MINORITY ACADEMIC GRANTS FOR ECONOMIC SUCCESS

261.101 Legislative intent.

The general assembly finds that the failure of many young Iowans to complete their education limits their opportunity for a life of fulfillment and hinders the state's efforts to provide a well-trained workforce for business and industry in Iowa. The general assembly

Therefore, the “Iowa Minority Academic Grants for Economic Success” program is established to provide additional funding to the state board of regents institutions, community colleges, and accredited private institutions in order to encourage resident minority students to remain in Iowa, to attend community colleges, private colleges, and universities in Iowa, and to assure that a limited family income will not be a barrier for a minority person to pursue a postsecondary education.

If a community college no longer identifies the industry as having a shortage of skilled workers or the department no longer identifies the industry as a high-demand job, an eligible student who received a grant for a career-technical or career option program based on that identification shall continue to receive the grant until achieving a postsecondary credential, up to an associate degree, as long as the student is continuously enrolled in that program and continues to meet all other eligibility requirements.

3. The amount of a skilled workforce shortage tuition grant shall not exceed the lesser of one-half of a student's tuition and fees for an approved career-technical or career option program or the amount of the student's established financial need.

4. All classes identified by the community college as required for completion of the student's approved career-technical or career option program shall be considered a part of the student's career-technical or career option program for the purpose of determining the student's eligibility for a grant. Notwithstanding subsection 5, if a student is making satisfactory academic progress but the student cannot complete a career-technical or career option program in the time frame allowed for a student to receive a skilled workforce shortage tuition grant as provided in subsection 5 because additional classes are required to complete the program, the student may continue to receive a skilled workforce shortage tuition grant for not more than one additional enrollment period.

5. *a.* A qualified full-time student may receive skilled workforce shortage tuition grants for not more than four semesters or the trimester or quarter equivalent of two full years of study. A qualified part-time student enrolled in a course of study including at least three semester hours but fewer than twelve semester hours or the trimester or quarter equivalent may receive skilled workforce shortage tuition grants for not more than eight semesters or the trimester or quarter equivalent of two full years of full-time study.

b. However, if a student resumes study after at least a two-year absence, the student may again be eligible for the specified amount of time, except that the student shall not receive assistance for courses for which credit was previously received.

6. A skilled workforce shortage tuition grant shall be awarded on an annual basis, requiring reapplication by the student for each year. Payments under the grant shall be allocated equally among the semesters or quarters of the year upon certification by the community college that the student is in full-time or part-time attendance in a career-technical or career option program consistent with the requirements of this section. If the student discontinues attendance before the end of any term after receiving payment of the grant, the entire amount of any refund due that student, up to the amount of any payments made under the annual grant, shall be paid by the community college to the state.

7. If a student receives financial aid under any other program, the full amount of that financial aid shall be considered part of the student's financial resources available in determining the amount of the student's financial need for that period.

8. The commission shall administer this program and shall:

a. Provide application forms for distribution to students by Iowa high schools and community colleges.

b. Adopt rules for approving career-technical or career option programs in industries identified by the department of workforce development; determining financial need; defining

residence for the purposes of this section; processing and approving applications for grants; and determining priority for grants.

- c. Approve and award grants on an annual basis.
- d. Make an annual report to the governor and general assembly. The report shall include the number of students receiving assistance and the industries identified by the community colleges and by the department of workforce development for which students were admitted to a career-technical or career option program.

 - b. Be responsible for the submission of the financial information required for evaluation of the applicant's need for a grant, on forms determined by the commission.
 - c. Report promptly to the commission any information requested.
 - d. Submit a new application for reevaluation of the applicant's eligibility to receive a second-year renewal of the grant.

a. For an eligible student who is attending an eligible institution that is a community college during the fall, spring, or summer term of enrollment, and is pursuing a postsecondary credential up to an associate degree, the annual amount of a future ready Iowa skilled workforce last-dollar scholarship, when combined with other state and federal nonrepayable student aid, shall not exceed an amount equivalent to the tuition and any mandatory institution-wide fees charged by the community college for the eligible program. For an eligible student pursuing a postsecondary credential up to an associate degree at an eligible institution that is an accredited private institution during the fall, spring, or summer

term of enrollment, the annual amount of a future ready Iowa skilled workforce last-dollar scholarship, when combined with other state and federal nonrepayable student aid, shall not exceed an amount equivalent to the average tuition rate plus the average institution-wide mandatory fees charged during the same term of enrollment by the eligible institutions that are community colleges.

b. If an eligible student receives nonrepayable financial aid under any other state or federal program, the full amount of that aid shall be considered part of the student's available financial resources before determining the amount of the student's future ready Iowa skilled workforce last-dollar scholarship for the same period during which the student receives other state or federal financial aid. However, each eligible student enrolled full-time in an eligible program shall receive at least five hundred dollars annually, and the amount received by each eligible part-time student shall be the same amount prorated by the commission based on the number of semester hours, or the equivalent, for which the part-time student is enrolled.

A part-time eligible student may receive the scholarship for not more than eight semesters, or the equivalent, on a prorated basis, or until the eligible student earns the credential sought, up to an associate degree, under the eligible program, whichever occurs first. All classes identified by an eligible institution as required for completion of the eligible program by the eligible student shall be considered required under the eligible program for purposes of this section.

d. A future ready Iowa skilled workforce last-dollar scholarship shall be awarded on an annual basis, requiring reapplication by an eligible student each year. e. If a scholarship recipient discontinues attendance before the end of any semester, or the equivalent, after receiving scholarship payments, the entire amount of any refund due that recipient, up to the full amount of all of the annual scholarship payments made, shall be paid by the eligible institution to the commission. A scholarship recipient, who is not approved for a leave of absence by the eligible institution, who discontinues attendance before the end of a semester, or the equivalent, is ineligible to receive future scholarships under this section.

4. *Commission's duties and responsibilities.* Subject to an appropriation of funds by the general assembly for purposes of this section, the commission shall administer the future ready Iowa skilled workforce last-dollar scholarship program and shall do all of the following:

The rules shall provide for determining the priority awarding of scholarships if funds available for purposes of this section are insufficient to pay all eligible students. Priority shall be given to fully awarding each eligible student approved for a scholarship rather than to prorating scholarship awards among all eligible students.

c. Approve and award future ready Iowa skilled workforce last-dollar scholarships on an annual basis.

d. Transmit to the department of workforce development the compilation of information, data, and statistics submitted in accordance with subsection 1, paragraph "e", subparagraph (6), for the annual report required under section 84A.1B.

the commission to be used for scholarships awarded as provided under this section. Notwithstanding section 8.33, any balance in the fund on June 30 of each fiscal year shall not revert to the general fund of the state, but shall be available for purposes of this section in subsequent fiscal years.

GENERAL PROVISIONS

This chapter may be cited as the “*Iowa Higher Education Loan Authority Act*”.

[82 Acts, ch 1031, §1]

Referred to in §261A.24

261A.2 Declaration of purpose.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of this chapter to provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of this chapter to supplement federal guaranteed higher education loan programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student’s higher education in execution of the public policy set forth above.

[82 Acts, ch 1031, §2]

261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.
4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.
5. Without public action as contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education.
6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.
7. Without public action as contemplated by this chapter, the inability to obtain educational financing will result in declining enrollments at institutions of higher education.
8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.

9. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

12. Notwithstanding other provisions in this chapter, commingle and pledge as security for a series or issue of obligations, with the consent of all of the institutions which are participating in the series or issue, the education loan series portfolios and some or all future education loan series portfolios of the institutions, and the loan funding deposits of the institutions. 261A.37 Loans authorized.

The authority may make loans to an institution for the cost of a project or in anticipation of the receipt of tuition by the institution in accordance with an agreement between the authority and the institution, except that a loan for the cost of a project shall not exceed the total cost of the project, as determined by the institution and approved by the authority and except that loans in anticipation of the receipt of tuition shall not exceed the anticipated amount of tuition to be received by the institution in the one-year period following the date of the loan. The authority may lease projects to institutions under the terms of lease agreements determined by the institution and the authority, except that the term of the lease shall not exceed the estimated useful economic life of the project. The authority may make loans to an entity other than an institution in accordance with an agreement between the authority and the entity for the cost of a project if the project is to be leased to an institution.

261A.38 Issuance of obligations — conditions.

The authority may issue obligations and make loans to an institution or another entity if the project is to be leased to an institution or may issue obligations to finance projects to be leased by the authority to an institution and refund, refinance, or reimburse outstanding

obligations, indebtedness, mortgages, or advances, including advances from an endowment or any similar fund, issued, made, or given by the institution, whether before or after July 1, 1985, for the cost of a project, when the authority finds that the financing prescribed in this section is in the public interest, and either alleviates a financial hardship upon the institution, results in a lesser cost of education, or enables the institution to offer greater security for a loan or loans to finance a new project or projects or to effect savings in interest costs or more favorable amortization terms.

261A.39 General powers — apportionment of costs.

The authority may do all things necessary or convenient to carry out the purposes of this subchapter. The authority may charge to and equitably apportion among participating institutions its administrative costs and expenses incurred in the exercise of the powers and duties conferred on the authority by this subchapter.

85 Acts, ch 210, §9; 2017 Acts, ch 54, §76

261A.40 Joint and combination projects.

The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this subchapter applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this subchapter on terms and subject to conditions the authority prescribes.

85 Acts, ch 210, §10; 2017 Acts, ch 54, §76

261A.41 Expenses.

Expenses incurred in carrying out this subchapter are payable solely from funds provided under this subchapter and a liability or obligation shall not be incurred by the authority beyond the extent to which money is provided under this subchapter.

85 Acts, ch 210, §11; 2017 Acts, ch 54, §76

261A.42 Obligations.

1. The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

2. Except as otherwise provided by this subchapter, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the

obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this subchapter have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

3. The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

4. The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this subchapter without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this subchapter. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

261A.43 Resolution provisions.

The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:

1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.
2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.
3. Limitations on the use of the project.
4. Limitations on the purpose to which or the investments in which the proceeds of sale of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.
5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.

6. The procedure, if any, by which the terms of any contract with obligation holders may be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.

7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.

8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.

10. Other matters relating to the obligations which the authority deems desirable.

85 Acts, ch 210, §13

261A.44 Obligations secured by trust agreement.

1. Obligations issued under this subchapter may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project.

2. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien.

3. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located.

4. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this subchapter. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders.

5. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

261A.45 Obligations issued to acquire federally guaranteed securities.

1. The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this subchapter, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, "*federally guaranteed security*" means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

2. The authority may acquire or enter into commitments to acquire a federally guaranteed

security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

3. The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this subchapter, and the trust agreement creating the bonds may contain provisions set forth in this subchapter as the authority deems appropriate.

4. If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

261A.46 Obligations not liability of state or political subdivision.

Obligations issued pursuant to this subchapter are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this subchapter, unless the obligations are refunded by refunding obligations issued under this subchapter, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this subchapter. All revenue obligations shall contain on their face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this subchapter are payable solely from funds provided under this subchapter, and this subchapter does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply

the money for the purposes of this subchapter, subject to the provisions of this subchapter and of the authorizing resolution or trust agreement.

2. The rights of holders include the right to compel the performance of all duties of the authority required by this subchapter or the resolution or trust agreement, to enjoin unlawful activities, and in the event of default with respect to the payment of any principal of, premium, if any, and interest on an obligation or in the performance of a covenant or agreement on the part of the authority in the resolution, to apply to a court having jurisdiction of the cause to appoint a receiver to administer and operate the project, the revenue of which is pledged to the payment of the principal of, premium, if any, and interest on the obligations, the receiver to have full power to pay and to provide for payment of the principal of, premium, if any, and interest on the obligations, and to have the powers, subject to the direction of the court, as are permitted by law and are accorded receivers in general equity cases, including the power to foreclose the mortgage on the project in the same manner as the foreclosure of a mortgage on real estate of private corporations, but excluding any power to pledge additional revenue of the authority to the payment of the principal, premium, and interest.

261A.49 Bondholders — pledge — agreement of the state.

The state pledges to and agrees with the holders of any obligations issued under this subchapter, and with those parties who enter into contracts with the authority pursuant to this subchapter, that the state will not limit or alter the rights vested in the authority until the obligations, together with the interest on the obligations, are fully met and discharged and the contracts are fully performed on the part of the authority, except that this section does not preclude the limitation or alteration if and when adequate provision is made by law for the protection of the rights of the holders of the obligations of the authority or those entering into contracts with the authority.

85 Acts, ch 210, §19; 2017 Acts, ch 54, §76

261A.50 Provisions controlling.

261D.1 Definition.

As used in this chapter, unless the context otherwise requires, “*commission*” means the midwestern higher education compact commission.
2005 Acts, ch 145, §1

261D.2 Midwestern higher education compact.

The midwestern higher education compact is entered into with all other states which enter into the compact in substantially the following form:

1. *Article I — Purpose.* The purpose of the midwestern higher education compact shall be to provide greater higher education opportunities and services in the midwestern region, with the aim of furthering regional access to, research in, and choice of higher education for the citizens residing in the several states which are parties to this compact.

2. *Article II — The commission.*

a. The compacting states create the midwestern higher education commission. The commission shall be a body corporate of each compacting state. The commission shall have all the responsibilities, powers, and duties set forth in this chapter, including the power to sue and be sued, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

b. The commission shall consist of five resident members of each state as follows: the governor or the governor’s designee, who shall serve during the tenure of office of the governor; two legislators, one from each house (except Nebraska, which may appoint two legislators from its unicameral legislature), who shall serve two-year terms and be appointed by the appropriate appointing authority in each house of the legislature; and two other at-large members, at least one of whom shall be selected from the field of higher education. The at-large members shall be appointed in a manner provided by the laws of the appointing state. One of the two at-large members initially appointed in each state shall serve a two-year term. The other, and any regularly appointed successor to either at-large member, shall serve a four-year term. All vacancies shall be filled in accordance with the

laws of the appointed states. Any commissioner appointed to fill a vacancy shall serve until the end of the incomplete term.

c. The commission shall select annually, from among its members, a chairperson, a vice chairperson, and a treasurer.

d. The commission shall appoint an executive director who shall serve at its pleasure and who shall act as secretary to the commission. The treasurer, the executive director, and such other personnel as the commission may determine shall be bonded in such amounts as the commission may require.

e. The commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a majority of the commission members of three or more compacting states, shall call additional meetings. Public notice shall be given of all meetings and meetings shall be open to the public.

f. Each compacting state represented at any meeting of the commission is entitled to one vote. A majority of the compacting states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the commission.

3. *Article III — Powers and duties of the commission.*

a. The commission shall adopt a seal and suitable bylaws governing its management and operations.

b. Irrespective of the civil service, personnel, or other merit system laws of any of the compacting states, the commission in its bylaws shall provide for the personnel policies and programs of the compact.

c. The commission shall submit a budget to the governor and legislature of each compacting state at such time and for such period as may be required. The budget shall contain specific recommendations of the amount or amounts to be appropriated by each of the compacting states.

d. The commission shall report annually to the legislatures and governors of the compacting states, to the midwestern governors' conference, and to the midwestern legislative conference of the council of state governments concerning the activities of the commission during the preceding year. Such reports shall also embody any recommendations that may have been adopted by the commission.

e. The commission may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency, from any interstate agency, or from any institution, foundation, person, firm, or corporation.

f. The commission may accept for any of its purposes and functions under the compact any and all donations and grants of money, equipment, supplies, materials, and services (conditional or otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, foundation, person, firm, or corporation, and may receive, utilize, and dispose of the same.

g. The commission may enter into agreements with any other interstate education organizations or agencies and with higher education institutions located in nonmember states and with any of the various states of these United States to provide adequate programs and services in higher education for the citizens of the respective compacting states. The commission shall, after negotiations with interested institutions and interstate organizations or agencies, determine the cost of providing the programs and services in higher education for use of these agreements.

h. The commission may establish and maintain offices, which shall be located within one or more of the compacting states.

i. The commission may establish committees and hire staff as it deems necessary for the carrying out of its functions.

j. The commission may provide for actual and necessary expenses for attendance of its members at official meetings of the commission or its designated committees.

4. *Article IV — Activities of the commission.*

a. The commission shall collect data on the long-range effects of the compact on higher education. By the end of the fourth year from the effective date of the compact and every two years thereafter, the commission shall review its accomplishments and

make recommendations to the governors and legislatures of the compacting states on the continuance of the compact.

b. The commission shall study issues in higher education of particular concern to the midwestern region. The commission shall also study the needs for higher education programs and services in the compacting states and the resources for meeting such needs. The commission shall from time to time prepare reports on such research for presentation to the governors and legislatures of the compacting states and other interested parties. In conducting such studies, the commission may confer with any national or regional planning body. The commission may redraft and recommend to the governors and legislatures of the various compacting states suggested legislation dealing with problems of higher education.

c. The commission shall study the need for provision of adequate programs and services in higher education, such as undergraduate, graduate, or professional student exchanges in the region. If a need for exchange in a field is apparent, the commission may enter into such agreements with any higher education institution and with any of the compacting states to provide programs and services in higher education for the citizens of the respective compacting states. The commission shall, after negotiations with interested institutions and the compacting states, determine the costs of providing the programs and services in higher education for use in its agreements. The contracting states shall contribute the funds not otherwise provided, as determined by the commission, for carrying out the agreements. The commission may also serve as the administrative and fiscal agent in carrying out agreements for higher education programs and services.

d. The commission shall serve as a clearinghouse on information regarding higher education activities among institutions and agencies.

e. In addition to the activities of the commission previously noted, the commission may provide services and research in other areas of regional concern.

5. *Article V — Finance.*

a. The moneys necessary to finance the general operations of the commission, not otherwise provided for, in carrying forth its duties, responsibilities, and powers as stated herein shall be appropriated to the commission by the compacting states, when authorized by the respective legislatures, by equal apportionment among the compacting states.

b. The commission shall not incur any obligations of any kind prior to the making of appropriations adequate to meet the same; nor shall the commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

c. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

d. The accounts of the commission shall be open at any reasonable time for inspection by duly authorized representatives of the compacting states and persons authorized by the commission.

6. *Article VI — Eligible parties and entry into force.*

a. The states of Illinois, Indiana, Iowa, Kansas, Michigan, Minnesota, Missouri, Nebraska, North Dakota, Ohio, South Dakota, and Wisconsin shall be eligible to become party to this compact. Additional states will be eligible if approved by a majority of the compacting states.

b. As to any eligible party state, this compact shall become effective when its legislature shall have enacted the same into law.

c. Amendments to the compact shall become effective upon their enactment by the legislatures of all compacting states.

7. *Article VII — Withdrawal, default, and termination.*

a. Any compacting state may withdraw from this compact by enacting a statute repealing the compact, but such withdrawal shall not become effective until two years after the enactment of such statute. A withdrawing state shall be liable for any obligations which it may have incurred on account of its party status up to the effective date of withdrawal, except that if the withdrawing state has specifically undertaken or committed itself to any

performance of an obligation extending beyond the effective date of withdrawal, it shall remain liable to the extent of such obligation.

b. If any compacting state shall at any time default in the performance of any of its obligations, assumed or imposed, in accordance with the provisions of this compact, all rights, privileges, and benefits conferred by this compact or agreements hereunder shall be suspended from the effective date of such default as fixed by the commission, and the commission shall stipulate the conditions and maximum time for compliance under which the defaulting state may resume its regular status. Unless such default shall be remedied under the stipulations and within the time period set forth by the commission, this compact may be terminated with respect to such defaulting state by affirmative vote of a majority of the other member states. Any such defaulting state may be reinstated by performing all acts and obligations as stipulated by the commission.

8. *Article VIII — Severability and construction.*

a. The provisions of this compact entered into hereunder shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the Constitution of any compacting state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact entered into hereunder shall be held contrary to the constitution of any compacting state, the compact shall remain in full force and effect as to the remaining states and in full force and effect as to the state affected as to all severable matters. The provisions of this compact entered into pursuant hereto shall be liberally construed to effectuate the purposes thereof.

261E.6 Postsecondary enrollment options program.

1. *Program established.* The postsecondary enrollment options program is established to promote rigorous academic or career and technical pursuits and to provide a wider variety of options to high school students by enabling ninth and tenth grade students who have been identified by the school district as gifted and talented, and eleventh and twelfth grade students, to enroll in eligible courses at an eligible postsecondary institution of higher learning.

2. *Notification.* The availability and requirements of this program shall be included in each school district’s student registration handbook. Information about the program shall be provided to the student and the student’s parent or guardian prior to the development of the student’s career and academic plan under section 279.61. The school district shall establish a process by which students may indicate interest in and apply for enrollment in the program.

3. *Authorization.* To participate in this program, an eligible student shall make application to an eligible postsecondary institution to allow the eligible student to enroll for college credit in a nonsectarian course offered at the institution. A comparable course, as defined in rules adopted by the board of directors of the school district consistent with department administrative rule, must not be offered by the school district or accredited nonpublic school the student attends. A course is ineligible for purposes of this section if the school district has a contractual agreement with the eligible postsecondary institution under section 261E.8 that meets the requirements of section 257.11, subsection 3, and the course may be delivered through such an agreement in accordance with section 257.11, subsection 3. If the postsecondary institution accepts an eligible student for enrollment under this section, the institution shall send written notice to the student, the student’s parent or legal guardian in the case of a minor child, and the student’s school district or accredited nonpublic school and the school district in the case of a nonpublic school student, or the Iowa school for the deaf or the Iowa braille and sight saving school. The notice shall list the course, the clock hours the student will be attending the course, and the number of hours of college credit that the eligible student will receive from the eligible postsecondary institution upon successful completion of the course.

4. *Credits.*

a. A school district, the Iowa school for the deaf, the Iowa braille and sight saving school, or accredited nonpublic school shall grant high school credit to an eligible student enrolled in a course under this chapter if the eligible student successfully completes the course as determined by the eligible postsecondary institution. The board of directors of the school district, the board of regents for the Iowa school for the deaf and the Iowa braille and sight saving school, or authorities in charge of an accredited nonpublic school shall determine the

number of high school credits that shall be granted to an eligible student who successfully completes a course. Eligible students may take up to seven semester hours of credit during the summer months when school is not in session and receive credit for that attendance, if the student pays the cost of attendance for those summer credit hours.

b. The high school credits granted to an eligible student under this section shall count toward the graduation requirements and subject area requirements of the school district of residence, the Iowa school for the deaf, the Iowa braille and sight saving school, or accredited nonpublic school of the eligible student. Evidence of successful completion of each course and high school credits and college credits received shall be included in the student's high school transcript.

5. *Transportation.* The parent or legal guardian of an eligible student who has enrolled in and is attending an eligible postsecondary institution under this chapter shall furnish transportation to and from the postsecondary institution for the student.

6. *Definition.* For purposes of this section and section 261E.7, unless the context otherwise requires, "*eligible student*" means a student classified by the board of directors of a school district, by the state board of regents for pupils of the Iowa school for the deaf and the Iowa braille and sight saving school, or by the authorities in charge of an accredited nonpublic school as a ninth or tenth grade student who is identified according to the school district's gifted and talented criteria and procedures, pursuant to section 257.43, as a gifted and talented child, or an eleventh or twelfth grade student, during the period the student is participating in the postsecondary enrollment options program.

261E.7 Postsecondary enrollment options program payments — claims — reimbursements.

1. Not later than June 30 of each year, a school district shall pay a tuition reimbursement amount to a postsecondary institution that has enrolled its resident eligible students under this chapter, unless the eligible student is participating in open enrollment under section 282.18, in which case, the tuition reimbursement amount shall be paid by the receiving district. However, if a child's residency changes during a school year, the tuition shall be paid by the district in which the child was enrolled as of the date specified in section 257.6, subsection 1, or the district in which the child was counted under section 257.6, subsection 1, paragraph "a", subparagraph (6). For students enrolled at the Iowa school for the deaf and the Iowa braille and sight saving school, the state board of regents shall pay a tuition reimbursement amount by June 30 of each year. The amount of tuition reimbursement for each separate course shall equal the lesser of:

a. The actual and customary costs of tuition, textbooks, materials, and fees directly related to the course taken by the eligible student.

b. Two hundred fifty dollars.

2. An eligible postsecondary institution that enrolls an eligible student under this section shall not charge that student for tuition, textbooks, materials, or fees directly related to the course in which the student is enrolled except that the student may be required to purchase equipment that becomes the property of the student. For the purposes of this subsection, equipment shall not include textbooks. However, if the student fails to complete and receive credit for the course, the student is responsible for all district costs directly related to the course as provided in subsection 1 and shall reimburse the school district for its costs. If the student is under eighteen years of age, the student's parent or legal guardian shall sign the student registration form indicating that the parent or legal guardian is responsible for all costs directly related to the course if the student fails to complete and receive credit for the course. If documentation is submitted to the school district that verifies the student was unable to complete the course for reasons including but not limited to the student's physical incapacity, a death in the student's immediate family, or the student's move to another school district, that verification shall constitute a waiver to the requirement that the student or parent or legal guardian pay the costs of the course to the school district.

3. An eligible postsecondary institution shall make pro rata adjustments to tuition reimbursement amounts based upon federal guidelines established pursuant to 20 U.S.C. §1091b.

261E.8 District-to-community college sharing or concurrent enrollment program.

1. A district-to-community college sharing or concurrent enrollment program is established to be administered by the department to promote rigorous academic or career and technical pursuits and to provide a wider variety of options to high school students to enroll in eligible nonsectarian courses at or through community colleges established under chapter 260C. The program shall be made available to all resident students in grades nine through twelve. Notice of the availability of the program shall be included in a school district's student registration handbook and the handbook shall identify which courses, if successfully completed, generate college credit under the program. A student and the student's parent or legal guardian shall also be made aware of this program as a part of the development of the student's career and academic plan in accordance with section 279.61.

2. a. Students from accredited nonpublic schools and students receiving competent private instruction or independent private instruction under chapter 299A may access the program through the school district in which the accredited nonpublic school or private institution is located.

b. (1) Students from accredited nonpublic schools may also access the program if the accredited nonpublic school in which the students are enrolled meets the requirements of this section and section 257.11, subsection 3, as if the accredited nonpublic school were a school district, and enters into a contract with a community college that meets the requirements of this section and section 257.11, subsection 3, for the provision of academic or career and technical coursework to high school students enrolled in the accredited nonpublic school. However, the accredited nonpublic school need not meet requirements for career and technical education more stringent than the requirements of section 256.11B. A student who wishes to participate in the program must make application to the accredited nonpublic school and the community college in the manner established under subsection 3 and meet the requirements of this section.

(2) An accredited nonpublic school that provides units of mathematics, science, and career and technical education under an agreement that meets the requirements of subparagraph (1) shall be deemed to have met the education program requirement for the units of mathematics, science, and career and technical education provided, as applicable, under section 256.11, subsection 5, paragraph "a", "d", or "e", or section 256.11B.

(a) Subject to an appropriation of funds by the general assembly for this purpose, a student enrolled in a unit of coursework provided under this subparagraph shall be counted as if the student was assigned a weighting under section 257.11, subsection 3, paragraph "b", in determining the amount calculated and paid to a community college under subparagraph (4), if the accredited nonpublic school is accredited under the standards required of a school district pursuant to section 256.11, the number of students enrolled in a class used to meet the unit requirement exceeds five, and the accredited nonpublic school's total enrollment in grades nine through twelve does not exceed two hundred pupils.

(b) A student enrolled in a unit of coursework provided under this subparagraph is not eligible to be counted as if the student was assigned a weighting under section 257.11, subsection 3, paragraph "b", in determining the amount calculated and paid to a community college under subparagraph (4), if the accredited nonpublic school's total enrollment in grades nine through twelve exceeds two hundred pupils.

(3) A community college that enters into a contract as provided in this paragraph shall submit to the department, during the fall and spring semesters, or the equivalent, a list of the accredited nonpublic school students enrolled for the semester, or the equivalent, who are participating in the program. The community college and the accredited nonpublic school shall verify to the department that the accredited nonpublic school and the coursework provided under this paragraph meet the requirements of this section and section 257.11,

subsection 3, and shall provide to the department data and information elements as required under subsection 9 by rule.

(4) Subject to an appropriation of funds by the general assembly for this purpose, the department shall calculate, using the state cost per pupil, and pay to a community college for each semester in which a student is concurrently enrolled in the community college in accordance with this paragraph “b” an amount equivalent to the amount a school district would receive if the student was assigned a weighting under section 257.11, subsection 3, paragraph “b”. If the amount appropriated annually for purposes of this paragraph “b” is insufficient to pay to community colleges the full amount for students concurrently enrolled in a community college in accordance with this paragraph “b”, the department shall annually prorate the amount for payments to community colleges for the concurrent enrollment of accredited nonpublic students under this paragraph “b”. A community college shall decrease the amount billed to the accredited nonpublic school by the amount calculated and paid to the community college by the department in accordance with this paragraph.

3. A student may make application to a community college and the school district to allow the student to enroll for college credit in a nonsectarian course offered by the community college. A comparable course, as defined in rules adopted by the board of directors of the school district, must not be offered by the school district or accredited nonpublic school which the student attends. The school board shall annually approve courses to be made available for high school credit using locally developed criteria that establishes which courses will provide the student with academic rigor and will prepare the student adequately for transition to a postsecondary institution. If a community college accepts a student for enrollment under this section, the school district, in collaboration with the community college, shall send written notice to the student, the student’s parent or legal guardian in the case of a minor child, and the student’s school district. The notice shall list the course, the clock hours the student will be attending the course, and the number of hours of college credit that the student will receive from the community college upon successful completion of the course.

4. A school district shall grant high school credit to a student enrolled in a course under this chapter if the student successfully completes the course as determined by the community college and the course was previously approved by the school board pursuant to subsection 3. The board of directors of the school district shall determine the number of high school credits that shall be granted to a student who successfully completes a course.

5. District-to-community college sharing agreements or concurrent enrollment programs that meet the requirements of section 257.11, subsection 3, are eligible for funding under that provision.

6. Community colleges shall comply with the data collection requirements of section 260C.14, subsection 21.

7. A student enrolled in a career and technical course made available pursuant to subsection 1 is exempt from the proficiency requirements of section 261E.3, subsection 1, paragraph “e”. However, a community college may require a student who applies for enrollment under a district-to-community college sharing or concurrent enrollment program to complete an initial assessment administered by the community college receiving the application to determine the applicant’s readiness to enroll in career and technical coursework, and the community college may deny the enrollment.

8. Subject to an appropriation of funds by the general assembly for this purpose, the department shall establish a program to provide additional funds for resident high school pupils enrolled in grades nine through twelve to attend a community college for college-level classes or attend a class taught by a community college-employed instructor through a contractual agreement between a community college and a school district that satisfies the requirements for classes under section 257.11, subsection 3, except that the classes eligible for funding under this program are offered during the summer and outside of the regular school year and are aligned with career pathways leading to postsecondary credentials and high-demand jobs designated by the workforce development board or a community college pursuant to section 84A.1B, subsection 14. A community college shall not charge students tuition for a class offered partially or completely outside of the regular school year under this program.

9. The state board, in collaboration with the board of directors of each community college, shall adopt rules that clearly define data and information elements to be collected related to the senior year plus programming, including concurrent enrollment courses. The data elements shall include but not be limited to the following:

- a. The course title and whether the course supplements, rather than supplants, a school district course.
- b. An unduplicated enrollment count of eligible students participating in the program.
- c. The actual costs and revenues generated for concurrent enrollment. An aligned unique student identifier system shall be established by the department for students in kindergarten through grade twelve and community college.

261H.3 Protected activities.

1. Noncommercial expressive activities protected under the provisions of this chapter include but are not limited to any lawful oral or written means by which members of the campus community may communicate ideas to one another, including but not limited to all forms of peaceful assembly, protests, speeches including by invited speakers, distribution of literature, circulating petitions, and publishing, including publishing or streaming on an internet site, or audio or video recorded in outdoor areas of campus.

2. A member of the campus community who wishes to engage in noncommercial expressive activity in outdoor areas of campus shall be permitted to do so freely, subject to reasonable time, place, and manner restrictions, and as long as the member's conduct

III-1133 SPEECH AND EXPRESSION — PUBLIC INSTITUTIONS OF HIGHER EDUCATION, §261H.5

is not unlawful, does not impede others' access to a facility or use of walkways, and does not disrupt the functioning of the public institution of higher education, subject to the protections of subsection 1. The public institution of higher education may designate other areas of campus available for use by the campus community according to institutional policy, but in all cases access to designated areas of campus must be granted on a viewpoint-neutral basis within the bounds of established principles of the first amendment to the Constitution of the United States.

3. A public institution of higher education shall not deny benefits or privileges available to student organizations based on the viewpoint of a student organization or the expression of the viewpoint of a student organization by the student organization or its members protected by the first amendment to the Constitution of the United States. In addition, a public institution of higher education shall not deny any benefit or privilege to a student organization based on the student organization's requirement that the leaders of the student organization agree to and support the student organization's beliefs, as those beliefs are interpreted and applied by the organization, and to further the student organization's mission.

4. This section shall not be interpreted as limiting the right of student expression in a counter demonstration held in an outdoor area of campus as long as the conduct at the counter demonstration is not unlawful, does not materially and substantially prohibit the free expression rights of others in an outdoor area of campus or disrupt the functioning of the public institution of higher education, and does not impede others' access to a facility or use of walkways, subject to reasonable time, place, and manner restrictions that are consistent with established principles of the first amendment to the Constitution of the United States.

5. This chapter shall not be interpreted as preventing public institutions of higher education from prohibiting, limiting, or restricting expression that the first amendment to the Constitution of the United States does not protect, including but not limited to a threat of serious harm and expression directed or likely directed to provoke imminent unlawful actions; or from prohibiting harassment, including but not limited to expression which is so severe, pervasive, and subjectively and objectively offensive that the expression unreasonably interferes with an individual's access to educational opportunities or benefits provided by a public institution of higher education.

261H.4 Public forums on campus — freedom of association.

1. The outdoor areas of campuses of public institutions of higher education in this state shall be deemed public forums. Public institutions of higher education may maintain and enforce clear, published, reasonable viewpoint-neutral time, place, and manner restrictions that are narrowly tailored in furtherance of a significant institutional interest, but shall allow members of the campus community to engage in spontaneous expressive activity and to distribute literature. Restrictions instituted by a public institution of higher education under this section shall provide for ample alternative means of expression.

2. Except as provided in this chapter, and subject to reasonable time, place, and manner restrictions, a public institution of higher education shall not designate any area of campus a free-speech zone or otherwise create policies restricting expressive activities to a particular outdoor area of campus.

3. Nothing in this chapter shall be construed to grant individuals the right to engage in conduct that intentionally, materially, and substantially disrupts the expressive activity of a person or student organization if the public institution of higher education has reserved space in an outdoor area of campus for activity by the person or student organization in accordance with this chapter.

2019 Acts, ch 11, §4, 7

261H.5 Remedies — statute of limitations — immunity.

1. A member of the campus community aggrieved by a violation of this chapter may file a complaint with the governing body of the public institution of higher education.

2. A member of the campus community aggrieved by a violation of this chapter may

§261H.5, SPEECH AND EXPRESSION — PUBLIC INSTITUTIONS OF HIGHER EDUCATION III-1134

assert such violation as a defense or counterclaim in a disciplinary action or in a civil or administrative proceeding brought against the member of the campus community.

3. A member of the campus community shall bring a claim for violation of this chapter pursuant to this section not later than one year after the day the cause of action accrues.

4. This section shall not be interpreted to limit any other remedies available to a member of the campus community.

5. Nothing in this section shall be construed to make any administrator, officer, employee, or agent of a public institution of higher education personally liable for acts taken pursuant to the individual's official duties.

261H.7 Student government organizations — student fees — appeals — liability.

1. Each institution of higher education governed by the state board of regents shall make a student government organization's access to and authority over any moneys disbursed to the student government organization by the institution contingent upon the student government organization's compliance with the first amendment to the Constitution of the United States and the provisions of this chapter.

2. If, after exhaustion of all administrative appeals, it is determined that a student government organization knowingly and intentionally violated the first amendment rights of a member of the campus community or that an action or decision of a student government organization is in violation of this section, the institution shall suspend the student government organization's authority to manage and disburse student fees for a period of one year. During this period of suspension, such student fees shall be managed and disbursed by the institution.

1. For purposes of this section, unless the context otherwise requires:

a. "*Race or sex scapegoating*" means assigning fault, blame, or bias to a race or sex, or to members of a race or sex because of their race or sex, or claiming that, consciously or unconsciously, and by virtue of persons' race or sex, members of any race are inherently racist or are inherently inclined to oppress others, or that members of a sex are inherently sexist or inclined to oppress others.

b. "*Race or sex stereotyping*" means ascribing character traits, values, moral and ethical codes, privileges, status, or beliefs to a race or sex, or to an individual because of the individual's race or sex.

c. "*Specific defined concepts*" includes all of the following:

(1) That one race or sex is inherently superior to another race or sex.

(2) That the United States of America and the state of Iowa are fundamentally or systemically racist or sexist.

(3) That an individual, solely because of the individual's race or sex, is inherently racist, sexist, or oppressive, whether consciously or unconsciously.

(4) That an individual should be discriminated against or receive adverse treatment solely or partly because of the individual's race or sex.

III-1135 SPEECH AND EXPRESSION — PUBLIC INSTITUTIONS OF HIGHER EDUCATION, §261H.8

(10) Any other form of race or sex scapegoating or any other form of race or sex stereotyping.

2. Each public institution of higher education may continue training that fosters a workplace and learning environment that is respectful of all employees and students. However, the president, vice presidents, deans, department directors, or any other administrator of a public institution of higher education shall ensure that any mandatory staff or student training provided by an employee of the institution or by a contractor hired by the institution does not teach, advocate, act upon, or promote specific defined concepts. This subsection shall not be construed as preventing an employee or contractor who provides mandatory training from responding to questions regarding specific defined concepts raised by participants in the training.

3. Institution diversity and inclusion efforts shall discourage students of a public institution of higher education from discriminating against another by political ideology or any characteristic protected under the federal Civil Rights Act of 1964, Pub. L. No. 88-352, as amended, and applicable state law. Each public institution of higher education shall prohibit its employees from discriminating against students and employees by political ideology or any characteristic protected under the federal Civil Rights Act of 1964, Pub. L. No. 88-352, as amended, and applicable state law.

4. This section shall not be construed to do any of the following:

a. Inhibit or violate the first amendment rights of students or faculty, or undermine a public institution of higher education's duty to protect to the fullest degree intellectual freedom and free expression. The intellectual vitality of students and faculty shall not be infringed under this section.

b. Prevent a public institution of higher education from promoting racial, cultural, ethnic, intellectual, or academic diversity or inclusiveness, provided such efforts are consistent with the provisions of this section, chapter 216, and other applicable law.

d. Create any right or benefit, substantive or procedural, enforceable at law or in equity by any party against the state of Iowa, its departments, agencies, or entities, its officers, employees, or agents, or any other person.

e. Prohibit a state or federal court or agency of competent jurisdiction from ordering a training or remedial action containing discussions of specific defined concepts as a remedial action due to a finding of discrimination, including discrimination based on race or sex.

f. Prohibit the use of curriculum that teaches the topics of sexism, slavery, racial oppression, racial segregation, or racial discrimination, including topics relating to the enactment and enforcement of laws resulting in sexism, racial oppression, segregation, and discrimination.

8. Acquire real estate for the proper uses of institutions under its control, and dispose of real estate belonging to the institutions when not necessary for their purposes. The disposal of real estate shall be made upon such terms, conditions, and consideration as the board may recommend. If real estate subject to sale has been purchased or acquired from appropriated funds, the proceeds of such sale shall be deposited with the treasurer of state and credited to the general fund of the state. There is hereby appropriated from the general fund of the state a sum equal to the proceeds so deposited and credited to the general fund of the state to the state board of regents, which may be used to purchase other real estate and buildings and for the construction and alteration of buildings and other capital improvements. All transfers shall be by state patent in the manner provided by law. The board is also authorized to grant easements for rights-of-way over, across, and under the surface of public lands under its jurisdiction when in the board's judgment such easements are desirable and will benefit the state of Iowa.

9. Accept and administer trusts and may authorize nonprofit foundations acting solely for the support of institutions governed by the board to accept and administer trusts deemed by the board to be beneficial. Notwithstanding the provisions of section 633.63, the board and such nonprofit foundations may act as trustee in such instances.

10. The letters patent or copyright on inventions when so secured shall be the property of the state, and the royalties and earnings thereon shall be credited to the funds of the institution in which such patent or copyright originated.

13. Perform all other acts necessary and proper for the execution of the powers and duties conferred by law upon it.

14. Grant leaves of absence with full or partial compensation to staff members to undertake approved programs of study, research, or other professional activity which in the judgment of the board will contribute to the improvement of the institutions. Any staff member granted such leave shall agree either to return to the institution granting such leave for a period of not less than two years or to repay to the state of Iowa such compensation as the staff member shall have received during such leave.

15. Lease properties and facilities, either as lessor or lessee, for the proper use and benefit of institutions under the control of the board upon such terms, conditions, and considerations as the board deems advantageous, including leases with provisions for ultimate ownership by the state of Iowa, and to pay the rentals from funds appropriated to the institution for operating expenses thereof or from such other funds as may be available therefor.

16. In its discretion, employ or retain attorneys or counselors to provide legal counsel or legal advice, notwithstanding section 13.7, provided that the provisions of section 13.7 shall govern the retention of attorneys in any action or proceeding that is brought in any court or tribunal.

17. a. In its discretion, adopt rules relating to the classification of students enrolled in institutions of higher education under the board who are residents of Iowa's sister states as residents or nonresidents for fee purposes.

b. (1) Adopt rules to classify as residents for purposes of undergraduate tuition and mandatory fees, qualified veterans and qualified military persons and their spouses and dependent children who are domiciled in this state while enrolled in an institution of higher education under the board. A spouse or dependent child of a military person or veteran shall not be deemed a resident under this paragraph “b” unless the qualified military person or qualified veteran meets the requirements of subparagraph (2), subparagraph division (b) or (c), as appropriate.

(2) For purposes of this paragraph “b”, unless the context otherwise requires:

(a) “*Dependent child*” means a student who was claimed by a qualified military person or qualified veteran as a dependent on the qualified military person’s or qualified veteran’s internal revenue service tax filing for the previous tax year.

(b) “*Qualified military person*” means a person on active duty in the military service of the United States who is stationed in this state or at the Rock Island arsenal. If the qualified military person is transferred, deployed, or restationed while the person’s spouse or dependent child is enrolled in an institution of higher education under the control of the board, the spouse or dependent child shall continue to be classified as a resident provided the spouse or dependent child maintains continuous enrollment.

(c) “*Qualified veteran*” means a person who meets the following requirements:

(i) Is eligible for benefits, or has exhausted the benefits, under the federal Post-9/11 Veterans Educational Assistance Act of 2008.

(ii) Is domiciled in this state, or has resided in this state for at least one year or sufficient time to have filed an Iowa tax return in the preceding twelve months.

18. In issuing bonds or notes under this chapter, chapter 262A, chapter 263A, or other provision of law, select and fix the compensation for, through a competitive selection procedure, attorneys, accountants, financial advisors, banks, underwriters, insurers, and other employees and agents which in the board’s judgment are necessary to carry out the board’s intention. Prior to the initial selection, the board shall establish a procedure which provides for a fair and open selection process including but not limited to the opportunity to present written proposals and personal interviews. The board shall maintain a list of firms which have requested to be notified of requests for proposal. The selection criteria shall take into consideration, but are not limited to, compensation, expenses, experience with similar issues, scheduling, ability to provide the services of individuals with specific knowledge in the relevant subject matter and length of engagement. The board may waive the requirements for a competitive selection procedure for any specific employment upon adoption of a resolution of the board stating why the waiver is in the public interest and shall provide the executive council with written notice of the granting of any such waiver.

19. a. Not less than thirty days prior to action by the board on any proposal to increase tuition, fees, or charges at one or more of the institutions of higher education under its control, send written notification of the amount of the proposed increase including a copy of the proposed tuition increase docket memorandum prepared for its consideration to the presiding officers of the student government organization of the affected institutions. The final decision on an increase in tuition or mandatory fees charged to all students at an institution for a fiscal year shall be made at a regular meeting and shall be reflected in a final docket memorandum that states the estimated total cost of attending each of the institutions of higher education under the board’s control. The regular meeting shall be held in Ames, Cedar Falls, or Iowa City and shall not be held during a period in which classes have been suspended for university holiday or break.

b. Authorize, at its discretion, each institution of higher education to retain the student fees and charges it collects to further the institution’s purposes as authorized by the board. Notwithstanding any provision to the contrary, student fees and charges, as defined in section 262A.2, shall not be considered repayment receipts as defined in section 8.2.

c. Prohibit the designation of a portion of the tuition moneys collected from resident undergraduate students by institutions of higher education governed by the board for use for student aid purposes. However, such institutions may designate that a portion of the tuition moneys collected from nonresident students be used for such purposes.

20. Adopt policies and procedures for the use of telecommunications as an instructional

22. Direct the administration of the Iowa minority academic grants for economic success program as established in section 261.101 for the institutions under its control.

23. Develop a policy and adopt rules relating to the establishment of tuition rates which provide a predictable basis for assessing and anticipating changes in tuition rates.

24. Develop a policy requiring oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction on at least an annual basis. However, the board shall establish criteria by which an institution may discontinue annual evaluations of a specific person providing instruction. The criteria shall include receipt by the institution of two consecutive positive annual evaluations from the majority of students evaluating the person.

25. Develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

Dissemination of and access to information regarding planning, financing, curriculum, professional development, preservice training, project implementation strategies, and results shall be centralized to allow school districts from across the state to gain ideas from each other regarding the integration of technology in the classroom.

32. In consultation with the state board of education, establish and enter into a collective statewide articulation agreement with the community colleges established pursuant to chapter 260C, which shall provide for the seamless transfer of academic credits from a completed associate of arts or associate of science degree program offered by a community college to a baccalaureate degree program offered by an institution of higher education governed by the board. The board shall also do the following:

e. Jointly, with the boards of directors of the community colleges, select academic departments in which to articulate first-year and second-year courses through faculty-to-faculty meetings in accordance with paragraph "b". However, course-to-course equivalencies need not occur in an academic discipline when the board and the community colleges jointly determine that course content is incompatible.

f. Promote greater awareness of articulation-related activities, including the articulation internet site maintained by the board and articulation agreements in which the institutions participate.

g. Facilitate additional opportunities for individual institutions to pursue program articulation agreements for community college career and technical education programs and programs of study offered by the institutions of higher education governed by the board.

h. Develop and implement by January 1, 2012, a process to examine a minimum of eight new community college associate of applied science degree programs for which articulation agreements between the community colleges and the institutions of higher education governed by the board would serve students' continued academic success in those degree programs.

A continuous improvement plan shall be developed and implemented built upon the results of the institution's student outcomes assessment program for courses with typical annual enrollments of one hundred or more students, whether in one or multiple sections. In developing and implementing the continuous improvement plan for each course, the instructor or instructors for such a course shall each year evaluate the results of the instructors' students' performances in comparison with established course goals and shall formulate recommendations for future goals and methods to achieve improved student performance. The board shall annually evaluate the effectiveness of the plans and shall submit an executive summary of its findings and recommendations in its annual strategic plan progress report, a copy of which shall be submitted to the general assembly.

36. Develop and implement a consistent written policy for an employee who in the scope of the person's employment responsibilities examines, attends, counsels, or treats a child to report suspected physical or sexual abuse. The policy shall include an employee's reporting responsibilities. SUBCHAPTER XIII
REGENTS' MINORITY AND WOMEN EDUCATORS ENHANCEMENT

262.81 Legislative intent.

The general assembly recognizes that educational programs designed to enhance the interrelation and cooperation among cultural, racial, and ethnic groups in society require the contribution and active participation of all ethnic and racial groups. The general assembly also recognizes that failure to include minority representation at the faculty level at the state universities contributes to cultural, racial, and ethnic isolation of minority students and does not reflect the realities of a multicultural and diverse society. Therefore, the "Regents' Minority and Women Educators Enhancement" program is established to assist in the recruitment and retention of faculty that more adequately represents the diverse cultural, racial, and ethnic makeup of society and to improve the education of all students.

89 Acts, ch 319, §61

1. The board of regents shall establish a program to recruit minority educators to faculty positions in the universities under the board's control. The program shall include but is not limited to the creation of faculty positions in all areas of academic pursuit.

2. The board of regents shall also establish a program to create faculty opportunities for women educators at the universities under the board's control. The program shall include but is not limited to the creation of faculty positions in targeted shortage areas. The

board of regents shall also develop and implement, in consultation with appropriate faculty representatives, tenure, promotion, and hiring policies that recognize the unique needs of faculty members who are principal caregivers to dependents.

3. As used in this section, “*minority educator*” means an educator who is a minority person as defined in section 261.102.

SUBCHAPTER XIV COLLEGE-BOUND PROGRAM

262.91 Legislative intent.

The general assembly recognizes that universities must provide an environment that enables all students to have an equal opportunity to succeed. The general assembly also recognizes that, because of inequalities in educational preparation, economic factors, and social circumstances, not all young Iowans have the same degree of access to Iowa’s higher education system. The general assembly further acknowledges that an early intervention system using public school districts, community agencies, and other state institutions can be useful in preparing young students to succeed in college. Therefore, the “College-bound” program is established to ensure that the state’s universities and students’ local communities become involved early in a student’s life by promoting and informing students about the opportunities in higher education, so that lack of adequate personal resources is not a barrier to attending college for young Iowans.

89 Acts, ch 319, §63

262.92 College-bound program.

1. The board of regents shall establish or contract to establish college-bound programs to provide Iowa minority students with information and experiences relating to opportunities offered at the regents’ universities. Programs developed may include, but are not limited to, the following elements:

a. Reinforcement of efforts to attract undergraduate students from age groups currently served by traditional methods of outreach which use high school and community college services.

b. Extension of traditional student recruitment methods which are designed to encourage minority students in grades seven through twelve to pursue postsecondary academic courses of study.

c. Identification, at each of the regents’ universities, of courses of study to be targeted for the recruitment of minority students.

d. Offerings at the regents’ universities of innovative programs, which are experience oriented, for families with minority children.

2. The board of regents shall establish a voucher program for students in grades seven through twelve. Vouchers may be obtained by any qualified secondary student at any regents’ university upon completion of a college-bound program provided under subsection 1. Students may receive one voucher for each program. One or more vouchers entitle a student to priority over other persons applying for grants under the Iowa minority academic grants for economic success program established in section 261.101. Vouchers shall be submitted with the grant application within one year after a student graduates from high school at any higher education institution which offers grants under the Iowa minority academic grants for economic success program. Vouchers earned can only be used by the person who participated in the college-bound voucher program and are not transferable. Vouchers issued by a university under this program shall be signed by the president of the university.

3. The board of regents shall adopt rules to establish program guidelines for the universities under the board's control and for the administration and coordination of program efforts. Rules adopted shall include methods of recording data relating to voucher recipients and making the data available to the college student aid commission.

1. *a.* License practitioners, which includes the authority to establish criteria for the licenses; establish issuance and renewal requirements, provided that a continuing education requirement may be completed by electronic means; create application and renewal forms; create licenses that authorize different instructional functions or specialties; develop a code of professional rights and responsibilities, practices, and ethics, which shall, among other things, address the failure of a practitioner to fulfill contractual obligations under section 279.13, the failure of an administrator to protect the safety of staff and students, the failure of an administrator to meet mandatory reporter obligations, the refusal of a practitioner to implement provisions of an individualized education program or behavioral intervention plan, and habitual nonparticipation in professional development; and develop any other classifications, distinctions, and procedures which may be necessary to exercise licensing duties. In addressing the failure of a practitioner to fulfill contractual obligations, the board shall consider factors beyond the practitioner’s control.

b. Provide annually to any person who holds a license, certificate, authorization, or statement of recognition issued by the board, training relating to the knowledge and understanding of the board’s code of professional conduct and ethics. The board shall

develop a curriculum that addresses the code of professional conduct and ethics and shall annually provide regional training opportunities throughout the state.

c. Rules adopted pursuant to this subsection establishing licensure renewal requirements shall provide that up to half of the units needed for licensure renewal may be earned upon the successful completion of an individualized professional development plan as verified by the supervising licensed evaluator, or by successful completion of professional development courses or programs offered by a professional development program licensed by the board, or by a practitioner preparation institution or area education agency approved by the state board of education.

2. Establish, collect, and refund fees for a license.

3. Enter into reciprocity agreements with other equivalent state boards or a national certification board to provide for licensing of applicants from other states or nations.

4. Enforce rules adopted by the board through revocation or suspension of a license, or by other disciplinary action against a practitioner or professional development program licensed by the board of educational examiners. The board shall designate who may or shall initiate a licensee disciplinary investigation and a licensee disciplinary proceeding, and who shall prosecute a disciplinary proceeding and under what conditions, and shall state the procedures for review by the board of findings of fact if a majority of the board does not hear the disciplinary proceeding. However, in a case alleging failure of a practitioner to fulfill contractual obligations, the person who files a complaint with the board, or the complainant's designee, shall represent the complainant in a disciplinary hearing conducted in accordance with this chapter.

5. Apply for and receive federal or other funds on behalf of the state for purposes related to its duties.

6. Evaluate and conduct studies of board standards.

13. Adopt rules to provide for nontraditional preparation options for licensing persons who hold a bachelor's degree from an accredited college or university, who do not meet other requirements for licensure.

14. Adopt rules to determine whether an applicant is qualified to perform the duties for which a license is sought. The rules shall include all of the following:

a. The board may deny a license to or revoke the license of a person upon the board's finding by a preponderance of evidence that either the person has been convicted of an offense and the offense directly relates to the duties and responsibilities of the profession or that there has been a founded report of child abuse against the person. Rules adopted in accordance with this paragraph shall provide that in determining whether a person should be denied a license or that a practitioner's license should be revoked, the board shall consider the nature and seriousness of the founded abuse or offense in relation to the position sought, the time elapsed since the offense was committed, the degree of rehabilitation which has taken place since the incidence of founded abuse or the commission of the offense, the likelihood that the person will commit the same abuse or offense again, and the number of founded abuses committed by or criminal convictions of the person involved.

b. Notwithstanding paragraph "a", the rules shall require the board to disqualify an applicant for a license or to revoke the license of a person for any of the following reasons:

(1) The person entered a plea of guilty to, or has been found guilty of, any of the following offenses, whether or not a sentence is imposed:

(a) Any of the following forcible felonies included in section 702.11: child endangerment, assault, murder, sexual abuse, or kidnapping.

(b) Any of the following sexual abuse offenses, as provided in chapter 709, involving a child:

(f) Dissemination and exhibition of obscene material to minors under section 728.2.

(g) Telephone dissemination of obscene material to minors under section 728.15.

(h) Any offense specified in the laws of another jurisdiction, or any offense that may be prosecuted in federal, military, or foreign court, that is comparable to an offense listed in this subparagraph (1).

(i) Any offense under prior laws of this state or another jurisdiction, or any offense under prior law that was prosecuted in a federal, military, or foreign court, that is comparable to an offense listed in this subparagraph (1).

(2) The applicant is less than twenty-one years of age except as provided in section 272.31, subsection 1. However, a student enrolled in a practitioner preparation program who meets board requirements for a temporary, limited-purpose license who is seeking to teach as part of a practicum or internship may be less than twenty-one years of age.

(3) The applicant's application is fraudulent.

(4) The applicant's license or certification from another state is suspended or revoked.

(5) The applicant fails to meet board standards for application for an initial or renewed license. However, this subparagraph shall not apply to a person who applies for an initial one-year license and submits to the board a waiver issued by the director of the department of education in accordance with section 256.16, subsection 3.

c. Qualifications or criteria for the granting or revocation of a license or the determination of an individual's professional standing shall not include membership or nonmembership in any teachers' organization.

d. An applicant for a license or certificate under this chapter shall demonstrate that the requirements of the license or certificate have been met and the burden of proof shall be on the applicant. However, if the executive director of the board receives notice from the director of the department of education under section 256.9, subsection 17, that an error in the basic education data survey submission resulted in an incorrect determination relating to licensure of a practitioner, the executive director shall initiate corrective action with the board and the findings of the director of the department of education shall be sufficient evidence to correct such error.

e. The board may deny a license to or revoke the license of a person upon the board's finding by a preponderance of evidence that the person knowingly and intentionally discriminated against a student in violation of section 261H.2, subsection 3, or section 279.73.

15. Adopt rules that require specificity in written complaints that are filed by individuals who have personal knowledge of an alleged violation and which are accepted by the board, provide that the jurisdictional requirements as set by the board in administrative rule are met on the face of the complaint before initiating an investigation of allegations, provide that any investigation be limited to the allegations contained on the face of the complaint, provide for an adequate interval between the receipt of a complaint and public notice of the complaint,

permit parties to a complaint to mutually agree to a resolution of the complaint filed with the board, allow the respondent the right to review any investigative report upon a finding of probable cause for further action by the board, require that the conduct providing the basis for the complaint occurred within three years of discovery of the event by the complainant unless good cause can be shown for an extension of this limitation, and require complaints to be resolved within one hundred eighty days unless good cause can be shown for an extension of this limitation.

16. Adopt criteria for administrative endorsements that allow a person to achieve the endorsement authorizing the person to serve as an elementary or secondary principal without regard to the grade level at which the person accrued teaching experience.

17. Adopt rules to require that a background investigation be conducted by the division of criminal investigation of the department of public safety on all initial applicants for licensure. The board shall also require all initial applicants to submit a completed fingerprint packet and shall use the packet to facilitate a national criminal history background check. The board shall have access to, and shall review the sex offender registry information under section 692A.121 available to the general public, information in the Iowa court information system available to the general public, the central registry for child abuse information established under chapter 235A, and the dependent adult abuse records maintained under chapter 235B for information regarding applicants for license renewal.

18. May adopt rules for practitioners who are not eligible for a statement of professional recognition under subsection 10, but have received a baccalaureate degree and provide a service to students at any or all levels from prekindergarten through grade twelve for a school district, accredited nonpublic school, area education agency, or preschool program established pursuant to chapter 256C.

19. Adopt rules to provide in the board's code of professional conduct and ethics that any licensee of the board, who commits or solicits any sexual conduct as defined in section 709.15, subsection 3, paragraph "a", subparagraph (2), or solicits, encourages, or consummates a romantic relationship with any individual who was a student within ninety days prior to any such conduct alleged in a complaint initiated with the board, if the licensee taught the individual or supervised the individual in any school activity when the individual was a student, engages in unprofessional and unethical conduct that may result in disciplinary action by the board.

20. Adopt rules pursuant to chapter 17A establishing endorsements and authorizations for computer science instruction, including traditional and nontraditional pathways for obtaining such endorsements or authorizations.

21. Adopt rules under chapter 17A to prohibit the suspension or revocation of a license issued by the board to a person who is in default or is delinquent on repayment or a service obligation under federal or state postsecondary educational loans or public or private services-conditional postsecondary tuition assistance solely on the basis of such default or delinquency.

22. Adopt rules pursuant to chapter 17A to create a nonrenewable initial one-year license for an applicant who obtains a waiver issued by the director of the department of education in accordance with section 256.16, subsection 3, and presents the waiver within thirty days of issuance to the board of educational examiners. (a) Soliciting, encouraging, or consummating a romantic or otherwise inappropriate relationship with a student.

(b) Falsifying student grades, test scores, or other official information or material.

(c) Converting public property or funds to the personal use of the school employee.

(d) Being on school premises or at a school-sponsored activity involving students while under the influence of, possessing, using, or consuming illegal drugs, unauthorized drugs, or alcohol.

(2) The board of directors of a school district or area education agency, the superintendent of a school district, the chief administrator of an area education agency, and the authorities in charge of an accredited nonpublic school shall report to the board the nonrenewal or termination, for reasons of alleged or actual misconduct, of a person's contract executed under sections 279.12, 279.13, 279.15, 279.16, 279.18 through 279.21, 279.23, and 279.24, and the resignation of a person who holds a license, certificate, or authorization issued by the board as a result of or following an incident or allegation of misconduct that, if proven, would constitute a violation of the rules adopted by the board to implement section 272.2, subsection 14, paragraph "b", subparagraph (1); soliciting, encouraging, or consummating a romantic or otherwise inappropriate relationship with a student; falsifying student grades, test scores, or other official information or material; or converting public property or funds to the personal use of the school employee, when the board or reporting official has a good faith belief that the incident occurred or the allegation is true. 2. If, in the course of performing official duties, an employee of the department becomes aware of any alleged misconduct by an individual licensed under this chapter, the employee shall report the alleged misconduct to the board of educational examiners under rules adopted pursuant to subsection 1.

3. Information required to be reported to the board under this section shall be reported within thirty days of either of the following:

b. The date the employee becomes aware of alleged misconduct as required under subsection 2.

CHAPTER 272A

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.

272A.3 Contracts on file.

272A.2 Designated state official.

272A.1 Interstate agreement.

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose, findings, and policy.*

a. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

b. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary

§272A.1, INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL III-1230

to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

2. *Article II — Definitions.* As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

a. “Accept”, or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

b. “Designated state official” means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

c. “Educational personnel” means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

d. “Originating state” means a state, and the subdivision thereof, if any, whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.

e. “Receiving state” means a state, and the subdivisions thereof, which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

f. “State” means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

3. *Article III — Interstate educational personnel contracts.*

a. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official’s state.

b. Any such contract shall provide for:

(1) Its duration.

(2) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(3) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(4) Any other necessary matters.

c. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

d. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

e. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

f. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of

III-1231 INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL, §272A.2

improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

4. *Article IV — Approved and accepted programs.*

a. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

b. To the extent that contracts made pursuant to this agreement deal with the educational requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

5. *Article V — Interstate cooperation.* The party states agree that:

a. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

b. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

6. *Article VI — Agreement evaluation.* The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

7. *Article VII — Other arrangements.* Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

8. *Article VIII — Effect and withdrawal.*

a. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

b. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

c. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

9. *Article IX — Construction and severability.* This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

CHAPTER 272B
EDUCATION COMPACT

272B.1 Compact for education.
272B.2 Education commission of the states.

272B.3 Filing bylaws.

272B.1 Compact for education.

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose and policy.*

a. It is the purpose of this compact to:

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

b. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

c. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

2. *Article II — State defined.* As used in this compact, “state” means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

3. *Article III — The commission.*

a. The education commission of the states, hereinafter called “*the commission*”, is hereby established. The commission shall consist of seven members representing each party state.* One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

b. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to paragraph “j” of this article.

c. The commission shall have a seal.

d. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

f. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

g. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this

paragraph or services borrowed pursuant to paragraph “f” of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

h. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

i. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

j. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

4. *Article IV — Powers.* In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

a. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

b. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

c. Develop proposals for adequate financing of education as a whole and at each of its many levels.

d. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

e. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

f. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

5. *Article V — Cooperation with federal government.*

a. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

b. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

6. *Article VI — Committees.*

a. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

(1) Sixteen for one year and sixteen for two years.

(2) The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph “a” to the contrary notwithstanding, shall serve during their continuance in these offices.

(3) Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term.

(4) No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

b. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

c. The commission may establish such additional committees as its bylaws may provide.

7. *Article VII — Finance.*

a. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission’s budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

b. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

c. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph “g”, of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph “g”, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

e. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

f. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

8. *Article VIII — Eligible parties — entry into and withdrawal.*

a. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term “governor”, as used in this compact, shall mean the closest equivalent official of such jurisdiction.

b. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

c. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

9. *Article IX — Construction and severability.* This compact shall be liberally construed

so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

b. Adopt and enforce administrative rules which provide for the partial reexamination of the professional licensing examinations given by each licensing board.

c. Review or investigate, or both, upon written complaint or upon its own motion pursuant to other evidence received by the board, alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rule for licensee discipline.

d. Determine in any case whether an investigation, or further investigation, or a disciplinary proceeding is warranted. Notwithstanding the provisions of chapter 17A, a determination by a licensing board that an investigation is not warranted or that an investigation should be closed without initiating a disciplinary proceeding is not subject to judicial review pursuant to section 17A.19.

e. Initiate and prosecute disciplinary proceedings.

f. Impose licensee discipline.

g. Petition the district court for enforcement of its authority with respect to licensees

or with respect to other persons violating the laws which the board is charged with administering.

h. Register or establish and register peer review committees.

i. Refer to a registered peer review committee for investigation, review, and report to the board, any complaint or other evidence of an act or omission which the board reasonably believes to constitute cause for licensee discipline. However, the referral of any matter shall not relieve the board of any of its duties and shall not divest the board of any authority or jurisdiction.

j. Determine and administer the renewal of licenses for periods not exceeding three years.

k. Establish a licensee review committee for the purpose of evaluating and monitoring licensees who are impaired as a result of alcohol or drug abuse, dependency, or addiction, or by any mental or physical disorder or disability, and who self-report the impairment to the committee, or who are referred by the board to the committee. Members of the committee shall receive actual expenses for the performance of their duties and shall be eligible to receive per diem compensation pursuant to section 7E.6. The board shall adopt rules for the establishment and administration of the committee, including but not limited to establishment of the criteria for eligibility for referral to the committee and the grounds for disciplinary action for noncompliance with committee decisions. Information in the possession of the board or the licensee review committee, under this paragraph, shall be subject to the confidentiality requirements of section 272C.6. Referral of a licensee by the board to a licensee review committee shall not relieve the board of any duties of the board and shall not divest the board of any authority or jurisdiction otherwise provided. A licensee who violates section 272C.10 or the rules of the board while under review by the licensee review committee shall be referred to the board for appropriate action.

2. Each licensing board may impose one or more of the following as licensee discipline:

a. Revoke a license, or suspend a license either until further order of the board or for a specified period, upon any of the grounds specified in section 100D.5, 105.22, 147.55, 148.6, 148B.7, 152.10, 153.34, 154A.24, 169.13, 455B.219, 542.10, 542B.21, 543B.29, 544A.13, 544B.15, or 602.3203 or chapter 151 or 155, as applicable, or upon any other grounds specifically provided for in this chapter for revocation of the license of a licensee subject to the jurisdiction of that board, or upon failure of the licensee to comply with a decision of the board imposing licensee discipline.

b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care.

c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions.

d. Require additional professional education or training, or reexamination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension.

e. Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline.

f. Issue a citation and warning respecting licensee behavior which is subject to the imposition of other sanctions by the board.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. The powers of any other person specified elsewhere in the Code shall not limit the powers of a licensing board conferred by this section, nor shall the powers of such other person be deemed limited by the provisions of this section.

4. *a.* Nothing contained in this section shall be construed to prohibit informal stipulation and settlement by a board and a licensee of any matter involving licensee discipline. However,

licensee discipline shall not be agreed to or imposed except pursuant to a written decision which specifies the sanction and which is entered by the board and filed.

b. All health care boards shall file written decisions which specify the sanction entered by the board with the Iowa department of public health which shall be available to the public upon request. All non-health care boards shall have on file the written and specified decisions and sanctions entered by the board and shall be available to the public upon request.

Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

3. *a.* The presiding officer of a hearing panel may issue subpoenas pursuant to rules of the board on behalf of the board or on behalf of the licensee. A licensee may have subpoenas issued on the licensee's behalf.

(1) A subpoena issued under the authority of a licensing board may compel the attendance of witnesses and the production of professional records, books, papers, correspondence and other records, whether or not privileged or confidential under law, which are deemed necessary as evidence in connection with a disciplinary proceeding.

(2) Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10.

(3) In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court.

b. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

4. *a.* In order to assure a free flow of information for accomplishing the purposes of this section, and notwithstanding section 622.10, all complaint files, investigation files, other investigation reports, and other investigative information in the possession of a licensing board or peer review committee acting under the authority of a licensing board or its employees or agents which relates to licensee discipline are privileged and confidential, and are not subject to discovery, subpoena, or other means of legal compulsion for their release to a person other than the licensee and the boards, their employees and agents involved in licensee discipline, and are not admissible in evidence in a judicial or administrative proceeding other than the proceeding involving licensee discipline. However, investigative information in the possession of a licensing board or its employees or agents which relates to licensee discipline may be disclosed to appropriate licensing authorities within this state, the appropriate licensing authority in another state, the coordinated licensure information system provided for in the nurse licensure compact contained in section 152E.1 or the advanced practice registered nurse compact contained in section 152E.3, the District of Columbia, or a territory or country in which the licensee is licensed or has applied for a license. If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

b. Pursuant to the provisions of section 17A.19, subsection 6, a licensing board upon an appeal by the licensee of the decision by the licensing board, shall transmit the entire record of the contested case to the reviewing court.

c. Notwithstanding the provisions of section 17A.19, subsection 6, if a waiver of privilege has been involuntary and evidence has been received at a disciplinary hearing, the court shall order withheld the identity of the individual whose privilege was waived.

5. Licensee discipline shall not be imposed except upon the affirmative vote of a majority of the licensing board.

6. *a.* A board created pursuant to chapter 147, 154A, 155, 169, 542, 542B, 543B, 543D, 544A, or 544B may charge a fee not to exceed seventy-five dollars for conducting a disciplinary hearing pursuant to this chapter which results in disciplinary action taken against the licensee by the board, and in addition to the fee, may recover from a licensee the costs for the following procedures and associated personnel:

- (1) Transcript.
- (2) Witness fees and expenses.
- (3) Depositions.
- (4) Medical examination fees incurred relating to a person licensed under chapter 147, 154A, 155, or 169.

b. The department of agriculture and land stewardship, the department of commerce, and the Iowa department of public health shall each adopt rules pursuant to chapter 17A which provide for the allocation of fees and costs collected pursuant to this section to the board under its jurisdiction collecting the fees and costs. The fees and costs shall be considered repayment receipts as defined in section 8.2.

Employees of the board shall be employed subject to chapter 8A, subchapter IV. The qualifications of the executive secretary shall be determined by the board.

272C.9 Duties of licensees.

1. Each licensee of a licensing board, as a condition of licensure, is under a duty to submit to a physical, mental, or clinical competency examination when directed in writing by the board for cause. All objections shall be waived as to the admissibility of the examining physician's testimony or reports on the grounds of privileged communications. The medical testimony or report shall not be used against the licensee in any proceeding other than one relating to licensee discipline by the board, or one commenced in district court for revocation of the licensee's privileges. The licensing board, upon probable cause, shall have the authority to order a physical, mental, or clinical competency examination, and upon refusal of the licensee to submit to the examination the licensing board may order that the allegations pursuant to which the order of physical, mental, or clinical competency examination was made shall be taken to be established.

2. A licensee has a continuing duty to report to the licensing board by whom the person is licensed those acts or omissions specified by rule of the board pursuant to section 272C.4, subsection 6, when committed by another person licensed by the same licensing board. This subsection does not apply to licensees under chapter 542 when the observations are a result of participation in programs of practice review, peer review and quality review conducted by professional organizations of certified public accountants, for educational purposes and approved by the accountancy examining board.

3. A licensee shall have a continuing duty and obligation, as a condition of licensure, to report to the licensing board by which the licensee is licensed every adverse judgment in a professional or occupational malpractice action to which the licensee is a party, and every settlement of a claim against the licensee alleging malpractice.

4. A licensee who willfully fails to comply with subsection 2 or 3 of this section commits a violation of this chapter for which licensee discipline may be imposed.

A licensing board established after January 1, 1978, and pursuant to the provisions of this chapter shall by rule include provisions for the revocation or suspension of a license which shall include but is not limited to the following:

1. Fraud in procuring a license.
2. Professional incompetency.
3. Knowingly making misleading, deceptive, untrue, or fraudulent representations in the practice of the licensee's profession or engaging in unethical conduct or practice harmful or detrimental to the public. Proof of actual injury need not be established.

4. Habitual intoxication or addiction to the use of drugs.

5. Conviction of a felony offense, if the offense directly relates to the profession or occupation of the licensee, in the courts of this state or another state, territory, or country. Conviction as used in this subsection includes a conviction of an offense which if committed in this state would be a felony without regard to its designation elsewhere, and includes a finding or verdict of guilt made or returned in a criminal proceeding even if the adjudication

of guilt is withheld or not entered. A certified copy of the final order or judgment of conviction or plea of guilty in this state or in another state constitutes conclusive evidence of the conviction.

6. Fraud in representations as to skill or ability.

Insurance carriers which insure professional and occupational licensees for acts or omissions that constitute negligence, careless acts, or omissions in the practice of a profession or occupation shall file reports with the appropriate licensing board. 272C.12 Licensure of persons licensed in other jurisdictions.

1. Notwithstanding any other provision of law, an occupational or professional license, certificate, or registration, including a license, certificate, or registration issued by the board of educational examiners, shall be issued without an examination to a person who establishes residency in this state or to a person who is married to an active duty member of the military forces of the United States and who is accompanying the member on an official permanent change of station to a military installation located in this state if all of the following conditions are met:

a. The person is currently licensed, certified, or registered by at least one other issuing jurisdiction in the occupation or profession applied for with a substantially similar scope of practice and the license, certificate, or registration is in good standing in all issuing jurisdictions in which the person holds a license, certificate, or registration.

b. The person has been licensed, certified, or registered by another issuing jurisdiction for at least one year.

c. When the person was licensed by the issuing jurisdiction, the issuing jurisdiction imposed minimum educational requirements and, if applicable, work experience and clinical supervision requirements, and the issuing jurisdiction verifies that the person met those requirements in order to be licensed in that issuing jurisdiction.

d. The person previously passed an examination required by the other issuing jurisdiction for licensure, certification, or registration, if applicable.

e. The person has not had a license, certificate, or registration revoked and has not voluntarily surrendered a license, certificate, or registration in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the appropriate licensing board shall determine if the cause for the action was corrected and the matter resolved. If the licensing board determines that the matter has not been resolved by the jurisdiction imposing discipline, the licensing board shall not issue or deny a license, certificate, or registration to the person until the matter is resolved.

g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the appropriate licensing board shall not issue or deny a license, certificate, or registration to the person until the complaint, allegation, or investigation is resolved.

h. The person pays all applicable fees.

i. The person does not have a criminal history that would prevent the person from holding the license, certificate, or registration applied for in this state.

2. A person licensed pursuant to this section is subject to the laws regulating the person's practice in this state and is subject to the jurisdiction of the appropriate licensing board.

3. This section does not apply to any of the following:

a. The ability of a licensing board, agency, or department to require the submission of fingerprints or completion of a criminal history check.

b. Criteria for a license, certificate, or registration that is established by an interstate compact.

c. The ability of a licensing board, agency, or department to require a person to take and pass an examination specific to the laws of this state prior to issuing a license. A licensing board, agency, or department that requires an applicant to take and pass an examination specific to the laws of this state shall issue an applicant a temporary license that is valid for a period of three months and may be renewed once for an additional period of three months.

d. A license issued by the department of transportation.

e. A person who is licensed by another issuing jurisdiction and is granted a privilege to practice in this state by another provision of law without receiving a license in this state.

f. A person applying for a license through a national licensing organization.

4. A license, certificate, or registration issued pursuant to this section does not grant the person receiving the license, certificate, or registration eligibility to practice pursuant to an interstate compact. A licensing board shall determine eligibility for a person to hold a license, certificate, or registration pursuant to this section regardless of the person's eligibility to practice pursuant to an interstate compact.

5. For the purposes of this section, "issuing jurisdiction" means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

2020 Acts, ch 1103, §26, 31

272C.13 Educational requirements — work experience.

1. Except as provided in subsection 2, a person applying for a professional or occupational license, certificate, or registration in this state who relocates to this state from another state that did not require a professional or occupational license, certificate, or registration to practice the person's profession or occupation may be considered to have met any education, training, or work experience requirements imposed by a licensing board in this state if the person has three or more years of related work experience with a substantially similar scope of practice within the four years preceding the date of application as determined by the board.

2. This section does not apply to a license, certificate, or registration issued by the board of medicine, the board of nursing, the dental board, the board of pharmacy, or the board of educational examiners.

3. If this Code or administrative rules require a person applying for a professional or occupational license, certificate, or registration in this state to pass an examination to obtain the license, certificate, or registration, a person applying for licensure, certification, or registration under this section shall be required to pass the same examination.

2020 Acts, ch 1103, §27, 31

272C.14 Waiver of fees.

A licensing board, agency, or department shall waive any fee charged to an applicant for a license if the applicant's household income does not exceed two hundred percent of the federal poverty income guidelines and the applicant is applying for the license for the first time in this state.

2020 Acts, ch 1103, §28, 31

272C.15 Disqualifications for criminal convictions limited.

1. Notwithstanding any other provision of law to the contrary, except for chapter 272, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public safety exists because the offense directly

relates to the duties and responsibilities of the profession and the appropriate licensing board, agency, or department does not grant an exception pursuant to subsection 4.

2. A licensing board, agency, or department that may deny a license on the basis of an applicant's conviction record shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

3. A licensing board, agency, or department shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on other similar basis.

4. A licensing board, agency, or department shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

a. The nature and seriousness of the crime for which the applicant was convicted.

b. The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of section 709.4, a sexually violent offense as defined in section 229A.2, dependent adult abuse in violation of section 235B.20, a forcible felony as defined in section 702.11, or domestic abuse assault in violation of section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

c. The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

d. The age of the applicant at the time the offense was committed.

e. Any treatment undertaken by the applicant.

f. Whether a certification of employability has been issued to the applicant pursuant to section 906.19.

g. Any letters of reference submitted on behalf of the applicant.

h. All other relevant evidence of rehabilitation and present fitness of the applicant.

5. An applicant may petition the relevant licensing board, agency, or department, in a form prescribed by the board, agency, or department, for a determination as to whether the applicant's criminal record will prevent the applicant from receiving a license. The board, agency, or department shall issue such a determination at the next regularly scheduled meeting of the board, agency, or department or within thirty days of receiving the petition, whichever is later. The board, agency, or department shall hold a closed session while determining whether an applicant's criminal record will prevent the applicant from receiving a license and while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. A board, agency, or department may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed twenty-five dollars.

6. a. A licensing board, agency, or department that denies an applicant a license solely or partly because of the applicant's prior conviction of a crime shall notify the applicant in writing of all of the following:

(1) The grounds for the denial or disqualification.

(2) That the applicant has the right to a hearing to challenge the licensing authority's decision.

(3) The earliest date the applicant may submit a new application.

(4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

b. A determination by a licensing board, agency, or department that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in subsection 4 sufficient for a review by a court.

c. In any administrative or civil hearing authorized by this section or chapter 17A, a licensing board, agency, or department shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

7. A board, agency, or department may require an applicant with a criminal record to submit the applicant’s complete criminal record detailing an applicant’s offenses with an application. A board, agency, or department may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant’s occupation. For the purposes of this subsection, “*complete criminal record*” includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

272C.16 Apprenticeships — licensure.

1. Notwithstanding any provision of law to the contrary, except as provided in chapters 100C, 100D, 103, and 105, beginning on January 1, 2022, a board shall grant a license to a person who completes an apprenticeship program in the relevant occupation or profession and submits an application pursuant to this section.

2. A board may require an applicant to pass an examination prior to licensure if the board requires an applicant who has completed an educational program to pass an examination prior to licensure. A board shall not require an applicant to receive a higher score on the examination than the score required of an applicant who completes an educational program.

3. A board may require an applicant to pay a licensing fee if the board requires an applicant who has completed an educational program to pay a licensing fee. A board shall not impose a licensing fee greater than the licensing fee imposed on an applicant who completes an educational program.

4. A board shall not require an applicant to complete an apprenticeship program of a greater duration than is required by federal law for that program.

5. For the purposes of this section, “*apprenticeship program*” means the same as defined in section 15B.2.

6. a. A board shall adopt rules to implement this section upon receipt of a petition for rulemaking submitted pursuant to section 17A.7.

b. A board shall not grant a license pursuant to this section prior to the effective date of rules adopted by the board to implement this section.

2. An area education agency established under this chapter is a body politic as a school

corporation for the purpose of exercising powers granted under this chapter, and may sue and be sued. An area education agency may hold property and execute purchase agreements within two years of a disaster as defined in section 29C.2, subsection 4, and lease-purchase agreements pursuant to section 273.3, subsection 7, and if the lease-purchase agreement exceeds ten years or the purchase price of the property to be acquired pursuant to a purchase or lease-purchase agreement exceeds the amount stated in section 26.3, subsection 1, the area education agency shall conduct a public hearing on the proposed purchase or lease-purchase agreement and receive approval from the area education agency board of directors and the state board of education or its designee before entering into the agreement.

The programs and services provided shall be at least commensurate with programs and services existing on July 1, 1974. The programs and services provided to pupils enrolled in nonpublic schools shall be comparable to programs and services provided to pupils enrolled in public schools within constitutional guidelines.

a. In-service training programs for employees of school districts and area education agencies, provided at the time programs and services are established they do not duplicate programs and services available in that area from the universities under the state board of regents and from other universities and four-year institutions of higher education in Iowa. The in-service training programs shall include but are not limited to regular training concerning mental or emotional disorders which may afflict children and the impact children with such disorders have upon their families.

system consistent with the federal American Recovery and Reinvestment Act of 2009. The area education agencies shall provide support to school districts' information technology infrastructure that is consistent with the statewide infrastructure for the educational data collaborative.

9. The area education agency boards shall jointly develop a three-year statewide strategic plan that supports goals adopted by the state board of education pursuant to section 256.7, subsection 4, and the accreditation standards established pursuant to section 256.11; establish performance goals; and clearly identify the statewide efforts to improve student learning and create efficiencies in management operations for area education agencies and school districts. 273.22 Contracts of new area education agency.

1. The terms of employment of the administrator and staff of affected area education agencies for the school year beginning with the effective date of the formation of the new area education agency shall not be affected by the formation of the new area education agency, except in accordance with the provisions of sections 279.15 through 279.18, and 279.24, and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 through 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing area education agencies to the board of the new area education agency following approval of the reorganization plan by the state board as provided in section 273.21, subsection 4.

2. a. The collective bargaining agreement of the area education agency with the largest basic enrollment, as defined in section 257.6, for the year prior to the year the reorganization is effective, shall serve as the base agreement in the new area education agency and the employees of the other area education agencies involved in the formation of the new area education agency shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the area education agencies that are party to the reorganization, that agreement shall serve as the base agreement, and the employees of the other agencies involved in the formation of the new area education agency shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board.

b. The board of the newly formed area education agency, using the base agreement as its existing contract, shall bargain with the combined employees of the affected agencies for the school year that begins on the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the affected agency with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective year of the reorganization, the base agreement shall remain in effect as specified in the agreement.

c. The provisions of the base agreement shall apply to the offering of new contracts or continuation, modification, or termination of existing contracts as provided in subsection 1.

3. The terms of a contract between the board of directors of a school district and the board of directors of an affected area education agency shall be carried out by the school board and the board of directors of the newly formed area education agency except as provided in this section.

4. The board of directors of a school district that is under a contract with an affected area education agency may petition the boards of directors of the affected area education agencies for release from the contract. If the petition receives a majority of the votes cast by the members of the boards of the affected area education agencies, the petition is approved and the contract shall be terminated on the effective date of the area education agency reorganization.

5. Not later than fifteen days after the state board notifies an area education agency of its approval of the area education agency's reorganization plan or dissolution proposal, the area education agency shall notify, by certified mail, the school districts located within the area education agency boundaries, the school districts and area education agencies that

are contiguous to its boundaries, and any other school district under contract with the area education agency, of the state board's approval of the plan or proposal, and shall provide the department of education with a copy of any notice sent in accordance with this subsection. A petition to join an area education agency or for release from a contract with an area education agency, in accordance with subsections 4, 6, and 7, shall be filed not later than forty-five days after the state board approves a reorganization plan or dissolution proposal in accordance with this chapter.

Within forty-five days of the state board's approval, the board of directors of a school district that is contiguous to a newly reorganized area education agency may petition the board of directors of their current area education agency and the newly reorganized area education agency to join the newly reorganized area education agency. If the initial, or new board if established in time under section 273.23, subsection 3, and the board of the contiguous area education agency approve the petition, the reorganization, including any school district whose petition to join the newly reorganized area education agency has been approved, shall take effect in accordance with the dates established under section 273.21, subsection 4. Both the initial, or new, and the contiguous area education agency boards must act within forty-five days of the deadline, as set forth in this subsection, for the filing of the school district's petition. Within ten days of an area education agency board's action, a school district may appeal to the state board the decision of an area education agency board to deny the school district's petition.

7. Within forty-five days of the state board's approval, the board of directors of a school district that is within a newly reorganized area education agency and whose school district is contiguous to another area education agency not included in the newly reorganized area education agency may petition the board of directors of the newly reorganized area education agency and the contiguous area education agency to join that area education agency. If the initial, or new board if established in time under section 273.23, subsection 3, and the board of the contiguous area education agency approve the petition, the reorganization, excluding any school district whose petition to join an area education agency contiguous to the newly reorganized area education agency has been approved, shall take effect in accordance with the dates established under section 273.21, subsection 4. Both the initial, or new, and the contiguous area education agency boards must act within forty-five days of the deadline, as set forth in this subsection, for the filing of the school district's petition. The petition shall specify the number of directors to be retained from each area, and those numbers shall be proportionate to the populations of the agencies. If the proportionate balance of directors among the affected agencies specified in the plan is affected by school districts petitioning to be excluded from the reorganization, or if the proposal specified in the plan does not comply with the requirement for proportionate representation, the state board shall modify the proposal. However, all area education agencies affected shall retain at least one member.

2. Prior to the organization meeting of the board of directors of the newly formed area education agency, the boards of the former area education agencies shall designate directors to be retained as members to serve on the initial board of the newly formed area education agency. A vacancy occurs if an insufficient number of former board members reside within the newly formed area education agency's boundaries or if an insufficient number of former board members are willing to serve on the board of the newly formed area education agency. Vacancies, as defined in section 277.29, in the membership of the newly formed area education agency board shall be filled for the unexpired portion of the term at a director

The new board shall have control of the employment of all personnel for the newly formed area education agency for the ensuing school year. Following the organization of the new board, the board shall have authority to establish policy, enter into contracts, and complete such planning and take such action as is essential for the efficient management of the newly formed area education agency.

4. The initial board of the newly formed district shall appoint an acting administrator and an acting board secretary. The appointment of the acting administrator shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

The board shall give notice of a public hearing on the proposed budget by publication in an official county newspaper in each county in the territory of the area education agency in which the principal place of business of a school district that is a part of the area education agency is located. The notice shall specify the date, which shall not be later than March 1, the time, and the location of the public hearing. The proposed budget as approved by the board shall be submitted to the state board, on forms provided by the department, no later than March 15 for approval. The state board shall review the proposed budget of the newly formed area education agency and shall, before May 1, either grant approval or return the budget without approval with comments of the state board included. An unapproved budget shall be resubmitted to the state board for final approval not later than May 15. The state board shall give final approval only to budgets submitted by area education agencies accredited by the state board or that have been given conditional accreditation by the state board.

8. For the school year beginning on the effective date of an area education agency reorganization as provided in this subchapter, the special education support services cost per pupil shall be based upon the combined base year budgets for special education support services of the area education agencies that reorganized to form the newly formed area education agency, divided by the total of the weighted enrollment for special education support services in the reorganized area education agency for the base year plus the supplemental state aid amount per pupil for special education support services for the budget year as calculated in section 257.8.

9. Within one year of the effective date of the reorganization, a newly formed area education agency shall meet the accreditation requirements set forth in section 273.10, and the standards set forth in section 273.11. The newly formed area education agency shall be considered accredited for purposes of budget approval by the state board pursuant to section 273.3. The state board shall inform the newly formed area education agency of the accreditation on-site visit schedule.

11. Unless the reorganization of an area education agency takes effect less than two years before the taking of the next federal decennial census, a newly formed area education agency shall, within one year of the effective date of the reorganization, redraw the boundary lines of director districts in the area education agency if a petition filed by a school district to join the newly formed area education agency, or for release from the newly formed area education agency, in accordance with section 273.22, subsections 4, 6, and 7, was approved. If twenty percent or more of the school districts within an area education agency file a petition by March 1 with the area education agency board to consider dissolving, the area education agency board shall consider the request and vote on the petition. 2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:

a. Election at large from the entire district by the electors of the entire district.

b. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district but who shall be elected by the vote of the electors of the entire school district. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. As far as practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multimember director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

In districts having seven directors, election of three directors at large by the electors of the entire district, no more than two at each regular school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts, no more than two at each regular school election. Boundaries of the subdistricts shall follow precinct boundaries, as far as practicable, and shall not be changed less than sixty days prior to the regular school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. a. The area education agency board in reviewing a petition as provided in sections 275.15 and 275.16 that is not subject to the division of assets and liabilities provisions in

sections 275.29 through 275.31 shall review the proposal for dividing liability for payment of outstanding bonds issued under section 423E.5 or 423F.4, required to be included under section 275.28, and may change or amend the proposal in any manner, including to specify a different division for the reorganized districts or a different method of payment or retirement of the bonds as may be required by law, justice, equity, and the interest of the people. The review conducted by the area education agency, including any resulting change to the proposal, shall ensure that the reorganized district's estimated revenue under section 423F.2 is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following the reorganization.

b. For bonds issued under section 423E.5 or 423F.4, the approval of the reorganization at election creates a lien on the revenues from the secure an advanced vision for education fund received by the reorganized district designated in the proposal approved by the area education agency, subject to the same priority as provided by the affected school district that issued the bonds.

6. The petition may include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.18. The petition may also include a provision that the revenue purpose statement provided in section 423F.3 will be voted upon at the election conducted under section 275.18.

At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.

2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

3. If the petition is not dismissed and the board determines that additional information is required in order to fix boundary lines of the proposed school corporation, the board may continue the hearing for no more than thirty days. The date of the continued hearing shall be announced at the original meeting. Additional objections in the form required in section 275.14 may be considered if filed with the administrator within five days, not including Saturdays, Sundays, or holidays, after the date of the original board hearing. 275.16 Hearing when territory in different area education agencies.

1. If the territory described in the petition for the proposed corporation lies in more than

one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

2. Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. At the hearing the joint board shall reconsider its action and if a tie vote is again cast it is a decision granting the petition and changing the plans of any and all of the agency boards affected by the petition and fixing the boundaries for the proposed school corporation. The agency administrator shall at once publish the decision in the same newspaper in which the original notice was published.

3. In case a controversy arises from such meeting, the area education agency board or boards or any school district aggrieved may bring the controversy to the department of education, as provided in section 275.8, within twenty days from the publication of this order, and if said controversy is taken to the department of education, a ten-day notice in writing shall be given to all agency boards and school districts affected or portions thereof. The department shall have the authority to affirm the action of the joint boards, to vacate, to dismiss all proceedings or to make such modification of the action of the joint boards as in their judgment would serve the best interest of all the agencies.

4. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs “b”, “c”, “d”, and “e”, shall be divided into director districts according to the following standards:

a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

b. To the extent possible in order to comply with paragraph “a”, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. A city shall not be divided into two or more director districts unless the population of that portion of the city that is within the school district is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the second year immediately following the year in which the federal decennial census is taken and no later than May 15 of the third year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with the area education agency administrator of the area education agency in which the school’s electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of

signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "c". If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel and materials available to the legislative services agency to assist the state commissioner in making any required boundary changes.

4. If more than one incumbent director resides in a redrawn director district, the terms of office of the affected directors expire at the organizational meeting of the board of directors following the next regular school election following the adoption of the redrawn districts.

5. The boundary changes under this section take effect July 1 following their adoption for the next regular school election.

6. Section 275.9 and sections 275.14 through 275.23 do not apply to changes in director district boundaries made under this section.

c. If the special election is held in conjunction with the regular school election, the filing deadlines for the regular school election apply.

2. a. The number of directors of a school district is either five or seven as provided in section 275.12. In school districts that include a city of fifteen thousand or more population as shown by the most recent decennial federal census, the board shall consist of seven members elected in the manner provided in subsection 3. If it becomes necessary to increase the membership of a board, two directors shall be added according to the procedure described in section 277.23.

b. The county board of supervisors shall canvass the votes and the county commissioner of elections shall report the results to the area education agency administrator who shall notify the persons who are elected directors.

3. The directors who are elected and qualify to serve shall serve until their successors are elected and qualify. At the special election, the three newly elected directors receiving the most votes shall be elected to serve until their successors qualify after the third regular school election date occurring after the effective date of the reorganization and the two newly elected directors receiving the next largest number of votes shall be elected to serve until the directors' successors qualify after the second regular school election date occurring after the effective date of the reorganization. However, in districts that include all or a part of a city of fifteen thousand or more population and in districts in which the proposition to establish a new corporation provides for the election of seven directors, the timelines specified in this subsection for the terms of office apply to the four newly elected directors receiving the most votes and then to the three newly elected directors receiving the next largest number of votes.

4. The board of the newly formed district shall organize within fifteen days after the special election upon the call of the area education agency administrator. The new board shall have control of the employment of personnel for the newly formed district for the next following school year under section 275.33. Following the first organizational meeting of the board of the newly formed district, the board may establish policy, organize curriculum, enter into contracts, complete planning, and take action as necessary for the efficient management of the newly formed community school district.

5. Section 49.8, subsection 5, does not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies caused by this occurrence on a board shall be filled in the manner provided in sections 279.6 and 279.7.

6. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

1. If a district is established or changes its boundaries it shall pay all expenses incurred by the area education agency administrator and the area education agency board in connection with the proceedings. The county commissioner of elections shall assess the costs of the election against the district as provided in section 47.3. If the proposition is dismissed or defeated at the election, all expenses shall be apportioned among the several districts in proportion to the assessed valuation of property therein.

2. If the proposed district or boundary change embraces territory in more than one area education agency, such expenses shall be certified to and, if necessary, apportioned among the several districts by the joint agency board. If in only one agency, the certification shall be made by the agency administrator.

3. The respective boards to which such expenses are certified shall audit and order the same paid from the general fund. In the event of failure of any board to so audit and pay the expenses certified to it, the area education agency administrator shall certify the expenses to the county auditor in the same manner as is provided for tuition claims in section 282.21 and the funds shall be transferred by the county treasurer from the debtor district to the agency board for payment of said expenses.

275.27 Community school districts — part of area education agency.

School districts created or enlarged under this chapter are community school districts and are part of the area education agency in which the greatest number of registered voters of the district reside at the time of the special election called for in section 275.18, and sections of the Code applicable to public or accredited nonpublic schools generally are applicable to these districts in addition to the powers and privileges conferred by this chapter. If a school district, created or enlarged under this chapter and assigned to an area education agency under this section, can demonstrate that students in the district were utilizing a service or program prior to the formation of the new or enlarged district that is unavailable from the area education agency to which the new or enlarged district is assigned, the district may be reassigned to the area education agency which formerly provided the service or program, upon an affirmative majority vote of the boards of the affected area education agencies to permit the change.

275.28 Plan of division of assets and liabilities.

In addition to setting up the territory to comprise the reorganized districts, a reorganization petition shall provide for a division of assets and liabilities of the districts affected among the reorganized districts. However, if territory is excluded from the reorganized district by the petition or by the area education agency board of directors, the division of all assets and liabilities shall be made under the provisions of sections 275.29 through 275.31.

275.29 Division of assets and liabilities after reorganization.

1. Between July 1 and July 20, or on a date determined by agreement of the initial board and the boards of districts receiving territory of the school districts affected, but not later than August 30, the initial board shall meet with the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets and an equitable distribution of the liabilities of the school districts affected. In addition, if outstanding general obligation indebtedness is in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of

all school districts affected prior to April 15 prior to the school year the reorganization is effective to determine the distribution of liability for payment of the general obligation bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. The boards shall consider the mandatory levy required in section 76.2 and shall assure the satisfaction of outstanding obligations. If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the joint agreement shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

2. For bonds issued under section 423E.5 or 423F.4, the approval of the joint agreement creates a lien on the revenues from the secure an advanced vision for education fund received by the school district to which liability is assigned, subject to the same priority as provided by the affected school district that issued the bonds.

275.30 Arbitration.

1. If the boards cannot agree on such division and distribution, the matters on which they differ shall be decided by disinterested arbitrators, one selected by the initial board of directors of the newly formed district, one selected jointly by the boards of directors of contiguous districts receiving territory of the school districts affected, and one selected by the area education agency administrator.

2. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. The appeal shall be tried in equity and a decree entered determining the entire matter, including the levy, collection, and distribution of any necessary taxes.

3. *a.* If a school district affected by the reorganization has outstanding bonds issued under section 423E.5 or 423F.4, the arbitrators' decision and any decision of the court on appeal shall assure that the estimated revenue under section 423F.2 for each district to which liability for payment of such bonds is assigned is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following reorganization.

b. 275.31 Taxes and appropriation to effect equalization.

1. If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. When the board or boards are considering the equalization levy, the division and distribution shall not impair the security for outstanding obligations of each affected corporation. Any owner of bonds of an affected corporation may bring suit in equity for adjustment of the division and distribution in compliance with this section. If the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness for a newly formed community school district is greater

than the property tax levy for the amount estimated and certified to apply on principal and interest in the year preceding the reorganization or dissolution for a school district that is a party to the reorganization or dissolution, that had a certified enrollment of less than six hundred for the year prior to the reorganization or dissolution, and that approved the reorganization or dissolution prior to July 1, 1989, the board of the newly formed district shall inform the department of management. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

2. For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.

3. Not later than May 1 of each year, the department of management shall inform the board of the newly formed school district the amount of debt service aid that the district will receive and the rate of the property tax levy for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness in the portion of the newly formed district where the new rate would have been higher, and for the remainder of the newly formed district. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. The county auditor shall spread the applicable property tax levy for each portion of a school district over all taxable property in that portion of the district.

275.33 Contracts of new district.

1. The terms of employment of superintendents, principals, and teachers, for the school year following the effective date of the formation of the new district shall not be affected by the formation of the new district, except in accordance with the provisions of sections 279.15 through 279.18 and 279.24 and the authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to sections 279.12, 279.13, 279.15 through 279.21, 279.23, and 279.24 for the school year beginning with the effective date of the reorganization shall be transferred from the boards of the existing districts to the board of the new district on the third Tuesday of January prior to the school year the reorganization is effective.

2. a. The collective bargaining agreement of the district with the largest basic enrollment for the year prior to the reorganization, as defined in section 257.6, in the new district shall serve as the base agreement and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the contracts for the following years without further action by the public employment relations board. If only one collective bargaining agreement is in effect among the districts which are party to the reorganization, then that agreement shall serve as the base agreement, and the employees of the other districts involved in the formation of the new district shall automatically be accreted to the bargaining unit of that collective bargaining agreement for purposes of negotiating the

contracts for the following years without further action by the public employment relations board.

b. The board of the newly formed district, using the base agreement as its existing contract, shall bargain with the combined employees of the existing districts for the school year beginning with the effective date of the reorganization. The bargaining shall be completed by the dates specified in section 20.17 prior to the school year in which the reorganization becomes effective or within one hundred eighty days after the organization of the new board, whichever is later. If a bargaining agreement was already concluded by the board and employees of the existing district with the contract serving as the base agreement for the school year beginning with the effective date of the reorganization, that agreement shall be void. However, if the base agreement contains multiyear provisions affecting school years subsequent to the effective date of the reorganization, the base agreement shall remain in effect as specified in the agreement.

c. The provisions of the base agreement shall apply to the offering of new contracts, or continuation, modification, or termination of existing contracts as provided in subsection 1.

1. A school district may change the number of directors to either five or seven and may also change its method of election of school directors to any method authorized by section 275.12 by submission of a proposal, stating the proposed new method of election, by the school board of such district to the electors at an election held on a date specified in section 39.2, subsection 4, paragraph “c”. The school board shall notify the county commissioner of elections who shall publish notice of the election in the manner provided in section 49.53. The election shall be conducted pursuant to chapters 39 through 53 by the county commissioner of elections. Such proposal shall be adopted if it is approved by a majority of the votes cast on the proposition.

2. If the proposal adopted by the voters requires the establishment of or change in director district boundaries, the school board shall draw the necessary boundaries within forty days after the date of the election. The boundaries shall be drawn according to the requirements of section 275.23A. If a proposition for a change in the number of directors or in the method of election of school directors submitted to the voters under this section is rejected, it shall not be resubmitted to the voters of the district in substantially the same form within the next three years; if it is approved, no other proposal may be submitted to the voters of the district under this section within the next six years.

If the plan adopted is that described in section 275.12, subsection 2, paragraph "b", "c", "d", or "e", the board shall at the earliest practicable time designate the districts from which residents are to be elected as school directors at each of the next two succeeding regular school elections, arranging so far as possible for elections of directors as residents of the respective districts to coincide with the expiration of terms of incumbent members residing in those districts. 275.41 Alternative method for director elections — temporary appointments.

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition, either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan that commences at the first regular school election held after the effective date of the merger and is completed at the second regular school election held after the effective date of the merger, to replace the initial board with the regular board. If the petition specifies a number of directors on the regular board to be different from the number of directors on the initial board, the plan shall provide that the number specified in the petition for the regular board is in place by the time the regular board is formed. The plan shall provide that as nearly as possible one-half of the members of the board shall be elected biennially, and if a special election was held to elect a member to create an odd number of members on the board, the term of that member shall end at the organizational meeting following the second regular school election held after the effective date.

4. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

5. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.

6. Section 49.8, subsection 5, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

SUBCHAPTER II DISSOLUTION OF DISTRICTS

275.51 Dissolution commission.

1. As an alternative to school district reorganization prescribed in this chapter, the board of directors of a school district may establish a school district dissolution commission to prepare a proposal of dissolution of the school district and attachment of all of the school district to one or more contiguous school districts and to include in the proposal a division of the assets and liabilities of the dissolving school district. A school district dissolution commission shall be established by the board of directors of a school district if a dissolution proposal has been prepared by eligible electors who reside within the district. 3. The board of directors of a school district may require an employee who has resigned from an extracurricular contract to accept, as a condition of employment under section 279.13, the extracurricular contract for no longer than one additional school year if all the following conditions apply:

b. The appeal shall state why the employee believes that the board did not make a good faith effort to fill the position. If the parties are unable to informally resolve the dispute, the parties shall attempt to agree upon an alternative means of resolving the dispute.

c. If the dispute is not resolved by mutual agreement, either party may appeal to the district court.

6. Subsections 3, 4, and 5 do not apply if the terms of a collective bargaining agreement provide otherwise.

8. a. A termination proceeding regarding an extracurricular contract shall not affect a contract issued pursuant to section 279.13.

b. A termination of a contract entered into pursuant to section 279.13, or a resignation from that contract by the teacher, constitutes an automatic termination or resignation of the extracurricular contract in effect between the same teacher and the employing school board.

279.24 Contract with administrators — automatic continuation or termination.

1. An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator's contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator's representative. The board shall review the administrator's evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator's contract, the board of directors may issue a one-year nonrenewable

contract to the administrator. If the board of directors decides to terminate the administrator's contract, the board shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than three consecutive years are probationary administrators. However, a school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator's contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it should consider the termination of a nonprobationary administrator's contract, the following procedure shall apply:

a. On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

b. The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

c. Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request a private hearing in writing to the secretary of the school board. The board shall then forward the notification to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The private hearing shall be held no sooner than twenty days and not later than forty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a private hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

d. The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the private hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. Any witnesses for the parties at the private hearing shall be sequestered. A transcript or recording shall be made of the proceedings at the private hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the private hearing is determined to be erroneous as long as the statement was made in good faith.

e. The administrative law judge shall, within ten days following the date of the private hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within thirty days after the filing of the decision the administrator files a written

notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within ten days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the private hearing. The school board shall meet within five days after the private hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year, nonrenewable contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator's contract and, if the board votes to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year, nonrenewable contract. The record of the private hearing and written decision of the board shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

i. The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

6. The court may affirm the school board's action. The court shall reverse, modify, or grant any other appropriate relief from the school board's action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board's action is any of the following:

- a. In violation of constitutional or statutory provisions.
- b. In excess of the statutory authority of the school board.
- c. In violation of school board policy or rule.
- d. Made upon unlawful procedure.
- e. Affected by other error of law.

f. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.

g. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

a. A school district shall assess all students enrolled in kindergarten through grade three at the beginning of each school year for their level of reading or reading readiness on locally determined or statewide assessments, as provided in section 256.7, subsection 31. If a student is not reading proficiently and is persistently at risk in reading, based upon the assessments administered in accordance with this paragraph, the school district shall provide intensive reading instruction to the student. The student's reading proficiency shall be periodically reassessed by locally determined or statewide assessments including periodic universal screening and annual standard-based assessments. The student shall continue to be provided with intensive reading instruction, at grade levels beyond grade three if necessary, until the student is reading at grade level, as determined by the student's

consistently proficient performance on valid and reliable measures of reading ability. For purposes of this section, “*persistently at risk*” means the student has not met the grade-level benchmark on two consecutive screening assessments administered under this paragraph.

b. The parent or guardian of any student in kindergarten through grade three who is persistently at risk in reading shall be notified in writing and shall be provided all of the following:

- (1) A description of the services currently provided to the student.
- (2) A description of the proposed supplemental instructional services and supports that the school district will provide to the student that are designed to remediate the identified areas in which the student is persistently at risk in reading.
- (3) Strategies for parents and guardians to use in helping the student read proficiently, including but not limited to the promotion of parent-guided home reading.
- (4) Regular updates regarding the student’s progress toward reaching or exceeding the targeted level of reading proficiency.

2. *Successful progression for early readers.* If funds are appropriated by the general assembly for purposes of implementing this subsection, a school district shall do all of the following:

a. Provide students who are persistently at risk in reading with intensive instructional services and supports, free of charge, to remediate the identified areas in which students are not proficient in reading, including a minimum of ninety minutes daily of scientific, research-based reading instruction and other strategies prescribed by the school district which may include but are not limited to the following:

- (1) Small group instruction.
- (2) Reduced teacher-student ratios.
- (3) More frequent progress monitoring.
- (4) Tutoring or mentoring.
- (5) Extended school day, week, or year.
- (6) Summer reading programs.

b. At regular intervals, apprise the parent or guardian of academic and other progress being made by the student and give the parent or guardian other useful information.

c. In addition to required reading enhancement and acceleration strategies, provide parents of students who are persistently at risk in reading with a plan outlined in a parental contract, including participation in regular parent-guided home reading.

d. Establish a reading enhancement and acceleration development initiative designed to offer intensive accelerated reading instruction to each kindergarten through grade three student who is persistently at risk in reading. The initiative shall comply with all of the following criteria:

(1) Be provided to all kindergarten through grade three students who are persistently at risk in reading. The assessment initiative shall measure phonemic awareness, phonics, fluency, vocabulary, and comprehension.

(2) Be provided during regular school hours in addition to the regular reading instruction.

(3) Provide a reading curriculum that meets guidelines adopted pursuant to section 256.7, subsection 31, and at a minimum has the following specifications:

(a) Assists students who are persistently at risk in reading to develop the skills to read at grade level. Assistance shall include but not be limited to strategies that formally address dyslexia, when appropriate. For purposes of this subparagraph division (a), “*dyslexia*” means a specific learning disability that is neurobiological in origin, is characterized by difficulties with accurate or fluent word recognition and by poor spelling and decoding abilities, and may include difficulties that typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, as well as secondary consequences such as problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

(b) Provides skill development in phonemic awareness, phonics, fluency, vocabulary, and comprehension.

(c) Includes a scientifically based and reliable assessment.

- (d) Provides initial and ongoing analysis of each student’s reading progress.
 - (e) Is implemented during regular school hours.
 - (f) Provides a curriculum in core academic subjects to assist the student in maintaining or meeting proficiency levels for the appropriate grade in all academic subjects.
 - e. Report to the department of education the specific intensive reading interventions and supports implemented by the school district pursuant to this section. The department shall annually prescribe the components of required or requested reports.
3. *Ensuring continuous improvement in reading proficiency.*
- a. To ensure all children are reading proficiently by the end of third grade, each school district shall address reading proficiency as part of its comprehensive school improvement plan, drawing upon information about students from assessments and reassessments conducted pursuant to subsection 1 and the prevalence of areas in which students are persistently at risk in reading identified by classroom, elementary school, and other student characteristics. As part of its comprehensive school improvement plan, each school district shall review chronic early elementary absenteeism for its impact on literacy development. If more than fifteen percent of an attendance center’s students are not reading proficiently and are persistently at risk in reading by the end of third grade, the comprehensive school improvement plan shall include strategies to reduce that percentage, including school and community strategies to raise the percentage of students who are reading at grade level.
 - b. Each school district, subject to an appropriation of funds by the general assembly, shall provide professional development services to enhance the skills of elementary teachers in responding to children’s unique reading issues and needs and to increase the use of evidence-based strategies.

1. *a.* The medium of instruction in all secular subjects taught in both public and nonpublic schools shall be the English language, except when the use of a world language is deemed appropriate in the teaching of any subject or when the student is limited English proficient. When the student is limited English proficient, both public and nonpublic schools shall provide special instruction, which shall include but need not be limited to either instruction in English as a second language or transitional bilingual instruction until the student is fully English proficient or demonstrates a functional ability to speak, read, write, and understand the English language.

b. As used in this section:

(1) “*Fully English proficient*” means a student who has attained a level of English-language skill in reading, writing, listening, and speaking to be proficient under the state’s English language proficiency standards, as measured by the state-adopted assessment of English language proficiency as required by section 1111 of the federal Elementary and Secondary Education Act of 1965, as amended by the federal Every Student Succeeds Act, Pub. L. No. 114-95.

(2) “*Intensive student*” means a limited-English-proficient student who, even with support, is not proficient under the state’s English language proficiency standards, as measured by the state-adopted assessment of English language proficiency.

(3) “*Intermediate student*” means a limited-English-proficient student who, either with or without support, approaches being proficient under the state’s English language proficiency standards, as measured by the state-adopted assessment of English language proficiency.

(4) “*Limited English proficient*” means a student’s language background is in a language other than English, and the student’s proficiency in English is such that the probability of the student’s academic success in an English-only classroom is below that of an academically successful peer with an English language background. Each limited-English-proficient student shall be identified as either an intensive student or an intermediate student.

2. The department of education shall adopt rules relating to the identification of limited-English-proficient students who require special instruction under this section and to application procedures for funds available under this section.

However, the school budget review committee may grant supplemental aid or a modified supplemental amount to a school district to continue funding a program for students after the expiration of the five-year period.

b. For students first determined to be limited English proficient for a budget year beginning on or after July 1, 2010, the additional weighting provided under paragraph “a” shall be included in the weighted enrollment of the school district of residence for a cumulative period of time not exceeding five years beginning with the budget year for which the student was first determined to be limited English proficient. The five years of eligibility for the additional weighting need not be consecutive and a student’s eligibility for the additional weighting is transferable to another district of residence.

1. If a school district or nonpublic school does not provide an interscholastic activity for its students, the board of directors of that school district or the authorities in charge of the nonpublic school may complete an agreement with another school district or nonpublic school to provide for the eligibility of its students in interscholastic activities provided by that other school district or nonpublic school. 280.13C Concussion and brain injury policies.

1. *Legislative findings.* The general assembly finds and declares all of the following:

a. Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed.

b. Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or

unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions can occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness.

c. Continuing to play with a concussion or symptoms of a brain injury leaves a young athlete especially vulnerable to greater injury and even death. The general assembly recognizes that, despite having generally recognized return-to-play standards for concussions and head injuries, some affected youth athletes are prematurely returned to play or expected to learn at full capability, resulting in prolonged symptoms, actual or potential physical injury, or death to youth athletes in this state.

d. A concussion can impair not only the physical abilities of a student athlete, but can also affect how a student athlete thinks, acts, feels, and learns. A student athlete who has sustained a concussion may need informal or formal adjustments, accommodations, modifications of curriculum, and monitoring by medical or educational staff until the student is fully recovered.

2. *Definitions.* For the purposes of this section:

a. “*Contest*” means an interscholastic athletic game or competition.

b. “*Contest official*” means a referee, umpire, judge, or other official in an athletic contest who is registered with the Iowa high school athletic association or the Iowa girls high school athletic union.

c. “*Emergency medical care provider*” means the same as defined in section 147A.1.

d. “*Extracurricular interscholastic activity*” means any dance or cheerleading activity or extracurricular interscholastic activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union that is a contact or limited contact activity as identified by the American academy of pediatrics.

e. “*Licensed health care provider*” means a physician, physician assistant, chiropractor, advanced registered nurse practitioner, nurse, physical therapist, occupational therapist, or athletic trainer licensed by a board designated under section 147.13.

3. *Training.*

a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to develop training materials and courses regarding concussions and brain injuries, including training regarding evaluation, prevention, symptoms, risks, and long-term effects of concussions and brain injuries. Each coach or contest official shall complete such training at least every two years.

b. Individuals required to complete training pursuant to this subsection shall submit proof of such completion to the Iowa high school athletic association or the Iowa girls high school athletic union, as applicable.

4. *Guidelines and information sheet.*

a. The department of public health, Iowa high school athletic association, and the Iowa girls high school athletic union shall work together to distribute the guidelines of the centers for disease control and prevention of the United States department of health and human services and other pertinent information to inform and educate coaches, students, and the parents and guardians of students of the risks, signs, symptoms, and behaviors consistent with a concussion or brain injury, including the danger of continuing to participate in extracurricular interscholastic activities after suffering a concussion or brain injury and their responsibility to report such signs, symptoms, and behaviors if they occur.

b. For school years beginning on or after July 1, 2018, each school district and nonpublic school shall provide to the parent or guardian of each student in grades seven through twelve a concussion and brain injury information sheet, as provided by the department of public health, the Iowa high school athletic association, and the Iowa girls high school athletic union. The student and the student’s parent or guardian shall sign and return a copy of the concussion and brain injury information sheet to the student’s school prior to the student’s participation in any extracurricular interscholastic activity.

5. *Removal from participation.*

a. If a student’s coach, contest official, or licensed health care provider or an emergency medical care provider observes signs, symptoms, or behaviors consistent with a concussion

or brain injury in an extracurricular interscholastic activity, the student shall be immediately removed from participation.

b. A student who has been removed from participation shall not recommence such participation or participate in any dance or cheerleading activity or activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union until the student has been evaluated by a licensed health care provider trained in the evaluation and management of concussions and other brain injuries and the student has received written clearance to return to or commence participation from a licensed health care provider.

6. *Return-to-play protocol and return-to-learn plans.*

a. The department of public health, in cooperation with the Iowa high school athletic association and the Iowa girls high school athletic union, shall develop a return-to-play protocol based on peer-reviewed scientific evidence consistent with the guidelines of the centers for disease control and prevention of the United States department of health and human services, for a student's return to participation in any extracurricular interscholastic activity after showing signs, symptoms, or behaviors consistent with a concussion or brain injury. The department of public health shall adopt the return-to-play protocol by rule pursuant to chapter 17A. The board of directors of each school district and the authorities in charge of each accredited nonpublic school with enrolled students who participate in an extracurricular interscholastic activity which is a contest in grades seven through twelve shall adopt such protocol by July 1, 2019.

b. 3. A student shall not be suspended or expelled pursuant to this section if the suspension or expulsion would violate the federal Individuals with Disabilities Education Act.

4. Notwithstanding section 282.6, if a student has been expelled or suspended from school and has not met the conditions of the expulsion or suspension, the student shall not be permitted to enroll in a school district until the board of directors of the school district approves, by a majority vote, the enrollment of the student.

282.6 Tuition.

1. For purposes of this section, “resident” means a person who is physically present in a district, whose residence has not been established in another district by operation of law, and who meets any of the following conditions:

- a. Is in the district for the purpose of making a home and not solely for school purposes.
- b. Meets the definitional requirements of the term “homeless individual” under 42 U.S.C. §11302(a) and (c).
- c. Lives in a residential correctional facility in the district.

2. Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident veterans as defined in section 35.1, as many months after becoming twenty-one years of age as they have spent in the armed forces of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school or driver education program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

3. This section shall not apply to tuition authorized by chapter 260C.

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the career and technical education program offered by a school district does not meet standards for program approval adopted by the state board for career and technical education, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the department of education shall delegate the authority to the regional career and technical education planning partnership established pursuant to section 258.14 to direct the district to contract with another school district or a community college which has an approved program, for the provision of career and technical education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or community college that has an approved program an amount equal to the percent of the school day in which a pupil is receiving career and technical education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional career and technical education planning partnership established pursuant to section 258.14 shall contract with an approved program for delivery of career and technical education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that

negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.

1. The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and secondary school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition fee established shall not be less than the lower of the tuition fee established pursuant to section 282.24 for the school district or the equivalent tuition rate for the non-Iowa school district for the previous school year, and the transportation fee established shall not be less than the lower average transportation cost per mile for yellow school buses as described in section 321.373 for the previous school year of the two affected school districts. The agreement shall provide that if the tuition fee for the school district in the adjoining state is a variable rate, the test of which tuition fee is lower shall be determined for each student by the affected boards.

2. A person attending school in another state pursuant to this section shall continue to be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

3. Notwithstanding the tuition provisions of subsection 1, the tuition fee established for a child requiring special education under chapter 256B shall be equal to the actual cost of the special education instructional program provided to that child under the child's individualized education program.

4. If the chief state school officers of the respective states have not entered into a reciprocal agreement under this section, or the agreement has expired or been terminated, or the distance to the public school in the adjoining state is not nearer than an appropriate public school in the pupil's district of residence or an appropriate public school in Iowa, the pupil attending school outside the state shall be considered a nonresident child for purposes of tuition payments to the receiving district and shall not be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

5. The whole grade sharing provisions of sections 282.10 through 282.12 and the open enrollment provisions of section 282.18 shall not apply to agreements made between districts under this section.

1. Notwithstanding sections 256E.7, 256F.4, 275.55A, and 282.18, or any other provision to the contrary, prior to knowingly enrolling an individual who is required to register as a sex offender under chapter 692A, but who is otherwise eligible to enroll in a public school, the board of directors of a school district shall determine the educational placement of the individual. Upon receipt of notice that a student who is enrolled in the district is required to register as a sex offender under chapter 692A, the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at

which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.

2. Notwithstanding section 692A.121, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect. The boards of the districts shall negotiate as part of the new or existing agreement the disposition of funding provided under chapter 284, including the teacher leadership supplement state cost per pupil as provided in section 257.9, unless all of the districts subject to the agreement are receiving such funding.

282.11 Procedure for whole grade sharing agreements.

1. For the purposes of this section, “*affected pupils*” are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement.

2. Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board’s public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

3. Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement.

4. a. Within the thirty-day period prior to the signing of the agreement, the parent or

guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:

- (1) That the agreement will not meet the educational program needs of the pupil.
- (2) That adequate consideration was not given to geographical factors.

b. The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

c. If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil.

d. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent's or guardian's hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

1. An agreement for whole grade sharing shall establish a method for determination of costs, if any, associated with the sharing agreement.

2. For one-way sharing, the sending district shall pay no less than one-half of the district cost per pupil of the sending district.

3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.

4. The number of pupils participating in a whole grade sharing agreement shall be determined on the date specified in section 257.6, subsection 1, and on the second Friday of January of each year.

282.18 Open enrollment.

1. a. It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. a. By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten or for prekindergarten students enrolled in special education programs and included in the school district's basic enrollment under section 257.6, subsection 1, paragraph "a", subparagraph (1), the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent intends to enroll the parent's

or guardian's child in a public school in another district by the deadline specified in this subsection, the procedures of subsection 4 apply.

b. The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year. A denial of a request by the board of a receiving district is not subject to appeal.

c. Every school district shall adopt a policy which defines the term "*insufficient classroom space*" for that district.

3. a. The superintendent of a district subject to court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to implementation of the desegregation order by the district. If a transfer request would facilitate implementation of a desegregation order, the district shall give priority to granting the request over other requests.

b. A parent or guardian whose request has been denied because of the district's implementation of the desegregation order may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located.

c. The board of directors of a school district subject to court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order and criteria for prioritizing requests that do not have an adverse impact on the order.

4. a. After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause, as defined in paragraph "b", exists for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. For purposes of this section:

(1) "*Good cause*" means a change in a child's residence due to a change in family residence, a change in a child's residence from the residence of one parent or guardian to the residence of a different parent or guardian, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, initial placement of a prekindergarten student in a special education program requiring specially designed instruction, or participation in a substance abuse or mental health treatment program, a change in the status of a child's resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256E.10 or 256F.8, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement, the rejection of a current whole grade sharing agreement, or reorganization plan, or if the child's assigned attendance center in the district of residence is identified as

in significant need for improvement. If the good cause relates to a change in status of a child's school district of residence, however, action by a parent or guardian must be taken to file the notification within forty-five days of the last board action or within thirty days of the certification of the election, whichever is applicable to the circumstances.

(2) "*Significant need for improvement*" means a school attendance center designated by the department of education under the priority category under the Iowa school performance profiles for two or more of the immediately preceding school years or identified for comprehensive support and improvement under the federal Every Student Succeeds Act, Pub. L. No. 114-95, or an equivalent objective federal standard, for two or more of the immediately preceding school years.

c. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

d. The director, or the director's designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 15. If approval is not reached under mediation, the director or the director's designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving district. Within five days of the director's decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent's or guardian's child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student that the resident district cannot adequately address, a consistent failure of the resident district to reasonably respond to a student's failure to meet basic academic standards after notice provided by a parent or guardian, or a serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall adopt by rule the criteria for determining a resident district's consistent failure to reasonably respond to a student's failure to meet basic academic standards and shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in the district unless there is insufficient classroom space in the district or the district is subject to court-ordered desegregation and enrollment of the pupil would adversely affect implementation of the desegregation order. A denial of a request to change district enrollment within the approved period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. a. A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1.

b. (1) The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the previous school year plus either the teacher leadership supplement state cost per pupil for the previous fiscal year as provided in section 257.9 or the teacher leadership supplement foundation aid for the previous fiscal year as provided in section 284.13, subsection 1, paragraph "d", if both the district of residence and

the receiving district are receiving such supplements, plus any moneys received for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the previous school year multiplied by the state cost per pupil for the previous year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

(2) If a pupil participates in cocurricular or extracurricular activities in accordance with subsection 12, the district of residence may deduct up to two hundred dollars per activity, for up to two activities, from the amount calculated in subparagraph (1). For a cocurricular activity, one semester shall equal one activity. Extracurricular activities for which such a resident district may charge up to two hundred dollars per activity for up to two activities under this subparagraph include interscholastic athletics, music, drama, and any other activity with a general fund expenditure exceeding five thousand dollars annually. A pupil may participate in additional extracurricular activities at the discretion of the resident district. The school district of residence may charge the pupil a fee for participation in such cocurricular or extracurricular activities equivalent to the fee charged to and paid in the same manner by other resident pupils.

8. a. If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the following conditions are met:

(1) The receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class or caseload in that special education instructional program in the receiving district to exceed the maximum class size or caseload established pursuant to rules adopted by the state board of education.

(2) If the child would be assigned to a general education class, there is sufficient classroom space for the general education class to which the child would be assigned.

b. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

c. For children requiring special education, the receiving district shall complete and provide to the district of residence the documentation necessary to seek Medicaid reimbursement for eligible services.

9. a. If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence as determined on the date specified in section 257.6, subsection 1, shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, a change in a child's residence from the residence of one parent or guardian to the residence of a different parent or guardian, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance abuse or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve or who is a prekindergarten student enrolled in a special education program at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's educational program. If a parent or guardian exercises this option, the child's new district of residence is not required to pay the amount calculated in subsection 7 or 8, as applicable, until the start of the first full year of enrollment of the child.

c. The receiving district shall bill the resident district determined under paragraph "a" according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district's area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment.

10. a. Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, "*a point on a regular school bus route of the receiving district*" includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. A receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. The economic eligibility requirements established by the department of education and state board of education shall minimally include those pupils with household incomes of two hundred percent or less of the federal poverty level as defined by the most recently revised poverty income guidelines published by the United States department of health and human services. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

11. a. A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil's first ninety school days of enrollment in the district. However, a pupil may participate immediately in a varsity interscholastic sport under any of the following circumstances:

(1) If the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade.

(2) If the district of residence and the other school district jointly participate in the sport.

(3) If the sport in which the pupil wishes to participate is not offered in the district of residence.

(4) If the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12.

(5) If the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade.

(6) If the parent or guardian of the pupil participating in open enrollment is an active

member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

(7) If the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence.

(8) If the pupil participates in open enrollment because of circumstances that meet the definition of good cause under subsection 4, paragraph “b”.

(9) If the board of directors or superintendent of the district of residence issues or implements a decision that results in the discontinuance or suspension of varsity interscholastic sports activities in the district of residence.

(10) If the board of directors of the district of residence and the board of directors of the receiving district both agree to waive the ineligibility period.

(11) For open enrollment applications approved for the school year beginning July 1, 2021, if the pupil’s district of residence had a voluntary diversity plan in effect on January 1, 2021, and applicable to the school year beginning July 1, 2021.

b. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil’s district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

c. If a pupil is declared ineligible for interscholastic athletic contests and athletic competitions in the pupil’s district of residence due to the pupil’s academic performance, upon participating in open enrollment, in addition to any other period of ineligibility under this subsection, the pupil shall be ineligible in the receiving district for the remaining period of ineligibility declared by the district of residence.

d. For purposes of this subsection, “*school days of enrollment*” does not include enrollment in summer school. For purposes of this subsection, “*varsity*” means the same as defined in section 256.46, subsection 3.

12. A pupil participating in open enrollment for purposes of receiving educational instruction and course content primarily over the internet in accordance with section 256.7, subsection 32, may participate in any cocurricular or extracurricular activities offered to children in the pupil’s grade or group and sponsored by the district of residence under the same conditions and requirements as the pupils enrolled in the district of residence. The pupil may participate in not more than two cocurricular or extracurricular activities during a school year unless the resident district approves the student’s participation in additional activities. The student shall comply with the eligibility, conduct, and other requirements relating to the activity that are established by the district of residence for any student who applies to participate or who is participating in the activity.

13. If a pupil, for whom a request to transfer has been filed with a district, has been suspended or expelled in the district, the pupil shall not be permitted to transfer until the pupil has been reinstated in the sending district. Once the pupil has been reinstated, however, the pupil shall be permitted to transfer in the same manner as if the pupil had not been suspended or expelled by the sending district. If a pupil, for whom a request to transfer has been filed with a district, is expelled in the district, the pupil shall be permitted to transfer to a receiving district under this section if the pupil applies for and is reinstated in the sending district. However, if the pupil applies for reinstatement but is not reinstated in the sending district, the receiving district may deny the request to transfer. The decision of the receiving district is not subject to appeal.

14. If a request under this section is for transfer to a laboratory school, as described in chapter 265, the student, who is the subject of the request, shall not be included in the basic enrollment of the student’s district of residence, and the laboratory school shall report the enrollment of the student directly to the department of education, unless the number of students from the district attending the laboratory school during the current school year, as a result of open enrollment under this section, exceeds the number of students enrolled in the laboratory school from that district during the 1989-1990 school year. If the number of students enrolled in the laboratory school from a district during the current year exceeds

the number of students enrolled from that district during the 1989-1990 school year, those students who represent the difference between the current and the 1988-1989 school year enrollment figures shall be included in the basic enrollment of the students' districts of residence and the districts shall retain any moneys received as a result of the inclusion of the student in the district enrollment. The total number of students enrolled at a laboratory school during a school year shall not exceed six hundred seventy students. The regents institution operating the laboratory school and the board of directors of the school district in the community in which the regents institution is located shall develop a student transfer policy designed to protect and promote the quality and integrity of the teacher education program at the laboratory school, the viability of the education program of the local school district in which the regents institution is located, and to indicate the order in which and reasons why requests to transfer to a laboratory school shall be considered. A laboratory school may deny a request for transfer under the policy. A denial of a request to transfer under this subsection is not subject to appeal under section 290.1.

15. An application for open enrollment may be granted at any time with approval of the resident and receiving districts.

16. The director of the department of education shall recommend rules to the state board of education for the orderly implementation of this section. The state board shall adopt rules as needed for the implementation of this section.

(1) A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is enrolled in the educational program of the district of residence at the time the child is placed, shall be included in the basic enrollment of the school district in which the child is enrolled. A child who lives in a facility or other placement pursuant to section 282.19, and who does not require special education and who is not enrolled in the educational program of the district of residence of the child, shall be included in the basic enrollment of the school district in which the facility or other placement is located.

(2) However, on June 30 of a school year, if the board of directors of a school district determines that the number of days for which a school district generated funding for children under this paragraph “b” who were counted in the basic enrollment of the school district in that school year in accordance with section 257.6, subsection 1, is less than the sum of the number of days enrolled for all children enrolled in the school district under this paragraph “b” during the school year, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the quotient of the excess number of enrolled days for children under this paragraph “b” divided by the number of days in the district’s board-approved calendar for the previous year. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted monthly from the state foundation aid paid to all

school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph “a”.

2. a. The actual special education instructional costs incurred for a child who lives in a facility or other placement pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility, home, or other placement is located, shall be paid by the district of residence of the child to the district in which the facility, home, or other placement is located, and the costs shall include the cost of transportation.

b. A child shall not be denied special education programs and services because of a dispute over the determination of district of residence of the child. The director of the department of education shall determine the district of residence when a dispute arises regarding the determination of the district of residence for a child who requires special education pursuant to this subsection.

3. The actual special education instructional costs, including transportation, for a child who requires special education shall be paid by the department of administrative services to the school district in which the facility or home is located, only when a district of residence cannot be determined, and the child was not included in the weighted enrollment of any district pursuant to section 256B.9, and the payment pursuant to subsection 2, paragraph “a”, was not made by any district. The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The department shall review and approve or modify the claim and shall notify the department of administrative services of the approved claim amount by September 1. The total amount of the approved claim shall be paid by the department of administrative services to the school district by October 1. The total amount paid by the department of administrative services shall be deducted monthly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year in which the deduction is made. The department of administrative services shall transfer the total amount of the approved claims from moneys appropriated under section 257.16 for payment to the school district.

4. For purposes of this section, “*district of residence*” means the school district in which the parent or legal guardian of the child resides or the district in which the district court is located if the district court is the guardian of the child.

5. Programs may be provided during the summer and funded under this section if the school district or area education agency determines a valid educational reason to do so.

284.11 State supplemental assistance for high-need schools.

1. *Findings and intent.* The general assembly finds that students whose first language is not English, who have special needs, or who come from low-income backgrounds face potential obstacles to learning. Schools across Iowa, both urban and rural, have increasing numbers of students who face these challenges. Therefore, it is the intent of the general assembly to provide supplemental assistance to the highest-need schools in Iowa to address these challenges. This section provides for state assistance to allow school districts to develop extended learning time programs, hire instructional support staff, provide additional professional development, or supplement the salary of teachers in the identified schools.

2. *Department's responsibilities.* The department shall do the following:

a. Collect relevant data and establish a list of high-need schools eligible for state supplemental assistance. The department shall establish a process and criteria to determine which schools are placed on the list and the department shall revise the list annually. Criteria for the determination of which high-need schools shall be placed on the list shall be based upon factors that include but are not limited to the socioeconomic status of the students enrolled in the school, the percentage of the school's student body who are limited English proficient students, student academic growth, certified instructional staff attrition, and geographic balance. The department may approve or disapprove requests for revision of the list, which a school district submits pursuant to subsection 3.

b. Develop a standardized process for distributing moneys appropriated for supplemental assistance for high-need schools under section 284.13, subsection 1, paragraph "g", to school districts. In determining the process for distribution of such moneys, the department shall take into consideration the amount of moneys appropriated for supplemental assistance in high-need schools for the given year and the minimal amount of moneys needed to increase the academic achievement of students. A school district receiving moneys pursuant to this section shall certify annually to the department how the moneys distributed to the school district pursuant to this section were used by the school district.

c. Review the use and effectiveness of the funds distributed to school districts for supplemental assistance in high-need schools under this section, and consider the findings and recommendations of the commission on educator leadership and compensation submitted pursuant to section 284.15, subsection 13, relating to the use and effectiveness of the funds distributed to school districts under this section. The department shall submit its findings and recommendations in a report to the general assembly by January 15 annually.

3. *School district request for approval.* A school district may request on an annual basis approval from the department for additions to the list of high-need schools the department maintains pursuant to subsection 2 based upon the unique local conditions and needs of the school district. The criteria used to determine the placement of high-need schools on the list in accordance with subsection 2 does not restrict the department from adding a high-need school to the list as requested by a school district on the basis of unique local conditions and needs pursuant to this subsection.

2. *Commission.* A pay-for-performance commission is established to design and implement a pay-for-performance pilot project and provide a study relating to teacher and staff compensation containing a pay-for-performance component. The study shall measure the cost and effectiveness in raising student achievement of a compensation system that provides financial incentives based on student performance. The commission is part of the executive branch of government.

3. *Development of program.* Beginning July 1, 2006, the commission shall gather sufficient information to identify a pay-for-performance program based upon student achievement gains and global content standards where student achievement gains cannot be easily measured. The commission shall review pay-for-performance programs in both the public and private sectors.

a. Commencing with the school year beginning July 1, 2007, the commission shall initiate planning pilots, in selected kindergarten through grade twelve schools, to test the effectiveness of the pay-for-performance program. b. Commencing with the school year beginning July 1, 2007, the commission shall select two school districts as planning pilots. Participants shall provide reports or other information as required by the commission.

c. Commencing with the school year beginning July 1, 2008, the commission shall administer two implementation pilots in the school districts selected for planning pilots under paragraph “b”.

The final study report shall be completed no later than six months after the completion of the planning and implementation pilots. The commission shall provide copies of the final study report to the department of education and to the general assembly.

b. The commission may provide grants from this fund, according to criteria developed by the commission, for implementation of the pay-for-performance program.

		285.15	Forfeiture of reimbursement rights.
		285.16	“Nonpublic school” defined.

285.1 When entitled to state aid.

1. *a.* The board of directors in every school district shall provide transportation, either directly or by reimbursement for transportation, for all resident pupils attending public school, kindergarten through twelfth grade, except that:

(1) Elementary pupils shall be entitled to transportation only if they live more than two miles from the school designated for attendance.

(2) High school pupils shall be entitled to transportation only if they live more than three miles from the school designated for attendance.

(3) Children attending prekindergarten programs offered or sponsored by the district or nonpublic school and approved by the department of education or department of human services or children participating in preschool in an approved local program under chapter 256C may be provided transportation services. However, transportation services provided to nonpublic school children are not eligible for reimbursement under this chapter.

(4) Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district’s transportation service for extended periods during the school year. The student, or the student’s parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student’s parent or legal guardian, notifies the district that regular student ridership will continue.

b. For the purposes of this subsection, “*high school*” means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

c. Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year’s statewide average per pupil transportation cost, as determined by the department of education. However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil's residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extracurricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor. The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district

providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term “*school designated for attendance*” means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. *a.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil’s residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil’s residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil’s residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph “*a*” of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil’s residence and the district of residence meets the requirements of subsections 14, 15, and this subsection by using subsection 17, paragraph “*c*”, and the district in which the nonpublic school is located is contiguous to the district of the pupil’s residence and is willing to provide transportation under subsection 17, paragraph “*a*” or “*b*”, the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil’s residence that it is making the claim for reimbursement, and the district of the pupil’s residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 through 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil’s residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department

of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph "a", subparagraph (1), a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

294.12 Pension fund held for survivors upon termination.

1. In the event of such termination, all assessments of teachers shall cease upon such date of termination, or upon such earlier date as may be prescribed in such resolution, and no additional taxes shall be levied or assessed for the operation of such system, save as in section 294.13. All undisposed of funds and accumulations derived from the operation of said system, including the proceeds, when collected, of any annual tax heretofore levied for the operation of said system, and including the proceeds of any annual tax levied hereafter pursuant to the provisions of section 294.13, shall constitute a retirement liquidation fund. Such liquidation fund shall be held for the benefit of those surviving beneficiaries under such system as of said date of termination, and of members of such system as of the date of termination. There shall be set aside from such retirement liquidation fund an amount sufficient to provide for the payment of all surviving beneficiaries who shall be entitled to receive benefits under such system as of said date of termination, providing an actuarial computation has been made of the amount required to meet such benefit payments, providing the amount in the retirement liquidation fund is sufficient for this purpose, and the amount set aside shall be used for no other purpose than for the payment of claims to such beneficiaries. Any amount in excess of the actuarial equivalent of the sum required to pay such benefit payments shall be apportioned to persons who were as of the effective date of the termination of the system, members of such system, in proportion to the amount which the accumulated contribution of each such person bears to the total funds of such retirement system subject to such apportionment. Any member of such system as of the date of termination thereof, may, in lieu of receiving the cash refund of the member's share of the liquidation fund, elect to come under the coverage of any new pension and annuity retirement system established by the district, to which the member is eligible, with credits toward future benefits in consideration of the member's prior contributions and length of service, and may direct the transfer of the amount payable to the member to the assets of the new pension and annuity retirement system. In any case where the board of directors of a school district including a teachers retirement system established under the provisions of section 294.8, whose members were not under coverage of the Iowa

old-age and survivors' insurance system prior to May 1, 1953, the board of directors may authorize the payment from funds in excess of the actuarial amount estimated as required for the payment of benefits to persons entitled to them, and for the purpose of obtaining retroactive social security coverage from January 1, 1951, until the effective date of federal coverage of Iowa public employees as provided by chapter 97C. Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

2. In any school district which has pursuant to section 294.11 terminated a previously existing pension and annuity retirement system and has after actuarial computation established a retirement reserve fund pursuant to this section in order to pay to surviving beneficiaries entitled to receive retirement benefits at the date of termination of said system in the amount in effect with respect to such beneficiaries immediately prior to the date of termination, the board of directors may authorize each and every payment to each surviving beneficiary falling due subsequent to June 30, 1971, to be increased by an amount to be determined by the board such increased payments to be paid from the retirement reserve fund according to an actuarial computation thereof plus such additional amounts transferred from the general fund as may be required. In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. The board of supervisors shall in accordance with the provisions of section 298.8 levy the taxes necessary to raise the amount estimated by the board of directors as above provided and certified to the board of supervisors. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

3. Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

Upon the death of the last beneficiary to survive, any balance remaining in said fund, including any undisposed of accumulations, shall be transferred to the general fund of said school district.

The board of directors of said district shall annually, for a period of five years after the effective date of the termination of its pension system, at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount if any necessary to pay to participants in the pension system

who are not entitled to receive benefits under such system at the date of termination thereof, one-fifth of the amount paid into said pension fund by such participants therein, without interest, which amount shall be levied by the board of supervisors, in accordance with provisions of section 298.8 and, in addition thereto, the board of directors of said district shall each year at the meeting at which it estimates the amount required for the general fund, in accordance with the provisions of section 298.1, estimate the additional amount, if any, necessary to provide the required annual payments to surviving beneficiaries of said pension system, as provided in section 294.12, which amount shall be levied by the board of supervisors, in accordance with the provisions of section 298.8. 2. The selection of investment contracts to be included within the plan established by the school district shall be made either pursuant to a competitive bidding process conducted by the school district, in coordination with employee organizations representing employees eligible to participate in the plan, or pursuant to an agreement with the department of administrative services to make available investment contracts included in a deferred compensation or similar plan established by the department pursuant to section 8A.438, which plan meets the requirements of this section. The determination of whether to select investment contracts for the plan pursuant to a competitive bidding process or by agreement with the department of administrative services shall be made by agreement between the school district and the employee organizations representing employees eligible to participate in the plan.

3. The school district may make elective deferrals in accordance with the plan as authorized by an eligible employee for the purpose of making contributions to the investment contract on behalf of the employee. The deferrals shall be made in the manner which will qualify contributions to the investment contract for the benefits under section 403(b) of the Internal Revenue Code, as defined in section 422.3. In addition, the school district may make nonelective employer contributions to the plan.

296.7 Indebtedness for insurance authorized — tax levy.

1. a. A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:

- (1) To procure or provide for a policy of insurance.
- (2) To provide a self-insurance program.
- (3) To establish and maintain a local government risk pool.

b. However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an “*employee benefit plan*” includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget review committee for relief if necessitated by the expenses in the school district’s insurance program as described in subsection 2.

4. a. Taxes may be levied in excess of any limitation imposed by statute for payment of one or more of the following authorized by subsection 1:

- (1) Principal, premium, or interest on bonds.
- (2) Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.
- (3) Costs of a self-insurance program.
- (4) Costs of a local government risk pool.
- (5) Amounts payable under an insurance agreement.

b. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

SUBCHAPTER II

SALE OR LEASE OF PROPERTY

297.22 Power to sell, lease, or dispose of property — tax.

1. *a.* The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, school site, or other property belonging to the district. If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.

b. (1) Proceeds from the sale or disposition of real or other property shall be deposited into the fund which was used to account for the acquisition of the property. If the district is unable to determine which fund was used to account for the acquisition of the property or if the fund no longer exists in the district, the proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund, and the proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.

(2) Notwithstanding subparagraph (1), the board of directors of a school district may take action to deposit the proceeds from the sale or disposition of real or other property in any account maintained by the school district after holding a public hearing on the proposed action of the board. The board shall publish notice of the time and place of the public hearing in the same manner as required in section 24.9.

c. Before the board of directors may sell, lease for a period in excess of one year, or dispose of any property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. The board shall publish notice of the time and place of the public hearing in the same manner as required in section 24.9. After the public hearing, the board may make a final determination on the proposal contained in the resolution.

d. However, property having a value of not more than twenty-five thousand dollars, other than real property, may be sold or disposed of by any procedure which is adopted by the board. Each such sale or disposal shall be published in a newspaper having general circulation in the district.

2. *a.* The board of directors of a school district may sell, lease, exchange, give, or grant, and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

b. The board of directors of a school district may lease a portion of an existing school

building or lease a portion of existing school property. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days, but shall not apply to property or equipment leased as part of a project designed to generate electricity for the school district.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erection of additional student-constructed structures, by any procedure which is adopted by the board. The proceeds from disposition of a student-constructed structure shall be placed in the school district's student construction fund. Moneys remaining in the school district's student construction fund after the board discontinues the student construction program shall first be used to reimburse the fund or funds from which the student construction program's start-up costs were paid and any moneys remaining after such reimbursement shall be transferred by board resolution to the school district's general fund.

SUBCHAPTER IV
LOAN AGREEMENTS

297.35 Continuation of loan agreement. Repealed by 2013 Acts, ch 88, §37.

297.36 Loan agreements.

1. *a.* In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

b. By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

c. The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

d. The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

2. This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

3. This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

298.2 Imposition of physical plant and equipment levy.

1. *a.* A physical plant and equipment levy of not exceeding one dollar and sixty-seven cents per thousand dollars of assessed valuation in the district is established except as otherwise provided in this subsection. The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy.

b. For school budget years beginning on or after July 1, 2015, a school district may by resolution of the board of directors adopted prior to April 15 preceding the budget year impose a physical plant and equipment levy at a rate in excess of the levy rate limitations under paragraph “a” if the board has refunded or refinanced a loan agreement entered into under section 297.36 and such refunding or refinancing complies with the maturity period authorized under section 297.36, subsection 1, paragraph “c”, and results in a lower amount of interest on the amount of the loan agreement. However, the rate imposed by a school district under this paragraph shall not exceed the rate imposed during the budget year in which the loan agreement was refunded or refinanced. Authorization to exceed the levy rate limitations of paragraph “a” shall terminate upon the maturity of the loan agreement after refunding or refinancing. Upon adoption of the resolution under this paragraph “b”, the board shall comply with the requirements of section 297.36, subsection 1, paragraph “b”.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district prior to July 1, 1997, the levy shall continue for the period authorized under

the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 15 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. *a.* The board may on its own motion, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters at the election, not to exceed ten years. The election shall be held on a date specified in section 39.2, subsection 4, paragraph “c”. The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

b. If a combination of a property tax and income surtax is used, by April 15 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. The physical plant and equipment property tax and income surtax shall be levied or imposed, collected, and paid to the school district in the manner provided for the instructional support program in sections 257.21 through 257.26.

5. *a.* The proposition to levy the voter-approved physical plant and equipment levy is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has adopted the voter-approved physical plant and equipment levy, and if the voters have not voted upon the proposition to levy the voter-approved physical plant and equipment levy in the reorganized district, the existing voter-approved physical plant and equipment levy is in effect for the reorganized district for the least amount and the shortest time for which it is in effect in any of the districts.

b. An authorized levy for the period of time approved is not affected as a result of a failure of a proposition proposed to expand the purposes for which the funds may be expended.

1. *a.* The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

b. The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as otherwise provided in this section.

c. For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year's interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

d. 3. Notice of the election shall be given by the county commissioner of elections according to section 49.53. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 through 53 and certify the results to the board of directors. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

4. The voted tax levy referred to in this section shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

5. a. The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

b. 299.5A Mediation.

1. If a child is truant as defined in section 299.8, school officers shall attempt to find the cause for the child's absence and use every means available to the school to assure that the child does attend. For a child who has completed educational requirements through the sixth

grade, the means may include but are not limited to the use of an attendance cooperation process which substantially conforms with the provisions of section 299.12. If the parent, guardian, or legal or actual custodian, or child refuses to accept the school's attempt to assure the child's attendance or the school's attempt to assure the child's attendance is otherwise unsuccessful, the truancy officer shall refer the matter to the county attorney for mediation or prosecution.

2. If the matter is referred for mediation, the county attorney shall cause a notice of the referral to be sent to the parent, guardian, or legal or actual custodian and designate a person to serve as mediator in the matter. If mediation services are available in the community, those services may be used as the designated mediation service. If mediation services are not available in the community, mediation shall be provided by the county attorney or the county attorney's designee. The mediator shall contact the school, the parent, guardian, or legal or actual custodian, and any other person the mediator deems appropriate in the matter and arrange meeting dates and times for discussion of the child's nonattendance. The mediator shall attempt to ascertain the cause of the child's nonattendance, attempt to cause the parties to arrive at an agreement relative to the child's attendance, and initiate referrals to any agencies or counseling that the mediator believes to be appropriate under the circumstances.

3. If the parties reach an agreement, the agreement shall be reduced to writing and signed by a school officer, parent, guardian, or legal or actual custodian, and the child. The mediator, the school, and the parent, guardian, or legal or actual custodian shall each receive a copy of the agreement, which shall set forth the settlement of the issues and future responsibilities of each party.

4. The school district shall be responsible for monitoring any agreements arrived at through mediation. If a parent, guardian, or legal or actual custodian refuses to engage in mediation or violates a term of the agreement, the matter shall be rereferred to the county attorney for prosecution under section 299.6. The county attorney's office or the mediation service shall require the parent, guardian, or legal or actual custodian and the school to pay a fee to help defray the administrative cost of mediation services. The county attorney's office or the mediation service shall establish a sliding scale of fees to be charged parents, guardians, and legal or actual custodians based upon ability to pay. A parent, guardian, or legal or actual custodian shall not be denied the services of a mediator solely because of inability to pay the fee.

The court may order the person to perform unpaid community service instead of any fine or imprisonment.

A third or subsequent offense is a serious misdemeanor and a conviction is punishable by imprisonment not exceeding thirty days or a fine not exceeding one thousand dollars, or both a fine and imprisonment. The court may order the person to perform unpaid community service instead of any fine or imprisonment.

2. If community service is imposed as part of a sentencing order, the court may require that part or all of the service be performed for a public school district or nonpublic school if the court finds that service in the school is appropriate under the circumstances.

3. If a parent, guardian, or legal or actual custodian of a child who is truant, has made reasonable efforts to comply with the provisions of sections 299.1 through 299.5, but is unable to cause the child to attend school, the parent, guardian, or legal or actual custodian may file an affidavit listing the reasonable efforts made by the parent, guardian, or legal or actual custodian to cause the child's attendance and the parent, guardian, or legal or actual custodian shall not be criminally liable for the child's nonattendance.

If the court finds that the parent, guardian, or legal or actual custodian has failed to cause the child to attend as required in this section, the court shall assess a civil penalty of not less than one hundred but not more than one thousand dollars for each violation established.

299.12 Violation of attendance policy — attendance cooperation meeting — agreement.

1. For the purposes of this section, "school truancy officer" means a truancy officer appointed under section 299.10 or any other person designated by a public school board or a governing body of an accredited nonpublic school to administer provisions of this section.

2. This section is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A. If a child is not in compliance with the attendance requirements established under section 299.1, and has not completed educational requirements through the sixth grade, and the school has used every means available to assure the child does attend, the school truancy officer shall contact the child's parent, guardian, or legal or actual custodian to participate in an attendance cooperation meeting. The parties to the attendance cooperation meeting may include the child and shall include the child's parent, guardian, or legal or actual custodian and the school truancy officer. The school truancy officer contacting the participants in the attendance cooperation meeting may invite other school officials, a designee of the juvenile court, the county attorney or the county attorney's designee, or other persons deemed appropriate to participate in the attendance cooperation meeting.

3. The purpose of the attendance cooperation meeting is for the parties participating in the meeting to attempt to ascertain the cause of the child's nonattendance, to cause the parties to arrive at an agreement relative to addressing the child's attendance, and to initiate referrals to any services or counseling that the parties believe to be appropriate under the circumstances.

The terms agreed to shall be reduced to writing in an attendance cooperation agreement and signed by the parties to the agreement. Each party signing the agreement shall receive a copy of the agreement, which shall set forth the cause identified for the child's nonattendance and future responsibilities of each party.

4. If the parties to an attendance cooperation meeting determine that a monitor would improve compliance with the attendance cooperation agreement, the parties may designate a person to monitor the agreement. The monitor shall be a designee of the public school board or governing body of the accredited nonpublic school. The monitor may be a volunteer if the volunteer is approved by all parties to the agreement and receives a written authorization for access to confidential information and for performing monitor activities from the child's parent, guardian, or custodian. A monitor shall contact parties to the attendance cooperation agreement on a periodic basis as appropriate to monitor performance of the agreement.

5. If the parties fail to enter into an attendance cooperation agreement, or the child's parent, guardian, or custodian acting as a party violates a term of the attendance cooperation agreement or fails to participate in an attendance cooperation meeting, the child shall be deemed to be truant.

6. A public school board or governing body of an accredited nonpublic school shall exercise the authority granted under this section as a means of increasing and ensuring school attendance of young children, as education is a critical element in the success of individuals and good attendance habits should be developed and reinforced at an early age.

299A.4 Annual achievement evaluations — requirements and procedure.

1. Each child of compulsory attendance age who is receiving competent private instruction shall either be evaluated annually by May 31, using a nationally recognized standardized achievement evaluation or other assessment tool developed or recognized by the department of education and chosen by the child's parent, guardian, or legal custodian from a list of approved evaluations or assessment tools provided by the department of education or be evaluated annually in the manner provided in subsection 7. The department shall provide information on the cost of and the administration time required for each of the approved evaluations. The department shall provide, as part of approval procedures for evaluations to be used under this section, a mechanism which permits the introduction and approval of new or alternate methods of educational assessment which meet the requirements of this chapter.

2. A child, who is seven years of age and is receiving competent private instruction or who is placed under competent private instruction for the first time, shall be administered an evaluation for purposes of obtaining educational baseline data.

3. The director of the department of education, or the director's designee, which may include a school district or an area education agency, shall conduct the evaluations required under subsections 1 and 2 for children under competent private instruction. Evaluation shall occur at a time and a place to be determined by the person responsible for conducting the evaluation. Persons conducting the evaluations shall make every reasonable effort to conduct the evaluations at times and places which are convenient for the parent, guardian, or legal custodian.

5. The conducting of evaluations shall include, but is not limited to, purchasing of evaluation materials, giving the evaluations, scoring and interpreting the evaluations, and reporting the evaluation results.

6. A school district or area education agency shall, if requested, administer the annual achievement evaluation at no cost to the parent, guardian, or legal custodian of the child being evaluated, and, in addition, the parent, guardian, or legal custodian is not required to reimburse the evaluating entity for costs incurred as a result of evaluation under section 299A.9. The administration of the annual achievement evaluation shall not constitute a dual enrollment purpose under section 299A.8.

7. *a.* In lieu of annual achievement evaluations, a parent, guardian, or legal custodian of a child may submit, as evidence of adequate academic progress, all of the following:

(2) A portfolio of the child's work, including but not limited to, an outline of the curriculum used by the child, copies of homework completed in conjunction with the curriculum and instruction, and copies of evaluations completed by the child which have been produced by the parent, guardian, or legal custodian.

(3) Completed assessment evaluations, other than the annual achievement evaluation,

if assessment evaluations are administered to a pupil as part of the competent private instruction by the parent, guardian, or legal custodian.

b. If a parent, guardian, or legal custodian submits evidence under this section, the information shall be reviewed by a qualified, licensed, Iowa practitioner selected as the evaluator by the parent, guardian, or legal custodian and approved by the superintendent of the local school district or the superintendent's designee. The evaluator shall prepare a report based on a review of the child's work submitted, which shall include an assessment of the child's achievement or academic progress levels, and submit a copy of the report to the child's parent, guardian, or legal custodian, the school district of residence of the child, and the department of education. If the evidence demonstrates, in the evaluator's opinion, that the child is achieving adequate progress, the report shall create a presumption that the child is making adequate progress.

If the results of evaluations, administered to a child of compulsory attendance age who is under competent private instruction, indicate that the student has failed to make adequate progress, the parent, guardian, or legal custodian shall cause the child to attend an accredited public or nonpublic school at the beginning of the next school year unless, before the beginning of the next school year, the child retakes a different form of the same evaluation, or another evaluation from the approved list of tests or assessment tools recognized by the department of education, and the results indicate that adequate progress has been made, the child has demonstrated adequate performance in the opinion of an evaluator and documented in a report under section 299A.4, subsection 7, or the director of the department of education, or the director's designee, grants approval for competent private instruction to continue under a plan for remediation.

2. A child who is required to attend an accredited public or nonpublic school under this section shall continue attendance at an accredited public or nonpublic school until the child achieves adequate progress.

3. This section shall not be construed to require or prohibit testing on any subject matter at intervals more frequently or at grade levels other than those set forth in section 256.7, subsection 21, paragraph "b", subparagraph (2).

4. For purposes of this chapter, "adequate progress" means, for children in all grade levels of competent private instruction, evaluation scores which are above the thirtieth percentile, nationally normed, in each of the areas of reading, mathematics, and language arts, and which indicate either that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age. For children in grade levels six and above, "adequate progress" also means that the child has achieved evaluation scores in both science and social studies which are above the thirtieth percentile, nationally

normed, and which either indicate that the child has made six months' progress from the previous evaluation results or that the child is at or above grade level for the child's age.

A pupil who is participating only in extracurricular activities shall be counted under section 257.6, subsection 1, paragraph "a", subparagraph (6). DISTRICT UNIFORMITY

301.1 Adoption — purchase and sale — accredited nonpublic school pupil textbook services.

1. The board of directors of each and every school district is hereby authorized and empowered to adopt textbooks for the teaching of all branches that are now or may hereafter be authorized to be taught in the public schools of the state, and to contract for and buy said books and any and all other necessary school supplies at said contract prices, and to

sell the same to the pupils of their respective districts at cost, loan such textbooks to such pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

2. Textbooks adopted and purchased by a school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil's parent under comparable terms as made available to pupils attending public schools. If the general assembly appropriates moneys for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of nonsectarian, nonreligious textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a "*participating accredited nonpublic school*" means an accredited nonpublic school that submits a written request on behalf of the school's pupils in accordance with this subsection, and that certifies its actual enrollment to the department of education by October 1, annually. By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection, an accredited nonpublic school's enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. The commission shall have the power to approve or deny applications for proposed alterations to exterior features within an area designated as an area of historical significance. An aggrieved party may appeal the commission's action to the governing body of the city. If not satisfied by the decision of the governing body, the party may appeal within sixty days of the governing body's decision to the district court for the county in which the designated area is located. On appeal the governing body or the district court as the case may be shall consider whether the commission has exercised its powers and followed the guidelines established by the law and ordinance, and whether the commission's action was patently arbitrary or capricious.

4. An area shall be designated an area of historical significance upon enactment of an ordinance of the city. Before the ordinance or an amendment to the ordinance is enacted, the governing body of the city shall submit the ordinance or amendment to the historical division for its review and recommendations.

The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. 305B.7 Acquiring title to undocumented property.

The fact that a museum retains a notice under section 305B.12 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

3. The department of cultural affairs shall adopt by rule a form for notice of intent to preserve an interest in property on loan to a museum. The form shall satisfy the requirements of subsection 1 and shall notify the claimant of the rights and procedures to preserve an interest in museum property. 6. Notwithstanding subsections 3 and 4, a lender or claimant who was not given notice as provided in this chapter that the museum intended to terminate a loan, as provided in section 305B.6, and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 305B.8, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

7. A museum is not liable at any time, in the absence of a court order, for returning property to the original lender, even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If persons claim competing interests in property in the possession of a museum, the burden is upon the claimants to prove their interest in an action in equity initiated by a claimant.
