239B.2 Conditions of eligibility.

Within available funding, the department shall make assistance available to eligible families under the family investment program. At a minimum, a family shall meet all of the following conditions of eligibility:

1. *Application.* An application for the program is made to the department. The application shall be in writing or reduced to writing in the manner and upon the form prescribed by the department. The application shall be made by the specified relative with whom the child resides or will reside, and shall contain the information required on the application form. One application may be made for several children of the same family if the children reside or will reside with the same specified relative.

2. *Income and resources.* The family meets income and resource guidelines established by the department to attain or retain financial eligibility. In determining a family's income and resources, the department shall consider the income and resources of the child, the child's parent, the child's stepparent living with the child, or any other specified relative with whom the child resides or will reside available to the family unless specifically exempted as provided in section 239B.7 or by rule or unless otherwise provided by federal law. A family's failure to meet the income or resource guidelines shall result in denial of the family's eligibility for the program.

UNOFFICIAL VERSION NOT EARLY RELEASE

3. *Unemployment.*

a. A determination of eligibility for a family with an unemployed parent shall not include consideration of either parent's number of hours of employment. Both parents must enter into and participate in a family investment agreement and participate in JOBS program activities unless good cause not to participate is established in accordance with rules.

b. Any of the following reasons for refusing employment or training are not good cause:

(1) Unsuitable or unpleasant work or training, if the parent is able to perform the work or training without unusual danger to the parent's health.

(2) The amount of wages or compensation, unless the wages for employment are below the amount customary for the same work in the community.

4. *Written statement — family investment agreement.*

a. The department may require an applicant family to commit to the initial actions the applicant family will take to achieve self-sufficiency as contained in a signed, written statement. An applicant family which fails to commit to the actions as contained in the written statement shall be denied eligibility for the family investment program. If the applicant family becomes a participant family, the family's written statement may be replaced by, incorporated within, or become the family investment agreement for that family.

b. Unless exempt as provided in section 239B.8, a participant family which is eligible for the program shall continue to comply with the provisions of a written statement which contains actions committed to by the family under paragraph *"a"* or shall enter into a family investment agreement with the department. A participant family must comply with the provisions of the written statement or the conditions in the agreement in order to retain eligibility. A participant family which does not comply shall be deemed to have chosen a limited benefit plan.

5. *Provision of information.* The family provides requested information to the department. The department shall adopt rules specifying the conditions under which an applicant or participant family is denied eligibility for family investment program assistance for failure to provide requested information.

6. *Cooperation with child support requirements.* The department shall provide for prompt notification of child support services if assistance is provided to a child whose parent is absent from the home. An applicant or participant shall cooperate with child support services and the department as provided in 42 U.S.C. §608(a)(2) unless the applicant or participant qualifies for good cause or other exception as determined by the department in accordance with the best interest of the child, parent, or specified relative, and with standards prescribed by rule. The authorized good cause or other exceptions shall include participation in a family investment agreement safety plan option to address or prevent family or domestic violence and other consideration given to the presence of family or domestic violence. If a specified relative with whom a child is residing fails to comply with these cooperation requirements, a sanction shall be imposed as defined by rule in accordance with state and federal law.

7. *Periodic reviews.* As a condition of eligibility, the department may require periodic reports from a participant concerning the participant's income, resources, family composition, and other circumstances. 8. *Out-of-state assistance.* Assistance shall be paid to a participant residing temporarily out-of-state if the participant retains residency in this state and remains otherwise eligible for assistance. The department shall periodically redetermine the eligibility of a participant who is temporarily residing out-of-state.

Initial actions in a written statement under section 239B.2, subsection 4, which were committed to by a participant during the application period and which commitment remains in effect, shall be considered to be a term of the participant's family investment agreement. A limited benefit plan shall apply for the period of time specified in this section. The first month of the limited benefit plan is the first month after the month in which timely and adequate notice of the limited benefit plan is given to the participant as defined by the director. A limited benefit plan applied in error shall not be considered to have been applied. A limited benefit plan is applicable to the individual participant choosing the limited benefit plan and to the individual participant's family members to which the plan is applicable under subsection 2. A limited benefit plan shall either be a first limited benefit plan or a subsequent limited benefit plan. A limited benefit plan shall be applied as follows:

(2) A limited benefit plan subsequent to a first limited benefit plan chosen by the same individual participant shall provide for a specified period of ineligibility of six months or less beginning with the effective date of the limited benefit plan and continuing indefinitely following the specified period until the individual participant completes significant contact with or action in regard to the JOBS program. The department shall adopt rules defining the circumstances for which a particular period of ineligibility will be specified.

(3) For a two-parent family in which both parents are responsible for a family investment agreement, a first or subsequent limited benefit plan shall remain applicable until both parents complete significant contact with or action in regard to the JOBS program. A limited benefit plan applied more than once to the same two-parent family shall be treated as a subsequent limited benefit plan.

2. *Plan applied.* The department shall apply the limited benefit plan to the participants responsible for the family investment agreement and other members of the participant's family as follows:

a. Parent. If the participant responsible for the family investment agreement is a parent, the limited benefit plan is applicable to the entire participant family.

child's stepparent whose needs are included in the assistance because of incapacity, the limited benefit plan shall apply only to the individual participant choosing the plan.

c. Minor parent living with adult parent or specified relative. If the participant family includes a minor parent living with the minor parent's adult parent or specified relative who receives family investment program assistance and both individuals are responsible for developing a family investment agreement, each individual is responsible for a separate family investment agreement, and the limited benefit plan shall be applied as follows:

(1) If the adult parent chooses the limited benefit plan, the requirements of the limited benefit plan shall apply to the entire participant family, even though the minor parent has not chosen the limited benefit plan. However, the minor parent may reapply for assistance as a minor parent living with self-supporting parents or living independently and continue in the family investment agreement process.

(2) If the minor parent chooses the limited benefit plan, the requirements of the limited benefit plan shall apply to the minor parent and any child of the minor parent.

(3) If the specified relative chooses the limited benefit plan, the requirements of the limited benefit plan shall apply only to the specified relative.

d. Minor parent — only child. If the minor parent is the only child in the adult parent's or specified relative's home and the minor parent chooses the limited benefit plan, assistance shall not be paid to the adult parent or specified relative in this instance.

e. Children who are mandatory JOBS program participants. If the participant family includes children who are mandatory JOBS program participants, the children shall not have a separate family investment agreement but shall be asked to sign the family investment agreement applicable to the family and to carry out the responsibilities of that family investment agreement. A limited benefit plan shall be applied as follows:

(1) If the parent or specified relative responsible for a family investment agreement meets the responsibilities of the family investment agreement but a child who is a mandatory JOBS program participant chooses an individual limited benefit plan, the family is eligible for reduced assistance during the child's limited benefit plan.

(2) If the child who chooses a limited benefit plan under subparagraph (1) is the only child in the participant family, assistance shall not be paid to the adult parent, parents, or specified relative in this instance.

f. Exempt parent. If a participant family includes a parent, parents, or specified relative who are exempt from JOBS program participation and children who are mandatory JOBS program participants, the children are responsible for completing a family investment agreement. If a child who is a mandatory JOBS program participant chooses the limited benefit plan, the limited benefit plan shall be applied in the manner provided in paragraph *"e"*.

g. Two parents. If the participant family includes two parents, a limited benefit plan shall be applied as follows:

(1) If only one parent of a child in the family is responsible for a family investment agreement and that parent chooses the limited benefit plan, the limited benefit plan cannot be ended by the voluntary participation in a family investment agreement by the exempt parent. If the parent responsible for the family investment agreement chooses a limited benefit plan, the limited benefit plan applies to the entire family.

(2) If both parents of a child in the family are responsible for a family investment agreement, both parents shall sign the agreement. If either parent chooses the limited benefit plan, the limited benefit plan cannot be ended by the participation of the other parent in a family investment agreement.

(3) If the parents from a two-parent family in a limited benefit plan separate, the limited benefit plan shall follow only the parent who chose the limited benefit plan and any children in the home of that parent.

3. *Plan chosen.* A participant shall be considered to have chosen a limited benefit plan under any of the following circumstances:

a. A participant who does not establish an orientation appointment with the JOBS program or who fails to keep or reschedule an orientation appointment shall receive a reminder letter which informs the participant that those who do not attend orientation

have elected to choose a limited benefit plan. A participant who chooses not to respond to the reminder letter within ten calendar days from the mailing date shall receive notice establishing the effective date of the limited benefit plan. If a participant is deemed to have chosen a limited benefit plan, timely and adequate notice provisions, as determined by the director, shall apply.

b. A participant who chooses not to sign the family investment agreement after attending a JOBS program orientation shall enter into a limited benefit plan as described in paragraph *"a"*.

c. A participant who has signed a family investment agreement but then chooses a limited benefit plan under circumstances defined by the director.

4. *Reconsideration.* A participant who chooses a limited benefit plan may reconsider that choice as follows:

a. A participant who chooses a first limited benefit plan may reconsider at any time following the effective date of the limited benefit plan. The participant may contact the department or the appropriate JOBS program office any time to begin the reconsideration process.

b. A participant who chooses a subsequent limited benefit plan may reconsider that choice at any time following the period of ineligibility specified in accordance with subsection 1.

5. *Well-being visit.* If a participant has chosen a subsequent limited benefit plan, the department may conduct a well-being visit or contract for a well-being visit to be conducted, provided funding is available for the costs of such visits. A well-being visit shall meet all of the following criteria:

a. A qualified professional shall attempt to visit with the participant family with a focus upon the children's well-being.

b. The visit shall be conducted during or within four weeks of the second month of the start of the subsequent limited benefit plan.

c. The visit shall serve as an extension of the family investment program and the family investment agreement philosophy of supporting families as they move toward self-sufficiency.

6. *Appeal.* A participant has the right to appeal the establishment of the limited benefit plan only once, at the time the department issues the timely and adequate notice that establishes the limited benefit plan. However, if the reason for the appeal is based on an incorrect grant computation, an error in determining the composition of the family, or another worker error, a hearing shall be granted, regardless of the person's limited benefit plan status.

The director shall be responsible for the effective and impartial administration of this chapter and shall, in accordance with the standards and priorities established by this chapter, by applicable federal law, by the regulations and directives issued pursuant to federal law, by applicable court orders, and by the state plan approved in accordance with federal law, make rules, establish policies, and prescribe procedures to implement this chapter. Without limiting the generality of the foregoing delegation of authority, the director is hereby specifically empowered and directed to:

1. Determine the greatest amount, duration, and scope of assistance which may be provided, and the broadest range of eligible individuals to whom assistance may effectively be provided, under this chapter within the limitations of available funds.

2. Require providers to share information with the department as necessary to identify, prevent, or respond to child abuse as defined in section 232.68, and dependent adult abuse as defined in section 235B.2.

3. Have authority to provide for payment under this chapter of assistance rendered to any applicant prior to the date the application is filed.

4. Have authority to contract with any corporation authorized to engage in this state in insuring groups or individuals for all or part of the cost of medical, hospital, or other health care or with any corporation maintaining and operating a medical, hospital, or health service prepayment plan under the provisions of chapter 514 or with any health maintenance organization authorized to operate in this state, for any or all of the benefits to which any recipients are entitled under this chapter to be provided by such corporation or health maintenance organization on a prepaid individual or group basis.

5. May, to the extent possible, contract with a private organization or organizations

whereby such organization will handle the processing of and the payment of claims for services rendered under the provisions of this chapter and under such rules and regulations as shall be promulgated by such department. The state department may give due consideration to the advantages of contracting with any organization which may be serving in Iowa as "intermediary" or "carrier" under Tit. XVIII of the federal Social Security Act, as amended.

6. Shall cooperate with any agency of the state or federal government in any manner as may be necessary to qualify for federal aid and assistance for medical assistance in conformity with the provisions of chapter 249, this chapter, and Tit. XVI and XIX of the federal Social Security Act, as amended.

7. Shall provide for the professional freedom of those licensed practitioners who determine the need for or provide medical care and services, and shall provide freedom of choice to recipients to select the provider of care and services, except when the recipient is eligible for participation in a health maintenance organization or prepaid health plan which limits provider selection and which is approved by the department.

a. However, this shall not limit the freedom of choice to recipients to select providers in instances where such provider services are eligible for reimbursement under the medical assistance program but are not provided under the health maintenance organization or under the prepaid health plan, or where the recipient has an already established program of specialized medical care with a particular provider. The department may also restrict the recipient's selection of providers to control the individual recipient's overuse of care and services, provided the department can document this overuse. The department shall promulgate rules for determining the overuse of services, including rights of appeal by the recipient.

b. Advanced registered nurse practitioners licensed pursuant to chapter 152 and physician associates licensed pursuant to chapter 148C shall be regarded as approved providers of health care services, including primary care, for purposes of managed care or prepaid services contracts under the medical assistance program. This paragraph shall not be construed to expand the scope of practice of an advanced registered nurse practitioner pursuant to chapter 152 or physician associates pursuant to chapter 148C.

8. Implement the premium assistance program options described under the federal Children's Health Insurance Program Reauthorization Act of 2009, Pub. L. No. 111-3, for the medical assistance program. The department may adopt rules as necessary to administer these options.

a. The promotion of efficient and cost-effective delivery of medical and health services.

b. Compliance with federal law and regulations.

c. The level of state and federal appropriations for medical assistance.

d. Reimbursement at a level as near as possible to actual costs and charges after priority is given to the considerations in paragraphs "*a*", "*b*", and "*c*".

10. *a.* Allow supplementation of the combination of client participation and payment made through the medical assistance program for those items and services identified in 42 C.F.R. §483.10(c)(8)(ii), by the resident of a nursing facility or the resident's family. Supplementation under this subsection may include supplementation for provision of a private room not otherwise covered under the medical assistance program unless either of the following applies:

(1) The private room is therapeutically required pursuant to 42 C.F.R. §483.10(c)(8)(ii).

(2) No room other than the private room is available.

b. The rules adopted to administer this subsection shall require all of the following if a nursing facility provides for supplementation for provision of a private room:

(1) The nursing facility shall inform all current and prospective residents and residents' legal representatives of the following:

(a) If the resident desires a private room, the resident or resident's family may provide supplementation by directly paying the facility the amount of supplementation.

UNOFFICIAL VERSION 2021 MARKUP RELEASE

(c) The private pay charge for the private room for which the nursing facility is receiving supplementation.

(d) The total charge to the resident for the private room for which the nursing facility is receiving supplementation, the portion of the total charge reimbursed under the medical assistance program, and the portion of the total charge reimbursed through supplementation.

(3) If the nursing facility only provides one type of room or all private rooms, the nursing facility shall not be eligible to request supplementation.

(4) A nursing facility may base the supplementation amount on the difference between the amount paid for a room covered under the medical assistance program and the private pay rate for the private room identified for supplementation. However, the total payment for the private room from all sources shall not be greater than the aggregate average private room rate for the type of rooms covered under the medical assistance program for which the resident would be eligible.

(5) Supplementation pursuant to this subsection shall not be required as a precondition of admission, expedited admission, or continued stay in a facility.

(6) Supplementation shall not be applicable if the facility's occupancy rate is less than fifty percent.

(7) The nursing facility shall ensure that all appropriate care is provided to all residents notwithstanding the applicability or availability of supplementation.

(8) A private room for which supplementation is required shall be retained for the resident consistent with existing bed-hold policies.

c. (1) A nursing facility that utilizes the supplementation option and receives supplementation under this subsection during any calendar year shall report to the department annually, by January 15, the following information for the preceding calendar year:

11. Shall provide an opportunity for a fair hearing before the department of inspections, appeals, and licensing to an individual whose claim for medical assistance under this chapter is denied or is not acted upon with reasonable promptness. Upon completion of a hearing, the department of inspections, appeals, and licensing shall issue a decision which is subject to review by the department. Judicial review of the decisions of the department may be sought

in accordance with chapter 17A. If a petition for judicial review is filed, the department shall furnish the petitioner with a copy of the application and all supporting papers, a transcript of the testimony taken at the hearing, if any, and a copy of its decision.

12. In determining the medical assistance eligibility of a pregnant woman, infant, or child under the federal Social Security Act, §1902(l), resources which are used as tools of the trade shall not be considered.

13. In implementing subsection 9, relating to reimbursement for medical and health services under this chapter, when a selected out-of-state acute care hospital facility is involved, a contractual arrangement may be developed with the out-of-state facility that is in accordance with the requirements of Tit. XVIII and XIX of the federal Social Security Act. The contractual arrangement is not subject to other reimbursement standards, policies, and rate setting procedures required under this chapter.

14. A medical assistance copayment shall only be applied to those services and products specified in administrative rules of the department in effect on February 1, 1991, which under federal medical assistance requirements, are provided at the option of the state.

15. *a.* Conduct an annual review of provider reimbursement rates for medical and health services provided under this chapter that are reimbursed by a statewide fee schedule and that are not periodically updated or rebased pursuant to federal or state law or rule. 2. The department of inspections, appeals, and licensing shall conduct investigations and audits as deemed necessary to ensure compliance with the medical assistance program administered under this chapter. The department of inspections, appeals, and licensing shall cooperate with the department on the development of procedures relating to such

investigations and audits to ensure compliance with federal and state single state agency requirements.

3. *a.* A Medicaid fraud fund is created in the state treasury under the authority of the department of inspections, appeals, and licensing. Moneys from penalties, investigative costs recouped by the Medicaid fraud control unit, and other amounts received as a result of prosecutions involving the department of inspections, appeals, and licensing investigations and audits to ensure compliance with the medical assistance program that are not credited to the program shall be credited to the fund.

b. Notwithstanding section 8.33, moneys credited to the fund from any other account or fund shall not revert to the other account or fund. Moneys in the fund shall only be used as provided in appropriations from the fund and shall be used in accordance with applicable laws, regulations, and the policies of the office of inspector general of the United States department of health and human services.

c. Any funds remaining in the Medicaid fraud fund at the close of a fiscal year are appropriated to the department of health and human services to supplement any medical assistance program appropriation for the same fiscal year to be used for medical assistance reimbursement and associated costs, including program administration and costs associated with program implementation.

d. For the purposes of this subsection, *"investigative costs"* means the reasonable value of a Medicaid fraud control unit investigator's, auditor's, or employee's time, any moneys expended by the Medicaid fraud control unit, and the reasonable fair market value of resources used or expended by the Medicaid fraud control unit in a case resulting in a criminal conviction of a provider under this chapter or chapter 714 or 715A.

249A.52 Garnishment.

When payment is made by the department for medical care or expenses through the medical assistance program on behalf of a recipient, the department may garnish the wages, salary, or other compensation of the person obligated to pay child support or may withhold amounts pursuant to chapter 252D from the income of the person obligated to pay support, and shall withhold amounts from state income tax refunds of a person obligated to pay support, to the extent necessary to reimburse the department for expenditures for medical care or expenses on behalf of a recipient if all of the following conditions apply:

1. The person is required by court or administrative order to provide medical support to a recipient.

2. The person has received payment from a third party for the costs of medical assistance

to the recipient and has not used the payments to reimburse the costs of medical care or expenses.

249A.53 Recovery of payment.

1. Medical assistance paid to, or on behalf of, a recipient or paid to a provider of services is not recoverable, except as provided in subsection 2, unless the assistance was incorrectly paid. Assistance incorrectly paid is recoverable from the provider, or from the recipient, while living, as a debt due the state and, upon the recipient's death, as a claim classified with taxes having preference under the laws of this state.

2. The provision of medical assistance to an individual who is fifty-five years of age or older, or who is a resident of a nursing facility, intermediate care facility for persons with an intellectual disability, or mental health institute, who cannot reasonably be expected to be discharged and return to the individual's home, creates a debt due the department from the individual's estate for all medical assistance provided on the individual's behalf, upon the individual's death.

a. The department shall waive the collection of the debt created under this subsection from the estate of a recipient of medical assistance to the extent that collection of the debt would result in either of the following:

(1) Reduction in the amount received from the recipient's estate by a surviving spouse, or by a surviving child who was under age twenty-one, blind, or permanently and totally disabled at the time of the individual's death.

(2) Otherwise work an undue hardship as determined on the basis of criteria established pursuant to 42 U.S.C. §1396p(b)(3).

b. If the collection of all or part of a debt is waived pursuant to subsection 2, paragraph "*a*", to the extent the medical assistance recipient's estate was received by the following persons, the amount waived shall be a debt due from one of the following, as applicable:

(1) The estate of the medical assistance recipient's surviving spouse or child who is blind or has a disability, upon the death of such spouse or child.

(2) A surviving child who was under twenty-one years of age at the time of the medical assistance recipient's death, upon the child reaching the age of twenty-one or from the estate of the child if the child dies prior to reaching the age of twenty-one.

(3) The estate of the recipient of the undue hardship waiver, at the time of death of the hardship waiver recipient, or from the hardship waiver recipient when the hardship no longer exists.

c. For purposes of this section, the estate of a medical assistance recipient, surviving spouse, or surviving child includes any real property, personal property, or other asset in which the recipient, spouse, or child had any legal title or interest at the time of the recipient's, spouse's, or child's death, to the extent of such interests, including but not limited to interests in jointly held property, retained life estates, and interests in trusts.

d. For purposes of collection of a debt created by this subsection, all assets included in the estate of a medical assistance recipient, surviving spouse, or surviving child pursuant to paragraph "*c*" are subject to probate.

e. Interest shall accrue on a debt due under this subsection, at the rate provided pursuant to section 535.3, beginning six months after the death of a medical assistance recipient, surviving spouse, or surviving child.

f. (1) If a debt is due under this subsection from the estate of a recipient, the administrator of the nursing facility, intermediate care facility for persons with an intellectual disability, or mental health institute in which the recipient resided at the time of the recipient's death, and the personal representative of the recipient, if applicable, shall report the death to the department within ten days of the death of the recipient.

(2) If a personal representative or executor of an estate makes a distribution either in whole or in part of the property of an estate to the heirs, next of kin, distributees, legatees, or

devisees without having executed the obligations pursuant to section 633.425, the personal representative or executor may be held personally liable for the amount of medical assistance paid on behalf of the recipient, to the full value of any property belonging to the estate which may have been in the custody or control of the personal representative or executor.

(3) For the purposes of this paragraph, *"executor"* means executor as defined in section 633.3, and *"personal representative"* means a person who filed a medical assistance application on behalf of the recipient or who manages the financial affairs of the recipient.

3. *a.* Following the death of an individual who is a designated beneficiary of an account established under a participation agreement pursuant to chapter 12I, all of the following shall apply to the extent permitted pursuant to chapter 12I and under federal law including section 529A of the Internal Revenue Code:

(1) The department shall not seek recovery of any account balance remaining in the designated beneficiary's account for medical assistance paid to or on behalf of the designated beneficiary on or after the date the participation agreement was entered into and the account established for the designated beneficiary.

(2) The department shall not file a claim for payment under section 529A(f) of the Internal Revenue Code.

(3) Any account balance remaining in the designated beneficiary's account may be transferred to an account for another eligible individual specified by the designated beneficiary, or if another eligible beneficiary is not so designated, then the account balance shall be transferred to the estate of the designated beneficiary or to the successor as defined in section 633.356.

b. For the purposes of this section, *"designated beneficiary"*, *"Internal Revenue Code"*, and *"participation agreement"* mean the same as defined in section 12I.1.

c. For the purposes of this section, *"eligible individual"* means the same as defined in section 529A of the Internal Revenue Code.

249A.54 Responsibility for payment on behalf of Medicaid-eligible persons — liability of other parties.

1. It is the intent of the general assembly that a Medicaid payor be the payor of last resort for medical services furnished to recipients. All other sources of payment for medical services are primary relative to medical assistance provided by the Medicaid payor. If benefits of a third party are discovered or become available after medical assistance has been provided by the Medicaid payor, it is the intent of the general assembly that the Medicaid payor be repaid in full and prior to any other person, program, or entity. The Medicaid payor shall be repaid in full from and to the extent of any third-party benefits, regardless of whether a recipient is made whole or other creditors are paid.

2. For the purposes of this section:

a. *"Collateral"* means all of the following:

(1) Any and all causes of action, suits, claims, counterclaims, and demands that accrue to the recipient or to the recipient's agent, related to any covered injury or illness, or medical services that necessitated that the Medicaid payor provide medical assistance to the recipient.

(2) All judgments, settlements, and settlement agreements rendered or entered into and related to such causes of action, suits, claims, counterclaims, demands, or judgments.

(3) Proceeds.

b. *"Covered injury or illness"* means any sickness, injury, disease, disability, deformity, abnormality disease, necessary medical care, pregnancy, or death for which a third party is, may be, could be, should be, or has been liable, and for which the Medicaid payor is, or may be, obligated to provide, or has provided, medical assistance.

UNOFFICIAL VERSION NOT FOR EARLY RELEASE

c. "Medicaid payor" means the department or any person, entity, or organization that is legally responsible by contract, statute, or agreement to pay claims for medical assistance including but not limited to managed care organizations and other entities that contract with the state to provide medical assistance under chapter 249A.

d. "Medical service" means medical or medically related institutional or noninstitutional care, or a medical or medically related institutional or noninstitutional good, item, or service covered by Medicaid.

e. "Payment" as it relates to third-party benefits, means performance of a duty, promise, or obligation, or discharge of a debt or liability, by the delivery, provision, or transfer of third-party benefits for medical services. *"To pay"* means to make payment.

f. "Proceeds" means whatever is received upon the sale, exchange, collection, or other disposition of the collateral or proceeds from the collateral and includes insurance payable because of loss or damage to the collateral or proceeds. *"Cash proceeds"* include money, checks, and deposit accounts and similar proceeds. All other proceeds are *"noncash proceeds"*.

g. "Recipient" means a person who has applied for medical assistance or who has received medical assistance.

h. "Recipient's agent" includes a recipient's legal guardian, legal representative, or any other person acting on behalf of the recipient.

i. "Third party" means an individual, entity, or program, excluding Medicaid, that is or may be liable to pay all or a part of the expenditures for medical assistance provided by a Medicaid payor to the recipient. A third party includes but is not limited to all of the following:

(1) A third-party administrator.
(2) A pharmacy benefits manager.
(3) A health insurer.
(4) A self-insured plan.
(5) A group health plan, as defined in section 607(1) of the federal Employee Retirement Income Security Act of 1974.
(6) A service benefit plan.
(7) A managed care organization.
(8) Liability insurance including self-insurance.
(9) No-fault insurance.
(10) Workers' compensation laws or plans.
(11) Other parties that by law, contract, or agreement are legally responsible for payment of a claim for medical services.

j. "Third-party benefits" mean any benefits that are or may be available to a recipient from a third party and that provide or pay for medical services. *"Third-party benefits"* may be created by law, contract, court award, judgment, settlement, agreement, or any arrangement between a third party and any person or entity, recipient, or otherwise. *"Third-party benefits"* include but are not limited to all of the following:

(1) Benefits from collateral or proceeds.
(2) Health insurance benefits.
(3) Health maintenance organization benefits.
(4) Benefits from preferred provider arrangements and prepaid health clinics.
(5) Benefits from liability insurance, uninsured and underinsured motorist insurance, or personal injury protection coverage.
(6) Medical benefits under workers' compensation.
(7) Benefits from any obligation under law or equity to provide medical support.

3. Third-party benefits for medical services shall be primary to medical assistance provided by the Medicaid payor.

4. *a.* A Medicaid payor has all of the rights, privileges, and responsibilities identified under this section. Each Medicaid payor is a Medicaid payor to the extent of the medical assistance provided by that Medicaid payor. Therefore, Medicaid payors may exercise their Medicaid payor's rights under this section concurrently.

b. Notwithstanding the provisions of this subsection to the contrary, if the department determines that a Medicaid payor has not taken reasonable steps within a reasonable time

UNOFFICIAL VERSION 2021 EARLY RELEASE

to recover third-party benefits, the department may exercise all of the rights of the Medicaid payor under this section to the exclusion of the Medicaid payor. If the department determines the department will exercise such rights, the department shall give notice to third parties and to the Medicaid payor.

5. A Medicaid payor may assign the Medicaid payor's rights under this section, including but not limited to an assignment to another Medicaid payor, a provider, or a contractor.

6. After the Medicaid payor has provided medical assistance under the Medicaid program, the Medicaid payor shall seek reimbursement for third-party benefits to the extent of the Medicaid payor's legal liability and for the full amount of the third-party benefits, but not in excess of the amount of medical assistance provided by the Medicaid payor.

7. On or before the thirtieth day following discovery by a recipient of potential third-party benefits, a recipient or the recipient's agent, as applicable, shall inform the Medicaid payor of any rights the recipient has to third-party benefits and of the name and address of any person that is or may be liable to provide third-party benefits.

8. When the Medicaid payor provides or becomes liable for medical assistance, the Medicaid payor has the following rights which shall be construed together to provide the greatest recovery of third-party benefits:

a. The Medicaid payor is automatically subrogated to any rights that a recipient or a recipient's agent or legally liable relative has to any third-party benefit for the full amount of medical assistance provided by the Medicaid payor. Recovery pursuant to these subrogation rights shall not be reduced, prorated, or applied to only a portion of a judgment, award, or settlement, but shall provide full recovery to the Medicaid payor from any and all third-party benefits. Equities of a recipient or a recipient's agent, creditor, or health care provider shall not defeat, reduce, or prorate recovery by the Medicaid payor as to the Medicaid payor's subrogation rights granted under this paragraph.

b. By applying for, accepting, or accepting the benefit of medical assistance, a recipient or a recipient's agent or legally liable relative automatically assigns to the Medicaid payor any right, title, and interest such person has to any third-party benefit, excluding any Medicare benefit to the extent required to be excluded by federal law.

(1) The assignment granted under this paragraph is absolute and vests legal and equitable title to any such right in the Medicaid payor, but not in excess of the amount of medical assistance provided by the Medicaid payor.

(2) The Medicaid payor is a bona fide assignee for value in the assigned right, title, or interest and takes vested legal and equitable title free and clear of latent equities in a third party. Equities of a recipient or a recipient's agent, creditor, or health care provider shall not defeat or reduce recovery by the Medicaid payor as to the assignment granted under this paragraph.

c. The Medicaid payor is entitled to and has an automatic lien upon the collateral for the full amount of medical assistance provided by the Medicaid payor to or on behalf of the recipient for medical services furnished as a result of any covered injury or illness for which a third party is or may be liable.

(1) The lien attaches automatically when a recipient first receives medical services for which the Medicaid payor may be obligated to provide medical assistance.

(2) The filing of the notice of lien with the clerk of the district court in the county in which the recipient's eligibility is established pursuant to this section shall be notice of the lien to all persons. Notice is effective as of the date of filing of the notice of lien.

(3) If the Medicaid payor has actual knowledge that the recipient is represented by an attorney, the Medicaid payor shall provide the attorney with a copy of the notice of lien. However, this provision of a copy of the notice of lien to the recipient's attorney does not abrogate the attachment, perfection, and notice satisfaction requirements specified under subparagraphs (1) and (2).

(4) Only one claim of lien need be filed to provide notice and shall provide sufficient notice as to any additional or after-paid amount of medical assistance provided by the Medicaid payor for any specific covered injury or illness. The Medicaid payor may, in the Medicaid payor's discretion, file additional, amended, or substitute notices of lien at any time after the

UNOFFICIAL VERSION SUBJECT TO EARLY RELEASE

initial filing until the Medicaid payor has been repaid the full amount of medical assistance provided by Medicaid or otherwise has released the liable parties and recipient.

(5) A release or satisfaction of any cause of action, suit, claim, counterclaim, demand, judgment, settlement, or settlement agreement shall not be effective as against a lien created under this paragraph, unless the Medicaid payor joins in the release or satisfaction or executes a release of the lien. An acceptance of a release or satisfaction of any cause of action, suit, claim, counterclaim, demand, or judgment and any settlement of any of the foregoing in the absence of a release or satisfaction of a lien created under this paragraph shall prima facie constitute an impairment of the lien, and the Medicaid payor is entitled to recover damages on account of such impairment. In an action on account of impairment of a lien, the Medicaid payor may recover from the person accepting the release or satisfaction or the person making the settlement the full amount of medical assistance provided by the Medicaid payor.

(6) The lack of a properly filed claim of lien shall not affect the Medicaid payor's assignment or subrogation rights provided in this subsection nor affect the existence of the lien, but shall only affect the effective date of notice.

(7) The lien created by this paragraph is a first lien and superior to the liens and charges of any provider of a recipient's medical services. If the lien is recorded, the lien shall exist for a period of seven years after the date of recording. If the lien is not recorded, the lien shall exist for a period of seven years after the date of attachment. If recorded, the lien may be extended for one additional period of seven years by rerecording the claim of lien within the ninety-day period preceding the expiration of the lien.

9. Except as otherwise provided in this section, the Medicaid payor shall recover the full amount of all medical assistance provided by the Medicaid payor on behalf of the recipient to the full extent of third-party benefits. The Medicaid payor may collect recovered benefits directly from any of the following:

a. A third party.

b. The recipient.

c. The provider of a recipient's medical services if third-party benefits have been recovered by the provider. Notwithstanding any provision of this section to the contrary, a provider shall not be required to refund or pay to the Medicaid payor any amount in excess of the actual third-party benefits received by the provider from a third party for medical services provided to the recipient.

d. Any person who has received the third-party benefits.

10. *a.* A recipient and the recipient's agent shall cooperate in the Medicaid payor's recovery of the recipient's third-party benefits and in establishing paternity and support of a recipient child born out of wedlock. Such cooperation shall include but is not limited to all of the following:

(1) Appearing at an office designated by the Medicaid payor to provide relevant information or evidence.

(2) Appearing as a witness at a court proceeding or other legal or administrative proceeding.

(3) Providing information or attesting to lack of information under penalty of perjury.

(4) Paying to the Medicaid payor any third-party benefit received.

(5) Taking any additional steps to assist in establishing paternity or securing third-party benefits, or both.

b. Notwithstanding paragraph *"a"*, the Medicaid payor has the discretion to waive, in writing, the requirement of cooperation for good cause shown and as required by federal law.

c. The department may deny or terminate eligibility for any recipient who refuses to cooperate as required under this subsection unless the department has waived cooperation as provided under this subsection.

11. On or before the thirtieth day following the initiation of a formal or informal recovery, other than by filing a lawsuit, a recipient's attorney shall provide written notice of the activity or action to the Medicaid payor.

12. A recipient is deemed to have authorized the Medicaid payor to obtain and release

UNOFFICIAL VERSION 2021 EARLY RELEASE

medical information and other records with respect to the recipient's medical services for the sole purpose of obtaining reimbursement for medical assistance provided by the Medicaid payor.

13. *a.* To enforce the Medicaid payor's rights under this section, the Medicaid payor may, as a matter of right, institute, intervene in, or join in any legal or administrative proceeding in the Medicaid payor's own name, and in any or a combination of any, of the following capacities:

(1) Individually.

(2) As a subrogee of the recipient.

(3) As an assignee of the recipient.

(4) As a lienholder of the collateral.

b. An action by the Medicaid payor to recover damages in an action in tort under this subsection, which action is derivative of the rights of the recipient, shall not constitute a waiver of sovereign immunity.

c. A Medicaid payor, other than the department, shall obtain the written consent of the department before the Medicaid payor files a derivative legal action on behalf of a recipient.

d. When a Medicaid payor brings a derivative legal action on behalf of a recipient, the Medicaid payor shall provide written notice no later than thirty days after filing the action to the recipient, the recipient's agent, and, if the Medicaid payor has actual knowledge that the recipient is represented by an attorney, to the attorney of the recipient, as applicable.

e. If the recipient or a recipient's agent brings an action against a third party, on or before the thirtieth day following the filing of the action, the recipient, the recipient's agent, or the attorney of the recipient or the recipient's agent, as applicable, shall provide written notice to the Medicaid payor of the action, including the name of the court in which the action is brought, the case number of the action, and a copy of the pleadings. The recipient, the recipient's agent, or the attorney of the recipient or the recipient's agent, as applicable, shall provide written notice of intent to dismiss the action at least twenty-one days before the voluntary dismissal of an action against a third party. Notice to the Medicaid payor shall be sent as specified by rule.

14. On or before the thirtieth day before the recipient finalizes a judgment, award, settlement, or any other recovery where the Medicaid payor has the right to recovery, the recipient, the recipient's agent, or the attorney of the recipient or recipient's agent, as applicable, shall give the Medicaid payor notice of the judgment, award, settlement, or recovery. The judgment, award, settlement, or recovery shall not be finalized unless such notice is provided and the Medicaid payor has had a reasonable opportunity to recover under the Medicaid payor's rights to subrogation, assignment, and lien. If the Medicaid payor is not given notice, the recipient, the recipient's agent, and the recipient's or recipient's agent's attorney are jointly and severally liable to reimburse the Medicaid payor for the recovery received to the extent of medical assistance paid by the Medicaid payor. The notice required under this subsection means written notice sent via certified mail to the address listed on the department's internet site for a Medicaid payor's third-party liability contact. The notice requirement is only satisfied for the specific Medicaid payor upon receipt by the specific Medicaid payor's third-party liability contact of such written notice sent via certified mail.

15. *a.* Except as otherwise provided in this section, the entire amount of any settlement of the recipient's action or claim involving third-party benefits, with or without suit, is subject to the Medicaid payor's claim for reimbursement of the amount of medical assistance provided and any lien pursuant to the claim.

b. Insurance and other third-party benefits shall not contain any term or provision which purports to limit or exclude payment or the provision of benefits for an individual if the individual is eligible for, or a recipient of, medical assistance, and any such term or provision shall be void as against public policy.

16. In an action in tort against a third party in which the recipient is a party and which results in a judgment, award, or settlement from a third party, the amount recovered shall be distributed as follows:

a. After deduction of reasonable attorney fees, reasonably necessary legal expenses, and filing fees, there is a rebuttable presumption that all Medicaid payors shall collectively

UNOFFICIAL VERSION: 2021 CODE RELEASE

receive two-thirds of the remaining amount recovered or the total amount of medical assistance provided by the Medicaid payors, whichever is less. A party may rebut this presumption in accordance with subsection 17.

b. The remaining recovered amount shall be paid to the recipient.

c. If the recovered amount available for the repayment of medical assistance is insufficient to satisfy the competing claims of the Medicaid payors, each Medicaid payor shall be entitled to the Medicaid payor's respective pro rata share of the recovered amount that is available.

17. *a.* A recipient or a recipient's agent who has notice or who has actual knowledge of the Medicaid payor's rights to third-party benefits under this section and who receives any third-party benefit or proceeds for a covered injury or illness shall on or before the sixtieth day after receipt of the proceeds pay the Medicaid payor the full amount of the third-party benefits, but not more than the total medical assistance provided by the Medicaid payor, or shall place the full amount of the third-party benefits in an interest-bearing trust account for the benefit of the Medicaid payor pending a determination of the Medicaid payor's rights to the benefits under this subsection.

b. If federal law limits the Medicaid payor to reimbursement from the recovered damages for medical expenses, a recipient may contest the amount designated as recovered damages for medical expenses payable to the Medicaid payor pursuant to the formula specified in subsection 16. In order to successfully rebut the formula specified in subsection 16, the recipient shall prove, by clear and convincing evidence, that the portion of the total recovery which should be allocated as medical expenses, including future medical expenses, is less than the amount calculated by the Medicaid payor pursuant to the formula specified in subsection 16. Alternatively, to successfully rebut the formula specified in subsection 16, the recipient shall prove, by clear and convincing evidence, that Medicaid provided a lesser amount of medical assistance than that asserted by the Medicaid payor. A settlement agreement that designates the amount of recovered damages for medical expenses is not clear and convincing evidence and is not sufficient to establish the recipient's burden of proof, unless the Medicaid payor is a party to the settlement agreement.

c. If the recipient or the recipient's agent filed a legal action to recover against the third party, the court in which such action was filed shall resolve any dispute concerning the amount owed to the Medicaid payor, and shall retain jurisdiction of the case to resolve the amount of the lien after the dismissal of the action.

d. If the recipient or the recipient's agent did not file a legal action, to resolve any dispute concerning the amount owed to the Medicaid payor, the recipient or the recipient's agent shall file a petition for declaratory judgment as permitted under rule of civil procedure 1.1101 on or before the one hundred twenty-first day after the date of payment of funds to the Medicaid payor or the date of placing the full amount of the third-party benefits in a trust account. Venue for all declaratory actions under this subsection shall lie in Polk county.

e. If a Medicaid payor and the recipient or the recipient's agent disagree as to whether a medical claim is related to a covered injury or illness, the Medicaid payor and the recipient or the recipient's agent shall attempt to work cooperatively to resolve the disagreement before seeking resolution by the court.

f. Each party shall pay the party's own attorney fees and costs for any legal action conducted under this subsection.

18. Notwithstanding any other provision of law to the contrary, when medical assistance is provided for a minor, any statute of limitation or repose applicable to an action or claim of a legally responsible relative for the minor's medical expenses is extended in favor of the legally responsible relative so that the legally responsible relative shall have one year from and after the attainment of the minor's majority within which to file a complaint, make a claim, or commence an action.

19. In recovering any payments in accordance with this section, the Medicaid payor may make appropriate settlements.

20. If a recipient or a recipient's agent submits via notice a request that the Medicaid payor provide an itemization of medical assistance paid for any covered injury or illness, the Medicaid payor shall provide the itemization on or before the sixty-fifth day following the day on which the Medicaid payor received the request. Failure to provide the itemization

UNOFFICIAL VERSION 2021 IOWA CODE SUPPLEMENT

within the specified time shall not bar a Medicaid payor's recovery, unless the itemization response is delinquent for more than one hundred twenty days without justifiable cause. A Medicaid payor shall not be under any obligation to provide a final itemization until a reasonable period of time after the processing of payment in relation to the recipient's receipt of final medical services. A Medicaid payor shall not be under any obligation to respond to more than one itemization request in any one-hundred-twenty-day period. The notice required under this subsection means written notice sent via certified mail to the address listed on the department's internet site for a Medicaid payor's third-party liability contact. The notice requirement is only satisfied for the specific Medicaid payor upon receipt by the specific Medicaid payor's third-party liability contact of such written notice sent via certified mail.

21. The department may adopt rules to administer this section and applicable federal requirements.

CHAPTER 249F

TRANSFER OF ASSETS — MEDICAL ASSISTANCE DEBT

249F.1	Definitions.	249F.5	Filing and docketing of order — order effective as court decree.
249F.2	Creation of debt.	249F.6	Security for payment of debt — forfeiture.
249F.3	Notice of debt — failure to respond — hearing — order.	249F.6A	Exemption from chapter 17A.
249F.4	Certification to court — hearing — default.	249F.7	Administration.
		249F.8	Inconsistency with federal laws.

249F.1 Definitions.

As used in this chapter, unless the context otherwise requires:

1. *"Department"* means the department of health and human services.

2. *"Medical assistance"* means *"mandatory medical assistance"*, *"optional medical assistance"*, *"discretionary medical assistance"*, or *"Medicare cost sharing"* as each is defined in section 249A.2 which is provided to an individual pursuant to chapter 249A and Tit. XIX of the federal Social Security Act.

3. *a. "Transfer of assets"* means any transfer or assignment of a legal or equitable interest in property, as defined in section 702.14, from a transferor to a transferee for less than fair consideration, made while the transferor is receiving medical assistance or within five years prior to application for medical assistance by the transferor. Any such transfer or assignment is presumed to be made with the intent, on the part of the transferee; transferor; or another person acting on behalf of a transferor who is an actual or implied agent, guardian, attorney-in-fact, or person acting as a fiduciary, of enabling the transferor to obtain or maintain eligibility for medical assistance or of impacting the recovery or payment of a medical assistance debt. This presumption is rebuttable only by clear and convincing evidence that the transferor's eligibility or potential eligibility for medical assistance or the impact on the recovery or payment of a medical assistance debt was no part of the reason of the transferee; transferor; or other person acting on behalf of a transferor who is an actual or implied agent, guardian, attorney-in-fact, or person acting as a fiduciary for making or accepting the transfer or assignment. A transfer of assets includes a transfer of an interest in the transferor's home, domicile, or land appertaining to such home or domicile while the transferor is receiving medical assistance, unless otherwise exempt under paragraph *"b"*.

b. However, transfer of assets does not include the following:

(1) Transfers to or for the sole benefit of the transferor's spouse, including a transfer to a spouse by an institutionalized spouse pursuant to section 1924(f)(1) of the federal Social Security Act.

(2) Transfers to or for the sole benefit of the transferor's child who is blind or has a disability as defined in section 1614 of the federal Social Security Act.

(3) Transfer of a dwelling, which serves as the transferor's home as defined in 20 C.F.R. §416.1212, to a child of the transferor under twenty-one years of age.

(4) Transfer of a dwelling, which serves as the transferor's home as defined in 20 C.F.R. §416.1212, after the transferor is institutionalized, to either of the following:

(a) A sibling of the transferor who has an equity interest in the dwelling and who was residing in the dwelling for a period of at least one year immediately prior to the date the transferor became institutionalized.

(b) A child of the transferor who was residing in the dwelling for a period of at least two years immediately prior to the date the transferor became institutionalized and who provided

UNOFFICIAL VERSION: 2021 YEAR RELEASE

care to the transferor which permitted the transferor to reside at the dwelling rather than in an institution or facility.

(5) Transfers of less than two thousand dollars. However, all transfers by the same transferor during the five-year period prior to application for medical assistance by the transferor shall be aggregated. If a transferor transfers property to more than one transferee during the five-year period prior to application for medical assistance by the transferor, the two thousand dollar exemption shall be divided equally between the transferees.

(6) Transfers of assets that would, at the time of the transferor's application for medical assistance, have been exempt from consideration as a resource if retained by the transferor, pursuant to 42 U.S.C. §1382b(a), as implemented by regulations adopted by the secretary of the United States department of health and human services, excluding the home and land appertaining to the home.

(7) Transfers to a trust established solely for the benefit of the transferor's child who is blind or permanently and totally disabled as defined in the federal Social Security Act, section 1614, as codified in 42 U.S.C. §1382c.

(8) Transfers to a trust established solely for the benefit of an individual under sixty-five years of age who is disabled, as defined in the federal Social Security Act, section 1614, as codified in 42 U.S.C. §1382c.

4. *"Transferee"* means the person who receives a transfer of assets.

5. *"Transferor"* means the person who makes a transfer of assets.

249F.2 Creation of debt.

(3) A statement that after the holding of the conference, the department may issue a new notice to be sent to the transferee by first-class mail addressed to the transferee at the transferee's last known address, or if applicable, to the transferee's attorney at the last known address of the transferee's attorney.

(4) A statement that if the department issues a new notice, the transferee has until ten days after the date of mailing of the new notice or until twenty days after the date of service of the original notice, whichever is later, to send a request for a hearing to the department.

e. A statement that if the transferee objects to all or any part of the original notice and

a. The amount to be paid with directions as to the manner of payment.

b. The amount of the debt accrued and accruing in favor of the department.

c. Notice that the property of the transferee is subject to collection action, including but not limited to wage withholding, garnishment, attachment of a lien, and execution.

UNOFFICIAL VERSION: 2024 EARLY RELEASE

249K.3 General provisions — instant relief — nondirect care limit exception.

1. A provider that constructs a complete replacement, makes major renovations to, or newly constructs a nursing facility may be entitled to the rate relief and exceptions provided under this chapter. The total period during which a provider may participate in any relief shall not exceed two years. The total period during which a provider may participate in any nondirect care limit exception shall not exceed ten years. A provider seeking assistance under this chapter may request both instant relief and the nondirect care limit exception.

2. If the provider requests instant relief, the following provisions shall apply:

a. The provider shall submit a written request for instant relief to the Medicaid program explaining the nature, timing, and goals of the project and the time period during which the relief is requested. The written request shall clearly state if the provider is also requesting the nondirect care limit exception. The written request for instant relief shall be submitted no earlier than thirty days prior to the placement of the provider's assets in service. The written request for relief shall provide adequate details to calculate the estimated value of relief including but not limited to the total cost of the project, the estimated annual depreciation expenses using generally accepted accounting principles, the estimated useful life based upon existing medical assistance and Medicare provisions, and a copy of the most current depreciation schedule. If interest expenses are included, a copy of the general terms of the debt service and the estimated annual amount of the interest expenses shall be submitted with the written request for relief.

b. The following shall apply to the value of relief amount:

(1) If interest expenses are disclosed, the amount of these expenses shall be added to the value of relief.

(2) The calculation of the estimated value of relief shall take into consideration the removal of existing assets and debt service.

(3) The calculation of the estimated value of relief shall be demonstrated as an amount per patient day to be added to the nondirect care component for the relevant period. The estimated annual patient days for this calculation shall be determined based upon budgeted amounts or the most recent annual total as demonstrated on the provider's Medicaid financial and statistical report. For the purposes of calculating the per diem relief, total patient days shall be the greater of the estimated annual patient days or eighty-five percent of the facility's estimated licensed capacity.

(4) The combination of the nondirect care component and the estimated value of relief shall not exceed one hundred and ten percent of the nondirect care median for the relevant period. If a nondirect care limit exception has been requested and granted, the combination of the nondirect care component and the estimated value of relief shall not exceed one hundred twenty percent of the nondirect care median for the relevant period.

c. Instant relief granted under this subsection shall begin the first day of the calendar quarter following placement of the provider's assets in service. If the required information to calculate the instant relief, as specified in paragraph "*a*", is not submitted prior to the first day of the calendar quarter following placement of the provider's assets in service, instant relief shall instead begin on the first day of the calendar quarter following receipt of the required information.

d. Instant relief granted under this subsection shall be terminated at the time of the provider's subsequent biannual rebasing when the submission of the annual cost report for the provider includes the new replacement costs and the annual property costs reflect the new assets.

e. During the period in which instant relief is granted, the Medicaid program shall recalculate the value of the instant relief based on allowable costs and patient days reported on the annual financial and statistical report. For purposes of calculating the per diem relief, total patient days shall be the greater of actual annual patient days or eighty-five percent of the facility's licensed capacity. The actual value of relief shall be added to the nondirect care component for the relevant period, not to exceed one hundred ten percent of the nondirect care median for the relevant period or not to exceed one hundred twenty percent of the nondirect care median for the relevant period if the nondirect care limit exception is requested and granted. The provider's quarterly rates for the relevant period

UNOFFICIAL VERSION 2021 IRLY RELEASE

shall be retroactively adjusted to reflect the revised nondirect care rate. All claims with dates of service from the date that instant relief is granted to the date that the instant relief is terminated shall be repriced to reflect the actual value of the instant relief per diem utilizing a mass adjustment.

3. If the provider requests the nondirect care limit exception, all of the following shall apply:

a. The nondirect care limit for the rate setting period shall be increased to one hundred and twenty percent of the median for the relevant period.

b. The exception period shall not exceed a period of two years. If the provider is requesting only the nondirect care limit exception, the request shall be submitted within sixty days of the release of the July 1 rate determination letters following each biannual rebasing cycle, and shall be effective the first day of the month following receipt of the request. If applicable, the provider shall identify any time period in which instant relief was granted and shall indicate how many times the instant relief or nondirect care limit exception was granted previously.

249K.4 Preliminary evaluation.

1. A provider preparing cost or other feasibility projections for a request for relief or an exception pursuant to section 249K.3 may submit a request for preliminary evaluation.

2. The request shall contain all of the information required for the type of assistance sought pursuant to section 249K.3.

3. The provider shall estimate the timing of the initiation and completion of the project to allow the department to respond with estimates of both instant relief and the nondirect care limit exception.

4. The department shall respond to a request for preliminary evaluation under this section within thirty days of receipt of the request. A preliminary evaluation does not guarantee approval of instant relief or the nondirect care limit exception upon submission of a formal request. A preliminary evaluation provides only an estimate of value of the instant relief or nondirect care limit exception based only on the projections.

249L.3 Quality assurance assessment — imposed — collection — deposit — documentation — civil actions.

1. *a.* A nursing facility in this state shall be assessed a quality assurance assessment for each patient day for the preceding quarter.

b. The quality assurance assessment shall be implemented as a broad-based health care-related tax as defined in 42 U.S.C. §1396b(w)(3)(B).

c. The quality assurance assessment shall be imposed uniformly upon all nursing facilities, unless otherwise provided in this chapter.

d. The aggregate quality assurance assessments imposed under this chapter shall not exceed the maximum amount that may be assessed pursuant to the indirect guarantee threshold as established pursuant to 42 C.F.R. §433.68(f)(3)(i), and shall be stated on a per-patient-day basis.

2. The quality assurance assessment shall be paid by each nursing facility to the department on a quarterly basis, or other schedule as determined by the department due to a nursing facility's noncompliance or based on an indication of a nursing facility's financial instability, after the nursing facility's medical assistance payment rates are adjusted to include funds appropriated from the quality assurance trust fund for that purpose. A nursing facility shall submit the completed form with the assessment amount no later than thirty days following the end of each assessment period.

6. *a.* A nursing facility that fails to pay the quality assurance assessment within the time frame specified in this section shall pay, in addition to the outstanding quality assurance assessment, a penalty of one and five-tenths percent of the quality assurance assessment amount owed for each month or portion of each month that the payment is overdue. However, if the department determines that good cause is shown for failure to comply with payment of the quality assurance assessment, the department shall waive the penalty or a portion of the penalty.

b. If a quality assurance assessment has not been received by the department by the last day of the month in which the payment is due, the department shall withhold an amount equal

If a nursing facility violates this section, the department shall not reimburse the nursing facility the quality assurance assessment due the nursing facility under the medical assistance program, but shall instead only reimburse the nursing facility at the nursing facility base reimbursement rate under the medical assistance program for one year from the date the violation is discovered.

8. If federal financial participation to match the quality assurance assessments made under this section becomes unavailable under federal law, the department shall terminate the imposition of the assessments beginning on the date the federal statutory, regulatory, or interpretive change takes effect.

2009 Acts, ch 160, §3, 5; 2018 Acts, ch 1165, §93; 2023 Acts, ch 158, §10; 2024 Acts, ch 1157, §58

249L.4 Quality assurance trust fund — limitations of use — reimbursement adjustments to nursing facilities.

1. A quality assurance trust fund is created in the state treasury under the authority of the department. Moneys received through the collection of the nursing facility quality assurance assessment imposed under this chapter and any other moneys specified for deposit in the trust fund shall be deposited in the trust fund.

2. Moneys in the trust fund shall be used, subject to their appropriation by the general assembly, by the department only for reimbursement of nursing facility services for which federal financial participation under the medical assistance program is available to match state funds. Moneys appropriated from the trust fund for reimbursement of nursing facilities, in addition to the quality assurance assessment pass-through and the quality assurance assessment rate add-on which shall be used as specified in subsection 5, paragraph *"b"*, shall be used in a manner such that no less than thirty-five percent of the amount received by a nursing facility is used for increases in compensation and costs of employment for direct care workers, and no less than sixty percent of the total is used to increase compensation and costs of employment for all nursing facility staff. For the purposes of use of such funds, *"direct care worker"*, *"nursing facility staff"*, *"increases in compensation"*, and *"costs of employment"* mean as defined or specified in this chapter.

3. The trust fund shall be separate from the general fund of the state and shall not be considered part of the general fund of the state. The moneys in the trust fund shall not be considered revenue of the state, but rather shall be funds of the quality assurance assessment program. The moneys deposited in the trust fund are not subject to section 8.33 and shall not be transferred, used, obligated, appropriated, or otherwise encumbered, except to provide for the purposes of this chapter. Notwithstanding section 12C.7, subsection 2, interest or earnings on moneys deposited in the trust fund shall be credited to the trust fund.

4. The department shall adopt rules pursuant to chapter 17A to administer the trust fund and reimbursements made from the trust fund.

5. *a.* The determination of medical assistance reimbursements to nursing facilities shall continue to be calculated in accordance with the modified price-based case-mix reimbursement system as specified in 2001 Iowa Acts, ch. 192, §4, subsection 2, paragraph "*c*". In addition, moneys that are appropriated from the trust fund for reimbursements to nursing facilities that serve the medically indigent shall be used to provide the following nursing facility reimbursement rate adjustment increases within the parameters specified:

(1) A quality assurance assessment pass-through. This rate add-on shall account for the cost incurred by the nursing facility in paying the quality assurance assessment, but only with

UNOFFICIAL VERSION 2024 EARLY RELEASE

respect to the pro rata portion of the assessment that correlates with the patient days in the nursing facility that are attributable to medically indigent residents.

(2) A quality assurance assessment rate add-on. This rate add-on shall be calculated on a per-patient-day basis for medically indigent residents. The amount paid to a nursing facility as a quality assurance assessment rate add-on shall be ten dollars per patient day.

(3) Nursing facility payments for rebasing pursuant to 2001 Iowa Acts, ch. 192, §4, subsection 3, paragraph "*a*", subparagraph (2).

b. (1) It is the intent of the general assembly that priority in expenditure of rate adjustment increases provided to nursing facilities through the quality assurance assessment be related to the compensation and costs of employment for nursing facility staff.

(2) If the sum of the quality assurance assessment pass-through and the quality assurance assessment rate add-on is greater than the total cost incurred by a nursing facility in payment of the quality assurance assessment, no less than thirty-five percent of the difference shall be used to increase compensation and costs of employment for direct care workers and no less than sixty percent of the difference shall be used to increase compensation and costs of employment for all nursing facility staff.

(3) For the purposes of determining what constitutes increases in compensation and costs of employment the following shall apply:

(a) Increases in compensation shall include but are not limited to starting hourly wages, average hourly wages paid, and total wages including both productive and nonproductive wages, and as specified by rule of the department.

(b) Increases in total costs of employment shall include but are not limited to costs of benefit programs with specific reporting for group health plans, group retirement plans, leave benefit plans, employee assistance programs, payroll taxes, workers' compensation, training, education, career development programs, tuition reimbursement, transportation, and child care, and as specified by rule of the department.

(c) Direct care workers and nursing facility staff do not include nursing facility administrators, administrative staff, or home office staff.

(4) Each nursing facility shall submit to the department, information in a form as specified by the department and developed in cooperation with representatives of the Iowa caregivers association, the Iowa health care association, leading age Iowa, and the AARP Iowa chapter, that demonstrates compliance by the nursing facility with the requirements for use of the rate adjustment increases and other reimbursements provided to nursing facilities through the quality assurance assessment.

6. The department shall report annually to the general assembly regarding the use of moneys deposited in the trust fund and appropriated to the department.

2009 Acts, ch 160, §4, 5; 2013 Acts, ch 30, §53; 2014 Acts, ch 1026, §143; 2018 Acts, ch 1165, §94

Moneys received through the collection of the hospital health care access assessment imposed under this chapter and any other moneys specified for deposit in the trust fund shall be deposited in the trust fund.

2. Moneys in the trust fund shall be used, subject to their appropriation by the general assembly, by the department to reimburse participating hospitals the medical assistance program upper payment limit for inpatient and outpatient hospital services as calculated in this section. Following payment of such upper payment limit to participating hospitals, any remaining funds in the trust fund on an annual basis may be used for any of the following purposes:

a. To support medical assistance program utilization shortfalls.

b. To maintain the state's capacity to provide access to and delivery of services for vulnerable Iowans.

c. To support access to health care services for uninsured Iowans.

d. To support Iowa hospital programs and services which expand access to health care services for Iowans.

3. The trust fund shall be separate from the general fund of the state and shall not be considered part of the general fund. Each participating hospital shall receive the same percentage increase, but the percentage may differ depending on whether the basis for the base rate increase is the diagnostic related groups or ambulatory patient classifications.

b. The percentage increase shall be calculated by dividing the amount calculated under subparagraph (1) by the amount calculated under subparagraph (2) as follows:

(1) The amount under the Medicare upper payment limit for the fiscal year beginning July 1, 2010, for participating hospitals.

(2) The projected expenditures for participating hospitals for the fiscal year beginning July 1, 2010, as determined by the department, plus the amount calculated under subparagraph (1).

6. For the fiscal year beginning July 1, 2011, and for each fiscal year beginning July 1, thereafter, the payments to participating hospitals shall continue to be calculated based on the upper payment limit as calculated for the fiscal year beginning July 1, 2010.

7. Reimbursement of participating hospitals shall incorporate the rebasing process for inpatient and outpatient services for state fiscal year 2012. However, the total amount of increased funding available for reimbursement attributable to rebasing shall not exceed four million five hundred thousand dollars for state fiscal year 2012 and six million dollars for state fiscal year 2013.

The court shall require temporary support to be paid to the clerk of court or to the collection services center. If the basis for suspension under this paragraph applies to at least one but not all of the children for whom support is ordered, the condition of this paragraph is met only if the support order includes a step change.

b. The child for whom support is ordered is not receiving public assistance pursuant to chapter 239B, 249A, or a comparable law of another state or foreign country, unless the person against whom support is ordered is considered to be a member of the same household as the child for the purposes of public assistance eligibility.

3. An order approved by the court for suspension of an accruing support obligation is effective upon the date of filing of the suspension order. The satisfaction of an obligation of support due the obligee shall be final upon the filing of the suspension order. A support obligation which is satisfied is not subject to the reinstatement provisions of this section.

4. An order suspending an accruing support obligation entered by the court pursuant to this section shall be considered a temporary order for the period of six months from the date of filing of the suspension order. However, the six-month period shall not include any time during which an application for reinstatement is pending before the court.

5. During the six-month period child support services may request that the court reinstate the accruing support order or obligation if any of the following conditions exist:

10. This section shall not limit the rights of the parents or child support services to proceed by other means to suspend, terminate, modify, reinstate, or establish support.

14. As used in this section, unless the context otherwise requires, *"step change"* means a change designated in a support order specifying the amount of the child support obligation as the number of children entitled to support under the order changes.

15. As specified in this section, if the child for whom support is ordered is not receiving public assistance pursuant to chapter 239B, 249A, or a comparable law of another state or foreign country, upon agreement of the parents, child support services may facilitate the suspension of the child support order or obligation if the child is residing with a caretaker, who is a natural person, and who has not requested child support services to provide services under this chapter. The parents and the caretaker shall sign a notarized affidavit attesting to the conditions under this section, consent to the suspension of the support order or obligation, and submit the affidavit to child support services. a written request for a hearing to child support services. The request shall be received by child support services within ten days of child support services' written decision. The only grounds for a hearing shall be mistake of fact. Following receipt of the written request, child support services shall certify the matter for hearing in the district court in the county in which the underlying support order is filed.

i. The address of the collection services center for payment of the arrearages.

5. If the obligor pays the amount of arrearage within twenty days of the date of the notice of referral, referral of the arrearage to a collection entity shall not be made.

6. If the obligor requests a review or court hearing pursuant to this section, referral of the arrearages shall be stayed pending the decision of child support services or the court.

7. Actions of child support services under this section shall not be subject to contested case proceedings or further review pursuant to chapter 17A and any resulting court hearing shall be an original hearing before the district court. However, the department shall establish, by rule pursuant to chapter 17A, an internal process to provide an additional review by the director or the director's designee.

8. If an obligor does not pay the amount of the arrearage, does not contest the referral, or if following child support services' review and any court hearing child support services or the court does not find a mistake of fact, the arrearages shall be referred to a collection entity. Following the review or hearing, if child support services or the court finds a mistake in the amount of the arrearage, the arrearages shall be referred to the collection entity in the appropriate arrearage amount. For arrearages referred to a collection entity, the obligor shall pay a surcharge equal to a percent of the amount of the support arrearage due as of the date of the referral. The surcharge is in addition to the arrearages and any other fees or charges owed, and shall be enforced by the collection entity as provided under section 252B.5. Upon referral to the collection entity, the surcharge is an automatic judgment against the obligor.

9. The director or the director's designee may file a notice of the surcharge with the clerk of the district court in the county in which the underlying support order is filed. Upon filing, the clerk shall enter the amount of the surcharge on the lien index and judgment docket.

10. Following referral of a support arrearage to a collection entity, the surcharge shall be due and owing and enforceable by a collection entity or child support services notwithstanding satisfaction of the support obligation or whether the collection entity is enforcing a support arrearage. However, child support services may waive payment of all or a portion of the surcharge if waiver will facilitate the collection of the support arrearage.

11. All surcharge payments shall be received and disbursed by the collection services center. The surcharge payments received by the collection services center shall be considered appropriated receipts as defined in section 8.2 and shall be used to pay the costs of any contracts with a collection entity.

12. *a.* A payment received by the collection services center which meets all the following conditions shall be allocated as specified in paragraph *"b"*:

(1) The payment is for a case in which arrearages have been referred to a collection entity.

252B.25 Contempt — combining actions.

Notwithstanding any provision of law to the contrary, if an obligor has been ordered to provide support in more than one order, child support services may bring a single action for contempt to enforce the multiple orders. However, if the obligor objects to the consolidation of the actions regarding multiple orders into a single action for contempt, and the court determines that severance of the single action into multiple actions is in the interest of justice, child support services shall bring multiple actions for contempt to enforce the multiple orders. If the single action is brought and the obligor does not object, child support services shall file the action in the district court of a county where the obligor resides, or if the obligor does not reside in the state, in the district court of the county where at least one of the support orders was entered or registered. For the purposes of this section, the district court where child support services files the action shall have jurisdiction and authority over all other support orders for the obligor entered or registered by a court of this state and affected under this section. In such case, child support services shall also file a document with the clerk of court in each county affected specifying the county where the action under this section was filed and the disposition of the action.

SUBCHAPTER II

IMMEDIATE INCOME WITHHOLDING

252D.8 Persons subject to immediate income withholding.
1. In a support order issued or modified on or after November 1, 1990, for which services are being provided by child support services, and in any support orders issued or modified after January 1, 1994, for which services are not provided by child support services, the income of a support obligor is subject to withholding, on the effective date of the order, regardless of whether support payments by the obligor are in arrears. If services are being provided pursuant to chapter 252B, child support services may enter an ex parte order for an immediate withholding of income. The district court may enter an ex parte order for immediate income withholding for cases in which child support services is not providing services. The income of the obligor is subject to immediate withholding unless one of the following occurs:
a. One of the parties demonstrates and the court or child support services finds there is good cause not to require immediate withholding. A finding of good cause shall be based on, at a minimum, written findings and conclusions by the court or administrative authority as to why implementing immediate withholding would not be in the best interests of the child. In cases involving modifications, the findings shall also include proof of timely payment of previously ordered support.
b. A written agreement is reached between both parties which provides for an alternative arrangement. If the support payments have been assigned to the department pursuant to chapter 234 or 239B, or a comparable statute of another jurisdiction, the department shall be considered a party to the support order, and a written agreement pursuant to this section to waive immediate withholding is void unless approved by child support services. Any agreement existing at the time an assignment of support is made pursuant to chapter 234 or 239B or pursuant to a comparable statute of another jurisdiction shall not prevent child support services from implementing immediate withholding.
2. For an order not requiring immediate withholding, income of an obligor is subject to immediate withholding, without regard to whether there is an arrearage, on the earliest of the following:
a. The date the obligor requests that the withholding begin.
b. The date the custodial parent or party to the proceeding requests that the withholding begin, if the request is approved by the district court or, in cases in which services are being provided pursuant to chapter 252B, if child support services approves the request.

i. The payor shall promptly notify the court or child support services when the obligor's employment or other income terminates, and provide the obligor's last known address and the name and address of the obligor's new employer, if known.

j. Any payor who discharges an obligor, refuses to employ an obligor, or takes disciplinary action against an obligor based upon income withholding is guilty of a simple misdemeanor. (2) A payor of income who complies with an income withholding notice that is regular on its face shall not be subject to any civil liability to any individual or agency for conduct in compliance with the notice.

l. The payor of income shall comply with chapter 252K when receiving a notice of income withholding from another state.

2. The department shall establish criteria and a phased-in schedule to require, no later than June 30, 2015, payors of income to electronically transmit the amounts withheld under an income withholding order. The department shall assist payors of income in complying with the required electronic transmission, and shall adopt rules setting forth procedures for use in electronic transmission of funds, and exemption from use of electronic transmission taking into consideration any undue hardship electronic transmission creates for payors of income.

252D.18A Multiple income withholding orders — amounts withheld by payor.

When the obligor is responsible for paying more than one support obligation and the payor of income has received more than one income withholding order or notice of an order for the obligor, the payor shall withhold amounts in accordance with all of the following:

1. The total of all amounts withheld shall not exceed the amounts specified in 15 U.S.C. §1673(b). For orders or notices issued by child support services, the limit for the amount to be withheld shall be specified in the order or notice.

2. As reimbursement for the payor's processing costs, the payor may deduct a fee of no more than two dollars for each payment withheld in addition to the amount withheld for support.

3. Priority shall be given to the withholding of current support rather than delinquent support. The payor shall not allocate amounts withheld in a manner which results in the failure to withhold an amount for one or more of the current support obligations.

a. To arrive at the amount to be withheld for each obligee, the payor shall total the amounts due for current support under the income withholding orders and the notices of orders and determine the proportionate share for each obligee. The proportionate share shall be determined by dividing the amount due for current support for each order or notice of order by the total due for current support for all orders and notices of orders. The results are the percentages of the obligor's net income which shall be withheld for each obligee.

b. If, after completing the calculation in paragraph *"a"*, the withholding limit specified under subsection 1 has not been attained, the payor shall total the amounts due for arrearages and determine the proportionate share for each obligee. The proportionate share amounts shall be established utilizing the procedures established in paragraph *"a"* for current support obligations.

4. The payor shall identify and report payments by the obligor's name, account number, amount, and date withheld pursuant to section 252D.17. If payments for multiple obligees are combined, the portion of the payment attributable to each obligee shall be specifically identified only if the payor is directed to do so by child support services.

a. Any delinquency or arrearage is caused solely by a disparity between the schedules of the obligor's regular pay dates and the scheduled date the support is due.

b. The amount calculated to be withheld is such that the total amount of current support to be withheld from the paychecks of the obligor and the amount ordered to be paid in the support order are the same on an annual basis.

c. The automatic deductions for support are continuous and occurring.

If child support services takes an enforcement action during a calendar year against an obligor and the obligor is not delinquent or in arrears solely due to the applicability of this section to the obligor, upon discovering the circumstances, child support services shall promptly discontinue the enforcement action.

(3) The employer has eliminated dependent health coverage for all employees.

b. Nothing in this section requires an employer to maintain coverage for the dependent if the premiums are no longer being paid by the obligor because the employer no longer owes compensation to the obligor or because the obligor's employment has been terminated and the obligor has not elected to continue coverage.

c. If an order requiring that the obligor provide coverage under a health benefit plan for the dependent has been forwarded to the obligor's employer pursuant to section 252E.4, and the obligor's employment is terminated, the employer shall provide notice to the obligee and the department within ten days of termination of the obligor's employment.

7. If an order requiring that the obligor provide coverage under a health benefit plan for the dependent has been forwarded to the obligor's employer pursuant to section 252E.4, and the employer's health benefit plan is terminated either in its entirety or with respect to the obligor's insurance classification, or the employer has changed its insurer or become self-insured, the employer shall provide notice to the obligee or other legal custodian of the child and the department ten days prior to the termination or change in insurer.

8. If the department issues a national medical support notice to an employer or plan administrator, all of the following shall apply:

c. If the obligor named in the notice is not an employee of the employer, or if a health benefit plan is not offered or available to the employee, the employer shall notify the department, as provided in the notice, within twenty business days after the date of the notice.

d. If a health benefit plan is offered or available to the employee, the employer shall send the plan administrator's portion of the notice to each appropriate plan administrator within twenty business days after the date of the notice.

e. Upon notification from the plan administrator that the dependent is enrolled, the employer shall either withhold and forward the premiums as provided in subsection 3, or shall notify the department that the enrollment cannot be completed due to limits established for withholding as provided in subsection 3.

f. If the plan administrator notifies the employer that the obligor is subject to a waiting period that expires more than ninety days from the date of receipt of the notice by the plan administrator or that the obligor is subject to a waiting period that is measured in a manner other than the passage of time, the employer shall notify the plan administrator when the obligor becomes eligible to enroll in the plan and that the notice requires enrollment in the plan of the dependent named in the notice.

g. The plan administrator shall enroll the dependent, and if necessary to enrollment of the dependent shall also enroll the obligor, in the plan selected in accordance with this paragraph. All of the following shall apply to the selection of the plan:

(2) If the obligor is not enrolled in a plan or is not enrolled in a plan that offers dependent coverage, and if only one plan with dependent coverage is offered by the employer, that plan shall be selected.

(3) If the obligor is not enrolled in a health benefit plan or is not enrolled in a health benefit plan that offers dependent coverage, if more than one plan with dependent coverage is offered by the employer, and if the notice is issued by child support services, all of the following shall apply:

(a) If only one of the plans is accessible to the dependent, that plan shall be selected. If none of the plans with dependent coverage is accessible to the dependent, child support services shall amend or terminate the notice.

(b) If more than one of the plans is accessible to the dependent, the plan selected shall

be the plan that provides basic coverage for which the employee's share of the premium is lowest.

(c) If more than one of the plans is accessible to the dependent but none of the accessible plans provides basic coverage, the plan selected shall be a plan that is accessible and for which the employee's share of the premium is lowest.

(d) If the employee's share of the premiums is the same under all plans described in subparagraph (b) or (c), child support services shall attempt to consult with the obligee when selecting the plan. If the obligee does not respond within ten days of child support services' attempt, child support services shall select a plan which shall be the plan's default option, if any, or the plan with the lowest deductibles and copayment requirements.

(4) If the obligor is not enrolled in a health benefit plan or is not enrolled in a health benefit plan that offers dependent coverage, if more than one plan with dependent coverage is offered by the employer, and if the notice is issued by the child support enforcement agency of another state, that agency shall select the plan as provided in paragraph "*h*", subparagraph (3).

h. Within forty business days after the date of the notice, the plan administrator shall do all of the following as directed by the notice:

(1) Complete the appropriate portion of the notice and return the portion to the department.

(2) If the dependent is or is to be enrolled, notify the obligor, the obligee, and the child and furnish the obligee with necessary information. Provide child support services with the type of health benefit plan under which the dependent has been enrolled, including whether dental, optical, office visits, and prescription drugs are covered services.

(3) If more than one health benefit plan is available to the obligor and the obligor is not enrolled, forward plan descriptions and documents to the department and enroll the dependent, and if necessary the obligor, in the plan selected by the department or in any default option if the plan administrator has not received a selection from the department within twenty business days of the date the plan administrator returned the national medical support notice response to the department.

(4) If the obligor is subject to a waiting period that expires more than ninety days from the date of receipt of the notice by the plan administrator or if the obligor has not completed a waiting period that is measured in a manner other than the passage of time, notify the employer, the department, the obligor, and the obligee. Upon satisfaction of the period or requirement, complete the enrollment.

(5) Upon completion of the enrollment, notify the employer for a determination of whether the necessary employee share of the premium is available.

(6) If the plan administrator is subject to the federal Employee Retirement Income Security Act, as codified in 29 U.S.C. §1169, or is subject to the federal Child Support Performance and Incentive Act of 1998, Pub. L. No. 105-200, §401, subsection (e) or (f), and the plan administrator determines the notice does not constitute a qualified medical child support order, complete and send the response to the department and notify the obligor, the obligee, and the child of the specific reason for the determination.

g. Verified documentation of the chain of custody of the blood or genetic specimens is competent evidence to establish the chain of custody. The testimony of the appointed expert is not required. A verified expert's report of test results which indicate a statistical probability of paternity is sufficient authenticity of the expert's conclusion.

h. A verified expert's report shall be admitted as evidence to establish administrative paternity, and, if a court hearing is scheduled to resolve the issue of paternity, shall be admitted as evidence and is admissible at trial.

i. If the verified expert concludes that the test results show that the putative father is not excluded and that the probability of the putative father's paternity is ninety-five percent or higher, there shall be a rebuttable presumption that the putative father is the biological father, and the evidence shall be sufficient as a basis for administrative establishment of paternity.

(1) In order to challenge the presumption of paternity, a party shall file a written notice of the challenge with the district court within twenty days from the date the paternity test results are issued or mailed to all parties by child support services. Any challenge to a presumption of paternity resulting from paternity tests, or to paternity test results filed after the lapse of the twenty-day time frame shall not be accepted or admissible by child support services or the court.

(2) A copy of the notice challenging the presumption of paternity shall be provided to any other party in person, or by mailing the notice to the last known address of each party, or if applicable, to the last known address of each party's attorney.

(3) The party challenging the presumption of paternity has the burden of proving that the putative father is not the father of the child.

(4) The presumption of paternity may be rebutted only by clear and convincing evidence.

j. If the verified expert concludes that the test results indicate that the putative father is not excluded and that the probability of the putative father's paternity is less than ninety-five percent, the department shall order a subsequent administrative paternity test or certify the case to the district court for resolution in accordance with the procedures and time frames specified in paragraph "*i*" and section 252F.5.

k. If the results of the test or the verified expert's analysis are timely challenged as provided in this subsection, the department, upon the request of a party and advance payment by the contestant or upon the initiative of child support services, shall order that an additional test be performed by the same laboratory or an independent laboratory. If the party requesting additional testing does not advance payment, the department shall certify the case to the district court in accordance with paragraph "*i*" and section 252F.5.

l. When a subsequent paternity test is conducted, the time frames in this chapter associated with paternity tests shall apply to the most recently completed test.

m. If the paternity test results exclude the putative father as a potential biological father of the child or children, and additional tests are not requested by either party or conducted on the initiative of child support services, or if additional tests exclude the putative father as a potential biological father, child support services shall withdraw its action against the putative father and shall file a notice of the withdrawal with the clerk of the district court, and shall provide a copy of the notice to each party in person, or by regular mail sent to each party's last known address, or if applicable, the last known address of the party's attorney.

n. Except as provided in paragraph "*k*", child support services shall advance the costs of genetic testing. If paternity is established and paternity testing was conducted, child support services shall enter an order or, if the action proceeded to a court hearing, request that the court enter a judgment for the costs of the paternity tests consistent with applicable federal law. In a proceeding under this chapter, a copy of a bill for genetic testing shall be admitted as evidence without requiring third-party foundation testimony and shall constitute prima facie evidence of the amount incurred for genetic testing.

4. If child support services determines that a mistake of fact has occurred, child support services shall proceed as follows:

a. If a mistake in identity has occurred or the obligor is not delinquent in an amount equal to the payment for one month, child support services shall notify the financial institution that the administrative levy has been released. Child support services shall provide a copy of the notice to the support obligor by regular mail.

b. c. If the court finds that there is a mistake of identity or that the obligor does not owe the delinquent support, child support services shall notify the financial institution that the administrative levy has been released.

d. If the court finds that the obligor has an interest in the account, and the amount of support due was incorrectly overstated, child support services shall notify the financial institution to release the excess moneys to the obligor and remit the remaining moneys in the amount of the debt to the collection services center for disbursement to the appropriate recipient.

e. If the court finds that the obligor has an interest in the account, and the amount of support due is correct, the financial institution shall forward the moneys to the collection services center for disbursement to the appropriate recipient.

f. If the obligor or any other party known to have an interest in the account fails to appear at the hearing, the court may find the challenging party in default, shall ratify the administrative levy, if valid upon its face, and shall enter an order directing the financial institution to release the moneys to child support services.

g. Issues related to visitation, custody, or other provisions not related to levies against accounts are not grounds for a hearing under this chapter.

h. Support orders shall not be modified under a challenge pursuant to this section.

j. An order entered under this chapter for a levy against an account of a support obligor has priority over a levy for a purpose other than the support of the dependents in the court order being enforced.

7. If the financial institution has forwarded moneys to the collection services center and has deducted a fee from the moneys of the account, or if any additional fees or costs are levied against the account, and all funds are subsequently refunded to the account due to a mistake of fact or ruling of the court, child support services shall reimburse the account for any fees assessed by the financial institution. If the mistake of fact is a mistake in the amount of support due and any portion of the moneys is retained as support payments, however, child support services is not required to reimburse the account for any fees or costs levied against the account. Additionally, for the purposes of reimbursement to the account for any fees or costs, each certificate of deposit is considered a separate account.

2. If a proceeding is brought under this chapter, and two or more child support orders have been issued by tribunals of this state, another state, or a foreign country with regard to the same obligor and same child, a tribunal of this state having personal jurisdiction over both the obligor and individual obligee shall apply the following rules and by order shall determine which order controls and must be recognized:

UNOFFICIAL VERSION 2021 EARLY RELEASE

(2) If an order has not been issued in the current home state of the child, the order most recently issued controls.

c. If none of the tribunals would have continuing, exclusive jurisdiction under this chapter, the tribunal of this state shall issue a child support order, which controls.

3. If two or more child support orders have been issued for the same obligor and same child, upon request of a party who is an individual or that is a support enforcement agency, a tribunal of this state having personal jurisdiction over both the obligor and the obligee who is an individual shall determine which order controls under subsection 2. The request may be filed with a registration for enforcement or registration for modification pursuant to article 6, or may be filed as a separate proceeding.

4. A request to determine which is the controlling order must be accompanied by a copy of every child support order in effect and the applicable record of payments. The requesting party shall give notice of the request to each party whose rights may be affected by the determination.

6. A tribunal of this state that determines by order which is the controlling order under subsection 2, paragraph *"a"* or *"b"*, or subsection 3, or that issues a new controlling order under subsection 2, paragraph *"c"*, shall state in that order:

a. The basis upon which the tribunal made its determination.

b. The amount of prospective support, if any.

c. The total amount of consolidated arrears and accrued interest, if any, under all of the orders after all payments made are credited as provided in section 252K.209.

7. Within thirty days after issuance of an order determining which is the controlling order, the party obtaining the order shall file a certified copy of it in each tribunal that issued or registered an earlier order of child support. A party or support enforcement agency obtaining the order that fails to file a certified copy is subject to appropriate sanctions by a tribunal in which the issue of failure to file arises. The failure to file does not affect the validity or enforceability of the controlling order.

8. An order that has been determined to be the controlling order, or a judgment for consolidated arrears of support and interest, if any, made pursuant to this section must be recognized in proceedings under this chapter.

PART 3

REGISTRATION AND MODIFICATION OF CHILD SUPPORT ORDER OF ANOTHER STATE

252K.609 Procedure to register child support order of another state for modification.

A party or support enforcement agency seeking to modify, or to modify and enforce, a child support order issued in another state shall register that order in this state in the same manner provided in sections 252K.601 through 252K.608 if the order has not been registered. A petition or comparable pleading for modification may be filed at the same time as a request for registration, or later. The pleading must specify the grounds for modification.

97 Acts, ch 175, §169; 2015 Acts, ch 110, §51

252K.610 Effect of registration for modification.

A tribunal of this state may enforce a child support order of another state registered for purposes of modification, in the same manner as if the order had been issued by a tribunal of this state, but the registered support order may be modified only if the requirements of section 252K.611 or 252K.613 have been met.

97 Acts, ch 175, §170; 2015 Acts, ch 110, §52

252K.611 Modification of child support order of another state.

1. If section 252K.613 does not apply, upon petition or comparable pleading, a tribunal of this state may modify a child support order issued in another state which is registered in this state if after notice and hearing the tribunal finds that paragraph *"a"* or *"b"* applies:

a. The following requirements are met:

(1) Neither the child, nor the obligee who is an individual, nor the obligor resides in the issuing state.

(2) A movant who is a nonresident of this state seeks modification.

(3) The respondent is subject to the personal jurisdiction of the tribunal of this state.

b. This state is the state of residence of the child, or a party who is an individual is subject to the personal jurisdiction of the tribunal of this state, and all of the parties who are individuals have filed consents in a record in the issuing tribunal for a tribunal of this state to modify the support order and assume continuing, exclusive jurisdiction.

2. Modification of a registered child support order is subject to the same requirements, procedures, and defenses that apply to the modification of an order issued by a tribunal of this state and the order may be enforced and satisfied in the same manner.

3. A tribunal of this state may not modify any aspect of a child support order that may not be modified under the law of the issuing state, including the duration of the obligation of support. If two or more tribunals have issued child support orders for the same obligor and same child, the order that controls and must be so recognized under section 252K.207 establishes the aspects of the support order which are nonmodifiable.

4. In a proceeding to modify a child support order, the law of the state that is determined to have issued the initial controlling order governs the duration of the obligation of support. The obligor's fulfillment of the duty of support established by that order precludes imposition of a further obligation of support by a tribunal of this state.

5. On the issuance of an order by a tribunal of this state modifying a child support order issued in another state, the tribunal of this state becomes the tribunal having continuing, exclusive jurisdiction.

6. Notwithstanding subsections 1 through 5 and section 252K.201, subsection 2, a tribunal of this state retains jurisdiction to modify an order issued by a tribunal of this state if both of the following apply:

a. One party resides in another state.

b. The other party resides outside the United States.

252K.612 Recognition of order modified in another state.

If a child support order issued by a tribunal of this state is modified by a tribunal of another state which assumed jurisdiction pursuant to this chapter, a tribunal of this state:

1. May enforce its order that was modified only as to arrears and interest accruing before the modification.

2. May provide appropriate relief for violations of its order which occurred before the effective date of the modification.

3. Shall recognize the modifying order of the other state, upon registration, for the purpose of enforcement.

97 Acts, ch 175, §172; 2015 Acts, ch 110, §54

252K.613 Jurisdiction to modify child support order of another state when individual parties reside in this state.

1. If all of the parties who are individuals reside in this state and the child does not reside in the issuing state, a tribunal of this state has jurisdiction to enforce and to modify the issuing state's child support order in a proceeding to register that order.

2. A tribunal of this state exercising jurisdiction under this section shall apply the provisions of articles 1 and 2, this article, and the procedural and substantive law of this state to the proceeding for enforcement or modification. Articles 3, 4, 5, 7, and 8 do not apply.

97 Acts, ch 175, §173
Referred to in §252K.610, 252K.611

252K.614 Notice to issuing tribunal of modification.

Within thirty days after issuance of a modified child support order, the party obtaining the modification shall file a certified copy of the order with the issuing tribunal that had continuing, exclusive jurisdiction over the earlier order, and in each tribunal in which the party knows the earlier order has been registered. A party who obtains the order and fails to file a certified copy is subject to appropriate sanctions by a tribunal in which the issue of failure to file arises. The failure to file does not affect the validity or enforceability of the modified order of the new tribunal having continuing, exclusive jurisdiction.

97 Acts, ch 175, §174

PART 4

REGISTRATION AND MODIFICATION OF FOREIGN CHILD SUPPORT ORDER

252K.615 Jurisdiction to modify child support order of foreign country.

1. Except as otherwise provided in section 252K.711, if a foreign country lacks or refuses to exercise jurisdiction to modify its child support order pursuant to its laws, a tribunal of this state may assume jurisdiction to modify the child support order and bind all individuals subject to the personal jurisdiction of the tribunal whether the consent to modification of a child support order otherwise required of the individual pursuant to section 252K.611 has been given or whether the individual seeking modification is a resident of this state or of the foreign country.

2. An order issued by a tribunal of this state modifying a foreign child support order pursuant to this section is the controlling order.

Rules adopted pursuant to this subsection shall provide for or include, but are not limited to, the following:

a. A presumption that proficiency in braille reading and writing is essential for satisfactory educational progress for a visually impaired student who is not able to communicate in print with the same level of proficiency as a student of otherwise comparable ability at the same grade level. This presumption includes a student as defined in paragraph *"b"*. A student for whom braille services are appropriate, as defined in this subsection, is entitled to instruction in braille reading and writing that is sufficient to enable the pupil to communicate with the same level of proficiency as a pupil of otherwise comparable ability at the same grade level.

b. A pupil who retains some sight but who has a medically diagnosed expectation of visual deterioration in adolescence or early adulthood may qualify for instruction in braille reading and writing.

c. Instruction in braille reading and writing may be used in combination with other special education services appropriate to a pupil's educational needs.

d. The annual review of a pupil's individual education plan shall include discussion of instruction in braille reading and writing and a written explanation of the reasons why the pupil is using a given reading and writing medium or media. If the reasons have not changed since the previous year, the written explanation for the current year may refer to the fuller explanation from the previous year.

e. A pupil as defined in paragraph *"b"* whose primary learning medium is expected to change may begin instruction in the new medium before it is the only medium the pupil can effectively use.

f. A pupil who receives instruction in braille reading and writing pursuant to this subsection shall be taught by a teacher licensed to teach students with visual impairments.

19. For a school or school district with a school calendar measuring instructional time in days pursuant to section 279.10, subsection 1, define the minimum school day as a day consisting of six hours of instructional time for grades one through twelve. The minimum hours shall be exclusive of the lunch period, but may include passing time between classes. Time spent on parent-teacher conferences shall be considered instructional time. A school or school district may record a day of school with less than the minimum instructional hours as a minimum school day if any of the following apply:

a. If emergency health or safety factors require the late arrival or early dismissal of students on a specific day.

b. If the total hours of instructional school time for grades one through twelve for any five consecutive school days equal a minimum of thirty hours, even though any one day of school is less than the minimum instructional hours because of a staff development opportunity provided for the professional instructional staff or because parent-teacher conferences have been scheduled beyond the regular school day. Furthermore, if the total hours of instructional

UNOFFICIAL VERSION 2007 NOT FOR RELEASE

time for the first four consecutive days equal at least thirty hours because parent-teacher conferences have been scheduled beyond the regular school day, a school or school district may record zero hours of instructional time on the fifth consecutive school day as a minimum school day.

20. Adopt rules that require the board of directors of a school district to waive school fees for indigent families.

21. Develop and adopt rules incorporating accountability for, and reporting of, student achievement into the standards and accreditation process described in section 256.11. The rules shall provide for all of the following:

a. Requirements that all school districts and accredited nonpublic schools develop, implement, and file with the department a report that includes information necessary for the department of education to submit to the United States secretary of education the plan required pursuant to the federal Elementary and Secondary Education Act, as amended by the federal Every Student Succeeds Act, Pub. L. No. 114-95.

b. A set of core academic indicators in mathematics and reading in grades four, eight, and eleven, a set of core academic indicators in science and social studies in grades eight and ten, and another set of core indicators that includes but is not limited to graduation rate, postsecondary education, and successful employment in Iowa. Annually, the department shall report state data for each indicator in the condition of education report.

(1) Rules adopted pursuant to this subsection shall specify that the statewide summative assessment of student progress administered by school districts for purposes of the core academic indicators shall be the summative assessment developed by the Iowa testing program within the university of Iowa college of education and administered by the Iowa testing program's designee.

(2) The rules shall also require all of the following:

(a) That all students enrolled in school districts be administered the following assessments during the last quarter of the school year:

(i) In grades three through eleven, an assessment in mathematics and English language arts, including reading and writing.

(ii) In grades five, eight, and eleven, an assessment in science.

(iii) In grades eight and eleven, an assessment in social studies.

(b) That the assessment, at a minimum, assess the core academic indicators identified in this paragraph *"b"*; be aligned with the Iowa standards in both content and rigor; accurately describe student achievement and growth for purposes of the school, the school district, and state accountability systems; provide valid, reliable, and fair measures of student progress toward college or career readiness; and meet the summative assessment requirements of the federal Every Student Succeeds Act, Pub. L. No. 114-95, if applicable.

(c) That the assessment be available for administration in both paper-and-pencil and computer-based formats and include assessments in mathematics, science, social studies, and English language arts, including reading and writing.

(d) That the assessment be peer-reviewed by an independent, third-party evaluator to determine that the assessment is aligned with the Iowa core academic standards, provides a measurement of student growth and student proficiency, and meets the summative assessment requirements of the federal Every Student Succeeds Act, Pub. L. No. 114-95, if applicable. The assessment developed by the Iowa testing program within the university of Iowa college of education shall be adjusted as necessary to meet the requirements of this subparagraph (2) as determined by the peer review.

(e) That any school district, accredited nonpublic school, or charter school providing instruction delivered primarily over the internet pursuant to subsection 32 may administer any state assessment required pursuant to this subsection in an online setting that is similar to the student's regular academic instruction, if all of the following conditions are satisfied:

(i) The student takes the assessment at a date and time that are assigned by personnel designated by the school district, accredited nonpublic school, or charter school.

(ii) The student participates in a synchronous assessment session that is initiated and managed by personnel designated by the school district, accredited nonpublic school, or charter school.

An accreditation committee visit to a nonpublic school requires membership on the committee from nonpublic school instructional or administrative staff or board members. A member of a committee shall not have a direct interest in the school district or nonpublic school being visited.

(4) After visiting the school district or nonpublic school, the accreditation committee shall, within thirty days, determine whether the accreditation standards have been met and shall make a report to the director, together with a recommendation on what enforcement actions, if any, should be recommended to the state board.

c. Enforcement.

(1) The department shall enforce the laws, regulations, and rules applicable to school districts and nonpublic schools consistent with the process outlined in this subsection. The department shall coordinate its enforcement of chapter 216 with the Iowa state civil rights commission to reduce duplication of efforts.

(2) If, after having an opportunity to correct, if permitted, a school district is found to be in noncompliance with federal education laws including but not limited to the federal Elementary and Secondary Education Act of 1965, the federal Individuals with Disabilities Education Act, 20 U.S.C. §1400 et seq., as amended, the federal Civil Rights Act of 1964, chapter 216, section 279.73, or section 279.74, the director shall recommend, and the state board shall do, one of the following within thirty days of the finding of noncompliance:

(a) Impose conditions on funding provided to a school district, including directing the use of school district funds and designating the school district a high-risk grantee under 2 C.F.R. §200.207.

(b) Withhold payment of state or federal funds to a school district, in whole or in part, until noncompliance is corrected. Initial withholding of state funds is at the discretion of the director for a period of sixty calendar days, after which it is subject to approval of the state board every sixty calendar days. Withholding of federal funds is subject to the governing federal statute or regulation.

(3) The director may use any of the following permitted enforcement mechanisms and shall exercise discretion to ensure that enforcement actions are proportionate to school district or nonpublic school noncompliance:

(a) Advise the school district or nonpublic school on the availability of appropriate technical assistance.

(b) Require the school district or nonpublic school to complete a corrective action plan or plan for improvement by a reasonable deadline.

(c) Recommend a phase II visit to the school district or nonpublic school to the state board.

(d) Refer conduct of school district or nonpublic school staff or school board members, or school authorities, to the office of the attorney general for investigation.

(e) Refer financial concerns to the auditor of state for investigation.

(f) Recommend removal of accreditation of the school district or school to the state board.

(g) Take any other enforcement mechanism available to the director.

(4) The department shall focus enforcement activities on all of the following:

(a) Improving educational results for children, families, and students.

(b) Ensuring that public agencies and their governing boards meet requirements of state and federal laws.

11. *a.* If the recommendation pursuant to subsection 10 is that a school district or nonpublic school not remain accredited, the accreditation committee shall provide the school district or nonpublic school with a report that includes a list of all of the deficiencies, a plan prescribing the actions that must be taken to correct the deficiencies, and a deadline date for completion of the prescribed actions. The accreditation committee shall advise the school district or nonpublic school of available resources and technical assistance to improve areas of weakness. The school district or nonpublic school shall be provided with the opportunity to respond to the accreditation committee's report. The director shall review the accreditation committee's report and the response of the school district or nonpublic school and shall provide a report to the state board along with copies of the accreditation

committee's report, the response to the accreditation committee's report, and other pertinent information. At the request of the school district or nonpublic school, the school district or nonpublic school may appear before the state board and address the state board directly regarding any part of the plan specified in the report. The state board may modify the plan. During the period of time specified in the plan for its implementation by a school district or nonpublic school, the school district or school shall remain accredited.

b. The accreditation committee shall revisit the school district or nonpublic school and shall determine whether the deficiencies in the standards have been corrected.

c. The accreditation team shall make a report and recommendation to the director and the state board. The committee recommendation shall specify whether the school district or nonpublic school shall remain accredited. For a school district, the committee report and recommendation shall also specify under what conditions the district may remain accredited. The conditions may include but are not limited to providing temporary oversight authority, operational authority, or both oversight and operational authority to the director and the state board for some or all aspects of the school district in order to bring the school district into compliance with minimum standards.

d. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies have been corrected.

e. If the deficiencies have not been corrected, and the conditional accreditation alternatives contained in the report are not mutually acceptable to the state board and the local board, the state board shall deaccredit the school district and merge the territory of the school district with one or more contiguous school districts at the end of the school year. The state board may place a district under receivership for the remainder of the school year. The receivership shall be under the direct supervision and authority of the area education agency in which the district is located. The decision of whether to deaccredit the school district or to place the district under receivership shall be based upon a determination by the state board of the best interests of the students, parents, residents of the community, teachers, administrators, and school district board members and upon the recommendations of the accreditation committee and the director.

f. In the case of a nonpublic school, if the deficiencies have not been corrected, the state board may deaccredit the nonpublic school. The deaccreditation shall take effect on the date established by the resolution of the state board, which shall be no later than the end of the school year in which the nonpublic school is deaccredited.

12. If the state board deaccredits a school district and merges the territory of the school district with one or more contiguous school districts, the deaccredited school district ceases to exist as a school corporation on the effective date set by the state board for deaccreditation. Notwithstanding any other provision of law, the contiguous school districts receiving territory of the deaccredited school district are not considered successor school corporations of the deaccredited school district.

a. Division of assets and liabilities of the deaccredited school district shall be as provided in this paragraph "*a*" and in sections 275.29 through 275.31.

(1) If one or more of the contiguous school districts receiving assets and liabilities of the deaccredited school district utilizes the equalization levy, only that territory in the school district imposing the equalization levy that comprises territory of the deaccredited school district shall be taxed.

(2) Income surtax revenue and revenues generated by property taxes shall be distributed proportionately based on taxable value of the territory received by one or more school districts contiguous to the deaccredited school district.

(3) Revenues that are based on student enrollment shall be distributed based on percentages of students who were enrolled in the deaccredited school district in the school year immediately prior to deaccreditation and who now reside in territory received by one or more school districts contiguous to the deaccredited school district.

(4) If the deaccredited school district has a negative fund balance in its general fund at the time it is deaccredited by the state board, the director may order that the positive balance from one or more other funds of the deaccredited school district be transferred to the deaccredited school district's general fund.

b. Prior to the effective date set by the state board for deaccreditation, the school district shall remain responsible for, and may retain such authority as is necessary to complete, all of the following:

(1) Execution of one or more quitclaim deeds, in fulfillment of the merger of territory received by one or more contiguous school districts from the deaccredited school district.

(2) Preparation of and payment for a final audit of all the district's financial accounts.

(3) Preparation and certification of a final certified annual report to the department.

c. The provisions of section 275.57 apply when deaccreditation of a school district and merger of the territory of such school district with a contiguous school district that is currently divided into director districts leads to the formation of new director districts.

13. Notwithstanding subsections 1 through 12 and as an exception to their requirements, a private high school or private combined junior-senior high school operated for the express purpose of teaching a program designed to qualify its graduates for matriculation at accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities shall be placed on a special accredited list of college preparatory schools, which list shall signify accreditation of the school for that express purpose only, if:

a. The school complies with minimum standards established by the Code other than this section, and rules adopted under the Code, applicable to:

(1) Courses comprising the limited program.

(2) Health requirements for personnel.

(3) Plant facilities.

(4) Other environmental factors affecting the programs.

b. At least eighty percent of those graduating from the school within the four most recent calendar years, other than those graduating who are aliens, graduates entering military or alternative civilian service, or graduates deceased or incapacitated before college acceptance, have been accepted by accredited four-year or equivalent liberal arts, scientific, or technological colleges or universities.

c. A school claiming to be a private college preparatory school which fails to comply with the requirement of paragraph *"b"* of this subsection shall be placed on the special accredited list of college preparatory schools probationally if the school complies with the requirements of paragraph *"a"* of this subsection, but a probational accreditation shall not continue for more than four successive years.

14. Notwithstanding subsections 1 through 13 and as an exception to their requirements, a nonpublic grade school which is reopening is accredited even if it does not have a complete grade one through grade six program. However, the nonpublic grade school must comply with other minimum standards established by law and administrative rules adopted pursuant to the law, and the nonpublic grade school must show progress toward reaching a grade one through grade six program.

15. The board of directors of a school district or the authorities in charge of a nonpublic school may award credit toward graduation to a student if the student successfully completes basic training for service as a member of the Iowa army national guard, the Iowa air national guard, the active military forces of the United States, the army national guard of the United States, or the air national guard of the United States.

16. *a.* Notwithstanding subsections 1 through 12, a nonpublic school may be accredited by an approved independent accrediting agency instead of by the state board as provided in this subsection. The state board shall maintain a list of approved independent accrediting agencies comprised of at least six regional or national nonprofit, nongovernmental agencies recognized as reliable authorities concerning the quality of education offered by a school and shall publish the list of independent accrediting agencies on the department's internet site. The list shall include accrediting agencies that, as of January 1, 2013, accredited a nonpublic school in this state that was concurrently accredited under this section; and any agency that has a formalized partnership agreement with another agency on the list and has member schools in this state as of January 1, 2013.

b. A nonpublic school that participates in the accreditation process offered by an independent accrediting agency on the approved list published pursuant to paragraph *"a"*

shall be deemed to meet the education standards of this section. However, such a school shall comply with statutory health and safety requirements for school facilities.

c. If the state board takes preliminary action to remove an agency from the approved list published on the department's internet site pursuant to paragraph *"a"*, the department shall, at least one year prior to removing the agency from the approved list, notify the nonpublic schools participating in the accreditation process offered by the agency of the state board's intent to remove the accrediting agency from its approved list of independent accrediting agencies. The notice shall also be posted on the department's internet site and shall contain the proposed date of removal. The nonpublic school shall attain accreditation under this subsection or subsections 1 through 12 not later than one year following the date on which the state board removes the agency from its list of independent accrediting agencies.

d. (1) If an approved independent accrediting agency deaccredits a nonpublic school, the nonpublic school shall not seek accreditation from an independent accrediting agency that is on the approved list pursuant to paragraph *"a"* for a period of three years beginning on the date the approved independent accrediting agency deaccredited the nonpublic school.

(2) If an approved independent accrediting agency deaccredits a nonpublic school, the nonpublic school may immediately seek accreditation under subsection 10.

e. (1) This subsection shall not be construed to authorize the state or any political subdivision of the state to exercise authority over any nonpublic school or construed to require a nonpublic school to modify its academic standards for admission or educational program.

(2) This section shall not be construed to expand the authority of the state or any political subdivision of the state to impose regulations upon any nonpublic school that are not necessary to implement this section.

(3) Rules adopted by the state board of education to implement this section that impose an undue burden on a nonpublic school are invalid.

(4) A nonpublic school shall be given the maximum freedom possible to provide for the educational needs of the school's students, consistent with state and federal law.

17. *a.* (1) The offer and teach requirements of subsection 5, paragraphs *"a"* through *"e"* and *"g"* through *"j"*, shall not apply for up to two specified subjects at a school district or accredited nonpublic school if any of the following apply:

(a) The school district or accredited nonpublic school makes every reasonable and good faith effort to employ a teacher licensed under subchapter VII, part 3, for the specified subject and is unable to employ such a teacher.

(b) Fewer than ten students typically register for instruction in the specified subject at the school district or accredited nonpublic school.

(2) If a school district or accredited nonpublic school meets the requirements of subparagraph (1), subparagraph division (a) or (b), the school district or accredited nonpublic school may exceed the two-subject limitation specified in subparagraph (1), unnumbered paragraph 1, for the purpose of providing world language, personal finance literacy, and computer science coursework online in accordance with paragraph *"c"*.

b. The department may waive the applicability of subsection 5, paragraphs *"a"* through *"e"* and *"g"* through *"j"*, for up to two additional specified subject areas for a school district or accredited nonpublic school that proves to the satisfaction of the department that the school district or accredited nonpublic school has made every reasonable effort, but is unable to meet such requirements. A school district or accredited nonpublic school may apply for an annual waiver each year.

c. If the provisions of subsection 5, paragraphs *"a"* through *"e"* and *"g"* through *"j"*, are made inapplicable under paragraph *"a"*, or are waived under paragraph *"b"*, the specified subject shall be provided by an area education agency under section 273.16, or by the school district or accredited nonpublic school if an online alternative satisfying the requirements of subparagraph (1), (2), or (3) can be made available by the school district or accredited nonpublic school. Any course not required under subsection 5 may also be provided by an area education agency under section 273.16 or by the school district or accredited nonpublic school. However, in either case, if offered by the school district or accredited nonpublic school, the specified subject or course shall be offered through any of the following means:

UNOFFICIAL VERSION 2021 NOT FOR RELEASE

(1) An online learning platform if the course is developed by the school district or accredited nonpublic school itself or is developed by a partnership or consortium of schools that have developed the course individually or cooperatively, provided the course is taught and supervised by a teacher licensed under subchapter VII, part 3, who has online learning experience and the course content meets the requirements established by rule pursuant to section 256.7, subsection 32, paragraph "*c*". A partnership or consortium of schools may include two or more school districts or accredited nonpublic schools, or any combination thereof.

(2) A private provider utilized to provide the course that meets the standards of this section and is approved in accordance with section 256.9, subsection 55.

(3) An online learning platform offered, subject to the initial availability of federal funds, by the department in collaboration with one or more area education agencies or in partnership with school districts and accredited nonpublic schools. The online learning platform may deliver distance education to students, including students receiving competent private instruction under chapter 299A, provided such students register with the school district of residence and the coursework offered by the online learning platform is taught and supervised by a teacher licensed under subchapter VII, part 3, who has online learning experience and the course content meets the requirements established by rule pursuant to section 256.7, subsection 32, paragraph "*c*". The department and the area education agencies operating online learning programs pursuant to section 273.16 shall coordinate to ensure the most effective use of resources and delivery of services. Federal funds, if available, may be used to offset what would otherwise be costs to school districts for participation in the program.

d. For purposes of this subsection, "*good faith effort*" means the same as defined in section 279.19A, subsection 9.

18. The board of directors of a school district and the authorities in charge of an accredited nonpublic school shall each establish a policy to award credit toward graduation to a student if the student participates in the legislative page program at the state capitol for a regular session of the general assembly. The student shall be excused from the physical education requirements of subsection 5, paragraph "*g*", subparagraph (1), and is exempt from the physical activity requirements of subsection 6, paragraph "*b*", subparagraph (3), while participating in the legislative page program. The student must complete the graduation requirements of section 256.7, subsection 26, paragraph "*a*", but participation in the legislative page program for a complete regular session of the general assembly shall count as one-half unit of social studies credit required for purposes of section 256.7, subsection 26, paragraph "*a*".

19. For purposes of this section:

a. (1) "*Age-appropriate*" means topics, messages, and teaching methods suitable to particular ages or age groups of children and adolescents, based on developing cognitive, emotional, and behavioral capacity typical for the age or age group. "*Age-appropriate*" does not include any material with descriptions or visual depictions of a sex act as defined in section 702.17.

(2) Notwithstanding subparagraph (1), for purposes of the human growth and development curriculum, "*age-appropriate*" means the same as defined in section 279.50.

b. "*Research-based*" means the same as defined in section 279.50.

256.12 Sharing instructors and services.

1. The director, when necessary to realize the purposes of this chapter, shall approve the enrollment in public schools for specified courses of students who also are enrolled in private schools, when the courses in which they seek enrollment are not available to them in their private schools, provided the students have satisfactorily completed prerequisite courses, if any, or have otherwise shown equivalent competence through testing. Courses made available to students in this manner shall be considered as compliance by the private schools in which the students are enrolled with any standards or laws requiring private schools to offer or teach the courses.

2. *a.* This section does not deprive the respective boards of public school districts of any of their legal powers, statutory or otherwise, and in accepting the specially enrolled students, each of the boards shall prescribe the terms of the special enrollment, including but not limited to scheduling of courses and the length of class periods. In addition, the board of the affected public school district shall be given notice by the department of its decision to permit the special enrollment not later than six months prior to the opening of the affected public school district's school year, except that the board of the public school district may waive the notice requirement. School districts and area education agency boards shall make public school services, which shall include special education programs and services and may include health services, services for remedial education programs, guidance services, and school testing services, available to children attending nonpublic schools in the same manner and to the same extent that they are provided to public school students. shall be similar to those undertaken for public school students. Health services, special education support, and related services provided by area education agencies for the purpose of identifying children with disabilities, assistance with physical and communications needs of students with physical disabilities, and services of an educational interpreter may be provided on nonpublic school premises with the permission of the lawful custodian of the property. Other special education services may be provided on nonpublic school premises at the discretion of the school district or area education agency provider of the service and with the permission of the lawful custodian of the property.

b. Students enrolled in nonpublic schools who receive services pursuant to this subsection shall be weighted at the level provided for in section 256B.9, subsection 1.

c. A local school district providing services pursuant to this subsection shall submit an accounting to the department of education by August 1 following the school year for the actual costs of the special education programs and services provided. The department shall review and approve or modify the accounting by September 1 and shall notify the department of administrative services of the approved accounting amount. The department of administrative services shall adjust the September payment to the local school district for the next fiscal year by the difference between the amount generated by the weighting for the provision of services to nonpublic school students, as provided in this subsection, and the amount of the actual costs as reflected in the local school district's accounting. Any amount paid by the department of administrative services shall be deducted quarterly from the state foundation aid paid under section 257.16 during that fiscal year to all school districts in the state. The portion of the total amount of the approved accounting amount that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for that budget year.

Such preparation shall address all students, including but not limited to students with disabilities; students who are at risk of academic failure; students who have been identified as gifted and talented or English learners; and students with dyslexia, whether or not such students have been identified as children requiring special education under chapter 256B.

Rules adopted pursuant to this subsection establishing licensure renewal requirements shall provide that up to half of the units needed for licensure renewal may be earned upon the successful completion of an individualized professional development plan as verified by the supervising licensed evaluator, or by successful completion of professional development courses or programs offered by a professional development program licensed by the board, or by a practitioner preparation institution or area education agency approved by the state board of education.

2. Establish, collect, and refund fees for a license.

3. Enter into reciprocity agreements with other equivalent state boards or a national certification board to provide for licensing of applicants from other states or nations.

4. Enforce rules adopted by the board through revocation or suspension of a license, or by other disciplinary action against a practitioner or professional development program licensed by the board. The board shall designate who may or shall initiate a licensee disciplinary investigation and a licensee disciplinary proceeding, and who shall prosecute a disciplinary proceeding and under what conditions, and shall state the procedures for review by the board of findings of fact if a majority of the board does not hear the disciplinary proceeding. However, in a case alleging failure of a practitioner to fulfill contractual obligations, the person who files a complaint with the board, or the complainant's designee, shall represent the complainant in a disciplinary hearing conducted in accordance with this part.

13. Adopt rules to determine whether an applicant is qualified to perform the duties for which a license is sought. The rules shall include all of the following:

a. The board may deny a license to or revoke the license of a person upon the board's finding by a preponderance of evidence that either the person has been convicted of an offense and the offense directly relates to the duties and responsibilities of the profession or that there has been a founded report of child abuse against the person. likelihood that the person will commit the same abuse or offense again, and the number of founded abuses committed by or criminal convictions of the person involved.

c. Adopt rules that require the board to notify the public when a licensed practitioner who is the subject of an ongoing investigation initiated under paragraph *"a"* has a case pending with a finding of probable cause. This paragraph shall not be construed to require the board to disclose unfounded, closed investigations initiated under paragraph *"a"*.

d. Adopt rules that require the evaluation of complaints that did not result in any discipline or sanction if similar complaints are filed against the same licensed practitioner.

e. Adopt rules that require the board to investigate an administrator who is employed by the school that employs a licensed practitioner who is the subject of an investigation initiated under paragraph *"a"*. The rules shall require the board to investigate whether the administrator filed a written complaint pursuant to this subsection and whether the administrator was required to report to the board pursuant to section 256.160.

15. Adopt criteria for administrative endorsements that allow a person to achieve the endorsement authorizing the person to serve as an elementary or secondary principal without regard to the grade level at which the person accrued teaching experience.

18. Adopt rules to provide in the board's code of professional conduct and ethics that any licensee of the board, who commits or solicits any sexual conduct as defined in section 709.15, subsection 3, paragraph *"a"*, subparagraph (2), or solicits, encourages, or consummates a romantic relationship with any individual who was a student within ninety days prior to any such conduct alleged in a complaint initiated with the board, if the licensee taught the individual or supervised the individual in any school activity when the individual was a student, engages in unprofessional and unethical conduct that may result in disciplinary action by the board.

7. If a student receives financial aid under any other program, the full amount of that financial aid shall be considered part of the student's financial resources available in determining the amount of the student's financial need for that period.

1. As used in this chapter:

UNOFFICIAL VERSION: 2024 EARLY RELEASE

a. *"Children requiring special education"* means persons under twenty-one years of age, including children under five years of age, who have a disability in obtaining an education because of a head injury, autism, behavioral disorder, or physical, mental, communication, or learning disability, as defined by the rules of the department of education. *"Children requiring special education"* includes children receiving special education services, who reach the age of twenty-one during an academic year, and who elect to receive special education services until the end of the academic year.

b. *"Special education"* means classroom, home, hospital, institutional, or other instruction designed to meet the needs of children requiring special education as defined in this subsection; transportation and corrective and supporting services required to assist children requiring special education, as defined in this subsection, in taking advantage of, or responding to, educational programs and opportunities, as defined by rules of the state board of education.

2. *a.* It is the policy of this state to require school districts and state-operated educational programs to provide or make provision, as an integral part of public education, for a free and appropriate public education sufficient to meet the needs of all children requiring special education. This chapter is not to be construed as encouraging separate facilities or segregated programs designed to meet the needs of children requiring special education when the children can benefit from all or part of the education program as offered by the local school district. Children requiring special education shall, consistent with the least restrictive environment requirements under the federal Individuals with Disabilities Education Act, 20 U.S.C. §1400 et seq., attend regular classes and shall be educated with children who do not require special education.

b. (1) Whenever appropriate, hindrances to learning and to the normal functioning of children requiring special education within the regular school environment shall be overcome by the provision of special aids and services rather than by separate programs for those in need of special education.

(2) Special classes, separate schooling, or other removal of children requiring special education from the regular educational environment, shall occur only when, and to the extent that the nature or severity of the educational disability is such, that education in regular classes, even with the use of supplementary aids and services, cannot be accomplished satisfactorily.

(3) Individualized education programs for children requiring special education within the regular school environment and behavioral intervention plans shall not include provisions for clearing all other students out of the regular classroom in order to calm the child requiring special education or the child for whom a behavioral intervention plan has been implemented except as provided in section 279.51A.

c. For those children who cannot adapt to the regular educational or home living conditions, and who are attending facilities under chapter 263 or chapter 256, subchapter V, upon the request of the board of directors of an area education agency, the department of health and human services shall provide residential or detention facilities and the area education agency shall provide special education programs and services. The area education agencies shall cooperate with the department of education to provide the services required by this chapter.

3. Special aids and services shall be provided to children requiring special education who are less than five years of age if the aids and services will reasonably permit the child to enter the educational process or school environment when the child attains school age.

4. Every child requiring special education shall, if reasonably possible, receive a level of education commensurate with the level provided each child who does not require special education. The cost of providing such an education shall be paid as provided in section 273.9, this chapter, and chapter 257. It shall be the primary responsibility of each school district to provide special education to children who reside in that district if the children requiring special education are properly identified, the educational program or service has been approved, the teacher or instructor has been licensed, the number of children requiring special education needing that educational program or service is sufficient to make offering the program or service feasible, and the program or service cannot more economically and

equably be obtained from the area education agency, another school district, another group of school districts, a qualified private agency, or in cooperation with one or more other districts.

5. Moneys received by the school district of the child's residence for the child's education, derived from moneys received through chapter 257, this chapter, and section 273.9 shall be paid by the school district of the child's residence to the appropriate education agency, private agency, or other school district providing special education for the child pursuant to contractual arrangements as provided in section 273.3, subsections 5 and 6.

either by admission to a special class or by supportive services, it shall be the duty of the parent or guardian to enroll the child for instruction in such special classes or supportive services as may be established, except in the event a doctor's certificate is filed with the secretary of the school district showing that it is inadvisable for medical reasons for the child requiring special education to receive the special education provided; all the provisions and conditions of chapter 299 shall be applicable to this section, and any violations shall be punishable as provided in chapter 299.

2. A child, or the parent or guardian of the child, or the school district in which the child resides, may obtain a review of an action or omission of local authorities pursuant to the procedures established by the state board of education on the ground that the child has been or is about to be:

256B.8 Exceptions.

1. It is not incumbent upon the school districts to keep a child requiring special education in regular instruction when the child cannot sufficiently profit from the work of the regular classroom, nor to keep a child requiring special education in the special class or instruction for children requiring special education when it is determined by the diagnostic educational team that the child can no longer benefit from the instruction or needs more specialized instruction available in special schools. However, the school district shall count the child requiring special education in the enrollment as provided in sections 256B.9, 257.6, and 273.9 and shall ensure that appropriate educational provisions are made for the child requiring special education.

2. An area education agency director of special education may request approval from the department of education to continue the special education program of a person beyond the period specified in section 256B.2, subsection 1, paragraph *"a"*, if the person had an accident or prolonged illness that resulted in delays in the initiation of or interruptions in that person's special education program. Approval may be granted by the department to continue the special education program of that person for up to three years or until the person's twenty-fourth birthday.

3. No provision of this chapter shall be construed to require or compel any person who is a member of a well-recognized church or religious denomination and whose religious convictions, in accordance with the tenets or principles of the person's church or religious denomination, are opposed to medical or surgical treatment for disease to take or follow a course of physical therapy, or submit to medical treatment, nor shall any parent or guardian who is a member of such church or religious denomination and who has such religious convictions be required to enroll a child in any course or instruction which utilizes medical or surgical treatment for disease.

256B.9 Weighting plan — audits — evaluations — expenditures.

1. In order to provide funds for the excess costs of instruction of children requiring special education, above the costs of instruction of pupils in a regular curriculum, a special education weighting plan for determining enrollment in each school district is adopted as follows:

a. Pupils in a regular curriculum are assigned a weighting of one.

b. Children requiring special education who require special adaptations while assigned to a regular classroom for basic instructional purposes and pupils with disabilities placed in a special education class who receive part of their instruction in regular classrooms are assigned a weighting of one and eight-tenths. This paragraph also applies to children requiring special education who require specially designed instruction while assigned to a regular classroom for basic instructional purposes.

c. Children requiring special education who require full-time, self-contained special education placement with little integration into a regular classroom are assigned a weighting of two and two-tenths. This paragraph also applies to children requiring special education who require substantial modifications, adaptations, or special education accommodations in order to benefit from instruction in an integrated classroom.

d. Children requiring special education who have severe disabilities or who have multiple disabilities are assigned a weighting of four and four-tenths. This paragraph also applies to children requiring special education who have severe and profound disabilities.

e. Shared-time and part-time pupils of school age who require special education shall be placed in the proper category and counted in the proportion that the time for which they are enrolled or receive instruction for the school year bears to the time that full-time pupils,

carrying a normal course schedule, in the same school district, for the same school year are enrolled and receive instruction.

2. The weighting for each category of child multiplied by the number of children in each category in the enrollment of a school district, as identified and certified by the director of special education for the area, determines the weighted enrollment to be used in that district for purposes of computations required under the state school foundation plan in chapter 257.

3. The weight that a child is assigned under this section shall be dependent upon the required educational modifications necessary to meet the special education needs of the child. Enrollment for the purpose of this section, and all payments to be made pursuant thereto, includes all children for whom a special education program or course is to be provided pursuant to section 256.12, subsection 2, sections 273.1 through 273.9, and this chapter, whether or not the children are actually enrolled upon the records of a school district.

4. On December 1, 1987, and no later than December 1 every two years thereafter, for the school year commencing the following July 1, the director of the department of education shall report to the school budget review committee the average costs of providing instruction for children requiring special education in the categories of the weighting plan established under this section, and for providing services to nonpublic school students pursuant to section 256.12, subsection 2, and the director of the department of education shall make recommendations to the school budget review committee for needed alterations to make the weighting plan suitable for subsequent school years. The school budget review committee shall establish the weighting plan for each school year and shall report the plan to the director of the department of education. The school budget review committee may establish weights to the nearest hundredth. The school budget review committee shall not alter the weighting assigned to pupils in a regular curriculum, but it may increase or decrease the weighting assigned to each category of children requiring special education by not more than two-tenths of the weighting assigned to pupils in a regular curriculum. The state board of education shall adopt rules under chapter 17A to implement the weighting plan for each year and to assist in identification and proper indexing of each child in the state who requires special education.

5. The division of special education shall audit the reports required in section 273.5 to determine that all children in the area who have been identified as requiring special education have received the appropriate special education instructional and support services, and to verify the proper identification of pupils in the area who will require special education instructional services during the school year in which the report is filed. The division shall certify to the director of the department of management the correct total enrollment of each school district in the state, determined by applying the appropriate pupil weighting index to each child requiring special education, as certified by the directors of special education in each area.

6. The division may conduct an evaluation of the special education instructional program or special education support services being provided by an area education agency, school district, or private agency, pursuant to sections 273.1 through 273.9 and this chapter, to determine if the program or service is adequate and proper to meet the needs of the child; if the child is benefiting from the program or service; if the costs are in proportion to the educational benefits being received; and if there are any improvements that can be made in the program or service. A written report of the evaluation shall be sent to the area education agency, school district, or private agency evaluated and to the president of the senate and speaker of the house of representatives of the general assembly.

7. The costs of special education instructional programs include the costs of purchase of transportation equipment to meet the special needs of children requiring special education with the approval of the director of the department of education. The state board of education shall adopt rules under chapter 17A for the purchase of transportation equipment pursuant to this section.

8. Commencing with the school year beginning July 1, 1976, a school district may expend an amount not to exceed two-sevenths of an amount equal to the district cost of a school district for the costs of regular classroom instruction of a child certified under the special

education weighting plan in subsection 1, paragraph *"b"*, as a pupil with disabilities who is enrolled in a special class, but who receives part of the pupil's instruction in a regular classroom. Unencumbered funds generated for special education instructional programs for the school year beginning July 1, 1975, and for the school year beginning July 1, 1976, shall not be expended for such purpose.

9. Funds generated for special education instructional programs under this chapter and chapter 257 shall not be expended for modifications of school buildings to make them accessible to children requiring special education.

3. The department of education, in conjunction with the area education agency, shall determine those specific services which are covered by federally funded health care programs, which shall include, but not be limited to, physical therapy, audiology, speech language therapy, and psychological evaluations. The department shall also determine which other special services may be subject to reimbursement and the qualifications necessary for personnel providing those services. 256C.4 Funding provisions — enrollment.

1. *State funding for school district approved to participate in the preschool program.*

a. State funding provided under the preschool program to school districts shall be based upon the enrollment of eligible students in the preschool programming provided by a school district approved to participate in the preschool program.

b. A school district approved to participate in the preschool program may authorize expenditures for the district's preschool programming from any of the revenue sources available to the district from the sources listed in chapter 298A, provided the expenditures are within the uses permitted for the revenue source. In addition, the use of the revenue source for preschool or prekindergarten programming must have been approved prior to any expenditure from the revenue source for the district's approved local program.

c. Funding provided under the preschool program is intended to supplement, not supplant, existing public funding for preschool programming.

d. Preschool foundation aid funding shall not be commingled with the other state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from the other state aid payments. Preschool foundation aid payments made to school districts are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for preschool foundation aid payments received and expenditures made. A school district shall certify to the department of education that preschool foundation aid funding received by the school district was used to supplement, not supplant, moneys otherwise received and used by the school district for preschool programming.

e. Preschool foundation aid funding shall not be used for the costs of constructing a

facility in connection with an approved local program. Preschool foundation aid funding may be used by approved local programs and community-based providers that partner with a school district's local program for any purpose determined by the board of directors of the school district to meet standards for high-quality preschool instruction and for purposes that directly or indirectly benefit students enrolled in the approved local program, including but not limited to professional development for preschool teachers, instructional equipment and supplies, material and equipment designed to develop pupils' large and small motor skills, translation services, playground equipment and repair costs, food and beverages used by children in the approved local program, safety equipment, facility rental fees, and for other direct costs that enhance the approved local program, including by contracting with community partners for any such services. Preschool foundation aid funding may be used by approved local programs for the costs of transportation involving children participating in the preschool program. The costs of transporting other children associated with the preschool program or transported as provided in section 256C.3, subsection 3, paragraph "*h*", may be prorated by the school district. Preschool foundation aid funding received by an approved local program that remains unexpended and unobligated at the end of a fiscal year beginning on or after July 1, 2017, shall be used to build the approved local program's preschool program capacity in the next succeeding fiscal year excluding that portion of such unexpended and unobligated funding that the school district authorizes for transfer for deposit in the school district's flexibility account established under section 298A.2, subsection 2, if the statutory requirements for the use of such funding are met. For purposes of determining whether a school district has authority to transfer preschool foundation aid funding for deposit in the school district's flexibility account established under section 298A.2, subsection 2, the school district must have provided preschool programming during the fiscal year for which funding remains unexpended and unobligated to all eligible students for whom a timely application for enrollment was submitted.

f. The receipt of funding by a school district for the purposes of this chapter, the need for additional funding for the purposes of this chapter, or the enrollment count of eligible students under this chapter shall not be considered to be unusual circumstances, create an unusual need for additional funds, or qualify under any other circumstances that may be used by the school budget review committee to grant supplemental aid to or establish a modified supplemental amount for a school district under section 257.31.

g. For the fiscal year beginning July 1, 2015, and each succeeding fiscal year, of the amount of preschool foundation aid received by a school district for a fiscal year in accordance with section 257.16, not more than five percent may be used by the school district for administering the district's approved local program. Outreach activities and rent for facilities not owned by the school district are permissive uses of the administrative funds.

h. For the fiscal year beginning July 1, 2015, and each succeeding fiscal year, of the amount of preschool foundation aid received by a school district for a fiscal year in accordance with section 257.16, not less than ninety-five percent of the per pupil amount shall be passed through to a community-based provider for each pupil enrolled in the district's approved local program. For the fiscal year beginning July 1, 2015, and each succeeding fiscal year, not more than ten percent of the amount of preschool foundation aid passed through to a community-based provider may be used by the community-based provider for administrative costs. The costs of outreach activities and rent for facilities not owned by the school district are permissive administrative costs. The costs of transportation involving children participating in the preschool program and other children may be prorated.

2. *State preschool funding for community-based providers approved to directly participate in the preschool program.*

a. State preschool funding shall not be used for the costs of constructing a facility in connection with an approved local program. Preschool foundation aid funding may be used by community-based providers for any purpose determined by the community-based provider to meet standards for high-quality preschool instruction and for purposes that directly or indirectly benefit students enrolled in the approved local program, including but not limited to professional development for preschool teachers, instructional equipment

and supplies, material and equipment designed to develop pupils' large and small motor skills, translation services, playground equipment and repair costs, food and beverages used by children in the approved local program, safety equipment, facility rental fees, and for other direct costs that enhance the approved local program, including by contracting with other community partners for any such services. State preschool funding may be used by approved local programs for the costs of transportation involving children participating in the preschool program. Preschool foundation aid funding received by a community-based provider approved to directly participate in the preschool program that remains unexpended and unobligated at the end of a fiscal year shall be used to build the community-based provider's capacity in the next succeeding fiscal year.

b. For the fiscal year beginning July 1, 2026, and each succeeding fiscal year, of the amount of state preschool funding received by a community-based provider approved to directly participate in the preschool program for a fiscal year, not more than five percent may be used by the community-based provider for administering the approved local program. Outreach activities and rent for facilities not owned by the community-based provider are permissive uses of the administrative funds.

3. *Eligible student enrollment.*

a. To be included as an eligible student in the enrollment count of the preschool programming provided by a school district approved to participate in the preschool program or a community-based provider approved to directly participate in the preschool program, a child must satisfy the age requirements of section 256C.3, subsection 1, paragraph *"a"*, in the base year and be attending the school district's or community-based provider's approved local program.

b. The enrollment count of eligible students shall not include a child who is included in the enrollment count determined under section 257.6 or a child who is served by a program already receiving state or federal funds for the purpose of the provision of four-year-old or five-year-old preschool programming while the child is being served by the program. Such preschool programming includes but is not limited to child development assistance programs provided under chapter 256A, special education programs provided under section 256B.9, school ready children grant programs and other programs provided under chapter 256I, and federal head start programs and the services funded by Tit. (2) Members of the uniformed services now retired, except as provided in paragraph *"a"*.

(3) Veterans of the uniformed services, except as provided in paragraph *"a"*.

(4) Other United States department of defense personnel and other federal agency civilian and contract employees not defined as active duty members of the uniformed services.

4. *Article IV — Educational records and enrollment.*

a. Unofficial or hand-carried education records. In the event that official education records cannot be released to the parents for the purpose of transfer, the custodian of the records in the sending state shall prepare and furnish to the parent a complete set of unofficial educational records containing uniform information as determined by the interstate commission. Upon receipt of the unofficial education records by a school in the receiving state, the school shall enroll and appropriately place the student based on the information provided in the unofficial records pending validation by the official records, as quickly as possible.

b. Official education records or transcripts. Simultaneous with the enrollment and conditional placement of the student, the school in the receiving state shall request the student's official education record from the school in the sending state. Upon receipt of this request, the school in the sending state will process and furnish the official education records to the school in the receiving state within ten days or within such time as is reasonably determined under the rules promulgated by the interstate commission.

not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement and continued enrollment of the student in the course.

b. Educational program placement. The receiving state school shall initially honor placement of the student in educational programs based on current educational assessments conducted at the school in the sending state or participation and placement in like programs in the sending state. Such programs include but are not limited to gifted and talented programs and English as a second language programs. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

c. Special education services. In compliance with the federal requirements of the Individuals with Disabilities Education Act, 20 U.S.C. §1400 et seq., the receiving state shall initially provide comparable services to a student with disabilities based on the student's current individualized education program; and, in compliance with the requirements of section 504 of the Rehabilitation Act, 29 U.S.C. §794, and with Tit. II of the Americans with Disabilities Act, 42 U.S.C. §12131-12165, the receiving state shall make reasonable accommodations and modifications to address the needs of incoming students with disabilities, subject to an existing section 504 or Tit. II plan, to provide the student with equal access to education. This does not preclude the school in the receiving state from performing subsequent evaluations to ensure appropriate placement of the student.

d. Placement flexibility. Local education agency administrative officials shall have flexibility in waiving course and program prerequisites, or other preconditions for placement in courses and programs offered under the jurisdiction of the local education agency.

e. Absence as related to deployment activities. A student whose parent or legal guardian is an active duty member of the uniformed services, as defined by this compact, and has been called to duty for, is on leave from, or immediately returned from deployment to a combat zone or combat support posting, shall be granted additional excused absences at the discretion of the local education agency superintendent to visit with the student's parent or legal guardian relative to such leave or deployment of the parent or guardian.

6. *Article VI — Eligibility.*

a. Eligibility for enrollment.

(1) Special power of attorney, relative to the guardianship of a child of a military family and executed under applicable law shall be sufficient for the purposes of enrollment and all other actions requiring parental participation and consent.

b. Eligibility for extracurricular participation. State and local education agencies shall facilitate the opportunity for transitioning military children's inclusion in extracurricular activities, regardless of application deadlines, to the extent they are otherwise qualified.

a. Waiver requirements. Local education agency administrative officials shall waive specific courses required for graduation if similar course work has been satisfactorily completed in another local education agency or shall provide reasonable justification for denial. Should a waiver not be granted to a student who would qualify to graduate from the sending school, the local education agency shall provide an alternative means of acquiring required coursework so that graduation may occur on time.

b. Exit exams.

(1) States shall accept any of the following in lieu of testing requirements for graduation in the receiving state:

(a) Exit or end-of-course exams required for graduation from the sending state.

(b) National norm-referenced achievement tests.

(c) Alternative testing.

(2) In the event the above alternatives cannot be accommodated by the receiving state for a student transferring in the student's senior year, then the provisions of paragraph "*c*" shall apply.

c. Transfers during senior year. Should a military student transferring at the beginning or during the student's senior year be ineligible to graduate from the receiving local education agency after all alternatives have been considered, the sending and receiving local education agencies shall ensure the receipt of a diploma from the sending local education agency, if the student meets the graduation requirements of the sending local education agency. In the event that one of the states in question is not a member of this compact, the member state shall use best efforts to facilitate the on-time graduation of the student in accordance with paragraphs "*a*" and "*b*".

8. *Article VIII — State coordination.*

a. Each member state shall, through the creation of a state council or use of an existing body or board, provide for the coordination among its agencies of government, local education agencies and military installations concerning the state's participation in, and compliance with, this compact and interstate commission activities. While each member state may determine the membership of its own state council, its membership must include at least: the director of the department of education, a superintendent of a school district with a high concentration of military children, a representative from a military installation, one representative each from the legislative and executive branches of government, and other offices and stakeholder groups the state council deems appropriate. A member state that does not have a school district deemed to contain a high concentration of military children may appoint a superintendent from another school district to represent local education agencies on the state council.

b. The state council of each member state shall appoint or designate a military family education liaison to assist military families and the state in facilitating the implementation of this compact.

c. The compact commissioner responsible for the administration and management of the state's participation in this compact shall be appointed by the governor or as otherwise determined by each member state.

d. The compact commissioner and the military family education liaison designated in sections 256H.2 and 256H.3 shall be ex officio members of the state council, unless either is already a full voting member of the state council.

9. *Article IX — Interstate commission on educational opportunity for military children.* The member states hereby create the interstate commission on educational opportunity for military children. The activities of the interstate commission are the formation of public policy and are a discretionary state function. The interstate commission shall:

a. Be a body corporate and joint agency of the member states and shall have all the responsibilities, powers, and duties set forth herein, and such additional powers as may be conferred upon it by a subsequent concurrent action of the respective legislatures of the member states in accordance with the terms of this compact.

(1) Each member state represented at a meeting of the interstate commission is entitled to one vote.

(2) A majority of the total member states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the interstate commission.

(3) A representative shall not delegate a vote to another member state. In the event the compact commissioner is unable to attend a meeting of the interstate commission, the governor or state council may delegate voting authority to another person from the compact commissioner's state for a specified meeting.

(4) The bylaws may provide for meetings of the interstate commission to be conducted by telecommunication or electronic communication.

All documents considered in connection with an action shall be identified in such minutes. All minutes and documents of a closed meeting shall remain under seal, subject to release by a majority vote of the interstate commission.

i. Collect standardized data concerning the educational transition of the children of military families under this compact as directed through its rules which shall specify the data to be collected, the means of collection, and data exchange and reporting requirements. b. Rules shall be made pursuant to a rulemaking process that substantially conforms to the model state administrative procedure Act of 1981, uniform laws annotated, as amended, as may be appropriate to the operations of the interstate commission.

c. Not later than thirty days after a rule is promulgated, any person may file a petition for judicial review of the rule; provided, that the filing of such a petition shall not stay or otherwise prevent the rule from becoming effective unless the court finds that the petitioner has a substantial likelihood of success. d. If a majority of the legislatures of the compacting states rejects a rule by enactment of a statute or resolution in the same manner used to adopt this compact, then such rule shall have no further force and effect in any compacting state.

13. *Article XIII — Oversight, enforcement, and dispute resolution.*

(3) The interstate commission shall be entitled to receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes. b. Default, technical assistance, suspension, and termination.

(1) If the interstate commission determines that a member state has defaulted in the performance of its obligations or responsibilities under this compact, or the bylaws or promulgated rules, the interstate commission shall:

(3) Suspension or termination of membership in this compact shall be imposed only after all other means of securing compliance have been exhausted. Notice of intent to suspend or terminate shall be given by the interstate commission to the governor, the majority and minority leaders of the defaulting state's legislature, and each of the member states.

(4) The state which has been suspended or terminated is responsible for all assessments, obligations, and liabilities incurred through the effective date of suspension or termination including obligations, the performance of which extends beyond the effective date of suspension or termination.

(5) The interstate commission shall not bear any costs relating to any state that has been found to be in default or which has been suspended or terminated from the compact, unless otherwise mutually agreed upon in writing between the interstate commission and the defaulting state.

The prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

c. Dispute resolution.

The relief sought may include both injunctive relief and damages. In the event judicial enforcement is necessary, the prevailing party shall be awarded all costs of such litigation including reasonable attorney's fees.

The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the interstate commission, which shall promulgate a rule binding upon all member states.

c. The interstate commission shall not incur obligations of any kind prior to securing the funds adequate to meet the same; nor shall the interstate commission pledge the credit of any of the member states, except by and with the authority of the member state.

d. The interstate commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the interstate commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the interstate commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the interstate commission.

The remaining ten percent of funds may be used for innovative program models that do not yet meet the definition of evidence-based or promising programs.

2. For the purposes of this section, unless the context otherwise requires or unless otherwise provided under federal law:

a. "Evidence-based program" means a program that is based on scientific evidence demonstrating that the program model is effective. An evidence-based program shall be reviewed on site and compared to program model standards by the model developer or the developer's designee at least every five years to ensure that the program continues to maintain fidelity with the program model. The program model shall have had demonstrated significant and sustained positive outcomes in an evaluation utilizing a well-designed and rigorous randomized controlled research design or a quasi-experimental research design, and the evaluation results shall have been published in a peer-reviewed journal.

b. (1) The program conforms to a clear, consistent family support model that has been in existence for at least three years.

(2) The program is grounded in relevant empirically based knowledge.

(3) The program is linked to program-determined outcomes.

(4) The program is associated with a national or state organization that either has comprehensive program standards that ensure high-quality service delivery and continuous program quality improvement or the program model has demonstrated through the program's benchmark outcomes that the program has achieved significant positive outcomes equivalent to those achieved by program models with published significant and sustained results in a peer-reviewed journal.

(5) The program has been awarded the Iowa family support credential and has been reviewed on site at least every five years to ensure the program's adherence to the Iowa family support standards approved by the state board or a comparable set of standards. The on-site review is completed by an independent review team that is not associated with the program or the organization administering the program.

3. *a.* The data reporting requirements adopted by the state board pursuant to section 256I.4 for the family support programs targeted to families expecting a child or with newborn and infant children through age five and funded through the state board shall require the programs to participate in a state-administered internet-based data collection system. The state board's annual report submitted each January to the governor and general assembly under section 256I.4 shall include family support program outcomes.

b. The data on families served that is collected by the family support programs funded through the early childhood Iowa initiative shall include but is not limited to basic demographic information, services received, funding utilized, and program outcomes for the children and families served. The state board shall adopt performance benchmarks for the family support programs.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

257.1 State school foundation program — state aid.

1. *Program established.* A state school foundation program is established for the school year commencing July 1, 1991, and succeeding school years.

2. *State school foundation aid — foundation base.*

a. For a budget year, each school district in the state is entitled to receive foundation aid, in an amount per pupil equal to the difference between the amount per pupil of foundation property tax in the district, and the combined foundation base per pupil or the combined district cost per pupil, whichever is less. However, if the amount of foundation aid received by a school district under this chapter is less than three hundred dollars per pupil, the district is entitled to receive three hundred dollars per pupil unless the receipt of three hundred dollars per pupil plus the per pupil amount raised by the foundation property tax exceeds the combined district cost per pupil of the district for the budget year. In that case, the district is entitled to receive an amount per pupil equal to the difference between the per pupil amount raised by the foundation property tax for the budget year and the combined district cost per pupil for the budget year.

b. For the budget year commencing July 1, 1999, and for each succeeding budget year beginning before July 1, 2022, the regular program foundation base per pupil is eighty-seven and five-tenths percent of the regular program state cost per pupil. For the budget year commencing July 1, 2022, and for each succeeding budget year, the regular program foundation base per pupil is eighty-eight and four-tenths percent of the regular program state cost per pupil. For the budget year commencing July 1, 1991, and for each succeeding budget year the special education support services foundation base is seventy-nine percent of the special education support services state cost per pupil. The combined foundation base is the sum of the regular program foundation base, the special education support services foundation base, the total teacher salary supplement district cost, the total professional development supplement district cost, the total early intervention supplement district cost, the total teacher leadership supplement district cost, and the total area education agency teacher salary supplement district cost.

3. *Computations rounded.* In making computations and payments under this chapter, except in the case of computations relating to funding of special education support services, media services, and educational services under section 257.37, and the teacher salary supplement, the professional development supplement, the early intervention supplement, and the teacher leadership supplement, the department of management shall round amounts to the nearest whole dollar.

4. *Legislative review.* The provisions of this chapter shall be subject to legislative review at least every five years. The review shall be based upon a school finance formula status report containing the recommendations of a legislative interim committee appointed to conduct a review of the school finance formula, to be prepared with the assistance of the department of education, in association with the departments of management and revenue. The report shall include recommendations for school finance formula changes or revisions based upon demographic changes, enrollment trends, and property tax valuation fluctuations observed during the preceding five-year interval; an analysis of the operation of the school finance formula during the preceding five-year interval; and a summary of issues that have arisen since the previous review and potential approaches for their resolution. The first such report shall be submitted to the general assembly no later than January 1, 2005, with subsequent reports developed and submitted by January 1 at least every fifth year thereafter.

257.4 Additional property tax.

1. *Computation of tax.*

a. A school district shall cause an additional property tax to be levied each year. The rate of the additional property tax levy in a school district shall be determined by the department of management and shall be calculated to raise the difference between the combined district cost for the budget year and the sum of the following:

(1) The product of the regular program foundation base per pupil times the weighted enrollment in the district.

(2) The product of special education support services foundation base per pupil times the special education support services weighted enrollment in the district.

(3) The total teacher salary supplement district cost.

(4) The total professional development supplement district cost.

(5) The total early intervention supplement district cost.

(6) The total area education agency teacher salary supplement district cost.

(7) The amount of the school district property tax replacement payment to be received by the school district under section 257.16B.

(8) The total teacher leadership supplement district cost.

(9) The amount of the foundation base supplement payment to be received by the school district under section 257.16D.

b. For the budget year beginning July 1, 2008, and succeeding budget years, the department of management shall annually determine an adjusted additional property tax levy and a statewide maximum adjusted additional property tax levy rate, not to exceed the statewide average additional property tax levy rate, calculated by dividing the total adjusted additional property tax levy dollars statewide by the statewide total net taxable valuation. For purposes of this paragraph, the adjusted additional property tax levy shall be that portion of the additional property tax levy corresponding to the state cost per pupil multiplied by a school district's weighted enrollment, and then multiplied by one hundred percent less the regular program foundation base per pupil percentage pursuant to section 257.1, and then reduced by the amount of the property tax replacement payment to be received under section 257.16B and the amount of the foundation base supplement payment to be received under section 257.16D. The district shall receive adjusted additional property tax levy aid in an amount equal to the difference between the adjusted additional property tax levy rate and the statewide maximum adjusted additional property tax levy rate, as applied per thousand dollars of assessed valuation on all taxable property in the district. The statewide maximum adjusted additional property tax levy rate shall be annually determined by the department taking into account amounts allocated pursuant to section 257.15, subsection 4, and the balance of the property tax equity and relief fund created in section 257.16A at the end of the calendar year.

2. *Supplemental aid.*

a. However, if the rate of the additional property tax levy determined under subsection 1 with the application of section 257.15 for a budget year for a reorganized school district is higher than the rate of additional property tax levy determined under subsection 1 with

the application of section 257.15 for the year previous to the reorganization for a school district that had a certified enrollment of less than six hundred and that was within the school districts affected by the reorganization as defined in section 275.1, the department of management shall reduce the rate of the additional property tax levy in the portion of the reorganized district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization, for a five-year period. The department of management shall include in the state aid payments made to each reorganized school district under section 257.16 during each of the first five years of existence of the reorganized district as supplemental aid, moneys equal to the reduction in property tax revenues made under this subsection. For the budget year beginning July 1, 1991, the base year calculation shall be made using chapter 442, Code 1991.

b. For purposes of this section, a reorganized school district is one in which action to bring about a reorganization was initiated by a vote of the board of directors or jointly by the affected boards of directors prior to November 30, 1990, and the reorganization will take effect on or after July 1, 1991, and on or before July 1, 1993. Each district which initiated, by a vote of the board of directors or jointly by the affected boards, action to bring about a reorganization or dissolution by November 30, 1990, shall certify the date and the nature of the action taken to the department of education by September 1, 1991.

3. *Application of tax.* No later than June 15 of each year, the department of management shall notify the county auditor of each county the amount, in dollars and cents per thousand dollars of assessed value, of the additional property tax levy in each school district in the county. A county auditor shall spread the additional property tax levy for each school district in the county over all taxable property in the district.

1. *Actual enrollment.*

a. Actual enrollment is determined annually on October 1, or the first Monday in October if October 1 falls on a Saturday or Sunday, and includes all of the following:

(1) Resident pupils who were enrolled in public schools within the district in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

(2) Full-time equivalent resident pupils of high school age for which the district pays tuition to attend an Iowa community college.

(3) Shared-time and part-time pupils of school age enrolled in public schools within the district, irrespective of the districts in which the pupils reside, in the proportion that the time for which they are enrolled or receive instruction for the school year is to the time that full-time pupils carrying a normal course schedule, at the same grade level, in the same school

district, for the same school year, are enrolled and receive instruction. Tuition charges to the parent or guardian of a shared-time or part-time nonresident pupil shall be reduced by the amount of any increased state aid received by the district by the counting of the pupil. This subparagraph applies to pupils enrolled in grades nine through twelve under section 299A.8 and to pupils from accredited nonpublic schools accessing classes or services on the accredited nonpublic school premises under section 256.12 or on the school district site, but excludes accredited nonpublic school pupils receiving classes or services funded entirely by federal grants or allocations.

(4) Eleventh and twelfth grade nonresident pupils who were residents of the district during the preceding school year and are enrolled in the district until the pupils graduate. Tuition for those pupils shall not be charged by the district in which the pupils are enrolled and the requirements of section 282.18 do not apply.

(5) Resident pupils receiving competent private instruction from a licensed practitioner provided through a public school district pursuant to chapter 299A shall be counted as three-tenths of one pupil. Revenues received by a school district attributed to a school district's weighted enrollment pursuant to this subparagraph shall be expended for the purpose for which the weighting was assigned under this subparagraph. If the school district determines that the expenditures associated with providing competent private instruction pursuant to chapter 299A are in excess of the revenue attributed to the school district's weighted enrollment for such instruction in accordance with this subparagraph, the school district may submit a request to the school budget review committee for a modified supplemental amount in accordance with section 257.31, subsection 5, paragraph "*n*". A home school assistance program shall not provide moneys received pursuant to this subparagraph, nor resources paid for with moneys received pursuant to this subparagraph, to parents or students utilizing the program. Moneys received by a school district pursuant to this subparagraph shall be used as provided in section 299A.12.

(6) Resident pupils receiving competent private instruction under dual enrollment pursuant to chapter 299A shall be counted as one-tenth of one pupil.

(7) A student attending an accredited nonpublic school or receiving competent private instruction under chapter 299A, who is assigned to a therapeutic classroom in accordance with section 256.25A or is participating in a program under chapter 261E, shall be counted as a shared-time student in the school district in which the nonpublic school of attendance is located for state foundation aid purposes.

(8) Pupils who are enrolled in public schools within the district under section 282.1, subsection 3, in grades kindergarten through twelve and including prekindergarten pupils enrolled in special education programs.

(9) Resident pupils enrolled in a charter school under chapter 256E.

b. A school district shall certify its actual enrollment to the department of education by October 15 of each year, and the department shall promptly forward the information to the department of management, but not later than thirty days after certification.

c. The department of management shall adjust the enrollment of the school district for the audit year based upon reports filed under section 11.6, and shall further adjust the budget of the second year succeeding the audit year for the property tax and state aid portions of the reported differences in enrollments for the fiscal year two years prior to the budget year.

2. *Basic enrollment.*

a. Basic enrollment for a budget year is the average of a district's actual enrollment for the base year, determined on the date specified under subsection 1, and the district's adjusted enrollment for the base year, determined on the date specified under subsection 7. Basic enrollment for the base year is the average of a district's actual enrollment for the year preceding the base year, determined on the date specified under subsection 1, and the district's adjusted enrollment for the year preceding the base year, determined on the date specified under subsection 7.

b. If the department of education discovers any discrepancy or disputes the basic enrollment count certified under subsection 2, or the adjusted enrollment count certified under subsection 7, the department shall notify the school district and the school district shall have five business days from the date of notification by the department to voluntarily

a. A school district shall determine its additional enrollment because of special education, as defined in this section, by November 1 of each year and shall certify its additional enrollment because of special education to the department of education by November 15 of each year, and the department shall promptly forward the information to the department of management.

b. For the purposes of this chapter, "*additional enrollment because of special education*" is determined by multiplying the weighting of each category of child under section 256B.9 times the number of children in each category totaled for all categories minus the total number of children in all categories.

4. *Budget enrollment.* Budget enrollment for the budget year is the basic enrollment for the budget year.

5. *Weighted enrollment.*

a. Weighted enrollment is the budget enrollment plus the district's additional enrollment because of special education calculated by November 1 of the base year plus additional pupils added due to the application of the supplementary weighting.

b. Weighted enrollment for special education support services costs is equal to the weighted enrollment minus the additional pupils added due to the application of the supplementary weighting.

6. *Students excluded.* For the school year beginning July 1, 2008, and each succeeding school year, a student shall not be included in a district's enrollment for purposes of this chapter or considered an eligible pupil under section 261E.6 if the student meets all of the following:

12. *Teacher leadership supplement cost per pupil and district cost.*

a. The teacher leadership supplement district cost per pupil amount for the budget year beginning July 1, 2014, shall be calculated by the department of management by dividing the allocation amount for the budget year beginning July 1, 2014, in section 284.13, subsection 1, paragraph *"d"*, subparagraph (4), by one-third of the statewide total budget enrollment for the fiscal year beginning July 1, 2014. For the budget year beginning July 1, 2015, and succeeding budget years, the teacher leadership supplement district cost per pupil for each school district for a budget year is the teacher leadership supplement program district cost per pupil for the base year plus the teacher leadership supplement supplemental state aid amount for the budget year.

b. For the budget year beginning July 1, 2015, and succeeding budget years, if the department of management determines that the unadjusted teacher leadership supplement district cost of a school district for a budget year is less than one hundred percent of the unadjusted teacher leadership supplement district cost for the base year for the school district, the school district shall receive a budget adjustment for that budget year equal to the difference.

c. (1) The unadjusted teacher leadership supplement district cost is the teacher leadership supplement district cost per pupil for each school district for a budget year multiplied by the sum of the budget enrollment for that school district plus the number of resident pupils in the school district that received an education savings account payment under section 257.11B for the base year.

(2) The total teacher leadership supplement district cost is the sum of the unadjusted teacher leadership supplement district cost plus the budget adjustment for that budget year.

d. Except as otherwise allowed under this paragraph, for the budget year beginning July 1, 2014, and succeeding budget years, the use of the funds calculated under this subsection shall comply with the requirements of chapter 284 and shall be distributed to teachers pursuant to section 284.15. The funds shall be used only to increase the payment for a teacher assigned to a leadership role pursuant to a framework or comparable system approved pursuant to section 284.15; to increase the percentages of teachers assigned to leadership roles; to increase the minimum teacher starting salary to the amount provided in section 284.15, subsection 2, paragraph *"a"*, subparagraph (1); to cover the costs for the time mentor and lead teachers are not providing instruction to students in a classroom; for coverage of a classroom when an initial or career teacher is observing or co-teaching with a teacher assigned to a leadership role; for professional development time to learn best practices associated with the career pathways leadership process; and for other costs associated with a framework or comparable system approved by the department of education under section 284.15 with the goals of improving instruction and elevating the quality of teaching and student learning. If all requirements for the school district for the use of funds calculated under this subsection are met and funds received under this subsection

remain unexpended and unobligated at the end of a fiscal year beginning on or after July 1, 2020, the school district may transfer all or a portion of such unexpended and unobligated funds for deposit in the school district's flexibility account established under section 298A.2, subsection 2. At the end of a fiscal year beginning on or after July 1, 2022, school districts may use all or a portion of funds under this subsection for the purposes authorized under subsection 9, paragraph *"d"*, and, notwithstanding any provision of law to the contrary, school districts shall not be required to participate in or comply with section 284.15 in order to continue to receive funding under this subsection.

13. *Deference to school districts.*

a. When exercising authority to carry out an agency action, as defined in section 17A.2, or to perform an activity or make a decision specified in section 17A.2, subsection 11, paragraphs *"a"* through *"l"*, if applicable, related to the provisions of subsections 9, 10, and 11, including the expenditure of funds received by school districts under subsections 9, 10, and 11, the department of education, the director of the department of education, and the state board of education shall carry out, perform, or make such agency action, activity, or decision in a manner that gives deference to decisions of school districts' boards of directors, promotes flexibility for school districts, and minimizes intrusions into school district operations and decision making by boards of directors.

b. (1) In addition to paragraph *"a"*, the department of education, the director of the department of education, and the state board of education shall not issue guidance related to the provisions of subsections 9, 10, and 11, including the expenditure of funds received by a school district under subsections 9, 10, and 11, that is inconsistent with any statute, rule, or other legal authority or that imposes any legally binding obligations or duties upon any person unless such legally binding obligations or duties are required or reasonably implied by any statute, rule, or other legal authority. Guidance issued in violation of this paragraph *"b"* shall not be deemed to be legally binding.

(2) For the purposes of this paragraph *"b"*, *"guidance"* means a document or statement issued by the department of education, the director of the department of education, or the state board of education that purports to interpret a law, a rule, or other legal authority and is designed to provide advice or direction to a person regarding the implementation of or compliance with the law, the rule, or the other legal authority being interpreted. *"Guidance"* does not include any action, activity, or decision governed by paragraph *"a"*, a document or statement required by federal law or a court, or a document or statement issued in the course of a contested case proceeding, an administrative proceeding, or a judicial proceeding to which the department, the state board, or the director is a party.

257.11 Supplementary weighting plan.

1. *Regular curriculum.* Pupils in a regular curriculum attending all their classes in the district in which they reside, taught by teachers employed by that district, and having administrators employed by that district, are assigned a weighting of one.

2. *District-to-district sharing.*

a. In order to provide additional funds for school districts which send their resident pupils to another school district, which jointly employ and share the services of teachers under section 280.15, or which use the services of a teacher employed by another school district, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that

UNOFFICIAL VERSION: 2025 CODE RELEASE

the shared classes or teachers would otherwise not be implemented without the assignment of additional weighting, pupils attending classes in another school district, attending classes taught by a teacher who is employed jointly under section 280.15, or attending classes taught by a teacher who is employed by another school district are assigned a weighting of forty-eight hundredths of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district.

c. Pupils attending class for all or a substantial portion of a school day pursuant to a whole grade sharing agreement executed under sections 282.10 through 282.12 shall be eligible for supplementary weighting pursuant to this subsection. A school district which executes a whole grade sharing agreement and which adopts a resolution jointly with other affected boards to study the question of undergoing a reorganization or dissolution to take effect on or before July 1, 2035, shall receive a weighting of one-tenth of the percentage of the pupil's school day during which the pupil attends classes in another district, attends classes taught by a teacher who is jointly employed under section 280.15, or attends classes taught by a teacher who is employed by another school district. A district shall be eligible for supplementary weighting pursuant to this paragraph for a maximum of three years. Receipt of supplementary weighting for a second and third year shall be conditioned upon submission of information resulting from the study to the school budget review committee indicating progress toward the objective of reorganization on or before July 1, 2035.

d. A school district which hosts a regional academy shall be eligible to assign its resident students attending classes at the academy a weighting of one-tenth of the percentage of the student's school day during which the student attends classes at the regional academy. The maximum amount of additional weighting for which a school district hosting a regional academy shall be eligible is an amount corresponding to thirty additional students. The minimum amount of additional weighting for which a school district establishing a regional academy shall be eligible is an amount corresponding to fifteen additional students if the academy provides both advanced-level courses and career and technical courses.

3. *District-to-community college sharing and concurrent enrollment programs.*

a. In order to provide additional funds for school districts which send their resident high school pupils to a community college for college-level classes, a supplementary weighting plan for determining enrollment is adopted.

b. If the school budget review committee certifies to the department of management that the class would not otherwise be implemented without the assignment of additional weighting, pupils attending a community college-offered class or attending a class taught by a community college-employed instructor are assigned a weighting of the percentage of the pupil's school day during which the pupil attends class in the community college or attends a class taught by a community college-employed instructor times seventy hundredths for career and technical courses or fifty hundredths for liberal arts and sciences courses. The following requirements shall be met for the purposes of assigning an additional weighting for classes offered through a sharing agreement between a school district and community college. The class must be:

(1) Supplementing, not supplanting, high school courses required to be offered pursuant to section 256.11, subsection 5.

(2) Included in the community college catalog or an amendment or addendum to the catalog.

(3) Open to all registered community college students, not just high school students. The class may be offered in a high school attendance center.

(4) For college credit and the credit must apply toward an associate of arts or associate of science degree, or toward an associate of applied arts or associate of applied science degree, or toward completion of a college diploma program.

(5) Taught by an instructor employed or contracted by a community college who meets the requirements of section 261E.3, subsection 2.

(6) Taught utilizing the community college course syllabus.

(7) Taught in such a manner as to result in student work and student assessment which meet college-level expectations.

c. Notwithstanding paragraph *"b"*, subparagraph (1), a school district that otherwise meets the requirements of this subsection may enter into a sharing agreement with a community college under which the community college may offer, or provide a community college-employed instructor to teach, one of the science or one of the mathematics units in accordance with section 256.11, subsection 5, and one or more units in only one of the six career and technical education content areas in accordance with section 256.11, subsection 5, paragraph *"h"*. Pupils enrolled in a unit in accordance with this paragraph shall be assigned additional weighting in accordance with this subsection if the number of pupils enrolled in such a unit exceeds five and the school district's total enrollment does not exceed six hundred pupils. A school district that enters into a sharing agreement with a community college under this paragraph to provide a unit of science or mathematics in accordance with section 256.11, subsection 5, paragraph *"a"*, *"d"*, or *"e"*, shall be deemed to have met the requirement that the school district offer and teach such a unit under the educational standards of section 256.11, subsection 5, paragraph *"a"*, *"d"*, or *"e"*. However, the provisions of this paragraph *"c"* relating to a sharing agreement for a unit of science or mathematics are applicable only if all of the following conditions are met:

(1) The school district has made every reasonable and good faith effort to employ a teacher licensed under chapter 256, subchapter VII, part 3, for the science or mathematics unit, as applicable, and is unable to employ such a teacher. For purposes of this paragraph *"c"*, *"good faith effort"* means the same as defined in section 279.19A, subsection 9.

(2) Enrollment for the unit exceeds five pupils.

(3) The unit is offered during the regular school day.

(4) The unit is made accessible by the school district to all eligible pupils.

4. *At-risk programs and alternative schools.*

a. In order to provide additional funding to school districts for programs serving at-risk pupils, alternative program and alternative school pupils in secondary schools, and pupils identified as potential dropouts or returning dropouts as defined in section 257.39, a supplementary weighting plan for such pupils is adopted. A supplementary weighting of forty-eight ten-thousandths per pupil shall be assigned to the percentage of pupils in a school district enrolled in grades one through six, as reported by the school district on the basic educational data survey for the base year, who are eligible for free and reduced price meals under the federal National School Lunch Act and the federal Child Nutrition Act of 1966, 42 U.S.C. §1751 – 1785, multiplied by the budget enrollment in the school district; and a supplementary weighting of one hundred fifty-six one-hundred-thousandths per pupil shall be assigned to pupils included in the budget enrollment of the school district. Amounts received as supplementary weighting under this subsection shall be utilized by a school district to develop or maintain at-risk pupils' programs, alternative programs and alternative school programs, and returning dropout and dropout prevention programs approved pursuant to section 257.40.

b. Notwithstanding paragraph *"a"*, a school district which received supplementary weighting for an alternative high school program for the school budget year beginning July 1, 1999, shall receive an amount of supplementary weighting for the next three school budget years as follows:

(1) For the budget year beginning July 1, 2000, the greater of the amount of supplementary weighting determined pursuant to paragraph *"a"*, or sixty-five percent of the amount received for the budget year beginning July 1, 1999.

(2) For the budget year beginning July 1, 2001, the greater of the amount of supplementary weighting determined pursuant to paragraph *"a"*, or forty percent of the amount received for the budget year beginning July 1, 1999.

(3) For the budget year beginning July 1, 2002, and succeeding budget years, the amount of supplementary weighting determined pursuant to paragraph *"a"*.

c. If a school district receives an amount pursuant to paragraph *"b"* which exceeds the amount the district would otherwise have received pursuant to paragraph *"a"*, the department of management shall annually determine the amount of the excess that would have been state aid and the amount that would have been property tax if the school district had generated that amount pursuant to paragraph *"a"*, and shall include the amounts

in the state aid payments and property tax levies of school districts. The department of management shall recalculate the supplementary weighting amount received each year to reflect the amount of the reduction in funding from one budget year to the next pursuant to paragraph *"b"*, subparagraphs (1) through (3). It is the intent of the general assembly that when weights are recalculated under this subsection, the total amounts generated by each weight shall be approximately equal.

d. Amounts that a school district receives as supplementary weighting pursuant to this subsection or as a modified supplemental amount received under section 257.41 may be used in the budget year for purposes of providing district-wide, building-wide, or grade-specific at-risk and dropout prevention programming targeted to pupils who are not deemed at risk.

e. Notwithstanding paragraph *"d"* and section 282.24, if a pupil has been determined by the school district to be likely to inflict self-harm or likely to harm another pupil and all of the following apply, the school district may use amounts received pursuant to paragraph *"a"* to pay the instructional costs necessary to address the pupil's behavior during instructional time when those services are not otherwise provided to pupils who do not require special education and the costs exceed the costs of instruction of pupils in a regular curriculum:

(1) The pupil does not require special education.

(2) The pupil is not in a court-ordered placement under chapter 232 under the care and custody of the department of health and human services or juvenile court services.

(3) The pupil is not in the state training school pursuant to a court order entered under chapter 232 under the care and custody of the department of health and human services.

(4) The pupil is not placed in a facility licensed under chapter 135B, 135C, or 135H.

5. *Shared operational functions — increased student opportunities — budget years beginning in 2014 through 2034.*

a. (1) In order to provide additional funding to increase student opportunities and redirect more resources to student programming for school districts that share operational functions, a district that shares with a political subdivision one or more operational functions of a curriculum director, master social worker, independent social worker, work-based learning coordinator, special education director, mental health professional who holds a statement of recognition issued by the board of educational examiners, college and career transition counselor or coordinator, school resource officer, or school counselor, or one or more operational functions in the areas of superintendent management, business management, human resources, transportation, or operation and maintenance for at least twenty percent of the school year shall be assigned a supplementary weighting for each shared operational function. A school district that shares an operational function in the area of superintendent management shall be assigned a supplementary weighting of nine pupils for the function. A school district that shares an operational function in the area of business management, human resources, transportation, or operation and maintenance shall be assigned a supplementary weighting of five pupils for the function. A school district that shares the operational functions of a curriculum director; a master social worker or an independent social worker licensed under chapters 147 and 154C; a work-based learning coordinator; a special education director; a mental health professional who holds a statement of recognition issued by the board of educational examiners; a college and career transition counselor or coordinator; a school resource officer; or a school counselor shall be assigned a supplementary weighting of three pupils for the function. The additional weighting shall be assigned for each discrete operational function shared. However, a school district may receive the additional weighting under this subsection for sharing the services of an individual with a political subdivision or another school district even if the type of operational function performed by the individual for the school district and the type of operational function performed by the individual for the political subdivision or another school district are not the same operational function, so long as either both operational functions are eligible for weighting under this subsection or the operational function the individual performs for the school district is special education director. In either case, the school district shall be assigned the additional weighting for the type of operational function that the individual performs for the school district, and the school district shall not receive additional weighting for any other function performed by the individual. The

operational function sharing arrangement does not need to be a newly implemented sharing arrangement to receive supplementary weighting under this subsection.

(2) For the purposes of this paragraph *"a"*:

(a) *"College and career transition counselor or coordinator"* means a licensed school counselor or an appropriately trained individual responsible for providing direct services to students, parents, families, schools, and postsecondary institutions to support college preparation and postsecondary success, such as college preparation, financial aid processing, and transition to postsecondary institution enrollment.

(b) *"Political subdivision"* means a city, township, county, school corporation, merged area, area education agency, institution governed by the state board of regents, or any other governmental subdivision.

(c) *"School resource officer"* means the same as defined in 34 U.S.C. §10389.

(d) *"Work-based learning coordinator"* means an appropriately trained individual responsible for facilitating authentic, engaging work-based learning experiences for learners and educators in partnership with employers and others to enhance learning by connecting the content and skills that are necessary for future careers.

b. (1) Notwithstanding paragraph *"a"*, subparagraph (1), each operational function assigned a supplementary weighting of five pupils under paragraph *"a"*, subparagraph (1), shall instead be assigned a supplementary weighting of four pupils for the school budget years beginning on or after July 1, 2022, but before July 1, 2035.

(2) Notwithstanding paragraph *"a"*, subparagraph (1), each operational function assigned a supplementary weighting of three pupils under paragraph *"a"*, subparagraph (1), shall instead be assigned a supplementary weighting of two pupils for the school budget years beginning on or after July 1, 2022, but before July 1, 2035.

c. School districts that share operational functions with other school districts are not required to be contiguous school districts. If two or more districts sharing operational functions are not contiguous to each other, the districts separating those districts are not required to be a party to the operational functions sharing arrangement.

d. Supplementary weighting pursuant to this subsection shall be available to a school district during the period commencing with the budget year beginning July 1, 2014, through the budget year beginning July 1, 2034. For budget years beginning prior to July 1, 2025, the maximum amount of additional weighting for which a school district shall be eligible in a budget year is twenty-one additional pupils; and for budget years beginning on or after July 1, 2025, the maximum amount of additional weighting for which a school district shall be eligible in a budget year is twenty-five pupils; provided, however, that for budget years beginning on or after July 1, 2024, the supplementary weighting assigned for a shared operational function in the area of a college and career transition counselor or coordinator shall not count toward this maximum amount. Criteria for determining the qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of increased student opportunities.

e. Supplementary weighting pursuant to this subsection shall be available to an area education agency during the period commencing with the budget year beginning July 1, 2014, through the budget year beginning July 1, 2034. The minimum amount of additional funding for which an area education agency shall be eligible in a budget year is thirty thousand dollars, and the maximum amount of additional funding for which an area education agency shall be eligible is two hundred thousand dollars. The department of management shall annually set a weighting for each area education agency to generate the approved operational sharing expense using the area education agency's special education cost per pupil amount and foundation level. Criteria for determining the qualification of operational functions for supplementary weighting shall be determined by the department by rule, through consideration of increased student opportunities.

f. This subsection is repealed effective July 1, 2035.

6. *Shared classes delivered over the Iowa communications network.*

a. A school district that provides a virtual class to a pupil in another school district and the school district receiving that virtual class for a pupil shall each receive a supplemental

weighting of one-twentieth of the percentage of the pupil's school day during which the pupil attends the virtual class.

b. Fifty percent of the funding the school district providing the virtual class receives as a result of this subsection shall be reserved as additional pay for the virtual classroom instructor. If an instructor's contract provides additional pay for teaching a virtual class, the instructor shall receive the greater amount of either the amount provided for in this paragraph or the amount provided for in the instructor's contract.

c. A school district receiving a virtual class for a pupil from a community college, which class meets the sharing agreement requirements in subsection 3, shall receive a supplemental funding weighting of one-twentieth of the percentage of the pupil's school day during which the pupil attends the virtual class.

d. For the purposes of this subsection, *"virtual class"* means either of the following:

(1) A class provided by a school district to a pupil in another school district via the Iowa communications network's video services.

(2) A class provided by a community college to a pupil in a school district via the Iowa communications network's video services.

7. *District to community college innovative sharing project.* A school district that collaborates with a community college to provide pupils enrolled in the school district's high school with a class that uses an activities-based, project-based, and problem-based learning approach that is offered through a partnership with a nationally recognized provider of rigorous and innovative science, technology, engineering, and mathematics curriculum for schools, which provider is exempt from taxation under section 501(c)(3) of the Internal Revenue Code, is eligible to assign its resident pupils attending the class an additional weighting of the percentage of the pupil's school day during which the pupil attends a class described in this subsection times seventy hundredths. To qualify for additional weighting, the class must supplement, not supplant, high school courses required to be offered pursuant to section 256.11, subsection 5.

8. *Pupils ineligible.* A pupil eligible for the weighting plan provided in section 256B.9 is not eligible for supplementary weighting pursuant to this section unless it is determined that the course generating the supplemental weighting has no relationship to the pupil's disability. A pupil attending an alternative program or an at-risk pupils' program, including alternative high school programs, is not eligible for supplementary weighting under subsection 2.

9. *Shared classes and curriculum standards.* A school district shall ensure that any course made available to a student through any sharing agreement between the school district and a community college or any other entity providing course programming pursuant to this section to students enrolled in the school district meets the expectations contained in the core curriculum adopted pursuant to section 256.7, subsection 26. The school district shall ensure that any course that has the capacity to generate college credit shall be equivalent to college-level work.

10. *School finance appropriations report.* The department of education shall annually prepare a report regarding school finance provisions or programs receiving a standing appropriation, including supplementary weighting programs. The report shall provide information regarding amounts received or accessed by school districts pursuant to the provisions or programs, whether the amounts received represent an increase or decrease over amounts received during the previous budget year and the percentage increase or decrease, conclusions regarding the adequacy of amounts received by school districts and whether the amounts received are equitable between school districts based upon input from the school districts and analysis by the department, and the rationale for current trends being observed by the department and projections regarding possible trends in the future. The report shall be submitted to the general assembly by January 1 each year, and copies of the report shall be forwarded to the chairpersons and members of the committee on education in the senate and in the house of representatives.

Subsection 3, paragraph c, unnumbered paragraph 1 amended

257.11A Supplementary weighting and school reorganization.

1. In determining weighted enrollment under section 257.6, if the board of directors of a school district has approved a contract for sharing pursuant to section 257.11 and the school district has approved an action to bring about a reorganization to take effect on and after July 1, 2007, and on or before July 1, 2035, the reorganized school district shall include, for a period of three years following the effective date of the reorganization, additional pupils added by the application of the supplementary weighting plan, equal to the pupils added by the application of the supplementary weighting plan in the year preceding the reorganization. For the purposes of this subsection, the weighted enrollment for the period of three years following the effective date of reorganization shall include the supplementary weighting in the base year used for determining the combined district cost for the first year of the reorganization. However, the weighting shall be reduced by the supplementary weighting added for a pupil whose residency is not within the reorganized district.

2. 1. *Property tax adjustment for 1991-1992.*

a. For the budget year beginning July 1, 1991, the department of management shall calculate for each district the difference between the sum of the revenues generated by the foundation property tax and the additional property tax in the district calculated under this chapter and the revenues that would have been generated by the foundation property tax and the additional property tax in that district for that budget year calculated under chapter 442, Code 1989, if chapter 442, Code 1989, were in effect, except that the revenues that would have been generated by the additional property tax levy under chapter 442, Code 1989, shall not include revenues generated for the school improvement program. However in making the calculation of the difference in revenues under this subsection, the department shall not include the revenues generated under section 257.37 and under chapter 442, Code 1989, for funding media and educational services through the area education agencies. If the property tax revenues for a district calculated under this chapter exceed the property tax revenues for that district calculated under chapter 442, Code 1989, the department of management shall reduce the revenues raised by the additional property tax levy in that district under this chapter by that difference and the department of education shall pay property tax adjustment aid to the district equal to that difference from moneys appropriated for property tax adjustment aid.

b. For purposes of this subsection, in computing the amount of revenues generated by the foundation property tax and the additional property tax under chapter 442, Code 1989, the computation shall be based on a regular program foundation base per pupil of eighty-three percent of the regular program state cost per pupil except that for the portion of weighted enrollment that is additional enrollment because of special education the regular program foundation base per pupil shall be seventy-nine percent of the regular program state cost per pupil. The special education support services foundation base shall be seventy-nine percent of the special education support services state cost per pupil.

2. *Property tax adjustment aid for 1992-1993 and succeeding years.* For the budget year beginning July 1, 1992, and succeeding budget years, the department of education shall pay property tax adjustment aid to a school district equal to the amount paid to the district for the base year less an amount equal to the product of the percent by which the taxable valuation in the district increased, if the taxable valuation increased, from January 1 of the year prior to the base year to January 1 of the base year and the property tax adjustment aid. The department of management shall adjust the rate of the additional property tax accordingly and notify the department of education of the amount of aid to be paid to each district from moneys appropriated for property tax adjustment aid.

3. *Property tax adjustment aid appropriation.* There is appropriated from the general fund of the state to the department of education, for each fiscal year, an amount necessary to pay property tax adjustment aid to school districts under this section. Property tax adjustment aid shall be paid to school districts in the manner provided in section 257.16.

4. *a. Allocations for maximum adjusted additional property tax levy rate calculation and adjusted additional property tax levy aid.* The department of management shall allocate from amounts appropriated pursuant to section 257.16, subsection 1, and from funds appropriated from the property tax equity and relief fund created in section 257.16A for the purpose of calculating the statewide maximum adjusted additional property tax levy rate and providing adjusted additional property tax levy aid as provided in section 257.4, subsection 1, paragraph *"b"*, an amount equal to the sum of subparagraphs (1) and (2) as follows:

The statewide adjusted transportation cost per pupil shall be annually determined, by taking into account amounts appropriated to the transportation equity fund under subsection 3, for the purpose of providing transportation equity aid for those school districts with the highest transportation cost per pupil differential.

b. Each school district that satisfies the criteria of subsection 1 shall receive transportation equity aid in an amount equal to the school district's actual enrollment for the school year, excluding the shared-time enrollment for the school year, multiplied by the school district's transportation cost per pupil differential for the budget year. However, for budget years beginning on or after July 1, 2026, transportation equity aid paid to a school district for a budget year under this paragraph shall not exceed one million dollars.

c. For purposes of this section:

(2) *"Transportation cost per pupil differential"* means an amount equal to a school district's transportation cost per pupil minus the statewide adjusted transportation cost per pupil for the same budget year.

d. A school district's transportation cost per pupil shall be determined by dividing the school district's actual transportation cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount of transportation costs reimbursed under section 256.25A and the amount received for transporting nonpublic school pupils under section 285.1, by the district's actual enrollment for the school year, excluding the shared-time enrollment for the school year as defined in section 257.6.

3. *a.* A transportation equity fund is created as a separate and distinct fund in the state treasury under the control of the department of management. Moneys in the fund include revenues credited to the fund, appropriations made to the fund, and other moneys deposited in the fund. For each fiscal year beginning on or after July 1, 2018, there is appropriated all moneys in the fund to the department of management for purposes of making transportation equity aid payments under this section.

b. If the balance of the fund exceeds the amount necessary to make all transportation equity aid payments under subsection 2, moneys remaining in the fund shall be used for transportation base funding payments under subsection 4.

c. If the balance of the fund exceeds the amount necessary to make all transportation equity aid payments and all transportation base funding payments, moneys remaining in the fund at the end of a fiscal year, notwithstanding section 8.33, shall remain in the fund and shall be available for expenditure for the purposes of this section in subsequent fiscal years.

d. (1) For the fiscal year beginning July 1, 2019, there is appropriated from the general fund of the state to the department of management for deposit in the transportation equity

(b) The product of the amount determined under subparagraph division (a) multiplied by the categorical percent of growth under section 257.8, subsection 2, for the budget year beginning on the same date of the fiscal year for which the appropriation is made.

(c) Seven million two hundred fifty-three thousand eighty-eight dollars.

(3) For the fiscal year beginning July 1, 2021, and the fiscal year beginning July 1, 2022, there is appropriated from the general fund of the state to the department of management for deposit in the transportation equity fund an amount necessary to make all transportation equity aid payments under subsection 2, to be used for the purposes of this section.

(4) For each fiscal year beginning on or after July 1, 2023, there is appropriated from the general fund of the state to the department of management for deposit in the transportation equity fund the sum of the following, or so much thereof as is necessary, to be used for the purposes of this section:

(b) The product of the amount determined under subparagraph division (a) multiplied by the categorical percent of growth under section 257.8, subsection 2, for the budget year beginning on the same date of the fiscal year for which the appropriation is made.

4. For budget years beginning on or after July 1, 2018, if funding is available as provided in subsection 3, paragraph *"b"*, each school district in the state shall receive a transportation base funding payment in an amount equal to the school district's enrollment used under subsection 2, paragraph *"d"*, multiplied by the lesser of the statewide average transportation cost per pupil or the school district's transportation cost per pupil for the budget year. If an amount appropriated for a budget year is insufficient to pay all transportation base funding payments, the department of management shall prorate such payment amounts.

5. *a.* The sum of the transportation equity aid payment and the transportation base funding payment paid to a school district for a budget year shall not exceed the school district's actual transportation cost used to calculate the school district's transportation cost per pupil under subsection 2, paragraph *"d"*, for the budget year.

b. Transportation equity aid payments and transportation base funding payments shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16, and may be included in the quarterly payment of state aid under section 257.16, subsection 2.

7. On or before December 1, 2020, and on or before December 1 every five years thereafter, the director of the department of education shall compile and review the data collected as a result of the transportation equity aid and transportation base funding payments provided under this section and shall prepare a report to the general assembly containing analysis of the aid and the payments' efficacy and recommendations for changes.

UNOFFICIAL VERSION: NOT EARLY RELEASE

2. *a.* If the board does not provide for an election and adopts a resolution to participate in the instructional support program, the district shall participate in the instructional support program unless within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that the question to approve or disapprove the action of the board in adopting the instructional support program be submitted to the voters of the school district. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "*c*". If a majority of those voting on the question favors approval of the action, the board shall certify the results of the election to the department of management and the district shall participate in the program.

b. At the expiration of the twenty-eight day period, if no petition is filed, the board shall certify its action to the department of management and the district shall participate in the program.

3. Participation in an instructional support program is not affected by a change in the boundaries of the school district, except as otherwise provided in this section. If each school district involved in a school reorganization under chapter 275 has approved an instructional support program, and if the voters have not voted upon the question of participation in the program in the reorganized district, the instructional support program shall be in effect for the reorganized district that has been approved for the least amount and the shortest time in any of the districts.

257.20 Instructional support state aid appropriation.

1. In order to determine the amount of instructional support state aid and the amount of local funding for the instructional support program for a district, the department of management shall divide the total assessed valuation in the state by the total budget enrollment for the budget year in the state to determine a state assessed valuation per pupil and shall divide the assessed valuation in each district by the district's budget enrollment for the budget year to determine the district assessed valuation per pupil. The department of management shall multiply the ratio of the state's valuation per pupil to the district's valuation per pupil by twenty-five hundredths and subtract that result from one to determine the portion of the instructional support program budget that is local funding. The remaining portion of the budget shall be funded by instructional support state aid. However, for the budget year beginning July 1, 1992, only, the amount of state aid is three and one-quarter percent less than the amount computed under this paragraph for that budget year.

2. There is appropriated for each fiscal year from the general fund of the state to the department of education, an amount necessary to pay instructional support state aid as determined under subsection 1.

a. However, moneys appropriated under this subsection shall not exceed the amount of moneys appropriated as instructional support state aid for the budget year which commenced on July 1, 1992.

b. If the amount appropriated under this subsection is insufficient to pay the amount of instructional support state aid determined under subsection 1, the department of education shall prorate the amount of the instructional support state aid provided to each district.

3. If the general assembly makes an appropriation for instructional support state aid in lieu of the standing appropriation provided under subsection 2, the appropriation for instructional support state aid shall include in the appropriation the allocation of the instructional support state aid to the school districts applicable for that appropriation and subsections 1 and 2 do not apply to the appropriation.

4. Instructional support state aid shall be paid at the same time and in the same manner as foundation aid is paid under section 257.16.

The department of management shall determine these amounts based upon the most recent figures available for the district's valuation of taxable property, individual state income tax paid, and budget enrollment in the district, and shall certify to the district's county auditor the amount of instructional support property tax, and to the director of revenue the amount of instructional support income surtax to be imposed if an instructional support income surtax is to be imposed.

2. The instructional support income surtax shall be imposed on the state individual income tax for the calendar year during which the school's budget year begins, or for a taxpayer's fiscal year ending during the second half of that calendar year and after the date the board adopts a resolution to participate in the program or the first half of the succeeding calendar year, and shall be imposed on all individuals residing in the school district on the last day of the applicable tax year. (a) The difference between the district's regular program district cost per pupil minus the regular program state cost per pupil.

(b) The professional development supplement district cost per pupil.

(c) The early intervention supplement district cost per pupil.

(2) Prior to filing a request for supplemental aid or a modified supplemental amount based on the grounds specified in this paragraph, the board of directors shall hold a public hearing on the issue and shall publish the notice of the time and place of the public hearing. Notice of the time and place of the public hearing shall be published not less than ten nor more than twenty days before the public hearing in a newspaper that is a newspaper of general circulation in the school district.

(3) A school district is not eligible for supplemental aid or a modified supplemental amount under this paragraph if a majority of the students enrolled in the school district as the result of open enrollment are students receiving online instruction from a private provider under section 256.43, subsection 2.

(4) If a school district is granted a modified supplemental amount under this paragraph for a budget year beginning on or after July 1, 2025, the school district's combined property tax rate per one thousand dollars for all school district levies for the succeeding budget year shall not exceed the combined property tax rate for all such levies for the budget year for which the modified supplemental amount was granted.

6. *a.* The committee shall establish a modified supplemental amount for a district when the district submits evidence that it requires additional funding for removal, management, or abatement of environmental hazards due to a state or federal requirement. Environmental hazards shall include but are not limited to the presence of asbestos, radon, or the presence of any other hazardous material dangerous to health and safety.

b. The district shall include a budget for the actual cost of the project that may include the costs of inspection, reinspection, sampling, analysis, assessment, response actions, operations and maintenance, training, periodic surveillance, developing of management plans, recordkeeping requirements, and encapsulation or removal of the hazardous material.

(1) Furnishing, equipping, and contributing to the construction of a new building or structure for which the voters of the district have approved a bond issue as provided by law or the tax levy provided in section 298.2.

Expenditures authorized under this subsection shall not be included in a modified supplemental amount or district cost, and the portion of the unexpended fund balance which is authorized to be spent shall be regarded as if it were miscellaneous income. Any part of the amount not actually spent for the authorized purpose shall revert to its former status as part of the unexpended fund balance.

8. The committee may approve or modify the initial base year district cost of any district which changes accounting procedures.

9. When the committee makes a decision under subsections 3 through 8, it shall make all necessary changes in the district cost, budget, and tax levy. It shall give written notice of its decision, including all such changes, to the school board through the department of education.

10. All decisions by the committee under this chapter shall be made in accordance with reasonable and uniform policies which shall be consistent with this chapter. All such policies of general application shall be stated in rules adopted in accordance with chapter 17A. The committee shall take into account the intent of this chapter to equalize educational

opportunity, to provide a good education for all the children of Iowa, to provide property tax relief, to decrease the percentage of school costs paid from property taxes, and to provide reasonable control of school costs. The committee shall also take into account the amount of funds available.

11. Failure by any school district to provide information or appear before the committee as requested for the accomplishment of review or hearing is justification for the committee to instruct the director of the department of management to withhold any state aid to that district until the committee's inquiries are satisfied completely.

12. The committee shall review the recommendations of the director of the department of education relating to the special education weighting plan, and shall establish a weighting plan for each school year pursuant to section 256B.9, and report the plan to the director of the department of education.

13. The committee may recommend that two or more school districts jointly employ and share the services of any school personnel, or acquire and share the use of classrooms, laboratories, equipment, and facilities as specified in section 280.15.

14. As soon as possible following June 30 of the base year, the school budget review committee shall determine for each school district the balance of funds, whether positive or negative, raised for special education instruction programs under the special education weighting plan established in section 256B.9. The committee shall certify the balance of funds for each school district to the director of the department of management.

a. If the amount certified for a school district to the director of the department of management under this subsection for the base year is positive, the director of the department of management shall subtract the amount of the positive balance exceeding ten percent of the additional funds generated for special education, not to include any previous carryover, from the amount of state aid remaining to be paid to the district during the budget year. If the positive amount exceeding the ten percent amount exceeds the amount of state aid that remains to be paid to the district, not including any previous carryover, the school district shall pay the excess on a quarterly basis prior to June 30 of the budget year to the director of the department of management from other funds received by the district. The director of the department of management shall determine the amount of the positive balance that exceeds the ten percent amount that came from local property tax revenues and shall increase the district's total state school aids available under this chapter for the next following budget year by the amount so determined and shall reduce the district's tax levy computed under section 257.4 for the next following budget year by the amount necessary to compensate for the increased state aid.

b. (1) If the amount certified for a school district to the director of the department of management under this subsection for the base year is negative, the director of the department of management shall determine the amount of the deficit that would have been state aid and the amount that would have been property taxes for each eligible school district.

(2) There is appropriated from the general fund of the state to the school budget review committee for each fiscal year an amount equal to the state aid portion of five percent of the receipts for special education instruction programs in all districts that have a positive balance determined under paragraph *"a"* for the base year, or the state aid portion of all of the positive balances determined under paragraph *"a"* for the base year, whichever is less, to be used for supplemental aid payments to school districts. Except as otherwise provided in this paragraph *"b"*, supplemental aid paid to a district is equal to the state aid portion of the district's negative balance. The school budget review committee shall direct the director of the department of management to make the payments to school districts under this paragraph *"b"*.

(3) A school district is only eligible to receive supplemental aid payments during the budget year if the school district certifies to the school budget review committee that for the year following the budget year it will notify the school budget review committee to instruct the director of the department of management to increase the district's modified supplemental amount and will fund the modified supplemental amount increase either by using moneys from its unexpended fund balance to reduce the district's property tax

levy or by using cash reserve moneys to equal the amount of the deficit that would have been property taxes and any part of the state aid portion of the deficit not received as supplemental aid under this subsection. The director of the department of management shall make the necessary adjustments to the school district's budget to provide the modified supplemental amount and shall make the supplemental aid payments.

(4) If the amount appropriated under this lettered paragraph is insufficient to make the supplemental aid payments under this subsection, the director of the department of management shall prorate the payments on the basis of the amount appropriated.

15. Annually the school budget review committee shall review the amount of property tax levied by each school district for the cash reserve authorized in section 298.10. If in the committee's judgment, the amount of a district's cash reserve levy is unreasonably high, the committee shall instruct the director of the department of management to reduce that district's tax levy computed under section 257.4 for the following budget year by the amount the cash reserve levy is deemed excessive. A reduction in a district's property tax levy for a budget year under this subsection does not affect the district's authorized budget.

16. The committee shall perform the duties assigned to it under sections 257.32, 257.40, and 260C.18B.

17. *a.* If a district's average transportation costs per pupil exceed the state average transportation costs per pupil determined under paragraph "*c*" by one hundred fifty percent, the committee may grant transportation assistance aid to the district. Such aid shall be miscellaneous income and shall not be included in district cost.

b. To be eligible for transportation assistance aid, a school district shall annually certify its actual cost for all children transported in all school buses not later than July 31 after each school year on forms prescribed by the committee.

c. A district's average transportation costs per pupil shall be determined by dividing the district's actual cost for all children transported in all school buses for a school year pursuant to section 285.1, subsection 12, less the amount received for transporting nonpublic school pupils under section 285.1, by the district's actual enrollment for the school year excluding the shared-time enrollment for the school year as defined in section 257.6. The state average transportation costs per pupil shall be determined by dividing the total actual costs for all children transported in all districts for a school year, by the total of all districts' actual enrollments for the school year.

d. Funds transferred to the committee in accordance with section 321.34, subsection 22, are appropriated to and may be expended for the purposes of the committee, as described in this section. However, highest priority shall be given to districts that meet the conditions described in this subsection. Notwithstanding any other provision of the Code, unencumbered or unobligated funds transferred to the committee pursuant to section 321.34, subsection 22, remaining on June 30 of the fiscal year for which the funds were transferred, shall not revert but shall be available for expenditure for the purposes of this subsection in subsequent fiscal years.

18. If a school district exceeds its authorized budget or carries a negative unspent balance for two or more consecutive years, the committee may recommend that the department implement a phase II on-site visit to conduct a fiscal review pursuant to section 256.11, subsection 10, paragraph "*b*", subparagraph (1), subparagraph division (e).

257.37 Funding media and educational services.

Media services and educational services provided by a school district or through the area education agency shall be funded, to the extent provided, by an addition to the combined district cost of each school district, determined as follows:

1. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for media services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each area for media services in the base year shall be divided by the enrollment served in the base year to provide an area media services cost per pupil in the base year, and the department of management shall compute the state media services cost per pupil in the base year which is equal to the average of the area media services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the supplemental state aid for media services in the budget year by multiplying the state media services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for media services cost in the budget year equals the area media services cost per pupil in the base year plus the supplemental state aid for media services in the budget year times the enrollment served in the budget year. For fiscal years beginning before July 1, 2025, funds shall be paid to area education agencies as provided in section 257.35. For fiscal years beginning on or after July 1, 2024, funds not required to be paid to an area education agency may be used by the school district for any school district general fund purpose.

2. Up to thirty percent of the budget of an area for media services may be expended for media resource material including the purchase or replacement of material required in section 273.6, subsection 1.

3. For the budget year beginning July 1, 1991, and succeeding budget years, the total amount funded in each area for educational services shall be computed as provided in this subsection. For the budget year beginning July 1, 1991, the total amount funded in each

area for educational services in the base year shall be divided by the enrollment served in the area in the base year to provide an area educational services cost per pupil in the base year, and the department of management shall compute the state educational services cost per pupil in the base year, which is equal to the average of the area educational services costs per pupil in the base year. For the budget year beginning July 1, 1991, and succeeding budget years, the department of management shall compute the supplemental state aid for educational services by multiplying the state educational services cost per pupil in the base year times the state percent of growth for the budget year, and the total amount funded in each area for educational services for the budget year equals the area educational services cost per pupil for the base year plus the supplemental state aid for educational services in the budget year times the enrollment served in the area in the budget year. For fiscal years beginning before July 1, 2025, funds shall be paid to area education agencies as provided in section 257.35. For fiscal years beginning on or after July 1, 2024, funds not required to be paid to an area education agency may be used by the school district for any school district general fund purpose.

4. *"Enrollment served"* means the basic enrollment of all school districts within the boundaries of the area education agency plus the number of nonpublic school pupils served by the area education agency with media services or educational services, as applicable, except that if a nonpublic school pupil or a pupil attending another district under a whole grade sharing agreement or open enrollment receives services through an area other than the area of the pupil's residence, the pupil shall be deemed to be served by the area of the pupil's residence, which shall by contractual arrangement reimburse the area through which the pupil actually receives services. Each school district shall include in the enrollment report submitted pursuant to section 257.6, subsection 1, the number of nonpublic school pupils within each school district for media and educational services served by the area. However, the school district shall not include in the enrollment report nonpublic school pupils receiving classes or services funded entirely by federal grants or allocations.

5. *a.* If an area education agency does not serve nonpublic school pupils in a manner comparable to services provided public school pupils for media and educational services, as determined by the state board of education, the state board shall instruct the department of management to reduce the funds for media services and educational services within the area one time by an amount to compensate for such reduced services. The media services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for media services times the difference between the enrollment served and the basic enrollment recorded for the area. The educational services budget shall be reduced by an amount equal to the product of the cost per pupil in basic enrollment for the budget year for educational services times the difference between the enrollment served and the basic enrollment recorded for the area.

b. This subsection applies only to media and educational services which cannot be diverted for religious purposes.

c. Notwithstanding this subsection, an area education agency shall distribute to nonpublic schools media materials purchased wholly or partially with federal funds in a manner comparable to the distribution of such media materials to public schools as determined by the director of the department of education.

6. For the budget year beginning July 1, 2002, and each succeeding budget year, notwithstanding the requirements of this section for determining the budgets and funding of media services and education services, an area education agency or school district may expend for special education support services an amount that exceeds the payment for special education support services in order to maintain the level of required special education support services in the area education agency or the school district, as applicable.

For the budget year beginning July 1, 2010, and succeeding budget years, the area education agency teacher salary supplement district cost per pupil for each area education agency for a budget year is the area education agency teacher salary supplement district cost per pupil for the base year plus the area education agency teacher salary supplement supplemental state aid amount for the budget year.

2. 3. *a.* The unadjusted area education agency teacher salary supplement district cost is the area education agency teacher salary supplement district cost per pupil for each area education agency for a budget year multiplied by the special education support services weighted enrollment for that area education agency.

b. The total area education agency teacher salary supplement district cost is the sum of the unadjusted area education agency teacher salary supplement district cost plus the budget adjustment for that budget year.

1. *Budget.* The budget of an adopted program for at-risk students, secondary students who attend alternative programs or alternative schools, or returning dropouts and dropout prevention for a school district, after subtracting funds received under section 257.11, subsection 4, paragraphs *"a"* through *"c"*, and from other sources for that purpose, including any previous carryover or amount designated from the school district's flexibility account under section 298A.2, subsection 2, shall be funded annually on a basis of one-fourth or more from the district cost of the school district and up to three-fourths through establishment of a modified supplemental amount. Annually, the department of management shall establish a modified supplemental amount for each such school district equal to the difference between the approved budget for the program for that district and the sum of the amount funded from the district cost of the school district plus funds received under section 257.11, subsection 4, and from other sources for that purpose, including any previous carryover or amount designated from the school district's flexibility account under section 298A.2, subsection 2.

However, if such person works part-time with students who are participating in a program or alternative school and the person has another unrelated assignment, only the portion of the person's time that is related to the program or alternative school may be charged to the program or school. For each such person who works part time or on a contract basis with the program or with students who are participating in a program or alternative school, the school district shall have the authority to designate the portion of the person's time and the corresponding amount of salary and benefits or contract payment amount that is related to the program or alternative school and shall include such designation as part of the program plan under section 257.38, if applicable. However, if the school district's highest such ratio so determined for any fiscal year beginning on or after July 1, 2009, but before July 1, 2013, exceeded two and one-half percent, the ratio may exceed two and one-half percent but shall not exceed the highest such ratio established during that period.

The division and appraisement shall be approved or disapproved by the board at its first meeting after the report, and in case it disapproves, it may at once order another division and appraisement. If the board of supervisors approves, the county auditor shall make and keep a record of the division, appraisement, and approval; but school lands shall not be sold for less than the appraised value per acre, except as provided. 257B.6 Sale without appraisement.

When the county board of supervisors has once offered for sale school lands held under section 257B.1A in compliance with the requirements of this chapter, and they remain unsold, and it is unable to obtain the appraised value of the lands and, in the opinion of the board, it is for the best interests of the permanent school fund that the lands be sold for a less price, it may instruct the auditor to transmit to the secretary of state a certified copy of its proceedings in relation to the order of sale of the land and subsequent proceedings in relation to the sale, including the action of the township trustees, and the price per acre at which the land had been appraised. The secretary of state shall submit the transcript of the proceedings to the executive council; and if it approves of a sale at a less sum, it shall certify the approval to the auditor of the county from which the transcript came. The certificate shall be recorded in the minute book of the board of supervisors, and the land may again be offered and sold to the highest bidder without again being appraised, after notice given as in case of sales in the first instance.

All school lands sold in pursuance of law shall be subject to taxation from and after the execution and delivery of a contract of purchase. All sales made, where the full price is not paid, shall be subject to the law relative to the prevention or punishment of waste, and in all such cases the township trustees in each township are charged with the duty of preventing the commission of waste upon any school lands lying in their township, and, if attempted, they shall apply by petition for an injunction to stay the same, and if granted the writ shall issue without bond, and the court issuing it may make such order in the premises as shall be equitable and best calculated to prevent threatened injury, and may adjudge damages for any injury done, the costs to abide the event of the action, and the damages adjudged shall be paid to the county treasurer and the county treasurer shall forthwith pay the same to the state treasurer which shall become a part of the permanent school fund.

The board of directors of each community college shall:

1. Determine the curriculum to be offered in such school or college subject to approval of the director and ensure that all career and technical education offerings are competency-based, provide any minimum competencies required by the department, comply with any applicable requirements in chapter 256, subchapter VII, part 2, and are articulated with local school district career and technical education programs. If an existing private educational institution or an existing vocational institution offering a career and technical education program within the merged area has facilities and curriculum of adequate size and quality which would duplicate the functions of the area school, the board of directors shall discuss with the institution the possibility of entering into contracts to have the existing institution offer facilities and curriculum to students of the merged area. The board of directors shall consider any proposals submitted by the private institution for providing such facilities and curriculum. The board of directors may enter into such contracts. In approving curriculum, the director shall ascertain that all courses and programs submitted for approval are needed and that the curriculum being offered by an area school does not duplicate programs provided by existing public or private facilities in the area. In determining whether duplication would actually exist, the director shall consider the needs of the area and consider whether the proposed programs are competitive as to size, quality, tuition, purposes, and area coverage with existing public and private educational or vocational institutions within the merged area. If the board of directors of the merged area chooses not to enter into contracts with private institutions under this subsection, the board shall submit a list of reasons why contracts to avoid duplication were not entered into and an economic impact statement relating to the board's decision.

Tuition for nonresidents of Iowa shall not be less than the marginal cost of instruction of a student attending the college. A lower tuition for nonresidents may be permitted under a reciprocal tuition agreement between a merged area and an educational institution in another state, if the agreement is approved by the director. The board may designate that a portion of the tuition moneys collected from students be used for student aid purposes.

3. Have the powers and duties with respect to community colleges, not otherwise provided in this chapter, which are prescribed for boards of directors of local school districts by chapter 279 except that the board of directors is not required to prohibit the use of tobacco and the use or possession of alcoholic liquor or beer by any student of legal age under the provisions of section 279.9.

Letters patent or copyright on inventions when so secured shall be the property of the board of the merged area and the royalties and earnings thereon shall be credited to the funds of the board.

8. Set the salary of the area superintendent. In setting the salary, the board shall consider the salaries of administrators of educational institutions in the merged area and the enrollment of the community college.

b. The selection of investment contracts to be included within the plan established by the board shall be made either pursuant to a competitive bidding process conducted by the board, in coordination with employee organizations representing employees eligible to participate in the plan, or pursuant to an agreement with the department of administrative services to make available investment contracts included in a deferred compensation or similar plan established by the department pursuant to section 8A.438, which plan meets the requirements of this subsection. The determination of whether to select investment contracts for the plan pursuant to a competitive bidding process or by agreement with the department of administrative services shall be made by agreement between the board and the employee organizations representing employees eligible to participate in the plan.

The rules may provide for the use of institutional roads, driveways, and grounds; registration of vehicles and bicycles; the designation of parking areas; the erection and maintenance of signs designating prohibitions or restrictions; the installation and maintenance of parking control devices except parking meters; and assessment, enforcement, and collection of reasonable penalties for the violation of the rules.

b. Rules made under this subsection may be enforced under procedures adopted by the board of directors. Penalties may be imposed upon students, faculty, and staff for violation of the rules, including but not limited to a reasonable monetary penalty which may be deducted from student deposits and faculty or staff salaries or other funds in possession of the community college or added to student tuition bills. The rules made under this subsection may also be enforced by the impoundment of vehicles and bicycles parked in violation of the rules, and a reasonable fee may be charged for the cost of impoundment and storage prior to the release of the vehicle or bicycle to the owner. Each community college shall establish procedures for the determination of controversies in connection with the imposition of penalties. The procedures shall require giving notice of the violation and the penalty prescribed and providing the opportunity for an administrative hearing.

260C.21 Election to incur indebtedness.

No indebtedness shall be incurred under section 260C.19 until authorized by an election. A proposition to incur indebtedness and issue bonds for community college purposes shall be deemed carried in a merged area if approved by a sixty percent majority of all voters voting on the proposition in the area. However, if the costs of utilities are paid by a community college with funds derived from the levy authorized under section 260C.22, the community college may use the general fund moneys that would have been used to pay the costs of utilities for capital expenditures, may invest the funds, or may incur indebtedness without an election, provided that the payments on the indebtedness incurred, and any interest on the indebtedness, can be made using general funds of the community college and the total payments on the principal and interest on the indebtedness do not exceed the amount of the costs of the utilities.

260C.22 Facilities levy by vote — borrowing — temporary cash reserve levy.

1. *a.* In addition to the tax authorized under section 260C.17 and upon resolution of the board of directors, the voters in a merged area may at the regular school election or at a special election held on the second Tuesday in September of the even-numbered year vote a tax not exceeding twenty and one-fourth cents per thousand dollars of assessed value in any one year for a period not to exceed ten years, unless otherwise provided under subsection 2, for the purchase of grounds, construction of buildings, payment of debts contracted for the construction of buildings, purchase of buildings and equipment for buildings, and the acquisition of libraries, for the purpose of paying costs of utilities, and for the purpose of maintaining, remodeling, improving, or expanding the community college of the merged area. If the tax levy is approved under this section, the costs of utilities shall be paid from the proceeds of the levy. The tax shall be collected by the county treasurers and remitted to the treasurer of the merged area as provided in section 331.552, subsection 29. The proceeds of the tax shall be deposited in a separate and distinct fund to be known as the voted tax fund, to be paid out upon warrants drawn by the president and secretary of the board of directors of the merged area district for the payment of costs incurred in providing the school facilities for which the tax was authorized.

b. In order to make immediately available to the merged area the proceeds of the voted tax authorized to be levied under this section, the board of directors of any such merged area is hereby authorized, without the necessity for any further election, to borrow money and enter into loan agreements in anticipation of the collection of such tax, and such board shall, by resolution, provide for the levy of an annual tax, within the limits of the special voted tax authorized under this section, sufficient to pay the amount of any such loan and the interest thereon to maturity as the same becomes due. A certified copy of this resolution shall be filed with the county auditors of the counties in which such merged area is located, and the filing thereof shall make it a duty of such auditors to enter annually this levy for collection until funds are realized to repay the loan and interest thereon in full. Said loan shall bear interest at a rate or rates not exceeding that permitted by chapter 74A. Any loan agreement entered into pursuant to authority contained in this section shall be in such form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voted tax authorized under this section, or so much thereof as will be sufficient to pay the loan and interest thereon. In furtherance of the foregoing the board of directors of such merged area may, with or without notice, negotiate and enter into a loan agreement or agreements with any bank, investment

banker, trust company, insurance company or group thereof, whereunder the borrowing of the necessary funds may be assured and consummated. The proceeds of such loan shall be deposited in a special fund, to be kept separate and apart from all other funds of the merged area, and shall be paid out upon warrants drawn by the president and secretary of the board of directors to pay the cost of acquiring the school facilities for which the tax was authorized.

c. If the boundary lines of a merged area are changed, the levy of the annual tax provided in this section sufficient to pay the amount due for a loan agreement and the interest on the loan agreement to maturity shall continue in any territory severed from the merged area until the loan with interest on the loan has been paid in full.

d. Nothing contained in this section shall be construed to limit the authority of the board of directors to levy the full amount of the voted tax, but if and to whatever extent said tax is levied in any year in excess of the amount of principal and interest falling due in such year under any loan agreement, the first available proceeds thereof, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the sinking fund for such loan before any of such taxes are otherwise made available to the merged area for other school purposes, and the amount required to be annually set aside to pay the principal of and interest on the money borrowed under such loan agreement shall constitute a first charge upon all of the proceeds of such annual special voted tax, which tax shall be pledged to pay said loan and the interest thereon.

e. This subsection shall be construed as supplemental and in addition to existing statutory authority and as providing an independent method of financing the cost of acquiring school facilities for which a tax has been voted under this section and for the borrowing of money and execution of loan agreements in connection therewith and shall not be construed as subject to the provisions of any other law. The fact that a merged area may have previously borrowed money and entered into loan agreements under the authority contained in this section shall not prevent such merged area from borrowing additional money and entering into further loan agreements provided that the aggregate of the amount payable under all of such loan agreements does not exceed the proceeds of the voted tax. All acts and proceedings heretofore taken by the board of directors or by any official of any merged area for the exercise of any of the powers granted by this section are hereby legalized and validated in all respects.

2. Following approval of the tax at two consecutive elections under subsection 1 where the question of imposing the tax appeared on the ballot, if the tax has been imposed for a period of at least twenty consecutive years, the board of directors of the merged area may, by resolution adopted at any time before the end of the most recently authorized period of time for imposing the tax, continue to impose the voted tax each year for an additional period not to exceed ten years at a rate not to exceed the maximum rate approved at election until the tax is discontinued or the maximum rate is increased following an election pursuant to subsection 3. An increase in the maximum rate of the voted tax, not to exceed the maximum rate specified in subsection 1, shall be approved at election pursuant to the requirements of subsection 3.

3. A voted tax imposed under this section may be discontinued, or its maximum rate increased, by petition and election. Upon receipt of a petition containing the required number of signatures, the board of directors of a merged area shall direct each county commissioner of elections responsible under section 47.2 for conducting elections in the merged area to submit to the voters of the merged area the question of whether to discontinue the authority of the board of directors to impose the voted tax under this section or to increase the maximum rate of the voted tax, whichever is applicable. The petition must be signed by eligible electors equal in number to not less than twenty-five percent of the votes cast at the last preceding election in the merged area where the question of the imposition of the tax appeared on the ballot and received by the board of directors by June 1 of the year in which the election is to be held. The question shall be submitted at an election held on a date authorized for an election under subsection 1, paragraph *"a"*. If a majority of those voting on the question of discontinuance of the board of directors' authority to impose the tax favors discontinuance, the board shall not impose the tax for any fiscal year beginning after expiration of the period of time for imposing the tax approved at the last election under subsection 1 or the period of

time for imposing the tax established by resolution of the board under subsection 2 that is in effect on the date the petition for the election is filed with the board, whichever is applicable, unless following discontinuance the voted tax is again authorized at election under subsection 1. If the question of whether to discontinue the authority of the board of directors to impose the tax fails to gain approval at election, the question shall not be submitted to the voters of the merged area for a period of ten years following the date of the election. If a majority of those voting on the question to increase the maximum rate of the voted tax favors the proposed increase, the new maximum rate shall apply to fiscal years beginning after the date of the election.

260C.28 Tax for equipment replacement and program sharing.

1. Annually, the board of directors may certify for levy a tax on taxable property in the merged area at a rate not exceeding three cents per thousand dollars of assessed valuation for equipment replacement for the community college.

2. However, the board of directors may annually certify for levy a tax on taxable property in the merged area at a rate in excess of the three cents per thousand dollars of assessed valuation specified under subsection 1 if the excess tax levied does not cause the total rate certified to exceed a rate of nine cents per thousand dollars of assessed valuation, and the excess revenue generated is used for purposes of program sharing between community colleges or for the purchase of equipment. Programs that are shared shall be designed to increase student access to community college programs and to achieve efficiencies in program delivery at the community colleges, including but not limited to the programs described under section 260C.46. Prior to expenditure of the excess revenues generated under this subsection, the board of directors shall obtain the approval of the director of the department.

3. *a.* If the board of directors wishes to certify for a levy under subsection 2, the board shall direct the county commissioner of elections to submit the question of such authorization for the board at an election held on a date specified in section 39.2, subsection 4, paragraph "*c*". If a majority of those voting on the question at the election favors authorization of the board to make such a levy, the board may certify for a levy as provided under subsection 2 during each of the ten years following the election, unless otherwise authorized under paragraph "*b*". If a majority of those voting on the question at the election does not favor authorization of the board to make a levy under subsection 2, the board may submit the question to the voters again at an election held on a date specified in section 39.2, subsection 4, paragraph "*c*".

b. Following approval of the additional tax authorized under subsection 2 at two

c. The additional tax authorized under subsection 2 may be discontinued by petition and election. Upon receipt of a petition containing the required number of signatures, the board of directors of a merged area shall direct each county commissioner of elections responsible under section 47.2 for conducting elections in the merged area to submit to the voters of the merged area the question of whether to discontinue the authority of the board of directors to impose the additional tax under subsection 2. The petition must be signed by eligible electors equal in number to not less than twenty-five percent of the votes cast at the last preceding election in the merged area where the question of the imposition of the additional tax appeared on the ballot. The question shall be submitted at an election held on a date specified in section 39.2, subsection 4, paragraph *"c"*. If a majority of those voting on the question of discontinuance of the board of directors' authority to impose the additional tax favors discontinuance, the board shall not impose the additional tax for any fiscal year beginning after the expiration of the period of time for imposing the tax approved at the last election under paragraph *"a"* or the period of time for imposing the additional tax established by resolution of the board under paragraph *"b"* that is in effect on the date the petition for the election is filed with the board, whichever is applicable, unless following discontinuance the additional tax is again authorized at election under paragraph *"a"*. 260C.39 Combining merged areas — election.

1. Any merged area may combine with any adjacent merged area after a favorable vote by the electors of each of the areas involved. If the boards of directors of two or more merged areas agree to a combination, the question shall be submitted to the electors of each area at an election held on a date specified in section 39.2, subsection 4, paragraph "c", and held on the same day in each area. Prior to the election, the board of each merged area shall notify the county commissioner of elections of the county in which the greatest proportion of the merged area's taxable base is located, who shall publish notice of the election according to section 49.53. The two respective county commissioners of elections shall conduct the election pursuant to the provisions of chapters 39 through 53. The votes cast in the election shall be canvassed by the county board of supervisors, and the county commissioner of elections of each county in the merged areas shall certify the results to the board of directors of each merged area.

2. If the vote is favorable in each merged area, the boards of each area shall proceed to transfer the assets, liabilities, and facilities of the areas to the combined merged area, and shall serve as the acting board of the combined merged area until a new board of directors is elected. The acting board shall submit to the director of the department a plan for redistricting the combined merged area, and upon receiving approval from the director, shall provide for the election of a director from each new district at the next regular school election. The directors elected from each new district shall determine their terms by lot so that the terms of one-third of the members, as nearly as may be, expire each year. Election of directors for the combined merged area shall follow the procedures established for election of directors of a merged area. A combined merged area is subject to all provisions of law and rules governing merged areas.

3. The terms of employment of personnel, for the academic year following the effective date of the agreement to combine the merged areas shall not be affected by the combination of the merged areas, except in accordance with the procedures under sections 279.15, 279.16, 279.18, and 279.24, to the extent those procedures are applicable, or under the terms of the base bargaining agreement. The authority and responsibility to offer new contracts or to continue, modify, or terminate existing contracts pursuant to any applicable

procedures under chapter 279, shall be transferred to the acting, and then to the new, board of the combined merged area upon certification of a favorable vote to each of the merged areas affected by the agreement. The collective bargaining agreement of the merged area receiving the greatest amount of general state aid shall serve as the base agreement for the combined merged area and the employees of the merged areas which combined to form the new combined merged area shall automatically be accreted to the bargaining unit from that former merged area for purposes of negotiating the contracts for the following years without further action by the employment appeal board. If only one collective bargaining agreement is in effect among the merged areas which are combining under this section, then that agreement shall serve as the base agreement, and the employees of the merged areas which are combining to form the new combined merged area shall automatically be accreted to the bargaining unit of that former merged area for purposes of negotiating the contracts for the following years without further action by the employment appeal board. The board of the combined merged area, using the base agreement as its existing contract, shall bargain with the combined employees of the merged areas that have agreed to combine for the academic year beginning with the effective date of the agreement to combine merged areas. The bargaining shall be completed by March 15 prior to the academic year in which the agreement to combine merged areas becomes effective or within one hundred eighty days after the organization of the acting board of the new combined merged area, whichever is later. If a bargaining agreement was already concluded in the former merged area which has the collective bargaining agreement that is serving as the base agreement for the new combined merged area, between the former merged area board and the employees of the former merged area, that agreement is void, unless the agreement contained multiyear provisions affecting academic years subsequent to the effective date of the agreement to form a combined merged area. If the base collective bargaining agreement contains multiyear provisions, the duration and effect of the agreement shall be controlled by the terms of the agreement. The provisions of the base agreement shall apply to the offering of new contracts, or the continuation, modification, or termination of existing contracts between the acting or new board of the combined merged area and the combined employees of the new combined merged area.

260C.47 Accreditation of community college programs.

1. The state board of education shall establish an accreditation process for community college programs. The process shall be jointly developed and agreed upon by the department and the community colleges. The state accreditation process shall be integrated with the accreditation process of a federally recognized accreditor of postsecondary educational institutions selected by the board, which shall incorporate the standards for community colleges developed under section 260C.48; and shall identify and make provision for the needs of the state that are not met by the accreditor's accreditation process. The department shall use a two-component process for the continued accreditation of community college programs.

a. The first component consists of submission of required data by the community colleges and annual monitoring by the department of all community colleges for compliance with state program evaluation requirements adopted by the state board.

b. The second component consists of the use of an accreditation team appointed by the director of the department, to conduct an evaluation, including an on-site visit of each community college, with a comprehensive evaluation occurring once every ten years, and an interim evaluation midway between comprehensive evaluations. The number and composition of the accreditation team shall be determined by the director, but the team shall include members of the department staff and community college staff members from community colleges other than the community college that conducts the programs being evaluated for accreditation. The accreditation team shall monitor the quality faculty plan implemented by each community college pursuant to section 260C.36.

c. Rules adopted by the state board shall include provisions for coordination of the accreditation process under this section with activities of accreditation agencies, which are designed to avoid duplication in the accreditation process.

2. Prior to a visit to a community college, members of the accreditation team shall have access to the program audit report filed with the department for that community college. After a visit to a community college, the accreditation team shall determine whether the accreditation standards for a program have been met and shall make a report to the director and the state board, together with a recommendation as to whether the program of the community college should remain accredited. The accreditation team shall report strengths and weaknesses, if any, for each program standard and shall advise the community college of available resources and technical assistance to further enhance strengths and improve areas of weakness. A community college may respond to the accreditation team's report.

3. The state board shall determine whether a program of a community college shall remain accredited. If the state board determines that a program of a community college does not meet accreditation standards, the director of the department, in cooperation with the board of directors of the community college, shall establish a plan prescribing the procedures that must be taken to correct deficiencies in meeting the program standards, and shall establish a deadline date for correction of the deficiencies. The deadline for correction of deficiencies under a plan shall be no later than June 30 of the year following the on-site visit of the accreditation team. The plan is subject to approval of the state board. Plans shall include components which address meeting program deficiencies, sharing or merger

UNOFFICIAL VERSION: NOT FOR RELEASE

options, discontinuance of specific programs or courses of study, and any other options proposed by the state board or the accreditation team to allow the college to meet the program standards.

4. During the time specified in the plan for its implementation, the community college program remains accredited. The accreditation team shall revisit the community college and shall determine whether the deficiencies in the standards for the program have been corrected and shall make a report and recommendation to the director and the state board. The state board shall review the report and recommendation, may request additional information, and shall determine whether the deficiencies in the program have been corrected.

5. If the deficiencies have not been corrected in a program of a community college, the community college board shall take one of the following actions within sixty days from removal of accreditation:

a. Merge the deficient program or programs with a program or programs from another accredited community college.

b. Contract with another educational institution for purposes of program delivery at the community college.

c. Discontinue the program or programs which have been identified as deficient.

6. The director of the department shall give a community college which has a program which fails to meet accreditation standards at least one year's notice prior to removal of accreditation of the program. The notice shall be given by certified mail or restricted certified mail addressed to the superintendent of the community college and shall specify the reasons for removal of accreditation of the program. The notice shall also be sent by ordinary mail to each member of the board of directors of the community college. Any good faith error or failure to comply with the notice requirements shall not affect the validity of any action by the director. If, during the year, the community college remedies the reasons for removal of accreditation of the program and satisfies the director that the community college will comply with the accreditation standards for that program in the future, the director shall continue the accreditation of the program of the community college and shall transmit notice of the action to the community college by certified mail or restricted certified mail.

7. The action of the director to remove a community college's accreditation of the program may be appealed to the state board. At the hearing, the community college may be represented by counsel and may present evidence. The state board may provide for the hearing to be recorded or reported. If requested by the community college at least ten days before the hearing, the state board shall provide for the hearing to be recorded or reported at the expense of the community college, using any reasonable method specified by the community college. Within ten days after the hearing, the state board shall render a written decision, and shall affirm, modify, or vacate the action or proposed action to remove the college's accreditation of the program. Action by the state board is final agency action for purposes of chapter 17A.

Except as provided in this subsection and subsection 4, standards developed shall be general in nature so as to apply to more than one specific program of instruction. With regard to community college-employed instructors, the standards adopted shall at a minimum require that community college instructors meet the following requirements:

certified, or licensed in the occupational area in which the state requires registration, certification, or licensure, and shall hold the appropriate registration, certificate, or license for the occupational area in which the instructor is teaching, and shall meet at least one of the following qualifications:

(a) Possess a baccalaureate or graduate degree in the area or a related area of study or occupational area in which the instructor teaches classes, or possess a baccalaureate degree in any area of study if at least eighteen of the credit hours completed were in the career and technical field of instruction in which the instructor teaches classes.

(b) Possess an associate degree in the career and technical education field of instruction in which the instructor is teaching, if such degree is considered terminal for that field of instruction, and have at least three thousand hours of recent and relevant work experience in the occupational area or related occupational area in which the instructor teaches classes.

(c) Have special training and at least six thousand hours of recent and relevant work experience in the occupational area or related occupational area in which the instructor teaches classes if the instructor possesses less than a baccalaureate degree in the area or related area of study or occupational area in which the instructor is teaching classes and the instructor does not meet the requirements of subparagraph (2).

(2) For purposes of subparagraph (1), subparagraph divisions (b) and (c), if the instructor is a licensed practitioner who holds a career and technical endorsement under chapter 256, subchapter VII, part 3, relevant work experience in the occupational area includes but is not limited to classroom instruction in a career and technical education subject area offered by a school district or accredited nonpublic school.

b. Instructors in the subject area of arts and sciences shall meet either of the following qualifications:

(1) Possess a master's degree from an accredited graduate school, and has successfully completed a minimum of twelve credit hours of graduate level courses in each field of instruction in which the instructor is teaching classes. For purposes of this subparagraph, *"accredited"* means that a graduate school meets the standards established by an accrediting agency recognized under 34 C.F.R. pt. 602 and by Tit. IV of the federal Higher Education Opportunity Act, Pub. L. No. 110-315.

(2) Have two or more years of successful experience in a professional field or area in which the instructor is teaching classes and in which postbaccalaureate recognition or professional licensure is necessary for practice, including but not limited to the fields or areas of accounting, engineering, law, law enforcement, and medicine.

2. Standards developed shall include a provision that the full-time teaching load for an instructor in arts and sciences courses shall be fifteen credit hours per semester, or the equivalent, and the maximum academic workload shall be sixteen credit hours per semester, or the equivalent. An instructor may also have an additional teaching assignment if the instructor and the community college administration mutually consent to the additional assignment and the total teaching load does not exceed twenty-two hours of credit per semester, or the equivalent.

3. Standards developed shall include provisions requiring equal access in recruitment, enrollment, and placement activities for students with special education needs. The provisions shall include a requirement that students with special education needs shall receive instruction in the least restrictive environment with access to the full range of program offerings at a college, through, but not limited to, adaptation of curriculum, instruction, equipment, facilities, career guidance, and counseling services.

4. Standards relating to quality assurance of faculty and ongoing quality professional development shall be the accreditation standards of similar accredited institutions of higher education that are consistent with the standards established pursuant to this section and the faculty standards required under specific programs offered by the community college that are accredited by other accrediting agencies. For purposes of this subsection, *"accredited"* means that an institution of higher education meets the standards established by an accrediting agency recognized under 34 C.F.R. pt. 602 and by Tit. IV of the federal Higher Education Opportunity Act, Pub. L. No. 110-315.

260C.57 Authorization — contracts — title.

Subject to and in accordance with the provisions of this subchapter, the board of directors of each community college is hereby authorized to undertake and carry out any project at a community college under the board's control and to operate, control, maintain, and manage student residence halls and dormitories, including dining and other incidental facilities, and additions to such buildings at each of said institutions. All contracts for the construction, reconstruction, completion, equipment, improvement, repair or remodeling of any buildings, additions or facilities shall be let in accordance with the provisions of section 260C.19. The title to all real estate acquired under the provisions of this subchapter and the improvements erected on the real estate shall be taken and held in the name of the merged area. The board is authorized to rent the rooms in such residence halls and dormitories to the students, officers, guests and employees of the institutions at such rates, fees or rentals as will provide a reasonable return upon the investment, but which will in any event produce net rents, profits and income sufficient to insure the payment of the principal of and interest on all bonds or notes issued to pay any part of the cost of any project and refunding bonds or notes issued pursuant to the provisions of this subchapter and to insure that no property tax revenues will be needed to retire the bonds or notes.

260C.58 Bonds or notes.

1. To pay all or any part of the cost of carrying out any project at any institution the board is authorized to borrow money and to issue and sell negotiable bonds or notes and to refund and refinance bonds or notes issued for any project or for refunding purposes at a lower rate, the same rate, or a higher rate or rates of interest and from time to time as often as the board shall find it to be advisable and necessary so to do. Bonds or notes issued by the board for residence hall or dormitory purposes at any institution, including dining or other facilities and additions, or issued for refunding purposes, may either be sold in the manner specified for the selling of certificates under section 260E.6 and the proceeds applied to the payment of the obligations being refunded, or the refunding bonds or notes may be exchanged for and in payment and discharge of the obligations being refunded. A finding by the board in the resolution authorizing the issuance of the refunding bonds or notes, that the bonds or notes being refunded were issued for a purpose specified in this subchapter and constitute binding obligations of the board, shall be conclusive and may be relied upon by any holder of any refunding bond or note issued under the provisions of this subchapter. The refunding bonds or notes may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds or notes may be exchanged in part or sold in parts in installments at different times or at one time. The refunding bonds or notes may be sold or exchanged at any time on, before, or after the maturity of any of the outstanding notes, bonds, or other obligations to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds or notes, except that the principal amount of the refunding bonds or notes may exceed the principal amount of the bonds or notes to be refunded to the extent necessary to pay any premium due on the call of the bonds or notes to be refunded, to fund interest in arrears or about to become due, or to allow for sufficient funding of the escrow account on the bonds to be refunded.

2. *a.* All bonds or notes issued under the provisions of this subchapter shall be payable from and shall be secured by an irrevocable first lien pledge of a sufficient portion of any of the following:

(1) The net rents, profits, and income derived from the operation of residence halls, dormitories, dining or other incidental facilities and additions, including necessary real and personal property, acquired or improved in whole or in part with the proceeds of such bonds or notes, regardless of the manner of such acquisition or improvement.

(2) The net rents, profits, and income not pledged for other purposes derived from the

b. In addition, the board may secure any bonds or notes issued by borrowing money, by mortgaging any real estate or improvements erected on real estate, or by pledging rents, profits, and income received from property for the discharge of mortgages. All bonds or notes issued under the provisions of this subchapter shall have all the qualities of negotiable instruments under the laws of this state.

260C.71 Community college bond program — definitions — funding — bonds and notes.

1. As used in this section and section 260C.72, unless the context otherwise requires:

a. "Authority" means the Iowa finance authority.

b. "Bonds" means revenue bonds which are payable solely as provided in this section and section 260C.72.

2. The authority shall cooperate with the state board, individual community colleges, and private developers, acting in conjunction with a community college to build housing facilities in connection with the community college, in the creation, administration, and funding of a community college dormitory bond program to finance housing facilities, such as dormitories, in connection with a community college.

3. The authority may issue its bonds and notes for the purpose of funding the nonrecurring cost of acquiring, constructing, and equipping a community college related facility, such as a dormitory.

4. The authority may issue its bonds and notes for the purposes of this chapter and may enter into one or more lending agreements or purchase agreements with one or more bondholders or noteholders containing the terms and conditions of the repayment of and the security for the bonds or notes. The authority and the bondholders or noteholders or a trustee agent designated by the authority may enter into agreements to provide for any of the following:

a. That the proceeds of the bonds and notes and the investments of the proceeds may be received, held, and disbursed by the authority or by a trustee or agent designated by the authority.

b. That the bondholders or noteholders or a trustee or agent designated by the authority may collect, invest, and apply the amount payable under the loan agreements or any other instruments securing the debt obligations under the loan agreements.

c. That the bondholders or noteholders may enforce the remedies provided in the loan agreements or other instruments on their own behalf without the appointment or designation of a trustee. If there is a default in the principal of or interest on the bonds or notes or in the performance of any agreement contained in the loan agreements or other instruments, the payment or performance may be enforced in accordance with the loan agreement or other instrument.

d. Other terms and conditions as deemed necessary or appropriate by the authority.

5. The powers granted the authority under this section are in addition to other powers contained in chapter 16. All other provisions of chapter 16, except section 16.28, subsection 4, apply to bonds or notes issued and powers granted to the authority under this section, except to the extent they are inconsistent with this section.

6. All bonds or notes issued by the authority in connection with the program are exempt from taxation by this state and the interest on the bonds or notes is exempt from state income tax, both personal and corporate.

1. *a.* The authority may provide in the resolution, trust agreement, or other instrument authorizing the issuance of its bonds or notes pursuant to section 260C.71 that the principal of, premium, and interest on the bonds or notes are payable from any of the following and may pledge the same to its bonds and notes:

(1) From the net rents, profits, and income arising from the project or property pledged or mortgaged.

UNOFFICIAL VERSION: NOT YEAR-END RELEASE

(2) From the net rents, profits, and income which has not been pledged for other purposes arising from any similar housing facility under the control and management of the community college or state board.

(3) From the fees or charges established by the community college or state board for students attending the institution who are living in the housing facility for which the obligation was incurred.

(4) From the income derived from gifts and bequests made to the institutions under the control of the community college or state board for such purposes.

(5) From the amounts on deposit in the name of a community college or a private developer or operator of a community college facility, including but not limited to revenues from a purchase, rental, or lease agreement, loan agreement, or dormitory charges.

(6) From the amounts payable to the authority, the community college board of directors, the state board, or a private developer or operator, pursuant to a loan agreement, lease agreement, or sale agreement.

(7) From the other funds or accounts established by the authority in connection with the program or the sale and issuance of its bonds or notes.

b. No obligation created hereunder shall ever be or become a charge against the state of Iowa but all such obligations, including principal and interest, shall be payable solely as provided in this section and section 260C.71.

2. The authority may establish reserve funds to secure one or more issues of its bonds or notes. The authority may deposit in a reserve fund established under this subsection, the proceeds of the sale of its bonds or notes and other money which is made available from any other source.

3. A pledge made in respect of bonds or notes is valid and binding from the time the pledge is made. The money or property so pledged and received after the pledge by the authority is immediately subject to the lien of the pledge without physical delivery or further act. The lien of the pledge is valid and binding as against all persons having claims of any kind in tort, contract, or otherwise against the authority whether or not the parties have notice of the lien. Neither the resolution, trust agreement, or any other instrument by which a pledge is created needs to be recorded, filed, or perfected under chapter 554, to be valid, binding, or effective against all persons.

4. The members of the authority or persons executing the bonds or notes are not personally liable on the bonds or notes and are not subject to personal liability or accountability by reason of the issuance of the bonds or notes.

5. The bonds or notes issued by the authority are not an indebtedness or other liability of the state or of a political subdivision of the state within the meaning of any constitutional or statutory debt limitations, but are special obligations of the authority and are payable solely from the income and receipts or other funds or property of the community college or private developer, and the amounts on deposit in a community college bond fund, and the amounts payable to the authority under its loan agreements with a community college or private developer to the extent that the amounts are designated in the resolution, trust agreement, or other instrument of the authority authorizing the issuance of the bonds or notes as being available as security for the bonds or notes. The authority shall not pledge the faith or credit of the state or of a political subdivision of the state to the payment of any bonds or notes. The issuance of any bonds or notes by the authority does not directly, indirectly, or contingently obligate the state or a political subdivision of the state to apply money from, or levy, or pledge any form of taxation whatever to the payment of the bonds or notes.

The taxes received by the board of directors shall be allocated to and when collected be paid into a special fund of the community college and may be irrevocably pledged by the community college to pay the principal of and interest on the certificates issued by the community college to finance or refinance, in whole or in part, the project. If the amount of the withholding by the employer is less than one and one-half percent of the gross wages paid to the employees covered by the

agreement, then the employer shall receive a credit against other withholding taxes due by the employer. The employer shall remit the amount of the credit quarterly in the same manner as withholding payments are reported to the department of revenue, to the community college to be allocated to and when collected paid into a special fund of the community college to pay the principal of and interest on certificates issued by the community college to finance or refinance, in whole or in part, the project. When the principal and interest on the certificates have been paid, the employer credits shall cease and any money received after the certificates have been paid shall be remitted to the treasurer of state to be deposited in the general fund of the state.

3. The new jobs credit from withholding and the special fund into which it is paid, may be irrevocably pledged by a community college for the payment of the principal of and interest on the certificate issued by a community college to finance or refinance, in whole or in part, the project.

4. The employer shall certify to the department of revenue that the credit in withholding is in accordance with an agreement and shall provide other information the department may require.

260E.6 Certificates.

To provide funds for the present payment of the costs of new jobs training programs, a community college may borrow money and issue and sell certificates payable from a sufficient portion of the future receipts of payments authorized by the agreement. The receipts shall be pledged to the payment of principal of and interest on the certificates.

1. Certificates may be sold at public sale or at private sale at par, premium, or discount at the discretion of the board of directors. Chapter 75 does not apply to the issuance of these certificates.

2. Certificates may be issued with respect to a single project or multiple projects and may contain terms or conditions as the board of directors may provide by resolution authorizing the issuance of the certificates.

3. Certificates issued to refund other certificates may be sold at public sale or at private sale as provided in this section with the proceeds from the sale to be used for the payment of the certificates being refunded. The refunding certificates may be exchanged in payment and discharge of the certificates being refunded, in installments at different times or an entire issue or series at one time. Refunding certificates may be sold or exchanged at any time on, before, or after the maturity of the outstanding certificates to be refunded, may be issued for the purpose of refunding a like, greater, or lesser principal amount of certificates and may bear a higher, lower, or equivalent rate of interest than the certificates being renewed or refunded.

4. To further secure the payment of the certificates, the board of directors shall, by resolution, provide for the assessment of an annual levy of a standby tax upon all taxable property within the merged area. A copy of the resolution shall be sent to the county auditor of each county in which the merged area is located. The revenues from the standby tax shall be deposited in a special fund and shall be expended only for the payment of principal

UNOFFICIAL VERSION: 2026 EARLY RELEASE

of and interest on the certificates issued as provided in this section, when the receipt of payment for program costs as provided in the agreement is insufficient. If payments are necessary and made from the special fund, the amount of the payments shall be promptly repaid into the special fund from the first available payments received for program costs as provided in the agreement which are not required for the payment of principal of or interest on certificates due. No reserves may be built up in this fund in anticipation of a projected default. The board of directors shall adjust the annual standby tax levy for each year to reflect the amount of revenues in the special fund and the amount of principal and interest which is due in that year.

5. Before certificates are issued, the board of directors shall publish once a notice of its intention to issue the certificates, stating the amount, the purpose, and the project or projects for which the certificates are to be issued. A person may, within fifteen days after the publication of the notice by action in the district court of a county in the area within which the community college is located, appeal the decision of the board of directors in proposing to issue the certificates. The action of the board of directors in determining to issue the certificates is final and conclusive unless the district court finds that the board of directors has exceeded its legal authority. An action shall not be brought which questions the legality of the certificates, the power of the board of directors to issue the certificates, the effectiveness of any proceedings relating to the authorization of the project, or the authorization and issuance of the certificates from and after fifteen days from the publication of the notice of intention to issue.

6. The board of directors shall determine if revenues are sufficient to secure the faithful performance of obligations in the agreement.

It is declared that for the benefit of the people of the state of Iowa, the conduct and increase of their commerce, the protection and enhancement of their welfare, the development of continued prosperity and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the fullest opportunity to learn and to develop their intellectual and mental capacities and skills; that to achieve these ends it is of the utmost importance that students attending institutions of higher education located in Iowa have reasonable financial alternatives to enhance their access to such institutions; that reasonable financial access to institutions of higher education will assist youth in achieving the optimum levels of learning and development of their intellectual and mental capacities and skills; that it is the purpose of this chapter to provide a measure of assistance and an alternative method to enable students and the families of students attending institutions of higher education located in Iowa to appropriately and prudently finance the cost or a portion of the cost of higher education; and that it is the intent of this chapter to supplement federal guaranteed higher education loan programs, other student loan programs, and grant or scholarship programs to provide the needed additional options for the financing of a student's higher education in execution of the public policy set forth above.

261A.3 Legislative findings.

The general assembly finds as follows:

1. The establishment of the authority is in all respects for the benefit of the people of the state of Iowa, for the improvement of their education, health and welfare, and for the promotion of the economy, which are public purposes.
2. The authority will be performing an essential governmental function in the exercise of the powers and duties conferred upon it by this chapter.
3. There exists a serious problem in this state regarding the ability of students to obtain financing for the cost of education beyond the high school level.
4. Escalating costs of securing such an education have contributed to the difficulties faced by students in attempting to finance an education.
5. Without public action as contemplated by this chapter, many students will be forced to postpone or abandon plans for obtaining additional education.
6. It is in the interests and welfare of the citizens of the state to provide a means for assisting students to continue their education.
7. Without public action as contemplated by this chapter, the inability to obtain educational financing will result in declining enrollments at institutions of higher education.
8. It is necessary to create a higher education loan authority to encourage the investment of private capital in the provision of funds for the financing of student loans.
9. All of the purposes stated in this section are public purposes and uses for which public moneys may be borrowed, expended, advanced, loaned, or granted.

1. The authority consists of five members to be appointed by the governor subject to confirmation by the senate. The powers of the authority are vested in and exercised by the members of the authority. Each member of the authority shall be a resident of the state and not more than three members shall be members of the same political party.

2. *a.* For members appointed prior to July 1, 2024, members of the authority shall be appointed by the governor for terms of six years beginning and ending as provided in section 69.19. A member of the authority is eligible for reappointment.

b. For members appointed on or after July 1, 2024, members of the authority shall be appointed by the governor for terms of four years beginning and ending as provided in section 69.19. A member of the authority shall not serve more than two full terms.

c. The governor shall fill a vacancy for the remainder of the unexpired term. A member of the authority may be removed by the governor for misfeasance, malfeasance, or willful neglect of duty or other cause after notice and a public hearing unless the notice and hearing are waived by the member in writing.

documents of the authority and may give certificates under the official seal of the authority that the copies are true copies, and persons dealing with the authority may rely upon the certificates.

The majority shall not include a member who has a conflict of interest and a statement by a member of a conflict of interest is conclusive for this purpose. A vacancy in the membership of the authority does not impair the right of a quorum to exercise the rights and perform the duties of the authority. An action taken by the authority under this chapter may be authorized by resolution at a regular or special meeting, and each resolution shall take effect immediately and need not be published or posted, except as provided in section 261A.25. The general assembly finds:

1. For the benefit of the people of the state of Iowa, the increase of their commerce, welfare, and prosperity, and the improvement of their health and living conditions, it is essential that this and future generations of youth be given the greatest opportunity to learn and to fully develop their intellectual and mental capacities and skills.

2. To achieve these ends it is of the utmost importance that educational institutions within the state be provided with appropriate additional means of assisting the youth in achieving the required levels of learning and development of their intellectual and mental capacities and skills through new or enhanced physical facilities and equipment at these institutions.

3. The financing and refinancing of educational facilities, through means as described in this subchapter, other than the appropriation of public funds to institutions, is a valid public purpose.

The authority may undertake a project for two or more institutions jointly or for any combination of institutions, and may combine for financing purposes, with the consent of all of the institutions which are involved, the project and some or all future projects of any institution or institutions, and this subchapter applies to and is for the benefit of the authority and the joint participants. However, the money set aside in a fund or funds pledged for any series or issue of obligations shall be held for the sole benefit of the series or issue separate and apart from money pledged for another series or issue of obligations of the authority. To facilitate the combining of projects, obligations may be issued in series under one or more resolutions or trust agreements and may be fully open-ended, thus providing for the unlimited issuance of additional series, or partially open-ended, limited as to additional series. The authority may permit an institution to substitute one or more projects of equal value, as determined by an independent appraiser satisfactory to the authority, for a project financed under this subchapter on terms and subject to conditions the authority prescribes.

261A.42 Obligations.

1. The authority may provide by resolution for the issuance of obligations for the purpose of paying, refinancing, or reimbursing all or part of the cost of a project. Except to the extent payable from payments to be made on federally guaranteed securities as provided in section 261A.45, the principal of and the interest on the obligations shall be payable solely out of the revenue of the authority derived from the project to which they relate and from other facilities pledged or made available for this purpose by the institution for whose benefit the obligations were issued. The obligations of each issue shall be dated, shall bear interest at rate or rates, without regard to any limit contained in any other statute or law of the state, and shall mature at times not exceeding forty years from the date of issuance, all as determined by the authority; and may be made redeemable before maturity at the prices and under terms fixed by the authority in the authorizing resolution.

2. Except as otherwise provided by this subchapter, the obligations are to be paid solely out of the revenue of the project to which they relate and, in certain instances, out of the revenue of certain other facilities, and subject to section 261A.45 with respect to a pledge of government securities, the obligations may be unsecured or secured in the manner and to the extent determined by the authority. The authority shall determine the form of the obligations, including interest coupons, if any, to be attached, and shall fix the denominations of the obligations and the places of payment of principal and interest which may be at any bank or trust company within or without the state. The obligations and coupons attached, if any, shall be executed by the manual or facsimile signatures of officers of the authority designated by

the authority. If an official of the authority whose signature or a facsimile of whose signature appears on any obligations or coupons ceases to be an official before the delivery of the obligations, the signature or facsimile, nevertheless, is valid and sufficient for all purposes the same as if the individual had remained an official of the authority until delivery. Obligations issued under this subchapter have all the qualities and incidents of negotiable instruments, notwithstanding this payment from limited sources and without regard to any other law. The obligations may be issued in coupon or in registered form, or both, and one form may be exchangeable for the other in the manner as the authority may determine. Provision may be made for the registration of any coupon obligations as to principal alone and also as to both principal and interest, and for the reconversion into coupon obligations of any obligations registered as to both principal and interest. The obligations may be sold in the manner, either at public or private sale, as the authority determines.

3. The proceeds of the obligations of each issue shall be used solely for the payment of the cost of the project for which the obligations have been issued, and shall be disbursed in the manner and under the restrictions, if any, as the authority provides in the resolution authorizing the issuance of the obligations or in the trust agreement provided for in section 261A.44 securing the obligations. If the proceeds of the obligations of an issue, by error of estimates or otherwise, are less than the costs, additional obligations may in like manner be issued to provide the amount of the deficit, and, unless otherwise provided in the resolution authorizing the issuance of the obligations or in the trust agreement securing them, shall be deemed to be of the same issue and shall be entitled to payment from the same fund without preference or priority of the obligations first issued. If the proceeds of the obligations of an issue shall exceed the cost of the project for which the same shall have been issued, the surplus shall be deposited to the credit of the sinking fund for the obligations. Prior to the preparation of definitive obligations, the authority may, under like restrictions, issue interim receipts or temporary obligations, with or without coupons, exchangeable for definitive obligations when the obligations have been executed and are available for delivery.

4. The authority may also provide for the replacement of obligations which become mutilated or are destroyed or lost. Obligations may be issued under this subchapter without obtaining the consent of an officer, department, division, commission, board, bureau, or agency of the state, and without other proceedings or conditions other than those which are specifically required by this subchapter. The authority may purchase its bonds out of funds available for that purpose. The authority may hold, pledge, cancel, or resell the obligations, subject to and in accordance with any agreement with the obligation holders. Members of the authority and any person executing the obligations are not liable personally on the obligations or subject to personal liability or accountability by reason of the issuance of the obligations.

261A.43 Resolution provisions.

The resolution authorizing obligations or an issue of obligations may contain provisions, which shall be a part of the contract with the holders of the obligations to be authorized, as to:

1. Pledging or assigning the revenue of the project with respect to which the obligations are to be issued or the revenue of other property or facilities.

2. Setting aside reserves or sinking funds, and the regulation, investment, and disposition of them.

3. Limitations on the use of the project.

4. Limitations on the purpose to which or the investments in which the proceeds of sale of an issue of obligations then or thereafter to be issued may be applied and pledging the proceeds to secure the payment of the obligations or an issue of the obligations.

5. Limitations on the issuance of additional obligations, the terms upon which additional obligations may be issued and secured, and the refunding of outstanding obligations.

6. The procedure, if any, by which the terms of any contract with obligation holders may be amended or abrogated, the amount of obligations the holders of which must consent to the amendment or abrogation, and the manner in which the consent may be given.

7. Limitations on the amount of money derived from the project to be expended for operating, administrative, or other expenses of the authority.

8. Defining the acts or omissions to act which constitute a default in the duties of the authority to holders of its obligations and providing the rights and remedies of the holders in the event of a default.

9. Mortgaging a project and the project site or other property for the purpose of securing the obligation holders.

10. Other matters relating to the obligations which the authority deems desirable.

85 Acts, ch 210, §13

261A.44 Obligations secured by trust agreement.

1. Obligations issued under this subchapter may be secured by a trust agreement by and between the authority and an incorporated trustee, which may be a trust company or bank having the powers of a trust company within or without the state. The trust agreement or the resolution providing for the issuance of the obligations may pledge or assign the revenue to be received or proceeds of any contract pledged and may convey or mortgage the project or any portion of the project.

2. A pledge or assignment made by the authority pursuant to this section is valid and binding from the time that the pledge or assignment is made, and the revenue pledged and thereafter received by the authority is immediately subject to the lien of the pledge or assignment without physical delivery or any further act. The lien of the pledge or assignment is valid and binding against all parties having claims of any kind in tort, contract, or otherwise against the authority irrespective of whether the parties have notice of the lien.

3. The resolution or trust agreement by which a pledge is created or an assignment made shall be filed or recorded in the records of the authority, with the secretary of state, and in each county in which the project is located.

4. The trust agreement or resolution providing for the issuance of the obligations may contain provisions for protecting and enforcing the rights and remedies of the obligation holders as are reasonable and proper, not in violation of law, or provided for in this subchapter. A bank or trust company incorporated under the laws of this state which acts as depository of proceeds of the obligations, revenue, or other money shall furnish the indemnifying obligations or pledge the securities as required by the authority. The trust agreement may set forth the rights and remedies of the obligation holders and of the trustee, and may restrict the individual right of action by obligation holders. The trust agreement or resolution may contain other provisions the authority deems reasonable and proper for the security of the obligation holders.

5. Expense incurred in carrying out the trust agreement or resolution may be treated as a part of the cost of the operation of a project.

261A.45 Obligations issued to acquire federally guaranteed securities.

1. The authority may finance the cost of a project, refund outstanding indebtedness, or reimburse advances from an endowment or similar fund of an institution as authorized by this subchapter, by issuing its obligations pursuant to a plan of financing involving the acquisition of a federally guaranteed security or the acquisition or entering into of commitments to acquire a federally guaranteed security. For the purposes of this section, "*federally guaranteed security*" means any direct obligation of, or obligation the principal of and interest on which are fully guaranteed or insured by the United States, or an obligation issued by, or the principal of and interest on which are fully guaranteed or insured by any agency or instrumentality of the United States, including without limitation an obligation that is issued pursuant to the National Housing Act, or any successor provision of law.

2. The authority may acquire or enter into commitments to acquire a federally guaranteed security and pledge or otherwise use the federally guaranteed security in the manner the authority deems in its best interest to secure or otherwise provide a source of repayment of its obligations issued to finance or refinance a project, or may enter into an appropriate

agreement with an institution whereby the authority may make a loan to the institution for the purpose of acquiring or entering into commitments to acquire a federally guaranteed security. An agreement entered into pursuant to this section may contain provisions deemed necessary or desirable by the authority for the security or protection of the authority or the holders of the obligations, except that the authority, prior to making an acquisition, commitment, or loan, shall determine and enter into an agreement with the institution or another appropriate institution to require that the proceeds derived from the acquisition of a federally guaranteed security will be used, directly or indirectly, for the purpose of financing or refinancing a project.

3. The obligations issued pursuant to this section shall not exceed in principal amount the cost of financing or refinancing the project as determined by the participating institution and approved by the authority, except that the costs may include, without limitation, all costs and expenses necessary or incidental to the acquisition of or commitment to acquire a federally guaranteed security and to the issuance and obtaining of insurance or guarantee of an obligation issued or incurred in connection with a federally guaranteed security. In other respects the bonds are subject to this subchapter, and the trust agreement creating the bonds may contain provisions set forth in this subchapter as the authority deems appropriate.

4. If a project is financed or refinanced pursuant to this section, the title to the project shall remain in the participating institution owning the project, subject to the lien of a mortgage or security interest securing, directly or indirectly, the federally guaranteed securities being purchased or to be purchased.

Obligations issued pursuant to this subchapter are not debts of the state or of any political subdivision of the state or a pledge of the faith and credit of the state or of any political subdivision, but the obligations are limited obligations of the authority payable solely from the funds or securities, pledged for their payment as authorized in this subchapter, unless the obligations are refunded by refunding obligations issued under this subchapter, which refunding obligations shall be payable solely from funds or securities pledged for their payment as authorized in this subchapter. All revenue obligations shall contain on their face a statement to the effect that the obligations, as to both principal and interest, are not obligations of the state, or of any political subdivision of the state, but are limited obligations of the authority payable solely from revenue or securities pledged for their payment. Expenses incurred in carrying out this subchapter are payable solely from funds provided under this subchapter, and this subchapter does not authorize the authority to incur indebtedness or liability on behalf of or payable by the state or any political subdivision of the state.

The funds shall be deposited, held, and secured as determined by the authority, except to the extent provided otherwise in the resolution authorizing the issuance of the related obligations or in the trust agreement securing the obligations. The resolution authorizing the issuance of the obligations or the trust agreement securing the obligations shall provide that an officer, bank or trust company to which the money is entrusted shall act as trustee of the money and shall hold and apply the money for the purposes of this subchapter, subject to the provisions of this subchapter and of the authorizing resolution or trust agreement.

As used in this chapter, unless the context otherwise requires, *"commission"* means the midwestern higher education compact commission.

2005 Acts, ch 145, §1

261D.2 Midwestern higher education compact.

The midwestern higher education compact is entered into with all other states which enter into the compact in substantially the following form:

1. *Article I — Purpose.* The purpose of the midwestern higher education compact shall be to provide greater higher education opportunities and services in the midwestern region, with the aim of furthering regional access to, research in, and choice of higher education for the citizens residing in the several states which are parties to this compact.

2. *Article II — The commission.*

a. The compacting states create the midwestern higher education commission. The commission shall be a body corporate of each compacting state. The commission shall have all the responsibilities, powers, and duties set forth in this chapter, including the power to sue and be sued, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

b. The commission shall consist of five resident members of each state as follows: the governor or the governor's designee, who shall serve during the tenure of office of the governor; two legislators, one from each house (except Nebraska, which may appoint two legislators from its unicameral legislature), who shall serve two-year terms and be appointed by the appropriate appointing authority in each house of the legislature; and two other at-large members, at least one of whom shall be selected from the field of higher education. The at-large members shall be appointed in a manner provided by the laws of the appointing state. One of the two at-large members initially appointed in each state shall serve a two-year term. The other, and any regularly appointed successor to either at-large member, shall serve a four-year term. All vacancies shall be filled in accordance with the laws of the appointed states. Any commissioner appointed to fill a vacancy shall serve until the end of the incomplete term.

c. The commission shall select annually, from among its members, a chairperson, a vice chairperson, and a treasurer.

f. Each compacting state represented at any meeting of the commission is entitled to one vote. A majority of the compacting states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the commission.

3. *Article III — Powers and duties of the commission.*

a. The commission shall adopt a seal and suitable bylaws governing its management and operations.

b. Irrespective of the civil service, personnel, or other merit system laws of any of the compacting states, the commission in its bylaws shall provide for the personnel policies and programs of the compact.

c. The commission shall submit a budget to the governor and legislature of each compacting state at such time and for such period as may be required. The budget shall contain specific recommendations of the amount or amounts to be appropriated by each of the compacting states.

d. The commission shall report annually to the legislatures and governors of the compacting states, to the midwestern governors' conference, and to the midwestern legislative conference of the council of state governments concerning the activities of the commission during the preceding year. Such reports shall also embody any recommendations that may have been adopted by the commission.

e. The commission may borrow, accept, or contract for the services of personnel from any state or the United States or any subdivision or agency, from any interstate agency, or from any institution, foundation, person, firm, or corporation.

f. The commission may accept for any of its purposes and functions under the compact any and all donations and grants of money, equipment, supplies, materials, and services (conditional or otherwise) from any state or the United States or any subdivision or agency thereof, or interstate agency, or from any institution, foundation, person, firm, or corporation, and may receive, utilize, and dispose of the same.

g. The commission may enter into agreements with any other interstate education organizations or agencies and with higher education institutions located in nonmember states and with any of the various states of these United States to provide adequate programs and services in higher education for the citizens of the respective compacting states. The commission shall, after negotiations with interested institutions and interstate organizations or agencies, determine the cost of providing the programs and services in higher education for use of these agreements.

h. The commission may establish and maintain offices, which shall be located within one or more of the compacting states.

i. The commission may establish committees and hire staff as it deems necessary for the carrying out of its functions.

b. The commission shall study issues in higher education of particular concern to the midwestern region. The commission shall also study the needs for higher education programs and services in the compacting states and the resources for meeting such needs. The commission shall from time to time prepare reports on such research for presentation to the governors and legislatures of the compacting states and other interested parties. In conducting such studies, the commission may confer with any national or regional planning body. The commission may redraft and recommend to the governors and legislatures of the various compacting states suggested legislation dealing with problems of higher education.

c. The commission shall study the need for provision of adequate programs and services

UNOFFICIAL VERSION: 2021 EARLY RELEASE

in higher education, such as undergraduate, graduate, or professional student exchanges in the region. If a need for exchange in a field is apparent, the commission may enter into such agreements with any higher education institution and with any of the compacting states to provide programs and services in higher education for the citizens of the respective compacting states. The commission shall, after negotiations with interested institutions and the compacting states, determine the costs of providing the programs and services in higher education for use in its agreements. The contracting states shall contribute the funds not otherwise provided, as determined by the commission, for carrying out the agreements. The commission may also serve as the administrative and fiscal agent in carrying out agreements for higher education programs and services.

c. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the commission.

d. The accounts of the commission shall be open at any reasonable time for inspection by duly authorized representatives of the compacting states and persons authorized by the commission.

7. *Article VII — Withdrawal, default, and termination.*

a. Any compacting state may withdraw from this compact by enacting a statute repealing the compact, but such withdrawal shall not become effective until two years after the enactment of such statute. A withdrawing state shall be liable for any obligations which it may have incurred on account of its party status up to the effective date of withdrawal, except that if the withdrawing state has specifically undertaken or committed itself to any performance of an obligation extending beyond the effective date of withdrawal, it shall remain liable to the extent of such obligation.

b. If any compacting state shall at any time default in the performance of any of its obligations, assumed or imposed, in accordance with the provisions of this compact, all rights, privileges, and benefits conferred by this compact or agreements hereunder shall be suspended from the effective date of such default as fixed by the commission, and the commission shall stipulate the conditions and maximum time for compliance under which the defaulting state may resume its regular status. 2. *a.* (1) Students from accredited nonpublic schools, students receiving competent private instruction or independent private instruction under chapter 299A, and students from charter schools established pursuant to chapter 256E may access the program through the school district in which the accredited nonpublic school, private institution, or charter school is located.

(2) Students from charter schools established pursuant to chapter 256E that provide educational instruction and course content that is delivered entirely over the internet may access the program through the students' school district of residence.

b. (1) Students from accredited nonpublic schools may also access the program if the accredited nonpublic school in which the students are enrolled meets the requirements of this section and section 257.11, subsection 3, as if the accredited nonpublic school were a school district, and enters into a contract with a community college that meets the requirements of this section and section 257.11, subsection 3, for the provision of academic or career and technical coursework to high school students enrolled in the accredited nonpublic school. However, the accredited nonpublic school need not meet requirements for career and technical education more stringent than the requirements of section 256.11B. A student who wishes to participate in the program must make application to the accredited nonpublic school and the community college in the manner established under subsection 3 and meet the requirements of this section.

(2) An accredited nonpublic school that provides units of mathematics, science, and career and technical education under an agreement that meets the requirements of subparagraph (1) shall be deemed to have met the education program requirement for the units of mathematics, science, and career and technical education provided, as applicable, under section 256.11, subsection 5, paragraph *"a"*, *"d"*, or *"e"*, or section 256.11B.

(a) Subject to an appropriation of funds by the general assembly for this purpose, a student enrolled in a unit of coursework provided under this subparagraph shall be counted as if the student was assigned a weighting under section 257.11, subsection 3, paragraph *"b"*, in determining the amount calculated and paid to a community college under subparagraph (4), if the accredited nonpublic school is accredited under the standards required of a school district pursuant to section 256.11, the number of students enrolled in a class used to meet the unit requirement exceeds five, and the accredited nonpublic school's total enrollment in grades nine through twelve does not exceed two hundred pupils.

(b) A student enrolled in a unit of coursework provided under this subparagraph is not eligible to be counted as if the student was assigned a weighting under section 257.11, subsection 3, paragraph *"b"*, in determining the amount calculated and paid to a community college under subparagraph (4), if the accredited nonpublic school's total enrollment in grades nine through twelve exceeds two hundred pupils.

(3) A community college that enters into a contract as provided in this paragraph shall submit to the department, during the fall and spring semesters, or the equivalent, a list of the accredited nonpublic school students enrolled for the semester, or the equivalent, who are participating in the program. The community college and the accredited nonpublic school shall verify to the department that the accredited nonpublic school and the coursework provided under this paragraph meet the requirements of this section and section 257.11, subsection 3, and shall provide to the department data and information elements as required under subsection 9 by rule.

(4) Subject to an appropriation of funds by the general assembly for this purpose, the department shall calculate, using the state cost per pupil, and pay to a community college for each semester in which a student is concurrently enrolled in the community college in accordance with this paragraph *"b"* an amount equivalent to the amount a school district

would receive if the student was assigned a weighting under section 257.11, subsection 3, paragraph *"b"*. If the amount appropriated annually for purposes of this paragraph *"b"* is insufficient to pay to community colleges the full amount for students concurrently enrolled in a community college in accordance with this paragraph *"b"*, the department shall annually prorate the amount for payments to community colleges for the concurrent enrollment of accredited nonpublic students under this paragraph *"b"*. A community college shall decrease the amount billed to the accredited nonpublic school by the amount calculated and paid to the community college by the department in accordance with this paragraph.

3. A student may make application to a community college and the school district to allow the student to enroll for college credit in a course offered by the community college. A comparable course, as defined in rules adopted by the board of directors of the school district, must not be offered by the school district or accredited nonpublic school which the student attends. The school board shall annually approve courses to be made available for high school credit using locally developed criteria that establishes which courses will provide the student with academic rigor and will prepare the student adequately for transition to a postsecondary institution. If a community college accepts a student for enrollment under this section, the school district, in collaboration with the community college, shall send written notice to the student, the student's parent or legal guardian in the case of a minor child, and the student's school district. The notice shall list the course, the clock hours the student will be attending the course, and the number of hours of college credit that the student will receive from the community college upon successful completion of the course.

4. A school district shall grant high school credit to a student enrolled in a course under this chapter if the student successfully completes the course as determined by the community college and the course was previously approved by the school board pursuant to subsection 3. The board of directors of the school district shall determine the number of high school credits that shall be granted to a student who successfully completes a course.

5. District-to-community college sharing agreements or concurrent enrollment programs that meet the requirements of section 257.11, subsection 3, are eligible for funding under that provision.

6. Community colleges shall comply with the data collection requirements of section 260C.14, subsection 21.

7. A student enrolled in a career and technical course made available pursuant to subsection 1 is exempt from the proficiency requirements of section 261E.3, subsection 1, paragraph *"e"*. However, a community college may require a student who applies for enrollment under a district-to-community college sharing or concurrent enrollment program to complete an initial assessment administered by the community college receiving the application to determine the applicant's readiness to enroll in career and technical coursework, and the community college may deny the enrollment.

8. Subject to an appropriation of funds by the general assembly for this purpose, the department shall establish a program to provide additional funds for resident high school pupils enrolled in grades nine through twelve to attend a community college for college-level classes or attend a class taught by a community college-employed instructor through a contractual agreement between a community college and a school district that satisfies the requirements for classes under section 257.11, subsection 3, except that the classes eligible for funding under this program are offered during the summer and outside of the regular school year and are aligned with career pathways leading to postsecondary credentials and high-demand jobs designated by the workforce development board or a community college pursuant to section 84A.1B, subsection 3. A community college shall not charge students tuition for a class offered partially or completely outside of the regular school year under this program.

teaching, discussion, and debate. This statement shall provide that, to fulfill this function, the institution must strive to ensure the fullest degree of intellectual freedom and free expression allowed under the first amendment to the Constitution of the United States.

b. (1) That it is not the proper role of an institution of higher education to shield individuals from speech protected by the first amendment to the Constitution of the United States, which may include ideas and opinions the individual finds unwelcome, disagreeable, or even offensive.

(2) That it is the proper role of an institution of higher education to encourage diversity of thoughts, ideas, and opinions and to encourage, within the bounds of the first amendment to the Constitution of the United States, the peaceful, respectful, and safe exercise of first amendment rights.

c. That students and faculty have the freedom to discuss any problem that presents itself, assemble, and engage in spontaneous expressive activity on campus, within the bounds of established principles of the first amendment to the Constitution of the United States, and subject to reasonable time, place, and manner restrictions that are consistent with established first amendment principles.

d. That the outdoor areas of campus of an institution of higher education are public forums, open on the same terms to any invited speaker subject to reasonable time, place, and manner restrictions that are consistent with established principles of the first amendment to the Constitution of the United States.

2. The state board of regents shall develop materials, programs, and procedures to ensure that those persons who are responsible for discipline, instruction, or administration of the campus community, or who have oversight of student government organizations, or distribute activity fee funds, including but not limited to presidents, vice-presidents, deans, department directors, administrators, campus police officers, residence life officials, faculty, and members of student government organizations, understand the policies, regulations, and duties of the institution regarding free expression on campus consistent with this chapter.

3. *a.* Each public institution of higher education shall protect the first amendment rights of the institution's students, staff, and faculty and shall establish and publicize policies that prohibit institutional restrictions and penalties based on protected speech, including political speech, to the fullest extent required by the first amendment to the Constitution of the United States. A public institution of higher education shall not retaliate against a member of the campus community who files a complaint for a violation of this subsection pursuant to section 261H.5.

b. If it is determined, after exhaustion of all available administrative and judicial appeals, that a faculty member knowingly and intentionally restricts the protected speech or otherwise penalizes a student in violation of this subsection, the faculty member shall be subject to discipline by the institution through the normal disciplinary processes of the institution, and such discipline may include termination depending on the totality of the facts. If the faculty member is licensed by the board of educational examiners under chapter 256, subchapter VII, part 3, the board of educational examiners shall conduct a hearing pursuant to section 256.158, and the faculty member may be subject to disciplinary action by the board.

2. A member of the campus community who wishes to engage in noncommercial expressive activity in outdoor areas of campus shall be permitted to do so freely, subject to reasonable time, place, and manner restrictions, and as long as the member's conduct is not unlawful, does not impede others' access to a facility or use of walkways, and does

not disrupt the functioning of the public institution of higher education, subject to the protections of subsection 1. The public institution of higher education may designate other areas of campus available for use by the campus community according to institutional policy, but in all cases access to designated areas of campus must be granted on a viewpoint-neutral basis within the bounds of established principles of the first amendment to the Constitution of the United States.

3. A public institution of higher education shall not deny benefits or privileges available to student organizations based on the viewpoint of a student organization or the expression of the viewpoint of a student organization by the student organization or its members protected by the first amendment to the Constitution of the United States. In addition, a public institution of higher education shall not deny any benefit or privilege to a student organization based on the student organization's requirement that the leaders of the student organization agree to and support the student organization's beliefs, as those beliefs are interpreted and applied by the organization, and to further the student organization's mission.

4. This section shall not be interpreted as limiting the right of student expression in a counter demonstration held in an outdoor area of campus as long as the conduct at the counter demonstration is not unlawful, does not materially and substantially prohibit the free expression rights of others in an outdoor area of campus or disrupt the functioning of the public institution of higher education, and does not impede others' access to a facility or use of walkways, subject to reasonable time, place, and manner restrictions that are consistent with established principles of the first amendment to the Constitution of the United States.

5. This chapter shall not be interpreted as preventing public institutions of higher education from prohibiting, limiting, or restricting expression that the first amendment to the Constitution of the United States does not protect, including but not limited to a threat of serious harm and expression directed or likely directed to provoke imminent unlawful actions; or from prohibiting harassment, including but not limited to expression which is so severe, pervasive, and subjectively and objectively offensive that the expression unreasonably interferes with an individual's access to educational opportunities or benefits provided by a public institution of higher education.

1. The outdoor areas of campuses of public institutions of higher education in this state shall be deemed public forums. Public institutions of higher education may maintain and enforce clear, published, reasonable viewpoint-neutral time, place, and manner restrictions that are narrowly tailored in furtherance of a significant institutional interest, but shall allow members of the campus community to engage in spontaneous expressive activity and to distribute literature. Restrictions instituted by a public institution of higher education under this section shall provide for ample alternative means of expression.

2. Except as provided in this chapter, and subject to reasonable time, place, and manner restrictions, a public institution of higher education shall not designate any area of campus a free-speech zone or otherwise create policies restricting expressive activities to a particular outdoor area of campus.

3. Nothing in this chapter shall be construed to grant individuals the right to engage in conduct that intentionally, materially, and substantially disrupts the expressive activity of a person or student organization if the public institution of higher education has reserved space in an outdoor area of campus for activity by the person or student organization in accordance with this chapter.

261H.7 Student government organizations — student fees — appeals — liability.

1. Each institution of higher education governed by the state board of regents shall make a student government organization's access to and authority over any moneys disbursed to the student government organization by the institution contingent upon the student government organization's compliance with the first amendment to the Constitution of the United States and the provisions of this chapter.

15. In issuing bonds or notes under this chapter, chapter 262A, chapter 263A, or other provision of law, select and fix the compensation for, through a competitive selection procedure, attorneys, accountants, financial advisors, banks, underwriters, insurers, and other employees and agents which in the board's judgment are necessary to carry out the board's intention. Prior to the initial selection, the board shall establish a procedure which provides for a fair and open selection process including but not limited to the opportunity to present written proposals and personal interviews. The board shall maintain a list of firms which have requested to be notified of requests for proposal. The selection criteria shall take into consideration, but are not limited to, compensation, expenses, experience with similar issues, scheduling, ability to provide the services of individuals with specific knowledge in the relevant subject matter and length of engagement. The board may waive the requirements for a competitive selection procedure for any specific employment upon adoption of a resolution of the board stating why the waiver is in the public interest and shall provide the executive council with written notice of the granting of any such waiver.

16. *a.* Not less than thirty days prior to action by the board on any proposal to increase tuition, fees, or charges at one or more of the institutions of higher education under its control, send written notification of the amount of the proposed increase including a copy of the proposed tuition increase docket memorandum prepared for its consideration to the presiding officers of the student government organization of the affected institutions. The final decision on an increase in tuition or mandatory fees charged to all students at an institution for a fiscal year shall be made at a regular meeting and shall be reflected in a final docket memorandum that states the estimated total cost of attending each of the institutions of higher education under the board's control. The regular meeting shall be held in Ames, Cedar Falls, or Iowa City and shall not be held during a period in which classes have been suspended for university holiday or break. The final decision on an increase in tuition charged to all students at an institution for a fiscal year shall be made at a regular meeting held no later than April 30 of the previous fiscal year.

b. Authorize, at its discretion, each institution of higher education to retain the student fees and charges it collects to further the institution's purposes as authorized by the board. Notwithstanding any provision to the contrary, student fees and charges, as defined in section 262A.2, shall not be considered appropriated receipts as defined in section 8.2.

c. Prohibit the designation of a portion of the tuition moneys collected from resident undergraduate students by institutions of higher education governed by the board for use for student aid purposes. However, such institutions may designate that a portion of the tuition moneys collected from nonresident students be used for such purposes.

17. Develop a policy and adopt rules relating to the establishment of tuition rates which provide a predictable basis for assessing and anticipating changes in tuition rates.

18. Develop a policy requiring oral communication competence of persons who provide instruction to students attending institutions under the control of the board. The policy shall include a student evaluation mechanism which requires student evaluation of persons providing instruction on at least an annual basis. However, the board shall establish criteria by which an institution may discontinue annual evaluations of a specific person providing instruction. The criteria shall include receipt by the institution of two consecutive positive annual evaluations from the majority of students evaluating the person.

19. Develop a policy relating to the teaching proficiency of teaching assistants which provides a teaching proficiency standard, instructional assistance to, and evaluation of persons who provide instruction to students at the higher education institutions under the control of the board.

20. Explore, in conjunction with the department of education, the need for coordination between school districts, area education agencies, state board of regents institutions, and community colleges for purposes of delivery of courses, use of telecommunications, transportation, and other similar issues. However, the board shall prohibit the institutions from charging interest on late tuition payments and room and board payments if financial aid payments to students enrolled in the institutions are delayed by the lending institution.

23. Direct the institutions of higher education under its control to adopt a policy to offer not less than the following options to a student who is a member, or the spouse of a member if the member has a dependent child as defined in subsection 14, paragraph *"b"*, subparagraph (2), subparagraph division (a), of the Iowa national guard or reserve forces of the United States and who is ordered to national guard duty or federal active duty:
