2. a. A prescriber who dispenses prescription drugs, including but not limited to controlled substances, for human use, may delegate nonjudgmental dispensing functions to staff assistants only when verification of the accuracy and completeness of the dispensing is determined by the practitioner in the practitioner’s physical presence. However, the physical presence requirement does not apply when a practitioner is utilizing an automated dispensing system. When using an automated dispensing system, the practitioner shall utilize an internal quality control assurance plan that ensures accuracy for dispensing. Verification of automated dispensing accuracy and completeness remains the responsibility of the practitioner and shall be determined in accordance with rules adopted by the board of medicine, the dental board, the board of podiatry, and the board of psychology for their respective licensees.

b. A prescriber who dispenses prescription drugs, other than drug samples, pursuant to this subsection, shall report the fact that they dispense prescription drugs with the practitioner’s respective board at least biennially.

d. A pharmacist who dispenses prescription drugs, including but not limited to controlled substances, for human use, may delegate nonjudgmental dispensing functions only when verification of the accuracy and completeness of the dispensing is determined by the pharmacist in the pharmacist’s physical presence. The pharmacist’s verification of the accuracy of the prescription drug dispensed shall not be required when verified by a certified pharmacy technician in a technician product verification program or a tech-check-tech program as defined in section 155A.3. The pharmacist’s physical presence shall not be required when the pharmacist is remotely supervising pharmacy personnel operating in an approved telepharmacy site or when utilizing an automated dispensing system that utilizes an internal quality control assurance plan. Prescription drugs supplied under the provisions of this subsection shall be supplied for the purpose of accommodating the patient and shall not be sold for more than the cost of the drug and reasonable overhead costs, as they relate to supplying prescription drugs to the patient, and not at a profit to the physician or the physician assistant. If prescription drug supplying authority is delegated by a supervising physician to a physician assistant, a nurse or staff assistant may assist the physician assistant in providing that service. Rules shall be adopted by the board of physician assistants, after consultation with the board of pharmacy, to implement this subsection.

5. Notwithstanding subsection 1 and any other provision of this section to the contrary, a physician may delegate the function of prescribing drugs, controlled substances, and medical devices to a physician assistant licensed pursuant to chapter 148C. When delegated prescribing occurs, the supervising physician's name shall be used, recorded, or otherwise indicated in connection with each individual prescription so that the individual who dispenses or administers the prescription knows under whose delegated authority the physician assistant is prescribing. Rules relating to the authority of physician assistants to prescribe drugs, controlled substances, and medical devices pursuant to this subsection shall be adopted by the board of physician assistants, after consultation with the board of medicine and the board of pharmacy. However, the rules shall prohibit the prescribing of schedule II controlled substances which are listed as depressants pursuant to chapter 124.

However, such information relating to licensee discipline may be disclosed to an appropriate licensing authority in any jurisdiction in which the licensee is licensed or has applied for a license. If such information indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. Any final written decision and finding of fact by a licensing board in a disciplinary proceeding is a public record. Upon appeal by a licensee of a decision of a board, the entire case record shall be submitted to the reviewing court. However, the deliberations, testimony, decisions, conclusions, findings, recommendations, evaluations, work product, or opinions of a peer review committee or its members and those portions of any documents or records containing or revealing information relating thereto shall not be subject to the board’s request for information, subpoena, or other legal compulsion. 95 Acts, ch 40, §2

#### **147A.22 Legislative findings and intent — purpose.**

The general assembly finds the following:

1. Trauma is a serious health problem in the state of Iowa and is the leading cause of death of younger Iowans. The death and disability associated with traumatic injury contributes to the significant medical expenses and lost work, and adversely affects the productivity of Iowans.

2. Optimal trauma care is limited in many parts of the state. With health care delivery in transition, access to quality trauma and emergency medical care continues to challenge our rural communities.

3. The goal of a statewide trauma care system is to coordinate the medical needs of the injured person with an integrated system of optimal and cost-effective trauma care. The result of a well-coordinated statewide trauma care system is to reduce the incidences of inadequate trauma care and preventable deaths, minimize human suffering, and decrease the costs associated with preventable mortality and morbidity.

4. The development of the Iowa trauma care system will achieve these goals while meeting the unique needs of the rural residents of the state.

95 Acts, ch 40, §3

#### **147A.23 Trauma care system development.**

1. The department is designated as a lead agency in this state responsible for the development of a statewide trauma care system.

2. The department, in consultation with the trauma system advisory council, shall develop, coordinate, and monitor a statewide trauma care system. This system shall include, but not be limited to, the following:

a. The categorization of all hospitals and emergency care facilities by the department as to their capacity to provide trauma care services. The categorization shall be determined by the department from self-reported information provided to the department by the hospital or emergency care facility. This categorization shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at the hospital or emergency care facility.

b. The issuance of a certificate of verification of all categorized hospitals and emergency care facilities from the department at the level preferred by the hospital or emergency care facility. The standards and verification process shall be established by rule and may vary as appropriate by level of trauma care capability. To the extent possible, the standards and verification process shall be coordinated with other applicable accreditation and licensing standards.

c. Upon verification and the issuance of a certificate of verification, a hospital or emergency care facility agrees to maintain a level of commitment and resources sufficient to meet responsibilities and standards as required by the trauma care criteria established by rule under this subchapter. Verifications are valid for a period of three years or as determined by the department and are renewable. As part of the verification and renewal process, the department may conduct periodic on-site reviews of the services and facilities of the hospital or emergency care facility.

d. The department is responsible for the funding of the administrative costs of this subchapter. Any funds received by the department for this purpose shall be deposited in the emergency medical services fund established in section 135.25.

## CHAPTER 147B

### INTERSTATE MEDICAL LICENSURE COMPACT

147B.1 Interstate medical licensure compact.

#### **147B.1 Interstate medical licensure compact.**

1. *Purpose.*

a. In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the interstate medical licensure compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state medical boards and provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The compact creates another pathway for licensure and does not otherwise change a state's existing medical practice Act. The compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located.

b. State medical boards that participate in the compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the compact.

2. *Definitions.* In this compact:

a. "Bylaws" means those bylaws established by the interstate commission pursuant to subsection 11 for its governance, or for directing and controlling its actions and conduct.

b. "Commissioner" means the voting representative appointed by each member board pursuant to subsection 11.

c. "Conviction" means a finding by a court that an individual is guilty of a criminal offense through adjudication, or entry of a plea of guilt or no contest to the charge by the offender. Evidence of an entry of a conviction of a criminal offense by the court shall be considered final for purposes of disciplinary action by a member board.

d. "Expedited license" means a full and unrestricted medical license granted by a member state to an eligible physician through the process set forth in the compact.

g. "Medical practice act" means laws and regulations governing the practice of allopathic and osteopathic medicine within a member state.

h. "Member board" means a state agency in a member state that acts in the sovereign interests of the state by protecting the public through licensure, regulation, and education of physicians as directed by the state government.

i. "Member state" means a state that has enacted the compact.

j. "Offense" means a felony, gross misdemeanor, or crime of moral turpitude.

k. "Physician" means any person who satisfies all of the following:

(2) Passed each component of the United States medical licensing examination or the comprehensive osteopathic medical licensing examination within three attempts, or any of its predecessor examinations accepted by a state medical board as an equivalent examination for licensure purposes.

(3) Successfully completed graduate medical education approved by the accreditation council for graduate medical education or the American osteopathic association.

(4) Holds specialty certification or a time-unlimited specialty certificate recognized by the

American board of medical specialties or the American osteopathic association's bureau of osteopathic specialists.

(5) Possesses a full and unrestricted license to engage in the practice of medicine issued by a member board.

(6) Has never been convicted, received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction.

(7) Has never held a license authorizing the practice of medicine subjected to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to nonpayment of fees related to a license.

(8) Has never had a controlled substance license or permit suspended or revoked by a state or the United States drug enforcement administration.

*m. "Rule"* means a written statement by the interstate commission promulgated pursuant to subsection 12 that is of general applicability, implements, interprets, or prescribes a policy or provision of the compact, or an organizational, procedural, or practice requirement of the interstate commission, and has the force and effect of statutory law in a member state, and includes the amendment, repeal, or suspension of an existing rule.

*n. "State"* means any state, commonwealth, district, or territory of the United States.

(1) Static qualifications, which include verification of medical education, graduate medical education, results of any medical or licensing examination, and other qualifications

as determined by the interstate commission through rule, shall not be subject to additional primary source verification where already primary source-verified by the state of principal license.

(2) The member board within the state selected as the state of principal license shall, in the course of verifying eligibility, perform a criminal background check of an applicant, including the use of the results of fingerprint or other biometric data checks compliant with the requirements of the federal bureau of investigation, with the exception of federal employees who have suitability determination in accordance with 5 C.F.R. §731.202.

(3) Appeal on the determination of eligibility shall be made to the member state where the application was filed and shall be subject to the law of that state.

c. Upon verification in paragraph “b”, physicians eligible for an expedited license shall complete the registration process established by the interstate commission to receive a license in a member state selected pursuant to paragraph “a”, including the payment of any applicable fees.

d. After receiving verification of eligibility under paragraph “b” and any fees under paragraph “c”, a member board shall issue an expedited license to the physician. This license shall authorize the physician to practice medicine in the issuing state consistent with the medical practice act and all applicable laws and regulations of the issuing member board and member state.

e. An expedited license shall be valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

g. The interstate commission is authorized to develop rules regarding the application process, including payment of any applicable fees, and the issuance of an expedited license.

6. *Fees for expedited licensure.*

If a license granted to a physician by the member board in the state of principal license is revoked, surrendered, or relinquished in lieu of discipline, or suspended, then all licenses issued to the physician by member boards shall automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the medical practice Act of that state.

c. If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided and either:

(1) Impose the same or lesser sanctions against the physician so long as such sanctions are consistent with the medical practice Act of that state, or

(2) Pursue separate disciplinary action against the physician under its respective medical practice Act, regardless of the action taken in other member states.

d. If a license granted to a physician by a member board is revoked, surrendered, or relinquished in lieu of discipline, or suspended, then any licenses issued to the physician by any other member boards shall be suspended, automatically and immediately without further action necessary by the other member boards, for ninety days upon entry of the order by the disciplining board, to permit the member boards to investigate the basis for the action under the medical practice Act of that state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the ninety-day suspension period in a manner consistent with the medical practice Act of that state.

11. *Interstate medical licensure compact commission.*

b. The interstate commission shall elect or appoint annually from among its commissioners a chairperson, a vice chairperson, and a treasurer, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson, or in the chairperson's absence or disability, the vice chairperson, shall preside at all meetings of the interstate commission.

c. Officers selected in paragraph "b" shall serve without remuneration from the interstate commission.

d. The officers and employees of the interstate commission shall be immune from suit and liability, either personally or in their official capacity, for a claim for damage to or loss of property or personal injury or other civil liability caused or arising out of, or relating to, an actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred, within the scope of interstate commission employment, duties, or responsibilities, provided that such person shall not be protected from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(1) The liability of the executive director and employees of the interstate commission or representatives of the interstate commission, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state, may not exceed the limits of liability set forth under the constitution and laws of that state for state officials, employees, and agents. The interstate commission is considered to be an instrumentality of the states for the purposes of any such action. Nothing in this paragraph "d" shall be construed to protect such person from suit or liability for damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of such person.

(3) To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

15. *Rulemaking functions of the interstate commission.*

a. The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted hereunder, then such an action by the interstate commission shall be invalid and have no force or effect.

b. Rules deemed appropriate for the operations of the interstate commission shall be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure Act of 2010, and subsequent amendments thereto.

c. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. 16. *Oversight of interstate compact.*

a. The executive, legislative, and judicial branches of state government in each member state shall enforce the compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of the compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

b. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact which may affect the powers, responsibilities, or actions of the interstate commission.

c. The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. a. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the compact.

b. The interstate commission may, by majority vote of the commissioners, initiate legal action in the United States district court for the District of Columbia, or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

(2) Provide remedial training and specific technical assistance regarding the default.

c. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the commissioners and all rights, privileges, and benefits conferred by the compact shall terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

e. The interstate commission shall establish rules and procedures to address licenses

and physicians that are materially impacted by the termination of a member state, or the withdrawal of a member state.

f. The member state which has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination including obligations, the performance of which extends beyond the effective date of termination.

g. The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

h. The defaulting state may appeal the action of the interstate commission by petitioning the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

c. The governors of nonmember states, or their designees, shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states.

d. The interstate commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

21. *Withdrawal.*

a. Once effective, the compact shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

b. Withdrawal from the compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

c. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.

d. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of notice provided under paragraph "c".

e. The withdrawing state is responsible for all dues, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

f. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

g. The interstate commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

22. *Dissolution.*

a. The compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

b. Upon the dissolution of the compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded and surplus funds shall be distributed in accordance with the bylaws.

23. *Severability and construction.*

a. The provisions of the compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

b. The provisions of the compact shall be liberally construed to effectuate its purposes.

c. Nothing in the compact shall be construed to prohibit the applicability of other interstate compacts to which the states are members.

24. *Binding effect of compact and other laws.*

a. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

b. All laws in a member state in conflict with the compact are superseded to the extent of the conflict.

c. All lawful actions of the interstate commission, including all rules and bylaws promulgated by the commission, are binding upon the member states.

d. All agreements between the interstate commission and the member states are binding in accordance with their terms.

e. In the event any provision of the compact exceeds the constitutional limits imposed on the legislature of any member state, such provision shall be ineffective to the extent of the conflict with the constitutional provision in question in that member state.

The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states.

(5) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. *g. Qualified immunity, defense, and indemnification.*

(1) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph “g” shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person.

(2) The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining the person’s own counsel; and provided further, that the actual or alleged act, error, or omission did not result from that person’s intentional, willful, or wanton misconduct.

(3) The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

*8. Article VIII — Data system.*

a. The commission shall provide for the development, maintenance, and utilization of a coordinated database and reporting system containing licensure, adverse action, and investigative information on all licensed individuals in member states.

b. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including all of the following:

- c. Investigative information pertaining to a licensee in any member state will only be available to other party states.
- d. The commission shall promptly notify all member states of any adverse action taken against a licensee or an individual applying for a license. Adverse action information pertaining to a licensee in any member state will be available to any other member state.
- e. Member states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.
- f. Any information submitted to the data system that is subsequently required to be expunged by the laws of the member state contributing the information shall be removed from the data system.
- 9. *Article IX — Rulemaking.*
  - a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.
  - b. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.
  - c. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.
  - d. Prior to promulgation and adoption of a final rule or rules by the commission, and at least thirty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking as follows:
    - (1) On the internet site of the commission or other publicly accessible platform.

    - (1) At least twenty-five persons.
    - (2) A state or federal governmental subdivision or agency.
    - (3) An association having at least twenty-five members.
  - h. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing. If the hearing is held via electronic means, the commission shall publish the mechanism for access to the electronic hearing.
    - (1) All persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.
    - (2) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.
    - (3) All hearings will be recorded. A copy of the recording will be made available on request.

(4) Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

j. If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

k. The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or member state funds.

(3) Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the chair of the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

10. *Article X — Oversight, dispute resolution, and enforcement.*

a. *Oversight.*

(1) The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission.

(3) The commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. *Default, technical assistance, and termination.*

(1) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall do all of the following:

(a) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission.

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights,

privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

*c. Dispute resolution.*

(1) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

*d. Enforcement.*

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

11. *Article XI — Date of implementation of the interstate commission for physical therapy practice and associated rules, withdrawal, and amendment.*

*a.* The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

*b.* Any state that joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

*c.* Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's physical therapy licensing board to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

*d.* Nothing contained in this compact shall be construed to invalidate or prevent any physical therapy licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

*e.* This compact may be amended by the member states. No amendment to this compact

shall become effective and binding upon any member state until it is enacted into the laws of all member states.

12. *Article XII — Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held to be contrary to the constitution of any party state, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

d. Except as provided in paragraph "c" of this subsection, an individual practicing in a remote state will be subject to the remote state's authority and laws. A remote state may, in accordance with due process and that state's laws, restrict, suspend, or revoke an individual's privilege to practice in the remote state and may take any other necessary actions to protect the health and safety of its citizens. If a remote state takes action it shall promptly notify the home state and the commission.

e. If an individual's license in any home state is restricted or suspended, the individual shall not be eligible to practice in a remote state under the privilege to practice until the individual's home state license is restored.

f. If an individual's privilege to practice in any remote state is restricted, suspended, or revoked the individual shall not be eligible to practice in any remote state until the individual's privilege to practice is restored.

5. *Conditions of practice in a remote state.* An individual may practice in a remote state under a privilege to practice only in the performance of the individual's emergency medical services duties as assigned by an appropriate authority, as defined in the rules of the commission, and under the following circumstances:

In such cases, the home state's law shall control in determining the appropriate adverse action.

g. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the member state's laws. Member states must require individuals who enter any alternative programs to agree not to practice in any other member state during the term of the alternative program without prior authorization from such other member state.

9. *Additional powers invested in a member state's emergency medical services authority.* A member state's emergency medical services authority, in addition to any other powers granted under state law, is authorized under this compact to:

(1) The commission is a body politic and an instrumentality of the compact states.

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

(3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

b. Membership, voting, and meetings.

(1) Each member state shall have and be limited to one delegate. The responsible official of the state emergency medical services authority or his designee shall be the delegate to this compact for each member state. Any delegate may be removed or suspended from office as provided by the law of the state from which the delegate is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the member state in which the vacancy exists. In the event that more than one board, office, or other agency with the legislative mandate to license emergency medical services personnel at and above the level of EMT exists, the governor of the state will determine which entity will be responsible for assigning the delegate.

(2) Each delegate shall be entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. A delegate shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for delegates' participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws.

(4) All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in subsection 12.

(c) Current, threatened, or reasonably anticipated litigation;

(d) Negotiation of contracts for the purchase or sale of goods, services, or real estate;

(e) Accusing any person of a crime or formally censuring any person;

(f) Disclosure of trade secrets or commercial or financial information that is privileged or confidential;

(g) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

(h) Disclosure of investigatory records compiled for law enforcement purposes;

(i) Disclosure of information related to any investigatory reports prepared by or on

behalf of or for use of the commission or other committee charged with responsibility of investigation or determination of compliance issues pursuant to the compact; or

(j) Matters specifically exempted from disclosure by federal or member state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

c. The commission shall, by a majority vote of the delegates, prescribe bylaws and rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of the compact, including but not limited to:

(1) Establishing the fiscal year of the commission;

(2) Providing reasonable standards and procedures:

(a) For the establishment and meetings of other committees; and

(b) Governing any general or specific delegation of any authority or function of the commission;

(3) Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the membership votes to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each member with no proxy votes allowed;

(4) Establishing the titles, duties and authority, and reasonable procedures for the election of the officers of the commission;

(5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any member state, the bylaws shall exclusively govern the personnel policies and programs of the commission;

(6) Promulgating a code of ethics to address permissible and prohibited activities of commission members and employees;

(7) Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of the compact after the payment and/or reserving of all of its debts and obligations;

(8) The commission shall publish its bylaws and file a copy thereof, and a copy of any amendment thereto, with the appropriate agency or officer in each of the member states, if any;

(9) The commission shall maintain its financial records in accordance with the bylaws; and

(10) The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

d. The commission shall have the following powers:

(1) The authority to promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules shall have the force and effect of law and shall be binding in all member states;

(2) To bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any state emergency medical services authority or other regulatory body responsible for emergency medical services personnel licensure to sue or be sued under applicable law shall not be affected;

(3) To purchase and maintain insurance and bonds;

(4) To borrow, accept, or contract for services of personnel, including but not limited to employees of a member state;

(5) To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of the compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters;

(6) To accept any and all appropriate donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same, provided that at all times the commission shall strive to avoid any appearance of impropriety and/or conflict of interest;

(7) To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, real, personal, or mixed, provided that at all times the commission shall strive to avoid any appearance of impropriety;

(9) To establish a budget and make expenditures;

(10) To borrow money;

(11) To appoint committees, including advisory committees comprised of members, state regulators, state legislators or their representatives, and consumer representatives, and such other interested persons as may be designated in this compact and the bylaws;

(13) To adopt and use an official seal; and

(14) To perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of emergency medical services personnel licensure and practice.

*e. Financing of the commission.*

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may accept any and all appropriate revenue sources, donations, and grants of money, equipment, supplies, materials, and services.

(3) The commission may levy on and collect an annual assessment from each member state or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states.

(4) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the member states, except by and with the authority of the member state.

(5) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

*f. Qualified immunity, defense, and indemnification.*

(1) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph shall be construed to protect any such person from suit and/or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person.

(2) The commission shall defend any member, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of

any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities, provided that nothing herein shall be construed to prohibit that person from retaining his or her own counsel, and provided further that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(3) The commission shall indemnify and hold harmless any member, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred, within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

11. *Coordinated database.*

a. The commission shall provide for the development and maintenance of a coordinated database and reporting system containing licensure, adverse action, and significant investigatory information on all licensed individuals in member states.

b. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the coordinated database on all individuals to whom this compact is applicable as required by the rules of the commission, including:

- (1) Identifying information;
- (2) Licensure data;
- (3) Significant investigatory information;
- (4) Adverse actions against an individual's license;
- (5) An indicator that an individual's privilege to practice is restricted, suspended, or revoked;
- (6) Nonconfidential information related to alternative program participation;
- (7) Any denial of application for licensure, and the reason(s) for such denial; and
- (8) Other information that may facilitate the administration of this compact, as determined by the rules of the commission.

c. The coordinated database administrator shall promptly notify all member states of any adverse action taken against, or significant investigative information on, any individual in a member state.

d. Member states contributing information to the coordinated database may designate information that may not be shared with the public without the express permission of the contributing state.

e. Any information submitted to the coordinated database that is subsequently required to be expunged by the laws of the member state contributing the information shall be removed from the coordinated database.

12. *Rulemaking.*

a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

b. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any member state.

c. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

d. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking:

- (1) On the internet site of the commission; and
- (2) On the internet site of each member state emergency medical services authority or the publication in which each state would otherwise publish proposed rules.

e. The notice of proposed rulemaking shall include:

- (1) The proposed time, date, and location of the meeting in which the rule will be considered and voted upon;
- (2) The text of the proposed rule or amendment and the reason for the proposed rule;
- (3) A request for comments on the proposed rule from any interested person; and
- (4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

f. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

g. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment if a hearing is requested by:

- (1) At least twenty-five persons;
- (2) A governmental subdivision or agency; or
- (3) An association having at least twenty-five members.

h. If a hearing is held on the proposed rule or amendment, the commission shall publish the place, time, and date of the scheduled public hearing.

(1) All persons wishing to be heard at the hearing shall notify the executive director of the commission or other designated member in writing of their desire to appear and testify at the hearing not less than five business days before the scheduled date of the hearing.

(2) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

(3) No transcript of the hearing is required, unless a written request for a transcript is made, in which case the person requesting the transcript shall bear the cost of producing the transcript. A recording may be made in lieu of a transcript under the same terms and conditions as a transcript. This subsection shall not preclude the commission from making a transcript or recording of the hearing if it so chooses.

(4) Nothing in this section shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this section.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

j. The commission shall, by majority vote of all members, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in the compact and in this section shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to:

- (1) Meet an imminent threat to public health, safety, or welfare;
- (2) Prevent a loss of commission or member state funds;
- (3) Meet a deadline for the promulgation of an administrative rule that is established by federal law or rule; or
- (4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the chair of the commission prior to the end of the notice period.

If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

13. *Oversight, dispute resolution, and enforcement.*

a. *Oversight.*

(1) The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission.

(3) The commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. *Default, technical assistance, and termination.*

(1) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and/or any other action to be taken by the commission; and

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

c. *Dispute resolution.*

(1) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

d. *Enforcement.*

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive

relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

14. *Date of implementation of the interstate commission for emergency medical services personnel practice and associated rules, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

b. Any state that joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

c. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's emergency medical services authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any emergency medical services personnel licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

e. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

15. *Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any state member thereto, the compact shall remain in full force and effect as to the remaining member states. Nothing in this compact supersedes state law or rules related to licensure of emergency medical services agencies.

A physician, who is a graduate of a medical school or college of osteopathic medicine and surgery and is serving as a resident physician who is not otherwise licensed to practice medicine and surgery or osteopathic medicine and surgery in this state, shall be required to obtain from the board a license to practice as a resident physician. The license shall be designated "Resident Physician License" and shall authorize the licensee to serve as a resident physician only, under the supervision of a licensed practitioner of medicine and surgery or osteopathic medicine and surgery, in an institution approved for such training by the board. A license shall be valid for a duration as determined by the board. The fee for each license shall be set by the board to cover the administrative costs of issuing the license. The board shall determine in each instance those eligible for a license, whether or not examinations shall be given, and the type of examinations. Requirements of the law

pertaining to regular permanent licensure shall not be mandatory for a resident physician license except as specifically designated by the board. #### **148.7 Procedure for licensee discipline.**

A proceeding for the revocation or suspension of a license to practice medicine and surgery or osteopathic medicine and surgery or to discipline a person licensed to practice medicine and surgery or osteopathic medicine and surgery shall be substantially in accord with the following procedure:

1. The board may, upon its own motion or upon receipt of a complaint in writing, order an investigation. The board may, upon its own motion, order a hearing. A written notice of the time and place of the hearing together with a statement of the charges shall be served upon the licensee at least ten days before the hearing in the manner required for the service of notice of the commencement of an ordinary action or by restricted certified mail.

2. If the whereabouts of the licensee is unknown, service may be had by publication as provided in the rules of civil procedure upon filing the affidavit required by the rules. In case the licensee fails to appear, either in person or by counsel at the time and place designated in the notice, the board shall proceed with the hearing as provided in this section.

3. a. The hearing shall be before a member or members designated by the board or before an administrative law judge appointed by the board according to the requirements of section 17A.11, subsection 1. The presiding board member or administrative law judge may issue subpoenas, administer oaths, and take or cause depositions to be taken in connection with the hearing. The presiding board member or administrative law judge shall issue subpoenas at the request and on behalf of the licensee.

b. The administrative law judge shall be an attorney vested with full authority of the board to schedule and conduct hearings. 4. Notwithstanding chapters 17A and 21, a disciplinary hearing shall be open to the public at the discretion of the licensee.

5. A record of the proceedings shall be kept. The licensee shall have the opportunity to appear personally and by an attorney, with the right to produce evidence on the licensee's own behalf, to examine and cross-examine witnesses, and to examine documentary evidence produced against the licensee.

6. If a person refuses to obey a subpoena issued by the presiding member or administrative law judge or to answer a proper question during the hearing, the presiding member or administrative law judge may invoke the aid of a court of competent jurisdiction or judge of this court in requiring the attendance and testimony of the person and the production of papers. A failure to obey the order of the court may be punished by the court as a civil contempt may be punished.

7. Unless the hearing is before the entire board, a transcript of the proceeding, together with exhibits presented, shall be considered by the entire board at the earliest practicable time. The licensee and the licensee's attorney shall have the opportunity to appear personally

to present the licensee's position and arguments to the board. The board shall determine the charge or charges upon the merits on the basis of the evidence in the record before it.

a. Suspend the licensee's license to practice the profession for a period to be determined by the board.

b. Revoke the licensee's license to practice the profession.

c. Suspend imposition of judgment and penalty or impose the judgment and penalty, but suspend enforcement and place the physician on probation. The probation ordered may be vacated upon noncompliance. A copy of the board's order, findings of fact, and decision, shall be served on the licensee in the manner of service of an original notice or by certified mail return receipt requested.

9. Judicial review of the board's action may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A.

compact contained in section 152E.3 shall be recognized by the board under conditions specified which indicate that the licensee meets all the qualifications required under section 152.7. If a foreign license is recognized, the board may issue a license by endorsement without an examination being required. Recognition shall be based on whether the foreign licensee is qualified to practice nursing. The board may issue a temporary license to a natural person who has completed the requirements of and applied for licensure by endorsement. The board shall determine the length of time a temporary license shall remain effective.

### **152.10 License revocation or suspension.**

1. Notwithstanding sections 147.87 to 147.89, the board may restrict, suspend, or revoke a license to practice nursing or place the licensee on probation. The board may also prescribe by rule conditions of license reinstatement. The board shall prescribe rules of procedure by which to restrict, suspend, or revoke a license. These procedures shall conform to the provisions of chapter 17A.

2. In addition to the grounds stated in section 147.55, the following are grounds for suspension or revocation under subsection 1 of this section:

a. Willful violation of the rules of the board.

b. Continued practice while knowingly having an infectious or contagious disease which could be harmful to a patient's welfare.

c. Conviction for a felony in the courts of this state or another state, territory, or country if the felony relates to the practice of nursing. Conviction shall include only a conviction for an offense which if committed in this state would be deemed a felony without regard to its designation elsewhere. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another jurisdiction shall be conclusive evidence of conviction.

d. (1) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken by a licensing authority of another state, territory, or country. A certified copy of the record or order of suspension, revocation, or disciplinary action is prima facie evidence of such fact.

(2) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken, by a licensing authority in another state which has adopted the nurse licensure compact contained in section 152E.1 or the advanced practice registered nurse compact contained in section 152E.3 and which has communicated information relating to such action pursuant to the coordinated licensure information system established by the compact. If the action taken by the licensing authority occurs in a jurisdiction which does not afford the procedural protections of chapter 17A, the

licensee may object to the communicated information and shall be afforded the procedural protections of chapter 17A.

e. Knowingly aiding, assisting, procuring, advising, or allowing a person to unlawfully practice nursing.

f. Being adjudicated mentally incompetent by a court of competent jurisdiction. Such adjudication shall automatically suspend a license for the duration of the license, unless the board orders otherwise.

g. Being guilty of willful or repeated departure from or the failure to conform to the minimum standard of acceptable and prevailing practice of nursing; however, actual injury to a patient need not be established.

h. (1) Inability to practice nursing with reasonable skill and safety by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

(2) The board may, upon probable cause, request a licensee to submit to an appropriate medical evaluation by a designated health care provider. If requested by the licensee, the licensee may also designate a health care provider for an independent medical evaluation. Refusal or failure of a licensee to complete such evaluations shall constitute an admission of any allegations relating to such condition. All objections shall be waived as to the admissibility of the examining health care provider's testimony or evaluation reports on the grounds that they constitute privileged communication. The medical testimony or evaluation reports shall not be used against a registered nurse, licensed practical nurse, or advanced registered nurse practitioner in another proceeding and shall be confidential. At reasonable intervals, a registered nurse, licensed practical nurse, or advanced registered nurse practitioner shall be afforded an opportunity to demonstrate that the registered nurse, licensed practical nurse, or advanced registered nurse practitioner can resume the competent practice of nursing with reasonable skill and safety to patients.

152E.1	Form of compact.	152E.3	Form of advanced practice
152E.2	Compact administrator.		registered nurse compact.

#### **152E.1 Form of compact.**

##### *1. Article I — Findings and declaration of purpose.*

##### *a. The party states find that:*

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.

(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation.

(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex.

(5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states.

(6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

##### *b. The general purposes of this compact are to:*

(1) Facilitate the states' responsibility to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.

(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing the practice of nursing in each jurisdiction.

(5) Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

2. *Article II — Definitions.* As used in this compact:

a. “*Adverse action*” means any administrative, civil, equitable, or criminal action permitted by a state’s laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual’s license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee’s practice, or any other encumbrance on licensure affecting a nurse’s authorization to practice, including issuance of a cease and desist action.

b. “*Alternative program*” means a nondisciplinary monitoring program approved by a licensing board.

c. “*Coordinated licensure information system*” means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

d. “*Current significant investigative information*” means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

e. “*Encumbrance*” means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

f. “*Home state*” means the party state which is the nurse’s primary state of residence.

g. “*Licensing board*” means a party state’s regulatory body responsible for issuing nurse licenses.

h. “*Multistate license*” means a license to practice as a registered or a licensed practical or vocational nurse issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

i. “*Multistate licensure privilege*” means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse or a licensed practical or vocational nurse in a remote state.

j. “*Nurse*” means a registered nurse or licensed practical or vocational nurse, as those terms are defined by each party state’s practice laws.

k. “*Party state*” means any state that has adopted this compact.

l. “*Remote state*” means a party state other than the home state.

m. “*Single-state license*” means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

n. “*State*” means a state, territory, or possession of the United States and the District of Columbia.

o. “*State practice laws*” means a party state’s laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. “*State practice laws*” does not include the initial qualifications for licensure or requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

3. *Article III — General provisions and jurisdiction.*

a. A multistate license to practice registered or licensed practical or vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical or vocational nurse, under a multistate licensure privilege, in each party state.

b. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for

the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

c. Each party state shall require all of the following for an applicant to obtain or retain a multistate license in the home state:

(1) Meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

(2) Either of the following:

(a) Has graduated or is eligible to graduate from a licensing board-approved registered nurse or licensed practical or vocational nurse prelicensure education program.

(b) Has graduated from a foreign registered nurse or licensed practical or vocational nurse prelicensure program that meets both of the following requirements:

(i) Has been approved by the authorized accrediting body in the applicable country.

(ii) Has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program.

(3) Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening.

(4) Has successfully passed a national council licensure examination — registered nurse or national council licensure examination — practical nurse examination or recognized predecessor, as applicable.

(5) Is eligible for or holds an active, unencumbered license.

(6) Has submitted in connection with an application for initial licensure or licensure by endorsement, fingerprints or other biometric data for the purpose of obtaining criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

(7) Has not been convicted or found guilty, or has entered into an agreed disposition, of a felony offense under applicable state or federal criminal law.

(8) Has not been convicted or found guilty, or has entered into an agreed disposition, of a misdemeanor offense related to the practice of nursing as determined on a case-by-case basis.

(9) Is not currently enrolled in an alternative program.

(10) Is subject to self-disclosure requirements regarding current participation in an alternative program.

(11) Has a valid United States social security number.

d. All party states shall be authorized, in accordance with existing state due process law, to take adverse action against a nurse's multistate licensure privilege such as revocation, suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

e. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

f. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact shall affect the requirements established by a party state for the issuance of a single-state license.

g. Any nurse holding a home state multistate license on the effective date of this compact may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

(1) A nurse who changes primary state of residence after this compact's effective date must meet all applicable requirements in article III, paragraph "c", to obtain a multistate license from a new home state.

(2) A nurse who fails to satisfy the multistate licensure requirements in article III, paragraph "c", due to a disqualifying event occurring after this compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the commission.

4. *Article IV — Applications for licensure in a party state.*

a. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

b. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

c. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission.

(1) The nurse may apply for licensure in advance of a change in the primary state of residence.

(2) A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

d. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

5. *Article V — Additional authorities invested in party state licensing boards.*

a. In addition to the other powers conferred by state law, a licensing board shall have the authority to do all of the following:

(1) Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

(a) Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

(b) For purposes of taking adverse action, the home state licensing board shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

(2) Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.

(3) Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

(4) Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(5) Obtain and submit, for each nurse licensure applicant, fingerprint or other

biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks, and use the results in making licensure decisions.

(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

(7) Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

b. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

c. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

6. *Article VI — Coordinated licensure information system and exchange of information.*

a. All party states shall participate in a coordinated licensure information system of all licensed registered nurses and licensed practical or vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

b. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

c. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications with the reasons for such denials and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

d. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

e. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

f. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

g. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

h. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which shall include but not be limited to the following:

(1) Identifying information.

(2) Licensure data.

(3) Information related to alternative program participation.

(4) Other information that may facilitate the administration of this compact, as determined by commission rules.

i. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

7. *Article VII — Establishment of the interstate commission of nurse licensure compact administrators.*

a. The party states hereby create and establish a joint public entity known as the interstate commission of nurse licensure compact administrators.

(1) The commission is an instrumentality of the party states.

(2) Venue is proper, and judicial proceedings by or against the commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

(3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

b. *Membership, voting, and meetings.*

(1) Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

(2) Each administrator shall be entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

(4) All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in article VIII.

(5) The commission may convene in a closed, nonpublic meeting if the commission must discuss any of the following:

(a) Noncompliance of a party state with its obligations under this compact.

(b) The employment, compensation, discipline, or other personnel matters, practices, or procedures related to specific employees or other matters related to the commission's internal personnel practices and procedures.

(c) Current, threatened, or reasonably anticipated litigation.

(d) Negotiation of contracts for the purchase or sale of goods, services, or real estate.

(e) Accusing any person of a crime or formally censuring any person.

(f) Disclosure of trade secrets or commercial or financial information that is privileged or confidential.

(g) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy.

(h) Disclosure of investigatory records compiled for law enforcement purposes.

(i) Disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact.

(j) Matters specifically exempted from disclosure by federal or state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

c. The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to any of the following:

(1) Establishing the fiscal year of the commission.

(2) Providing reasonable standards and procedures for both of the following:

- (a) The establishment and meetings of other committees.
- (b) Governing any general or specific delegation of any authority or function of the commission.
- (3) Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed.
- (4) Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission.
- (5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the commission.
- (6) Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of this compact after the payment or reserving of all of its debts and obligations.
- d. The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the internet site of the commission.
- e. The commission shall maintain its financial records in accordance with the bylaws.
- f. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.
- g. The commission shall have the following powers:
  - (1) To promulgate uniform rules to facilitate and coordinate implementation and administration of this compact. The rules shall have the force and effect of law and shall be binding in all party states.
  - (2) To bring and prosecute legal proceedings or actions in the name of the commission, provided that the standing of any licensing board to sue or be sued under applicable law shall not be affected.
  - (3) To purchase and maintain insurance and bonds.
  - (4) To borrow, accept, or contract for services of personnel, including but not limited to employees of a party state or nonprofit organizations.
  - (5) To cooperate with other organizations that administer state compacts related to the regulation of nursing, including but not limited to sharing administrative or staff expenses, office space or other resources.
  - (6) To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters.
  - (7) To accept any and all appropriate donations, grants and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest.
  - (8) To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, whether real, personal, or mixed; provided that at all times the commission shall avoid any appearance of impropriety.
  - (9) To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed.
  - (10) To establish a budget and make expenditures.
  - (11) To borrow money.
  - (12) To appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, and consumer representatives, and other such interested persons.

(13) To provide and receive information from, and to cooperate with, law enforcement agencies.

(14) To adopt and use an official seal.

(15) To perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

*h. Financing of the commission.*

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.

(3) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

*i. Qualified immunity, defense, and indemnification.*

(1) The administrators, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph “i” shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person.

(2) The commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining the person’s own counsel; and provided further that the actual or alleged act, error, or omission did not result from that person’s intentional, willful, or wanton misconduct.

(3) The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

*8. Article VIII — Rulemaking.*

*a.* The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this compact.

*b.* Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

c. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking on the internet site of the commission and on the internet site of each licensing board or the publication in which each state would otherwise publish proposed rules.

d. The notice of proposed rulemaking shall include all of the following:

(1) The proposed time, date, and location of the meeting in which the rule will be considered and voted upon.

(2) The text of the proposed rule or amendment, and the reason for the proposed rule.

(3) A request for comments on the proposed rule from any interested person.

(4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

e. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

f. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

g. The commission shall publish the place, time, and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

(2) Nothing in this article shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

h. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

j. The commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule without prior notice, opportunity for comment or hearing, provided that the usual rulemaking procedures provided in this compact and in this article shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or party state funds.

(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

l. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

9. *Article IX — Oversight, dispute resolution, and enforcement.*

a. *Oversight.*

(1) Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

(2) The commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and shall have standing

to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

*b. Default, technical assistance, and termination.*

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall do both of the following:

(a) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission.

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

(4) A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

*c. Dispute resolution.*

(1) Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

(3) In the event the commission cannot resolve disputes among party states arising under this compact:

(a) The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(b) The decision of a majority of the arbitrators shall be final and binding.

*d. Enforcement.*

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

*10. Article X — Effective date, withdrawal, and amendment.*

a. This compact shall become effective and binding on the earlier of the date of legislative

enactment of this compact into law by no less than twenty-six states or December 31, 2018. All party states to this compact, that also were parties to the prior nurse licensure compact, superseded by this compact, shall be deemed to have withdrawn from said prior compact within six months after the effective date of this compact.

b. Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior nurse licensure compact until such party state has withdrawn from the prior nurse licensure compact.

c. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six months after enactment of the repealing statute.

d. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

e. Nothing contained in this compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

f. This compact may be amended by the party states. No amendment to this compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

g. Representatives of nonparty states to this compact shall be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

#### 11. *Article XI — Construction and severability.*

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held to be contrary to the constitution of any party state, this compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

### **152E.3 Form of advanced practice registered nurse compact.**

The advanced practice registered nurse compact is entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

#### *1. Article I — Findings and declaration of purpose.*

##### *a. The party states find all of the following:*

(1) The health and safety of the public are affected by the degree of compliance with advanced practice registered nurse licensure and practice requirements and the effectiveness

of enforcement activities related to state advanced practice registered nurse license or authority to practice laws.

(2) Violations of advanced practice registered nurse licensure and practice and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of advanced practice registered nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of advanced practice registered nurse licensure and practice requirements.

(4) New practice modalities and technology make compliance with individual state advanced practice registered nurse licensure and practice requirements difficult and complex.

(5) The current system of duplicative advanced practice registered nurse licensure and practice requirements for advanced practice registered nurses practicing in multiple states is cumbersome and redundant to both advanced practice registered nurses and states.

(6) Uniformity of advanced practice registered nurse requirements throughout the states promotes public safety and public health benefits.

(7) Access to advanced practice registered nurse services increases the public's access to health care, particularly in rural and underserved areas.

b. The general purposes of this compact are to:

(1) Facilitate the states' responsibilities to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of advanced practice registered nurse licensure and practice requirements including promotion of uniform licensure requirements.

(3) Facilitate the exchange of information between party states in the areas of advanced practice registered nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing advanced practice registered nurse practice in each jurisdiction.

(5) Invest all party states with the authority to hold an advanced practice registered nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

2. *Article II — Definitions.* As used in this compact:

a. *"Advanced practice registered nurse"* means a nurse anesthetist, nurse practitioner, nurse midwife, or clinical nurse specialist to the extent a party state licenses or grants authority to practice in that advanced practice registered nurse role and title.

b. *"Advanced practice registered nurse licensure and practice requirements"* means the regulatory mechanism used by a party state to grant legal authority to practice as an advanced practice registered nurse.

c. *"Advanced practice registered nurse uniform license or authority to practice requirements"* means those minimum uniform licensure, education, and examination requirements as agreed to by the compact administrators and adopted by licensing boards for the recognized advanced practice registered nurse role and title.

d. *"Adverse action"* means a home or remote state action.

e. *"Alternative program"* means a voluntary, nondisciplinary monitoring program approved by a nurse licensing board.

f. *"Coordinated licensure information system"* means an integrated process for collecting, storing, and sharing information on advanced practice registered nurse licensure or authority to practice and enforcement activities related to advanced practice registered nurse license or authority to practice laws, which is administered by a nonprofit organization composed of and controlled by state licensing boards.

g. *"Current significant investigative information"* means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the advanced practice registered nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the advanced practice registered nurse

represents an immediate threat to public health and safety regardless of whether the advanced practice registered nurse has been notified and had an opportunity to respond.

*h. "Home state"* means the party state that is the advanced practice registered nurse's primary state of residence.

*i. "Home state action"* means any administrative, civil, equitable, criminal, or other action permitted by the home state's laws which is imposed on an advanced practice registered nurse by the home state's licensing board or other authority, including actions against an individual's license or authority to practice such as revocation, suspension, probation, or any other action which affects an advanced practice registered nurse's authorization to practice.

*j. "Licensing board"* means a party state's regulatory body responsible for advanced practice registered nurse licensure or authority to practice.

*k. "Multistate advanced practice privilege"* means current authority from a remote state permitting an advanced practice registered nurse to practice in that state in the same role and title as the advanced practice registered nurse is licensed or authorized to practice in the home state to the extent that the remote state laws recognize such advanced practice registered nurse role and title. A party state has the authority, in accordance with existing state due process laws, to take action against the advanced practice registered nurse's privilege, including revocation, suspension, probation, or any other action that affects an advanced practice registered nurse's multistate privilege to practice.

*l. "Party state"* means any state that has adopted this compact.

*m. "Prescriptive authority"* means the legal authority to prescribe medications and devices as defined by party state laws.

*n. "Remote state"* means a party state, other than the home state, where either of the following applies:

(1) Where the patient is located at the time advanced practice registered nurse care is provided.

(2) In the case of advanced practice registered nurse practice not involving a patient, in such party state where the recipient of advanced practice registered nurse care is located.

*o. "Remote state action"* means either of the following:

(1) Any administrative, civil, equitable, criminal, or other action permitted by a remote state's laws which is imposed on an advanced practice registered nurse by the remote state's licensing board or other authority, including actions against an individual's multistate advanced practice privilege in the remote state.

(2) Cease and desist and other injunctive or equitable orders issued by remote states or the licensing boards of remote states.

*p. "State"* means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

*q. "State practice laws"* means a party state's laws and regulations that govern advanced practice registered nurse practice, define the scope of advanced nursing practice, including prescriptive authority, and create the methods and grounds for imposing discipline. "State practice laws" does not include the requirements necessary to obtain and retain advanced practice registered nurse licensure or authority to practice as an advanced practice registered nurse, except for qualifications or requirements of the home state.

*r. "Unencumbered"* means that a state has no current disciplinary action against an advanced practice registered nurse's license or authority to practice.

### 3. *Article III — General provisions and jurisdiction.*

*a.* All party states shall participate in the nurse licensure compact for registered nurses and licensed practical or vocational nurses in order to enter into the advanced practice registered nurse compact.

*b.* A state shall not enter the advanced practice registered nurse compact until the state adopts, at a minimum, the advanced practice registered nurse uniform license or authority to practice requirements for each advanced practice registered nurse role and title recognized by the state seeking to enter the advanced practice registered nurse compact.

*c.* Advanced practice registered nurse license or authority to practice issued by a home state to a resident in that state shall be recognized by each party state as authorizing a multistate advanced practice privilege to the extent that the role and title are recognized

by each party state. To obtain or retain advanced practice registered nurse licensure and practice requirements as an advanced practice registered nurse, an applicant must meet the home state's qualifications for authority or renewal of authority as well as all other applicable state laws.

d. The advanced practice registered nurse multistate advanced practice privilege does not include prescriptive authority, and does not affect any requirements imposed by states to grant to an advanced practice registered nurse initial and continuing prescriptive authority according to state practice laws. However, a party state may grant prescriptive authority to an individual on the basis of a multistate advanced practice privilege to the extent permitted by state practice laws.

e. A party state may, in accordance with state due process laws, limit or revoke the multistate advanced practice privilege in the party state and may take any other necessary actions under the party state's applicable laws to protect the health and safety of the party state's citizens. If a party state takes action, the party state shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

f. An advanced practice registered nurse practicing in a party state must comply with the state practice laws of the state in which the patient is located at the time care is provided. The advanced practice registered nurse practice includes patient care and all advanced nursing practice defined by the party state's practice laws. The advanced practice registered nurse practice subjects an advanced practice registered nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state.

g. Individuals not residing in a party state may apply for an advanced practice registered nurse license or authority to practice as an advanced practice registered nurse under the laws of a party state. However, the authority to practice granted to these individuals shall not be recognized as granting the privilege to practice as an advanced practice registered nurse in any other party state unless explicitly agreed to by that party state.

4. *Article IV — Applications for advanced practice registered nurse licensure or authority to practice in a party state.*

a. (1) Once an application for an advanced practice registered nurse license or authority to practice is submitted, a party state shall ascertain, through the coordinated licensure information system, whether the applicant has held, or is the holder of, a nursing license or authority to practice issued by another state, whether the applicant has had a history of previous disciplinary action by any state, whether an encumbrance exists on any license or authority to practice, and whether any other adverse action by any other state has been taken against a license or authority to practice.

(2) This information may be used in approving or denying an application for an advanced practice registered nurse license or authority to practice.

b. An advanced practice registered nurse in a party state shall hold an advanced practice registered nurse license or authority to practice in only one party state at a time, issued by the home state.

c. An advanced practice registered nurse who intends to change the nurse's primary state of residence may apply for an advanced practice registered nurse license or authority to practice in the new home state in advance of such change. However, a new license or authority to practice shall not be issued by a party state until after an advanced practice registered nurse provides evidence of change in the nurse's primary state of residence satisfactory to the new home state's licensing board.

d. (1) If an advanced practice registered nurse changes the nurse's primary state of residence by moving between two party states, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the advanced practice registered nurse license or authority to practice from the former home state is no longer valid.

(2) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a nonparty state to a party state, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the individual state license

issued by the nonparty state is not affected and shall remain in full force if so provided by the laws of the nonparty state.

(3) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a party state to a nonparty state, the advanced practice registered nurse license or authority to practice issued by the prior home state converts to an individual state license, valid only in the former home state, without the multistate licensure privilege to practice in other party states.

5. *Article V — Adverse actions.* In addition to the general provisions described in article III, the following provisions apply:

a. The licensing board of a remote state shall promptly report to the administrator of the coordinated licensure information system any remote state actions, including the factual and legal basis for such action, if known. The licensing board of a remote state shall also promptly report any significant current investigative information yet to result in a remote state action. The administrator of the coordinated licensure information system shall promptly notify the home state of any such reports.

b. The licensing board of a party state shall have the authority to complete any pending investigations for an advanced practice registered nurse who changes the nurse's primary state of residence during the course of such investigations. It shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

c. A remote state may take adverse action affecting the multistate advanced practice privilege to practice within that party state. However, only the home state shall have the power to impose adverse action against the advanced practice registered nurse license or authority to practice issued by the home state.

d. For purposes of imposing adverse action, the licensing board of the home state shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, it shall apply its own state laws to determine appropriate action.

e. The home state may take adverse action based on the factual findings of the remote state, so long as each state follows its own procedures for imposing such adverse action.

f. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the party state's laws. Party states must require advanced practice registered nurses who enter any alternative programs to agree not to practice in any other party state during the term of the alternative program without prior authorization from such other party state.

g. All home state licensing board disciplinary orders, agreed to or otherwise, which limit the scope of the advanced practice registered nurse's practice or require monitoring of the advanced practice registered nurse as a condition of the order shall include the requirements that the advanced practice registered nurse will limit the nurse's practice to the home state during the pendency of the order. This requirement may allow the advanced practice registered nurse to practice in other party states with prior written authorization from both the home state and party state licensing boards.

6. *Article VI — Additional authorities invested in party state licensing boards.* Notwithstanding any other powers, party state licensing boards shall have the authority to do all of the following:

a. If otherwise permitted by state law, recover from the affected advanced practice registered nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that advanced practice registered nurse.

b. Issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses, or the production of evidence from another party state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to

subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence is located.

c. Issue cease and desist orders to limit or revoke an advanced practice registered nurse's privilege, license, or authority to practice in the state.

d. Promulgate uniform rules and regulations as provided for in article VIII, paragraph "c".

7. *Article VII — Coordinated licensure information system.*

a. All party states shall participate in a cooperative effort to create a coordinated database of all advanced practice registered nurses. This system shall include information on the advanced practice registered nurse licensure and practice requirements and disciplinary history of each advanced practice registered nurse, as contributed by party states, to assist in the coordination of the advanced practice registered nurse licensure or authority to practice and enforcement efforts.

b. Notwithstanding any other provision of law, all party states' licensing boards shall promptly report adverse actions, actions against multistate advanced practice privileges, any current significant investigative information yet to result in adverse action, denials of applications, and the reasons for such denials, to the coordinated licensure information system.

c. Current significant investigative information shall be transmitted through the coordinated licensure information system only to party state licensing boards.

d. Notwithstanding any other provision of law, all party states' licensing boards contributing information to the coordinated licensure information system may designate information that shall not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

e. Any personally identifiable information obtained by a party state's licensing board from the coordinated licensure information system shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

f. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

g. The compact administrators, acting jointly with each other and in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

8. *Article VIII — Compact administration and interchange of information.*

a. The head of the licensing board, or the head's designee, of each party state shall be the administrator of this compact for the head's state.

b. The compact administrator of each party state shall furnish to the compact administrator of each other party state any information and documents including but not limited to a uniform data set of investigations, identifying information, licensure data, and disclosable alternative program participation information to facilitate the administration of this compact.

c. Compact administrators shall have the authority to develop uniform rules to facilitate and coordinate implementation of this compact. These uniform rules shall be adopted by party states, under the authority invested under article VI, paragraph "d".

9. *Article IX — Immunity.* A party state or the officers or employees or agents of a party state's licensing board who act in accordance with the provisions of this compact shall not be liable on account of any act or omission in good faith while engaged in the performance of their duties under this compact. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

10. *Article X — Entry into force, withdrawal, and amendment.*

a. This compact shall enter into force and become effective as to any state when it has been enacted into the laws of that state. Any party state may withdraw from this compact by enacting a statute repealing the same, but such withdrawal shall not take effect until six

months after the withdrawing state has given notice of the withdrawal to the executive heads of all other party states.

b. Withdrawal shall not affect the validity or applicability by the licensing boards of states remaining party to the compact of any report of adverse action occurring prior to the withdrawal.

c. This compact shall not be construed to invalidate or prevent any advanced practice registered nurse licensure or authority to practice agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

d. This compact may be amended by the party states. An amendment to this compact shall not become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

11. *Article XI — Construction and severability.*

a. This compact shall be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or the applicability of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability of the compact to any government, agency, person, or circumstance shall not be affected by that action. If this compact shall be held contrary to the constitution of any state which is party to the compact, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

b. (1) In the event party states find a need for settling disputes arising under this compact, the party states may submit the issues in dispute to an arbitration panel which shall be comprised of an individual appointed by the compact administrator in the home state, an individual appointed by the compact administrator in the remote state or states involved, and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(2) The decision of a majority of the arbitrators shall be final and binding.

a. The accusation of such person against any licensee or registrant shall be reduced to writing, verified by some person familiar with the facts therein stated, and three copies thereof filed with the board.

b. If the board shall deem the charges sufficient, if true, to warrant suspension or revocation of license or registration, it shall make an order fixing the time and place for hearing thereon and requiring the licensee or registrant to appear and answer thereto, such order, together with a copy of the charges so made to be served upon the accused at least twenty days before the date fixed for hearing, either personally or by certified or registered mail, sent to the licensee's or registrant's last known post office address as shown by the records of the board.

c. At the time and place fixed in said notice for said hearing, or at any time and place to which the said hearing shall be adjourned, the board shall hear the matter and may take evidence, administer oaths, take the deposition of witnesses, including the person accused, in the manner provided by law in civil cases, compel the appearance of witnesses before it in person the same as in civil cases by subpoena issued over the signature of the chairperson of the board and in the name of the state of Iowa, require answers to interrogatories, and compel the production of books, papers, accounts, documents and testimony pertaining to the matter under investigation or relating to the hearing.

Such district court of the county within which the hearing is being conducted may, in case of contumacy or refusal to obey such subpoena, issue an order requiring such person to appear before said board, and if so ordered give evidence touching the matter involved in the hearing. Any failure to obey such order of the court may be punished by such court as a contempt thereof.

f. If the licensee or registrant pleads guilty, or after hearing shall be found guilty by the board of any of the charges made, it may suspend for a limited period or revoke the license or registration, and the last renewal thereof, and shall enter the order on its records and

notify the accused of the revocation or suspension of the person's license or registration, as the case may be, who shall thereupon forthwith surrender that license or registration to the board. ## SUBCHAPTER I FINDINGS AND POLICY

**159A.1 Findings.**

The general assembly finds and declares the following:

1. The production and processing of agricultural commodities and products represents the foundation of this state's economy, and the economic viability of this nation is contingent upon the production of wealth generated primarily from materials, including food and fiber, produced on this nation's family farms.

2. It is necessary to support industries using agricultural commodities to increase the demand for and production and consumption of sources of energy in order to reduce the state's dependency upon petroleum products; to reduce atmospheric contamination of this state's environment from the combustion of fossil fuels; and to produce coproducts, such as corn gluten feed, distillers grain, and solubles, which can be used to increase livestock production in this state.

3. This state adopts a policy of enhancing agricultural production by encouraging the development and use of fuels and coproducts derived from agricultural commodities as provided in this chapter, including rules adopted by the office of renewable fuels and coproducts.

**159A.14 Renewable fuel infrastructure program for retail motor fuel sites.**

A renewable fuel infrastructure program for retail motor fuel sites is established in the department under the direction of the renewable fuel infrastructure board created pursuant to section 159A.13.

1. The purpose of the program is to improve retail motor fuel sites by installing, replacing, or converting infrastructure to be used to store, blend, or dispense renewable fuel. The infrastructure shall be ethanol infrastructure or biodiesel infrastructure.

a. (1) Ethanol infrastructure shall be designed and used exclusively to do any of the following:

(a) Store and dispense E-15 gasoline. At least for the period beginning on September 16 and ending on May 31 of each year, the ethanol infrastructure must be used to store and dispense E-15 gasoline as a registered fuel recognized by the United States environmental protection agency.

(b) Store and dispense E-85 gasoline.

(c) Store, blend, and dispense motor fuel from a motor fuel blender pump. The ethanol infrastructure must be used for the storage of ethanol or ethanol blended gasoline, or for blending ethanol with gasoline. The ethanol infrastructure must at least include a motor fuel blender pump which dispenses different classifications of ethanol blended gasoline and allows E-85 gasoline to be dispensed at all times that the blender pump is operating.

(2) Biodiesel infrastructure shall be designed and used exclusively to do any of the following:

(a) Store and dispense biodiesel or biodiesel blended fuel.

(b) Blend or dispense biodiesel fuel from a motor fuel blender pump.

b. The infrastructure must be part of the premises of a retail motor fuel site operated by a retail dealer. The infrastructure shall not include a tank vehicle.

2. A person may apply to the department to receive financial incentives on a cost-share basis. The department shall forward the applications to the underground storage tank fund board as required by that board for evaluation and recommendation. The underground storage tank fund board may rank the applications with comments and shall forward them to the infrastructure board for approval or disapproval. The department shall award financial incentives on a cost-share basis to an eligible person whose application was approved by the infrastructure board.

3. The infrastructure board shall approve cost-share agreements executed by the department and persons that the infrastructure board determines are eligible as provided in this section, according to terms and conditions required by the infrastructure board. The infrastructure board shall determine the amount of the financial incentives to be awarded to a person participating in the program. In order to be eligible to participate in the program all of the following must apply:

a. The person must be an owner or operator of the retail motor fuel site.

b. The person must apply to the department in a manner and according to procedures required by the infrastructure board. The application must contain all information required by the infrastructure board and shall at least include all of the following:

(1) The name of the person and the address of the retail motor fuel site to be improved.

(2) A detailed description of the infrastructure to be installed, replaced, or converted, including but not limited to the model number of each installed, replaced, or converted motor fuel storage tank if available.

(3) A statement describing how the retail motor fuel site is to be improved, the total estimated cost of the planned improvement, and the date when the infrastructure will be first used.

(4) A statement certifying that the infrastructure shall only be used to comply with the provisions of this section and as specified in the cost-share agreement, unless granted a waiver by the infrastructure board pursuant to this section.

4. A retail motor fuel site which is improved using financial incentives must comply with federal and state standards governing new or upgraded motor fuel storage tanks used to store and dispense the renewable fuel. A site classified as a no further action site pursuant to a certificate issued by the department of natural resources under section 455B.474 shall retain its classification following modifications necessary to store and dispense the renewable fuel and the owner or operator shall not be required to perform a new site assessment unless a new release occurs or if a previously unknown or unforeseen risk condition should arise.

5. An award of financial incentives to a participating person shall be on a cost-share basis in the form of a grant. To participate in the program, an eligible person must execute a cost-share agreement with the department as approved by the infrastructure board in which the person contributes a percentage of the total costs related to improving the retail motor fuel site. A cost-share agreement shall be for a three-year period or a five-year period. A cost-share agreement shall include provisions for standard financial incentives or standard financial incentives and supplemental financial incentives as provided in this subsection. The infrastructure board may approve multiple improvements to the same retail motor fuel site for the full amount available for both ethanol infrastructure and biodiesel infrastructure so long as the improvements for ethanol infrastructure and for biodiesel infrastructure are made under separate cost-share agreements.

a. (1) Except as provided in paragraph "b", a participating person may be awarded standard financial incentives to make improvements to a retail motor fuel site. The standard financial incentives awarded to a participating person shall not exceed the following:

(a) For a three-year cost-share agreement, fifty percent of the actual cost of making the improvement or thirty thousand dollars, whichever is less.

(1) Upgrade or replace a dispenser which is part of gasoline storage and dispensing infrastructure used to store and dispense E-85 gasoline as provided in section 455G.31. The participating person is only eligible to be awarded the supplemental financial incentives if the person installed the dispenser not later than sixty days after July 27, 2011. The supplemental financial incentives awarded to the participating person shall not exceed seventy-five percent of the actual cost of making the improvement or thirty thousand dollars, whichever is less.

(2) To improve additional retail motor fuel sites owned or operated by a participating person within a twelve-month period as provided in the cost-share agreement. The supplemental financial incentives shall be used for the installation of an additional tank and associated infrastructure at each such retail motor fuel site. A participating person may be awarded supplemental financial incentives under this subparagraph and standard financial incentives under paragraph "a" to improve the same motor fuel site. The supplemental financial incentives awarded to the participating person shall not exceed twenty-four thousand dollars. a. The participating person is granted a waiver by the infrastructure board. The participating person shall store or dispense the motor fuel according to the terms and conditions of the waiver.

b. The renewable fuel infrastructure fund created in section 159A.16 is immediately repaid the total amount of moneys awarded to the participating person together with a monetary penalty equal to twenty-five percent of that awarded amount. The amount shall be deposited in the renewable fuel infrastructure fund created in section 159A.16.

7. A participating person who acts in violation of an agreement executed with the department pursuant to this section is subject to a civil penalty of not more than one thousand dollars a day for each day of the violation. The civil penalty shall be deposited into the general fund of the state.

d. The votes for the office of district commissioner shall be canvassed in the same manner as the votes for county officers, and the returns shall be certified to the commissioners of the

district. A plurality is sufficient to elect commissioners, and a primary election for the office shall not be held.

e. If the canvass shows that two or three candidates receiving the highest number of votes for the office of commissioner are all residents of the same township, the board shall certify as elected the two candidates receiving the highest number of votes for the office and the candidate receiving the next highest number of votes for the office who is not a resident of the same township, if any. If one commissioner whose term has not expired is a resident of the township, and the canvass shows that two or three candidates receiving the highest number of votes for the office are from the same township, the board shall certify as elected the candidate receiving the highest number of votes for the office and the candidate receiving the next highest number of votes for the office who is not a resident of the same township, if any, as the candidate receiving the highest number of votes.

**161A.7 Powers of districts and commissioners.**

1. A soil and water conservation district organized under this chapter has the following powers, in addition to others granted in other sections of this chapter:

a. To conduct surveys, investigations, and research relating to the character of soil erosion and erosion, floodwater, and sediment damages, and the preventive and control measures needed, to publish the results of such surveys, investigations or research, and to disseminate information concerning such preventive and control measures; provided, however, that in order to avoid duplication of research activities, no district shall initiate any research program except in cooperation with the Iowa agricultural experiment station located at Ames, Iowa, and pursuant to a cooperative agreement entered into between the Iowa agricultural experiment station and such district.

b. To conduct demonstration projects within the district on lands owned or controlled by this state or any of its agencies, with the consent and cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands, in order to demonstrate by example the means, methods, and measures by which soil and soil resources may be conserved, and soil erosion in the form of soil blowing and soil washing may be prevented and controlled; provided, however, that in order to avoid duplication of agricultural extension activities, no district shall initiate any demonstration projects, except in cooperation with the Iowa agricultural extension service whose offices are located at Ames, Iowa, and pursuant to a cooperative agreement entered into between the Iowa agricultural extension service and such district.

c. To carry out preventive and control measures within the district, including but not limited to crop rotations, engineering operations, methods of cultivation, the growing of vegetation, changes in use of land, and the measures listed in section 161A.2, on lands owned or controlled by this state or any of its agencies, with the consent and cooperation of the agency administering and having jurisdiction thereof, and on any other lands within the district, upon obtaining the consent of the owner or occupier of such lands or the necessary rights or interests in such lands. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

d. To cooperate, or enter into agreements with, and within the limits of appropriations duly made available to it by law, to furnish financial or other aid to any agency, governmental or otherwise, or any owner or occupier of lands within the district, in the carrying on of erosion-control and watershed protection and flood prevention operations within the district, subject to such conditions as the commissioners may deem necessary to advance the purposes of this chapter.

e. To obtain options upon and to acquire, by purchase, exchange, lease, gift, grant, bequest, devise or otherwise, any property, real or personal, or rights or interests therein; to maintain, administer, and improve any properties acquired, to receive income from such properties and to expend such income in carrying out the purposes and provisions of this chapter; and to sell, lease or otherwise dispose of any of its property or interests therein in furtherance of the purposes and provisions of this chapter.

f. To make available on such terms as it shall prescribe, to landowners or occupiers within the district, agricultural and engineering machinery and equipment, fertilizer, lime, and such other material or equipment as will assist such landowners or occupiers to carry on operations upon their lands for the conservation of soil resources and for the prevention and control of soil erosion and for the prevention of erosion, floodwater, and sediment damages.

g. To construct, improve, and maintain such structures as may be necessary or convenient for the performance of any of the operations authorized in this chapter. Any approval or permits from the council required under other provisions of law shall be obtained by the district prior to initiation of any construction activity.

h. To develop comprehensive plans for the conservation of soil resources and for the control and prevention of soil erosion and for the prevention of erosion, floodwater, and sediment damages within the district, which plans shall specify in such detail as may be possible, the acts, procedures, performances, and avoidances which are necessary or

desirable for the effectuation of such plans, including the specification of engineering operations, methods of cultivation, the growing of vegetation, cropping programs, tillage practices, and changes in use of land; and to publish such plans and information and bring them to the attention of owners and occupiers of lands within the district.

i. To sue and be sued in the name of the district; to have a seal, which seal shall be judicially noticed; to have perpetual succession unless terminated as hereinafter provided; to make and execute contracts and other instruments, necessary or convenient to the exercise of its powers; to make, and from time to time amend and repeal, rules not inconsistent with this chapter, to carry into effect its purposes and powers.

j. To accept donations, gifts, and contributions in money, services, materials, or otherwise, from the United States or any of its agencies, or from this state or any of its agencies, and to use or expend such moneys, services, materials, or other contributions in carrying on its operations.

l. To provide for the restoration of permanent soil and water conservation practices which are damaged or destroyed because of a disaster emergency as provided in section 161A.75.

m. To encourage local school districts to provide instruction in the importance of and in some of the basic methods of soil conservation, as a part of course work relating to conservation of natural resources and environmental awareness required in rules adopted by the state board of education pursuant to section 256.11, subsections 3 and 4, and to offer technical assistance to schools in developing such instructional programs.

n. To develop a soil and water resource conservation plan for the district.

(1) The district plan shall contain a comprehensive long-range assessment of soil and surface water resources in the district consistent with rules approved by the committee under section 161A.4. In developing the plan the district may receive technical support from the United States department of agriculture natural resources conservation service and the county board of supervisors in the county where the district is located. The division and the Iowa cooperative extension service in agriculture and home economics may provide technical support to the district. The support may include but is not limited to the following:

(a) Assessing the condition of soil and surface water in the district, including an evaluation of the type, amount, and quality of soil and water; the threat of soil erosion and erosion, floodwater, and sediment damages, and necessary preventative and control measures.

(b) Developing methods to maintain or improve soil and water condition.

(c) Cooperating with other state and federal agencies to carry out this support.

(2) The title page of the district plan and a notification stating where the plan may be reviewed shall be recorded with the recorder in the county in which the district is located, and updated as necessary, after the committee approves and the director of the division signs the district plan. The commissioners shall provide notice of the recording and may provide a copy of the approved district plan to the county board of supervisors in the county where the district is located. The district plan shall be filed with the division as part of the state soil and water resource conservation plan provided in section 161A.4.

o. To enter into agreements pursuant to chapter 161C with the owner or occupier of land within the district or cooperating districts, or any other private entity or public agency, in carrying out water protection practices, including district and multidistrict projects to protect this state's groundwater and surface water from point and nonpoint sources of contamination, including but not limited to agricultural drainage wells, sinkholes, sedimentation, and chemical pollutants.

2. As a condition to the extending of any benefits under this chapter to, or the performance of work upon, any lands not owned or controlled by this state or any of its agencies, the commissioners may require contributions in money, services, materials, or otherwise to any operations conferring such benefits, and may require landowners or occupiers to enter into and perform such agreements or covenants as to the permanent use of such lands as will tend to prevent or control erosion thereon.

3. The commissioners, as a condition for the receipt of any state cost-sharing funds for permanent soil conservation practices, shall require the owner of the land on which

the practices are to be established to covenant and file, in the office of the district of the county in which the land is located, an agreement identifying the particular lands upon which the practices for which state cost-sharing funds are to be received will be established, and providing that the project will not be removed, altered, or modified so as to lessen its effectiveness without the consent of the commissioners, obtained in advance and based on guidelines drawn up by the committee, for a period not to exceed twenty years after the date of receiving payment. The commissioners shall assist the division in the enforcement of this subsection. The agreement does not create a lien on the land, but is a charge personally against the owner of the land at the time of removal, alteration, or modification if an administrative order is made under section 161A.61, subsection 3.

4. No provisions with respect to the acquisition, operation, or disposition of property by other public bodies shall be applicable to a district organized hereunder unless the general assembly shall specifically so state.

5. After the formation of any district under the provisions of this chapter, all participation hereunder shall be purely voluntary, except as specifically stated herein.

The commissioners of any two or more districts organized under the provisions of this chapter may cooperate with one another in the exercise of any or all powers conferred in this chapter.

#### **161A.9 State agencies to cooperate.**

Agencies of this state which shall have jurisdiction over, or be charged with the administration of, any state-owned lands, and of any county, or other governmental subdivision of the state, which shall have jurisdiction over, or be charged with the administration of, any county-owned or other publicly owned lands, lying within the boundaries of any district organized hereunder, may cooperate to the fullest extent with the commissioners of such districts in the effectuation of programs and operations undertaken by the commissioners under the provisions of this chapter.

C93, §161A.9

#### **161A.10 Discontinuance of districts.**

1. At any time after five years after the organization of a district under this chapter, any twenty-five owners of land lying within the boundaries of the district, but in no case less than twenty percent of the owners of land lying within the district, may file a petition with the committee asking that the operations of the district be terminated and the existence of the district discontinued. The committee may conduct public meetings and public hearings upon the petition as necessary to assist in the consideration of the petition. Within sixty days after a petition has been received by the committee, the division shall give due notice of the holding of a referendum, shall supervise the referendum, and shall issue appropriate rules governing the conduct of the referendum. The question is to be submitted by ballots upon which the words “For terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)” and “Against terminating the existence of the ..... (name of the soil and water conservation district to be here inserted)”

shall be printed, with a square before each proposition and a direction to insert an X mark in the square before one or the other of the propositions as the voter favors or opposes discontinuance of the district. All owners of lands lying within the boundaries of the district are eligible to vote in the referendum. No informalities in the conduct of the referendum or in any matters relating to the referendum invalidate the referendum or the result of the referendum if notice was given substantially as provided in this section and if the referendum was fairly conducted.

2. When sixty-five percent of the landowners vote to terminate the existence of the district, the committee shall advise the commissioners to terminate the affairs of the district. The commissioners shall dispose of all property belonging to the district at public auction and shall pay over the proceeds of the sale to be deposited into the state treasury. The commissioners shall then file an application, duly verified, with the secretary of state for the discontinuance of the district, and shall transmit with the application the certificate of the committee setting forth the determination of the committee that the continued operation of the district is not administratively practicable and feasible. The application shall recite that the property of the district has been disposed of and the proceeds paid over as provided in this section, and shall set forth a full accounting of the properties and proceeds of the sale. The secretary of state shall issue to the commissioners a certificate of dissolution and shall record the certificate in an appropriate book of record in the secretary of state's office.

3. Upon issuance of a certificate of dissolution under this section, all ordinances and regulations previously adopted and in force within the districts are of no further force and effect. All contracts previously entered into, to which the district or commissioners are parties, remain in force and effect for the period provided in the contracts. The committee is substituted for the district or commissioners as party to the contracts. The committee is entitled to all benefits and subject to all liabilities under the contracts and has the same right and liability to perform, to require performance, to sue and be sued, and to modify or terminate the contracts by mutual consent or otherwise, as the commissioners of the district would have had.

4. The committee shall not entertain petitions for the discontinuance of any district nor conduct referenda upon discontinuance petitions nor make determinations pursuant to the petitions in accordance with this chapter, more often than once in five years.

#### **161A.13 Purpose of subdistricts.**

Subdistricts of a soil and water conservation district may be formed as provided in this chapter for the purposes of carrying out watershed protection and flood prevention programs within the subdistrict but shall not be formed solely for the purpose of establishing or taking over the operation of an existing drainage district.

#### **161A.14 Petition to form.**

When the landowners in a proposed subdistrict desire that a subdistrict be organized, they shall file a petition with the commissioners of the soil and water conservation district. The area must be contiguous and in the same watershed but it shall not include any area located within the boundaries of an incorporated city. The petition shall set forth an intelligible description by congressional subdivision, or otherwise, of the land suggested for inclusion in the subdistrict and shall state whether the special annual tax or special benefit assessments will be used, or whether the use of both is contemplated. The petition shall contain a brief statement giving the reasons for organization, and requesting that the proposed area be organized as a subdistrict, and must be signed by sixty-five percent of the landowners in the proposed subdistrict. Land already in one subdistrict cannot be included in another. The soil and water conservation district commissioners shall review the petition and if it is found adequate shall arrange for a hearing on it.

#### **161A.15 Notice and hearing.**

Within thirty days after a petition has been filed with the soil and water conservation district commissioners, they shall fix a date, hour, and place for a hearing and direct the secretary to cause notice to be given to the owners of each tract of land, or lot, within the proposed subdistrict as shown by the transfer books of the auditor's office, and to each lienholder, or encumbrancer, of any such lands as shown by the county records, and to all other persons whom it may concern, and without naming individuals all actual occupants of land in the proposed subdistrict, of the pendency and purpose of the petition and that all objections to establishment of the subdistrict for any reason must be made in writing and filed with the secretary of the soil and water conservation district at, or before, the time set for hearing. The soil and water conservation district commissioners shall consider and determine whether the operation of the subdistrict within the defined boundaries as proposed is desirable, practicable, feasible, and of necessity in the interest of health, safety, and public welfare. All interested parties may attend the hearing and be heard. The soil and water conservation district commissioners may for good cause adjourn the hearing to a day certain which shall be announced at the time of adjournment and made a matter of record. If the soil and water conservation district commissioners determine that the petition meets the requirements set forth in this section and in section 161A.5, they shall declare that the subdistrict is duly organized and shall record such action in their official minutes together with an appropriate official name or designation for the subdistrict.

They shall organize as a single board for such purposes and shall designate its chairperson, vice chairperson, and secretary-treasurer to serve for terms of one year. Such a subdistrict shall be formed in the same manner and has the same powers and duties as a subdistrict formed in one soil and water conservation district.

**161A.20 Special annual tax.**

1. After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, a subdistrict shall have the authority to impose a special annual tax, the proceeds of which shall be used for the repayment of actual and necessary expenses incurred to organize the subdistrict; to acquire land or rights or interests therein by purchase or condemnation; and to repair, alter, maintain, and operate the present and future works of improvement within its boundaries.

2. On or before January 10 of each year its governing body shall make an estimate of the amount it deems necessary to be raised by such special tax for the ensuing year and transmit said estimate in dollars to the board of supervisors of the county in which the subdistrict lies.

3. If portions of the subdistrict are in more than one county, then the governing body, as

The board or boards of supervisors shall upon receipt of certification from the governing body of the subdistrict make the necessary levy on the assessed valuation of all real estate within the boundaries of the subdistrict lying within their respective county to raise said amounts, but in no event to exceed one dollar and eight cents per thousand dollars of assessed value.

5. The special tax levied under this section shall be collected in the same manner as other taxes with a penalty for delinquency. The moneys collected from the special tax and any delinquency penalty shall be deposited in a fund established by the governing body as provided by a resolution adopted by the governing body and delivered for filing with each appropriate county treasurer. Moneys earned as income from moneys in the fund, including as interest, shall remain in the fund until expended by the governing body according to procedures specified in the resolution. If the governing body does not adopt a resolution or deliver the resolution to the county treasurer, the moneys shall be deposited into a separate account in the county's general fund by that county treasurer. The account shall be identified by the official name of the subdistrict and expenditures from the account shall be made on requisition of the chairperson and secretary of the governing body of the subdistrict.

After obtaining agreements to carry out recommended soil conservation measures and proper farm plans from owners of not less than fifty percent of the lands situated in the subdistrict, the governing body of the subdistrict shall have the authority to establish a special tax for the purpose of organization, construction, repair, alteration, enlargement, extension, and operation of present and future works of improvement within the boundaries of said subdistrict.

2. The governing body shall appoint three appraisers to assess benefits and classify the land affected by such improvements. One of such appraisers shall be a competent licensed professional engineer and two of them shall be resident landowners of the county or counties in which the subdistrict is located but not living within nor owning or operating any lands included in said subdistrict.

3. The appraisers shall take and subscribe an oath of their qualifications and to perform the duties of classification of said lands, fix the percentages, benefits and apportion and assess the costs and expenses of construction of the said improvement according to law and their best judgment, skill, and ability. If said appraisers or any of them fail or neglect to act or perform the duties in the time and as required of them by law, the governing body of the subdistrict shall appoint others with like qualifications to take their places and perform said duties.

Within twenty days after their appointment, the appraisers shall begin to inspect and classify all the lands within the district, or any change, extension, enlargement, or relocation thereof in tracts of forty acres or less according to the legal or recognized subdivisions, in a graduated scale of benefits to be numbered according to the benefit to be received by each of such tracts from such improvement, and pursue the work continuously until completed. When the work is completed, the appraisers shall make a full, accurate, and detailed report thereof and file the report with the governing body. The lands receiving the greatest benefit shall be marked on a scale of one hundred, and those benefited in a less degree with such percentage of one hundred as the benefits received bear in proportion thereto.

2. The amount of benefit appraised to each forty acres of land within the subdistrict shall be determined by the improvements within said subdistrict based upon the work plan as agreed upon by the subdistrict.

The second and each subsequent installment shall become due and payable at the September semiannual tax paying date each year thereafter. All such installments shall be collected with interest accrued on the unpaid balance to the September semiannual tax paying date and as other taxes on real estate, with like penalty for delinquency.

## **SUBCHAPTER V**

### **SOIL AND WATER CONSERVATION PRACTICES**

#### **PART 1**

#### **DUTIES AND OBLIGATIONS**

#### **161A.42 Definitions.**

In addition to the definitions established by section 161A.3, as used in this subchapter, unless the context otherwise requires:

1. “*Agricultural land*” has the meaning assigned that term by section 9H.1.
2. “*Conservation agreement*” means a commitment by the owner or operator of a farm unit to implement a farm unit soil conservation plan or, with the approval of the commissioners of the soil and water conservation district within which the farm unit is located, a portion of a farm unit soil conservation plan. The commitment shall be conditioned on the furnishing by the soil and water conservation district of technical or planning assistance in the establishment of and cost-sharing or other financial assistance for establishment and maintenance of the soil and water conservation practices necessary to implement the plan or a portion of the plan.
3. “*Cost-share*” or “*cost-sharing*” means a contribution of money made by the state

in order to pay a percentage of the costs related to the establishment of voluntary or mandatory practices as provided under this chapter, including but not limited to soil and water conservation practices and erosion control practices.

4. “*Erosion control practices*” means:

a. The construction or installation, and maintenance, of such structures or devices as are necessary to carry to a suitable outlet from the site of any building housing four or more residential units, any commercial or industrial development or any publicly or privately owned recreational or service facility of any kind, not served by a central storm sewer system, any water which:

(1) Would otherwise cause erosion in excess of the applicable soil loss limit; and

(2) Does not carry nor constitute sewage, industrial waste, or other waste as defined by section 455B.171.

b. The employment of temporary devices or structures, temporary seeding, fibre mats, plastic, straw, or other measures adequate to prevent erosion in excess of the applicable soil loss limits from the site of, or land directly affected by, the construction of any public or private street, road or highway, any residential, commercial, or industrial building or development, or any publicly or privately owned recreational or service facility of any kind, at all times prior to completion of such construction.

c. The establishment and maintenance of vegetation upon the right-of-way of any completed portion of any public street, road, or highway, or the construction or installation thereon of structures or devices, or other measures adequate to prevent erosion from the right-of-way in excess of the applicable soil loss limits.

5. “*Farm unit*” means a single contiguous tract of agricultural land, or two or more adjacent tracts of agricultural land, located within a single soil and water conservation district, upon which farming operations are being conducted by a person who owns or is purchasing or renting all of the land, or by that person’s tenant or tenants. If a landowner has multiple farm tenants, the land on which farming operations are being conducted by each tenant is a separate farm unit. This definition does not prohibit land which is within a single soil and water conservation district and is owned or being purchased by the same person, or is being rented by the same tenant, from being treated as two or more farm units if the commissioners of the soil and water conservation district deem it preferable to do so.

6. “*Farm unit soil conservation plan*” means a plan jointly developed by the owner and, if appropriate, the operator of a farm unit and the commissioners of the soil and water conservation district within which that farm unit is located, identifying those permanent soil and water conservation practices and temporary soil and water conservation practices the use of which may be expected to prevent soil loss by erosion from that farm unit in excess of the applicable soil loss limit or limits. The plan shall if practicable identify alternative practices by which this objective may be attained.

7. “*Forest*” means stands of native or introduced trees containing at least two hundred trees per acre and located on privately owned land. However, a stand of fruit trees is not a forest.

8. “*Professional forester*” means a forestry graduate of an institution of higher learning, who has a minimum of two years of forest management experience.

9. “*Soil and water conservation practices*” means any of the practices designated in or pursuant to this subsection which serve to prevent erosion of soil by wind or water, in excess of applicable soil loss limits, from land used for agricultural or horticultural purposes only.

a. “*Permanent soil and water conservation practices*” means planting of perennial grasses, legumes, shrubs, or trees, the establishment of grassed waterways, and the construction of terraces, or other permanent soil and water practices approved by the committee.

b. “*Temporary soil and water conservation practices*” means planting of annual or biennial crops, use of strip-cropping, contour planting, or minimum or mulch tillage, and any other cultural practices approved by the committee.

10. “*Soil loss limit*” means the maximum amount of soil loss due to erosion by water or wind, expressed in terms of tons per acre per year, which the commissioners of the respective soil and water conservation districts determine is acceptable in order to meet the objectives expressed in section 161A.2.

11. “*State forester*” means a person employed by the department of natural resources as required by section 456A.13.

### **161A.43 Duty of property owners — liability.**

1. To conserve the fertility, general usefulness, and value of the soil and soil resources of this state, and to prevent the injurious effects of soil erosion, it is hereby made the duty of the owners of real property in this state to establish and maintain soil and water conservation practices or erosion control practices, as required by the regulations of the commissioners of the respective soil and water conservation districts. As used in this section, “*owners of real property in this state*” includes each state government agency, each political subdivision of the state, and each agency of such a political subdivision which has under its control publicly owned land, including but not limited to agricultural land, forests, parks, the grounds of state educational, penal and human service institutions, public highways, roads and streets, and other public rights-of-way.

2. A landowner shall not be liable for a claim based upon or arising out of a claim of negligent design or specification, negligent adoption of design or specification, or negligent installation, construction, or reconstruction of a soil and water conservation practice or an erosion control practice that was installed, constructed, or reconstructed in accordance with generally recognized engineering or safety standards, criteria, or design theory in existence at the time of the installation, construction, or reconstruction. A soil and water conservation practice or an erosion control practice installed, constructed, or reconstructed in compliance with rules adopted by the division and currently in effect shall be deemed to be installed, constructed, or reconstructed according to generally recognized engineering or safety standards, criteria, or design theory in existence at the time of the installation, construction, or reconstruction. A claim shall not be allowed for failure to upgrade, improve, or alter any aspect of an existing soil and water conservation practice or erosion control practice to a new, changed, or altered design standard. This subsection does not apply to a claim based on a failure of a landowner to upgrade, improve, or alter a soil and water conservation practice or erosion control practice in violation of law. This subsection does not apply to claims based upon gross negligence.

### **161A.44 Rules by commissioners — scope.**

The commissioners of each district shall, with approval of and within time limits set by administrative order of the committee, adopt reasonable regulations as are deemed necessary to establish a soil loss limit or limits for the district and provide for the implementation of the limit or limits. A district may subsequently amend or repeal its regulations as it deems necessary. The committee shall review the soil loss limit regulations adopted by the districts at least once every five years, and shall recommend changes in the regulations of a district which the committee deems necessary to assure that the district’s soil loss limits are reasonable and attainable. The commissioners may:

1. Classify land in the district on the basis of topography, soil characteristics, current use, and other factors affecting propensity to soil erosion.

2. Establish different soil loss limits for different classes of land in the district if in their judgment and that of the committee a lower soil loss limit should be applied to some land

than can reasonably be applied to other land in the district, it being the intent of the general assembly that no land in the state be assigned a soil loss limit that cannot reasonably be applied to such land.

3. Require the owners of real property in the district to employ either soil and water conservation practices or erosion control practices, and:

a. May not specify the particular practices to be employed so long as such owners voluntarily comply with the applicable soil loss limits established for the district.

b. May specify two or more approved soil and water conservation practices or erosion control practices, one of which shall be employed by the landowner to bring erosion from land under the landowner's control within the applicable soil loss limit of the district when an administrative order is issued to the landowner.

c. In no case may the commissioners require:

(1) The employment of erosion control practices as defined in section 161A.42, subsection 4, on land used in good faith for agricultural or horticultural purposes only.

(2) The employment of soil and water conservation practices or erosion control practices on that portion of any public street, road or highway completed or under construction within the corporate limits of any city, which is or will become the traveled or surfaced portion of such street, road, or highway.

(3) That any owner or operator of agricultural land refrain from fall plowing of land on which the owner or operator intends to raise a crop during the next succeeding growing season, however on those lands which are prone to excessive wind erosion the commissioners may require that reasonable temporary measures be taken to minimize the likelihood of wind erosion so long as such measures do not unduly increase the cost of operation of the farm on which the land is located.

d. May require that a person under an order to employ soil and water conservation practices or erosion control practices submit up to three bids to the commissioners for the work and provide an explanation to the commissioners if a bid other than the lowest bid has been selected by that person.

#### **161A.45 Submission of regulations to committee — hearing.**

Regulations which the commissioners propose to adopt, amend, or repeal shall be submitted to the committee, in a form prescribed by the committee, for its approval. The committee may approve the regulations as submitted, or with amendments as it deems necessary. The commissioners shall, after approval, publish notice of hearing on the proposed regulations, as approved, in a newspaper of general circulation in the district, setting a date and time not less than ten nor more than thirty days after the publication when a hearing on the proposed regulations will be held at a specified place. The notice shall include the full text of the proposed regulations or shall state that the proposed regulations are on file and available for review at the office of the affected soil and water conservation district.

#### **161A.46 Conduct of hearing.**

At the hearing, the commissioners or their designees shall explain, in reasonable detail, the reasons why adoption, amendment, or repeal of the regulations is deemed necessary or advisable. Any landowner, or any occupant of land who would be affected by the regulations, shall be afforded an opportunity to be heard for or against the proposed regulations. At the conclusion of the hearing, the commissioners shall announce and enter of record their

decision whether to adopt or modify the proposed regulations. Any modification must be approved by the committee, which may at its discretion order the commissioners to republish the regulations and hold another hearing in the manner prescribed by this chapter.

#### **161A.47 Inspection of land on complaint.**

1. The commissioners shall inspect or cause to be inspected any land within the district to determine if land is being damaged by sediment, from soil erosion occurring on neighboring land in excess of the limits established by the district's soil erosion control regulations. If the land is privately owned, the commissioners shall make or cause to be made the inspection, upon receiving a written complaint signed by an owner or occupant of land claiming that the owner's or occupant's land is being damaged by sediment. If the land is subject to a public interest, the commissioners shall make or cause to be made the inspection upon a majority vote of commissioners at an open meeting held pursuant to chapter 21. Land is subject to a public interest if the land is publicly held, subject to an easement held by the public, or the subject of an improvement made at public expense.

2. If, after the inspection, the commissioners find that sediment damages are occurring to land which is owned or occupied by the person filing the complaint or subject to a public interest, and that excess soil erosion is occurring on neighboring land, the commissioners shall issue an administrative order to the landowner or landowners of record, and to the occupant of the land if known to the commissioners. The order shall describe the land and state as nearly as possible the extent to which soil erosion on the land exceeds the limits established by the district's regulations.

3. The order shall be delivered either by personal service or by restricted certified mail to each of the persons to whom it is directed, and shall:

a. In the case of erosion occurring on the site of any construction project or similar undertaking involving the removal of all or a major portion of the vegetation or other cover, exposing bare soil directly to water or wind, state a time not more than five days after service or mailing of the notice of the order when work necessary to establish or maintain erosion control practices must be commenced, and a time not more than thirty days after service or mailing of the notice of the order when the work is to be satisfactorily completed.

b. In all other cases, state a time not more than six months after service or mailing of the notice of the order, by which work needed to establish or maintain the necessary soil and water conservation practices or erosion control measures must be commenced, and a time not more than one year after the service or mailing of the notice of the order when the work is to be satisfactorily completed, unless the requirements of the order are superseded by the provisions of section 161A.48.

#### **161A.48 Mandatory establishment of soil and water conservation practices.**

1. An owner or occupant of agricultural land in this state is not required to establish any new permanent or temporary soil and water conservation practice unless cost-share or other public moneys have been specifically approved for that land and made available to the owner or occupant pursuant to section 161A.74.

2. Evidence that an application for cost-share or other public moneys, from a source or sources having authority to pay a portion of the cost of work needed to comply with an administrative order issued pursuant to section 161A.47, has been submitted to the proper officer or agency constitutes commencement of the work within the meaning of sections 161A.43 through 161A.53.

3. Upon receiving evidence of the submission of an application, the commissioners shall forward to the officer or agency to which the application was made a written request to receive notification of the disposition of the application. When notified of the approval of the application, the commissioners shall issue to the same parties who received the original administrative order, or their successors in interest, a supplementary order, to be delivered in the same manner as provided by sections 161A.43 to 161A.53 for delivery of original administrative orders. The supplementary order shall state a time, not more than six months after approval of the application for public cost-sharing funds, by which the work needed to comply with the original administrative order shall actually be commenced, and a time thereafter when the work is to be satisfactorily completed. If feasible, that time shall be within one year after the date of the supplementary order, but the owner of land on which a soil and water conservation practice is being established under this section is not required to incur a cost for the practice in any one calendar year which exceeds ten dollars per acre for each acre of land belonging to that owner and located in the county containing the land on which the required practice is being established or in counties contiguous to that county.

#### **161A.49 Petition for court order.**

The commissioners shall petition the district court for a court order requiring immediate compliance with an administrative order previously issued by the commissioners as provided in section 161A.47, if:

1. The work necessary to comply with the administrative order is not commenced on or before the date specified in such order, or in any supplementary order subsequently issued as provided in section 161A.48, unless in the judgment of the commissioners the failure to commence or complete the work as required by the administrative order is due to factors beyond the control of the person or persons to whom such order is directed and the person or persons can be relied upon to commence and complete the necessary work at the earliest possible time.

2. Such work is not being performed with due diligence, or is not satisfactorily completed by the date specified in the administrative order, or when completed does not reduce soil erosion from such land below the limits established by the soil and water conservation district's regulations.

3. The person or persons to whom the administrative order is directed advise the commissioners that they do not intend to commence or complete such work.

#### **161A.50 Burden — court order.**

In any action brought under section 161A.49, the burden of proof shall be upon the commissioners to show that soil erosion is in fact occurring in excess of the applicable soil loss limits and that the defendant has not established or maintained soil and water conservation practices or erosion control practices in compliance with the soil and water conservation district's regulations. With respect to construction, repair, or maintenance of any public street, road, or highway, evidence that soil erosion control standards equivalent to or in excess of those currently imposed by the United States government on the project or like projects involving use of federal funds shall create a presumption of compliance with the applicable soil loss limit. Upon receiving satisfactory proof, the court shall issue an order directing the landowner or landowners to comply with the administrative order previously issued by the commissioners. The court may modify such administrative order if deemed necessary. Notice of the court order shall be given either by personal service or by restricted

certified mail to each of the persons to whom the order is directed, who may within thirty days from the date of the court order appeal to the supreme court. Any person who fails to comply with a court order issued pursuant to this section within the time specified in such order, unless the order has been stayed pending an appeal, shall be deemed in contempt of court and may be punished accordingly.

#### **161A.51 Entering on land.**

The commissioners and their authorized agents or employees may enter upon any private or public property, except private dwellings, at any reasonable time to classify land by soil sampling or other appropriate methods or to determine whether soil erosion is occurring on the property in violation of the district's regulations.

1. If the owner or occupant of any property refuses admittance, or if prior to such refusal the commissioners demonstrate the need for a warrant, the commissioners may make an application under oath or affirmation to the district court of the county in which the property is located for the issuance of a search warrant.

2. In the application the commissioners shall state that entry on the premises is mandated by the laws of this state or that entry is needed to conduct soil sampling necessary to classify soil in the district as specified in section 161A.44, subsection 1, or to determine whether soil erosion is occurring on the property in violation of the district's regulations. The application shall describe the area or premises, give the date of the last known investigation or sampling, give the date and time of the proposed inspection, declare the need for such inspection, recite that notice of desire to make an inspection has been given to affected persons and that admission was refused if that be the fact, and state that the inspection has no purpose other than to carry out the purpose of the statute, ordinance or regulation pursuant to which the inspection is to be made.

3. The court may issue a search warrant, after examination of the applicant and any witnesses, if the court is satisfied that there is probable cause to believe the existence of the allegations in the application.

4. In soil sampling and making investigations pursuant to a warrant, the commissioners must execute the warrant in a reasonable manner within the time period specified in the warrant.

#### **161A.53 Cooperation with other agencies.**

Soil and water conservation districts may accept, as provided by state law, money disbursed for soil erosion control purposes by the federal government or an agency of the federal government, and expend the money for the purposes for which it was received.

#### **161A.54 State agency conservation plans — exemptions.**

Each state agency shall enter into an agreement with the soil and water conservation district in which the state agency has public land under its control in cultivation. The

agreement shall contain a plan of the state agency to prevent soil erosion in excess of soil loss limits by the use of soil and water conservation practices and erosion control practices. This section applies to all public land which is used for horticultural or agricultural purposes. State soil conservation cost-sharing funds shall not be used on these public lands. Conservation plans required by this section shall be completed by July 1, 1986, and implementation shall occur consistent with the schedule contained in the conservation plan. Application for exemption from this section may be submitted to the appropriate soil and water conservation district. The exemption shall be granted for land upon which soil management research for the purposes of the study, evaluation, understanding and control of erosion, sedimentation and run-off water is conducted by or in conjunction with institutions governed by the board of regents.

**161A.61 Discretionary inspection by commissioners — actions upon certain findings.**

1. In addition to the authority granted by section 161A.47, the commissioners of a soil and water conservation district may inspect or cause to be inspected any land within the district on which they have reasonable grounds to believe that soil erosion is occurring in excess of the limits established by the district's soil erosion control regulations. If the commissioners find from an inspection conducted under authority of either section 161A.47 or this section that soil erosion is occurring on that land in excess of the applicable soil loss limits established by the district's soil erosion control regulations, they shall send notice of that finding to the landowner or landowners of record, and to the occupant of the land if known to the commissioners. The notice shall describe the land affected and shall state as nearly as possible the extent to which soil erosion from that land exceeds the applicable soil loss limits.

a. If the commissioners find that the excessive erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which the excessive soil erosion is occurring, and that the rate of the excessive erosion is less than twice the applicable soil loss limit, the notice required by this subsection shall include or be accompanied by information regarding financial or other assistance which the commissioners are able to make available to the owner or occupant of the land to aid in achieving compliance with the applicable soil loss limits.

b. If the commissioners find that the excessive soil erosion described in the notice is not causing sediment damage to property owned or occupied by any person other than the owner or occupant of the land on which it is occurring, but that the erosion is occurring at a rate equal to or greater than twice the applicable soil loss limit, the notice shall so state, shall include or be accompanied by the information required by paragraph "a" of this subsection, and shall be delivered by personal service or by restricted certified mail to each of the persons to whom the notice is directed. A notice given under this paragraph shall also include or be accompanied by information explaining the provisions of subsection 2.

2. The commissioners of the soil and water conservation district in which a farm unit is located may petition the district court for an appropriate order with respect to that farm unit if its owner or occupant has been sent a notice by the commissioners under subsection 1, paragraph "b", for three or more consecutive years. The commissioners' petition shall seek a court order which states a time not more than six months after the date of the order when the owner or occupant must commence, and a time when the owner or occupant must complete the steps necessary to comply with the order. The time allowed to complete the establishment of a temporary soil and water conservation practice employed to comply or advance toward compliance with the court's order shall be not more than one year after the date of that order, and the time allowed to complete the establishment of a permanent soil and water conservation practice employed to comply with the court's order shall be not more

than five years after the date of that order. Section 161A.48 applies to a court order issued under this subsection. The steps required of the farm unit owner or operator by the court order are those which are necessary to do one of the following:

a. Bring the farm unit which is the subject of the order into compliance with its farm unit soil conservation plan, if such a plan had been agreed upon prior to the time the commissioners petitioned for the order.

b. Bring the farm unit which is the subject of the order into compliance with a plan developed for that farm unit by the commissioners, in accordance with guidelines established by the division, and presented to the court as a part of the commissioners' petition, if a farm unit soil conservation plan has not previously been agreed upon for that farm unit. A plan presented to the court by the commissioners under this paragraph shall specify as many alternative approved soil and water conservation practices as feasible, among which the owner or occupant of the farm unit may choose in taking the steps necessary to comply with the court's order.

c. Bring the farm unit which is the subject of the order into compliance with a soil conservation plan developed by the owner or occupant of that farm unit as an alternative to the proposed soil conservation plan developed by the commissioners, if the owner or occupant so petitions the court and the court finds that the owner or occupant's plan will bring the farm unit into conformity with the applicable soil loss limits of the district.

3. The commissioners may also cause an inspection of land within the district on which they have reasonable grounds to believe that a permanent soil and water conservation practice established with public cost-sharing funds is not being properly maintained or is being altered in violation of section 161A.7, subsection 3. If the commissioners find that the practices are not being maintained or have been altered in violation of section 161A.7, subsection 3, the commissioners shall issue an administrative order to the landowner who made the unauthorized removal, alteration or modification to maintain, repair, or reconstruct the permanent soil and water conservation practices. The requirement for maintenance and repair is for the length of life as defined in section 161A.7, subsection 3. Public cost-sharing funds are not available for the work under this order. If the landowner fails to comply with the administrative order, the commissioners may petition the district court for an order compelling compliance with the order. Upon receiving satisfactory proof, the court shall issue an order directing compliance with the administrative order and may modify the administrative order. The provisions of section 161A.50 relating to notice, appeals, and contempt of court shall apply to proceedings under this subsection.

#### **161A.62 Duties of commissioners and of owners and occupants of agricultural land — restrictions on use of cost-sharing funds.**

The commissioners of each soil and water conservation district shall seek to implement or to assist in implementing the following requirements:

1. The commissioners of each soil and water conservation district shall complete preparation of a farm unit soil conservation plan for each farm unit within the district as soon as adequate funding is available to permit compliance with this requirement.

a. Technical assistance in the development of the farm unit soil conservation plan may be provided by the United States department of agriculture natural resources conservation service through the memorandum of understanding with the district or by the department. The commissioners shall make every reasonable effort to consult with the owner and, if appropriate, with the operator of that farm unit, and to prepare the plan in a form which is acceptable to that person or those persons.

b. The farm unit soil conservation plan shall be drawn up and completed without expense to the owner or operator of the farm unit, except that the owner or operator shall not be

reimbursed for the value of the owner's or occupant's own time devoted to participation in the preparation of the plan.

c. If the commissioners' farm unit soil conservation plan is unacceptable to the owner or operator of the farm unit, that person or those persons may prepare an alternative farm unit soil conservation plan identifying permanent or temporary soil and water conservation practices which may be expected to achieve compliance with the soil loss limit or limits applicable to that farm unit, and submit that plan to the soil and water conservation district commissioners for their review.

2. Within one year after completion of a farm unit soil conservation plan for a particular farm unit which is acceptable both to the commissioners of the soil and water conservation district within which the farm unit is located and to the owner and, if appropriate, to the operator of that farm unit, the commissioners shall offer to enter into a soil conservation agreement with the owner, and also with the operator if appropriate, based on the mutually acceptable farm unit soil conservation plan.

A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain from the seller, or from the office of the soil and water conservation district in which the land is located, a copy of the most recently updated farm unit soil conservation plan, developed pursuant to section 161A.62, subsection 1, which is applicable to the agricultural land proposed to be purchased. A prospective purchaser of an interest in agricultural land located in this state is entitled to obtain additional copies of the document referred to in this section from the office of the soil and water conservation district in which the land is located, promptly upon request, at a fee not to exceed the cost of reproducing them. All persons who identify themselves to the commissioners or staff of a soil and water conservation district as prospective purchasers of agricultural land in the district shall be given information, prepared in accordance with rules of the department, which clearly explains the provisions of section 161A.76.

#### **161A.64 Erosion control plans required for certain projects.**

1. If a political subdivision has adopted a sediment control ordinance which the commissioners and the political subdivision jointly agree is at least as equally effective as the commissioners' rules in preventing erosion from exceeding the established soil loss limits, the commissioners and the political subdivision shall execute an agreement under chapter 28E allowing an agency authorized by the political subdivision to receive and file an affidavit from a person, prior to initiating a land disturbing activity in that subdivision, stating that the proposed activity will not exceed the established soil loss limits. A copy of the affidavit shall be mailed to the district as a part of the terms of the agreement. The affidavit shall be in a form prescribed by the department and made available by the district.

2. Prior to initiating a land disturbing activity in a political subdivision which has not adopted sediment control ordinances as described in subsection 1, a person engaged in the land disturbing activity shall file a signed affidavit with the soil and water conservation district that the project will not exceed the soil loss limits. The affidavit shall be in a form prescribed by the department and made available by the district.

3. For the purposes of this section, "*land disturbing activity*" means a land change such as the tilling, clearing, grading, excavating, transporting or filling of land which may result in soil

erosion from water or wind and the movement of sediment and sediment related pollutants into the waters of the state or onto lands in the state but does not include the following:

- a. Tilling, planting or harvesting of agricultural, horticultural or forest crops.
- b. Preparation for single-family residences separately built unless in conjunction with multiple construction in subdivision development.
- c. Minor activities such as home gardens, landscaping, repairs and maintenance work.
- d. Surface or deep mining.
- e. Installation of public utility lines and connections, fence posts, sign posts, telephone poles, electric poles and other kinds of posts or poles.
- f. Septic tanks and drainage fields unless they are to serve a building whose construction is a land disturbing activity.
- g. Construction and repair of the tracks, right-of-way, bridges, communication facilities and other related structures of a railroad.
- h. Emergency work to protect life or property.
- i. Disturbed land areas of less than twenty-five thousand square feet unless a political subdivision by ordinance establishes a smaller exception or establishes conditions for this exception.
- j. The construction, relocation, alteration or maintenance of public roads by a public body.

4. If the agency authorized under subsection 1 determines that a land disturbing activity is not being conducted in compliance with the soil loss limits, it shall file a written and signed complaint with the soil and water conservation district commissioners. The complaint shall have the same effect and validity as a complaint filed by an owner or occupant of land being damaged by sediment pursuant to section 161A.47. If the affidavit is filed with the district or the political subdivision, the commissioners may proceed on their own complaint. The soil and water conservation district commissioners may issue an administrative order as provided in that section to the person conducting the land disturbing activity.

## PART 2

### FINANCIAL INCENTIVES

**161A.70 Establishment and purpose.**

Financial incentive programs are established within the division in order to protect the long-term productivity of the soil and water resources of the state from erosion and sediment damage, and to encourage the adoption of farm management and agricultural practices which are consistent with the capability of the land to sustain agriculture and preserve this state's natural resources.

92 Acts, ch 1184, §6

Referred to in §159.18, 161A.72

**161A.71 Conservation practices revolving loan fund.**

1. The division may establish a conservation practices revolving loan fund composed of any money appropriated by the general assembly for that purpose, and of any other moneys available to and obtained or accepted by the committee from the federal government or private sources for placement in that fund. Except as otherwise provided by subsection 3, the assets of the conservation practices revolving loan fund shall be used only to make loans directly to owners of land in this state for the purpose of establishing on that land any new permanent soil and water conservation practice which the commissioners of the soil and water conservation district in which the land is located have found is necessary or advisable to meet the soil loss limits established for that land. A loan shall not be made for establishing a permanent soil and water conservation practice on land that is subject to the restriction on state cost-sharing funds of section 161A.76. Revolving loan funds and public cost-sharing funds may be used in combination for funding a particular soil and water conservation practice. Each loan made under this section shall be for a period not to exceed ten years, shall bear no interest, and shall be repayable to the conservation practices revolving loan fund in equal yearly installments due March 1 of each year the loan is in effect. The interest rate upon loans for which payment is delinquent shall accelerate immediately to the current legal usury limit. Applicants are eligible for no more than twenty thousand dollars in loans outstanding at any time under this program. "*Permanent soil and water conservation practices*" has the same meaning as defined in section 161A.42 and those established under this program are subject to the requirements of section 161A.7, subsection 3. Loans made under this program shall come due for payment upon sale of the land on which those practices are established.

2. The general assembly finds and declares the following:

a. The erosion of topsoil on agricultural land by wind and water is a serious problem within the state and one which threatens to destroy the natural resource most responsible for Iowa's prosperity.

b. It is necessary to the preservation of the economy and well-being of the state to encourage soil conservation practices by providing loans for permanent soil and water conservation practices on agricultural land within the state.

c. The use of state funds for the conservation practices revolving loan fund established under subsection 1 is in the public interest, and the purposes of this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

3. The division may:

a. Contract, sue and be sued, and promulgate administrative rules necessary to carry out the provisions of this section, but the committee shall not in any manner directly or indirectly pledge the credit of the state of Iowa.

b. Authorize payment from the conservation practices revolving loan fund and from fees for costs, commissions, attorney fees and other reasonable expenses related to and necessary for making and protecting direct loans under this section, and for the recovery of moneys loaned or the management of property acquired in connection with such loans.

4. This section does not negate the provisions of section 161A.48 that an owner or occupant of land in this state shall not be required to establish any new soil and water conservation practice unless public cost-sharing funds have been approved and are available for the land affected. However, the owner of land with respect to which an administrative order to establish soil and water conservation practices has been issued under section 161A.47 but not complied with for lack of public cost-sharing funds, may waive the right to await availability of such funds and instead apply for a loan under this section to establish any permanent soil and water conservation practices necessary to comply with the order. If a landowner does so, that loan application shall be given reasonable preference by the committee if there are applications for more loans under this section than can be made from the money available in the conservation practices revolving loan fund. If it is found necessary to deny an application for a soil and water conservation practices loan to a landowner who

has waived the right to availability of public cost-sharing funds before complying with an administrative order issued under section 161A.47, the landowner's waiver is void.

#### **161A.72 Administration.**

1. Financial incentives provided under this chapter shall be administered by the division. The incentives shall be supported with funds appropriated by the general assembly, and moneys available to or obtained by the division or the committee from public or private sources, including but not limited to the United States, other states, or private organizations. The division shall adopt all rules consistent with chapter 17A necessary to carry out the purpose of this subchapter as provided in section 161A.70.

2. The commissioners of a district shall, to the extent funding is available, contract with a person who is an owner or occupant of land within the district applying to establish soil and water conservation practices as provided in this chapter. Under the agreement, the person shall receive financial incentives to establish permanent soil and water conservation practices and management practices, in consideration for promising to maintain the practices according to rules adopted by the division. If the land subject to an agreement is converted to a nonagricultural use that does not require a permanent soil and water conservation practice which has been established with financial incentives, the permanent soil and water conservation practice shall not be removed until the owner pays an amount to the district, which shall be deposited into a fund established by the district for use in providing financial incentives under this chapter. The amount shall be a prorated share of the amount paid in financial incentives to establish the practice, as provided in rules adopted by the division.

#### **161A.73 Voluntary establishment of soil and water conservation practices.**

1. The division shall establish voluntary financial incentive programs which shall provide for the following:

a. The allocation of cost-share moneys as financial incentives provided for the purpose of establishing permanent soil and water conservation practices, including but not limited to terraces, diversions, grade stabilization structures, grassed waterways, and critical area planting. Except for edge-of-field practices, financial incentives shall not exceed fifty percent of the estimated cost of establishing the practices, or fifty percent of the actual cost, whichever is less.

b. The allocation of moneys as financial incentives provided for the purpose of establishing management practices to control soil erosion on land that is row cropped, including but not limited to cover crops, no-till planting, ridge-till planting, contouring, and contour strip-cropping. The division shall by rule establish limits on the amount of incentives which shall be authorized for payment to landowners upon establishment of the practice.

c. The allocation of cost-share moneys as financial incentives provided to establish practices to protect watersheds above publicly owned lakes of the state from soil erosion and sediment. The financial incentives shall be awarded to watersheds which are of the highest importance based on soil loss as established by the natural resource commission pursuant to section 456A.33A. The financial incentives shall not exceed seventy-five percent of the estimated cost of establishing the practices as determined by the commissioners or seventy-five percent of the actual cost of establishing the practices, whichever is less.

d. The allocation of cost-share moneys as financial incentives to establish permanent grass and buffer zones, including an erosion control structure or an erosion control practice to mitigate the effects of concentrated runoff on surface water quality. The financial incentives shall not exceed one hundred percent of the estimated cost of establishing a

zone, as determined by the commissioners, or one hundred percent of the actual cost of establishing the zone, whichever is less.

e. The allocation of cost-share moneys as financial incentives for the same purposes that are supported from the soil and water enhancement account of the resources enhancement and protection fund as provided in section 455A.19, or by the water protection practices account of the water protection fund established pursuant to section 161C.4. The financial incentives shall not exceed fifty percent of the estimated cost of establishing the practices, or fifty percent of the actual cost, whichever is less.

2. The commissioners of a district may establish voluntary financial incentive programs which shall provide for the following:

a. The allocation of cost-share moneys as financial incentives under a special agreement with owners of land in the district who promise to adopt a watershed conservation plan as provided by rules which shall be adopted by the division. The watershed conservation plan shall be in conjunction with the owners' respective farm unit soil conservation plans. The funding agreement must provide for the funding of a project which includes five or more contiguous farm units which have at least five hundred acres of agricultural land and which constitutes at least seventy-five percent of the agricultural land located within a watershed or subwatershed. The financial incentives shall not exceed sixty percent of the estimated cost of the project as determined by the commissioners or sixty percent of the actual cost, whichever is less.

b. The allocation of cost-share moneys as financial incentives to encourage summer construction of permanent soil and water conservation practices. The practices must be constructed on or after June 15 but not later than October 15. The commissioners may also provide for the payment of moneys on a prorated basis to compensate persons for the production loss on an area disturbed by construction, according to rules which shall be adopted by the division.

3. a. The division may reimburse private landowners for a portion of the cost of fencing materials and installation for permanent fence used to protect forest land from domestic livestock grazing, if the division determines that the grazing has caused excessive soil loss. For purposes of this subsection, forests shall be considered as agricultural land eligible for cost-share moneys. The total expenditure of reimbursement moneys shall not exceed fifty percent of the total landowner expenditures. Expenditures for boundary and road fence construction and for repair and replacement of existing fences are not eligible for reimbursement unless the complete fence is replaced.

b. A landowner shall sign an agreement with the division as a condition for receiving cost-share moneys. The agreement shall provide that the landowner shall maintain the fence for a minimum of ten years and shall follow written professional forester recommendations relating to land protected by fencing. The recommendations must be approved by the state forester or the forester's designee.

c. A landowner who violates the maintenance agreement shall maintain, repair, or reconstruct the damaged fence, or shall pay the division an amount equal to the amount of cost-share moneys reimbursed.

d. The division shall adopt rules to administer this subsection, including rules relating to procedures required to receive reimbursement, and eligibility requirements such as the minimum forest acreage required, and the maximum reimbursement amount allowed.

Referred to in §161A.75

#### **161A.74 Mandatory establishment of soil and water conservation practices — allocations.**

1. The commissioners shall allocate cost-share moneys to establish mandatory soil and water conservation practices, as provided in sections 161A.43 through 161A.53, according to the following requirements:

a. The financial incentives shall not exceed more than fifty percent of the estimated cost of establishing the practices as determined by the commissioners, or fifty percent of the actual

cost of establishing the practices, whichever is less. However, the commissioners may allocate an amount determined by the committee for management of soil and water conservation practices, except as otherwise provided regarding land classified as agricultural land under conservation cover.

b. The commissioners shall establish the estimated cost of the permanent soil and water conservation practices in the district based upon one and two-tenths of the average cost of the practices installed in the district during the previous year. The average costs shall be reviewed and approved by the commissioners each year.

2. The committee shall review requirements of this section once each year. The committee may authorize commissioners in districts to condition the establishment of a mandatory soil and water conservation practice in a specific case on a higher proportion of public cost-sharing than is required by this section. The commissioners shall determine the amount of cost-sharing moneys allocated to establish a specific soil and water conservation practice in accordance with an administrative order issued pursuant to section 161A.47 by considering the extent to which the practice will contribute benefits to the individual owner or occupant of the land on which the practice is to be established.

92 Acts, ch 1184, §9; 92 Acts, ch 1239, §53, 54

Referred to in §161A.48

#### **161A.75 Use of moneys for emergency repairs.**

1. The commissioners of a district may allocate moneys otherwise available for voluntary financial incentive programs as provided in section 161A.73 to provide for the restoration of permanent soil and water conservation practices which are damaged or destroyed because of a disaster emergency. In providing for the restoration, the commissioners may allocate moneys under this section for construction, reconstruction, installation, or repair projects. For each project the commissioners must determine that the allocation is necessary in order to restore permanent soil and water conservation practices in order to prevent erosion in excess of the applicable soil loss limits caused by the disaster emergency.

2. In order to allocate moneys under this section, the disaster emergency must have occurred in an area subject to a state of disaster emergency pursuant to a proclamation made by the governor as provided in section 29C.6. The commissioners shall use the moneys only to the extent that moneys from other sources, including any moneys provided by the state or federal government in response to the disaster emergency, are not adequate. The commissioners are not required to allocate the moneys on a cost-share basis.

3. Following the disaster emergency, the commissioners shall submit a report to the committee providing information regarding restoration projects and moneys allocated under this section for the projects.

97 Acts, ch 59, §2

Referred to in §161A.7

#### **161A.76 Cost-sharing for certain lands restricted.**

1. It is the intent of this chapter that each tract of agricultural land which has not been plowed or used for growing row crops at any time within the prior fifteen years shall for purposes of this section be considered classified as agricultural land under conservation cover. If a tract of land so classified is thereafter plowed or used for growing row crops, the commissioners of the soil and water conservation district in which the land is located shall not approve use of state cost-sharing funds for establishing permanent or temporary soil and water conservation practices on that tract of land in an amount greater than one-half the amount of cost-sharing funds which would be available for that land if it were not considered classified as agricultural land under conservation cover. The restriction imposed by this section applies even if an administrative order or court order has been issued requiring establishment of soil and water conservation practices on that land. The commissioners may waive the restriction imposed by this section if they determine in advance that the purpose of plowing or row cropping land classified as land under conservation cover is to revitalize permanent pasture and that the land will revert to permanent pasture within two years after it is plowed.

2. When receiving an application for state cost-sharing funds to pay a part of the cost of establishing a permanent or temporary soil and water conservation practice, the commissioners of the soil and water conservation district to which the application is submitted shall require the applicant to state in writing whether, to the best of the applicant's knowledge, the land on which the proposed practice will be established is land considered to be classified as agricultural land under conservation cover, as defined in subsection 1. An applicant who knowingly makes a false statement of material facts or who falsely denies knowledge of material facts in completing the written statement required by this subsection commits a simple misdemeanor and, in addition to the penalty prescribed therefor by law, shall be required to repay to the department any cost-sharing funds made available to the applicant in reliance on the false statement or false denial.

Any work project with an estimated cost in excess of the competitive bid threshold in section 26.3, or as established in section 314.1B, shall be undertaken as a public contract as provided in chapters 73A and 573. The local contracting organization shall designate a contracting officer and shall establish procedures to manage the contract, approve bills for payment, and review proposed change orders or amendments to the contract.

2. ### SUBCHAPTER I

#### LOESS HILLS DEVELOPMENT AND CONSERVATION

#### **161D.1 Loess hills development and conservation authority created — membership and duties.**

1. A loess hills development and conservation authority is created. The counties of Adams, Adair, Audubon, Carroll, Cass, Cherokee, Crawford, Fremont, Guthrie, Harrison, Ida, Lyon, Mills, Monona, Montgomery, Page, Plymouth, Pottawattamie, Sac, Shelby, Sioux, Taylor, and Woodbury, are entitled to one voting member each on the authority, but membership or participation in projects of the authority is not required. Each member of the authority shall be appointed by the respective board of supervisors for a term to be determined by each board of supervisors, but the term shall not be for less than one year. An appointee shall serve without compensation, but an appointee may be reimbursed for actual expenses incurred while performing the duties of the authority as determined by each board of supervisors. The authority shall meet, organize, and adopt rules of procedures as deemed necessary to carry out its duties. The authority may appoint working committees that include other individuals in addition to voting members.

2. The mission of the authority is to develop and coordinate plans for projects related to the unique natural resource, rural development, and infrastructure problems of counties in the deep loess region of western Iowa. The erosion and degradation of stream channels in the deep loess soils has occurred due to historic channelization of the Missouri river and straightening stream channels of its tributaries. This erosion of land has damaged the rural infrastructure of this area, destroyed public roads and bridges, adversely impacted stream water quality and riparian habitat, and affected other public and private improvements. Stabilization of stream channels is necessary to protect the rural infrastructure in the deep loess soils area of the state. The authority shall cooperate with the division of soil conservation and water quality created within the department of agriculture and land stewardship pursuant to section 159.5, the affected soil and water conservation districts, the department of natural resources, and the state department of transportation in carrying out its mission and duties. The authority shall also cooperate with appropriate federal agencies, including the United States environmental protection agency, the United States department of interior, and the United States department of agriculture natural resources conservation service. The authority shall make use of technical resources available through member counties and cooperating agencies.

3. The authority shall administer the loess hills development and conservation fund created under section 161D.2 and shall deposit and expend moneys in the fund for the

planning, development, and implementation of development and conservation activities or measures in the member counties.

4. A hungry canyons alliance is created. The hungry canyons alliance shall be governed by a board of directors appointed as provided in its bylaws and the board shall carry out its responsibilities under the general direction of the loess hills development and conservation authority. The bylaws of the hungry canyons alliance are subject to review and approval of the loess hills development and conservation authority.

5. This subchapter is not intended to affect the authority of the department of natural resources in its acquisition, development, and management of public lands within the counties represented by the authority.

6. In matters relating to the conservation, preservation, or development of the loess hills, state agencies shall coordinate, cooperate, and consult with the loess hills development and conservation authority and its associated alliances.

Referred to in §161D.2, 161D.3, 161D.5

### **161D.2 Loess hills development and conservation fund.**

A loess hills development and conservation fund is created in the state treasury. The fund shall include a hungry canyons account and a loess hills alliance account which shall be administered by the loess hills development and conservation authority. The proceeds of the respective accounts shall be used for the purposes specified in section 161D.1 or 161D.6 as applicable. The loess hills development and conservation authority may accept gifts, bequests, other moneys including, but not limited to, state or federal moneys, and in-kind contributions for deposit in the fund. The gifts, grants, bequests from public and private sources, state and federal moneys, and other moneys received by the authority shall be deposited in the respective accounts and any interest earned shall be credited to the respective accounts to be used for the purposes specified in section 161D.1 or 161D.6 as applicable. Notwithstanding section 8.33, any unexpended or unencumbered moneys remaining in the fund at the end of the fiscal year shall not revert to the general fund of the state, but the moneys shall remain available for expenditure by the authority in succeeding fiscal years.

As used in this subchapter, unless the context otherwise requires:

1. “*Alliance*” means the loess hills alliance created in section 161D.5.
2. “*Authority*” means the loess hills development and conservation authority created in section 161D.1.
3. “*Fund*” means the loess hills development and conservation fund created in section 161D.2.

99 Acts, ch 119, §4

### **161D.5 Loess hills alliance created.**

1. A loess hills alliance is created. The alliance shall carry out its responsibilities under the general direction of the loess hills development and conservation authority. The alliance shall encompass the geographic region including the counties of Plymouth, Woodbury, Monona, Harrison, Pottawattamie, Mills, and Fremont. Membership and participation in projects of the alliance is not required. The alliance shall be governed by a board of directors appointed as follows:

a. Three members appointed by the board of supervisors of each county participating in the alliance and at least one of the appointees shall be a member of the board of supervisors of a county participating in the alliance.

b. Seven additional voting members who shall be persons with experience in the fields of environmental affairs, conservation, finance, development, tourism, or related fields, and who shall be appointed by the authority.

c. The voting members of the board of directors appointed pursuant to paragraphs “a” and “b” shall include agricultural producers owning real property within the loess hills landform.

2. Each voting member of the board of directors shall be a resident of a county which is eligible for membership in the authority pursuant to section 161D.1 and shall be appointed to a term of office as determined by the authority. SUBCHAPTER II

SOUTHERN IOWA DEVELOPMENT AND  
CONSERVATION AUTHORITY

**161D.11 Southern Iowa development and conservation authority created — membership and duties.**

1. A southern Iowa development and conservation authority is created. The counties of Appanoose, Clarke, Davis, Decatur, Jefferson, Lucas, Monroe, Van Buren, Wapello, and Wayne are entitled to one voting member each on the authority, but membership or participation in projects of the authority is not required. Each member of the authority shall be appointed by the respective board of supervisors for a term to be determined by each board of supervisors, but the term shall not be for less than one year. An appointee shall serve without compensation, but an appointee may be reimbursed for actual expenses incurred while performing the duties of the authority as determined by each board of supervisors. The authority shall meet, organize, and adopt rules of procedures as deemed necessary to carry out its duties. The authority may appoint working committees that include other individuals in addition to voting members.

2. The mission of the authority is to develop and coordinate plans for projects related to the unique natural resources, rural development, and infrastructure problems of counties in the most fragile areas of the southern Iowa drift plain. The authority's mission is established in part as a response to the erosion of soils, degradation of water resources, and the destabilization of stream channels in the fragile glacial till soils of southern Iowa that have occurred in a large part due to unchecked conversion of grassland to cropland. This land use conversion was brought about by the economic pressures of past federal agricultural policies that disregarded the fragile nature of the southern Iowa soil resource and the incompatibility of these soils with the subsidized commodities. The resulting erosion of the land has damaged the rural infrastructure of this area, destroyed public roads and bridges, adversely impacted stream water quality and riparian habitat, affected other public and private improvements, and severely threatens the potable water supply of the region. Reducing soil erosion, preventing sedimentation, and stopping nutrients and pesticides from entering water resources are all necessary to protect the rural infrastructure in the southern area of the state. Important protection measures include structural improvements and the reestablishment of grasslands for sustainable economic uses.

3. The authority shall cooperate with the division of soil conservation and water quality of the department of agriculture and land stewardship and the affected soil and water conservation districts, the department of natural resources, and the state department of transportation in carrying out its mission and duties. The authority shall also cooperate with appropriate federal agencies, including the United States environmental protection agency,

the United States department of interior, and the United States department of agriculture natural resources conservation service. The authority shall make use of technical resources available through member counties and cooperating agencies.

4. The authority shall administer the southern Iowa development and conservation fund created under section 161D.12 and shall deposit and expend moneys in the fund for the planning, development, and implementation of development and conservation activities or measures in the member counties.

5. This section is not intended to affect the authority of the department of natural resources in its acquisition, development, and management of public lands within the counties represented by the authority.

However, the department may adopt prescriptive rules relating to the standard of care. Regardless of whether the department adopts such rules, a permittee meets the standard of care required in subsection 1 if it voluntarily complies with rules applicable to state licensees or registrants. A finding by the United States department of agriculture that a permittee complies with the Animal Welfare Act is not conclusive when determining that the permittee provides a standard of care required in subsection 1.

If the owner or person in charge of the commercial establishment refuses admittance, the department may obtain an administrative search warrant issued under section 808.14.

a. An oral or written complaint received by the department by a person. The complainant must provide the complainant's name and address and telephone number. Notwithstanding chapter 22, the department's record of a complaint is confidential, unless any of the following apply:

(1) The results of the monitoring are used in a contested case proceeding as provided in chapter 17A or in a judicial proceeding.

2. The department may require an owner, operator, or employee of a commercial establishment subject to disciplinary action under subsection 1 to complete a continuing education program as a condition for retaining an authorization. This section does not prevent a person from voluntarily participating in a continuing education program.

3. The department shall administer the continuing education program by either providing direct instruction or selecting persons to provide such instruction. The department is not required to compensate persons for providing the instruction, and may require attendees to pay reasonable fees necessary to compensate the department providing the instruction or a person selected by the department to provide the instruction. The department shall, to every extent possible, select persons to provide the instruction by consulting with organizations that represent commercial establishments, including but not limited to the Iowa pet breeders association.

**162.20 Sterilization.**

1. A pound or animal shelter shall not transfer ownership of a dog or cat by sale or adoption, unless the dog or cat is subject to sterilization. The sterilization shall involve a procedure which permanently destroys the capacity of a dog or cat to reproduce, either by the surgical removal or alteration of its reproductive organs, or by the injection or ingestion of a serum. The pound or animal shelter shall not relinquish custody until it provides for one of the following:

a. Sterilization performed by a veterinarian licensed pursuant to chapter 169.

b. The execution of an agreement with a person intended to be the permanent custodian of the dog or cat. The agreement must provide that the custodian shall have the dog or cat sterilized by a veterinarian licensed pursuant to chapter 169.

2. The pound or animal shelter maintaining custody of the dog or cat may require that a person being transferred ownership of the dog or cat reimburse the pound or animal shelter for the amount in expenses incurred by the pound or animal shelter in sterilizing the dog or

cat, if the dog or cat is sterilized prior to the transfer of ownership of the dog or cat to the person.

3. a. The sterilization agreement may be on a form which shall be prescribed by the department. The agreement shall contain the signature and address of the person receiving custody of the dog or cat, and the signature of the representative of the pound or animal shelter.

b. The sterilization shall be completed as soon as practicable, but prior to the transfer of the ownership of the dog or cat by the pound or animal shelter. The pound or animal shelter may grant an extension of the period required for the completion of the sterilization if the extension is based on a reasonable determination by a licensed veterinarian.

c. A pound or animal shelter shall transfer ownership of a dog or cat, conditioned upon the confirmation that the sterilization has been completed by a licensed veterinarian who performed the procedure. The confirmation shall be a receipt furnished by the office of the attending veterinarian.

d. A person who fails to satisfy the terms of the sterilization agreement shall return the dog or cat within twenty-four hours following receipt of a demand letter which shall be delivered to the person by the pound or animal shelter personally or by certified mail.

4. a. A person who does not comply with the provisions of a sterilization agreement is guilty of a simple misdemeanor.

b. A person who fails to return a dog or cat upon receipt of a demand letter is guilty of a simple misdemeanor.

c. A pound or animal shelter which knowingly fails to provide for the sterilization of a dog or cat is subject to a civil penalty of up to two hundred dollars. The department may enforce and collect civil penalties according to rules which shall be adopted by the department. Each violation shall constitute a separate offense. Moneys collected from civil penalties shall be deposited into the general fund of the state and are appropriated on July 1 of each year in equal amounts to each track licensed to race dogs to support the racing dog adoption program as provided in section 99D.27. Upon the third offense, the department may suspend or revoke a certificate of registration issued to the pound or animal shelter pursuant to this chapter. The department may bring an action in district court to enjoin a pound or animal shelter from transferring animals in violation of this section. In bringing the action, the department shall not be required to allege facts necessary to show, or tending to show, a lack of adequate remedy at law, that irreparable damage or loss will result if the action is brought at law, or that unique or special circumstances exist.

5. This section shall not apply to the following:

a. The return of a dog or cat to its owner by a pound or animal shelter.

b. The transfer of a dog or cat by a pound or animal shelter which has obtained an enforcement waiver issued by the department. The pound or shelter may apply for an annual waiver each year as provided by rules adopted by the department. The department shall grant a waiver, if it determines that the pound or animal shelter is subject to an ordinance by a city or county which includes stricter requirements than provided in this section. The department shall not charge more than ten dollars as a waiver application fee. The fees collected by the department shall be deposited in the general fund of the state.

c. The transfer of a dog or cat to a research facility as defined in section 162.2 or a person licensed by the United States department of agriculture as a class B dealer pursuant to 9 C.F.R. ch. 1, subch. A, pt. 2. However, a class B dealer who receives an unsterilized dog or cat from a pound or animal shelter shall either sterilize the dog or cat or transfer the unsterilized dog or cat to a research facility provided in this paragraph. The class B dealer shall not transfer a dog to a research facility if the dog is a greyhound registered with the national greyhound association and the dog raced at a track associated with pari-mutuel racing unless the class B dealer receives written approval of the transfer from a person who owned an interest in the dog while the dog was racing.

**163.15 Tuberculosis — indemnification of owner.**

1. If the secretary of agriculture determines that the outbreak of the infectious or contagious disease tuberculosis among an animal population constitutes a threat to the general welfare or the public health of the inhabitants of this state, the secretary shall formulate a program of eradication which shall include the condemnation and destroying of the animals exposed to or afflicted with the disease tuberculosis. The program of eradication shall provide for the indemnification of owners of the livestock under this section, if there are no other sources of indemnification. The program shall not be effective until the program has been approved by the executive council.

2. If an animal afflicted with the infectious or contagious disease tuberculosis is destroyed

under a program of eradication as provided in this section, the owner shall be compensated according to one of the following methods:

a. (1) A determination of an indemnity amount as agreed to by appraisal. The determination shall be made by appraisers who shall be three competent and disinterested persons, including one who is appointed by the department, one who is appointed by the owner, and one who is appointed by agreement of the department and the owner. The appraisers shall report their appraisal under oath to the department. The appraisers shall receive compensation and expenses as provided for by the program.

(2) A claim for an indemnity filed by the owner shall not exceed the amount agreed upon by the majority decision of the appraisers. For an animal other than registered purebred stock the indemnity amount shall be based on current market prices. For registered purebred stock, the indemnity amount may exceed market prices by not more than fifty percent. The indemnity amount shall be less any amount of indemnification that the owner might be allowed from the United States department of agriculture. An indemnity shall not be allowed for an animal if the department of agriculture and land stewardship determines that the animal has been fed raw garbage as provided in section 163.26.

(3) A claim for an indemnity by the owner and a claim for compensation and expenses by the appraisers shall be filed with the department and submitted by the secretary of agriculture to the executive council for authorization of payment of the claim as an expense from the appropriations addressed in section 7D.29.

b. A formula established by rule adopted by the department that is effective as determined by the department in accordance with chapter 17A and applicable upon approval of the program of eradication by the executive council. The formula shall be applicable to indemnify owners if the executive council, upon recommendation by the secretary of agriculture, determines that an animal population in this state is threatened with infection from an exceptionally contagious form of the disease tuberculosis.

(1) An owner shall be paid an indemnity amount based on the formula, only if the owner elects to be paid under the formula in lieu of the determination by appointed appraisers as otherwise provided in this section.

(2) The formula shall provide for the payment of the fair market value of an animal based on market prices paid for similar animals according to categories or criteria established by the department, which may include payment based on the species, breed, type, weight, sex, age, purebred status, and condition of the animal. The department may provide for deductions based on other compensation received by the owner for the destruction of the animals. The department may exclude a claim if the person would be ineligible to receive compensation by three appointed appraisers as provided in this section.

(3) If an owner elects to be paid an indemnity amount based on a method that provides either a determination by appointed appraisers or pursuant to a formula, the owner shall not be entitled to revoke the election, unless otherwise provided by the department. An owner's decision to delay or refuse to make an election under this section shall not affect the condemnation and destruction of afflicted animals under the program of eradication.

(4) The executive council may authorize payment under the provisions of this paragraph "b" as an expense from the appropriations addressed in section 7D.29.

### MOVEMENT OF SWINE

Referred to in §163.2

#### **163.30 Swine movement — definitions — dealer licenses, permits, and fees.**

1. This section shall apply to all swine moved interstate and intrastate, except swine moved directly to slaughter or to a livestock market for sale directly to a slaughtering establishment for immediate slaughter.

2. When used in this subchapter:

a. “Dealer” means any person who is engaged in the business of buying for resale, or selling, or exchanging swine as a principal or agent or who claims to be so engaged, but does not include the owner or operator of a farm who does not claim to be so engaged and who sells or exchanges only those swine which have been kept by the person solely for feeding or breeding purposes.

b. “Move” or “movement” means to ship, transport, or deliver swine by land, water, or air, except that “move” or “movement” does not mean a relocation.

c. “Relocate” or “relocation” means to ship, transport, or deliver swine by land, water, or air, to different premises, if the ownership of the swine does not change, the prior and new premises are located within the state, and the shipment, transportation, or delivery between the prior and new premises occurs within the state.

d. “Separate and apart” means a manner of holding swine so as not to have physical contact with other swine on the premises.

3. A person shall not act as a dealer unless the department issues the person a dealer’s license. The person must be licensed as a dealer regardless of whether the swine originate in this state or another jurisdiction or the person resides in this state or another jurisdiction. The jurisdiction may be in another state or a foreign nation.

a. The fee for a dealer’s license is ten dollars. A dealer’s license expires on the first day of the second July following the date of issue. An initial license shall be numbered and any subsequent or renewed license issued to that dealer shall retain the same license number.

b. To be issued a license, an applicant must file a surety bond with the department. The applicant shall file a standard surety bond of ten thousand dollars with the secretary named as trustee, for the use and benefit of anyone damaged by a violation of this section, except that the bond shall not be required for dealers who are bonded in the same or a greater amount than required pursuant to the federal Packers and Stockyards Act. In addition, the department may require that a licensee file evidence of financial responsibility with the department prior to a license being issued or renewed as provided in section 202C.2.

c. Each employee or agent doing business by buying for resale, selling, or exchanging feeder swine in the name of a licensed dealer must obtain a permit issued by the department showing the person is employed by or represents a licensed dealer. A permit shall be issued upon the department’s approval of a completed application. An application form shall be furnished by the department. The fee for a permit is six dollars. A permit shall expire on the first day of the second July following the date of issue.

d. A permittee shall not represent more than one dealer. Failure of a licensee or permittee to comply with this chapter or a rule made pursuant to this chapter is cause for revocation by the secretary of the permit or license after notice to the alleged offender and the holding of a hearing by the secretary. Rules shall be made in accordance with chapter 17A. A rule, the violation of which is made the basis for revocation, except temporary emergency rules, shall first have been approved after public hearing as provided in section 17A.4 after giving twenty days’ notice of the hearing by mailing the notice, by ordinary mail, to every person filing a request for notice accompanied by an addressed envelope with prepaid postage. Any person may file such a request to be listed with any agency for notice for the time and place for all hearings on proposed rules, which request shall be accompanied by a remittance of five dollars. Such fee shall be added to the operating fund of the department. The listing shall expire semiannually on January 1 and July 1.

4. a. All swine moved shall be individually identified with a distinctive and easily discernible ear tag affixed in either ear of the animal or other identification acceptable to the department, which has been specified by rule promulgated under the department’s rulemaking authority. The department shall make ear tags available at convenient locations within each county and shall sell such tags at a price not exceeding the cost to producers and others to comply with this section.

b. Every seller, dealer and market operator shall keep a record of the ear tag numbers, or other approved identification, and the farm of origin of swine moved by or through that person, which records shall be made available by that person to any appropriate representative of the department or the United States department of agriculture.

5. All swine moved shall be accompanied by a certificate of veterinary inspection issued by the state of origin and prepared and signed by a veterinarian. The certificate shall show the point of origin, the point of destination, individual identification, immunization status, and, when required, any movement permit number assigned to the shipment by the department. All such movement of swine shall be completed within seventy-two hours unless an extension of time for movement is granted by the department.

a. However, swine may be moved intrastate directly to an approved state, federal, or auction market without identification or certification, if the swine are to be identified and certificated at the state, federal, or auction market.

b. Registered swine for exhibition or breeding purposes which can be individually identified by a method approved by the department are excepted from the identification requirement.

c. Native Iowa swine moved from farm to farm shall be excepted from the identification requirement if the owner transferring possession of the feeder pigs executes a written agreement with the person taking possession of the feeder pigs. The agreement shall provide that the feeder pigs shall not be commingled with other swine for a period of thirty days. The owner transferring possession shall be responsible for making certain that the agreement is executed and for providing a copy of the agreement to the person taking possession.

6. The department may combine a certificate of veterinary inspection with a certificate of inspection required under chapter 166D.

7. The department may require issuance of movement permits on certain categories of swine moved, prior to their movement, pursuant to rules adopted by the department. The rules shall be adopted when in the judgment of the secretary, such movement would otherwise threaten or imperil the eradication of classical swine fever in Iowa.

8. All swine moved shall be quarantined separate and apart from other swine located at the Iowa farm of destination for thirty days beginning with their arrival at such premises, or if such incoming swine are not held separate and apart, all swine on such premises shall be thus quarantined, except animals moving from such premises directly to slaughter.

9. There can only be one transfer by a dealer, involving not more than two markets, prior to quarantine.

10. The use of anti-classical swine fever serum or antibody concentrate shall be in accordance with rules adopted by the department.

11. Any swine found by a registered veterinarian to have any infectious or contagious disease after delivery to a livestock sale barn or auction market for resale, other than for slaughter, shall be immediately returned to the consignor's premises to be quarantined separate and apart for fifteen days. Such swine shall not be moved from such premises for any purpose unless a certificate of veterinary inspection accompanies the swine's movement or unless the swine are sent to slaughter.

In administering and enforcing this section, the department may adopt rules and shall issue orders in a manner consistent with sound veterinary principles and federal law for the control of outbreaks of the disease. The department may implement the security measures by doing any of the following:

*a.* If the department determines that an animal is infected with or exposed to foot and mouth disease, or the department suspects that an animal is so infected or exposed, the department may provide for all of the following:

(1) The quarantine, condemnation, or destruction of the animal. The department may establish quarantined areas and regulate activities in the quarantined areas, including movement or relocation of animals or other property within, into, or from the quarantined areas. This section does not authorize the department to provide for the destruction of personal property other than an animal.

(2) The inspection or examination of the animal's premises in order to perform an examination or test to determine whether the animal is or was infected or exposed or whether the premises is contaminated. The department may take a blood or tissue sample of any animal on the premises.

(3) The compelling of a person who is the owner or custodian of the animal to provide information regarding the movement or relocation of the animal or the vaccination status of the animal or the herd where the animal originates. The department may issue a subpoena for relevant testimony or records as defined in section 516E.1.\* In the case of a failure or refusal of the person to provide testimony or records, the district court upon application of the department or the attorney general acting upon behalf of the department, may order the person to show cause why the person should not be held in contempt. The court may order the person to provide testimony or produce the record or be punished for contempt as if the person refused to testify before the court or disobeyed a subpoena issued by the court.

*b.* The department may provide for the cleaning and disinfection of real or personal property if the department determines that the property is contaminated with foot and mouth disease or suspects that the property is contaminated with foot and mouth disease.

2. *a.* If the department determines that there is a suspected outbreak of foot and mouth disease in this state, the department shall immediately notify all of the following:

(1) The governor or a designee of the governor. The notification shall contain information regarding actions being implemented or recommended in order to determine if the outbreak is genuine and measures to control a genuine outbreak.

(2) The administrative unit of the United States department of agriculture responsible for controlling outbreaks in this state.

*b.* If the department confirms an outbreak of foot and mouth disease in this state, the department shall cooperate with the governor; federal agencies, including the United States department of agriculture; and state agencies, including the department of homeland security and emergency management, in order to provide the public with timely and accurate information regarding the outbreak. The department shall cooperate with organizations representing agricultural producers in order to provide all necessary information to agricultural producers required to control the outbreak.

3. The department shall cooperate with federal agencies, including the United States department of agriculture, other state agencies and law enforcement entities, and agencies of other states. Other state agencies and law enforcement entities shall assist the department.

4. *a.* To the extent that an animal's owner would not otherwise be compensated, section 163.15 shall apply to the owner's loss of any animal destroyed under this section.

*b.* Upon the request of the executive council, the department shall develop and submit a plan to the executive council that compensates an owner for property, other than an animal, that is inadvertently destroyed by the department as a result of the department's regulation of activities in a quarantined area. The plan shall not be implemented without the approval of at least three members of the executive council. The payment of the compensation under the plan shall be made in the same manner as provided in section 163.15. The owner may submit a claim for compensation prior to the plan's implementation. 166B.4	Institution of indemnification.		

#### 166B.1 Definitions.

As used in this chapter:

1. “*Classical swine fever*” means the contagious, infectious, and communicable disease of swine commonly known as hog cholera.
2. “*Destroy*” means condemn under state authority and slaughter or otherwise kill as a result of or pursuant to such condemnation.

Further definitions; see §159.1

#### 166B.2 General authority.

The department may destroy or require the destruction of any swine which the state veterinarian knows to be, or suspects is, affected with or exposed to classical swine fever, whenever the department finds such destruction to be necessary to prevent or reduce the danger of the spread of classical swine fever. Disposal of condemned swine shall be under the supervision of a regulatory employee. Salvage of apparently healthy marketable swine is permissible as a minimum provision and may be discontinued in favor of total herd disposition with indemnification as necessary and without such salvage in any case or at any time when it is determined by the department and the United States department of agriculture that the procedure would constitute an undue threat to the eradication program. Before being condemned and ordered to be destroyed, a positive diagnosis of classical swine fever affecting the herd must be confirmed by a state or federal laboratory or personnel approved by the department and the United States department of agriculture.

The department shall appraise any swine destroyed or ordered destroyed pursuant to this chapter at not to exceed current market value and shall indemnify the owner of such swine in an amount not to exceed two hundred dollars for purebred, inbred or hybrid or breeding swine; and not to exceed one hundred dollars for all other swine, provided that fifty percent or more of all such indemnities are paid by the United States department of agriculture.

[C66, 71, 73, 75, 77, 79, 81, §166B.3]

#### 166B.4 Institution of indemnification.

It is hereby recognized and declared that indemnification for destruction of swine infected with or exposed to classical swine fever is an expression of the public policy of this state but employed only in the final stages of eradication of the disease, or as a means of preventing or minimizing its recurrence. The department shall not therefore institute an initial program of indemnification pursuant to the chapter until it is mutually agreed between the department and the United States department of agriculture that such action is necessary in order to carry out the classical-swine-fever eradication program.

#### **166D.7 Noninfected herds.**

In administering the pseudorabies eradication program, the department shall regulate noninfected herds as follows:

1. A qualified negative herd must be certified, recertified, and maintained as follows:

a. The herd shall be certified when all breeding swine have reacted negatively to a test. The herd must have been free from infection for thirty days prior to testing. At least ninety percent of swine in the herd must have been on the premises as a part of the herd for at least sixty days prior to testing, or swine in the herd must have been moved or relocated directly from another qualified negative herd. To remain certified, the herd must be retested and recertified each month as provided by the department. The herd shall be recertified when the greater of five head of swine or at least ten percent of the herd's breeding swine react negatively to a test.

b. Before being added to the herd, new swine, including swine returning to the herd after contact with nonherd swine, shall be isolated until the new swine react negatively to a test conducted thirty days or more after the swine has been placed in isolation. Swine from a herd of unknown status must react negatively to a test not more than thirty days prior to movement from the herd of unknown status and retested in isolation at least thirty days after movement onto the premises where the qualified negative herd is located.

c. Swine from another qualified negative herd may be added without isolation or testing.

d. The owner shall make a request to the department for approval or reapproval of a qualified negative herd when the required tests are completed. Upon satisfactory proof that all requirements have been met, the herd shall be recertified by the department.

2. A monitored herd shall be initially certified, recertified, and maintained as follows:

a. The herd shall be certified when a statistical sampling of the herd is determined to be noninfected.

b. In order to remain certified the herd must be retested and recertified as provided by the department. The herd must be recertified annually. The herd shall be recertified when a statistical sampling of the herd is determined to be noninfected within twelve months from initial certification or the most recent recertification.

c. A monitored herd shall not be certified or recertified, if the herd is located within a county which is designated by the department as in stage II of the national pseudorabies eradication program, unless the herd is vaccinated with a modified-live differentiable vaccine pursuant to section 166D.11 and as required by the department.

d. A monitored herd may receive new swine into the herd from a noninfected herd.

3. A qualified differentiable negative herd shall be certified, recertified, and maintained as follows:

a. The herd shall be certified when one hundred percent of breeding swine have reacted negatively to a test. The herd must have been free from infection for thirty days prior to testing. At least ninety percent of swine in the herd must have been on the premises as a part of the herd for at least sixty days prior to testing, or swine in the herd must have been directly moved or relocated from a qualified negative herd or qualified differentiable negative herd. A differentiable vaccine must be administered at intervals in accordance with the package insert for that vaccine. To remain certified, the herd must be retested and recertified as provided by the department. The herd shall be recertified when each month at least ten percent of the herd's breeding swine react negatively to a test.

b. Before adding to the herd new swine, including swine returning to the herd after contact with nonherd swine, the herd shall be isolated until the new swine react negatively to a test conducted thirty days or more after the swine have been placed in isolation. Swine from a herd of unknown status must react negatively to a test not more than fifteen days prior to movement from the herd of unknown status and retested in isolation at least thirty days after movement onto the premises where the qualified differentiable negative herd is located.

c. Swine from a qualified negative or qualified differentiable negative herd may be added without isolation or testing.

d. The owner shall make a request to the department for certification or recertification of a qualified differentiable negative herd when the required tests are completed. Upon satisfactory proof that all requirements have been met, the herd shall be recertified by the department.

#### **166D.8 Infected herds.**

An infected herd which is not quarantined under section 166D.9, shall either adopt a herd cleanup plan or a feeder pig cooperator herd cleanup plan.

1. a. A herd cleanup plan shall apply to a herd if feeder pigs are not moved from the herd. The plan shall provide for one of the following:

(1) The testing of all swine capable of being accurately diagnosed with pseudorabies and the removal of infected swine from the herd.

(2) Depopulation.

b. A herd cleanup plan must be implemented as follows:

(1) If the plan provides for the testing and removal of swine, all breeding swine must be tested with a differentiable test and react negatively to the test within fifteen days after the herd is classified by the department as infected. All breeding swine reacting positively to the test must be removed as provided in this section. At least thirty days after removal of the breeding swine reacting positively, all remaining breeding swine must be tested and react negatively to the test. Subsequent testing and removal must be conducted as provided in this subparagraph until all breeding swine react negatively. When all breeding swine are tested and react negatively to the test, the department shall classify the herd as a noninfected herd.

(2) The herd cleanup plan may provide for the relocation of feeder pigs or cull swine. If the plan provides for the relocation of feeder pigs, the plan must provide for the segregation of feeder pigs and identify in writing the approved premises where feeder pigs or cull swine may be relocated upon approval by the department.

2. *a.* A feeder pig cooperator herd cleanup plan shall apply to a herd if feeder pigs are moved from the herd. The plan shall include all the requirements for a herd cleanup plan. In order to be subject to a feeder pig cooperator herd cleanup plan all of the following conditions must be satisfied:

(1) There must have been no clinical signs of pseudorabies during the past thirty days.

(2) The production operation must be capable of segregating offspring at weaning into facilities separate and apart from the remainder of the herd.

*b.* The feeder pig cooperator herd cleanup plan may provide for the movement or relocation of feeder pigs or cull swine. If the feeder pig cooperator herd cleanup plan provides for the movement or relocation of feeder pigs or cull swine, the plan must identify in writing the approved premises where the feeder pigs or cull swine may be moved or relocated as provided in section 166D.10B.

3. Costs of testing and vaccination may be paid as provided in section 166D.11.

4. An infected herd not subject to a cleanup plan shall be quarantined within fifteen days of becoming a known infected herd. An infected herd which is not subject to a cleanup plan is a quarantined herd.

5. Swine which are part of a herd subject to a cleanup plan shall only be moved or relocated as required pursuant to section 166D.10. If the location where the herd is kept is an approved premises as provided in section 166D.10B, the cleanup plan shall include terms and conditions for being certified as an approved premises.

2. A herd shall be released from quarantine when no animal, including livestock, on the premises shows clinical symptoms of pseudorabies. In addition one of the following must occur:

*a.* The swine have been removed from the premises, and the premises have been cleaned and disinfected under supervision of the department or the inspection service. The disinfectant shall be approved by the department or inspection service. The premises must have been maintained free of swine for thirty days. However, the epidemiologist for good cause may determine that premises shall be maintained free of swine for a period greater or less than thirty days.

*b.* Swine reacting positively to a test have been removed from the premises. Remaining swine, except suckling pigs, must be tested and react negatively to the test thirty days or more after removal of the herd's swine reacting positively to the test.

*c.* The swine reacting positively to a test have been removed from the premises. At least thirty days after removal of the positive swine, breeding swine remaining plus a random sample equaling twenty-eight of grower-finishing swine more than two months of age must react negatively to the test. While the state is in stage III or IV of the national pseudorabies program pursuant to federal regulations, the grower-finisher swine must react negatively to a test at least thirty days after reacting negatively to the last test.

3. *a.* While the state is classified in stage I, II, or III of the national pseudorabies program pursuant to federal regulations, the following requirements must be satisfied:

(1) All swine present on the date the quarantine was imposed have been removed.

(2) There must have been no clinical signs of pseudorabies in the herd for at least six months.

(3) The epidemiologist must either conduct two successive statistical samplings at least ninety days apart, or conduct statistical samplings according to rules adopted by the

department which are consistent with the national pseudorabies eradication program, which reveal no infection within the new breeding swine.

(4) The epidemiologist must either conduct two successive statistical samplings ninety days apart, or conduct statistical samplings according to rules adopted by the department which are consistent with the national pseudorabies eradication program, which reveal no infection in the herd's progeny at least four months of age.

b. A herd removed from quarantine under this subsection shall be tested by statistical sampling one year later, unless an epidemiologist determines that the herd must be tested earlier.

(2) Costs to the department for administration of this chapter.

d. Conduct investigations for the purpose of discovering violations of this chapter or grounds for disciplining licensed veterinarians.

8. The powers enumerated in subsection 7 are granted for the purpose of enabling the board to effectively supervise the practice of veterinary medicine and are to be construed liberally to accomplish this objective.

9. A person who provides veterinary medical services, owns a veterinary clinic, or practices in this state shall obtain a certificate from the board and be subject to the same standards of conduct, as provided in this chapter and rules adopted by the board, as apply to a licensed veterinarian, unless the board determines that the same standards of conduct are inapplicable. The board shall issue, renew, or deny a certificate; adopt rules relating to the standards of conduct; and take disciplinary action against the person, including suspension or revocation of a certificate, in accordance with the procedures established in section 169.14. Certification fees shall be established by the board pursuant to subsection 7, paragraph "j". Fees shall be established in an amount sufficient to fully offset the costs of certification pursuant to this subsection. For the fiscal year beginning July 1, 2001, and ending June 30, 2002, the department shall retain fees collected to administer the program of certifying veterinary clinics and the fees retained are appropriated to the department for the purposes of this subsection. For the fiscal year beginning July 1, 2001, and ending June 30, 2002, notwithstanding section 8.33, fees which remain unexpended at the end of the fiscal year shall not revert to the general fund of the state but shall be available for use for the following fiscal year to administer the program. For the fiscal year beginning July 1, 2002, and succeeding fiscal years, certification fees shall be deposited in the general fund of the state and are appropriated to the department to administer the certification provisions of this subsection. This subsection shall not apply to an animal shelter, as defined in section 162.2, that provides veterinary medical services to animals in the custody of the shelter.

10. The department shall furnish the board with all articles and supplies required for the public use and necessary to enable the board to perform the duties imposed upon it by law. Such articles and supplies shall be obtained by the department in the same manner in which the regular supplies for the department are obtained, and the department shall assess the costs to the board for such articles and supplies. The board shall also reimburse the

department for direct and indirect administrative costs incurred in issuing and renewing the licenses.

A person desiring to take an examination shall make application at least thirty days before the date of the examination.

Examinations shall be designed to test the examinee's knowledge of and proficiency in the subjects and techniques commonly taught in veterinary schools. To pass the examination, the examinee must demonstrate scientific and practical knowledge sufficient to establish competency to practice veterinary medicine in the judgment of the board. All examinees shall be tested by a written examination, supplemented by such oral interviews and practical demonstrations as the board may deem necessary. The board may adopt and use the examination prepared by the national board of veterinary examiners as a part of the examination given to examinees.

### **169.13 Discipline of licensees.**

1. The board of veterinary medicine, after due notice and hearing, may revoke or suspend a license to practice veterinary medicine if it determines that a veterinarian licensed to practice veterinary medicine is guilty of any of the following acts or offenses:

a. Knowingly making misleading, deceptive, untrue, or fraudulent representation in the practice of the profession.

b. Being convicted of a felony in the courts of this state or another state, territory, or country. Conviction as used in this paragraph includes a conviction of an offense which if committed in this state would be deemed a felony without regard to its designation elsewhere, or a criminal proceeding in which a finding or verdict of guilt is made or returned, but the adjudication or guilt is either withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state is conclusive evidence.

c. Violating a statute or law of this state, another state, or the United States, without regard

to its designation as either felony or misdemeanor, which statute or law relates to the practice of veterinary medicine.

d. Having the person's license to practice veterinary medicine revoked or suspended, or having other disciplinary action taken by a licensing authority of another state, territory, or country. A certified copy of the record or order of suspension, revocation, or disciplinary action is conclusive or prima facie evidence.

e. Knowingly aiding, assisting, procuring, or advising a person to unlawfully practice veterinary medicine.

f. Being adjudged mentally incompetent by a court of competent jurisdiction. The adjudication shall automatically suspend a license for the duration of the license unless the board orders otherwise.

g. Being guilty of a willful or repeated departure from, or the failure to conform to, the minimal standard of acceptable and prevailing practice of veterinary medicine as defined in rules adopted by the board, in which proceeding actual injury to an animal need not be established; or the committing by a veterinarian of an act contrary to honesty, justice, or good morals, whether the act is committed in the course of the practice or otherwise, and whether committed within or without this state.

h. Inability to practice veterinary medicine with reasonable skill and safety by reason of illness, drunkenness, excessive use of drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

i. Willful or repeated violation of lawful rules adopted by the board or violation of a lawful order of the board, previously entered by the board in a disciplinary hearing.

2. a. The board, upon probable cause, may compel a veterinarian to submit to a mental or physical examination by designated physicians. Failure of a veterinarian to submit to an examination constitutes an admission to the allegations made against that veterinarian and the finding of fact and decision of the board may be entered without the taking of testimony or presentation of evidence. At reasonable intervals, a veterinarian shall be afforded an opportunity to demonstrate that the veterinarian can resume the competent practice of veterinary medicine with reasonable skill and safety to animals.

b. A person licensed to practice veterinary medicine who makes application for the renewal of the person's license as required by section 169.12 gives consent to submit to a mental or physical examination as provided by this paragraph when directed in writing by the board. All objections shall be waived as to the admissibility of the examining physician's testimony or examination reports on the grounds that they constitute privileged communication. The medical testimony or examination reports shall not be used against a veterinarian in another proceeding and are confidential except for other actions filed against a veterinarian to revoke or suspend that person's license.

[S13, §2538-e; C24, 27, 31, 35, 39, §2799; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, §169.36; C79, 81, §169.13]

83 Acts, ch 115, §8; 2009 Acts, ch 41, §64

Referred to in §169.14, 272C.3, 272C.4

#### **169.14 Procedure for suspension or revocation.**

A proceeding for the revocation or suspension of a license to practice veterinary medicine or to discipline a person licensed to practice veterinary medicine shall be substantially in accord with the following:

1. The board, upon its own motion or upon a verified complaint in writing, may request the department of inspections and appeals to conduct an investigation of the charges contained in the complaint. The department of inspections and appeals shall report its findings to the board, and the board may issue an order fixing the time and place for hearing if a hearing is deemed warranted. A written notice of the time and place of the hearing, together with a statement of the charges, shall be served upon the licensee at least ten days before the hearing in the manner required for the service of notice of the commencement of an ordinary action.

2. If the licensee has left the state, the notice and statement of the charges shall be so served at least twenty days before the date of the hearing, wherever the licensee may be found. If the whereabouts of the licensee is unknown, service may be had by publication as

provided in the rules of civil procedure upon filing the affidavit required by those rules. If the licensee fails to appear either in person or by counsel at the time and place designated in the notice, the board shall proceed with the hearing.

3. The hearing shall be before a member or members designated by the board or before an administrative law judge appointed by the board according to the requirements of section 17A.11, subsection 1. The presiding board member or administrative law judge may issue subpoenas, administer oaths, and take or cause depositions to be taken in connection with the hearing. The member or officer shall issue subpoenas at the request and on behalf of the licensee.

4. A mechanized or stenographic record of the proceedings shall be kept. The licensee and attorney shall be given the opportunity to appear personally to present the licensee's position and arguments to the board. The board shall determine the charge upon the merits on the basis of the evidence in the record before it.

a. Suspend the license to practice veterinary medicine for a period to be determined by the board.

b. Revoke the license to practice veterinary medicine.

c. Suspend imposition of judgment and penalty or impose the judgment and penalty, but suspend enforcement and place the veterinarian on probation. The probation ordered may be vacated upon noncompliance. The board may restore and reissue a license to practice veterinary medicine, and may impose a disciplinary or corrective measure which it might originally have imposed.

8. Judicial review of the board's action may be sought in accordance with chapter 17A.

9. The filing of a petition for review does not in itself stay execution or enforcement of board action. Upon application, the board or the review court, in appropriate cases, may order a stay pending the outcome of the review proceedings.

A livestock owner's liability is not affected by the failure of a landowner to take custody of the livestock. A livestock owner shall not be liable for damages incurred by a landowner if the livestock trespassed through a fence that was not maintained by the landowner as required pursuant to chapter 359A.

b. To a landowner who takes custody of livestock on a public road as provided in section 169C.2 for costs incurred by the landowner in taking custody of the livestock, including maintenance costs.

The rebuttable presumption shall not apply if a criminal charge has been filed involving the removal or transfer of the livestock. The burden of proof regarding all other matters of dispute shall be on the aggrieved party.

d. The failure of an aggrieved party to provide notice as required by section 169C.3 shall not bar the aggrieved party from being awarded a judgment, if the court determines that the livestock owner had actual knowledge that the livestock had trespassed or strayed and the name and address of the aggrieved party.

2. If a civil action is brought by the livestock owner or aggrieved party, the matter shall be heard by a court on an expedited basis. The aggrieved party shall provide for the transfer of the livestock to the livestock owner, if the livestock owner posts a bond or other security with the court in the amount of the aggrieved party's claim. owner or the first date of the notice's publication as required pursuant to section 169C.3, if the parties fail to agree to the amount, terms, or conditions of payment or if the identity of the livestock owner cannot be determined. Title to the livestock shall transfer subject to any applicable security interests or liens.

4. A landowner is liable to the livestock owner for twice the fair market value of livestock that the landowner transfers to a person other than a local authority in violation of section 169C.2.

5. If the aggrieved party is a local authority, the local authority shall reimburse the landowner for the landowner's damages from proceeds received from the sale of the livestock, after satisfying any superior security interests or liens.

#### **169C.6 Habitual trespass.**

A habitual trespass occurs when livestock trespasses from the land where the livestock are kept onto the land of a neighboring landowner or strays from the land where the livestock are kept onto a public road, and on three or more separate occasions within the prior twelve-month period the same or different livestock kept on that land have trespassed onto the land of the same neighboring landowner or strayed from the land where the livestock are kept onto the same public road.

1. The local authority upon its own initiative or upon receipt of a complaint shall determine whether livestock are trespassing or straying from the land where the livestock are kept onto a public road, and make a record of its findings.

2. *a.* Once a habitual trespass occurs, a neighboring landowner may request that the responsible landowner of the land where the trespassing or stray livestock are kept erect or maintain a fence on the land. The neighboring landowner shall make the request to the responsible landowner in writing. The responsible landowner may compel an adjacent landowner to contribute to the erection or maintenance of the fence as provided in chapter 359A.

The neighboring landowner shall be a party to the controversy as if the neighboring party were an adjacent landowner. The neighboring landowner is not liable for erecting or maintaining the fence, unless the neighboring landowner is an adjacent landowner who is otherwise required to make a contribution under chapter 359A.

3. If the fence is not erected or maintained as required in section 359A.6, and upon the written request of the board of township trustees, the board of supervisors of the county where the fence is to be erected or maintained shall act in the same manner as the board of township trustees under that section, including by erecting or maintaining the fence, ordering payment from a defaulted party, and certifying an amount due to the county treasurer in the same manner as in section 359A.6. The amount due shall include the total costs required to erect or maintain the fence and a penalty equal to five percent of the total costs. The amount shall be placed upon the county system and collected in the same manner as ordinary taxes. a. (1) A bond of a surety company authorized to do business in the state of Iowa in the form prescribed by and to the satisfaction of the secretary, conditioned for the payment of a judgment against the applicant furnishing the bond because of nonpayment of obligations in connection with the purchase of animals.

(a) The amount of bond for an established dealer or broker who does not maintain a business location in this state shall be not less than the nearest multiple of five thousand dollars above twice the average daily value of purchases of livestock originating in this state, handled by such applicant during the preceding twelve months or such parts thereof as the applicant was purchasing livestock. The bond of a person who does not maintain a business location in this state shall be conditioned for the payment only of those claims which arise from purchases of livestock originating in this state.

(b) The amount of bond for an established dealer or broker who maintains one or more business locations in this state shall be not less than the nearest multiple of five thousand dollars above twice the average daily value of purchases of livestock originating in this state handled by the applicant during the preceding twelve months or such parts thereof as the applicant was purchasing livestock. The bond of a person who maintains one or more business locations in this state shall be conditioned for the payment only of those claims which arise from purchases of livestock originating in this state.

(c) If a new dealer or broker not previously covered by this chapter applies for a license, the amount of bond shall be based on twice the estimated average daily value of purchases of livestock originating in this state.

(d) For the purpose of computing average daily value, two hundred sixty is deemed the number of business days in a year.

(e) Whenever a dealer or broker's weekly purchases exceed one hundred fifty percent of the dealer's or broker's average weekly volume, the department shall require additional bond in an amount determined by the department.

(2) The licensee and surety of the bond shall be held and firmly bound unto the secretary as trustee for all persons who may be damaged because of nonpayment of obligations in connection with the purchase of animals originating in this state. Any person damaged because of such nonpayment may maintain suit in the person's own behalf to recover on the bond, even though not named as a party to the bond.

(3) For purposes of this paragraph "a", "*purchases of livestock originating in this state*" shall not include purchases by dealers or brokers from their subsidiaries.

b. A bond equivalent may be filed in lieu of a bond. The bond equivalent shall be in the form of a trust agreement and the fund of the trust shall be in the form of fully negotiable obligations of the United States or certificates of deposit insured by the federal deposit insurance corporation or the federal savings and loan insurance corporation.

(1) The trust agreement shall be in the form prescribed by the secretary and executed to the satisfaction of the secretary. The trustee of the trust agreement shall be an institution located in this state in which the funds are invested or deposited.

state, may submit a consolidated proof of financial responsibility. The consolidated proof of financial responsibility shall consist of a bond or a trust agreement meeting all of the requirements of this section, except that the calculation of the amount of the bond or the amount of the trust fund shall be based on the average daily value of all purchases of livestock originating in this state. A person who submits consolidated proof of financial responsibility shall maintain separate records for each business location, and shall maintain such other records respecting purchases of livestock as the secretary by rule shall prescribe.

2. a. Any person damaged by nonpayment of obligations or by any misrepresentation or fraud on the part of a broker or dealer may maintain an action against the broker or dealer, and the sureties on the bonds or the trustee of a trust fund. The aggregate liability of the sureties or the trust for all such damage shall not exceed the amount of the bond or trust. In the event that the aggregate claims exceed the total amount of the bond or trust, the amount payable on account of any claim shall be in the same proportion to the amount of the bond or trust as the individual claim bears to the aggregate claims.

b. Unless the person damaged files claim with the dealer or broker, and with the sureties or trustee, and with the department within ninety days after the date of the transaction on which the claim is based, the claimant shall be barred from maintaining an action on the bond or trust and from receiving any proceeds from the bond or trust.

3. Whenever the secretary determines that the business volume of the applicant or licensee is such as to render the bond or trust inadequate, the amount of the bond or trust shall be, upon notice, adjusted.

4. All bonds and trust agreements shall contain a provision requiring that at least thirty days' prior notice in writing be given to the secretary by the party terminating the bond or trust agreement as a condition precedent to termination.

5. a. Whenever a bond or a trust agreement is to be terminated by a cancellation by the surety or trustee, the secretary shall cause to be published notices of the proposed cancellation not less than ten days prior to the date the cancellation is effective. The notices shall be published as follows:

(1) In the Iowa administrative code.

(2) In a newspaper of general circulation in the county in which the licensee maintains a business location, or if the licensee maintains no business location in this state, then in the county where the licensee transacts a substantial part of the licensee's business.

(3) By general news release to all news media. Failure by the secretary to cause the publication of notice as required by this subparagraph shall not be deemed to prevent or delay the cancellation.

b. The termination of a bond or a trust agreement shall not release the parties from any liability arising out of the facts or transactions occurring prior to the termination date.

c. Trust funds shall not be withdrawn from trust by a licensee until the expiration of ninety days after the date of termination of the trust, and then only if no claims secured by the agreement have been filed with the secretary. If any claims have been filed with the secretary, the withdrawal of funds by the licensee shall not be permitted until the claims have been satisfied or released and evidence of the satisfaction or release filed with the secretary.

4. *Arrest.* A detention for the purposes of subsections 1, 2, and 3 shall not constitute an arrest. If the law enforcement officer has probable cause to believe that the person transporting livestock has committed a public offense, the officer may place the person under arrest. The officer may require the person to move the vehicle to a place determined by the officer, or the officer may make other provisions for the vehicle and the livestock, as the officer shall determine. If the owner of the livestock is not available, the officer is authorized to incur reasonable expense for the care of the livestock which expense shall be charged to and paid by the owner of the livestock.

**174.17 Issuance of revenue bonds — standby tax levy.**

1. The governing body of a fair may issue bonds payable from revenue generated by the operations of the fair event and the use or rental of the real and personal property owned or leased by the fair. The governing body of a fair shall comply with all of the following procedures in issuing such bonds:

a. A fair may institute proceedings for the issuance of bonds by causing a notice of the proposal to issue the bonds to be published at least once in a newspaper of general circulation within the county at least ten days prior to the meeting at which the fair proposes to take action for the issuance of the bonds. The notice shall include a statement of the amount and purpose of the bonds, the maximum rate of interest the bonds are to bear, and the right to petition for an election.

b. If at any time before the date fixed for taking action for the issuance of the bonds, a petition signed by three percent of the registered voters of the county is filed with the board of supervisors, asking that the question of issuing the bonds be submitted to the registered voters, the board of supervisors shall either by resolution declare the proposal to issue the bonds to have been abandoned or shall direct the county commissioner of elections to call a special election upon the question of issuing the bonds. The proposition of issuing bonds under this subsection is not approved unless the vote in favor of the proposition is equal to at least sixty percent of the vote cast. If a petition is not filed, or if a petition is filed and the proposition of issuing the bonds is approved at an election, the board of supervisors acting on behalf of the fair may proceed with the authorization and issuance of the bonds. Bonds may be issued for the purpose of refunding outstanding and previously issued bonds under this subsection without otherwise complying with the provisions of this subsection.

c. All bonds issued under this subsection shall be payable solely from and shall be secured by an irrevocable pledge of a sufficient portion of the net rents, profits, and income derived from the operation of the fair event and the use or rental of the real and personal property owned or leased by the fair. Bonds issued pursuant to this section shall not constitute an indebtedness within the meaning of any constitutional or statutory debt limitation or restriction, and shall not be subject to the provisions of any other law or charter relating to the authorization, issuance, or sale of bonds. Bonds issued under this subsection shall not limit or restrict the authority of the fair as otherwise provided by law.

2. To further secure the payment of the bonds, the board of supervisors may, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the county. A copy of the resolution shall be sent to the county auditor. The revenues from the

standby tax shall be deposited in a special fund and shall be expended only for the payment of principal of and interest on the bonds issued as provided in this section, when the receipt of revenues pursuant to subsection 1 is insufficient to pay the principal and interest. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available revenues received which are not required for the payment of principal of or interest on bonds due. Reserves shall not be built up in the special fund in anticipation of a projected default. The board of supervisors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

3. In order for the governing body of a fair to issue bonds under this section, the governing body must conduct a fair event that has a verifiable annual attendance of at least one hundred fifty thousand persons and annual outside gate admission revenues of at least four hundred thousand dollars.

1. There is created an Iowa dairy industry commission, referred to in this chapter as the commission. The commission shall be composed of the secretary of agriculture or the secretary’s designee, the dean of agriculture at Iowa state university of science and technology or the dean’s designee, and sixteen members appointed by the secretary of agriculture as provided in this section.

2. Commissioners shall serve until their successors are duly appointed and qualify. Vacancies occurring in the membership of the commission resulting from death, inability or refusal to serve, or failure to meet the definition of a producer, shall be filled within three months of the time the vacancy occurs in the manner provided by the commission. Vacancy appointments shall be only for the remainder of the unexpired term. A commissioner shall not serve more than two consecutive full terms.

3. Appointive members of the commission shall receive a per diem as specified in section 7E.6 for each day spent on official business of the commission, not to exceed six hundred dollars per annum, and their actual necessary expenses, while engaged in commission activity.

4. When a national promotional order is established by the United States department of agriculture pursuant to the Dairy Product Stabilization Act of 1983, collection of the excise tax in section 179.5 shall be suspended for the period in which the national order is in effect. The commission shall continue to operate thereafter for only the period of time necessary to pay refunds and disburse the funds remaining in the dairy industry fund for the purposes enumerated in this chapter. Upon completion of these acts, the existence of the Iowa dairy industry commission shall be suspended. The secretary of agriculture shall stagger the terms of the reactivated commission resulting in as nearly as possible one third of the commissioners serving for one

year, one third of the commissioners serving for two years, and one third of the commissioners serving for three years. After the initial staggering of terms by the secretary, commissioners shall be appointed to three-year terms.

3. All taxes levied and imposed under this chapter and other contributions made to the dairy industry commission shall be paid to and collected by the commission within thirty days after the end of the month during which the milk was marketed. The commission shall remit the taxes and other contributions to the treasurer of the state each quarter, and at the same time render to the director of the department of administrative services an itemized and verified report showing the source from which the taxes and voluntary contributions were obtained. 2. Upon signing a statement certifying to the department that the person is a bona fide producer as defined in this chapter, each producer is entitled to one vote in each referendum. When the secretary is required to determine the approval or disapproval of producers under this section, the secretary shall consider the approval or disapproval of a cooperative association of producers, engaged in a bona fide manner in marketing milk, as the approval or disapproval of the producers who are members of or contract with the cooperative association of producers. If a cooperative association elects to vote on behalf of its members, the cooperative association shall provide each producer on whose behalf the cooperative association is expressing approval or disapproval with a description of the question presented in the referendum together with a statement of the manner in which the cooperative association intends to cast its vote on behalf of the membership. 4. The secretary may conduct a referendum at any time after the Iowa dairy industry commission is reactivated, and shall hold a referendum on request of a representative group comprising ten percent or more of the number of producers eligible to vote, to determine whether the producers favor the termination or suspension of the excise tax. The secretary shall suspend or terminate collection of the excise tax within six months after the secretary determines that suspension or termination of the excise tax is favored by a majority of the producers voting in the referendum, and shall terminate the excise tax in an orderly manner as soon as practicable after the determination.

3. If it is not labeled as required in section 198.5.

4. If it is not a commercial feed as defined in section 198.3.

### **198.7 Adulteration.**

A commercial feed shall be deemed to be adulterated:

1. *a.* If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such commercial feed shall not be considered adulterated under this subsection if the quantity of such substance in such commercial feed does not ordinarily render it injurious to health.

*b.* If it bears or contains any added poisonous, added deleterious, or added nonnutritive substance which is unsafe within the meaning of section 406 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346, other than one which is a pesticide chemical in or on a raw agricultural commodity or a food additive.

*c.* If it is, or it bears or contains any food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §348.

*d.* If it is a raw agricultural commodity and it bears or contains a pesticide chemical which is unsafe within the meaning of section 408, subparagraph “a” of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346a, provided, that where a pesticide chemical has been used in or on a raw agricultural commodity in conformity with an exemption granted or a tolerance prescribed under section 408 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346a, and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating or milling, the residue of such pesticide chemical remaining in or on such processed feed shall not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of such residue in the processed feed is not greater than the tolerance prescribed for the raw agriculture commodity unless the feeding of such processed feed will result or is likely to result in a pesticide residue in the edible product of the animal, which is unsafe within the meaning of section 408, subparagraph “a” of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346a.

*e.* If it is, or it bears or contains any color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §379e.

2. If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

3. If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

4. If it contains a drug and the methods used in or the facilities or controls used for its manufacture, processing, or packaging do not conform to current good manufacturing practice rules promulgated by the secretary to assure that the drug meets the requirement of this chapter as to safety and has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess. In promulgating such rules, the secretary shall adopt the current good manufacturing practice regulations for medicated feed premixes and for medicated feeds established under authority of the federal Food, Drug, and Cosmetic Act, unless the secretary determines that they are not appropriate to the conditions which exist in this state.

5. If it contains viable weed seeds in amounts exceeding the limits which the secretary shall establish by rule.

**198.9 Inspection fees and reports.**

1. *a.* An inspection fee to be fixed annually by the secretary at a rate of not more than sixteen cents per ton, shall be paid on commercial feed distributed in this state by the person who first distributes the commercial feed, subject to the following:

(1) The inspection fee is not required on the first distribution, if made to a qualified buyer who, with approval from the secretary, shall become responsible for the fee.

(2) A fee shall not be paid on a commercial feed if the payment has been made by a previous distributor.

(3) A fee shall not be paid on customer-formula feeds if the inspection fee is paid on the commercial feeds which are used as components of the customer-formula feeds.

(4) A minimum semiannual fee shall be twenty dollars.

(5) A licensed manufacturer shall pay the inspection fee on commercial feed that is fed to livestock owned by the licensee.

*b.* In the case of a pet food or specialty pet food, which is distributed in this state in packages of ten pounds or less, each product shall be registered and an annual registration fee of fifty dollars for each product shall be paid by January 1 of each year in lieu of the per ton rate as provided in this subsection. The inspection fee shall apply to those same products distributed in packages of more than ten pounds.

2. *a.* Each person who is liable for the payment of such fee shall:

(1) File, not later than the last day of January and July of each year, a semiannual statement, setting forth the number of net tons of commercial feeds distributed in this state during the preceding six months and upon filing the statement shall pay the inspection fee at the rate stated in subsection 1. Inspection fees which are due and owing and have not been remitted to the secretary within fifteen days following the due date shall have a delinquency fee of ten percent of the amount due or fifty dollars, whichever is greater, added to the amount due when payment is finally made. The assessment of this delinquency fee does not prevent the department from taking other actions as provided in this chapter.

(2) Keep such records as may be necessary or required by the secretary to indicate accurately the tonnage of commercial feed distributed in this state, and the secretary shall have the right to examine such records to verify statements of tonnage.

*b.* Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided in this section is sufficient cause for cancellation of the license of the distributor.

3. Fees collected shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. Moneys deposited under this section shall be used for the payment of the costs of inspection, sampling, analysis, supportive research, and other expenses necessary for the administration of this chapter.

4. If there is an unencumbered balance of funds from the fees deposited under this section on June 30 of any fiscal year equal to or exceeding one hundred thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 for the next fiscal year in such amount as will result in an ending estimated balance of the

fees deposited less costs paid for from those fees for June 30 of the next fiscal year of one hundred thousand dollars.

2. The secretary may adopt rules to do all of the following:

a. Regulate the movement of cottonseed into this state or within this state, even if the cottonseed would otherwise be exempt as whole seed under section 198.3. The secretary may adopt rules prescribing standards for cottonseed consistent with regulations prescribing the quality and uses of cottonseed as promulgated by the United States food and drug administration.

b. Regulating the advertisement of commercial feed, including but not limited to labeling commercial feed as specifically provided in this chapter.

3. In the interest of uniformity the secretary shall adopt any rule based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, 21 U.S.C. §301 et seq., provided the secretary has the authority under this chapter to adopt the rule. However, the secretary is not required to adopt such a rule if the secretary determines that the rule would be inconsistent with this chapter or not appropriate to conditions which exist in this state.

4. Before the issuance, amendment, or repeal of a rule authorized by this chapter, the secretary shall publish the proposed rule, amendment, or notice to repeal an existing rule in a manner reasonably calculated to give interested parties, including all current licensees, adequate notice, and shall afford all interested persons an opportunity to be heard, orally or in writing, within a reasonable period of time. After consideration of all views presented by interested persons, the secretary shall take appropriate action to issue the proposed rule or to amend or repeal an existing rule. However, if the secretary adopts rules based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, any amendment or modification adopted by the United States secretary of health and human services shall be adopted automatically under this chapter without regard to publication of the notice required by this subsection, unless the secretary by order specifically determines that an amendment or modification shall not be adopted.

#### **198.11 Inspection, sampling, and analysis.**

1. For the purpose of enforcement of this chapter, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the secretary, upon presenting appropriate credentials, and a written notice to the owner, operator or agent in charge, are authorized:

a. To enter, during normal business hours, any factory, warehouse or establishment within the state in which commercial feeds are manufactured, processed, packed or held for distribution, or to enter any vehicle being used to transport or hold such feed.

b. To inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling therein. The inspection may include the verification of only such records, and production and control procedures as may

be necessary to determine compliance with the good manufacturing practice regulations established under section 198.7, subsection 4.

2. A separate notice shall be given for each such inspection, but a notice shall not be required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

3. If the officer or employee making such inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the officer or employee shall give to the owner, operator or agent in charge a receipt describing the samples obtained.

4. If the owner of any factory, warehouse, or establishment described in subsection 1, or the owner's agent, refuses to admit the secretary or the secretary's agent to inspect in accordance with subsections 1 and 2, the secretary may obtain from any state court a warrant directing such owner or the owner's agent to submit the premises described in such warrant to inspection.

5. For the purpose of the enforcement of this chapter, the secretary or the secretary's duly designated agent is authorized to enter upon any public or private premises including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds.

6. Sampling and analysis shall be conducted in accordance with methods published by the association of official analytical chemists, or in accordance with other generally recognized methods.

7. The results of all analyses of official samples shall be forwarded by the secretary to the person named on the label. When the inspection and analysis of an official sample indicates a commercial feed has been adulterated or misbranded and upon request within thirty days following receipt of the analysis the secretary shall furnish to the licensee a portion of the sample concerned.

8. The secretary, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in section 198.3, and obtained and analyzed as provided for in subsections 3, 5, and 6.

### **198.12 Detained commercial feeds.**

1. When the secretary or the secretary's authorized agent has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions of this chapter or of any of the rules adopted under this chapter, the secretary or agent may issue and enforce a written or printed "withdrawal from distribution" order, warning the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the secretary or the court. The secretary shall release the lot of commercial feed so withdrawn when the provisions and rules have been complied with. If compliance is not obtained within thirty days, the secretary may begin, or upon request of the distributor shall begin, proceedings for condemnation.

2. Any lot of commercial feed not in compliance with said provisions and rules shall be subject to seizure on complaint of the secretary to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter and order the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state, provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court

for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

2. Nothing in this chapter shall be construed as requiring the secretary or the secretary's representative to:

a. Report for prosecution.

c. Issue a withdrawal from distribution order, as a result of minor violations of the chapter, or when the secretary or representative believes the public interest will best be served by suitable notice of warning in writing.

3. It shall be the duty of each county attorney to whom any violation is reported to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the secretary reports a violation for such prosecution, an opportunity shall be given the distributor to present the distributor's view to the secretary.

4. The secretary may apply for and the court may grant a temporary or permanent injunction restraining any person from violating or continuing to violate any of the provisions of this chapter or any rule promulgated under the chapter notwithstanding the existence of other remedies at law. If granted, the injunction shall be issued without bond.

5. Any person adversely affected by an act, order, or ruling made pursuant to the provisions of this chapter may within forty-five days thereafter bring action in the district court for judicial review of such actions.
