Sites shall be graded, ditched, and rendered free from depressions in which water may collect and become a nuisance.

b. Sites shall be adequate in size to prevent overcrowding of necessary structures and to minimize the hazards of fire. Housing shall not be subject to, or in proximity to, conditions that create or are likely to create offensive odors, flies, noise, traffic, or attract rats or other rodents, or any other similar conditions.

k. Exterior openings shall be effectively screened with sixteen mesh material. Screen doors shall be equipped with self-closing devices.

l. In a room where people cook, live, and sleep, a minimum of sixty square feet per occupant shall be provided. Sanitary facilities shall be provided for storing and preparing food.

m. When a camp is operated during a season requiring artificial heating, living quarters with a minimum of one hundred square feet per occupant shall be provided and such living quarters or shelters shall, also, be provided with properly installed heating equipment of adequate capacity to maintain a room temperature of at least 70 degrees Fahrenheit. A stove or other source of heat shall be installed and vented in a manner to avoid both a fire hazard and a concentration of fumes or gas within such living quarters and shelters. In a room with wooden or combustible flooring, there shall be a concrete slab, metal sheet, or other fire-resistant material, on the floor under each stove, extending at least eighteen inches beyond the perimeter of the base of the stove. Any wall or ceiling not having a fire-resistant surface, within twenty-four inches of a stove or stovepipe, shall be protected by a metal sheet or other fire-resistant material. Heating appliances, other than electrical, shall be provided with a stovepipe or vent connected to the appliance and discharging to the outside air or chimney. The vent or chimney shall extend above the peak of the roof. Stovepipes shall be insulated with fire-resistant material where they pass through walls, ceilings, or floors.

e. Common drinking cups shall not be allowed or permitted.

f. Wells or springs used as sources of water supply shall have tight covers and be constructed and located to preclude pollution by seepage from cesspools, privies, sewers, sewage treatment works, stables or manure piles, or surface drainage. The water from such sources shall be obtained by free gravity flow or by an approved metal pump securely mounted on a concrete slab covering the well or spring. If the pump is adjacent to the well or spring, it shall be located and connected to prevent any pollution of such water supply.

4. *Toilet facilities.*

a. Approved toilet facilities adequate for the capacity of the camp shall be provided.

f. Urinals, constructed of nonabsorbent materials, may be substituted for men's toilet seats on the basis of one urinal or twenty-four inches of trough-type urinal for one toilet seat up to a maximum of one-third of the required toilet seats.

g. Each toilet room or facility shall be lighted naturally, or artificially, by a safe type of lighting at all hours of the day and night.

139A.19 Care provider notification.

1. *a.* Notwithstanding any provision of this chapter to the contrary, if a care provider sustains a significant exposure from an individual while rendering health care services or other services, the individual to whom the care provider was exposed is deemed to consent to a test to determine if the individual has a contagious or infectious disease and is deemed to consent to notification of the care provider of the results of the test, upon submission of a significant exposure report by the care provider to the hospital, clinic, other health facility, or other person specified in this section to whom the individual is delivered by the care provider as determined by rule.

b. The hospital, clinic, or other health facility in which the significant exposure occurred or other person specified in this section to whom the individual is delivered shall conduct the test. If the individual is delivered by the care provider to an institution administered by the Iowa department of corrections, the test shall be conducted by the staff physician of the institution. If the individual is delivered by the care provider to a jail, the test shall be conducted by the attending physician of the jail or the county medical examiner. The sample and test results shall only be identified by a number.

c. A hospital, clinic, or other health facility, institutions administered by the department of corrections, and jails shall have written policies and procedures for notification of a care provider under this section. The policies and procedures shall include designation of a representative of the care provider to whom notification shall be provided and who shall,

in turn, notify the care provider. The identity of the designated representative of the care provider shall not be revealed to the individual tested. The designated representative shall inform the hospital, clinic, or other health facility, institution administered by the department of corrections, or jail of those parties who received the notification, and following receipt of this information and upon request of the individual tested, the hospital, clinic, or other health facility, institution administered by the department of corrections, or jail shall inform the individual of the parties to whom notification was provided.

d. Notwithstanding any other provision of law to the contrary, a care provider may transmit cautions regarding contagious or infectious disease information, with the exception of AIDS or HIV pursuant to section 80.9B, in the course of the care provider's duties over the police radio broadcasting system under chapter 693 or any other radio-based communications system if the information transmitted does not personally identify an individual.

2. *a.* If the test results are positive, the hospital, clinic, other health facility, or other person performing the test shall notify the subject of the test and make any required reports to the department pursuant to sections 139A.3 and 141A.6. The report to the department shall include the name of the individual tested.

b. If the individual tested is diagnosed or confirmed as having a contagious or infectious disease, the hospital, clinic, other health facility, or other person conducting the test shall notify the care provider or the designated representative of the care provider who shall then notify the care provider.

c. The notification to the care provider shall be provided as soon as is reasonably possible following determination that the subject of the test has a contagious or infectious disease. The notification shall not include the name of the individual tested for the contagious or infectious disease unless the individual consents. If the care provider who sustained a significant exposure determines the identity of the individual diagnosed or confirmed as having a contagious or infectious disease, the identity of the individual shall be confidential information and shall not be disclosed by the care provider to any other person unless a specific written release is obtained from the individual diagnosed with or confirmed as having a contagious or infectious disease.

3. This section does not preclude a hospital, clinic, other health facility, or a health care provider from providing notification to a care provider under circumstances in which the hospital's, clinic's, other health facility's, or health care provider's policy provides for notification of the hospital's, clinic's, other health facility's, or health care provider's own employees of exposure to a contagious or infectious disease that is not life-threatening if the notice does not reveal a patient's name, unless the patient consents.

4. A hospital, clinic, other health facility, or health care provider, or other person participating in good faith in complying with provisions authorized or required under this section is immune from any liability, civil or criminal, which might otherwise be incurred or imposed.

5. A hospital's, clinic's, other health facility's, or health care provider's duty to notify under this section is not continuing but is limited to a diagnosis of a contagious or infectious disease made in the course of admission, care, and treatment following the rendering of health care services or other services to the individual who was the source of the significant exposure.

6. Notwithstanding subsection 5, the hospital, clinic, or other health facility may provide a procedure for notifying the exposed care provider if, following discharge from or completion of care or treatment by the hospital, clinic, or other health facility, the individual who was the source of the significant exposure, and for whom a significant exposure report was submitted that did not result in notification of the exposed care provider, wishes to provide information regarding the source individual's contagious or infectious disease status to the exposed care provider.

7. A hospital, clinic, other health facility, health care provider, or other person who is authorized to perform a test under this section who performs the test in compliance with this section or who fails to perform the test authorized under this section, is immune from any liability, civil or criminal, which might otherwise be incurred or imposed.

10. The employer of a care provider who sustained a significant exposure under this section shall pay the costs of testing for the individual who is the source of the significant exposure and of the testing of the care provider, if the significant exposure was sustained during the course of employment. However, the department shall assist an individual who is the source of the significant exposure in finding resources to pay for the costs of the testing and shall assist a care provider who renders direct aid without compensation in finding resources to pay for the cost of the test.

The protocols established shall be in accordance with the recommendations issued by the centers for disease control and prevention of the United States department of health and human services. The expert review panel may be

an established committee of the hospital. The procedures may provide for referral of the health care provider to the expert review panel established by the department pursuant to subsection 3 for establishment of the protocols. The procedures shall require reporting noncompliance with the protocols by a health care provider to the licensing board with jurisdiction over the relevant health care providers.

2. A health care facility shall adopt procedures in accordance with recommendations issued by the centers for disease control and prevention of the United States department of health and human services, applicable to a health care provider determined to be infected with HIV or HBV who ordinarily performs or assists with exposure-prone procedures within the health care facility. The procedures shall require referral of the health care provider to the expert review panel established by the department pursuant to subsection 3.

3. The department shall establish an expert review panel to determine on a case-by-case basis under what circumstances, if any, a health care provider determined to be infected with HIV or HBV practicing outside the hospital setting or referred to the panel by a hospital or health care facility may perform exposure-prone procedures. If a health care provider determined to be infected with HIV or HBV does not comply with the determination of the expert review panel, the panel shall report the noncompliance to the licensing board with jurisdiction over the health care provider. A determination of an expert review panel pursuant to this section is a final agency action appealable pursuant to section 17A.19.

4. The health care provider determined to be infected with HIV or HBV, who works in a hospital setting, may elect either the expert review panel established by the hospital or the expert review panel established by the department for the purpose of making a determination of the circumstances under which the health care provider may perform exposure-prone procedures.

5. A health care provider determined to be infected with HIV or HBV shall not perform an exposure-prone procedure except as approved by the expert review panel established by the department pursuant to subsection 3, or in compliance with the protocol established by the hospital pursuant to subsection 1 or the procedures established by the health care facility pursuant to subsection 2.

6. The board of medicine, the board of physician associates, the board of podiatry, the board of nursing, the dental board, and the board of optometry shall require that licensees comply with the recommendations issued by the centers for disease control and prevention of the United States department of health and human services for preventing transmission of human immunodeficiency virus and hepatitis B virus to patients during exposure-prone invasive procedures, with the recommendations of the expert review panel established pursuant to subsection 3, with hospital protocols established pursuant to subsection 1, and with health care facility procedures established pursuant to subsection 2, as applicable.

7. Information relating to the HIV status of a health care provider is confidential and subject to the provisions of section 141A.9. A person who intentionally or recklessly makes an unauthorized disclosure of such information is subject to a civil penalty of one thousand dollars. The attorney general or the attorney general's designee may maintain a civil action to enforce this section. Proceedings maintained under this section shall provide for the anonymity of the health care provider and all documentation shall be maintained in a confidential manner. Information relating to the HBV status of a health care provider is confidential and shall not be accessible to the public. Information regulated by this section, however, may be disclosed to members of the expert review panel established by the department or a panel established by hospital protocol under this section. The information may also be disclosed to the appropriate licensing board by filing a report as required by this section. The licensing board shall consider the report a complaint subject to the confidentiality provisions of section 272C.6. A licensee, upon the filing of a formal charge or notice of hearing by the licensing board based on such a complaint, may seek a protective order from the board.

8. The expert review panel established by the department and individual members of the panel shall be immune from any liability, civil or criminal, for reasonable actions taken in the good faith performance of functions authorized or required by this section. A hospital, an expert review panel established by the hospital, and individual members of the panel shall

141A.6 HIV-related conditions — consent, testing, and reporting — penalty.

1. Prior to undergoing a voluntary HIV-related test, information shall be available to the subject of the test concerning testing and any means of obtaining additional information regarding HIV transmission and risk reduction. If an individual signs a general consent form for the performance of medical tests or procedures, the signing of an additional consent form for the specific purpose of consenting to an HIV-related test is not required during the time in which the general consent form is in effect. If an individual has not signed a general consent form for the performance of medical tests and procedures or the consent form is no longer in effect, a health care provider shall obtain oral or written consent prior to performing an HIV-related test. If an individual is unable to provide consent, the individual's legal guardian may provide consent. If the individual's legal guardian cannot be located or is unavailable, a health care provider may authorize the test when the test results are necessary for diagnostic purposes to provide appropriate urgent medical care.

2. Within seven days of the receipt of a test result indicating HIV infection which has been confirmed as positive according to prevailing medical technology or immediately after the initial examination or treatment of an individual infected with HIV, the physician or other health care provider at whose request the test was performed or who performed the initial examination or treatment shall make a report to the department on a form provided by the department.

3. Within seven days of diagnosing a person as having AIDS or an AIDS-related condition, the diagnosing physician or physician associate shall make a report to the department on a form provided by the department.

a. The name of the patient.
b. The address of the patient.
c. The patient's date of birth.
d. The gender of the patient.
e. The race and ethnicity of the patient.
f. The patient's marital status.
g. The patient's telephone number.
h. If an HIV-related test was performed, the name and address of the laboratory or blood bank.

141A.7 Test results — counseling — application for services.

1. At any time that the subject of an HIV-related test is informed of confirmed positive test results, counseling concerning the emotional and physical health effects shall be initiated. Particular attention shall be given to explaining the need for the precautions necessary to avoid transmitting the virus. The subject shall be given information concerning additional counseling. If the legal guardian of the subject of the test provides consent to the test pursuant to section 141A.6, the provisions of this subsection shall apply to the legal guardian.

2. Notwithstanding subsection 1, the provisions of this section do not apply to any of the following:

a. The performance by a health care provider or health facility of an HIV-related test when the health care provider or health facility procures, processes, distributes, or uses a human body part donated for a purpose specified under the revised uniform anatomical gift Act as provided in chapter 142C, or semen provided prior to July 1, 1988, for the purpose of artificial insemination, or donations of blood, and such test is necessary to ensure medical acceptability of such gift or semen for the purposes intended.

3. A person may apply for voluntary treatment, contraceptive services, or screening or treatment for HIV infection and other sexually transmitted diseases directly to a licensed physician and surgeon, an osteopathic physician and surgeon, a physician associate, or a family planning clinic. Notwithstanding any other provision of law, however, a minor shall be informed prior to testing that, upon confirmation according to prevailing medical technology of a positive HIV-related test result, the minor's legal guardian is required to be informed by the testing facility. Testing facilities where minors are tested shall have available a program to assist minors and legal guardians with the notification process which emphasizes the need for family support and assists in making available the resources necessary to accomplish that goal. However, a testing facility which is precluded by federal statute, regulation, or centers for disease control and prevention guidelines from informing the legal guardian is exempt from the notification requirement. The minor shall give written consent to these procedures and to receive the services, screening, or treatment. Such consent is not subject to later disaffirmance by reason of minority.

a. The donor if the donor is any of the following:

(1) An adult.

(2) A minor, if the minor is emancipated.

(3) A minor, if the minor is authorized under state law to apply for a driver's license or identification card because the minor is at least fourteen years of age, and the minor authorizes a statement or symbol indicating an anatomical gift on a driver's license, identification card, or donor registry entry with the signed approval of a parent or guardian.

3. *Amending or revoking gift before donor's death.*

UNOFFICIAL VERSION
2021 EARLY RELEASE

b. A record signed pursuant to paragraph *"a"*, subparagraph (1), subparagraph division (b), shall comply with all of the following:

(1) Be witnessed by at least two adults, at least one of whom is a disinterested witness, who have signed at the request of the individual.

(2) State that the record has been signed and witnessed as provided in subparagraph (1).

c. An individual who has made a refusal may amend or revoke the refusal in accordance with any of the following:

(1) In the manner provided in paragraph *"a"* for making a refusal.

(2) By subsequently making an anatomical gift pursuant to subsection 2 that is inconsistent with the refusal.

(3) By destroying or canceling the record evidencing the refusal, or the portion of the record used to make the refusal, with the intent to revoke the refusal.

d. Except as otherwise provided in subsection 5, paragraph *"h"*, in the absence of an express, contrary indication by the individual set forth in the refusal, an individual's unrevoked refusal to make an anatomical gift of the individual's body or part prohibits all other persons from making an anatomical gift of the individual's body or part.

5. *Preclusive effect.*

a. Donor gift or amendment — subsequent actions by others prohibited. Except as otherwise provided in paragraph *"g"*, and subject to paragraph *"f"*, in the absence of a contrary indication by the donor, a person other than the donor is prohibited from making, amending, or revoking an anatomical gift of a donor's body or part if the donor made an anatomical gift of the donor's body or part under subsection 2 or an amendment to an anatomical gift of the donor's body or part under subsection 3.

b. Donor revocation not a refusal. A donor's revocation of an anatomical gift of the donor's body or part under subsection 3 is not a refusal and does not prohibit another person specified in subsection 1 or section 142C.4 from making an anatomical gift of the donor's body or part under subsection 2 or section 142C.4.

c. Gift on amendment by another — subsequent actions by others prohibited. If a person other than the donor makes an unrevoked anatomical gift of the donor's body or part under subsection 2, or an amendment to an anatomical gift of the donor's body or part under subsection 3, another person may not make, amend, or revoke the gift of the donor's body or part under section 142C.4.

d. Revocation by another not prohibitive of other gift. A revocation of an anatomical gift of a donor's body or part under subsection 3 by a person other than the donor does not prohibit another person from making an anatomical gift of the body or part under subsection 2 or section 142C.4.

e. Gift of part not prohibitive of gift of another part. In the absence of a contrary indication by the donor or other person authorized to make an anatomical gift under subsection 1, an anatomical gift of a part is neither a refusal to donate another part nor a limitation on the making of an anatomical gift of another part at a later time by the donor or another authorized person.

f. Gift for one purpose not prohibitive of another purpose. In the absence of a contrary indication by the donor or other person authorized to make an anatomical gift under subsection 1, an anatomical gift of a part for one or more of the purposes specified in subsection 1 is not a limitation on the making of an anatomical gift of the part for any of the other purposes by the donor or any other person under subsection 2 or section 142C.4.

g. Unemancipated minor gift — parent revocation. If a donor who is an unemancipated minor dies, a parent of the donor who is reasonably available may revoke or amend an anatomical gift of the donor's body or part.

h. Unemancipated minor refusal — parent revocation or amendment. If an unemancipated minor who signed a refusal dies, a parent of the minor who is reasonably available may revoke the minor's refusal.

If an objection is known, the gift shall be made only by a majority of the members of the class who are reasonably available.

b. A person shall not make an anatomical gift if, at the time of the death of the decedent, a person in a prior class under subsection 1 is reasonably available to make or to object to the making of an anatomical gift.

1. A medical examiner shall cooperate with procurement organizations to maximize the opportunity to recover organs for the purpose of transplantation when the recovery of organs does not interfere with a death investigation.

2. If a medical examiner receives notice from a procurement organization that an organ might be or was made available with respect to a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination will be performed, unless the medical examiner denies recovery in accordance with this section, the medical examiner or designee shall conduct a postmortem examination of the body or the organ in

a manner and within a period compatible with its preservation for the purposes of the gift. Every reasonable effort shall be made to accomplish the mutual goals of organ donation and a thorough death investigation.

3. An organ shall not be removed from the body of a decedent under the jurisdiction of a medical examiner for transplantation unless the organ is the subject of an anatomical gift. This subsection does not preclude a medical examiner from performing a medicolegal investigation pursuant to subsection 5 upon the body or organs of a decedent under the jurisdiction of the medical examiner.

4. Upon request of an organ procurement organization, a medical examiner shall release to the organ procurement organization the name and contact information of a decedent whose body is under the jurisdiction of the medical examiner. If the decedent's organs are medically suitable for transplantation, the pathologist or medical examiner shall release to the organ procurement organization the postmortem examination results, limited to cause and manner of death and any evidence of infection or other disease process, which might preclude safe transplantation of recovered organs. The organ procurement organization may make a subsequent disclosure of the postmortem examination results only if relevant to transplantation.

5. The medical examiner may conduct a medicolegal examination by reviewing all medical records, laboratory test results, X rays, other diagnostic results, and other information that any person possesses about a donor or prospective donor whose body is under the jurisdiction of the medical examiner, which the medical examiner determines may be relevant to the investigation.

6. A person who has any information requested by a medical examiner pursuant to subsection 5 shall provide that information as expeditiously as possible to allow the medical examiner to conduct the medicolegal investigation within a period compatible with the preservation of organs for the purpose of transplantation.

7. If an anatomical gift has been or might be made of an organ of a decedent whose body is under the jurisdiction of the medical examiner and a postmortem examination is not required, or the medical examiner determines that a postmortem examination is required but that the recovery of the organ that is the subject of an anatomical gift will not interfere with the examination, the medical examiner and organ procurement organization shall cooperate in the timely removal of the organ from the decedent for the purpose of transplantation.

8. *a.* If an anatomical gift of an organ from a decedent under the jurisdiction of the medical examiner has been or might be made, but the pathologist or medical examiner initially believes that the recovery of the organ could interfere with the postmortem investigation into the decedent's cause or manner of death, the pathologist or medical examiner shall consult with the organ procurement organization or physician or technician designated by the organ procurement organization about the proposed recovery.

b. Ancillary clinical tests such as a magnetic resonance imaging (MRI), a computed tomography (CT) scan, or skeletal survey may be required by the pathologist prior to determination of suitability of organ procurement. These tests shall be performed and interpreted by the appropriate physician at the pathologist's request, and reported in a timely fashion. All expenses for such tests shall be the responsibility of the organ procurement organization regardless of outcome.

c. After consultation pursuant to paragraph *"a"* and any preliminary investigation pursuant to paragraph *"b"*, the pathologist or medical examiner may allow recovery, depending on the nature of the case and the availability of a pathologist to view the body prior to recovery.

9. If the manner of death may be homicide or has the potential for litigation, the organ recovery shall be approved by the forensic pathologist, and the forensic pathologist may examine the body prior to organ recovery and document by diagrams and photographs all visible injuries.

10. *a.* If the medical examiner or designee allows recovery of an organ under subsection 7, 8, or 9, the organ procurement organization, upon request, shall cause the physician or technician who removes the organ to provide the medical examiner with a record

UNOFFICIAL VERSION PRE-RELEASE

describing the condition of the organ, a biopsy, a photograph, and any other information and observations that would assist in the postmortem examination.

b. Arrangements for the examination of bodies of such decedents shall be coordinated between the organ procurement organization and the state medical examiner.

c. If applicable, and whenever possible, the forensic pathologist who examined the decedent's body prior to recovery of the organ shall perform the autopsy. If the forensic pathologist is unable to accommodate examination of the body due to scheduling or staffing, the request for organ donation may be denied.

11. If a medical examiner or designee is required to be present at a removal procedure under subsection 9, upon request, the organ procurement organization requesting the recovery of the organ shall reimburse the medical examiner or designee for the additional costs incurred in complying with subsection 9.

12. A physician or technician who removes an organ at the direction of the organ procurement organization may be called to testify about findings from the surgical recovery of organs at no cost to taxpayers if the decedent is under the jurisdiction of the medical examiner.

13. *a.* The medical examiner or pathologist with jurisdiction over the body of a decedent has discretion to grant or deny permission for organ or tissue recovery.

b. If the recovery of organs or tissues may hinder the determination of cause or manner of death or if evidence may be destroyed by the recovery, permission may be denied.

c. The medical examiner or a pathologist performing state autopsies shall work closely with procurement organizations in an effort to balance the needs of the public and the decedent's next of kin.

DECLARATION

If I should have an incurable or irreversible condition that will result either in death within a relatively short period of time or a state of permanent unconsciousness from which, to a reasonable degree of medical certainty, there can be no recovery, it is my desire that my life not be prolonged by the administration of life-sustaining procedures. If I am unable to participate in my health care decisions, I direct my attending provider to withhold or withdraw life-sustaining procedures that merely prolong the dying process and are not necessary to my comfort or freedom from pain.

A revocation is only effective as to the health care provider upon communication to that provider by the patient, an individual authorized to act on the patient's behalf as designated in the order, or by another person to whom the revocation is communicated.

144A.11 General provisions.

1. Death resulting from the withholding or withdrawal of life-sustaining procedures pursuant to a declaration or out-of-hospital do-not-resuscitate order and in accordance with this chapter does not, for any purpose, constitute a suicide, homicide, or dependent adult abuse.

2. The executing of a declaration pursuant to section 144A.3 or an out-of-hospital do-not-resuscitate order pursuant to section 144A.7A does not affect in any manner the sale, procurement, or issuance of any policy of life insurance, nor shall it be deemed to modify the terms of an existing policy of life insurance. No policy of life insurance is legally impaired or invalidated in any manner by the withholding or withdrawal of life-sustaining procedures pursuant to this chapter, notwithstanding any term of the policy to the contrary.

3. A physician, health care provider, health care service plan, insurer issuing disability insurance, self-insured employee welfare benefit plan, or nonprofit hospital plan shall not require any person to execute a declaration or an out-of-hospital do-not-resuscitate order as a condition for being insured for, or receiving, health care services.

4. This chapter creates no presumption concerning the intention of an individual who has not executed a declaration or an out-of-hospital do-not-resuscitate order with respect to the use, withholding, or withdrawal of life-sustaining procedures in the event of a terminal condition.

5. This chapter shall not be interpreted to increase or decrease the right of a patient to make decisions regarding use of life-sustaining procedures as long as the patient is able to do so, nor to impair or supersede any right or responsibility that any person has to effect the withholding or withdrawal of medical care in any lawful manner. In that respect, the provisions of this chapter are cumulative.

6. This chapter shall not be construed to condone, authorize or approve mercy killing or euthanasia, or to permit any affirmative or deliberate act or omission to end life other than to permit the natural process of dying.

Unless the district court sitting in equity specifically finds that the attorney in fact is acting in a manner contrary to the wishes of the principal or the durable power of attorney for health care provides otherwise, an attorney in fact who is known to the health care provider to be available and willing to make health care decisions has priority over any other person, including a guardian appointed pursuant to chapter 633, to act for the principal in all matters of health care decisions. If the principal objects to a decision to withhold or withdraw health care, the principal shall be presumed to be able to make a decision.

2. In exercising the authority under the durable power of attorney for health care, the attorney in fact has a duty to act in accordance with the desires of the principal as expressed in the durable power of attorney for health care, a declaration executed by the principal pursuant to section 144A.3, or otherwise made known to the attorney in fact at any time. The authority of the attorney in fact shall not be restricted by the desires of the principal as expressed verbally to a person other than the attorney in fact or in any other document unless, in a separate section of the durable power of attorney for health care, the principal expressly states that the durable power of attorney for health care is limited and includes the limitations on the authority of the attorney in fact. Revocation may be by notifying the attorney in fact orally or in writing. Revocation may also be made by notifying a health care provider orally or in writing while that provider is engaged in providing health care to the principal. A revocation is only effective as to a health care provider upon its communication to the provider by the principal or by another to whom the principal has communicated revocation. The health care provider shall document the revocation in the treatment records of the principal.

a. The decision is made by an attorney in fact who the health care provider believes in good faith is authorized to make the decision.

b. The health care provider believes in good faith that the decision is not inconsistent with the desires of the principal as expressed in the durable power of attorney for health care or otherwise made known to the health care provider, and, if the decision is to withhold or withdraw health care necessary to keep the principal alive, the health care provider has provided an opportunity for the principal to object to the decision.

2. Notwithstanding a contrary health care decision of the attorney in fact, the health care provider is not subject to criminal prosecution, civil liability, or professional disciplinary action for failing to withhold or withdraw health care necessary to keep the principal alive. However, the attorney in fact may make provisions to transfer the responsibility for the care of the principal to another health care provider.

3. An attorney in fact is not subject to criminal prosecution or civil liability for any health care decision made in good faith pursuant to a durable power of attorney for health care.

The order shall be published in one or more newspapers which have general circulation within the merged area once each week for three consecutive weeks, but the newspapers selected need not be published in the merged area. The published order shall contain a notice to the residents of each subdivision of the proposed merged area that if the residents fail to protest as provided in this chapter, the order shall be deemed approved upon the expiration of a sixty-day period following the date of the last published notice.

An individual who may lawfully perform, assist, or participate in medical procedures which will result in an abortion shall not be required against that individual's religious beliefs or moral convictions to perform, assist, or participate in such procedures. A person shall not discriminate against any individual in any way, including but not limited to employment, promotion, advancement, transfer, licensing, education, training or the granting of hospital privileges or staff appointments, because of the individual's participation in or refusal to participate in recommending, performing, or assisting in an abortion procedure. For the purposes of this chapter, "*abortion*" means the termination of a human pregnancy with the intent other than to produce a live birth or to remove a dead fetus. Abortion does not include medical care which has as its primary purpose the treatment of a serious physical condition requiring emergency medical treatment necessary to save the life of a mother.

c. That the woman was given the option of hearing a description of the unborn child based on the ultrasound image and hearing the heartbeat of the unborn child.

d. (1) That the woman has been provided information regarding all of the following, based upon the materials developed by the department of health and human services pursuant to subparagraph (2):

d. "Physician" means the same as defined in section 146B.1.

e. "Unborn child" means an individual organism of the species homo sapiens from fertilization to live birth.

4. *"Fertilization"* means the fusion of a human spermatozoon with a human ovum.

5. *"Major bodily function"* includes but is not limited to functions of the immune system, normal cell growth, and digestive, bowel, bladder, neurological, brain, respiratory, circulatory, endocrine, and reproductive functions.

Subsection 1 amended

146B.2 Determination of postfertilization age — certain abortions prohibited — exceptions — reporting requirements — penalties.

1. Except in the case of a medical emergency, in addition to compliance with the prerequisites of chapter 146A, an abortion shall not be performed or be attempted to be performed unless the physician performing the abortion has first made a determination of the probable postfertilization age of the unborn child or relied upon such a determination made by another physician. In making such a determination, a physician shall make such inquiries of the pregnant woman and perform or cause to be performed such medical examinations and tests the physician considers necessary in making a reasonable medical judgment to accurately determine the postfertilization age of the unborn child.

2. *a.* A physician shall not perform or attempt to perform an abortion upon a pregnant woman when it has been determined, by the physician performing the abortion or by another physician upon whose determination that physician relies, that the probable postfertilization age of the unborn child is twenty or more weeks unless, in the physician's reasonable medical judgment, any of the following applies:

(1) The pregnant woman has a condition which the physician deems a medical emergency.

(2) The abortion is necessary to preserve the life of an unborn child.

b. If an abortion is performed under this subsection, the physician shall terminate the

UNOFFICIAL VERSION
2026 EARLY RELEASE

human pregnancy in the manner which, in the physician's reasonable medical judgment, provides the best opportunity for an unborn child to survive, unless, in the physician's reasonable medical judgment, termination of the human pregnancy in that manner would pose a greater risk than any other available method of the death of the pregnant woman or of the substantial and irreversible physical impairment of a major bodily function. A greater risk shall not be deemed to exist if it is based on a claim or diagnosis that the pregnant woman will engage in conduct which would result in the pregnant woman's death or in substantial and irreversible physical impairment of a major bodily function.

3. A physician who performs or attempts to perform an abortion shall report to the department, on a schedule and in accordance with forms and rules adopted by the department, all of the following:

a. If a determination of probable postfertilization age of the unborn child was made, the probable postfertilization age determined and the method and basis of the determination.

b. If a determination of probable postfertilization age of the unborn child was not made, the basis of the determination that a medical emergency existed.

c. If the probable postfertilization age of the unborn child was determined to be twenty or more weeks, the basis of the determination of a medical emergency, or the basis of the determination that the abortion was necessary to preserve the life of an unborn child.

d. The method used for the abortion and, in the case of an abortion performed when the probable postfertilization age was determined to be twenty or more weeks, whether the method of abortion used was one that, in the physician's reasonable medical judgment, provided the best opportunity for an unborn child to survive or, if such a method was not used, the basis of the determination that termination of the human pregnancy in that manner would pose a greater risk than would any other available method of the death of the pregnant woman or of the substantial and irreversible physical impairment of a major bodily function.

4. *a.* By June 30, annually, the department shall issue a public report providing statistics for the previous calendar year, compiled from the reports for that year submitted in accordance with subsection 3. The department shall ensure that none of the information included in the public reports could reasonably lead to the identification of any woman upon whom an abortion was performed.

b. (1) A physician who fails to submit a report by the end of thirty days following the due date shall be subject to a late fee of five hundred dollars for each additional thirty-day period or portion of a thirty-day period the report is overdue.

(2) A physician required to report in accordance with subsection 3 who has not submitted a report or who has submitted only an incomplete report more than one year following the due date, may, in an action brought in the manner in which actions are brought to enforce chapter 148, be directed by a court of competent jurisdiction to submit a complete report within a time period stated by court order or be subject to contempt of court.

(3) A physician who intentionally or recklessly falsifies a report required under this section is subject to a civil penalty of one hundred dollars.

5. Any medical facility in which a physician is authorized to perform an abortion shall implement written medical policies and procedures consistent with the requirements and prohibitions of this chapter.

6. The department shall adopt rules to implement this section.

2017 Acts, ch 108, §3, 7
Referred to in §146B.3

146B.3 Civil actions and penalties.

1. Failure of a physician to comply with any provision of section 146B.2, with the exception of the late filing of a report or failure to submit a complete report in compliance with a court order, is grounds for licensee discipline under chapter 148.

2. A woman upon whom an abortion has been performed in violation of this chapter may maintain an action against the physician who performed the abortion in intentional or reckless violation of this chapter for actual damages.

3. A woman upon whom an abortion has been attempted in violation of this chapter may

maintain an action against the physician who attempted the abortion in intentional or reckless violation of this chapter for actual damages.

4. A cause of action for injunctive relief to prevent a physician from performing abortions may be maintained against a physician who has intentionally violated this chapter by the woman upon whom the abortion was performed or attempted, by a parent or guardian of the woman if the woman is less than eighteen years of age at the time the abortion was performed or attempted, by a current or former licensed health care provider of the woman, by a county attorney with appropriate jurisdiction, or by the attorney general.

5. If the plaintiff prevails in an action brought under this section, the plaintiff shall be entitled to an award for reasonable attorney fees.

6. If the defendant prevails in an action brought under this section and the court finds that the plaintiff's suit was frivolous and brought in bad faith, the defendant shall be entitled to an award for reasonable attorney fees.

7. Damages and attorney fees shall not be assessed against the woman upon whom an abortion was performed or attempted except as provided in subsection 6.

8. In a civil proceeding or action brought under this chapter, the court shall rule whether the anonymity of any woman upon whom an abortion has been performed or attempted shall be preserved from public disclosure if the woman does not provide consent to such disclosure. The court, upon motion or on its own motion, shall make such a ruling and, upon determining that the woman's anonymity should be preserved, shall issue orders to the parties, witnesses, and counsel and shall direct the sealing of the record and exclusion of individuals from courtrooms or hearing rooms to the extent necessary to safeguard the woman's identity from public disclosure. Each such order shall be accompanied by specific written findings explaining why the anonymity of the woman should be preserved from public disclosure, why the order is essential to that end, how the order is narrowly tailored to serve that interest, and why no reasonable less restrictive alternative exists. In the absence of written consent of the woman upon whom an abortion has been performed or attempted, anyone, other than a public official, who brings an action under this section shall do so under a pseudonym. This subsection shall not be construed to conceal the identity of the plaintiff or of witnesses from the defendant or from attorneys for the defendant.

9. This chapter shall not be construed to impose civil or criminal liability on a woman upon whom an abortion is performed or attempted.

3. The limitation on damages contained in this section shall not apply as to a defendant if that defendant's actions constituted actual malice.

4. The limitations on damages contained in subsection 2 shall increase by two and one-tenth percent on January 1, 2028, and each January 1 thereafter. In any civil action described in this section, such limitations on damages shall be the amount effective at the time of the occurrence. 147A.22 Legislative findings and intent — purpose.

The general assembly finds the following:

1. Trauma is a serious health problem in the state of Iowa and is the leading cause of death of younger Iowans. The death and disability associated with traumatic injury contributes to the significant medical expenses and lost work, and adversely affects the productivity of Iowans.

2. Optimal trauma care is limited in many parts of the state. With health care delivery in transition, access to quality trauma and emergency medical care continues to challenge our rural communities.

3. The goal of a statewide trauma care system is to coordinate the medical needs of the injured person with an integrated system of optimal and cost-effective trauma care. The result of a well-coordinated statewide trauma care system is to reduce the incidences of inadequate trauma care and preventable deaths, minimize human suffering, and decrease the costs associated with preventable mortality and morbidity.

4. The development of the Iowa trauma care system will achieve these goals while meeting the unique needs of the rural residents of the state.

95 Acts, ch 40, §3

147A.23 Trauma care system development.

1. The department is designated as a lead agency in this state responsible for the development of a statewide trauma care system.

2. The department shall develop, coordinate, and monitor a statewide trauma care system. This system shall include, but not be limited to, the following:

a. (1) Development of criteria for the categorization of all hospitals and emergency care facilities according to their trauma care capabilities. These categories shall be for levels I, II, III, and IV, based on the most current guidelines published by the American college of surgeons committee on trauma, the American college of emergency physicians, and the model trauma care plan of the United States department of health and human services' health resources and services administration.

(2) The categorization of all hospitals and emergency care facilities by the department as to their capacity to provide trauma care services. The categorization shall be determined by the department from self-reported information provided to the department by the hospital or emergency care facility. This categorization shall not be construed to imply any guarantee on the part of the department as to the level of trauma care services available at the hospital or emergency care facility.

b. (1) Development of a process for the verification of the trauma care capacity of each facility and the issuance of a certificate of verification. The standards and verification process shall be established by rule and may vary as appropriate by level of trauma care capability. To the extent possible, the standards and verification process shall be coordinated with other applicable accreditation and licensing standards.

(2) The issuance of a certificate of verification of all categorized hospitals and emergency care facilities from the department at the level preferred by the hospital or emergency care facility.

c. Upon verification and the issuance of a certificate of verification, agreement by a hospital or emergency care facility to maintain a level of commitment and resources sufficient to meet responsibilities and standards as required by the trauma care criteria established by rule under this subchapter. Verifications are valid for a period of three years or as determined by the department and are renewable. As part of the verification and renewal process, the department may conduct periodic on-site reviews of the services and facilities of the hospital or emergency care facility.

d. Implementation of an Iowa trauma care plan.

e. Development of standards for medical direction, trauma care, triage and transfer protocols, and trauma registries.

f. Promotion of public information and education activities for injury prevention.

g. The development of strategies and the review of rules adopted under this subchapter to promote optimal trauma care delivery throughout the state.

UNOFFICIAL VERSION: 2021 EARLY RELEASE

h. Development, implementation, and conducting of trauma care system evaluation, quality assessment, and quality improvement.

3. The department is responsible for the funding of the administrative costs of this subchapter. Any funds received by the department for this purpose shall be deposited in the emergency medical services fund established in section 135.25.

4. This section shall not be construed to limit the number and distribution of level I, II, III, and IV categorized and verified trauma care facilities in a community or region.

5. Proceedings, records, and reports developed pursuant to this section constitute peer review records under section 147.135, and are not subject to discovery by subpoena or admissible as evidence. All information and documents received from a hospital or emergency care facility under this subchapter shall be confidential pursuant to section 272C.6, subsection 4.

CHAPTER 147B

INTERSTATE MEDICAL LICENSURE COMPACT

147B.1 Interstate medical licensure compact.

147B.1 Interstate medical licensure compact.

1. *Purpose.*

a. In order to strengthen access to health care, and in recognition of the advances in the delivery of health care, the member states of the interstate medical licensure compact have allied in common purpose to develop a comprehensive process that complements the existing licensing and regulatory authority of state medical boards and provides a streamlined process that allows physicians to become licensed in multiple states, thereby enhancing the portability of a medical license and ensuring the safety of patients. The compact creates another pathway for licensure and does not otherwise change a state's existing medical practice Act. The compact also adopts the prevailing standard for licensure and affirms that the practice of medicine occurs where the patient is located at the time of the physician-patient encounter, and therefore, requires the physician to be under the jurisdiction of the state medical board where the patient is located.

b. State medical boards that participate in the compact retain the jurisdiction to impose an adverse action against a license to practice medicine in that state issued to a physician through the procedures in the compact.

2. *Definitions.* In this compact:

a. *"Bylaws"* means those bylaws established by the interstate commission pursuant to subsection 11 for its governance, or for directing and controlling its actions and conduct.

b. *"Commissioner"* means the voting representative appointed by each member board pursuant to subsection 11.

c. *"Conviction"* means a finding by a court that an individual is guilty of a criminal offense through adjudication, or entry of a plea of guilt or no contest to the charge by the offender. Evidence of an entry of a conviction of a criminal offense by the court shall be considered final for purposes of disciplinary action by a member board.

d. *"Expedited license"* means a full and unrestricted medical license granted by a member state to an eligible physician through the process set forth in the compact.

e. *"Interstate commission"* means the interstate commission created pursuant to this section.

f. *"License"* means authorization by a state for a physician to engage in the practice of medicine, which would be unlawful without the authorization.

g. *"Medical practice act"* means laws and regulations governing the practice of allopathic and osteopathic medicine within a member state.

h. *"Member board"* means a state agency in a member state that acts in the sovereign interests of the state by protecting the public through licensure, regulation, and education of physicians as directed by the state government.

i. *"Member state"* means a state that has enacted the compact.

j. *"Offense"* means a felony, gross misdemeanor, or crime of moral turpitude.

k. *"Physician"* means any person who satisfies all of the following:

(1) Is a graduate of a medical school accredited by the liaison committee on medical education, the commission on osteopathic college accreditation, or a medical school listed in the international medical education directory or its equivalent.

(2) Passed each component of the United States medical licensing examination or the comprehensive osteopathic medical licensing examination within three attempts, or any of its predecessor examinations accepted by a state medical board as an equivalent examination for licensure purposes.

(3) Successfully completed graduate medical education approved by the accreditation council for graduate medical education or the American osteopathic association.

(4) Holds specialty certification or a time-unlimited specialty certificate recognized by the

American board of medical specialties or the American osteopathic association's bureau of osteopathic specialists.

(5) Possesses a full and unrestricted license to engage in the practice of medicine issued by a member board.

(6) Has never been convicted, received adjudication, deferred adjudication, community supervision, or deferred disposition for any offense by a court of appropriate jurisdiction.

(7) Has never held a license authorizing the practice of medicine subjected to discipline by a licensing agency in any state, federal, or foreign jurisdiction, excluding any action related to nonpayment of fees related to a license.

(8) Has never had a controlled substance license or permit suspended or revoked by a state or the United States drug enforcement administration.

(9) Is not under active investigation by a licensing agency or law enforcement authority in any state, federal, or foreign jurisdiction.

l. "Practice of medicine" means the clinical prevention, diagnosis, or treatment of human disease, injury, or condition requiring a physician to obtain and maintain a license in compliance with the medical practice act of a member state.

m. "Rule" means a written statement by the interstate commission promulgated pursuant to subsection 12 that is of general applicability, implements, interprets, or prescribes a policy or provision of the compact, or an organizational, procedural, or practice requirement of the interstate commission, and has the force and effect of statutory law in a member state, and includes the amendment, repeal, or suspension of an existing rule.

n. "State" means any state, commonwealth, district, or territory of the United States.

o. "State of principal license" means a member state where a physician holds a license to practice medicine and which has been designated as such by the physician for purposes of registration and participation in the compact.

3. *Eligibility.*

b. A physician who does not meet the requirements of subsection 2, paragraph *"k"*, may obtain a license to practice medicine in a member state if the individual complies with all laws and requirements, other than the compact, relating to the issuance of a license to practice medicine in that state.

4. *Designation of state of principal license.*

a. A physician shall designate a member state as the state of principal license for purposes of registration for expedited licensure through the compact if the physician possesses a full and unrestricted license to practice medicine in that state, and the state is:

a. A physician seeking licensure through the compact shall file an application for an expedited license with the member board of the state selected by the physician as the state of principal license.

b. Upon receipt of an application for an expedited license, the member board within the state selected as the state of principal license shall evaluate whether the physician is eligible for expedited licensure and issue a letter of qualification, verifying or denying the physician's eligibility, to the interstate commission.

(1) Static qualifications, which include verification of medical education, graduate medical education, results of any medical or licensing examination, and other qualifications

(2) The member board within the state selected as the state of principal license shall, in the course of verifying eligibility, perform a criminal background check of an applicant, including the use of the results of fingerprint or other biometric data checks compliant with the requirements of the federal bureau of investigation, with the exception of federal employees who have suitability determination in accordance with 5 C.F.R. §731.202.

(3) Appeal on the determination of eligibility shall be made to the member state where the application was filed and shall be subject to the law of that state.

c. Upon verification in paragraph *"b"*, physicians eligible for an expedited license shall complete the registration process established by the interstate commission to receive a license in a member state selected pursuant to paragraph *"a"*, including the payment of any applicable fees.

d. After receiving verification of eligibility under paragraph *"b"* and any fees under paragraph *"c"*, a member board shall issue an expedited license to the physician. This license shall authorize the physician to practice medicine in the issuing state consistent with the medical practice act and all applicable laws and regulations of the issuing member board and member state.

e. An expedited license shall be valid for a period consistent with the licensure period in the member state and in the same manner as required for other physicians holding a full and unrestricted license within the member state.

f. An expedited license obtained through the compact shall be terminated if a physician fails to maintain a license in the state of principal license for a nondisciplinary reason, without redesignation of a new state of principal license.

g. The interstate commission is authorized to develop rules regarding the application process, including payment of any applicable fees, and the issuance of an expedited license.

6. *Fees for expedited licensure.*

a. A member state issuing an expedited license authorizing the practice of medicine in that state may impose a fee for a license issued or renewed through the compact.

b. The interstate commission is authorized to develop rules regarding fees for expedited licenses.

e. Physician information collected by the interstate commission during the renewal process will be distributed to all member boards.

f. The interstate commission is authorized to develop rules to address renewal of licenses obtained through the compact.

UNOFFICIAL VERSION 2021 EARLY RELEASE

a. The interstate commission shall establish a database of all physicians licensed, or who have applied for licensure, under subsection 5.

b. Notwithstanding any other provision of law, member boards shall report to the interstate commission any public action or complaints against a licensed physician who has applied or received an expedited license through the compact.

c. Member boards shall report disciplinary or investigatory information determined as necessary and proper by rule of the interstate commission.

d. Member boards may report any nonpublic complaint, disciplinary, or investigatory information not required by paragraph "*c*" to the interstate commission.

e. Member boards shall share complaint or disciplinary information about a physician upon request of another member board.

f. All information provided to the interstate commission or distributed by member boards shall be confidential, filed under seal, and used only for investigatory or disciplinary matters.

9. *Joint investigations.*

a. Licensure and disciplinary records of physicians are deemed investigative.

b. In addition to the authority granted to a member board by its respective medical practice Act or other applicable state law, a member board may participate with other member boards in joint investigations of physicians licensed by the member boards.

c. A subpoena issued by a member state shall be enforceable in other member states.

d. Member boards may share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

e. Any member state may investigate actual or alleged violations of the statutes authorizing the practice of medicine in any other member state in which a physician holds a license to practice medicine.

10. *Disciplinary actions.*

a. Any disciplinary action taken by any member board against a physician licensed through the compact shall be deemed unprofessional conduct which may be subject to discipline by other member boards, in addition to any violation of the medical practice Act or regulations in that state.

b. If a license granted to a physician by the member board in the state of principal license is revoked, surrendered, or relinquished in lieu of discipline, or suspended, then all licenses issued to the physician by member boards shall automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the physician's license, a license issued to the physician by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the medical practice Act of that state.

c. If disciplinary action is taken against a physician by a member board not in the state of principal license, any other member board may deem the action conclusive as to matter of law and fact decided and either:

(1) Impose the same or lesser sanctions against the physician so long as such sanctions are consistent with the medical practice Act of that state, or

(2) Pursue separate disciplinary action against the physician under its respective medical practice Act, regardless of the action taken in other member states.

d. If a license granted to a physician by a member board is revoked, surrendered, or relinquished in lieu of discipline, or suspended, then any licenses issued to the physician by any other member boards shall be suspended, automatically and immediately without further action necessary by the other member boards, for ninety days upon entry of the order by the disciplining board, to permit the member boards to investigate the basis for the action under the medical practice Act of that state. A member board may terminate the automatic suspension of the license it issued prior to the completion of the ninety-day suspension period in a manner consistent with the medical practice Act of that state.

11. *Interstate medical licensure compact commission.*

(2) The interstate commission shall defend the executive director, its employees, and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by an interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

(3) To the extent not covered by the state involved, member state, or the interstate commission, the representatives or employees of the interstate commission shall be held harmless in the amount of a settlement or judgment, including attorney fees and costs, obtained against such persons arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

15. *Rulemaking functions of the interstate commission.*

a. The interstate commission shall promulgate reasonable rules in order to effectively and efficiently achieve the purposes of the compact. Notwithstanding the foregoing, in the event the interstate commission exercises its rulemaking authority in a manner that is beyond the scope of the purposes of the compact, or the powers granted hereunder, then such an action by the interstate commission shall be invalid and have no force or effect.

b. Rules deemed appropriate for the operations of the interstate commission shall be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure Act of 2010, and subsequent amendments thereto.

UNOFFICIAL VERSION 2021 EARLY RELEASE

c. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the interstate commission.

16. *Oversight of interstate compact.*

a. The executive, legislative, and judicial branches of state government in each member state shall enforce the compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of the compact and the rules promulgated hereunder shall have standing as statutory law but shall not override existing state authority to regulate the practice of medicine.

b. All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of the compact which may affect the powers, responsibilities, or actions of the interstate commission.

c. The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. Failure to provide service of process to the interstate commission shall render a judgment or order void as to the interstate commission, the compact, or promulgated rules.

17. *Enforcement of interstate compact.*

a. The interstate commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of the compact.

b. The interstate commission may, by majority vote of the commissioners, initiate legal action in the United States district court for the District of Columbia, or, at the discretion of the interstate commission, in the federal district where the interstate commission has its principal offices, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

(2) Provide remedial training and specific technical assistance regarding the default.

c. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the commissioners and all rights, privileges, and benefits conferred by the compact shall terminate on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of the default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

e. The interstate commission shall establish rules and procedures to address licenses

f. The member state which has been terminated is responsible for all dues, obligations, and liabilities incurred through the effective date of termination including obligations, the performance of which extends beyond the effective date of termination.

g. The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

h. The defaulting state may appeal the action of the interstate commission by petitioning the United States district court for the District of Columbia or the federal district where the interstate commission has its principal offices. The prevailing party shall be awarded all costs of such litigation including reasonable attorney fees.

19. *Dispute resolution.*

20. *Member states, effective date, and amendment.*

a. Any state is eligible to become a member state of the compact.

b. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than seven states. Thereafter, it shall become effective and binding on a state upon enactment of the compact into law by that state.

c. The governors of nonmember states, or their designees, shall be invited to participate in the activities of the interstate commission on a nonvoting basis prior to adoption of the compact by all states.

d. The interstate commission may propose amendments to the compact for enactment by the member states. No amendment shall become effective and binding upon the interstate commission and the member states unless and until it is enacted into law by unanimous consent of the member states.

21. *Withdrawal.*

a. Once effective, the compact shall continue in force and remain binding upon each and every member state, provided that a member state may withdraw from the compact by specifically repealing the statute which enacted the compact into law.

b. Withdrawal from the compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each other member state.

c. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.

d. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of notice provided under paragraph "*c*".

e. The withdrawing state is responsible for all dues, obligations, and liabilities incurred through the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

f. Reinstatement following withdrawal of a member state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the interstate commission.

g. The interstate commission is authorized to develop rules to address the impact of the withdrawal of a member state on licenses granted in other member states to physicians who designated the withdrawing member state as the state of principal license.

22. *Dissolution.*

a. The compact shall dissolve effective upon the date of the withdrawal or default of the member state which reduces the membership in the compact to one member state.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact unless agreed upon in writing between the commission and the defaulting state.

c. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's physical therapy licensing board to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any physical therapy licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

A remote state may, in accordance with due process and that state's laws, restrict, suspend, or revoke an individual's privilege to practice in the remote state and may take any other necessary actions to protect the health and safety of its citizens. If a remote state takes action it shall promptly notify the home state and the commission.

e. If an individual's license in any home state is restricted or suspended, the individual shall not be eligible to practice in a remote state under the privilege to practice until the individual's home state license is restored.

a. Member states shall consider a veteran, active military service member, and member of the national guard and reserves separating from an active duty tour, and a spouse thereof, who holds a current, valid, unrestricted national registry of emergency medical technicians certification at or above the level of the state license being sought as satisfying the minimum training and examination requirements for such licensure.

g. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the member state's laws. (j) Matters specifically exempted from disclosure by federal or member state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

The commission may meet in closed session only after a majority of the membership votes to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each member with no proxy votes allowed;

(4) Establishing the titles, duties and authority, and reasonable procedures for the election of the officers of the commission;

(5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any member state, the bylaws shall exclusively govern the personnel policies and programs of the commission;

(6) Promulgating a code of ethics to address permissible and prohibited activities of commission members and employees;

(7) Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of the compact after the payment and/or reserving of all of its debts and obligations;

(8) The commission shall publish its bylaws and file a copy thereof, and a copy of any amendment thereto, with the appropriate agency or officer in each of the member states, if any;

(9) The commission shall maintain its financial records in accordance with the bylaws; and

(10) The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

(9) To establish a budget and make expenditures;

(3) The commission may levy on and collect an annual assessment from each member state or impose fees on other parties to cover the cost of the operations and activities of the commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule binding upon all member states.

(4) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the member states, except by and with the authority of the member state.

(5) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

12. *Rulemaking.*

a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment.

b. If a majority of the legislatures of the member states rejects a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, then such rule shall have no further force and effect in any member state.

c. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

Public notice of any revisions shall be posted on the website of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. UNOFFICIAL VERSION
2021 EARLY RELEASE

If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

13. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive, legislative, and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall have standing as statutory law.

(2) All courts shall take judicial notice of the compact and the rules in any judicial or administrative proceeding in a member state pertaining to the subject matter of this compact which may affect the powers, responsibilities, or actions of the commission.

(3) The commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall:

(a) Provide written notice to the defaulting state and other member states of the nature of the default, the proposed means of curing the default and/or any other action to be taken by the commission; and

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. (2) Withdrawal shall not affect the continuing requirement of the withdrawing state's emergency medical services authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any emergency medical services personnel licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

e. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

j. Once the requirements of paragraph *"h"* have been met, the licensee must meet the requirements of paragraph *"a"* to obtain a compact privilege in a remote state.

5. *Obtaining a new home state license by virtue of compact privilege.*

The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located.

c. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

d. The home state shall complete any pending investigations of an occupational therapist or occupational therapy assistant who changes primary state of residence during the course of the investigations. The home state where the investigations were initiated shall also have the authority to take appropriate action and shall promptly report the conclusions of the investigations to the occupational therapy compact commission data system. The occupational therapy compact commission data system administrator shall promptly notify the new home state of any adverse actions.

e. A member state, if otherwise permitted by state law, may recover from the affected occupational therapist or occupational therapy assistant the costs of investigations and disposition of cases resulting from any adverse action taken against that occupational therapist or occupational therapy assistant.

f. A member state may take adverse action based on the factual findings of the remote state, provided that the member state follows its own procedures for taking the adverse action.

All home state disciplinary orders that impose adverse action against an occupational therapist's or occupational therapy assistant's license shall include a statement that the occupational therapist's or occupational therapy assistant's compact privilege is deactivated in all member states during the pendency of the order.

i. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the home state of any adverse actions by remote states.

a. The compact member states hereby create and establish a joint public agency known as the occupational therapy compact commission.

(1) The commission is an instrumentality of the compact states.

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

(3) All hearings will be recorded. A copy of the recording will be made available on request.

(4) Nothing in this subsection shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this subsection.

j. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

k. If no written notice of intent to attend the public hearing by interested parties is received, the commission may proceed with promulgation of the proposed rule without a public hearing.

(2) If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

12. *Date of implementation of the interstate commission for occupational therapy practice and associated rules, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

b. Any state that joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the date the compact becomes law in that state.

c. Any member state may withdraw from this compact by enacting a statute repealing the same.

UNOFFICIAL VERSION
2021 YEARLY RELEASE

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's occupational therapy licensing board to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any occupational therapy licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

e. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

13. *Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any member state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

14. *Binding effect of compact and other laws.*

a. A licensee providing occupational therapy in a remote state under the compact privilege shall function within the laws and regulations of the remote state.

b. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

If this compact shall be held contrary to the constitution of any member state, the compact shall remain in full force and effect as to the

remaining member states and in full force and effect as to the member state affected as to all severable matters.

147G.1 Dentist and dental hygienist compact.

147G.1 Dentist and dental hygienist compact.

1. *Title and purpose.* This chapter shall be known and cited as the dentist and dental hygienist compact. The purposes of this compact are to facilitate the interstate practice of dentistry and dental hygiene and improve public access to dentistry and dental hygiene services by providing dentists and dental hygienists licensed in a participating state the ability to practice in participating states in which they are not licensed. The compact does this by establishing a pathway for dentists and dental hygienists licensed in a participating state to obtain a compact privilege that authorizes them to practice in another participating state in which they are not licensed. The compact enables participating states to protect the public health and safety with respect to the practice of such dentists and dental hygienists through the state's authority to regulate the practice of dentistry and dental hygiene in the state. The compact:

a. Enables dentists and dental hygienists who qualify for a compact privilege to practice in other participating states without satisfying burdensome and duplicative requirements associated with securing a license to practice in those states.

b. Promotes mobility and addresses workforce shortages through each participating state's acceptance of a compact privilege to practice in that state.

c. Increases public access to qualified, licensed dentists and dental hygienists by creating a responsible, streamlined pathway for licensees to practice in participating states.

d. Enhances the ability of participating states to protect the public's health and safety.

e. Does not interfere with licensure requirements established by a participating state.

f. Facilitates the sharing of licensure and disciplinary information among participating states.

g. Requires dentists and dental hygienists who practice in a participating state pursuant to a compact privilege to practice within the scope of practice authorized in that state.

h. Extends the authority of a participating state to regulate the practice of dentistry and dental hygiene within its borders to dentists and dental hygienists who practice in the state through a compact privilege.

i. Promotes the cooperation of participating states in regulating the practice of dentistry and dental hygiene within those states.

UNOFFICIAL VERSION 2021 EARLY RELEASE

(2) Maintain documentation of the criminal background check and background check information to the extent allowed by state and federal law.

If a remote state has a jurisprudence requirement, a compact privilege will not be issued to the licensee unless the licensee has satisfied the jurisprudence requirement.

4. *Compact privilege.*

a. To obtain and exercise the compact privilege under the terms and provisions of the compact, a licensee shall do all of the following:

(1) Have a qualifying license as a dentist or dental hygienist in a participating state.

If a remote state

UNOFFICIAL VERSION. 2021 EARLY RELEASE

imposes an adverse action against a compact privilege that limits the compact privilege, that adverse action applies to all compact privileges in all remote states. A licensee whose compact privilege in a remote state is removed for a specified period of time is not eligible for a compact privilege in any other remote state until the specific time for removal of the compact privilege has passed and all encumbrance requirements are satisfied.

If a remote state chooses to charge a fee for a compact privilege, it may choose to charge a reduced fee or no fee to an active military member and the spouse of an active military member for a compact privilege.

6. *Adverse actions.*

a. A participating state in which a licensee is licensed shall have exclusive authority to impose adverse action against the qualifying license issued by that participating state.

b. A participating state may take adverse action based on significant investigative information of a remote state, so long as the participating state follows its own procedures for imposing adverse action.

c. Nothing in this compact shall override a participating state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the participating state's laws. Participating states must require licensees who enter any alternative program in lieu of discipline to agree not to practice pursuant to a compact privilege in any other participating state during the term of the alternative program without prior authorization from such other participating state.

d. Any participating state in which a licensee is applying to practice or is practicing pursuant to a compact privilege may investigate actual or alleged violations of the statutes and regulations authorizing the practice of dentistry or dental hygiene in any other participating state in which the dentist or dental hygienist holds a license or compact privilege.

Subpoenas issued by a state licensing authority in a participating state for the attendance and testimony of witnesses, or the production of evidence from another participating state, shall be enforced in the latter state by any court of competent jurisdiction according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence are located.

(3) If otherwise permitted by state law, recover from the licensee the costs of investigation and disposition of cases resulting from any adverse action taken against that licensee.

f. Joint investigations.

(1) In addition to the authority granted to a participating state by its dentist or dental

UNOFFICIAL VERSION

hygienist licensure act or other applicable state law, a participating state may jointly investigate licensees with other participating states.

(2) Participating states shall share any significant investigative information, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact.

g. Authority to continue investigation.

(1) After a licensee's compact privilege in a remote state is terminated, the remote state may continue an investigation of the licensee that began when the licensee had a compact privilege in that remote state.

basis for believing occurred within the scope of the individual's employment, duties, or responsibilities for the commission, the commission shall indemnify and hold harmless such individual, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of the individual.

(4) Nothing in this compact shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(5) Nothing in this compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(6) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the participating states or by the commission.

8. *Data system.*

a. The commission shall provide for the development, maintenance, operation, and utilization of a coordinated database and reporting system containing licensure, adverse action, and the presence of significant investigative information on all licensees and applicants for a license in participating states.

b. Notwithstanding any other provision of state law to the contrary, a participating state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including all of the following:

(1) Identifying information.

(2) Licensure data.

(3) Adverse actions against a licensee, license applicant, or compact privilege, and information related thereto.

(4) Nonconfidential information related to alternative program participation, the beginning and ending dates of such participation, and other information related to such participation.

d. Significant investigative information pertaining to a licensee in any participating state will only be available to other participating states.

e. It is the responsibility of the participating states to monitor the database to determine whether adverse action has been taken against a licensee or license applicant. Adverse action information pertaining to a licensee or license applicant in any participating state will be available to any other participating state.

f. Participating states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

g. Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system.

9. *Rulemaking.*

a. The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A commission rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner

UNOFFICIAL VERSION
2023 EARLY RELEASE

that is beyond the scope and purposes of the compact or the powers granted hereunder, or based upon another applicable standard of review.

b. The rules of the commission shall have the force of law in each participating state, provided however that where the rules of the commission conflict with the laws of the participating state that establish the participating state's scope of practice as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

c. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules shall become binding as of the date specified by the commission for each rule.

d. If a majority of the legislatures of the participating states rejects a commission rule or portion of a commission rule, by enactment of a statute or resolution in the same manner used to adopt the compact, within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the compact.

e. Rules shall be adopted at a regular or special meeting of the commission.

f. Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

g. Prior to adoption of a proposed rule by the commission, and at least thirty days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rulemaking as follows:

(1) On the internet site of the commission or other publicly accessible platform.

(2) To persons who have requested notice of the commission's notices of proposed rulemaking.

(3) In such other ways as the commission may by rule specify.

h. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule.

(2) If the hearing is held via telecommunication, video conference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking.

(3) The text of the proposed rule and the reason for the proposed rule.

(4) A request for comments on the proposed rule from any interested person.

(5) The manner in which interested persons may submit written comments.

i. All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

j. Nothing in this subsection shall be construed as requiring a separate hearing on each commission rule. Rules may be grouped for convenience of the commission at hearings required by this section.

k. The commission shall, by a majority vote of all commissioners, take final action on the proposed rule based on the rulemaking record.

(1) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purposes of the proposed rule.

(2) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph *"l"*, the effective date of the rule shall be no sooner than thirty days after the commission issuing the notice that it adopted or amended the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with twenty-four hours' notice, with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, but in no event later

than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or participating state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

n. No participating state's rulemaking requirements shall apply under this compact.

10. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each participating state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact or commission rule and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The commission shall provide a copy of the notice of default to the other participating states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of participation in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority or authorities, as applicable, and each of the participating states' state licensing authority or authorities, as applicable.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. Upon the termination of a state's participation in this compact, that state shall

UNOFFICIAL VERSION 2021 SESSION LAW RELEASE

immediately provide notice to all licensees of the state, including licensees of other participating states issued a compact privilege to practice within that state, of such termination. The terminated state shall continue to recognize all compact privileges then in effect in that state for a minimum of one hundred eighty days after the date of said notice of termination.

g. The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact unless agreed upon in writing between the commission and the defaulting state.

h. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

i. Dispute resolution.

(1) Upon request by a participating state, the commission shall attempt to resolve disputes related to the compact that arise among participating states and between participating states and nonparticipating states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

j. Enforcement.

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact and the commission's rules.

(2) By a majority vote, the commission may initiate legal action against a participating state in default in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or the defaulting participating state's law.

(3) A participating state may initiate legal action against the commission in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(4) No individual or entity other than a participating state may enforce this compact against the commission.

11. *Effective date, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh participating state.

(1) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the states that enacted the compact prior to the commission convening, who shall be known as charter participating states, to determine if the statute enacted by each such charter participating state is materially different from the model compact.

(a) A charter participating state whose enactment is found to be materially different from the model compact shall be entitled to the default process set forth in subsection 10.

(b) If any participating state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of participating states should be less than seven.

(2) Participating states enacting the compact subsequent to the charter participating states shall be subject to the process set forth in subsection 7, paragraph "*c*", subparagraph (23), to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission

UNOFFICIAL VERSION
2021 EARLY RELEASE

coming into existence shall be considered to be actions of the commission unless specifically repudiated by the commission.

(4) Any state that joins the compact subsequent to the commission's initial adoption of the rules and bylaws shall be subject to the commission's rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

b. Any participating state may withdraw from this compact by enacting a statute repealing the state's enactment of the compact.

(1) A participating state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority or authorities to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, the state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all compact privileges to practice within that state granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

c. Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a participating state and a nonparticipating state that does not conflict with the provisions of this compact.

d. This compact may be amended by the participating states. No amendment to this compact shall become effective and binding upon any participating state until it is enacted into the laws of all participating states.

12. *Construction and severability.*

a. This compact and the commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any participating state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

c. Notwithstanding paragraph *"b"*, the commission may deny a state's participation in the compact or, in accordance with the requirements of subsection 10, paragraph *"b"*, terminate a participating state's participation in the compact, if it determines that a constitutional requirement of a participating state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any participating state, the compact shall remain in full force and effect as to the remaining participating states and in full force and effect as to the participating state affected as to all severable matters.

13. *Consistent effect and conflict with other state laws.*

a. Nothing herein shall prevent or inhibit the enforcement of any other law of a participating state that is not inconsistent with the compact.

b. Any laws, statutes, regulations, or other legal requirements in a participating state in conflict with the compact are superseded to the extent of the conflict.

c. All permissible agreements between the commission and the participating states are binding in accordance with their terms.

(2) Provide remedial training and specific technical assistance regarding the default.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the member states, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact unless agreed upon in writing between the commission and the defaulting state.

g. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member shall be awarded all costs of such litigation including reasonable attorney fees.

h. Dispute resolution.

(1) Upon request by a member state, the commission shall attempt to resolve disputes

related to the compact that arise among member states and between member and nonmember states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

i. Enforcement.

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices against a member state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation including reasonable attorney fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

13. *Date of implementation of the counseling compact commission and associated rules, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the tenth member state. The provisions, which become effective at that time, shall be limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of the compact.

b. Any state that joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

c. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's professional counseling licensing board to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any professional counseling licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

e. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

14. *Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any member state or of the United States or the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

15. *Binding effect of compact and other laws.*

a. A licensee providing professional counseling services in a remote state under the privilege to practice shall adhere to the laws and regulations, including scope of practice, of the remote state.

b. Nothing herein prevents the enforcement of any other law of a member state that is not inconsistent with the compact.

(3) Prior to the reissuance of the multistate license, the new home state shall conduct procedures for considering the criminal history records of the licensee. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

(4) If required for initial licensure, the new home state may require completion of jurisprudence requirements in the new home state.

(5) Notwithstanding any other provision of this compact, if a licensee does not meet the requirements set forth in this compact for the reissuance of a multistate license by the new home state, then the licensee shall be subject to the new home state requirements for the issuance of a single state license in that state.

The issuing licensing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(2) Only the home state shall have the power to take adverse action against a regulated social worker's multistate license.

i. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

j. Nothing in this compact shall authorize a member state to demand the issuance of subpoenas for attendance and testimony of witnesses or the production of evidence from another member state for lawful actions within that member state.

h. Qualified immunity, defense, and indemnification.

(1) The members, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property, personal injury, or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that nothing in this paragraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person. The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted hereunder.

(2) The commission shall defend any member, officer, executive director, employee, and representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the

scope of commission employment, duties, or responsibilities, provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense, and provided further that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(3) The commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

(4) Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(5) Nothing in this compact shall be interpreted to waive or otherwise abrogate a member state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, the Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(6) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the member states or by the commission.

11. *Data system.*

a. The commission shall provide for the development, maintenance, operation, and utilization of a coordinated data system.

b. The commission shall assign each applicant for a multistate license a unique identifier, as determined by the rules of the commission.

c. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the data system on all individuals to whom this compact is applicable as required by the rules of the commission, including all of the following:

(1) Identifying information.

(2) Licensure data.

(3) Adverse actions against a license and information related thereto.

g. Any information submitted to the data system that is subsequently expunged pursuant to federal law, or the laws of the member state contributing the information, shall be removed from the data system.

UNOFFICIAL VERSION 2021 EARLY RELEASE

12. *Rulemaking.*

a. The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

b. The rules of the commission shall have the force of law in each member state, provided however that where the rules of the commission conflict with the laws of the member state that establish the member state's laws, regulations, and applicable standards that govern the practice of social work as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

c. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules shall become binding on the day following adoption or the date specified in the rule or amendment, whichever is later.

d. If a majority of the legislatures of the member states rejects a rule or portion of a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

e. Rules shall be adopted at a regular or special meeting of the commission.

f. Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

g. Prior to adoption of a proposed rule by the commission, and at least thirty days in advance of the meeting at which the commission will hold a public hearing on the proposed rule, the commission shall provide a notice of proposed rulemaking as follows:

(1) On the internet site of the commission or other publicly accessible platform.

(2) To persons who have requested notice of the commission's notices of proposed rulemaking.

(3) In such other ways as the commission may by rule specify.

h. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing at which the commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the commission will consider and vote on the proposed rule.

(2) If the hearing is held via telecommunication, video conference, or other electronic means, the commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking.

(3) The text of the proposed rule and the reason therefor.

(4) A request for comments on the proposed rule from any interested person.

(5) The manner in which interested persons may submit written comments.

i. All hearings will be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

j. Nothing in this subsection shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this subsection.

k. The commission shall, by majority vote of all members, take final action on the proposed rule based on the rulemaking record and the full text of the rule.

(1) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(2) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph "*l*", the effective date of the rule shall be no sooner than thirty days after issuing the notice that the commission adopted or amended the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt

UNOFFICIAL VERSION 2024 EARLY RELEASE

an emergency rule with forty-eight hours' notice, with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this paragraph, an emergency rule is one that must be adopted immediately in order to do one of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or member state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

n. No member state's rulemaking requirements shall apply under this compact.

13. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Except as otherwise provided in this compact, venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent the commission adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a member state has defaulted in the performance of the member state's obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The commission shall provide a copy of the notice of default to the other member states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the delegates of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's state licensing authority, and each of the member states' licensing authority.

UNOFFICIAL VERSION. 2025 EARLY RELEASE

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. Upon the termination of a state's membership from this compact, that state shall immediately provide notice to all licensees within that state of such termination. The terminated state shall continue to recognize all licenses granted pursuant to this compact for a minimum of six months after the date of said notice of termination.

g. The commission shall not bear any costs related to a state that is found to be in default, or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

h. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

i. Dispute resolution.

(1) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

j. Enforcement.

(1) By majority vote as provided by rule, the commission may initiate legal action against a member state in default in the United States district court for the District of Columbia, or in the federal district where the commission has its principal offices, to enforce compliance with the provisions of the compact and rules promulgated under the compact. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or the defaulting member state's law.

(2) A member state may initiate legal action against the commission in the United States district court for the District of Columbia, or in the federal district where the commission has its principal offices, to enforce compliance with the provisions of the compact and rules promulgated under the compact. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) No person other than a member state shall enforce this compact against the commission.

14. *Effective date, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh member state.

(1) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the first seven member states to determine if the statute enacted by each such charter member state is materially different than the model compact statute.

(a) A charter member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in subsection 13.

(b) If any member state is later found to be in default, or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than seven.

(2) Member states enacting the compact subsequent to the seven initial charter member states shall be subject to the process set forth in subsection 10, paragraph "*c*", subparagraph (21), to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission

UNOFFICIAL VERSION 2021 BILL RELEASE

coming into existence shall be considered to be actions of the commission unless specifically repudiated by the commission.

(4) Any state that joins the compact subsequent to the commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

b. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, a state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all licenses granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

c. Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

d. This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until the amendment is enacted into the laws of all member states.

15. *Construction and severability.*

a. This compact and the commission's rulemaking authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any member state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

c. Notwithstanding paragraph *"b"*, the commission may deny a state's participation in the compact or, in accordance with the requirements of subsection 13, paragraph *"b"*, terminate a member state's participation in the compact, if the commission determines that a constitutional requirement of a member state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states, and in full force and effect as to the member state affected as to all severable matters.

16. *Consistent effect and conflict with other state laws.*

a. A licensee providing services in a remote state under a multistate authorization to practice shall adhere to the laws and regulations, including laws, regulations, and applicable standards, of the remote state where the client is located at the time care is rendered.

b. Nothing herein shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

c. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict.

d. All permissible agreements between the commission and the member states are binding in accordance with the terms of the agreement.

CHAPTER 147J

PHYSICIAN ASSISTANT LICENSURE COMPACT

147J.1 Physician assistant licensure compact.

147J.1 Physician assistant licensure compact.

1. *Purpose.* In order to strengthen access to medical services, and in recognition of the advances in the delivery of medical services, the participating states of the physician assistant licensure compact have allied in common purpose to develop a comprehensive process that complements the existing authority of state licensing boards to license and discipline physician assistants and seeks to enhance the portability of a license to practice as a physician assistant while safeguarding the safety of patients. This compact allows medical services to be provided by physician assistants, via the mutual recognition of the licensee's qualifying license by other compact participating states. This compact also adopts the prevailing standard for physician assistant licensure and affirms that the practice and delivery of medical services by the physician assistant occurs where the patient is located at the time of the patient encounter, and therefore requires the physician assistant to be under the jurisdiction of the state licensing board where the patient is located. State licensing boards that participate in this compact retain the jurisdiction to impose adverse action against a compact privilege in that state issued to a physician assistant through the procedures of this compact. The physician assistant licensure compact will alleviate burdens for military families by allowing active duty military personnel and their spouses to obtain a compact privilege based on having an unrestricted license in good standing from a participating state.

2. *Definitions.* In this compact:

a. "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a physician assistant license or license application or compact privilege such as license denial, censure, revocation, suspension, probation, monitoring of the licensee, or restriction on the licensee's practice.

b. "Compact privilege" means the authorization granted by a remote state to allow a licensee from another participating state to practice as a physician assistant to provide medical services and other licensed activity to a patient located in the remote state under the remote state's laws and regulations.

c. "Conviction" means a finding by a court that an individual is guilty of a felony or misdemeanor offense through adjudication or entry of a plea of guilt or no contest to the charge by the offender.

d. "Criminal background check" means the submission of fingerprints or other biometric-based information for a license applicant for the purpose of obtaining that applicant's criminal history record information, as defined in 28 C.F.R. §20.3(d), from the state's criminal history record repository as defined in 28 C.F.R. §20.3(f).

e. "Data system" means the repository of information about licensees, including but not limited to license status and adverse actions, which is created and administered under the terms of this compact.

f. "Executive committee" means a group of directors and ex officio individuals elected or appointed pursuant to subsection 7, paragraph *"f"*, subparagraph (2).

g. "Impaired practitioner" means a physician assistant whose practice is adversely affected by a health-related condition that impacts the physician assistant's ability to practice.

h. "Investigative information" means information, records, or documents received or generated by a licensing board pursuant to an investigation.

i. "Jurisprudence requirement" means the assessment of an individual's knowledge of the laws and rules governing the practice of a physician assistant in a state.

o. "Participating state" means a state that has enacted this compact.

p. "Physician assistant" means an individual who is licensed as a physician assistant in a state. For purposes of this compact, any other title or status adopted by a state to replace the term *"physician assistant"* shall be deemed synonymous with *"physician assistant"* and shall confer the same rights and responsibilities to the licensee under the provisions of this compact at the time of its enactment.

q. "Physician assistant licensure compact commission", *"compact commission"*, or *"commission"* means the national administrative body created pursuant to subsection 7, paragraph *"a"*, of this compact.

r. "Qualifying license" means an unrestricted license issued by a participating state to provide medical services as a physician assistant.

s. "Remote state" means a participating state where a licensee who is not licensed as a physician assistant is exercising or seeking to exercise the compact privilege.

t. "Rule" means a regulation promulgated by an entity that has the force and effect of law.

u. "Significant investigative information" means investigative information that a licensing board, after an inquiry or investigation that includes notification and an opportunity for the physician assistant to respond if required by state law, has reason to believe is not groundless and, if proven true, would indicate more than a minor infraction.

v. "State" means any state, commonwealth, district, or territory of the United States.

(5) Have a unique identifier as determined by commission rule.

(6) Hold a qualifying license.

(7) Have had no revocation of a license or limitation or restriction on any license currently held due to an adverse action.

(8) If a licensee has had a limitation or restriction on a license or compact privilege due to an adverse action, two years must have elapsed from the date on which the license or compact privilege is no longer limited or restricted due to the adverse action.

(9) If a compact privilege has been revoked or is limited or restricted in a participating state for conduct that would not be a basis for disciplinary action in a participating state in which the licensee is practicing or applying to practice under a compact privilege, that participating state shall have the discretion not to consider such action as an adverse action requiring the denial or removal of a compact privilege in that state.

(10) Notify the compact commission that the licensee is seeking the compact privilege in a remote state.

(11) Meet any jurisprudence requirement of a remote state in which the licensee is seeking to practice under the compact privilege and pay any fees applicable to satisfying the jurisprudence requirement.

(12) Report to the commission any adverse action taken by a nonparticipating state within thirty days after the action is taken.

b. The compact privilege is valid until the expiration or revocation of the qualifying license unless terminated pursuant to an adverse action. The licensee must also comply with all of the requirements of paragraph "*a*" to maintain the compact privilege in a remote state. If the participating state takes adverse action against a qualifying license, the licensee shall lose the compact privilege in any remote state in which the licensee has a compact privilege until all of the following occur:

(1) The licensee is no longer limited or restricted.

(2) Two years have elapsed from the date on which the license is no longer limited or restricted due to the adverse action.

c. Once a restricted or limited license satisfies the requirements of paragraph "*b*", subparagraphs (1) and (2), the licensee must meet the requirements of paragraph "*a*" to obtain a compact privilege in any remote state.

d. For each remote state in which a physician assistant seeks authority to prescribe controlled substances, the physician assistant shall satisfy all requirements imposed by such state in granting or renewing such authority.

5. *Designation of the state from which licensee is applying for a compact privilege.* Upon a licensee's application for a compact privilege, the licensee shall identify to the commission the participating state from which the licensee is applying, in accordance with applicable rules adopted by the commission, and subject to the following requirements:

a. When applying for a compact privilege, the licensee shall provide the commission with the address of the licensee's primary residence and thereafter shall immediately report to the commission any change in the address of the licensee's primary residence.

b. When applying for a compact privilege, the licensee is required to consent to accept service of process by mail at the licensee's primary residence on file with the commission with respect to any action brought against the licensee by the commission or a participating state, including a subpoena, with respect to any action brought or investigation conducted by the commission or a participating state.

6. *Adverse actions.*

a. A participating state in which a licensee is licensed shall have exclusive power to impose adverse action against the qualifying license issued by that participating state.

to remove a licensee's compact privilege or take other action necessary under applicable law to protect the health and safety of its citizens.

(2) Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses as well as the production of evidence. Subpoenas issued by a licensing board in a participating state for the attendance and testimony of witnesses or the production of evidence from another participating state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(3) Notwithstanding subparagraph (2), subpoenas may not be issued by a participating state to gather evidence of conduct in another state that is lawful in that other state for the purpose of taking adverse action against a licensee's compact privilege or application for a compact privilege in that participating state.

(4) Nothing in this compact authorizes a participating state to impose discipline against a physician assistant's compact privilege or to deny an application for a compact privilege in that participating state for the individual's otherwise lawful practice in another state.

c. For purposes of taking adverse action, the participating state which issued the qualifying license shall give the same priority and effect to reported conduct received from any other participating state as it would if the conduct had occurred within the participating state which issued the qualifying license. In so doing, that participating state shall apply its own state laws to determine appropriate action.

d. A participating state, if otherwise permitted by state law, may recover from the affected physician assistant the costs of investigations and disposition of cases resulting from any adverse action taken against that physician assistant.

e. A participating state may take adverse action based on the factual findings of a remote state, provided that the participating state follows its own procedures for taking the adverse action.

f. Joint investigations.

(1) In addition to the authority granted to a participating state by its respective state physician assistant laws and regulations or other applicable state law, any participating state may participate with other participating states in joint investigations of licensees.

(2) Participating states shall share any investigative, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under this compact.

g. If an adverse action is taken against a physician assistant's qualifying license, the physician assistant's compact privilege in all remote states shall be deactivated until two years have elapsed after all restrictions have been removed from the state license. All disciplinary orders by the participating state which issued the qualifying license that impose adverse action against a physician assistant's license shall include a statement that the physician assistant's compact privilege is deactivated in all participating states during the pendency of the order.

h. If any participating state takes adverse action, it shall promptly notify the administrator of the data system.

7. *Establishment of the physician assistant licensure compact commission.*

a. The participating states hereby create and establish a joint government agency and national administrative body known as the physician assistant licensure compact commission. The commission is an instrumentality of the compact states acting jointly and not an instrumentality of any one state. The commission shall come into existence on or after the effective date of the compact as set forth in subsection 11, paragraph "*a*".

b. Membership, voting, and meetings.

(1) Each participating state shall have and be limited to one delegate selected by that participating state's licensing board or, if the state has more than one licensing board, selected collectively by the participating state's licensing boards.

(a) A current physician assistant, physician, or public member of a licensing board or physician assistant council or committee.

The receipts and disbursements of the commission shall be subject to the financial review and accounting procedures established under its bylaws. All receipts and disbursements of funds handled by the commission shall be subject to an annual financial review by a certified or licensed public accountant, and the report of the financial review shall be included in and become part of the annual report of the commission.

(8) The executive committee may convene in a closed, nonpublic meeting for the same reasons that the commission may convene in a nonpublic meeting as set forth in subsection 7, paragraph "*d*", subparagraph (3), and shall announce the closed meeting as the commission is required to under subsection 7, paragraph "*d*", subparagraph (4), and keep minutes of the closed meeting as the commission is required to under subsection 7, paragraph "*d*", subparagraph (5).

capacities, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this subparagraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted hereunder.

(2) The commission shall defend any member, officer, executive director, employee, and representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing in this subparagraph shall be construed to prohibit that person from retaining counsel at the person's own expense; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(3) The commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

(4) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses in any proceedings as authorized by commission rules.

(5) Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(6) Nothing herein shall be construed to designate the venue or jurisdiction to bring actions for alleged acts of malpractice, professional misconduct, negligence, or other such civil action pertaining to the practice of a physician assistant. All such matters shall be determined exclusively by state law other than this compact.

(7) Nothing in this compact shall be interpreted to waive or otherwise abrogate a participating state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(8) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the participating states or by the commission.

8. *Data system.*

a. The commission shall provide for the development, maintenance, operation, and utilization of a coordinated data and reporting system containing licensure, adverse action, and the reporting of the existence of significant investigative information on all licensed physician assistants and applicants denied a license in participating states.

(1) Identifying information.

(2) Licensure data.

(3) Adverse actions against a license or compact privilege.

(4) Any denial of application for licensure, and the reason for such denial, excluding the reporting of any criminal history record information where prohibited by law.

(5) The existence of significant investigative information.

UNOFFICIAL VERSION 2024 EARLY RELEASE

(6) Other information that may facilitate the administration of this compact, as determined by the rules of the commission.

c. Significant investigative information pertaining to a licensee in any participating state shall only be available to other participating states.

d. The commission shall promptly notify all participating states of any adverse action taken against a licensee or an individual applying for a license that has been reported to it. This adverse action information shall be available to any other participating state.

e. Participating states contributing information to the data system may, in accordance with state or federal law, designate information that may not be shared with the public without the express permission of the contributing state. Notwithstanding any such designation, such information shall be reported to the commission through the data system.

f. Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the participating state contributing the information shall be removed from the data system upon reporting of such by the participating state to the commission.

g. The records and information provided to a participating state pursuant to this compact or through the data system, when certified by the commission or an agent thereof, shall constitute the authenticated business records of the commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial, or administrative proceedings in a participating state.

9. *Rulemaking.*

a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this subsection and the rules adopted thereunder. Commission rules shall become binding as of the date specified by the commission for each rule.

b. The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer this compact and achieve its purposes. A commission rule shall be invalid and not have force or effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope of the purposes of this compact, or the powers granted in this subsection, or based upon another applicable standard of review.

c. The rules of the commission shall have the force of law in each participating state, provided however that where the rules of the commission conflict with the laws of the participating state that establish the medical services a physician assistant may perform in the participating state, as held by a court of competent jurisdiction, the rules of the commission shall be ineffective in that state to the extent of the conflict.

d. If a majority of the legislatures of the participating states rejects a commission rule by enactment of a statute or resolution in the same manner used to adopt this compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any participating state or to any state applying to participate in the compact.

e. Commission rules shall be adopted at a regular or special meeting of the commission.

f. Prior to promulgation and adoption of a final rule or rules by the commission, and at least thirty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking using all of the following methods:

(1) On the internet site of the commission or other publicly accessible platform.

(2) To persons who have requested notice of the commission's notices of proposed rulemaking.

(3) In such other ways as the commission may by rule specify.

g. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing on the proposed rule and the proposed time, date, and location of the meeting in which the proposed rule will be considered and voted upon.

(2) The text of the proposed rule and the reason for the proposed rule.

(3) A request for comments on the proposed rule from any interested person and the date by which written comments must be received.

(4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing or provide any written comments.

UNOFFICIAL VERSION 2021 NOT FOR RELEASE

h. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

i. If the hearing is to be held via electronic means, the commission shall publish the mechanism for access to the electronic hearing.

(1) All persons wishing to be heard at the hearing shall as directed in the notice of proposed rulemaking, not less than five business days before the scheduled date of the hearing, notify the commission of their desire to appear and testify at the hearing.

(2) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing.

(3) All hearings shall be recorded. A copy of the recording and the written comments, data, facts, opinions, and arguments received in response to the proposed rulemaking shall be made available to a person upon request.

(4) Nothing in this paragraph shall be construed as requiring a separate hearing on each proposed rule. Proposed rules may be grouped for the convenience of the commission at hearings required by this section.

j. Following the public hearing the commission shall consider all written and oral comments timely received.

k. The commission shall, by majority vote of all delegates, take final action on the proposed rule and shall determine the effective date of the rule, if adopted, based on the rulemaking record and the full text of the rule.

(1) If adopted, the rule shall be posted on the commission's internet site.

(2) The commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(3) The commission shall provide on its internet site an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(4) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph *"l"*, the effective date of the rule shall be no sooner than thirty days after the commission issued the notice that it adopted the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with twenty-four hours prior notice, without the opportunity for comment, or hearing, provided that the usual rulemaking procedures provided in this compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this paragraph, an emergency rule is one that must be adopted immediately by the commission in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or participating state funds.

(3) Meet a deadline for the promulgation of a commission rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted commission rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made as set forth in the notice of revisions and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

n. No participating state's rulemaking requirements shall apply under this compact.

10. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each participating state

UNOFFICIAL VERSION. 2017 ISSUE RELEASE

shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Venue is proper and judicial proceedings by or against the commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact or the commission's rules and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission with service of process shall render a judgment or order in such proceeding void as to the commission, this compact, or commission rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a participating state has defaulted in the performance of its obligations or responsibilities under this compact or the commission rules, the commission shall provide written notice to the defaulting state and other participating states. The notice shall describe the default, the proposed means of curing the default, and any other action that the commission may take and shall offer remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state may be terminated from this compact upon an affirmative vote of a majority of the delegates of the participating states, and all rights, privileges, and benefits conferred by this compact upon such state may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of participation in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and to the licensing boards of each of the participating states.

(4) A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from this compact, unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal its termination from the compact by the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

(7) Upon the termination of a state's participation in the compact, the state shall immediately provide notice to all licensees within that state of such termination.

(a) Licensees who have been granted a compact privilege in that state shall retain the compact privilege for one hundred eighty days following the effective date of such termination.

(b) Licensees who are licensed in that state who have been granted a compact privilege in a participating state shall retain the compact privilege for one hundred eighty days unless the licensee also has a qualifying license in a participating state or obtains a qualifying license in a participating state before the one-hundred-eighty-day period ends, in which case the compact privilege shall continue.

c. Dispute resolution.

(1) Upon request by a participating state, the commission shall attempt to resolve disputes related to this compact that arise among participating states and between participating and nonparticipating states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

d. Enforcement.

UNOFFICIAL VERSION: 2024 REGULAR RELEASE

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions of this compact and rules of the commission.

(2) If compliance is not secured after all means to secure compliance have been exhausted, by majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district where the commission has its principal offices, against a participating state in default to enforce compliance with the provisions of this compact and the commission's promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) The remedies in subparagraph (2) shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

e. Legal action against the commission.

(1) A participating state may initiate legal action against the commission in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(2) No person other than a participating state shall enforce this compact against the commission.

11. *Date of implementation of the physician assistant licensure compact commission.*

a. This compact shall come into effect on the date on which this compact statute is enacted into law in the seventh participating state.

(1) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the states that enacted the compact prior to the commission convening, the charter participating states, to determine if the statute enacted by each such charter participating state is materially different than the model compact.

(a) A charter participating state whose enactment is found to be materially different from the model compact shall be entitled to the default process set forth in subsection 10, paragraph "*b*".

(b) If any participating state later withdraws from the compact or its participation is terminated, the commission shall remain in existence and the compact shall remain in effect even if the number of participating states should be less than seven. Participating states enacting the compact subsequent to the commission convening shall be subject to the process set forth in subsection 7, paragraph "*c*", subparagraph (21), to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(2) Participating states enacting the compact subsequent to the seven initial charter participating states shall be subject to the process set forth in subsection 7, paragraph "*c*", subparagraph (21), to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission coming into existence shall be considered to be actions of the commission unless specifically repudiated by the commission.

b. Any state that joins this compact shall be subject to the commission's rules and bylaws as they exist on the date on which this compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the day this compact becomes law in that state.

c. Any participating state may withdraw from this compact by enacting a statute repealing the same.

(1) A participating state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute. During this one-hundred-eighty-day period, all compact privileges that were in effect in the withdrawing state and were granted to

UNOFFICIAL VERSION SUBJECT TO FINAL RELEASE

licensees licensed in the withdrawing state shall remain in effect. If any licensee licensed in the withdrawing state is also licensed in another participating state or obtains a license in another participating state within the one hundred eighty days, the licensee's compact privileges in other participating states shall not be affected by the passage of the one hundred eighty days.

(2) Withdrawal shall not affect the continuing requirement of the state licensing board of the withdrawing state to comply with the investigative, and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing a state from this compact, the state shall immediately provide notice of such withdrawal to all licensees within that state. Such withdrawing state shall continue to recognize all licenses granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any physician assistant licensure agreement or other cooperative arrangement between participating states and between a participating state and nonparticipating state that does not conflict with the provisions of this compact.

e. This compact may be amended by the participating states. No amendment to this compact shall become effective and binding upon any participating state until it is enacted materially in the same manner into the laws of all participating states as determined by the commission.

12. *Construction and severability.*

a. This compact and the commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any participating state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

c. Notwithstanding paragraph *"b"* or this subsection 12, the commission may deny a state's participation in the compact or, in accordance with the requirements of subsection 10, paragraph *"b"*, terminate a participating state's participation in the compact, if it determines that a constitutional requirement of a participating state is, or would be with respect to a state seeking to participate in the compact, a material departure from the compact. The individual may retain the home state designation during the period the service member is on active duty.

Subpoenas issued by a licensing authority in a member state for the attendance and testimony of witnesses or the production of evidence from another member state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure applicable to subpoenas issued in proceedings pending before that court. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

b. Only the home state shall have the power to take adverse action against a licensee's home state license.

c. For purposes of taking adverse action, the home state shall give the same priority and effect to reported conduct received from a member state as it would if the conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

d. The home state shall complete any pending investigations of a licensee who changes home states during the course of the investigations. The home state shall also have authority to take appropriate action and shall promptly report the conclusions of the investigations to the administrator of the data system. The administrator of the data system shall promptly notify the new home state of any adverse actions.

e. A member state, if otherwise permitted by state law, may recover from the affected licensee the costs of investigations and dispositions of cases resulting from any adverse action taken against that licensee.

f. A member state may take adverse action based on the factual findings of another remote state, provided that the member state follows its own procedures for taking the adverse action.

g. Joint investigations.

(1) In addition to the authority granted to a member state by its respective state law, any member state may participate with other member states in joint investigations of licensees.

(2) Member states shall share any investigative, litigation, or compliance materials in furtherance of any joint investigation initiated under the compact.

h. If adverse action is taken by the home state against a licensee's home state license resulting in an encumbrance on the home state license, the licensee's compact privilege in all other member states shall be revoked until all encumbrances have been removed from the home state license. All home state disciplinary orders that impose adverse action against a licensee shall include a statement that the licensee's compact privileges are revoked in all member states during the pendency of the order.

i. Once an encumbered license in the home state is restored to an unencumbered license, as certified by the home state's licensing authority, the licensee must meet the requirements of subsection 4, paragraph "*a*", and follow the administrative requirements to reapply to obtain a compact privilege in any remote state.

j. If a member state takes adverse action, it shall promptly notify the administrator of the data system. The administrator of the data system shall promptly notify the other member states of any adverse actions.

k. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action.

A rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the compact commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

b. The rules of the compact commission shall have the force of law in each member state, provided, however, that where the rules conflict with the laws or regulations of a member state that relate to the procedures, actions, and processes a licensed dietitian is permitted to undertake in that state and the circumstances under which they may do so, as held by a court of competent jurisdiction, the rules of the compact commission shall be ineffective in that state to the extent of the conflict.

c. The compact commission shall exercise its rulemaking powers pursuant to the criteria set forth in this section and the rules adopted thereunder. Rules shall become binding on the day following adoption or as of the date specified in the rule or amendment, whichever is later.

d. If a majority of the legislatures of the member states rejects a rule or portion of a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

e. Rules shall be adopted at a regular or special meeting of the compact commission.

f. Prior to adoption of a proposed rule, the compact commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

g. Prior to adoption of a proposed rule by the compact commission, and at least thirty days in advance of the meeting at which the compact commission will hold a public hearing on the proposed rule, the compact commission shall provide a notice of proposed rulemaking as follows:

UNOFFICIAL VERSION
2024 REGULAR RELEASE

(1) On the internet site of the compact commission or other publicly accessible platform.

(2) To persons who have requested notice of the compact commission's notices of proposed rulemaking.

(3) In such other way as the compact commission may by rule specify.

h. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing at which the compact commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the compact commission will consider and vote on the proposed rule.

(2) If the hearing is held via telecommunication, video conference, or other means of communication, the compact commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking.

(3) The text of the proposed rule and the reason therefore.

(4) A request for comments on the proposed rule from any interested person.

(5) The manner in which interested persons may submit written comments.

i. All hearings will be recorded. A copy of the recording and all written comments and documents received by the compact commission in response to the proposed rule shall be available to the public.

j. Nothing in this subsection shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the compact commission at hearings required by this section.

k. The compact commission shall, by majority vote of all members, take final action on the proposed rule based on the rulemaking record and the full text of the rule.

(1) The compact commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(2) The compact commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The compact commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph *"l"*, the effective date of the rule shall be no sooner than thirty days after issuing the notice that it adopted or amended the rule.

l. Upon determination that an emergency exists, the compact commission may consider and adopt an emergency rule with twenty-four hours' notice, with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of compact commission or member state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The compact commission or an authorized committee of the compact commission may direct revision to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revision shall be posted on the internet site of the compact commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the compact commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the compact commission.

n. No member state's rulemaking requirements shall apply under this compact.

11. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each member state shall

UNOFFICIAL VERSION 2027 PRE-RELEASE

enforce this compact and take all actions necessary and appropriate to implement this compact.

(2) Except as otherwise provided in this compact, venue is proper and judicial proceedings by or against the compact commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the compact commission is located. The compact commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The compact commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the compact commission service of process shall render a judgment or order void as to the compact commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the compact commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the compact commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the compact commission may take and shall offer training and specific technical assistance regarding the default.

(2) The compact commission shall provide a copy of the notice of default to the other member states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the delegates of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the compact commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's licensing authority, and each of the member states' licensing authority.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. Upon the termination of a state's membership from this compact, that state shall immediately provide notice to all licensees within that state of such termination. The terminated state shall continue to recognize all compact privileges granted pursuant to this compact for a minimum of six months after the date of said notice of termination.

g. The compact commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the compact commission and the defaulting state.

h. The defaulting state may appeal the action of the compact commission by petitioning the United States district court for the District of Columbia or the federal district where the compact commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

i. Dispute resolution.

(1) Upon request by a member state, the compact commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The compact commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

j. Enforcement.

(1) By supermajority vote, the compact commission may initiate legal action against a member state in default in the United States district court for the District of Columbia or the

UNOFFICIAL VERSION. 2027 EARLY RELEASE

federal district where the compact commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the compact commission. The compact commission may pursue any other remedies available under federal or the defaulting member state's law.

(2) A member state may initiate legal action against the compact commission in the United States district court for the District of Columbia or the federal district where the compact commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) No party other than a member state shall enforce this compact against the compact commission.

12. *Effective date, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh member state.

(1) On or after the effective date of the compact, the compact commission shall convene and review the enactment of each of the charter member states to determine if the statute enacted by each such charter member state is materially different than the model compact statute.

(a) A charter member state whose enactment is found to be materially different from the model compact statute shall be entitled to the default process set forth in subsection 11.

(b) If any member state is later found to be in default, or is terminated, or withdraws from the compact, the compact commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than seven.

(2) Member states enacting the compact subsequent to the seven initial charter member states shall be subject to the process set forth in subsection 8, paragraph "c", subparagraph (21), to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the compact commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the compact commission coming into existence shall be considered to be actions of the compact commission unless specifically repudiated by the compact commission.

(4) Any state that joins the compact subsequent to the compact commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the compact commission shall have the full force and effect of law on the day the compact becomes law in that state.

b. Any member state may withdraw from this compact by enacting a statute repealing the compact.

(1) A member state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, a state shall immediately provide notice of such withdrawal to all licensees within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all compact privileges granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

c. Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

d. This compact may be amended by the member states. No amendment to this compact

UNOFFICIAL VERSION 2021 PRE-RELEASE

shall become effective and binding upon any member state until it is enacted into the laws of all member states.

13. *Construction and severability.*

a. This compact and the compact commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the compact commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any member state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

c. Notwithstanding paragraph *"b"*, the compact commission may deny a state's participation in the compact or, in accordance with the requirements of subsection 11, paragraph *"b"*, terminate a member state's participation in the compact, if it determines that a constitutional requirement of a member state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

14. *Consistent effect and conflict with other state laws.*

a. Nothing herein shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

b. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict.

c. All permissible agreements between the compact commission and the member states are binding in accordance with their terms.

(2) Enhance states' ability to protect the public's health and safety.

(3) Promote the cooperation of member states in regulating the practice of respiratory therapy within those member states.

(4) Ease administrative burdens on states by encouraging the cooperation of member states in regulating multistate respiratory therapy practice.

(9) Complete a criminal background check for each new licensee at the time of initial licensure. Where expressly authorized or permitted by federal law, whether such federal law is in effect prior to, at, or after the time of a member state's enactment of this compact, a member state's enactment of this compact shall hereby authorize the member state's respiratory therapy licensing authority to perform criminal background checks as defined in this compact. The absence of such a federal law as described in this subsection shall not prevent or preclude such authorization where it may be derived or granted through means other than the enactment of this compact.

b. Nothing in this compact prohibits a member state from charging a fee for granting and renewing the compact privilege.

4. *Compact privilege.*

a. To exercise the compact privilege under the terms and provisions of the compact, the licensee shall meet all of the following requirements:

UNOFFICIAL VERSION: 2021 REGULAR

(1) Hold and maintain an active home state license as a respiratory therapist.

(2) Hold and maintain an active credential from the national board for respiratory care or its successor that would qualify the licensee for licensure in the remote state in which the licensee is seeking the privilege.

(3) Have not had any adverse action against a license within the previous two years.

(4) Notify the commission that the licensee is seeking the compact privilege within a remote state.

(5) Pay any applicable fee, including any state and commission fees and renewal fees, for the compact privilege.

(6) Meet any jurisprudence requirement established by the remote state in which the licensee is seeking a compact privilege.

(7) Report to the commission adverse action taken by a nonmember state within thirty days from the date that adverse action is taken.

(8) Report to the commission, when applying for a compact privilege, the address of the licensee's domicile and thereafter promptly report to the commission any change in the address of the licensee's domicile within thirty days of the effective date of the change in address.

b. The compact privilege is valid until the expiration date or revocation of the home state license unless terminated pursuant to adverse action. The licensee must comply with all the requirements of paragraph *"a"* to maintain the compact privilege in a remote state. If those requirements are met, no adverse actions are taken, and the licensee has paid any applicable compact privilege renewal fees, then the licensee will maintain the licensee's compact privilege.

c. A licensee providing respiratory therapy in a remote state under the compact privilege shall function within the scope of practice authorized by the remote state for the type of respiratory therapist license the licensee holds. Such procedures, actions, processes, and the circumstances under which they may be undertaken, may be established through means including but not limited to statute, regulations, case law, and other processes available to the state respiratory therapy licensing authority or other government agency.

d. If a licensee's compact privilege in a remote state is removed by the remote state, the individual shall lose or be ineligible for the compact privilege in that remote state until the compact privilege is no longer limited or restricted by that state.

e. If a home state license is encumbered, the licensee shall lose the compact privilege in all remote states until all of the following occur:

(1) The home state license is no longer encumbered.

(2) Two years have elapsed from the date on which the license is no longer encumbered due to the adverse action.

f. Once a licensee with a restricted or limited license meets the requirements of paragraph *"e"*, the licensee must also meet the requirements of paragraph *"a"* to obtain a compact privilege in a remote state.

5. *Active military members and spouses.*

a. An active military member or a spouse of an active military member shall designate a home state where the individual has a current license in good standing. The individual may retain the home state designation during the period the service member is on active duty.

b. An active military member or a spouse of an active military member shall not be required to pay to the commission for a compact privilege any fee that may otherwise be charged by the commission. If a remote state chooses to charge a fee for a compact privilege, it may choose to charge a reduced fee or no fee to an active military member or a spouse of an active military member for a compact privilege.

6. *Adverse actions.*

UNOFFICIAL VERSION: 2024 CODE ONLY RELEASE

a. A member state in which a licensee is licensed shall have authority to impose adverse action against the license issued by that member state.

b. A member state may take adverse action based on significant investigative information of a remote state or the home state, so long as the member state follows its own procedures for imposing adverse action.

c. Nothing in this compact shall override a member state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the member state's laws.

d. A remote state shall have the authority to do all of the following:

(1) Take adverse actions as set forth in this compact against a licensee's compact privilege in that state.

(d) The issuing authority shall pay witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witness or evidence is located.

(3) Unless otherwise prohibited by state law, recover from the licensee the costs of investigations and disposition of cases resulting from any adverse action taken against that licensee.

(4) Notwithstanding paragraph "*d*", subparagraph (2), a member state shall not issue a subpoena to gather evidence of conduct in another member state that is lawful in such other member state for the purpose of taking adverse action against a licensee's compact privilege or application for a compact privilege in that member state.

(5) Nothing in this compact authorizes a member state to impose discipline against a respiratory therapist's compact privilege in that member state for the individual's otherwise lawful practice in another state.

e. Joint investigations.

(1) In addition to the authority granted to a member state by its respective respiratory therapy practice act or other applicable state law, a member state may participate with other member states in joint investigations of licensees, provided, however, that a member state receiving such a request has no obligation to respond to any subpoena issued regarding an investigation of conduct or practice that was lawful in a member state at the time it was undertaken.

(2) Member states shall share any significant investigative information, litigation, or compliance materials in furtherance of any joint or individual investigation initiated under the compact. In sharing such information between member state respiratory therapy licensing authorities, all information obtained shall be kept confidential, except as otherwise mutually agreed upon by the sharing and receiving member states.

The procurement of insurance of any type by the commission shall not in any way compromise or limit the immunity granted in this subparagraph.

(3) The commission shall defend any commissioner, officer, executive director, employee, or agent of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or as determined by the commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that nothing in this subparagraph shall be construed to prohibit that person from retaining counsel at that person's own expense, and provided further that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

9. *Rulemaking.*

a. The commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A rule shall be invalid and have no force and effect only if a court of competent jurisdiction holds that the rule is invalid because the commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted under this subsection, or based upon another applicable standard of review.

b. For purposes of the compact, the rules of the commission shall have the force of law in each member state.

c. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this subsection and the rules adopted pursuant to this subsection. Rules shall become binding as of the date specified in each rule.

d. If a majority of the legislatures of the member states rejects a rule or portion of a rule, by enactment of a statute or resolution in the same manner used to adopt the compact, within four years of the date of application of the rule, then such rule shall have no further force and effect in any member state.

e. Rules shall be adopted at a regular or special meeting of the commission.

f. Prior to adoption of a proposed rule, the commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments.

UNOFFICIAL VERSION 2021 EARLY RELEASE

(4) A request for comments on the proposed rule from any interested person.

(5) The manner in which interested persons may submit written comments.

i. All hearings shall be recorded. A copy of the recording and all written comments and documents received by the commission in response to the proposed rule shall be available to the public.

j. Nothing in this subsection shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this subsection.

k. The commission shall, by majority vote of all commissioners, take final action on the proposed rule based on the rulemaking record and the full text of the rule.

(1) The commission may adopt changes to the proposed rule, provided that the changes are consistent with the original purpose of the proposed rule.

(2) The commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in paragraph *"l"*, the effective date of the rule shall be no sooner than thirty days after issuing the notice that it adopted or amended the rule.

l. Upon determination that an emergency exists, the commission may consider and adopt an emergency rule with twenty-four hours' notice, and with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do one of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or member state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

m. The commission or an authorized committee of the commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

n. No member state's rulemaking process or procedural requirements shall apply to the commission. The commission shall have no authority over any member state's rulemaking process or procedural requirements that do not pertain to the compact.

o. Nothing in this compact, nor any rule or regulation of the commission, shall be construed to limit, restrict, or in any way reduce the ability of a member state to enact and enforce laws, regulations, or other rules related to the practice of respiratory therapy in that state where those laws, regulations, or other rules are not inconsistent with the provisions of this compact.

10. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing in this subparagraph shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct, or any such similar matter.

(3) The commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the commission service of process shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The commission shall provide a copy of the notice of default to the other member states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges, and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's respiratory therapy licensing authority, and each of the member states' respiratory therapy licensing authorities.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination, if necessary.

f. Upon termination of a state's membership from this compact, that state shall immediately provide notice to all licensees and compact privilege holders of which the commission has a record within that state of such termination. The terminated state shall continue to recognize all licenses granted pursuant to this compact for a minimum of one hundred eighty days after the date of said notice of termination.

g. The commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the commission and the defaulting state.

h. The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district where the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

i. Dispute resolution.

(1) Upon request by a member state, the commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

j. Enforcement.

(1) By majority vote, as may be further provided by rule, the commission may initiate legal action against a member state in default in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. A member state by enactment of this compact consents to venue and jurisdiction in such court for the purposes set forth in this subparagraph. The relief sought may include both injunctive relief

UNOFFICIAL VERSION. 2024 IOWA LEGISLATURE

and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies in this subparagraph shall not be the exclusive remedies of the commission. The commission may pursue other remedies available under federal or the defaulting member state's law.

(2) A member state may initiate legal action against the commission in the United States district court for the District of Columbia or the federal district where the commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

(3) No person other than a member state shall enforce this compact against the commission.

11. *Effective date, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh member state.

(1) On or after the effective date of the compact, the commission shall convene and review the enactment of each of the first seven member states to determine if the statute enacted by each such charter member state is materially different than the model compact.

(a) A charter member state whose enactment is found to be materially different from the model compact shall be entitled to the default process set forth in subsection 10.

(b) If any member state is later found to be in default or is terminated or withdraws from the compact, the commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than seven.

(2) Member states enacting the compact subsequent to the seven initial charter member states shall be subject to the process set forth herein and commission rule to determine if their enactments are materially different from the model compact and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the commission coming into existence shall be considered to be the actions of the commission unless specifically repudiated by the commission. The commission shall own and have all rights to any intellectual property developed on behalf or in furtherance of the commission by individuals or entities involved in organizing or establishing the commission, as may be further set forth in rules of the commission.

(4) Any state that joins the compact subsequent to the commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the commission shall have the full force and effect of law on the date the compact becomes law in that state.

b. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirements of the withdrawing state's respiratory therapy licensing authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, a state shall immediately provide notice of such withdrawal to all licensees and compact privilege holders of which the commission has a record within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all licenses granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

c. Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

d. This compact may be amended by the member states. No amendment to this compact

UNOFFICIAL VERSION 2027 EARLY RELEASE

shall become effective and binding upon any member state until it is enacted into the laws of all member states.

12. *Construction and severability.*

a. This compact and the commission's rulemaking authority shall be liberally construed so as to effectuate the purposes and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any member state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person, or circumstance is held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person, or circumstance shall not be affected thereby.

c. Notwithstanding paragraph *"b"*, the commission may deny a state's participation in the compact or, in accordance with the requirements of subsection 10, terminate a member state's participation in the compact if it determines that a constitutional requirement of a member state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

13. *Consistent effect and conflict with other state laws.*

a. Nothing in this subsection shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

b. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict, including any subsequently enacted state laws.

c. All permissible agreements between the commission and the member states are binding in accordance with their terms.

d. Other than as expressly set forth herein, nothing in this compact impacts initial licensure.

g. The interstate commission is authorized to develop rules regarding the application process, including payment of any applicable fees, and the reporting of the issuance of an expedited license by a member board to the interstate commission.

6. *Fees for expedited licensure.*

a. A member state issuing an expedited license authorizing the practice of podiatric medicine in that state may impose a fee for a license issued or renewed through the compact.

b. The interstate commission is authorized to develop rules regarding fees for expedited licenses.

d. Member boards may report any nonpublic complaint, disciplinary, or investigatory information not required by paragraph *"c"* to the interstate commission.

e. Member boards shall share complaint or disciplinary information about a podiatric physician upon request of another member board.

f. All information provided to the interstate commission or distributed by member boards shall be confidential, filed under seal, and used only for investigatory or disciplinary matters.

10. *Disciplinary actions.*

a. Any conduct for which any disciplinary action is taken by any member board against a podiatric physician licensed through the compact shall be deemed unprofessional conduct which may be subject to discipline by other member boards, in addition to any violation of the podiatric medical practice act or regulations in that state.

b. If a license granted to a podiatric physician by a member board in the state of principal license is revoked, surrendered or relinquished in lieu of discipline, or suspended, then all licenses issued to the podiatric physician by member boards shall automatically be placed, without further action necessary by any member board, on the same status. If the member board in the state of principal license subsequently reinstates the podiatric physician's license, a license issued to the podiatric physician by any other member board shall remain encumbered until that respective member board takes action to reinstate the license in a manner consistent with the podiatric medical practice act of that state.

f. The interstate commission shall defend the executive director, its employees, and subject to the approval of the attorney general or other appropriate legal counsel of the member state represented by the interstate commission representative, shall defend such interstate commission representative in any civil action seeking to impose liability arising out of an actual or alleged act, error, or omission that occurred within the scope of interstate commission employment, duties, or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of the interstate commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

NOT FOR PUBLIC RELEASE

b. Rules deemed appropriate for the operations of the interstate commission shall be made pursuant to the rulemaking process that substantially conforms to the model state administrative procedure Act of 2010, and subsequent amendments thereto.

c. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule in the United States district court for the District of Columbia or the federal district where the interstate commission has its principal office, provided that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. The court shall give deference to the actions of the interstate commission consistent with applicable law and shall not find the rule to be unlawful if the rule represents a reasonable exercise of the authority granted to the interstate commission.

16. *Oversight of interstate compact.*

a. The executive, legislative, and judicial branches of state government in each member state shall enforce the compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. b. The interstate commission may, by majority vote of the commissioners present and voting, initiate legal action in the United States district court for the District of Columbia, or, at the discretion of the interstate commission, in federal district court where the interstate commission has its principal office, to enforce compliance with the provisions of the compact, and its promulgated rules and bylaws, against a member state in default. c. If the defaulting state fails to cure the default, the defaulting state shall be terminated from the compact upon an affirmative vote of the majority of the commissioners present and voting, and all rights, privileges, and benefits conferred by the compact shall terminate on the effective date of termination. d. Termination of membership in the compact shall be imposed only after all other means

of securing compliance have been exhausted. Notice of intent to terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

b. Withdrawal from the compact shall be by the enactment of a statute repealing the same, but shall not take effect until one year after the effective date of such statute and until written notice of the withdrawal has been given by the withdrawing state to the governor of each member state.

c. The withdrawing state shall immediately notify the chairperson of the interstate commission in writing upon the introduction of legislation repealing the compact in the withdrawing state.

d. The interstate commission shall notify the other member states of the withdrawing state's intent to withdraw within sixty days of its receipt of notice provided pursuant to paragraph *"c"*.

e. The withdrawing state is responsible for all dues, obligations, and liabilities incurred throughout the effective date of withdrawal, including obligations, the performance of which extend beyond the effective date of withdrawal.

f. Reinstatement following withdrawal of a member state shall occur upon the withdrawing date reenacting the compact or upon such later date as determined by the interstate commission.

b. Upon the dissolution of the compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the interstate commission shall be concluded, and surplus funds shall be distributed in accordance with the bylaws.

23. *Severability and construction.*

a. The provisions of the compact shall be severable, and if any phrase, clause, sentence, or provision is deemed unenforceable, the remaining provisions of the compact shall be enforceable.

(2) This compact is intended to regulate the day-to-day practice of telepsychology, in which psychological services are provided using telecommunication technologies, by psychologists across state boundaries in the performance of their psychological practice as assigned by an appropriate authority.

(3) This compact is intended to regulate the temporary in-person, face-to-face practice of psychology by psychologists across state boundaries for thirty days within a calendar year in the performance of their psychological practice as assigned by an appropriate authority.

b. Consistent with these principles, this compact is designed to achieve the following purposes and objectives:

a. Oversight.

(1) The executive, legislative, and judicial branches of state government in each compact state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent. The provisions of this compact and the rules promulgated under this compact shall have standing as statutory law.

(3) The commission shall be entitled to receive service of process in any such proceeding, and shall have standing to intervene in such a proceeding for all purposes. b. Default, technical assistance, and termination.

A remedy of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be submitted by the commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the compact states.

(5) The commission shall not bear any costs incurred by the state which is found to be in default or which has been terminated from this compact, unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the state of Georgia or the federal district where the compact has its principal offices. The prevailing member shall be awarded all costs of such litigation, including reasonable attorney fees.

c. Dispute resolution.

(1) Upon request by a compact state, the commission shall attempt to resolve disputes related to this compact which arise among compact states and between compact and noncompact states.

d. Enforcement.

(2) By majority vote, the commission may initiate legal action in the United States district court for the state of Georgia or the federal district where the compact has its principal offices against a compact state in default to enforce compliance with the provisions of the compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing member shall be awarded all costs of such litigation, including reasonable attorney's fees.

(3) The remedies in this article shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

a. This compact shall come into effect on the date on which the compact is enacted into law in the seventh compact state. The provisions which become effective at that time shall be limited to the powers granted to the commission relating to assembly and the promulgation of rules. Thereafter, the commission shall meet and exercise rulemaking powers necessary to the implementation and administration of this compact.

b. Any state which joins the compact subsequent to the commission's initial adoption of the rules shall be subject to the rules as they exist on the date on which the compact becomes law in that state. Any rule which has been previously adopted by the commission shall have the full force and effect of law on the day the compact becomes law in that state.

c. Any compact state may withdraw from this compact by enacting a statute repealing the compact.

(1) A compact state's withdrawal shall not take effect until six months after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's

psychology regulatory authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

d. Nothing contained in this compact shall be construed to invalidate or prevent any psychology licensure agreement or other cooperative arrangement between a compact state and a noncompact state which does not conflict with the provisions of this compact.

e. This compact may be amended by the compact states. No amendment to this compact shall become effective and binding upon any compact state until it is enacted into the law of all compact states.

14. *Article XIV — Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. If this compact shall be held contrary to the constitution of any compact state, the compact shall remain in full force and effect as to the remaining compact states.

(3) The compact commission may levy on and collect an annual assessment from each member state and impose fees on licensees of member states to whom it grants a compact privilege to cover the cost of the operations and activities of the compact commission and its staff, which must be in a total amount sufficient to cover its annual budget as approved each year for which revenue is not provided by other sources. The aggregate annual assessment amount for member states shall be allocated based upon a formula that the compact commission shall promulgate by rule.

(4) The compact commission shall not incur obligations of any kind prior to securing the funds or a loan adequate to meet the same; nor shall the compact commission pledge the credit of any of the member states, except by and with the authority of the member state.

(5) The compact commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the compact commission shall be subject to the financial review or audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the compact commission shall be subject to an annual financial review or audit by a certified or licensed public accountant, and the report of the financial review or audit shall be included in and become part of the annual report of the compact commission.

h. Qualified immunity, defense, and indemnification.

(1) The members, officers, executive director, employees and representatives of the compact commission shall be immune from suit and liability, both personally and in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission

that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of compact commission employment, duties or responsibilities; provided that nothing in this subparagraph shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful or wanton misconduct of that person. The procurement of insurance of any type by the compact commission shall not in any way compromise or limit the immunity granted hereunder.

(2) The compact commission shall defend any member, officer, executive director, employee, and representative of the compact commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of compact commission employment, duties, or responsibilities, or as determined by the compact commission that the person against whom the claim is made had a reasonable basis for believing occurred within the scope of compact commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining their own counsel at their own expense; and provided further, that the actual or alleged act, error, or omission did not result from that person's intentional or willful or wanton misconduct.

(3) The compact commission shall indemnify and hold harmless any member, officer, executive director, employee, and representative of the compact commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of compact commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of compact commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional or willful or wanton misconduct of that person.

(4) Nothing herein shall be construed as a limitation on the liability of any licensee for professional malpractice or misconduct, which shall be governed solely by any other applicable state laws.

(5) Nothing in this compact shall be interpreted to waive or otherwise abrogate a member state's state action immunity or state action affirmative defense with respect to antitrust claims under the Sherman Act, Clayton Act, or any other state or federal antitrust or anticompetitive law or regulation.

(6) Nothing in this compact shall be construed to be a waiver of sovereign immunity by the member states or by the compact commission.

9. *Data system.*

a. The commission shall provide for the development, maintenance, operation, and utilization of a coordinated data system and reporting system containing licensure, compact privileges, adverse action, and the presence of current significant investigative information on all licensees and applicants for a license in member states.

b. Notwithstanding any other provision of state law to the contrary, a member state shall submit a uniform data set to the data system on all licensees, applicants, and others to whom this compact is applicable as required by the rules of the compact commission, including all of the following:

(1) Personally identifying information.

(2) Licensure data.

(3) Adverse actions against a licensee, license applicant or compact privilege and information related thereto.

(4) Nonconfidential information related to alternative program participation, the beginning and ending dates of such participation, and other information related to such participation.

(5) Any denial of an application for licensure, and the reason for such denial, excluding the reporting of any criminal history record information where prohibited by law.

(6) A binary determination regarding the presence of current significant investigative information.

(7) Other information that may facilitate the administration of this compact or the protection of the public, as determined by the rules of the commission.

UNOFFICIAL VERSION
2021 EARLY RELEASE

c. The records and information provided to a member state pursuant to this compact or through the data system, when certified by the commission or an agent thereof, shall constitute the authenticated business records of the commission, and shall be entitled to any associated hearsay exception in any relevant judicial, quasi-judicial or administrative proceedings in a member state.

d. Current significant investigative information pertaining to a licensee in any member state will only be available to other member states.

e. It is the responsibility of the member states to monitor the data system to determine whether adverse action has been taken against a licensee or license applicant. Adverse action information pertaining to a licensee or license applicant in any member state will be available to any other member state.

f. Member states contributing information to the data system may designate information that may not be shared with the public without the express permission of the contributing state.

g. Any information submitted to the data system that is subsequently expunged pursuant to federal law or the laws of the member state contributing the information shall be removed from the data system.

10. *Rulemaking.*

a. The compact commission shall promulgate reasonable rules in order to effectively and efficiently implement and administer the purposes and provisions of the compact. A rule shall be invalid and have no force or effect only if a court of competent jurisdiction holds that the rule is invalid because the compact commission exercised its rulemaking authority in a manner that is beyond the scope and purposes of the compact, or the powers granted hereunder, or based upon another applicable standard of review.

b. The rules of the compact commission shall have the force of law in each member state, provided however that where the rules conflict with the laws or regulations of a member state that relate to the scope of practice a licensed athletic trainer is permitted to undertake in that state and the circumstances under which they may do so, as held by a court of competent jurisdiction, the rules of the compact commission shall be ineffective in that state to the extent of the conflict.

c. The compact commission shall exercise its rulemaking powers pursuant to the criteria set forth in this subsection and the rules adopted thereunder. Rules of this compact shall become binding on the day following adoption or as of the date specified in the rule or amendment, whichever is later.

d. If a majority of the legislatures of the member states rejects a rule or portion of a rule, by enactment of a statute or resolution in the same manner used to adopt the compact within four years of the date of adoption of the rule, then such rule shall have no further force and effect in any member state.

e. Rules shall be adopted at a regular or special meeting of the compact commission.

f. Prior to adoption of a proposed rule, the compact commission shall hold a public hearing and allow persons to provide oral and written comments, data, facts, opinions, and arguments. At least thirty days in advance of the public hearing on the proposed rule, the compact commission shall provide a notice of proposed rulemaking as follows:

(1) On the internet site of the compact commission or other publicly accessible platform.

(2) To persons who have requested notice of the compact commission's notices of proposed rulemaking.

(3) In such other ways as the compact commission may by rule specify.

g. The notice of proposed rulemaking shall include all of the following:

(1) The time, date, and location of the public hearing at which the compact commission will hear public comments on the proposed rule and, if different, the time, date, and location of the meeting where the compact commission will consider and vote on the proposed rule.

(2) If the hearing is held via telecommunication, videoconference, or other electronic means, the compact commission shall include the mechanism for access to the hearing in the notice of proposed rulemaking.

(3) The text of the proposed rule and the reason therefor.

(4) A request for comments on the proposed rule from any interested person.

UNOFFICIAL VERSION 2021 EARLY RELEASE

(5) The manner in which interested persons may submit written comments.

h. All hearings shall be recorded. A copy of the recording and all written comments and documents received by the compact commission in response to the proposed rule shall be available to the public.

i. Nothing in this subsection shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the compact commission at hearings required by this subsection.

j. The compact commission shall, by majority vote of all members, take final action on the proposed rule based on the rulemaking record and the full text of the rule.

(1) The compact commission may adopt changes to the proposed rule provided the changes do not enlarge the original purpose of the proposed rule.

(2) The compact commission shall provide an explanation of the reasons for substantive changes made to the proposed rule as well as reasons for substantive changes not made that were recommended by commenters.

(3) The compact commission shall determine a reasonable effective date for the rule. Except for an emergency as provided in this subsection, the effective date of the rule shall be no sooner than thirty days after issuing the notice that it adopted or amended the rule.

k. Upon determination that an emergency exists, the compact commission may consider and adopt an emergency rule with twenty-four hours' notice, with opportunity to comment, provided that the usual rulemaking procedures provided in the compact and in this subsection shall be retroactively applied to the rule as soon as reasonably possible, in no event later than ninety days after the effective date of the rule. For the purposes of this paragraph, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of compact commission or member state funds.

(3) Meet a deadline for the promulgation of a rule that is established by federal law or rule.

(4) Protect public health and safety.

l. The compact commission or an authorized committee of the compact commission may direct revisions to a previously adopted rule for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the compact commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing and delivered to the compact commission prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the compact commission.

m. No member state's rulemaking requirements shall apply under this compact.

11. *Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) The executive and judicial branches of state government in each member state shall enforce this compact and take all actions necessary and appropriate to implement the compact.

(2) Except as otherwise provided in this compact, venue is proper and judicial proceedings by or against the compact commission shall be brought solely and exclusively in a court of competent jurisdiction where the principal office of the compact commission is located. The compact commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings. Nothing herein shall affect or limit the selection or propriety of venue in any action against a licensee for professional malpractice, misconduct or any such similar matter.

(3) The compact commission shall be entitled to receive service of process in any proceeding regarding the enforcement or interpretation of the compact and shall have standing to intervene in such a proceeding for all purposes. Failure to provide the compact commission service of process shall render a judgment or order void as to the compact commission, this compact, or promulgated rules.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

b. Default, technical assistance, and termination.

(1) If the compact commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall provide written notice to the defaulting state. The notice of default shall describe the default, the proposed means of curing the default, and any other action that the compact commission may take, and shall offer training and specific technical assistance regarding the default.

(2) The compact commission shall provide a copy of the notice of default to the other member states.

c. If a state in default fails to cure the default, the defaulting state may be terminated from the compact upon an affirmative vote of a majority of the commissioners of the member states, and all rights, privileges and benefits conferred on that state by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

d. Termination of membership in the compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the compact commission to the governor, the majority and minority leaders of the defaulting state's legislature, the defaulting state's licensing authority and each of the member states' licensing authority.

e. A state that has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

f. Upon the termination of a state's membership from this compact, that state shall immediately provide notice to all licensees within that state of such termination. The terminated state shall continue to recognize all licenses and compact privileges granted pursuant to this compact for a minimum of one hundred eighty days after the date of said notice of termination.

g. The compact commission shall not bear any costs related to a state that is found to be in default or that has been terminated from the compact, unless agreed upon in writing between the compact commission and the defaulting state.

h. The defaulting state may appeal the action of the compact commission by petitioning the United States district court for the District of Columbia or the federal district where the compact commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

i. Dispute resolution.

(1) Upon request by a member state, the compact commission shall attempt to resolve disputes related to the compact that arise among member states and between member and nonmember states.

(2) The compact commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes as appropriate.

j. Enforcement.

(1) By two-thirds majority vote, the compact commission may initiate legal action against a member state in default in the United States district court for the District of Columbia or the federal district where the compact commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees. The remedies herein shall not be the exclusive remedies of the compact commission. The compact commission may pursue any other remedies available under federal or the defaulting member state's law.

(2) A member state may initiate legal action against the compact commission in the United States district court for the District of Columbia or the federal district where the compact commission has its principal offices to enforce compliance with the provisions of the compact and its promulgated rules. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorney fees.

UNOFFICIAL VERSION. 2021 EARLY RELEASE

(3) No person other than a member state shall enforce this compact against the compact commission.

12. *Effective date, withdrawal, and amendment.*

a. The compact shall come into effect on the date on which the compact statute is enacted into law in the seventh member state.

(1) On or after the effective date of the compact, the compact commission shall convene and review the enactment of each charter member state to determine if the statute enacted and made effective by each such charter member state is materially different than the model compact statute.

(a) A charter member state whose enactment is found to be materially different from the model compact language shall be entitled to the default process set forth in subsection 11.

(b) If any member state is later found to be in default, or is terminated or withdraws from the compact, the compact commission shall remain in existence and the compact shall remain in effect even if the number of member states should be less than seven.

(2) Member states enacting the compact subsequent to the seven initial charter member states shall be subject to the process set forth in this section to determine if their enactments are materially different from the model compact statute and whether they qualify for participation in the compact.

(3) All actions taken for the benefit of the compact commission or in furtherance of the purposes of the administration of the compact prior to the effective date of the compact or the compact commission coming into existence shall be considered to be actions of the compact commission unless specifically repudiated by the compact commission.

(4) Any state that joins the compact subsequent to the compact commission's initial adoption of the rules and bylaws shall be subject to the rules and bylaws as they exist on the date on which the compact becomes law in that state. Any rule that has been previously adopted by the compact commission shall have the full force and effect of law on the day the compact becomes law in that state.

b. Any member state may withdraw from this compact by enacting a statute repealing the same.

(1) A member state's withdrawal shall not take effect until one hundred eighty days after enactment of the repealing statute.

(2) Withdrawal shall not affect the continuing requirement of the withdrawing state's licensing authority to comply with the investigative and adverse action reporting requirements of this compact prior to the effective date of withdrawal.

(3) Upon the enactment of a statute withdrawing from this compact, a state shall immediately provide notice of such withdrawal to all licensees and privilege holders within that state. Notwithstanding any subsequent statutory enactment to the contrary, such withdrawing state shall continue to recognize all compact privileges granted pursuant to this compact for a minimum of one hundred eighty days after the date of such notice of withdrawal.

(4) Nothing contained in this compact shall be construed to invalidate or prevent any licensure agreement or other cooperative arrangement between a member state and a nonmember state that does not conflict with the provisions of this compact.

(5) This compact may be amended by the member states. No amendment to this compact shall become effective and binding upon any member state until it is enacted into the laws of all member states.

13. *Construction and severability.*

a. This compact and the compact commission's rulemaking authority shall be liberally construed so as to effectuate the purposes, and the implementation and administration of the compact. Provisions of the compact expressly authorizing or requiring the promulgation of rules shall not be construed to limit the compact commission's rulemaking authority solely for those purposes.

b. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is held by a court of competent jurisdiction to be contrary to the constitution of any member state, a state seeking participation in the compact, or of the United States, or the applicability thereof to any government, agency, person or circumstance is

UNOFFICIAL VERSION. 2027 EARLY RELEASE

held to be unconstitutional by a court of competent jurisdiction, the validity of the remainder of this compact and the applicability thereof to any other government, agency, person or circumstance shall not be affected thereby.

c. Notwithstanding the foregoing, the compact commission may deny a state's participation in the compact or terminate a member state's participation in the compact if it determines that a constitutional requirement of a member state is a material departure from the compact. Otherwise, if this compact shall be held to be contrary to the constitution of any member state, the compact shall remain in full force and effect as to the remaining member states and in full force and effect as to the member state affected as to all severable matters.

14. *Consistent effect and conflict with other state laws.*

a. Nothing herein shall prevent or inhibit the enforcement of any other law of a member state that is not inconsistent with the compact.

b. Any laws, statutes, regulations, or other legal requirements in a member state in conflict with the compact are superseded to the extent of the conflict.

c. All permissible agreements between the compact commission and the member states are binding in accordance with their terms.

4. If a student has a criminal record or a record of founded child or dependent adult abuse, upon request of the nursing program, the record check evaluation system shall perform an evaluation to determine whether the record warrants prohibition of the student's involvement in a clinical education component of a nursing program involving children or dependent adults. The record check evaluation system has final authority in determining whether prohibition of the student's involvement in a clinical education component is warranted.

152.10 License revocation or suspension.

1. Notwithstanding sections 147.87 through 147.89, the board may restrict, suspend, or revoke a license to practice nursing or place the licensee on probation. The board may also prescribe by rule conditions of license reinstatement. The board shall adopt rules of procedure by which to restrict, suspend, or revoke a license. These procedures shall conform to the provisions of chapter 17A.

2. In addition to the grounds stated in section 147.55, the following are grounds for suspension or revocation under subsection 1 of this section:

a. Willful violation of the rules of the board.

b. Continued practice while knowingly having an infectious or contagious disease which could be harmful to a patient's welfare.

c. (1) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken by a licensing authority of another state, territory, or country. A certified copy of the record or order of suspension, revocation, or disciplinary action is prima facie evidence of such fact.

(2) Having a license to practice nursing as a registered nurse or licensed practical nurse revoked or suspended, or having other disciplinary action taken, by a licensing authority in another state which has adopted the nurse licensure compact contained in section 152E.1 or the advanced practice registered nurse compact contained in section 152E.3 and which has communicated information relating to such action pursuant to the coordinated licensure information system established by the compact. If the action taken by the licensing authority occurs in a jurisdiction which does not afford the procedural protections of chapter 17A, the licensee may object to the communicated information and shall be afforded the procedural protections of chapter 17A.

d. Knowingly aiding, assisting, procuring, advising, or allowing a person to unlawfully practice nursing.

e. Being adjudicated mentally incompetent by a court of competent jurisdiction. Such adjudication shall automatically suspend a license for the duration of the license, unless the board orders otherwise.

f. Being guilty of willful or repeated departure from or the failure to conform to the minimum standard of acceptable and prevailing practice of nursing; however, actual injury to a patient need not be established.

g. (1) Inability to practice nursing with reasonable skill and safety by reason of illness, excessive use of alcohol, drugs, narcotics, chemicals, or other type of material or as a result of a mental or physical condition.

(2) The board may, upon probable cause, request a licensee to submit to an appropriate medical evaluation by a designated health care provider. If requested by the licensee, the licensee may also designate a health care provider for an independent medical evaluation. Refusal or failure of a licensee to complete such evaluations shall constitute an admission of any allegations relating to such condition. All objections shall be waived as to the admissibility of the examining health care provider's testimony or evaluation reports on the grounds that they constitute privileged communication. The medical testimony or evaluation reports shall not be used against a registered nurse, licensed practical nurse, or advanced registered nurse practitioner in another proceeding and shall be confidential. At reasonable intervals, a registered nurse, licensed practical nurse, or advanced registered nurse practitioner shall be afforded an opportunity to demonstrate that the registered

152E.1 Form of compact.
152E.2 Compact administrator.
152E.3 Form of advanced practice registered nurse compact.

152E.1 Form of compact.

1. *Article I — Findings and declaration of purpose.*

a. The party states find that:

(1) The health and safety of the public are affected by the degree of compliance with and the effectiveness of enforcement activities related to state nurse licensure laws.

(2) Violations of nurse licensure and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of nurses and the use of advanced communication

technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of nurse licensure and regulation.

(4) New practice modalities and technology make compliance with individual state nurse licensure laws difficult and complex.

(5) The current system of duplicative licensure for nurses practicing in multiple states is cumbersome and redundant for both nurses and states.

(6) Uniformity of nurse licensure requirements throughout the states promotes public safety and public health benefits.

b. The general purposes of this compact are to:

(1) Facilitate the states' responsibility to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of nurse licensure and regulation.

(3) Facilitate the exchange of information between party states in the areas of nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing the practice of nursing in each jurisdiction.

(5) Invest all party states with the authority to hold a nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

(6) Decrease redundancies in the consideration and issuance of nurse licenses.

(7) Provide opportunities for interstate practice by nurses who meet uniform licensure requirements.

2. *Article II — Definitions.* As used in this compact:

a. "Adverse action" means any administrative, civil, equitable, or criminal action permitted by a state's laws which is imposed by a licensing board or other authority against a nurse, including actions against an individual's license or multistate licensure privilege such as revocation, suspension, probation, monitoring of the licensee, limitation on the licensee's practice, or any other encumbrance on licensure affecting a nurse's authorization to practice, including issuance of a cease and desist action.

b. "Alternative program" means a nondisciplinary monitoring program approved by a licensing board.

c. "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on nurse licensure and enforcement activities related to nurse licensure laws that is administered by a nonprofit organization composed of and controlled by licensing boards.

d. "Current significant investigative information" means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the nurse to respond, if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the nurse represents an immediate threat to public health and safety regardless of whether the nurse has been notified and had an opportunity to respond.

e. "Encumbrance" means a revocation or suspension of, or any limitation on, the full and unrestricted practice of nursing imposed by a licensing board.

f. "Home state" means the party state which is the nurse's primary state of residence.

g. "Licensing board" means a party state's regulatory body responsible for issuing nurse licenses.

h. "Multistate license" means a license to practice as a registered or a licensed practical or vocational nurse issued by a home state licensing board that authorizes the licensed nurse to practice in all party states under a multistate licensure privilege.

i. "Multistate licensure privilege" means a legal authorization associated with a multistate license permitting the practice of nursing as either a registered nurse or a licensed practical or vocational nurse in a remote state.

k. *"Party state"* means any state that has adopted this compact.

l. *"Remote state"* means a party state other than the home state.

m. *"Single-state license"* means a nurse license issued by a party state that authorizes practice only within the issuing state and does not include a multistate licensure privilege to practice in any other party state.

n. *"State"* means a state, territory, or possession of the United States and the District of Columbia.

o. *"State practice laws"* means a party state's laws, rules, and regulations that govern the practice of nursing, define the scope of nursing practice, and create the methods and grounds for imposing discipline. *"State practice laws"* does not include the initial qualifications for licensure or requirements necessary to obtain and retain a license, except for qualifications or requirements of the home state.

3. *Article III — General provisions and jurisdiction.*

a. A multistate license to practice registered or licensed practical or vocational nursing issued by a home state to a resident in that state will be recognized by each party state as authorizing a nurse to practice as a registered nurse or as a licensed practical or vocational nurse, under a multistate licensure privilege, in each party state.

b. A state must implement procedures for considering the criminal history records of applicants for initial multistate license or licensure by endorsement. Such procedures shall include the submission of fingerprints or other biometric-based information by applicants for the purpose of obtaining an applicant's criminal history record information from the federal bureau of investigation and the agency responsible for retaining that state's criminal records.

c. Each party state shall require all of the following for an applicant to obtain or retain a multistate license in the home state:

(1) Meets the home state's qualifications for licensure or renewal of licensure, as well as all other applicable state laws.

(2) Either of the following:

(a) Has graduated or is eligible to graduate from a licensing board-approved registered nurse or licensed practical or vocational nurse prelicensure education program.

(b) Has graduated from a foreign registered nurse or licensed practical or vocational nurse prelicensure program that meets both of the following requirements:

(i) Has been approved by the authorized accrediting body in the applicable country.

(ii) Has been verified by an independent credentials review agency to be comparable to a licensing board-approved prelicensure education program.

(3) Has, if a graduate of a foreign prelicensure education program not taught in English or if English is not the individual's native language, successfully passed an English proficiency examination that includes the components of reading, speaking, writing, and listening.

(4) Has successfully passed a national council licensure examination — registered nurse or national council licensure examination — practical nurse examination or recognized predecessor, as applicable.

(5) Is eligible for or holds an active, unencumbered license.

UNOFFICIAL VERSION 2024 EARLY RELEASE

suspension, probation, or any other action that affects a nurse's authorization to practice under a multistate licensure privilege, including cease and desist actions. If a party state takes such action, it shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

e. A nurse practicing in a party state must comply with the state practice laws of the state in which the client is located at the time service is provided. The practice of nursing is not limited to patient care, but shall include all nursing practice as defined by the state practice laws of the party state in which the client is located. The practice of nursing in a party state under a multistate licensure privilege will subject a nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state in which the client is located at the time service is provided.

f. Individuals not residing in a party state shall continue to be able to apply for a party state's single-state license as provided under the laws of each party state. However, the single-state license granted to these individuals will not be recognized as granting the privilege to practice nursing in any other party state. Nothing in this compact shall affect the requirements established by a party state for the issuance of a single-state license.

g. Any nurse holding a home state multistate license on the effective date of this compact may retain and renew the multistate license issued by the nurse's then-current home state, provided that:

(1) A nurse who changes primary state of residence after this compact's effective date must meet all applicable requirements in article III, paragraph "*c*", to obtain a multistate license from a new home state.

(2) A nurse who fails to satisfy the multistate licensure requirements in article III, paragraph "*c*", due to a disqualifying event occurring after this compact's effective date shall be ineligible to retain or renew a multistate license, and the nurse's multistate license shall be revoked or deactivated in accordance with applicable rules adopted by the commission.

4. *Article IV — Applications for licensure in a party state.*

a. Upon application for a multistate license, the licensing board in the issuing party state shall ascertain, through the coordinated licensure information system, whether the applicant has ever held, or is the holder of, a license issued by any other state, whether there are any encumbrances on any license or multistate licensure privilege held by the applicant, whether any adverse action has been taken against any license or multistate licensure privilege held by the applicant and whether the applicant is currently participating in an alternative program.

b. A nurse may hold a multistate license, issued by the home state, in only one party state at a time.

c. If a nurse changes primary state of residence by moving between two party states, the nurse must apply for licensure in the new home state, and the multistate license issued by the prior home state will be deactivated in accordance with applicable rules adopted by the commission.

(1) The nurse may apply for licensure in advance of a change in the primary state of residence.

(2) A multistate license shall not be issued by the new home state until the nurse provides satisfactory evidence of a change in primary state of residence to the new home state and satisfies all applicable requirements to obtain a multistate license from the new home state.

d. If a nurse changes primary state of residence by moving from a party state to a nonparty state, the multistate license issued by the prior home state will convert to a single-state license, valid only in the former home state.

5. *Article V — Additional authorities invested in party state licensing boards.*

a. In addition to the other powers conferred by state law, a licensing board shall have the authority to do all of the following:

(1) Take adverse action against a nurse's multistate licensure privilege to practice within that party state.

(a) Only the home state shall have the power to take adverse action against a nurse's license issued by the home state.

(b) For purposes of taking adverse action, the home state licensing board shall give the

UNOFFICIAL VERSION 2027 EARLY RELEASE

same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, the home state shall apply its own state laws to determine appropriate action.

(2) Issue cease and desist orders or impose an encumbrance on a nurse's authority to practice within that party state.

(3) Complete any pending investigations of a nurse who changes primary state of residence during the course of such investigations. The licensing board shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

(4) Issue subpoenas for both hearings and investigations that require the attendance and testimony of witnesses, as well as the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses or the production of evidence from another party state shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state in which the witnesses or evidence are located.

(5) Obtain and submit, for each nurse licensure applicant, fingerprint or other biometric-based information to the federal bureau of investigation for criminal background checks, receive the results of the federal bureau of investigation record search on criminal background checks, and use the results in making licensure decisions.

(6) If otherwise permitted by state law, recover from the affected nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that nurse.

(7) Take adverse action based on the factual findings of the remote state, provided that the licensing board follows its own procedures for taking such adverse action.

b. If adverse action is taken by the home state against a nurse's multistate license, the nurse's multistate licensure privilege to practice in all other party states shall be deactivated until all encumbrances have been removed from the multistate license. All home state disciplinary orders that impose adverse action against a nurse's multistate license shall include a statement that the nurse's multistate licensure privilege is deactivated in all party states during the pendency of the order.

c. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action. The home state licensing board shall deactivate the multistate licensure privilege under the multistate license of any nurse for the duration of the nurse's participation in an alternative program.

6. *Article VI — Coordinated licensure information system and exchange of information.*

a. All party states shall participate in a coordinated licensure information system of all licensed registered nurses and licensed practical or vocational nurses. This system will include information on the licensure and disciplinary history of each nurse, as submitted by party states, to assist in the coordination of nurse licensure and enforcement efforts.

b. The commission, in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

c. All licensing boards shall promptly report to the coordinated licensure information system any adverse action, any current significant investigative information, denials of applications with the reasons for such denials and nurse participation in alternative programs known to the licensing board regardless of whether such participation is deemed nonpublic or confidential under state law.

d. Current significant investigative information and participation in nonpublic or confidential alternative programs shall be transmitted through the coordinated licensure information system only to party state licensing boards.

e. Notwithstanding any other provision of law, all party state licensing boards contributing information to the coordinated licensure information system may designate information that

UNOFFICIAL VERSION 2024 RELEASE

may not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

f. Any personally identifiable information obtained from the coordinated licensure information system by a party state licensing board shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

g. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

h. The compact administrator of each party state shall furnish a uniform data set to the compact administrator of each other party state, which shall include but not be limited to the following:

(1) Identifying information.

(2) Licensure data.

(3) Information related to alternative program participation.

(4) Other information that may facilitate the administration of this compact, as determined by commission rules.

i. The compact administrator of a party state shall provide all investigative documents and information requested by another party state.

7. *Article VII — Establishment of the interstate commission of nurse licensure compact administrators.*

a. The party states hereby create and establish a joint public entity known as the interstate commission of nurse licensure compact administrators.

(1) The commission is an instrumentality of the party states.

(2) Venue is proper, and judicial proceedings by or against the commission shall be brought solely and exclusively, in a court of competent jurisdiction where the principal office of the commission is located. The commission may waive venue and jurisdictional defenses to the extent it adopts or consents to participate in alternative dispute resolution proceedings.

(3) Nothing in this compact shall be construed to be a waiver of sovereign immunity.

b. Membership, voting, and meetings.

(1) Each party state shall have and be limited to one administrator. The head of the state licensing board or designee shall be the administrator of this compact for each party state. Any administrator may be removed or suspended from office as provided by the law of the state from which the administrator is appointed. Any vacancy occurring in the commission shall be filled in accordance with the laws of the party state in which the vacancy exists.

(2) Each administrator shall be entitled to one vote with regard to the promulgation of rules and creation of bylaws and shall otherwise have an opportunity to participate in the business and affairs of the commission. An administrator shall vote in person or by such other means as provided in the bylaws. The bylaws may provide for an administrator's participation in meetings by telephone or other means of communication.

(3) The commission shall meet at least once during each calendar year. Additional meetings shall be held as set forth in the bylaws or rules of the commission.

(4) All meetings shall be open to the public, and public notice of meetings shall be given in the same manner as required under the rulemaking provisions in article VIII.

(5) The commission may convene in a closed, nonpublic meeting if the commission must discuss any of the following:

(a) Noncompliance of a party state with its obligations under this compact.

(d) Negotiation of contracts for the purchase or sale of goods, services, or real estate.

(e) Accusing any person of a crime or formally censuring any person.

(f) Disclosure of trade secrets or commercial or financial information that is privileged or confidential.

UNOFFICIAL VERSION 2024 EARLY RELEASE

(g) Disclosure of information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy.

(h) Disclosure of investigatory records compiled for law enforcement purposes.

(i) Disclosure of information related to any reports prepared by or on behalf of the commission for the purpose of investigation of compliance with this compact.

(j) Matters specifically exempted from disclosure by federal or state statute.

(6) If a meeting, or portion of a meeting, is closed pursuant to this provision, the commission's legal counsel or designee shall certify that the meeting may be closed and shall reference each relevant exempting provision. The commission shall keep minutes that fully and clearly describe all matters discussed in a meeting and shall provide a full and accurate summary of actions taken, and the reasons therefor, including a description of the views expressed. All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the commission or order of a court of competent jurisdiction.

c. The commission shall, by a majority vote of the administrators, prescribe bylaws or rules to govern its conduct as may be necessary or appropriate to carry out the purposes and exercise the powers of this compact, including but not limited to any of the following:

(2) Providing reasonable standards and procedures for both of the following:

(a) The establishment and meetings of other committees.

(b) Governing any general or specific delegation of any authority or function of the commission.

(3) Providing reasonable procedures for calling and conducting meetings of the commission, ensuring reasonable advance notice of all meetings, and providing an opportunity for attendance of such meetings by interested parties, with enumerated exceptions designed to protect the public's interest, the privacy of individuals, and proprietary information, including trade secrets. The commission may meet in closed session only after a majority of the administrators vote to close a meeting in whole or in part. As soon as practicable, the commission must make public a copy of the vote to close the meeting revealing the vote of each administrator, with no proxy votes allowed.

(4) Establishing the titles, duties, and authority and reasonable procedures for the election of the officers of the commission.

(5) Providing reasonable standards and procedures for the establishment of the personnel policies and programs of the commission. Notwithstanding any civil service or other similar laws of any party state, the bylaws shall exclusively govern the personnel policies and programs of the commission.

(6) Providing a mechanism for winding up the operations of the commission and the equitable disposition of any surplus funds that may exist after the termination of this compact after the payment or reserving of all of its debts and obligations.

d. The commission shall publish its bylaws and rules, and any amendments thereto, in a convenient form on the internet site of the commission.

e. The commission shall maintain its financial records in accordance with the bylaws.

f. The commission shall meet and take such actions as are consistent with the provisions of this compact and the bylaws.

g. The commission shall have the following powers:

regulation of nursing, including but not limited to sharing administrative or staff expenses, office space or other resources.

(6) To hire employees, elect or appoint officers, fix compensation, define duties, grant such individuals appropriate authority to carry out the purposes of this compact, and to establish the commission's personnel policies and programs relating to conflicts of interest, qualifications of personnel, and other related personnel matters.

(7) To accept any and all appropriate donations, grants and gifts of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of the same; provided that at all times the commission shall avoid any appearance of impropriety or conflict of interest.

(8) To lease, purchase, accept appropriate gifts or donations of, or otherwise to own, hold, improve, or use, any property, whether real, personal, or mixed; provided that at all times the commission shall avoid any appearance of impropriety.

(9) To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, whether real, personal, or mixed.

(10) To establish a budget and make expenditures.

(11) To borrow money.

(12) To appoint committees, including advisory committees comprised of administrators, state nursing regulators, state legislators or their representatives, and consumer representatives, and other such interested persons.

(13) To provide and receive information from, and to cooperate with, law enforcement agencies.

(14) To adopt and use an official seal.

(15) To perform such other functions as may be necessary or appropriate to achieve the purposes of this compact consistent with the state regulation of nurse licensure and practice.

h. Financing of the commission.

(1) The commission shall pay, or provide for the payment of, the reasonable expenses of its establishment, organization, and ongoing activities.

(2) The commission may also levy on and collect an annual assessment from each party state to cover the cost of its operations, activities, and staff in its annual budget as approved each year. The aggregate annual assessment amount, if any, shall be allocated based upon a formula to be determined by the commission, which shall promulgate a rule that is binding upon all party states.

(3) The commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the commission pledge the credit of any of the party states, except by, and with the authority of, such party state.

(4) The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified public accountant, and the report of the audit shall be included in and become part of the annual report of the commission.

i. Qualified immunity, defense, and indemnification.

(1) The administrators, officers, executive director, employees, and representatives of the commission shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused by or arising out of any actual or alleged act, error, or omission that occurred, or that the person against whom the claim is made had a reasonable basis for believing occurred, within the scope of commission employment, duties, or responsibilities; provided that nothing in this paragraph "*i*" shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional, willful, or wanton misconduct of that person.

(2) The commission shall defend any administrator, officer, executive director, employee, or representative of the commission in any civil action seeking to impose liability arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that the person against whom the claim is made

had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided that nothing herein shall be construed to prohibit that person from retaining the person's own counsel; and provided further that the actual or alleged act, error, or omission did not result from that person's intentional, willful, or wanton misconduct.

(3) The commission shall indemnify and hold harmless any administrator, officer, executive director, employee, or representative of the commission for the amount of any settlement or judgment obtained against that person arising out of any actual or alleged act, error, or omission that occurred within the scope of commission employment, duties, or responsibilities, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from the intentional, willful, or wanton misconduct of that person.

8. *Article VIII — Rulemaking.*

a. The commission shall exercise its rulemaking powers pursuant to the criteria set forth in this article and the rules adopted thereunder. Rules and amendments shall become binding as of the date specified in each rule or amendment and shall have the same force and effect as provisions of this compact.

b. Rules or amendments to the rules shall be adopted at a regular or special meeting of the commission.

c. Prior to promulgation and adoption of a final rule or rules by the commission, and at least sixty days in advance of the meeting at which the rule will be considered and voted upon, the commission shall file a notice of proposed rulemaking on the internet site of the commission and on the internet site of each licensing board or the publication in which each state would otherwise publish proposed rules.

d. The notice of proposed rulemaking shall include all of the following:

(1) The proposed time, date, and location of the meeting in which the rule will be considered and voted upon.

(2) The text of the proposed rule or amendment, and the reason for the proposed rule.

(3) A request for comments on the proposed rule from any interested person.

(4) The manner in which interested persons may submit notice to the commission of their intention to attend the public hearing and any written comments.

e. Prior to adoption of a proposed rule, the commission shall allow persons to submit written data, facts, opinions, and arguments, which shall be made available to the public.

f. The commission shall grant an opportunity for a public hearing before it adopts a rule or amendment.

g. The commission shall publish the place, time, and date of the scheduled public hearing.

(1) Hearings shall be conducted in a manner providing each person who wishes to comment a fair and reasonable opportunity to comment orally or in writing. All hearings will be recorded, and a copy will be made available upon request.

(2) Nothing in this article shall be construed as requiring a separate hearing on each rule. Rules may be grouped for the convenience of the commission at hearings required by this article.

h. If no one appears at the public hearing, the commission may proceed with promulgation of the proposed rule.

i. Following the scheduled hearing date, or by the close of business on the scheduled hearing date if the hearing was not held, the commission shall consider all written and oral comments received.

j. The commission shall, by majority vote of all administrators, take final action on the proposed rule and shall determine the effective date of the rule, if any, based on the rulemaking record and the full text of the rule.

k. UNOFFICIAL VERSION 2021 EARLY RELEASE

days after the effective date of the rule. For the purposes of this provision, an emergency rule is one that must be adopted immediately in order to do any of the following:

(1) Meet an imminent threat to public health, safety, or welfare.

(2) Prevent a loss of commission or party state funds.

(3) Meet a deadline for the promulgation of an administrative rule that is required by federal law or rule.

l. The commission may direct revisions to a previously adopted rule or amendment for purposes of correcting typographical errors, errors in format, errors in consistency, or grammatical errors. Public notice of any revisions shall be posted on the internet site of the commission. The revision shall be subject to challenge by any person for a period of thirty days after posting. The revision may be challenged only on grounds that the revision results in a material change to a rule. A challenge shall be made in writing, and delivered to the commission, prior to the end of the notice period. If no challenge is made, the revision will take effect without further action. If the revision is challenged, the revision may not take effect without the approval of the commission.

9. *Article IX — Oversight, dispute resolution, and enforcement.*

a. Oversight.

(1) Each party state shall enforce this compact and take all actions necessary and appropriate to effectuate this compact's purposes and intent.

(2) The commission shall be entitled to receive service of process in any proceeding that may affect the powers, responsibilities, or actions of the commission, and shall have standing to intervene in such a proceeding for all purposes. Failure to provide service of process in such proceeding to the commission shall render a judgment or order void as to the commission, this compact, or promulgated rules.

b. Default, technical assistance, and termination.

(1) If the commission determines that a party state has defaulted in the performance of its obligations or responsibilities under this compact or the promulgated rules, the commission shall do both of the following:

(a) Provide written notice to the defaulting state and other party states of the nature of the default, the proposed means of curing the default, or any other action to be taken by the commission.

(b) Provide remedial training and specific technical assistance regarding the default.

(2) If a state in default fails to cure the default, the defaulting state's membership in this compact may be terminated upon an affirmative vote of a majority of the administrators, and all rights, privileges, and benefits conferred by this compact may be terminated on the effective date of termination. A cure of the default does not relieve the offending state of obligations or liabilities incurred during the period of default.

(3) Termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the commission to the governor of the defaulting state and to the executive officer of the defaulting state's licensing board and each of the party states.

(4) A state whose membership in this compact has been terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of termination, including obligations that extend beyond the effective date of termination.

(5) The commission shall not bear any costs related to a state that is found to be in default or whose membership in this compact has been terminated unless agreed upon in writing between the commission and the defaulting state.

(6) The defaulting state may appeal the action of the commission by petitioning the United States district court for the District of Columbia or the federal district in which the commission has its principal offices. The prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

c. Dispute resolution.

(1) Upon request by a party state, the commission shall attempt to resolve disputes related to the compact that arise among party states and between party and nonparty states.

(2) The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes, as appropriate.

UNOFFICIAL VERSION
2024 EARLY RELEASE

(3) In the event the commission cannot resolve disputes among party states arising under this compact:

(a) The party states may submit the issues in dispute to an arbitration panel, which will be comprised of individuals appointed by the compact administrator in each of the affected party states and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(b) The decision of a majority of the arbitrators shall be final and binding.

d. Enforcement.

(1) The commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact.

(2) By majority vote, the commission may initiate legal action in the United States district court for the District of Columbia or the federal district in which the commission has its principal offices against a party state that is in default to enforce compliance with the provisions of this compact and its promulgated rules and bylaws. The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation, including reasonable attorneys' fees.

(3) The remedies herein shall not be the exclusive remedies of the commission. The commission may pursue any other remedies available under federal or state law.

10. *Article X — Effective date, withdrawal, and amendment.*

a. This compact shall become effective and binding on the earlier of the date of legislative enactment of this compact into law by no less than twenty-six states or December 31, 2018. All party states to this compact, that also were parties to the prior nurse licensure compact, superseded by this compact, shall be deemed to have withdrawn from said prior compact within six months after the effective date of this compact.

b. Each party state to this compact shall continue to recognize a nurse's multistate licensure privilege to practice in that party state issued under the prior nurse licensure compact until such party state has withdrawn from the prior nurse licensure compact.

c. Any party state may withdraw from this compact by enacting a statute repealing the same. A party state's withdrawal shall not take effect until six months after enactment of the repealing statute.

d. A party state's withdrawal or termination shall not affect the continuing requirement of the withdrawing or terminated state's licensing board to report adverse actions and significant investigations occurring prior to the effective date of such withdrawal or termination.

e. Nothing contained in this compact shall be construed to invalidate or prevent any nurse licensure agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

f. This compact may be amended by the party states. No amendment to this compact shall become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

g. Representatives of nonparty states to this compact shall be invited to participate in the activities of the commission, on a nonvoting basis, prior to the adoption of this compact by all states.

11. *Article XI — Construction and severability.*

This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable, and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or if the applicability thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this compact shall be held to be contrary to the constitution of any party state, this compact shall remain

152E.3 Form of advanced practice registered nurse compact.

The advanced practice registered nurse compact is entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Findings and declaration of purpose.*

a. The party states find all of the following:

(1) The health and safety of the public are affected by the degree of compliance with advanced practice registered nurse licensure and practice requirements and the effectiveness of enforcement activities related to state advanced practice registered nurse license or authority to practice laws.

(2) Violations of advanced practice registered nurse licensure and practice and other laws regulating the practice of nursing may result in injury or harm to the public.

(3) The expanded mobility of advanced practice registered nurses and the use of advanced communication technologies as part of our nation's health care delivery system require greater coordination and cooperation among states in the areas of advanced practice registered nurse licensure and practice requirements.

(4) New practice modalities and technology make compliance with individual state advanced practice registered nurse licensure and practice requirements difficult and complex.

(5) The current system of duplicative advanced practice registered nurse licensure and practice requirements for advanced practice registered nurses practicing in multiple states is cumbersome and redundant to both advanced practice registered nurses and states.

(6) Uniformity of advanced practice registered nurse requirements throughout the states promotes public safety and public health benefits.

(7) Access to advanced practice registered nurse services increases the public's access to health care, particularly in rural and underserved areas.

b. The general purposes of this compact are to:

(1) Facilitate the states' responsibilities to protect the public's health and safety.

(2) Ensure and encourage the cooperation of party states in the areas of advanced practice registered nurse licensure and practice requirements including promotion of uniform licensure requirements.

(3) Facilitate the exchange of information between party states in the areas of advanced practice registered nurse regulation, investigation, and adverse actions.

(4) Promote compliance with the laws governing advanced practice registered nurse practice in each jurisdiction.

(5) Invest all party states with the authority to hold an advanced practice registered nurse accountable for meeting all state practice laws in the state in which the patient is located at the time care is rendered through the mutual recognition of party state licenses.

2. *Article II — Definitions.* As used in this compact:

a. "Advanced practice registered nurse" means a nurse anesthetist, nurse practitioner, nurse midwife, or clinical nurse specialist to the extent a party state licenses or grants authority to practice in that advanced practice registered nurse role and title.

UNOFFICIAL VERSION NOT FOR RELEASE

b. "Advanced practice registered nurse licensure and practice requirements" means the regulatory mechanism used by a party state to grant legal authority to practice as an advanced practice registered nurse.

c. "Advanced practice registered nurse uniform license or authority to practice requirements" means those minimum uniform licensure, education, and examination requirements as agreed to by the compact administrators and adopted by licensing boards for the recognized advanced practice registered nurse role and title.

d. "Adverse action" means a home or remote state action.

e. "Alternative program" means a voluntary, nondisciplinary monitoring program approved by a nurse licensing board.

f. "Coordinated licensure information system" means an integrated process for collecting, storing, and sharing information on advanced practice registered nurse licensure or authority to practice and enforcement activities related to advanced practice registered nurse license or authority to practice laws, which is administered by a nonprofit organization composed of and controlled by state licensing boards.

g. "Current significant investigative information" means either of the following:

(1) Investigative information that a licensing board, after a preliminary inquiry that includes notification and an opportunity for the advanced practice registered nurse to respond if required by state law, has reason to believe is not groundless and, if proved true, would indicate more than a minor infraction.

(2) Investigative information that indicates that the advanced practice registered nurse represents an immediate threat to public health and safety regardless of whether the advanced practice registered nurse has been notified and had an opportunity to respond.

h. "Home state" means the party state that is the advanced practice registered nurse's primary state of residence.

i. "Home state action" means any administrative, civil, equitable, criminal, or other action permitted by the home state's laws which is imposed on an advanced practice registered nurse by the home state's licensing board or other authority, including actions against an individual's license or authority to practice such as revocation, suspension, probation, or any other action which affects an advanced practice registered nurse's authorization to practice.

j. "Licensing board" means a party state's regulatory body responsible for advanced practice registered nurse licensure or authority to practice.

k. "Multistate advanced practice privilege" means current authority from a remote state permitting an advanced practice registered nurse to practice in that state in the same role and title as the advanced practice registered nurse is licensed or authorized to practice in the home state to the extent that the remote state laws recognize such advanced practice registered nurse role and title. A party state has the authority, in accordance with existing state due process laws, to take action against the advanced practice registered nurse's privilege, including revocation, suspension, probation, or any other action that affects an advanced practice registered nurse's multistate privilege to practice.

l. "Party state" means any state that has adopted this compact.

m. "Prescriptive authority" means the legal authority to prescribe medications and devices as defined by party state laws.

n. "Remote state" means a party state, other than the home state, where either of the following applies:

(1) Where the patient is located at the time advanced practice registered nurse care is provided.

(2) In the case of advanced practice registered nurse practice not involving a patient, in such party state where the recipient of advanced practice registered nurse care is located.

o. "Remote state action" means either of the following:

(1) Any administrative, civil, equitable, criminal, or other action permitted by a remote state's laws which is imposed on an advanced practice registered nurse by the remote state's licensing board or other authority, including actions against an individual's multistate advanced practice privilege in the remote state.

(2) Cease and desist and other injunctive or equitable orders issued by remote states or the licensing boards of remote states.

UNOFFICIAL VERSION: 2024 FINAL RELEASE

p. *"State"* means a state, territory, or possession of the United States, the District of Columbia, or the Commonwealth of Puerto Rico.

q. *"State practice laws"* means a party state's laws and regulations that govern advanced practice registered nurse practice, define the scope of advanced nursing practice, including prescriptive authority, and create the methods and grounds for imposing discipline. *"State practice laws"* does not include the requirements necessary to obtain and retain advanced practice registered nurse licensure or authority to practice as an advanced practice registered nurse, except for qualifications or requirements of the home state.

r. *"Unencumbered"* means that a state has no current disciplinary action against an advanced practice registered nurse's license or authority to practice.

3. *Article III — General provisions and jurisdiction.*

a. All party states shall participate in the nurse licensure compact for registered nurses and licensed practical or vocational nurses in order to enter into the advanced practice registered nurse compact.

b. A state shall not enter the advanced practice registered nurse compact until the state adopts, at a minimum, the advanced practice registered nurse uniform license or authority to practice requirements for each advanced practice registered nurse role and title recognized by the state seeking to enter the advanced practice registered nurse compact.

c. Advanced practice registered nurse license or authority to practice issued by a home state to a resident in that state shall be recognized by each party state as authorizing a multistate advanced practice privilege to the extent that the role and title are recognized by each party state. To obtain or retain advanced practice registered nurse licensure and practice requirements as an advanced practice registered nurse, an applicant must meet the home state's qualifications for authority or renewal of authority as well as all other applicable state laws.

d. The advanced practice registered nurse multistate advanced practice privilege does not include prescriptive authority, and does not affect any requirements imposed by states to grant to an advanced practice registered nurse initial and continuing prescriptive authority according to state practice laws. However, a party state may grant prescriptive authority to an individual on the basis of a multistate advanced practice privilege to the extent permitted by state practice laws.

e. A party state may, in accordance with state due process laws, limit or revoke the multistate advanced practice privilege in the party state and may take any other necessary actions under the party state's applicable laws to protect the health and safety of the party state's citizens. If a party state takes action, the party state shall promptly notify the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the home state of any such actions by remote states.

f. An advanced practice registered nurse practicing in a party state must comply with the state practice laws of the state in which the patient is located at the time care is provided. The advanced practice registered nurse practice includes patient care and all advanced nursing practice defined by the party state's practice laws. The advanced practice registered nurse practice subjects an advanced practice registered nurse to the jurisdiction of the licensing board, the courts, and the laws of the party state.

g. Individuals not residing in a party state may apply for an advanced practice registered nurse license or authority to practice as an advanced practice registered nurse under the laws of a party state. However, the authority to practice granted to these individuals shall not be recognized as granting the privilege to practice as an advanced practice registered nurse in any other party state unless explicitly agreed to by that party state.

4. *Article IV — Applications for advanced practice registered nurse licensure or authority to practice in a party state.*

a. (1) Once an application for an advanced practice registered nurse license or authority to practice is submitted, a party state shall ascertain, through the coordinated licensure information system, whether the applicant has held, or is the holder of, a nursing license or authority to practice issued by another state, whether the applicant has had a history of previous disciplinary action by any state, whether an encumbrance exists on any license

UNOFFICIAL VERSION 2024 EARLY RELEASE

or authority to practice, and whether any other adverse action by any other state has been taken against a license or authority to practice.

(2) This information may be used in approving or denying an application for an advanced practice registered nurse license or authority to practice.

b. An advanced practice registered nurse in a party state shall hold an advanced practice registered nurse license or authority to practice in only one party state at a time, issued by the home state.

c. An advanced practice registered nurse who intends to change the nurse's primary state of residence may apply for an advanced practice registered nurse license or authority to practice in the new home state in advance of such change. However, a new license or authority to practice shall not be issued by a party state until after an advanced practice registered nurse provides evidence of change in the nurse's primary state of residence satisfactory to the new home state's licensing board.

d. (1) If an advanced practice registered nurse changes the nurse's primary state of residence by moving between two party states, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the advanced practice registered nurse license or authority to practice from the former home state is no longer valid.

(2) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a nonparty state to a party state, and obtains an advanced practice registered nurse license or authority to practice from the new home state, the individual state license issued by the nonparty state is not affected and shall remain in full force if so provided by the laws of the nonparty state.

(3) If an advanced practice registered nurse changes the nurse's primary state of residence by moving from a party state to a nonparty state, the advanced practice registered nurse license or authority to practice issued by the prior home state converts to an individual state license, valid only in the former home state, without the multistate licensure privilege to practice in other party states.

5. *Article V — Adverse actions.* In addition to the general provisions described in article III, the following provisions apply:

a. The licensing board of a remote state shall promptly report to the administrator of the coordinated licensure information system any remote state actions, including the factual and legal basis for such action, if known. The licensing board of a remote state shall also promptly report any significant current investigative information yet to result in a remote state action. The administrator of the coordinated licensure information system shall promptly notify the home state of any such reports.

b. The licensing board of a party state shall have the authority to complete any pending investigations for an advanced practice registered nurse who changes the nurse's primary state of residence during the course of such investigations. It shall also have the authority to take appropriate action and shall promptly report the conclusions of such investigations to the administrator of the coordinated licensure information system. The administrator of the coordinated licensure information system shall promptly notify the new home state of any such actions.

c. A remote state may take adverse action affecting the multistate advanced practice privilege to practice within that party state. However, only the home state shall have the power to impose adverse action against the advanced practice registered nurse license or authority to practice issued by the home state.

d. For purposes of imposing adverse action, the licensing board of the home state shall give the same priority and effect to reported conduct received from a remote state as it would if such conduct had occurred within the home state. In so doing, it shall apply its own state laws to determine appropriate action.

e. The home state may take adverse action based on the factual findings of the remote state, so long as each state follows its own procedures for imposing such adverse action.

f. Nothing in this compact shall override a party state's decision that participation in an alternative program may be used in lieu of adverse action and that such participation shall remain nonpublic if required by the party state's laws. Party states must require advanced

UNOFFICIAL VERSION 2024 EARLY RELEASE

practice registered nurses who enter any alternative programs to agree not to practice in any other party state during the term of the alternative program without prior authorization from such other party state.

g. All home state licensing board disciplinary orders, agreed to or otherwise, which limit the scope of the advanced practice registered nurse's practice or require monitoring of the advanced practice registered nurse as a condition of the order shall include the requirements that the advanced practice registered nurse will limit the nurse's practice to the home state during the pendency of the order. This requirement may allow the advanced practice registered nurse to practice in other party states with prior written authorization from both the home state and party state licensing boards.

6. *Article VI — Additional authorities invested in party state licensing boards.* Notwithstanding any other powers, party state licensing boards shall have the authority to do all of the following:

a. If otherwise permitted by state law, recover from the affected advanced practice registered nurse the costs of investigations and disposition of cases resulting from any adverse action taken against that advanced practice registered nurse.

b. Issue subpoenas for both hearings and investigations which require the attendance and testimony of witnesses, and the production of evidence. Subpoenas issued by a licensing board in a party state for the attendance and testimony of witnesses, or the production of evidence from another party state, shall be enforced in the latter state by any court of competent jurisdiction, according to the practice and procedure of that court applicable to subpoenas issued in proceedings pending before it. The issuing authority shall pay any witness fees, travel expenses, mileage, and other fees required by the service statutes of the state where the witnesses or evidence is located.

c. Issue cease and desist orders to limit or revoke an advanced practice registered nurse's privilege, license, or authority to practice in the state.

d. Promulgate uniform rules and regulations as provided for in article VIII, paragraph "*c*".

7. *Article VII — Coordinated licensure information system.*

a. All party states shall participate in a cooperative effort to create a coordinated database of all advanced practice registered nurses. This system shall include information on the advanced practice registered nurse licensure and practice requirements and disciplinary history of each advanced practice registered nurse, as contributed by party states, to assist in the coordination of the advanced practice registered nurse licensure or authority to practice and enforcement efforts.

b. Notwithstanding any other provision of law, all party states' licensing boards shall promptly report adverse actions, actions against multistate advanced practice privileges, any current significant investigative information yet to result in adverse action, denials of applications, and the reasons for such denials, to the coordinated licensure information system.

c. Current significant investigative information shall be transmitted through the coordinated licensure information system only to party state licensing boards.

d. Notwithstanding any other provision of law, all party states' licensing boards contributing information to the coordinated licensure information system may designate information that shall not be shared with nonparty states or disclosed to other entities or individuals without the express permission of the contributing state.

e. Any personally identifiable information obtained by a party state's licensing board from the coordinated licensure information system shall not be shared with nonparty states or disclosed to other entities or individuals except to the extent permitted by the laws of the party state contributing the information.

f. Any information contributed to the coordinated licensure information system that is subsequently required to be expunged by the laws of the party state contributing that information shall also be expunged from the coordinated licensure information system.

g. The compact administrators, acting jointly with each other and in consultation with the administrator of the coordinated licensure information system, shall formulate necessary and proper procedures for the identification, collection, and exchange of information under this compact.

8. *Article VIII — Compact administration and interchange of information.*

a. The head of the licensing board, or the head's designee, of each party state shall be the administrator of this compact for the head's state.

b. The compact administrator of each party state shall furnish to the compact administrator of each other party state any information and documents including but not limited to a uniform data set of investigations, identifying information, licensure data, and disclosable alternative program participation information to facilitate the administration of this compact.

c. Compact administrators shall have the authority to develop uniform rules to facilitate and coordinate implementation of this compact. These uniform rules shall be adopted by party states, under the authority invested under article VI, paragraph *"d"*.

9. *Article IX — Immunity.* A party state or the officers or employees or agents of a party state's licensing board who act in accordance with the provisions of this compact shall not be liable on account of any act or omission in good faith while engaged in the performance of their duties under this compact. Good faith in this article shall not include willful misconduct, gross negligence, or recklessness.

10. *Article X — Entry into force, withdrawal, and amendment.*

a. This compact shall enter into force and become effective as to any state when it has been enacted into the laws of that state. Any party state may withdraw from this compact by enacting a statute repealing the same, but such withdrawal shall not take effect until six months after the withdrawing state has given notice of the withdrawal to the executive heads of all other party states.

b. Withdrawal shall not affect the validity or applicability by the licensing boards of states remaining party to the compact of any report of adverse action occurring prior to the withdrawal.

c. This compact shall not be construed to invalidate or prevent any advanced practice registered nurse licensure or authority to practice agreement or other cooperative arrangement between a party state and a nonparty state that is made in accordance with the other provisions of this compact.

d. This compact may be amended by the party states. An amendment to this compact shall not become effective and binding upon the party states unless and until it is enacted into the laws of all party states.

11. *Article XI — Construction and severability.*

a. This compact shall be liberally construed so as to effectuate the purposes of the compact. The provisions of this compact shall be severable and if any phrase, clause, sentence, or provision of this compact is declared to be contrary to the constitution of any party state or of the United States, or the applicability of the compact to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this compact and the applicability of the compact to any government, agency, person, or circumstance shall not be affected by that action. If this compact shall be held contrary to the constitution of any state which is party to the compact, the compact shall remain in full force and effect as to the remaining party states and in full force and effect as to the party state affected as to all severable matters.

b. (1) In the event party states find a need for settling disputes arising under this compact, the party states may submit the issues in dispute to an arbitration panel which shall be comprised of an individual appointed by the compact administrator in the home state, an individual appointed by the compact administrator in the remote state or states involved, and an individual mutually agreed upon by the compact administrators of all the party states involved in the dispute.

(2) The decision of a majority of the arbitrators shall be final and binding.

e. In case of disobedience of a subpoena lawfully served under this subsection, the board or any party to such hearing aggrieved thereby may invoke the aid of the district court in the county where the hearing is being conducted to require the attendance and testimony of such witnesses. The district court of the county within which the hearing is being conducted may, in case of contumacy or refusal to obey the subpoena, issue an order requiring the person to appear before the board, and, if so ordered, to give evidence touching the matter involved in the hearing. Any failure to obey such order of the court may be punished by the court as contempt.

f. If the licensee or registrant pleads guilty, or after hearing is found guilty by the board of any of the charges made, the board may suspend for a limited period or revoke the license or registration, and the last renewal of the license or registration, and shall enter the order on its records. The board shall notify the accused of the revocation or suspension of the person's license or registration, as the case may be, and the person shall immediately surrender that license or registration to the board. Any person whose license or registration has been revoked or suspended shall not practice dentistry, dental hygiene, or dental assisting within this state while the revocation or suspension is in force and effect.

154.1 Board defined — optometry — licensed optometrists.

1. As used in this chapter, *"board"* means the board of optometry created under chapter 147.

2. For the purpose of this subtitle, the following classes of persons shall be deemed to be engaged in the practice of optometry:

a. Persons employing any means for the measurement of the visual power and visual efficiency of the human eye; persons engaged in the prescribing and adapting of lenses, prisms, and contact lenses; persons engaged in the using or employing of visual training or ocular exercise for the aid, relief, or correction of vision; and persons employing the use of medicines and procedures for the purposes of diagnosis and treatment of diseases or conditions of the eye and adnexa.

b. Persons who allow the public to use any mechanical device for a purpose described in paragraph *"a"*.

c. Persons who publicly profess to be optometrists and to assume the duties incident to the profession.

3. *a.* An optometrist licensed under this chapter may employ all diagnostic and therapeutic pharmaceutical agents for the purpose of diagnosis and treatment of conditions of the human eye and adnexa pursuant to this subsection, and notwithstanding section 147.107, may without charge supply any diagnostic and therapeutic pharmaceutical agents to commence a course of therapy. A licensed optometrist may perform minor surgical procedures and use medications for the diagnosis and treatment of diseases, disorders, and conditions of the eye and adnexa. A license to practice optometry under this chapter does not authorize the performance of surgical procedures which require the use of injectable or general anesthesia, moderate sedation, penetration of the globe, or the use of ophthalmic lasers for the purpose of ophthalmic surgery within or upon the globe. The removal of pterygia and Salzmann's nodules, incisional corneal refractive surgery, and strabismus surgery are prohibited.

b. (1) A licensed optometrist may administer only the following injections:

UNOFFICIAL VERSION: 2027 EARLY RELEASE

(a) Sub-conjunctival injections for the medical treatment of the eye.

(b) Intra-lesional injections for the treatment of chalazia.

(c) Botulinum toxin to the muscles of facial expression innervated by the facial nerve, including for cosmetic purposes.

(d) Injections to counteract an anaphylactic reaction.

(e) Local anesthetics prior to a minor surgical procedure authorized by this chapter.

(2) A licensed optometrist shall not administer any injection prior to receiving approval from the board.

(3) The board shall not approve the use of injections other than to counteract an anaphylactic reaction unless the licensed optometrist demonstrates to the board sufficient educational or clinical training from a college or university accredited by a regional or professional accreditation organization which is recognized or approved by the council for higher education accreditation or by the United States department of education, or clinical training equivalent to clinical training offered by such an institution. Training for the administration and side effects of injection treatment for chalazia and of botulinum toxin shall be required before a licensed optometrist may administer such injections. The board shall adopt rules regarding training required pursuant to this subparagraph and approve training providers.

c. A licensed optometrist may employ and, notwithstanding section 147.107, supply pharmaceutical-delivering contact lenses for the purpose of treatment of conditions of the human eye and adnexa. For purposes of this paragraph,"*pharmaceutical-delivering contact lenses*" means contact lenses that contain one or more therapeutic pharmaceutical agents authorized for employment by this section for the purpose of treatment of conditions of the human eye and adnexa and that deliver such agents into the wearer's eye.

d. A licensed optometrist may prescribe oral steroids for a period not to exceed fourteen days without consultation with a physician.

e. A licensed optometrist may be authorized, where reasonable and appropriate, by rule of the board, to employ new diagnostic and therapeutic pharmaceutical agents approved by the United States food and drug administration on or after July 1, 2002, for the diagnosis and treatment of the human eye and adnexa.

f. The board is not required to adopt rules relating to topical pharmaceutical agents, oral antimicrobial agents, oral antihistamines, oral antiglaucoma agents, and oral analgesic agents. A licensed optometrist may remove superficial foreign bodies from the human eye and adnexa.

g. The therapeutic efforts of a licensed optometrist are intended for the purpose of examination, diagnosis, and treatment of visual defects, abnormal conditions, and diseases of the human eye and adnexa, for proper optometric practice or referral for consultation or treatment to persons licensed under chapter 148.

h. A licensed optometrist is an optometrist who is licensed to practice optometry in this state and who is certified by the board to use the agents and procedures authorized pursuant to this subsection.

4. Beginning July 1, 2012, all licensed optometrists shall meet requirements established by the board by rule to employ diagnostic and therapeutic pharmaceutical agents for the practice of optometry. All licensees practicing optometry in this state shall have demonstrated qualifications and obtained certification to use diagnostic and therapeutic pharmaceutical agents as a condition of license renewal.

1. If the board has reasonable grounds to believe that a person or establishment which is not licensed under this chapter has engaged, or is about to engage, in an act or practice which requires licensure under this chapter, or otherwise violates a provision of this chapter, the board may issue an order to require the unlicensed person or establishment to comply with the provisions of this chapter, and may impose a civil penalty not to exceed one thousand dollars for each violation of this chapter by an unlicensed person or establishment. Each day of a continued violation constitutes a separate offense.

2. The board may conduct an investigation as needed to determine whether probable cause exists to initiate the proceedings described in this section. To aid in such an investigation or in connection with any other proceeding under this section, the board may issue subpoenas to compel witnesses to testify or persons to produce evidence consistent with the provisions of section 272C.6, subsection 3.

c. The severity of the violation and the risk of harm to the public.

d. The economic benefits gained by the violator as a result of noncompliance.

e. The interest of the public.

4. The board, before issuing an order under this section, shall provide the person or establishment written notice and the opportunity to request a hearing. The hearing must be requested within thirty days after receipt of the notice and shall be conducted in the same manner as provided for disciplinary proceedings involving a licensee under this chapter.

5. The board may request the attorney general to bring an action to enforce the subpoena.

6. A person or establishment aggrieved by the issuance of an order or the imposition of a civil penalty under this section may seek judicial review pursuant to section 17A.19.

7. If a person or establishment fails to pay a civil penalty within thirty days after entry of an order imposing the civil penalty, or, if the order is stayed pending an appeal, within ten days after the court enters a final judgment in favor of the board, the board shall notify the attorney general. The attorney general may commence an action to recover the amount of the penalty, including reasonable attorney fees and costs.

8. An action to enforce an order under this section may be joined with an action for an injunction pursuant to section 147.83.

9. The board, in its discretion and in lieu of issuing or enforcing an order or imposing a civil penalty for an initial violation under this section, may enter into a consent agreement with a violator, or with a person who aided or abetted a violator, which acknowledges the violation and the violator's agreement to refrain from any further violation.

c. A person aggrieved by the imposition of a civil penalty under this section may seek judicial review in accordance with section 17A.19. The board shall notify the attorney general of the failure to pay a civil penalty within thirty days after entry of an order pursuant to this subsection, or within ten days following final judgment in favor of the board if an order has been stayed pending appeal. The attorney general may commence an action to recover the amount of the penalty, including reasonable attorney fees and costs. An action to enforce an order under this subsection may be joined with an action for an injunction.
