2. Upon signing a statement certifying to the department that the person is a bona fide producer as defined in this chapter, each producer is entitled to one vote in each referendum. When the secretary is required to determine the approval or disapproval of producers under this section, the secretary shall consider the approval or disapproval of a cooperative association of producers, engaged in a bona fide manner in marketing milk, as the approval or disapproval of the producers who are members of or contract with the cooperative association of producers. If a cooperative association elects to vote on behalf of its members, the cooperative association shall provide each producer on whose behalf the cooperative association is expressing approval or disapproval with a description of the question presented in the referendum together with a statement of the manner in which the cooperative association intends to cast its vote on behalf of the membership. The information shall inform the producer of procedures to follow to cast an individual ballot if the producer chooses to do so within the period of time established by the secretary for casting ballots. The notification shall be made at least thirty days prior to the referendum and shall include an official ballot. The ballots shall be tabulated by the secretary and the vote of the cooperative association shall be adjusted to reflect the individual votes.

3. The department shall count and tabulate the ballots filed during the referendum within thirty days of the close of the referendum. If from the tabulation the department determines that a majority of the total number of producers voting in the referendum favors the proposal, the excise tax provided for in this chapter shall be continued. The ballots cast pursuant to this section constitute complete and conclusive evidence for use in determinations made by the department under this chapter.

4. The secretary may conduct a referendum at any time after the Iowa dairy industry commission is reactivated, and shall hold a referendum on request of a representative group comprising ten percent or more of the number of producers eligible to vote, to determine whether the producers favor the termination or suspension of the excise tax. The secretary shall suspend or terminate collection of the excise tax within six months after the secretary

determines that suspension or termination of the excise tax is favored by a majority of the producers voting in the referendum, and shall terminate the excise tax in an orderly manner as soon as practicable after the determination.

This chapter shall be known as the “*Meat and Poultry Inspection Act*”.
[C66, 71, 73, 75, 77, 79, 81, §189A.1]

189A.2 Definitions.

As used in this chapter except as otherwise specified:

1. “*Adulterated*” shall apply to any livestock product or poultry product under any one or more of the following circumstances:

a. If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance such article shall not be considered adulterated under this clause if the quantity of such substance in or on such article does not ordinarily render it injurious to health.

b. (1) If it bears or contains, by reason of administration of any substance to the livestock or poultry or otherwise, any added poisonous or deleterious substance, other than one which is a pesticide chemical in or on a raw agricultural commodity; a food additive; or a color additive, which may, in the judgment of the secretary, make such article unfit for human food.

(2) If it is, in whole or in part, a raw agricultural commodity and such commodity bears or contains a pesticide chemical which is unsafe within the meaning of section 408 of the federal Food, Drug, and Cosmetic Act.

(3) If it bears or contains any food additive which is unsafe within the meaning of section 409 of the federal Food, Drug, and Cosmetic Act.

(4) If it bears or contains any color additive which is unsafe within the meaning of section 706 of the federal Food, Drug, and Cosmetic Act; however, an article which is not otherwise deemed adulterated under subparagraph (2), (3), or (4) of this paragraph shall nevertheless be deemed adulterated if use of the pesticide chemical, food additive, or color additive in or on such article is prohibited by regulations of the secretary in official establishments.

c. If it consists in whole or in part of any filthy, putrid, or decomposed substance or is for any other reason unsound, unhealthful, unwholesome, or otherwise unfit for human food.

d. If it has been prepared, packed, or held under insanitary conditions whereby it may have become contaminated with filth, or whereby it may have been rendered injurious to health.

e. If it is, in whole or in part, the product of an animal, including poultry, which has died otherwise than by slaughter.

f. If its container is composed, in whole or in part, of any poisonous or deleterious substance which may render the contents injurious to health.

g. If it has been intentionally subjected to radiation, unless the use of the radiation was

in conformity with a regulation or exemption in effect pursuant to section 409 of the federal Food, Drug, and Cosmetic Act.

h. If any valuable constituent has been in whole or in part omitted or abstracted therefrom; or if any substance has been substituted, wholly or in part therefor; or if damage or inferiority has been concealed in any manner; or if any substance has been added thereto or mixed or packed therewith so as to increase its bulk or weight, or reduce its quality or strength, or make it appear better or of greater value than it is.

i. If it is margarine containing animal fat and any of the raw material used therein consisted in whole or in part of any filthy, putrid, or decomposed substance.

2. “*Animal food manufacturer*” means any person engaged in the business of preparing animal food, including poultry, derived wholly or in part from livestock or poultry carcasses or parts or products of such carcasses.

3. “*Broker*” means any person engaged in the business of buying or selling livestock products or poultry products on commission, or otherwise negotiating purchases or sales of such articles other than for the person’s own account or as an employee of another person.

4. “*Capable of use as human food*” shall apply to any livestock or poultry carcass, or part or product of any such carcass, unless it is denatured or otherwise identified as required by regulations prescribed by the secretary to deter its use as human food, or it is naturally inedible by humans.

5. “*Container*” or “*package*” means any box, can, tin, cloth, plastic or other receptacle, wrapper, or cover.

6. “*Establishment*” means all premises where animals or poultry are slaughtered or otherwise prepared, either for custom, resale, or retail, for food purposes, meat or poultry canneries, sausage factories, smoking or curing operations, restaurants, grocery stores, brokerages, cold storage plants, and similar places.

6A. “*Farm deer*” means the same as defined in section 170.1.

7. “*Federal Food, Drug, and Cosmetic Act*” means the Act so entitled, approved June 25, 1938, 52 Stat. 1040, and Acts amendatory thereof or supplementary thereto.

10. “*Inspector*” means an employee or official of the department authorized by the secretary or any employee or official of the government of any county or other governmental subdivision of this state, authorized by the secretary to perform any inspection functions under this chapter under an agreement between the secretary and such governmental subdivision.

15. “*Livestock product*” means any carcass, part thereof, meat, or meat food product of any livestock.

16. “*Meat food product*” means any product capable of use as human food which is made wholly or in part from any meat or other portion of the carcass of any cattle, sheep, swine, or goats, excepting products which contain meat or other portions of such carcasses only in a relatively small proportion or historically have not been considered by consumers as products of the meat food industry, and which are exempted from definition as a meat food product by the secretary under such conditions as the secretary may prescribe to assure that the meat or other portions of such carcass contained in such product are not adulterated and that such

products are not represented as meat food products. This term as applied to food products of equines or farm deer shall have a meaning comparable to that provided in this paragraph with respect to cattle, sheep, swine, and goats.

17. "Misbranded" shall apply to any livestock product or poultry product under any one or more of the following circumstances:

- a. If its labeling is false or misleading in any particular.
- b. If it is offered for sale under the name of another food.
- c. If it is an imitation of another food, unless its label bears, in type of uniform size and prominence, the word "imitation", and immediately thereafter the name of the food imitated.
- d. If its container is so made, formed, or filled as to be misleading.
- e. Unless it bears a label showing both:
 - (1) The name and place of business of the manufacturer, packer, or distributor.
 - (2) An accurate statement of the quantity of the product in terms of weight, measure, or numerical count; however, under this paragraph, exemptions as to livestock products not in containers may be established by regulations prescribed by the secretary, and under this subparagraph reasonable variations may be permitted, and exemptions as to small packages may be established for livestock products or poultry products by regulations prescribed by the secretary.
- f. If any word, statement, or other information required by or under authority of this chapter to appear on the label or other labeling is not prominently placed thereon with such conspicuousness, as compared with other words, statements, designs, or devices in the labeling, and in such terms as to render it likely to be read and understood by the ordinary individual under customary conditions of purchase and use.
- g. If it purports to be or is represented as a food for which a definition and standard of identity or composition has been prescribed by the regulations of the secretary under section 189A.7, unless it conforms to such definition and standard and its label bears the name of the food specified in the definition and standard and, insofar as may be required by such regulations, the common names of optional ingredients, other than spices, flavoring, and coloring, present in such food.
- h. If it purports to be or is represented as a food for which a standard or standards of fill of container have been prescribed by regulations of the secretary under section 189A.7, and it falls below the standard of fill of container applicable thereto, unless its label bears, in such manner and form as such regulations specify, a statement that it falls below such standard.
- i. If it is not subject to the provisions of paragraph "g" of this subsection, unless its label bears both:
 - (1) The common or usual name of the food, if any.
 - (2) In case it is fabricated from two or more ingredients, the common or usual name of each such ingredient; except that spices, flavorings, and colorings may, when authorized by the secretary, be designated as spices, flavorings, and colorings without naming each; however, to the extent that compliance with the requirements of this subparagraph is impracticable, or results in deception or unfair competition, exemptions shall be established by regulations promulgated by the secretary.
- j. If it purports to be or is represented for special dietary uses, unless its label bears such information concerning its vitamin, mineral, and other dietary properties as the secretary, after consultation with the secretary of agriculture of the United States, determines to be and by regulations prescribes as necessary in order to fully inform purchasers as to its value for such uses.
- k. If it bears or contains any artificial flavoring, artificial coloring, or chemical preservative, unless it bears labeling stating that fact; however, to the extent that compliance with the requirements of this paragraph is impracticable, exemptions shall be established by regulations promulgated by the secretary.
- l. If it fails to bear, directly thereon and on its containers, as the secretary may by regulations prescribe, the official inspection legend and establishment number of the establishment where the product was prepared and, unrestricted by any of the foregoing, such other information as the secretary may require in such regulations to assure that it will

not have false or misleading labeling and that the public will be informed of the manner of handling required to maintain the article in a wholesome condition.

18. “*Official certificate*” means any certificate prescribed by regulations of the secretary for issuance by an inspector or other person performing official functions under this chapter.

19. “*Official device*” means any device prescribed or authorized by the secretary for use in applying any official mark.

23. “*Person*” includes any individual, partnership, corporation, association, or other business unit, and any officer, agent, or employee thereof.

24. “*Pesticide chemical*”, “*food additive*”, “*color additive*”, and “*raw agricultural commodity*” shall have the same meanings for purposes of this chapter as under the federal Food, Drug, and Cosmetic Act.

26. “*Poultry product*” means any poultry carcass or part thereof, or any product which is made wholly or in part from any poultry carcass or part thereof, excepting products which contain poultry ingredients only in a relatively small proportion or historically have not been considered by consumers as products of the poultry food industry, and which are exempted by the secretary from definition as a poultry product under such conditions as the secretary may prescribe to assure that the poultry ingredients in such products are not adulterated and that such products are not represented as poultry products.

27. “*Prepared*” means slaughtered, canned, salted, stuffed, rendered, boned, cut up, or otherwise manufactured or processed.

d. The secretary may utilize any employee, agent, or equipment of the department in the enforcement of this chapter, and may assign to inspectors other duties related to the acceptance of meat and poultry products.

2. In order to accomplish the objectives stated in section 189A.3 the secretary shall:

a. By regulations require antemortem and postmortem inspections, quarantine, segregation, and reinspections with respect to the slaughter of livestock and poultry and the preparation of livestock products and poultry products at all establishments in this state, except those exempted by section 189A.4, at which livestock or poultry are slaughtered or livestock or poultry products are prepared for human food solely for distribution in intrastate commerce.

b. By regulations require the identification of livestock and poultry for inspection purposes and the marking and labeling of livestock products or poultry products or their containers, or both, as "Iowa Inspected and Passed" if the products are found upon inspection to be not adulterated, and as "Iowa Inspected and Condemned" if they are found upon inspection to be adulterated; and the destruction for food purposes of all such condemned products under the supervision of an inspector.

c. Prohibit the entry into official establishments of livestock products and poultry products not prepared under federal inspection or inspection pursuant to this chapter and further limit

the entry of such articles and other materials into such establishments under such conditions as the secretary deems necessary to effectuate the purposes of this chapter.

d. By regulations require that when livestock products and poultry products leave official establishments they shall bear directly thereon or on their containers, or both, all information required by section 189A.2, subsection 17; and require approval of all labeling and containers to be used for such products when sold or transported in intrastate commerce to assure that they comply with the requirements of this chapter.

e. Investigate the sanitary conditions of each establishment within paragraph “a” of this subsection and withdraw or otherwise refuse to provide inspection service at any such establishment where the sanitary conditions are such as to render adulterated any livestock products or poultry products prepared or handled thereat.

f. Prescribe regulations relating to sanitation for all establishments required to have inspection under paragraph “a” of this subsection.

g. By regulations require that both of the following classes of persons shall keep such records and for such periods as are specified in the regulations to fully and correctly disclose all transactions involved in their business, and to afford the secretary and the secretary’s representatives, including representatives of other governmental agencies designated by the secretary, access to such places of business, and opportunity at all reasonable times to examine the facilities, inventory, and records thereof, to copy the records, and to take reasonable samples of the inventory upon payment of the fair market value therefor:

189A.6 Health examination of employees.

The operator of any establishment shall require all employees of such establishment to have a health examination by a physician and a certified health certificate for each employee shall be kept on file by the operator. The secretary may at any time require an employee of an establishment to submit to a health examination by a physician. No person suffering from any communicable disease, including any communicable skin disease, and no person with infected wounds, and no person who is a “carrier” of a communicable disease shall be employed in any capacity in an establishment. No person shall work or be employed in or about any establishment during the time in which a communicable disease exists in the home in which such person resides unless such person has obtained a certificate from a physician to the effect that no danger of public contagion or infection will result from the employment of such person in such establishment. Every person employed by an establishment and engaged in direct physical contact with meat or poultry products during its preparation, processing, or storage, shall be clean in person, wear clean washable outer garments and a suitable cap or other head covering used exclusively in such work. Only persons specifically designated by the operator of an establishment shall be permitted to touch meat or poultry products with their hands, and the persons so designated shall keep their hands scrupulously clean.

[C66, 71, 73, 75, 77, 79, 81, §189A.6]

189A.7 Powers of secretary of agriculture.

1. Remove inspectors from any establishment that fails to destroy condemned products as required under section 189A.5, subsection 2, paragraph “b”.

2. Refuse to provide inspection service under this chapter with respect to any

establishment for causes specified in section 401 of the federal Meat Inspection Act or section 18 of the federal Poultry Products Inspection Act.

3. Order labeling and containers to be withheld from use if the secretary determines that the labeling is false or misleading or the containers are of a misleading size or form.

4. By regulations prescribe the sizes and style of type to be used for labeling information required under this chapter, and definitions and standards of identity or composition or standards of fill of container, consistent with federal standards, when the secretary deems such action appropriate for the protection of the public and after consultation with the secretary of agriculture of the United States.

5. By regulations prescribe conditions of storage and handling of livestock products and poultry products by persons engaged in the business of buying, selling, freezing, storing, or transporting such articles in or for intrastate commerce to assure that such articles will not be adulterated or misbranded when delivered to the consumer.

6. Require that equines be slaughtered and prepared in establishments separate from establishments where other livestock are slaughtered or their products are prepared.

7. By regulations require that every person engaged in business in or for intrastate commerce as a broker, renderer, animal food manufacturer, or wholesaler or public warehouse of livestock or poultry products, or engaged in the business of buying, selling, or transporting in intrastate commerce any dead, dying, disabled, or diseased livestock or poultry or parts of the carcasses of any such animals, including poultry, that died otherwise than by slaughter shall register with the secretary the person's name and the address of each place of business at which and all trade names under which the person conducts such business.

8. Adopt by reference or otherwise such provisions of the rules and regulations under the federal Acts, with such changes therein as the secretary deems appropriate to make them applicable to operations and transactions subject to this chapter, which shall have the same force and effect as if promulgated under this chapter, and promulgate such other rules and regulations as the secretary deems necessary for the efficient execution of the provisions of this chapter, including rules of practice providing opportunity for hearing in connection with issuance of orders under section 189A.5, subsection 2, paragraph "e", and subsection 1, 2, or 3 of this section and prescribing procedures for proceedings in such cases; however, this shall not preclude a requirement that a label or container be withheld from use, or a refusal of inspection pursuant to the sections cited herein pending issuance of a final order in any such proceeding.

9. Appoint and prescribe the duties of such inspectors and other personnel as the secretary deems necessary for the efficient execution of the provisions of this chapter.

10. Cooperate with the secretary of agriculture of the United States in administration of this chapter to effectuate the purposes stated in section 189A.3; accept federal assistance for that purpose and spend public funds of this state appropriated for administration of this chapter to pay the state's proportionate share of the estimated total cost of the cooperative program.

11. Recommend to the secretary of agriculture of the United States for appointment to the advisory committees provided for in the federal Acts, such officials or employees of the Iowa meat and poultry inspection service as the secretary shall designate.

12. Serve as a representative of the governor for consultation with said secretary under paragraph "c" of section 301 of the federal Meat Inspection Act and paragraph "c" of section 5 of the federal Poultry Products Inspection Act unless the governor selects another representative.

A suspension of permit shall remain in effect until the violation has been corrected to the satisfaction of the department. As used in this section, the terms "*public health hazard*" and "*imminent hazard*" shall be defined by rules adopted by the department. The rules shall include examples of public health hazards and imminent hazards.

4. Upon written application of any person whose permit has been suspended, or upon application within forty-eight hours of any person who has been served with a notice of intention to suspend, and in the latter case before suspension, the department shall within seventy-two hours proceed to a hearing to ascertain the facts of such violation or interference and upon evidence presented at such hearing shall affirm, modify, or rescind the suspension or intention to suspend.

5. Upon repeated violation, the department may revoke a permit following reasonable notice to the permit holder and an opportunity for a hearing. This section is not intended to preclude the institution of a court action provided in this chapter, chapter 190, or chapter 191.

A commercial feed shall be deemed to be adulterated:

1. a. If it bears or contains any poisonous or deleterious substance which may render it injurious to health; but in case the substance is not an added substance, such commercial feed shall not be considered adulterated under this subsection if the quantity of such substance in such commercial feed does not ordinarily render it injurious to health.

b. If it bears or contains any added poisonous, added deleterious, or added nonnutritive substance which is unsafe within the meaning of section 406 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346, other than one which is a pesticide chemical in or on a raw agricultural commodity or a food additive.

c. If it is, or it bears or contains any food additive which is unsafe within the meaning of section 409 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §348.

used in or on a raw agricultural commodity in conformity with an exemption granted or a tolerance prescribed under section 408 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346a, and such raw agricultural commodity has been subjected to processing such as canning, cooking, freezing, dehydrating or milling, the residue of such pesticide chemical remaining in or on such processed feed shall not be deemed unsafe if such residue in or on the raw agricultural commodity has been removed to the extent possible in good manufacturing practice and the concentration of such residue in the processed feed is not greater than the tolerance prescribed for the raw agriculture commodity unless the feeding of such processed feed will result or is likely to result in a pesticide residue in the edible product of the animal, which is unsafe within the meaning of section 408, subparagraph “a” of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §346a.

e. If it is, or it bears or contains any color additive which is unsafe within the meaning of section 706 of the Federal Food, Drug, and Cosmetic Act, codified at 21 U.S.C. §379e.

2. If any valuable constituent has been in whole or in part omitted or abstracted therefrom or any less valuable substance substituted therefor.

3. If its composition or quality falls below or differs from that which it is purported or is represented to possess by its labeling.

4. If it contains a drug and the methods used in or the facilities or controls used for its manufacture, processing, or packaging do not conform to current good manufacturing practice rules promulgated by the secretary to assure that the drug meets the requirement of this chapter as to safety and has the identity and strength and meets the quality and purity characteristics which it purports or is represented to possess. In promulgating such rules, the secretary shall adopt the current good manufacturing practice regulations for medicated feed premixes and for medicated feeds established under authority of the federal Food, Drug, and Cosmetic Act, unless the secretary determines that they are not appropriate to the conditions which exist in this state.

5. If it contains viable weed seeds in amounts exceeding the limits which the secretary shall establish by rule.

198.9 Inspection fees and reports.

1. a. An inspection fee to be fixed annually by the secretary at a rate of not more than sixteen cents per ton, shall be paid on commercial feed distributed in this state by the person who first distributes the commercial feed, subject to the following:

(1) The inspection fee is not required on the first distribution, if made to a qualified buyer who, with approval from the secretary, shall become responsible for the fee.

(2) A fee shall not be paid on a commercial feed if the payment has been made by a previous distributor.

(3) A fee shall not be paid on customer-formula feeds if the inspection fee is paid on the commercial feeds which are used as components of the customer-formula feeds.

(4) A minimum semiannual fee shall be twenty dollars.

(5) A licensed manufacturer shall pay the inspection fee on commercial feed that is fed to livestock owned by the licensee.

b. In the case of a pet food or specialty pet food, which is distributed in this state in packages of ten pounds or less, each product shall be registered and an annual registration fee of fifty dollars for each product shall be paid by January 1 of each year in lieu of the per ton rate as provided in this subsection. The inspection fee shall apply to those same products distributed in packages of more than ten pounds.

2. a. Each person who is liable for the payment of such fee shall:

(1) File, not later than the last day of January and July of each year, a semiannual statement, setting forth the number of net tons of commercial feeds distributed in this state during the preceding six months and upon filing the statement shall pay the inspection fee at the rate stated in subsection 1. Inspection fees which are due and owing and have not been remitted to the secretary within fifteen days following the due date shall have a delinquency fee of ten percent of the amount due or fifty dollars, whichever is greater, added to the amount due when payment is finally made. The assessment of this delinquency fee does not prevent the department from taking other actions as provided in this chapter.

(2) Keep such records as may be necessary or required by the secretary to indicate accurately the tonnage of commercial feed distributed in this state, and the secretary shall have the right to examine such records to verify statements of tonnage.

b. Failure to make an accurate statement of tonnage or to pay the inspection fee or comply as provided in this section is sufficient cause for cancellation of the license of the distributor.

3. Fees collected shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. Moneys deposited under this section shall be used for the payment of the costs of inspection, sampling, analysis, supportive research, and other expenses necessary for the administration of this chapter.

4. If there is an unencumbered balance of funds from the fees deposited under this section on June 30 of any fiscal year equal to or exceeding one hundred thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 for the next fiscal year in such amount as will result in an ending estimated balance of the fees deposited less costs paid for from those fees for June 30 of the next fiscal year of one hundred thousand dollars.

1. The secretary may adopt rules for commercial feeds and pet foods as specifically authorized in this chapter and other reasonable rules necessary in order to carry out the purpose and intent of this chapter or to secure the efficient enforcement of this chapter.

2. The secretary may adopt rules to do all of the following:

a. Regulate the movement of cottonseed into this state or within this state, even if the cottonseed would otherwise be exempt as whole seed under section 198.3. The secretary may adopt rules prescribing standards for cottonseed consistent with regulations prescribing the quality and uses of cottonseed as promulgated by the United States food and drug administration.

b. Regulating the advertisement of commercial feed, including but not limited to labeling commercial feed as specifically provided in this chapter.

3. In the interest of uniformity the secretary shall adopt any rule based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, 21 U.S.C. §301 et seq., provided the secretary has the authority under this chapter to adopt the rule. However,

the secretary is not required to adopt such a rule if the secretary determines that the rule would be inconsistent with this chapter or not appropriate to conditions which exist in this state.

4. Before the issuance, amendment, or repeal of a rule authorized by this chapter, the secretary shall publish the proposed rule, amendment, or notice to repeal an existing rule in a manner reasonably calculated to give interested parties, including all current licensees, adequate notice, and shall afford all interested persons an opportunity to be heard, orally or in writing, within a reasonable period of time. After consideration of all views presented by interested persons, the secretary shall take appropriate action to issue the proposed rule or to amend or repeal an existing rule. However, if the secretary adopts rules based on regulations promulgated under the authority of the federal Food, Drug, and Cosmetic Act, any amendment or modification adopted by the United States secretary of health and human services shall be adopted automatically under this chapter without regard to publication of the notice required by this subsection, unless the secretary by order specifically determines that an amendment or modification shall not be adopted.

198.11 Inspection, sampling, and analysis.

1. For the purpose of enforcement of this chapter, and in order to determine whether its provisions have been complied with, including whether or not any operations may be subject to such provisions, officers or employees duly designated by the secretary, upon presenting appropriate credentials, and a written notice to the owner, operator or agent in charge, are authorized:

a. To enter, during normal business hours, any factory, warehouse or establishment within the state in which commercial feeds are manufactured, processed, packed or held for distribution, or to enter any vehicle being used to transport or hold such feed.

b. To inspect at reasonable times and within reasonable limits and in a reasonable manner, such factory, warehouse, establishment or vehicle and all pertinent equipment, finished and unfinished materials, containers and labeling therein. The inspection may include the verification of only such records, and production and control procedures as may be necessary to determine compliance with the good manufacturing practice regulations established under section 198.7, subsection 4.

2. A separate notice shall be given for each such inspection, but a notice shall not be required for each entry made during the period covered by the inspection. Each such inspection shall be commenced and completed with reasonable promptness. Upon completion of the inspection, the person in charge of the facility or vehicle shall be so notified.

3. If the officer or employee making such inspection of a factory, warehouse or other establishment has obtained a sample in the course of the inspection, upon completion of the inspection and prior to leaving the premises the officer or employee shall give to the owner, operator or agent in charge a receipt describing the samples obtained.

4. If the owner of any factory, warehouse, or establishment described in subsection 1, or the owner's agent, refuses to admit the secretary or the secretary's agent to inspect in accordance with subsections 1 and 2, the secretary may obtain from any state court a warrant directing such owner or the owner's agent to submit the premises described in such warrant to inspection.

5. For the purpose of the enforcement of this chapter, the secretary or the secretary's duly designated agent is authorized to enter upon any public or private premises including any vehicle of transport during regular business hours to have access to, and to obtain samples, and to examine records relating to distribution of commercial feeds.

6. Sampling and analysis shall be conducted in accordance with methods published by the association of official analytical chemists, or in accordance with other generally recognized methods.

7. The results of all analyses of official samples shall be forwarded by the secretary to the person named on the label. When the inspection and analysis of an official sample indicates

a commercial feed has been adulterated or misbranded and upon request within thirty days following receipt of the analysis the secretary shall furnish to the licensee a portion of the sample concerned.

8. The secretary, in determining for administrative purposes whether a commercial feed is deficient in any component, shall be guided by the official sample as defined in section 198.3, and obtained and analyzed as provided for in subsections 3, 5, and 6.

198.12 Detained commercial feeds.

1. When the secretary or the secretary's authorized agent has reasonable cause to believe any lot of commercial feed is being distributed in violation of any of the provisions of this chapter or of any of the rules adopted under this chapter, the secretary or agent may issue and enforce a written or printed "withdrawal from distribution" order, warning the distributor not to dispose of the lot of commercial feed in any manner until written permission is given by the secretary or the court. The secretary shall release the lot of commercial feed so withdrawn when the provisions and rules have been complied with. If compliance is not obtained within thirty days, the secretary may begin, or upon request of the distributor shall begin, proceedings for condemnation.

2. Any lot of commercial feed not in compliance with said provisions and rules shall be subject to seizure on complaint of the secretary to a court of competent jurisdiction in the area in which said commercial feed is located. In the event the court finds the said commercial feed to be in violation of this chapter and order the condemnation of said commercial feed, it shall be disposed of in any manner consistent with the quality of the commercial feed and the laws of the state, provided, that in no instance shall the disposition of said commercial feed be ordered by the court without first giving the claimant an opportunity to apply to the court for release of said commercial feed or for permission to process or relabel said commercial feed to bring it into compliance with this chapter.

2. Nothing in this chapter shall be construed as requiring the secretary or the secretary's representative to:

a. Report for prosecution.

b. Institute seizure proceedings.

c. Issue a withdrawal from distribution order, as a result of minor violations of the chapter, or when the secretary or representative believes the public interest will best be served by suitable notice of warning in writing.

3. It shall be the duty of each county attorney to whom any violation is reported to cause appropriate proceedings to be instituted and prosecuted in a court of competent jurisdiction without delay. Before the secretary reports a violation for such prosecution, an opportunity shall be given the distributor to present the distributor's view to the secretary.

4. The secretary may apply for and the court may grant a temporary or permanent injunction restraining any person from violating or continuing to violate any of the provisions of this chapter or any rule promulgated under the chapter notwithstanding the existence of other remedies at law. If granted, the injunction shall be issued without bond.

5. Any person adversely affected by an act, order, or ruling made pursuant to the provisions of this chapter may within forty-five days thereafter bring action in the district court for judicial review of such actions. The form of the proceeding shall be any which may

be provided by statutes of this state to review decisions of administrative agencies, or in the absence or inadequacy thereof, any applicable form of legal action, including actions for declaratory judgments or writs or prohibitory or mandatory injunctions.

6. Any person who uses to the person’s own advantage, or reveals to other than the secretary, or officers of the department or to the courts when relevant in any judicial proceeding, any information acquired under the authority of this chapter, concerning any method, records, formulations or processes which as a trade secret is entitled to protection, is guilty of a serious misdemeanor. This prohibition shall not be deemed as prohibiting the secretary, or the secretary’s duly authorized agent, from exchanging information of a regulatory nature with appointed officials of the United States government, or of other states, who are similarly prohibited by law from revealing this information.

a. Integrate seed testing so as to avoid unnecessary duplication of personnel and equipment. The Iowa state university seed testing laboratory shall promote seed education and research and shall conduct service testing for farmers and seed dealers.

b. Exchange information which will be mutually beneficial to both agencies in matters pertaining to agricultural seed.

1. For the purpose of carrying out the provisions of this chapter, the department shall do all of the following:

- a. Sample, inspect, analyze, and test agricultural seed, if the agricultural seed is

transported, sold, offered, or exposed for sale within this state for sowing. The department shall perform these duties at a time and place and to an extent necessary to determine whether the agricultural seed is in compliance with this chapter. The department shall promptly notify the person who transported, sold, offered, or exposed the seed for sale, of a violation.

b. Adopt rules governing methods of sampling, inspecting, analyzing, testing, and examining agricultural seed. The rules shall include tolerances to be followed in the administration of this chapter, which shall be in general accord with officially prescribed practice in interstate commerce under the Federal Seed Act and other rules or regulations necessary for the efficient enforcement of this chapter.

2. For the purpose of carrying out the provisions of this chapter, the department may:

a. Enter upon public or private premises during regular business hours in order to have access to commercial seed, subject to this chapter and departmental rules.

b. Issue and enforce a written or printed “stop sale” order to the owner or custodian of any lot of agricultural seed which the department believes is in violation of this chapter or departmental rules. The order shall prohibit further sale of the seed until the department has evidence of compliance. However, the owner or custodian of the seed shall be permitted to remove the seed from a salesroom open to the public. Judicial review of the order may be sought in accordance with chapter 17A. However, notwithstanding chapter 17A, petitions for judicial review may be filed in the district court. This subsection does not limit the right of the department to proceed as authorized by other sections of this chapter.

c. Establish and maintain or make provision for seed testing facilities essential to the enforcement of this chapter. The department may employ qualified persons, and incur expenses necessary to comply with these provisions.

d. Cooperate with the United States department of agriculture in seed law enforcement.

199.12 Seizure of unlawful seed.

Upon the recommendation of the secretary or the secretary’s duly authorized agents, the court of competent jurisdiction in the area in which the seed is located shall cause the seizure and subsequent denaturing, conditioning, or destruction to prevent the use for sowing purposes of any lot of agricultural seed found to be prohibited from sale as set forth in section 199.8, provided that in no instance shall the denaturing, conditioning, or destruction be ordered without first having given the claimant of the seed an opportunity to apply to the court for the release of the seed.

199.13 Penalty.

A violation of this chapter is a simple misdemeanor. The department may institute criminal or civil proceedings in a court of competent jurisdiction to enforce this chapter. When in the performance of the secretary’s duties in enforcing this chapter the secretary applies to a court for a temporary or permanent injunction restraining a person from violating or continuing to violate any of the provisions of this chapter or rules adopted under this chapter, the injunction is to be issued without bond and the person restrained by the injunction shall pay the costs made necessary by the procedure.

[C35, §3137-e2; C39, §3137.2; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.13; 82 Acts, ch 1191, §13]

199.13A Local legislation — prohibition.

1. The provisions of this chapter and rules adopted by the department pursuant to this chapter shall preempt local legislation adopted by a local governmental entity relating to the production, use, advertising, sale, distribution, storage, transportation, formulation, packaging, labeling, certification, or registration of an agricultural seed. A local governmental entity shall not adopt or continue in effect such local legislation regardless

of whether a statute or a rule adopted by the department specifically preempts the local legislation. Local legislation in violation of this section is void and unenforceable.

2. This section does not apply to any of the following:

a. Local legislation of general applicability to commercial activity.

b. A motion or resolution that provides for any activity relating to agricultural seed which is owned by the local governmental entity and which is kept or used on land held by the local governmental entity.

2005 Acts, ch 21, §3

199.14 Enforcement.

It shall be the duty of the secretary of agriculture, and the secretary’s agents, to enforce this chapter and of the county attorneys and of the attorney general of the state to cooperate with the secretary in the enforcement of this chapter.

[C35, §3137-g4; C39, §3137.6; C46, 50, 54, 58, 62, 66, 71, 73, 75, 77, 79, 81, §199.14]

Referred to in §331.756(34)

199.15 Permit — fee — fraud.

1. A person shall not sell, distribute, advertise, solicit orders for, offer or expose for sale, agricultural or vegetable seed without first obtaining from the department a permit to engage in the business. A permit is not required of persons selling seeds which have been packed and distributed by a person holding and having in force a permit. A permit is not required of persons selling or advertising seed of their own production, provided that the seed is stored or delivered to a purchaser only on or from the farm or premises where grown.

2. a. The fee for a new permit is ten dollars and the fee for a renewed permit is based on the gross annual sales of seeds in Iowa during the previous twelve-month period under the permit holder’s label and all permits expire on the first day of July following date of issue.

b. Permits shall be issued subject to the following fee schedule:

Gross sales of seeds	Fee
Not more than \$ 25,000	\$30
Over \$25,000 but not exceeding 50,000	60
Over \$50,000 but not exceeding 100,000	90
Over \$100,000 but not exceeding 200,000	120

c. For each additional increment of one hundred thousand dollars of sales in Iowa the fee shall increase by thirty dollars. The fee shall not exceed one thousand five hundred dollars for a permit holder.

3. After due notice given at least ten days prior to a date of hearing fixed by the secretary, the department may revoke or refuse to renew a permit issued under this section if a violation of this chapter or if intent to defraud is established. The failure to fulfill a contract to repurchase the seed crop produced from any agricultural seed, if the crop meets the requirements set forth in the contract and the standards specified in this chapter, is prima facie evidence of intent to defraud the purchaser at the time of entering into the contract. However, this does not apply when seed stock is furnished by the contractor to the grower at no cost.

1. Any person who manufactures, mixes, blends, mixes to customer’s order, offers for sale, sells, or distributes any fertilizer or soil conditioner in this state must first obtain a license issued by the secretary and pay a twenty dollar license fee for each place of manufacture or distribution from which fertilizer or soil conditioner products are sold or distributed in this state. The license shall expire on July 1 of the even-numbered year following the date the license is issued. A license may be renewed for a two-year period as provided by the department.

2. The licensee shall at all times produce an intimate and uniform mixture of fertilizers or soil conditioners. When two or more fertilizer materials are delivered in the same load, they shall be thoroughly and uniformly mixed unless they are in separate compartments.

1. Each brand and grade of commercial fertilizer and each soil conditioner shall be registered before being offered for sale, sold or otherwise distributed in this state; except that a commercial fertilizer formulated according to special specifications furnished by a consumer to fill the consumer’s order shall not be required to be registered, but shall be labeled as provided in section 200.6, subsection 3. The application for registration shall be submitted to the secretary on forms furnished by the secretary and shall be accompanied by a label setting forth the guaranteed analysis which shall be the same as that appearing on the registered product.

2. All registration will be permanent, provided, however, that the secretary may request a

listing of products to be currently manufactured. The application shall include the following information in the following order:

- a. Net weight, if sold in packaged form.
- b. Name and address of the registrant.
- c. Name of product.
- d. Brand.
- e. Grade.
- f. Guaranteed analysis.

3. In addition to the information required in subsection 2 of this section, applications for registration of soil conditioners must include the name or chemical designation and percentage of content of each of the active ingredients.

4. The secretary is authorized, after public hearing, following due notice, to adopt rules regulating the labeling and registration of specialty fertilizers and other fertilizer products, when necessary in the secretary's opinion. The secretary may require any reasonable information in addition to section 200.3, subsection 14, which is necessary and useful to the purchasers of specialty fertilizers of this state and to promote uniformity among states.

5. The secretary is authorized after public hearing, following due notice, to establish minimum acceptable levels of trace and secondary elements recognized as effective to aid crops produced in Iowa and to require such warning statements as may be deemed necessary to prevent injury to crops.

6. The secretary, whenever the secretary deems it necessary in the administration of this chapter, may require the submission of additional data about any fertilizer or product to support the claims made for it. If it appears to the secretary that the composition of the article is such as to warrant the claims made for it, and if the article, its labeling and other material required to be submitted, comply with the requirements of this chapter, the secretary shall register the product.

7. If it does not appear to the secretary that the article is such as to warrant the proposed claims for it, or if the article and its labeling and other material required to be submitted does not comply with the provision of this chapter, the secretary shall notify the registrant of the manner in which the article, labeling, or other material required to be submitted fails to comply with this chapter so as to afford the registrant an opportunity to make the necessary corrections before resubmitting the label.

8. It shall be the responsibility of the registrant to submit satisfactory evidence of favorable effects and safety of the product.

9. The secretary shall establish minimum requirements for the registration of fertilizers and soil conditioners by efficacy testing or the substantiation of data relevant to Iowa crops and soils.

10. A distributor shall not be required to register any brand and grade of commercial fertilizer which is already registered under this chapter by another person.

11. The advisory committee created in section 206.23 shall advise and assist the secretary on the registration of a product of commercial fertilizer or soil conditioner under the provisions of this chapter.

200.6 Labeling.

1. Any commercial fertilizer offered for sale or sold or distributed in this state in bags, or other containers, shall have placed on or affixed to the container in legibly written or printed form, the information required by section 200.5, subsection 2; either on tags affixed to the end of the package or directly on the package.

2. If distributed in bulk, the shipment must be accompanied by a written or printed statement giving the purchaser's name and address in addition to the labeling requirement set forth in section 200.5, subsection 2.

3. A commercial fertilizer formulated according to specifications which are furnished by

a consumer prior to mixing shall be labeled to show the net weight, guaranteed analysis, and the name and address of the distributor and may show the net weight and guaranteed analysis of each of the fertilizer materials or soil conditioners used. It is the responsibility of the distributor to mix these materials uniformly and intimately so that when sampled in the prescribed manner the resulting analysis would meet the guarantee.

4. All bulk bins or intermediate storage of bulk commercial fertilizer where being offered for sale or distributed direct to the consumer shall be labeled showing brand, name and grade of product.

5. All fertilizers distributed or stored in bulk, unless in the manufacturers authorized containers, shall be labeled as the responsibility of the possessor.

6. Soil conditioners shall be labeled in accordance with subsection 1 of this section and in addition shall show the name or chemical designation and content or the active ingredients.

200.8 Inspection fees.

1. a. There shall be paid by the licensee to the secretary for all commercial fertilizers and soil conditioners sold, or distributed in this state, an inspection fee to be fixed annually by the secretary of agriculture at not more than twenty cents per ton. Sales for manufacturing purposes only are hereby exempted from fees but must still be reported showing manufacturer who purchased same. Payment of said inspection fee by any licensee shall exempt all other persons, firms or corporations from the payment thereof.

b. On individual packages of specialty fertilizer containing twenty-five pounds or less, there shall be paid by the manufacturer in lieu of the semiannual inspection fee as set forth in this chapter, an annual registration and inspection fee of one hundred dollars for each brand and grade sold or distributed in the state. In the event that any manufacturer sells specialty fertilizer in packages of twenty-five pounds or less and also in packages of more than twenty-five pounds, this annual registration and inspection fee shall apply only to that portion sold in packages of twenty-five pounds or less, and that portion sold in packages of more than twenty-five pounds shall be subject to the same inspection fee as fixed by the secretary of agriculture as provided in this chapter.

c. Any person other than a manufacturer who annually offers for sale, sells, or distributes specialty fertilizer in the amount of four thousand pounds or more or applies specialty fertilizer for compensation shall pay an annual inspection fee of thirty dollars in lieu of the semiannual inspection fee as set forth in this chapter.

2. Every licensee and any person required to pay an annual registration and inspection fee under this chapter in this state shall:

a. File not later than the last day of January and July of each year, on forms furnished by the secretary, a semiannual statement setting forth the number of net tons of commercial fertilizer or soil conditioners distributed in this state by grade for each county during the preceding six months' period; and upon filing such statement shall pay the inspection fee at the rate stated in subsection 1 of this section. However, in lieu of the semiannual statement by grade for each county, as hereinabove provided for, the registrant, on individual packages of specialty fertilizer containing twenty-five pounds or less, shall file not later than the last day of July of each year, on forms furnished by the secretary, an annual statement setting forth the number of net tons of specialty fertilizer distributed in this state by grade during the preceding twelve-month period.

b. If the tonnage report is not filed or the payment of inspection fees, or both, is not made within ten days after the last day of January and July of each year as required in paragraph “a” of this subsection, a penalty amounting to ten percent of the amount due, if any, shall be assessed against the licensee. In any case, the penalty shall be no less than fifty dollars. The amount of fees due, if any, and penalty shall constitute a debt and become the basis of a judgment against the licensee.

3. If there is an unencumbered balance of funds from the amount of the fees deposited in the general fund pursuant to sections 200.9 and 201A.11 on June 30 of any fiscal year equal to or exceeding three hundred fifty thousand dollars, the secretary of agriculture shall reduce the per ton fee provided for in subsection 1 and the annual license fee established pursuant to section 201A.3 for the next fiscal year in such amount as will result in an ending estimated balance of such funds for June 30 of the next fiscal year of three hundred fifty thousand dollars.

4. In addition to the fees imposed under subsection 1, a groundwater protection fee shall be imposed upon nitrogen-based fertilizer. The fee shall be based upon the percentage of actual nitrogen contained in the product. An eighty-two percent nitrogen solution shall be taxed at a rate of seventy-five cents per ton. Other nitrogen-based product formulations shall be taxed on the percentage of actual nitrogen contained in the formulations with the eighty-two percent nitrogen solution serving as the base. The fee shall be paid by each licensee registering to sell fertilizer to the secretary of agriculture. The fees collected shall be deposited in the agriculture management account of the groundwater protection fund. The secretary of agriculture shall adopt rules for the payment, filing, and collection of groundwater protection fees from licensees in conjunction with the collection of registration and inspection fees. The secretary shall, by rule, allow an exemption to the payment of this fee for fertilizers which contain trace amounts of nitrogen.

Fees collected for licenses and inspection fees under sections 200.4 and 200.8, with the exception of those fees collected for deposit in the agriculture management account of the groundwater protection fund, shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. Moneys deposited under this section to the general fund shall be used only by the department for the purpose of inspection, sampling, analysis, preparation, and publishing of reports and other expenses necessary for administration of this chapter. The secretary may assign moneys to the Iowa agricultural experiment station for research, work projects, and investigations as needed for the specific purpose of improving the regulatory functions for enforcement of this chapter.

200.10 Inspection, sampling, and analysis.

1. It shall be the duty of the secretary, who may act through an authorized agent, to sample, inspect, make analysis of, and test commercial fertilizers or soil conditioners distributed within this state at time and place and to such an extent as the secretary may deem necessary, to determine whether such commercial fertilizers and soil conditioners are in compliance with the provisions of this chapter. In the performance of the foregoing duty, the secretary shall counsel with the director of the Iowa agricultural experimental station in respect to the time, place and extent of sampling. The secretary individually or through an agent is authorized to enter upon any public or private premises or conveyances during regular business hours in order to have access to commercial fertilizers or soil conditioners subject to the provisions of this chapter and the rules and regulations pertaining thereto. It shall be the duty of the secretary to maintain a laboratory with the necessary equipment and

to employ such employees as may be necessary to aid in the administration and enforcement of this chapter.

2. a. The methods of sampling and analysis shall be the official methods of the association of official agricultural chemists in all cases where methods have been adopted by the association.

b. The findings of the state chemist or the state chemist's deputy, as shown by the sworn statement of the results of analysis of official samples of any brand and grade of commercial fertilizer, fertilizer material or soil conditioner, shall constitute prima facie evidence of their correctness in the courts of this state, as to the particular lots sampled and analyzed.

3. The secretary, in determining for administrative purposes whether any commercial fertilizer is deficient in plant food, or soil conditioner deficient in guaranteed active ingredients, shall be guided by the official sample as defined in section 200.3, subsection 18, and obtained and analyzed as provided for in subsection 2 of this section.

4. The results of official analysis of any commercial fertilizer or soil conditioner which has been found to be in violation of any provision of this chapter, shall be forwarded by the secretary to the registrant. Upon request, the secretary shall furnish to the registrant a portion of any sample.

200.12 False or misleading statements.

A commercial fertilizer or soil conditioner is misbranded if it does not identify substances promoting plant growth as defined in section 200.3, subsection 11, or if it carries any false or misleading statement upon or attached to the container or stated on the invoice or delivery ticket, or if the container or on the invoice or delivery ticket or in any advertising matter whatsoever connected with, accompanying or associated with the commercial fertilizer or soil conditioner. Further, the burden of proof of the desirable effect of the product on plant growth shall be the responsibility of the registrant.

The secretary shall publish at least annually, in such forms as the secretary may deem proper, information concerning the sales of commercial fertilizers, together with such data on their production and use as the secretary may consider advisable. The secretary shall report semiannually the results of the analysis based on official samples taken of commercial fertilizers sold within the state as compared with the analyses guaranteed under section 200.5 and section 200.6, together with name and address of the manufacturer or distributor of such commercial fertilizer at the time the official sample was taken. A copy of this semiannual report will be mailed by the secretary to each corresponding county extension director in the state.

a. The rules shall be such as are reasonably necessary for the protection and safety of the

public and persons using anhydrous ammonia, and shall be in substantial conformity with the generally accepted standards of safety.

b. Rules that are in substantial conformity with the published standards of the agricultural ammonia institute for the design, installation and construction of containers and pertinent equipment for the storage and handling of anhydrous ammonia, shall be deemed to be in substantial conformity with the generally accepted standards of safety.

2. Anhydrous ammonia equipment shall be installed and maintained in a safe operating condition and in conformity with rules adopted by the secretary.

3. The secretary shall enforce this chapter and, after due publicity and due public hearing, may adopt such reasonable rules as may be necessary in order to carry into effect the purpose and intent and to secure the efficient administration of this chapter.

4. This chapter does not prohibit the use of storage tanks smaller than transporting tanks nor the transfer of all kinds of fertilizer including anhydrous ammonia directly from transporting tanks to implements of husbandry, if proper safety precautions are observed.

The order may require that the owner or custodian hold the agricultural liming material at a place designated in the order. The stop order shall be in writing and served upon the person owning or controlling the manufacture or sale of the agricultural liming material. The department shall provide for the termination of the stop order upon compliance with the provisions of this chapter. The termination of the stop order shall be in writing and served upon the person as provided for in the stop order. The court may be petitioned by the department, or, upon request by the department, the attorney general or the county attorney. The court shall hear from all parties in the case. The court may issue an order for any of the following:

a. The seizure of the agricultural liming material. The court shall issue an order, if the court finds that the petition is supported by facts that agricultural liming material is being manufactured, sold, offered for sale, or exposed for sale in violation of this chapter, and the agricultural liming material must be condemned because it fails to meet standards required in this chapter. If warranted, the court shall order that the agricultural liming material be disposed of in a manner provided by rules adopted by the department, which may include reprocessing or relabeling the agricultural liming material in order to ensure that it complies with this chapter. The court may provide that any party to the case dispose of the agricultural liming material.

b. A temporary or permanent injunction against a person violating the provisions of this chapter. The court shall issue an order, if the court finds that the petition is supported by facts that agricultural liming material is being manufactured, sold, offered for sale, or exposed for sale in violation of this chapter. In order to obtain injunctive relief, the department shall not be required to post a bond or prove the absence of an adequate remedy at law, unless the court for good cause otherwise orders. The court may order any form of prohibitory or mandatory relief that is appropriate under principles of equity.

2. The department shall provide for the prosecution of a violation of this chapter by referring the violation to the county attorney in the county where the violation occurs. The department shall compile evidence of the violation for prosecution. The county attorney shall prosecute any case determined by the county attorney to be meritorious without delay. The department shall not refer a violation to the county attorney until the department provides the person subject to the violation with an opportunity to be heard by the department according to procedures adopted by the department. A right to a hearing is not a contested case proceeding as provided in chapter 17A. The department is not required to refer a minor violation to a county attorney, and may instead issue a warning to the person subject to the minor violation.

96 Acts, ch 1096, §12, 15

Fees collected under this chapter shall be deposited in the general fund of the state and shall be subject to the requirements of section 8.60. SUBCHAPTER I

PURPOSE — DEFINITIONS

202B.101 Purpose.

The purpose of this chapter is to preserve free and private enterprise, prevent monopoly, and also to protect consumers by regulating the balance of competitive forces in beef and swine production, by enhancing the welfare of the farming community, and also by preventing processors from gaining control of beef or swine production.

2003 Acts, ch 115, §4, 16, 19

202B.102 Definitions.

As used in this chapter, unless the context otherwise requires:

1. “*Base price*” means the price paid for swine, delivered to the processor, before application of any premiums or discounts, and expressed in dollars per hundred pounds of hot carcass weight as calculated in the same manner as provided in 7 C.F.R. §59.30.

2. “*Business association*” means a person organized under statute or common law in this state or another jurisdiction for purposes of engaging in a commercial activity on a profit, cooperative, or not-for-profit basis, including but not limited to a corporation or entity taxed as a corporation under the Internal Revenue Code, nonprofit corporation, cooperative association, partnership, limited partnership, limited liability company, limited liability partnership, investment company, joint stock company, joint stock association, or trust, including but not limited to a business trust.

3. “*Cash or spot market purchase*” means the purchase of swine by a processor from a seller, if the swine are slaughtered not more than fourteen days after the date that the seller and the processor agree on a date of delivery of the swine for slaughter and the base price for purchasing the swine is determined by an oral or written agreement between seller and processor executed on the day the swine are delivered for slaughter.

4. “*Cattle operation*” means a location including but not limited to a building, lot, yard, corral, or other place where cattle for slaughter are fed or otherwise maintained.

5. “*Contract feeder*” means a person owning in the applicable reporting year, as provided in section 202B.301, more than two thousand five hundred swine or five thousand head of poultry, if the swine or poultry are subject to a contract or contracts for care and feeding by a person or persons other than the owner on land which is not owned, leased, or held by the owner.

6. “*Contract for the care and feeding of swine*” means an oral or written agreement

executed between a person and the owner of swine, under which the person agrees to care for and feed the owner's swine on the person's premises. A contract for the care and feeding of swine does not include an agreement for the sale or purchase of swine.

7. "*Cooperative association*" means the same as defined in section 10.1.

8. "*Indirect*" means to act or attempt to accomplish an act through an interest in a business association, through one or more affiliates or intermediaries, or by any method other than a direct approach, including by any circuitous or oblique method.

9. "*Person*" means an individual, business association, government or governmental subdivision or agency, or any other legal entity.

10. "*Processor*" means a person who alone or in conjunction with others directly or indirectly controls the manufacturing, processing, or preparation for sale of beef or pork products, including the slaughtering of cattle or swine or the manufacturing or preparation of carcasses or goods originating from the carcasses, if the beef or pork products have a total annual wholesale value of eighty million dollars or more for the person's tax year. A person shall be deemed to be a processor if any of the following apply:

a. The person has a threshold interest in a processor which is a business association. "*Threshold interest*" means a direct or indirect interest in the business association, calculated as follows:

(1) For a processor of beef products, the person's threshold interest begins at ten percent.

(2) For a processor of pork products, the person's threshold interest begins at ten percent for a processor of pork products having a total annual wholesale value of at least eighty million dollars and decreases to one percent for a processor of pork products having a total annual wholesale value of at least two hundred sixty million dollars. The amount of the decrease in the amount of the threshold interest shall equal one percent for each increased increment of twenty million dollars in total annual wholesale value.

b. The person holds an executive position in a processor of pork products or owes a processor of pork products a fiduciary duty if the processor directly or indirectly controls the processing of pork products having a total annual wholesale value of two hundred sixty million dollars or more. A person who held such an executive position or owed a fiduciary duty shall be deemed to still hold the position or owe the duty for a two-year period following the date that the person relinquishes the position or duty. An executive position in a processor organized as a business association includes but is not limited to a member of a board of directors or an officer of a corporation or cooperative association, a director or officer of a joint stock company or joint stock association, a manager of a limited liability company, a general partner of a limited partnership, or a trustee of a trust.

"*Controlling interest*" means actual control or the possession directly or indirectly of the power to direct or cause the direction of the management and policies of a processor, whether through the ownership of voting securities, by contract, or otherwise.

(b) Of the total interest held by all persons in the processor, swine producers hold at least sixty percent of the interest. In addition, of the total interest held by all persons in the processor, swine producers hold at least sixty percent of interests with voting rights.

(2) Of the total interest held by all persons in the processor, all retailers hold a total of not more than twenty percent of the interest.

b. Another processor does not hold a direct or indirect interest in the processor. However, this paragraph does not apply to a person deemed to be a processor solely because the person holds a threshold interest in the processor.

c. Not less than ten percent of the swine slaughtered by the processor each day are purchased through cash or spot market purchases.

d. The processor makes cash or spot market purchases of swine under the same terms and conditions from both sellers of swine who hold a direct or indirect interest in the processor and sellers of swine who do not hold a direct or indirect interest in the processor. In making such cash or spot market purchases of swine, the processor shall not provide sellers of swine who hold a direct or indirect interest in the processor with a preference over sellers of swine who do not hold a direct or indirect interest in the processor.

12. “Retailer” means a person who is engaged in the business of selling pork products, if all of the following apply:

- a. The pork products are sold only on a retail basis directly to the ultimate purchasers of the pork products for consumption and not for resale.
- b. The person is not engaged in the slaughter of swine.
- c. A processor does not have a direct or indirect interest in the person.

However, the outstanding amount due to support a single swine operation shall not exceed two hundred fifty thousand dollars.

(2) Directly or indirectly contract for the care and feeding of swine in this state.

2. Subsection 1 shall not apply to a swine producer who holds a threshold interest in a qualified processor in the manner provided in section 202B.102, if all of the following apply:

a. The swine producer’s threshold interest in the qualified processor is not more than ten percent.

b. The swine producer is not a processor. However, this paragraph does not apply to a swine producer deemed to be a processor solely because the swine producer holds a threshold interest in the qualified processor as otherwise allowed under this subsection or because the swine producer holds an executive position in the qualified processor or owes the qualified processor a fiduciary duty.

3. This section shall not preclude a processor from doing any of the following:

a. Contracting for the purchase of cattle or swine, provided that where the contract sets a

date for delivery which is more than twenty days after the making of the contract, the contract shall do one of the following:

After the amount of the bond equals one million dollars, the grain dealer may elect to base the remainder of the amount of the bond on the number of bushels of unpaid grain being purchased by the grain dealer, as provided for by rules which shall be adopted by the department. The remaining amount shall equal two thousand dollars for each one thousand dollars of the highest amount of bushels of unpaid grain purchased by the grain dealer during each month.

(2) A grain dealer with current assets equal to less than fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a grain dealer submit more than one such unqualified opinion per year. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A grain dealer shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the grain dealer's financial status or compliance with this section.

c. A grain dealer shall submit a report to the department according to procedures required by the department, if the grain dealer provides a bond based in part on the number of bushels of unpaid grain purchased by the grain dealer, as provided in rules adopted by the department, in order to satisfy the current assets to current liabilities ratio requirement of this section. The report shall contain information required by the department, including the number of bushels of unpaid grain purchased by the grain dealer. The grain dealer shall submit the report not more than once each month. However, the department may require that a grain dealer submit a report on a more frequent basis, if the department has good cause.

d. The grain dealer shall have and maintain current assets equal to at least one hundred percent of current liabilities or provide a bond under the following conditions:

(1) A grain dealer with current assets equal to at least fifty percent of current liabilities

shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. After the amount of the bond equals one million dollars, the grain dealer may elect to base the remainder of the amount of the bond on the number of bushels of unpaid grain being purchased by the grain dealer, as provided for by rules which shall be adopted by the department. The remaining amount shall equal two thousand dollars for each one thousand dollars of the highest amount of bushels of unpaid grain purchased by the grain dealer during each month.

(2) A grain dealer with current assets equal to less than fifty percent of current liabilities shall provide a bond of two thousand dollars for each one thousand dollars or fraction of one thousand dollars of current assets that the grain dealer is lacking to meet the minimum requirement. However, the bond shall not be used for longer than thirty consecutive days in a twelve-month period.

6. The department shall adopt rules relating to the form and time of filing of financial statements. The department may require additional information or verification with respect to the financial resources of the applicant and the applicant's ability to pay producers for grain purchased from them.

7. *a.* When the net worth or current ratio of a licensee in good standing is less than that required by this section, the grain dealer shall correct the deficiency or file a deficiency bond or an irrevocable letter of credit within thirty days of written notice by the department. Unless the deficiency is corrected or the deficiency bond or irrevocable letter of credit is filed within thirty days, the grain dealer license shall be suspended.

b. If the department finds that the welfare of grain producers requires emergency action, and incorporates a finding to that effect in its order, immediate suspension of a license may be ordered notwithstanding the thirty-day period otherwise allowed by paragraph "a".

8. A deficiency bond or irrevocable letter of credit filed with the department pursuant to this section shall not be canceled by the issuer on less than ninety days' notice by certified mail to the secretary of agriculture and the principal.

The applicant must file the renewal application and pay the fees and penalty to the department within thirty days from the date of expiration of the grain dealer license.

b. If the applicant did not purchase grain in the applicant's previous fiscal year, the applicant shall pay the fee specified in paragraph "a", subparagraph (1). If during the licensee's fiscal year the number of bushels of grain actually purchased exceeds thirty-five thousand, the licensee shall notify the department and the license and inspection fee shall be adjusted accordingly. 203.9 Inspection of premises and records — reconstruction of records.

1. The department may inspect the premises used by any grain dealer in the conduct of the dealer's business at any time. The department may inspect a grain dealer's records that pertain to grain transactions during ordinary business hours. The department shall inspect a grain dealer's records at least once each eighteen-month period without justification. The department shall prioritize inspections based on the system provided in section 203.22. The department may use a risk rating produced by a statistical model provided in section 203.22 as justification to conduct an inspection. A transporter of grain in transit shall possess bills of lading or other documents covering the grain, and shall present them to any law enforcement officer on demand. If there is justification to believe that a grain dealer is engaged without a license as required pursuant to section 203.3, the department may inspect the grain dealer's records which pertain to grain transactions at any time.

2. If a grain dealer does not maintain a place of business in this state, the department is not required to inspect the grain dealer's records. A grain dealer shall submit the grain dealer's records relating to grain transactions occurring within this state to the department for purposes of an inspection as provided in this section at any reasonable time and place, including the offices of the department during regular business hours, as ordered by the department.

3. A grain dealer shall keep complete and accurate records. A grain dealer shall keep records for the previous six years. The department may charge the grain dealer the actual cost for reconstructing the grain dealer's records, which shall be considered repayment receipts as defined in section 8.2.

4. The department may suspend or revoke the license of a grain dealer for failing to consent to a departmental inspection or cooperate with the department during an inspection as provided in this chapter.

1. A person who knowingly submits false information to or knowingly withholds information from the department or any of its employees when required to be submitted or maintained under this chapter, commits a fraudulent practice.

2. *a.* Except as provided in paragraph “*b*”, a person commits a serious misdemeanor if the person does any of the following:

(1) Engages in business as a grain dealer without a license as required in section 203.3.

(2) Obstructs an inspection of the person’s business premises or records required to be kept by a grain dealer pursuant to section 203.9.

(3) Uses a scale ticket or credit-sale contract in violation of this chapter or a requirement established by the department under this chapter.

b. A person who commits an offense specified in paragraph “*a*” after having been found guilty of the same offense commits an aggravated misdemeanor.

3. Except as provided in subsections 1 and 2, a person who violates any provision of this chapter commits a simple misdemeanor. With respect to a continuing violation, each day that the violation continues is a separate offense.

4. A person in violation of this chapter, or in violation of chapter 714 or 715A, which violation involves the business of a grain dealer, is subject to prosecution by the county attorney in the county where the business is located. However, if the county attorney fails to initiate prosecution within thirty days and upon request by the department, the attorney general may initiate and carry out the prosecution in cooperation, if possible, with the county attorney. The person in violation may be restrained by an injunction in an action brought by the department or the attorney general upon request by the department.

203.11A Civil penalties.

1. The department shall establish, by rule, civil penalties which may be administratively or judicially assessed against a grain dealer for a violation of this chapter.

2. The amount of a civil penalty shall not exceed one thousand five hundred dollars. Each day that a violation continues shall constitute a separate violation. The amount of the civil penalty that may be assessed in a case shall not exceed the amount recommended by the grain industry peer review panel established pursuant to section 203.11B. Moneys collected in civil penalties by the department or the attorney general shall be deposited in the general fund of the state.

3. A civil penalty may be administratively assessed only after an opportunity for a contested case hearing under chapter 17A. The department may be represented in an administrative hearing or judicial proceeding by the attorney general. A civil penalty shall be paid within thirty days from the date that an order or judgment for the penalty becomes final. When a person against whom a civil penalty is administratively assessed under this section seeks timely judicial review of an order imposing the penalty as provided under chapter 17A, the order is not final until all judicial review processes are completed. When a person against whom a civil penalty is judicially assessed under this section seeks a timely appeal of judgment, the judgment is not final until the right of appeal is exhausted.

4. A person who fails to timely pay a civil penalty as provided in this section shall pay, in addition to the penalty, interest at the rate of one and one-half percent of the unpaid balance of the assessed penalty for each month or part of a month that the penalty remains unpaid.

203.11B Grain industry peer review panel.

1. The department shall establish a grain industry peer review panel to assist the department in assessing civil penalties pursuant to this section and section 203C.36A. The secretary of agriculture shall appoint to the panel the following members:

a. Two natural persons who are grain dealers licensed under this chapter and actively engaged in the grain dealer business.

b. Two natural persons who are warehouse operators licensed pursuant to chapter 203C and actively engaged in the grain warehouse business.

c. One natural person who is a producer actively engaged in grain farming.

2. a. The members appointed pursuant to this section shall serve four-year terms beginning and ending as provided in section 69.19. However, the secretary of agriculture shall appoint initial members to serve for less than four years to ensure that members serve staggered terms. A member is eligible for reappointment. A vacancy on the panel shall be filled for the unexpired portion of the regular term in the same manner as regular appointments are made.

b. The panel shall elect a chairperson who shall serve for a term of one year. The panel shall meet on a regular basis and at the call of the chairperson or upon the written request to the chairperson of three or more members. Three members constitute a quorum and the affirmative vote of a majority of the members present is necessary for any substantive action to be taken by the panel. The majority shall not include any member who has a conflict of interest and a statement by a member that the member has a conflict of interest is conclusive for this purpose. A vacancy in the membership does not impair the duties of the panel.

c. Notwithstanding section 7E.6, the members shall only receive reimbursement for actual expenses for performance of their official duties, as provided by the department.

d. The panel shall be staffed by employees of the department.

3. The panel may propose a schedule of civil penalties for minor and serious violations of this chapter and chapter 203C. The department may adopt rules based on the recommendations of the panel as approved by the secretary of agriculture.

4. a. The panel shall review cases of grain dealers regulated under this chapter and warehouse operators regulated under chapter 203C who are subject to civil penalties as provided in section 203.11A or 203C.36A. A review shall be performed upon the request of the department or the person subject to the civil penalty.

b. The department shall present reports to the panel in regard to investigations of cases under review which may result in the assessment of a civil penalty against a person. The reports may be reviewed by the panel in closed session pursuant to section 21.5, and are confidential records. In presenting the reports, the department shall make available to the panel records of persons which are otherwise confidential under section 22.7, 203.16, or 203C.24. The panel members shall maintain the confidentiality of records made available to the panel. However, a determination to assess a civil penalty against a person shall be made exclusively by the department.

c. The panel may establish procedures for the review and establish a system of prioritizing cases for review, consistent with rules adopted by the department. The department shall adopt rules establishing a period for the review and response by the panel which must be completed prior to a contested case hearing under chapter 17A. A hearing shall not be delayed after the required period for review and response, except as provided in chapter 17A or the Iowa rules of civil procedure. The rules adopted by the department may exclude review of minor violations. The review may also include the manner of assessing and collecting the civil penalty.

d. The findings and recommendations of the panel shall be included in a response delivered to the department and the person subject to the civil penalty. The response may include a recommendation that a proposed civil penalty be modified or suspended, that an alternative method of collection be instituted, or that conditions be placed upon the license of a grain dealer as provided in section 203.3 or the license of a warehouse operator as provided in section 203C.6.

5. This section does not apply to an action by the department for a license suspension or revocation. This section also does not require a review or response if the case is subject to criminal prosecution or involves a petition seeking injunctive relief.

6. A response by the panel may be used as evidence in an administrative hearing or in

a civil or criminal case except to the extent that information contained in the response is considered confidential pursuant to section 22.7, 203.16, or 203C.24.

203.12 Claims — cessation of a license and notice of license revocation.

1. Upon the cessation of a grain dealer license by revocation, cancellation, or expiration, any claim for the purchase price of grain against the grain dealer shall be made in writing and filed with the grain dealer and with the issuer of a deficiency bond or of an irrevocable letter of credit and with the department within one hundred twenty days after the date of the cessation. A failure to make this timely claim relieves the issuer and the grain depositors and sellers indemnity fund provided in chapter 203D of all obligations to the claimant.

2. Upon the revocation of a grain dealer license, the department shall cause notice of the revocation to be published once each week for two consecutive weeks in a newspaper of general circulation within the state of Iowa and in a newspaper of general circulation within the county of the grain dealer's principal place of business when that dealer's principal place of business is located in the state of Iowa. The notice shall state the name and address of the grain dealer and the effective date of revocation. The notice shall also state that any claims against the grain dealer shall be made in writing and sent by ordinary mail or delivered personally within one hundred twenty days after revocation to the grain dealer, to the issuer of a deficiency bond or of an irrevocable letter of credit, and to the department, and the notice shall state that the failure to make a timely claim does not relieve the grain dealer from liability to the claimant.

203.12A Lien on grain dealer assets.

1. a. As used in this section:

(1) "*Grain dealer assets*" includes proceeds received or due a grain dealer upon the sale, including exchange, collection, or other disposition, of grain sold by the grain dealer. "*Grain dealer assets*" also includes any other funds or property of the grain dealer which can be directly traced as being from the sale of grain by the grain dealer, or which were utilized in the business operation of the grain dealer.

(2) "*Proceeds*" means noncash and cash proceeds as defined in section 554.9102.

b. A court, upon petition by an affected party, may order that claimed grain dealer assets are not grain dealer assets as defined in this section. The burden of proof shall be upon the petitioner to establish that the assets are not grain dealer assets as defined in this section.

2. A statutory lien is imposed on all grain dealer assets in favor of sellers who have surrendered warehouse receipts or other written evidence of ownership as part of a grain sale transaction or who possess written evidence of the sale of grain to a grain dealer, without receiving full payment for the grain.

3. The lien shall arise at the time of surrender of warehouse receipts or other written evidence of ownership as part of a grain sale transaction or the time of delivery of the grain for sale, and shall terminate when the liability of the grain dealer to the seller has been discharged. The lien of all sellers is hereby assigned to the Iowa grain indemnity fund board, on behalf of the grain depositors and sellers indemnity fund.

4. To perfect the lien, the Iowa grain indemnity fund board must file a lien statement with the office of the secretary of state. The lien statement is valid only if filed on or after the date of suspension but not later than sixty days after the incurrence date as provided in section 203D.6. The lien statement shall disclose the name of the grain dealer, the address of the dealer's principal place of business, a description of identifiable grain dealer assets, and the amount of the lien. The lien amount shall be the board's estimate of the final cost of reimbursing the grain depositors and sellers indemnity fund for the payment of claims

against the fund resulting from the breach of the grain dealer's obligations. The board shall correct the amount not later than one hundred eighty days following the incurrence date. A court, upon petition by an affected person, may correct the amount. The board shall have the burden of proving that the amount is an accurate estimate.

5. The Iowa grain indemnity fund board, upon written demand of the grain dealer, shall file a termination statement with the secretary of state, if after one hundred eighty days from the date that the lien is perfected the grain dealer's license has not ceased by revocation, cancellation, or expiration. Upon filing the termination statement, the lien becomes unperfected. The board shall also deliver a copy of the termination statement to the grain dealer.

6. The secretary of state shall note the filing of a lien statement under this section in a manner provided by chapter 554, the uniform commercial code. The secretary shall note the filing of a termination statement with the lien statement.

7. A lien statement filed under this section shall be a security interest perfected under chapter 554 and subject to the same priority as provided under section 554.9322.

8. If the grain dealer is also licensed under chapter 203C, and in the event the department is appointed as a receiver under section 203C.3, assets under the authority of the receiver are free from this statutory lien. However, if there are receivership assets in excess of those necessary to fully reimburse depositors, the perfected lien will attach to those excess assets.

9. *a.* The board may enforce the lien in the manner provided in chapter 554, article 9, part 6, for the enforcement of security interests. If, upon enforcement of the lien, the lien amount is satisfied in full without exhaustion of the grain dealer assets, the remaining assets shall be returned to the grain dealer or, if there are competing claims to those remaining assets by other creditors, shall place those assets in the custody of the district court and implead the known creditors.

b. For purposes of enforcement of the lien, the board is deemed to be the secured party and the grain dealer is deemed to be the debtor, and each has the respective rights and duties of a secured party and a debtor as provided in chapter 554, article 9, part 6. If a right or duty under chapter 554, article 9, part 6, is contingent upon the existence of express language in a security agreement, or may be waived by express language in a security agreement, the requisite language is deemed not to exist for purposes of enforcement of the lien created by this section.

10. Actions relating to this section shall be brought in the district court in the county in which the grain dealer's primary place of business is located or in Polk county.

b. "Interested seller" means a person who delivers or has delivered grain to a grain dealer who has not been paid as provided in section 203.8 or according to the terms of a credit-sale contract breached by the grain dealer.

c. "Issuer" means a person who issues a deficiency bond or an irrevocable letter of credit pursuant to section 203.3, or an issuer of grain assets.

2. *a.* The department may file a verified petition in district court requesting that the department be appointed as a receiver, and the district court shall appoint the department as receiver, in order to protect interested sellers, if any of the following apply:

(1) The grain dealer's license is revoked or suspended under section 203.10.

(2) There is evidence that the grain dealer has engaged or is engaging in business under this chapter without obtaining a license as required pursuant to section 203.3.

b. Upon being appointed as a receiver, the department shall take custody and provide for the disposition of the grain dealer assets of the grain dealer under the supervision of the court.

(1) The petition shall be filed in the county in which the grain dealer maintains its principal place of business in this state. The court may issue ex parte any temporary order as it determines necessary to preserve or protect the grain dealer assets and the rights of interested sellers.

(2) The petition shall be accompanied by the department's plan for disposition of grain dealer assets which shall provide terms as may be necessary to preserve or protect the grain dealer assets and the rights of interested sellers, less expenses incurred by the department in connection with the receivership. The plan may provide for the delivery or sale of grain as provided in section 203C.4. The plan may provide for the operation of the business of the grain dealer on a temporary basis and any other course of action or procedure which will serve the interests of interested sellers.

(3) The petition shall be filed with the clerk of the district court who shall set a date for a hearing in the same manner as provided in section 203C.3.

(4) Copies of the petition, the notice of hearing, and the department's plan of disposition shall be delivered to the following:

(6) A person is not a party to the action unless admitted by the court upon application.

3. When appointed as a receiver, the department shall publish notice of the appointment in the same manner provided in section 203C.3.

4. The department may employ or appoint a person to appear on behalf of the department in any proceedings before the court as provided in section 203C.3.

5. An action of the department shall not be subject to the provisions of chapter 17A. Chapter 669 is applicable to any claim as defined in section 669.2 against the person carrying out the duties of the department acting as receiver.

6. When the department is appointed as a receiver, the issuer shall be joined as a party, and may be ordered by the court to pay indemnification proceeds, and shall be discharged from further liability as provided in section 203C.4. The department shall provide notice to interested sellers within one hundred twenty days after the date of appointment. A failure of a person to file a timely claim as provided by the department shall defeat the claim, except to the extent of any excess grain dealer assets remaining after all timely claims are paid in full.

7. If the court approves the sale of grain, the department shall employ or appoint a merchandiser who shall enjoy the same status, exercise the same powers, and receive compensation to the same extent as a merchandiser employed or appointed pursuant to section 203C.4. A person employed or appointed as a merchandiser must meet the following requirements:

a. Be experienced or knowledgeable in the operation of grain dealers as provided in this chapter.

b. Be experienced or knowledgeable in the marketing of grain.

c. Not have had a grain dealer's license issued pursuant to section 203.3 suspended or revoked as provided in section 203.10.

d. Not have any pecuniary interest in the grain dealer assets of the grain dealer and not have a business relationship with the grain dealer.

8. The sale of the grain shall proceed in the same manner as grain sold pursuant to section 203C.4. The department may, with the approval of the court, continue the operation of all or any part of the business of the grain dealer on a temporary basis and take any other course of action or procedure which will serve the interests of interested sellers. The department is entitled to reimbursement out of grain dealer assets for costs directly attributable to the receivership. The department shall be reimbursed from the grain dealer

assets in the same manner as provided in section 203C.4. If the approved plan of disposition requires a distribution of cash proceeds, the department shall submit to the court a proposed plan of distribution of those proceeds. The plan shall be approved and executed and the department shall be discharged and the receivership terminated in the same manner as provided in section 203C.4.

The grain dealer shall maintain an accurate record of all credit-sale contract forms and numbers obtained by that dealer. The record shall include the disposition of each numbered form, whether by execution, destruction, or otherwise.

c. The grain dealer who purchases grain by credit-sale contract shall maintain records as required by the department in compliance with this section.

2. In addition to other information as may be required, a credit-sale contract shall contain or provide for all of the following:

a. The seller's name and address.

b. The conditions of delivery.

c. The amount and kind of grain delivered.

d. The price per bushel or basis of value.

e. The date payment is to be made.

f. The duration of the credit-sale contract, which shall not exceed twelve months from the date the contract is executed.

The contract must be signed and dated by both parties and executed in duplicate. One copy shall be retained by the grain dealer and one copy shall be delivered to the seller. Upon the cessation of the grain dealer's license by revocation, cancellation, or expiration, the payment date for all credit-sale contracts shall be advanced to a date not later than thirty days after the effective date of the cessation, and the purchase price for all unpriced grain shall be determined as of the effective date of the cessation in accordance with all other provisions of the contract. However, if the business of the grain dealer is sold to another licensed grain dealer, credit-sale contracts may be assigned to the purchaser of the business.

4. a. A grain dealer shall not purchase grain on credit-sale contract during any time period in which the grain dealer fails to maintain fifty cents of net worth for each outstanding bushel of grain purchased under credit. The grain dealer may maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of deficiency in net worth.

b. A grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act, and who does not have a sufficient quantity or quality of grain to satisfy the warehouse operator's obligations based on an examination by the department or the United States department of agriculture shall not purchase grain on credit-sale contract to correct the shortage of grain.

c. (1) A grain dealer must meet at least either of the following conditions:

(b) The grain dealer files a bond with the department in the amount of one hundred thousand dollars payable to the department.

(2) (a) The bond filed with the department under this paragraph shall be used to indemnify sellers for losses resulting from a breach of a credit-sale contract as provided by rules adopted by the department. The bond provided in this paragraph shall be in addition to any other bond required in this chapter.

(b) The bond shall not be canceled by the issuer on less than ninety days' notice by certified mail to the department and the principal. However, if an adequate replacement bond is filed with the department, the department may authorize the cancellation of the original bond before the end of the ninety-day period.

(c) If an adequate replacement bond is not received by the department within sixty days of the issuance of the notice of cancellation, the department shall suspend the grain dealer's license. The department shall cause an inspection of the licensed grain dealer immediately at the end of the sixty-day period. If a replacement bond is not filed within another thirty days following the suspension, the department shall revoke the grain dealer's license .

(3) When a license is revoked, the department shall provide notice of the revocation by ordinary mail to the last known address of each holder of an outstanding credit-sale contract and all known sellers.

The grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act does not have a sufficient quantity or quality of grain to satisfy the warehouse operator's obligations based on an examination by the department or the United States department of agriculture.

b. The grain dealer who is also a warehouse operator licensed by the department under chapter 203C or the United States department of agriculture under the United States Warehouse Act issues back to the grain dealer a warehouse receipt for purposes of providing collateral, if the grain which is the subject of the warehouse receipt was purchased on credit and is unpaid for by the grain dealer.

c. The grain dealer fails to maintain requirements relating to net worth or fails to maintain a ratio of current assets to current liabilities, as required in section 203.3.

d. The grain dealer violates this section.

e. The grain dealer's total liabilities are greater than seventy-five percent of the grain dealer's total assets.

g. The department discovers that a grain dealer has delayed payment for grain purchased since the department last inspected the grain dealer pursuant to section 203.9.

6. A grain dealer who purchases grain by credit-sale contract shall obtain from the seller a signed acknowledgment stating that the seller has received notice that grain purchased by credit-sale contract is not protected by the grain depositors and sellers indemnity fund. The form for the acknowledgment shall be prescribed by the department, and the licensed grain dealer and the seller shall each be provided a copy.

203.20 Shrinkage adjustments — disclosures — penalties.

1. A person who, in connection with the receipt of corn or soybeans for storage, processing, or sale, adjusts the scale weight of the grain to compensate for the moisture content of the grain shall compute the amount of the adjustment by multiplying the scale weight of the grain by that factor which results in a rate of adjustment of one and eighteen hundredths percent of weight per one percent of moisture content. The use of any rate of weight adjustment for moisture content other than the one prescribed by this subsection is a fraudulent practice. The person shall post on the business premises in a conspicuous place notice of the rate of adjustment for moisture content that is prescribed by this subsection. Failure to make this disclosure is a simple misdemeanor.

2. A person who, in connection with the receipt of grain for storage, processing or sale, adjusts the quantity of the grain received to compensate for losses to be incurred during the handling, processing, or storage of the grain shall post on the business premises in a conspicuous place notice of the rate of adjustment to be made for this shrinkage. Failure to make the required disclosure is a simple misdemeanor.

3. A person who adjusts the scale weight of corn or soybeans both for moisture content and for handling, processing, or storage losses may combine the two adjustment factors into a single factor and may use this resulting factor to compute the amount of weight adjustment in connection with storage, processing, or sale transactions, provided that the person shall post on the business premises in a conspicuous place a notice that discloses the moisture shrinkage factor prescribed by subsection 1, the handling shrinkage factor to be imposed, and the single factor that results from combining these factors. Failure to make the required disclosure is a simple misdemeanor.

203.22 Prioritization of inspections of grain dealers.

The department shall develop a system to prioritize the inspections of grain dealers provided in section 203.9. The system of prioritization shall be computed each year based on the risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the grain dealer. The department shall compute the risk by utilizing an available statistical model to measure the financial condition of grain dealers, and especially grain dealers who execute credit-sale contracts. Procedures for utilizing the statistical model shall be adopted by department rules. The statistical model shall be used to provide risk ratings. A risk rating shall be used as a factor by the department to prioritize its inspection schedule. The department may use a risk rating produced by the statistical model as justification to inspect the grain dealer at any time. A substantial risk of loss to the grain

depositors and sellers indemnity fund caused by the possible insolvency of the grain dealer based on the statistical model shall be good cause.

203C.2 Duties and powers of the department — operator recordkeeping.

1. The department shall administer this chapter and may exercise general supervision over the storage, warehousing, classifying according to grade or otherwise, weighing, and certification of agricultural products.

2. The department may inspect or cause to be inspected any warehouse including warehouse records as provided in this section. Inspections may be made at times and for purposes as the department determines. Except as provided in section 203C.6, the department shall inspect every licensed warehouse and its contents once every twelve months. The department shall prioritize inspections based on the system provided in section 203C.40. The department may require the filing of reports relating to a warehouse or its operation.

a. A licensed warehouse operator operating a licensed warehouse shall provide for complete and correct recordkeeping. The records shall account for the storage and withdrawal of all agricultural products handled in each warehouse which the warehouse operator is licensed to operate. The records shall include all original and duplicate receipts issued by, returned to, and canceled by the warehouse operator. A licensed warehouse operator shall keep records for the previous six years. If the licensed warehouse operator’s records are incomplete or inaccurate, the department may reconstruct the warehouse operator’s records in order to determine whether the warehouse operator is in compliance

with the provisions of this chapter. The department may charge the licensed warehouse operator the actual cost for reconstructing the warehouse operator's records.

b. If upon inspection of a warehouse a deficiency is found to exist as to the quantity or quality of agricultural products stored, as indicated on the warehouse operator's books and records according to official grain standards, the department may require an employee of the department to remain at the licensed warehouse and supervise all operations involving agricultural products stored there under this chapter until the deficiency is corrected. 3. The department may make available to the United States government, or any of its agencies, including the commodity credit corporation, the results of inspections made and inspection reports submitted to it by employees of the department, upon payment to it of charges as determined by the department, but the charges shall not be less than the actual cost of services rendered, as determined by the department. The department may enter into contracts and agreements for such purpose and shall keep a record of all money thus received.

4. The department may classify any warehouse in accordance with its suitability for the storage of agricultural products and shall specify in any license issued for the operation of a warehouse the only type or types and the quantity of agricultural products which may be stored in the warehouse. The department may prescribe, within the limitations of this chapter, the duties of licensed warehouse operators with respect to the care of and responsibility for the contents of licensed warehouses. Grain grades shall be determined under the official grain standards. The department may from time to time publish data in connection with the administration of this chapter as may be of public interest.

5. Moneys received by the department in administering this section shall be considered repayment receipts as defined in section 8.2.

203C.3 Appointment of department as receiver.

1. The department in its discretion may, following summary suspension of a license under section 203C.10, or following a suspension or revocation of a license as otherwise provided in section 203C.10 or 203C.11, file a verified petition in the district court requesting that the department be appointed as a receiver to take custody of commodities stored in the licensee's warehouse and to provide for the disposition of those assets in the manner provided in this chapter and under the supervision of the court. The petition shall be filed in the county in which the warehouse is located. The district court shall appoint the department as receiver. Upon the filing of the petition the court shall issue ex parte such temporary orders as may be necessary to preserve or protect the assets in receivership, or the value thereof, and the rights of depositors, until a plan of disposition is approved.

2. A petition filed by the department under subsection 1 shall be accompanied by the department's plan for disposition of stored commodities. The plan may provide for the pro rata delivery of part or all of the stored commodities to depositors holding warehouse receipts or unpriced scale weight tickets, or may provide for the sale under the supervision of the department of part or all of the stored commodities for the benefit of those depositors, or may provide for any combination thereof, as the department in its discretion determines to be necessary to minimize losses.

3. When a petition is filed by the department under subsection 1 the clerk of court shall set a date for hearing on the department's proposed plan of disposition at a time not less than ten nor more than fifteen days after the date the petition is filed. Copies of the petition, the notice of hearing, and the department's plan of disposition shall be served upon the licensee and upon the issuer of a deficiency bond or of an irrevocable letter of credit pursuant to section 203C.6 in the manner required for service of an original notice. A delay in effecting service

upon the licensee or issuer is not cause for denying the appointment of a receiver and is not grounds for invalidating any action or proceeding in connection with the appointment.

4. The department shall cause a copy of each of the documents served upon the licensee under subsection 3 to be mailed by ordinary mail to every person holding a warehouse receipt or unpriced scale weight ticket issued by the licensee, as determined by the records of the licensee or the records of the department. The failure of any person referred to in this subsection to receive the required notification shall not invalidate the proceedings on the petition for the appointment of a receiver or any portion thereof. Persons referred to in this subsection are not parties to the action unless admitted by the court upon application therefor.

5. When appointed as a receiver under this chapter, the department shall cause notification of the appointment to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location, and in a newspaper of general circulation in this state.

6. The department may designate an employee of the department to appear on behalf of the department in any proceedings before the court with respect to the receivership, and to exercise the functions of the department as receiver under this section and section 203C.4, except that the department shall determine whether or not to petition for appointment as receiver, shall approve the proposed plan for disposition of stored commodities, shall approve the proposed plan for distribution of any cash proceeds, and shall approve the proposed final report.

7. The actions of the department in connection with petitioning for appointment as a receiver, and all actions pursuant to such appointment, shall not be subject to the provisions of the administrative procedure Act, chapter 17A.

8. A person employed or appointed by the department and carrying out the duties of the department acting as receiver under this chapter shall be deemed to be an employee of the state as defined in section 669.2. Chapter 669 is applicable to any claim as defined in section 669.2 against the person carrying out the duties of the department acting as receiver.

203C.4 Powers and duties of receiver.

1. When the department is appointed as receiver under this chapter the issuer of a deficiency bond or of an irrevocable letter of credit pursuant to section 203C.6 shall be joined as a party defendant by the department. If required by the court, the issuer shall pay the indemnification proceeds or so much thereof as the court finds necessary into the court, and when so paid the issuer shall be absolutely discharged from any further liability under the bond or irrevocable letter of credit to the extent of the payment.

2. When appointed as receiver under this chapter the department is authorized to give notice in the manner specified by the court to persons holding warehouse receipts or other evidence of deposit issued by the licensee to file their claims within one hundred twenty days after the date of appointment. Failure to timely file a claim shall defeat the claim with respect to the issuer of a deficiency bond or of an irrevocable letter of credit, grain depositors and sellers indemnity fund created in chapter 203D, and any commodities or proceeds from the sale of commodities, except to the extent of any excess commodities or proceeds of sale remaining after all timely claims are paid in full.

3. When the court approves the sale of commodities, the department shall employ a merchandiser to effect the sale of those commodities. A person employed or appointed as a merchandiser is deemed to be an employee of the state as defined in section 669.2 and chapter 669 is applicable to any claim as defined in section 669.2 against the person acting as a merchandiser. A person employed as a merchandiser must meet the following requirements:

a. The person shall be experienced or knowledgeable in the operation of warehouses

licensed under this chapter; and if the person has ever held a license issued under this chapter, the person shall never have had that license suspended or revoked.

b. The person shall be experienced or knowledgeable in the marketing of agricultural products.

c. The person shall not be the holder of a warehouse receipt or scale weight ticket issued by the licensee, and shall not have a claim against the licensee whether as a secured or unsecured creditor, and otherwise shall not have any pecuniary interest in the licensee or the licensee's business. The merchandiser shall be entitled to reasonable compensation as determined by the department, payable out of funds appropriated for operating expenses of the department. A sale of commodities shall be made in a commercially reasonable manner and under the supervision of the warehouse bureau of the department. The department shall provide for the payment out of appropriations to the department of all expenses incurred in handling and disposing of commodities. The department shall have authority to sell the commodities, any provision of chapter 554 to the contrary notwithstanding, and any commodities so sold shall be free of all liens and other encumbrances.

4. The plan of disposition, as approved by the court, shall provide for the distribution of the stored commodities, or the proceeds from the sale of commodities, or the proceeds from any insurance policy, deficiency bond, or irrevocable letter of credit, less expenses incurred by the department in connection with the receivership, to depositors as their interests are determined. Distribution shall be without regard to any setoff, counterclaim, or storage lien or charge.

5. The department may, with the approval of the court, continue the operation of all or any part of the business of the licensee on a temporary basis and take any other course of action or procedure which will serve the interests of the depositors.

6. The department is entitled to reimbursement out of commodities or proceeds held in receivership for all expenses incurred as court costs or in handling and disposing of stored commodities, and for all other costs directly attributable to the receivership. The right of reimbursement of the department is prior to any claims against the commodities or proceeds of sales of commodities, and constitutes a claim against a deficiency bond or irrevocable letter of credit.

7. If the approved plan of disposition requires a distribution of cash proceeds, the department shall submit to the court a proposed plan of distribution of those proceeds. Upon notice and hearing as required by the court, the court shall accept or modify the proposed plan. When the plan is approved by the court and executed by the department, the department shall be discharged and the receivership terminated.

8. At the termination of the receivership the department shall file a final report containing the details of its actions, together with such additional information as the court may require.

203C.5 Rules — documents and forms.

1. The department shall adopt rules as it deems necessary for the efficient administration of this chapter, and may designate an employee or officer of the department to act for the department in any details connected with administration, including the issuance of licenses and approval of deficiency bonds or irrevocable letters of credit in the name of the department, but not including matters requiring a public hearing or suspension or revocation of licenses.

2. a. The department may adopt rules specifying the form, content, and use of documents issued by a warehouse operator under this chapter including but not limited to scale tickets, warehouse receipts, settlement sheets, and daily position records. The department may adopt rules for both printed and electronic documents, including rules for the transmission, receipt, authentication, and archiving of electronically generated or stored documents.

b. All scale ticket forms and warehouse receipt forms in the possession of a warehouse operator shall have been permanently and consecutively numbered at the time of printing. A

warehouse operator shall maintain an accurate record of the numbers of these documents. The record shall include the disposition of each form, whether issued, destroyed, or otherwise disposed of. The department may by rule require this use of prenumbered forms and recording for documents other than scale tickets and warehouse receipts.

203C.6 Issuance of license and financial responsibility.

1. The department, upon application to it, may issue to a warehouse operator or to a person about to become a warehouse operator a license for the operation of a warehouse in accordance with this chapter and the rules adopted by the department under section 203C.5. A single license to operate two or more warehouses located anywhere within the state may be issued.

2. The type of license required shall be determined as follows:

a. A class 1 license is required if the storage capacity of a warehouse is more than one hundred thousand bushels.

b. A class 2 license is required for a warehouse that is not required to have a class 1 license.

3. An application for a warehouse license shall be accompanied by a complete financial statement of the applicant setting forth the assets, liabilities and net worth of the applicant. The financial statement must be prepared according to generally accepted accounting principles. Assets shall be shown at original cost less depreciation. Upon written request, the department may allow asset valuations in accordance with a competent appraisal. Unpriced contracts shall be shown as a liability and valued at the applicable current market price of grain as of the date the financial statement is prepared.

4. In order to receive and retain a class 1 license, the following conditions must be satisfied:

a. The warehouse operator shall have and maintain a net worth of at least twenty-five cents per bushel of warehouse capacity, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be licensed as a class 1 warehouse operator if the person has a net worth of less than twenty-five thousand dollars.

b. The warehouse operator shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a warehouse operator submit more than one such unqualified opinion per year. The warehouse operator may elect, however, to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A warehouse operator shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the warehouse operator's financial status or compliance with this subsection.

5. In order to receive and maintain a class 2 license, the following conditions must be satisfied:

a. The warehouse operator shall have and maintain a net worth of at least twenty-five cents per bushel of warehouse capacity, or maintain a deficiency bond or an irrevocable letter

of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be licensed as a class 2 warehouse operator if the person has a net worth of less than ten thousand dollars.

b. The warehouse operator shall submit, as required by the department, a financial statement that is accompanied by an unqualified opinion based upon an audit performed by a certified public accountant licensed in this state. However, the department may accept a qualification in an opinion that is unavoidable by any audit procedure that is permitted under generally accepted accounting principles. An opinion that is qualified because of a limited audit procedure or because the scope of an audit is limited shall not be accepted by the department. The department shall not require that a warehouse operator submit more than one such unqualified opinion per year. The warehouse operator may elect, however, to submit a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by the certified public accountant in lieu of the audited financial statement specified in this paragraph. However, at any time the department may require a financial statement that is accompanied by the report of a certified public accountant licensed in this state that is based upon a review performed by a certified public accountant if the department has good cause. A warehouse operator shall submit financial statements to the department in addition to those required in this paragraph if the department determines that it is necessary to verify the warehouse operator's financial status or compliance with this subsection.

6. The department may adopt rules governing the timing and form of financial statements to be submitted to it. The department may require additional information or verification with respect to the financial resources of the applicant or licensee and the applicant's or licensee's ability to maintain the quantity and quality of stored grain.

7. The department may deny a license to an applicant if the applicant has had a license issued under chapter 203 or this chapter revoked within the past three years, the applicant has been convicted of a felony involving violations of chapter 203 or this chapter, or the applicant is owned or controlled by a person who has had a license so revoked or who has been so convicted.

8. The department may deny a license to an applicant if any of the following apply:

a. The applicant has caused liability to the Iowa grain depositors and sellers indemnity fund through operations under a license issued under this chapter or chapter 203, and the liability has not been discharged, settled, or satisfied.

b. The applicant is owned or controlled by a person who has caused liability to the fund through operations under a license issued under this chapter or chapter 203, and the liability has not been discharged, settled, or satisfied.

9. A deficiency bond or irrevocable letter of credit filed with the department pursuant to this section shall not be canceled by the issuer on less than one hundred twenty days' notice by certified mail to the department and the principal.

Each license issued to a warehouse operator for the operation of two or more warehouses shall specify with respect to each warehouse the type or types and quantities of agricultural product which may be stored in such warehouse. 203C.11 Suspension or revocation for insufficient evidence of financial responsibility — notice.

1. The department shall proceed under section 203C.15 if it has cause to believe that a licensed warehouse operator does not provide for and carry an insurance policy as required in that section.

2. If the department determines that the net worth of a licensed warehouse operator is not in compliance with the requirements of section 203C.6, the department shall issue a notice to the warehouse operator and shall suspend the warehouse operator's license if the warehouse operator does not provide evidence of compliance within thirty days of the issuance of the notice. The department shall inspect the warehouse at the end of the thirty-day period. If evidence of compliance is not provided within sixty days of the issuance of the notice, the department shall revoke the warehouse operator's license, and shall again inspect the warehouse. If a new deficiency bond or irrevocable letter of credit is not received by the department within thirty days following suspension, the warehouse operator's license shall be revoked. When a license is revoked, the department shall notify each holder of an outstanding warehouse receipt and all known persons who have grain retained in open storage of the revocation, and shall further notify each receipt holder and all known persons who have grain retained in open storage that the grain must be removed from the warehouse not later than the thirtieth day following revocation. 203C.12A Lien on warehouse operator assets.

1. A statutory lien is imposed on all warehouse operator assets in favor of depositors possessing warehouse receipts covering grain stored by the warehouse operator and depositors with written evidence of ownership other than warehouse receipts disclosing a storage obligation of a warehouse operator.

2. “Warehouse operator assets” includes proceeds received or due a warehouse operator upon the sale, including exchange, collection, or other disposition, of grain sold by the warehouse operator. As used in this section, “proceeds” means noncash and cash proceeds as defined in section 554.9102. “Warehouse operator assets” also includes storage payments received or due to a warehouse operator, grain owned by the warehouse operator, and any other funds or property of the warehouse operator which can be directly traced as being from the sale of grain by the warehouse operator, or which were utilized in the business operation of the warehouse operator. A court, upon petition by an affected party, may order that claimed warehouse operator assets are not warehouse operator assets as defined in this section. The burden of proof shall be upon the petitioner to establish that the assets are not warehouse operator assets as defined in this section.

3. The lien shall arise at the commencement of the storage obligation, and shall terminate when the liability of the warehouse operator to the depositor has been discharged. The lien of all depositors is hereby assigned to the Iowa grain indemnity fund board, on behalf of the grain depositors and sellers indemnity fund.

4. To perfect the lien, the Iowa grain indemnity fund board must file a lien statement with the office of the secretary of state. The lien statement is valid only if filed on or after the date of suspension but not later than sixty days after the incurrence date as provided in section 203D.6. The lien statement shall disclose the name of the warehouse operator, the address of the warehouse operator’s principal place of business, a description of identifiable warehouse operator assets, and the amount of the lien. The lien amount shall be the board’s estimate of the final cost of reimbursing the grain depositors and sellers indemnity fund for the payment of claims made against the fund resulting from the breach of the warehouse operator’s obligations. The board shall correct the amount not later than one hundred eighty days following the incurrence date. A court, upon petition by an affected person, may correct the amount. The board shall have the burden of proving that the amount is an accurate estimate.

5. The Iowa grain indemnity fund board shall upon written demand of the warehouse operator file a termination statement with the secretary of state, if after one hundred eighty days from the date that the lien is perfected the warehouse operator’s license has not ceased by revocation, cancellation, or expiration. Upon filing the termination statement, the lien becomes unperfected. The board shall also deliver a copy of the termination statement to the warehouse operator.

6. The secretary of state shall note the filing of a lien statement under this section in a manner provided by chapter 554, the uniform commercial code. The secretary shall note the filing of a termination statement with the lien statement.

7. A lien statement filed under this section shall be a security interest perfected under chapter 554 and subject to the same priority as provided under section 554.9322.

8. In the event the department is appointed as a receiver under section 203C.3, assets

under the authority of the receiver are free from this statutory lien. However, if there are receivership assets in excess of those necessary to fully reimburse depositors, the perfected lien will attach to those excess assets.

9. a. The Iowa grain indemnity fund board may enforce the lien in the manner provided in chapter 554, article 9, part 6, for the enforcement of security interests. If, upon enforcement of the lien, the lien amount is satisfied in full without exhaustion of the warehouse operator assets, the remaining assets shall be returned to the warehouse operator or, if there are competing claims to those remaining assets by other creditors, those assets shall be placed in the custody of the district court and the known creditors impleaded.

b. For purposes of enforcement of the lien, the board is deemed to be the secured party and the warehouse operator is deemed to be the debtor, and each has the respective rights and duties of a secured party and a debtor as provided in chapter 554, article 9, part 6. If a right or duty under chapter 554, article 9, part 6, is contingent upon the existence of express language in a security agreement, or may be waived by express language in a security agreement, the requisite language is deemed not to exist for purposes of enforcement of the lien created by this section.

10. Actions relating to this section shall be brought in the district court in the county in which the warehouse operator's primary place of business is located or in Polk county.

203C.13 Form and amount of evidence of financial responsibility.

1. A warehouse operator who stores only agricultural products other than bulk grain shall have and maintain a net worth of at least ten percent of the value of the warehouse capacity, or maintain a deficiency bond or an irrevocable letter of credit in the amount of two thousand dollars for each one thousand dollars or fraction thereof of net worth deficiency. However, a person shall not be eligible for a license to store only agricultural products other than bulk grain if the person has a net worth of less than ten thousand dollars.

2. If the agricultural product or products intended to be stored by the warehouse operator, as specified in the application for a license or amended license, are other than bulk grain, the quantity of such product intended to be stored shall be valued at the fair market price on the date of filing the application, and the minimum amount of bond shall be determined with reference to such value as follows:

a. For intended storage of such products of a value less than twenty thousand dollars the minimum amount of the bond shall be three thousand dollars, plus one thousand dollars for each two thousand dollars, or fraction thereof, of value in excess of six thousand dollars up to twenty thousand dollars.

b. For intended storage of such products of a value not less than twenty thousand dollars and not more than fifty thousand dollars the minimum amount of the bond shall be ten thousand dollars plus one thousand dollars for each three thousand dollars, or fraction thereof, of value in excess of twenty thousand dollars up to fifty thousand dollars.

c. For intended storage of such products of a value not less than fifty thousand dollars the minimum amount of the bond shall be twenty thousand dollars plus one thousand dollars for each five thousand dollars, or fraction thereof, of value in excess of fifty thousand dollars.

3. A bond, deficiency bond, or irrevocable letter of credit on agricultural products other than bulk grain shall not be canceled by the issuer on less than one hundred twenty days' notice by certified mail to the department and the principal. When the department receives notice from an issuer that it has canceled the bond, deficiency bond, or irrevocable letter of credit on agricultural products other than bulk grain of a warehouse operator, the department shall suspend the warehouse operator's authorization to store or accept for storage agricultural products other than bulk grain if a new bond, deficiency bond, or irrevocable letter of credit is not received by the department within sixty days of the issuance of the notice of cancellation. The department shall conduct an inspection of the licensee's warehouse immediately at the end of the sixty-day period. If a new bond, deficiency bond, or irrevocable letter of credit is not provided within ninety days of the issuance of the notice

of cancellation, the department shall revoke the warehouse operator's authorization to store or accept for storage agricultural products other than bulk grain. The department shall conduct a further inspection of the licensee's warehouse after the ninety-day period. When an authorization to store or accept for storage agricultural products other than bulk grain is revoked, the department shall give notice of the revocation to all known persons who have agricultural products other than bulk grain in storage, and shall notify them that the agricultural products other than bulk grain must be removed from the warehouse not later than one hundred twenty days after the issuance of the notice of cancellation. The revocation notice shall be sent by ordinary mail to the last known address of each person having agricultural products other than bulk grain in storage. The department shall cause a final inspection of the licensee's warehouse after the end of the one hundred twenty-day period.

203C.14 Suit — claims — notice of revocation.

1. A person injured by the breach of an obligation of a warehouse operator, for the performance of which a bond on agricultural products other than bulk grain, a deficiency bond, or an irrevocable letter of credit has been given under any of the provisions of this chapter, may sue on the bond on agricultural products other than bulk grain, deficiency bond, or irrevocable letter of credit in the person's own name in a court of competent jurisdiction to recover any damages the person has sustained by reason of the breach.

2. a. Upon the cessation of a warehouse operator's license due to revocation, cancellation, or expiration, a claim against the warehouse operator arising under this chapter shall be made in writing with the warehouse operator, with the issuer of a bond on agricultural products other than bulk grain, a deficiency bond, or an irrevocable letter of credit, and, if the claim relates to bulk grain, with the department. The claim must be made within one hundred twenty days after the cessation of the license. The failure to make a timely claim relieves the issuer and, if the claim relates to bulk grain, the grain depositors and sellers indemnity fund provided in chapter 203D of all obligations to the claimant.

b. Upon revocation of a warehouse license, the department shall cause notice of the revocation to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location and in a newspaper of general circulation within the state. The notice shall state the name and address of the warehouse operator and the effective date of revocation. The notice shall also state that any claims against the warehouse operator shall be made in writing and sent by ordinary mail to the warehouse operator, to the issuer of a bond on agricultural products other than bulk grain, deficiency bond, or an irrevocable letter of credit, and to the department within one hundred twenty days after revocation, and the notice shall state that the failure to make a timely claim does not relieve the warehouse operator from liability to the claimant.

c. This subsection does not apply if a receiver is appointed as provided in this chapter pursuant to a petition which is filed by the department prior to the expiration of one hundred twenty days after cessation of warehouse operator's license.

203C.15 Insurance required — exception.

1. A warehouse operator shall maintain insurance coverage as provided in this section.

In order to maintain insurance coverage, all agricultural products in storage in a licensed warehouse and all agricultural products which have been deposited temporarily in a licensed warehouse pending storage or for purposes other than storage, shall be kept fully insured by the warehouse operator as provided in this section for the current value of the agricultural products against loss by fire, inherent explosion, windstorm, or any other similar catastrophe designated by rules which may be adopted by the department.

2. The insurance coverage required in subsection 1 shall be carried by one or more insurance companies. Such an insurance company must be all of the following:

a. Organized or operating under the laws of this state or authorized by the laws of this state to do business in this state.

b. An insurer of agricultural products in this state as provided in subsection 1.

3. Insurance coverage may be terminated by its expiration without renewal, or canceled by the insurance company on its own volition or as a result of an action or inaction by the insured licensed warehouse operator.

4. A licensed warehouse operator shall be responsible for providing the department with all of the following:

a. Evidence of insurance coverage as required in subsection 2 that is an insurance policy or other document approved by the department which evidences property and casualty insurance.

b. Proof of insurance which verifies that evidence of insurance coverage submitted by a licensed warehouse operator complies with subsection 1.

5. A warehouse operator must submit evidence of insurance coverage with the department as required by the department. The department must approve the evidence of insurance coverage before the department files it. A warehouse operator shall not be issued a license or retain a license unless evidence of insurance coverage is on file with the department.

6. The department may demand proof of insurance coverage by the licensed warehouse operator, regardless of whether the department has previously approved proof of insurance or approved or filed evidence of insurance coverage. The demand must be in writing and must explain the department's enforcement action resulting from the warehouse operator's noncompliance.

a. The licensed warehouse operator may comply with the demand by doing any of the following:

(1) Assuring the department that existing evidence of insurance coverage filed with the department complies with the requirements of this section.

(2) Obtaining additional or new insurance coverage. The licensed warehouse operator must submit and the department must approve and file the supplemental or new evidence of insurance coverage necessary to comply with the requirements of this section.

b. If the licensed warehouse operator fails to comply with the requirements of the demand letter as set out in paragraph "a", the department shall take enforcement action as follows:

(1) Thirty days after delivering the demand letter to the licensed warehouse operator, the department shall suspend the warehouse license.

(2) Forty days after delivering the demand letter to the licensed warehouse operator, the department shall revoke the warehouse license.

c. The department may inspect a licensed warehouse at any time.

d. The department shall terminate an enforcement action as provided in paragraph "b", if the licensed warehouse operator submits any proof of insurance or supplemental or new evidence of insurance which the department approves. However, this paragraph "d" applies only if the licensed warehouse operator submits the proof of insurance or evidence of insurance prior to the effective date of the revocation.

7. An insurance company shall not cancel insurance coverage unless any of the following applies:

a. The insurance company provides the department and the licensed warehouse operator with at least ninety days' notice of cancellation by mail.

b. The insurance coverage is renewed or replaced by the licensed warehouse operator, and the department has approved and filed the evidence of insurance coverage at the time that the department would have received the mailed notice of cancellation.

8. The department shall take enforcement action against a licensed warehouse whose insurance coverage has been terminated by cancellation or expiration.

a. The department shall suspend the warehouse license. The suspension shall take effect on the date that the insurance coverage terminates. However, the department shall terminate the suspension if the licensed warehouse operator submits proof of insurance or any renewed or new evidence of insurance coverage to the department. In addition, all of the following requirements apply:

(1) The department must receive the proof of insurance or evidence of insurance coverage within ten days after the effective date of the suspension.

(2) The department must approve the proof of insurance or evidence of insurance coverage.

b. The department shall revoke the warehouse license. The revocation shall take effect eleven days after the effective date of the suspension, unless the suspension is terminated as provided in paragraph "a".

9. When a license is revoked, the department shall notify each holder of an outstanding warehouse receipt and all known persons who have grain retained in open storage of the revocation. The department shall further notify each receipt holder and all known persons who have grain retained in open storage that the grain must be removed from the warehouse not later than the thirtieth day following the revocation. The notice shall be sent by ordinary mail to the last known address of each person having grain in storage as provided in this subsection.

10. Claimants against the insurance have precedence in the following order:

a. Holders of warehouse receipts other than the warehouse operator and owners of bulk grain other than the warehouse operator.

b. Owners of all other agricultural products as their interests appear.

c. Warehouse operators who have warehouse receipts.

d. Warehouse operators who are the owners of bulk grain.

11. However, notwithstanding the insurance requirements set forth in this section, a licensed warehouse may exclude from the insurance coverage stored grain to which title is fully vested in the United States government or any of its subdivisions or agencies, provided that the licensed warehouse has on file with the United States government or any of its subdivisions or agencies a current and accepted uninsured storage rate under the provisions of their uniform grain storage agreement. The licensed warehouse shall file a copy of the current uninsured tariff rate with the department immediately upon acceptance of the uninsured rate by the United States government or any of its subdivisions or agencies.

1. The acceptance and storage of bulk grain by a person bonded and licensed under the United States Warehouse Act.

2. The storage of bulk grain by a person who owns all the stored bulk grain.

3. a. The storage of bulk grain by more than one person, if all of the following apply:

(1) The bulk grain was jointly produced by all persons storing the grain.

(2) The bulk grain is stored on the property owned or leased by one of the persons jointly producing the grain.

(3) No person other than persons jointly producing the grain owns the stored bulk grain.

b. As used in this subsection, “jointly produced” includes but is not limited to grain owned by a landlord who receives a share of agricultural products as rent.

203C.17 Receiving bulk grain at licensed and unlicensed warehouses.

1. Any grain which has been received at any licensed warehouse for which the actual sale price is not fixed and proper documentation made or payment made shall be construed to be grain held for storage within the meaning of this chapter. Grain may be held in open storage or placed on warehouse receipt. A warehouse receipt shall be issued for all grain held in open storage within one year from the date of delivery to the warehouse, unless the depositor has signed a statement that the depositor does not desire a warehouse receipt. A warehouse receipt shall be issued upon request by the depositor. The warehouse operator’s tariff shall apply for any grain that is retained in open storage or under warehouse receipt.

2. Bulk grain deposited with a licensed warehouse operator for processing, cleaning, drying, shipping for the account of the depositor or any other purpose shall be removed within thirty days or such grain shall be determined as stored grain and the warehouse operator’s tariff charges shall apply.

3. Grain received on a scale ticket which fails to have the price fixed and properly documented on the records of the warehouse operator shall be construed to be in open storage.

4. All bulk grain whether open storage or having been placed on warehouse receipt is covered by the grain depositors and sellers indemnity fund created in chapter 203D.

5. Any grain which has been received at any unlicensed warehouse and for which the actual sale price has not been fixed and payment made within thirty days from receipt of the grain, unless covered by a credit-sale contract, shall be construed to be unlawful storage within the meaning of this chapter. Bulk grain received at any unlicensed warehouse for any other purpose must either be returned to the depositor or disposed of by order of the depositor within thirty days from date of actual deposit of the bulk grain.

6. If the depositor of bulk grain in an unlicensed warehouse fails to sell the grain or orders other disposition of the grain, the warehouse operator may purchase the grain, if otherwise allowed by law, on the thirtieth day after deposit at not less than the local market price at the close of business on the thirtieth day or return the grain to the depositor by the thirtieth day.

7. A licensed warehouse operator who does not have a sufficient quantity or quality of grain to satisfy the warehouse operator’s obligations based on an examination by the department shall not purchase grain on credit-sale contract to correct the shortage of grain. A licensed warehouse operator shall not issue a warehouse receipt for purposes of providing collateral, if the grain which is the subject of the warehouse receipt was purchased by credit-sale contract and is unpaid for by the warehouse operator.

8. a. At least once each year, a licensed warehouse operator shall send a statement to each holder of a warehouse receipt covering grain stored at the licensed warehouse operator’s licensed warehouse for more than one year. The statement shall be delivered in person or mailed to the holder’s last known address. The statement shall show the amount of all grain stored pursuant to a warehouse receipt for such warehouse receipt holder and the amount of any storage charges held by the licensed warehouse operator against that grain.

b. The failure to prepare a statement required by this subsection is a simple misdemeanor.

c. A violation of this section shall not constitute grounds for the suspension or revocation of a warehouse operator’s license.

203C.18 Warehouse receipts — issuance, printing, and electronic filing.

1. For all agricultural products that become storage in a licensed warehouse, warehouse receipts signed by the licensed warehouse operator or the operator's authorized agent shall be issued by the licensed warehouse operator. Such warehouse receipts shall be in the form required or permitted by uniform commercial code, sections 554.7202 and 554.7204, provided, however, that each receipt issued for agricultural products, in addition to the matters specified in uniform commercial code, section 554.7202, shall embody in its written or printed terms:

a. The receiving and loadout charges which will be made by the warehouse operator.

b. The grade or other class of the agricultural products received and the standard or description in accordance with which such classification has been made; provided that such grade or other class shall be stated according to the official standard of the United States applicable to such agricultural products as the same may be fixed and promulgated; provided, further, that until such official standards of the United States for any agricultural product or products have been fixed and promulgated, the grade or other class thereof may be stated in accordance with any recognized standard or in accordance with such rules and regulations not inconsistent herewith as may be prescribed by the secretary of agriculture of the United States.

c. A statement that the receipt is issued subject to this chapter.

d. Such other terms and conditions as may be required by rules of the department.

2. Warehouses that are not licensed pursuant to this chapter or by the United States government shall not issue warehouse receipts for agricultural products.

3. A form for a warehouse receipt shall only be printed by a person approved by the department. A form for a warehouse receipt shall be printed in accordance with specifications set forth by the department. A warehouse operator shall surrender to the department all forms for warehouse receipts that are unused at the time that the warehouse operator's license is suspended or ceases due to revocation, cancellation, or expiration. The warehouse operator shall surrender the warehouse receipts in a manner required by the department.

4. The department may adopt rules to allow for the issuance of electronic warehouse receipts by a provider who is a person approved by the department to maintain a secure electronic central filing system of electronic records including warehouse receipts and who is independent of an outside influence or bias in action or appearance.

203C.25 Shrinkage adjustments — disclosures — penalties.

1. A person who, in connection with the receipt of corn or soybeans for storage, processing, or sale, adjusts the scale weight of the grain to compensate for the moisture content of the grain shall compute the amount of the adjustment by multiplying the scale

weight of the grain by that factor which results in a rate of adjustment of one and eighteen hundredths percent of weight per one percent of moisture content. The use of any rate of weight adjustment for moisture content other than the one prescribed by this subsection is a fraudulent practice. The person shall post on the business premises in a conspicuous place notice of the rate of adjustment for moisture content that is prescribed by this subsection. Failure to make this disclosure is a simple misdemeanor.

2. A person who, in connection with the receipt of grain for storage, processing or sale, adjusts the quantity of the grain received to compensate for losses to be incurred during the handling, processing, or storage of the grain shall post on the business premises in a conspicuous place notice of the rate of adjustment to be made for this shrinkage. Failure to make the required disclosure is a simple misdemeanor.

3. A person who adjusts the scale weight of corn or soybeans both for moisture content and for handling, processing, or storage losses may combine the two adjustment factors into a single factor and may use this resulting factor to compute the amount of weight adjustment in connection with storage, processing, or sale transactions, provided that the person shall post on the business premises in a conspicuous place a notice that discloses the moisture shrinkage factor prescribed by subsection 1, the handling shrinkage factor to be imposed, and the single factor that results from combining these factors. 1. A warehouse operator shall, at the time of application for a license, file a tariff with the department which shall contain rates to be charged for receiving, storage, and load-out of grain. The tariff shall be posted in a conspicuous place at the place of business of the licensee in a form prescribed by the department and shall become effective at the time the license becomes effective.

2. Storage charges shall commence on the date of delivery to the warehouse. Storage, receiving, or load-out charges other than those specified in the tariff may be made if the charge is required by the terms of a written contract with the United States government or any of its subdivisions or agencies.

3. Grain deposited with the warehouse for the sole purpose of processing and redelivery to the depositor is subject only to the charges listed under the grain bank section of the tariff. Drying and cleaning of grain shall not be construed as processing.

4. A tariff may be amended at any time and is effective immediately, except that grain in store on the effective date of a storage charge increase does not assume the increased rate until the subsequent anniversary date of deposit. Any decrease in storage rates shall be effective immediately and shall be applicable to all grain in store on the effective date of the decrease.

5. A warehouse operator may file with the department and publish the supplemental tariff applicable only to grain meeting special descriptive standards or characteristics as set forth in the supplemental tariff. A supplemental tariff shall be in a form prescribed by the department and be posted adjacent to the warehouse tariff.

(1) If the total storage capacity is one hundred thousand bushels or less, the fee is fifty-eight dollars.

(2) If the total storage capacity is more than one hundred thousand bushels, but not more than seven hundred fifty thousand bushels, the fee is one hundred twenty-five dollars.

203C.40 Prioritization of inspections of warehouse operators.

The department shall develop a system to prioritize the inspections of warehouse operators provided in section 203C.2. The system of prioritization shall be computed each year based on the risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the warehouse operator. The department shall compute the risk by utilizing an available statistical model to measure the financial condition of warehouse operators. Procedures for utilizing the statistical model shall be adopted by department rules. The statistical model shall be used to provide risk ratings. A risk rating shall be used as a factor by the department to prioritize its inspection schedule. The department may inspect a warehouse operator at any time based on a risk of loss to the fund according to the risk rating. A substantial risk of loss to the grain depositors and sellers indemnity fund caused by the possible insolvency of the warehouse operator based on the statistical model shall be good cause.

2. The fund consists of all of the following:

a. Participation fees paid to the department by licensed grain dealers and persons applying to be issued a grain dealer’s license as provided in section 203D.3A.

b. Participation fees paid to the department by licensed warehouse operators and persons applying to be issued a warehouse operator’s license as provided in section 203D.3A.

203D.3A Fees.

The department shall collect fees as provided in this section, if established by the board pursuant to section 203D.5, at rates determined by the board as provided in that section. A person required to pay a fee shall use forms and deliver the payment to the department as required by the department.

1. a. A person who applies for the issuance of a new license as a grain dealer pursuant to

section 203.5 or a warehouse operator pursuant to sections 203C.7 and 203C.33 shall pay the department an initial participation fee as part of the application.

(1) In calculating the amount of the initial participation fee, an applicant for a license shall be deemed a licensee paying the full amount of the participation fee owing on the licensee's first anniversary date as provided in paragraph "b". The department must be satisfied that the applicant is calculating the amount due in good faith and using the best information available.

(2) If the department issues the license, the licensee shall recalculate the participation fee when making a payment on the licensee's first installment date as provided in paragraph "b". The licensee may notify the department of any overpayment and shall notify the department of any underpayment by the licensee's first installment date in a manner and according to procedures required by the department. The department shall refund any overpayment to the licensee and the licensee shall pay any additional amount resulting from an underpayment.

b. A licensee shall pay a participation fee on four successive installment dates, with each installment date occurring on the last date of the fund's fiscal quarter as provided in section 203D.3. The licensee shall pay twenty-five percent of the total participation fee assessed on each installment date. However, nothing in this subsection prevents a licensee from paying the participation fee on an accelerated basis. A licensee shall pay the first installment on the last date of the fund's fiscal quarter immediately following the licensee's anniversary date.

(1) For a licensed grain dealer, the anniversary date is the last date to apply for the renewal of the grain dealer's license before the license expires as provided in section 203.5.

(2) For a licensed warehouse operator, the anniversary date is the last date to apply for the renewal of the warehouse operator's license before the license expires as provided in section 203C.37.

c. A licensee is delinquent if the licensee fails to submit the payment when due or if, upon examination, an underpayment of the fee is found by the department.

d. A licensee shall not pass on the cost of a participation fee to sellers. The department may suspend or revoke the license of a grain dealer for passing on the cost, as provided in chapter 203.

2. a. A per-bushel fee shall be assessed on all purchased grain.

b. The grain dealer shall forward the per-bushel fee to the department on a quarterly basis in the manner and using the forms prescribed by the department. A licensee is delinquent if the licensee fails to submit the full fee or quarterly forms when due or if, upon examination, an underpayment of the fee is found by the department. The grain dealer is subject to a penalty of ten dollars for each day the grain dealer is delinquent or an amount equal to the amount of the deficiency, whichever is less. However, a licensee who fails to submit the full fee or quarterly forms when due, is subject to a minimum payment of ten dollars. The department may establish and apply a margin of error in determining whether a grain dealer is delinquent. The per-bushel fee shall be collected only once on each bushel of grain.

c. A grain dealer may choose to pass on the cost of a per-bushel fee to the sellers by an itemized discount noted on the settlement sheet. However, if the per-bushel fee is not in effect, no grain dealer shall make such a discount on the purchase of grain. A discount made nominally for the per-bushel fee while the fee is not in effect is grounds for license suspension or revocation under chapter 203.

203D.4 Indemnity fund board.

1. The Iowa grain indemnity fund board is established to advise the department on matters relating to the fund and to perform the duties provided in this chapter. The board is composed of the secretary of agriculture or a designee who shall serve as president; the state treasurer or a designee who shall serve as treasurer; a representative of the banking industry appointed by the governor, who shall be selected from a list of three nominations made by the secretary of agriculture; and four representatives of the grain industry appointed by the governor, subject to confirmation by the senate, two of whom shall be representatives of producers and who shall be actively participating producers, and two of whom shall be representatives of licensed grain dealers and licensed warehouse operators and who shall

be actively participating licensed grain dealers and licensed warehouse operators, each of whom shall be selected from a list of three nominations made by the secretary of agriculture. The term of membership of the banking industry representative and the grain industry representatives is three years, and the representatives are eligible for reappointment. However, of the grain industry representatives, only actively participating producers, and grain dealers and warehouse operators are eligible for reappointment. The banking industry representative and the grain industry representatives are entitled to a per diem as specified in section 7E.6 for each day spent in the performance of the duties of the board, plus actual expenses incurred in the performance of those duties. Four members of the board constitute a quorum, and the affirmative vote of four members is necessary for any action taken by the board, except that a lesser number may adjourn a meeting. A vacancy in the membership of the board does not impair the rights of a quorum to exercise all the rights and perform all the duties of the board.

2. The duties of the board include the review and determination of claims, and the review and approval of administrative costs of the fund. To carry out these duties, the board has the power to adopt rules regarding its organization and procedures for determining claims. Further, the board shall approve rules proposed by the department for the administration of the per-bushel fee prior to their adoption by the department. The board may provide comment and advice to the department in regard to the department's administration of chapters 203 and 203C where the department's policies and rules may affect the exposure of the fund to liability. However, the board shall not become actively involved in a determination by the department as to whether disciplinary action is to be taken against a particular licensee. The board is not a forum for review or appeal in regard to any particular action taken by the department against a licensee.

3. The department through the grain warehouse bureau shall perform the administrative functions necessary for the operation of the board and the fund. Administrative costs approved by the board shall be paid from the fund. The rules of the department shall contain the rules of the board adopted for its organization and its procedures. The department shall adopt rules for the administration of the per-bushel fee upon the board's approval of the rules proposed by the department. The secretary of agriculture, as president of the board as well as head of the department of agriculture and land stewardship, shall administer the department so as to minimize the risk of loss to the fund while protecting interests of depositors and sellers of grain. Policies and rules for the administration of chapters 203 and 203C which, as determined by the secretary of agriculture, may affect the exposure of the fund, shall be presented to the board for comment prior to their adoption by the department. The department shall make reports to the board in regard to licensee investigations which may result in disciplinary action against a licensee and exposure of the fund. The reports may be discussed by the board in closed session pursuant to section 21.5, and are confidential. In making the report, the department shall make available to the board records of licensees which are otherwise confidential under section 22.7, 203.16, or 203C.24. However, a determination to take disciplinary action against a particular licensee shall be made exclusively by the department. A report to the board is not a prerequisite to disciplinary action against a licensee. Review of any action against a licensee, whether or not relating to the fund, shall be made exclusively through the department.

203D.5 Fees — imposition, adjustment, or waiver.

1. The board shall annually review the debits of and credits to the grain depositors and sellers indemnity fund created in section 203D.3 and shall determine whether to impose the participation fee and per-bushel fee as provided in section 203D.3A, make adjustments to

the fees effective on the previous July 1, or waive the fees as necessary to comply with this section. The board shall make the determination not later than May 1 of each year. The board shall impose the fees or adjust the fees effective on the previous July 1 in accordance with chapter 17A. The imposition or adjustment of the fees shall become effective as follows:

a. For the participation fee, on the following July 1. However, the licensee shall continue to pay the participation fee at the rate in effect on the prior July 1, until the licensee has paid the amount owing.

b. For a per-bushel fee, on the following July 1.

2. a. Except as provided in paragraph “b”, the rate of a participation fee owed by a licensee shall be calculated as follows:

(1) For a licensed grain dealer, not more than fourteen thousandths of a cent per bushel assessed on all purchased grain during the grain dealer’s last fiscal year at each location at which records are maintained for transactions of the grain dealer, as determined according to information submitted by the grain dealer to the department for the issuance or renewal of a license as provided in section 203.5.

(2) For a licensed warehouse operator, not more than fourteen thousandths of a cent per bushel of bulk grain storage capacity for each warehouse licensed pursuant to section 203C.8 or five hundred dollars, whichever is less. The participation fee shall be determined using information provided to the department by the warehouse operator applying for the issuance or renewal of a license as provided in sections 203C.7 and 203C.37.

b. A licensee shall pay a participation fee of at least fifty dollars.

3. The rate of the per-bushel fee shall not exceed one-quarter cent per bushel assessed on all purchased grain.

4. If on the last date of the fund’s fiscal year as provided in section 203D.3 the assets of the fund exceed eight million dollars, less any encumbered balances or pending or unsettled claims, all of the following apply:

a. The participation fee shall be waived and shall not be assessable or owing for the following fiscal year of the fund. However, the licensee shall continue to pay any owing participation fee that was in effect on the prior July 1.

b. The per-bushel fee shall be waived and shall not be assessable or owing.

5. The board shall reinstate the fees as provided in this section if the assets of the fund, less any unencumbered balances or pending or unsettled claims, are three million dollars or less.

203D.6 Claims against fund.

1. *Persons who may file claims.* A depositor or seller may file a claim with the department for indemnification of a loss from the grain depositors and sellers indemnity fund. A claim shall be filed in the manner prescribed by the board.

2. *Time of filing claim.*

a. As used in this subsection, an incurrence date is when either of the following occurs:

(1) The cessation of the license of the grain dealer as described in section 203.10 or warehouse operator as described in section 203C.10.

(2) The filing of a petition in bankruptcy by a licensed grain dealer or licensed warehouse operator.

b. To be timely, a claim must be filed within a claim period beginning on either incurrence date and ending one hundred twenty days after that incurrence date, regardless of whether a previous claim period has expired.

3. *Notice.* The department shall cause notice of the opening of the claim period to be published once each week for two consecutive weeks in a newspaper of general circulation in each of the counties in which the licensee maintains a business location and in a newspaper of general circulation within the state. The notice shall state the name and address of the licensee and the claim incurrence date. The notice shall also state that any claims against the fund on account of the licensee shall be sent by ordinary mail to the department within one hundred twenty days after the incurrence date, and that the failure to make a timely claim relieves the fund from liability to the claimant. This notice may be incorporated by the department with a notice required by section 203.12 or 203C.14.

4. *Determination of eligible claims.* The board shall determine a claim to be eligible for payment from the fund if the board finds all of the following:

a. That the claim was timely filed.

b. That the incurrence date was on or after May 15, 1986.

c. That the claimant qualifies as a depositor or seller.

d. That the claim derives from a covered transaction. For purposes of this paragraph, a claim derives from a covered transaction if the claimant is a seller who transferred title to the grain to a licensed grain dealer other than by credit-sale contract within six months of the incurrence date for a claim period as provided in subsection 2, or if the claimant is a depositor who delivered the grain to a licensed warehouse operator.

e. That there is adequate documentation to establish the existence of a claim and to determine the amount of the loss.

f. A claim has not been paid for the same loss.

5. *Value of loss — warehouse claims.* The board shall determine the dollar value of a claim incurred by a depositor holding a warehouse receipt or a scale weight ticket for grain that the depositor delivered for storage to the licensed warehouse operator. If the department has been appointed by the court as receiver of the grain assets of the warehouse operator, the value shall be presumed to be as stated in the plan of disposition approved by the court. If the warehouse operator has filed a petition in bankruptcy, the value shall be presumed to be based upon the fair market price, free-on-board from the site of the warehouse operator, being paid to producers for grain by the grain terminal operator nearest the warehouse operator on the date the petition was filed. If there is neither a department receivership nor a bankruptcy filing, the value shall be presumed to be based upon the fair market price, free-on-board from the site of the warehouse operator, being paid to producers for grain by the grain terminal operator nearest the warehouse operator on the date of license revocation or cancellation. If more than one date applies to a claim, the board may choose between the two. However, the board may accept an alternative valuation of a claim upon a showing of just cause by the depositor or department. All depositors filing claims under this section shall be bound by the value determined by the board. The value of the loss is the outstanding balance on the validated claim at time of payment from the fund.

6. *Value of loss — grain dealer claims.* The dollar value of a claim incurred by a seller who has sold grain or delivered grain for sale or exchange and who is a creditor of the licensed grain dealer for all or part of the value of the grain shall be based on the amount stated on the obligation on the date of the sale. If the sold grain was unpriced, the value of a claim shall be presumed to be based upon the fair market price, free-on-board from the site of the grain dealer, being paid to producers for grain by the grain terminal operator nearest the grain dealer on the date of the license revocation or cancellation or the filing of a petition in bankruptcy. If more than one date applies to a claim, the board may choose between the two. However, the board may accept an alternative valuation of a claim upon a showing of just cause by the seller or department. All sellers filing claims under this section shall be bound by the value determined by the board. The value of the loss is the outstanding balance on the validated claim at the time of payment from the fund.

7. *Procedure — appeal.* The board, through the department, shall provide for notice to each depositor and seller upon its determination of eligibility and value of loss. Within twenty days of the notice, the depositor or seller may request a hearing for the review of either determination. The request shall be made in the manner provided by the board. The hearing and any further appeal shall be conducted as a contested case subject to chapter 17A. A depositor or seller whose claim has been refused by the board may appeal the refusal to either the district court of Polk county or the district court of the county in which the depositor or seller resides.

8. *Payment of claims.* Upon a determination that the claim is eligible for payment, the board shall provide for payment of ninety percent of the loss, as determined under subsection 5, but not more than three hundred thousand dollars per claimant. If at any time the board determines that there are insufficient funds to make payment of all claims, the board may order that payment be deferred on specified claims. The department, upon the board's instruction, shall hold those claims for payment until the board determines that the fund again contains sufficient assets.

9. *Subrogation of fund.* In the event of payment of a loss under this section, the fund is subrogated to the extent of the amount of any payments to all rights, powers, privileges, and remedies of the depositor or seller against any person regarding the loss. The depositor or seller shall render all necessary assistance to aid the department and the board in securing the rights granted in this section. No action or claim initiated by a depositor or seller and pending at the time of payment from the fund shall be compromised or settled without the consent of the board.

10. *Time limitation on claims.*

a. A claim shall expire if five years after the board determines that the claim is eligible, the claimant has failed to do any of the following:

(1) Provide for the fund's subrogation or has failed to render all necessary assistance to aid the department and the board in securing the department's rights of subrogation as required in this section.

(2) Failed to provide necessary documentation or information required by the board in order to process the claim.

b. The fund shall not be liable for the payment of an expired claim.

204.8 Inspections and tests — harvest and transportation permit — certificate of analysis.

1. a. The department shall conduct an annual inspection of a licensee's crop site to determine if the crop produced at the site qualifies as hemp under this section. The annual inspection shall include obtaining a sample of plants that are part of the crop and providing for an official test of that sample. The inspection shall be conducted as provided in section 204.9.

b. A licensee shall deliver a notice to the department stating the expected harvest date for the crop produced at the licensee's crop site. The department must receive the notice at least thirty days prior to the expected harvest date. The department shall conduct the annual inspection of the site within thirty days prior to the actual harvest date.

c. The department shall provide the department of public safety any official test results that indicate a sample exceeds the maximum concentration of delta-9 tetrahydrocannabinol in excess of two percent on a dry weight basis.

d. A licensee shall not harvest any portion of a crop produced at the licensee's crop site unless the department has obtained a sample of plants to conduct a test as provided in this section and has issued the licensee a temporary harvest and transportation permit or certificate of analysis. The department may adopt rules that it determines necessary or desirable to administer and enforce the terms and conditions of a permit. The department shall have unrestricted access to a crop site subject to a permit. A licensee subject to a permit shall receive permission from the department prior to moving the hemp, shall not commingle the hemp, and shall not transfer the hemp to another person.

e. The department shall issue a verified copy of the temporary harvest and transportation permit or certificate of analysis to any other person upon request of the licensee. The permit or certificate shall be published by the department as an official form.

f. To the extent allowed by the federal hemp law, the certificate of analysis shall be proof that the harvested crop described on the form qualifies as hemp pursuant to the results of an official test.

g. A temporary harvest and transportation permit expires when the department issues the licensee a certificate of analysis. A permit or certificate of analysis terminates upon the issuance of an order of disposal of the licensee's crop as provided in section 204.10 or upon the revocation of the licensee's hemp license as provided in section 204.11.

2. The department may conduct official tests for additional varieties of hemp located on the same licensed crop site. The department may conduct additional inspections and tests upon the request of a licensee.

3. The official test shall be a composite test of the plants obtained by the department from a licensee's crop site during the annual inspection and shall be conducted by a laboratory designated by the department. The sample must have an acceptable delta-9 tetrahydrocannabinol concentration, resulting from a post decarboxylation analysis, that does not exceed three-tenths of one percent on a dry weight basis.

a. The laboratory shall report delta-9 tetrahydrocannabinol concentration on a dry weight basis that accounts for a measurement uncertainty associated with the result of a measurement. The measurement uncertainty shall characterize the dispersion of the values that could be reasonably attributed to the particular quantity subject to measurement. The acceptable delta-9 tetrahydrocannabinol concentration occurs when the application of the measurement uncertainty to the reported delta-9 tetrahydrocannabinol concentration on a dry weight basis produces a distribution or range that includes three-tenths of one percent or less.

b. The post decarboxylation value is the result of an analysis determined after the process of decarboxylation that determines the total potential delta-9 tetrahydrocannabinol content derived from the sum of the delta-9 tetrahydrocannabinol concentration and delta-9 tetrahydrocannabinolic acid content and reported on a dry weight basis. The post decarboxylation value may be determined by using a chromatographic technique using heat and gas chromatography, through which the tetrahydrocannabinolic acid content is converted from its acid form to its neutral form. The post decarboxylation value may also be calculated by using a high-performance liquid chromatograph technique, which keeps the tetrahydrocannabinolic acid intact and requires a conversion calculation of that tetrahydrocannabinolic acid to determine the total potential delta-9 tetrahydrocannabinol content in a given sample.

4. The department of public safety or a local law enforcement agency may conduct an inspection of a licensee's crop site in order to determine that the licensee is complying with the criminal provisions of this chapter as well as chapters 124 and 453B. The department of public safety or a local law enforcement agency may conduct a test of the plants obtained by that department or local law enforcement agency from the licensee's crop site during the inspection according to procedures adopted by the department of public safety.

The department, including an authorized inspector, employee, or agent of the department, may enter onto a crop site during reasonable hours to determine whether a licensee is acting in compliance with the requirements under this chapter. The department may also enter into any structure if all of the following apply:

(1) The structure is not a dwelling.

(2) The structure is located on or in close proximity to the licensee's crop site, and the use of such structure is directly related to the production of hemp, including but not limited to a barn, machine shed, greenhouse, or storage crib.

b. The department may require the licensee to furnish business records, including books, accounts, records, files, and any other documents in print or electronic media that the department deems relevant to an inquiry conducted under this chapter.

c. The department may request the department of public safety or a local law enforcement

agency accompany the department of agriculture and land stewardship when conducting an inspection.

2. *a.* The department of public safety or a local law enforcement agency may conduct an inspection of a licensee's crop site or enter into a structure located on or in close proximity to the crop site and may require a licensee to furnish business records, in the same manner and according to the same limitations as the department of agriculture and land stewardship pursuant to subsection 1.

b. The department of public safety or a local law enforcement agency may obtain a sample of plants that are part of the crop and provide for a test of that sample as provided in section 204.8. The department of public safety or a local law enforcement agency shall not impose, assess, or collect a fee for conducting an inspection or test under this section.

3. A person shall not prevent the department, the department of public safety, or a local law enforcement agency from administering and enforcing the provisions of this section by any means, including but not limited to any act, including a refusal to allow entry, misrepresentation, omission, or concealment of facts.

4. A licensee shall not harvest any portion of a crop produced at the licensee's crop site if the department, the department of public safety, or a local law enforcement agency has been prevented from accessing the site under this section.

204.10 Order of disposal.

1. If a crop that is produced at a licensee's crop site does not qualify as hemp according to an official test conducted pursuant to section 204.8, but has a maximum concentration not in excess of two percent delta-9 tetrahydrocannabinol on a dry weight basis, the department, in consultation with the department of public safety, shall order the disposal of the crop by destruction at the site or if necessary require the crop to be removed to another location for destruction.

2. The department may request assistance from the department of public safety or a local law enforcement agency as necessary to carry out the provisions of this section. The department upon request shall deliver any sample of the crop to the department of public safety or a local law enforcement agency.

3. The licensee shall pay the department for all actual and reasonable costs of the destruction of the crop. If the department assumes any amount of the costs, it may charge that amount to the licensee. If the licensee fails to reimburse any of that amount to the department, the department may report the amount to the county treasurer. The amount shall be placed upon the tax books, and collected with interest and penalties after due, in the same manner as other unpaid property taxes. The county shall reimburse the department within thirty days from the collection of the property taxes.

4. To the extent allowed by applicable federal law, the department may provide for the disposal of the mature stalks of the crop confiscated by the department for the licensee's on-farm use and at the licensee's expense.

204.15 Negligent violation — program.

1. a. The department may find that a licensee has negligently violated a provision of this chapter by doing any of the following:

(1) Completing an application for a license without providing a legal description of the crop site pursuant to section 204.4.

(2) Failing to renew a hemp license for an existing crop site or obtain a hemp license for a new crop site pursuant to section 204.4.

(3) Producing a crop on the licensee's crop site with a maximum concentration of delta-9 tetrahydrocannabinol that exceeds three-tenths of one percent according to the results of an official test of a sample obtained from the licensed crop site pursuant to an inspection conducted under section 204.8.

b. It is conclusively presumed that a licensee acted with a culpable mental state greater than negligence, if the department obtains a sample of a crop produced on the licensee's crop site and the official test results of the sample conducted pursuant to section 204.8 indicate a maximum concentration of delta-9 tetrahydrocannabinol in excess of two percent on a dry weight basis.

c. If the department determines a licensee violated this chapter with a culpable mental state greater than negligence, the department shall immediately report the licensee's violation to the department of public safety, the county attorney, and the attorney general, who shall take action as the facts and circumstances warrant. The department shall also report the licensee to the United States attorney general to the extent required by the federal hemp law.

a. A reasonable date, established by the department, for the licensee to correct each cause for the violation.

b. The filing of periodic reports to the department evidencing that the licensee is complying with the requirements of this chapter. The licensee shall submit the reports to the department according to a schedule required by the department. The licensee shall submit a report to the department for at least two years from the date that the licensee first participated in the program.

c. Any other requirement established by the department.

3. A licensee shall be ineligible to participate in the negligent violation program, if a test of a sample of plants that are part of a crop produced on the licensee's crop site exceeds a maximum concentration of two percent delta-9 tetrahydrocannabinol on a dry weight basis.

4. A person who has violated a provision of this chapter three times in a five-year period shall be ineligible to participate in the negligent violation program, or produce hemp, for a period of five years beginning on the date of the third violation.

5. The department shall certify that a licensee has successfully completed the negligent violation program. The certification shall be published by the department as an official form. The department shall deliver the certification to the licensee which shall be proof of the licensee's compliance.

6. A licensee who is participating in or has successfully completed the negligent violation program shall not be subject to any of the following:

a. A civil penalty under section 204.12 for committing a violation of this chapter.

b. A criminal offense under chapter 124 or 453B arising out of a negligent violation of this chapter, if the licensee would otherwise be guilty of producing, possessing, using, harvesting, handling, or distributing the plant cannabis pursuant to the results of a test conducted pursuant to section 204.8.

Every pesticide which is distributed, sold, or offered for sale for use within this state or delivered for transportation or transported in intrastate commerce between points within the state through any point outside this state shall be registered with the department of agriculture and land stewardship. All registration of products shall expire on the thirty-first day of December following date of issuance, unless such registration shall be renewed annually, in which event expiration date shall be extended for each year of renewal registration, or until otherwise terminated; provided that:

a. For the purpose of this chapter, fertilizers in mixed fertilizer-pesticide formulations shall be considered as inert ingredients.

b. Within the discretion of the secretary, or the secretary's authorized representative, a change in the labeling or formulae of a pesticide may be made within the current period of registration, without requiring a reregistration of the product, provided the name of the item is not changed.

In the case of renewal or reregistration, a statement may be required only with respect to information which is different from that furnished when the pesticide was registered or last reregistered.

3. The registrant, before selling or offering for sale any pesticide for use in this state, shall register each brand and grade of such pesticide with the secretary upon forms furnished by the secretary, and the secretary shall set the registration fee annually at one-fifth of one percent of gross sales within this state with a minimum fee of two hundred fifty dollars and a maximum fee of three thousand dollars for each and every brand and grade to be offered for sale in this state except as otherwise provided. The annual registration fee for products with gross annual sales in this state of less than one million five hundred thousand dollars shall be the greater of two hundred fifty dollars or one-fifth of one percent of the gross annual sales as established by affidavit of the registrant. The secretary shall adopt by rule exemptions to the minimum fee. Fifty dollars of each fee collected shall be deposited in the general fund of the state, shall be subject to the requirements of section 8.60, and shall be used only for the purpose of enforcing the provisions of this chapter and the remainder of each fee collected shall be placed in the agriculture management account of the groundwater protection fund.

4. The secretary, whenever the secretary deems it necessary in the administration of this chapter, may require the submission of the complete formula of any pesticide. If it appears to the secretary that the composition of the article is such as to warrant the proposed claims for it and if the article and its labeling and other material required to be submitted comply with the requirements of this chapter, the secretary shall register the article.

5. If it does not appear to the secretary that the article is such as to warrant the proposed claims for it or if the article and its labeling and other material required to be submitted do not comply with the provisions of this chapter, the secretary shall notify the registrant of

the manner in which the article, labeling, or other material required to be submitted fail to comply with this chapter so as to afford the registrant an opportunity to make the necessary corrections.

6. Notwithstanding any other provisions of this chapter, registration is not required in the case of a pesticide shipped from one plant within this state to another plant within this state operated by the same person.

7. *a.* Each licensee under section 206.8 shall file an annual report at the time of application for licensure with the secretary of agriculture in a form specified by the secretary of agriculture and which includes the following information:

A person who is subject to the household hazardous materials permit requirements, and whose gross annual retail sales of pesticides are less than ten thousand dollars for each business location owned or operated by the person, shall report annually, the individual label name of an individual pesticide for which annual gross retail sales are three thousand dollars or more. The information shall be submitted on a form provided to household hazardous materials permittees by the department of natural resources, and the department of natural resources shall remit the forms to the department of agriculture and land stewardship.

However, a person who manufactures feed which contains a pesticide as an integral part of the feed mixture shall be subject to the licensing requirements of section 206.8.

1. The department shall not issue a commercial applicator's license as required in section 206.6 until the applicant has furnished evidence of financial responsibility with the department. The evidence of financial responsibility shall consist of a surety bond, a liability insurance policy, or an irrevocable letter of credit issued by a financial institution. The department may accept a certification of the evidence of financial responsibility. The evidence of financial responsibility shall pay the amount that the beneficiary is legally obligated to pay as damages caused by the pesticide operations of the applicant. However, the evidence of financial responsibility does not apply to damages or an injury which is expected or intended from the standpoint of the beneficiary. A liability insurance policy shall be subject to the insurer's policy provisions filed with and approved by the commissioner of insurance. The evidence of financial responsibility need not apply to damages or injury to agricultural crops, plants, or land being worked upon by the applicant.

2. The amount of the evidence of financial responsibility as provided for in this section shall be not less than one hundred thousand dollars for property damage and public liability insurance, each separately, or liability insurance with limits of one hundred thousand dollars per occurrence and three hundred thousand dollars annual aggregate. The evidence of financial responsibility shall be maintained at not less than that amount at all times during

the licensed period. The department shall be notified ten days prior to any reduction in the surety bond or liability insurance made at the request of the applicant or cancellation of the surety bond by the surety or the liability insurance by the insurer. The department shall be notified ninety days prior to any reduction of the amount of the irrevocable letter of credit at the request of the applicant or the cancellation of the irrevocable letter of credit by the financial institution. 1. The secretary may by rule require the reporting of significant pesticide accidents or incidents to a designated state agency.

2. Any person claiming damages from a pesticide application shall have filed with the secretary on a form prescribed by the secretary a written statement claiming that the person has been damaged.

a. This report shall have been filed within sixty days after the alleged date that damages occurred. If a growing crop is alleged to have been damaged, the report must be filed prior to the time that twenty-five percent of the crop has been harvested. Such statement shall contain, but shall not be limited to the name of the person allegedly responsible for the application of said pesticide, the name of the owner or lessee of the land on which the crop is grown and for which damage is alleged to have occurred, and the date on which the alleged damage occurred.

b. The secretary shall prepare a form to be furnished to persons to be used in such cases and such form shall contain such other requirements as the secretary may deem proper. The secretary shall, upon receipt of such statement, notify the licensee and the owner or lessee of the land or other person who may be charged with the responsibility of the damages claimed, and furnish copies of such statements as may be requested. The secretary shall inspect damages whenever possible and when the secretary determines that the complaint has sufficient merit the secretary shall make such information available to the person claiming damage and to the person who is alleged to have caused the damage.

3. The filing of such a report or failure to give notice shall not preclude recovery in an action for damages and shall not affect the limitations of actions set forth in chapter 614. Nothing herein shall prohibit an action for damages for bodily injury or death to any person.

a. The filing of such report or the failure to file such a report shall not be a violation of this chapter. However, if the person failing to file such report is the only one injured from such use or application of a pesticide by others, the secretary may, when in the public interest, refuse to hold a hearing for the denial, suspension or revocation of a license or permit issued under this chapter until such report is filed.

b. Where damage is alleged to have occurred, the claimant shall permit the secretary, the licensee and the licensee's representatives, such as surety or insurer, to observe within reasonable hours the lands or nontarget organism alleged to have been damaged in order that such damage may be examined. Failure of the claimant to permit such observation and examination of the damaged lands shall automatically bar the claim against the licensee.

4. The secretary shall require, by rule, that veterinarians licensed and practicing veterinary medicine in the state promptly report to the department a case of domestic livestock poisoning or suspected poisoning by agricultural chemicals.

- (3) If it fails to bear on its label the information required by this chapter.
- (4) If it is a white powder pesticide and is not colored as required under this chapter.

b. In the case of a device, if it is misbranded.

2. If the article is condemned, it shall, after entry of decree, be disposed of by destruction or sale as the court may direct and the proceeds if such article is sold, less legal costs, shall be paid to the state treasurer; provided, that the article shall not be sold contrary to the provisions of this chapter; and, provided further, that upon payment of costs and execution and delivery of a good and sufficient bond conditioned that the article shall not be disposed of unlawfully, the court may direct that said article be delivered to the owner thereof for relabeling or reprocessing as the case may be.

3. When a decree of condemnation is entered against the article, court costs and fees and storage and other proper expenses shall be awarded against the person, if any, intervening as claimant of the article.

4. When the secretary has reasonable cause to believe a pesticide or device is being distributed, stored, transported, or used in violation of any of the provisions of this chapter, or of any of the prescribed rules under this chapter, the secretary may issue and serve a written "stop sale, use, or removal" order upon the owner or custodian of any such pesticide or device. If the owner or custodian is not available for service of the order, the secretary may attach the order to the pesticide or device and notify the registrant. The pesticide or device shall not be sold, used, or removed until the provisions of this chapter have been complied with and the pesticide or device has been released in writing under conditions specified by the secretary or the violation has been otherwise disposed of as provided in this chapter by a court of competent jurisdiction.

5. The provisions of section 206.6 relating to licenses and requirements for their issuance shall not apply to a doctor of veterinary medicine applying pesticides to animals during the normal course of veterinary practice; provided that the veterinarian is not regularly engaged in the business of applying pesticides for hire amounting to a principal or regular occupation or does not publicly claim to be a pesticide applicator; and that the veterinarian does not apply restricted use pesticides, or state restricted use pesticides, restricted to use by certified applicators only.

2. Determine the proper use of pesticides including but not limited to their formulations, times and methods of application, and other conditions of use.

3. Determine in cooperation with municipalities, the proper notice to be given by a commercial or public applicator to occupants of adjoining properties in urban areas prior to or after the exterior application of pesticides, and establish a schedule to determine the periods of application least harmful to living beings. The rules shall provide that a commercial or public applicator must provide notice only if an occupant requests that the commercial or public applicator provide the occupant notice in a timely manner prior to the application. The request shall include the name and address of the occupant, a telephone number of a location where the occupant may be contacted during normal business hours and evening hours, and the address of each property that adjoins the occupant's property. The notification shall expire on December 31 of each year, or the date when the occupant no longer occupies the property, whichever is earlier. Municipalities shall cooperate with the department by reporting infractions and in implementing this subsection.

4. Adopt rules providing guidelines for public bodies to notify adjacent property occupants regarding the application of herbicides to noxious weeds or other undesirable vegetation within highway rights-of-way.

5. *a.* Establish, assess, and collect civil penalties for violations by commercial applicators. In determining the amount of the civil penalty, the department shall consider all of the following factors:

- (1) The willfulness of the violation.
- (2) The actual or potential danger of injury to the public health or safety, or damage to the environment caused by the violation.
- (3) The actual or potential cost of the injury or damage caused by the violation to the public health or safety, or to the environment.
- (4) The actual or potential cost incurred by the department in enforcing this chapter and rules adopted pursuant to this chapter against the violator.
- (5) The remedial action required of the violator.

206.23A Commercial pesticide applicator peer review panel.

1. The department shall establish a commercial pesticide applicator peer review panel to assist the department in assessing or collecting a civil penalty pursuant to section 206.19. The secretary shall appoint the following members:

a. A person actively engaged in the business of applying pesticides by use of an aircraft and who is licensed as an aerial commercial applicator in this state pursuant to section 206.6.

b. A person actively engaged in the business of applying pesticides in urban areas on lawns and gardens, and who is licensed as a commercial applicator pursuant to section 206.6.

c. A person actively engaged in the business of applying pesticides within structures used for residential or commercial purposes, and who is licensed as a commercial applicator pursuant to section 206.6.

d. A person actively engaged in the business of applying pesticides on agricultural land used for farming and who is licensed as a commercial applicator pursuant to section 206.6.

e. A person certified as a public applicator pursuant to section 206.5.

2. a. The members appointed pursuant to this section shall serve four-year terms beginning and ending as provided in section 69.19. However, the secretary shall appoint initial members to serve for less than four years to ensure that members serve staggered terms. A member is eligible for reappointment. A vacancy on the panel shall be filled for the unexpired portion of the regular term in the same manner as regular appointments are made.

b. The panel shall elect a chairperson who shall serve for a term of one year. The panel

shall meet on a regular basis and at the call of the chairperson or upon the written request to the chairperson of two or more members. Three voting members constitute a quorum and the affirmative vote of a majority of the members present is necessary for any substantive action to be taken by the panel. The majority shall not include any member who has a conflict of interest and a statement by a member that the member has a conflict of interest is conclusive for this purpose. A vacancy in the membership does not impair the duties of the panel.

c. Notwithstanding section 7E.6, the members shall only receive reimbursement for actual expenses for performance of their official duties, as provided by the department.

d. The panel shall be staffed by the department.

3. The panel shall make recommendations to the department regarding the establishment of civil penalties and procedures to assess and collect penalties, as provided in section 206.19. The panel may propose a schedule of penalties for minor and serious violations. The department may adopt rules based on the recommendations of the panel as approved by the secretary.

4. The panel shall review cases of persons required to be licensed as commercial applicators who are subject to civil penalties as provided in section 206.19 according to rules adopted by the department. A review shall be performed upon request by the secretary or the person subject to the civil penalty. The panel may establish procedures for the review and establish a system of prioritizing cases for review, consistent with rules adopted by the department. The rules may exclude review of minor violations. The review may also include the manner of assessing and collecting the civil penalty. The findings and recommendations of the panel shall be included in a response delivered to the department and the person subject to the penalty. The response may include a recommendation that a proposed civil penalty be modified or suspended, that an alternative method of collection be instituted, or that conditions be placed upon the license of a commercial applicator.

5. The department shall adopt rules establishing a period for the review and response by the panel which must be completed prior to a contested case hearing under chapter 17A. A hearing shall not be delayed after the required period for review and response, except as provided in chapter 17A.

6. This section does not apply to a license revocation proceeding. This section does not require the department to delay the prosecution of a case if immediate action is necessary to reduce the risk of harm to the environment or public health or safety. This section also does not require a review or response if the department refers a violation of this chapter for criminal prosecution, or for an action involving a stop order issued pursuant to section 206.16. The department shall consider any available response by the panel, but is not required to change findings of an investigation, a penalty sought to be assessed, or a manner of collection.

7. An available response by the panel may be used as evidence in an administrative hearing, or a civil or criminal case, except to the extent that information is considered confidential pursuant to section 22.7.

206.24 Agricultural initiative.

1. A program of education and demonstration in the area of the agricultural use of fertilizers and pesticides shall be initiated by the secretary of agriculture. The secretary shall coordinate the activities of the state regarding this program.

2. Education and demonstration programs shall promote the widespread adoption of management practices which protect groundwater. The programs may include but are not limited to programs targeted toward the individual farm owner or operator, high school and college students, and groundwater users, in the areas of best management practices, current research findings, and health impacts. Emphasis shall be given to programs which enable these persons to demonstrate best management practices to their peers.

207.1 Policy.

1. It is the policy of this state to provide for the rehabilitation and conservation of land

affected by coal mining and preserve natural resources, protect and perpetuate the taxable value of property, and protect and promote the health and safety of the people of this state.

2. The general assembly finds and declares that because the federal Surface Mining Control and Reclamation Act of 1977, Pub. L. No. 95-87, codified at 30 U.S.C. ch. 25, subch. IV, provides for a permit system to regulate the mining of coal and reclamation of the mining sites and provides that permits may be issued by states which are authorized to implement the provisions of that Act, it is in the interest of the people of Iowa to enact the provisions of this chapter in order to authorize the state to implement the provisions of the federal Surface Mining Control and Reclamation Act of 1977 and federal regulations and guidelines issued pursuant to that Act.

207.2 Definitions.

As used in this chapter, unless context otherwise requires:

1. “*Administrator*” means the administrator of the division or a designee.
2. “*Committee*” means the state soil conservation and water quality committee established in section 161A.4.
3. “*Division*” means the division of soil conservation and water quality created within the department of agriculture and land stewardship pursuant to section 159.5.

5. “*Imminent danger to the health and safety of the public*” means the existence of a condition or practice, or a violation of a permit or other requirement of this chapter in a coal mining and reclamation operation, which could reasonably be expected to cause substantial physical harm to persons outside the permit area before it can be abated. A reasonable expectation of death or serious injury before abatement exists if a rational person, subjected to the same conditions or practices giving rise to the peril, would not expose the person’s self to the danger during the time necessary for abatement.
6. “*Mine*” means an underground mine operation or surface mine operation developed and operated for the purpose of extracting coal.
7. “*Operator*” means a person engaged in coal mining who removes or intends to remove more than fifty tons of coal from the earth by coal mining within twelve consecutive calendar months in one location.
8. “*Permit*” means a permit to conduct surface coal mining and reclamation operations issued by the division.
9. “*Permit area*” means the area of land indicated on the approved map submitted with the operator’s application.
10. “*Prime farmland*” means the same as prescribed by the United States department of agriculture pursuant to 7 C.F.R. §657.5(a).
11. “*Secretary*” means the United States secretary of the interior or a designee.
12. “*State program*” means the procedures for regulating coal mining and reclamation operations established by this chapter.
13. “*Surface coal mining and reclamation operations*” means surface coal mining operations and all activities necessary and incident to the reclamation of such operations after the effective date of this chapter.
14. “*Surface coal mining operations*” means both:
 - a. Activities conducted on the surface of lands in connection with a surface coal mine or surface operations and surface impacts incident to an underground coal mine subject to the requirements of this chapter. However, these activities do not include the extraction of coal incidental to the extraction of other minerals if coal does not exceed sixteen and two-thirds percent of the tonnage of minerals removed for purposes of commercial use or sale or include coal explorations subject to this chapter.
 - b. The areas upon which such activities occur or where such activities disturb the natural land surface.

15. “Unwarranted failure to comply” means the failure of an operator to prevent the occurrence of or abate a violation of a permit or a requirement of this chapter due to indifference, lack of diligence, or lack of reasonable care.

207.3 Mining license.

1. A person shall not engage in a surface coal mining operation without first obtaining a license from the division. Licenses shall be issued upon application submitted on a form provided by the division and accompanied by a fee of fifty dollars. An applicant shall furnish on the form information necessary to identify the applicant. Licenses expire on December 31 following the date of issuance and shall be renewed by the division upon application submitted within thirty days prior to the expiration date and accompanied by a fee of ten dollars.

2. The division may, after notification to the committee, commence proceedings to suspend, revoke, or refuse to renew a license of a licensee for repeated or willful violation of any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq.

3. The hearing shall be held pursuant to chapter 17A not less than fifteen nor more than thirty days after the mailing or service of the notice. If the licensee is found to have willfully or repeatedly violated any of the provisions of this chapter or of the federal Coal Mine Health and Safety Act of 1969, 30 U.S.C. §801 et seq., the committee may affirm or modify the proposed suspension, revocation, or refusal to renew the license.

4. Suspension or revocation of a license shall become effective thirty days after the mailing or service of the decision to the licensee. If the committee finds the license should not be renewed, the renewal fee shall be refunded and the license shall expire on the expiration date or thirty days after mailing or service of the decision to the licensee, whichever is later.

207.4 Mine site permit.

1. a. Prior to beginning mining or removal of overburden at mining site, an operator shall obtain a permit from the division for the site. Application for a permit shall be made upon a form provided by the division. The permit fee shall be established by the division in an amount not to exceed the cost of administering the permit provisions of this chapter.

b. The application shall include but not be limited to:

(1) A legal description of the land where the site is located and the estimated number of acres affected.

(2) A statement explaining the authority of the applicant’s legal right to operate a mine on the land.

(3) A reclamation plan meeting the requirements of this chapter.

(4) A determination by an appropriate state or federal agency of the probable hydrologic consequences of the mining and reclamation operations, both on and off the mine site, with respect to the hydrologic regime, quantity, and quality of water in surface and groundwater systems including the dissolved and suspended solids under seasonal flow conditions and the collection of sufficient data for the mine site and surrounding areas so that an assessment can be made by the division of the probable cumulative impacts of all anticipated mining in the area upon the hydrology of the area and particularly upon water availability. If the division finds that the probable total annual production at all locations of a coal mining operator will not exceed one hundred thousand tons, the determination of probable hydrologic consequences and a statement of the result of test borings on core samplings which the division may require shall upon the written request of the operator be performed

by a qualified public or private laboratory designated by the division and the cost of the preparation of the determination and statement shall be assumed by the division.

2. All permits issued pursuant to the requirements of this chapter shall be issued for a term not to exceed five years. If the applicant demonstrates that a specified longer term is reasonably needed to allow the applicant to obtain necessary financing for equipment and the opening of the operation and if the application is full and complete for the longer term, the division may grant a permit for the longer term. A successor in interest to a permittee who applies for a new permit within thirty days of succeeding to the interest and is able to continue the bond coverage may continue coal mining and reclamation operations according to the approved mining and reclamation plan of the original permittee until the successor's application is granted or denied.

3. A permit terminates if the permittee has not commenced the coal mining operations covered by the permit within three years of issuance of the permit. However, the division may grant reasonable extensions of time upon a showing that the extensions are necessary because of litigation precluding the commencement or threatening substantial economic loss to the permittee or because of conditions beyond the control and without the fault or negligence of the permittee. If a coal lease is issued under the federal Mineral Leasing Act, as amended, extensions of time may not extend beyond the period allowed for diligent development in accordance with section 7 of that Act. If coal is to be mined for use in a synthetic fuel facility or specific major electric generating facility, the permittee is deemed to have commenced mining operations when the construction of the synthetic fuel or generating facility is initiated.

4. A valid permit carries the right of successive renewal upon expiration within the boundaries of the existing permit. On application for renewal the burden shall be on the opponents of approval. Upon application the renewal shall be issued unless the division establishes any of the following:

- a. The terms and conditions of the existing permit are not being satisfactorily met.
- b. The present coal mining and reclamation operation is not in compliance with the environmental protection standards of this chapter.
- c. The renewal requested substantially jeopardizes the operator's continuing responsibility on existing permit areas.
- d. The operator has not shown that the performance bond for the operation and any additional bond the division may require will continue in full force and effect for the renewal requested.
- e. Additional revised or updated information required by the division has not been provided.

5. a. A permit renewal shall be for a term not to exceed the period of the original permit.

b. Application for renewal shall be made at least one hundred twenty days prior to the expiration of the permit. Prior to the approval of a renewal of permit the division shall provide notice to the appropriate public authorities.

207.5 Public notice and hearing.

1. An applicant for a coal mining and reclamation permit or its renewal shall file a copy of the application for public inspection with the county recorder of each county where the mining is proposed to occur.

2. An applicant for a coal mining and reclamation permit or its renewal shall submit to the division a copy of the applicant's advertisement of the ownership, precise location, and boundaries of the land to be affected. At the time of submission the advertisement shall be placed by the applicant in a local newspaper of general circulation in the locality of the proposed mine weekly for four consecutive weeks. The division shall notify various local governmental bodies, planning agencies, sewage and water treatment authorities, and water companies where the proposed mining will take place, informing them of the operator's

intention to mine a particularly described tract of land, indicating the application number and where a copy of the proposed mining and reclamation plan may be inspected. They may submit written comments within a reasonable period established by the division on the effect of the proposed operation on the environment within their area of responsibility. The comments shall immediately be transmitted to the applicant and shall be made available to the public at the same locations as the mining permit application.

3. A person having an interest which is or may be adversely affected or a federal, state, or local governmental agency may file written objections to the proposed initial or revised application for a permit for coal mining and reclamation operation with the division within sixty days after the last publication of the advertisement. The objections shall immediately be transmitted to the applicant and shall be made available to the public. If objections are filed and an informal conference requested within a reasonable time, the division shall hold an informal conference in the locality of the proposed mining operations and shall publish the date, time and location in a newspaper of general circulation in the locality at least two weeks prior to the scheduled conference date. Upon request by an interested party, the division may arrange with the applicant access to the proposed mining area for the purpose of gathering information relevant to the proceeding. An electronic or stenographic record shall be made of the conference proceeding, unless waived by all parties. The record shall be maintained and shall be accessible to the parties until final release of the applicant's performance bond. If all parties requesting the informal conference stipulate agreement prior to the conference and withdraw their request, the conference need not be held.

4. An application for a permit shall show a certificate issued by an insurance company authorized to do business in this state certifying that the applicant has a public liability insurance policy in force for that mining and reclamation operation or evidence satisfactory to the division that the applicant has an adequate self-insurance plan. The policy or self-insurance plan shall provide for personal injury and property damage protection adequate to compensate persons entitled to compensation because of damage as a result of coal mining and reclamation operations including use of explosives. The policy or self-insurance plan shall be maintained in full force and effect during the terms of the permit, any renewal and all reclamation operations.

207.6 Blasting plan required.

1. An application for a permit shall contain a blasting plan which outlines the procedures and standards by which the operator will meet the requirements of the division.

2. The division may promulgate rules requiring the training, examination, and certification of persons engaging in or directly responsible for blasting or use of explosives in coal mining operations.

207.8 Determining if land is unsuitable for mining.

1. The division by rule shall designate a site unsuitable for coal mining if the division determines on the basis of an application or petition that reclamation as required by this chapter is not technologically and economically feasible and may designate a site unsuitable for coal mining if such operations will:

- a. Be incompatible with existing state or local land use plans or programs.
- b. Affect fragile or historic lands in which the operations could result in significant damage to important historic, cultural, scientific, or esthetic values or natural systems.
- c. Affect renewable resource lands in which such operations could result in a substantial loss or reduction of long range productivity of water supply or of food or fiber products, and such lands to include aquifers and aquifer recharge areas.
- d. Affect natural hazards lands in which such operations could substantially endanger life and property, such lands to include areas subject to frequent flooding and areas of unstable geology.

2. The requirements of this section do not apply to lands on which coal mining operations are being conducted as of August 3, 1977, or under a permit issued pursuant to this chapter or pursuant to section 83A.12, Code 1979, or where substantial legal and financial commitments in an operation were in existence prior to January 4, 1977.

3. Prior to designating a land area as unsuitable for coal mining operations, the division shall prepare a detailed statement on the potential coal resources of the area, the demand for coal resources, and the impact of the designation on the environment, the economy, and the supply of coal.

4. A person having an interest which is or may be adversely affected may petition the division to have an area designated or to have the designation terminated. The petition shall contain allegations of facts with supporting evidence tending to establish the allegations. Within ten months after receipt of the petition the division shall hold a public hearing in the locality of the affected area, after appropriate notice and publication of the date, time, and location of the hearing. After a person has filed a petition and before the hearing, any person may intervene by filing allegations. Within sixty days after the hearing, the division shall issue and furnish to the petitioner and any other party to the hearing a written decision regarding the petition and the reasons. If all the petitioners stipulate agreement prior to the hearing and withdraw their request, the hearing need not be held.

5. Subject to valid existing rights, coal mining operations, except those which exist on the effective date of this chapter, shall not be permitted on any of the following:

- a. Lands within the boundaries of units of the national park systems, the national system of trails, the national wilderness preservation system, the national wildlife refuge systems, the wild and scenic rivers system, including study rivers designated under section 5(a) of the Wild and Scenic Rivers Act and national recreation areas designated by Act of Congress.

- b. Lands which will adversely affect any publicly owned park or places included in the national register of historic sites unless approved jointly by the division and the federal, state, or local agency with jurisdiction over the park or the historic site.

- c. Within one hundred feet of the outside right-of-way line of a public road, except where mine access roads or haulage roads join the right-of-way line and except that the division may permit such roads to be relocated or the area affected to lie within one hundred feet of such road, if after public notice and opportunity for public hearing in the locality a written finding is made that the interests of the public and the landowners affected thereby will be protected.

- d. Within three hundred feet of an occupied dwelling or a privately owned building, unless waived by the owner, or within three hundred feet of a public building, school, church, community, or institutional building, public park, or within one hundred feet of a cemetery.

207.9 Permit approval or denial.

1. Upon the basis of a complete mining application and reclamation plan or a revision or renewal, the division shall grant, require modification of, or deny the application for a permit in a reasonable time set by the division and notify the applicant in writing. The applicant shall have the burden of establishing that the application is in compliance with all the requirements of this chapter. Within ten days after granting of a permit, the division shall notify the political

subdivision in which the area of land to be affected is located that a permit has been issued and shall describe the location of the land.

2. A permit or revision application shall not be approved unless the application affirmatively demonstrates and the division finds in writing on the basis of the application or other information documented in the approval, and made available to the applicant, the following:

a. The permit application is accurate, complete and in compliance with all the requirements of this chapter.

b. The applicant has demonstrated that reclamation as required by this chapter and the state program can be accomplished under the reclamation plan contained in the permit application.

c. The division has assessed the probable cumulative impact of all anticipated mining in the area on the hydrologic balance and the proposed operation has been designed to prevent material damage to hydrologic balance outside permit area.

d. The area proposed to be mined is not included within an area designated unsuitable for coal mining or is not within an area proposed for such designation.

e. If the private mineral estate has been severed from the private surface estate, the applicant has submitted any of the following:

(1) The written consent of the surface owner to the extraction of coal.

(2) A conveyance that expressly grants or reserves the right to extract the coal by surface mining.

(3) If the conveyance does not expressly grant the right to extract coal by surface mining methods, the surface-subsurface legal relationship as determined in accordance with state law. This chapter does not authorize the division to adjudicate property rights disputes.

3. The applicant shall file with the permit application a schedule listing any and all notices of violations of this chapter and any law or rule of the federal or a state government pertaining to air or water environmental protection incurred by the applicant in connection with a coal mining operation during the three previous years. The schedule shall also indicate the final resolution of the notice of violation. If any information available to the division indicates that a coal mining operation owned or controlled by the applicant is currently in violation of this chapter or the other laws referred to in this subsection, the permit shall not be issued until the applicant submits proof that such violation has been corrected or is in the process of being corrected to the satisfaction of the regulatory authority which has jurisdiction over the violation and the permit shall not be issued to an applicant after a finding by the division after an opportunity for a hearing that the applicant, or the operator specified in the application, controls or has controlled mining operations with a demonstrated pattern of willful violations of this chapter.

4. If the area proposed to be mined contains prime farmland, the division shall, after consultation with the United States secretary of agriculture, and pursuant to regulations issued by the secretary with the concurrence of the secretary of agriculture, grant a permit to mine on prime farmland if the division finds in writing that the operator has the technological capability to restore such mined area, within a reasonable time, to equivalent or higher levels of yield as nonmined prime farmland in the surrounding area under equivalent levels of management and can meet the soil reconstruction standards established by section 207.7. Any operator who mines coal on agricultural land shall restore such mined area, within a reasonable time, to equivalent or higher levels of yield as nonmined agricultural land of similar quality in the surrounding area under equivalent levels of management.

5. Within sixty days a person having an interest which is or may be adversely affected may appeal to the committee the decision of the division granting or denying a permit as a contested case under chapter 17A.

[C81, §83.9]

C93, §207.9

207.10 Performance bond requirement.

1. After a permit application has been approved but before issuance, the applicant shall file with the division, on a form furnished by the division, a bond for performance payable to

the state and conditioned upon faithful performance by the operator of all requirements of this chapter and all rules adopted by the division pursuant to this chapter.

2. The bond shall be signed by the operator as principal and by a corporate surety licensed to do business in Iowa as surety. In lieu of a bond, the operator may deposit cash, or government securities, or certificates of deposit or letters of credit with the division on the same conditions as for filing of bonds.

3. The amount of the bond or other security required to be filed with the division shall be equal to the estimated cost of reclamation of the site if performed by the division. The estimated cost of reclamation of each individual site shall be determined by the division on the basis of relevant factors. The division may require each applicant to furnish information necessary to estimate the cost of reclamation. The amount of the bond or other security may be increased or reduced as the permitted operation changes, or when the cost of future reclamation changes. However, the bond amount shall not be less than ten thousand dollars.

4. Liability under the bond shall be for the duration of the coal mining and reclamation operation and for a period coincident with operator's responsibility for revegetation requirements in the rules promulgated under section 207.7.

5. If the license to do business in Iowa of a surety of a bond filed with the division is suspended or revoked, the operator, within thirty days after receiving notice from the division, shall substitute another surety. If the operator fails to make substitution, the division may suspend the operator's authorization to conduct mining on the site covered by the bond until substitution has been made. The commissioner of insurance shall notify the division whenever the license of any surety providing bond for an operator is suspended or revoked.

6. Notwithstanding sections 12C.7, subsection 2, and 666.3, the interest or earnings on investments or time deposits of the proceeds of a performance bond forfeited to the division, cash deposited under subsection 2, any funds provided for the abandoned mine reclamation program under section 207.21 and any civil penalties collected pursuant to sections 207.14 and 207.15 shall be credited to the payment of costs and administrative expenses associated with the reclamation, restoration or abatement activities of the division. The division may expend funds credited to it under this subsection to conduct reclamation activities on any areas disturbed by coal mining not subject to a presently valid permit to conduct surface mining.

[C81, §83.11]
C93, §207.11

207.12 Revision of permits.

1. a. An operator may apply for a revision or cancellation of a permit. The application shall be submitted by the operator on a form provided by the division, and shall contain information as required by the division.

b. The division shall establish rules for determining the scale or extent of a revision request to which all permit application information requirements and procedures including notice and hearings, shall apply. Revisions which propose significant alterations in the reclamation plan shall be subject to notice and hearing requirements.

2. An application for a revision of a permit shall not be approved unless the division finds that reclamation as required by this chapter can be accomplished under the revised reclamation plan.

3. Extensions to the area covered by the permit except incidental boundary revisions must be made subject to the requirements for an application for new permit.

4. If the application is to cancel the permit as it pertains to any or all of the unmined part of a site, the division shall, after ascertaining that overburden has not been disturbed or deposited on the land, order release of the bond or the security posted on that portion of the land being removed from the permit and cancel or amend the operator's permit to conduct mining on the site. Land where overburden has been disturbed or deposited shall not be removed from a permit or released from bond or security under this section.

5. A transfer, assignment, or sale of the rights granted under a permit shall not be made without the written approval of the division.

6. Fees for revision or cancellation shall be determined by the division but shall not exceed the cost of administering revisions or cancellations of permits as authorized under this section.

7. The division shall review outstanding permits within a time limit prescribed by rule and may require reasonable revision or modification of the permit provisions during the term of the permit. However, the revision or modification shall be based upon a written finding and subject to notice and hearing requirements established by the division.

207.13 Inspections and monitoring.

1. *a.* The division shall make inspections of any mining and reclamation operations as are necessary to evaluate the administration of this chapter and authorized representatives of the division shall have a right to entry at any mining and reclamation operation. If the operator refuses to consent to the inspection, the division shall request the attorney general to immediately obtain a warrant for the inspection.

b. The division shall determine what records and other information shall be maintained and furnished to the division by the operators for the effective administration of this chapter.

2. The inspections by the division shall:

a. Occur at a frequency of one complete inspection per calendar quarter and at least one partial inspection on an irregular basis in those months where a complete inspection is not performed.

b. Occur without prior notice to the permittee, agents or employees except for necessary on-site meetings with the permittee.

c. Include the filing of inspection reports adequate to enforce the requirements of and to carry out the terms and purposes of this chapter.

3. If the division has reason to believe that an operator is in violation of a requirement of this chapter or a permit condition, the division shall immediately order an inspection of the coal mining operation within ten days of receiving notice of the alleged violation.

4. An operator shall conspicuously maintain a clearly visible sign at the entrances to the mining and reclamation operation which sets forth the name, business address, permit number and phone number of the operator.

5. Each inspector shall immediately inform the operator in writing of each violation, and shall report in writing any violation to the division.

6. Copies of any record, reports, inspection materials, or information obtained under this section by the division shall be made immediately available to the public at central and sufficient locations in the area of mining so that they are conveniently available to residents in the areas of mining.

7. An employee of the division performing any function or duty under this chapter shall not have a direct or indirect financial interest in any mining operation.

2002 Acts, ch 1050, §20; 2009 Acts, ch 41, §263

207.14 Enforcement.

1. *a.* When on the basis of an inspection, the administrator determines that a condition or practice exists which creates an imminent danger to the health or safety of the public or can reasonably be expected to cause significant, imminent environmental harm to land, air, or water resources, the administrator shall immediately order a cessation of coal mining and reclamation operations to the extent necessary until the administrator determines that the condition, practice, or violation has been abated, or until the order is modified, vacated, or terminated by the division pursuant to procedures set out in this section.

b. If the administrator finds that the ordered cessation will not completely abate the imminent danger to health or safety of the public or the significant imminent environmental harm, the administrator shall require the operator to take whatever steps the administrator deems necessary to abate the imminent danger or the significant environmental harm.

2. *a.* When on the basis of an inspection, the administrator determines that any operator is in violation of any requirement of this chapter or permit condition, but the violation does not create an imminent danger to the health or safety of the public or cannot be reasonably expected to cause significant, imminent environmental harm, the administrator shall issue a notice to the operator fixing a reasonable time but not more than ninety days for the abatement of the violation and providing opportunity for public hearing.

b. If upon expiration of the time as fixed the administrator finds in writing that the violation has not been abated, the administrator, notwithstanding sections 17A.18 and 17A.18A, shall immediately order a cessation of coal mining and reclamation operations relating to the violation until the order is modified, vacated, or terminated by the administrator pursuant to procedures outlined in this section. In the order of cessation issued by the administrator under this subsection, the administrator shall include the steps necessary to abate the violation in the most expeditious manner possible.

3. When on the basis of an inspection the administrator determines that a pattern of violations of the requirements of this chapter or any permit conditions exists or has existed, and if the administrator also finds that the violations are willful or caused by the unwarranted failure of the operator to comply with any requirements of this chapter or any permit conditions, the administrator shall immediately issue an order to the operator to show cause as to why the permit should not be suspended or revoked and the bond or security forfeited, and shall provide opportunity for a hearing as a contested case pursuant to chapter 17A. Upon the operator's failure to show cause, the administrator shall immediately suspend or revoke the permit.

4. *a.* A permittee may request in writing an appeal to the committee of a decision made in a hearing under subsection 3 within thirty days of the decision. The committee shall review the record made in the contested case hearing, and may hear additional evidence upon a showing of good cause for failure to present the evidence in the hearing, or if evidence concerning events occurring after the hearing is deemed relevant to the proceeding. However, the committee shall not review a decision in a proceeding if the division seeks to collect a civil penalty pursuant to section 207.15, and those decisions are final agency actions subject to direct judicial review as provided in chapter 17A.

b. The contested case hearing shall be scheduled within thirty days of receipt of the request by the division. If the decision in the contested case is to revoke the permit, the permittee shall be given a specific period to complete reclamation, or the attorney general shall be requested to institute bond forfeiture proceedings.

5. In any administrative proceeding under this chapter or judicial review, the amount of all reasonable costs and expenses, including reasonable attorney fees incurred by a person in connection with the person's participation in the proceedings or judicial review, may be assessed against either party as the court in judicial review or the committee in administrative proceedings deems proper.

6. Notices and orders issued pursuant to this section shall set forth with reasonable specificity the nature of the violation and the remedial action required, the period of time established for abatement, and a reasonable description of the portion of the coal mining and reclamation operation to which the notice or order applies. Each notice or order issued under this section shall be given promptly to the operator or an agent and all notices and

orders shall be in writing and signed. A notice or order issued pursuant to this section may be modified, vacated, or terminated by the administrator. Any notice or order issued pursuant to this section which requires cessation of mining by the operator expires within thirty days of actual notice to the operator unless a public hearing is held at or near the site so that any viewings of the site can be conducted during the course of the hearing.

7. a. A permittee issued a notice or order under this section or any person having an interest which is or may be adversely affected by the notice or order or by its modification, vacation, or termination may apply to the committee for review within thirty days of receipt of the notice or order or within thirty days of its modification, vacation, or termination. The review shall be treated as a contested case under chapter 17A.

b. Pending completion of any investigation or hearings required by this section, the applicant may file with the division a written request that the administrator grant temporary relief from any notice or order issued under this section together with a detailed statement giving reasons for granting such relief.

c. The administrator shall issue an order or decision granting or denying the request for relief within five days of its receipt. The administrator may grant such relief under such conditions as the administrator may prescribe if all of the following occur:

(1) A hearing has been held in the locality of the permit area in which all parties were given an opportunity to be heard. The hearing need not be held as a contested case under chapter 17A.

(2) The applicant shows that there is substantial likelihood that the findings of the committee will be favorable to the applicant.

(3) Such relief will not adversely affect the health or safety of the public or cause significant, imminent environmental harm to land, air, or water resources.

8. At the request of the division, the attorney general shall institute any legal proceedings, including an action for an injunction or a temporary injunction necessary to enforce the penalty provisions of this chapter or to obtain compliance with this chapter. Injunctive relief may be requested to enforce a cessation order issued by the administrator pending a hearing pursuant to subsection 4.

9. When on the basis of an inspection, or other information available to the division, the administrator has reasonable cause to believe that the operator is unable to complete reclamation of all or a portion of the permit area as required by law, the administrator shall issue an order to the operator to show cause as to why all or a portion of the performance bond required by section 207.10 should not be revoked.

207.15 Penalties.

1. a. (1) A person who violates a permit condition, a provision of this chapter, or a rule or order issued under this chapter is subject to a civil penalty not to exceed five thousand dollars per day for each day of violation.

(2) If a violation results in the issuance of a cessation order, a civil penalty shall be imposed. The penalty shall not exceed five thousand dollars for each day of violation.

b. In determining the amount of the penalty, consideration shall be given to the operator's history of previous violations at the particular mining operation, the seriousness of the violation, including any irreparable harm to the environment and any hazard to the health or safety of the public, whether the operator was negligent, and the demonstrated good faith of the operator charged in attempting to achieve rapid compliance after notification of the violation.

c. An operator who fails to correct a violation for which a notice or order has been issued within the period permitted for its correction shall be required to pay a civil penalty of not less than seven hundred fifty dollars for each day during which the failure or violations continue.

2. a. If a notice or order has been issued, the division may assess a recommended penalty

in accordance with a schedule established by rule. The person to whom the notice or order was issued may submit written information within fifteen days of the notice or order to be considered by the division. The division shall serve the assessment by certified mail, return receipt requested, within thirty days of issuance of the notice or order. The division may reassess any penalty if necessary to account for facts not reasonably available on the date of issuance of the assessment. A person may consent to a penalty assessment by paying the penalty without resort to judicial proceedings.

b. If a violation results in the issuance of a cessation order pursuant to section 207.14 the division shall assess a penalty.

3. A contested case hearing may be requested pursuant to section 207.14, subsection 4, to review a notice, order, or penalty assessment. A person to whom a penalty assessment has been issued may request a contested case hearing solely for review of the amount of the penalty. A penalty assessment is final if a request for review is not made in a timely manner.

4. Judicial review of any action of the division shall be in accordance with chapter 17A. Judicial review of a penalty assessment shall not be permitted unless the petitioner has posted a bond equal to the amount of the assessed penalty in the district court or has placed the proposed amount in an interest-bearing escrow fund approved by the division.

5. If a violation results in a cessation order pursuant to section 207.14, the attorney general, at the request of the division, shall institute a civil action in district court for injunctive relief.

6. Notwithstanding section 17A.20, an appeal bond shall be required for an appeal of a judgment assessing a civil penalty.

7. A person who willfully and knowingly violates a condition of a permit or any other provision of this chapter, or makes a false statement, representation, or certification, or knowingly fails to make a statement, representation, or certification in an application, record, report, plan, or other document filed or required to be maintained pursuant to this chapter or any order or decision of this chapter, shall be guilty of a serious misdemeanor and notwithstanding section 903.1 the maximum fine shall be ten thousand dollars.

8. Whenever a corporate operator violates a condition of a permit or any other provision of this chapter or fails or refuses to comply with any provision of this chapter, a director, officer, or agent of that corporation who willfully and knowingly authorized, ordered, or carried out such violation, failure, or refusal shall be subject to the same civil penalties or criminal fines and imprisonment that may be imposed upon a person under this section.

9. An employee of the division performing any function or duty under this chapter who knowingly and willfully has a direct or indirect financial interest in any coal mining operation shall be guilty of a serious misdemeanor and notwithstanding section 903.1 the maximum fine shall be two thousand five hundred dollars.

207.16 Release of performance bonds or deposits.

1. Each operator upon completion of any reclamation work required by this chapter shall apply to the division in writing for approval of the work. The division shall promulgate rules consistent with Pub. L. No. 95-87, §519, codified at 30 U.S.C. §1269, regarding procedures and requirements to release performance bonds or deposits.

2. The division may release in whole or part the bonds or deposits if the division is satisfied the reclamation covered by the bonds or deposits or portions thereof has been accomplished as required by this chapter according to stages determined by the division by rule. When the operator has completed successfully all surface coal mining and reclamation activities, the remaining portion of the bond shall be released upon the expiration of the period specified for operator responsibility in the rules promulgated pursuant to section 207.7. A bond shall not be fully released until all reclamation requirements of this chapter are fully met.

3. A person with a valid legal interest which might be adversely affected by release of

the bond or a federal, state, or local governmental agency which has jurisdiction by law or special expertise with respect to any environmental, social, or economic impact involved in the operation, or which is authorized to develop and enforce environmental standards with respect to such operations may file written objections to the proposed release from bond to the division within sixty days after the last publication as required by rule of a notice of a request for bond release by the operator. If written objections are filed and a hearing is requested, the division shall inform all the interested parties of the time and place of the hearing, and hold a public hearing as a contested case in the locality of the coal mining operation or at the state capital, at the request of the objectors, within thirty days of the request. The date, time, and location shall be advertised by the division in a newspaper of general circulation in the locality for two consecutive weeks.

1. A person having an interest which is or may be adversely affected may commence a civil action on the person's own behalf to compel compliance with this chapter as follows:

a. Against the division or any other governmental agency or subdivision which is alleged to be in violation of the provisions of this chapter or of any rule, order or permit issued or against any other person who is alleged to be in violation of any rule, order or permit issued pursuant to this chapter.

b. Against the division where there is alleged a failure of the division to perform any act or duty required under this chapter. The suit shall be filed in the county where the mining operation is or, if against the division, in the district court for Polk county or the county of the petitioner's residence.

2. An action shall not be commenced:

a. Under subsection 1, paragraph "a" of this section until sixty days after the plaintiff has given notice in writing of the violation to the division and to any alleged violator, or if the state has commenced and is diligently prosecuting a civil action against that operator for compliance with the provisions of this chapter; however, the person may intervene in the action as a matter of right.

b. Under subsection 1, paragraph "b" of this section until sixty days after the plaintiff has given notice in writing to the division in the manner provided by rule; however, if the violation or order complained of constitutes an imminent threat to the health or safety of the plaintiff or would immediately affect a legal interest of the plaintiff, the action may be brought immediately after giving notice.

3. The division may intervene in any action under this section.

4. The court, in issuing a final order in an action brought pursuant to subsection 1 of this section, may award costs of litigation including attorney and expert witness fees to any party.

5. This section does not restrict a right which any person or class may have under a statute or common law to seek enforcement of any of the provisions of this chapter or to seek any other relief. The availability of judicial review of the actions of the division shall not restrict any rights established by this section.

6. A person whose person or property is injured through the violation by any operator of a rule, order, or permit issued pursuant to this chapter may bring an action for damages including reasonable attorney and expert witness fees only in the county in which the coal mining operation complained of is located. This subsection shall not affect the rights or limits under workers' compensation as provided in chapter 85.

a. The requirement that prior to conducting an exploration the person must file with the division a notice of intention to explore describing the exploration area and the period of exploration.

b. Provisions for reclamation of the lands disturbed by the exploration in accordance with the environmental performance standards mandated by section 207.7.

2. Information submitted to the division pursuant to this section and determined by the division, following consultation with the person submitting the information, to be confidential concerning trade secrets or privileged commercial or financial information which relates to the competitive rights of the person intending to explore the described area shall not be available for public examination.

3. A person who conducts coal exploration activities which substantially disturb the natural land surface in violation of this section shall be subject to the provisions of section 207.15.

4. An operator shall not remove more than fifty tons of coal pursuant to an exploration permit without the specific written approval of the division.

207.19 Surface effects of underground coal mining operations.

1. The provisions of this chapter shall be applicable to surface operations and surface impacts incident to an underground coal mine with such modifications to the permit application requirements, permit approval or denial procedures, and bond requirements as are necessary to accommodate the distinct difference between surface and underground coal mining. The division shall promulgate such modifications in its rules to allow for such distinct differences and still fulfill the purposes of this chapter and be consistent with the requirements of Pub. L. No. 95-87, §516, codified at 30 U.S.C. §1266, and the permanent regulations issued pursuant to that Act.

2. In order to protect the stability of the land, the division shall suspend underground coal mining under urbanized areas, cities, and communities and adjacent to industrial or commercial buildings, major impoundments, or permanent streams if the administrator finds imminent danger to inhabitants of the urbanized areas, cities, and communities.

207.21 Abandoned mine reclamation program.

1. The division shall participate in the abandoned mine reclamation program under Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV. There is established an abandoned mine reclamation fund under the control of the division.

2. a. Lands and water eligible for reclamation or drainage abatement expenditures under this section include the following:

(1) Lands which were mined for coal or affected by such mining, waste banks, coal processing, or other coal mining processes, and abandoned or left in an inadequate reclamation status prior to August 3, 1977, and for which there is no continuing reclamation responsibility under state or federal laws.

(2) Coal lands and water damaged by coal mining processes and abandoned after August

3, 1977, if they were mined for coal or affected by coal mining processes and if either of the following occurred:

(a) The mining occurred and the site was left in either an unreclaimed or inadequately reclaimed condition between August 4, 1977, and April 10, 1981, and any moneys for reclamation or abatement that are available pursuant to a bond or other form of financial guarantee or from any other source are not sufficient to provide for adequate reclamation or abatement at the site.

(b) The mining occurred and the site was left in either an unreclaimed or inadequately reclaimed condition between August 4, 1977, and November 5, 1990, and the surety of the mining operator became insolvent during that period and, as of November 5, 1990, moneys immediately available from proceedings relating to the insolvency or from any financial guarantee or other source are not sufficient to provide for adequate reclamation or abatement at the site.

b. If requested by the governor, the division may fill voids and seal tunnels, shafts, and entryways resulting from any previous noncoal mining operation, and may reclaim surface impacts of any such noncoal underground or surface mines that were mined prior to August 3, 1977, and which constitute an extreme danger to the public health, safety, general welfare, or property. Sites and areas designated for remedial action pursuant to the federal Uranium Mill Tailings Radiation Control Act of 1978, 42 U.S.C. §7901 et seq., or which have been listed for remedial action pursuant to the federal Comprehensive Environmental Response, Compensation, and Liability Act of 1980, 42 U.S.C. §9601 et seq., are not eligible for expenditures under this section.

3. Expenditure of moneys from the abandoned mine reclamation fund on eligible lands and water for the purpose of this program shall reflect the following priorities in the order stated:

a. The protection of public health, safety, and property from extreme danger of adverse effects of coal mining practices.

b. The protection of public health and safety from adverse effects of coal mining practices.

c. The restoration of land and water resources and the environment previously degraded by adverse effects of coal mining practices including measures for the conservation and development of soil, water, excluding channelization, woodland, fish and wildlife, recreation resources, and agricultural productivity.

d. The protection, repair, replacement, construction, or enhancement of public facilities such as utilities, roads, recreation, and conservation facilities adversely affected by coal mining practices.

e. The development of publicly owned land adversely affected by coal mining practices including land acquired as provided in this section for recreation and historic purposes, conservation, and reclamation purposes and open space benefits.

4. a. The division shall submit to the secretary a state reclamation plan and annual projects to carry out the purposes of this program. The plan shall generally identify the areas to be reclaimed, the purposes for which the reclamation is proposed, the relationship of the lands to be reclaimed and the proposed reclamation to surrounding areas, the specific criteria for ranking and identifying projects to be funded, and the legal authority and programmatic capability to perform such work in conformance with the provisions of Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV.

b. The division may annually submit to the secretary an application with such information as determined by the secretary for the support of the state program and implementation of specific reclamation projects.

c. The costs for each proposed project under this program shall include actual construction costs, actual operation and maintenance costs of permanent facilities, planning and engineering costs, construction and inspection costs, and other necessary administrative expenses.

d. The division shall prepare and submit annual and other reports as required by the secretary.

5. The division in participating in the abandoned mine reclamation program under Pub.

L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV, shall have the following additional powers:

a. To engage in any work and to do all things necessary or expedient, including promulgation of rules, to implement and administer the provisions of this program.

b. To engage in cooperative projects with any other governmental unit provided that such cooperative projects shall be under a cooperative agreement conducted according to the provisions of chapter 28E.

c. To request the attorney general to seek injunctive relief to restrain any interference with the exercise of the right to enter or to conduct work under this program.

d. To construct and operate a plant or plants for the control and treatment of water pollution resulting from mine drainage. The extent of this control and treatment may be dependent upon the ultimate use of the water. The construction of a plant or plants may include major interceptors and other facilities appurtenant to the plant.

207.22 Acquisition and reclamation of land.

1. a. The division, pursuant to a state program approved by the secretary, may take action as provided in paragraph “b” of this subsection if it finds all of the following:

(1) Land or water resources have been adversely affected by past coal mining practices.

(2) The adverse effects are at a stage where in the public interest action to restore, reclaim, abate, control, or prevent should be taken.

(3) The owners of the land or water resources where entry must be made to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices are not known or readily available, or will not give permission for the United States, this state, political subdivisions, their agents, employees, or contractors to enter upon such property to restore, reclaim, abate, control, or prevent the adverse effects of past coal mining practices.

b. Upon giving notice by mail to the owners if known or by posting notice upon the premises and advertising once in a local newspaper of general circulation if not known, the division may enter upon the property adversely affected by past coal mining practices and any other property to have access to the property to do all things necessary or expedient to restore, reclaim, abate, control, or prevent the adverse effects. The entry shall be construed as an exercise of the police power for the protection of public health, safety, and general welfare and not as an act of condemnation of property or trespass. The moneys expended for the work and the benefits accruing to the property shall be chargeable against such property and shall mitigate or offset any claim on or any action brought by an owner of any interest in the property for any alleged damages because of the entry. This provision does not create new rights of action or eliminate existing immunities.

2. The division may enter upon a property for the purpose of conducting studies or exploratory work to determine the existence of adverse effects of past coal mining practices and to determine the feasibility of restoration, reclamation, abatement, control, or prevention of such adverse effects. The entry shall be construed as an exercise of the police power for the protection of public health, safety, and general welfare and not as an act of condemnation of property or trespass.

3. The division pursuant to an approved state program may acquire any land, by purchase, donation, or condemnation, which is adversely affected by past coal mining practices if the secretary determines that acquisition of the land is necessary to successful reclamation and that:

a. The acquired land, after restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices, will serve recreation and historic purposes, conservation and reclamation purposes or provide open spaces benefits and that permanent facilities such as a treatment plant or a relocated stream channel will be constructed on the

land for the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices; or

b. Acquisition of coal refuse disposal sites and all coal refuse thereon will serve the purposes of Pub. L. No. 95-87, Tit. IV, codified at 30 U.S.C. ch. 25, subch. IV, or that public ownership is desirable to meet emergency situations and prevent recurrences of the adverse effect of past coal mining practices.

4. Title to all lands acquired pursuant to this section shall be in the name of this state. The price paid for land acquired under this section shall reflect the market value of the land as adversely affected by past coal mining practices.

5. If land acquired pursuant to this section is deemed to be suitable for industrial, commercial, agricultural, residential, or recreational development, the division with authorization from the secretary may sell the land by public sale under a system of competitive bidding, at not less than fair market value and under rules promulgated to insure that the lands are put to proper use consistent with local land use plans.

6. The division if requested after appropriate public notice shall hold a public hearing with the appropriate notice, in the county of the lands acquired pursuant to this section. The hearings shall be held at a time that affords local citizens and governments the maximum opportunity to participate in the decision concerning the use or disposition of the lands.

7. The division may cooperate with the secretary in acquiring land by purchase, donation, or condemnation to assist the housing of people disabled as the result of employment in the mines or incidental work, persons displaced by acquisition of land pursuant to this section, or persons dislocated as the result of adverse effects of coal mining practices which constitute an emergency as determined by the secretary. The fund provided under this section shall not be used to pay the actual construction costs of housing.

207.23 Liens.

1. Within six months after the completion of a project to restore, reclaim, abate, control, or prevent adverse effects of past coal mining practices on privately owned land, the division shall itemize the money expended on the project and may file a lien statement in the office of the district court clerk of each county in which a portion of the property affected by the project is located, together with a notarized appraisal by an independent appraiser of the value of the land before the restoration, reclamation, abatement, control, or prevention of adverse effects of past mining practices if the money so expended results in a significant increase in property value. A copy of the lien statement and the appraisal, if required, shall be served upon affected property owners in the manner provided for service of an original notice. The lien shall not exceed the amount determined by the appraiser to be the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of adverse effects of past coal mining practices. A lien shall not be filed in accordance with this subsection against the property of a person who neither consented to, participated in, nor exercised control over the mining operation which necessitated the reclamation performed.

2. The owner of property to which the lien attaches may petition the court within sixty days after receipt of service of the lien statement, to determine the increase in the market value of the land as a result of the restoration, reclamation, abatement, control, or prevention of the adverse effects of past coal mining practices. The amount found to be the increase in value of the property shall constitute the amount of the lien and shall be recorded in the office of the district court in each county in which the owner's property is located. A party aggrieved by the decision may appeal as provided by law.

3. The lien provided in this section has priority over all other liens or security interests which have attached to the property, whenever those liens may have arisen, except liens of real estate taxes imposed upon the property.

1. This chapter shall not be construed as affecting the right of any person's interest in water resources affected by a mining operation.

2. 2. The division shall, by certified mail or personal service, serve on the operator notice in writing of the charges and grounds upon which the license is to be suspended, revoked, or will not be issued. The notice shall include the time and the place at which a hearing shall be held before the committee, a subcommittee appointed by the committee, or the committee's designee, to determine whether to suspend, revoke, or refuse to issue the license. The bond shall be signed by the operator as principal and by a corporate surety licensed to do business in Iowa as surety. In lieu of a bond, the operator may deposit cash or certificates of deposit with the division on the same conditions as prescribed by this section for filing of bonds.
