#### **279.24 Contract with administrators — automatic continuation or termination.**

1. An administrator’s contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator’s contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator’s representative. The board shall review the administrator’s evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator’s contract, the board of directors may issue a one-year nonrenewable contract to the administrator. If the board of directors decides to terminate the administrator’s contract, the board shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than three consecutive years are probationary administrators. However, a school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator’s contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board’s decision to terminate a probationary administrator’s contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause

the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator's contract, the following procedure shall apply:

a. On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

b. The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

c. Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request a private hearing in writing to the secretary of the school board. The board shall then forward the notification to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The private hearing shall be held no sooner than twenty days and not later than forty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a private hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

d. The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the private hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. Any witnesses for the parties at the private hearing shall be sequestered. A transcript or recording shall be made of the proceedings at the private hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the private hearing is determined to be erroneous as long as the statement was made in good faith.

e. The administrative law judge shall, within ten days following the date of the private hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within thirty days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within ten days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the private hearing. The school board shall meet within five days after the private hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year,

nonrenewable contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator's contract and, if the board votes to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year, nonrenewable contract. The record of the private hearing and written decision of the board shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

i. The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

6. The court may affirm the school board's action. The court shall reverse, modify, or grant any other appropriate relief from the school board's action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board's action is any of the following:

a. In violation of constitutional or statutory provisions.

b. In excess of the statutory authority of the school board.

c. In violation of school board policy or rule.

d. Made upon unlawful procedure.

e. Affected by other error of law.

f. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.

g. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

a. A school district shall assess all students enrolled in kindergarten through grade three at the beginning of each school year for their level of reading or reading readiness on locally determined or statewide assessments, as provided in section 256.7, subsection 31. If a student is not reading proficiently and is persistently at risk in reading, based upon the assessments administered in accordance with this paragraph, the school district shall provide intensive reading instruction to the student. The student's reading proficiency shall be periodically reassessed by locally determined or statewide assessments including periodic universal screening and annual standard-based assessments. The student shall continue to be provided with intensive reading instruction, at grade levels beyond grade three if necessary, until the student is reading at grade level, as determined by the student's consistently proficient performance on valid and reliable measures of reading ability. For purposes of this section, "*persistently at risk*" means the student has not met the grade-level benchmark on two consecutive screening assessments administered under this paragraph.

b. The parent or guardian of any student in kindergarten through grade three who is persistently at risk in reading shall be notified in writing and shall be provided all of the following:

- (1) A description of the services currently provided to the student.
- (2) A description of the proposed supplemental instructional services and supports that the school district will provide to the student that are designed to remediate the identified areas in which the student is persistently at risk in reading.
- (3) Strategies for parents and guardians to use in helping the student read proficiently, including but not limited to the promotion of parent-guided home reading.
- (4) Regular updates regarding the student's progress toward reaching or exceeding the targeted level of reading proficiency.

2. *Successful progression for early readers.* If funds are appropriated by the general assembly for purposes of implementing this subsection, a school district shall do all of the following:

a. Provide students who are persistently at risk in reading with intensive instructional services and supports, free of charge, to remediate the identified areas in which students are not proficient in reading, including a minimum of ninety minutes daily of scientific, research-based reading instruction and other strategies prescribed by the school district which may include but are not limited to the following:

- (1) Small group instruction.

- (2) Reduced teacher-student ratios.
- (3) More frequent progress monitoring.
- (4) Tutoring or mentoring.

- (6) Summer reading programs.

b. At regular intervals, apprise the parent or guardian of academic and other progress being made by the student and give the parent or guardian other useful information.

c. In addition to required reading enhancement and acceleration strategies, provide parents of students who are persistently at risk in reading with a plan outlined in a parental contract, including participation in regular parent-guided home reading.

d. Establish a reading enhancement and acceleration development initiative designed to offer intensive accelerated reading instruction to each kindergarten through grade three student who is persistently at risk in reading. The initiative shall comply with all of the following criteria:

(1) Be provided to all kindergarten through grade three students who are persistently at risk in reading. The assessment initiative shall measure phonemic awareness, phonics, fluency, vocabulary, and comprehension.

(2) Be provided during regular school hours in addition to the regular reading instruction.

(3) Provide a reading curriculum that meets guidelines adopted pursuant to section 256.7, subsection 31, and at a minimum has the following specifications:

(a) Assists students who are persistently at risk in reading to develop the skills to read at grade level. Assistance shall include but not be limited to strategies that formally address dyslexia, when appropriate. For purposes of this subparagraph division (a), “*dyslexia*” means a specific and significant impairment in the development of reading, including but not limited to phonemic awareness, phonics, fluency, vocabulary, and comprehension, that is not solely accounted for by intellectual disability, sensory disability or impairment, or lack of appropriate instruction.

(b) Provides skill development in phonemic awareness, phonics, fluency, vocabulary, and comprehension.

(c) Includes a scientifically based and reliable assessment.

(d) Provides initial and ongoing analysis of each student’s reading progress.

(e) Is implemented during regular school hours.

(f) Provides a curriculum in core academic subjects to assist the student in maintaining or meeting proficiency levels for the appropriate grade in all academic subjects.

e. Report to the department of education the specific intensive reading interventions and supports implemented by the school district pursuant to this section. The department shall annually prescribe the components of required or requested reports.

3. *Ensuring continuous improvement in reading proficiency.*

a. To ensure all children are reading proficiently by the end of third grade, each school district shall address reading proficiency as part of its comprehensive school improvement plan, drawing upon information about students from assessments and reassessments conducted pursuant to subsection 1 and the prevalence of areas in which students are persistently at risk in reading identified by classroom, elementary school, and other student characteristics. As part of its comprehensive school improvement plan, each school district shall review chronic early elementary absenteeism for its impact on literacy development. If more than fifteen percent of an attendance center’s students are not reading proficiently and are persistently at risk in reading by the end of third grade, the comprehensive school improvement plan shall include strategies to reduce that percentage, including school and community strategies to raise the percentage of students who are reading at grade level.

b. Each school district, subject to an appropriation of funds by the general assembly, shall provide professional development services to enhance the skills of elementary teachers in responding to children’s unique reading issues and needs and to increase the use of evidence-based strategies.

1. The board of directors of each public school district and the authorities in charge of each nonpublic school shall prescribe the minimum educational program and an attendance policy which shall require each child to attend school for at least one hundred forty-eight days, to be met by attendance for at least thirty-seven days each school quarter, for the schools under their jurisdictions.

2. The minimum educational program shall be the curriculum set forth in subsection 3 of this section and section 256.11, except as otherwise provided by law. The board of directors of a public school district shall not allow discrimination in any educational program on the basis of race, color, creed, sex, marital status, or place of national origin.

3. The board of directors of each public school district and the authorities in charge of each nonpublic school shall do all of the following:

a. Adopt an implementation plan by July 1, 2010, which provides for the adoption of at least one core curriculum subject area each year as established by the state board of education for grades nine through twelve pursuant to section 256.7, subsection 26. The core curriculum established for grades nine through twelve by the state board of education pursuant to section 256.7, subsection 26, shall be fully implemented by each school district and school by July 1, 2012.

b. Adopt an implementation plan, by July 1, 2012, which provides for the full

4. A nonpublic school which is unable to meet the minimum educational program may request an exemption from the state board of education. The authorities in charge of the nonpublic school shall file with the director of the department of education the names and locations of all schools desiring to be exempted and the names, ages, and post office addresses of all pupils of compulsory school age who are enrolled. The director, subject to the approval of the state board, may exempt the nonpublic school from compliance with the minimum educational program for two school years. When the exemption has once been granted, renewal of the exemption for each succeeding school year may be conditioned by the director, with the approval of the board, upon proof of achievement in the basic skills of arithmetic, the communicative arts of reading, writing, grammar, and spelling, and an understanding of United States history, history of Iowa, and the principles of American government, of the pupils of compulsory school age exempted in the preceding year. Proof of achievement shall be determined on the basis of tests or other means of evaluation prescribed by the director of the department of education with the approval of the state board of education. The testing or evaluation, if required, shall be accomplished prior to submission of the request for renewal of the exemption. Renewal requests shall be filed with the director by April 15 of the school year preceding the school year for which the applicants desire exemption. This section shall not apply to schools eligible for exemption under section 299.24.

5. ### **280.13C Concussion and brain injury policies.**

1. *Legislative findings.* The general assembly finds and declares all of the following:

a. Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed.

b. Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions can occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness.

c. Continuing to play with a concussion or symptoms of a brain injury leaves a young athlete especially vulnerable to greater injury and even death. The general assembly recognizes that, despite having generally recognized return-to-play standards for concussions and head injuries, some affected youth athletes are prematurely returned to play or expected to learn at full capability, resulting in prolonged symptoms, actual or potential physical injury, or death to youth athletes in this state.

d. A concussion can impair not only the physical abilities of a student athlete, but can

also affect how a student athlete thinks, acts, feels, and learns. A student athlete who has sustained a concussion may need informal or formal adjustments, accommodations, modifications of curriculum, and monitoring by medical or educational staff until the student is fully recovered.

2. *Definitions.* For the purposes of this section:

a. “*Contest*” means an interscholastic athletic game or competition.

b. “*Contest official*” means a referee, umpire, judge, or other official in an athletic contest who is registered with the Iowa high school athletic association or the Iowa girls high school athletic union.

c. “*Emergency medical care provider*” means the same as defined in section 147A.1.

d. “*Extracurricular interscholastic activity*” means any dance or cheerleading activity or extracurricular interscholastic activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union that is a contact or limited contact activity as identified by the American academy of pediatrics.

e. “*Licensed health care provider*” means a physician, physician assistant, chiropractor, advanced registered nurse practitioner, nurse, physical therapist, or athletic trainer licensed by a board designated under section 147.13.

3. *Training.*

a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to develop training materials and courses regarding concussions and brain injuries, including training regarding evaluation, prevention, symptoms, risks, and long-term effects of concussions and brain injuries. Each coach or contest official shall complete such training at least every two years.

b. Individuals required to complete training pursuant to this subsection shall submit proof of such completion to the Iowa high school athletic association or the Iowa girls high school athletic union, as applicable.

a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to distribute the guidelines of the centers for disease control and prevention of the United States department of health and human services and other pertinent information to inform and educate coaches, students, and the parents and guardians of students of the risks, signs, symptoms, and behaviors consistent with a concussion or brain injury, including the danger of continuing to participate in extracurricular interscholastic activities after suffering a concussion or brain injury and their responsibility to report such signs, symptoms, and behaviors if they occur.

b. For school years beginning on or after July 1, 2018, each school district and nonpublic school shall provide to the parent or guardian of each student in grades seven through twelve a concussion and brain injury information sheet, as provided by the department of public health, the Iowa high school athletic association, and the Iowa girls high school athletic union. The student and the student’s parent or guardian shall sign and return a copy of the concussion and brain injury information sheet to the student’s school prior to the student’s participation in any extracurricular interscholastic activity.

5. *Removal from participation.*

a. If a student’s coach, contest official, or licensed health care provider or an emergency medical care provider observes signs, symptoms, or behaviors consistent with a concussion or brain injury in an extracurricular interscholastic activity, the student shall be immediately removed from participation.

b. A student who has been removed from participation shall not recommence such participation or participate in any dance or cheerleading activity or activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union until the student has been evaluated by a licensed health care provider trained in the evaluation and management of concussions and other brain injuries and the student has received written clearance to return to or commence participation from a licensed health care provider.

6. *Return-to-play protocol and return-to-learn plans.*

a. The department of public health, in cooperation with the Iowa high school athletic

association and the Iowa girls high school athletic union, shall develop a return-to-play protocol based on peer-reviewed scientific evidence consistent with the guidelines of the centers for disease control and prevention of the United States department of health and human services, for a student's return to participation in any extracurricular interscholastic activity after showing signs, symptoms, or behaviors consistent with a concussion or brain injury. The department of public health shall adopt the return-to-play protocol by rule pursuant to chapter 17A. The board of directors of each school district and the authorities in charge of each accredited nonpublic school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall adopt such protocol by July 1, 2019.

7. *Protective gear.* For school budget years beginning on or after July 1, 2018, the board of directors of each school district and the authorities in charge of each accredited nonpublic school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall provide students participating in such contests with any protective gear, including but not limited to helmets and pads required for the activity by law, by the rules for such contests, or by Iowa high school athletic association or Iowa girls high school athletic union guidelines. However, an individual student is responsible for other protective gear that the individual student needs but that is not required for participation in the contest as provided in this subsection.

8. *Liability.*

a. A school district or accredited nonpublic school that adopts and follows the protocol required by this section and provides an emergency medical care provider or a licensed health care provider at a contest that is a contact or limited contact activity as identified by the American academy of pediatrics shall not be liable for any claim for injuries or damages based upon the actions or inactions of the emergency medical care provider or the licensed health care provider present at the contest at the request of the school district or accredited nonpublic school so long as the emergency medical care provider or the licensed health care provider acts reasonably and in good faith and in the best interest of the student athlete and without undue influence of the school district or accredited nonpublic school or coaching staff employed by the school district or accredited nonpublic school. A school district or accredited nonpublic school shall not be liable for any claim for injuries or damages if an emergency medical care provider or a licensed health care provider who was scheduled in accordance with a prearranged agreement with the school district or accredited nonpublic school to be present and available at a contest is not able to be present and available due to documentable, unforeseen circumstances and the school district or accredited nonpublic school otherwise followed the protocol.

b. An emergency medical care provider or a licensed health care provider providing care without compensation for a school district or accredited nonpublic school under this section shall not be liable for any claim for injuries or damages arising out of such care so long as the emergency medical care provider or the licensed health care provider acts reasonably and in good faith and in the best interest of the student athlete and without undue influence of the school district or accredited nonpublic school or coaching staff employed by the school district or accredited nonpublic school.

If students attend classes in another school district under this section under an agreement that provides for whole grade sharing, the boards of directors of districts entering into these agreements shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. If a district that has entered into a whole grade sharing agreement determines that a need exists to hire additional employees because of the whole grade sharing agreement, the district shall determine the nature and number of the necessary new positions. The district terminating employees as a result of a whole grade sharing agreement shall notify any other district, which is a party to the agreement, of the names and addresses of those terminated. Individuals who were employed by a district that entered into a whole grade sharing agreement and who were terminated as a result of the agreement shall be notified that the new positions exist and that they may apply for the new positions. If two or more individuals from among those terminated as a result of the agreement apply for a single position, the applicant who is best qualified in the opinion of the board shall be offered the new position. However, the board is not required to offer a new position to applicants who were among those who were terminated as a result of the agreement beyond two school years. 2. a. When a special education personnel pooling agreement, which has been entered into between an area education agency and a public school district pursuant to section 273.5, is terminated, the public school district shall assume the contractual obligations for any teachers assigned to the district under the agreement. b. A teacher who is employed under a pooling agreement and assigned to special education facilities that are separate from and not part of local school district facilities shall, if the teacher's employment terminates upon termination of the pooling agreement, be

offered any teaching position that is similar to the position previously held by the teacher under the pooling agreement, which is vacant in any of the local school districts which participated in the pooling agreement, provided that the teacher possesses the appropriate license for the position. Teachers employed by a local school district under this paragraph shall have the same rights, privileges, and protection as teachers whose contractual obligations are assumed by a district to which the teacher previously had been assigned under a special education personnel pooling agreement.

accredited nonpublic school shall develop a high-quality emergency operations plan for the district and individual school buildings in which students are educated no later than June 30, 2019. The plan shall include but not be limited to responses to active shooter scenarios and natural disasters. The plan shall provide that any alert regarding an emergency situation that is transmitted to school personnel or students by electronic means shall also be transmitted to the employer of any individual who is not a school employee but who is required as a part of the individual's employment to regularly be present in a school building during the school year. The plan shall include publication of procedures for school personnel, parents, and guardians to report possible threats to the safety of students or school personnel on school grounds or at school activities. The board and authorities shall consider any recommendations of the department of education relating to the development of a high-quality emergency operations plan and shall consult with local emergency management coordinators and local law enforcement agencies in the development of the plan. The board and authorities shall review and update the plan on an annual basis. The plan shall be confidential and shall not be a public record subject to disclosure under chapter 22.

2. The board of directors of a school district and the authorities in charge of each accredited nonpublic school shall require that at least once per school year an emergency operations drill based on the emergency operations plan be conducted in each individual school building in which students are educated. The board and authorities shall determine which school personnel participate in the drill and whether students or local law enforcement agencies participate in the drill. The drill may include but is not limited to a table top exercise, walk-through, partial drill, or full drill. By special meeting or at the next regularly scheduled board meeting, the board shall review the suspension and decide whether to hold a disciplinary hearing to determine whether or not to order further sanctions against the student, which may include expelling the student. In making its decision, the board shall consider the best interests of the school district, which shall include what is best to protect and ensure the safety of the school employees and students from the student committing the assault.

b. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. §11302(a) and (c).

c. Lives in a residential correctional facility in the district.

2. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

**282.7 Attending in another corporation — payment.**

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the career and technical education program offered by a school district does not meet standards for program approval adopted by the state board for career and technical education, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the department of education shall delegate the authority to the regional career and technical education planning partnership established pursuant to section 258.14 to direct the district to contract with another school district or a community college which has an approved program, for the provision of career and technical education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or community college that has an approved program an amount equal to the percent of the school day in which a pupil is receiving career and technical education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional career and technical education planning partnership established pursuant to section 258.14 shall contract with an approved program for delivery of career and technical education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that

negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

### **282.8 Attending school outside state.**

1. The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and secondary school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition fee established shall not be less than the lower of the tuition fee established pursuant to section 282.24 for the school district or the equivalent tuition rate for the non-Iowa school district for the previous school year, and the transportation fee established shall not be less than the lower average transportation cost per mile for yellow school buses as described in section 321.373 for the previous school year of the two affected school districts. The agreement shall provide that if the tuition fee for the school district in the adjoining state is a variable rate, the test of which tuition fee is lower shall be determined for each student by the affected boards.

2. A person attending school in another state pursuant to this section shall continue to be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

3. Notwithstanding the tuition provisions of subsection 1, the tuition fee established for a child requiring special education under chapter 256B shall be equal to the actual cost of the special education instructional program provided to that child under the child's individualized education program.

4. If the chief state school officers of the respective states have not entered into a reciprocal agreement under this section, or the agreement has expired or been terminated, or the distance to the public school in the adjoining state is not nearer than an appropriate public school in the pupil's district of residence or an appropriate public school in Iowa, the pupil attending school outside the state shall be considered a nonresident child for purposes of tuition payments to the receiving district and shall not be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

5. The whole grade sharing provisions of sections 282.10 through 282.12 and the open enrollment provisions of section 282.18 shall not apply to agreements made between districts under this section.

### **282.9 Enrollment of person listed on sex offender registry.**

1. Notwithstanding sections 275.55A, 256F.4, and 282.18, or any other provision to the contrary, prior to knowingly enrolling an individual who is required to register as a sex offender under chapter 692A, but who is otherwise eligible to enroll in a public school, the board of directors of a school district shall determine the educational placement of the individual. Upon receipt of notice that a student who is enrolled in the district is required to register as a sex offender under chapter 692A, the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at

which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.

2. Notwithstanding section 692A.121, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

### **282.10 Whole grade sharing.**

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect. The boards of the districts shall negotiate as part of the new or existing agreement the disposition of funding provided under chapter 284, including the following:

The teacher leadership supplement state cost per pupil as provided in section 257.9, unless all of the districts subject to the agreement are receiving such funding.

### **282.11 Procedure for whole grade sharing agreements.**

1. For the purposes of this section, “*affected pupils*” are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement.

2. Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board’s public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

3. Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement.

4. *a.* Within the thirty-day period prior to the signing of the agreement, the parent or guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:

- (1) That the agreement will not meet the educational program needs of the pupil.
- (2) That adequate consideration was not given to geographical factors.

*b.* The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

*c.* If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil.

*d.* If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent's or guardian's hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.

#### **282.18 Open enrollment.**

1. *a.* It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

*b.* For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. *a.* By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's or guardian's

child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term “*insufficient classroom space*” for that district.

3. a. The superintendent of a district subject to a voluntary diversity or court-ordered desegregation plan, as recognized by rule of the state board of education, may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district’s implementation of the desegregation order or diversity plan, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to the adoption of a desegregation plan by the district. If a transfer request would facilitate a voluntary diversity or court-ordered desegregation plan, the district shall give priority to granting the request over other requests.

b. A parent or guardian, whose request has been denied because of a desegregation order or diversity plan, may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent’s decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located. The state board of education shall adopt rules establishing definitions, guidelines, and a review process for school districts that adopt voluntary diversity plans. The guidelines shall include criteria and standards that school districts must follow when developing a voluntary diversity plan. The department of education shall provide technical assistance to a school district that is seeking to adopt a voluntary diversity plan. A school district implementing a voluntary diversity plan prior to July 1, 2008, shall have until July 1, 2009, to comply with guidelines adopted by the state board pursuant to this section.

c. The board of directors of a school district subject to voluntary diversity or court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order or voluntary diversity plan and criteria for prioritizing requests that do not have an adverse impact on the order or plan.

4. a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph “b”, exists for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section, “*good cause*” means a change in a child’s residence due to a change in family residence, a change in the state in which the family residence is located, a change in a child’s parents’ marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, a change in the status of a child’s resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school

contract as provided in section 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement or the rejection of a current whole grade sharing agreement, or reorganization plan. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director's designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 15. If approval is not reached under mediation, the director or the director's designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director's decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent's or guardian's child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in a school in the district unless there is insufficient classroom space in the district or unless enrollment of the pupil would adversely affect the court-ordered or voluntary desegregation plan of the district. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. a. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1.

b. (1) The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph "d", if both the district of residence and the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

(2) If a pupil participates in cocurricular or extracurricular activities in accordance with subsection 12, the district of residence may deduct up to two hundred dollars per activity,

for up to two activities, from the amount calculated in subparagraph (1). For a cocurricular activity, one semester shall equal one activity. Extracurricular activities for which such a resident district may charge up to two hundred dollars per activity for up to two activities under this subparagraph include interscholastic athletics, music, drama, and any other activity with a general fund expenditure exceeding five thousand dollars annually. A pupil may participate in additional extracurricular activities at the discretion of the resident district. The school district of residence may charge the pupil a fee for participation in such cocurricular or extracurricular activities equivalent to the fee charged to and paid in the same manner by other resident pupils.

8. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class in that special education instructional program in the receiving district to exceed the maximum class size in rules adopted by the state board of education for that program. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

9. a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's kindergarten through grade twelve educational program. If a parent or guardian exercises this option, the child's new district of residence is not required to pay the amount calculated in subsection 7 until the start of the first full year of enrollment of the child.

c. The receiving district shall bill the first resident district according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district's area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment.

10. a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, "a point on a regular school bus route of the receiving district" includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates

sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. a. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil's first ninety school days of enrollment in the district. However, a pupil may participate immediately in a varsity interscholastic sport under any of the following circumstances:

(1) If the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade.

(2) If the district of residence and the other school district jointly participate in the sport.

(3) If the sport in which the pupil wishes to participate is not offered in the district of residence.

(4) If the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12.

(5) If the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade.

(6) If the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

(7) If the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence.

b. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

c. For purposes of this subsection, "*school days of enrollment*" does not include enrollment in summer school. For purposes of this subsection, "*varsity*" means the same as defined in section 256.46.

12. A pupil participating in open enrollment for purposes of receiving educational instruction and course content primarily over the internet in accordance with section 256.7, subsection 32, may participate in any cocurricular or extracurricular activities offered to children in the pupil's grade or group and sponsored by the district of residence under the same conditions and requirements as the pupils enrolled in the district of residence. The pupil may participate in not more than two cocurricular or extracurricular activities during a school year unless the resident district approves the student's participation in additional activities. The student shall comply with the eligibility, conduct, and other requirements

relating to the activity that are established by the district of residence for any student who applies to participate or who is participating in the activity.

13. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

14. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student's district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students' districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

15. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

16. *a.* If a request under this section is for transfer to the research and development school, as described in chapter 256G, the student who is the subject of the request shall be included in the basic enrollment of the student's district of residence and the board of directors of the district of residence shall pay to the research and development school the state cost per pupil for the previous school year, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year.

*b.* Notwithstanding subsection 7, a district of residence shall not be required to pay the state cost per pupil for a student attending the research and development school during the school year beginning July 1, 2010, if the student was not included in the district of residence's enrollment count for funding purposes in the school year beginning July 1, 2009.

17. *a.* The total enrollment of the research and development school shall be limited to six hundred fifty students.

*b.* Open enrollment requests accepted by the research and development school shall be limited to a five percent increase per year of students from each of the Cedar Falls community school district and the Waterloo school district over the previous year's enrollment at the research and development school.

*c.* The total number of students enrolled in the research and development school from the Cedar Falls community school district shall be limited to not more than ten percent of the total district enrollment of the Cedar Falls community school district.

d. Open enrollment requests accepted by the research and development school from a school district shall be limited to not more than two percent of a school district's previous year's total enrollment count. This subsection does not apply to the Cedar Falls community and Waterloo school districts.

18. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

A child who is living in a licensed individual or agency child foster care facility, as defined in section 237.1, or in an unlicensed relative foster care placement, shall remain enrolled in and attend an accredited school in the school district in which the child resided and is enrolled at the time of placement, unless it is determined by the juvenile court or the public or private agency of this state that has responsibility for the child's placement that remaining in such school is not in the best interests of the child. ### **282.31 Funding for special programs.**

1. *a.* A child who lives in a facility pursuant to section 282.30, subsection 1, paragraph “*a*”, and who is not enrolled in the educational program of the district of residence of the child, shall receive appropriate educational services. The area education agency shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the department of administrative services and the area education agency of its action by February 1. The department of administrative services shall pay the approved budget amount for an area education agency in monthly installments beginning September 15 and ending June 15 of the next succeeding school year. The installments shall be as nearly equal as possible as determined by the department of management, taking into consideration the relative budget and cash position of the state’s resources. The department of administrative services shall transfer the approved budget amount for an area education agency from the moneys appropriated under section 257.16 and make the payment to the area education agency. The area education agency shall submit an accounting for the actual cost of the program to the department of education by August 1 of the following school year. The department shall review and approve or modify all expenditures incurred in compliance with the guidelines pursuant to section 256.7, subsection 10, and shall notify the department of administrative services of the approved accounting amount. The approved accounting amount shall be compared with any amounts paid by the department of administrative services to the area education agency and any

differences added to or subtracted from the October payment made under this paragraph for the next school year. Any amount paid by the department of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved budget that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year in which the deduction is made.

b. (1) A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is enrolled in the educational program of the district of residence at the time the child is placed, shall be included in the basic enrollment of the school district in which the child is enrolled. (2) However, on June 30 of a school year, if the board of directors of a school district determines that the number of children under this paragraph "b" who were counted in the basic enrollment of the school district in that school year in accordance with section 257.6, subsection 1, is fewer than the sum of the number of months all children were enrolled in the school district under this paragraph "b" during the school year divided by nine, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the difference between the number of children counted and the number of children calculated by the number of months of enrollment. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph "a".

2. a. The actual special education instructional costs incurred for a child who lives in a facility or other placement pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility, home, or other placement is located, shall be paid by the district of residence of the child to the district in which the facility, home, or other placement is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

3. The actual special education instructional costs, including transportation, for a child who requires special education shall be paid by the department of administrative services to the school district in which the facility or home is located, only when a district of residence cannot be determined, and the child was not included in the weighted enrollment of any district pursuant to section 256B.9, and the payment pursuant to subsection 2, paragraph "a", was not made by any district. The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The department shall review and approve or modify the claim and shall notify the department of administrative services of the approved claim amount by September 1. The total amount of the approved claim shall be paid by the department of administrative services to the school district by October 1. The total amount paid by the department of administrative services shall be deducted

monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year in which the deduction is made. The peer group shall review all of the peer group members. Peer group reviews shall be formative and shall be conducted on an informal, collaborative basis that is focused on assisting each peer group member in achieving the goals of the teacher's individual professional development plan. Peer group reviews shall not be the basis for recommending that a teacher participate in an intensive assistance program, and shall not be used to determine the compensation, promotion, layoff, or termination of a teacher, or any other determination affecting a teacher's employment status. However, as a result of a peer group review, a teacher may elect to participate in an intensive assistance program. Members of the peer group shall be reviewed every third year by at least one evaluator certified in accordance with section 284.10.

2. If a supervisor or an evaluator determines, at any time, as a result of a teacher's performance that the teacher is not meeting district expectations under the Iowa teaching standards specified in section 284.3, subsection 1, paragraphs "a" through "h", and the criteria for the Iowa teaching standards developed by the department in accordance with section 256.9, subsection 42, the evaluator shall, at the direction of the teacher's supervisor, recommend to the district that the teacher participate in an intensive assistance program. The intensive assistance program and its implementation are not subject to negotiation and grievance procedures established pursuant to chapter 20. All school districts shall be prepared to offer an intensive assistance program.

3. A teacher who is not meeting the applicable standards and criteria based on a determination made pursuant to subsection 2 shall participate in an intensive assistance program. However, a teacher who has previously participated in an intensive assistance program relating to particular Iowa teaching standards or criteria shall not be entitled to participate in another intensive assistance program relating to the same standards or criteria and shall be subject to the provisions of subsection 4.

4. Following a teacher's participation in an intensive assistance program, the teacher shall be reevaluated to determine whether the teacher successfully completed the intensive assistance program and is meeting district expectations under the applicable Iowa teaching standards or criteria. If the teacher did not successfully complete the intensive assistance program or continues not to meet the applicable Iowa teaching standards or criteria, the board may do any of the following:

a. Terminate the teacher's contract immediately pursuant to section 279.27.

b. Terminate the teacher's contract at the end of the school year pursuant to section 279.15.

c. Continue the teacher's contract for a period not to exceed one year. However, the contract shall not be renewed and shall not be subject to section 279.15.

#### **284.10 Evaluator training program.**

1. The department shall establish an evaluator training program to improve the skills of school district evaluators in making employment decisions, making recommendations for licensure, and moving teachers through a career path as established under this chapter. The department shall consult with persons representing teachers, national board-certified teachers, administrators, school boards, higher education institutions with approved practitioner and administrator preparation programs, and with persons from the private sector knowledgeable in employment evaluation and evaluator training in order to develop standards and requirements for the program. Evaluator training programs offered pursuant

to this chapter may be provided by a public or private entity. The department shall distribute a list of evaluator training program providers to each school district.

2. An administrator licensed under chapter 272 who conducts evaluations of teachers for purposes of this chapter shall complete the evaluator training program. A practitioner licensed under chapter 272 who is not an administrator may enroll in the evaluator training program. Enrollment preference shall be given to administrators. Upon successful completion, the provider shall certify that the administrator or other practitioner is qualified to conduct evaluations for employment, make recommendations for licensure, and make recommendations that a teacher is qualified to advance from one career path level to the next career path level pursuant to this chapter. Certification is for a period of five years and may be renewed.

#### **284.11 State supplemental assistance for high-need schools.**

1. *Findings and intent.* The general assembly finds that students whose first language is not English, who have special needs, or who come from low-income backgrounds face potential obstacles to learning. Schools across Iowa, both urban and rural, have increasing numbers of students who face these challenges. Therefore, it is the intent of the general assembly to provide supplemental assistance to the highest-need schools in Iowa to address these challenges. This section provides for state assistance to allow school districts to develop extended learning time programs, hire instructional support staff, provide additional professional development, or supplement the salary of teachers in the identified schools.

2. *Department's responsibilities.* The department shall do the following:

a. Collect relevant data and establish a list of high-need schools eligible for state supplemental assistance. The department shall establish a process and criteria to determine which schools are placed on the list and the department shall revise the list annually. Criteria for the determination of which high-need schools shall be placed on the list shall be based upon factors that include but are not limited to the socioeconomic status of the students enrolled in the school, the percentage of the school's student body who are limited English proficient students, student academic growth, certified instructional staff attrition, and geographic balance. The department may approve or disapprove requests for revision of the list, which a school district submits pursuant to subsection 3.

b. Develop a standardized process for distributing moneys appropriated for supplemental assistance for high-need schools under section 284.13, subsection 1, paragraph "g", to school districts. In determining the process for distribution of such moneys, the department shall take into consideration the amount of moneys appropriated for supplemental assistance in high-need schools for the given year and the minimal amount of moneys needed to increase the academic achievement of students. A school district receiving moneys pursuant to this section shall certify annually to the department how the moneys distributed to the school district pursuant to this section were used by the school district.

c. Review the use and effectiveness of the funds distributed to school districts for supplemental assistance in high-need schools under this section, and consider the findings and recommendations of the commission on educator leadership and compensation submitted pursuant to section 284.15, subsection 13, relating to the use and effectiveness of the funds distributed to school districts under this section. The department shall submit its findings and recommendations in a report to the general assembly by January 15 annually.

3. *School district request for approval.* A school district may request on an annual basis approval from the department for additions to the list of high-need schools the department maintains pursuant to subsection 2 based upon the unique local conditions and needs of the school district. The criteria used to determine the placement of high-need schools on the list in accordance with subsection 2 does not restrict the department from adding a high-need school to the list as requested by a school district on the basis of unique local conditions and needs pursuant to this subsection.

4. *Moneys received and miscellaneous income.* The distribution of moneys allocated pursuant to section 284.13, subsection 1, paragraph “g”, to a school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Such moneys shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section.

5. *Moneys received to supplement salaries.* Moneys received by a school district pursuant to section 284.13, subsection 1, paragraph “g”, shall be used to supplement and not supplant the salary being received by a teacher in a high-need school, and shall not be considered under chapter 20 by an arbitrator or other third party in determining a comparison of the wages of teachers in that high-need school with the wages of teachers in other buildings or in another school district.

For that school year, the teacher leadership supplement foundation aid payable to the school district is the product of the teacher leadership district cost per pupil for the school year multiplied by the school district's budget enrollment. (5) For each fiscal year of the fiscal period beginning July 1, 2014, and ending June 30, 2017, moneys received by a school district pursuant to this paragraph "d" shall not be considered under chapter 20 by an arbitrator or other third party in determining a comparison of the wages of teachers in that school district with the wages of teachers in another school district.

(6) The receipt of funding by a school district for the purposes of this paragraph "d", and the need for additional funding for the purposes of this paragraph "d", or the enrollment count of eligible students under this chapter, shall not be considered to be unusual circumstances, create an unusual need for additional funds, or qualify under any other circumstances that may be used by the school budget review committee to grant supplemental aid to or establish a modified supplemental amount for a school district under section 257.31.

A portion of the moneys allocated annually to the department for purposes of this paragraph may be used by the department for administrative purposes and for not more than five full-time equivalent positions.

*g.* For the fiscal year beginning July 1, 2019, and for each subsequent fiscal year, to the department, ten million dollars for purposes of implementing the supplemental assistance for high-need schools provisions of section 284.11. **284.14 Pay-for-performance program.**

1. *Intent.* The intent of this section is to create a process by which select Iowa school districts research, develop, and implement projects designed to identify promising practices related to enhanced teacher compensation career ladders and performance pay models.

2. *Commission.* A pay-for-performance commission is established to design and implement a pay-for-performance pilot project and provide a study relating to teacher and staff compensation containing a pay-for-performance component. The study shall measure the cost and effectiveness in raising student achievement of a compensation system that provides financial incentives based on student performance. The commission is part of the executive branch of government.

3. *Development of program.* Beginning July 1, 2006, the commission shall gather sufficient information to identify a pay-for-performance program based upon student achievement gains and global content standards where student achievement gains cannot be easily measured. The commission shall review pay-for-performance programs in both the public and private sectors.

*a.* Commencing with the school year beginning July 1, 2007, the commission shall initiate planning pilots, in selected kindergarten through grade twelve schools, to test the

effectiveness of the pay-for-performance program. The purpose of the planning pilots is to identify the strengths and weaknesses of various pay-for-performance program designs, evaluate cost effectiveness, analyze student achievement needs, select formative and summative student achievement measures that align to identify needs, consider necessary supports related to the student achievement goals in the school district's comprehensive school improvement plan, review assessment needs, identify mechanisms to account for existing teacher contract provisions within the proposed career ladder salary increments, allow thorough review of data, and make necessary adjustments before proposing implementation of the pay-for-performance program statewide.

b. Commencing with the school year beginning July 1, 2007, the commission shall select two school districts as planning pilots. Participants shall provide reports or other information as required by the commission.

c. Commencing with the school year beginning July 1, 2008, the commission shall administer two implementation pilots in the school districts selected for planning pilots under paragraph "b".

4. *Reports and final study.* Based on the information generated by the planning and implementation pilots, the commission shall prepare an interim report by January 14, 2008, followed by interim progress reports annually, followed by a final study report analyzing the effectiveness of pay-for-performance in raising student achievement levels. The final study report shall be completed no later than six months after the completion of the planning and implementation pilots. The commission shall provide copies of the final study report to the department of education and to the general assembly.

5. *Iowa excellence fund.*

a. An Iowa excellence fund is created within the office of the treasurer of state, to be administered by the commission. Notwithstanding section 8.33, moneys in the fund that remain unencumbered or unobligated at the close of the fiscal year shall not revert but shall remain in the fund.

b. The commission may provide grants from this fund, according to criteria developed by the commission, for implementation of the pay-for-performance program.

Pursuant to subsection 6, a school district may apply to the department for approval to implement the framework or a comparable system of career paths and compensation for teachers that contains differentiated, multiple leadership roles as provided in this section, and sections 284.16 and 284.17. The terms of the teaching contracts issued under section 279.13 to model teachers shall exceed by five days the terms of teaching contracts issued under section 279.13 to career teachers, and the five additional contract days shall be used to strengthen instructional leadership in accordance with this subsection. A model teacher shall receive annually a salary supplement of at least two thousand dollars.

d. Mentor teacher. Notwithstanding any provision of law to the contrary, the determinations of salary supplements paid pursuant to this section are not subject to appeal.

4. The school board shall appoint a site-based review council for the district's attendance centers. Attendance centers may share a site-based review council if the appointments meet the requirements specified in paragraph "a".

a. Each council shall be comprised of equal numbers of teachers and administrators.

b. The council shall accept and review applications submitted to the school's or the school district's administration for assignment or reassignment in a teacher leadership role, and shall make recommendations regarding the applications to the superintendent of the school district. In developing recommendations, the council shall utilize measures of teacher effectiveness and professional growth, consider the needs of the school district, and review the performance and professional development of the applicants. Any teacher recommended for assignment or reassignment in a teacher leadership role shall have demonstrated to the council's satisfaction competency on the Iowa teaching standards as set forth in section 284.3.

c. An assignment in a teacher leadership role under an approved framework or comparable system shall be subject to review by the school's or the school district's administration at least annually. The review shall include peer feedback on the effectiveness of the teacher's performance of duty specific to the teacher's career path. A teacher who completes the time period of assignment in a teacher leadership role may apply to the school's or the school district's administration for assignment in a new role, if appropriate, or for reassignment.

5. A teacher employed in a school district shall not receive less compensation in that district than the teacher received in the school year preceding implementation of the framework or a comparable system approved pursuant to this section. A teacher who achieves national board for professional teaching standards certification and meets the requirements of section 256.44 shall continue to receive the award as specified in section 256.44 in addition to the compensation set forth in this section.

6. a. A school district may apply to the department for approval to implement the career paths, leadership roles, and compensation framework specified in subsection 2, or a comparable system of career paths and compensation for teachers that contains differentiated multiple leadership roles. The director shall consider the recommendations of the commission established pursuant to subsection 12 when approving or disapproving applications submitted pursuant to this section. A school district may modify an approved framework or comparable system if the director or the director's designee approves the modification. A school district may appeal the director's or the director's designee's decision to the state board and the state board's decision is final.

b. At any time during a school year, a school district approved to implement the framework

or a comparable system pursuant to this subsection may apply to the department to waive full or partial implementation of the approved framework or system for the current school year. The school district shall submit to the department for approval a modified implementation plan for the school year following the school year for which the district received a waiver pursuant to this paragraph if the school district wishes to continue partial implementation beyond the school year for which the district received a waiver. The state board may adopt by rule a limitation on the number of times a school district may apply for a waiver in accordance with this paragraph.

**285.1 When entitled to state aid.**

1. *a.* The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

(1) Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

(2) High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

(3) Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services or children participating in preschool in an approved local program under chapter 256C may be provided transportation services. However, transportation services provided to nonpublic school children are not eligible for reimbursement under this chapter.

(4) Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district’s transportation service for extended periods during the school year. The student, or the student’s parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student’s parent or legal guardian, notifies the district that regular student ridership will continue.

*b.* For the purposes of this subsection, “*high school*” means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

*c.* Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public

and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost, as determined by the department of education. However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil's residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extracurricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor.

The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term "*school designated for attendance*" means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. *a.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil's residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil's residence shall be relieved of any requirement to provide transportation.

*b.* As an alternative to paragraph "*a*" of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

*c.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence and the district of residence meets the requirements of subsections 14 to 16 of this section by using subsection 17, paragraph "*c*", of this section and the district in which the nonpublic school is located is contiguous to the district of the pupil's residence and is willing to provide transportation under subsection 17, paragraph "*a*" or "*b*", of this section, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil's residence that it is making the claim for reimbursement, and the district of the pupil's residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 to 16 by any of the following:

*a.* Transportation in a school bus operated by a public school district.

*b.* Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

*c.* Utilizing the transportation reimbursement provision of subsection 3.

*d.* Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil's residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph "a", subparagraph (1), a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

The reimbursements provided in this section are miscellaneous income as defined in section 257.2.

3. *a.* Claims for reimbursement shall be made to the department of education by the public school district providing transportation or transportation reimbursement during a school year on a form prescribed by the department, and the claim shall state the services provided and the actual costs incurred. A claim shall not exceed the average transportation costs of the district per pupil transported except as otherwise provided. If transportation is provided under section 285.1, subsection 3, the amount of a claim shall be determined under section 285.3 regardless of the average transportation costs of the district per pupil transported.

*b.* Claims shall be accompanied by an affidavit of an officer of the public school district affirming the accuracy of the claim.

*c.* By February 1 and on or about June 15 of each year, the department shall certify to the

department of administrative services the amounts of approved claims to be paid, and the department of administrative services shall draw warrants payable to school districts which have established claims.

#### **294.12 Pension fund held for survivors upon termination.**

1. In the event of such termination, all assessments of teachers shall cease upon such date of termination, or upon such earlier date as may be prescribed in such resolution, and no additional taxes shall be levied or assessed for the operation of such system, save as in section 294.13. All undisposed of funds and accumulations derived from the operation of said system, including the proceeds, when collected, of any annual tax heretofore levied for the operation of said system, and including the proceeds of any annual tax levied hereafter pursuant to the provisions of section 294.13, shall constitute a retirement liquidation fund. Such liquidation fund shall be held for the benefit of those surviving beneficiaries under such system as of said date of termination, and of members of such system as of the date of termination. There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Any amount in excess of the actuarial equivalent of the sum required to pay such benefit payments shall be apportioned to persons who were as of the effective date of the termination of the system, members of such system, in proportion to the amount which the accumulated contribution of each such person bears to the total funds of such retirement system subject to such apportionment. Any member of such system as of the date of termination thereof, may, in lieu of receiving the cash refund of the member's share of the liquidation fund, elect to come under the coverage of any new pension and annuity retirement system established by the district, to which the member is eligible, with credits toward future benefits in consideration of the member's prior contributions and length of service, and may direct the transfer of the amount payable to the member to the assets of the new pension and annuity retirement system. In any case where the board of directors of a school district including a teachers retirement system established under the provisions of section 294.8, whose members were not under coverage of the Iowa old-age and survivors' insurance system prior to May 1, 1953, the board of directors may

authorize the payment from funds in excess of the actuarial amount estimated as required for the payment of benefits to persons entitled to them, and for the purpose of obtaining retroactive social security coverage from January 1, 1951, until the effective date of federal coverage of Iowa public employees as provided by chapter 97C. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

2. In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at the date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of termination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

3. Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

one-fifth of the amount paid into said pension fund by such participants therein, without interest, which amount shall be levied by the board of supervisors, in accordance with provisions of section 298.8 and, in addition thereto, the board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries of said pension system, as provided in section 294.12, which amount shall be levied by the board of supervisors, in accordance with the provisions of section 298.8. Vote required to authorize bonds, §75.1

#### **296.7 Indebtedness for insurance authorized — tax levy.**

1. *a.* A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:

- (1) To procure or provide for a policy of insurance.
- (2) To provide a self-insurance program.
- (3) To establish and maintain a local government risk pool.

*b.* However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an “*employee benefit plan*” includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget review committee for relief if necessitated by the expenses in the school district’s insurance program as described in subsection 2.

4. a. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:

- (1) Principal, premium, or interest on bonds.
- (2) Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.
- (3) Costs of a self-insurance program.
- (4) Costs of a local government risk pool.
- (5) Amounts payable under an insurance agreement.

b. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.

*b.* Proceeds from the sale or disposition of real or other property shall be deposited into the fund which was used to account for the acquisition of the property. If the district is unable to determine which fund was used to account for the acquisition of the property or if the fund no longer exists in the district, the proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund, and the proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.

*c.* Before the board of directors may sell, lease for a period in excess of one year, or dispose of any property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. Notice of the time and place of the public hearing shall be published at least once not less than ten days but not more than twenty days prior to the date of the hearing in a newspaper of general circulation in the district. After the public hearing, the board may make a final determination on the proposal contained in the resolution.

and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

b. The board of directors of a school district may lease a portion of an existing school building or lease a portion of existing school property. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days, but shall not apply to property or equipment leased as part of a project designed to generate electricity for the school district.

The proceeds from disposition of a student-constructed structure shall be placed in the school district's student construction fund. Moneys remaining in the school district's student construction fund after the board discontinues the student construction program shall first be used to reimburse the fund or funds from which the student construction program's start-up costs were paid and any moneys remaining after such reimbursement shall be transferred by board resolution to the school district's general fund.

If a board of directors has exercised its independent power under section 297.22 regarding the disposition of real or personal property of the school district and has by resolution approved such action, the electors may subsequently proceed to exercise their power under section 278.1 for a purpose directly contrary to an action previously approved by the board of directors in accordance with section 297.22. ## LOAN AGREEMENTS

**297.35 Continuation of loan agreement.** Repealed by 2013 Acts, ch 88, §37.

### **297.36 Loan agreements.**

1. *a.* In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

*b.* By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

*c.* The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

*d.* The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

2. This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

3. This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

Referred to in §294.12, 294.13, 294.14

**298.2 Imposition of physical plant and equipment levy.**

1. *a.* A physical plant and equipment levy of not exceeding one dollar and sixty-seven cents per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy.

*b.* For school budget years beginning on or after July 1, 2015, a school district may by resolution of the board of directors adopted prior to April 15 preceding the budget year impose a physical plant and equipment levy at a rate in excess of the levy rate limitations under paragraph “a” if the board has refunded or refinanced a loan agreement entered into under section 297.36 and such refunding or refinancing complies with the maturity period authorized under section 297.36, subsection 1, paragraph “c”, and results in a lower amount of interest on the amount of the loan agreement. However, the rate imposed by a school district under this paragraph shall not exceed the rate imposed during the budget year in which the loan agreement was refunded or refinanced. Authorization to exceed the levy rate limitations of paragraph “a” shall terminate upon the maturity of the loan agreement after refunding or refinancing. Upon adoption of the resolution under this paragraph “b”, the board shall comply with the requirements of section 297.36, subsection 1, paragraph “b”.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation

in the district prior to July 1, 1997, the levy shall continue for the period authorized under the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. *a.* The board may on its own motion, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters at the election, not to exceed ten years. The election shall be held on a date specified in section 39.2, subsection 4, paragraph “c”. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

*b.* If a combination of a property tax and income surtax is used, by April 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

5. *a.* The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy, and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

*b.* An authorized levy for the period of time approved is not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

#### **298.18 Bond tax — election — leasing buildings.**

1. a. The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

b. The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as otherwise provided in this section.

c. For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year's interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

d. The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand dollars of the assessed value of the taxable property within any school corporation, provided that the registered voters of such school corporation have first approved such increased amount at an election held on a date specified in section 39.2, subsection 4, paragraph "c".

2. The proposition submitted to the voters at such election shall be in substantially the following form:

Shall the board of directors of the ..... (insert name of school corporation) in the County of ....., State of Iowa, be authorized to levy annually a tax exceeding two dollars and

seventy cents per thousand dollars, but not exceeding ..... dollars and ..... cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

3. Notice of the election shall be given by the county commissioner of elections according to section 49.53. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 through 53 and certify the results to the board of directors. The proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against the proposition at the election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

4. The voted tax levy referred to in this section shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

5. a. The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

b. If a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, reconstructing, repairing, improving, or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

**298.18A Levy adjustment.**

If, in the opinion of the board of a school corporation, after having originally estimated and certified the amount required to pay interest and principal due upon bonded indebtedness incurred before July 1, 1995, an adjustment in the amount certified in excess of that previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

3. The amount of the adjustment, when added to the amount originally estimated and certified, for any one year, shall not exceed the least of:

a. The amount required to pay interest and principal due upon bonded indebtedness for the three-year period beginning on the date of the adjustment.

- b. One hundred twenty-five percent of the amount originally estimated and certified.
  - c. One hundred ten percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.
  - 4. The amount of the adjustment plus the amount of state replacement moneys received under section 427B.19A which is attributable to the amount of the adjustment, when added to the amount originally estimated and certified, shall not result in the levying of an amount over the life of the issue in excess of the amount necessary for principal and interest repayment.
  - 5. Amounts collected pursuant to this section shall be deposited in a separate debt service account distinct from the account established to hold principal and interest revenues resulting from the original levy.
  - 6. An adjustment shall not be permitted which results in extending a levy beyond the earlier of the following:
    - a. Ten years from the original date of certification of the amount required to pay interest and principal.

3. If a parent, guardian, or legal or actual custodian of a child who is truant, has made reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is unable to cause the child to attend school, the parent, guardian, or legal or actual custodian may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or

The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child's parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

The department shall provide information on the cost of and the administration time required for each of the approved evaluations. The department shall provide, as part of approval procedures

for evaluations to be used under this section, a mechanism which permits the introduction and approval of new or alternate methods of educational assessment which meet the requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or who is placed under competent private instruction for the first time, shall be administered an evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director's designee, which may include a school district or an area education agency, shall conduct the evaluations required under subsections 1 and 2 for children under competent private instruction. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

4. The parent, guardian, or legal custodian of a child receiving competent private instruction may be present when the child is evaluated, but only if both the parent, guardian, or legal custodian and the child are under the supervision of the evaluation administrator.

5. The conducting of evaluations shall include, but is not limited to, purchasing of evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and reporting the evaluation results.

6. A school district or area education agency shall, if requested, administer the annual achievement evaluation at no cost to the parent, guardian, or legal custodian of the child being evaluated, and, in addition, the parent, guardian, or legal custodian is not required to reimburse the evaluating entity for costs incurred as a result of evaluation under section 299A.9. The administration of the annual achievement evaluation shall not constitute a dual enrollment purpose under section 299A.8.

7. *a.* In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of a child may submit, as evidence of adequate academic progress, all of the following:

(1) A book of lesson plans, a diary, or other written record indicating the subjects taught and activities in which the child has been engaged.

(2) A portfolio of the child's work, including but not limited to, an outline of the curriculum used by the child, copies of homework completed in conjunction with the curriculum and instruction, and copies of evaluations completed by the child which have been produced by the parent, guardian, or legal custodian.

*b.* If a parent, guardian, or legal custodian submits evidence under this section, the information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the evaluator by the parent, guardian, or legal custodian and approved by the superintendent of the local school district or the superintendent's designee. The evaluator shall prepare a report based on a review of the child's work submitted, which shall include an assessment of the child's achievement or academic progress levels, and submit a copy of the report to the child's parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. If the evidence demonstrates, in the evaluator's opinion, that the child is achieving adequate progress, the report shall create a presumption that the child is making adequate progress.

2. A child who is required to attend an accredited public or nonpublic school under this section shall continue attendance at an accredited public or nonpublic school until the child achieves adequate progress.

3. For purposes of this chapter, "*adequate progress*" means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age. For children in grade levels six and above, "*adequate progress*" also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally normed, and which either indicate that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age.

1. The board of directors of each and every school district is hereby authorized and empowered to adopt textbooks for the teaching of all branches that are now or may hereafter be authorized to be taught in the public schools of the state, and to contract for and buy said books and any and all other necessary school supplies at said contract prices, and to sell the same to the pupils of their respective districts at cost, loan such textbooks to such pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

2. Textbooks adopted and purchased by a school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil’s parent under comparable terms as made available to pupils attending public schools. If the general assembly appropriates moneys for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of nonsectarian, nonreligious textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a “participating accredited nonpublic school” means an accredited nonpublic school that submits a written request on behalf of the school’s pupils in accordance with this subsection, and that certifies its actual enrollment to the department of education by October 1, annually. By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection,

an accredited nonpublic school's enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. Funds distributed to a school district for purposes of purchasing textbooks in accordance with this subsection which remain unexpended and available for the purchase of textbooks for the nonpublic school that relocated in the fiscal year in which the funds were distributed shall also be transferred to the school district in which the nonpublic school has relocated.

4. An area shall be designated an area of historical significance upon enactment of an ordinance of the city. Before the ordinance or an amendment to it is enacted, the governing body of the city shall submit the ordinance or amendment to the historical division for its review and recommendations.

### **306.4 Jurisdiction of systems.**

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.
2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.

3. *a.* Effective July 1, 2004, jurisdiction and control over a farm-to-market extension or road transferred pursuant to section 306.8A within a city with a population of less than five hundred shall be vested in the county board of supervisors of the respective county.

*b.* If the population of a city drops below five hundred after July 1, 2004, as determined by the latest available federal census or special census, jurisdiction and control over a farm-to-market extension located within the city shall be vested in the county board of supervisors of the respective county effective July 1 following census certification by the secretary of state.

*c.* If the population of a city from which jurisdiction and control over a road has been transferred pursuant to paragraph “*a*” or “*b*” exceeds seven hundred fifty, as determined by the latest available federal census or special census, such jurisdiction and control shall be transferred back to the city effective July 1 following census certification by the secretary of state.

4. *a.* Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs thereof.

*b.* When the two parties cannot initially come to agreement as to the division of costs under this subsection, they shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

5. Jurisdiction and control over the roads and streets in any state park, state institution or other state land shall be vested in the board, commission, or agency in control of such park, institution, or other state land; except that:

*a.* The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement the jurisdiction and control of such road shall remain in the department.

*b.* The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any

county may expend the moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such road shall remain in the board of supervisors of the county.

6. Jurisdiction and control over parkways within county parks and conservation areas shall be vested in the county conservation boards within their respective counties; except that:

a. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such funds on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the department.

b. The board of supervisors of any county and the county conservation board shall have concurrent jurisdiction over an extension of a secondary road which both enters and exits from a county park or other county conservation area at separate points. The board of supervisors of any county may expend moneys available for such roads in the same manner as the board expends such funds on other roads over which the board exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind and type of construction, reconstruction, repair and maintenance and the division of costs thereof. In the absence of such agreement, the jurisdiction and control of such roads shall remain in the board of supervisors of the county.

### **306.9 Diagonal roads — restoring and improving existing roads.**

1. It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

2. The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

3. It is the policy of the state of Iowa that in constructing primary highways designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary, as determined by the department, to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

4. Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This subsection does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

In proceeding to the vacation and closing of a road, part thereof, or railroad crossing, the agency in control of the road, or road system, shall fix a date for a hearing on the vacation and closing in the county where the road, or part thereof, or crossing, is located, and if located in more than one county, then in a county in which any part of the road or crossing is located. If the road to be vacated or changed is a secondary road located in more than one county, the boards of supervisors of the counties, acting jointly, shall fix a date for a hearing on the vacation or change in either or any of the counties where the road, or part thereof, is located. If the proposed vacation is of part of a road right-of-way held by easement and will not change the existing traveled portion of the road or deny access to the road by adjoining landowners, a hearing is not required.

Any person owning land abutting on a road proposed to be vacated and closed, shall have the right to file, in writing, a claim for damages at any time on or before the date fixed for hearing. However, for purposes of this chapter, if an occupied homestead is not located on the abutting land and if the vacating and closing of the road will not landlock the abutting land, a person shall not have a right to claim damages.

The order thus entered shall be final except as to the amount of the damages unless the order is rescinded as provided in section 306.17. A copy of the order shall be filed with the county auditor of the county or counties in which the road, part thereof, or crossing, is located and with the department and the agency in control of any affected state land.

and the proceedings shall thereafter conform to the applicable provisions of that chapter. If, in the opinion of the agency, the damages as finally determined on appeal are excessive, the agency may rescind its order vacating and closing the road, part thereof, or crossing, and the right-of-way shall remain under the jurisdiction of the agency. If the order is rescinded at any time after an appeal is taken, the agency shall pay reasonable attorney fees incurred by the claimant as taxed by the court.

### **306.19 Right-of-way — access — notice.**

1. In the maintenance, relocation, establishment, or improvement of any road, including the extension of such road within cities, the agency having jurisdiction and control of such road shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right-of-way therefor. Such agency shall likewise have power to purchase or institute and maintain proceedings for the condemnation of land necessary for highway drainage, or land containing gravel or other suitable material for the improvement or maintenance of highways, together with the necessary road access or right of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by lengthening any existing driveway to a road from abutting property, except during the time required for construction and maintenance of the road or highway, the agency shall:

a. Compensate the owner for any diminution in the market value of the property by the denial or alteration by lengthening the driveway. In computing the diminution in value, no consideration shall be given to the additional maintenance expense for maintaining the additional length of driveway, but in lieu thereof, both in condemnation proceedings or negotiated purchases, the agency shall pay to the owner the sum of twenty dollars for every lineal foot of additional length of driveway located on the owner's property. This payment shall represent just compensation to the property owner for the additional driveway maintenance caused by reason of the highway or road project.

b. If in the opinion of the agency it would be more economical to purchase the entire tract of the property owner than to provide and pay the maintenance expense required under the provisions of this section, proceed with the acquisition of the entire tract of land; or

c. If mutually agreeable, move buildings from an existing location to a location requiring an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the agency from entering into a mutually acceptable agreement for the replacement, relocation, construction, or maintenance of any alternate driveway on the owner's property. Compensation for any property rights taken in the establishment of any alternative temporary or permanent access shall be paid as in any other purchase or condemnation of property.

4. Proceedings for the condemnation of land for any highway shall be under the provisions of chapter 6A and chapter 6B. Provided that, in the condemnation of right-of-way for secondary roads that is contiguous to existing road right-of-way for the maintenance, safety improvement, or upgrade of the existing secondary road, the board of supervisors may proceed as provided in sections 306.28 to 306.37.

5. a. The department may notify a city or county that a road under the jurisdiction or control of the department will be established, improved, relocated, or maintained and that the department may need to acquire additional right-of-way or property rights within an

area described by the department. The notice shall include a depiction of the area on a map provided by the city, county, or the department. This notice shall be valid for a period of three years from the date of notification to the city or county and may be refiled by the department every three years. Within seven days of filing the notice, the department shall publish in a newspaper of public record a description and map of the area and a description of the potential restrictions applied to the city or county with respect to the granting of building permits, approving of subdivision plats, or zoning changes within the area.

b. The city or county shall notify the department of an application for a building permit for construction valued at twenty-five thousand dollars or more, of the submission of a subdivision plat, or of a proposed zoning change within the area at least thirty days prior to granting the proposed building permit, approving the subdivision plat, or changing the zoning.

c. If the department, within the thirty-day period, notifies the city or county that the department is proceeding to acquire all or part of the property or property rights affecting the area, the city or county shall not issue the building permit, approve the subdivision plat, or change the zoning. The department may apply to the city or county for an extension of the thirty-day period. After a public hearing on the matter, the city or county may grant an additional sixty-day extension of the period.

d. The department shall begin the process of acquiring property or property rights from affected persons within ten days of the department's written notification of intent to the city or county.

6. If the agency determines that it is necessary to relocate a utility facility, the agency shall have the authority to institute and maintain proceedings on behalf of the owner of the utility facility for the condemnation of replacement property rights. The replacement property rights shall be equal in substance to the existing rights of the owner of the utility facility, except that the replacement property rights shall be for a width and location deemed appropriate and necessary for the needs of the owner of the utility facility, as determined by the agency and the owner of the facility. The replacement property rights of the owner of the utility facility shall be subordinate to the rights of the agency only to the extent necessary for the construction and maintenance of the designated road. Within a reasonable time after completion of the relocation, all previously owned property rights of the owner of the utility facility no longer required for operation and maintenance of the utility facility shall be released or conveyed to the appropriate parties. The authority of the agency under this subsection may only be exercised upon execution of a relocation agreement between the agency and the owner of the utility facility. For purposes of this subsection, "utility facility" means an electric, gas, water, steam power, or materials transmission or distribution system; a transportation system; a communications system, including cable television; and fixtures, equipment, or other property associated with the operation, maintenance, or repair of the system. A utility facility may be publicly, privately, or cooperatively owned.

7. For the purposes of this section, the term "driveway" shall mean a way of ingress and egress located entirely on private property, consisting of a lane or passageway leading from a residence to a public roadway or highway.

However, if the department owns any adjacent unused right-of-way in excess of that needed as right-of-way which is located outside the incorporated limits of a city and is suitable for purposes specified in section 350.4, subsection 2, the department may, at the request of the county and the county conservation board, transfer the property by quitclaim deed to the county for the use and benefit of the county conservation board.

3. The county or the city shall transfer by quitclaim deed to the state department of transportation when having jurisdiction over a road, all of the county’s or the city’s legal or equitable title and interest in rights-of-way for the road and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. The deed shall be executed by the chairperson of the board of supervisors by order of the board for county roads and by the mayor or city manager by order of the city council for city streets.

4. Transfers under this section shall be subject to the right of a utility, association, company or corporation to continue in possession of a right-of-way in use at the time of the transfer. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right-of-way. Transfers shall include an index of parcels transferred by the character of the instrument or proceeding, the grantor and grantee, and date of the last instrument or proceeding acquiring rights to each parcel. Transfers shall locate the right-of-way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision. The transferring jurisdiction shall transmit to the receiving jurisdiction all available original documents of title or a certified true copy if the right-of-way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. Notwithstanding chapter 542B and sections 6A.20, 306.22, 354.13, 354.15, and 364.7, legal descriptions, plats, maps, or engineering drawings used to describe transfers of right-of-way shall, where available, be descriptions, plats, maps, or engineering drawings of record and shall be incorporated by reference to the title instrument or proceedings. If a part but not all of the land acquired by a single conveyance or condemnation is being

transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. This paragraph shall apply to all transfers pursuant to this chapter or section 313.2.

1. A public utility may construct, operate, repair, or maintain its utility facilities within a public road right-of-way. The location of new utility facilities shall comply with section 318.9. A utility facility shall not be constructed or installed in a manner that causes interference with public use of the road.

2. For purposes of this section, "*public utility*" means a public utility as defined in section 476.1, and shall also include waterworks, municipally owned waterworks, joint water utilities, rural water districts incorporated under chapter 357A or chapter 504, cooperative water associations, and electric transmission owners as defined in section 476.27 primarily providing service to public utilities as defined in section 476.1. **306.47 Utility facilities relocation policy.**

1. It is the policy of the general assembly that a proactive, cooperative coordination between the department, local governments, private and public utility companies, and other affected parties is the most effective way to minimize costs, eliminate the need for utilities to

relocate facilities, limit disruption of utility services related to federal, state, or local highway construction projects, and limit the potential need for relocation of utility facilities.

2. All potentially affected parties shall be invited to participate in development meetings at the design phase of a highway construction project to review plans, understand goals and objectives of the proposed project, and discuss options that would limit the impact of the construction on utility facilities and thereby minimize or even eliminate costs associated with utility facility relocation. All jurisdictions and other interested parties shall cooperate to discuss strategies and policies to utilize the Iowa one call system in the development of a highway construction project. Failure of the affected parties to respond or participate during the design phase shall not in any way affect the ability of the federal, state, or local agency to proceed with design and construction.

Upon examining the preliminary plans on a road project, the soil and water conservation district commissioners may review each road project for which a drainage structure is required. The soil and water conservation commissioners shall ascertain whether or not the proposed erosion control or runoff control structure is suitable to reduce the velocity of runoff, reduce gully erosion, or provide for sedimentation or other improvement that would enhance soil conservation. The soil and water conservation commissioners shall also ascertain whether any other aspect of the road construction will affect soil and water conservation.

1. The soil and water conservation district commissioners shall submit their findings and recommendations to the appropriate highway authority not later than twenty days following examination of the construction plans.

2. The appropriate highway authority shall respond to the soil and water conservation district commissioners and indicate its agreement to the suggested installation or its rejection of the proposal.

SUBCHAPTER I

CONTROLLED-ACCESS FACILITIES AND SERVICE ROADS

**306A.1 Declaration of policy.**

The legislature hereby finds, determines, and declares that this chapter is necessary for the immediate preservation of the public peace, health, and safety, and for the promotion of the general welfare.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.1]

**306A.2 Definition of a controlled-access facility.**

For the purposes of this chapter, a controlled-access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.2]

Referred to in §306A.3

**306A.3 Authority to establish controlled-access facilities — utility accommodation policy.**

1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in cooperation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use if traffic conditions, present or future, will justify special facilities; provided, that within a city such authority shall be subject to municipal consent as may be provided by law. In addition to the specific powers granted in this chapter, cities and highway authorities shall have any additional authority vested in them relative to highways or streets within their respective jurisdictions. Cities and highway authorities may regulate, restrict, or prohibit the use of controlled-access facilities by various classes of vehicles or traffic in a manner consistent with section 306A.2.

2. The state department of transportation shall adopt rules, pursuant to chapter 17A, embodying a utility accommodation policy which imposes reasonable restrictions on placements occurring on or after the effective date of the rules, on primary road rights-of-way. The rules may require utilities to give notice to the department prior to installation of a utility system on a primary road right-of-way and obtain prior permission from the department for the proposed installation. The rules shall recognize emergency situations and the need for immediate installation of service extensions subject to the standards adopted by the department and the utilities board. The rules shall be no less stringent than the standards adopted by the utilities board pursuant to chapters 478, 479, and 479B. This paragraph shall not be construed as granting the department authority which has been expressly granted to the utilities board to determine the route of utility installations. If the department requires a utility company permit, the department shall be required to act upon the permit application within thirty days of its filing. In cases of federal-aid highway projects on nonprimary highways, the local authority with jurisdiction over the highway and the department shall comply with all federal regulations and statutes regarding utility accommodation.

**306A.4 Design of controlled-access facility.**

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to so design any controlled-access facility and to so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended. In this connection such cities and highway authorities are authorized to divide and separate any controlled-access facility into separate roadways by the construction of raised curbsings, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and other devices. No person shall have any right of ingress or egress to, from, or across controlled-access facilities to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.4]

**306A.5 Acquisition of property and property rights.**

1. For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may

acquire an entire lot, block, or tract of land, if by so doing the interests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right-of-way proper.

2. Access rights to any highway shall not be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. Action taken by any such authority shall not form the basis for any claim of adverse possession of or prescriptive right to any access rights by any such authority.

The department shall control the erection and maintenance of advertising devices authorized by section 306C.11, subsection 3, in accord with the following criteria, except that in the case of bonus interstate highways the department shall maintain the controls required under chapter 306B or the controls required by this subchapter, whichever controls are stricter:

1. Advertising devices located within the adjacent area of interstate highways and freeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than five hundred feet outside of cities, and within two hundred fifty feet if inside of cities. An advertising device may not be located within two hundred fifty feet of an interchange, or rest area. The measurement shall be from the nearest widening constructed for the purpose of acceleration or deceleration of traffic movement to or from the main-traveled way to the advertising device.

2. Advertising devices located within the adjacent area of nonfreeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than one hundred feet if inside the corporate limits of a municipality. No advertising

device, other than as excepted or permitted by subsection 4, 5, or 6, shall be located within the triangular area formed by the line connecting two points each fifty feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

3. Advertising devices located within the adjacent area of nonfreeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than three hundred feet if outside the corporate limits of a municipality. No advertising device, other than those excepted or permitted by subsection 4, 5, or 6, shall be located within the triangular area formed by a line connecting two points each one hundred feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

4. The distance spacing measurements fixed by subsections 2 and 3 shall not apply to advertising devices which are separated by a building in such a manner that only one advertising device located within the minimum spacing distance is visible from a highway at any one time.

5. Within a triangular area, as defined by subsections 2 and 3, occupied by a building or structure, no advertising device shall be erected or maintained closer to the intersection than the building or structure itself, except that a wall advertising device may be attached to said building or structure not to protrude more than twelve inches.

6. Official and directional signs and notices and advertising devices concerning the sale or lease of the property or activities conducted upon the property as specified in 23 U.S.C. §131(c) shall not be taken into consideration in determining compliance with spacing requirements.

7. The minimum distance between two advertising devices facing the same direction shall apply without regard to the side of the highway on which the advertising devices may be located and shall be measured along the center line of the highway between points directly opposite the advertising devices.

8. Advertising devices shall not be erected, maintained, or illuminated:

a. In a manner to obscure or otherwise physically interfere with an official traffic sign, signal, or device, or to obstruct or physically interfere with any driver's view of approaching, merging, or intersecting traffic.

b. Unless effectively shielded to prevent light from being directed at any portion of the traveled highway with such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle.

c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light or lights, except those giving public service information such as, but not limited to time, date, temperature, weather, news and similar information.

d. Which imitate or resemble an official sign or signal or device or which are erected or maintained within or closer than three hundred feet from scenic areas, as defined and determined by the department, or which are located or maintained upon trees, or painted or drawn upon rocks or natural features, or which are structurally unsafe or in substantial disrepair.

e. Which exceed one thousand two hundred square feet in area or in the case of a back-to-back or V-type advertising device, with a maximum of two facings per advertising device, seven hundred fifty square feet in area, including border and trim but excluding base or apron, support, and other structural members.

f. Which do not comply with all applicable state or local laws, regulations and ordinances, including but not limited to zoning, building, and sign codes as locally interpreted and applied and enforced, or which violate chapter 318; however, nothing in this subchapter shall prevent or restrict county or local zoning authorities from making a determination of customary use concerning size, lighting, and spacing of advertising devices in zoned commercial or industrial adjacent areas, and such determinations will be accepted in lieu of the standards of this subchapter. The provisions of this subchapter shall not prevent or restrict county or local zoning authorities within their respective jurisdictions from establishing standards imposing controls stricter than those required by this subchapter.

g. The standards contained in this section pertaining to size, lighting, and spacing shall

not apply to advertising devices erected or maintained within six hundred sixty feet of the right-of-way of those portions of the interstate highway system exempted from control under chapter 306B by authority of section 306B.2, subsection 4, nor to advertising devices erected and maintained within adjacent areas along noninterstate primary highways within zoned and unzoned commercial and industrial areas, unless said advertising devices were erected subsequent to July 1, 1972.

Any advertising device lawfully erected after said date which subsequently becomes nonconforming, shall be required to be brought into conformity or removed within five years after the date the nonconformity occurs. #### **306D.1 Statement of purpose — intent.**

1. The general assembly finds that:

a. The state offers numerous regions through which people can drive for the pleasure of viewing unusually scenic and interesting landscapes; however, routes to and through these areas have not been adequately identified for Iowans and state visitors.

b. Among those things that attract motorists to the state’s landscape are agricultural lands, forests, river basins, distinctive landforms, interesting architecture, metropolitan areas, small rural towns, and historic sites.

c. The landscape qualities of unusually scenic routes throughout the state have not been

protected from visual and resource deterioration particularly along routes which pass near the state's nationally significant areas such as the bluffs of the Mississippi and Missouri rivers, the Amana colonies, the Herbert Hoover national historic site, federal reservoirs, communities surrounding the state's natural lakes, the Des Moines river greenbelt, the great river road, and many others.

d. A principal goal of economic development in this state is to increase the influence which travel and tourism have on the state's economic expansion.

e. Iowans and visitors should be encouraged to travel to and through unusually scenic areas of the state.

f. A program should be established, following a statewide plan, to identify and promote highways and secondary routes which pass through unusually scenic landscapes and to protect and enhance the scenic qualities of the landscape through which these routes pass.

2. In addition to other goals for the program, it is the intention of the general assembly that the scenic highways program be coordinated with the state's open space program under chapter 465A.

The department of natural resources, department of economic development, and department of cultural affairs, private organizations, county conservation boards, city park and recreation departments, and the federal agencies having jurisdiction over land in the state shall be encouraged to assist in preparing the plan. The plan shall be coordinated with the state's open space plan if a state open space plan has been approved by the general assembly. The plan shall include, but is not limited to, the following elements:

a. Preparation of a statewide inventory of scenic routes and ranking of relative uniqueness for each route. The degree to which these routes suffer from negative visual intrusions shall be documented.

b. Recommended techniques for preserving and enhancing the scenic qualities associated with each route.

c. Forecasts of significant changes in traffic volumes and environmental, social, and economic impacts if scenic routes are publicly identified and promoted as tourism attractions.

d. Recommended techniques for incorporating scenic highway routes in state and local tourism development and marketing programs.

e. Landscape management needs including maintenance, rehabilitation, and improvements to scenic areas.

f. Funding levels needed to accomplish the statewide scenic highway program.

g. Recommendations of how federal and state transportation programs can be modified or developed to assist the state's scenic highway program.

2. The preparation of the plan is subject to an appropriation by the general assembly for that purpose. The plan shall be submitted to the general assembly by January 15, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state agencies, federal agencies, and private organizations with interests in scenic highways. 2. Notwithstanding subsection 1, if an advertising device was lawfully erected along an interstate highway within the corporate limits of a city prior to designation of the highway as a scenic byway and, after such designation occurs, the advertising device is displaced due to the reconstruction, improvement, or relocation of the highway, the advertising device may be relocated to a location determined by the department to be substantially the same location, subject to approval by the federal highway administration, and shall not be considered an erection of a new advertising device, if all of the following apply:

 THE MISSOURI RIVER  
 FOR BARGE TRAFFIC

**307C.1 Missouri river barge compact.**

The Missouri river interstate barge compact is enacted into law and entered into with all other states which legally join in the compact in substantially the following form:

1. *Article I.* The purposes of this compact are to provide for planning for the most efficient use of the waters of the Missouri river, to increase the amount of barge traffic on that segment of the Missouri river below Sioux City, Iowa, to take necessary steps to develop the Missouri river and its banks to handle more barge traffic than is presently handled, to encourage barge use on that segment of the Missouri river for transporting bulk goods, especially farm commodities, to insure that the intended increase in barge traffic does not impose unacceptable damage on the Missouri river in all its various uses, including agriculture, wildlife management, and recreational opportunities, to consider the effects of diversion of the waters of the Missouri river on navigation, and to promote joint action between the compact parties to accomplish these purposes. The purposes of the compact do not include lobbying activities against user fees for barge traffic and such activities under this compact are prohibited.

2. *Article II.* It is the responsibility of the four states to accomplish the purposes in article I through the official in each state charged with the duty of administering the public waters and to collect and correlate through those officials the data necessary for the proper administration of the compact. Those officials may, by unanimous action, adopt rules and regulations to accomplish the purposes of this compact.

3. *Article III.* The states of Iowa, Missouri, Kansas, and Nebraska agree that within a reasonable time they shall fulfill the obligations of this compact and that each shall authorize the proper official or agency in its state to take the necessary steps to promote barge use and develop the Missouri river as it flows between and within the compact states for additional barge traffic.

4. *Article IV.* This compact does not limit the powers granted in any other act to enter into interstate or other agreements relating to the Missouri river flowing between and within the compact states, alter the relations between the respective internal responsibilities of the government of a party state and its subdivisions, or impair or affect any rights, powers, or jurisdiction of the United States, or those acting by or under its authority, in, over, and to those waters of the Missouri river. Adoption of this compact by the general assembly shall not require the signatory states to adopt any legislation or to appropriate funds for its implementation.

5. *Article V.*

a. Other states having an interest in the promotion of barge traffic on the Missouri river can join in this compact by unanimous consent of the member states.

*b.* Any member state can withdraw at any time by appropriate action of its legislature.

**308.3 Definitions.**

As used in this chapter:

1. “*Conservation area*” means land in which the state department of transportation or the department of natural resources has acquired rights, other than that land necessary for a right-of-way.

2. “*Great river road*” means a scenic and recreational highway consisting of a designated system of roads and streets along the Mississippi river in this state.

3. “*National parkway*” has the same meaning as defined in Pub. L. No. 93-87, first session, Ninety-third Congress of the United States.

4. “*Right-of-way*” means land area dedicated to public use for a highway and its maintenance, and includes land acquired in fee simple or by permanent easement for highway purposes, but does not include temporary easements or rights for supplementary highway appurtenances.

5. “*A scenic and recreational highway*” means a public highway designated to allow enjoyment of aesthetic and scenic views, points of historical, archaeological and scientific interest, state parks and other recreational areas and includes both the right-of-way and conservation area.

6. “*Scenic easement*” means a servitude which is acquired by gift, purchase, exchange or condemnation and is designed to permit land to remain in private ownership for its normal agricultural, residential or other use and, at the same time, to restrict and control the future use of the land for the purpose of preserving, restoring or enhancing the natural and historic beauty of the land subject to the scenic easement.

7. “*Secretary*”, “*parkway*”, “*scenic landscape*”, “*sightly or safety easement*”, “*access*”, “*parkway road*”, “*parkway development*”, “*frontage*” and other similar terms have the same meaning as defined in any Act of the Congress of the United States related to a national parkway.

**308.4 Transportation commission duties.**

1. The state transportation commission shall make such investigations, surveys, studies and plans in connection with any proposed national parkway or parkway development as it shall deem necessary or desirable to determine if the proposed development is under the terms of the Act of the United States Congress applicable to such parkway or any regulations under such Act and is advantageous to the state. Such parkway development may be any portion of the proposed parkway which is proposed to be constructed as a project under such Act.

2. The state transportation commission, with the cooperation of the department of natural resources, shall plan, designate, and establish the exact routing of the great river road, utilizing the general guidelines established in Tit. 23, United States Code.

3. The director of transportation, with the cooperation of the department of natural resources, shall:

a. Acquire all rights in land necessary for reconstruction or relocation of any portions of the great river road where reconstruction or relocation is imperative for the safety of the traveling public, or where the condition or location of existing segments of the highway is not in keeping with the intent of this chapter. Acquisitions of such rights in land shall be by gift, purchase, exchange, or by instituting and maintaining proceedings for condemnation. Gift, purchase, exchange, and condemnation include acquisition of a scenic easement. A scenic easement acquired under this chapter constitutes an easement both at law and in equity, and all legal and equitable remedies, including prohibitory and mandatory injunctions, are available to protect and enforce the state’s interest in such scenic easements. A scenic easement acquired under this chapter is deemed to be appurtenant to the roadway to which it is adjacent or from which it is visible. The duties created by a scenic easement acquired under this chapter are binding upon and enforceable against the original owner of the land subject to the scenic easement and the original owner’s heirs, successors, and assigns in perpetuity, unless the instrument creating the scenic easement expressly provides for a lesser

duration. A court shall not declare a scenic easement acquired under this chapter to have been extinguished or to have become unenforceable by virtue of changed conditions or frustration of purpose.

b. Accept and administer state, federal, and any other public or private funds made available for the acquisition of rights in land and for the planning and construction or reconstruction of any segment of the great river road, and state and federal funds for the maintenance of that part of the great river road constituting the right-of-way.

85 Acts, ch 108, §2

### **308.6 Transferring jurisdiction.**

The director of transportation, with the concurrence of the department of natural resources, shall transfer jurisdiction of any adjacent conservation area to the department of natural resources upon completion of a new segment of the great river road.

### **308.8 Agreements authorized.**

The director of transportation and the department of natural resources may enter into agreements with the United States secretary of transportation, as provided under the United States Code, Tit. 23 relating to the scenic and recreational highway system, and with any other agency and jurisdiction, and take action in the name of the state to comply with the terms of any agreement.

[C75, 77, 79, 81, §308.8]

86 Acts, ch 1245, §1932

### **308.9 Establishing locations for the highway.**

1. a. When, as a result of its investigations and studies, the state transportation commission, in cooperation with the department of natural resources, finds that there may be a need in the future for the development and construction or reconstruction of segments of the great river road, and when the state transportation commission determines that in order to prevent conflicting costly economic development on areas of lands to be available for the great river road when needed for future development, there is need to establish and to inform the public of the approximate location and widths of new or improved segments of the great river road to be needed, the state transportation commission may proceed to establish the location and the approximate widths in the manner provided in this section.

b. The state transportation commission shall give notice and hold a public hearing on the matter in a convenient place in the area to be affected by the proposed improvement of the great river road. The state transportation commission shall consider and evaluate the testimony presented at the public hearing and shall make a study and prepare a map showing the location of the proposed new or reconstructed segment of the great river road and the approximate widths of right-of-way needed. The map shall show the existing roadway and the property lines and record owners of lands to be needed. The approval of the map shall be recorded by reference in the state transportation commission’s minutes, and a notice of the action and a copy of the map showing the lands or interest in the lands needed in any county shall be filed in the office of the county recorder of that county. Notice of the action and of the filing shall be published once in a newspaper of general circulation in the county, and within sixty days following the filing, notice of the filing shall be served by registered mail on the owners of record on the date of filing. Using the same procedures for approval, notice and publications, and notice to the affected record owners, the state transportation commission may amend the map.

2. After such location is established, within the area of the great river road as shown on the map or in such proximity to it as to result in consequential damages when the rights in land for the great river road are acquired, a person shall not erect or move in any additional structure or rebuild, alter or add to any existing structure, without giving to the state transportation commission by registered mail sixty days’ notice of such contemplated construction, alteration, or addition describing the same. However, this prohibition and requirement shall not apply to any normal or emergency repairs or replacements which are necessary to maintain an existing structure of a facility in approximately its previously existing functioning condition. When the rights in land for a segment of the great river road are acquired, damages shall not be allowed for any construction, alterations, or additions in violation of this subsection.

3. Without limiting any authority otherwise existing, rights in land needed for the great river road may be acquired at any time by the state, the county, or the municipality in which such segment of the great river road is located. If an owner’s contiguous land is acquired to an extent which is less than the total amount shown on the map as needed, consequential damages to the land not acquired shall be allowed as found to exist.

Any sum remaining unexpended at the end of the period during which it is available for expenditure shall be reapportioned among all the counties as provided in section 312.5 for original allocations.

2. For the purposes of this section, any sums of the farm-to-market road fund allotted to any county shall be presumed to have been expended when a contract has been awarded obligating the sums. When projects and their estimated costs, which are proposed to be funded from the farm-to-market road fund, are submitted to the department for approval, the department shall estimate the total funding necessary and the period during which claims for the projects will be filed. After anticipating the funding necessary for approved projects, the department may temporarily allocate additional moneys from the farm-to-market road fund for use in any other farm-to-market projects. However, a county shall not be temporarily allocated funds for projects in excess of the county's anticipated farm-to-market road fund allocation for the current fiscal year plus the four succeeding fiscal years.

3. If in the judgment of the department the anticipated claims against the primary road fund for any month are in excess of moneys available, a temporary transfer for highway construction costs may be made from the farm-to-market road fund to the primary road fund provided that there will remain in the transferring fund a sufficient balance to meet the anticipated obligations. All transfers shall be repaid from the primary road fund to the farm-to-market road fund within sixty days from the date of the transfer. Any such expense incurred by the department may in the first instance be advanced out of the primary road fund, and such expense amounts shall later be reimbursed to the primary road fund out of the farm-to-market road fund.

2. No part of the salary or expense of the county engineer, any member of the county

board of supervisors, any member of the department, the chief engineer, or any department head or district engineer of the department shall be paid out of the farm-to-market road fund.

Each

county shall pay its share of the cost of the project as provided in this chapter, in the same manner as though the project were located wholly within that county.

### **311.7 Improvement by private funds.**

1. a. The owner or a group of owners of not less than seventy-five percent of the lands adjacent to, or abutting upon any secondary road may, on or before October 1 of any year, petition the board of supervisors of their county for the improvement of the road, and for the assessment of not less than fifty percent, or a greater portion as provided in the petition, of the cost of the improvement, to the lands adjacent to, or abutting upon the road. When the petition has been filed, the board of supervisors shall review the project proposed by the petition and may accept or reject the proposed project. If the board of supervisors accepts the petition, the board shall include the project in the secondary road construction program of the county and establish a priority for the completion of the project.

b. The board of supervisors shall proceed with the construction and completion of the project in accordance with its assigned priority and under the same procedure as is prescribed generally for the improvement of secondary roads by assessment, and shall establish a special secondary road assessment district and assess against the lands included in the district not less than fifty percent, or a greater portion as provided in the petition, of the engineer's estimated cost of the improvements of the road included in the project against all the lands adjacent to or abutting upon the road.

c. However, if the owners of all the lands included in any special secondary road assessment district under this section, subscribe and deposit with the county treasurer an amount not less than fifty percent, or a greater portion as provided in the petition, of the engineer's estimated cost of the improvement of the road included in the project, the board of supervisors shall not establish the special assessment district, but shall accept the donations in lieu of an assessment, and shall otherwise proceed to the improvement of the road.

2. The total expenditure of secondary road funds of the county in any year for or on account of special secondary road assessment district projects on local secondary roads under this section shall not exceed the total secondary road funds legally expendable for construction on local secondary roads in the county in the year.

Said estimated cost shall carry the presumption, in the absence of a contrary showing, that the same correctly represents the probable cost of said project as nearly as can be determined in advance of the actual doing and completion of the work. Said apportionment shall carry the presumption, in the absence of a contrary showing, that the same is fair, just, equitable, and in proportion to the benefits and not in excess thereof.

Such omission or error shall only affect the particular tract of real estate or person in question. If, before or after the board has entered its final order in the establishment of the said district or in the apportionment proceedings such omission or error is discovered, the board shall fix a time for a hearing as to such party or real estate and shall cause service of notice to be made upon them, either by publication as in this chapter provided, or by personal service in the time and manner required for service of original notices in the district court. The appeal has precedence over all other business pending before the court except criminal matters. The appeal shall be heard as in equity. The court may raise or lower the assessment in question and make an equitable assessment in the judgment of the court. The clerk of the district court shall, upon the entry of the final order of

The appellant shall, within twenty days after perfection of the appeal, docket the appeal and file a petition setting forth the order or decision of the board of supervisors appealed from, and the appellant's specific objections. A failure to comply with either of these requirements is a conclusive waiver of the appeal and the court shall dismiss the petition. Appellee need not file answer, but may do so.

### **311.26 Assessments certified to county treasurer.**

When the board of supervisors has entered its final order as to the amounts of all special assessments on a given improvement, the county engineer shall at once certify a list of the assessments and a list of real estate upon which each assessment has been levied, with the specific designation of the district embracing the real estate, to the county treasurer, who shall enter each assessment on the tax books and continue the entry until the assessment is paid.

Each special assessment and all installments of the special assessments are a lien upon the real estate upon which levied from the date of the certificate by the county engineer to the same extent and in the same manner as taxes levied for state and county purposes. Upon the signing of each of the certificates by the chairperson of the board, the certificates shall be delivered to the county treasurer, who shall countersign them and who shall be responsible for them on the treasurer's bond. The treasurer may apply the certificates in payment of warrants duly authorized and issued for improving the roads within the district, or the treasurer may sell the certificates for the best attainable price and for not less than par, plus accrued interest. However, the fact that right-of-way is donated by property owners for the establishment of a road or a portion of the cost of a road improvement is paid by property owners under this chapter, does not preclude the board of supervisors from exercising its responsibility over these roads as secondary roads.

For subsequent fiscal years, apportion among the counties the road use tax funds credited to the secondary road fund by using the distribution methodology adopted pursuant to section 312.3C.

A city may have one special federal census taken each decade, and the population figure thus obtained shall be used in apportioning amounts under this subsection beginning the calendar year following the year in which the special census is certified by the secretary of state.

b. The apportionment of moneys from the street construction fund of the cities to a city with a farm-to-market extension under county jurisdiction pursuant to section 306.4 shall

For purposes of apportioning among the cities of the state the percentage of the road use tax fund to be credited to the street construction fund of the cities for each month beginning March 2011 and ending March 2021 pursuant to this subsection, the population of each city shall be determined by the greater of the population of the city as of the last preceding certified federal census or as of the April 1, 2010, population estimates base as determined by the United States census bureau.

3. In any case where a city has been incorporated since the latest available federal census the mayor and council shall certify to the state treasurer the actual population of such incorporated city as of the date of incorporation and its apportionment of funds under this section shall be based upon such certification until the next federal census enumeration. Any community which has dissolved its corporation shall not receive any apportionment of funds under this certificate for any period after said corporation has been dissolved.

4. In any case where a city has annexed any territory since the last available federal census or special federal census, the mayor and council shall certify to the treasurer of state the actual population of such annexed territory as determined by the last certified federal census of said territory and the apportionment of funds under this section shall be based upon the population of said city as modified by the certification of the population of the annexed territory until the next federal or special federal census enumeration.

5. In any case where two or more cities have consolidated, the apportionment of funds under this section shall be based upon the population of the city resulting from said consolidation and shall be determined by combining the population of all cities involved in the consolidation as determined by the last available federal or special federal census enumeration for said consolidating city.

GENERAL PROVISIONS

**313.1 Federal and state cooperation.**

The department is empowered on behalf of the state to enter into any arrangement or contract with and required by the duly constituted federal authorities, in order to secure the full cooperation of the government of the United States, and the benefit of all present and future federal allotments in aid of highway construction, reconstruction, improvement or maintenance. The good faith of the state is hereby pledged to cause to be made available each year, sufficient funds to equal the total of any sums now or hereafter apportioned to the state for road purposes by the United States government for such year, and to maintain the roads constructed with said funds.

[C24, §4688; C27, 31, 35, §4755-b1; C39, §4755.01; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §313.1]

**313.2 “Road systems” defined — roadside parks.**

1. The roads and streets of the state are, for the purpose of this chapter, those roads and streets established under chapter 306.

2. a. Whenever the board of supervisors of a county and the department mutually determine that a portion of a highway under the jurisdiction of either party should be transferred to the jurisdiction of the other party, the board and department may enter into an agreement to effect such transfer. Such agreement may provide that each party may undertake or share responsibility for improving said road with the costs of such improvement to be borne entirely by either the county or the department or equitably divided between the two jurisdictions. All such improvements shall be completed and all actual costs thereof paid or reimbursed prior to the time transfer of the road is made. In carrying out such agreement, the board of supervisors may expend secondary road funds of the county and the department may expend primary road funds.

b. However, prior to entering into the agreement, a notice of intent to execute such agreement shall be published in a newspaper of general circulation within the county and the cost of such notice shall be jointly borne by the department and the board of supervisors. If one hundred or more residents of the county request by petition or in writing that a hearing be held in regard to such agreement within ten days after the publication of the notice, the board of supervisors and the department shall hold such a hearing not more than seven days after receiving the petition or written instrument. Based upon evidence presented at the hearing, the board of supervisors and the department shall reexamine the merits of executing such agreement and make a decision in regard to it.

3. The department may, for the purpose of affording access to cities or state parks, or for the purpose of shortening the direct line of travel on important routes, or to effect connections with interstate roads at the state line, add such road or roads to the primary road system.

4. The department, either alone or in cooperation with any county, shall have the authority to utilize any land acquired incidental to the acquisition of land for highway right-of-way and to also accept by gift lands not exceeding two acres in area for roadside parks and parking areas. The department may furnish necessary maintenance. The department shall also have authority to accept by gift equipment or other installations incidental to the use of said parks and parking areas. The parks and parking areas shall be a part of the primary road system and the department may at its discretion sell or otherwise dispose of the lands.

5. Reasonable maintenance and surveillance of rest area sites and buildings located on the sites shall be provided by employees of the department within the limits of appropriations provided for such purpose.

**313.2A Commercial and industrial highways.**

1. *Purpose.* It is the purpose of this section to enhance opportunities for the development and diversification of the state's economy through the identification and improvement of a network of commercial and industrial highways. The network shall consist of interconnected routes which provide long distance route continuity. The purpose of this highway network shall be to improve the flow of commerce; to make travel more convenient, safe, and efficient; and to better connect Iowa with regional, national, and international markets. The commission shall concentrate a major portion of its annual construction budget on this network of commercial and industrial highways. In order to ensure the greatest possible availability of funds for the improvement of the network, primary highway funds shall not be spent beyond continuing maintenance for improvements to route segments that will be bypassed by the relocation of portions of the commercial and industrial highway network.

2. *Network selection.*

a. The commission shall identify, within the primary road system, a network of commercial and industrial highways. The commission shall consider all of the following factors in the identification of this network:

(1) The connection by the most direct routes feasible of major urban areas and regions of the state to each other and to the national system of interstate and defense highways and priority routes in adjacent states.

(2) The existence of high volumes of total traffic and commercial traffic.

(3) Long distance traffic movements.

(4) Area coverage and balance of spacing with service to major growth centers within the state.

(5) Metropolitan area bypasses consistent with metropolitan or regional area plans established through cooperation by the department and local officials.

b. The network of commercial and industrial highways shall not exceed two thousand six hundred miles including municipal extensions of these highways.

3. *Standards.* The department shall establish standards pertaining to the specific location, design, and access control for each segment of the commercial and industrial highways.

[C71, 73, 75, 77, 79, 81, §313A.1]

### **313A.2 Bridge to be controlled by department.**

The department shall have full charge of the construction and acquisition of all toll bridges constructed or acquired under the provisions of this chapter, the operation and maintenance thereof and the imposition and collection of tolls and charges for the use thereof. The department shall have full charge of the design of all toll bridges constructed under the provisions of this chapter. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department shall advertise for bids for the construction, reconstruction, improvement, repair or remodeling of any toll bridge by publication of a notice once each week for at least two consecutive weeks in a newspaper published and having a general circulation throughout the state of Iowa, the first publication to appear at least fifteen days prior to the date set for receiving bids. The department shall have the power to accept such offer or offers, propositions or bids, and enter into such contract or contracts as it shall deem to be to the best interest of the state.

[C71, 73, 75, 77, 79, 81, §313A.2]

### **313A.3 Toll bridges constructed over boundary rivers.**

The department is hereby authorized to establish and construct toll bridges upon any public highway, together with approaches thereto, wherever it is considered necessary or advantageous and practical for crossing any navigable river between this state and an adjoining state. The necessity or advantage and practicality of any toll bridge shall be determined by the department. To obtain information for the consideration of the department upon the construction of any toll bridge or any other matter pertaining thereto, any officer or employee of the state, upon the request of the department, shall make reasonable examination, investigation, survey, or reconnaissance to determine material facts pertaining thereto and shall report such findings to the department. The cost thereof shall be borne by the department or office conducting it from funds provided for its functions.

[C71, 73, 75, 77, 79, 81, §313A.3]

### **313A.4 Investigation of feasibility.**

The department is hereby authorized to enter into agreements with any federal bridge commission or any county or city of this state, and with an adjoining state or county, city, or town thereof, for the purpose of implementing an investigation of the feasibility of any toll bridge project for the bridging of a navigable river forming a portion of the boundary of this state and such adjoining state. The department may use any funds available for the purposes of this section. Such agreements may provide that in the event any such project is determined to be feasible and adopted, any advancement of funds by any state, county or city may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from such project.

[C71, 73, 75, 77, 79, 81, §313A.4]

**313A.5 Acquiring existing bridge — bonds.**

Whenever the department deems it necessary or advantageous and practical, it may acquire by gift, purchase, or condemnation any interstate bridge which connects with or may be connected with the public highways and the approaches thereto, except that the department may not condemn an existing interstate bridge used for interstate highway traffic and combined highway and railway traffic and presently owned by a municipality, or a person, firm, or corporation engaged in interstate commerce. The department may also acquire by gift or purchase two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, complete the partially constructed bridge and dismantle the bridge which it is designed to replace. In connection with the acquisition of any such bridge, bridges, or partially constructed bridge, the department and any federal bridge commission or any city, county, or other political subdivision of the state are authorized to do all acts and things as in this chapter are provided for the establishing and constructing of toll bridges and operating, financing, and maintaining such bridges insofar as such powers and requirements are applicable to the acquisition of any toll bridge and its operation, financing, and maintenance. In so doing, they shall act in the same manner and under the same procedures as provided for establishing, constructing, operating, financing, and maintaining toll bridges insofar as such manner and procedures are applicable. Without limiting the generality of the above provisions, the department is hereby authorized to cause surveys to be made to determine the propriety of acquiring any such bridge and the rights-of-way necessary therefor, and other facilities necessary to carry out the provisions hereof; to issue, sell, redeem bonds or issue and exchange bonds with present holders of outstanding bonds of bridges being acquired under the provisions of this chapter and deposit and pay out of the proceeds of the bonds for the financing thereof, to impose, collect, deposit, and expend tolls therefrom; to secure and remit financial and other assistance in connection with the purchase thereof; and to carry insurance thereon.

[C71, 73, 75, 77, 79, 81, §313A.5]

**313A.6 Rules adopted — financial statements.**

The department, its officials, and all state officials are hereby authorized to perform such acts and make such agreements consistent with the law which are necessary and desirable in connection with the duties and powers conferred upon them regarding the construction, maintenance, and operation and insurance of toll bridges or the safeguarding of the funds and revenues required for such construction and the payment of the indebtedness incurred therefor. The department shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary for the administration and exercise of its powers and duties granted by this chapter, and shall prepare annual financial statements regarding the operation of such toll bridges which shall be made available for inspection by the public and by the holders of revenue bonds issued by the department under the provisions of this chapter at all reasonable times.

[C71, 73, 75, 77, 79, 81, §313A.6]

**313A.7 Resolution of public interest and necessity — revenue bonds.**

1. Whenever the department deems it to be in the best interest of the primary highway system that any new toll bridge be constructed upon any public highway and across any navigable river between this state and an adjoining state, the department shall adopt a resolution declaring that the public interest and necessity require the construction of such toll bridge and authorizing the issuance of revenue bonds in an amount sufficient for the purpose of obtaining funds for such construction. The issuance of bonds as provided in this chapter for the construction, purchase, or acquisition of more than one toll bridge may, at the discretion of the department, be included in the same authority and issue or issues of bonds, and the department is hereby authorized to pledge the gross revenues derived from the operation of any such toll bridge under its control and jurisdiction to pay the principal of and interest on bonds issued to pay the cost of purchasing, acquiring, or constructing any such toll bridge financed under the provisions of this chapter. The department is hereby

granted wide discretion, in connection with the financing of the cost of any toll bridge, to pledge the gross revenues of a single toll bridge for the payment of bonds and interest thereon issued to pay the cost of such bridge and to pledge the gross revenues of two or more toll bridges to pay bonds issued to pay the cost of one or more toll bridges and interest thereon as long as the several bridges included herein are not more than ten miles apart.

2. In addition, if the department in its discretion determines that the construction of a toll bridge cannot be financed entirely through revenue bonds and that the construction of such toll bridge is necessary, the department may advance funds from the primary highway fund to pay for that part of the construction cost, including the cost of approaches and all incidental costs, which is not paid out of the proceeds of revenue bonds. However, said funds advanced from the primary highway fund shall be used only to pay the construction cost, including the cost of approaches and all incidental costs, with respect to that part of the bridge which is or will be located within the state of Iowa. After all revenue bonds and interest thereon issued and sold pursuant to this chapter and payable from the tolls and revenues of said bridge have been fully paid and redeemed or funds sufficient to pay said bonds and interest, including premium, if any, have been set aside and pledged for that purpose, then such amount advanced from the primary road fund shall be repaid to the primary road fund from the tolls and revenues of said bridge before said bridge is made a toll free bridge under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.7]

Referred to in §313A.16

#### **313A.8 Right-of-way secured.**

Whenever the department shall authorize the construction of any toll bridge, the department is empowered to secure rights-of-way therefor and for approaches thereto by gift or purchase or by condemnation in the manner provided by law for the taking of private property for public purposes.

[C71, 73, 75, 77, 79, 81, §313A.8]

#### **313A.9 Consent to cross state property.**

The right-of-way is hereby given, dedicated, and set apart upon which to locate, construct, and maintain toll bridges or approaches thereto or other highway crossings, and transportation facilities thereof or thereto, through, over or across any of the lands which are now or may be the property of this state, including highways; and through, over, or across the streets, alleys, lanes, and roads within any city, county, or other political subdivision of the state. If any property belonging to any city, county or other political subdivision of the state is required to be taken for the construction of any such bridge or approach thereto or should any such property be injured or damaged by such construction, such compensation therefor as may be proper or necessary and as shall be agreed upon may be paid by the department to the particular county, city or other political subdivision of the state owning such property, or condemnation proceedings may be brought for the determination of such compensation.

[C71, 73, 75, 77, 79, 81, §313A.9]

#### **313A.10 Resolution precedent to action.**

Before the department shall proceed with any action to secure right-of-way or with the construction of any toll bridge under the provisions of this chapter, it shall first pass a resolution finding that public interest and necessity require the acquisition of right-of-way for and the construction of such toll bridge. Such resolution shall be conclusive evidence of the public necessity of such construction and that such property is necessary therefor. To aid the department in determining the public interest, a public hearing shall be held in the county or counties of this state in which any portion of a bridge is proposed to be located. Notice of such hearing shall be published at least once in a newspaper published and having a general circulation in the county or counties where such bridge is proposed to be located, not less than twenty days prior to the date of the hearing. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge,

or to condemn any existing bridge, such condemnation shall be carried out in a manner consistent with the provisions of chapters 6A and 6B. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public or municipal corporation, county, city, district or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use or purpose to which such property has been so appropriated or dedicated, or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated, and any condemnation award may be paid from the proceeds of revenue bonds issued under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.10]

#### **313A.11 Payment from available funds.**

If the department determines that any toll bridge should be constructed or acquired under its authority, all costs thereof, including land, right-of-way, surveying, engineering, construction, legal and administrative expenses, and fees of any fiscal adviser, shall be paid out of any funds available for payment of the cost of the bridge.

[C71, 73, 75, 77, 79, 81, §313A.11]

#### **313A.12 Revenue bonds.**

1. The department is hereby authorized and empowered to issue revenue bonds for the acquisition, purchase, or construction of any interstate bridge. Any and all bonds issued by the department for the acquisition, purchase, or construction of any interstate bridge under the authority of this chapter shall be issued in the name of the department and shall constitute obligations only of the department, shall be identified by some appropriate name, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon are secured by a direct charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular bridge for the acquisition, purchase, or construction of which the bonds are issued and of such other bridge or bridges as may have been pledged therefor, and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Iowa. When it is determined by the department to be in the best public interest, any bonds issued under the provisions of this chapter may be refunded and refinanced at a lower rate, the same rate or a higher rate or rates of interest and from time to time as often as the department shall find it to be advisable and necessary so to do. Bonds issued to refund other bonds theretofore issued by the department under the provisions of this chapter may either be sold in the manner hereinafter provided and the proceeds thereof applied to the payment of the bonds being refunded, or the refunding bonds may be exchanged for and in payment and discharge of the bonds being refunded. The refunding bonds may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds may be exchanged in part or sold in part in installments at different times or at one time. The refunding bonds may be sold at any time on, before, or after the maturity of any of the outstanding bonds to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds, except that the principal amount of the refunding bonds may exceed the principal amount of the bonds to be refunded to the extent necessary to pay any premium due on the call of the bonds to be refunded or to fund interest in arrears or about to become due. The gross revenues of any toll bridge pledged to the payment of the bonds being refunded, together with the unpledged gross revenues of any other toll bridges located within ten miles of said bridge, may be pledged by the department to pay the principal of and interest on the refunding bonds and to create and maintain reserves therefor.

2. The department is empowered to receive and accept funds from the state of Iowa or the federal government or any other state upon a cooperative or other basis for the acquisition, purchase, or construction of any interstate bridge authorized under the provisions of this

chapter and is empowered to enter into such agreements with the state of Iowa or any other state or the federal government as may be required for the securing of such funds.

3. The department is authorized and empowered to spend from annual primary road fund receipts sufficient moneys to pay the cost of operation, maintenance, insurance, collection of tolls and accounting therefor and all other charges incidental to the operation and maintenance of any toll bridge administered under the provisions of this chapter. However, said annual primary road fund receipts shall be used only to pay such costs and charges with respect to that part of the bridge which is located within the state of Iowa.

4. The department may also issue its revenue bonds to pay all or any part of the cost of acquiring two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, of completing the partially constructed bridge and of dismantling the bridge which it is designed to replace, and to impose and collect tolls on all of such bridges and to pledge the revenues derived therefrom to the payment of the bonds issued to finance such project. The department may also issue its revenue bonds to pay all or any part of the cost of reconstructing, completing, improving, repairing, or remodeling any interstate bridge or partially constructed bridge, impose and collect tolls, and pledge the bridge revenues to the payment of said bonds.

[C71, 73, 75, 77, 79, 81, §313A.12]

2017 Acts, ch 54, §76

Referred to in §313A.16

### **313A.13 Sale and exchange or retirement of bonds.**

The revenue bonds may be issued and sold or exchanged by the department from time to time and in such amounts as it deems necessary to provide sufficient funds for the acquisition, purchase, or construction of any such bridge and to pay interest on bonds issued for the construction of any toll bridge during the period of actual construction and for six months after completion thereof. The department is hereby authorized to adopt all necessary resolutions prescribing the form, conditions, and denominations of the bonds, the maturity dates therefor, and the interest rate or rates which the bonds shall bear. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds shall be payable at such place or places within or without the state of Iowa as determined by the department, and the bonds may contain provisions for registration as to principal or interest, or both. Interest shall be payable at such times as determined by the department and the bonds shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds and any coupons attached thereto shall be signed by such officials of the department as the department may direct. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the payment of the principal thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the provisions of this chapter shall have all the qualities of negotiable instruments under the laws of the state of Iowa. All bonds issued and sold hereunder shall be sold to the highest and best bidder on the basis of sealed proposals received pursuant to a notice specifying the time and place of sale and the amount of bonds to be sold which shall be published at least once not less than seven days prior to the sale in a newspaper published in the state of Iowa and having a general circulation in said state. None of the provisions of chapter 75 shall apply to bonds issued under the provisions of this chapter but such bonds shall be sold upon terms of not less than par plus accrued interest. The department may reject any or all bids received at the public sale and may thereafter sell the bonds at private sale on such terms and conditions as it deems most advantageous to its own interests, but not at a price below that of the best bid received at the advertised sale. The department may enter into contracts and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except

that any bonds issued hereunder to the United States or any agency thereof need not first be offered at public sale. The department may also provide for the private sale of bonds issued under the provisions of this chapter to the state treasurer of Iowa upon such terms and conditions as may be agreed upon, and in such event said bonds need not first be offered at public sale. Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by such official as the department may direct, may be issued and delivered until the definitive bonds are executed and available for delivery.

[C71, 73, 75, 77, 79, 81, §313A.13]

#### **313A.14 Proceeds in trust fund.**

The proceeds from the sale of all bonds authorized and issued under the provisions of this chapter shall be deposited by the department in a fund designated as the construction fund of the particular interstate bridge or bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the acquisition, purchase, or construction of such interstate bridge or bridges and expenses incident thereto, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise and the department may agree with the purchaser of said bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the interstate bridge or bridges for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged may be invested in obligations issued or guaranteed by the United States or by any person controlled by or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States; provided, however, that the department may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment and such provisions shall thereupon be binding upon the department and all officials having anything to do with such investment. Any surplus which may exist in said construction fund shall be applied to the retirement of bonds issued for the acquisition, purchase, or construction of any such interstate bridge by purchase or call and, in the event such bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus. All bonds so retired by purchase or call shall be immediately canceled.

#### **313A.15 Toll revenue fund.**

All tolls or other revenues received from the operation of any toll bridge acquired, purchased, or constructed with the proceeds of bonds issued and sold hereunder shall be deposited by the department to the credit of a special trust fund to be designated as the toll revenue fund of the particular toll bridge or toll bridges producing such tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds.

[C71, 73, 75, 77, 79, 81, §313A.15]

#### **313A.16 Funds transferred to place of payment.**

From the money so deposited in each separate construction fund as hereinabove provided, at the direction of the department there shall be transferred to the place or places of payment

named in said bonds such sums as may be required to pay the interest as it becomes due on all bonds issued and outstanding for the construction of such particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The department shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds for which said revenues have been pledged such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest and principal become due. All funds so transferred for the payment of principal of or interest on bonds issued for any particular toll bridge or toll bridges shall be segregated and applied solely for the payment of said principal or interest. The proceedings authorizing the issuance of the bonds may provide for the setting up of a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of such fund in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such toll revenue fund to the retirement of such bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department. The moneys remaining in each separate toll revenue fund after providing the amount required for the payment of principal of and interest on bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds. In the event the proceedings authorizing the issuance of said bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other purposes incidental to the construction, operation, and maintenance of any toll bridge as the department may determine and as permitted under sections 313A.7 and 313A.12.

[C71, 73, 75, 77, 79, 81, §313A.16]

#### **313A.17 Warrants for payment.**

Warrants for payments to be made on account of such bonds shall be drawn by the department on duly approved vouchers. Moneys required to meet the costs of purchase or construction and all expenses and costs incidental to the acquisition, purchase, or construction of any particular interstate bridge or to meet the costs of operating, maintaining, and repairing the same, shall be paid by the department from the proper fund therefor upon duly approved vouchers. All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund upon which said interest accrues.

[C71, 73, 75, 77, 79, 81, §313A.17]

#### **313A.18 Depositaries or paying agents.**

The department may provide in the proceedings authorizing the issuance of bonds or may otherwise agree with the purchasers of bonds regarding the deposit of all moneys constituting the construction fund and the toll revenue fund and provide for the deposit of such money at such times and with such depositaries or paying agents and upon the furnishing of such security as may meet with the approval of the purchasers of such bonds.

[C71, 73, 75, 77, 79, 81, §313A.18]

#### **313A.19 Expenses of department.**

Notwithstanding any provision contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge may be used to defray any expenses incurred by the department in connection with and incidental to the issuance and sale of bonds for the acquisition, purchase, or construction of any such toll bridge including expenses for the preparation of surveys and estimates, legal, fiscal and administrative expenses, and the making of such inspections and examinations as may be required by the purchasers of such bonds; provided, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and toll or other revenues for the purposes herein specified.

[C71, 73, 75, 77, 79, 81, §313A.19]

**313A.20 No diminution of duties while bonds outstanding.**

While any bonds issued by the department remain outstanding, the powers, duties or existence of the department or of any other official or agency of the state shall not be diminished or impaired in any manner that will affect adversely the interests and rights of the holders of such bonds. The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee or imposed upon the department or its officers, agents, and employees in connection with the acquisition, purchase, construction, maintenance, operation, and insurance of any bridge and in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of any bridge and in connection with the deposit, investment, and disbursement of the proceeds received from the issuance of bonds; provided, that the enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

[C71, 73, 75, 77, 79, 81, §313A.20]

**313A.21 Insurance or indemnity bond.**

When any toll bridge authorized hereunder is being built by the department it may carry or cause to be carried such an amount of insurance or indemnity bond or bonds as protection against loss or damage as it may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in whole to any toll bridge. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to any such toll bridge shall be used for the purpose of repairing or rebuilding of any such toll bridge as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge by reason of any interruption in the use of such toll bridge from any cause whatever, and the proceeds of such insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the said fund. Such insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of such toll bridge during any period of time that may be determined upon by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in said proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter and the purchase and carrying of insurance as authorized by this chapter shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in said proceedings.

[C71, 73, 75, 77, 79, 81, §313A.21]

**313A.22 Toll charges fixed by department.**

The department is hereby empowered to fix the rates of toll and other charges for all interstate bridges acquired, purchased, or constructed under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions may warrant. The department in establishing toll charges shall give due consideration to the amount required annually to pay the principal of and interest on bonds payable from the revenues thereof. The tolls and charges shall be at all times fixed at rates sufficient to pay the bonds and interest as they mature, together with the creation and maintenance of bond reserve funds and other funds as established in the proceedings authorizing the issuance of the bonds, for any particular toll bridge. The amounts required to pay the principal of and interest on bonds shall constitute a charge and lien on all such tolls and other revenues and interest thereon and sinking funds created therefrom received from the use and operation of said toll bridge, and the department is hereby authorized to pledge a sufficient amount of said tolls and revenues for the payment of bonds issued under the provisions of this chapter and interest thereon and to create and maintain a reserve therefor. Such tolls and revenues,

together with the interest earned thereon, shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as such bonds or any of them are outstanding and unpaid.

Whenever a proposed interstate bridge is to be acquired, purchased or constructed, any city, county, or other political subdivision located in relation to such facility so as to benefit directly or indirectly thereby, may, either jointly or separately, at the request of the department advance or contribute money, rights-of-way, labor, materials, and other property toward the expense of acquiring, purchasing or constructing the bridge, and for preliminary surveys and the preparation of plans and estimates of cost therefor and other preliminary expenses. Any such city, county, or other political subdivision may, either jointly or separately, at the request of the department advance or contribute money for the purpose of guaranteeing the payment of interest or principal on the bonds issued by the department to finance the bridge. Appropriations for such purposes may be made from any funds available, including county road funds received from or credited by the state, or funds obtained by excess tax levies made pursuant to law or the issuance of general obligation bonds for this purpose. Money or property so advanced or contributed may be immediately transferred or delivered to the department to be used for the purpose for which contribution was made. The department may enter into an agreement with a city, county, or other political subdivision to repay any money or the value of a right-of-way, labor, materials or other property so advanced or contributed. The department may make such repayment to a city, county, or other political subdivision and reimburse the state for any expenditures made by it in connection with the bridge out of tolls and other revenues for the use of the bridge.

The department shall certify the agreement for the sale to the state executive council, with a description of the land and the terms of the sale and the state executive council may execute the deed and deliver it to the grantee.

The department may accept the highest and best bid, and certify the agreement for the sale to the state executive council, with a description of the land and the terms of the sale and the state executive council shall execute the deed and deliver it to the grantee.

2. Except as may be otherwise specifically provided by statute, all of the other provisions of this chapter shall govern the issuance and sale of revenue bonds issued under this section, the execution thereof, the disbursement of the proceeds of issuance thereof, the interest rate or rates thereon, their form, terms, conditions, covenants, negotiability, denominations, maturity date or dates, the creation of special funds or accounts safeguarding and providing

No taxes, appropriations or other funds of the state of Iowa may be pledged for or used to pay such bonds or the interest thereon, but any such bonds shall be payable solely and only as to both principal and interest from the tolls and revenues derived from the operation of any toll bridge or toll bridges acquired, purchased, or constructed under this chapter, and the sole remedy for any breach or default of the terms of any such bonds or proceedings for their issuance shall be a proceeding either in law or in equity by suit, action or mandamus to enforce and compel performance of the duties required by this chapter and the terms of the resolution under which such bonds are issued.

The statements shall be on standard forms prepared by the department and shall be filed with the agency prior to the letting at which the bidder expects to bid. The agency may, in advance of the letting, notify the bidder as to the amount and the nature of the work for which the bidder is deemed qualified to bid. A bidder who is prequalified under this subsection by the department shall be deemed qualified for a highway, bridge, or culvert contract letting by any other agency and shall submit proof of the prequalification in a manner determined by the department if required to do so by the agency.

2. Notwithstanding any other provision of law to the contrary, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert and that has a cost in excess of the applicable threshold in section 73A.18, 262.34, 297.7, 309.40, 310.14, or 313.10, as modified by the bid threshold subcommittee pursuant to section 314.1B, shall be advertised and let for bid, except such public improvements that involve emergency work pursuant to section 309.40A, 313.10, or 384.103, subsection 2. The agency may reject any or all bids. d. Beginning July 1, 2006, the subcommittee shall make adjustments to the competitive quotation threshold amounts in section 26.14 for vertical infrastructure in accordance with the methodology of paragraph "b".

e. After 2012, the subcommittee shall adjust the competitive quotation threshold amounts in section 26.14 at the same time and by the same percentage as adjustments are made to the competitive bid threshold.

3. *Review — publication.* Each subcommittee shall meet to conduct the review and make the adjustments described in this section on or before August 1 of every other year, or of every year if determined necessary by the subcommittee. By September 1 of each year in which a subcommittee makes adjustments in the bid or quotation thresholds, the director shall cause an advisory notice to be published in the Iowa administrative bulletin and in a newspaper of general circulation in this state, stating the adjusted bid and quotation thresholds to be in effect on January 1 of the following year, as established by the subcommittees under this section.

#### **314.21 Living roadway trust fund.**

1. *a.* The living roadway trust fund is created in the office of the treasurer of state. The moneys in this fund shall be used exclusively for the development and implementation of integrated roadside vegetation plans. Except as provided in subsections 2 and 3, the moneys shall only be expended for areas on or adjacent to road, street, and highway right-of-ways. The state department of transportation in consultation with the department of natural resources shall establish standards relating to the type of projects available for assistance.

*b.* A city or county which has a project which qualifies for the use of these funds shall submit a request for the funds to the state department of transportation. A city or county may, at its option, apply moneys allocated for use on city or county projects under this subsection toward qualifying projects on the primary road system. The state department of transportation in consultation with the department of natural resources shall determine which projects qualify for the funds and which projects shall be funded if the requests for the funds exceed the availability of the funds. In ranking applications for funds, the department shall consider the proportion of political subdivision matching funds to be provided, if any, and the proportion of private contributions to be provided, if any. In considering the proportion of political subdivision matching funds provided, the department shall consider only those moneys which are in addition to those which the political subdivision has historically provided toward such projects. Funds allocated to the cities, the counties, and the department which are not programmed by the end of each fiscal year shall be available for redistribution to any eligible applicant regardless of the original allocation of funds. Such funds shall be awarded for eligible projects based upon their merit in meeting the program objectives established by the department under section 314.22. The department shall submit a report of all projects funded in the previous fiscal year to the governor and to the general assembly on January 15 of each year.

*c.* Beginning April 1, 1990, the moneys in the living roadway trust fund shall be allocated between the state, counties, and cities in the same proportion that the road use tax funds are allocated under section 312.2, subsection 1, paragraphs "a", "b", "c", and "d". However, after April 1, 1990, a city or county shall not be eligible to receive moneys from the living roadway trust fund unless the city or county has an integrated roadside vegetation management plan in place consistent with the objectives in section 314.22.

2. *a.* The department may authorize projects which provide grants or loans to local governments and organizations which are developing community entryway enhancement and other planting demonstration projects. Planning, public education, installation, and

initial maintenance planning and development may be determined by the department to be eligible activities for funding under this paragraph. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

b. The department may authorize projects which provide grants or loans to local governments for the purchase of specialized equipment and special staff training for the establishment of alternative forms of roadside vegetation. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

c. The department, in order to create greater visual effect, shall investigate alternatives for concentrating plantings at strategic locations to gain a greater visual impact and appeal as well as stronger scenic value. Equal attention shall be given to providing safe and effective habitats for wildlife which can coexist with highways.

d. The department may authorize projects which provide grants or loans to local jurisdictions for increased protection through the use of easements, fee title acquisition, covenants, zoning ordinances, or other provisions for protection of vegetation and desirable environment adjacent to the right-of-way. Off-right-of-way projects shall emphasize vegetation protection or enhancement, scenic and wildlife values, erosion control and enhancement of vegetation management projects within the right-of-ways.

3. a. Moneys allocated to the state under subsection 1 shall be expended as follows:

(1) Fifty thousand dollars annually to the department for the services of the integrated roadside vegetation management coordinator and support.

(2) One hundred thousand dollars annually for education programs, research and demonstration projects, and vegetation inventories and strategies, under section 314.22, subsections 5, 6, and 8.

### **315.11 Additional factors and requirements.**

In addition to other effects and factors to be considered under section 315.5, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

1. The impact of the proposed project on other businesses in competition with the business being considered for assistance. The department shall make a good faith effort to

identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. In determining the impact on businesses in competition with the business being considered for assistance, jobs created as a result of other jobs being displaced elsewhere in the state shall not be considered direct jobs created.

2. The economic impact to the state of the proposed project. In measuring the economic impact the department shall award more points for the following:

- a. A business with a greater percentage of sales out-of-state or of import substitution.
- b. A business with a higher proportion of in-state suppliers.
- c. A project which would provide greater diversification of the state economy.
- d. A business with fewer in-state competitors.
- e. A potential for future job growth.
- f. A project which is not a retail operation.

3. The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.

4. If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.

5. If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.

6. To be eligible for assistance a business shall provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.

7. All known required environmental permits must be granted and regulations met before moneys are released.

### **316.3 Declaration of policy — authorization — divisibility of application.**

1. The purpose of this chapter is to establish a uniform policy for the fair and equitable treatment of persons displaced as a result of federally assisted programs or projects in order that the persons shall not suffer disproportionate injuries as a result of programs or projects designed for the benefit of the public as a whole and to minimize the hardship of displacement on the persons. The general assembly declares that relocation assistance for persons displaced by programs and projects is a necessary and essential part of the programs and projects. This chapter shall be known and may be cited as the “*Relocation Assistance Law*.”

2. If a displacing agency subject to the provisions of the federal Uniform Relocation Act, or if another entity required or electing to provide any of the programs or payments authorized by this chapter, undertakes a project which results in the acquisition of real property or in a person being displaced from the person’s home, business, or farm, the displacing agency or other entity may provide relocation assistance, and make relocation payments to the displaced person and do the other acts and follow the procedures and practices as may be necessary to comply with the provisions of the federal Uniform Relocation Act and this chapter. Displacing agencies may provide all or a part of the program and payments authorized under this chapter to persons displaced by any program or project regardless of the funding source. However, to the extent a program or a payment is provided, the program or payment shall be provided on a uniform basis to all displaced persons.

3. If a provision, clause, or phrase of this chapter, or application of this chapter to a person or circumstance is adjudged invalid by any court of competent jurisdiction, the judgment shall not invalidate the remainder of the chapter, and the application of the chapter to other persons or circumstances shall not be affected by the adjudication.

### **316.4 Moving and related expenses.**

1. If a program or project undertaken by a displacing agency will result in the displacement of a person, the displacing agency shall make a payment to the displaced person, upon proper application as approved by the displacing agency, for actual reasonable and necessary expenses incurred in moving the person, the person’s family, business, farm operation, or other personal property subject to rules and limits established by the department. The payment may also provide for actual direct losses of tangible personal property, purchase of substitute personal property, business reestablishment expenses, storage expenses, and expenses incurred in searching for a replacement business or farm.

2. A displaced person eligible for payments under subsection 1, who is displaced from a dwelling and who elects to accept the payments authorized by this subsection in lieu of the payments authorized by subsection 1, may receive a moving expense and dislocation allowance determined according to a schedule established by the department.

3. A displaced person, as defined in section 316.1, subsection 2, paragraph “a”, eligible for payments under subsection 1, who is displaced from the person’s place of business or farm operation and who is eligible, may elect to accept the payment authorized by this subsection in lieu of the payment authorized by subsection 1. The payment shall consist of a fixed payment in an amount to be determined according to criteria established by the department. A person whose sole business at the displaced dwelling is the rental of the real property does not qualify for a payment under this subsection.

**316.5 Replacement housing for homeowner.**

1. In addition to payments otherwise authorized by this chapter, the displacing agency shall make an additional payment to a displaced person who is displaced from a dwelling actually owned and occupied by the displaced person for not less than one hundred eighty days immediately prior to the initiation of negotiations for the acquisition of the property. All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The additional payment shall include the following elements:

a. The amount, if any, which when added to the acquisition cost of the dwelling acquired by the displacing agency, equals the reasonable cost of a comparable replacement dwelling.

b. The amount, if any, which will compensate the displaced person for any increased interest costs and other debt service costs which the displaced person is required to pay for financing the acquisition of a comparable replacement dwelling. The amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on the dwelling for not less than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

c. Actual, reasonable, and necessary expenses incurred by the displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of a replacement dwelling, but not including prepaid expenses.

2. The additional payment authorized by this section shall be made only to a displaced person who purchases and occupies a decent, safe, and sanitary replacement dwelling within one year after the date on which the person receives final payment from the displacing agency of all costs of the acquired dwelling, or on the date on which the obligation of the displacing agency under section 316.8 is met, whichever is the later, except that the displacing agency may extend the eligibility period for good cause. If the period is extended, the payment under this section shall be based on the costs of relocating the person to a comparable replacement dwelling within one year of the applicable date.

**316.6 Replacement housing for tenants and certain others.**

In addition to amounts otherwise authorized by this chapter, the displacing agency shall make a payment to or for a displaced person, displaced from a dwelling, not eligible to receive a payment under section 316.5, which dwelling was actually and lawfully occupied by the displaced person for not less than ninety days immediately prior to the initiation of negotiations for acquisition of the dwelling, or as a result of the written order of the displacing agency to vacate the real property. All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The displaced person may elect either of the following:

1. The amount necessary to enable the displaced person to lease or rent a comparable replacement dwelling. At the discretion of the displacing agency, a payment under this subsection may be made in periodic installments. Computations of a payment under this subsection to a low-income displaced person for a comparable replacement dwelling shall take into account the person's income.

2. The amount necessary to enable the person to make a down payment, including incidental expenses described in section 316.5, subsection 1, paragraph "c", on the purchase of a decent, safe, and sanitary dwelling. The person may, at the discretion of the displacing agency, be eligible under this subsection for the maximum payment allowed under subsection 1, except that, in the case of a displaced homeowner who has owned and occupied the displaced dwelling for at least ninety days but not more than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling, the payment shall not exceed the payment the person would otherwise have received under

section 316.5, subsection 1, had the person owned and occupied the displaced dwelling for one hundred and eighty days immediately prior to the initiation of the negotiations.

### **316.7 Relocation assistance advisory services.**

1. A displacing agency shall ensure that relocation assistance advisory services are made available to all persons displaced by the displacing agency. If the displacing agency determines that a person occupying property adjacent to the real property where the displacing activity occurs, is caused substantial economic injury as a result of the displacing activity, the displacing agency may offer the person relocation assistance advisory services.

2. The displacing agency shall cooperate to the maximum extent feasible with federal, state, or local agencies to ensure that the displaced persons receive the maximum assistance available to them.

3. Each relocation assistance advisory program required by subsection 1 shall include such measures, facilities, or services as may be necessary or appropriate in order to comply with the provisions of the federal Uniform Relocation Act and this chapter.

4. The displacing agency shall provide other advisory services to displaced persons in order to minimize hardships to the displaced persons in adjusting to relocation.

5. The displacing agency shall coordinate relocation activities with project work, and other planned or proposed governmental actions or displacing activities in the community or nearby areas which may affect the carrying out of relocation assistance programs.

### **316.8 Housing replacement by the displacing agency.**

1. If a project cannot proceed on a timely basis because comparable replacement dwellings are not available, and the displacing agency determines that such dwellings cannot otherwise be made available, the displacing agency may take such action as is necessary or appropriate to provide the dwellings by use of funds authorized for the program or project. The displacing agency may let contracts for the construction of the dwellings, approve plans and specifications for the building of the dwellings, and supervise, inspect, and approve the dwellings once constructed in order that the dwellings so constructed comply with the terms and conditions of this chapter. The displacing agency may under this section exceed the maximum amounts which may be paid under sections 316.5 and 316.6 on a case-by-case basis for good cause as determined in accordance with administrative rules adopted by the department.

2. A person shall not be required to move from the person's dwelling on or after July 1, 1971, on account of any program or project, unless the displacing agency is satisfied that a comparable replacement dwelling is available to the person.

89 Acts, ch 20, §12

Referred to in §316.5

### **316.9 Rules.**

1. The department shall adopt administrative rules pursuant to chapter 17A as necessary to effect the provisions of this chapter and to assure:

a. Compliance with the Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970, Pub. L. No. 91-646, as amended by the Uniform Relocation Act Amendments of 1987, Tit. IV, Pub. L. No. 100-17.

b. The payments authorized by this chapter are fair and reasonable and as uniform as practicable.

c. A displaced person who makes proper application for a payment authorized by this chapter is paid promptly after a move or, in hardship cases, is paid in advance.

2. A person aggrieved by a determination as to eligibility for assistance or a payment

authorized by this chapter, or the amount of a payment, upon application may have the matter reviewed.

3. Rules governing reviews shall provide for a prompt one-step uncomplicated fact-finding process. Such a review is an appeal of an agency action as defined in section 17A.2, subsection 2, and is not a contested case. The decision rendered shall be the displacing agency's final agency action.

**316.12 Payments to displaced persons not to be considered as income.**

Except for any federal or state law providing low-income housing assistance, a payment received by a displaced person under this chapter shall not be considered as income for the purpose of determining the eligibility or extent of eligibility of any person for assistance under any federal or state law or for the purposes of chapter 422.

**316.13 Administration.**

In order to prevent unnecessary expenses and duplications of functions, and to promote uniform and effective administration of relocation assistance programs for displaced persons, the displacing agency may enter into contracts with any individual, firm, association, or corporation for services in connection with the programs, or may carry out its functions through any governmental agency, political subdivision, or instrumentality having an established organization for conducting relocation assistance programs. If practicable, the services of state or local housing agencies, or other agencies having experience in the administration or conduct of similar housing assistance activities shall be used.

**316.14 Funding.**

Funds appropriated or otherwise available to any state agency for a program or project shall also be available to carry out the provisions of this chapter.

Payments and expenditures under this chapter for highway projects are incident to and arise out of the construction, maintenance, and supervision of public highways and streets, and, in the case of any federal-aid highway project, may be made by the department from the primary road fund and funds made available by the federal government for the purpose of carrying out this chapter. Payments made under this chapter may be made from the primary road fund in case of a primary road project only, and in other cases may be made from appropriate funds under the control of a political subdivision.

The department may do all things necessary to carry out the provisions of this chapter and to secure federal grants to make the payments required by this chapter, but the absence of federal aid to make such payments shall not discharge the obligation to make the payments. The department is authorized to pay all right-of-way and relocation assistance benefits in the full amount authorized by federal standards and rules. In order to avoid delays, payment for such benefits made in cooperation with the federal government may be advanced from the primary road fund.

### **321.20B Proof of security against liability — driving without liability coverage.**

1. a. Notwithstanding chapter 321A, which requires certain persons to maintain proof of financial responsibility, a person shall not drive a motor vehicle on the highways of this state unless financial liability coverage, as defined in section 321.1, subsection 24B, is in effect for the motor vehicle and unless the driver has in the motor vehicle the proof of financial liability coverage card issued for the motor vehicle, or if the vehicle is registered in another state, other evidence that financial liability coverage is in effect for the motor vehicle. A proof of financial liability coverage card may be produced in paper or electronic format. Acceptable electronic formats include electronic images displayed on a cellular telephone or any other portable electronic device that has a display screen with touch input or a miniature keyboard.

b. It shall be conclusively presumed that a motor vehicle driven upon a parking lot which is available to the public without charge or which is available to customers or invitees of a business or facility without charge was driven on the highways of this state in order to enter the parking lot, and this section shall be applicable to such a motor vehicle. As used in this section, “*parking lot*” includes access roads, drives, lanes, aisles, entrances, and exits to and from a parking lot described in this paragraph.

c. This subsection does not apply to the operator of a motor vehicle owned by or leased

to the United States, this state or another state, or any political subdivision of this state or of another state, or to a motor vehicle which is subject to section 325A.6.

2. a. An insurance company transacting business in this state shall issue to its insured owners of motor vehicles registered in this state a financial liability coverage card for each motor vehicle insured. Each financial liability coverage card shall identify the registration number or vehicle identification number of the motor vehicle insured and shall indicate the expiration date of the applicable insurance coverage. The financial liability coverage card shall also contain the name and address of the insurer or the name of the insurer and the name and address of the insurance agency, the name of the insured, and an emergency telephone number of the insurer or emergency telephone number of the insurance agency. An insurance company may issue a financial liability coverage card in either paper format or, if requested by the insured, electronic format.

b. The department shall adopt rules regarding the contents of a financial liability coverage card to be issued pursuant to this section.

(1) Notwithstanding the provisions of this section, a fleet owner who is issued a certificate of self-insurance pursuant to section 321A.34, subsection 1, is not required to maintain in each vehicle a financial liability coverage card with the individual registration number or the vehicle identification number of the vehicle included on the card. Such fleet owner shall be required to maintain a financial liability coverage card in each vehicle in the fleet including information deemed appropriate by the director.

(2) An association of individual members that is issued a certificate of self-insurance pursuant to section 321A.34, subsection 2, is required to maintain in each vehicle of an individual member a financial liability coverage card that complies with the provisions of this section and in addition contains information relating to the association and the association's certificate of self-insurance as is deemed appropriate by the director.

3. If the financial liability coverage for a motor vehicle which is registered in this state is canceled or terminated effective prior to the expiration date indicated on the financial liability coverage card issued for the vehicle, the person to whom the financial liability coverage card was issued shall destroy the card.

4. a. If a peace officer stops a motor vehicle registered in this state and the driver is unable to provide proof of financial liability coverage, the peace officer shall do one of the following:

(1) Issue a warning memorandum to the driver.

(2) Issue a citation to the driver.

(3) Issue a citation and remove the motor vehicle's license plates and registration receipt.

(a) Upon removing the license plates and registration receipt, the peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.

(b) The motor vehicle may be driven for a time period of up to forty-eight hours after receiving the citation solely for the purpose of removing the motor vehicle from the highways of this state, unless the driver's operating privileges are otherwise suspended. After receiving the citation, the driver shall keep the citation in the motor vehicle at all times while driving the motor vehicle as provided in this subparagraph, as proof of the driver's privilege to drive the motor vehicle for such limited time and purpose.

(4) (a) Issue a citation, remove the motor vehicle's license plates and registration receipt, and impound the motor vehicle. The peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.

(b) A motor vehicle which is impounded may be claimed by a person if the owner provides proof of financial liability coverage and proof of payment of any applicable fine and the costs of towing and storage for the motor vehicle. If the motor vehicle is not claimed within thirty days after impoundment, the motor vehicle may be treated as an abandoned vehicle pursuant to section 321.89.

(c) The holder of a security interest in a motor vehicle which is impounded pursuant to this subparagraph shall be notified of the impoundment within seventy-two hours of the

impoundment of the motor vehicle and shall have the right to claim the motor vehicle upon the payment of all fees. However, if the value of the vehicle is less than the security interest, all fees shall be divided equally between the lienholder and the political subdivision impounding the vehicle.

b. An owner or driver of a motor vehicle who is charged with a violation of subsection 1 and issued a citation under paragraph “a”, subparagraph (3) or (4), is subject to the following:

(1) An owner or driver who produces to the clerk of court, prior to the date of the individual’s court appearance as indicated on the citation, proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or, if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited, in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that such proof was provided and be subject to one of the following:

(a) If the person was cited pursuant to paragraph “a”, subparagraph (3), the owner or driver shall provide a copy of the receipt to the county treasurer of the county in which the motor vehicle is registered and the owner shall be assessed a fifteen dollar administrative fee by the county treasurer who shall issue new license plates and registration to the person after payment of the fee.

(b) If the person was cited pursuant to paragraph “a”, subparagraph (4), the owner or driver, after the owner provides proof of financial liability coverage to the clerk of court, may claim the motor vehicle after such person pays any applicable fine and the costs of towing and storage for the motor vehicle, and the owner or driver provides a copy of the receipt and the owner pays to the county treasurer of the county in which the motor vehicle is registered a fifteen dollar administrative fee, and the county treasurer shall issue new license plates and registration to the person.

(2) An owner or driver who is charged with a violation of subsection 1 and is unable to show that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited may do either of the following:

(a) Sign an admission of violation on the citation and remit to the clerk of court a scheduled fine as provided in section 805.8A, subsection 14, paragraph “f”, for a violation of subsection 1. Upon payment of the fine to the clerk of court of the county where the citation was issued, payment of a fifteen dollar administrative fee to the county treasurer of the county in which the motor vehicle is registered, and providing proof of payment of any applicable fine and proof of financial liability coverages to the county treasurer of the county in which the motor vehicle is registered, the treasurer shall issue new license plates and registration to the owner.

(b) Request an appearance before the court on the matter. If the matter goes before the court, and the owner or driver is found guilty of a violation of subsection 1, the court may impose a fine as provided in section 805.8A, subsection 14, paragraph “f”, for a violation of subsection 1, or the court may order the person to perform unpaid community service instead of the fine. Upon the payment of the fine or the entry of the order for unpaid community service, the person shall provide proof of payment or entry of such order and the county treasurer of the county in which the motor vehicle is registered shall issue new license plates and registration to the owner upon the owner providing proof of financial liability coverage and paying a fifteen dollar administrative fee to the county treasurer.

c. An owner or driver cited for a violation of subsection 1, who produces to the clerk of court prior to the date of the person’s court appearance as indicated on the citation proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, shall not be convicted of such violation and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

5. If the motor vehicle is not registered in this state and the driver is a nonresident, the peace officer shall do one of the following:

a. Issue a warning memorandum to the driver.

b. Issue a citation. An owner or driver who produces to the clerk of court prior to the date

of the person's court appearance as indicated on the citation proof that the financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that proof was provided, and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

6. This section does not apply to a motor vehicle identified in section 321.18, subsection 1, 2, 3, 4, 5, 6, or 8.

7. This section does not apply to a lienholder who has a security interest in a motor vehicle subject to the registration requirements of this chapter, so long as such lienholder maintains financial liability coverage for any motor vehicle driven or moved by the lienholder in which the lienholder has an interest.

8. This section does not apply to a motor vehicle owned by a motor vehicle dealer or wholesaler licensed pursuant to chapter 322.

1. *a.* If the vehicle to be registered is a specially constructed vehicle, reconstructed vehicle, street rod, replica vehicle, or foreign vehicle, such fact shall be stated in the application. A fee of ten dollars shall be paid by the person making the application upon issuance of a certificate of title by the county treasurer. For a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle subject to registration, the application shall be accompanied by a statement from the department authorizing the motor vehicle to be titled and registered in this state.

*b.* The department shall cause a physical inspection to be made of all specially constructed vehicles, reconstructed vehicles, street rods, and replica vehicles upon application for a certificate of title by the owner, to determine whether the motor vehicle complies with the definition of specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle in this chapter and to determine that the integral component parts are properly identified

and that the rightful ownership is established before issuing the owner the authority to have the motor vehicle registered and titled. The purpose of the physical inspection under this section is not to determine whether the motor vehicle is in a condition safe to operate.

c. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle shall apply for a certificate of title and registration for the vehicle at the county treasurer's office within thirty days of the inspection. For a foreign vehicle which has been registered outside this state, the owner shall surrender to the treasurer all registration plates, registration cards, and certificates of title, or if the vehicle to be registered is from a nontitle state, the evidence of foreign registration and ownership as may be prescribed by the department except as provided in subsection 2.

d. Upon completion of every specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle, the owner shall certify on a form prescribed by the department that such vehicle is in compliance with all equipment specifications required under this chapter.

2. Where in the course of operation of a vehicle registered in another state it is desirable to retain registration of said vehicle in such other state, such applicant need not surrender but shall submit for inspection said evidence of such foreign registration and the treasurer upon a proper showing shall register said vehicle in this state but shall not issue a certificate of title for such vehicle.

3. In the event an applicant for registration of a foreign vehicle for which a certificate of title has been issued is able to furnish evidence of being the registered owner of the vehicle to the county treasurer of the owner's residence, although unable to surrender such certificate of title, the county treasurer may issue a registration receipt and plates upon receipt of the required annual registration fee and the fee for new registration but shall not issue a certificate of title thereto. Upon surrender of the certificate of title from the foreign state, the county treasurer shall issue a certificate of title to the owner, or person entitled thereto, of such vehicle as provided in this chapter. The owner of a vehicle registered under this subsection shall not be required to obtain a certificate of title in this state and may transfer ownership of the vehicle to a motor vehicle dealer licensed under chapter 322 if, at the time of the transfer, the certificate of title is held by a secured party and the dealer has forwarded to the secured party the sum necessary to discharge the security interest pursuant to section 321.48, subsection 1.

4. A vehicle which does not meet the equipment requirements of this chapter due to the particular use for which it is designed or intended, may be registered by the department upon payment of appropriate fees and after inspection and certification by the department that the vehicle is not in an unsafe condition. A person is not required to have a certificate of title to register a vehicle under this subsection. If the owner elects to have a certificate of title issued for the vehicle, a fee of twenty dollars shall be paid by the person making the application upon issuance of a certificate of title. If the department's inspection reveals that the vehicle may be safely operated only under certain conditions or on certain types of roadways, the department may restrict the registration to limit operation of the vehicle to the appropriate conditions or roadways. This subsection does not apply to snowmobiles as defined in section 321G.1. Section 321.382 does not apply to a vehicle registered under this subsection which is operated exclusively by a person with a disability who has obtained a persons with disabilities parking permit as provided in section 321L.2, if the persons with disabilities parking permit is carried in or on the vehicle and shown to a peace officer on request.

### **321.24 Issuance of registration and certificate of title.**

1. Upon receipt of the application for title and payment of the required fees for a motor vehicle, trailer, or semitrailer, the county treasurer or the department shall, when satisfied as to the application's genuineness and regularity, and, in the case of a mobile home or manufactured home, that taxes are not owing under chapter 423 or 435, issue a certificate of title and, except for a mobile home or manufactured home, a registration receipt, and shall file the application, the manufacturer's or importer's certificate, the certificate of title, or other evidence of ownership, as prescribed by the department. The registration receipt shall be delivered to the owner and shall contain upon its face the date issued, the name and address of the owner, the registration number assigned to the vehicle, the amount of the fee paid, the type of fuel used, a description of the vehicle as determined by the department, and a form for notice of transfer of the vehicle. The name and address of any lessee of the vehicle shall not be printed on the registration receipt or certificate of title. Up to three owners may be listed on the registration receipt and certificate of title.

2. The county treasurer shall maintain in the county record system information contained on the registration receipt. The information shall be accessible by registration number and shall be open for public inspection during reasonable business hours. Copies the department requires shall be sent to the department in the manner and at the time the department directs.

3. The certificate of title shall contain upon its face the identical information required upon the face of the registration receipt. In addition, the certificate of title shall contain a statement of the owner's title, the title number assigned to the owner or owners of the vehicle, the name and address of the previous owner, and a statement of all security interests and encumbrances as shown in the application, upon the vehicle described, including the nature of the security interest, date of perfection, and name and mailing address of the secured party.

4. If the prior certificate of title is from another state and indicates that the vehicle was rebuilt, the new certificate of title and registration receipt shall contain the designation "REBUILT" printed on its face together with the name of the state issuing the prior title. The designation shall be retained on the face of all subsequent certificates of title and registration receipts for the vehicle.

5. If the prior certificate of title is from another state and indicates that the vehicle was junked, an Iowa junking certificate shall be issued according to section 321.52, subsections 2 and 3. If the prior certificate of title from another state indicates that the vehicle is salvaged and not rebuilt or is a salvage certificate of title, an Iowa salvage certificate of title shall be issued and a "SALVAGE" designation shall be retained on all subsequent Iowa certificates of title and registration receipts for the vehicle, unless the owner has surrendered the prior certificate of title and a salvage theft examination certificate, as provided under section 321.52, subsection 4, paragraph "c", and the salvage theft examination certificate was properly executed within thirty days of the date the owner was assigned the prior certificate of title. The department may require that subsequent Iowa certificates of title retain other states' designations which indicate that a vehicle had incurred prior damage. The department shall determine the manner in which other states' rebuilt, salvage, or other designations are to be indicated on Iowa titles.

6. If the prior certificate of title is from another state and indicates that the vehicle was returned to the manufacturer pursuant to a law of another state similar to chapter 322G, the new registration receipt and certificate of title, and all subsequent registration receipts and certificates of title issued for the vehicle, shall contain a designation indicating the vehicle was returned to the manufacturer. The department shall determine the manner in which other states' designations are to be indicated on Iowa registration receipts and certificates of title. The department may determine that a "REBUILT" or "SALVAGE" designation

supersedes the designation required by this subsection and include the “REBUILT” or “SALVAGE” designation on the registration receipt and certificate of title in lieu of the designation required by this subsection.

7. The certificate shall contain the name of the county treasurer or of the department and, if the certificate of title is printed, the signature of the county treasurer, the deputy county treasurer, or the department director or deputy designee. The certificate of title shall contain upon the reverse side a form for assignment of title or interest and warranty by the owner, for reassignments by a dealer licensed in this state or in another state if the state in which the dealer is licensed permits Iowa licensed dealers to similarly reassign certificates of title. However, titles for mobile homes or manufactured homes shall not be reassigned by licensed dealers. Notwithstanding section 321.1, subsection 17, as used in this subsection, “dealer” means every person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under this chapter.

8. The original certificate of title shall be delivered to the owner if there is no security interest. Otherwise the certificate of title shall be delivered by the county treasurer or the department to the person holding the first security interest. Delivery may be made using electronic means.

9. The county treasurer or the department shall maintain in the county or department records system information contained on the certificate of title. The information shall be accessible by title certificate number for a period of three years from the date of notification of cancellation of title or that a new title has been issued as provided in this chapter. Copies the department requires shall be sent to the department in the manner and at the time the department directs. The department shall designate a uniform system of title numbers to indicate the county of issuance.

10. A vehicle shall be registered for the registration year. A vehicle registered for the first time in this state shall be registered for the remaining unexpired months of the registration year and pay an annual registration fee prorated for the remaining unexpired months of the registration year plus a fee for new registration if applicable pursuant to section 321.105A. Except for a vehicle registered under chapter 326, a vehicle registered for the first time during the eleventh month of the owner’s registration year may be registered for the remaining unexpired months of the registration year as provided in this subsection or for the remaining unexpired months of the registration year and for the next registration year, upon payment of the applicable registration fees.

11. If the county treasurer or department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, or a junking certificate has been issued for the vehicle but a certificate of title will not be reissued under section 321.52, subsection 3, and the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, the county treasurer or department may register the vehicle but shall, as a condition of issuing a certificate of title and registration receipt, require the applicant to file with the department a bond in the form prescribed by the department and executed by the applicant, and either accompanied by the deposit of cash with the department or also executed by a person authorized to conduct a surety business in this state. The owner of a vehicle subject to the bond requirements of this subsection shall apply for a certificate of title and registration for the vehicle at the county treasurer’s office within thirty days of issuance of written authorization from the department. The bond shall be in an amount equal to one and one-half times the current value of the vehicle as determined by the department and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the certificate of title for the vehicle or on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, and any deposit accompanying it, shall be returned at the end of three years or earlier if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the department, unless the

department has been notified of the pendency of an action to recover on the bond. The department may authorize issuance of a certificate of title as provided in this subsection for a vehicle with an unreleased security interest upon presentation of satisfactory evidence that the security interest has been extinguished or that the holder of the security interest cannot be located to release the security interest as provided in section 321.50.

The card shall have plainly stamped or stenciled the registration number of the dealer from whom the vehicle was purchased and the date of delivery of the vehicle. In addition, a dealer licensed to sell new motor vehicles may attach the card to a new motor vehicle delivered by the dealer to the purchaser even if the vehicle was purchased from an out-of-state dealer and the card shall bear the registration number of the dealer that delivered the vehicle. A dealer shall not issue a card to a person known to the dealer to be in possession of registration plates which may be attached to the vehicle. A dealer shall not issue a card unless an application for registration and certificate of title has been made by the purchaser and a receipt issued to the purchaser of the vehicle showing the fee paid by the person making the application. Dealers’ records shall indicate the agency to which the fee is sent and the date the fee is sent. The dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of delivery of the vehicle. However, if the vehicle is subject to a security interest and has been offered for sale pursuant to section 321.48, subsection 1, the dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of the delivery of the vehicle to the purchaser.

2. The county treasurer may adjust the renewal or expiration date of vehicles when deemed necessary to equalize the number of vehicles registered in each twelve-month period or for the administrative efficiency of the county treasurer’s office. The adjustment shall be accomplished by delivery of a written notice to the vehicle owner of the adjustment

1. Application for renewal for a vehicle registered under this chapter shall be made on or after the first day of the month prior to the month of expiration of registration and up to and including the last day of the month following the month of expiration of registration. The registration shall be renewed upon payment of the appropriate annual registration fee. Application for renewal for a vehicle registered under chapter 326 shall be made on or after

the first day of the month prior to the month of expiration of registration and up to and including the last day of the month of expiration of registration.

2. On or before the fifteenth day of the eleventh month of a vehicle's registration year, the department shall create an electronic file and the county treasurer shall send a statement of fees due to the appropriate owner of record. After the department has generated the electronic file used to produce statements for a registration month, and before the fifteenth day of the month following expiration of a vehicle's registration year, the department shall create a subsequent electronic file and the county treasurer shall send a statement of fees due to the appropriate owner of record for any vehicle subsequently registered for that registration month. The statement shall be mailed or electronically transmitted to the most current address of record, showing information sufficient to identify the vehicle and a listing of the various fees as appropriate. Failure to receive a statement shall have no effect upon the accrual of penalty at the appropriate date.

3. Registration receipts issued for renewals shall have the word "renewal" imprinted thereon and, if the owner making a renewal application has been issued a certificate of title, the title number shall appear on the registration receipt. All registration receipts for renewals shall be typewritten or printed by other mechanical means. The applicant shall receive a registration receipt.

4. The county treasurer shall refuse to renew the registration of a vehicle registered to a person when notified by the department through the distributed teleprocessing network that the person has not paid restitution as defined under section 910.1, subsection 4, to a clerk of the court located within the state. Each clerk of court shall, on a daily basis, notify the department through the Iowa court information system of the full name and social security number of all persons who owe delinquent restitution and whose restitution obligation has been satisfied or canceled. This subsection does not apply to the transfer of a registration or the issuance of a new registration.

5. The county treasurer shall refuse to renew the registration of a vehicle registered to the applicant for renewal of registration if the applicant has failed to pay any local vehicle taxes due in that county on that vehicle or any other vehicle owned or previously owned by the applicant until such local vehicle taxes are paid.

6. *a.* The department or the county treasurer shall refuse to renew the registration of a vehicle registered to the applicant if the department or the county treasurer knows that the applicant has a delinquent account, charge, fee, loan, taxes, or other indebtedness owed to or being collected by the state, from information provided pursuant to sections 8A.504 and 421.17. An applicant may contest this action by initiating a contested case proceeding with the agency that referred the debt for collection pursuant to section 8A.504. The department of revenue and the department of transportation shall notify the county treasurers through the distributed teleprocessing network of persons who owe such a delinquent account, charge, fee, loan, taxes, or other indebtedness.

*b.* The county treasurer of the county of the person's residence and in which the person's vehicle is registered, in cooperation with the department of revenue, may collect delinquent taxes including penalties and interest owed to the state from a person applying for renewal of a vehicle registration. The applicant may remit full payment of the taxes including applicable penalties and interest, along with a processing fee of five dollars, to the county treasurer at the time of registration renewal. Upon full payment of the required taxes including applicable penalties and interest, the processing fee, and the vehicle registration fee, the county treasurer shall issue the registration to the person. A county treasurer collecting on behalf of the department of revenue shall update the vehicle registration records through the distributed teleprocessing network on a daily basis for all persons who have paid taxes pursuant to this subsection. A county treasurer shall forward all funds collected for the department of revenue to the department of revenue.

7. *a.* The department or the county treasurer shall refuse to renew the registration of a vehicle registered to an applicant if the department or the county treasurer knows that the applicant has not paid a civil penalty imposed on the applicant pursuant to section 321N.3, subsection 3. An applicant may contest this action by initiating a contested case

proceeding with the department. The department shall notify the county treasurers through the distributed teleprocessing network of persons who have not paid such civil penalties.

b. The county treasurer of the county of an applicant's residence and in which the applicant's vehicle is registered, in cooperation with the department, may collect a civil penalty imposed on the applicant pursuant to section 321N.3, subsection 3, when the applicant applies for renewal of a vehicle registration. The applicant may remit full payment of the civil penalty, along with a processing fee of five dollars, to the county treasurer at the time of registration renewal. Upon full payment of the civil penalty, the processing fee, and the vehicle registration fee, the county treasurer shall issue the registration to the applicant. A county treasurer collecting a civil penalty on behalf of the department pursuant to this subsection shall update the vehicle registration records through the distributed teleprocessing network on a daily basis for all applicants who have paid civil penalties pursuant to this subsection. A county treasurer shall forward all funds collected on behalf of the department to the department.

8. However, a county treasurer may renew the registration if the treasurer determines that an error was made by the county or city in identifying the vehicle involved in the parking violation or if the citation has been dismissed as against the owner of the vehicle pursuant to section 321.484. This subsection does not apply to the transfer of a registration or the issuance of a new registration. Notwithstanding section 28E.10, a county treasurer may utilize the department's vehicle registration and titling system to facilitate the purposes of this subsection.

9. When application is made for the renewal of a motor vehicle registration on or after December 1, 1982, the person in whose name the registration is recorded shall notify the county treasurer of the type of fuel used by the vehicle if the type of fuel used is different from that which is shown on the registration receipt. If a motor vehicle registration indicates that the vehicle uses or may use a special fuel as defined in chapter 452A the county treasurer shall issue a special fuel user identification sticker. The person who owns or controls the vehicle shall affix the sticker in a prominent place on the vehicle adjacent to the place where the special fuel is delivered into the motor vehicle fuel supply tank.

10. a. The clerk of the district court shall notify the county treasurer of any delinquent court debt, as defined in section 602.8107, which is being collected by the private collection designee pursuant to section 602.8107, subsection 3, or the county attorney pursuant to section 602.8107, subsection 4. The county treasurer shall refuse to renew the vehicle registration of the applicant upon such notification from the clerk of the district court in regard to such applicant.

b. If the applicant enters into or renews an installment agreement as defined in section 602.8107, that is satisfactory to the private collection designee, the county attorney, or the county attorney's designee, the private collection designee, county attorney, or a county attorney's designee shall provide the county treasurer with written or electronic notice of the installment agreement within five days of entering into the installment agreement. The county treasurer shall temporarily lift the registration hold on an applicant for a period of ten days if the treasurer receives such notice in order to allow the applicant to register a vehicle for the year. If the applicant remains in compliance with the installment agreement entered into with the private collection designee or the county attorney or the county attorney's designee, subsequent lifts of registration holds shall be granted without additional restrictions.

The fee for a replacement plate or pair of plates other than a replacement of a special plate issued pursuant to section 321.60 is five dollars. The fee for replacement of a special plate issued pursuant to section 321.60 is forty dollars. When the owner has furnished information required by the department and paid the proper fee, a duplicate, substitute, or new registration card, plate, or pair of plates may be issued. The county treasurer or the department may waive the fee for a replacement plate if the plate is lost during a documented accident.

2. a. If a certificate of title is lost or destroyed, the owner or lienholder shall apply for a replacement copy of the original certificate of title. The owner or lienholder of a motor vehicle may also apply for a replacement copy of the original certificate of title upon surrender of the original certificate of title with the application. The application shall be made to the department or county treasurer who issued the original certificate of title. The application shall be signed by the owner or lienholder and accompanied by a fee of twenty dollars.

The replacement copy shall be clearly marked "replacement" and shall include security interests and liens. When a replacement copy has been issued, the previous certificate is void. The department or county treasurer is not authorized to refund fees collected for a replacement title under this section or section 321.52A.

c. If a security interest noted on the face of an original certificate of title was released by the lienholder on a separate form pursuant to section 321.50, subsection 5, and the signature of the lienholder, or the person executing the release on behalf of the lienholder, is notarized, but the lienholder has not delivered the original certificate to the appropriate

The credit shall be computed on the basis of the number of months remaining in the registration year, rounded to the nearest whole dollar. The credit shall be subject to the following limitations:

a. The credit shall be claimed within six months from the date the vehicle for which credit is granted was sold, traded, transferred, or junked. After six months, all credits shall be disallowed.

b. Any credit granted to the owner of a vehicle which has been sold, traded, transferred, or junked may only be claimed by that person toward the annual registration fee for another vehicle purchased and the credit may not be sold, transferred, or assigned to any other person.

c. When the amount of the credit is computed to be an amount of less than ten dollars, a credit shall be disallowed.

For a leased vehicle, the lessor licensed pursuant to chapter 321F or the lessee may file an affidavit as provided in this subsection certifying that the lease has expired or been terminated and the date that the leased vehicle was surrendered to the lessor.

6. An applicant for a new registration for a vehicle transferred to the applicant by a spouse, parent, or child of the applicant, or by operation of law upon inheritance, devise or bequest, from the applicant's spouse, parent, or child, or by a former spouse pursuant to a decree of dissolution of marriage, is entitled to a credit to be applied to the annual registration fee for the transferred vehicle. A credit shall not be allowed unless the vehicle to which the credit applies is registered within the time specified under subsection 1. The credit shall be computed on the basis of the number of unexpired months remaining in the registration year of the former owner computed from the date the vehicle was transferred, computed to the nearest whole dollar. If a motor vehicle is leased and the lessee purchases the vehicle upon termination of the lease, the lessor shall, upon claim by the lessee with the lessor within six months of the purchase, assign the annual registration fee credit and registration plates for the leased motor vehicle to the lessee. Credit shall be applied as provided in subsection 3.

### **321.47 Transfers by operation of law.**

1. If ownership of a vehicle is transferred by operation of law upon inheritance, devise or bequest, dissolution decree, order in bankruptcy, insolvency, replevin, foreclosure or execution sale, abandoned vehicle sale, or when the engine of a motor vehicle is replaced by another engine, or a vehicle is sold or transferred to satisfy an artisan's lien as provided in chapter 577, a landlord's lien as provided in chapter 570, a storage lien as provided in chapter 579, a judgment in an action for abandonment of a manufactured or mobile home as provided in chapter 555B, upon presentation of an affidavit relating to the disposition of a valueless mobile, modular, or manufactured home as provided in chapter 555C, or repossession is had upon default in performance of the terms of a security agreement, the county treasurer in the transferee's county of residence or, in the case of a mobile home or manufactured home, the county treasurer of the county where the mobile home or manufactured home is located, upon the surrender of the prior certificate of title or the manufacturer's or importer's certificate, or when that is not possible, upon presentation of satisfactory proof to the county treasurer of ownership and right of possession to the vehicle and upon payment of a fee of twenty dollars and the presentation of an application for registration and certificate of title, may issue to the applicant a registration card for the vehicle and a certificate of title to the vehicle. A person entitled to ownership of a vehicle under a decree of dissolution shall surrender a reproduction of a certified copy of the dissolution and upon fulfilling the other requirements of this chapter is entitled to a certificate of title and registration receipt issued in the person's name.

2. The persons entitled under the laws of descent and distribution of an intestate's property to the possession and ownership of a vehicle owned in whole or in part by a decedent, upon filing an affidavit stating the name and date of death of the decedent, the right to possession and ownership of the persons filing the affidavit, and that there has been no administration of the decedent's estate, which instrument shall also contain an agreement to indemnify creditors of the decedent who would be entitled to levy execution upon the motor vehicle to the extent of the value of the motor vehicle, are entitled upon fulfilling the other requirements of this chapter, to the issuance of a registration card for the interest of the decedent in the vehicle and a certificate of title to it. If a decedent dies testate, and either the will is not probated or is admitted to probate without administration, the persons entitled to the possession and ownership of a vehicle owned in whole or in part by the decedent may file an affidavit and, upon fulfilling the other requirements of this chapter, are entitled to the issuance of a registration card for the interest of the decedent in the vehicle and a certificate of title to the vehicle. The affidavit shall contain the same information and indemnity agreement as is required in cases of intestacy pursuant to this section. A requirement of chapter 450 shall not be considered satisfied by the filing of the affidavit provided for in this section. If, from the records in the office of the county treasurer, there appear to be any liens on the vehicle, the certificate of title shall contain a statement of the liens unless the

application is accompanied by proper evidence of their satisfaction or extinction. Evidence of extinction may consist of, but is not limited to, an affidavit of the applicant stating that a security interest was foreclosed as provided in chapter 554, article 9, part 6. The department shall waive the certificate of title fee and surcharge required under sections 321.20, 321.20A, 321.23, 321.46, 321.52, and 321.52A if the person entitled to possession and ownership of a vehicle, as provided in this subsection, is the surviving spouse of a decedent.

3. Whenever ownership of a vehicle is transferred under the provisions of this section, the registration plates shall be removed and forwarded to the county treasurer of the county where the vehicle is registered or to the department if the vehicle is owned by a nonresident. Upon transfer the vehicle shall not be operated upon the highways of this state until the person entitled to possession of the vehicle applies for and obtains registration for the vehicle.

4. A person convicted of a violation of this section is guilty of a simple misdemeanor punishable as a scheduled violation under section 805.8A, subsection 2.

1. *a.* When the transferee of a vehicle is a dealer who holds the vehicle for resale and operates the vehicle only for purposes incident to a resale and displays a dealer plate on the vehicle or does not drive such vehicle or permit it to be driven upon the highways, such transferee shall not be required to obtain a new registration or a new certificate of title but upon transferring title or interest to another person shall execute and acknowledge an assignment and warranty of title upon the certificate of title assigned to the person and deliver the same to the person to whom such transfer is made.

*b.* A dealer licensed pursuant to chapter 322 or chapter 322C who has acquired a vehicle for resale which is subject to a security interest as provided in section 321.50 and who has forwarded to the secured party the sum necessary to discharge the security interest may offer the vehicle for sale prior to the receipt from the county treasurer of the certificate of title for the vehicle with the lien discharged for a period of not more than thirty days from the date the vehicle was acquired and the provisions of section 321.104, subsection 2, shall not apply.

2. A foreign registered vehicle purchased or otherwise acquired by a dealer for the purpose of resale shall be issued a certificate of title for the vehicle by the county treasurer of the dealer's residence upon proper application as provided in this chapter and upon payment of a fee of five dollars and the dealer is exempt from the payment of any and all registration fees for the vehicle. The application for certificate of title shall be made within thirty days after the vehicle comes within the border of the state. However, a dealer acquiring a vehicle registered in another state which permits Iowa dealers to reassign that state's certificates of title shall not be required to obtain a new registration or a new certificate of title and upon transferring title or interest to another person shall execute an assignment upon the certificate of title for the vehicle to the person to whom the transfer is made and deliver the assigned certificate of title to the person.

3. Notwithstanding subsections 1 and 2, requirements in those subsections for obtaining title to a vehicle or acknowledging assignment and warranty of title do not apply to a dealer who sells a motor vehicle to a purchaser in a consignment transaction authorized under section 322.7B.

4. In a transaction in which a vehicle is traded to a dealer as defined in chapter 322 or chapter 322C toward the purchase price of another vehicle and each vehicle is owned in whole or in part by the same person, the person acquiring the vehicle from the dealer shall be entitled to a credit under section 321.46.

5. A transferee of a new completed motor vehicle shall obtain a certificate of title for the vehicle but is not required to pay the annual registration fee for the vehicle, provided all of the following apply:

a. The transferee is an equipment dealer licensed as a motor vehicle dealer under chapter 322.

b. The transferee purchases the vehicle at retail for the purpose of modifying the vehicle as provided in section 321.105A, subsection 2, paragraph “c”, subparagraph (31), prior to selling it as a used vehicle to a business or government entity.

c. The transferee operates the vehicle only for purposes incidental to a resale.

d. The transferee displays a dealer plate on the vehicle or does not drive the vehicle or permit it to be driven upon the highways.

6. Nothing in this section shall be construed to prohibit a dealer from obtaining a new certificate of title or new registration in the same manner as other purchasers.

1. Except as provided in section 321.52, if an application for transfer of registration and certificate of title is not submitted to the county treasurer of the residence of the transferee within thirty days of the date of assignment or transfer of title, or within thirty days of the date of delivery to the purchaser if the vehicle is subject to a security interest and was offered for sale pursuant to section 321.48, subsection 1, a penalty of ten dollars shall accrue against the applicant, and no registration card or certificate of title shall be issued to the applicant for the vehicle until the penalty is paid.

2. Certificates of title to vehicles may be assigned by an attorney in fact of the owner under a power of attorney appointed and so empowered on forms provided by the department. Such power of attorney shall be filed by the transferee with the application for title.

3. #### **321.50 Security interest provisions.**

1. A security interest in a vehicle subject to registration under the laws of this state or a mobile home or manufactured home, except trailers whose empty weight is two thousand pounds or less, and except new or used vehicles held by a dealer or manufacturer as inventory for sale, is perfected by the delivery to the county treasurer of the county where the certificate of title was issued or, in the case of a new certificate, to the county treasurer where the certificate will be issued, of an application for certificate of title which lists the security interest, or an application for notation of security interest signed by the owner or by one owner of a vehicle owned jointly by more than one person, or signed through electronic means as determined by the department, or a certificate of title from another jurisdiction which shows the security interest, and payment of a fee of ten dollars for each security interest shown. The department shall require the federal employer identification number of a secured party who is a firm, association, or corporation or, if a natural person,

the social security number. Upon delivery of the application and payment of the fee, the county treasurer shall note the date of delivery on the application. If the delivery is by electronic means and the time is electronically recorded on the application along with the date, the time shall be included with the date on all subsequent documents and records where the date of perfection is required under this chapter. The date of delivery shall be the date of perfection of the security interest in the vehicle, regardless of the date the security interest is noted on the certificate of title. Up to three security interests may be perfected against a vehicle and shown on an Iowa certificate of title. If the owner or secured party is in possession of the certificate of title, it must also be delivered at this time. If a vehicle is subject to a security interest when brought into this state, the validity of the security interest and the date of perfection is determined by section 554.9303. Delivery as provided in this subsection constitutes perfection of a security interest on a certificate of title for purposes of this chapter and chapter 554.

2. Upon receipt of the application and the required fee, if the certificate of title was not delivered to the county treasurer along with the application, the county treasurer shall notify the holder of the certificate of title to deliver to the county treasurer, within five days from the receipt of notice, the certificate of title to permit notation of the security interest. If the holder of the certificate of title fails to deliver it within five days, the holder shall be liable to anyone harmed by the holder's failure.

3. Upon receipt of the application, the certificate of title, if any, and the required fee, the county treasurer shall note the security interest and the date of perfection of the security interest on the certificate of title. The county treasurer shall also note the security interest and the date of perfection of the security interest in the county records system. Upon receipt of a certificate of title issued by a foreign jurisdiction, on which a security interest has been noted, the county treasurer shall note the security interest and the date the security interest was noted on the foreign certificate of title, if available, or if not, the date of issuance of the foreign certificate of title, on the face of the new certificate of title. The county treasurer shall also note the security interest and the date that was noted on the certificate of title in the county records system. The county treasurer shall then deliver the certificate of title to the first secured party as shown thereon.

4. Notwithstanding any provision of this section to the contrary, if a security interest has been delivered by electronic means, the county treasurer or department shall not print a certificate of title until all security interests have been released, but shall provide the first security interest holder with an electronic record of the certificate of title. When a vehicle is subject to an electronic lien, the certificate of title for the vehicle shall be considered to be physically held by the lienholder for purposes of compliance with odometer disclosure requirements under section 321.71.

5. a. When a security interest is discharged, the holder shall note a cancellation of the security interest on the face of the certificate of title over the holder's signature or may note the cancellation of the security interest on a separate, notarized release form or letter. The holder shall deliver the certificate of title and the form or letter, if applicable, to the county treasurer where the title was issued. In the case of a security interest that has been delivered by electronic means, the holder shall notify the department or the county treasurer, in a manner prescribed by the department, of the release of the security interest. The county treasurer shall immediately note the cancellation of the security interest on the face of the certificate of title, if applicable, and in the county records system. The county treasurer shall on the same day deliver the certificate of title, if applicable, and the separate, notarized release form or letter, if applicable, to the then first secured party or, if there is no such person, to the person as directed by the owner, in writing, on a form prescribed by the department or, if there is no person designated, then to the owner. The cancellation of the security interest shall be noted on the certificate of title by the county treasurer without charge. The holder of a security interest discharged by payment who fails to release the security interest within fifteen days after being requested in writing to do so shall forfeit to the person making the payment the sum of twenty-five dollars.

b. If a lien has been released by the lienholder but has not been sent to the county of record for clearance of the lien, any county may note the release on the face of the title and

shall notify the county of record that the lien has been released as of the specified date and make entry upon the computer system. Notification to the county of record shall be made by an automated statewide system or by sending a photocopy of the released title to the county of record.

c. When a security interest is discharged, the lienholder shall note the cancellation of the security interest on the face of the title and, if applicable, may note the cancellation of the security interest on a form prescribed by the department and deliver a copy of the form in lieu of the title to the department or to the treasurer of the county in which the title was issued. The form may be delivered by electronic means. The department or county treasurer shall note the release of the security interest upon the statewide computer system and the county's records. A copy of the form, if used, shall be attached to the title by the lienholder, if the title is held by the lienholder, and shall be evidence of the release of the security interest. If the title is held by the lienholder, the lienholder shall deliver the title to the first lienholder, or if there is no such person, to the person as designated by the owner, or if there is no such person designated, to the owner. If a certificate of title has not been issued, upon release of a security interest, the lienholder shall notify the department or the county treasurer, in a manner prescribed by the department, of the release of the security interest.

d. For purposes of this subsection, a security interest noted on an Iowa certificate of title and appearing in the statewide computer system and the county's records shall be presumed to be discharged upon presentation of a valid certificate of title subsequently issued by a foreign jurisdiction on which the security interest is no longer noted.

6. The uniform commercial code, chapter 554, article 9, shall apply to all transactions intended to create a security interest in vehicles except as provided in this chapter.

7. Upon request of any person, the county treasurer shall certify whether there are, on the date and hour stated therein, any security interests or liens against a vehicle and the name and address of each secured party. The uniform fee for a certification shall be two dollars if the request for the certification is on a form conforming to standards prescribed by the secretary of state; otherwise, three dollars. Upon request and payment of the appropriate fee, the county treasurer shall furnish a certified copy of any security interests for a uniform fee of one dollar per page.

### **321.51 Terminal rental adjustment clause — vehicle leases that are not sales or security interests.**

An agreement involving the leasing of a motor vehicle or trailer does not create a sale or security interest solely because the agreement provides for an increase or decrease adjustment in the rental price of the motor vehicle or trailer based upon the amount realized upon sale or other disposition of the motor vehicle or trailer following the termination of the lease.

### **321.52 Out-of-state sales — junked, dismantled, wrecked, or salvage vehicles.**

1. When a vehicle is sold outside the state for purposes other than for junk, the owner, dealer or otherwise, shall detach the registration plates and registration card and shall indicate on the registration card the name and address of the foreign purchaser or transferee over the person's signature. Unless the registration plates are legally attached to another vehicle, the owner shall surrender the registration plates and registration card to the county treasurer, who shall cancel the records, destroy the registration plates, and forward the registration card to the department. The department shall make a notation on the records of

the out-of-state sale and, after a reasonable period, may destroy the files for that particular vehicle. The department is not authorized to make a refund of annual registration fees on a vehicle sold out of state unless it receives the registration card completed as provided in this section.

2. a. The purchaser or transferee of a motor vehicle subject to registration for which a certificate of title is issued which is sold for scrap or junk shall surrender the certificate of title, properly endorsed and signed by the previous owner, to the county treasurer of the county of residence of the transferee, and shall apply for a junking certificate from the county treasurer, within thirty days after assignment of the certificate of title, except when the vehicle is disposed of pursuant to paragraph “b”. The county treasurer shall issue to such person without fee a junking certificate. A junking certificate shall authorize the holder to possess, transport, or transfer by endorsement the ownership of the junked vehicle. A certificate of title shall not again be issued for the vehicle subsequent to the issuance of a junking certificate except as provided in subsection 3. The county treasurer shall cancel the record of the vehicle. The junking certificate shall be printed on the registration receipt form and shall be imprinted with the words “junking certificate”, as prescribed by the department. A space for transfer by endorsement shall be on the junking certificate. A separate form for the notation of the transfer of component parts shall be attached to the junking certificate when the certificate is issued.

b. The owner of a motor vehicle subject to registration that does not have a certificate of title or a junking certificate may dispose of the vehicle to a vehicle recycler licensed under chapter 321H for scrap or junk if the vehicle is twelve model years old or older and is acquired by the vehicle recycler for reasonable consideration equaling less than one thousand dollars.

3. a. When a vehicle for which a certificate of title is issued is junked or dismantled by the owner, the owner shall detach the registration plates and surrender the plates to the county treasurer, unless the plates are properly assigned to another vehicle. The owner shall also surrender the certificate of title to the county treasurer, except when the vehicle is disposed of pursuant to subsection 2, paragraph “b”.

b. Upon the surrender of the certificate of title and application for junking certificate, the county treasurer shall issue to the person, without fee, a junking certificate, which shall authorize the holder to possess, transport, or transfer ownership of the junked vehicle by endorsement of the junking certificate. The county treasurer shall hold the surrendered certificate of title, registration receipt, application for junking certificate, and, if applicable, the registration plates for a period of fourteen days following the issuance of a junking certificate under this subsection.

c. Within the fourteen-day period, the person who was issued the junking certificate and to whom the vehicle was titled or assigned may surrender to the county treasurer the junking certificate, and upon the person’s payment of appropriate fees and taxes and payment of any credit for annual registration fees received by the person for the vehicle under section 321.46, subsection 3, the county treasurer shall issue to the person a certificate of title for the vehicle. After the expiration of the fourteen-day period, a county treasurer shall not issue a certificate of title for a junked vehicle for which a junking certificate is issued. The county treasurer shall cancel the record of the vehicle and forward the certificate of title to the department.

d. However, upon application and a showing of good cause, the department may issue a certificate of title to a person after the fourteen-day period for a junked vehicle for which a junking certificate has been issued. For purposes of this subsection, “good cause” means that the junking certificate was obtained by mistake or inadvertence. If a person’s application to the department is denied, the person may make application for a certificate of title under the bonding procedure as provided in section 321.24, if the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, or the person may seek judicial review as provided under sections 17A.19 and 17A.20.

4. a. Notwithstanding any other provision of law to the contrary, an insurer may apply for and be issued a salvage certificate of title for a motor vehicle without surrendering the certificate of title or manufacturer’s or importer’s statement of origin properly assigned if ownership of the vehicle was transferred, or will transfer, to the insurer pursuant to a settlement with the previous owner of the vehicle arising from circumstances involving

damage to the vehicle, and at least thirty days have expired since the effective date of such settlement. To obtain a salvage certificate of title pursuant to this paragraph "a", the insurer shall submit an application for a salvage certificate of title to the county treasurer of the county in which the vehicle is stored by or on behalf of the insurer. The application shall be accompanied by an affidavit from the insurer in which the insurer certifies it has made at least two written attempts to obtain a properly assigned certificate of title or manufacturer's or importer's statement of origin for the vehicle by contacting the previous owner of the vehicle and all lienholders of record by certified mail or a similar service that provides proof of service using a return receipt, and has been unable to obtain the title or statement of origin. The failure of a previous owner or lienholder to provide a properly assigned certificate of title or manufacturer's or importer's statement of origin shall be deemed to be a waiver by the previous owner or lienholder of all rights, title, claim, and interest in the vehicle. The application shall also be accompanied by the application fee required under paragraph "b", and proof of payment of the total amount of the settlement by the insurer to the previous owner of the vehicle. Upon receiving an application that complies with this paragraph "a", the county treasurer shall issue a salvage certificate of title to the insurer which shall be free and clear of all liens and claims of ownership and shall bear the word "SALVAGE" stamped or printed on the face of the title in a manner prescribed by the department.

b. A vehicle rebuilder or a person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered in this state, upon acquisition of a wrecked or salvage vehicle, shall surrender the certificate of title or manufacturer's or importer's statement of origin properly assigned, together with an application for a salvage certificate of title, to the county treasurer of the county of residence of the purchaser or transferee within thirty days after the date of assignment of the certificate of title for the wrecked or salvage motor vehicle. This subsection applies only to vehicles with a fair market value of five hundred dollars or more, based on the value before the vehicle became wrecked or salvage. Upon payment of a fee of ten dollars, the county treasurer shall issue a salvage certificate of title which shall bear the word "SALVAGE" stamped or printed on the face of the title in a manner prescribed by the department. A salvage certificate of title may be assigned to an educational institution, a new motor vehicle dealer licensed under chapter 322, a person engaged in the business of purchasing bodies, parts of bodies, frames or component parts of vehicles for sale as scrap metal, a salvage pool, or an authorized vehicle recycler licensed under chapter 321H. An authorized vehicle recycler licensed under chapter 321H or a new motor vehicle dealer licensed under chapter 322 may assign or reassign an Iowa salvage certificate of title or a salvage certificate of title from another state to any person, and the provisions of section 321.24, subsection 5, requiring issuance of an Iowa salvage certificate of title shall not apply. A vehicle on which ownership has transferred to an insurer of the vehicle as a result of a settlement with the owner of the vehicle arising out of damage to, or unrecovered theft of, the vehicle shall be deemed to be a wrecked or salvage vehicle and the insurer shall comply with this subsection to obtain a salvage certificate of title within thirty days after the date of assignment of the certificate of title of the vehicle.

c. When a wrecked or salvage vehicle has been repaired, the owner may apply for a regular certificate of title by paying the appropriate fees and surrendering the salvage certificate of title and a properly executed salvage theft examination certificate. A motor vehicle with a gross vehicle weight rating of thirty thousand pounds or more is not subject to the salvage theft examination otherwise required under paragraph "d", and the owner of such vehicle is not required to submit a salvage theft examination certificate. The county treasurer shall issue a regular certificate of title which shall bear a designation printed on the face of the title and printed on the registration receipt indicating that the vehicle was previously titled on a salvage certificate of title in a form approved by the department. This designation shall be included on every Iowa certificate of title and registration receipt issued thereafter for the vehicle. However, if ownership of a stolen vehicle has been transferred to an insurer organized under the laws of this state or admitted to do business in this state, or if the transfer was the result of a settlement with the owner of the vehicle arising from damage to or the unrecovered theft of the vehicle, and if the insurer certifies to the county treasurer on a form approved by the department that the insurance company has received one or more written

estimates which state that the retail cost of repairs including labor, parts, and other materials of all damage to the vehicle is less than three thousand dollars, the county treasurer shall issue to the insurance company the regular certificate of title and registration receipt without this designation.

d. A salvage theft examination shall be made by a peace officer who has been specially certified and recertified when required by the Iowa law enforcement academy to do salvage theft examinations. The Iowa law enforcement academy shall determine standards for training and certification, conduct training, and may approve alternative training programs which satisfy the academy's standards for training and certification. The owner of the salvage vehicle shall make the vehicle available for examination at a time and location designated by the peace officer doing the examination. The owner may obtain a permit to drive the vehicle to and from the examination location by submitting a repair affidavit to the agency performing the examination stating that the vehicle is reasonably safe for operation and listing the repairs which have been made to the vehicle. The owner must be present for the examination and have available for inspection the salvage title, bills of sale for all essential parts changed, if applicable, and the repair affidavit. The examination shall be for the purposes of determining whether the vehicle or repair components have been stolen. The examination is not a safety inspection and a signed salvage theft examination certificate shall not be construed by any court of law to be a certification that the vehicle is safe to be operated. There shall be no cause of action against the peace officer or the agency conducting the examination or the county treasurer for failure to discover or note safety defects. If the vehicle passes the theft examination, the peace officer shall indicate that the vehicle passed examination on the salvage theft examination certificate. The permit and salvage theft examination certificate shall be on controlled forms prescribed and furnished by the department. The owner shall pay a fee of fifty dollars at the time the examination is scheduled. The agency performing the examinations shall retain forty dollars of the fee and shall pay five dollars of the fee to the department and five dollars of the fee to the treasurer of state for deposit in the general fund of the state. Moneys deposited to the general fund under this paragraph are subject to the requirements of section 8.60 and shall be used by the Iowa law enforcement academy to provide for the special training, certification, and recertification of officers as required by this subsection.

e. For purposes of this subsection, "*wrecked or salvage vehicle*" means a damaged motor vehicle subject to registration for which the cost of repair exceeds fifty percent of the fair market value of the vehicle, as determined in accordance with rules adopted by the department, before it became damaged.

5. The department shall adopt rules in accordance with chapter 17A to carry out this section.

A nonresident owner, except as provided in sections 321.54 and 321.55, of a private passenger motor vehicle, not operated for hire, may operate or permit the operation of such vehicle within this state without registering such vehicle in, or paying any fees to, this state subject to the condition that such vehicle at all times when operated in this state is duly registered in, and displays upon it a valid registration plate or plates issued for such vehicle in the place of residence of such owner. A nonresident who leases a vehicle from a resident owner shall not be considered a nonresident owner of such vehicle for the purpose of exemption under this section. This section shall be operative to the extent that under the laws of the foreign country, state, territory, or federal district of such nonresident owner's residence like exemptions and privileges are granted to vehicles registered under the laws, and owned by residents, of this state. A truck, truck tractor, trailer or semitrailer owned by a nonresident and operated on Iowa highways must have displayed upon it a valid registration plate or plates and a valid registration certificate, card, or other official evidence of its allowable weight in the state, district or county in which it is registered.

### **321.55 Registration and financial liability coverage required for certain vehicles owned or operated by nonresidents.**

1. A nonresident owner or operator engaged in remunerative employment within this state or carrying on business within this state and owning or operating a motor vehicle, trailer, or semitrailer within this state shall register and maintain financial liability coverage as required under section 321.20B for each vehicle and pay the same fees for registration as are paid for like vehicles owned by residents of this state. However, this subsection does not apply to a person commuting from the person's residence in another state or whose employment is seasonal or temporary, not exceeding ninety days.

2. a. A nonresident owner of a motor vehicle operated within this state by a resident of this state shall register the vehicle and shall maintain financial liability coverage as required under section 321.20B for the vehicle. The nonresident owner shall pay the same

However, registration under this paragraph is not required for vehicles being operated by residents temporarily for not more than ninety days. For purposes of this paragraph, a vehicle is not operated in the state temporarily, and is therefore subject to registration and the owner is required to pay the applicable fees, if the vehicle is located in Iowa for more than ninety consecutive or nonconsecutive days and is operated on an Iowa highway by an Iowa resident during that time. The ninety-day temporary period of operation provided for under this paragraph does not apply to a vehicle owned by a shell business as provided in paragraph “b”.

b. On or after July 1, 2013, if the department, in consultation with the department of revenue, determines that the nonresident owner of a vehicle is a partnership, limited liability company, or corporation that is a shell business, it shall be rebuttably presumed that the Iowa resident in control of the vehicle is the actual owner of the vehicle, that the vehicle is subject to registration in this state, and that payment of the fee for new registration for the vehicle is owed by the Iowa resident.

(1) Factors which indicate that a partnership, limited liability company, or corporation is a shell business include but are not limited to the following:

(a) The partnership, limited liability company, or corporation lacks a specific business activity or purpose.

(b) The partnership, limited liability company, or corporation fails to maintain a physical location in the foreign state.

(c) The partnership, limited liability company, or corporation fails to employ individual persons and provide those persons with internal revenue service form W-2 wage and tax statements.

(2) Factors which indicate that a person is in control of a vehicle include but are not limited to the following:

(a) The person was the initial purchaser of the vehicle.

(b) The person operated or stored the vehicle in Iowa for any period of time.

(c) The person is a partner, member, or shareholder of the nonresident partnership, limited liability company, or corporation that purports to be the owner of the vehicle.

(d) The person is insured to drive the vehicle.

(3) If the department determines that the nonresident owner of a vehicle is a shell business, the department shall notify the Iowa resident in control of the vehicle in writing that the Iowa resident is required to obtain an Iowa certificate of title and registration for the vehicle and pay the fee for new registration owed for the vehicle not later than thirty days from the date of the notice.

a. The vendor shall file with the county treasurer and the department, duplicate inventories of all used motor vehicles proposed to be transferred, giving the factory number, last registration number, if any, and description of each such used motor vehicle and the name and address of proposed vendee, with a certification signed by both the vendee and the vendor that the certificates of title pertaining to all the used motor vehicles listed on the inventory have been duly assigned to the vendee as prescribed in this chapter.

b. The vendee shall, if the vendee has not already secured a dealer's registration, immediately secure such registration from the department.

2. Upon the completion of such requirements the department shall certify to the county treasurer that such used motor vehicles are, from and after a date to be set by the department, the property of the vendee.

### **321.69 Damage disclosure statement.**

1. A certificate of title shall not be issued for a motor vehicle unless a damage disclosure statement has been made by the transferor of the vehicle and is furnished with the application for certificate of title. A damage disclosure statement shall be provided by the transferor to the transferee in a transfer of ownership of a motor vehicle. The new certificate of title and registration receipt shall state on the face whether a prior owner had disclosed that the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e".

2. The damage disclosure statement required by this section shall, at a minimum, state whether the transferor knows if the vehicle was titled as a salvage, rebuilt, or flood vehicle in this or any other state prior to the transferor's ownership of the vehicle and, if not, whether the transferor knows if the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e", during or prior to the transferor's ownership of the vehicle.

3. The damage disclosure statement shall be provided by the transferor to the transferee at or before the time of sale. If the transferor is not a resident of this state or if the transferee acquired the vehicle by operation of law as provided in section 321.47, the transferee shall not be required to submit a damage disclosure statement from the transferor with the transferee's application for title unless the state of the transferor's residence requires a damage disclosure statement. However, the transferee shall submit a damage disclosure statement with the transferee's application for title indicating whether a salvage, rebuilt, or flood title had ever existed for the vehicle, and if not, whether the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e", during or prior to the transferor's ownership of the vehicle, and the year, make, and vehicle identification number of the motor vehicle. The transferee shall not be required to indicate whether the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e", under this subsection if the transferor's certificate of title is from another state and if it indicates that the vehicle is salvaged and not rebuilt or is another state's salvage certificate of title.

4. A lessee who has executed a lease as defined in section 321F.1 shall provide a damage disclosure statement to the lessor at the termination of the lease. The damage disclosure statement shall be made on a separate disclosure document and shall state whether the vehicle was damaged during the term of the lease to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e". The lessee's damage disclosure statement shall not be submitted with the application for title, but the lessor shall retain the lessee's damage disclosure statement for five years following the date of the statement.

5. The department shall retain each damage disclosure statement received and copies shall be available to the public and the attorney general upon request.

6. Authorized vehicle recyclers licensed under chapter 321H and motor vehicle dealers licensed under chapter 322 shall maintain copies of all damage disclosure statements where the recycler or dealer is either the transferor or the transferee for five years following the

date of the statement. The copies shall be made available to the department or the attorney general upon request.

7. *a.* The damage disclosure statements shall be made on the back of the certificate of title if the title is available to the transferor at the time of sale. If the title is not available at the time of sale or if the face of the transferor's Iowa title contains no indication that the vehicle was previously salvaged or titled as a salvage, rebuilt, or flood vehicle and the transferor knows or reasonably should know that the vehicle was previously salvaged or titled as a salvage, rebuilt, or flood vehicle in another state, the transferor shall make the disclosure on a separate disclosure document. The damage disclosure statement forms shall be as approved by the department. The treasurer shall not accept a damage disclosure statement and issue a title unless the back of the title or separate disclosure document has been fully completed and signed and dated by the transferee and the transferor, if applicable. If a separate damage disclosure document from a prior owner is required to be furnished with the application for title, the transferor shall provide a copy of the separate damage disclosure document to the transferee at or before the time of sale.

*b.* In addition to the information required in subsection 2, a separate disclosure document shall state whether the vehicle's certificate of title indicates the existence of damage prior to the period of the transferor's ownership of the vehicle and whether the vehicle was titled as a salvage, rebuilt, or flood vehicle during the period of the transferor's ownership of the vehicle.

8. A person, authorized vehicle recycler licensed under chapter 321H, or motor vehicle dealer licensed under chapter 322 shall not be liable to a subsequent owner, driver, or passenger of a vehicle because a prior owner or lessee gave a false or inaccurate damage disclosure statement or failed to disclose that the vehicle had previously been damaged and repaired or had been titled on a salvage, rebuilt, or flood certificate of title unless the person, recycler, or dealer knew or reasonably should have known that the prior owner or lessee gave a false or inaccurate damage disclosure statement or failed to disclose that the vehicle had been damaged and repaired or had been titled on a salvage, rebuilt, or flood certificate of title.

9. Except for subsections 10 and 11, this section does not apply to motor trucks and truck tractors with a gross vehicle weight rating of sixteen thousand pounds or more, vehicles more than seven model years old, autocycles, motorcycles, motorized bicycles, and special mobile equipment. This section does apply to motor homes. The requirement in subsection 1 that the new certificate of title and registration receipt shall state on the face whether a prior owner had disclosed that the vehicle was damaged to the extent that it was a wrecked or salvage vehicle as defined in section 321.52, subsection 4, paragraph "e", does not apply to a vehicle with a certificate of title bearing a designation that the vehicle was previously titled on a salvage certificate of title pursuant to section 321.52, subsection 4, paragraph "c", or to a vehicle with a certificate of title bearing a "REBUILT" or "SALVAGE" designation pursuant to section 321.24, subsection 4 or 5. Except for subsections 10 and 11, this section does not apply to new motor vehicles with a true mileage, as defined in section 321.71, of one thousand miles or less, unless such vehicle has incurred damage as described in subsection 2.

10. *a.* A person shall not sell, lease, or trade a motor vehicle if the person knows or reasonably should know that the motor vehicle contains a nonoperative air bag that is part of an inflatable restraint system, or that the motor vehicle has had an air bag removed and not replaced, unless the person clearly discloses, in writing, to the person to whom the person is selling, leasing, or trading the vehicle, prior to the sale, lease, or trade, that the air bag is missing or nonoperative. In addition, a lessee who has executed a lease as defined in section 321F.1 shall provide the disclosure statement required in this subsection to the lessor upon termination of the lease.

*b.* The written disclosure required by this subsection shall be deemed to be a damage disclosure statement for the purposes of subsections 6, 8, and 11.

11. A person who knowingly makes a false damage disclosure statement or fails to make a damage disclosure statement required by this section commits a fraudulent practice. Failure of a person, authorized vehicle recycler licensed under chapter 321H, or motor vehicle dealer

licensed under chapter 322 to comply with any duty imposed by this section constitutes a violation of section 714.16, subsection 2, paragraph “a”.

12. The department shall adopt rules as necessary to implement this section.

1. a. A person licensed as a new motor vehicle dealer pursuant to chapter 322 shall not be required to disclose to a prospective or actual buyer or lessee of a new motor vehicle repairs of damage to or adjustments on or replacements of parts with new parts on the motor vehicle if all of the following are true:

(1) The repairs, adjustments, or replacements were made to achieve compliance with factory specifications.

(2) The actual cost of any labor or parts charged to or performed by the dealer for any such repairs, adjustments, or parts does not exceed four percent of the manufacturer’s suggested retail price.

(3) The dealer posts in a conspicuous place notice that repairs, adjustments, or replacements will be disclosed upon request.

(4) The dealer discloses any such repairs, adjustments, or replacements upon request.

b. The provisions of this section take precedence over and shall supersede section 714.16, subsection 2, paragraph “a”, unnumbered paragraph 4, and section 714H.4, subsection 2.

2. A person licensed as a new motor vehicle dealer pursuant to chapter 322 shall disclose in writing, at or before the time of sale or lease, to the buyer or lessee of a new motor vehicle that the vehicle has been subject to any repairs of damage to or adjustments on or replacements of parts with new parts if the actual cost of any labor or parts charged to or performed by the dealer for any such repairs, adjustments, or parts exceeds four percent of the manufacturer’s suggested retail price. The written disclosure shall include the signature of the buyer or lessee and be in a form and in a format approved by the attorney general by rule. A dealer shall retain a copy of each written disclosure issued pursuant to this section for five years from the date of issuance.

3. As used in this section, “*manufacturer’s suggested retail price*” means the amount required to be disclosed by a dealer pursuant to 15 U.S.C. §1232(f)(4).

4. A violation of this section is an unlawful practice pursuant to section 714.16.

5. A violation of this section is a prohibited practice or act pursuant to section 714H.5.

### **321.70 Dealer vehicles.**

A dealer registered under this chapter shall not be required to register any vehicle owned by the dealer which is being held for sale or trade, provided the annual registration fee was not delinquent at the time the vehicle was acquired by the dealer. When a dealer ceases to hold any vehicle for sale or trade or the vehicle otherwise becomes subject to registration under this chapter the annual registration fee and delinquent annual registration fee, if any, shall be due for the registration year.

### **321.71 Odometer requirements.**

1. For the purposes of this section the following words and phrases shall have the meanings respectively ascribed to them:

a. “*Intent and purpose of this section*” is and shall mean to achieve the end that odometers of motor vehicles shall at all times correctly show the true mileage that the motor vehicle has been driven.

b. “*True mileage*” is the actual mileage the motor vehicle has been driven.

2. No person shall knowingly tamper with, adjust, alter, change, set back, disconnect or fail to connect the odometer of any motor vehicle, or cause any of the foregoing to occur to an odometer of a motor vehicle, so as to reflect a lower mileage than the true mileage driven by the motor vehicle.

3. No person shall conspire with any other person to evade the intent and purpose of this section.

4. No person shall with the intent to defraud operate a motor vehicle on any street or highway knowing that the odometer of the motor vehicle is disconnected or nonfunctional.

5. No person shall advertise for sale, sell, use or install on any part of a motor vehicle or on any odometer in a motor vehicle any device which causes the odometer to register any mileage other than the true mileage.

6. In the event any odometer is repaired or replaced, the reading of the repaired or replaced odometer shall be set at the reading of the odometer repaired or replaced immediately prior to repair or replacement, but where the odometer is incapable of registering the same mileage the odometer shall be adjusted to read zero and any adjustment made in accordance with the provisions of this subsection shall not be deemed a violation of any provision of this section.

7. A certificate of title shall not be issued for a motor vehicle less than ten model years old which is equipped with an odometer by the manufacturer, unless an odometer statement which is in compliance with federal law and regulations has been made by the transferor of the vehicle and is furnished with the application for certificate of title. The new certificate of title shall record on its face the odometer reading and the word "actual" if the true mileage is known. If the odometer reading is not the true mileage or the true mileage is unknown, the words "not actual" shall be recorded. If the odometer reading is greater than the odometer can mechanically count, the words "exceeds the mechanical limits" shall be recorded. However, a certificate of title may be issued for a motor vehicle to a person who moves into this state if the person acquired ownership of the motor vehicle prior to moving to this state. This subsection does not apply to motor vehicles having a gross vehicle weight rating of more than sixteen thousand pounds.

8. Any person who knowingly makes or delivers a false odometer statement as required by subsection 7 shall be guilty of a violation of this section.

9. An Iowa licensed motor vehicle dealer shall not have in possession as inventory for sale a used motor vehicle acquired by the dealer after the tenth model year prior to the current registration year, for which the dealer does not possess an odometer statement by the transferor which is in compliance with federal law and regulations unless a certificate of title has been issued for the vehicle in the name of the dealer. Transfer of a new motor vehicle with an ownership document which is a manufacturer's statement of origin requires an odometer statement only when transferred at retail.

10. A transferee of a motor vehicle reassigning the certificate of title to such motor vehicle pursuant to the provisions of section 321.48, subsection 1, shall not be guilty of a violation of this section if such transferee has in the transferee's possession an odometer statement by the transferor which is in compliance with federal law and regulations and if the transferee has no knowledge that the statement is false and that the transferee has no knowledge that the odometer does not reflect the true mileage of such motor vehicle.

11. The department may adopt rules which shall be in compliance with the federal Truth in Mileage Act of 1986, Pub. L. No. 99-579.

12. Any person who violates this section commits a fraudulent practice.

b. “Nonfunctional air bag” means an air bag that was previously deployed or damaged, or has an electric fault that is detected by a motor vehicle’s air bag diagnostic system after the air bag is installed in the motor vehicle.

2. A person who manufactures, imports, installs, reinstalls, sells, or offers to sell any device with the intent that the device replace an air bag in a motor vehicle, and who knows that the device is a counterfeit air bag, nonfunctional air bag, or air bag that does not comply with federal safety requirements as provided in 49 C.F.R. §571.208, is guilty of an aggravated misdemeanor.

3. A person who manufactures, imports, installs, reinstalls, sells, offers to sell, or tampers with any device that causes a motor vehicle’s diagnostic system to inaccurately indicate that the motor vehicle is equipped with a functional air bag when a counterfeit or nonfunctional air bag is installed, or when no air bag is installed, with the intent to mislead the owner or operator of the motor vehicle into believing that the motor vehicle is equipped with a functional air bag, is guilty of an aggravated misdemeanor.

1. *Definitions.* As used in this section and sections 321.90 and 321.91 unless the context otherwise requires:

a. *"Abandoned vehicle"* means any of the following:

(1) A vehicle that has been left unattended on public property for more than twenty-four hours and lacks current registration plates or two or more wheels or other parts which renders the vehicle totally inoperable.

(2) A vehicle that has remained illegally on public property for more than twenty-four hours.

(3) A vehicle that has been unlawfully parked on private property or has been placed on private property without the consent of the owner or person in control of the property for more than twenty-four hours.

(5) Any vehicle parked on the highway determined by a police authority to create a hazard to other vehicle traffic.

(6) A vehicle that has been impounded pursuant to section 321J.4B by order of the court and whose owner has not paid the impoundment fees after notification by the person or agency responsible for carrying out the impoundment order.

c. *"Police authority"* means the state patrol, any law enforcement agency of a county or city, or any special security officer employed by the state board of regents under section 262.13.

2. *Authority to take possession of abandoned vehicles.* A police authority, upon the authority's own initiative or upon the request of any other authority having the duties of control of highways or traffic, shall take into custody an abandoned vehicle on public property and may take into custody an abandoned vehicle on private property. The police authority may employ its own personnel, equipment, and facilities or hire a private entity, equipment, and facilities for the purpose of removing, preserving, storing, or disposing of abandoned vehicles. A property owner or other person in control of private property may

employ a private entity who is a garagekeeper, as defined in section 321.90, to dispose of an abandoned vehicle, and the private entity may take into custody the abandoned vehicle without a police authority's initiative. If a police authority employs a private entity to dispose of abandoned vehicles, the police authority shall provide the private entity with the names and addresses of the registered owners, all lienholders of record, and any other known claimant to the vehicle or the personal property found in the vehicle. The owners, lienholders, or other claimants of the abandoned vehicle shall not have a cause of action against a private entity for action taken under this section if the private entity provides notice as required by subsection 3, paragraph "a".

3. *Notification of owner, lienholders, and other claimants.*

Notice shall be deemed given when mailed. The notice shall describe the year, make, model, and vehicle identification number of the vehicle, describe the personal property found in the vehicle, set forth the location of the facility where the vehicle is being held, and inform the persons receiving the notice of their right to reclaim the vehicle and personal property within ten days after the effective date of the notice upon payment of all towing, preservation, and storage charges resulting from placing the vehicle in custody and upon payment of the costs of notice required pursuant to this subsection. The notice shall also state that the failure of the owner, lienholders, or claimants to exercise their right to reclaim the vehicle or personal property within the time provided shall be deemed a waiver by the owner, lienholders, and claimants of all right, title, claim, and interest in the vehicle or personal property and that failure to reclaim the vehicle or personal property is deemed consent to the sale of the vehicle at a public auction or disposal of the vehicle to a demolisher and to disposal of the personal property by sale or destruction. If the abandoned vehicle was taken into custody by a private entity without a police authority's initiative, the notice shall state that the private entity may claim a garagekeeper's lien as described in section 321.90, subsection 1, and may proceed to sell or dispose of the vehicle. If the abandoned vehicle was taken into custody by a police authority or by a private entity hired by a police authority, the notice shall state that any person claiming rightful possession of the vehicle or personal property who disputes the planned disposition of the vehicle or property by the police authority or private entity or of the assessment of fees and charges provided by this section may ask for an evidentiary hearing before the police authority to contest those matters. If the persons receiving notice do not ask for a hearing or exercise their right to reclaim the vehicle or personal property within the ten-day reclaiming period, the owner, lienholders, or claimants shall no longer have any right, title, claim, or interest in or to the vehicle or the personal property. A court in any case in law or equity shall not recognize any right, title, claim, or interest of the owner, lienholders, or claimants after the expiration of the ten-day reclaiming period.

b. If it is impossible to determine with reasonable certainty the identity and addresses of the last registered owner and all lienholders, notice by one publication in one newspaper of general circulation in the area where the vehicle was abandoned shall be sufficient to meet all requirements of notice under this section. The published notice may contain multiple listings of abandoned vehicles and personal property but shall be published within the same time requirements and contain the same information as prescribed for mailed notice in paragraph "a".

4. *Auction of abandoned vehicles.*

a. If an abandoned vehicle has not been reclaimed as provided for in subsection 3, the police authority or private entity shall make a determination as to whether or not the vehicle shall be sold for use upon the highways. If the vehicle is not sold for use upon the highways, it shall be sold for junk, or demolished and sold as scrap. The police authority or private entity shall sell the vehicle at public auction. Notwithstanding any other provision of this section, a police authority or private entity may dispose of the vehicle to a demolisher for junk without public auction after complying with the notification procedures in subsection 3. The

purchaser of the vehicle takes title free and clear of all liens and claims of ownership, shall receive a sales receipt from the police authority or private entity, and is entitled to register the vehicle and receive a certificate of title if sold for use upon the highways. If the vehicle is sold or disposed of to a demolisher for junk, the demolisher shall make application for a junking certificate to the county treasurer within thirty days of purchase and shall surrender the sales receipt in lieu of the certificate of title.

b. From the proceeds of the sale of an abandoned vehicle the police authority, if the police authority did not hire a private entity, shall reimburse itself for the expenses of the auction, the costs of towing, preserving, and storing which resulted from placing the abandoned vehicle in custody, all notice and publication costs incurred pursuant to subsection 3, the cost of inspection, and any other costs incurred except costs of bookkeeping and other administrative costs. Any remainder from the proceeds of a sale shall be held for the owner of the vehicle or entitled lienholder for ninety days, and shall then be deposited in the road use tax fund. The costs to police authorities of auction, towing, preserving, storage, and all notice and publication costs, and all other costs which result from placing abandoned vehicles in custody, whenever the proceeds from a sale of the abandoned vehicles are insufficient to meet these expenses and costs, shall be paid from the road use tax fund and are the obligation of the last owner or owners, jointly and severally.

c. The director of transportation shall establish by rule a claims procedure to be followed by police authorities in obtaining expenses and costs from the fund and procedures for reimbursement of expenses and costs to a private entity hired by a police authority to take custody of an abandoned vehicle. If a private entity has been hired by a police authority, the police authority shall file a claim with the department for reimbursement of towing fees which shall be paid from the road use tax fund.

### **321.90 Disposal of abandoned motor vehicles.**

1. *Garagekeepers and abandoned motor vehicles.* Any motor vehicle left in a garage operated for commercial purposes after the period for which the vehicle was to remain on the premises shall, after notice by certified mail to the last known registered owner of the vehicle addressed to the owner's last known address of record to reclaim the vehicle within ten days of the date of the notice, be deemed an abandoned motor vehicle unless reclaimed by the owner within such ten-day period or the owner notifies the garagekeeper in writing within such period of time that such vehicle is not an abandoned motor vehicle and shall be reported by the garagekeeper to the police authority. If the identity or address of the last registered owner of the motor vehicle cannot be determined, the vehicle shall be deemed an abandoned motor vehicle on the eleventh day after the period for which the vehicle was to remain on the premises unless reclaimed by the owner within the ten-day period or the owner notifies the garagekeeper in writing within such period of time that such vehicle is not an abandoned motor vehicle and shall be reported by the garagekeeper to the police authority. All abandoned motor vehicles left in garages may be taken into custody by a police authority upon the request of the garagekeeper and sold in accordance with the procedures set forth in section 321.89, subsection 4, unless the motor vehicle is reclaimed. The proceeds of the sale shall be first applied to the garagekeeper's charges for towing and storage, and any surplus proceeds shall be distributed in accordance with section 321.89, subsection 4. Nothing in this section shall be construed to impair any lien of a garagekeeper under the laws of this state, or the right of a garagekeeper to foreclose the garagekeeper's lien, provided that a garagekeeper shall be deemed to have abandoned the garagekeeper's artisan lien when such vehicle is taken into custody by the police authority. For the purposes of this section "garagekeeper" means any operator of a parking place or establishment, motor vehicle storage facility, or establishment for the servicing, repair, or maintenance of motor vehicles.

2. *Disposal to demolisher.*

a. Any person, firm, corporation, or unit of government upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost, or destroyed and is thereby unable to transfer title to the motor vehicle, may apply to the police authority of the jurisdiction in which the motor vehicle is situated for authority to sell, give away, or otherwise dispose of the motor vehicle to a demolisher.

b. The application shall set out the name and address of the applicant, and the year, make, model, and vehicle identification number of the motor vehicle, if ascertainable, together with any other identifying features, and shall contain a concise statement of the facts surrounding the abandonment, or a statement that the title of the motor vehicle is lost or destroyed, or the reasons for the defect of title in the owner. The applicant shall execute an affidavit stating that the facts alleged are true and that no material fact has been withheld. An order for disposal obtained pursuant to section 555B.8, subsection 3, satisfies the application requirements of this paragraph.

c. If the police authority finds that the application is executed in proper form, and shows that the motor vehicle has been abandoned upon the property of the applicant, or if it shows that the motor vehicle is not abandoned but that the applicant appears to be the rightful owner, the police authority shall follow appropriate notification procedures as set forth in section 321.89, subsection 3, except that in the case of an order for disposal obtained pursuant to section 555B.8, subsection 3, no notification is required.

d. If the abandoned motor vehicle is not reclaimed in accordance with section 321.89, subsection 3, or no lienholder objects to the disposal in the case of an owner-applicant, the police authority shall give the applicant a certificate of authority allowing the applicant to obtain a junking certificate for the motor vehicle. The applicant shall make application for a junking certificate to the county treasurer within thirty days of receipt of the certificate of authority and surrender the certificate of authority in lieu of the certificate of title. The demolisher shall accept the junking certificate in lieu of the certificate of title to the motor vehicle.

e. Notwithstanding any other provisions of this section and sections 321.89 and 321.91, any person, firm, corporation, or unit of government upon whose property or in whose possession is found any abandoned motor vehicle, or any person being the owner of a motor vehicle whose title certificate is faulty, lost, or destroyed, may dispose of such motor vehicle to a demolisher for junk without a title and without the notification procedures of section 321.89, subsection 3, if the motor vehicle lacks an engine or two or more wheels or other structural part which renders the vehicle totally inoperable. The police authority shall give the applicant a certificate of authority. The owner shall apply to the county treasurer for a junking certificate within thirty days of receipt of the certificate of authority and shall surrender the certificate of authority in lieu of the certificate of title.

f. The owner of an abandoned motor vehicle and all lienholders shall no longer have any right, title, claim, or interest in or to the motor vehicle; and no court in any case in law or equity shall recognize any right, title, claim, or interest of any owner or lienholders after the disposal of the motor vehicle to a demolisher.

g. Any proceeds from the sale of an abandoned motor vehicle to a demolisher under this section, by one other than the owner of the vehicle, except the sale of a vehicle pursuant to an order for disposal obtained pursuant to section 555B.8, subsection 3, shall first be applied to that person's expenses in effecting the sale, including storage, towing, and disposal charges, and any surplus shall be distributed in accordance with section 321.89, subsection 4. The proceeds from the sale of a vehicle disposed of pursuant to section 555B.8, subsection 3, shall be distributed in accordance with section 555B.9.

3. *Duties of demolishers.*

a. Any demolisher who purchases or otherwise acquires an abandoned motor vehicle for junk under the provisions of this section shall junk, scrap, wreck, dismantle, or demolish such motor vehicle. A demolisher shall not junk, scrap, wreck, dismantle, or demolish a vehicle until the demolisher has obtained the junking certificate issued for the vehicle.

b. A demolisher shall keep an accurate and complete record of all motor vehicles

purchased or received by the demolisher in the course of the demolisher's business. These records shall contain the name and address of the person from whom each motor vehicle was purchased or received and the date when the purchases or receipts occurred. The records shall be open for inspection by any police authority at any time during normal business hours. Any record required by this section shall be kept by the demolisher for at least one year after the transaction to which it applies.

**321.105A Fee for new registration.**

1. *Definitions.* The following terms, when used in this section, shall have the following meanings, except in those instances where the context clearly indicates otherwise:

- a. “*Department*” means the department of revenue.
- b. “*Director*” means the director of revenue.
- c. “*Owner*” means as defined in section 321.1. For purposes of the fee for new registration imposed on leased vehicles under subsection 3, “*owner*” means the “*lessor*”.
- d. “*Purchase*” means any transfer, exchange, or barter, conditional or otherwise, in any manner or by any means whatsoever, for consideration.

2. *Fee imposed — exemptions.* In addition to the annual registration fee required under section 321.105, a “fee for new registration” is imposed in the amount of five percent of the purchase price for each vehicle subject to registration. The fee for new registration shall be paid by the owner of the vehicle to the county treasurer at the time application is made for a new registration and certificate of title, if applicable. A new registration receipt shall not be issued until the fee has been paid. The county treasurer or the department of transportation shall require every applicant for a new registration receipt for a vehicle subject to registration to supply information as the county treasurer or the director deems necessary as to the time of purchase, the purchase price, and other information relative to the purchase of the vehicle. On or before the tenth day of each month, the county treasurer or the department of transportation shall remit to the department of revenue the amount of the fees for new registration collected during the preceding month.

a. For purposes of this subsection, “*purchase price*” applies to the measure subject to the fee for new registration. “*Purchase price*” shall be determined in the same manner as “*sales price*” is determined for purposes of computing the tax imposed upon the sales price of tangible personal property under chapter 423, pursuant to the definition of sales price in section 423.1, subject to the following exemptions:

(1) Exempted from the purchase price of any vehicle subject to registration is the amount of any cash rebate which is provided by a motor vehicle manufacturer to the purchaser of the vehicle subject to registration so long as the rebate is applied to the purchase price of the vehicle.

(2) (a) In transactions, except those subject to subparagraph division (b), in which a vehicle subject to registration is traded toward the purchase price of another vehicle subject to registration, the purchase price is only that portion of the purchase price which is valued in money, whether received in money or not, if the following conditions are met:

(i) The vehicle traded to the retailer is the type of vehicle normally sold in the regular course of the retailer’s business.

(ii) The vehicle traded to the retailer is intended by the retailer to be ultimately sold at retail or is intended to be used by the retailer or another in the remanufacturing of a like vehicle.

(b) In a transaction between persons, neither of which is a retailer of vehicles subject to registration, in which a vehicle subject to registration is traded toward the purchase price of another vehicle subject to registration, the amount of the trade-in value allowed on the vehicle subject to registration traded is exempted from the purchase price.

(c) In order for the trade-in value to be excluded from the purchase price, the name or names on the title and registration of the vehicle being purchased must be the same name or names on the title and registration of the vehicle being traded. The following trades qualify under this subparagraph division (c):

(i) A trade involving spouses, if the traded vehicle and the acquired vehicle are titled in the name of one or both of the spouses, with no outside party named on the title.

(ii) A trade involving a grandparent, parent, or child, including adopted and step relationships, if the name of one of the family members from the title of the traded vehicle is also on the title of the newly acquired vehicle.

(iii) A trade involving a business, if one of the owners listed on the title of the traded vehicle is a business, and the names on the title are separated by “or”.

(iv) A trade in which the vehicle being purchased is titled in the name of an individual

other than the owner of the traded vehicle due to the cosigning requirements of a financial institution.

(3) Exempted from the purchase price of a replacement motor vehicle owned by a motor vehicle dealer licensed under chapter 322 which is being registered by that dealer and is not otherwise exempt from the fee for new registration is the fair market value of a replaced motor vehicle if all of the following conditions are met:

(b) The motor vehicle being registered is taken from the motor vehicle dealer's inventory.

(c) Use tax or the fee for new registration on the motor vehicle being replaced was paid by the motor vehicle dealer when that motor vehicle was registered.

(d) The replaced motor vehicle is returned to the motor vehicle dealer's inventory for sale.

(e) The application for registration and title of the motor vehicle being registered is filed with the county treasurer within two weeks of the date the replaced motor vehicle is returned to the motor vehicle dealer's inventory.

(f) The motor vehicle being registered is placed in the same or substantially similar service as the replaced motor vehicle.

b. For purposes of this subsection, the fee for new registration on a vehicle registered in this state by the manufacturer of that vehicle from a manufacturer's statement of origin is calculated on the base value of fifty percent of the retail list price of the vehicle.

c. The following are exempt from the fee for new registration imposed under this subsection, as long as a valid affidavit is filed with the county treasurer at the time of application for registration:

(1) Entities listed in section 423.3, subsections 17, 18, 19, 20, 21, 22, 26, 27, 28, 31, and 79, to the extent that those entities are exempt from the tax imposed on the sale of tangible personal property, consisting of goods, wares, or merchandise, sold at retail in the state to consumers or users.

(2) Vehicles as defined in section 321.1, subsections 41, 64A, 71, 85, and 88, except such vehicles subject to registration which are designed primarily for carrying persons, when purchased for lease and actually leased to a lessee for use outside the state of Iowa and the subsequent sole use in Iowa is in interstate commerce or interstate transportation.

(3) (a) Vehicles subject to registration which are transferred from a business or individual conducting a business within this state as a sole proprietorship, partnership, or limited liability company to a corporation formed by the sole proprietorship, partnership, or limited liability company for the purpose of continuing the business when all of the stock of the corporation so formed is owned by the sole proprietor and the sole proprietor's spouse, by all the partners in the case of a partnership, or by all the members in the case of a limited liability company. This exemption is equally available where the vehicles subject to registration are transferred from a corporation to a sole proprietorship, partnership, or limited liability company formed by that corporation for the purpose of continuing the business when all of the incidents of ownership are owned by the same person or persons who were stockholders of the corporation.

(b) This exemption also applies where the vehicles subject to registration are transferred from a corporation as part of the liquidation of the corporation to its stockholders if within three months of such transfer the stockholders retransfer those vehicles subject to registration to a sole proprietorship, partnership, or limited liability company for the purpose of continuing the business of the corporation when all of the incidents of ownership are owned by the same person or persons who were stockholders of the corporation.

(c) This exemption applies to corporations that have been in existence for not longer than twenty-four months.

(4) Vehicles subject to registration which are transferred from a corporation that is primarily engaged in the business of leasing vehicles subject to registration to a corporation that is primarily engaged in the business of leasing vehicles subject to registration when the transferor and transferee corporations are part of the same controlled group for federal income tax purposes.

(5) (a) Vehicles registered or operated under chapter 326 and used substantially in

interstate commerce. For purposes of this subparagraph (5), “*substantially in interstate commerce*” means that a minimum of twenty-five percent of the miles operated by the vehicle accrues in states other than Iowa. This subparagraph (5) applies only to vehicles which are registered for a gross weight of thirteen tons or more.

(b) For purposes of this subparagraph (5), trailers and semitrailers registered or operated under chapter 326 are deemed to be used substantially in interstate commerce and to be registered for a gross weight of thirteen tons or more.

If the vehicle is found to have not met the exemption requirements or the exemption was revoked, the value of the vehicle upon which the fee for new registration shall be imposed is based on the original purchase price if revocation or nonqualification for this exemption occurs during the first year following registration. If revocation or nonqualification for this exemption occurs after the first year following registration, the value of the vehicle upon which the fee shall be imposed is the book or market value, whichever is less, at the time the exemption requirements were not met or the exemption was revoked.

(6) Vehicles, excluding autocycles, motorcycles, and motorized bicycles, subject to registration in any state when purchased for rental or registered and titled by a motor vehicle dealer licensed pursuant to chapter 322 for rental use, and held for rental for a period of one hundred twenty days or more and actually rented for periods of sixty days or less by a person regularly engaged in the business of renting vehicles, including but not limited to motor vehicle dealers licensed pursuant to chapter 322 who rent automobiles to users, if the rental of the vehicles is subject to taxation under section 423.2 or chapter 423C.

(7) Vehicles subject to registration in this state for which the applicant for registration has paid to another state a state sales, use, or occupational tax. However, if the tax paid to another state is less than the fee for new registration calculated for the vehicle, the difference shall be the amount to be collected as the fee for new registration.

(8) A vehicle subject to registration in this state which is owned by a person who has moved from another state with the intention of changing residency to Iowa, provided that the vehicle was purchased for use in the state from which the applicant moved and was not, at or near the time of purchase, purchased for use in Iowa.

(9) A vehicle that was previously registered in this state and was subsequently registered in another state is not subject to the fee for new registration when it is again registered in this state, provided that the applicant for registration has maintained ownership of the vehicle since its initial registration in this state and has previously paid the use tax or fee for new registration for the vehicle in this state.

(11) Vehicles for which ownership is transferred to or from a revocable or irrevocable trust, if no consideration is present.

(15) Vehicles purchased by a licensed wholesaler of new motor vehicles for resale.

(16) Homemade vehicles built from parts purchased at retail, upon which the consumer paid a tax to the seller, but only on such vehicles never before registered. This exemption does not apply for vehicles subject to registration which are made by a manufacturer engaged in the business for the purpose of sales or rental.

(17) Vehicles titled under a salvage certificate of title. However, when such a vehicle has

been repaired and a regular certificate of title is applied for, the fee for new registration is due as follows:

(a) If the owner of the vehicle is a licensed recycler, unless the applicant is licensed as a vehicle dealer, the fee for new registration applies based on the fair market value of the vehicle, with deduction allowed for the cost of parts, supplies, and equipment for which sales tax was paid and which were used to rebuild the vehicle.

(b) If the owner is a person who is not licensed as a recycler or vehicle dealer, the fee for new registration applies based on the fair market value of the vehicle, with deduction allowed for the cost of parts, frames, chassis, auto bodies, or supplies that were purchased to rebuild the vehicle and for which sales tax was paid.

(19) A vehicle transferred from one individual to another as a gift in a transaction in which no consideration is present.

(20) A vehicle given by a corporation as a gift to a retiring employee.

(25) Vehicles subject to registration under this chapter with a gross vehicle weight rating of less than sixteen thousand pounds when purchased for lease and titled by the lessor licensed pursuant to chapter 321F and actually leased for a period of twelve months or more if the lease of the vehicle is subject to the fee for new registration under subsection 3 or exempt from the fee for new registration pursuant to subsection 3, paragraph "f".

(a) A lessor may maintain the exemption under this subparagraph (25) for a qualifying lease that terminates at the conclusion or prior to the contracted expiration date if the lessor does not use the vehicle for any purpose other than for lease.

(b) Once the vehicle is used by the lessor for a purpose other than for lease, the exemption under this subparagraph (25) no longer applies and, unless there is another exemption from the fee for new registration, the fee for new registration is due on the fair market value of the vehicle determined at the time the lessor uses the vehicle for a purpose other than for lease, payable to the department.

(c) If the lessor holds the vehicle exclusively for sale, the fee for new registration is due and payable on the purchase price of the vehicle at the time of purchase pursuant to this subsection.

### **321.126 Refunds of annual registration fees.**

1. Refunds of unexpired annual vehicle registration fees shall be allowed in accordance

with this section, except that no refund shall be allowed and paid if the unused portion of the fee is less than ten dollars. Paragraphs “a” and “b” do not apply to vehicles registered by the county treasurer. The refunds shall be made as follows:

a. If the vehicle is destroyed by fire or accident, or junked and its identity as a vehicle entirely eliminated, the owner in whose name the vehicle was registered at the time of destruction or dismantling shall return the plates to the department and within thirty days thereafter make a statement of such destruction or dismantling and make claim for refund. With reference to the destruction or dismantling of a vehicle, no refund shall be allowed unless a junking certificate has been issued, as provided in section 321.52.

b. If the vehicle is stolen, the owner shall give notice of the theft to the department within five days. If the vehicle is not recovered by the owner thirty days prior to the end of the current registration year, the owner shall make a statement of the theft and make claim for refund.

c. If the vehicle is placed in storage by the owner upon the owner’s entry into the military service of the United States, the owner shall return the plates to the county treasurer or the department and make a statement regarding the storage and military service and make claim for refund. Whenever the owner of a vehicle so placed in storage desires to again register the vehicle, the county treasurer or department shall compute and collect the fees for registration for the registration year commencing in the month the vehicle is removed from storage.

d. If the vehicle is registered by the county treasurer during the current registration year and the owner or lessee registers the vehicle for apportioned registration under chapter 326, the owner of the registered vehicle shall surrender the registration plates to the county treasurer and may file a claim for refund. In lieu of a refund, a credit for the annual registration fees paid to the county treasurer may be applied by the department to the owner or lessee’s apportioned registration fees upon the surrender of the county plates and registration.

e. A refund for trailers and semitrailers issued a permanent registration plate pursuant to chapter 326 shall be paid by the department upon application.

f. If a vehicle is sold or junked, the owner in whose name the vehicle was registered may make claim to the county treasurer or department for a refund of the sold or junked vehicle’s annual registration fee. Also if the owner of a vehicle receives a vehicle registration fee credit under section 321.46, subsection 3, and the credit allowed exceeds the amount of the annual registration fee for the vehicle acquired, the owner may claim a refund for the balance of the credit. The refund is subject to the following limitations:

(1) If a vehicle registration fee credit has not been received by the owner of the vehicle under section 321.46, subsection 3, the refund shall be computed on the basis of the number of unexpired months remaining in the registration year at the time the vehicle was sold or junked. The refund shall be rounded to the nearest whole dollar. Section 321.127, subsection 1, does not apply.

(2) The refund shall only be allowed if the owner makes claim for the refund within six months after the date of the vehicle’s sale, trade, or junking.

(3) This paragraph “f” does not apply to vehicles registered under chapter 326.

g. If the vehicle was leased and an affidavit was filed by the lessor or the lessee as provided in section 321.46, the lessor or the lessee, as applicable, may make a claim for a refund with the county treasurer of the county where the vehicle was registered within six months of the vehicle’s surrender to the lessor. The refund shall be paid to either the lessor or the lessee, as specified on the application for title and registration pursuant to section 321.20.

h. If the owner of the vehicle moves out of state, the owner may make a claim for a refund by returning the Iowa registration plates, along with evidence of the vehicle’s registration in another jurisdiction, to the county treasurer of the county in which the vehicle was registered within six months of the out-of-state registration. For purposes of section 321.127, the unexpired months remaining in the registration year shall be calculated on the basis of the effective date of the out-of-state registration. However, for the purpose of timely issuance of the refund, the claim for a refund under this paragraph is considered to be filed on the date the registration documents are received by the county treasurer.

2. Notwithstanding any provision of this section to the contrary, there shall be no refund

of apportioned registration fees unless the state which issued the base plate for the vehicle allows such refund. If an owner subject to apportioned registration leases the vehicle for which the refund is sought, the claim shall be filed in the names of both the lessee and the lessor and the refund payment made payable to both the lessor and the lessee. The term "owner" for purposes of this section shall include a person in whom is vested right of possession or control of a vehicle which is subject to a lease, contract, or other legal arrangement vesting right of possession or control in addition to the term as defined in section 321.1, subsection 49.

2. The department, unless reasonable grounds exist for delay, shall make refund on or before the last day of the month following the month in which the claim is filed with the department.

3. For trailers or semitrailers issued a permanent registration plate, a refund shall be paid equal to the annual fee for twelve months times the remaining number of complete registration years.

A penalty shall not be less than five dollars. If the owner of a vehicle surrenders the registration plates for a vehicle prior to the plates becoming delinquent, to the county treasurer of the county where the vehicle is registered, or to the department if the vehicle is registered under chapter 326, the owner may register the vehicle any time thereafter upon payment of the annual registration fee for the registration

To avoid a penalty or an additional penalty in the case of a delinquent registration through a county treasurer, if the last calendar day of a month falls on Saturday, Sunday, or a holiday, the payment deadline is extended to include the first business day of the following month. For payments made through a county treasurer's authorized internet site only, if the last day of the month falls on a Saturday, Sunday, or a holiday, the electronic payment must be entered by midnight on the first business day of the next month. (2) (a) To be qualified to provide street or highway driving instruction, a person shall be certified by the department and authorized by the board of educational examiners. A person shall not be required to hold a current Iowa teacher or administrator license at the elementary or secondary level or to have satisfied the educational requirements for an Iowa teacher license at the elementary or secondary level in order to be certified by the department or authorized by the board of educational examiners to provide street or highway driving instruction.

A student shall not be excused from any field test if a parent, guardian, or instructor requests that a test be administered. A final field test prior to a student's completion of an approved course shall be administered by a person qualified as a classroom driver education instructor and certified to provide street and highway driving instruction. The restricted license shall be issued by the department only upon confirmation of the person's employment and need for a restricted license to travel to and from work or to transport dependents to and from temporary care facilities if necessary to maintain the person's employment. The employer shall notify the department if the employment of the person is terminated before the person attains the age of eighteen.

(2) (a) A person issued a restricted license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This subparagraph division does not apply to the use of electronic equipment which is permanently installed in the motor vehicle or to a portable device which is operated through permanently installed equipment.

(b) The department, in cooperation with the department of public safety, shall establish educational programs to foster compliance with the requirements of subparagraph division (a).

b. The department may suspend a restricted driver's license issued under this section upon receiving satisfactory evidence that the licensee has violated the restrictions imposed under paragraph "a", subparagraph (2), subparagraph division (a). The department may also suspend a restricted license issued under this section upon receiving a record of the person's conviction for one violation and shall revoke the license upon receiving a record of conviction for two or more violations of a law of this state or a city ordinance regulating the operation of motor vehicles on highways, other than parking violations as defined in section 321.210. After revoking a license under this section the department shall not grant an application for a new license or permit until the expiration of one year or until the person attains the age of eighteen, whichever is the longer period.

c. 2. *Definitions.* For purposes of this section:

a. *“Approved course”* means driver education curriculum approved by the department pursuant to rules adopted under chapter 17A. An approved course shall, at a minimum, meet the requirements of subsection 3 and be appropriate for teaching-parent-directed driver education and related street or highway instruction. Driver education materials that meet or exceed standards established by the department for an approved course in driver education for a public or private school shall be approved unless otherwise determined by the department. The list of approved courses shall be posted on the department’s internet site.

b. *“Student”* means a person between the ages of fourteen and twenty-one years who is within the custody and control of the teaching parent and who satisfies preliminary licensing requirements of the department.

c. *“Teaching parent”* means a parent, guardian, or legal custodian of a student who is currently providing competent private instruction to the student pursuant to section 299A.2 or 299A.3 and who provided such instruction to the student during the previous year; who has a valid driver’s license, other than a motorized bicycle license or a temporary restricted license, that permits unaccompanied driving; and who has maintained a clear driving record for the previous two years. For purposes of this paragraph, *“clear driving record”* means the individual has not been identified as a candidate for suspension or revocation of a driver’s license under the habitual violator or habitual offender provisions of the department’s regulations; is not subject to a driver’s license suspension, revocation, denial, cancellation, disqualification, or bar; and has no record of a conviction for a moving traffic violation determined to be the cause of a motor vehicle accident.

3. *Course of instruction.*

a. An approved course administered by a teaching parent shall consist of but not be limited to the following:

- (1) Thirty clock hours of classroom instruction.
- (2) Forty hours of street or highway driving including four hours of driving after sunset and before sunrise while accompanied by the teaching parent.

b. The content of the course of instruction required under this subsection shall be equivalent to that required under section 321.178. However, reference and study materials, physical classroom requirements, and extra vehicle safety equipment required for instruction under section 321.178 shall not be required for the course of instruction provided under this section.

4. *Course completion and certification.* Upon application by a student for an intermediate license, the teaching parent shall provide evidence showing the student’s completion of an approved course and substantial compliance with the requirements of

subsection 3 by affidavit signed by the teaching parent on a form to be provided by the department. The evidence shall include all of the following:

- a. Documentation that the instructor is a teaching parent as defined in subsection 2.

### **321.180 Instruction permits, commercial learner's permits, and chauffeur's instruction permits.**

1. a. (1) A person who is at least eighteen years of age and who, except for the person's lack of instruction in operating a motor vehicle, would be qualified to obtain a driver's license, shall, upon meeting the requirements of section 321.186 other than a driving demonstration, and upon paying the required fee, be issued an instruction permit by the department. Subject to the limitations in this subsection, an instruction permit entitles the permittee, while having the permit in the permittee's immediate possession, to operate a motor vehicle, other than a commercial motor vehicle or as a chauffeur or a motor vehicle with a gross vehicle weight rating of sixteen thousand one or more pounds, upon the highways for a period not to exceed four years from the licensee's birthday anniversary in the year of issuance. If the applicant for an instruction permit holds a driver's license issued in this state valid for the operation of a motorized bicycle or a motorcycle, the instruction permit shall be valid for such operation without the need of an accompanying person.

(2) A permittee shall not be penalized for failing to have the instruction permit in immediate possession if the permittee produces in court, within a reasonable time, an instruction permit issued to the permittee and valid at the time of the permittee's arrest or at the time the permittee was charged with failure to have the permit in the permittee's immediate possession.

b. (1) Except as otherwise provided, a permittee who is eighteen years of age or older must be accompanied by a person issued a driver's license valid for the vehicle operated who is a member of the permittee's immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five years of age, and who is actually occupying a seat beside the driver.

(2) However, if the permittee is operating a motorcycle in accordance with this section or section 321.180B, the accompanying person must be within audible and visual communications distance from the permittee and be accompanying the permittee on or in a different motor vehicle. Only one permittee shall be under the immediate supervision of an accompanying qualified person.

2. a. The department shall adopt rules to administer commercial learner's permits in compliance with the procedures set forth in 49 C.F.R. §383.73. An applicant for a commercial learner's permit must hold a valid class A, B, C, or D driver's license issued in this state, must be at least eighteen years of age, and must meet the qualifications to obtain a valid commercial driver's license, including the requirements set forth in section 321.188, except for the required driving skills test.

b. A commercial learner's permit shall be a separate document from a commercial or noncommercial driver's license. A person operating a vehicle pursuant to a commercial learner's permit shall have both the commercial learner's permit and the commercial or noncommercial driver's license issued to the person within the person's possession.

c. A commercial learner's permit shall be valid for a period not to exceed the period provided in 49 C.F.R. §383.25(c) and 49 C.F.R. §383.73(a)(2)(iii).

d. A commercial learner's permit shall be valid for the operation of a commercial motor vehicle only when the permit holder is accompanied by a holder of a valid commercial driver's license with the proper commercial driver's license group designation and endorsements necessary to operate the commercial motor vehicle, and who is at all times physically present in the front passenger seat of the vehicle, or in the case of a passenger vehicle, directly behind or in the first row behind the permit holder in a position to directly observe and supervise the permit holder.

(1) When a commercial learner's permit is issued to the holder of a commercial driver's license, this paragraph "d" only applies to the operation of a commercial motor vehicle for which the permit holder's commercial driver's license is not valid.

(2) When a commercial learner's permit is issued to the holder of a noncommercial driver's license, this paragraph "d" only applies to the operation of a commercial motor vehicle.

e. The issuance of a commercial learner's permit is a precondition to the initial issuance of a commercial driver's license. The issuance of a commercial learner's permit is also a precondition to the upgrade of a commercial driver's license if the upgrade requires a driving skills test. The holder of a commercial learner's permit is not eligible to take a driving skills test required by section 321.188 for the first fourteen days after the permit holder is issued the permit.

f. A commercial learner's permit is not valid for the operation of a vehicle transporting hazardous materials as defined in 49 C.F.R. §383.5.

3. A person, upon meeting each of the following requirements, shall be eligible to apply for a chauffeur's instruction permit valid for the operation of a motor vehicle, other than a commercial motor vehicle, as a chauffeur when the permittee is accompanied by a person, possessing a valid class D driver's license or commercial driver's license valid for the operation of the motor vehicle and the accompanying person is actually occupying a seat beside the permittee. An applicant must be at least eighteen years of age, otherwise qualified to obtain a class D driver's license, and must meet the requirements of section 321.186 other than a driving demonstration. The chauffeur's instruction permit shall be valid for a period not to exceed two years from the licensee's birthday anniversary in the year of issuance and shall be returned to the department upon issuance of a class D driver's license or commercial driver's license. If the applicant for a chauffeur's instruction permit

holds a driver's license issued under this chapter, the chauffeur's instruction permit shall be valid in the same manner as the driver's license would be for the operation of motor vehicles without the need of an accompanying person.

4. The instruction permit, chauffeur's instruction permit, and commercial learner's permit are subject to suspension or revocation for the same reasons and in the same manner as suspension or revocation of a driver's license.

5. A motorcycle instruction permit issued under this section is not renewable.

Notwithstanding other provisions of this chapter, a person with a physical disability, who is not suffering from a convulsive disorder and who can provide a favorable medical report, whose license renewal has been denied under section 321.177, subsection 6 or 7, or whose driver's license has been suspended under section 321.210, subsection 1, paragraph "a", subparagraph (3), upon meeting the requirements of section 321.186, other than a driving demonstration or elimination of the person's limitations which caused the denial under section 321.177, subsection 6 or 7, or suspension under section 321.210, subsection 1, paragraph "a", subparagraph (3), and upon paying the fee required in section 321.191, shall be issued a special instruction permit by the department. Upon issuance of the permit the denial or suspension shall be stayed and the stay shall remain in effect as long as the permit is valid.

2. a. A special instruction permit entitles the permittee, while having the permit in the permittee's immediate possession, to operate a noncommercial motor vehicle upon the highways for a period of six months from the date of issuance. However, the permittee must be accompanied by a person who is at least twenty-one years of age, who has been issued a driver's license valid for the vehicle being operated, and who is actually occupying a seat beside the permittee.

3. The permittee may apply for a driver's license if thirty days have elapsed since issuance of the special instruction permit. The department shall issue a driver's license if the permittee is qualified, passes all required tests, including a driving test, and pays the required fees. ### **321.180B Graduated driver's licenses for persons aged fourteen through seventeen.**

Persons under age eighteen shall not be issued a license or permit to operate a motor vehicle except under the provisions of this section. However, the department may issue restricted and special driver's licenses to certain minors as provided in sections 321.178 and 321.194, and driver's licenses restricted to motorized bicycles as provided in section 321.189. A license or permit shall not be issued under this section or section 321.178 or 321.194 without the consent of a parent or guardian or a person having custody of the applicant under chapter 232 or 600A. An additional consent is required each time a license or permit is issued under

this section or section 321.178 or 321.194. The consent must be signed by at least one parent, guardian, or custodian on an affidavit form provided by the department.

1. *Instruction permit.*

a. The department may issue an instruction permit to an applicant between the ages of fourteen and eighteen years if the applicant meets the requirements of sections 321.184 and 321.186, other than a driving demonstration, and pays the required fee. An instruction permit issued under this section shall be valid for a period not to exceed four years from the licensee's birthday anniversary in the year of issuance. A motorcycle instruction permit issued under this section is not renewable.

b. Subject to the limitations in this subsection, an instruction permit entitles the permittee, while having the permit in the permittee's immediate possession, to operate a motor vehicle other than a commercial motor vehicle or as a chauffeur or a motor vehicle with a gross vehicle weight rating of sixteen thousand one or more pounds upon the highways.

c. (1) Except as otherwise provided, a permittee who is less than eighteen years of age and who is operating a motor vehicle must be accompanied by a person issued a driver's license valid for the vehicle operated who is the parent, guardian, or custodian of the permittee, a member of the permittee's immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five years of age if written permission is granted by the parent, guardian, or custodian, and who is actually occupying a seat beside the driver. A permittee shall not operate a motor vehicle if the number of passengers in the motor vehicle exceeds the number of passenger safety belts in the motor vehicle. If the applicant for an instruction permit holds a driver's license issued in this state valid for the operation of a motorized bicycle or a motorcycle, the instruction permit shall be valid for such operation without the requirement of an accompanying person.

(2) If the permittee is operating a motorcycle in accordance with this section, the accompanying person must be within audible and visual communications distance from the permittee and be accompanying the permittee on or in a different motor vehicle. Only one permittee shall be under the immediate supervision of an accompanying qualified person.

d. A permittee shall not be penalized for failing to have the instruction permit in the permittee's immediate possession if the permittee produces in court, within a reasonable time, an instruction permit issued to the permittee and valid at the time of the permittee's arrest or at the time the permittee was charged with failure to have the permit in the permittee's immediate possession.

2. *Intermediate license.*

a. The department may issue an intermediate driver's license to a person sixteen or seventeen years of age who possesses an instruction permit issued under subsection 1 or a comparable instruction permit issued by another state for a minimum of twelve months immediately preceding application, and who presents an affidavit signed by a parent, guardian, or custodian on a form to be provided by the department that the permittee has accumulated a total of twenty hours of street or highway driving of which two hours were conducted after sunset and before sunrise and the street or highway driving was with the permittee's parent, guardian, custodian, instructor, a person certified by the department, or a person at least twenty-five years of age who had written permission from a parent, guardian, or custodian to accompany the permittee, and whose driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and who has been accident and violation free continuously for, the six-month period immediately preceding the application for an intermediate license. An applicant for an intermediate license must meet the requirements of section 321.186, including satisfactory completion of driver education as required in section 321.178 or 321.178A, and payment of the required license fee before an intermediate license will be issued. A person issued an intermediate license must limit the number of passengers in the motor vehicle when the intermediate licensee is operating the motor vehicle to the number of passenger safety belts. In addition, unless waived by the person's parent or guardian at the time the intermediate license is issued, for the first six months following issuance of the license, a person issued an

intermediate license must limit the number of unrelated minor passengers in the motor vehicle when the intermediate licensee is operating the motor vehicle to one, except when the intermediate licensee is accompanied in accordance with subsection 1. For purposes of this subsection, “*unrelated minor passenger*” means a passenger who is under eighteen years of age and who is not a sibling of the driver, a stepsibling of the driver, or a child who resides in the same household as the driver. The department shall prescribe the form for waiver of the six-month restriction on unrelated minor passengers, which may be in an electronic format, and shall designate characteristics for the intermediate license that shall distinguish between an intermediate license that includes the six-month restriction on unrelated minor passengers and an intermediate license that does not include the six-month restriction on unrelated minor passengers.

b. Except as otherwise provided, a person issued an intermediate license under this subsection who is operating a motor vehicle between the hours of 12:30 a.m. and 5:00 a.m. must be accompanied by a person issued a driver’s license valid for the vehicle operated who is the parent, guardian, or custodian of the intermediate licensee, a member of the intermediate licensee’s immediate family if the family member is at least twenty-one years of age, an approved driver education instructor, a prospective driver education instructor who is enrolled in a practitioner preparation program with a safety education program approved by the state board of education, or a person at least twenty-five years of age if written permission is granted by the parent, guardian, or custodian, and who is actually occupying a seat beside the driver. However, a licensee may operate a vehicle to and from school-related extracurricular activities and work without an accompanying driver between the hours of 12:30 a.m. and 5:00 a.m. if the licensee possesses a waiver on a form to be provided by the department. An accompanying driver is not required between the hours of 5:00 a.m. and 12:30 a.m.

3. *Remedial driver improvement action — suspension of permit, intermediate license, or full license.*

a. A person who has been issued an instruction permit, an intermediate license, or a full driver’s license under this section, upon conviction of a moving traffic violation or involvement in a motor vehicle accident which occurred during the term of the instruction permit or intermediate license, shall be subject to remedial driver improvement action or suspension of the permit or current license. A person possessing an instruction permit who has been convicted of a moving traffic violation or has been involved in an accident shall not be issued an intermediate license until the person has completed the remedial driver improvement action and has been accident and violation free continuously for the six-month period immediately preceding the application for the intermediate license. A person possessing an intermediate license who has been convicted of a moving traffic violation or has been involved in an accident shall not be issued a full driver’s license until the person has completed the remedial driver improvement action and has been accident and violation free continuously for the twelve-month period immediately preceding the application for a full driver’s license.

b. The department may suspend an instruction permit, intermediate license, or full license issued under this section upon receiving satisfactory evidence that the person issued the instruction permit, intermediate license, or full license violated the restrictions imposed under subsection 1, 2, or 6 during the term of the instruction permit or intermediate license.

4. *Full driver’s license.* A full driver’s license may be issued to a person seventeen years of age who possesses an intermediate license issued under subsection 2 or a comparable intermediate license issued by another state for a minimum of twelve months immediately preceding application, and who presents an affidavit signed by a parent, guardian, or custodian on a form to be provided by the department that the intermediate licensee has accumulated a total of ten hours of street or highway driving of which two hours were conducted after sunset and before sunrise and the street or highway driving was with the licensee’s parent, guardian, custodian, instructor, a person certified by the department, or a person at least twenty-five years of age who had written permission from a parent, guardian, or custodian to accompany the licensee, whose driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and who has been accident

and violation free continuously for, the twelve-month period immediately preceding the application for a full driver's license, and who has paid the required fee.

5. *Class M license education requirements.* A person under the age of eighteen applying for an intermediate or full driver's license valid for the operation of a motorcycle shall be required to successfully complete a motorcycle education course either approved and established by the department of transportation or from a private or commercial driver education school licensed by the department of transportation before the class M license will be issued. A public school district shall charge a student a fee which shall not exceed the actual cost of instruction minus moneys received by the school district under section 321.179.

6. *Use of electronic devices or equipment.*

a. A person issued an instruction permit or intermediate driver's license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This paragraph does not apply to the use of electronic equipment which is permanently installed in the motor vehicle or to a portable device which is operated through permanently installed equipment.

b. The department, in cooperation with the department of public safety, shall establish educational programs to foster compliance with the requirements of paragraph "a".

7. *Citations for violation of restrictions.* A person who violates the restrictions imposed under subsection 1, 2, or 6 may be issued a citation under this section and shall not be issued a citation under section 321.193. A violation of the restrictions imposed under subsection 1, 2, or 6 shall not be considered a moving violation.

8. *Rules.* The department may adopt rules pursuant to chapter 17A to administer this section.

#### **321.186 Examination of new or incompetent operators.**

1. The department may examine every new applicant for a driver's license or any person holding a valid driver's license when the department has reason to believe that the person may be physically or mentally incompetent to operate a motor vehicle, or whose driving record appears to the department to justify the examination. The department shall make every effort to accommodate a functionally illiterate applicant when the applicant is taking a knowledge test. The department shall make every effort to have an examiner conduct the commercial driver's license driving skills tests at other locations in this state where skills may be adequately tested when requested by a person representing ten or more drivers requiring driving skills testing.

2. The department shall make every effort to accommodate a commercial driver's license applicant's need to arrange an appointment for a driving skills test at an established test site other than where the applicant passed the required knowledge test. The department shall report to the governor and the general assembly on any problems, extraordinary costs, and recommendations regarding the appointment scheduling process.

3. The examination shall include a screening of the applicant's eyesight, a test of the applicant's ability to read and understand highway signs regulating, warning, and directing traffic, a test of the applicant's knowledge of the traffic laws of this state, an actual demonstration of ability to exercise ordinary and reasonable control in the operation of a motor vehicle, and other physical and mental examinations as the department finds necessary to determine the applicant's fitness to operate a motor vehicle safely upon the highways. 4. A physician licensed under chapter 148, an advanced registered nurse practitioner licensed under chapter 152, a physician assistant licensed under chapter 148C, or an optometrist licensed under chapter 154 may report to the department the identity of a person who has been diagnosed as having a physical or mental condition which would render the person physically or mentally incompetent to operate a motor vehicle in a safe manner. The physician, advanced registered nurse practitioner, physician assistant, or optometrist shall make reasonable efforts to notify the person who is the subject of the report, in writing. The written notification shall state the nature of the disclosure and the reason for the disclosure. A physician, advanced registered nurse practitioner, physician assistant, or optometrist making a report under this section shall be immune from any liability, civil or criminal, which might otherwise be incurred or imposed as a result of the report. A physician, advanced registered nurse practitioner, physician assistant, or optometrist has no duty to make a report or to warn third parties with regard to any knowledge concerning a person's mental or physical competency to operate a motor vehicle in a safe manner. Any report received by the department from a physician, advanced registered nurse practitioner, physician assistant, or

optometrist under this section shall be kept confidential. Information regulated by chapter 141A shall be subject to the confidentiality provisions and remedies of that chapter.

### **321.186A Vision report in lieu of vision test.**

1. An applicant for a new or renewed driver's license need not take a vision test administered by the department if the applicant files with the department a vision report signed by a licensed vision specialist in accordance with this section.

2. An applicant for such a new or renewed driver's license who fails a vision test administered by the department may subsequently be issued the driver's license without need of passing a department administered vision test, if the applicant files with the department a vision report from a licensed vision specialist in accordance with this section.

3. The vision report shall state the visual acuity level of the applicant as measured by the vision specialist and shall be in the form and include other information as required by rule of the department. A vision report is valid only if the visual acuity level of the applicant has been measured by the licensed vision specialist within thirty days before the application for the new or renewed driver's license.

1. The department shall examine applicants for driver's licenses. Examiners of the department shall wear an identifying badge and uniform provided by the department.

2. The department may by rule designate community colleges established under chapter 260C and other third-party testers to administer the driving skills test required for a commercial driver's license, provided that all of the following occur:

b. The third-party tester contractually agrees to comply with the requirements of 49 C.F.R. §383.75 as adopted by rule by the department.

c. Any third-party skills test examiner used by the third-party tester shall meet the requirements of 49 C.F.R. §383.75 and 49 C.F.R. §384.228, as adopted by rule by the department. The department shall adopt rules requiring that a third-party tester, other than a community college established under chapter 260C, shall be an Iowa-based motor carrier, or its subsidiary, that has its principal office within this state and operates a permanent commercial driver training facility in this state. The rules may also provide that a third-party tester conduct a number of skills test examinations above the number required under 49 C.F.R. §383.75 in order to remain qualified as a third-party tester under this section.

3. As used in this section, "*third-party tester*" and "*third-party skills test examiner*" mean as defined in 49 C.F.R. §383.5.

a. Certify whether the applicant is subject to and meets applicable driver qualifications of 49 C.F.R. pt. 391 as adopted by rule by the department.

b. Certify the applicant is not subject to any commercial driver's license disqualification and has committed no offense and has not acted in a manner which either alone or with previous actions or offenses could result in commercial driver's license disqualification.

c. Successfully pass knowledge tests and driving skills tests, provide self-certification of type of driving, provide a medical examiner's certificate prepared by a medical examiner, as defined in 49 C.F.R. §390.5, and provide all other required information, proofs, and certificates, as required by rule by the department. The rules adopted shall substantially comply with the federal minimum testing and licensing requirements in 49 C.F.R. pt. 383, subpts. E, G, and H, as adopted by rule by the department. (1) Class A — Valid for the operation of vehicles with a gross combination weight rating of twenty-six thousand one or more pounds if the towed vehicle or vehicles have a gross vehicle weight rating or gross combination weight rating of ten thousand one or more pounds, and also valid for the operation of vehicles with lower gross combination weight ratings and other vehicles except motorcycles.

(2) Class B — Valid for the operation of a vehicle with a gross vehicle weight rating

of twenty-six thousand one or more pounds or a combination of vehicles with a gross combination weight rating of twenty-six thousand one or more pounds if the towing vehicle has a gross vehicle weight rating of twenty-six thousand one or more pounds and the towed vehicle or vehicles have a gross vehicle weight rating or gross combination weight rating of less than ten thousand one pounds, and also valid for the operation of vehicles with lower gross vehicle weight ratings or gross combination weight ratings except motorcycles.

(3) Class C — Valid for the operation of a vehicle, other than a motorcycle, or a combination of vehicles with a gross combination weight rating of twenty-six thousand one or more pounds provided the towing vehicle has a gross vehicle weight rating of less than twenty-six thousand one pounds and each towed vehicle has a gross vehicle weight rating of less than ten thousand one pounds, or a combination of vehicles with a gross vehicle weight rating or gross combination weight rating of less than twenty-six thousand one pounds and also valid for the operation of any vehicle, other than a motorcycle, for which the operator is exempt from commercial driver's license requirements under section 321.176A.

(4) Class D — Valid for the operation of a motor vehicle as a chauffeur.

(5) Class M — Valid for the operation of a motorcycle.

b. A driver's license may be issued for more than one class. Class A and B driver's licenses shall only be issued as commercial driver's licenses. Class C and M driver's licenses may be issued as commercial driver's licenses. A driver's license is not valid for the operation of a vehicle requiring an endorsement unless the driver's license is endorsed for the vehicle. A class D driver's license is also valid as a noncommercial class C driver's license. The holder of a commercial driver's license is not required to obtain a class D driver's license to operate a motor vehicle as a chauffeur. When necessary, the department shall by rule create additional classes or modify existing classes of driver's licenses, however, the rule shall be temporary and if within sixty days after the next regular session of the general assembly convenes the general assembly has not made corresponding changes in this chapter, the temporary classification or modification shall be nullified.

2. *Content of license.*

a. Appearing on the driver's license shall be a distinguishing number assigned to the licensee; the licensee's full name, date of birth, sex, and residence address; a color photograph; a physical description of the licensee; the name of the state; the dates of issuance and expiration; and the usual signature of the licensee. The license shall identify the class of vehicle the licensee may operate and the applicable endorsements and restrictions which the department shall require by rule.

b. A commercial driver's license shall include the licensee's address as required under federal regulations, and the words "commercial driver's license" or "CDL" shall appear prominently on the face of the license. If the applicant is a nonresident, the license must conspicuously display the word "nondomiciled".

c. The department shall assign an applicant for a driver's license a distinguishing driver's license number other than the applicant's social security number.

d. The license may contain other information as required under the department's rules.

3. *Replacement.* If prior to the renewal date, a person desires to obtain a driver's license in the form authorized by this section, a license may be issued as a voluntary replacement upon payment of the required fee as set by the department by rule. A person shall return a driver's license and be issued a new license when the first license contains inaccurate information upon payment of the required fee as set by the department by rule.

4. *Symbols.* Upon the request of a licensee, the department shall indicate on the license the presence of a medical condition, that the licensee is a donor under the revised uniform anatomical gift Act as provided in chapter 142C, or that the licensee has in effect a medical advance directive. For purposes of this subsection, a medical advance directive includes but is not limited to a valid durable power of attorney for health care as defined in section 144B.1. The license may contain such other information as the department may require by rule.

5. *Tamperproofing.* The department shall issue a driver's license by a method or process which prevents as nearly as possible the alteration, reproduction, or superimposition of a photograph on the license without ready detection.

6. *Licenses issued to persons under age twenty-one.* A driver's license issued to a person under eighteen years of age shall contain the same information as any other driver's license except that the words "under eighteen" shall appear prominently on the face of the license. A driver's license issued to a person eighteen years of age or older but less than twenty-one years of age shall contain the same information as any other driver's license except that the words "under twenty-one" shall appear prominently on the face of the license. Upon attaining the age of eighteen or upon attaining the age of twenty-one, and upon payment of a ten dollar fee, the person shall be entitled to a new driver's license or nonoperator's identification card for the unexpired months of the driver's license or card. An instruction permit or intermediate license issued under section 321.180B, subsection 1 or 2, shall include a distinctive color bar. An intermediate license issued under section 321.180B, subsection 2, shall include the words "intermediate license" printed prominently on the face of the license.

7. *Motorized bicycle.*

a. The department may issue a driver's license valid only for operation of a motorized bicycle to a person fourteen years of age or older who has passed a vision test or who files a vision report as provided in section 321.186A which shows that the applicant's visual acuity level meets or exceeds those required by the department and who passes a written examination on the rules of the road. A person under the age of sixteen applying for a driver's license valid only for operation of a motorized bicycle shall also be required to successfully complete a motorized bicycle education course approved and established by the department or successfully complete an approved motorized bicycle education course at a private or commercial driver education school licensed by the department. A public school district shall charge a student a fee which shall not exceed the actual cost of instruction. A driver's license valid only for operation of a motorized bicycle entitles the licensee to operate a motorized bicycle upon the highway while having the license in the licensee's immediate possession. The license is valid for a period not to exceed two years from the licensee's birthday anniversary in the year of issuance, subject to termination or cancellation as provided in this section.

b. A driver's license valid only for operation of a motorized bicycle shall be canceled upon a conviction for a moving traffic violation and reapplication may be made thirty days after the date of cancellation. The cancellation of the license upon conviction for a moving traffic violation shall not result in requiring the applicant to maintain proof of financial responsibility under section 321A.17, unless the conviction would otherwise result in a suspension or revocation of a person's driver's license.

c. As used in this section, "*moving traffic violation*" does not include a parking violation as defined in section 321.210 or a violation of a section of the Code or municipal ordinance pertaining to standards to be maintained for motor vehicle equipment except sections 321.430 and 321.431, or except a municipal ordinance pertaining to motor vehicle brake requirements as applicable to motorized bicycles.

d. The holder of any class of driver's license may operate a motorized bicycle.

e. A person who violates this subsection commits a simple misdemeanor.

8. *Veterans status.* A licensee who is an honorably discharged veteran of the armed forces of the United States may request that the license be marked to reflect the licensee's veteran status. Upon such a request, the word "VETERAN" shall be marked prominently on the face of the license. Such a license shall be issued upon receipt of satisfactory proof of veteran status pursuant to procedures established by the department in consultation with the department of veterans affairs, or upon presentation of the licensee's certification of release or discharge from active duty, DD form 214, to the department at the time of the licensee's request, if the form indicates the licensee was honorably discharged. If the license is issued upon presentation of the licensee's certification of release or discharge from active duty, DD form 214, the department shall notify the commission of veteran affairs of the county of the licensee's residence that the licensee was issued a license marked to reflect the licensee's

veteran status. After receiving notification from the department, the commission of veteran affairs shall initiate contact with the licensee.

### **321.194 Special minor's licenses.**

1. *Persons eligible.* The department may issue a class C or M driver's license to a person between the ages of fourteen and eighteen years if all of the following apply:

a. The person's driving privileges have not been suspended, revoked, or barred under this chapter or chapter 321J during, and the person has not been convicted of a moving traffic violation or involved in a motor vehicle accident for, the six-month period immediately preceding the application for the special minor's license.

b. The person has successfully completed an approved driver education course. However, the completion of a course is not required if the applicant demonstrates to the satisfaction of the department that completion of the course would impose a hardship upon the applicant. The department shall adopt rules defining the term "*hardship*" and establish procedures for the demonstration and determination of when completion of the course would impose a hardship upon an applicant.

c. The person's school has certified to the department that the person has a special need for the license pursuant to subsection 3.

2. *Driving privileges.*

a. *Permitted operations.* The driver's license entitles the licensee, while having the license in immediate possession, to operate a motor vehicle, other than a commercial motor vehicle or as a chauffeur, during the times and for the purposes set forth in this paragraph.

(1) If the licensee attends a public school, the licensee may operate a motor vehicle during the hours of 5:00 a.m. to 10:00 p.m. as follows:

(a) Over the most direct and accessible route between the licensee's residence and schools of enrollment or the closest school bus stop or public transportation service, and between schools of enrollment, for the purpose of attending duly scheduled courses of instruction and extracurricular activities within the school district of enrollment.

(b) Over the most direct and accessible route between the licensee's residence or school of enrollment and a site, facility, or school that is not the licensee's school of enrollment, for the purpose of participating in extracurricular activities conducted under a sharing agreement with the licensee's school of enrollment or conducted at a site, facility, or school designated by the licensee's school district for the accommodation of the school's extracurricular activities, provided the site, facility, or school is within the licensee's school district of enrollment or is within a school district contiguous to the licensee's school district of enrollment.

(2) If the licensee attends an accredited nonpublic school, the licensee may operate a motor vehicle during the hours of 5:00 a.m. to 10:00 p.m. as follows:

(a) Over the most direct and accessible route between the licensee's residence and schools of enrollment or the closest school bus stop or public transportation service, and between schools of enrollment, for the purpose of attending duly scheduled courses of instruction and extracurricular activities, provided the driving distance between the point of origin and the destination is no more than twenty-five miles.

(b) Over the most direct and accessible route between the licensee's residence or school of enrollment and a site, facility, or school that is not the licensee's school of enrollment, for the purpose of participating in extracurricular activities conducted at a site, facility, or school designated by the licensee's school of enrollment for the accommodation of the

school's extracurricular activities, provided the driving distance between the point of origin and the destination is no more than twenty-five miles.

(3) To a service station for the purpose of refueling, so long as the service station is the station closest to the route on which the licensee is traveling under subparagraph (1) or (2).

(4) At any time when the licensee is accompanied in accordance with section 321.180B, subsection 1.

*b. Restrictions.*

(1) *Passengers.* Unless accompanied in accordance with section 321.180B, subsection 1, a person issued a driver's license pursuant to this section must limit the number of unrelated minor passengers in the motor vehicle when the licensee is operating the motor vehicle to one. For purposes of this section, "unrelated minor passenger" means a passenger who is under eighteen years of age and who is not a sibling of the driver, a stepsibling of the driver, or a child who resides in the same household as the driver.

(2) *Electronic communication devices.* A person issued a driver's license under this section shall not use an electronic communication device or an electronic entertainment device while driving a motor vehicle unless the motor vehicle is at a complete stop off the traveled portion of the roadway. This subparagraph does not apply to the use of electronic equipment which is permanently installed in the motor vehicle or to a portable device which is operated through permanently installed equipment. The department, in cooperation with the department of public safety, shall establish educational programs to foster compliance with the requirements of this subparagraph.

*3. Certification of need and issuance of license.*

*a.* Each application shall be accompanied by a statement from the applicant's school of enrollment. The statement shall be upon a form provided by the department and shall certify that a need exists for the license and that the person signing the statement is not responsible for actions of the applicant which pertain to the use of the driver's license.

(1) If the applicant attends a public school, the certification shall be made by the school board, superintendent of the applicant's school, or principal, if authorized by the superintendent.

(2) If the applicant attends an accredited nonpublic school, the certification shall be made by the authorities in charge of the accredited nonpublic school or a duly authorized representative of the authorities.

*b.* Upon receipt of a statement of necessity, the department shall issue the driver's license provided the applicant is otherwise eligible for issuance of the license. The fact that the applicant resides at a distance less than one mile from the applicant's school of enrollment is prima facie evidence of the nonexistence of necessity for the issuance of a license.

*c.* The school shall develop and adopt a policy establishing the criteria that the school shall use to approve or deny certification that a need exists for a license. If the school is a public school, the policy shall be developed and adopted by the school board. If the school is an accredited nonpublic school, the policy shall be developed and adopted according to procedures determined by the authorities in charge of the accredited nonpublic school.

*d.* A student enrolled in a public school may appeal to the school board the decision of a school district administrator to deny certification. A student enrolled in an accredited nonpublic school may appeal the school's decision to deny certification as permitted by the authorities in charge of the accredited nonpublic school. The decision of the school board or authorities in charge of the accredited nonpublic school is final.

*e.* The driver's license shall not be issued for purposes of attending a public school in a school district other than either of the following:

(1) The district of residence of the parent or guardian of the student.

(2) A district which is contiguous to the district of residence of the parent or guardian of the student, if the student is enrolled in the public school which is not the school district of residence because of open enrollment under section 282.18 or as a result of an election by the student's district of residence to enter into one or more sharing agreements pursuant to the procedures in chapter 282.

*f.* The driver's license shall not be issued for purposes of attending an accredited

nonpublic school if the driving distance between the school and the residence of the parent or guardian of the student is more than twenty-five miles.

4. *Suspension and revocation.* A driver's license issued under this section is subject to suspension or revocation for the same reasons and in the same manner as suspension or revocation of any other driver's license. The department may also suspend a driver's license issued under this section upon receiving satisfactory evidence that the licensee has violated the restrictions of the license or has been involved in one or more accidents chargeable to the licensee. The department may suspend a driver's license issued under this section upon receiving a record of the licensee's conviction for one violation. The department shall revoke the license upon receiving a record of conviction for two or more violations of a law of this state or a city ordinance regulating the operation of motor vehicles on highways other than parking violations as defined in section 321.210. After a person licensed under this section receives two or more convictions which require revocation of the person's license under this section, the department shall not grant an application for a new driver's license until the expiration of thirty days.

5. *Citations for violation of restrictions.* A person who violates the restrictions imposed under subsection 2 may be issued a citation under this section and shall not be issued a citation under section 321.193. A violation of the restrictions imposed under subsection 2 shall not be considered a moving violation.

### **321.196 Expiration of license — renewal.**

1. Except as otherwise provided, if the licensee is between the ages of seventeen years eleven months and seventy-two years on the date of issuance of the license, a driver's license, other than an instruction permit, chauffeur's instruction permit, or commercial learner's permit issued under section 321.180, expires eight years from the licensee's birthday anniversary occurring in the year of issuance, but not to exceed the licensee's seventy-fourth birthday. If the licensee is under the age of seventeen years eleven months or age seventy-two or over, the license is effective for a period of two years from the licensee's birthday anniversary occurring in the year of issuance. A licensee whose license is restricted due to vision or other physical deficiencies may be required to renew the license every two years. If a licensee is a foreign national who is temporarily present in this state, the license

shall be issued only for the length of time the foreign national is authorized to be present as verified by the department, not to exceed two years.

2. Except as required in section 321.188, and except for a motorcycle instruction permit issued in accordance with section 321.180 or 321.180B, a driver's license is renewable without a driving test or written examination within a period of one year after its expiration date. A person shall not be considered to be driving with an invalid license during a period of sixty days following the license expiration date. However, for a license renewed within the sixty-day period, the date of issuance shall be considered to be the previous birthday anniversary on which it expired.

3. For the purposes of this section, the birthday anniversary of a person born on February 29 shall be deemed to occur on March 1.

4. The department in its discretion may authorize the renewal of a valid driver's license other than a commercial driver's license or commercial learner's permit upon application without an examination provided that the applicant meets one of the following conditions:

a. The applicant satisfactorily passes a vision test as prescribed by the department.

b. The applicant files a vision report in accordance with section 321.186A which shows that the applicant's visual acuity level meets or exceeds those required by the department.

c. The applicant is eligible for license renewal electronically, pursuant to rules adopted by the department. An applicant shall not be eligible for electronic renewal of a driver's license if the most recent previous renewal of the applicant's driver's license occurred electronically.

The effective date of a valid driver's license issued under the laws of this state, held by any person at the time of entering the military service of the United States or of the state of Iowa, notwithstanding the expiration of the license according to its terms, is extended without fee until six months following the initial separation from active duty of the person from the military service, provided the person is not suffering from physical disabilities which impair the person's competency as an operator, and provided further that the licensee shall furnish, upon demand of any peace officer, satisfactory evidence of the person's military service. However, a person entitled to the benefits of this section who is charged with operating a motor vehicle without a valid driver's license shall not be convicted if the person produces in court, within a reasonable time, a valid driver's license previously issued to that person along with satisfactory evidence of the person's military service as provided in this paragraph.

b. The department is authorized to renew any driver's license falling within the provisions and limitations of paragraph "a", without examination, upon application and payment of fee made within six months following separation from the military service.

A person who produces a valid driver's license previously issued to the person along with the person's common access card or DD214 shall not be required to produce any additional documentation to satisfy the requirements of paragraph "a".

2. The provisions of this section shall also apply to the spouse and children, or ward of military personnel when such spouse, children, or ward are living with the military personnel described in subsection 1 outside of the state of Iowa and provided that such extension of license does not exceed five years.

3. If a person has had the record of issuance of the person's driver's license removed from the department's records, the person shall have the person's record of driver's license issuance reentered by the department upon request if the request is accompanied by a letter from the applicable person's commanding officer verifying the military service.

If a person discovers a record of conviction for a scheduled violation under this chapter was entered by fraudulent use of the person's name or by use of other fraudulent identification, the person may, within one year of the date of the discovery of the conviction, submit a written application to the department to investigate the allegation. The department may summarily reject the application as submitted or proceed to investigate the application. If the department investigates the application, the department may either deny the application or, if the department determines the allegation is warranted, approve the application. 2. A person who discovers that a record of conviction for a scheduled violation under this chapter was entered by fraudulent use of the person's name or by use of other fraudulent identification may bypass the application process in subsection 1 and move in district court to set aside the judgment of conviction within one year of discovery of the conviction. An applicant with an approved application under subsection 1 shall also move in district court to set aside the judgment of conviction in order to have the department expunge or alter the records of the department or rescind or modify an administrative sanction. Upon receiving a copy of an order from the district court setting aside the previous judgment of the court, the department shall expunge the record and shall rescind any administrative sanction imposed upon the applicant as a result of the judgment, unless the applicant is subject to sanctions for other reasons. The department may impose a new sanction if expunging the judgment would result in a lesser or different sanction.

4. The department shall adopt rules pursuant to chapter 17A to implement this section.
