moneys shall be allocated based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

(b) Sixty percent of the moneys shall be allocated to community colleges that have eligible growth support. The allocation shall be based upon the proportional share that each community college's eligible growth support bears to the total growth support amount. Once the moneys allocated under this subparagraph division equal the total growth support amount, the remaining moneys allocated under this subparagraph shall be allocated as provided in subparagraph division (a).

(6) *Additional three-year rolling average FTEE allocation.* If there are remaining moneys to be distributed under this paragraph after distributing moneys under subparagraph (5), all remaining moneys shall be distributed based upon each community college's proportional share of the three-year rolling average full-time equivalent enrollments for all community colleges.

4. *Information supplied by colleges and adoption of rules.*

a. Each community college shall provide information in the manner and form as determined by the department. If a community college fails to provide the information as requested, the department shall estimate the full-time equivalent enrollment of that college.

b. Each community college shall complete and submit an annual student enrollment audit to the department. Adjustments to community college state general aid allocations shall be made based on student enrollment audit outcomes.

c. The department shall adopt rules under chapter 17A as necessary for the allocation of general state financial aid.

**260C.18D Instructor salary distribution formula.**

1. *Distribution formula.* Moneys appropriated by the general assembly to the department for community college instructor salaries shall be distributed among each community college based on the proportion that the number of full-time equivalent instructors employed by a community college bears to the sum of the number of full-time equivalent eligible instructors who are employed by all community colleges in the state for the base year. The state board shall define “eligible full-time equivalent instructor” by rule.

2. *Base funding allocation.* Moneys distributed to each community college under subsection 1 shall be included in the base funding allocation for all future years. The use of the funds shall remain as described in this section for all future years.

3. *Purposes supplemental.* Moneys appropriated and distributed to community colleges under this section shall be used to supplement and not supplant any approved faculty salary increases or negotiated agreements, excluding the distribution of the funds in this section.

4. *Eligible instructors.* Moneys distributed to a community college under this section shall be allocated to all full-time, nonadministrative instructors and part-time instructors covered by a collective bargaining agreement. The moneys shall be allocated by negotiated agreements according to chapter 20. If no language exists, the moneys shall be allocated equally to all full-time, nonadministrative instructors with part-time instructors covered by a collective bargaining agreement receiving a prorated share of the fund.

5. *Evenly divided payments.* A community college receiving funds distributed pursuant to this section shall determine the amount to be paid to instructors in accordance with subsection 4 and the amount determined to be paid to an individual instructor shall be divided evenly and paid in each pay period of the fiscal year.

6. *Reductions.* Moneys appropriated by the general assembly to the department for community college instructor salaries are not subject to a uniform reduction in accordance with section 8.31.

**260C.22 Facilities levy by vote — borrowing — temporary cash reserve levy.**

1. a. In addition to the tax authorized under section 260C.17 and upon resolution of the

board of directors, the voters in a merged area may at the regular school election or at a special election held on the second Tuesday in September of the even-numbered year vote a tax not exceeding twenty and one-fourth cents per thousand dollars of assessed value in any one year for a period not to exceed ten years, unless otherwise provided under subsection 2, for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, for the purpose of paying costs of utilities, and for the purpose of maintaining, remodeling, improving, or expanding the community college of the merged area. If the tax levy is approved under this section, the costs of utilities shall be paid from the proceeds of the levy. The tax shall be collected by the county treasurers and remitted to the treasurer of the merged area as provided in section 331.552, subsection 29. The proceeds of the tax shall be deposited in a separate and distinct fund to be known as the voted tax fund, to be paid out upon warrants drawn by the president and secretary of the board of directors of the merged area district for the payment of costs incurred in providing the school facilities for which the tax was authorized.

b. In order to make immediately available to the merged area the proceeds of the voted tax authorized to be levied under this section, the board of directors of any such merged area is hereby authorized, without the necessity for any further election, to borrow money and enter into loan agreements in anticipation of the collection of such tax, and such board shall, by resolution, provide for the levy of an annual tax, within the limits of the special voted tax authorized under this section, sufficient to pay the amount of any such loan and the interest thereon to maturity as the same becomes due. A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agreement entered into pursuant to authority herein contained shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax authorized under this section, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was authorized.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing herein contained shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This subsection shall be construed as supplemental and in addition to existing statutory authority and as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously

borrowed money and entered into loan agreements under authority herein contained shall not prevent such merged area from borrowing additional money and entering into further loan agreements provided that the aggregate of the amount payable under all of such loan agreements does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken by the board of directors or by any official of any merged area for the exercise of any of the powers granted by this section are hereby legalized and validated in all respects.

2. Following approval of the tax at two consecutive elections under subsection 1 where the question of imposing the tax appeared on the ballot, if the tax has been imposed for a period of at least twenty consecutive years, the board of directors of the merged area may, by resolution adopted at any time before the end of the most recently authorized period of time for imposing the tax, continue to impose the voted tax each year for an additional period not to exceed ten years at a rate not to exceed the maximum rate approved at election until the tax is discontinued or the maximum rate is increased following an election pursuant to subsection 3. An increase in the maximum rate of the voted tax, not to exceed the maximum rate specified in subsection 1, shall be approved at election pursuant to the requirements of subsection 3.

3. A voted tax imposed under this section may be discontinued, or its maximum rate increased, by petition and election. Upon receipt of a petition containing the required number of signatures, the board of directors of a merged area shall direct the county commissioner of elections responsible under section 47.2 for conducting elections in the merged area to submit to the voters of the merged area the question of whether to discontinue the authority of the board of directors to impose the voted tax under this section or to increase the maximum rate of the voted tax, whichever is applicable. The petition must be signed by eligible electors equal in number to not less than twenty-five percent of the votes cast at the last preceding election in the merged area where the question of the imposition of the tax appeared on the ballot and received by the board of directors by June 1 of the year in which the election is to be held. The question shall be submitted at an election held on a date authorized for an election under subsection 1, paragraph "a". If a majority of those voting on the question of discontinuance of the board of directors' authority to impose the tax favors discontinuance, the board shall not impose the tax for any fiscal year beginning after expiration of the period of time for imposing the tax approved at the last election under subsection 1 or the period of time for imposing the tax established by resolution of the board under subsection 2 that is in effect on the date the petition for the election is filed with the board, whichever is applicable, unless following discontinuance the voted tax is again authorized at election under subsection 1. If the question of whether to discontinue the authority of the board of directors to impose the tax fails to gain approval at election, the question shall not be submitted to the voters of the merged area for a period of ten years following the date of the election. If a majority of those voting on the question to increase the maximum rate of the voted tax favors the proposed increase, the new maximum rate shall apply to fiscal years beginning after the date of the election.

1. Annually, the board of directors may certify for levy a tax on taxable property in the merged area at a rate not exceeding three cents per thousand dollars of assessed valuation for equipment replacement for the community college.

2. However, the board of directors may annually certify for levy a tax on taxable property in the merged area at a rate in excess of the three cents per thousand dollars of assessed valuation specified under subsection 1 if the excess tax levied does not cause the total rate certified to exceed a rate of nine cents per thousand dollars of assessed valuation, and the excess revenue generated is used for purposes of program sharing between community colleges or for the purchase of instructional equipment. Programs that are shared shall be designed to increase student access to community college programs and to achieve efficiencies in program delivery at the community colleges, including, but not limited to, the programs described under section 260C.46. Prior to expenditure of the excess revenues generated under this subsection, the board of directors shall obtain the approval of the director of the department of education.

If a majority of those voting on the question at the election favors authorization of the board to make such a levy, the board may certify for a levy as provided under subsection 2 during each of the ten years following the election, unless otherwise authorized under paragraph “b”. If a majority of those voting on the question at the election does not favor authorization of the board to make a levy under subsection 2, the board may submit the question to the voters again at an election held on a date specified in section 39.2, subsection 4, paragraph “c”.

*b.* Following approval of the additional tax authorized under subsection 2 at two consecutive elections under paragraph “a” where the question of imposing the additional tax appeared on the ballot, if the additional tax has been imposed for a period of at least twenty consecutive years and either the period of time for imposing the additional tax approved at the last election under paragraph “a” or the period of time for imposing the tax established previously by resolution under this paragraph “b” is due to expire, the board of directors of the merged area may, by resolution, continue to impose the additional tax each year for an additional period not to exceed ten years at a rate not to exceed the maximum rate authorized under subsection 2, until the tax is discontinued following an election pursuant to paragraph “c”.

The petition must be signed by eligible electors equal in number to not less than twenty-five percent of the votes cast at the last preceding election in the merged area where the question of the imposition of the additional tax appeared on the ballot. The question shall be submitted at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. If a majority of those voting on the question of discontinuance of the board of directors’ authority to impose the additional tax favors discontinuance, the board shall not impose the additional tax for any fiscal year beginning after the expiration of the period of time for imposing the tax approved at the last election under paragraph “a” or the period of time for imposing the additional tax established by resolution of the board under paragraph “b” that is in effect on the date

the petition for the election is filed with the board, whichever is applicable, unless following discontinuance the additional tax is again authorized at election under paragraph “a”. If the question of whether to discontinue the authority of the board of directors to impose the additional tax fails to gain approval at election, the question shall not be submitted to the voters of the merged area for a period of ten years following the date of the election.

### **260C.39 Combining merged areas — election.**

1. Any merged area may combine with any adjacent merged area after a favorable vote by the electors of each of the areas involved. If the boards of directors of two or more merged areas agree to a combination, the question shall be submitted to the electors of each area at an election held on a date specified in section 39.2, subsection 4, paragraph “c”, and held on the same day in each area. Prior to the election, the board of each merged area shall notify the county commissioner of elections of the county in which the greatest proportion of the merged area’s taxable base is located, who shall publish notice of the election according to section 49.53. The two respective county commissioners of elections shall conduct the election pursuant to the provisions of chapters 39 to 53. The votes cast in the election shall be canvassed by the county board of supervisors, and the county commissioner of elections of each county in the merged areas shall certify the results to the board of directors of each merged area.

2. If the vote is favorable in each merged area, the boards of each area shall proceed to transfer the assets, liabilities, and facilities of the areas to the combined merged area, and shall serve as the acting board of the combined merged area until a new board of directors is elected. The acting board shall submit to the director of the department of education a plan for redistricting the combined merged area, and upon receiving approval from the director, shall provide for the election of a director from each new district at the next regular school election. The directors elected from each new district shall determine their terms by lot so that the terms of one-third of the members, as nearly as may be, expire each year. Election of directors for the combined merged area shall follow the procedures established for election of directors of a merged area. A combined merged area is subject to all provisions of law and rules governing merged areas.

3. The terms of employment of personnel, for the academic year following the effective date of the agreement to combine the merged areas shall not be affected by the combination of the merged areas, except in accordance with the procedures under sections 279.15 to 279.18 and section 279.24, to the extent those procedures are applicable, or under the terms of the base bargaining agreement. The authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to any applicable procedures under chapter 279, shall be transferred to the acting, and then to the new, board of the combined merged area upon certification of a favorable vote to each of the merged areas affected by the agreement. The collective bargaining agreement of the merged area receiving the greatest amount of general state aid shall serve as the base agreement for the combined merged area and the employees of the merged areas which combined to form the new combined merged area shall automatically be accreted to the bargaining unit from that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the merged areas which are combining under this section, then that agreement shall serve as the base agreement, and the employees of the merged areas which are combining to form the new combined merged area shall automatically be accreted to the bargaining unit of that former merged area for purposes of negotiating the contracts for the following years without further action by the public employment relations board. The board of the combined merged area, using the base agreement as its existing contract, shall bargain with the combined employees of the merged areas that have agreed to combine for the academic year beginning with the effective date of the agreement to combine merged areas. The bargaining shall be completed by March 15 prior to the academic year in which the agreement to combine merged areas becomes effective or within one hundred eighty

days after the organization of the acting board of the new combined merged area, whichever is later. If a bargaining agreement was already concluded in the former merged area which has the collective bargaining agreement that is serving as the base agreement for the new combined merged area, between the former merged area board and the employees of the former merged area, that agreement is void, unless the agreement contained multiyear provisions affecting academic years subsequent to the effective date of the agreement to form a combined merged area. If the base collective bargaining agreement contains multiyear provisions, the duration and effect of the agreement shall be controlled by the terms of the agreement. The provisions of the base agreement shall apply to the offering of new contracts, or the continuation, modification, or termination of existing contracts between the acting or new board of the combined merged area and the combined employees of the new combined merged area.

#### **260C.47 Accreditation of community college programs.**

1. The state board of education shall establish an accreditation process for community college programs. The process shall be jointly developed and agreed upon by the department of education and the community colleges. The state accreditation process shall be integrated with the accreditation process of the higher learning commission, including the evaluation cycle, the self-study process, and the criteria for evaluation, which shall incorporate the standards for community colleges developed under section 260C.48; and shall identify and make provision for the needs of the state that are not met by the commission’s accreditation

process. The department of education shall use a two-component process for the continued accreditation of community college programs.

a. The first component consists of submission of required data by the community colleges and annual monitoring by the department of education of all community colleges for compliance with state program evaluation requirements adopted by the state board.

b. The second component consists of the use of an accreditation team appointed by the director of the department of education, to conduct an evaluation, including an on-site visit of each community college, with a comprehensive evaluation occurring once every ten years, and an interim evaluation midway between comprehensive evaluations. The number and composition of the accreditation team shall be determined by the director, but the team shall include members of the department of education staff and community college staff members from community colleges other than the community college that conducts the programs being evaluated for accreditation. The accreditation team shall monitor the quality faculty plan implemented by each community college pursuant to section 260C.36.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation agencies, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team's report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department of education, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department of education shall give a community college which has a program which fails to meet accreditation standards at least one year's notice prior to removal of accreditation of the program. The notice shall be given by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by

ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. a. Instructors in the subject area of career and technical education shall be registered, certified, or licensed in the occupational area in which the state requires registration, certification, or licensure, and shall hold the appropriate registration, certificate, or license for the occupational area in which the instructor is teaching, and shall meet either of the following qualifications:

instructor in arts and sciences courses shall be fifteen credit hours per semester, or the equivalent, and the maximum academic workload shall be sixteen credit hours per semester, or the equivalent. An instructor may also have an additional teaching assignment if the instructor and the community college administration mutually consent to the additional assignment and the total teaching load does not exceed twenty-two hours of credit per semester, or the equivalent.

3. Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

4. Standards relating to quality assurance of faculty and ongoing quality professional development shall be the accreditation standards of the higher learning commission and the faculty standards required under specific programs offered by the community college that are accredited by other accrediting agencies.

1. To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. Bonds or notes issued by the board for residence hall or dormitory purposes at any institution, including dining or other facilities and additions, or issued for refunding purposes, may either be sold in the manner specified for the selling of certificates under section 260E.6 and the proceeds applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or

series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds, or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded, to fund interest in arrears or about to become due, or to allow for sufficient funding of the escrow account on the bonds to be refunded.

2. a. All bonds or notes issued under the provisions of this subchapter shall be payable from and shall be secured by an irrevocable first lien pledge of a sufficient portion of any of the following:

(1) The net rents, profits, and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement.

b. In addition, the board may secure any bonds or notes issued by borrowing money, by mortgaging any real estate or improvements erected on real estate, or by pledging rents, profits, and income received from property for the discharge of mortgages. 5. The bonds or notes issued by the authority are not an indebtedness or other liability of the state or of a political subdivision of the state within the meaning of any constitutional or statutory debt limitations, but are special obligations of the authority and are payable solely from the income and receipts or other funds or property of the community college or private developer, and the amounts on deposit in a community college bond fund, and the amounts payable to the authority under its loan agreements with a community college or private developer to the extent that the amounts are designated in the resolution, trust

The taxes received by the board of directors shall be allocated to and when collected be paid into a special fund of the community college and may be irrevocably pledged by the community college to pay the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project. However, with respect to any urban renewal project as to which an ordinance is in effect under section 403.19, the collection of incremental property taxes authorized by this chapter are suspended in favor of collection of incremental taxes under section 403.19. As used in this section, “taxes” includes, but is not limited to, all levies on an ad valorem basis upon land or real property of the employer’s business, where new jobs are created as a result of a project.

#### **260E.5 New jobs credit from withholding.**

If an agreement provides that all or part of program costs are to be met by receipt of new jobs credit from withholding, it shall be done as follows:

1. New jobs credit from withholding shall be based upon the wages paid to the employees in the new jobs.

2. An amount equal to one and one-half percent of the gross wages paid by the employer to each employee participating in a project shall be credited from the payment made by an

employer pursuant to section 422.16. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificate issued by a community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

5. A community college shall certify to the department of revenue the amount of new jobs credit from withholding an employer has remitted to the special fund and shall provide other information the department may require.

6. An employee participating in a project will receive full credit for the amount withheld as provided in section 422.16.

### **260E.6 Certificates.**

To provide funds for the present payment of the costs of new jobs training programs, a community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

1. Certificates may be sold at public sale or at private sale at par, premium, or discount at the discretion of the board of directors. Chapter 75 does not apply to the issuance of these certificates.

2. Certificates may be issued with respect to a single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the certificates issued as provided in this section, when the receipt of

payment for program costs as provided in the agreement is insufficient. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement which are not required for the payment of principal or interest on certificates due. No reserves may be built up in this fund in anticipation of a projected default. The board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice by action in the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

#### **260E.7 Program review by economic development authority.**

1. The economic development authority, in consultation with the department of education, the department of revenue, and the department of workforce development, shall coordinate and review the new jobs training program. The economic development authority shall adopt, amend, and repeal rules under chapter 17A that the community college will use in developing projects with new and expanding industrial new jobs training proposals and that the economic development authority shall use to review and report on the new jobs training program as required in this section.

2. a. The authority, in consultation with the community colleges participating in the new jobs training program pursuant to this chapter, shall identify the information necessary to effectively coordinate and review the program, and the community colleges shall provide such information to the authority. Using the information provided, the authority, in consultation with the community colleges, shall issue a report on the effectiveness of the program.

b. In coordinating and reviewing the program, due regard shall be given to the confidentiality of certain information provided by the community colleges, and the authority shall comply with the provisions of section 15.118 to the extent that such provisions are applicable to the new jobs training program.

3. SUBCHAPTER XII  
 MINORITY ACADEMIC GRANTS FOR ECONOMIC SUCCESS

**261.101 Legislative intent.**

The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained workforce for business and industry in Iowa. The general assembly also declares that it is the policy of this state to apply positive measures to ensure that equal

opportunities exist for minority persons to pursue their educational goals. Therefore, the “Iowa Minority Academic Grants for Economic Success” program is established to provide additional funding to the state board of regents institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

If the student discontinues attendance before the end of any term after receiving payment of the grant, the entire amount of any refund due that student, up to the amount of any payments made under the annual grant, shall be paid by the community college to the state.

7. If a student receives financial aid under any other program, the full amount of that financial aid shall be considered part of the student's financial resources available in determining the amount of the student's financial need for that period.

8. The commission shall administer this program and shall:

*a.* Provide application forms for distribution to students by Iowa high schools and community colleges.

[82 Acts, ch 1031, §1]

Referred to in §261A.24

#### 261A.2 Declaration of purpose.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of this chapter to provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of this chapter to supplement federal guaranteed higher education loan programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student’s higher education in execution of the public policy set forth above.

#### 261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.
4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.
5. Without public action as contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education.
6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.
7. Without public action as contemplated by this chapter, the inability to obtain educational financing will result in declining enrollments at institutions of higher education.
8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.

9. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

Each education loan's fees shall include a portion, if necessary, to cover the applicable pro rata cost of a servicing organization.

Criteria shall be established to assure the marketability of the obligations and the adequacy of the security for the obligations.

d. The authority shall establish limitations upon the principal amounts and the terms of education loans, criteria regarding the qualifications and characteristics of borrowers and procedures for allocating authority loans among institutions eligible for its program in order to effectuate the purposes of this chapter.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. However, the education loan series portfolios and other security and moneys set aside in a fund or funds pledged for a series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from education loan series portfolios and other security and moneys pledged for any other series or issue of obligations. Obligations may be issued in series under one or more resolutions or trust agreements in the discretion of the authority.

13. Examine records and financial reports of participating institutions, and examine records and financial reports of a contractor organization or institution retained by the authority.

The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this subchapter applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this subchapter on terms and subject to conditions the authority prescribes.

85 Acts, ch 210, §10; 2017 Acts, ch 54, §76

#### **261A.41 Expenses.**

85 Acts, ch 210, §11; 2017 Acts, ch 54, §76

#### **261A.42 Obligations.**

1. The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

2. Except as otherwise provided by this subchapter, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall

be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this subchapter have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

3. The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

4. The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this subchapter without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this subchapter. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

#### **261A.43 Resolution provisions.**

The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:

1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.
2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.
3. Limitations on the use of the project.
4. Limitations on the purpose to which or the investments in which the proceeds of sale of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.
5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.
6. The procedure, if any, by which the terms of any contract with obligation holders may

be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.

7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.

8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.

10. Other matters relating to the obligations which the authority deems desirable.

85 Acts, ch 210, §13

#### **261A.44 Obligations secured by trust agreement.**

Obligations issued under this subchapter may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this subchapter. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

Referred to in §261A.42

#### **261A.45 Obligations issued to acquire federally guaranteed securities.**

1. The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this subchapter, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, “*federally guaranteed security*” means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

2. The authority may acquire or enter into commitments to acquire a federally guaranteed security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the

purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

3. The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this subchapter, and the trust agreement creating the bonds may contain provisions set forth in this subchapter as the authority deems appropriate.

4. If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

Obligations issued pursuant to this subchapter are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this subchapter, unless the obligations are refunded by refunding obligations issued under this subchapter, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this subchapter. All revenue obligations shall contain on their face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this subchapter are payable solely from funds provided under this subchapter, and this subchapter does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply the money for the purposes of this subchapter, subject to the provisions of this subchapter and of the authorizing resolution or trust agreement.

85 Acts, ch 210, §17; 2017 Acts, ch 54, §76

1. A holder of obligations or of the coupons pertaining to obligations and the trustee under

a trust agreement, except to the extent the rights given in this subchapter are restricted by the authorizing resolution or trust agreement, may, by suit, mandamus, or other proceedings, protect and enforce any and all rights under the laws of this state, or under the trust agreement or resolution authorizing the issuance of the obligations, and may enforce and compel the performance of all duties required by this subchapter or by the trust agreement or resolution to be performed by the authority or by an officer, employee, or agent of the authority, including the fixing, charging, and collecting of fees and charges authorized in this subchapter and required by the resolution or trust agreement to be fixed and collected.

2. The rights of holders include the right to compel the performance of all duties of the authority required by this subchapter or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

**261A.49 Bondholders — pledge — agreement of the state.**

The state pledges to and agrees with the holders of any obligations issued under this subchapter, and with those parties who enter into contracts with the authority pursuant to this subchapter, that the state will not limit or alter the rights vested in the authority until the obligations, together with the interest on the obligations, are fully met and discharged and the contracts are fully performed on the part of the authority, except that this section does not preclude the limitation or alteration if and when adequate provision is made by law for the protection of the rights of the holders of the obligations of the authority or those entering into contracts with the authority.

85 Acts, ch 210, §19; 2017 Acts, ch 54, §76

If real estate subject to sale has been purchased or acquired from appropriated funds, the proceeds of such sale shall be deposited with the treasurer of state and credited to the general fund of the state. There is hereby appropriated from the general fund of the state a sum equal to the proceeds so deposited and credited to the general fund of the state to the state board of regents, which may be used to purchase other real estate and buildings and for the construction and alteration of buildings and other capital improvements. All transfers shall be by state patent in the manner provided by law. The board is also authorized to grant easements for rights-of-way over, across, and under the surface of public lands under its jurisdiction when in the board's judgment such easements are desirable and will benefit the state of Iowa.

14. Grant leaves of absence with full or partial compensation to staff members to undertake approved programs of study, research, or other professional activity which in the judgment of the board will contribute to the improvement of the institutions. 15. Lease properties and facilities, either as lessor or lessee, for the proper use and benefit of said institutions upon such terms, conditions, and considerations as the board deems advantageous, including leases with provisions for ultimate ownership by the state of Iowa, and to pay the rentals from funds appropriated to the institution for operating expenses thereof or from such other funds as may be available therefor.

16. In its discretion employ or retain attorneys or counselors when acting as a public employer for the purpose of carrying out collective bargaining and related responsibilities provided for under chapter 20. This subsection shall supersede the provisions of section 13.7.

17. a. In its discretion, adopt rules relating to the classification of students enrolled in institutions of higher education under the board who are residents of Iowa's sister states as residents or nonresidents for fee purposes.

b. (1) Adopt rules to classify as residents for purposes of undergraduate tuition and mandatory fees, qualified veterans and qualified military persons and their spouses and

dependent children who are domiciled in this state while enrolled in an institution of higher education under the board. A spouse or dependent child of a military person or veteran shall not be deemed a resident under this paragraph “b” unless the qualified military person or qualified veteran meets the requirements of subparagraph (2), subparagraph division (b) or (c), as appropriate.

(2) For purposes of this paragraph “b”, unless the context otherwise requires:

(b) “*Qualified military person*” means a person on active duty in the military service of the United States who is stationed in this state or at the Rock Island arsenal. (c) “*Qualified veteran*” means a person who meets the following requirements:

(i) Is eligible for benefits, or has exhausted the benefits, under the federal Post-9/11 Veterans Educational Assistance Act of 2008.

(ii) Is domiciled in this state, or has resided in this state for at least one year or sufficient time to have filed an Iowa tax return in the preceding twelve months.

18. In issuing bonds or notes under this chapter, chapter 262A, chapter 263A, or other provision of law, select and fix the compensation for, through a competitive selection procedure, attorneys, accountants, financial advisors, banks, underwriters, insurers, and other employees and agents which in the board’s judgment are necessary to carry out the board’s intention. Prior to the initial selection, the board shall establish a procedure which provides for a fair and open selection process including but not limited to the opportunity to present written proposals and personal interviews. The board shall maintain a list of firms which have requested to be notified of requests for proposal. The selection criteria shall take into consideration, but are not limited to, compensation, expenses, experience with similar issues, scheduling, ability to provide the services of individuals with specific knowledge in the relevant subject matter and length of engagement. The board may waive the requirements for a competitive selection procedure for any specific employment upon adoption of a resolution of the board stating why the waiver is in the public interest and shall provide the executive council with written notice of the granting of any such waiver.

19. a. Not less than thirty days prior to action by the board on any proposal to increase tuition, fees, or charges at one or more of the institutions of higher education under its control, send written notification of the amount of the proposed increase including a copy of the proposed tuition increase docket memorandum prepared for its consideration to the presiding officers of the student government organization of the affected institutions. The final decision on an increase in tuition or mandatory fees charged to all students at an institution for a fiscal year shall be made at a regular meeting and shall be reflected in a final docket memorandum that states the estimated total cost of attending each of the institutions of higher education under the board’s control. The regular meeting shall be held in Ames, Cedar Falls, or Iowa City and shall not be held during a period in which classes have been suspended for university holiday or break.

b. Authorize, at its discretion, each institution of higher education to retain the student fees and charges it collects to further the institution’s purposes as authorized by the board. Notwithstanding any provision to the contrary, student fees and charges, as defined in section 262A.2, shall not be considered repayment receipts as defined in section 8.2.

c. Prohibit the designation of a portion of the tuition moneys collected from resident undergraduate students by institutions of higher education governed by the board for use for student aid purposes. However, such institutions may designate that a portion of the tuition moneys collected from nonresident students be used for such purposes.

20. Adopt policies and procedures for the use of telecommunications as an instructional tool at its institutions. The policies and procedures shall include but not be limited to policies

and procedures relating to programs, educational policy, practices, staff development, use of pilot projects, and the instructional application of the technology.

21. Establish a hall of fame for distinguished graduates at the Iowa braille and sight saving school and at the Iowa school for the deaf.

22. Assist a nonprofit organization located in Sioux City in the creation of a northwest Iowa regents resource center comparable to the southwest Iowa regents resource center located in Council Bluffs. The purpose of the Sioux City regents resource center shall be to create postsecondary education opportunities for students living in northwest Iowa.

23. Direct the administration of the Iowa minority academic grants for economic success program as established in section 261.101 for the institutions under its control.

24. Develop a policy and adopt rules relating to the establishment of tuition rates which provide a predictable basis for assessing and anticipating changes in tuition rates.

25. Develop a policy requiring oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction on at least an annual basis. However, the board shall establish criteria by which an institution may discontinue annual evaluations of a specific person providing instruction. The criteria shall include receipt by the institution of two consecutive positive annual evaluations from the majority of students evaluating the person.

26. Develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

27. Explore, in conjunction with the department of education, the need for coordination between school districts, area education agencies, state board of regents institutions, and community colleges for purposes of delivery of courses, use of telecommunications, transportation, and other similar issues. Coordination may include but is not limited to coordination of calendars, programs, schedules, or telecommunications emissions. The state board shall develop recommendations as necessary, which shall be submitted in a report to the general assembly on a timely basis.

28. Develop and implement a written policy, which is disseminated during registration or orientation, addressing the following four areas relating to sexual abuse:

- a. Counseling.
- b. Campus security.
- c. Education, including prevention, protection, and the rights and duties of students and employees of the institution.
- d. Facilitating the accurate and prompt reporting of sexual abuse to the duly constituted law enforcement authorities.

29. Authorize the institutions of higher learning under the board to charge an interest rate, not to exceed the prime rate plus six percent, on delinquent bills. However, the board shall prohibit the institutions from charging interest on late tuition payments and room and board payments if financial aid payments to students enrolled in the institutions are delayed by the lending institution.

30. Direct the institutions of higher education under its control to adopt a policy to offer not less than the following options to a student who is a member, or the spouse of a member if the member has a dependent child as defined in subsection 17, paragraph "b", subparagraph (2), subparagraph division (a), of the Iowa national guard or reserve forces of the United States and who is ordered to national guard duty or federal active duty:

- a. Withdraw from the student's entire registration and receive a full refund of tuition and mandatory fees.
- b. Make arrangements with the student's instructors for course grades, or for incompletes that shall be completed by the student at a later date. If such arrangements are made, the student's registration shall remain intact and tuition and mandatory fees shall be assessed for the courses in full.
- c. Make arrangements with only some of the student's instructors for grades, or for incompletes that shall be completed by the student at a later date. If such arrangements are

made, the registration for those courses shall remain intact and tuition and mandatory fees shall be assessed for those courses. Any course for which arrangements cannot be made for grades or incompletes shall be considered dropped and the tuition and mandatory fees for the course refunded.

31. Develop a policy, not later than August 1, 2003, that each institution of higher education under the control of the board shall approve, institute, and enforce, which prohibits students, faculty, and staff from harassing or intimidating a student or any other person on institution property who is wearing the uniform of, or a distinctive part of the uniform of, the armed forces of the United States. A policy developed in accordance with this subsection shall not prohibit an individual from wearing such a uniform on institution property if the individual is authorized to wear the uniform under the laws of a state or the United States. The policy shall provide for appropriate sanctions.

32. Establish a research triangle, defined by the three institutions of higher learning under the board's control, and clearinghouse for purposes of sharing the projects and results of kindergarten through grade twelve education technology initiatives occurring in Iowa's school districts, area education agencies, community colleges, and other higher education institutions, with the education community within and outside of the state. Dissemination of and access to information regarding planning, financing, curriculum, professional development, preservice training, project implementation strategies, and results shall be centralized to allow school districts from across the state to gain ideas from each other regarding the integration of technology in the classroom.

33. In consultation with the state board of education, establish and enter into a collective statewide articulation agreement with the community colleges established pursuant to chapter 260C, which shall provide for the seamless transfer of academic credits from a completed associate of arts or associate of science degree program offered by a community college to a baccalaureate degree program offered by an institution of higher education governed by the board. The board shall also do the following:

a. Require each of the institutions of higher education governed by the board to identify a transfer and articulation contact office or person, publicize transfer and articulation information and the contact office or person, and submit the contact information to the board for publication on its articulation internet site.

b. Develop, in collaboration with the boards of directors of the community colleges, a systematic process for expanding academic discipline and meetings between the community college faculty and faculty of the institutions of higher education governed by the board. The board shall conduct and jointly administer with the boards of directors of the community colleges four program and academic discipline meetings each academic year for the purpose of enhancing alignment between course content and expectations at the community colleges and institutions of higher education governed by the state board of regents.

c. Develop criteria to prioritize core curriculum areas and create or review transition guides for the core curriculum areas.

d. Include on its articulation internet site course equivalency and transition guides for each of the institutions of higher education governed by the board.

e. Jointly, with the boards of directors of the community colleges, select academic departments in which to articulate first-year and second-year courses through faculty-to-faculty meetings in accordance with paragraph "b". However, course-to-course equivalencies need not occur in an academic discipline when the board and the community colleges jointly determine that course content is incompatible.

f. Promote greater awareness of articulation-related activities, including the articulation internet site maintained by the board and articulation agreements in which the institutions participate.

g. Facilitate additional opportunities for individual institutions to pursue program articulation agreements for community college career and technical education programs and programs of study offered by the institutions of higher education governed by the board.

SUBCHAPTER XIII  
REGENTS' MINORITY AND WOMEN EDUCATORS ENHANCEMENT

**262.81 Legislative intent.**

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "Regents' Minority and Women Educators Enhancement" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

**262.82 Regents' minority and women educators enhancement program.**

1. The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board's control. The program shall include but is not limited to the creation of faculty positions in all areas of academic pursuit.

2. The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board's control. The program shall include but is not limited to the creation of faculty positions in targeted shortage areas. The board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

3. As used in this section, "*minority educator*" means an educator who is a minority person as defined in section 261.102.

#### SUBCHAPTER XIV COLLEGE-BOUND PROGRAM

##### **262.91 Legislative intent.**

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa's higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the "College-bound" program is established to ensure that the state's universities and students' local communities become involved early in a student's life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

##### **262.92 College-bound program.**

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents' universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.

c. Identification, at each of the regents' universities, of courses of study to be targeted for the recruitment of minority students.

d. Offerings at the regents' universities of innovative programs, which are experience oriented, for families with minority children.

2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents' university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the

person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board's control and for the administration and coordination of program efforts. Rules adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

It is the intent of the general assembly that revenue bonds issued for academic and administrative buildings and facilities and utilities services shall supplement and not supplant legislative appropriations for the same or similar purposes.

**262B.2 Legislative intent.**

It is the intent of the general assembly that the three universities under the control of the state board of regents have as part of their missions the use of their universities’ expertise to expand and stimulate economic growth across the state. This activity may be accomplished through a wide variety of partnerships, public and private joint ventures, and cooperative endeavors, primarily, but not exclusively, in the area of high technology, and may result in investments by the private sector for commercialization of the technology and job creation. It is imperative that whenever possible, the investments and job creation be in Iowa but need not be in the proximity of the universities. The purpose of the investments and job creation

shall be to expand and stimulate Iowa's economy, increase the wealth of Iowans, and increase the population of Iowa, which may be accomplished through research conducted within the state that will competitively position Iowa on an economic basis with other states and create high-wage, high-growth employers and jobs. Accredited private universities located in the state are encouraged to incorporate the intent of this section into the mission of their universities.

This section does not limit the duties or powers of a school board to select or discharge practitioners or to terminate

practitioners' contracts. A professional development program, except for a program offered by a practitioner preparation institution or area education agency and approved by the state board of education, must possess a valid license for the types of programs offered.

2. The executive director of the board may grant or deny license applications, applications for renewal of a license, and suspension or revocation of a license. A denial of an application for a license, the denial of an application for renewal, or a suspension or revocation of a license may be appealed by the practitioner to the board.

3. The board may issue emergency renewal or temporary, limited-purpose licenses upon petition by a current or former practitioner. An emergency renewal or a temporary, limited-purpose license may be issued for a period not to exceed two years, if a petitioner demonstrates, to the satisfaction of the board, good cause for failure to comply with board requirements for a regular license and provides evidence that the petitioner will comply with board requirements within the period of the emergency or temporary license. Under exceptional circumstances, an emergency license may be renewed by the board for one additional year. A previously unlicensed person is not eligible for an emergency or temporary license, except that a student who is enrolled in a licensed practitioner preparation program may be issued a temporary, limited-purpose license, without payment of a fee, as part of a practicum or internship program.

## CHAPTER 272A

### INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.  
272A.2 Designated state official.

272A.3 Contracts on file.

#### **272A.1 Interstate agreement.**

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose, findings, and policy.*

a. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the

teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

b. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

2. *Article II — Definitions.* As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

a. “*Educational personnel*” means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

b. “*Designated state official*” means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

c. “*Accept*”, or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

d. “*State*” means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

e. “*Originating state*” means a state, and the subdivision thereof, if any, whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.

f. “*Receiving state*” means a state, and the subdivisions thereof, which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

3. *Article III — Interstate educational personnel contracts.*

a. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official’s state.

b. Any such contract shall provide for:

(1) Its duration.

(2) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(3) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(4) Any other necessary matters.

c. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

d. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of

any persons qualified because of successful completion of a program prior to January 1, 1954.

e. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

f. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

4. *Article IV — Approved and accepted programs.*

a. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

b. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

5. *Article V — Interstate cooperation.* The party states agree that:

a. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

b. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

6. *Article VI — Agreement evaluation.* The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

7. *Article VII — Other arrangements.* Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

8. *Article VIII — Effect and withdrawal.*

a. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

b. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

c. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

9. *Article IX — Construction and severability.* This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

## CHAPTER 272B

### EDUCATION COMPACT

272B.1 Compact for education.

272B.2 Education commission of the states.

272B.3

Filing bylaws.

**272B.1 Compact for education.**

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose and policy.*

a. It is the purpose of this compact to:

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

b. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

c. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own

educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

2. *Article II — State defined.* As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

3. *Article III — The commission.*

a. The education commission of the states, hereinafter called “*the commission*”, is hereby established. The commission shall consist of seven members representing each party state.\* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

b. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to paragraph “j” of this article.

c. The commission shall have a seal.

d. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

f. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

g. The commission may accept for any of its purposes and functions under this compact

any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph “f” of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

*h.* The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

*i.* The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

*j.* The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

4. *Article IV — Powers.* In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

*a.* Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

*b.* Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

*c.* Develop proposals for adequate financing of education as a whole and at each of its many levels.

*d.* Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

*e.* Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

*f.* Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

5. *Article V — Cooperation with federal government.*

*a.* If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

*b.* The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

6. *Article VI — Committees.*

*a.* To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but

without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

(1) Sixteen for one year and sixteen for two years.

(2) The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph "a" to the contrary notwithstanding, shall serve during their continuance in these offices.

(3) Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term.

(4) No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

b. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

c. The commission may establish such additional committees as its bylaws may provide.

7. *Article VII — Finance.*

a. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

b. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

c. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph "g", of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph "g", the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

e. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

f. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

8. *Article VIII — Eligible parties — entry into and withdrawal.*

a. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term "governor", as used in this compact, shall mean the closest equivalent official of such jurisdiction.

b. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

c. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the

withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

9. *Article IX — Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

**272C.3 Authority of licensing boards.**

1. Notwithstanding any other provision of this chapter, each licensing board shall have the powers to:

a. Administer and enforce the laws and administrative rules provided for in this chapter and any other statute to which the licensing board is subject.

b. Adopt and enforce administrative rules which provide for the partial reexamination of the professional licensing examinations given by each licensing board.

c. Review or investigate, or both, upon written complaint or upon its own motion pursuant to other evidence received by the board, alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rule for licensee discipline.

d. Determine in any case whether an investigation, or further investigation, or a disciplinary proceeding is warranted. Notwithstanding the provisions of chapter 17A, a determination by a licensing board that an investigation is not warranted or that an investigation should be closed without initiating a disciplinary proceeding is not subject to judicial review pursuant to section 17A.19.

e. Initiate and prosecute disciplinary proceedings.

f. Impose licensee discipline.

g. Petition the district court for enforcement of its authority with respect to licensees or with respect to other persons violating the laws which the board is charged with administering.

h. Register or establish and register peer review committees.

i. Refer to a registered peer review committee for investigation, review, and report to the board, any complaint or other evidence of an act or omission which the board reasonably believes to constitute cause for licensee discipline. However, the referral of any matter shall not relieve the board of any of its duties and shall not divest the board of any authority or jurisdiction.

*j.* Determine and administer the renewal of licenses for periods not exceeding three years.

*k.* Establish a licensee review committee for the purpose of evaluating and monitoring licensees who are impaired as a result of alcohol or drug abuse, dependency, or addiction, or by any mental or physical disorder or disability, and who self-report the impairment to the committee, or who are referred by the board to the committee. Members of the committee shall receive actual expenses for the performance of their duties and shall be eligible to receive per diem compensation pursuant to section 7E.6. The board shall adopt rules for the establishment and administration of the committee, including but not limited to establishment of the criteria for eligibility for referral to the committee and the grounds for disciplinary action for noncompliance with committee decisions. Information in the possession of the board or the licensee review committee, under this paragraph, shall be subject to the confidentiality requirements of section 272C.6. Referral of a licensee by the board to a licensee review committee shall not relieve the board of any duties of the board and shall not divest the board of any authority or jurisdiction otherwise provided. A licensee who violates section 272C.10 or the rules of the board while under review by the licensee review committee shall be referred to the board for appropriate action.

2. Each licensing board may impose one or more of the following as licensee discipline:

*a.* Revoke a license, or suspend a license either until further order of the board or for a specified period, upon any of the grounds specified in section 100D.5, 105.22, 147.55, 148.6, 148B.7, 152.10, 153.34, 154A.24, 169.13, 455B.219, 542.10, 542B.21, 543B.29, 544A.13, 544B.15, or 602.3203 or chapter 151 or 155, as applicable, or upon any other grounds specifically provided for in this chapter for revocation of the license of a licensee subject to the jurisdiction of that board, or upon failure of the licensee to comply with a decision of the board imposing licensee discipline.

*b.* Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care.

*c.* Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions.

*d.* Require additional professional education or training, or reexamination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension.

*e.* Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline.

*f.* Issue a citation and warning respecting licensee behavior which is subject to the imposition of other sanctions by the board.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. The powers of any other person specified elsewhere in the Code shall not limit the powers of a licensing board conferred by this section, nor shall the powers of such other person be deemed limited by the provisions of this section.

4. *a.* Nothing contained in this section shall be construed to prohibit informal stipulation and settlement by a board and a licensee of any matter involving licensee discipline. However, licensee discipline shall not be agreed to or imposed except pursuant to a written decision which specifies the sanction and which is entered by the board and filed.

*b.* All health care boards shall file written decisions which specify the sanction entered by the board with the Iowa department of public health which shall be available to the public

upon request. All non-health care boards shall have on file the written and specified decisions and sanctions entered by the board and shall be available to the public upon request.

#### **272C.4 Duties of board.**

Each licensing board shall have the following duties in addition to other duties specified by this chapter or elsewhere in the Code:

1. Establish procedures by which complaints which relate to licensure or to licensee discipline shall be received and reviewed by the board.

2. Establish procedures by which disputes between licensees and clients which result in judgments or settlements in or of malpractice claims or actions shall be investigated by the board.

3. Establish procedures by which any recommendation taken by a peer review committee shall be reported to and reviewed by the board if a peer review committee is established.

4. Establish procedures for registration with the board of peer review committees if a peer review committee is established.

5. Define by rule those recommendations of peer review committees which shall constitute disciplinary recommendations which must be reported to the board if a peer review committee is established.

6. Define by rule acts or omissions that are grounds for revocation or suspension of a license under section 100D.5, 105.22, 147.55, 148.6, 148B.7, 152.10, 153.34, 154A.24, 169.13, 455B.219, 542.10, 542B.21, 543B.29, 544A.13, 544B.15, or 602.3203 or chapter 151 or 155, as applicable, and to define by rule acts or omissions that constitute negligence, careless acts, or omissions within the meaning of section 272C.3, subsection 2, paragraph "b", which licensees are required to report to the board pursuant to section 272C.9, subsection 2.

7. Establish the procedures by which licensees shall report those acts or omissions specified by the board pursuant to subsection 6.

8. Give written notice to another licensing board or to a hospital licensing agency if evidence received by the board either alleges or constitutes reasonable cause to believe the existence of an act or omission which is subject to discipline by that other board or agency.

9. Require each health care licensing board to file with the Iowa department of public health a copy of each decision of the board imposing licensee discipline. Each non-health care board shall have on file a copy of each decision of the board imposing licensee discipline which copy shall be properly dated and shall be in simple language and in the most concise form consistent with clearness and comprehensiveness of subject matter.

10. Establish procedures consistent with the provisions of section 261.121, subsection 2, and sections 261.122 through 261.127 by which, in the board's discretion, a license shall be suspended, denied, or revoked, or other disciplinary action imposed, with regard to a licensee subject to the board's jurisdiction who has defaulted on a repayment or service obligation under any federal or state educational loan or service-conditional scholarship program. Notwithstanding any other provision to the contrary, each board shall defer to the federal or state program's determination of default upon certification by the program of such a default on the part of a licensee, and shall remove the suspension, grant the license, or stay the revocation or other disciplinary action taken if the federal or state program certifies that the defaulting licensee has agreed to fulfill the licensee's obligation, or is complying with an approved repayment plan. Licensure sanctions shall be reinstated upon certification that a defaulting licensee has failed to comply with the repayment or service requirements,

as determined by the federal or state program. The provisions of this subsection relating to board authority to act in response to notification of default shall apply not only to a licensing board, as defined in section 272C.1, but also to any other licensing board or authority regulating a license authorized by the laws of this state.

11. Adopt rules by January 1, 2015, to provide credit towards qualifications for licensure to practice an occupation or profession in this state for education, training, and service obtained or completed by an individual while serving honorably on federal active duty, state active duty, or national guard duty, as defined in section 29A.1, to the extent consistent with the qualifications required by the appropriate licensing board. The rules shall also provide credit towards qualifications for initial licensure for education, training, or service obtained or completed by an individual while serving honorably in the military forces of another state or the organized reserves of the armed forces of the United States, to the extent consistent with the qualifications required by the appropriate licensing board.

12. *a.* Establish procedures by January 1, 2015, to expedite the licensing of an individual who is licensed in a similar profession or occupation in another state and who is a veteran, as defined in section 35.1.

*b.* If the board determines that the professional or occupational licensing requirements of the state where the veteran is licensed are substantially equivalent to the licensing requirements of this state, the procedures shall require the licensing of the veteran in this state.

*c.* If the board determines that the professional or occupational licensing requirements of the state where the veteran is licensed are not substantially equivalent to the professional or occupational licensing requirements of this state, the procedures shall allow the provisional licensing of the veteran for a period of time deemed necessary by the board to obtain a substantial equivalent to the licensing requirements of this state. The board shall advise the veteran of required education or training necessary to obtain a substantial equivalent to the professional or occupational licensing requirements of this state, and the procedures shall provide for licensing of an individual who has, pursuant to this paragraph, obtained a substantial equivalent to the professional or occupational licensing requirements of this state.

13. Beginning December 15, 2016, annually file a report with the governor and the general assembly providing information and statistics on credit received by individuals for education, training, and service pursuant to subsection 11 and information and statistics on licenses and provisional licenses issued pursuant to subsection 12.

#### **272C.6 Hearings — power of subpoena — decisions.**

1. Disciplinary hearings held pursuant to this chapter shall be heard by the board sitting as the hearing panel, or by a panel of not less than three board members who are licensed in the profession, or by a panel of not less than three members appointed pursuant to subsection 2. Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

3. a. The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee's behalf.

(1) A subpoena issued under the authority of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

(2) Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10.

(3) In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court.

b. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

4. a. In order to assure a free flow of information for accomplishing the purposes of this section, and notwithstanding section 622.10, all complaint files, investigation files, other investigation reports, and other investigative information in the possession of a licensing board or peer review committee acting under the authority of a licensing board or its employees or agents which relates to licensee discipline are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the licensee and the boards, their employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of a licensing board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the coordinated licensure information system provided for in the nurse licensure compact contained in section 152E.1 or the advanced practice registered nurse compact contained in section 152E.3, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact

of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

b. Pursuant to the provisions of section 17A.19, subsection 6, a licensing board upon an appeal by the licensee of the decision by the licensing board, shall transmit the entire record of the contested case to the reviewing court.

c. Notwithstanding the provisions of section 17A.19, subsection 6, if a waiver of privilege has been involuntary and evidence has been received at a disciplinary hearing, the court shall order withheld the identity of the individual whose privilege was waived.

5. Licensee discipline shall not be imposed except upon the affirmative vote of a majority of the licensing board.

6. a. A board created pursuant to chapter 147, 154A, 155, 169, 542, 542B, 543B, 543D, 544A, or 544B may charge a fee not to exceed seventy-five dollars for conducting a disciplinary hearing pursuant to this chapter which results in disciplinary action taken against the licensee by the board, and in addition to the fee, may recover from a licensee the costs for the following procedures and associated personnel:

(1) Transcript.

(2) Witness fees and expenses.

(3) Depositions.

(4) Medical examination fees incurred relating to a person licensed under chapter 147, 154A, 155, or 169.

b. The department of agriculture and land stewardship, the department of commerce, and the Iowa department of public health shall each adopt rules pursuant to chapter 17A which provide for the allocation of fees and costs collected pursuant to this section to the board under its jurisdiction collecting the fees and costs. d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. 3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

The review conducted by the area education agency, including any resulting change to the proposal, shall ensure that the reorganized district's estimated revenue under section 423F.2 is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following the reorganization.

1. At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.

2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

3. If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

2. Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

3. In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The department shall have the authority to affirm the action of the joint boards, to vacate, to dismiss all proceedings or to make such modification of the action of the joint boards as in their judgment would serve the best interest of all the agencies.

4. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

### **275.23A Redistricting following federal decennial census.**

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs “b”, “c”, “d”, and “e”, shall be divided into director districts according to the following standards:

a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

b. To the extent possible in order to comply with paragraph “a”, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. A city shall not be divided into two or more director districts unless the population of that portion of the city that is within the school district is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the second year immediately following the year in which the federal decennial census is taken and no later than May 15 of the third year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with

the area education agency administrator of the area education agency in which the school's electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "c". If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel and materials available to the legislative services agency to assist the state commissioner in making any required boundary changes.

4. If more than one incumbent director resides in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election following the adoption of the redrawn districts.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

6. Section 275.9 and sections 275.14 through 275.23 do not apply to changes in director district boundaries made under this section.

**275.25 Election of directors.**

1. *a.* If the proposition to establish a new school district carries under the method provided in this chapter, the area education agency administrator with whom the petition was filed shall give written notice of a proposed date for a special election for directors of the newly formed school district to the commissioner of elections of the county in the district involved in the reorganization which has the greatest taxable base. The proposed date shall be as soon as possible pursuant to section 39.2, subsections 1 and 2, and section 47.6, subsections 1 and 2, but not later than the third Tuesday in January of the calendar year in which the reorganization takes effect.

*b.* The election shall be conducted as provided in section 277.3, and nomination petitions shall be filed pursuant to section 277.4, except as otherwise provided in this subsection. Nomination petitions shall be filed with the secretary of the board of the existing school district in which the candidate resides not less than twenty-eight days before the date set for the special school election. The secretary of the board, or the secretary's designee, shall be present in the secretary's office until 5:00 p.m. on the final day to file the nomination papers. The nomination papers shall be delivered to the commissioner no later than 5:00 p.m. on the twenty-seventh day before the election.

*c.* If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. *a.* The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

*b.* The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the three newly elected directors receiving the most votes shall be elected to serve until their successors qualify after the third regular school election date occurring after the effective date of the reorganization and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the timelines specified in this subsection for the terms of office apply to the four newly elected directors receiving the most votes and then to the three newly elected directors receiving the next largest number of votes.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 5, does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an

acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

#### **275.26 Payment of expenses.**

1. If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election, all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

2. If the proposed district or boundary change embraces territory in more than one area education agency, such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency, the certification shall be made by the agency administrator.

3. The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debtor district to the agency board for payment of said expenses.

#### **275.27 Community school districts — part of area education agency.**

School districts created or enlarged under this chapter are community school districts and are part of the area education agency in which the greatest number of registered voters of the district reside at the time of the special election called for in section 275.18, and sections of the Code applicable to public or accredited nonpublic schools generally are applicable to these districts in addition to the powers and privileges conferred by this chapter. If a school district, created or enlarged under this chapter and assigned to an area education agency under this section, can demonstrate that students in the district were utilizing a service or program prior to the formation of the new or enlarged district that is unavailable from the area education agency to which the new or enlarged district is assigned, the district may be reassigned to the area education agency which formerly provided the service or program, upon an affirmative majority vote of the boards of the affected area education agencies to permit the change.

#### **275.28 Plan of division of assets and liabilities.**

In addition to setting up the territory to comprise the reorganized districts, a reorganization petition shall provide for a division of assets and liabilities of the districts affected among the reorganized districts. However, if territory is excluded from the reorganized district by the

### **275.29 Division of assets and liabilities after reorganization.**

1. Between July 1 and July 20, or on a date determined by agreement of the initial board and the boards of districts receiving territory of the school districts affected, but not later than August 30, the initial board shall meet with the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets and an equitable distribution of the liabilities of the school districts affected. In addition, if outstanding general obligation indebtedness is in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of liability for payment of the general obligation bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations. If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the joint agreement shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

2. For bonds issued under section 423E.5 or 423F.4, the approval of the joint agreement creates a lien on the revenues from the secure an advanced vision for education fund received by the school district to which liability is assigned, subject to the same priority as provided by the affected school district that issued the bonds.

### **275.30 Arbitration.**

1. If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one selected jointly by the boards of directors of contiguous districts receiving territory of the school districts affected, and one selected by the area education agency administrator.

2. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

3. a. If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the arbitrators' decision and any decision of the court on appeal shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

b. The issuance of the arbitrators' decision or court decision on appeal creates a lien on the revenues from the secure an advanced vision for education fund received by the district

to which the liability for payment of the bonds were assigned, subject to the same priority as provided by the affected school district that issued the bonds.

### **275.31 Taxes and appropriation to effect equalization.**

1. If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

2. For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.

3. Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

2. a. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization, then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board.

b. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization, the base agreement shall remain in effect as specified in the agreement.

c. The provisions of the base agreement shall apply to the offering of new contracts, or continuation, modification, or termination of existing contracts as provided in subsection 1.

**275.40 Reserved.****275.41 Alternative method for director elections — temporary appointments.**

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition, either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan that commences at the first regular school election held after the effective date of the merger and is completed at the second regular school election held after the effective date of the merger, to replace the initial board with the regular board. If the petition specifies a number of directors on the regular board to be different from the number of directors on the initial

**277.4 Nominations required.**

1. Nomination papers for all candidates for election to office in each school district shall be filed with the secretary of the school board not more than sixty-four days, nor less than forty days before the election. Nomination petitions shall be filed not later than 5:00 p.m. on the last day for filing. If the school board secretary is not readily available during normal office hours, the secretary may designate a full-time employee of the school district who is ordinarily available to accept nomination papers under this section. On the final date for filing nomination papers the office of the school secretary shall remain open until 5:00 p.m.

2. a. Each candidate shall be nominated by petition. If the candidate is running for a seat in the district which is voted for at-large, the petition must be signed by the greater of at least ten eligible electors or a number of eligible electors equal in number to not less than one percent of the registered voters of the school district, which number need not be more than fifty. If the candidate is running for a seat which is voted for only by the voters of a director district, the petition must be signed by the greater of at least ten eligible electors of the director district or a number of eligible electors equal in number to not less than one

percent of the registered voters in the director district, which number need not be more than fifty.

b. Signers of nomination petitions shall include their addresses and the date of signing, and must reside in the same director district as the candidate if directors are elected by the voters of a director district, rather than at-large. A person may sign nomination petitions for more than one candidate for the same office, and the signature is not invalid solely because the person signed nomination petitions for one or more other candidates for the office. The petition shall be filed with the affidavit of the candidate being nominated, stating the candidate's name, place of residence, that such person is a candidate and is eligible for the office the candidate seeks, and that if elected the candidate will qualify for the office. The affidavit shall also state that the candidate is aware that the candidate is disqualified from holding office if the candidate has been convicted of a felony or other infamous crime and the candidate's rights have not been restored by the governor or by the president of the United States.

3. The secretary of the school board shall accept the petition for filing if on its face it appears to have the requisite number of signatures and if it is timely filed. The secretary of the school board shall note upon each petition and affidavit accepted for filing the date and time that the petition was filed. The secretary of the school board shall deliver all nomination petitions, together with the complete text of any public measure being submitted by the board to the electorate, to the county commissioner of elections on the day following the last day on which nomination petitions can be filed, and not later than 5:00 p.m. on that day.

4. Any person on whose behalf nomination petitions have been filed under this section may withdraw as a candidate by filing a signed statement to that effect with the secretary at any time prior to 5:00 p.m. on the thirty-fifth day before the election.

The objection must be filed with the secretary of the school board at least thirty-five days before the day of the school election. The election shall be held on a date specified in section 39.2, subsection 4, paragraph "c".
  - b. Subject to paragraph "c", before entering into a rental or lease-purchase option contract, authorized by the electors, the board shall first adopt plans and specifications for a building or buildings which it considers suitable for the intended use and also adopt a form of rental or lease-purchase option contract. The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.
