CODE EDITOR'S NOTES

Reference

Simple Harmonization Note

The multiple amendments do not conflict, so they were harmonized to give effect to each as required by Code sections 2B.13 and 4.11. In some cases where this note is referenced, the amendments are identical. Under Code section 2B.13, a strike or repeal prevails over an amendment to the same material and does not create a conflict.

811.1

2026 Acts, ch 1159, §4, amends subsection 2, unnumbered paragraph 1, by establishing an exception to that provision in a new subsection 3, as enacted in 2026 Acts, ch 1159, §5. 2026 Acts, ch 1156, §33, separately amends subsection 2, unnumbered paragraph 1, by also establishing an exception to that provision in a new subsection 3, as enacted in 2026 Acts, ch 1156, §34. Each Act establishes an independent alternate exception. Therefore, the new subsection 3, enacted in 2026 Acts, ch 1156, §34, was codified as subsection 4, and subsection 2, unnumbered paragraph 1, was editorially modified to give effect to both amendments by adding "or 4" to the resulting exception clause being added by both 2026 Acts, ch 1159, §4, and 2026 Acts, ch 1156, §33.

CHAPTER 272A

INTERSTATE AGREEMENT ON QUALIFICATION OF EDUCATIONAL PERSONNEL

272A.1 Interstate agreement.
272A.2 Designated state official.
272A.3 Contracts on file.

272A.1 Interstate agreement.

The interstate agreement on qualification of educational personnel is hereby enacted into law and entered into with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose, findings, and policy.*

a. The states party to this agreement, desiring by common action to improve their respective school systems by utilizing the teacher or other professional educational person wherever educated, declare that it is the policy of each of them, on the basis of cooperation with one another, to take advantage of the preparation and experience of such persons wherever gained, thereby serving the best interest of society, of education, and of the teaching profession. It is the purpose of this agreement to provide for the development and execution of such programs of cooperation as will facilitate the movement of teachers and other professional educational personnel among the states party to it, and to authorize specific interstate educational personnel contracts to achieve that end.

b. The party states find that included in the large movement of population among all sections of the nation are many qualified educational personnel who move for family and other personal reasons but who are hindered in using their professional skill and experience in their new locations. Variations from state to state in requirements for qualifying educational personnel discourage such personnel from taking the steps necessary to qualify in other states. As a consequence, a significant number of professionally prepared and experienced educators is lost to our school systems. Facilitating the employment of qualified educational personnel, without reference to their states of origin, can increase the available educational resources. Participation in this agreement can increase the availability of educational personnel.

2. *Article II — Definitions.* As used in this agreement and contracts made pursuant to it, unless the context clearly requires otherwise:

UNOFFICIAL VERSION: 2024 EARLY RELEASE

a. *"Accept"*, or any variant thereof, means to recognize and give effect to one or more determinations of another state relating to the qualifications of educational personnel in lieu of making or requiring a like determination that would otherwise be required by or pursuant to the laws of a receiving state.

b. *"Designated state official"* means the education official of a state selected by that state to negotiate and enter into, on behalf of that state, contracts pursuant to this agreement.

c. *"Educational personnel"* means persons who must meet requirements pursuant to state law as a condition of employment in educational programs.

d. *"Originating state"* means a state, and the subdivision thereof, if any, whose determination that certain educational personnel are qualified to be employed for specific duties in schools is acceptable in accordance with the terms of a contract made pursuant to article III of this agreement.

e. *"Receiving state"* means a state, and the subdivisions thereof, which accepts educational personnel in accordance with the terms of a contract made pursuant to article III of this agreement.

f. *"State"* means a state, territory, or possession of the United States; the District of Columbia; or the Commonwealth of Puerto Rico.

3. *Article III — Interstate educational personnel contracts.*

a. The designated state official of a party state may make one or more contracts on behalf of that state with one or more other party states providing for the acceptance of educational personnel. Any such contract for the period of its duration shall be applicable to and binding on the states whose designated state officials enter into it, and the subdivisions of those states, with the same force and effect as if incorporated in this agreement. A designated state official may enter into a contract pursuant to this article only with states in which the official finds that there are programs of education, licensure standards or other acceptable qualifications that assure preparation or qualification of educational personnel on a basis sufficiently comparable, even though not identical to that prevailing in the official's state.

b. Any such contract shall provide for:

(1) Its duration.

(2) The criteria to be applied by an originating state in qualifying educational personnel for acceptance by a receiving state.

(3) Such waivers, substitutions, and conditional acceptances as shall aid the practical effectuation of the contract without sacrifice of basic educational standards.

(4) Any other necessary matters.

c. No contract made pursuant to this agreement shall be for a term longer than five years but any such contract may be renewed for like or lesser periods.

d. Any contract dealing with acceptance of educational personnel on the basis of their having completed an educational program shall specify the earliest date or dates on which originating state approval of the program or programs involved can have occurred. No contract made pursuant to this agreement shall require acceptance by a receiving state of any persons qualified because of successful completion of a program prior to January 1, 1954.

e. The license or other acceptance of a person who has been accepted pursuant to the terms of a contract shall not be revoked or otherwise impaired because the contract has expired or been terminated. However, any license or other qualifying document may be revoked or suspended on any ground which would be sufficient for revocation or suspension of a license or other qualifying document initially granted or approved in the receiving state.

f. A contract committee composed of the designated state officials of the contracting states or their representatives shall keep the contract under continuous review, study means of improving its administration, and report no less frequently than once a year to the heads of the appropriate education agencies of the contracting states.

4. *Article IV — Approved and accepted programs.*

a. Nothing in this agreement shall be construed to repeal or otherwise modify any law or regulation of a party state relating to the approval of programs of educational preparation having effect solely on the qualification of educational personnel within that state.

b. To the extent that contracts made pursuant to this agreement deal with the educational

UNOFFICIAL VERSION
2024 EARLY RELEASE

requirements for the proper qualification of educational personnel, acceptance of a program of educational preparation shall be in accordance with such procedures and requirements as may be provided in applicable contract.

5. *Article V — Interstate cooperation.* The party states agree that:

a. They will, so far as practicable, prefer the making of multilateral contracts pursuant to article III of this agreement.

b. They will facilitate and strengthen cooperation in interstate certification and other elements of educational personnel qualification and for this purpose shall cooperate with agencies, organizations, and associations interested in certification and other elements of educational personnel qualification.

6. *Article VI — Agreement evaluation.* The designated state officials of any party states may meet from time to time as a group to evaluate programs under the agreement, and to formulate recommendations for changes.

7. *Article VII — Other arrangements.* Nothing in this agreement shall be construed to prevent or inhibit other arrangements or practices of any party state or states to facilitate the interchange of educational personnel.

8. *Article VIII — Effect and withdrawal.*

a. This agreement shall become effective when enacted into law by two states. Thereafter it shall become effective as to any state upon its enactment of this agreement.

b. Any party state may withdraw from this agreement by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states.

c. No withdrawal shall relieve the withdrawing state of any obligation imposed upon it by a contract to which it is a party. The duration of contracts and the methods and conditions of withdrawal therefrom shall be those specified in their terms.

9. *Article IX — Construction and severability.* This agreement shall be liberally construed so as to effectuate the purposes thereof. The provisions of this agreement shall be severable and if any phrase, clause, sentence, or provision of this agreement is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person, or circumstance is held invalid, the validity of the remainder of this agreement and the applicability thereof to any government, agency, person, or circumstance shall not be affected thereby. If this agreement shall be held contrary to the constitution of any state participating therein, the agreement shall remain in full force and effect as to the state affected as to all severable matters.

CHAPTER 272B
EDUCATION COMPACT

272B.1 Compact for education.
272B.2 Education commission of the states.
272B.3 Filing bylaws.

272B.1 Compact for education.

The compact for education is hereby entered into and enacted into law with all jurisdictions legally joining therein, in the form substantially as follows:

1. *Article I — Purpose and policy.*

a. It is the purpose of this compact to:

(1) Establish and maintain close cooperation and understanding among executive, legislative, professional educational and lay leadership on a nationwide basis at the state and local levels.

(2) Provide a forum for the discussion, development, crystallization and recommendation of public policy alternatives in the field of education.

(3) Provide a clearing house of information on matters relating to educational problems and how they are being met in different places throughout the nation, so that the executive and legislative branches of state government and of local communities may have ready access to the experience and record of the entire country, and so that both lay and professional groups in the field of education may have additional avenues for the sharing of experience and the interchange of ideas in the formation of public policy in education.

(4) Facilitate the improvement of state and local educational systems so that all of them will be able to meet adequate and desirable goals in a society which requires continuous qualitative and quantitative advance in educational opportunities, methods and facilities.

b. It is the policy of this compact to encourage and promote local and state initiative in the development, maintenance, improvement and administration of educational systems and institutions in a manner which will accord with the needs and advantages of diversity among localities and states.

c. The party states recognize that each of them has an interest in the quality and quantity of education furnished in each of the other states, as well as in the excellence of its own educational systems and institutions, because of the highly mobile character of individuals within the nation, and because the products and services contributing to the health, welfare and economic advancement of each state are supplied in significant part by persons educated in other states.

2. *Article II — State defined.* As used in this compact, *"state"* means a state, territory or possession of the United States, the District of Columbia, or the commonwealth of Puerto Rico.

3. *Article III — The commission.*

a. The education commission of the states, hereinafter called *"the commission"*, is hereby established. The commission shall consist of seven members representing each party state. One of such members shall be the governor; two shall be members of the state legislature selected by its respective houses and serving in such manner as the legislature may determine; and four shall be appointed by and serve at the pleasure of the governor, unless the laws of the state otherwise provide. If the laws of a state prevent legislators from serving on the commission, six members shall be appointed and serve at the pleasure of the

UNOFFICIAL VERSION: 2024 EARLY RELEASE

governor, unless the laws of the state otherwise provide. In addition to any other principles or requirements which a state may establish for the appointment and service of its members of the commission, the guiding principle for the composition of the membership on the commission from each party state shall be that the members representing such state shall, by virtue of their training, experience, knowledge or affiliations be in a position collectively to reflect broadly the interests of the state government, higher education, the state education system, local education, lay and professional, public and nonpublic educational leadership. Of those appointees, one shall be the head of a state agency or institution, designated by the governor, having responsibility for one or more programs of public education. In addition to the members of the commission representing the party states, there may be not to exceed ten nonvoting commissioners selected by the steering committee for terms of one year. Such commissioners shall represent leading national organizations or professional educators or persons concerned with educational administration.

b. The members of the commission shall be entitled to one vote each on the commission. No action of the commission shall be binding unless taken at a meeting at which a majority of the total number of votes on the commission are cast in favor thereof. Action of the commission shall be only at a meeting at which a majority of the commissioners are present. The commission shall meet at least once a year. In its bylaws, and subject to such directions and limitations as may be contained therein, the commission may delegate the exercise of any of its powers to the steering committee or the executive director, except for the power to approve budgets or requests for appropriations, the power to make policy recommendations pursuant to article IV and adoption of the annual report pursuant to paragraph *"j"* of this article.

c. The commission shall have a seal.

d. The commission shall elect annually, from among its members, a chairperson, who shall be a governor, a vice chairperson and a treasurer. The commission shall provide for the appointment of an executive director. Such executive director shall serve at the pleasure of the commission, and together with the treasurer and such other personnel as the commission may deem appropriate shall be bonded in such amount as the commission shall determine. The executive director shall be secretary.

e. Irrespective of the civil service, personnel or other merit system laws of any of the party states, the executive director subject to the approval of the steering committee shall appoint, remove or discharge such personnel as may be necessary for the performance of the functions of the commission, and shall fix the duties and compensation of such personnel. The commission in its bylaws shall provide for the personnel policies and programs of the commission.

f. The commission may borrow, accept or contract for the services of personnel from any party jurisdiction, the United States, or any subdivision or agency of the aforementioned governments, or from any agency of two or more of the party jurisdictions or their subdivisions.

g. The commission may accept for any of its purposes and functions under this compact any and all donations, and grants of money, equipment, supplies, materials and services, conditional or otherwise, from any state, the United States, or any other governmental agency, or from any person, firm, association, foundation, or corporation, and may receive, utilize and dispose of the same. Any donation or grant accepted by the commission pursuant to this paragraph or services borrowed pursuant to paragraph *"f"* of this article shall be reported in the annual report of the commission. Such report shall include the nature, amount and conditions, if any, of the donation, grant, or services borrowed, and the identity of the donor or lender.

h. The commission may establish and maintain such facilities as may be necessary for the transacting of its business. The commission may acquire, hold, and convey real and personal property and any interest therein.

i. The commission shall adopt bylaws for the conduct of its business and shall have the power to amend and rescind these bylaws. The commission shall publish its bylaws in convenient form and shall file a copy thereof and a copy of any amendment thereto, with the appropriate agency or officer in each of the party states.

UNOFFICIAL VERSION 2027 EARLY RELEASE

j. The commission annually shall make to the governor and legislature of each party state a report covering the activities of the commission for the preceding year. The commission may make such additional reports as it may deem desirable.

4. *Article IV — Powers.* In addition to authority conferred on the commission by other provisions of the compact, the commission shall have authority to:

a. Collect, correlate, analyze and interpret information and data concerning educational needs and resources.

b. Encourage and foster research in all aspects of education, but with special reference to the desirable scope of instruction, organization, administration, and instructional methods and standards employed or suitable for employment in public educational systems.

c. Develop proposals for adequate financing of education as a whole and at each of its many levels.

d. Conduct or participate in research of the types referred to in this article in any instance where the commission finds that such research is necessary for the advancement of the purposes and policies of this compact, utilizing fully the resources of national associations, regional compact organizations for higher education, and other agencies and institutions, both public and private.

e. Formulate suggested policies and plans for the improvement of public education as a whole, or for any segment thereof, and make recommendations with respect thereto available to the appropriate governmental units, agencies and public officials.

f. Do such other things as may be necessary or incidental to the administration of any of its authority or functions pursuant to this compact.

5. *Article V — Cooperation with federal government.*

a. If the laws of the United States specifically so provide, or if administrative provision is made therefor within the federal government, the United States may be represented on the commission by not to exceed ten representatives. Any such representative or representatives of the United States shall be appointed and serve in such manner as may be provided by or pursuant to federal law, and may be drawn from any one or more branches of the federal government, but no such representative shall have a vote on the commission.

b. The commission may provide information and make recommendations to any executive or legislative agency or officer of the federal government concerning the common educational policies of the states, and may advise with any such agencies or officers concerning any matter of mutual interest.

6. *Article VI — Committees.*

a. To assist in the expeditious conduct of its business when the full commission is not meeting, the commission shall elect a steering committee of thirty-two members which, subject to the provisions of this compact and consistent with the policies of the commission, shall be constituted and function as provided in the bylaws of the commission. One-fourth of the voting membership of the steering committee shall consist of governors, one-fourth shall consist of legislators, and the remainder shall consist of other members of the commission. A federal representative on the commission may serve with the steering committee, but without vote. The voting members of the steering committee shall serve for terms of two years, except that members elected to the first steering committee of the commission shall be elected as follows:

(1) Sixteen for one year and sixteen for two years.

(2) The chairperson, vice chairperson, and treasurer of the commission shall be members of the steering committee and, anything in this paragraph *"a"* to the contrary notwithstanding, shall serve during their continuance in these offices.

(3) Vacancies in the steering committee shall not affect its authority to act, but the commission at its next regular ensuing meeting following the occurrence of any vacancy shall fill it for the unexpired term.

(4) No person shall serve more than two terms as a member of the steering committee; provided that service for a partial term of one year or less shall not be counted toward the two-term limitation.

b. The commission may establish advisory and technical committees composed of state, local, and federal officials, and private persons to advise it with respect to any one or more of

UNOFFICIAL VERSION 2024 EARLY RELEASE

its functions. Any advisory or technical committee may, on request of the states concerned, be established to consider any matter of special concern to two or more of the party states.

c. The commission may establish such additional committees as its bylaws may provide.

7. *Article VII — Finance.*

a. The commission shall advise the governor or designated officer or officers of each party state of its budget and estimated expenditures for such period as may be required by the laws of that party state. Each of the commission's budgets of estimated expenditures shall contain specific recommendations of the amount or amounts to be appropriated by each of the party states.

b. The total amount of appropriation requests under any budget shall be apportioned among the party states. In making such apportionment, the commission shall devise and employ a formula which takes equitable account of the populations and per capita income levels of the party states.

c. The commission shall not pledge the credit of any party states. The commission may meet any of its obligations in whole or in part with funds available to it pursuant to article III, paragraph *"g"*, of this compact, provided that the commission takes specific action setting aside such funds prior to incurring an obligation to be met in whole or in part in such manner. Except where the commission makes use of funds available to it pursuant to article III, paragraph *"g"*, the commission shall not incur any obligation prior to the allotment of funds by the party states adequate to meet the same.

d. The commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the commission shall be subject to the audit and accounting procedures established by its bylaws. However, all receipts and disbursements of funds handled by the commission shall be audited yearly by a qualified public accountant, and the report of the audit shall be included in and become part of the annual reports of the commission.

e. The accounts of the commission shall be open at any reasonable time for inspection by duly constituted officers of the party states and by any persons authorized by the commission.

f. Nothing contained herein shall be construed to prevent commission compliance with laws relating to audit or inspection of accounts by or on behalf of any government contributing to the support of the commission.

8. *Article VIII — Eligible parties — entry into and withdrawal.*

a. This compact shall have as eligible parties all states, territories, and possessions of the United States, the District of Columbia, and the commonwealth of Puerto Rico. In respect of any such jurisdiction not having a governor, the term *"governor"*, as used in this compact, shall mean the closest equivalent official of such jurisdiction.

b. Any state or other eligible jurisdiction may enter into this compact and it shall become binding thereon when it has adopted the same: Provided that in order to enter into initial effect, adoption by at least ten eligible party jurisdictions shall be required.

c. Any party state may withdraw from this compact by enacting a statute repealing the same, but no such withdrawal shall take effect until one year after the governor of the withdrawing state has given notice in writing of the withdrawal to the governors of all other party states. No withdrawal shall affect any liability already incurred by or chargeable to a party state prior to the time of such withdrawal.

9. *Article IX — Construction and severability.* This compact shall be liberally construed so as to effectuate the purposes thereof. The provisions of this compact shall be severable and if any phrase, clause, sentence or provision of this compact is declared to be contrary to the constitution of any state or of the United States, or the application thereof to any government, agency, person or circumstance is held invalid, the validity of the remainder of this compact and the applicability thereof to any government, agency, person or circumstance shall not be affected thereby. If this compact shall be held contrary to the constitution of any state participating therein, the compact shall remain in full force and effect as to the state affected as to all severable matters.

272C.2 Continuing education — rules.

1. Each licensing board may require and issue rules for continuing education requirements as a condition to license renewal.

272C.3 Authority of licensing boards.

1. Notwithstanding any other provision of this chapter, each licensing board shall have the powers to:

a. Administer and enforce the laws and administrative rules provided for in this chapter and any other statute to which the licensing board is subject.

b. Adopt and enforce administrative rules which provide for the partial reexamination of the professional licensing examinations given by each licensing board.

c. Review or investigate, or both, upon written complaint or upon its own motion pursuant to other evidence received by the board, alleged acts or omissions which the board reasonably believes constitute cause under applicable law or administrative rule for licensee discipline.

d. Determine in any case whether an investigation, or further investigation, or a disciplinary proceeding is warranted. Notwithstanding the provisions of chapter 17A, a determination by a licensing board that an investigation is not warranted or that an investigation should be closed without initiating a disciplinary proceeding is not subject to judicial review pursuant to section 17A.19.

e. Initiate and prosecute disciplinary proceedings.

f. Impose licensee discipline.

g. Petition the district court for enforcement of its authority with respect to licensees or with respect to other persons violating the laws which the board is charged with administering.

h. Register or establish and register peer review committees.

i. Refer to a registered peer review committee for investigation, review, and report to the board, any complaint or other evidence of an act or omission which the board reasonably believes to constitute cause for licensee discipline. However, the referral of any matter shall not relieve the board of any of its duties and shall not divest the board of any authority or jurisdiction.

j. Determine and administer the renewal of licenses for periods not exceeding three years.

k. Establish a licensee review committee for the purpose of evaluating and monitoring licensees who are impaired as a result of substance use disorder, dependency, or addiction, or by any mental or physical disorder or disability, and who self-report the impairment to the committee, or who are referred by the board to the committee. Members of the committee shall receive actual expenses for the performance of their duties and shall be eligible to receive per diem compensation pursuant to section 7E.6. The board shall adopt

UNOFFICIAL VERSION 2027 LEGISLATIVE RELEASE

rules for the establishment and administration of the committee, including but not limited to establishment of the criteria for eligibility for referral to the committee and the grounds for disciplinary action for noncompliance with committee decisions. Information in the possession of the board or the licensee review committee, under this paragraph, shall be subject to the confidentiality requirements of section 272C.6. Referral of a licensee by the board to a licensee review committee shall not relieve the board of any duties of the board and shall not divest the board of any authority or jurisdiction otherwise provided. A licensee who violates section 272C.10 or the rules of the board while under review by the licensee review committee shall be referred to the board for appropriate action.

2. Each licensing board may impose one or more of the following as licensee discipline:

a. Revoke a license, or suspend a license either until further order of the board or for a specified period, upon any of the grounds specified in section 100D.5, 105.22, 147.55, 148.6, 148B.7, 152.10, 153.34, 154A.24, 169.13, 455B.219, 542.10, 542B.21, 543B.29, 544A.13, 544B.15, or 602.3203 or chapter 151 or 155, as applicable, or upon any other grounds specifically provided for in this chapter for revocation of the license of a licensee subject to the jurisdiction of that board, or upon failure of the licensee to comply with a decision of the board imposing licensee discipline.

b. Revoke, or suspend either until further order of the board or for a specified period, the privilege of a licensee to engage in one or more specified procedures, methods, or acts incident to the practice of the profession, if pursuant to hearing or stipulated or agreed settlement the board finds that because of a lack of education or experience, or because of negligence, or careless acts or omissions, or because of one or more intentional acts or omissions, the licensee has demonstrated a lack of qualifications which are necessary to assure the residents of this state a high standard of professional and occupational care.

c. Impose a period of probation under specified conditions, whether or not in conjunction with other sanctions.

d. Require additional professional education or training, or reexamination, or any combination, as a condition precedent to the reinstatement of a license or of any privilege incident thereto, or as a condition precedent to the termination of any suspension.

e. Impose civil penalties by rule, if the rule specifies which offenses or acts are subject to civil penalties. The amount of civil penalty shall be in the discretion of the board, but shall not exceed one thousand dollars. Failure to comply with the imposition of a civil penalty may be grounds for further license discipline.

f. Issue a citation and warning respecting licensee behavior which is subject to the imposition of other sanctions by the board.

3. The powers conferred by this section upon a licensing board shall be in addition to powers specified elsewhere in the Code. The powers of any other person specified elsewhere in the Code shall not limit the powers of a licensing board conferred by this section, nor shall the powers of such other person be deemed limited by the provisions of this section.

4. *a.* Nothing contained in this section shall be construed to prohibit informal stipulation and settlement by a board and a licensee of any matter involving licensee discipline. However, licensee discipline shall not be agreed to or imposed except pursuant to a written decision which specifies the sanction and which is entered by the board and filed.

b. All health care boards shall file written decisions which specify the sanction entered by the board with the department of inspections, appeals, and licensing which shall be available to the public upon request. All non-health care boards shall have on file the written and specified decisions and sanctions entered by the board and shall be available to the public upon request.

Disciplinary hearings held pursuant to this chapter shall be heard by the board sitting as the hearing panel, or by an administrative law judge, or by a panel of not less than three board members who are licensed in the profession, or by a panel of not less than three members appointed pursuant to subsection 2. Notwithstanding chapters 17A and 21 a disciplinary hearing shall be open to the public at the discretion of the licensee.

2. When, in the opinion of a majority of the board, it is desirable to obtain specialists within an area of practice of a profession when holding disciplinary hearings, a licensing board may appoint licensees not having a conflict of interest to make findings of fact and to report to the board. Such findings shall not include any recommendation for or against licensee discipline.

(2) Nothing in this subsection shall be deemed to enable a licensing board to compel an attorney of the licensee, or stenographer or confidential clerk of the attorney, to disclose any information when privileged against disclosure by section 622.10.

(3) In the event of a refusal to obey a subpoena, the licensing board may petition the district court for its enforcement. Upon proper showing, the district court shall order the person to obey the subpoena, and if the person fails to obey the order of the court the person may be found guilty of contempt of court.

b. The presiding officer of a hearing panel may also administer oaths and affirmations, take or order that depositions be taken, and pursuant to rules of the board, grant immunity to a witness from disciplinary proceedings initiated either by the board or by other state agencies which might otherwise result from the testimony to be given by the witness to the panel.

If the investigative information in the possession of a licensing board or its employees or agents indicates a crime has been committed, the information shall be reported to the proper law enforcement agency. However, a final written decision and finding of fact of a licensing board in a disciplinary proceeding, including a decision referred to in section 272C.3, subsection 4, is a public record.

272C.9 Duties of licensees.

1. Each licensee of a licensing board, as a condition of licensure, is under a duty to submit to a physical, mental, or clinical competency examination when directed in writing by the board for cause. All objections shall be waived as to the admissibility of the examining physician's testimony or reports on the grounds of privileged communications. The licensing board, upon probable cause, shall have the authority to order a physical, mental, or clinical competency examination, and upon refusal of the licensee to submit to the examination the licensing board may order that the allegations pursuant to which the order of physical, mental, or clinical competency examination was made shall be taken to be established.

2. A licensee has a continuing duty to report to the licensing board by whom the person is licensed those acts or omissions specified by rule of the board pursuant to section 272C.4, subsection 6, when committed by another person licensed by the same licensing board. This subsection does not apply to licensees under chapter 542 when the observations are a result of participation in programs of practice review, peer review and quality review conducted by professional organizations of certified public accountants, for educational purposes and approved by the accountancy examining board.

3. A licensee shall have a continuing duty and obligation, as a condition of licensure, to report to the licensing board by which the licensee is licensed every adverse judgment in a professional or occupational malpractice action to which the licensee is a party, and every settlement of a claim against the licensee alleging malpractice.

272C.12 Licensure of persons licensed in other jurisdictions.

1. Notwithstanding any other provision of law, an occupational or professional license, certificate, or registration, including a license, certificate, or registration issued by the board of educational examiners, shall be issued without an examination to a person if all of the following conditions are met:

a. The person is currently licensed, certified, or registered by at least one other issuing jurisdiction in the occupation or profession applied for with a substantially similar scope of practice and the license, certificate, or registration is in good standing in all issuing jurisdictions in which the person holds a license, certificate, or registration.

b. For a license issued pursuant to chapter 103 or 105, the person has established residency in this state or is married to an active duty member of the military forces of the United States and is accompanying the member on an official permanent change of station to a military installation located in this state.

UNOFFICIAL VERSION
2026 EARLY RELEASE

c. When the person was licensed by the issuing jurisdiction, the issuing jurisdiction imposed minimum educational requirements and, if applicable, work experience and clinical supervision requirements, and the issuing jurisdiction verifies that the person met those requirements in order to be licensed in that issuing jurisdiction.

d. The person previously passed an examination required by the other issuing jurisdiction for licensure, certification, or registration, if applicable.

e. The person has not had a license, certificate, or registration revoked and has not voluntarily surrendered a license, certificate, or registration in any other issuing jurisdiction or country while under investigation for unprofessional conduct.

f. The person has not had discipline imposed by any other regulating entity in this state or another issuing jurisdiction or country. If another jurisdiction has taken disciplinary action against the person, the appropriate licensing board shall determine if the cause for the action was corrected and the matter resolved. If the licensing board determines that the matter has not been resolved by the jurisdiction imposing discipline, the licensing board shall not issue or deny a license, certificate, or registration to the person until the matter is resolved.

g. The person does not have a complaint, allegation, or investigation pending before any regulating entity in another issuing jurisdiction or country that relates to unprofessional conduct. If the person has any complaints, allegations, or investigations pending, the appropriate licensing board shall not issue or deny a license, certificate, or registration to the person until the complaint, allegation, or investigation is resolved.

h. The person pays all applicable fees.

i. The person does not have a criminal history that would prevent the person from holding the license, certificate, or registration applied for in this state.

2. A person licensed pursuant to this section is subject to the laws regulating the person's practice in this state and is subject to the jurisdiction of the appropriate licensing board.

3. This section does not apply to any of the following:

b. Criteria for a license, certificate, or registration that is established by an interstate compact.

c. The ability of a licensing board, agency, or department to require a person to take and pass an examination specific to the laws of this state prior to issuing a license. A licensing board, agency, or department that requires an applicant to take and pass an examination specific to the laws of this state shall issue an applicant a temporary license that is valid for a period of three months and may be renewed once for an additional period of three months.

d. A license issued by the department of transportation.

e. A person who is licensed by another issuing jurisdiction and may be granted a privilege to practice in this state by another provision of law without receiving a license in this state.

f. A person applying for a license through a national licensing organization.

4. A license, certificate, or registration issued pursuant to this section does not grant the person receiving the license, certificate, or registration eligibility to practice pursuant to an interstate compact. A licensing board shall determine eligibility for a person to hold a license, certificate, or registration pursuant to this section regardless of the person's eligibility to practice pursuant to an interstate compact.

5. For the purposes of this section, "*issuing jurisdiction*" means the duly constituted authority in another state that has issued a professional license, certificate, or registration to a person.

who is married to an active duty member of the military forces of the United States or is a veteran, as defined in section 35.1.

2. *a.* If the licensing board, agency, or department determines that the applicant does not qualify for licensure pursuant to section 272C.12 because the person is not licensed, certified, or registered in an occupation or profession with a substantially similar scope of practice, the licensing board, agency, or department shall issue a temporary license to the applicant for a period of time deemed necessary by the board, agency, or department for the applicant to complete education or training substantially similar to the education or training required for the issuance of the occupational or professional license, certificate, or registration required of this state.

b. The licensing board, agency, or department shall advise the applicant of the required education or training necessary to obtain a professional license, certificate, or registration in this state.

2. This section does not apply to a license, certificate, or registration issued by the board of medicine, the board of nursing, the dental board, the board of pharmacy, or the board of educational examiners.

3. 272C.15 Disqualifications for criminal convictions limited.

1. Notwithstanding any other provision of law to the contrary, except for chapter 256, subchapter VII, part 3, a person's conviction of a crime may be grounds for the denial, revocation, or suspension of a license only if an unreasonable risk to public safety exists because the offense directly relates to the duties and responsibilities of the profession and the appropriate licensing board, agency, or department does not grant an exception pursuant to subsection 4.

2. A licensing board, agency, or department that may deny a license on the basis of an applicant's conviction record shall provide a list of the specific convictions that may disqualify an applicant from receiving a license. Any such offense shall be an offense that directly relates to the duties and responsibilities of the profession.

3. A licensing board, agency, or department shall not deny an application for a license on the basis of an arrest that was not followed by a conviction or based on a finding that an applicant lacks good character, suffers from moral turpitude, or on other similar basis.

4. A licensing board, agency, or department shall grant an exception to an applicant who would otherwise be denied a license due to a criminal conviction if the following factors establish by clear and convincing evidence that the applicant is rehabilitated and an appropriate candidate for licensure:

a. The nature and seriousness of the crime for which the applicant was convicted.

b. The amount of time that has passed since the commission of the crime. There is a rebuttable presumption that an applicant is rehabilitated and an appropriate candidate for licensure five years after the date of the applicant's release from incarceration, provided that the applicant was not convicted of sexual abuse in violation of section 709.4, a sexually violent offense as defined in section 229A.2, dependent adult abuse in violation of section 726.26, a forcible felony as defined in section 702.11, or domestic abuse assault in violation of section 708.2A, and the applicant has not been convicted of another crime after release from incarceration.

c. The circumstances relative to the offense, including any aggravating and mitigating circumstances or social conditions surrounding the commission of the offense.

d. The age of the applicant at the time the offense was committed.

e. Any treatment undertaken by the applicant.

f. Whether a certification of employability has been issued to the applicant pursuant to section 906.19.

g. Any letters of reference submitted on behalf of the applicant.

h. All other relevant evidence of rehabilitation and present fitness of the applicant.

5. An applicant may petition the relevant licensing board, agency, or department, in a form prescribed by the board, agency, or department, for a determination as to whether the applicant's criminal record will prevent the applicant from receiving a license. The board, agency, or department shall issue such a determination at the next regularly scheduled meeting of the board, agency, or department or within thirty days of receiving the petition, whichever is later. The board, agency, or department shall hold a closed session while determining whether an applicant's criminal record will prevent the applicant from receiving a license and while determining whether to deny an applicant's application on the basis of an applicant's criminal conviction. A board, agency, or department may charge a fee to recoup the costs of such a determination, provided that such fee shall not exceed twenty-five dollars.

6. *a.* A licensing board, agency, or department that denies an applicant a license solely or partly because of the applicant's prior conviction of a crime shall notify the applicant in writing of all of the following:

(1) The grounds for the denial or disqualification.

(2) That the applicant has the right to a hearing to challenge the licensing authority's decision.

UNOFFICIAL VERSION
2021 EARLY RELEASE

(3) The earliest date the applicant may submit a new application.

(4) That evidence of rehabilitation of the applicant may be considered upon reapplication.

b. A determination by a licensing board, agency, or department that an applicant's criminal conviction is specifically listed as a disqualifying conviction and the offense directly relates to the duties and responsibilities of the applicant's profession must be documented in written findings for each factor specified in subsection 4 sufficient for a review by a court.

c. In any administrative or civil hearing authorized by this section or chapter 17A, a licensing board, agency, or department shall carry the burden of proof on the question of whether the applicant's criminal offense directly relates to the duties and responsibilities of the profession for which the license is sought.

7. A board, agency, or department may require an applicant with a criminal record to submit the applicant's complete criminal record detailing an applicant's offenses with an application. A board, agency, or department may also require an applicant with a criminal record to submit a personal statement regarding whether each offense directly relates to the duties and performance of the applicant's occupation. For the purposes of this subsection, *"complete criminal record"* includes the complaint and judgment of conviction for each offense of which the applicant has been convicted.

2. A board may require an applicant to pass an examination prior to licensure if the board requires an applicant who has completed an educational program to pass an examination prior to licensure. A board shall not require an applicant to receive a higher score on the examination than the score required of an applicant who completes an educational program.

3. A board may require an applicant to pay a licensing fee if the board requires an applicant who has completed an educational program to pay a licensing fee. A board shall not impose a licensing fee greater than the licensing fee imposed on an applicant who completes an educational program.

4. A board shall not require an applicant to complete an apprenticeship program of a greater duration than is required by federal law for that program.

5. For the purposes of this section, *"apprenticeship program"* means the same as defined in section 84E.2.

However, all area education agencies affected shall retain at least one member.

2. Prior to the organization meeting of the board of directors of the newly formed area education agency, the boards of the former area education agencies shall designate directors to be retained as members to serve on the initial board of the newly formed area education agency. A vacancy occurs if an insufficient number of former board members reside within the newly formed area education agency's boundaries or if an insufficient number of former board members are willing to serve on the board of the newly formed area education agency. Vacancies, as defined in section 277.29, in the membership of the newly formed area education agency board shall be filled for the unexpired portion of the term at a director district convention called and conducted in the manner provided in section 273.8 for director district conventions.

The new board shall have control of the employment of all personnel for the newly formed area education agency for the ensuing school year. Following the organization of the new board, the board shall have authority to establish policy, enter into contracts, and complete such planning and take such action as is essential for the efficient management of the newly formed area education agency.

4. The initial board of the newly formed district shall appoint an acting administrator and an acting board secretary. The appointment of the acting administrator shall not be subject to the continuing contract provisions of sections 279.20, 279.23, and 279.24.

The board shall give notice of a public hearing on the proposed budget by publication in an official county newspaper in each county in the territory of the area education agency in which the principal place of business of a school district that is a part of the area education agency is located. The notice shall specify the date, which shall not be later than March 1, the time, and the location of the public hearing. The proposed budget as approved by the board shall be submitted to the state board, on forms provided by the department, no later than March 15 for approval. The state board shall review the proposed budget of the newly formed area education agency and shall, before May 1, either grant approval or return the budget without approval with comments of the state board included. An unapproved budget shall be resubmitted to the state board for final approval not later than May 15. The state board shall give final approval only to budgets submitted by area education agencies accredited by the state board or that have been given conditional accreditation by the state board.

For the school year beginning on the effective date of an area education agency reorganization as provided in this subchapter, the special education support services cost per pupil shall be based upon the combined base year budgets for special education support services of the area education agencies that reorganized to form the newly formed area education agency, divided by the total of the weighted enrollment for special education support services in the reorganized area education agency for the base year plus the supplemental state aid amount per pupil for special education support services for the budget year as calculated in section 257.8.

9. Within one year of the effective date of the reorganization, a newly formed area education agency shall meet the accreditation requirements set forth in section 273.10, and the standards set forth in section 273.11. 11. Unless the reorganization of an area education agency takes effect less than two years before the taking of the next federal decennial census, a newly formed area education agency shall, within one year of the effective date of the reorganization, redraw the boundary lines of director districts in the area education agency if a petition filed by a school district to join the newly formed area education agency, or for release from the newly formed area education agency, in accordance with section 273.22, subsections 4, 6, and 7, was approved. A petition describing the boundaries, or accurately describing the area included therein by legal descriptions, of the proposed district, which boundaries or area described shall conform to plans developed or the petition shall request change of the plan, shall be filed with the area education agency administrator of the area education agency in which the greatest number of registered voters reside. However, the area education agency administrator shall not accept a petition if any of the school districts affected have approved the issuance of general obligation bonds at an election pursuant to section 296.6 during the preceding six-month period. The petition shall be signed by eligible electors residing in each existing school district or portion affected equal in number to at least twenty percent of the number of registered voters in the school district or portion affected, or four hundred eligible electors, whichever is the smaller number.

2. The petition filed under subsection 1 shall also state the name of the proposed school district and the number of directors which may be either five or seven and the method of election of the school directors of the proposed district. The method of election of the directors shall be one of the following optional plans:

a. Election at large from the entire district by the electors of the entire district.

b. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district but who shall be elected by the vote of the electors of the entire school district. The boundaries of the director districts and the area and population included within each district shall be such as justice, equity, and the interests of the people may require. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election. As far as practicable, the boundaries of the districts shall follow established political or natural geographical divisions.

c. Election of not more than one-half of the total number of school directors at large from the entire district and the remaining directors from and as residents of designated single-member or multimember director districts into which the entire school district shall be divided on the basis of population for each director. In such case, all directors shall be elected by the electors of the entire school district. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

d. Division of the entire school district into designated geographical single director or multi-director subdistricts on the basis of population for each director, to be known as director districts, each of which shall be represented on the school board by one or more directors who shall be residents of the director district and who shall be elected by the voters of the director district. Place of voting in the director districts shall be designated by the commissioner of elections. Changes in the boundaries of director districts shall not be made during a period commencing sixty days prior to the date of the regular school election.

e. In districts having seven directors, election of three directors at large by the electors of the entire district, no more than two at each regular school election, and election of the remaining directors as residents of and by the electors of individual geographic subdistricts established on the basis of population and identified as director districts, no more than two at each regular school election. Boundaries of the subdistricts shall follow precinct boundaries, as far as practicable, and shall not be changed less than sixty days prior to the regular school election.

3. If the petition proposes the division of the school district into director districts, the boundaries of the proposed director districts shall not be drawn until the question is approved by the voters. If the question is approved by the voters, the directors of the new school district shall draw the boundaries of the director districts according to the standards described in section 275.23A, subsection 1. Following adoption by the school board, the plan shall be submitted to the state commissioner of elections for approval.

4. The area education agency board in reviewing the petition as provided in sections 275.15 and 275.16 shall review the proposed method of election of school directors and may change or amend the plan in any manner, including to specify a different method of electing school directors as may be required by law, justice, equity, and the interest of the people. In the action, the area education agency board shall follow the same procedure as is required by sections 275.15 and 275.16 for other action on the petition by the area education agency board.

5. *a.* The area education agency board in reviewing a petition as provided in sections 275.15 and 275.16 that is not subject to the division of assets and liabilities provisions in sections 275.29 through 275.31 shall review the proposal for dividing liability for payment of outstanding bonds issued under section 423E.5* or 423F.4, required to be included under section 275.28, and may change or amend the proposal in any manner, including to specify a different division for the reorganized districts or a different method of payment or retirement of the bonds as may be required by law, justice, equity, and the interest of the people. The review conducted by the area education agency, including any resulting change to the proposal, shall ensure that the reorganized district's estimated revenue under section 423F.2 is sufficient for the payment of principal and interest on the outstanding bonds required to be paid in the budget year following the reorganization.

b. For bonds issued under section 423E.5* or 423F.4, the approval of the reorganization at election creates a lien on the revenues from the secure an advanced vision for education fund received by the reorganized district designated in the proposal approved by the area education agency, subject to the same priority as provided by the affected school district that issued the bonds.

6. The petition may include a provision that the voter-approved physical plant and equipment levy provided in section 298.2 will be voted upon at the election conducted under section 275.18. The petition may also include a provision that the revenue purpose statement provided in section 423F.3 will be voted upon at the election conducted under section 275.18.

The notice shall also list the date, time, and location for the hearing on the petition as provided in section 275.15. The cost of publication shall be assessed to each district whose territory is involved in the ratio that the number of pupils in basic enrollment for the budget year, as defined in section 257.6 in each district bears to the total number of pupils in basic enrollment for the budget year in the total area involved. 1. At the hearing, which shall be held within ten days of the final date set for filing objections, interested parties, both petitioners and objectors, may present evidence and arguments, and the area education agency board shall review the matter on its merits and within ten days after the conclusion of any hearing, shall rule on the objections and shall enter an order fixing the boundaries for the proposed school corporation as will in its judgment be for the best interests of all parties concerned, having due regard for the welfare of adjoining districts, or dismiss the petition.

2. The area education agency board, when entering the order fixing the boundaries, shall consider all available evidence including, but not limited to, information presented by the petitioners, all objections requesting territory exclusion, reorganization studies and plans, geographical patterns evidenced by students using open enrollment to attend school in another district pursuant to section 282.18, potential travel distances required of students, and geographic configuration of the proposed district. The exclusion of territory shall represent a balance between the rights of the objectors and the welfare of the reorganized district.

3. 1. If the territory described in the petition for the proposed corporation lies in more than one area education agency, the agency administrator with whom the petition is filed shall fix the time and place for a hearing and call a joint meeting of the members of all the agency boards in which territory of the proposed school corporation lies, to act as a single board for the hearing of the objections, and a majority of members of each of the agency boards of the different agencies in which any part of the proposed corporation lies, constitutes a quorum. The president of the board of directors of the area education agency in which the petition has been filed, or a member of the board designated by the president, shall preside at the joint meeting. The joint boards acting as a single board shall determine whether the petition conforms to plans or, if the petition requests a change in plans, whether a change should be made, and may change the plans of any or all the area education agency boards affected by the petition. The joint board shall determine and fix boundaries for the proposed corporation as provided in section 275.15 or dismiss the petition. The joint board may continue the hearing as provided in section 275.15.

2. Votes of each member of an area education agency board in attendance shall be weighted so that the total number of votes eligible to be cast by members of each board in attendance shall be equal. However, if the joint boards cast a tie vote and are unable to agree to a decision fixing the boundaries for the proposed school corporation or to a decision to dismiss the petition, the time during which actions must be taken under section 275.15 shall be extended from ten days to fifteen days after the conclusion of the hearing under section 275.15, and the joint board shall reconvene not less than ten and not more than fifteen days after the conclusion of the hearing. 4. Judicial review of the actions of the department may be sought in accordance with the terms of the Iowa administrative procedure Act, chapter 17A. Notwithstanding the terms of said Act, petitions for judicial review must be filed within thirty days after the decision of the department of education.

275.23A Redistricting following federal decennial census.

1. School districts which have directors who represent director districts as provided in section 275.12, subsection 2, paragraphs *"b"*, *"c"*, *"d"*, and *"e"*, shall be divided into director districts according to the following standards:

a. All director district boundaries shall follow the boundaries of areas for which official population figures are available from the most recent federal decennial census and, wherever possible, shall follow precinct boundaries.

b. To the extent possible in order to comply with paragraph *"a"*, all director districts shall be as nearly equal as practicable to the ideal population for the districts as determined by dividing the number of districts to be established into the population of the school district.

c. All districts shall be composed of contiguous territory as compact as practicable unless the school district is composed of marginally adjacent territory. A school district which is composed of marginally adjacent territory shall have director districts composed of contiguous territory to the extent practicable.

d. Consideration shall not be given to the addresses of incumbent officeholders, political affiliations of registered voters, previous election results, or demographic information other than population head counts, except as required by the Constitution and the laws of the United States.

e. A city shall not be divided into two or more director districts unless the population of that portion of the city that is within the school district is greater than the ideal size of a director district. Cities shall be divided into the smallest number of director districts possible.

2. Following each federal decennial census the school board shall determine whether the existing director district boundaries meet the standards in subsection 1 according to the most recent federal decennial census. In addition to the authority granted to voters to change the number of directors or method of election as provided in sections 275.35, 275.36, and 278.1, the board of directors of a school district may, following a federal decennial census, by resolution and in accordance with this section, authorize a change in the method of election as set forth in section 275.12, subsection 2, or a change to either five or seven directors after the board conducts a hearing on the resolution. If the board proposes to

UNOFFICIAL VERSION 2021 YEAR RELEASE

change the number of directors from seven to five directors, the resolution shall include a plan for reducing the number of directors. If the board proposes to increase the number of directors to seven directors, two directors shall be added according to the procedure described in section 277.23, subsection 2. If necessary, the board of directors shall redraw the director district boundaries. The director district boundaries shall be described in the resolution adopted by the school board. The resolution shall be adopted no earlier than November 15 of the second year immediately following the year in which the federal decennial census is taken and no later than May 15 of the third year immediately following the year in which the federal decennial census is taken. A copy of the plan shall be filed with the area education agency administrator of the area education agency in which the school's electors reside. If the board does not provide for an election as provided in sections 275.35, 275.36, and 278.1 and adopts a resolution to change the number of directors or method of election in accordance with this subsection, the district shall change the number of directors or method of election as provided unless, within twenty-eight days following the action of the board, the secretary of the board receives a petition containing the required number of signatures, asking that an election be called to approve or disapprove the action of the board in adopting the resolution. The petition must be signed by eligible electors equal in number to not less than one hundred or thirty percent of the number of voters at the last preceding regular school election, whichever is greater. The board shall either rescind its action or direct the county commissioner of elections to submit the question to the registered voters of the school district at an election held on a date specified in section 39.2, subsection 4, paragraph "c". If a majority of those voting on the question at the election favors disapproval of the action of the board, the district shall not change the number of directors or method of election. If a majority of those voting on the question does not favor disapproval of the action, the board shall certify the results of the election to the department of management and the district shall change the number of directors or method of election as provided in this subsection. At the expiration of the twenty-eight-day period, if no petition is filed, the board shall certify its action to the department of management and the district shall change the number of directors or method of election as provided in this subsection.

3. The school board shall notify the state commissioner of elections and the county commissioner of elections of each county in which a portion of the school district is located when the boundaries of director districts are changed. The notices of changes submitted to the state commissioner shall be postmarked no later than the deadline for adoption of the resolution under subsection 2. The board shall provide the commissioners with maps showing the new boundaries and shall also certify to the state commissioner the populations of the new director districts as determined under the latest federal decennial census. If, following a federal decennial census a school district elects not to redraw director districts under this section, the school board shall so certify to the state commissioner of elections, and the school board shall also certify to the state commissioner the populations of the retained director districts as determined under the latest federal decennial census. If the state commissioner determines that a district board has failed to make the required changes by the dates specified by this section, the state commissioner of elections shall make or cause to be made the necessary changes as soon as possible. The state commissioner shall assess any expenses incurred to the school district. The state commissioner of elections may request the services of personnel of and materials available to the legislative services agency to assist the state commissioner in making any required boundary changes.

1. Between July 1 and July 20, or on a date determined by agreement of the initial board and the boards of districts receiving territory of the school districts affected, but not later than August 30, the initial board shall meet with the boards of districts receiving territory of the school districts affected, for the purpose of reaching joint agreement on an equitable division of the assets and an equitable distribution of the liabilities of the school districts affected. In addition, if outstanding general obligation indebtedness is in existence in any district, the initial board of directors of the newly formed school district shall meet with the boards of all school districts affected prior to April 30 prior to the school year the reorganization is effective to determine the distribution of liability for payment of the general obligation bonded indebtedness between the districts so that the newly formed district may certify its budget under the procedures specified in chapter 24. 2. The decision of the arbitrators shall be made in writing and filed with the secretary of the new corporation, and a party to the proceedings may appeal the decision to the district court by serving notice on the secretary of the new corporation within twenty days after the decision is filed. 275.31 Taxes and appropriation to effect equalization.

1. If necessary to equalize the division and distribution, the board or boards may provide for the levy of additional taxes, which shall be sufficient to satisfy the mandatory levy required in section 76.2 or other liabilities of the districts, upon the property of a corporation or part of a corporation and for the distribution of the tax revenues so as to effect equalization. The department of management shall pay debt service aid to the newly formed district in an amount that reduces the rate of the property tax levy for lawful bonded indebtedness in the portion of the newly formed district where the new rate is higher, to the rate that was levied in that portion of the district during the year preceding the reorganization or dissolution.

2. For the school year beginning July 1, 1987, and succeeding school years, there is appropriated from the general fund of the state to the department of management an amount sufficient to pay the debt service aid under this section. Debt service aid shall be paid in the manner provided in section 257.16.

3. The department of management shall notify the county auditor of each applicable county of the amount, in dollars and cents per thousand dollars of assessed valuation, of the property tax levy in each portion of each applicable newly formed school district in the county for the amount estimated and certified to apply on principal and interest on lawful bonded indebtedness, and the boundaries of the portions within the newly formed district for which the levies shall be made. 275.41 Alternative method for director elections — temporary appointments.

1. As an alternative to the method specified in section 275.25 for electing directors in a newly formed community school district, the procedure specified in this section may be used and if used, the petition filed under section 275.12 shall state the number of directors on the initial board. If two districts are named in the petition, either five or seven directors shall serve on the initial board. If three or more districts are named in the petition, either seven or nine directors shall serve on the initial board. The petition shall specify the number of directors to be retained from each district, and those numbers shall be proportionate to the populations of the districts. If the exclusion of territory from a reorganization affects the proportionate balance of directors among the affected districts specified in the petition, or if the proposal specified in the petition does not comply with the requirement for proportionate representation, the area education board shall modify the proposal. However, all districts affected shall retain at least one member.

2. Prior to the organizational meeting of the newly formed district, the boards of the former districts shall designate directors to be retained as members to serve on the initial board, and if the total number of directors determined under subsection 1 is an even number, that number of directors shall function and may within five days of the organizational meeting appoint one additional director by unanimous vote with all directors voting. Otherwise, the board shall function until a special election can be held to elect an additional director. The procedure for calling the special election shall be the procedure specified in section 275.25. If there is an insufficient number of board members eligible to be retained from a former school district, the board of the former school district may appoint members to fill the vacancies. A vacancy occurs if there is an insufficient number of former board

UNOFFICIAL VERSION NOT EARLY RELEASE

members who reside in the newly formed district or if there is an insufficient number who are willing to serve on the board of the newly formed district.

3. Prior to the effective date of the reorganization, the initial board shall approve a plan that commences at the first regular school election held after the effective date of the merger and is completed at the second regular school election held after the effective date of the merger, to replace the initial board with the regular board. If the petition specifies a number of directors on the regular board to be different from the number of directors on the initial board, the plan shall provide that the number specified in the petition for the regular board is in place by the time the regular board is formed. The plan shall provide that as nearly as possible one-half of the members of the board shall be elected biennially, and if a special election was held to elect a member to create an odd number of members on the board, the term of that member shall end at the organizational meeting following the second regular school election held after the effective date.

4. The board of the newly formed district shall organize within forty-five days after the approval of the merger upon the call of the area education agency administrator. The new board shall have control of the employment of all personnel for the newly formed district for the ensuing school year. Following the organization of the new board the board shall have authority to establish policy, organize curriculum, enter into contracts and complete such planning and take such action as is essential for the efficient management of the newly formed community school district.

5. The board of the newly formed district shall appoint an acting superintendent and an acting board secretary. The appointment of the acting superintendent shall not be subject to the continuing contract provision of sections 279.20, 279.23, and 279.24.

6. Section 49.8, subsection 5, shall not permit a director to remain on the board of a school district after the effective date of a boundary change which places the director's residence outside the boundaries of the district. Vacancies so caused on any board shall be filled in the manner provided in sections 279.6 and 279.7.

However, this section shall not be construed to prevent the sale, lease, exchange, gift, or grant and acceptance of any interest in real or other property of the corporation to the extent authorized in section 297.22 or 297.24.

c. Determine upon additional branches that shall be taught.

d. Instruct the board that school buildings may or may not be used for meetings of public interest.

h. Authorize a change in the method of conducting elections or in the number of directors as provided in sections 275.35 and 275.36. If a proposition submitted to the voters under this paragraph or paragraph "*g*" is rejected, it may not be resubmitted to the voters of the district in substantially the same form within the next three years; if it is approved, no other proposal may be submitted to the voters of the district under this paragraph or paragraph "*g*" within the next six years. The establishment or abandonment of director districts or a change in the boundaries of director districts shall be implemented as prescribed in section 275.37.

i. Change the name of the school district, without affecting its corporate existence, rights, or obligations, and subject to the requirements of section 274.6.

The election shall be held on a date specified in section 39.2, subsection 4, paragraph "*c*".

b. Subject to paragraph "*c*", before entering into a rental or lease-purchase option contract, authorized by the electors, the board shall first adopt plans and specifications for a building or buildings which it considers suitable for the intended use and also adopt a form of rental or lease-purchase option contract. The board shall then invite bids thereon, by advertisement published once each week for two consecutive weeks, in a newspaper published in the county in which the building or buildings are to be located, and the rental or lease-purchase option contract shall be awarded to the lowest responsible bidder, but the board may reject any and all bids and advertise for new bids.

c. A contract for construction by a private party of property to be lease-purchased by a public school corporation is a contract for a public improvement as defined in section 26.2. If the estimated cost of the property to be lease-purchased that is renovated, repaired, or

279.24 Contract with administrators — automatic continuation or termination.

1. An administrator's contract shall remain in force and effect for the period stated in the contract. The contract shall be automatically continued in force and effect for additional one-year periods beyond the end of its original term, except and until the contract is modified or terminated by mutual agreement of the board of directors and the administrator, or until terminated as provided by this section.

2. If the board of directors is considering termination of an administrator's contract, prior to any formal action, the board may arrange to meet in closed session, in accordance with the provisions of section 21.5, with the administrator and the administrator's representative. The board shall review the administrator's evaluation, review the reasons for nonrenewal, and give the administrator an opportunity to respond. If, following the closed session, the board of directors and the administrator are unable to mutually agree to a modification or termination of the administrator's contract, the board of directors may issue a one-year nonrenewable contract to the administrator. If the board of directors decides to terminate the administrator's contract, the board shall follow the procedures in this section.

3. An administrator may file a written resignation with the secretary of the school board on or before May 1 of each year or the date specified by the school board for return of the contract, whichever date occurs first.

4. Administrators employed in a school district for less than three consecutive years are probationary administrators. However, a school board may extend the probationary period for an additional year with the consent of the administrator. If a school board determines that it should terminate a probationary administrator's contract, the school board shall notify the administrator not later than May 15 that the contract will not be renewed beyond the current year. The notice shall be in writing by letter, personally delivered, or mailed by certified mail. The notification shall be complete when received by the administrator. Within ten days after receiving the notice, the administrator may request a private conference with the school board to discuss the reasons for termination. The school board's decision to terminate a probationary administrator's contract shall be final unless the termination was based upon an alleged violation of a constitutionally guaranteed right of the administrator.

5. The school board may, by majority vote of the membership of the school board, cause the contract of an administrator to be terminated. If the school board determines that it

should consider the termination of a nonprobationary administrator's contract, the following procedure shall apply:

a. On or before May 15, the administrator shall be notified in writing by a letter personally delivered or mailed by certified mail that the school board has voted to consider termination of the contract. The notification shall be complete when received by the administrator.

b. The notice shall state the specific reasons to be used by the school board for considering termination which for all administrators except superintendents shall be for just cause.

c. Within five days after receipt of the written notice that the school board has voted to consider termination of the contract, the administrator may request a private hearing in writing to the secretary of the school board. The board shall then forward the notification to the board of educational examiners along with a request that the board of educational examiners submit a list of five qualified administrative law judges who are employed by the division of administrative hearings created by section 10A.801 to the parties. Within three days from receipt of the list the parties shall select an administrative law judge by alternately removing a name from the list until only one name remains. The person whose name remains shall be the administrative law judge. The parties shall determine by lot which party shall remove the first name from the list. The private hearing shall be held no sooner than twenty days and not later than forty days following the administrator's request unless the parties otherwise agree. If the administrator does not request a private hearing, the school board, not later than May 31, may determine the continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board. School board action shall be by majority roll call vote entered on the minutes of the meeting. Notice of school board action shall be personally delivered or mailed to the administrator.

d. The administrative law judge selected shall notify the secretary of the school board and the administrator in writing concerning the date, time, and location of the private hearing. The school board may be represented by a legal representative, if any, and the administrator shall appear and may be represented by counsel or by representative, if any. Any witnesses for the parties at the private hearing shall be sequestered. A transcript or recording shall be made of the proceedings at the private hearing. A school board member or administrator is not liable for any damage to an administrator or school board member if a statement made at the private hearing is determined to be erroneous as long as the statement was made in good faith.

e. The administrative law judge shall, within ten days following the date of the private hearing, make a proposed decision as to whether or not the administrator should be dismissed, and shall give a copy of the proposed decision to the administrator and the school board. Findings of fact shall be prepared by the administrative law judge. The proposed decision of the administrative law judge shall become the final decision of the school board unless within thirty days after the filing of the decision the administrator files a written notice of appeal with the school board, or the school board on its own motion determines to review the decision.

f. If the administrator appeals to the school board, or if the school board determines on its own motion to review the proposed decision of the administrative law judge, a private hearing shall be held before the school board within ten days after the petition for review, or motion for review, has been made or at such other time as the parties agree. The private hearing is not subject to chapter 21. The school board may hear the case de novo upon the record as submitted before the administrative law judge. In cases where there is an appeal from a proposed decision or where a proposed decision is reviewed on motion of the school board, an opportunity shall be afforded to each party to file exceptions, present briefs, and present oral arguments to the school board which is to render the final decision. The secretary of the school board shall give the administrator written notice of the time, place, and date of the private hearing. The school board shall meet within five days after the private hearing to determine the question of continuance or discontinuance of the contract and, if the board determines to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year,

nonrenewable contract. The school board shall make findings of fact which shall be based solely on the evidence in the record and on matters officially noticed in the record.

g. The decision of the school board shall be in writing.

h. When the school board has reached a decision, opinion, or conclusion, it shall convene in open meeting and by roll call vote determine the continuance or discontinuance of the administrator's contract and, if the board votes to continue the administrator's contract, whether to suspend the administrator with or without pay for a period specified by the board or issue the administrator a one-year, nonrenewable contract. The record of the private hearing and written decision of the board shall be exempt from the provisions of chapter 22. The secretary of the school board shall immediately personally deliver or mail notice of the school board's action to the administrator.

i. The administrator may within thirty days after notification by the school board of discontinuance of the contract appeal to the district court of the county in which the administrative office of the school district is located.

6. The court may affirm the school board's action. The court shall reverse, modify, or grant any other appropriate relief from the school board's action, equitable or legal, and including declaratory relief, if substantial rights of the administrator have been prejudiced because the school board's action is any of the following:

a. In violation of constitutional or statutory provisions.

b. In excess of the statutory authority of the school board.

c. In violation of school board policy or rule.

d. Made upon unlawful procedure.

e. Affected by other error of law.

f. Unsupported by a preponderance of the evidence in the record made before the school board when that record is reviewed as a whole.

g. Unreasonable, arbitrary, or capricious, or characterized by an abuse of discretion or clearly unwarranted exercise of discretion.

UNOFFICIAL VERSION 2027 EARLY RELEASE

on locally determined or statewide assessments, as provided in section 256.7, subsection 31. If a student is not reading proficiently and is persistently at risk in reading, based upon the assessments administered in accordance with this paragraph, the school district shall provide intensive reading instruction to the student. The student's reading proficiency shall be periodically reassessed by locally determined or statewide assessments including periodic universal screening and annual standard-based assessments. The student shall continue to be provided with intensive reading instruction, at grade levels beyond grade three if necessary, until the student is reading at grade level, as determined by the student's consistently proficient performance on valid and reliable measures of reading ability. For purposes of this section, *"persistently at risk"* means the student has not met the grade-level benchmark on two consecutive screening assessments administered under this paragraph.

b. The parent or guardian of any student in kindergarten through grade three who is persistently at risk in reading shall be notified in writing and shall be provided all of the following:

(1) A description of the services currently provided to the student.

(2) A description of the proposed supplemental instructional services and supports that the school district will provide to the student that are designed to remediate the identified areas in which the student is persistently at risk in reading.

(3) Strategies for parents and guardians to use in helping the student read proficiently, including but not limited to the promotion of parent-guided home reading.

The written notice shall contain a description of the parent's or guardian's ability to request that the student be retained in the student's current grade level for the subsequent school year.

(2) A school district shall not promote a student who is not reading proficiently to the next grade level, and shall retain the student in the student's current grade level for the subsequent school year, if the student's parent or guardian submits to the school district a request that the student be retained in the student's current grade level pursuant to subparagraph (1).

d. A school district shall provide to students in kindergarten through the end of grade six who are not reading proficiently with personalized reading plans until the student is reading at grade level, as determined by the student's consistently proficient performance on valid and reliable measures of reading ability.

Assistance shall include but not be limited to strategies that formally address dyslexia, when appropriate. For purposes of this subparagraph division (a), *"dyslexia"* means a specific learning disability that is neurobiological in origin, is characterized by difficulties with accurate or fluent word recognition and by poor spelling and decoding abilities, and may include difficulties that typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction, as well as secondary consequences such as problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

If more than fifteen percent of an attendance center's students are not reading proficiently and are persistently at risk in reading by the end of third grade, the school district shall develop and implement strategies to reduce that percentage, including school and community strategies to raise the percentage of students who are reading at grade level.

b. Each school district, subject to an appropriation of funds by the general assembly, shall provide professional development services to enhance the skills of elementary teachers in responding to children's unique reading issues and needs and to increase the use of evidence-based strategies.

280.13C Concussion and brain injury policies.

1. *Legislative findings.* The general assembly finds and declares all of the following:

a. Concussions are one of the most commonly reported injuries in children and adolescents who participate in sports and recreational activities. A concussion is caused by a blow or motion to the head or body that causes the brain to move rapidly inside the skull. The risk of catastrophic injuries or death is significant when a concussion or head injury is not properly evaluated and managed.

b. Concussions are a type of brain injury that can range from mild to severe and can disrupt the way the brain normally works. Concussions can occur in any organized or unorganized sport or recreational activity and can result from a fall or from players colliding with each other, the ground, or with obstacles. Concussions can occur with or without loss of consciousness, but the vast majority of concussions occur without loss of consciousness.

c. Continuing to play with a concussion or symptoms of a brain injury leaves a young athlete especially vulnerable to greater injury and even death. The general assembly recognizes that, despite having generally recognized return-to-play standards for concussions and head injuries, some affected youth athletes are prematurely returned to play or expected to learn at full capability, resulting in prolonged symptoms, actual or potential physical injury, or death to youth athletes in this state.

d. A concussion can impair not only the physical abilities of a student athlete, but can also affect how a student athlete thinks, acts, feels, and learns. A student athlete who has sustained a concussion may need informal or formal adjustments, accommodations, modifications of curriculum, and monitoring by medical or educational staff until the student is fully recovered.

2. *Definitions.* For the purposes of this section:

a. *"Contest"* means an interscholastic athletic game or competition.

b. For school years beginning on or after July 1, 2018, each school district and nonpublic school shall provide to the parent or guardian of each student in grades seven through twelve a concussion and brain injury information sheet, as provided by the department of health and human services, the Iowa high school athletic association, and the Iowa girls high school athletic union. The student and the student's parent or guardian shall sign and return a copy of the concussion and brain injury information sheet to the student's school prior to the student's participation in any extracurricular interscholastic activity.

5. *Removal from participation.*

a. If a student's coach, contest official, or licensed health care provider or an emergency medical care provider observes signs, symptoms, or behaviors consistent with a concussion or brain injury in an extracurricular interscholastic activity, the student shall be immediately removed from participation.

b. A student who has been removed from participation shall not recommence such participation or participate in any dance or cheerleading activity or activity, contest, or practice governed by the Iowa high school athletic association or the Iowa girls high school athletic union until the student has been evaluated by a licensed health care provider trained in the evaluation and management of concussions and other brain injuries and the student has received written clearance to return to or commence participation from a licensed health care provider.

6. *Return-to-play protocol and return-to-learn plans.*

However, an individual student is responsible for other protective gear that the individual student needs but that is not required for participation in the contest as provided in this subsection.

8. *Liability.*

a. A school district or accredited nonpublic school that adopts and follows the protocol required by this section and provides an emergency medical care provider or a licensed health care provider at a contest that is a contact or limited contact activity as identified by the American academy of pediatrics shall not be liable for any claim for injuries or damages based upon the actions or inactions of the emergency medical care provider or the licensed health care provider present at the contest at the request of the school district or accredited nonpublic school so long as the emergency medical care provider or the licensed health care provider acts reasonably and in good faith and in the best interest of the student athlete and without undue influence of the school district or accredited nonpublic school or coaching staff employed by the school district or accredited nonpublic school. Every school shall be free of tuition to all actual residents between the ages of five and twenty-one years and to resident veterans as defined in section 35.1, as many months after becoming twenty-one years of age as they have spent in the armed forces of the United States before they became twenty-one, provided, however, fees may be charged covering instructional costs for a summer school or driver education program. The board of education may, in a hardship case, exempt a student from payment of the above fees. Every person, however, who shall attend any school after graduation from a four-year course in an approved high school or its equivalent shall be charged a sufficient tuition fee to cover the cost of the instruction received by the person.

3. This section shall not apply to tuition authorized by chapter 260C.

282.7 Attending in another corporation — payment.

1. The board of directors of a school district by record action may discontinue any or all of grades seven through twelve and negotiate an agreement for attendance of the pupils enrolled in those grades in the schools of one or more contiguous school districts having accredited school systems. If the board designates more than one contiguous district for attendance of its pupils, the board shall draw boundary lines within the school district for determining the school districts of attendance of the pupils. The portion of a district so designated shall be contiguous to the accredited school district designated for attendance. Only entire grades may be discontinued under this subsection and if a grade is discontinued, all higher grades in that district shall also be discontinued. A school district that has discontinued one or more grades under this subsection has complied with the requirements of section 275.1 relating to the maintenance of kindergarten and twelve grades. A pupil who graduates from another school district under this subsection shall receive a diploma from the receiving district. The boards of directors entering into an agreement under this section shall provide for sharing the costs and expenses as provided in sections 282.10 through 282.12. The agreement shall provide for transportation and authority and liability of the affected boards.

2. If the career and technical education program offered by a school district does not meet standards for program approval adopted by the state board for career and technical education, the district shall be granted one year to meet the standards for approval. If a district chooses to waive the one-year grace period, or the district fails to meet the approval standards after one year, the director of the department of education shall delegate the authority to the regional career and technical education planning partnership established pursuant to section 256.136 to direct the district to contract with another school district or a community college which has an approved program, for the provision of career and technical education for students of the district. The district that has waived the one-year grace period or has failed to meet the approval standards shall pay to the district or community college that has an approved program an amount equal to the percent of the school day in which a pupil is receiving career and technical education in the approved program times the district cost per pupil of the district of residence of the pupil. The regional career and technical education planning partnership established pursuant to section 256.136 shall contract with an approved program for delivery of career and technical education in the district which has failed to meet the approval standards or has waived the one-year grace period. Transportation to and from the approved program shall be provided by the school district that has waived the one-year grace period or has failed to meet approval standards. Reasonable effort shall be made to conduct the approved program at an attendance center in the district that has failed to meet the approval standards or has waived the one-year grace period.

3. Notwithstanding sections 28E.9 and 282.8, a school district may negotiate an agreement under subsection 1 for attendance of its pupils in a school district located in a contiguous state subject to a reciprocal agreement by the two state boards in the manner provided in this subsection. Prior to negotiating an agreement with the school district in the contiguous state, the board of directors shall file a written request with the state board of education for a determination whether the school district in the contiguous state meets requirements substantially similar to those required for accredited or approved school districts in this state and the school district receives or has available services equivalent to those that would be provided in this state by an area education agency. The school district shall also obtain approval by the department of education of the sharing proposal, before the agreement becomes effective. Six months before making the request for approval, the district shall request a feasibility study from the department of education. If the state board of this state and the corresponding state board in the contiguous state agree that the school districts of their respective states meet substantially similar requirements and have substantially similar services available to the school district, and if the Iowa department of education approves the proposed contract, the two state boards may sign a reciprocal agreement for attendance of their pupils in the school district of the other state, subject to the agreement signed between the boards of directors of the two districts. A school district that

negotiates an agreement with a school district in a contiguous state under this subsection is not eligible for supplementary weighting under section 257.11 as a result of that agreement.

282.8 Attending school outside state.

1. The boards of directors of school districts located near the state boundaries may designate schools of equivalent standing across the state line for attendance of both elementary and secondary school pupils when the public school in the adjoining state is nearer than any appropriate public school in a pupil's district of residence or in Iowa. Distance shall be measured by the nearest traveled public road. Arrangements shall be subject to reciprocal agreements made between the chief state school officers of the respective states. Notwithstanding section 282.1, arrangements between districts pursuant to the reciprocal agreements made under this section shall establish tuition and transportation fees in an amount acceptable to the affected boards, but the tuition fee established shall not be less than the lower of the tuition fee established pursuant to section 282.24 for the school district or the equivalent tuition rate for the non-Iowa school district for the previous school year, and the transportation fee established shall not be less than the lower average transportation cost per mile for yellow school buses as described in section 321.373 for the previous school year of the two affected school districts. The agreement shall provide that if the tuition fee for the school district in the adjoining state is a variable rate, the test of which tuition fee is lower shall be determined for each student by the affected boards.

2. A person attending school in another state pursuant to this section shall continue to be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

3. Notwithstanding the tuition provisions of subsection 1, the tuition fee established for a child requiring special education under chapter 256B shall be equal to the actual cost of the special education instructional program provided to that child under the child's individualized education program.

4. If the chief state school officers of the respective states have not entered into a reciprocal agreement under this section, or the agreement has expired or been terminated, or the distance to the public school in the adjoining state is not nearer than an appropriate public school in the pupil's district of residence or an appropriate public school in Iowa, the pupil attending school outside the state shall be considered a nonresident child for purposes of tuition payments to the receiving district and shall not be treated as a pupil of the district of residence for state school foundation aid purposes under section 257.6.

5. The whole grade sharing provisions of sections 282.10 through 282.12 and the open enrollment provisions of section 282.18 shall not apply to agreements made between districts under this section.

1. Upon receipt of notice that a student who is enrolled in the district is required to register as a sex offender under chapter 692A, the board shall determine the educational placement of the student. The tentative agenda for the meeting of the board of directors at

which the board will consider such enrollment or educational placement shall specifically state that the board is considering the enrollment or educational placement of an individual who is required to register as a sex offender under chapter 692A. If the individual is denied enrollment in a school district under this section, the school district of residence shall provide the individual with educational services in an alternative setting.

2. Notwithstanding section 692A.121, or any other provision of law to the contrary, the county sheriff shall provide to the boards of directors of the school districts located within the county the name of any individual under the age of twenty-one who is required to register as a sex offender under chapter 692A.

282.10 Whole grade sharing.

1. Whole grade sharing is a procedure used by school districts whereby all or a substantial portion of the pupils in any grade in two or more school districts share an educational program for all or a substantial portion of a school day under a written agreement pursuant to section 256.13, 280.15, or 282.7, subsection 1 or 3. Whole grade sharing may either be one-way or two-way sharing.

2. One-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and does not receive a substantial number of pupils from those districts in return.

3. Two-way whole grade sharing occurs when a school district sends pupils to one or more other school districts for instruction and receives a substantial number of pupils from those school districts in return.

4. A whole grade sharing agreement shall be signed by the boards of the districts involved in the agreement not later than February 1 of the school year preceding the school year for which the agreement is to take effect. The boards of the districts shall negotiate as part of the new or existing agreement the disposition of funding provided under chapter 284, including the teacher leadership supplement state cost per pupil as provided in section 257.9, unless all of the districts subject to the agreement are receiving such funding.

282.11 Procedure for whole grade sharing agreements.

1. For the purposes of this section, *"affected pupils"* are those who under the whole grade sharing agreement are attending or scheduled to attend the school district specified in the agreement, other than the district of residence, during the term of the agreement.

2. Not less than ninety days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is negotiating, extending, or renewing a sharing agreement, shall publicly announce its intent to negotiate a sharing agreement under section 21.4, subsection 1. Within thirty days of the board's public notice, a petition may be filed with the department of education requesting that a feasibility study be completed. The petition shall be signed by twenty percent of the eligible electors in the district. The director of the department of education may determine that a feasibility study conducted by the board satisfies the request, provided that the study conforms with the criteria contained in section 256.9.

3. Not less than thirty days prior to signing a whole grade sharing agreement whereby all or a substantial portion of the pupils in a grade in the district will attend school in another district, the board of directors of each school district that is a party to a proposed sharing agreement shall hold a public hearing at which the proposed agreement is described, and at which the parent or guardian of an affected pupil and certificated employees of the school district shall have an opportunity to comment on the proposed agreement.

4. *a.* Within the thirty-day period prior to the signing of the agreement, the parent or

UNOFFICIAL VERSION: PRE-RELEASE

guardian of an affected pupil may request the board of directors to send the pupil to another contiguous school district. The request shall be based upon one of the following:

(1) That the agreement will not meet the educational program needs of the pupil.

(2) That adequate consideration was not given to geographical factors.

b. The board shall allow or disallow the request prior to the signing of the agreement, or the request shall be deemed granted. If the board disallows the request, the board shall indicate the reasons why the request is disallowed and shall notify the parent or guardian that the decision of the board may be appealed as provided in this section.

c. If the board disallows the request of a parent or guardian of an affected pupil, the parent or guardian, not later than March 1, may appeal the sending of that pupil to the school district specified in the agreement, to the state board of education. The basis for the appeal shall be the same as the basis for the request to the board. An appeal shall specify a contiguous school district to which the parent or guardian wishes to send the affected pupil.

d. If the parent or guardian appeals, the standard of review of the appeal is a preponderance of evidence that the parent's or guardian's hardship outweighs the benefits and integrity of the sharing agreement. The state board may require the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, or may deny the appeal by the parent or guardian. If the state board requires the district of residence to pay tuition to the contiguous school district specified by the parent or guardian, the tuition shall be equal to the tuition established in the sharing agreement. The decision of the state board is binding on the boards of directors of the school districts affected, except that the decision of the state board may be appealed by either party to the district court.

3. For two-way sharing, the costs shall be determined by mutual agreement of the boards.

4. The number of pupils participating in a whole grade sharing agreement shall be determined on the date specified in section 257.6, subsection 1, and on the second Friday of January of each year.

282.18 Open enrollment.

1. *a.* It is the goal of the general assembly to permit a wide range of educational choices for children enrolled in schools in this state and to maximize ability to use those choices. It is therefore the intent that this section be construed broadly to maximize parental choice and access to educational opportunities which are not available to children because of where they live.

b. For the school year commencing July 1, 1989, and each succeeding school year, a parent or guardian residing in a school district may enroll the parent's or guardian's child in a public school in another school district in the manner provided in this section.

2. *a.* By March 1 of the preceding school year for students entering grades one through twelve, or by September 1 of the current school year for students entering kindergarten or for prekindergarten students enrolled in special education programs and included in the school district's basic enrollment under section 257.6, subsection 1, paragraph *"a"*, subparagraph (1), a parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that the parent or guardian intends to enroll the parent's or guardian's child in a public school in another school district. If a parent or guardian fails to file a notification that the parent or guardian intends to enroll

UNOFFICIAL VERSION 2021 EARLY RELEASE

the parent's or guardian's child in a public school in another district by the deadline specified in this paragraph, the procedures of subsection 4 apply.

b. (1) The board of the receiving district shall enroll the pupil in a school in the receiving district for the following school year unless the receiving district has insufficient classroom space for the pupil or unless the receiving district has prohibited the pupil from enrolling pursuant to subsection 14. The board of directors of a receiving district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action, but not later than June 1 of the preceding school year. The parent or guardian may withdraw the request at any time prior to the start of the school year.

(2) A denial of a request by the board of a receiving district is not subject to appeal. The board of a receiving district, or the superintendent of the receiving district if the board of the receiving district has adopted a policy granting the superintendent the authority to approve open enrollment applications, shall document the reason for the denial of a request and submit information related to the denial to the department of education in a manner prescribed by the department.

c. Every school district shall adopt a policy which defines the term *"insufficient classroom space"* for that district.

3. *a.* The superintendent of a district subject to court-ordered desegregation may deny a request for transfer under this section if the superintendent finds that enrollment or release of a pupil will adversely affect the district's implementation of the desegregation order, unless the transfer is requested by a pupil whose sibling is already participating in open enrollment to another district, or unless the request for transfer is submitted to the district in a timely manner as required under subsection 2 prior to implementation of the desegregation order by the district. If a transfer request would facilitate implementation of a desegregation order, the district shall give priority to granting the request over other requests.

b. A parent or guardian whose request has been denied because of the district's implementation of the desegregation order may appeal the decision of the superintendent to the board of the district in which the request was denied. The board may either uphold or overturn the superintendent's decision. A decision of the board to uphold the denial of the request is subject to appeal to the district court in the county in which the primary business office of the district is located.

c. The board of directors of a school district subject to court-ordered desegregation shall develop a policy for implementation of open enrollment in the district. The policy shall contain objective criteria for determining when a request would adversely impact the desegregation order and criteria for prioritizing requests that do not have an adverse impact on the order.

4. *a.* After March 1 of the preceding school year and until the date specified in section 257.6, subsection 1, the parent or guardian shall send notification to the district of residence and the receiving district, on forms prescribed by the department of education, that good cause exists for failure to meet the March 1 deadline. The board of directors of a receiving school district may adopt a policy granting the superintendent of the school district authority to approve open enrollment applications submitted after the March 1 deadline. The board of the receiving district shall take action to approve the request if good cause exists. If the request is granted, the board shall transmit a copy of the form to the parent or guardian and the school district of residence within five days after board action. A denial of a request by the board of a receiving district is not subject to appeal.

b. If a resident district believes that a receiving district is violating this subsection, the resident district may, within fifteen days after board action by the receiving district, submit an appeal to the director of the department of education.

c. The director of the department of education, or the director's designee, shall attempt to mediate the dispute to reach approval by both boards as provided in subsection 15. If approval is not reached under mediation, the director or the director's designee shall conduct a hearing and shall hear testimony from both boards. Within ten days following the hearing, the director shall render a decision upholding or reversing the decision by the board of the receiving

UNOFFICIAL VERSION 2021 BUREAU RELEASE

district. Within five days of the director's decision, the board may appeal the decision of the director to the state board of education under the procedures set forth in chapter 290.

5. Open enrollment applications filed after March 1 of the preceding school year that do not qualify for good cause as provided in subsection 4 shall be subject to the approval of the board of the resident district and the board of the receiving district. The parent or guardian shall send notification to the district of residence and the receiving district that the parent or guardian seeks to enroll the parent's or guardian's child in the receiving district. A decision of either board to deny an application filed under this subsection involving repeated acts of harassment of the student or serious health condition of the student that the resident district cannot adequately address is subject to appeal under section 290.1. The state board shall exercise broad discretion to achieve just and equitable results that are in the best interest of the affected child or children.

6. A request under this section is for a period of not less than one year. If the request is for more than one year and the parent or guardian desires to have the pupil enroll in a different district, the parent or guardian may petition the current receiving district by March 1 of the previous school year for permission to enroll the pupil in a different district for a period of not less than one year. Upon receipt of such a request, the current receiving district board may act on the request to transfer to the other school district at the next regularly scheduled board meeting after the receipt of the request. The new receiving district shall enroll the pupil in the district unless there is insufficient classroom space in the district or the district is subject to court-ordered desegregation and enrollment of the pupil would adversely affect implementation of the desegregation order. A denial of a request to change district enrollment within the approval period is not subject to appeal. However, a pupil who has been in attendance in another district under this section may return to the district of residence and enroll at any time, once the parent or guardian has notified the district of residence and the receiving district in writing of the decision to enroll the pupil in the district of residence.

7. *a.* A pupil participating in open enrollment shall be counted, for state school foundation aid purposes, in the pupil's district of residence. A pupil's residence, for purposes of this section, means a residence under section 282.1.

b. (1) The board of directors of the district of residence shall pay to the receiving district the sum of the state cost per pupil for the budget year plus the teacher leadership supplement state cost per pupil, the professional development supplement state cost per pupil, and the early intervention supplement state cost per pupil for the budget year as provided in section 257.9, plus any moneys that would be due to the school district of residence for the pupil as a result of the non-English speaking weighting under section 280.4, subsection 3, for the budget year multiplied by the state cost per pupil for the budget year. If the pupil participating in open enrollment is also an eligible pupil under section 261E.6, the receiving district shall pay the tuition reimbursement amount to an eligible postsecondary institution as provided in section 261E.7.

(2) If a pupil participates in cocurricular or extracurricular activities in accordance with subsection 12, the district of residence may deduct up to two hundred dollars per activity, for up to two activities, from the amount calculated in subparagraph (1). For a cocurricular activity, one semester shall equal one activity. Extracurricular activities for which such a resident district may charge up to two hundred dollars per activity for up to two activities under this subparagraph include interscholastic athletics, music, drama, and any other activity with a general fund expenditure exceeding five thousand dollars annually. A pupil may participate in additional extracurricular activities at the discretion of the resident district. The school district of residence may charge the pupil a fee for participation in such cocurricular or extracurricular activities equivalent to the fee charged to and paid in the same manner by other resident pupils.

c. If a pupil participating in open enrollment attends school in the receiving district for less than a full school year, payment from the district of residence to the receiving district shall be prorated on a per diem basis.

8. *a.* If a request filed under this section is for a child requiring special education under chapter 256B, the request to transfer to the other district shall only be granted if the following conditions are met:

UNOFFICIAL VERSION 2021 EDITION

(1) The receiving district maintains a special education instructional program which is appropriate to meet the child's educational needs and the enrollment of the child in the receiving district's program would not cause the size of the class or caseload in that special education instructional program in the receiving district to exceed the maximum class size or caseload established pursuant to rules adopted by the state board of education.

(2) If the child would be assigned to a general education class, there is sufficient classroom space for the general education class to which the child would be assigned.

b. For children requiring special education, the board of directors of the district of residence shall pay to the receiving district the actual costs incurred in providing the appropriate special education.

c. For children requiring special education, the receiving district shall complete and provide to the district of residence the documentation necessary to seek Medicaid reimbursement for eligible services.

9. *a.* If a parent or guardian of a child, who is participating in open enrollment under this section, moves to a different school district during the course of either district's academic year, the child's first district of residence as determined on the date specified in section 257.6, subsection 1, shall be responsible for payment of the cost per pupil plus weightings or special education costs to the receiving school district for the balance of the school year in which the move took place. The new district of residence shall be responsible for the payments during succeeding years.

b. If a request to transfer is due to a change in family residence, a change in a child's residence from the residence of one parent or guardian to the residence of a different parent or guardian, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship proceeding, placement in foster care, adoption, participation in a foreign exchange program, or participation in a substance use disorder or mental health treatment program, and the child who is the subject of the request is enrolled in any grade from kindergarten through grade twelve or who is a prekindergarten student enrolled in a special education program at the time of the request and is not currently using any provision of open enrollment, the parent or guardian of the child shall have the option to have the child remain in the child's original district of residence under open enrollment with no interruption in the child's educational program. If a parent or guardian exercises this option, the child's new district of residence is not required to pay the amount calculated in subsection 7 or 8, as applicable, until the start of the first full year of enrollment of the child.

c. The receiving district shall bill the resident district determined under paragraph *"a"* according to the timeline in section 282.20, subsection 3. Payments shall be made to the receiving district in a timely manner.

d. If the transfer of a pupil from one district to another results in a transfer from one area education agency to another, the sending district shall forward a copy of the request to the sending district's area education agency. The receiving district shall forward a copy of the request to the receiving district's area education agency. Any moneys received by the area education agency of the sending district for the pupil who is the subject of the request shall be forwarded to the receiving district's area education agency.

e. A district of residence may apply to the school budget review committee if a student was not included in the resident district's enrollment count during the fall of the year preceding the student's transfer under open enrollment.

10. *a.* Notwithstanding section 285.1 relating to transportation of nonresident pupils, the parent or guardian is responsible for transporting the pupil without reimbursement to and from a point on a regular school bus route of the receiving district. For purposes of this subsection, *"a point on a regular school bus route of the receiving district"* includes any school bus stop on the regular school bus route of the receiving district that existed prior to road construction that necessitates a change in the regular school bus route, whether or not the change in the regular school bus route resulting from the road construction necessitates sending school vehicles from the receiving district into the district of residence in order to safely, economically, or efficiently transport students to or from the preexisting point.

b. (1) A receiving district with a total enrollment of less than two thousand students may send school vehicles not more than two miles into the district of residence of the pupil using

the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the pupil's primary residence is closer to the attendance center the pupil attends in the receiving district than the residence is to the attendance center the pupil would be assigned in the sending district.

(2) Notwithstanding subparagraph (1), a receiving district with a total enrollment of greater than or equal to two thousand students may send school vehicles two miles or more into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, regardless of the distance between the pupil's primary residence and the attendance center the pupil attends in the receiving district or the attendance center the pupil would be assigned in the sending district, if all of the following apply:

(a) The total enrollment of the pupil's district of residence is less than two thousand students.

(b) The pupil's district of residence is contiguous to the receiving district.

(c) The pupil's district of residence has sent school vehicles into the receiving district pursuant to subparagraph (1).

(3) Notwithstanding subparagraph (1) or (2), a receiving district may send school vehicles into the district of residence of the pupil using the open enrollment option under this section, for the purpose of transporting the pupil to and from school in the receiving district, if the boards of both the sending and receiving districts agree to this arrangement.

c. (1) If the pupil meets the economic eligibility requirements established by the department and state board of education, the sending district is responsible for providing transportation or paying the pro rata cost of the transportation to a parent or guardian for transporting the pupil to and from a point on a regular school bus route of a contiguous receiving district unless the cost of providing transportation or the pro rata cost of the transportation to a parent or guardian exceeds the average transportation cost per pupil transported for the previous school year in the district. The economic eligibility requirements established by the department of education and state board of education shall minimally include those pupils with household incomes of two hundred percent or less of the federal poverty level as defined by the most recently revised poverty income guidelines published by the United States department of health and human services. If the cost exceeds the average transportation cost per pupil transported for the previous school year, the sending district shall only be responsible for that average per pupil amount. A sending district which provides transportation for a pupil to a contiguous receiving district under this subsection may withhold, from the district cost per pupil amount that is to be paid to the receiving district, an amount which represents the average or pro rata cost per pupil for transportation, whichever is less.

(2) A sending district shall not be responsible for paying a parent or guardian pursuant to subparagraph (1) if the pupil is transported by the receiving district to and from school in the receiving district pursuant to paragraph *"b"*.

11. *a.* A pupil who participates in open enrollment for purposes of attending a grade in grades nine through twelve in a school district other than the district of residence is ineligible to participate in varsity interscholastic athletic contests and athletic competitions during the pupil's first one hundred forty calendar days of enrollment in the district. However, a pupil may participate immediately in a varsity interscholastic sport under any of the following circumstances:

(1) If the pupil is entering grade nine for the first time and did not participate in an interscholastic athletic competition for another school or school district during the summer immediately following eighth grade.

(2) If the district of residence and the other school district jointly participate in the sport.

(3) If the sport in which the pupil wishes to participate is not offered in the district of residence.

(4) If the pupil chooses to use open enrollment to attend school in another school district because the district in which the student previously attended school was dissolved and merged with one or more contiguous school districts under section 256.11, subsection 12.

UNOFFICIAL VERSION 2024 EARLY RELEASE

(5) If the pupil participates in open enrollment because the pupil's district of residence has entered into a whole grade sharing agreement with another district for the pupil's grade.

(6) If the parent or guardian of the pupil participating in open enrollment is an active member of the armed forces and resides in permanent housing on government property provided by a branch of the armed services.

(7) If the district of residence determines that the pupil was previously subject to a founded incident of harassment or bullying as defined in section 280.28 while attending school in the district of residence.

(8) If the pupil participates in open enrollment because of circumstances that meet the definition of good cause. For purposes of this section, *"good cause"* means a change in a child's residence due to a change in family residence, a change in a child's residence from the residence of one parent or guardian to the residence of a different parent or guardian, a change in the state in which the family residence is located, a change in a child's parents' marital status, a guardianship or custody proceeding, placement in foster care, adoption, participation in a foreign exchange program, initial placement of a prekindergarten student in a special education program requiring specially designed instruction, or participation in a substance use disorder or mental health treatment program, a change in the status of a child's resident district such as removal of accreditation by the state board, surrender of accreditation, or permanent closure of a nonpublic school, revocation of a charter school contract as provided in section 256E.10 or 256E.27, the failure of negotiations for a whole grade sharing, reorganization, dissolution agreement, or the rejection of a current whole grade sharing agreement, or reorganization plan.

(9) If the board of directors or superintendent of the district of residence issues or implements a decision that results in the discontinuance or suspension of varsity interscholastic sports activities in the district of residence.

(10) If the board of directors of the district of residence and the board of directors of the receiving district both agree to waive the ineligibility period.

(11) For open enrollment applications approved for the school year beginning July 1, 2021, if the pupil's district of residence had a voluntary diversity plan in effect on January 1, 2021, and applicable to the school year beginning July 1, 2021.

b. A pupil who has paid tuition and attended school, or has attended school pursuant to a mutual agreement between the two districts, in a district other than the pupil's district of residence for at least one school year is also eligible to participate immediately in interscholastic athletic contests and athletic competitions under this section, but only as a member of a team from the district that pupil had attended.

c. If a pupil is declared ineligible for interscholastic athletic contests and athletic competitions in the pupil's district of residence due to the pupil's academic performance, upon participating in open enrollment, in addition to any other period of ineligibility under this subsection, the pupil shall be ineligible in the receiving district for the remaining period of ineligibility declared by the district of residence.

d. For purposes of this subsection, *"school days of enrollment"* does not include enrollment in summer school. For purposes of this subsection, *"varsity"* means the same as defined in section 256.46, subsection 3.

12. *a.* A pupil participating in open enrollment for purposes of receiving educational instruction and course content primarily over the internet in accordance with section 256.7, subsection 32, may participate in any cocurricular or extracurricular activities offered to children in the pupil's grade or group, and sponsored by the district of residence, under the same conditions and requirements as the pupils enrolled in the district of residence, if the school district attendance center providing the educational instruction and course content primarily over the internet does not sponsor such cocurricular or extracurricular activities.

b. The pupil may participate in not more than two cocurricular or extracurricular activities per academic term unless the resident district approves the pupil's participation in additional activities.

c. The pupil shall comply with the eligibility, conduct, and other requirements relating to the activity that are established by the district of residence for any pupil who applies to participate or who is participating in the activity.

(2) However, on June 30 of a school year, if the board of directors of a school district determines that the number of days for which a school district generated funding for children under this paragraph *"b"* who were counted in the basic enrollment of the school district in that school year in accordance with section 257.6, subsection 1, is less than the sum of the number of days enrolled for all children enrolled in the school district under this paragraph *"b"* during the school year, the secretary of the school district may submit a claim to the department of education by August 1 following the school year for an amount equal to the district cost per pupil of the district for the previous school year multiplied by the quotient of the excess number of enrolled days for children under this paragraph *"b"* divided by the number of days in the district's board-approved calendar for the previous year. The amount of the claim shall be paid by the department of administrative services to the school district by October 1. The department of administrative services shall transfer the total amount of the approved claim of a school district from the moneys appropriated under section 257.16 and the amount paid shall be deducted quarterly from the state foundation aid paid to all school districts in the state during the remainder of the subsequent fiscal year in the manner provided in paragraph *"a"*.

2. *a.* The actual special education instructional costs incurred for a child who lives in a facility or other placement pursuant to section 282.19 or for a child who is placed in a facility or home pursuant to section 282.29, who requires special education and who is not enrolled in the educational program of the district of residence of the child but who receives an educational program from the district in which the facility, home, or other placement is located, shall be paid by the district of residence of the child to the district in which the facility, home, or other placement is located, and the costs shall include the cost of transportation.

The district shall submit a proposed program and budget to the department of education by January 1 for the next succeeding school year. The department of education shall review and approve or modify the program and proposed budget and shall notify the district by February 1. The district shall submit a claim by August 1 following the school year for the actual cost of the program. The total amount paid by the department of administrative services shall be deducted quarterly from the state foundation aid paid under section 257.16 to all school districts in the state during the subsequent fiscal year. The portion of the total amount of the approved claims that shall be deducted from the state aid of a school district shall be the same as the ratio that the budget enrollment for the budget year of the school district bears to the total budget enrollment in the state for the budget year in which the deduction is made. The department of administrative services shall transfer the total amount of the approved claims from moneys appropriated under section 257.16 for payment to the school district.

3. *a.* A child's district of residence is not financially responsible for the services provided by an out-of-state facility or an out-of-state provider to a child unless the out-of-state facility or out-of-state provider provides notice to the child's district of residence that the child may be subject to this section and the child's district of residence enters into an agreement with the out-of-state facility or out-of-state provider that satisfies the requirements established in subsection 2.

284.11 State supplemental assistance for high-need schools.

1. *Findings and intent.* The general assembly finds that students whose first language is not English, who have special needs, or who come from low-income backgrounds face potential obstacles to learning. Schools across Iowa, both urban and rural, have increasing numbers of students who face these challenges. Therefore, it is the intent of the general assembly to provide supplemental assistance to the highest-need schools in Iowa to address these challenges. This section provides for state assistance to allow school districts to develop extended learning time programs, hire instructional support staff, provide additional professional development, or supplement the salary of teachers in the identified schools.

2. *Department's responsibilities.* The department shall do the following:

a. Collect relevant data and establish a list of high-need schools eligible for state supplemental assistance. The department shall establish a process and criteria to determine which schools are placed on the list and the department shall revise the list annually. Criteria for the determination of which high-need schools shall be placed on the list shall be based upon factors that include but are not limited to the socioeconomic status of the students enrolled in the school, the percentage of the school's student body who are English learners, student academic growth, certified instructional staff attrition, and geographic balance. The department may approve or disapprove requests for revision of the list, which a school district submits pursuant to subsection 3.

b. Develop a standardized process for distributing moneys appropriated for supplemental assistance for high-need schools under section 284.13, subsection 1, paragraph "*g*", to school districts. In determining the process for distribution of such moneys, the department shall take into consideration the amount of moneys appropriated for supplemental assistance in high-need schools for the given year and the minimal amount of moneys needed to increase the academic achievement of students. A school district receiving moneys pursuant to this section shall certify annually to the department how the moneys distributed to the school district pursuant to this section were used by the school district.

c. Review the use and effectiveness of the funds distributed to school districts for supplemental assistance in high-need schools under this section. The department shall submit its findings and recommendations in a report to the general assembly by January 15 annually.

3. *School district request for approval.* A school district may request on an annual basis approval from the department for additions to the list of high-need schools the department maintains pursuant to subsection 2 based upon the unique local conditions and needs of the school district. The criteria used to determine the placement of high-need schools on the list

UNOFFICIAL VERSION: NOT FOR RELEASE

in accordance with subsection 2 does not restrict the department from adding a high-need school to the list as requested by a school district on the basis of unique local conditions and needs pursuant to this subsection.

4. *Moneys received and miscellaneous income.* The distribution of moneys allocated pursuant to section 284.13, subsection 1, paragraph *"g"*, to a school district shall be made in one payment on or about October 15 of the fiscal year for which the appropriation is made, taking into consideration the relative budget and cash position of the state resources. Such moneys shall not be commingled with state aid payments made under section 257.16 to a school district and shall be accounted for by the local school district separately from state aid payments. Payments made to school districts under this section are miscellaneous income for purposes of chapter 257. A school district shall maintain a separate listing within its budget for payments received and expenditures made pursuant to this section.

5. *Moneys received to supplement salaries.* Moneys received by a school district pursuant to section 284.13, subsection 1, paragraph *"g"*, shall be used to supplement and not supplant the salary being received by a teacher in a high-need school, and shall not be considered under chapter 20 by an arbitrator or other third party in determining a comparison of the wages of teachers in that high-need school with the wages of teachers in other buildings or in another school district.

nonpublic school and approved by the department of education or department of health and human services or children participating in preschool in an approved local program under chapter 256C may be provided transportation services. However, transportation services provided to nonpublic school children are not eligible for reimbursement under this chapter.

(4) Districts are not required to maintain seating space on school buses for students who are otherwise to be provided transportation under this subsection if the students do not or will not regularly utilize the district's transportation service for extended periods during the school year. The student, or the student's parent or legal guardian if the student is less than eighteen years of age, shall be notified by the district before transportation services may be suspended, and the suspension may continue until the student, or the student's parent or legal guardian, notifies the district that regular student ridership will continue.

b. For the purposes of this subsection, *"high school"* means a school which commences with either grade nine or grade ten, as determined by the board of directors of the school district or by the governing authority of the nonpublic school in the case of nonpublic schools.

c. Boards in their discretion may provide transportation for some or all resident pupils attending public school or pupils who attend nonpublic schools who are not entitled to transportation. Boards in their discretion may collect from the parent or guardian of the pupil not more than the pro rata cost for such optional transportation, determined as provided in subsection 12.

2. Any pupil may be required to meet a school bus on the approved route a distance of not to exceed three-fourths of a mile without reimbursement.

3. In a district where transportation by school bus is impracticable, where necessary to implement a whole grade sharing agreement under section 282.10, or where school bus service is not available, the board may require parents or guardians to furnish transportation for their children to the schools designated for attendance. Except as provided in section 285.3, the parent or guardian shall be reimbursed for such transportation service for public and nonpublic school pupils by the board of the resident district in an amount equal to eighty dollars plus seventy-five percent of the difference between eighty dollars and the previous school year's statewide average per pupil transportation cost, as determined by the department of education. However, a parent or guardian shall not receive reimbursement for furnishing transportation for more than three family members who attend elementary school and one family member who attends high school.

4. In all districts where unsatisfactory roads or other conditions make it advisable, the board at its discretion may require the parents or guardians of public and nonpublic school pupils to furnish transportation for their children up to two miles to connect with vehicles of transportation. The parents or guardians shall be reimbursed for such transportation by the boards of the resident districts at the rate of twenty-eight cents per mile per day, one way, per family for the distance from the pupil's residence to the bus route.

5. Where transportation by school bus is impracticable or not available or other existing conditions warrant it, arrangements may be made for use of common carriers according to uniform standards established by the director of the department of education and at a cost based upon the actual cost of service and approved by the board.

6. When the school designated for attendance of pupils is engaged in the transportation of pupils, the sending or designating school shall use these facilities and pay the pro rata cost of transportation except that a district sending pupils to another school may make other arrangements when it can be shown that such arrangements will be more efficient and economical than to use facilities of the receiving school, providing such arrangements are approved by the board of the area education agency.

7. If a local board closes either elementary or high school facilities and is approved by the board of the area education agency to operate its own transportation equipment, the full cost of transportation shall be paid by the board for all pupils living beyond the statutory walking distance from the school designated for attendance.

8. Transportation service may be suspended upon any day or days, due to inclemency of the weather, conditions of roads, or the existence of other conditions, by the board of the school district operating the buses, when in their judgment it is deemed advisable and when the school or schools are closed to all children.

UNOFFICIAL VERSION NOT FOR RESALE

9. Distance to school or to a bus route shall in all cases be measured on the public highway only and over the most passable and safest route as determined by the area education agency board, starting in the roadway opposite the private entrance to the residence of the pupil and ending in the roadway opposite the entrance to the school grounds or designated point on bus route.

10. The board in any district providing transportation for nonresident pupils shall collect the pro rata cost of transportation from the district of pupil's residence for all properly designated pupils so transported.

11. Boards in districts operating buses may transport nonresident pupils who attend public school, kindergarten through junior college, who are not entitled to free transportation provided they collect the pro rata cost of transportation from the parents.

12. The pro rata cost of transportation shall be based upon the actual cost for all the children transported in all school buses. It shall include one-seventh of the original net cost of the bus and other items as determined and approved by the director of the department of education but no part of the capital outlay cost for school buses and transportation equipment for which the school district is reimbursed from state funds or that portion of the cost of the operation of a school bus used in transporting pupils to and from extracurricular activities shall be included in determining the pro rata cost. In a district where, because of unusual conditions, the cost of transportation is in excess of the actual operating cost of the bus route used to furnish transportation to nonresident pupils, the board of the local district may charge a cost equal to the cost of other schools supplying such service to that area, upon receiving approval of the director of the department of education.

13. When a local board fails to pay transportation costs due to another school for transportation service rendered, the board of the creditor corporation shall file a sworn statement with the area education agency board specifying the amount due. The agency board shall check such claim and if the claim is valid shall certify to the county auditor. The auditor shall transmit to the county treasurer an order directing the county treasurer to transfer the amount of such claim from the funds of the debtor corporation to the creditor corporation and the treasurer shall pay the same accordingly.

14. Resident pupils attending a nonpublic school located either within or without the school district of the pupil's residence shall be entitled to transportation on the same basis as provided for resident public school pupils under this section. The public school district providing transportation to a nonpublic school pupil shall determine the days on which bus service is provided, which shall be based upon the days for which bus service is provided to public school pupils, and the public school district shall determine bus schedules and routes. In the case of nonpublic school pupils the term *"school designated for attendance"* means the nonpublic school which is designated for attendance by the parents of the nonpublic school pupil.

15. If the nonpublic school designated for attendance is located within the public school district in which the pupil is a resident, the pupil shall be transported to the nonpublic school designated for attendance as provided in this section.

16. *a.* If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence, the pupil may be transported by the district of residence to a public school or other location within the district of the pupil's residence. A public school district in which a nonpublic school is located may establish school bus collection locations within its district from which nonresident nonpublic school pupils may be transported to and from a nonpublic school located in the district. If a pupil receives such transportation, the district of the pupil's residence shall be relieved of any requirement to provide transportation.

b. As an alternative to paragraph *"a"* of this subsection, subject to section 285.9, subsection 3, where practicable, and at the option of the public school district in which a nonpublic school pupil resides, the school district may transport a nonpublic school pupil to a nonpublic school located outside the boundary lines of the public school district if the nonpublic school is located in a school district contiguous to the school district which is transporting the nonpublic school pupils, or may contract with the contiguous public school district in which a nonpublic school is located for the contiguous school district to transport

the nonpublic school pupils to the nonpublic school of attendance within the boundary lines of the contiguous school district.

c. If the nonpublic school designated for attendance of a pupil is located outside the boundary line of the school district of the pupil's residence and the district of residence meets the requirements of subsections 14, 15, and this subsection by using subsection 17, paragraph "*c*", and the district in which the nonpublic school is located is contiguous to the district of the pupil's residence and is willing to provide transportation under subsection 17, paragraph "*a*" or "*b*", the district in which the nonpublic school is located may provide transportation services, subject to section 285.9, subsection 3, and may make the claim for reimbursement under section 285.2. The district in which the nonpublic school is located shall notify the district of the pupil's residence that it is making the claim for reimbursement, and the district of the pupil's residence shall be relieved of the requirement for providing transportation and shall not make a claim for reimbursement for those nonpublic school pupils for which a claim is filed by the district in which the nonpublic school is located.

17. The public school district may meet the requirements of subsections 14 through 16 by any of the following:

a. Transportation in a school bus operated by a public school district.

b. Contracting with private parties as provided in section 285.5. However, contracts shall not provide payment in excess of the average per pupil transportation costs of the school district for that year.

c. Utilizing the transportation reimbursement provision of subsection 3.

d. Contracting with a contiguous public school district to transport resident nonpublic school pupils the entire distance from the nonpublic pupil's residence to the nonpublic school located in the contiguous public school district or from the boundary line of the public school district to the nonpublic school.

18. The director of the department of education may review all transportation arrangements to see that they meet all legal and established uniform standard requirements.

19. Transportation authorized by this chapter is exempt from all laws of this state regulating common carriers.

20. Transportation for which the pro rata cost or other charge is collected shall not be provided outside the state of Iowa except in accordance with rules adopted by the department of education in accordance with chapter 17A. The rules shall take into account any applicable federal requirements.

21. Boards in districts operating buses may in their discretion transport senior citizens, children, persons with disabilities, and other persons and groups, who are not otherwise entitled to free transportation, and shall collect the pro rata cost of transportation. Transportation under this subsection shall not be provided when the school bus is being used to transport pupils to or from school unless the board determines that such transportation is desirable and will not interfere with or delay the transportation of pupils.

22. Notwithstanding subsection 1, paragraph "*a*", subparagraph (1), a parent or guardian of an elementary pupil entitled to transportation pursuant to subsection 1, may request that a child care facility be designated for purposes of subsection 9 rather than the residence of the pupil. The request shall be submitted for a period of time of at least one semester and may not be submitted more than twice during a school year.

Each surviving beneficiary entitled to receive retirement benefits of the date of termination of the system will be entitled to receive retirement benefits at the time and in the amount in effect with respect to such beneficiary immediately prior to the date of termination.

In order to provide the additional amounts required from the general fund for such increased payments, the board of directors may annually at the meeting at which it estimates the amount required for the general fund in accordance with section 298.1 estimate such additional amount as an actuarial computation shall show is necessary from the general fund for the payment of such increased benefits for the current school year; provided the amount estimated and certified to be transferred from the general fund to the retirement reserve fund shall not exceed one and four-tenths cents per thousand dollars of the assessed valuation of the taxable property of the school corporation. Upon the death of the last beneficiary to survive, any balance remaining in said retirement reserve fund shall be transferred to the general fund of said school district.

3. Notwithstanding the provisions of this section, the plan provisions of a pension and annuity retirement system of a school district established under this chapter regarding the determination and distribution of benefits upon termination of the retirement system shall be effective if the school district has received a favorable determination letter from the federal internal revenue service as to the qualified status of such retirement system under applicable provisions of the Internal Revenue Code.

296.7 Indebtedness for insurance authorized — tax levy.

1. *a.* A school district or community college corporation may contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district or corporation to make payments beyond its current budget year for one or more of the following mechanisms to protect the school district or corporation from tort liability, loss of property, environmental hazards, or any other risk associated with the operation of the school district or corporation:

(1) To procure or provide for a policy of insurance.

(2) To provide a self-insurance program.

(3) To establish and maintain a local government risk pool.

b. However, this subsection does not apply to an insurance program described in subsection 3.

2. For purposes of subsection 1, an employee benefit plan which includes a specific or aggregate excess loss coverage or a program that self-insures only a per-employee or per-family deductible for each year and which transfers the risk remaining beyond this deductible is not a self-insurance program, but is instead an insurance program. As used in this section, an "*employee benefit plan*" includes, but is not limited to benefits for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance costs or benefits.

3. A school district, providing an insurance program as described in subsection 2, shall not contract indebtedness and issue general obligation bonds or enter into insurance agreements obligating the school district to make payments beyond its current budget year for that employee benefit plan. A school district may, however, apply to the school budget

(2) Premium on an insurance policy, including a stop loss or reinsurance policy, except as limited by subsection 3.

(3) Costs of a self-insurance program.

(4) Costs of a local government risk pool.

(5) Amounts payable under an insurance agreement.

b. However, for a school district, a tax levied under this section shall be included in the district management levy under section 298.4.

5. A self-insurance program or local government risk pool authorized by subsection 1 is not insurance and is not subject to regulation under chapters 505 through 523C. However, those self-insurance plans regulated pursuant to section 509A.14 shall remain subject to the requirements of section 509A.14 and rules adopted pursuant to that section.

6. Notwithstanding the other provisions of this section or any other statute, the tax levy authorized by this section shall not be used to pay the costs of employee benefits, including, but not limited to costs for hospital and surgical, medical expense, major medical, dental, prescription drug, disability, or life insurance benefits.

7. If the board by resolution restricts the use of money in a fund as a reserve for uninsured liability or a self-insurance program, the use shall be restricted and unavailable for any other purpose until the board removes the restriction. The removal is not effective until all obligations of the restricted fund have been satisfied, or the next fiscal year, whichever occurs later.

SUBCHAPTER II

SALE OR LEASE OF PROPERTY

297.22 Power to sell, lease, or dispose of property — tax.

1. *a.* The board of directors of a school district may sell, lease, or dispose of, in whole or in part, a schoolhouse, school site, or other property belonging to the district. If the real property contains less than two acres, is located outside of a city, is not adjacent to a city, and was previously used as a schoolhouse site, the procedure contained in sections 297.15 through 297.20 shall be followed in lieu of this section.

b. (1) Proceeds from the sale or disposition of real or other property shall be deposited into the fund which was used to account for the acquisition of the property. If the district is unable to determine which fund was used to account for the acquisition of the property or if the fund no longer exists in the district, the proceeds from the sale or disposition of real property shall be placed in the physical plant and equipment levy fund, and the proceeds from the sale or disposition of property other than real property shall be placed in the general fund. Proceeds from the lease of real or other property shall be placed in the general fund.

(2) Notwithstanding subparagraph (1), the board of directors of a school district may take action to deposit the proceeds from the sale or disposition of real or other property in any account maintained by the school district after holding a public hearing on the proposed action of the board. The board shall publish notice of the time and place of the public hearing in the same manner as required in section 24.9.

c. Before the board of directors may sell, lease for a period in excess of one year, or dispose of any property belonging to the school, the board shall hold a public hearing on the proposal. The board shall set forth its proposal in a resolution and shall publish notice of the time and the place of the public hearing on the resolution. The notice shall also describe the property. A locally known address for real property may be substituted for a legal description of real property contained in the resolution. The board shall publish notice of the time and place of the public hearing in the same manner as required in section 24.9. After the public hearing, the board may make a final determination on the proposal contained in the resolution.

d. However, property having a value of not more than twenty-five thousand dollars, other than real property, may be sold or disposed of by any procedure which is adopted by the board. Each such sale or disposal shall be published in a newspaper having general circulation in the district.

2. *a.* The board of directors of a school district may sell, lease, exchange, give, or grant, and accept any interest in real property to, with, or from a county, municipal corporation, school district, township, or area education agency if the real property is within the jurisdiction of both the grantor and grantee.

b. The board of directors of a school district may lease a portion of an existing school

UNOFFICIAL VERSION: NOT FOR SALE

building or lease a portion of existing school property. The lease may be renewed at the option of the board. The notice and public hearing requirements of subsection 1 of this section do not apply to the lease of a portion of an existing school building. A school district shall pay out of the revenue from a lease to the state of Iowa, and to the city, school district and any other political subdivision authorized to levy taxes, an amount as determined by this section. The amount shall be determined by applying the annual tax rate of the taxing district to the assessed value of the portion of the building leased, prorated for the term of the lease during the appropriate taxing period. The provisions of this section relating to the payment of property tax because of leases shall only apply to leases to private, for-profit entities which lease a portion of a school building for a period of thirty or more consecutive days, but shall not apply to property or equipment leased as part of a project designed to generate electricity for the school district.

3. The provisions in subsections 1 and 2 relating to the sale, lease, or disposition of school district property do not apply to student-constructed buildings and the property on which student-constructed buildings are located. The board of directors of a school district may sell, lease, or dispose of a student-constructed building and the property on which the student-constructed building is located, and may purchase sites for the erection of additional student-constructed structures, by any procedure which is adopted by the board. The proceeds from disposition of a student-constructed structure shall be placed in the school district's student construction fund. Moneys remaining in the school district's student construction fund after the board discontinues the student construction program shall first be used to reimburse the fund or funds from which the student construction program's start-up costs were paid and any moneys remaining after such reimbursement shall be transferred by board resolution to the school district's general fund.

LOAN AGREEMENTS

297.35 Continuation of loan agreement. Repealed by 2013 Acts, ch 88, §37.

297.36 Loan agreements.

1. *a.* In order to make immediately available proceeds of the voter-approved physical plant and equipment levy which has been approved by the voters as provided in section 298.2, the board of directors may, with or without notice, borrow money and enter into loan agreements in anticipation of the collection of the tax with a bank, investment banker, trust company, insurance company, or insurance group.

b. By resolution, the board shall provide for an annual levy which is within the limits of the voter-approved physical plant and equipment levy to pay for the amount of the principal and interest due each year until maturity. The board shall file a certified copy of the resolution with the auditor of each county in which the district is located. The filing of the resolution with the auditor makes it the duty of the auditor to annually levy the amount certified for collection until funds are realized to repay the loan and interest on the loan in full.

c. The loan must mature within the period of time authorized by the voters and shall bear interest at a rate which does not exceed the limits under chapter 74A. A loan agreement entered into pursuant to this section shall be in a form as the board of directors shall by resolution provide and the loan shall be payable as to both principal and interest from the proceeds of the annual levy of the voter-approved physical plant and equipment levy, or so much thereof as will be sufficient to pay the loan and interest on the loan.

d. The proceeds of a loan must be deposited in the physical plant and equipment levy fund. Warrants paid from this fund must be for purposes authorized for the voter-approved physical plant and equipment levy.

2. This section does not limit the authority of the board of directors to levy the full amount of the voter-approved physical plant and equipment levy, but if and to whatever extent the tax is levied in any year in excess of the amount of principal and interest falling due in that

year under a loan agreement, the first available proceeds, to an amount sufficient to meet maturing installments of principal and interest under the loan agreement, shall be paid into the debt service fund for the loan before the taxes are otherwise made available to the school corporation for other school purposes, and the amount required to be annually set aside to pay principal of and interest on the money borrowed under the loan agreement constitutes a first charge upon the proceeds of the voter-approved physical plant and equipment levy, which tax shall be pledged to pay the loan and the interest on the loan.

3. This section is supplemental and in addition to existing statutory authority to finance the purposes specified in section 298.2 for the physical plant and equipment levy, and for the borrowing of money and execution of loan agreements in connection with that section, and is not subject to any other law. The fact that a school corporation may have previously borrowed money and entered into loan agreements under authority of this section does not prevent the school corporation from borrowing additional money and entering into further loan agreements if the aggregate of the amount payable under all of the loan agreements does not exceed the proceeds of the voter-approved physical plant and equipment levy.

The physical plant and equipment levy consists of the regular physical plant and equipment levy of not exceeding thirty-three cents per thousand dollars of assessed valuation in the district and a voter-approved physical plant and equipment levy of not exceeding one dollar and thirty-four cents per thousand dollars of

assessed valuation in the district. However, the voter-approved physical plant and equipment levy may consist of a combination of a physical plant and equipment property tax levy and a physical plant and equipment income surtax as provided in subsection 4 with the maximum amount levied and imposed limited to an amount that could be raised by a one dollar and thirty-four cent property tax levy.

b. For school budget years beginning on or after July 1, 2015, a school district may by resolution of the board of directors adopted prior to April 30 preceding the budget year impose a physical plant and equipment levy at a rate in excess of the levy rate limitations under paragraph *"a"* if the board has refunded or refinanced a loan agreement entered into under section 297.36 and such refunding or refinancing complies with the maturity period authorized under section 297.36, subsection 1, paragraph *"c"*, and results in a lower amount of interest on the amount of the loan agreement. However, the rate imposed by a school district under this paragraph shall not exceed the rate imposed during the budget year in which the loan agreement was refunded or refinanced. Authorization to exceed the levy rate limitations of paragraph *"a"* shall terminate upon the maturity of the loan agreement after refunding or refinancing. Upon adoption of the resolution under this paragraph *"b"*, the board shall comply with the requirements of section 297.36, subsection 1, paragraph *"b"*.

2. If the electors of a school district have authorized a voter-approved physical plant and equipment levy not exceeding sixty-seven cents per thousand dollars of assessed valuation in the district prior to July 1, 1997, the levy shall continue for the period authorized under the voter-approved levy, and the maximum levy that can be authorized by the electors under the voter-approved levy on or after July 1, 1997, under this section, is an additional sixty-seven cents for a period to coincide with the period for which the initial physical plant and equipment levy in the district was approved.

3. The board of directors of a school district may certify for levy by April 30 of a school year a tax on all taxable property in the school district for the regular physical plant and equipment levy.

4. *a.* The board may on its own motion, and upon the written request of not less than one hundred eligible electors or thirty percent of the number of eligible electors voting at the last regular school election, whichever is greater, shall, direct the county commissioner of elections to provide for submitting the proposition of levying the voter-approved physical plant and equipment levy for a period of time authorized by the voters at the election, not to exceed ten years. The election shall be held on a date specified in section 39.2, subsection 4, paragraph "c". The proposition is adopted if a majority of those voting on the proposition at the election approves it. The voter-approved physical plant and equipment levy shall be funded either by a physical plant and equipment property tax or by a combination of a physical plant and equipment property tax and a physical plant and equipment income surtax, as determined by the board. However, if the board intends to enter into a rental or lease arrangement under section 279.26, or intends to enter into a loan agreement under section 297.36, only a property tax shall be levied for those purposes. Subject to the limitations of section 298.14, if the board uses a combination of a physical plant and equipment property tax and a physical plant and equipment surtax, for each fiscal year the board shall determine the percent of income surtax to be imposed expressed as full percentage points, not to exceed twenty percent.

b. If a combination of a property tax and income surtax is used, by April 30 of the previous school year, the board shall certify the percent of the income surtax to be imposed and the amount to be raised to the department of management and the department of management shall establish the rate of the property tax and income surtax for the school year. 1. *a.* The board of each school corporation shall, when estimating and certifying the amount of money required for general purposes, estimate and certify to the board of supervisors of the proper county for the debt service fund the amount required to pay interest due or that may become due for the fiscal year beginning July 1, thereafter upon lawful bonded indebtedness, and in addition thereto such amount as the board may deem necessary to apply on the principal.

b. The amount estimated and certified to apply on principal and interest for any one year shall not exceed two dollars and seventy cents per thousand dollars of the assessed valuation of the taxable property of the school corporation except as otherwise provided in this section.

c. For the sole purpose of computing the amount of bonds which may be issued as a result of the application of any limitation referred to in this section, all interest on the bonds in excess of that accruing in the first twelve months may be excluded from the first annual levy of taxes, so that the need for including more than one year's interest in the first annual levy of taxes to pay the bonds and interest shall not operate to further restrict the amount of bonds which may be issued, and in certifying the annual levies to the county auditor or auditors such first annual levy of taxes shall be sufficient to pay all principal of and interest on said bonds becoming due prior to the next succeeding annual levy and the full amount of such first

annual levy shall be entered for collection by said auditor or auditors, as provided in chapter 76.

d. The amount estimated and certified to apply on principal and interest for any one year may exceed two dollars and seventy cents per thousand dollars of assessed value by the amount approved by the voters of the school corporation, but not exceeding four dollars and five cents per thousand dollars of the assessed value of the taxable property within any school corporation, provided that the registered voters of such school corporation have first approved such increased amount at an election held on a date specified in section 39.2, subsection 4, paragraph "*c*".

2. The proposition submitted to the voters at such election shall be in substantially the following form:

> Shall the board of directors of the ..... (insert name of school corporation) in the County of ....., State of Iowa, be authorized to levy annually a tax exceeding two dollars and seventy cents per thousand dollars, but not exceeding ..... dollars and ..... cents per thousand dollars of the assessed value of the taxable property within said school corporation to pay the principal of and interest on bonded indebtedness of said school corporation, it being understood that the approval of this proposition shall not limit the source of payment of the bonds and interest but shall only operate to restrict the amount of bonds which may be issued?

3. Notice of the election shall be given by the county commissioner of elections according to section 49.53. The county commissioner of elections shall conduct the election pursuant to the provisions of chapters 39 through 53 and certify the results to the board of directors. The proposition shall not be deemed carried or adopted unless the vote in favor of such proposition is equal to at least sixty percent of the total vote cast for and against the proposition at the election. Whenever such a proposition has been approved by the voters of a school corporation as hereinbefore provided, no further approval of the voters of such school corporation shall be required as a result of any subsequent change in the boundaries of such school corporation.

4. The voted tax levy referred to in this section shall not limit the source of payment of bonds and interest but shall only restrict the amount of bonds which may be issued.

5. *a.* The ability of a school corporation to exceed two dollars and seventy cents per thousand dollars of assessed value to service principal and interest payments on bonded indebtedness is limited and conferred only to those school corporations engaged in the administration of elementary and secondary education.

b. If a school corporation leases a building or property, which has been used as a junior college by such corporation, to a community college, the annual amounts certified as herein provided by such leasing school corporation for payment of interest and principal due on lawful bonded indebtedness incurred by such leasing school corporation for purchasing, building, furnishing, reconstructing, repairing, improving, or remodeling the building leased or acquiring or adding to the site of such property leased, to the extent of the respective annual rent the school corporation will receive under such lease, shall not be considered as a part of the total amount estimated and certified for the purposes of determining if such amount exceeds any limitation contained in this section.

previously levied by the resolution authorizing issuance of the bonds becomes necessary in anticipation of future projected revenue shortfalls resulting from a machinery and equipment-related taxable valuation decrease from the valuation as of January 1, 1994, an adjustment shall be permitted subject to the following limitations:

1. An adjustment shall be permitted only in a district in which machinery and equipment valuation exceeds twenty percent of total taxable valuation as of January 1, 1994.

2. The adjustment shall not result in a total amount levied in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit provided in section 298.18. An adjustment in excess of the two dollar and seventy cent per thousand dollars of assessed valuation limit shall be subject to the election provisions for increases of up to four dollars and five cents per thousand dollars of assessed valuation provisions of section 298.18.

3. The amount of the adjustment, when added to the amount originally estimated and certified, for any one year, shall not exceed the least of:

a. The amount required to pay interest and principal due upon bonded indebtedness for the three-year period beginning on the date of the adjustment.

b. One hundred twenty-five percent of the amount originally estimated and certified.

c. One hundred ten percent of the total district levies for the fiscal year preceding the fiscal year in which the adjustment is to be added.

4. The amount of the adjustment plus the amount of state replacement moneys received under section 427B.19A which is attributable to the amount of the adjustment, when added to the amount originally estimated and certified, shall not result in the levying of an amount over the life of the issue in excess of the amount necessary for principal and interest repayment.

5. Amounts collected pursuant to this section shall be deposited in a separate debt service account distinct from the account established to hold principal and interest revenues resulting from the original levy.

6. An adjustment shall not be permitted which results in extending a levy beyond the earlier of the following:

a. Ten years from the original date of certification of the amount required to pay interest and principal.

299.12 Failure to attend.

1. *Definitions.* As used in this section:

a. "Chronically absent" means any absence from school for more than ten percent of the days or hours in the grading period established by a public school; provided, however, that an absence from school that is related to attending a course in religious instruction pursuant to section 299.1D shall not count toward this amount.

b. "School official" means an employee of a public school whose job duties involve identifying children who are at risk for becoming chronically absent, creating interventions to limit the rate of student absenteeism, and participating in the legal process related to student absenteeism.

2. *Chronic absenteeism.*

a. When a child becomes chronically absent, a school official shall send a notice by ordinary mail or electronic mail to the county attorney of the county in which the public school's central administrative office is located, and a notice to the child's parent, guardian, or legal or actual custodian of the child, if the child is not an emancipated minor, or to the child, if the child is an emancipated minor, that includes information related to the child's absences from school and the policies and disciplinary processes associated with additional absences. The notice the school official sends to the child's parent, guardian, or legal or actual custodian of the child, if the child is not an emancipated minor, or to the child, if the child is an emancipated minor, may be sent by ordinary mail, electronic mail, or electronic message, or may be delivered in person. The school shall maintain a copy of the notice until the child graduates, turns twenty-one years of age, or is no longer enrolled in the school, whichever occurs first.

b. A school official may send the notice described in paragraph *"a"* prior to a child at risk of becoming chronically absent if all of the following requirements are satisfied:

(1) The county attorney of the county in which the public school's central administrative office is located and the board of directors of the public school agree to the amount of absences that will lead to the school official sending the notice.

(2) The amount of absences that will lead to the school official sending the notice is described in the school's student handbook.

3. *School engagement meeting.*

a. (1) If a child is absent from school for greater than or equal to fifteen percent of the days or hours in the grading period, a school official shall attempt to find the cause for the child's absences. If the school official determines that the child's absences are negatively affecting the child's academic progress, the school official shall initiate and participate in a school engagement meeting. The purpose of the school engagement meeting is to identify the child's barriers to attendance and the interventions that may be used to improve the child's attendance.

(2) A school official may initiate and participate in a school engagement meeting as provided in subparagraph (1) prior to a child being absent from school for greater than or equal to fifteen percent of the days or hours in a school calendar.

b. All of the following individuals shall participate in the school engagement meeting:

(1) The child.

UNOFFICIAL VERSION: 2025 EARLY RELEASE

(2) The child's parent, guardian, or legal or actual custodian, if the child is not an emancipated minor.

(3) A school official.

c. (1) During the school engagement meeting, the participants shall create and sign an agreement that shall be known as an absenteeism prevention plan. Each participant signing the absenteeism prevention plan shall receive a copy of the plan. The absenteeism prevention plan shall identify the causes of the child's absences and the future responsibilities of each participant related to the child's attendance.

(2) A school official shall monitor the participants' compliance with the terms of the absenteeism prevention plan. The school official shall contact the participants at least once each week during the remainder of the school calendar to monitor the performance of the participants under the plan.

d. During the school engagement meeting, the participants may initiate referrals to any services or counseling that the participants believe may be appropriate under the circumstances to improve the child's attendance.

e. If the participants in the school engagement meeting fail to enter into an absenteeism prevention plan, or if the child or the child's parent, guardian, or legal or actual custodian violates a term of the absenteeism prevention plan or fails to participate in the school engagement meeting, the county attorney may initiate a proceeding under section 299.6.

f. This subsection is not applicable to a child who is receiving competent private instruction or independent private instruction in accordance with the requirements of chapter 299A.

1. The board of directors of each and every school district is hereby authorized and empowered to adopt textbooks for the teaching of all branches that are now or may hereafter be authorized to be taught in the public schools of the state, and to contract for and buy said books and any and all other necessary school supplies at said contract prices, and to sell the same to the pupils of their respective districts at cost, loan such textbooks to such pupils free, or rent them to such pupils at such reasonable fee as the board shall fix, and said money so received shall be returned to the general fund.

2. Textbooks adopted and purchased by a school district shall, to the extent funds are appropriated by the general assembly, be made available to pupils attending accredited nonpublic schools upon request of the pupil or the pupil's parent under comparable terms as made available to pupils attending public schools. If the general assembly appropriates moneys for purposes of making textbooks available to accredited nonpublic school pupils, the department of education shall ascertain the amount available to a school district for the purchase of textbooks for pupils attending accredited nonpublic schools. The amount shall be in the proportion that the basic enrollment of a participating accredited nonpublic school bears to the sum of the basic enrollments of all participating accredited nonpublic schools in the state for the budget year. For purposes of this section, a *"participating accredited nonpublic school"* means an accredited nonpublic school that submits a written request on behalf of the school's pupils in accordance with this subsection, and that certifies its

By November 1, annually, the department of education shall certify to the director of the department of administrative services the annual amount to be paid to each school district, and the director of the department of administrative services shall draw warrants payable to school districts in accordance with this subsection. For purposes of this subsection, an accredited nonpublic school's enrollment count shall include only students who are residents of Iowa. The costs of providing textbooks to accredited nonpublic school pupils as provided in this subsection shall not be included in the computation of district cost under chapter 257, but shall be shown in the budget as an expense from miscellaneous income. Textbook expenditures made in accordance with this subsection shall be kept on file in the school district. In the event that a participating accredited nonpublic school physically relocates to another school district, textbooks purchased for the nonpublic school with funds appropriated for purposes of this chapter shall be transferred to the school district in which the nonpublic school has relocated and may be made available to the nonpublic school. Funds distributed to a school district for purposes of purchasing textbooks in accordance with this subsection which remain unexpended and available for the purchase of textbooks for the nonpublic school that relocated in the fiscal year in which the funds were distributed shall also be transferred to the school district in which the nonpublic school has relocated.

UNOFFICIAL VERSION: 2027 EARLY RELEASE

3. A notice of intent to terminate a loan must include a statement containing substantially the following information:

> The records of (name of museum) indicate that you have property on loan to it. The institution wishes to terminate the loan. You must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. If you fail to do so promptly, you will be considered to have donated the property to the institution.

88 Acts, ch 1117, §6
Referred to in §305B.9, 305B.10, 305B.13

305B.7 Acquiring title to undocumented property.

1. A museum may acquire title to undocumented property held by a museum for seven years or longer with no valid claim or written contact by any person, all verifiable through the museum's written records, by giving notice of acquisition of title to undocumented property.

2. If a lender or claimant does not respond to the notice provided in subsection 1 within three years by filing a notice of intent to retain an interest in property on loan, the museum's title to the property becomes uncontestable under section 305B.9.

3. A notice of acquisition of title must include a statement containing substantially the following information:

> The records of (name of museum) fail to indicate the owner of record of certain property in its possession. The museum intends to acquire title to the below described property: (general description of the property). If you claim ownership or other legal interest in this property you must contact the institution, establish your ownership of the property pursuant to section 305B.8, and make arrangements to collect the property. 305B.8 Notice of intent to preserve an interest in property — requirements — form — disclosure.

a. A description of the property adequate to enable the museum to identify the property.

b. Documentation sufficient to establish the claimant as owner of the property.

c. A statement attesting to the truth, to the best of the signer's knowledge, of all information included in or with the notice.

d. The signature, under penalty of perjury, of the claimant or a person authorized to act on behalf of the claimant.

2. The museum need not retain a notice which does not meet the requirements set forth in subsection 1. If, however, the museum does not intend to retain a notice for this reason, the museum shall promptly notify the claimant at the address given on the notice that the museum believes the notice is ineffective to preserve an interest, and the reasons for the insufficiency. The fact that a museum retains a notice under section 305B.12 does not mean that the museum accepts the sufficiency or accuracy of the notice or that the notice is effective to preserve an interest in property on loan to the museum.

3. The department of administrative services shall adopt by rule a form for notice of intent to preserve an interest in property on loan to a museum. The form shall satisfy the requirements of subsection 1 and shall notify the claimant of the rights and procedures to

preserve an interest in museum property. The form shall also facilitate recordkeeping and record retrieval by a museum. At a minimum the form shall provide a place for recording evidence of receipt of a notice by a museum, including the date of receipt, signature of the person receiving the notice, and the date on which a copy of the receipt is returned to the claimant.

3. An action shall not be brought against a museum to recover property on loan more than seven years from the date of the last written contact between the lender or claimant and the museum as evidenced by the museum's records.

5. A person who purchases property from a museum acquires good title to the property if the museum represents that it has acquired title to the property pursuant to subsection 4.

6. Notwithstanding subsections 3 and 4, a lender or claimant who was not given notice as provided in this chapter that the museum intended to terminate a loan, as provided in section 305B.6, and who proves that the museum received an adequate notice of intent to preserve an interest in loaned property, which satisfies all of the requirements of section 305B.8, within the seven years immediately preceding the filing of an action to recover the property, may recover the property or, if the property has been disposed of, the reasonable value of the property at the time it was disposed of plus interest at the legal rate.

7. A museum is not liable at any time, in the absence of a court order, for returning property to the original lender, even if a claimant other than the lender has filed a notice of intent to preserve an interest in property. If persons claim competing interests in property in the possession of a museum, the burden is upon the claimants to prove their interest in an action in equity initiated by a claimant. A museum is not liable at any time for returning property to an uncontested claimant who produced reasonable proof of ownership pursuant to section 305B.8.

306.4 Jurisdiction of systems.

The jurisdiction and control over the roads and streets of the state are vested as follows:

1. Jurisdiction and control over the primary roads shall be vested in the department.

2. Jurisdiction and control over the secondary roads shall be vested in the county board of supervisors of the respective counties.

3. *a.* Effective July 1, 2004, jurisdiction and control over a farm-to-market extension or road transferred pursuant to section 306.8A within a city with a population of less than five hundred shall be vested in the county board of supervisors of the respective county.

b. If the population of a city drops below five hundred after July 1, 2004, as determined by the latest available federal census or special census, jurisdiction and control over a farm-to-market extension located within the city shall be vested in the county board of supervisors of the respective county effective July 1 following census certification by the secretary of state.

c. If the population of a city from which jurisdiction and control over a road has been transferred pursuant to paragraph *"a"* or *"b"* exceeds seven hundred fifty, as determined by the latest available federal census or special census, such jurisdiction and control shall be transferred back to the city effective July 1 following census certification by the secretary of state.

4. *a.* Jurisdiction and control over the municipal street system shall be vested in the governing bodies of each municipality; except that the department and the municipal governing body shall exercise concurrent jurisdiction over the municipal extensions of primary roads in all municipalities. When concurrent jurisdiction is exercised, the department shall consult with the municipal governing body as to the kind and type of construction, reconstruction, repair, and maintenance and the two parties shall enter into agreements with each other as to the division of costs.

b. When the two parties cannot initially come to agreement as to the division of costs under this subsection, the parties shall contract with an organization in this state to provide mediation services. The costs of the mediation services shall be equally allocated between the two parties. If after submitting to mediation the parties still cannot come to agreement as to the division of costs, the mediator shall sign a statement that the parties did not reach an agreement, and the parties shall then submit the matter for binding arbitration to a mutually agreed-upon third party. If the parties cannot agree upon a third-party arbitrator, they shall submit the matter to an arbitrator selected under the rules of the American arbitration association.

5. Jurisdiction and control over the roads and streets in any state park, state institution, or other state land shall be vested in the board, commission, or agency in control of the park, institution, or other state land; except that:

a. The department and the controlling agency shall have concurrent jurisdiction over any road which is an extension of a primary road and which both enters and exits from the state land at separate points. The department may expend the moneys available for such roads in the same manner as the department expends such moneys on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind, type, and division of costs of construction, reconstruction, repair, and maintenance. In the absence of such agreement, the jurisdiction and control of such road shall remain in the department.

b. The board of supervisors of any county and the controlling state agency shall have concurrent jurisdiction over any road which is an extension of a secondary road and which both enters and exits from the state land at separate points. The board of supervisors of any county may expend the moneys available for such roads in the same manner as the

The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind, type, and division of costs of construction, reconstruction, repair, and maintenance. In the absence of an agreement, the jurisdiction and control of the road shall remain in the board of supervisors of the county.

6. Jurisdiction and control over parkways within county parks and conservation areas shall be vested in the county conservation boards within the boards' respective counties; except that:

a. The department and the county conservation board shall have concurrent jurisdiction over an extension of a primary road which both enters and exits from a county park or other county conservation area at separate points. The department may expend moneys available for such roads in the same manner as the department expends such moneys on other roads over which the department exercises jurisdiction and control. The parties exercising concurrent jurisdiction may enter into agreements with each other as to the kind, type, and division of costs of construction, reconstruction, repair, and maintenance. In the absence of an agreement, the jurisdiction and control of the roads shall remain in the department.

b. The board of supervisors of any county and the county conservation board shall have concurrent jurisdiction over an extension of a secondary road which both enters and exits from a county park or other county conservation area at separate points. The board of supervisors of any county may expend moneys available for such roads in the same manner as the board expends such moneys on other roads over which the board exercises jurisdiction and control. 306.9 Diagonal roads — restoring and improving existing roads.

1. It is the policy of the state of Iowa that relocation of primary highways through cultivated land shall be avoided to the maximum extent possible. When the volume of traffic for which the road is designed or other conditions, including designation as part of the network of commercial and industrial highways, require relocation, diagonal routes shall be avoided if feasible and prudent alternatives consistent with efficient movement of traffic exist.

2. The improvement of two-lane roads shall utilize the existing right-of-way unless alignment or other conditions, including designation as part of the network of commercial

and industrial highways, make changes imperative, and when a two-lane road is expanded to a four-lane road, the normal procedure shall be that the additional right-of-way be contiguous to the existing right-of-way unless relocated for compelling reasons, including the need to provide efficient movement of traffic on the network of commercial and industrial highways. This policy does not apply to a highway project for which the corridor has been approved by the state department of transportation and the corridor has been finalized by September 1, 1977.

3. It is the policy of the state of Iowa that in constructing primary highways designed with four-lane divided roadways, access controls shall be limited to the minimum level necessary, as determined by the department, to ensure the safe and efficient movement of traffic or to comply with federal aid requirements.

4. Unless otherwise required by the federal law or regulation, it is also the policy of this state that road use tax fund moneys shall be used to rehabilitate or reconstruct existing roads, streets, and bridges using substantially existing right-of-way. This subsection does not apply where additional right-of-way is needed for the construction or completion of designated interstate or city routes and highway bypasses or highways designated as part of the network of commercial and industrial highways.

306.19 Right-of-way — access — notice.

1. In the maintenance, relocation, establishment, or improvement of any road, including the extension of such road within cities, the agency having jurisdiction and control of such road shall have authority to purchase or to institute and maintain proceedings for the condemnation of the necessary right-of-way therefor. Such agency shall likewise have power to purchase or institute and maintain proceedings for the condemnation of land necessary for highway drainage, or land containing gravel or other suitable material for the improvement or maintenance of highways, together with the necessary road access or right of access thereto.

2. Whenever the agency condemns or purchases property access rights or alters by lengthening any existing driveway to a road from abutting property, except during the time required for construction and maintenance of the road or highway, the agency shall:

a. Compensate the owner for any diminution in the market value of the property by the denial or alteration by lengthening the driveway. In computing the diminution in value, no consideration shall be given to the additional maintenance expense for maintaining the additional length of driveway, but in lieu thereof, both in condemnation proceedings or negotiated purchases, the agency shall pay to the owner the sum of twenty dollars for every lineal foot of additional length of driveway located on the owner's property. This payment shall represent just compensation to the property owner for the additional driveway maintenance caused by reason of the highway or road project.

b. If in the opinion of the agency it would be more economical to purchase the entire tract of the property owner than to provide and pay the maintenance expense required under the provisions of this section, proceed with the acquisition of the entire tract of land; or

c. If mutually agreeable, move buildings from an existing location to a location requiring an equal or lesser length of driveway and provide an adequate driveway to a public road.

3. None of the foregoing requirements shall prohibit the property owner and the agency from entering into a mutually acceptable agreement for the replacement, relocation, construction, or maintenance of any alternate driveway on the owner's property. Compensation for any property rights taken in the establishment of any alternative temporary or permanent access shall be paid as in any other purchase or condemnation of property.

4. Proceedings for the condemnation of land for any highway shall be under the provisions of chapter 6A and chapter 6B. Provided that, in the condemnation of right-of-way for secondary roads that is contiguous to existing road right-of-way for the maintenance, safety improvement, or upgrade of the existing secondary road, the board of supervisors may proceed as provided in sections 306.28 through 306.37.

5. *a.* The department may notify a city or county that a road under the jurisdiction or control of the department will be established, improved, relocated, or maintained and that

the department may need to acquire additional right-of-way or property rights within an area described by the department. The notice shall include a depiction of the area on a map provided by the city, county, or the department. This notice shall be valid for a period of three years from the date of notification to the city or county and may be refiled by the department every three years. Within seven days of filing the notice, the department shall publish in a newspaper of public record a description and map of the area and a description of the potential restrictions applied to the city or county with respect to the granting of building permits, approving of subdivision plats, or zoning changes within the area.

b. The city or county shall notify the department of an application for a building permit for construction valued at twenty-five thousand dollars or more, of the submission of a subdivision plat, or of a proposed zoning change within the area at least thirty days prior to granting the proposed building permit, approving the subdivision plat, or changing the zoning.

c. If the department, within the thirty-day period, notifies the city or county that the department is proceeding to acquire all or part of the property or property rights affecting the area, the city or county shall not issue the building permit, approve the subdivision plat, or change the zoning. The department may apply to the city or county for an extension of the thirty-day period. After a public hearing on the matter, the city or county may grant an additional sixty-day extension of the period.

d. The department shall begin the process of acquiring property or property rights from affected persons within ten days of the department's written notification of intent to the city or county.

6. If the agency determines that it is necessary to relocate a utility facility, the agency shall have the authority to institute and maintain proceedings on behalf of the owner of the utility facility for the condemnation of replacement property rights. The replacement property rights shall be equal in substance to the existing rights of the owner of the utility facility, except that the replacement property rights shall be for a width and location deemed appropriate and necessary for the needs of the owner of the utility facility, as determined by the agency and the owner of the facility. The replacement property rights of the owner of the utility facility shall be subordinate to the rights of the agency only to the extent necessary for the construction and maintenance of the designated road. Within a reasonable time after completion of the relocation, all previously owned property rights of the owner of the utility facility no longer required for operation and maintenance of the utility facility shall be released or conveyed to the appropriate parties. The authority of the agency under this subsection may only be exercised upon execution of a relocation agreement between the agency and the owner of the utility facility. For purposes of this subsection, *"utility facility"* means an electric, gas, water, steam power, or materials transmission or distribution system; a transportation system; a communications system, including cable television; and fixtures, equipment, or other property associated with the operation, maintenance, or repair of the system. A utility facility may be publicly, privately, or cooperatively owned.

7. For the purposes of this section, the term *"driveway"* shall mean a way of ingress and egress located entirely on private property, consisting of a lane or passageway leading from a residence to a public roadway or highway.

1. This section is intended to vest all documents of title in road right-of-way in the jurisdiction responsible for the road. This section establishes a simple method to transfer road rights-of-way by quitclaim deed and to authorize the use of available descriptions, plats, maps or engineering drawings to effect such transfers and to provide an orderly method by which such transfers may be filed, indexed and recorded.

2. The department shall transfer by quitclaim deed to the county or to the city having jurisdiction over a road, all of the state's legal or equitable title and interest in right-of-way for the road or street and may transfer any adjacent unused right-of-way or land in excess of that needed as right-of-way. Transfers shall be subject to rights of ingress and egress whether excepted, reserved or granted by the transferring authority to land or to owners of land adjacent to the right-of-way. Transfers shall locate the right-of-way by quarter-quarter section, township and range or if so acquired, by lot, block and subdivision. The transferring jurisdiction shall transmit to the receiving jurisdiction all available original documents of title or a certified true copy if the right-of-way was acquired by condemnation or the original deed is lost. Transfers shall be recorded and indexed in the county in which the land is located.

5. If a part but not all of the land acquired by a single conveyance or condemnation is being transferred, the description of that part to be transferred shall be abstracted from the present legal description, plat, map, or engineering drawing of record.

6. Notwithstanding any other provision of the Code, for transfers of roads and streets made after May 1, 1987, neither the transferring jurisdiction or the receiving jurisdiction shall be held liable for any claim or damage for any act or omission relating to the design, construction, or maintenance of the road or street that occurred prior to the effective date of the transfer. 306.47 Utility facilities relocation policy.

1. It is the policy of the general assembly that a proactive, cooperative coordination between the department, local governments, private and public utility companies, and other affected parties is the most effective way to minimize costs, eliminate the need for utilities to relocate facilities, limit disruption of utility services related to federal, state, or local highway construction projects, and limit the potential need for relocation of utility facilities.

2. All potentially affected parties shall be invited to participate in development meetings at the design phase of a highway construction project to review plans, understand goals and objectives of the proposed project, and discuss options that would limit the impact of the construction on utility facilities and thereby minimize or even eliminate costs associated with utility facility relocation. All jurisdictions and other interested parties shall cooperate to discuss strategies and policies to utilize the Iowa one call system in the development of a highway construction project. Failure of the affected parties to respond or participate during the design phase shall not in any way affect the ability of the federal, state, or local agency to proceed with design and construction.

3. Upon written request by a utility infrastructure owner, the department shall engage in coordination activities with a utility or transmission line developer to review highway corridors identified in the request for potential locations to place transmission lines. The department shall assign a project coordinator within thirty days of receiving the written request. The department shall share all known plans with affected utility or transmission line developers on planned future projects in the highway corridor if the planned highway project impacts the placement or siting of transmission lines.

CONTROLLED-ACCESS FACILITIES AND SERVICE ROADS

306A.1 Declaration of policy.

The legislature hereby finds, determines, and declares that this chapter is necessary for the immediate preservation of the public peace, health, and safety, and for the promotion of the general welfare.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.1]

306A.2 Definition of a controlled-access facility.

For the purposes of this chapter, a controlled-access facility is defined as a highway or street especially designed for through traffic, and over, from or to which owners or occupants of abutting land or other persons have no right or easement or only a controlled right or easement of access, light, air, or view by reason of the fact that their property abuts upon such controlled-access facility or for any other reason. Such highways or streets may be freeways open to use by all customary forms of street and highway traffic or they may be parkways from which trucks, buses, and other commercial vehicles shall be excluded.

Referred to in §306A.3, 314.16A

306A.3 Authority to establish controlled-access facilities — utility accommodation policy.

1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, acting alone or in cooperation with each other or with any federal, state, or local agency or any other state having authority to participate in the construction and maintenance of highways, are authorized to plan, designate, establish, regulate, vacate, alter, improve, maintain, and provide controlled-access facilities for public use if traffic conditions, present or future, will justify special facilities; provided, that within a city such authority shall be subject to municipal consent as may be provided by law. In addition to the specific powers granted in this chapter, cities and highway authorities shall have any additional authority vested in them relative to highways or streets within their respective jurisdictions. Cities and highway authorities may regulate, restrict, or prohibit the use of controlled-access facilities by various classes of vehicles or traffic in a manner consistent with section 306A.2.

2. *a.* The state department of transportation shall adopt rules pursuant to chapter 17A embodying a utility accommodation policy which imposes reasonable restrictions on placements, occurring on or after the effective date of the rules, on primary road

UNOFFICIAL VERSION: 2027 EARLY RELEASE

rights-of-way. The rules may require utilities to give notice to the department prior to installation of a utility system on a primary road right-of-way and obtain prior permission from the department for the proposed installation. Upon written request by a utility infrastructure owner, longitudinal transmission line installations may be installed on a primary road right-of-way, including on an interstate road right-of-way, unless the department determines such an installation would endanger public safety or interfere with the proper function and public use of the highway. The rules must recognize emergency situations and the need for immediate installation of service extensions subject to the standards adopted by the department and the utilities commission. The rules shall not be less stringent than the standards adopted by the utilities commission pursuant to chapters 478, 479, and 479B. This subsection shall not be construed as granting the department authority which has been expressly granted to the utilities commission to determine the route of utility installations. If the department requires a utility company permit, the department shall act upon the permit application within thirty days of its filing. In cases of federal-aid highway projects on nonprimary highways, the local authority with jurisdiction over the highway and the department shall comply with all federal regulations and statutes regarding utility accommodation.

b. If the department denies an installation of a longitudinal transmission line on a primary road right-of-way, including on an interstate road right-of-way, the department shall make the reason for the denial available to the public within ninety days.

306A.4 Design of controlled-access facility.

Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, are authorized to so design any controlled-access facility and to so regulate, restrict, or prohibit access as to best serve the traffic for which such facility is intended. In this connection such cities and highway authorities are authorized to divide and separate any controlled-access facility into separate roadways by the construction of raised curbings, central dividing sections, or other physical separations, or by designating such separate roadways by signs, markers, stripes, and other devices. No person shall have any right of ingress or egress to, from, or across controlled-access facilities to or from abutting lands, except at such designated points at which access may be permitted, upon such terms and conditions as may be specified from time to time.

[C58, 62, 66, 71, 73, 75, 77, 79, 81, §306A.4]

306A.5 Acquisition of property and property rights.

1. For the purposes of this chapter, cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may acquire private or public property rights for controlled-access facilities and service roads, including rights of access, air, view, and light, by gift, devise, purchase, or condemnation in the same manner as such units are authorized by law to acquire such property or property rights in connection with highways and streets within their respective jurisdictions. All property rights acquired under this chapter shall be in fee simple. In connection with the acquisition of property or property rights for a controlled-access facility or portion of, or service road in connection with a controlled-access facility, the cities and highway authorities, in their discretion, may acquire an entire lot, block, or tract of land, if by so doing the interests of the public will be best served, even though the entire lot, block, or tract is not immediately needed for the right-of-way proper.

2. Access rights to any highway shall not be acquired by any authority having jurisdiction and control over the highways of this state by adverse possession or prescriptive right. Action

taken by any such authority shall not form the basis for any claim of adverse possession of or prescriptive right to any access rights by any such authority.

306A.6 New and existing facilities — grade-crossing eliminations.

1. Cities and highway authorities having jurisdiction and control over the highways of the state, as provided by chapter 306, may designate and establish an existing street or highway as included within a controlled-access facility. The state or any of its subdivisions shall have authority to provide for the elimination of intersections at grade of controlled-access facilities with existing state and county roads, and city or village streets, by grade separation or service road, or by closing off such roads and streets at the right-of-way boundary line of such controlled-access facility.

2. The provisions of sections 306.11 through 306.17 shall apply and govern the procedure for the closing of a road or street and the method of ascertaining damages sustained by any person as a consequence of the closing, provided, however, that the highway authority desiring the closing of such road or street shall conduct the hearing and carry out the procedure therefor and pay any damages, including any allowed on appeal, as a consequence thereof, any law to the contrary notwithstanding.

3. After the establishment of any controlled-access facility, no highway or street which is not part of said facility shall intersect the same at grade. A city or village street, county or state highway, or other public way shall not be opened into or connected with any such controlled-access facility without the consent and previous approval of the highway authority in the state, county, city, or village having jurisdiction over the controlled-access facility. Such consent and approval shall be given only if the public interest shall be served thereby.

Such local service roads or streets shall be of appropriate design, and shall be separated from the controlled-access facility proper by means of all devices designated as necessary or desirable by the proper authority.

However, no plan for relocation, removal, or disposal which qualifies for federal participation shall be undertaken unless the department has received notification from the federal government that the federal share to be paid is immediately available for that purpose.

306C.13 Control by department of transportation.

The department shall control the erection and maintenance of advertising devices authorized by section 306C.11, subsection 1, in accord with the following criteria, except that in the case of bonus interstate highways the department shall maintain the controls required under chapter 306B or the controls required by this subchapter, whichever controls are stricter:

1. Advertising devices located within the adjacent area of interstate highways and freeway primary highways shall not be erected or maintained closer to another advertising device facing in the same direction than five hundred feet outside of cities, and within two hundred fifty feet if inside of cities. An advertising device may not be located within two hundred fifty feet of an interchange, or rest area. The measurement shall be from the nearest widening constructed for the purpose of acceleration or deceleration of traffic movement to or from the main-traveled way to the advertising device.

2. Advertising devices located within the adjacent area of nonfreeway primary highways shall not be erected or maintained closer than one hundred feet to another advertising device facing in the same direction if inside the corporate limits of a municipality. An advertising device shall not be located within the triangular area formed by the line connecting two points each fifty feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

3. Advertising devices located within the adjacent area of nonfreeway primary highways shall not be erected or maintained closer than three hundred feet to another advertising device facing in the same direction if outside the corporate limits of a municipality. An advertising device shall not be located within the triangular area formed by a line connecting two points each one hundred feet back from the point where the street right-of-way lines of the main-traveled way and the intersecting street meet, or would meet, if extended.

4. The distance spacing measurements fixed by subsections 2 and 3 shall not apply to advertising devices which are separated by a building in such a manner that only one advertising device located within the minimum spacing distance is visible from a highway at any one time.

5. Within a triangular area, as defined by subsections 2 and 3, occupied by a building or structure, no advertising device shall be erected or maintained closer to the intersection than

the building or structure itself, except that a wall advertising device may be attached to said building or structure not to protrude more than twelve inches.

6. The minimum distance between two advertising devices facing the same direction shall apply without regard to the side of the highway on which the advertising devices may be located and shall be measured along the center line of the highway between points directly opposite the advertising devices.

7. Advertising devices shall not be erected, maintained, or illuminated:

a. In a manner to obscure or otherwise physically interfere with an official traffic sign, signal, or device, or to obstruct or physically interfere with any driver's view of approaching, merging, or intersecting traffic.

b. Unless effectively shielded to prevent light from being directed at any portion of the traveled highway with such intensity or brilliance as to cause glare or to impair the vision of the driver of any motor vehicle.

c. Which contain, include, or are illuminated by any flashing, intermittent, or moving light.

d. Which imitate or resemble an official sign or signal or device or which are erected or maintained within or closer than three hundred feet from scenic areas, as defined and determined by the department, or which are located or maintained upon trees, or painted or drawn upon rocks or natural features, or which are structurally unsafe or in substantial disrepair.

e. Which exceed one thousand two hundred square feet in area or in the case of a back-to-back or V-type advertising device, with a maximum of two facings per advertising device, seven hundred fifty square feet in area, including border and trim but excluding base or apron, support, and other structural members.

f. Which do not comply with all applicable state or local laws, regulations and ordinances, including but not limited to zoning, building, and sign codes as locally interpreted and applied and enforced, or which violate chapter 318; however, nothing in this subchapter shall prevent or restrict county or local zoning authorities from making a determination of customary use concerning size, lighting, and spacing of advertising devices in zoned commercial or industrial adjacent areas, and such determinations will be accepted in lieu of the standards of this subchapter. The provisions of this subchapter shall not prevent or restrict county or local zoning authorities within their respective jurisdictions from establishing standards imposing controls stricter than those required by this subchapter.

g. The standards contained in this section pertaining to size, lighting, and spacing shall not apply to advertising devices erected or maintained within six hundred sixty feet of the right-of-way of those portions of the interstate highway system exempted from control under chapter 306B by authority of section 306B.2, nor to advertising devices erected and maintained within adjacent areas along noninterstate primary highways within zoned and unzoned commercial and industrial areas, unless said advertising devices were erected subsequent to July 1, 1972.

The department shall not remove, take, alter or cause to be removed, taken, or altered a lawfully erected off-premises advertising device subject to control under chapter 306B or this chapter without paying just compensation when required under 23 U.S.C. §131(g) to the owner of the advertising device and to the owner of the real property on which the advertising device is located, as provided in section 306C.16. For the department, the sole intent of this section is to comply with 23 U.S.C. §131(g) and it is not the intent of this section to, in any manner, relinquish any powers of the department relating to the control and removal of advertising devices under police power.

306D.3 Plan recommendations and pilot projects.
306D.4 Scenic highway advertising.

UNOFFICIAL VERSION: 2024 EARLY RELEASE

306D.1 Statement of purpose — intent.

1. The general assembly finds that:

a. The state offers numerous regions through which people can drive for the pleasure of viewing unusually scenic and interesting landscapes; however, routes to and through these areas have not been adequately identified for Iowans and state visitors.

b. Among those things that attract motorists to the state's landscape are agricultural lands, forests, river basins, distinctive landforms, interesting architecture, metropolitan areas, small rural towns, and historic sites.

c. The landscape qualities of unusually scenic routes throughout the state have not been protected from visual and resource deterioration particularly along routes which pass near the state's nationally significant areas such as the bluffs of the Mississippi and Missouri rivers, the Amana colonies, the Herbert Hoover national historic site, federal reservoirs, communities surrounding the state's natural lakes, the Des Moines river greenbelt, the great river road, and many others.

d. A principal goal of economic development in this state is to increase the influence which travel and tourism have on the state's economic expansion.

e. Iowans and visitors should be encouraged to travel to and through unusually scenic areas of the state.

f. A program should be established, following a statewide plan, to identify and promote highways and secondary routes which pass through unusually scenic landscapes and to protect and enhance the scenic qualities of the landscape through which these routes pass.

2. In addition to other goals for the program, it is the intention of the general assembly that the scenic highways program be coordinated with the state's open space program under chapter 465A.

1. The state department of transportation shall prepare a statewide, long-range plan for the protection, enhancement, and identification of highways and secondary roads which pass through unusually scenic areas of the state as identified in section 306D.1. The department of natural resources, the economic development authority, private organizations, county conservation boards, city park and recreation departments, and the federal agencies having jurisdiction over land in the state shall be encouraged to assist in preparing the plan. The plan shall be coordinated with the state's open space plan if a state open space plan has been approved by the general assembly. The plan shall include, but is not limited to, the following elements:

a. Preparation of a statewide inventory of scenic routes and ranking of relative uniqueness

for each route. The degree to which these routes suffer from negative visual intrusions shall be documented.

b. Recommended techniques for preserving and enhancing the scenic qualities associated with each route.

c. Forecasts of significant changes in traffic volumes and environmental, social, and economic impacts if scenic routes are publicly identified and promoted as tourism attractions.

d. Recommended techniques for incorporating scenic highway routes in state and local tourism development and marketing programs.

e. Landscape management needs including maintenance, rehabilitation, and improvements to scenic areas.

f. Funding levels needed to accomplish the statewide scenic highway program.

g. Recommendations of how federal and state transportation programs can be modified or developed to assist the state's scenic highway program.

2. The preparation of the plan is subject to an appropriation by the general assembly for that purpose. The plan shall be submitted to the general assembly by January 15, 1988. Prior to submission of the plan to the general assembly, the department shall request comments on the proposed plan from state agencies, federal agencies, and private organizations with interests in scenic highways. The comments shall be submitted to the general assembly.

306D.4 Scenic highway advertising.

1. The department of transportation shall have the authority to adopt rules to control the erection of new advertising devices on a highway designated as a scenic highway or scenic byway in order to comply with federal requirements concerning the implementation of a scenic byways program.

2. Notwithstanding subsection 1, if an advertising device was lawfully erected along an interstate highway within the corporate limits of a city prior to designation of the highway as a scenic byway and, after such designation occurs, the advertising device is displaced due to the reconstruction, improvement, or relocation of the highway, the advertising device may be relocated to a location determined by the department to be substantially the same location, subject to approval by the federal highway administration, and shall not be considered an erection of a new advertising device, if all of the following apply:

COMPACT BETWEEN IOWA, KANSAS, MISSOURI, AND NEBRASKA FOR THE DEVELOPMENT OF THE MISSOURI RIVER FOR BARGE TRAFFIC

307C.1 Missouri river barge compact.

The Missouri river interstate barge compact is enacted into law and entered into with all other states which legally join in the compact in substantially the following form:

1. *Article I.* The purposes of this compact are to provide for planning for the most efficient use of the waters of the Missouri river, to increase the amount of barge traffic on that segment of the Missouri river below Sioux City, Iowa, to take necessary steps to develop the Missouri river and its banks to handle more barge traffic than is presently handled, to encourage barge use on that segment of the Missouri river for transporting bulk goods, especially farm commodities, to insure that the intended increase in barge traffic does not impose unacceptable damage on the Missouri river in all its various uses, including agriculture, wildlife management, and recreational opportunities, to consider the effects of diversion of the waters of the Missouri river on navigation, and to promote joint action between the compact parties to accomplish these purposes. The purposes of the compact do not include lobbying activities against user fees for barge traffic and such activities under this compact are prohibited.

2. *Article II.* It is the responsibility of the four states to accomplish the purposes in article I through the official in each state charged with the duty of administering the public waters and to collect and correlate through those officials the data necessary for the proper

administration of the compact. Those officials may, by unanimous action, adopt rules and regulations to accomplish the purposes of this compact.

3. *Article III.* The states of Iowa, Missouri, Kansas, and Nebraska agree that within a reasonable time they shall fulfill the obligations of this compact and that each shall authorize the proper official or agency in its state to take the necessary steps to promote barge use and develop the Missouri river as it flows between and within the compact states for additional barge traffic.

4. *Article IV.* This compact does not limit the powers granted in any other act to enter into interstate or other agreements relating to the Missouri river flowing between and within the compact states, alter the relations between the respective internal responsibilities of the government of a party state and its subdivisions, or impair or affect any rights, powers, or jurisdiction of the United States, or those acting by or under its authority, in, over, and to those waters of the Missouri river. Adoption of this compact by the general assembly shall not require the signatory states to adopt any legislation or to appropriate funds for its implementation.

5. *Article V.*

a. Other states having an interest in the promotion of barge traffic on the Missouri river can join in this compact by unanimous consent of the member states.

b. Any member state can withdraw at any time by appropriate action of its legislature.

2. *"Great river road"* means a scenic and recreational highway consisting of a designated system of roads and streets along the Mississippi river in this state.

3. *"National parkway"* has the same meaning as defined in Pub. L. No. 93-87, first session, Ninety-third Congress of the United States.

4. *"Right-of-way"* means land area dedicated to public use for a highway and its maintenance, and includes land acquired in fee simple or by permanent easement for highway purposes, but does not include temporary easements or rights for supplementary highway appurtenances.

1. The state transportation commission shall make such investigations, surveys, studies and plans in connection with any proposed national parkway or parkway development as it shall deem necessary or desirable to determine if the proposed development is under the terms of the Act of the United States Congress applicable to such parkway or any regulations under such Act and is advantageous to the state. Such parkway development may be any portion of the proposed parkway which is proposed to be constructed as a project under such Act.

2. The state transportation commission, with the cooperation of the department of natural resources, shall plan, designate, and establish the exact routing of the great river road, utilizing the general guidelines established in Tit. 23, United States Code.

Acquisitions of such rights in land shall be by gift, purchase, exchange, or by instituting and maintaining proceedings for condemnation. Gift, purchase, exchange, and condemnation include acquisition of a scenic easement. A scenic easement acquired under this chapter constitutes an easement both at law and in equity, and all legal and equitable remedies, including prohibitory and mandatory injunctions, are available to protect and enforce the state's interest in such scenic easements. A scenic easement acquired under this chapter is deemed to be appurtenant to the roadway to which it is adjacent or from which it is visible. The duties created by a scenic easement acquired under this chapter are binding upon and enforceable against the original owner of the land subject to the scenic easement and the original owner's heirs, successors, and assigns in perpetuity, unless the instrument creating the scenic easement expressly provides for a lesser duration. A court shall not declare a scenic easement acquired under this chapter to have been extinguished or to have become unenforceable by virtue of changed conditions or frustration of purpose.

b. Accept and administer state, federal, and any other public or private funds made available for the acquisition of rights in land and for the planning and construction or reconstruction of any segment of the great river road, and state and federal funds for the maintenance of that part of the great river road constituting the right-of-way.

308.9 Establishing locations for the highway.

1. *a.* When, as a result of its investigations and studies, the state transportation commission, in cooperation with the department of natural resources, finds that there may be a need in the future for the development and construction or reconstruction of segments of the great river road, and when the state transportation commission determines that in order to prevent conflicting costly economic development on areas of lands to be available for the great river road when needed for future development, there is need to establish and to inform the public of the approximate location and widths of new or improved segments of the great river road to be needed, the state transportation commission may proceed to establish the location and the approximate widths in the manner provided in this section.

b. The state transportation commission shall give notice and hold a public hearing on the matter in a convenient place in the area to be affected by the proposed improvement of the great river road. The state transportation commission shall consider and evaluate the testimony presented at the public hearing and shall make a study and prepare a map showing the location of the proposed new or reconstructed segment of the great river road and the approximate widths of right-of-way needed. The map shall show the existing roadway and the property lines and record owners of lands to be needed. The approval of the map shall be recorded by reference in the state transportation commission's minutes, and a notice of the action and a copy of the map showing the lands or interest in the lands needed in any county shall be filed in the office of the county recorder of that county. Notice of the action and of the filing shall be published once in a newspaper of general circulation in the county, and within sixty days following the filing, notice of the filing shall be served by registered mail on the owners of record on the date of filing. Using the same procedures for approval, notice and publications, and notice to the affected record owners, the state transportation commission may amend the map.

2. After such location is established, within the area of the great river road as shown on the map or in such proximity to it as to result in consequential damages when the rights in land for the great river road are acquired, a person shall not erect or move in any additional structure or rebuild, alter or add to any existing structure, without giving to the state transportation commission by registered mail sixty days' notice of such contemplated construction, alteration, or addition describing the same. However, this prohibition and requirement shall not apply to any normal or emergency repairs or replacements which are necessary to maintain an existing structure of a facility in approximately its previously existing functioning condition. When the rights in land for a segment of the great river road are acquired, damages shall not be allowed for any construction, alterations, or additions in violation of this subsection.

3. Without limiting any authority otherwise existing, rights in land needed for the great river road may be acquired at any time by the state, the county, or the municipality in which such segment of the great river road is located. If an owner's contiguous land is acquired to an extent which is less than the total amount shown on the map as needed, consequential damages to the land not acquired shall be allowed as found to exist.

309.57 Area service classification.

1. The county board of supervisors, after consultation with the county engineer, and for purposes of specifying levels of maintenance effort and access, may classify the area service system into three classifications termed area service "A", area service "B", and area service "C".

a. Area service "A" classification roads shall be maintained in conformance with applicable statutes.

b. Area service "B" classification roads may have a lesser level of maintenance as specified by the county board of supervisors, after consultation with the county engineer.

c. Area service "C" classification roads may have restricted access and a minimal level of maintenance as specified by the county board of supervisors after consultation with the county engineer.

(1) Area service "C" classification roads shall adequately warn the public that access is limited.

(2) Roads may only be classified as area service "C" by ordinance or resolution. The ordinance or resolution shall specify the level of maintenance effort and the persons who will have access rights to the road. The county shall only allow access to the road to the owner, lessee, or person in lawful possession of any adjoining land, or the agent or employee of the owner, lessee, or person in lawful possession, or to any peace officer, magistrate, or public employee whose duty it is to supervise the use or perform maintenance of the road. Access to the road shall be restricted by means of a gate or other barrier.

(3) An area service "C" classification shall apply to the entire portion of a road between the road's access points. The county board of supervisors shall not classify only part of a road between the road's access points, or only a bridge on the road, as area service "C". This subparagraph does not apply to a road that terminates in a dead end. For purposes of this subparagraph, *"access point"* includes but is not limited to a driveway as defined in section 306.19.

(4) Notwithstanding section 716.7, subsection 2, paragraph *"b"*, subparagraph (2), entering or remaining upon an area service "C" classification road without justification after being notified or requested to abstain from entering or to remove or vacate the road by any person lawfully allowed access shall be a trespass as defined in section 716.7.

(5) A road with an area service "C" classification shall retain the classification until such time as a petition for reclassification is submitted to the board of supervisors. The petition shall be signed by one or more adjoining landowners. The board of supervisors shall approve or deny the request for reclassification within sixty days of receipt of the petition.

2. *a.* Roads within area service "B" and "C" classifications shall have appropriate signs, conforming to the manual of uniform traffic-control devices adopted by the department, installed and maintained by the county at all access points to roads on this system from other public roads, to adequately warn the public they are entering a section of road which has a lesser level of maintenance effort than other public roads.

b. The county and officers, agents, and employees of the county are not liable for injury to any person or for damage to any vehicle or equipment, or contents of any vehicle or equipment, which occurs proximately as a result of the maintenance of a road which is classified as area service "B" or "C" if the road has been maintained to the level required for roads classified as area service "B" or "C".

310.23 through 310.26 Reserved.

310.27 Period of allocation — reversion — temporary transfers.

1. The farm-to-market road fund allotted to any county as provided in this chapter shall remain available for expenditure in said county for three years after the close of the fiscal year during which said sums respectively were allocated. Any sum remaining unexpended at the end of the period during which it is available for expenditure shall be reapportioned among all the counties as provided in section 312.5 for original allocations.

2. For the purposes of this section, any sums of the farm-to-market road fund allotted to any county shall be presumed to have been expended when a contract has been awarded obligating the sums. When projects and their estimated costs, which are proposed to be funded from the farm-to-market road fund, are submitted to the department for approval, the department shall estimate the total funding necessary and the period during which claims for the projects will be filed. After anticipating the funding necessary for approved projects, the department may temporarily allocate additional moneys from the farm-to-market road fund for use in any other farm-to-market projects. However, a county shall not be temporarily allocated funds for projects in excess of the county's anticipated farm-to-market road fund allocation for the current fiscal year plus the four succeeding fiscal years.

3. If in the judgment of the department the anticipated claims against the primary road fund for any month are in excess of moneys available, a temporary transfer for highway construction costs may be made from the farm-to-market road fund to the primary road fund provided that there will remain in the transferring fund a sufficient balance to meet the anticipated obligations. All transfers shall be repaid from the primary road fund to the farm-to-market road fund within sixty days from the date of the transfer. A transfer shall be made only with the approval of the director of the department of management and shall comply with the director of the department of management's rules relating to the transfer of funds. Similar transfers may be made by the department from the primary road fund to the farm-to-market road fund and these transfers shall be subject to the same terms and conditions that transfers from the farm-to-market road fund to the primary road fund are subject.

310.28 Engineering and other expense.

1. Engineering, inspection and administration expense in connection with any farm-to-market road project may be paid from the county's allotment of the farm-to-market road fund. Any such expense incurred by the department may in the first instance be advanced out of the primary road fund, and such expense amounts shall later be reimbursed to the primary road fund out of the farm-to-market road fund.

2. No part of the salary or expense of the county engineer, any member of the county board of supervisors, any member of the department, the chief engineer, or any department head or district engineer of the department shall be paid out of the farm-to-market road fund.

When the petition has been filed, the board of supervisors shall review the project proposed by the petition and may accept or reject the proposed project. If the board of supervisors accepts the petition, the board shall include the project in the secondary road construction program of the county and establish a priority for the completion of the project.

b. The board of supervisors shall proceed with the construction and completion of the project in accordance with its assigned priority and under the same procedure as is prescribed generally for the improvement of secondary roads by assessment, and shall establish a special secondary road assessment district and assess against the lands included in the district not less than fifty percent, or a greater portion as provided in the petition, of the engineer's estimated cost of the improvements of the road included in the project against all the lands adjacent to or abutting upon the road.

c. However, if the owners of all the lands included in any special secondary road assessment district under this section, subscribe and deposit with the county treasurer an amount not less than fifty percent, or a greater portion as provided in the petition, of the engineer's estimated cost of the improvement of the road included in the project, the board of supervisors shall not establish the special assessment district, but shall accept the donations in lieu of an assessment, and shall otherwise proceed to the improvement of the road.

2. The total expenditure of secondary road funds of the county in any year for or on account of special secondary road assessment district projects on local secondary roads under this section shall not exceed the total secondary road funds legally expendable for construction on local secondary roads in the county in the year.

UNOFFICIAL VERSION 2026 FILE

1. Apportion among the counties the road use tax funds credited to the secondary road fund by using the distribution methodology adopted by the commission by rule.

2. *a.* Apportion among the cities of the state, in the ratio which the population of each city, as shown by the latest available federal census, bears to the total population of all such cities in the state, the percentage of the road use tax funds which is credited to the street construction fund of the cities, and shall remit to the city clerk of each such city the amount so apportioned to such city. A city may have one special federal census taken each decade, and the population figure thus obtained shall be used in apportioning amounts under this subsection beginning the calendar year following the year in which the special census is certified by the secretary of state.

b. The apportionment of moneys from the street construction fund of the cities to a city with a farm-to-market extension under county jurisdiction pursuant to section 306.4 shall be reduced in the proportion which the share of mileage of the farm-to-market extension bears to the total mileage of streets within the city. The amount of moneys by which the apportionment to the city is reduced shall be transferred to the secondary road fund of the respective county, to be used only for the maintenance or construction of roads under the county's jurisdiction, and all interest and earnings on the moneys transferred shall remain in the secondary road fund of the county, to be used for the same purposes.

c. For purposes of apportioning among the cities of the state the percentage of the road use tax fund to be credited to the street construction fund of the cities for each month beginning March 2011 and ending March 2021 pursuant to this subsection, the population of each city shall be determined by the greater of the population of the city as of the last preceding certified federal census or as of the April 1, 2010, population estimates base as determined by the United States census bureau.

3. In any case where a city has been incorporated since the latest available federal census the mayor and council shall certify to the state treasurer the actual population of such incorporated city as of the date of incorporation and its apportionment of funds under this section shall be based upon such certification until the next federal census enumeration. Any community which has dissolved its corporation shall not receive any apportionment of funds under this certificate for any period after said corporation has been dissolved.

4. In any case where a city has annexed any territory since the last available federal census or special federal census, the mayor and council shall certify to the treasurer of state the actual population of such annexed territory as determined by the last certified federal census of said territory and the apportionment of funds under this section shall be based upon the population of said city as modified by the certification of the population of the annexed territory until the next federal or special federal census enumeration.

5. In any case where two or more cities have consolidated, the apportionment of funds under this section shall be based upon the population of the city resulting from said consolidation and shall be determined by combining the population of all cities involved in the consolidation as determined by the last available federal or special federal census enumeration for said consolidating city.

1. The roads and streets of the state are, for the purpose of this chapter, those roads and streets established under chapter 306.

2. *a.* Whenever the board of supervisors of a county and the department mutually determine that a portion of a highway under the jurisdiction of either party should be transferred to the jurisdiction of the other party, the board and department may enter into an agreement to effect such transfer. Such agreement may provide that each party may undertake or share responsibility for improving said road with the costs of such improvement to be borne entirely by either the county or the department or equitably divided between the two jurisdictions. All such improvements shall be completed and all actual costs thereof paid or reimbursed prior to the time transfer of the road is made. In carrying out such agreement, the board of supervisors may expend secondary road funds of the county and the department may expend primary road funds.

b. However, prior to entering into the agreement, a notice of intent to execute such agreement shall be published in a newspaper of general circulation within the county and the cost of such notice shall be jointly borne by the department and the board of supervisors. If one hundred or more residents of the county request by petition or in writing that a hearing be held in regard to such agreement within ten days after the publication of the notice, the board of supervisors and the department shall hold such a hearing not more than seven days after receiving the petition or written instrument. Based upon evidence presented at the hearing, the board of supervisors and the department shall reexamine the merits of executing such agreement and make a decision in regard to it.

3. The department may, for the purpose of affording access to cities or state parks, or for the purpose of shortening the direct line of travel on important routes, or to effect connections with interstate roads at the state line, add such road or roads to the primary road system.

4. The department, either alone or in cooperation with any county, shall have the authority to utilize any land acquired incidental to the acquisition of land for highway right-of-way and to also accept by gift lands not exceeding two acres in area for roadside parks and parking areas. The department may furnish necessary maintenance. The department shall also have authority to accept by gift equipment or other installations incidental to the use of said parks and parking areas. The parks and parking areas shall be a part of the primary road system and the department may at its discretion sell or otherwise dispose of the lands.

5. Reasonable maintenance and surveillance of rest area sites and buildings located on the sites shall be provided by employees of the department within the limits of appropriations provided for such purpose.

313.2A Commercial and industrial highways.

1. *Purpose.* It is the purpose of this section to enhance opportunities for the development and diversification of the state's economy through the identification and improvement of a network of commercial and industrial highways. The network shall consist of interconnected routes which provide long distance route continuity. The purpose of this highway network shall be to improve the flow of commerce; to make travel more convenient, safe, and efficient; and to better connect Iowa with regional, national, and international markets. The commission shall concentrate a major portion of its annual construction budget on this network of commercial and industrial highways. In order to ensure the greatest possible availability of funds for the improvement of the network, primary highway funds shall not be spent beyond continuing maintenance for improvements to route segments that will be bypassed by the relocation of portions of the commercial and industrial highway network.

2. *Network selection.*

a. The commission shall identify, within the primary road system, a network of commercial and industrial highways. The commission shall consider all of the following factors in the identification of this network:

(1) The connection by the most direct routes feasible of major urban areas and regions of the state to each other and to the national system of interstate and defense highways and priority routes in adjacent states.

(2) The existence of high volumes of total traffic and commercial traffic.

(3) Long distance traffic movements.

(4) Area coverage and balance of spacing with service to major growth centers within the state.

(5) Metropolitan area bypasses consistent with metropolitan or regional area plans established through cooperation by the department and local officials.

b. The network of commercial and industrial highways shall not exceed two thousand six hundred miles including municipal extensions of these highways.

3. *Standards.* The department shall establish standards pertaining to the specific location, design, and access control for each segment of the commercial and industrial highways.

4. *Network development.* In establishing priorities for improvement projects, the department shall take into consideration the following additional criteria: urban area bypasses that improve urban or regional accessibility or improve corridor travel; projects consistent with regional or metropolitan transportation plans established through cooperation by the department and local officials; and the willingness of local officials to provide financial or other assistance for the development of projects.

The following words or terms, as used in this chapter, shall have the respective meanings as stated:

1. *"Acquisition by purchase, gift, or condemnation"* as used in this chapter shall mean acquisition by the department, whether such terms "purchase, gift, or condemnation" are used singularly or in sequence.

2. *"Construct, constructing, construction or constructed"* shall include the completion, reconstruction, remodeling, repair, or improvement of any existing toll bridge or any partially constructed interstate bridge, as well as the construction of any new toll bridge.

3. *"Department"* shall mean the state department of transportation.

4. *"Federal bridge commission"* shall mean any bridge commission organized and operating pursuant to an Act of the Congress of the United States, even though such Act of Congress may declare the bridge commission not to be an agency of the federal government.

5. *"Toll bridge"* shall mean an interstate bridge constructed, purchased or acquired under the provisions of this chapter, upon which tolls are charged, together with all appurtenances, additions, alterations, improvements, and replacements thereof, and the approaches thereto, and all lands and interests therein used therefor, and buildings and improvements thereon.

[C71, 73, 75, 77, 79, 81, §313A.1]

313A.2 Bridge to be controlled by department.

The department shall have full charge of the construction and acquisition of all toll bridges constructed or acquired under the provisions of this chapter, the operation and maintenance thereof and the imposition and collection of tolls and charges for the use thereof. The department shall have full charge of the design of all toll bridges constructed under the provisions of this chapter. The department shall proceed with the construction of such toll bridges and other facilities and the approaches thereto by contract immediately upon there being made available funds for such work and shall prosecute such work to completion as rapidly as practicable. The department shall advertise for bids for the construction, reconstruction, improvement, repair or remodeling of any toll bridge by publication of a

notice once each week for at least two consecutive weeks in a newspaper published and having a general circulation throughout the state of Iowa, the first publication to appear at least fifteen days prior to the date set for receiving bids. The department shall have the power to accept such offer or offers, propositions or bids, and enter into such contract or contracts as it shall deem to be to the best interest of the state.

[C71, 73, 75, 77, 79, 81, §313A.2]

313A.3 Toll bridges constructed over boundary rivers.

The department is hereby authorized to establish and construct toll bridges upon any public highway, together with approaches thereto, wherever it is considered necessary or advantageous and practical for crossing any navigable river between this state and an adjoining state. The necessity or advantage and practicality of any toll bridge shall be determined by the department. To obtain information for the consideration of the department upon the construction of any toll bridge or any other matter pertaining thereto, any officer or employee of the state, upon the request of the department, shall make reasonable examination, investigation, survey, or reconnaissance to determine material facts pertaining thereto and shall report such findings to the department. The cost thereof shall be borne by the department or office conducting it from funds provided for its functions.

[C71, 73, 75, 77, 79, 81, §313A.3]

313A.4 Investigation of feasibility.

The department is hereby authorized to enter into agreements with any federal bridge commission or any county or city of this state, and with an adjoining state or county, city, or town thereof, for the purpose of implementing an investigation of the feasibility of any toll bridge project for the bridging of a navigable river forming a portion of the boundary of this state and such adjoining state. The department may use any funds available for the purposes of this section. Such agreements may provide that in the event any such project is determined to be feasible and adopted, any advancement of funds by any state, county or city may be reimbursed out of any proceeds derived from the sale of bonds or out of tolls and revenues to be derived from such project.

[C71, 73, 75, 77, 79, 81, §313A.4]

313A.5 Acquiring existing bridge — bonds.

Whenever the department deems it necessary or advantageous and practical, it may acquire by gift, purchase, or condemnation any interstate bridge which connects with or may be connected with the public highways and the approaches thereto, except that the department may not condemn an existing interstate bridge used for interstate highway traffic and combined highway and railway traffic and presently owned by a municipality, or a person, firm, or corporation engaged in interstate commerce. The department may also acquire by gift or purchase two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, complete the partially constructed bridge and dismantle the bridge which it is designed to replace. In connection with the acquisition of any such bridge, bridges, or partially constructed bridge, the department and any federal bridge commission or any city, county, or other political subdivision of the state are authorized to do all acts and things as in this chapter are provided for the establishing and constructing of toll bridges and operating, financing, and maintaining such bridges insofar as such powers and requirements are applicable to the acquisition of any toll bridge and its operation, financing, and maintenance. In so doing, they shall act in the same manner and under the same procedures as provided for establishing, constructing, operating, financing, and maintaining toll bridges insofar as such manner and procedures are applicable. Without limiting the generality of the above provisions, the department is hereby authorized to cause surveys to be made to determine the propriety of acquiring any such bridge and the rights-of-way necessary therefor, and other facilities necessary to carry out the provisions hereof; to issue, sell, redeem bonds or issue and exchange bonds with present holders of outstanding bonds of bridges being acquired under the provisions of this chapter and deposit and pay out of the proceeds of the bonds for the

financing thereof, to impose, collect, deposit, and expend tolls therefrom; to secure and remit financial and other assistance in connection with the purchase thereof; and to carry insurance thereon.

[C71, 73, 75, 77, 79, 81, §313A.5]

313A.6 Rules adopted — financial statements.

The department, its officials, and all state officials are hereby authorized to perform such acts and make such agreements consistent with the law which are necessary and desirable in connection with the duties and powers conferred upon them regarding the construction, maintenance, and operation and insurance of toll bridges or the safeguarding of the funds and revenues required for such construction and the payment of the indebtedness incurred therefor. The department shall adopt such rules and regulations in accordance with the provisions of chapter 17A as it may deem necessary for the administration and exercise of its powers and duties granted by this chapter, and shall prepare annual financial statements regarding the operation of such toll bridges which shall be made available for inspection by the public and by the holders of revenue bonds issued by the department under the provisions of this chapter at all reasonable times.

[C71, 73, 75, 77, 79, 81, §313A.6]

313A.7 Resolution of public interest and necessity — revenue bonds.

1. Whenever the department deems it to be in the best interest of the primary highway system that any new toll bridge be constructed upon any public highway and across any navigable river between this state and an adjoining state, the department shall adopt a resolution declaring that the public interest and necessity require the construction of such toll bridge and authorizing the issuance of revenue bonds in an amount sufficient for the purpose of obtaining funds for such construction. The issuance of bonds as provided in this chapter for the construction, purchase, or acquisition of more than one toll bridge may, at the discretion of the department, be included in the same authority and issue or issues of bonds, and the department is hereby authorized to pledge the gross revenues derived from the operation of any such toll bridge under its control and jurisdiction to pay the principal of and interest on bonds issued to pay the cost of purchasing, acquiring, or constructing any such toll bridge financed under the provisions of this chapter. The department is hereby granted wide discretion, in connection with the financing of the cost of any toll bridge, to pledge the gross revenues of a single toll bridge for the payment of bonds and interest thereon issued to pay the cost of such bridge and to pledge the gross revenues of two or more toll bridges to pay bonds issued to pay the cost of one or more toll bridges and interest thereon as long as the several bridges included herein are not more than ten miles apart.

2. In addition, if the department in its discretion determines that the construction of a toll bridge cannot be financed entirely through revenue bonds and that the construction of such toll bridge is necessary, the department may advance funds from the primary highway fund to pay for that part of the construction cost, including the cost of approaches and all incidental costs, which is not paid out of the proceeds of revenue bonds. However, said funds advanced from the primary highway fund shall be used only to pay the construction cost, including the cost of approaches and all incidental costs, with respect to that part of the bridge which is or will be located within the state of Iowa. After all revenue bonds and interest thereon issued and sold pursuant to this chapter and payable from the tolls and revenues of said bridge have been fully paid and redeemed or funds sufficient to pay said bonds and interest, including premium, if any, have been set aside and pledged for that purpose, then such amount advanced from the primary road fund shall be repaid to the primary road fund from the tolls and revenues of said bridge before said bridge is made a toll free bridge under the provisions of this chapter.

313A.8 Right-of-way secured.

Whenever the department shall authorize the construction of any toll bridge, the department is empowered to secure rights-of-way therefor and for approaches thereto by gift or purchase or by condemnation in the manner provided by law for the taking of private property for public purposes.

[C71, 73, 75, 77, 79, 81, §313A.8]

313A.9 Consent to cross state property.

The right-of-way is hereby given, dedicated, and set apart upon which to locate, construct, and maintain toll bridges or approaches thereto or other highway crossings, and transportation facilities thereof or thereto, through, over or across any of the lands which are now or may be the property of this state, including highways; and through, over, or across the streets, alleys, lanes, and roads within any city, county, or other political subdivision of the state. If any property belonging to any city, county or other political subdivision of the state is required to be taken for the construction of any such bridge or approach thereto or should any such property be injured or damaged by such construction, such compensation therefor as may be proper or necessary and as shall be agreed upon may be paid by the department to the particular county, city or other political subdivision of the state owning such property, or condemnation proceedings may be brought for the determination of such compensation.

[C71, 73, 75, 77, 79, 81, §313A.9]

313A.10 Resolution precedent to action.

Before the department shall proceed with any action to secure right-of-way or with the construction of any toll bridge under the provisions of this chapter, it shall first pass a resolution finding that public interest and necessity require the acquisition of right-of-way for and the construction of such toll bridge. Such resolution shall be conclusive evidence of the public necessity of such construction and that such property is necessary therefor. To aid the department in determining the public interest, a public hearing shall be held in the county or counties of this state in which any portion of a bridge is proposed to be located. Notice of such hearing shall be published at least once in a newspaper published and having a general circulation in the county or counties where such bridge is proposed to be located, not less than twenty days prior to the date of the hearing. When it becomes necessary for the department to condemn any real estate to be used in connection with any such bridge, or to condemn any existing bridge, such condemnation shall be carried out in a manner consistent with the provisions of chapters 6A and 6B. In eminent domain proceedings to acquire property for any of the purposes of this chapter, any bridge, real property, personal property, franchises, rights, easements, or other property or privileges appurtenant thereto appropriated or dedicated to a public use or purpose by any person, firm, private, public or municipal corporation, county, city, district or any political subdivision of the state, may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use or purpose to which such property has been so appropriated or dedicated, or for any other public use or purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use and purpose than the public use or purpose to which such property has already been appropriated or dedicated, and any condemnation award may be paid from the proceeds of revenue bonds issued under the provisions of this chapter.

[C71, 73, 75, 77, 79, 81, §313A.10]

313A.11 Payment from available funds.

If the department determines that any toll bridge should be constructed or acquired under its authority, all costs thereof, including land, right-of-way, surveying, engineering, construction, legal and administrative expenses, and fees of any fiscal adviser, shall be paid out of any funds available for payment of the cost of the bridge.

313A.12 Revenue bonds.

1. The department is hereby authorized and empowered to issue revenue bonds for the acquisition, purchase, or construction of any interstate bridge. Any and all bonds issued by the department for the acquisition, purchase, or construction of any interstate bridge under the authority of this chapter shall be issued in the name of the department and shall constitute obligations only of the department, shall be identified by some appropriate name, and shall contain a recital on the face thereof that the payment or redemption of said bonds and the payment of the interest thereon are secured by a direct charge and lien upon the tolls and other revenues of any nature whatever received from the operation of the particular bridge for the acquisition, purchase, or construction of which the bonds are issued and of such other bridge or bridges as may have been pledged therefor, and that neither the payment of the principal or any part thereof nor of the interest thereon or any part thereof constitutes a debt, liability, or obligation of the state of Iowa. When it is determined by the department to be in the best public interest, any bonds issued under the provisions of this chapter may be refunded and refinanced at a lower rate, the same rate or a higher rate or rates of interest and from time to time as often as the department shall find it to be advisable and necessary so to do. Bonds issued to refund other bonds theretofore issued by the department under the provisions of this chapter may either be sold in the manner hereinafter provided and the proceeds thereof applied to the payment of the bonds being refunded, or the refunding bonds may be exchanged for and in payment and discharge of the bonds being refunded. The refunding bonds may be sold or exchanged in installments at different times or an entire issue or series may be sold or exchanged at one time. Any issue or series of refunding bonds may be exchanged in part or sold in part in installments at different times or at one time. The refunding bonds may be sold at any time on, before, or after the maturity of any of the outstanding bonds to be refinanced thereby and may be issued for the purpose of refunding a like or greater principal amount of bonds, except that the principal amount of the refunding bonds may exceed the principal amount of the bonds to be refunded to the extent necessary to pay any premium due on the call of the bonds to be refunded or to fund interest in arrears or about to become due. The gross revenues of any toll bridge pledged to the payment of the bonds being refunded, together with the unpledged gross revenues of any other toll bridges located within ten miles of said bridge, may be pledged by the department to pay the principal of and interest on the refunding bonds and to create and maintain reserves therefor.

2. The department is empowered to receive and accept funds from the state of Iowa or the federal government or any other state upon a cooperative or other basis for the acquisition, purchase, or construction of any interstate bridge authorized under the provisions of this chapter and is empowered to enter into such agreements with the state of Iowa or any other state or the federal government as may be required for the securing of such funds.

3. The department is authorized and empowered to spend from annual primary road fund receipts sufficient moneys to pay the cost of operation, maintenance, insurance, collection of tolls and accounting therefor and all other charges incidental to the operation and maintenance of any toll bridge administered under the provisions of this chapter. However, said annual primary road fund receipts shall be used only to pay such costs and charges with respect to that part of the bridge which is located within the state of Iowa.

4. The department may also issue its revenue bonds to pay all or any part of the cost of acquiring two or more existing interstate bridges and any partially constructed interstate bridge, all located within ten miles of each other, of completing the partially constructed bridge and of dismantling the bridge which it is designed to replace, and to impose and collect tolls on all of such bridges and to pledge the revenues derived therefrom to the payment of the bonds issued to finance such project. The department may also issue its revenue bonds to pay all or any part of the cost of reconstructing, completing, improving, repairing, or remodeling any interstate bridge or partially constructed bridge, impose and collect tolls, and pledge the bridge revenues to the payment of said bonds.

313A.13 Sale and exchange or retirement of bonds.

The revenue bonds may be issued and sold or exchanged by the department from time to time and in such amounts as it deems necessary to provide sufficient funds for the acquisition, purchase, or construction of any such bridge and to pay interest on bonds issued for the construction of any toll bridge during the period of actual construction and for six months after completion thereof. The department is hereby authorized to adopt all necessary resolutions prescribing the form, conditions, and denominations of the bonds, the maturity dates therefor, and the interest rate or rates which the bonds shall bear. All bonds of the same issue need not bear the same interest rate. Principal and interest of the bonds shall be payable at such place or places within or without the state of Iowa as determined by the department, and the bonds may contain provisions for registration as to principal or interest, or both. Interest shall be payable at such times as determined by the department and the bonds shall mature at such times and in such amounts as the department prescribes. The department may provide for the retirement of the bonds at any time prior to maturity, and in such manner and upon payment of such premiums as it may determine in the resolution providing for the issuance of the bonds. All such bonds and any coupons attached thereto shall be signed by such officials of the department as the department may direct. Successive issues of such bonds within the limits of the original authorization shall have equal preference with respect to the payment of the principal thereof and the payment of interest thereon. The department may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the provisions of this chapter shall have all the qualities of negotiable instruments under the laws of the state of Iowa. All bonds issued and sold hereunder shall be sold to the highest and best bidder on the basis of sealed proposals received pursuant to a notice specifying the time and place of sale and the amount of bonds to be sold which shall be published at least once not less than seven days prior to the sale in a newspaper published in the state of Iowa and having a general circulation in said state. None of the provisions of chapter 75 shall apply to bonds issued under the provisions of this chapter but such bonds shall be sold upon terms of not less than par plus accrued interest. The department may reject any or all bids received at the public sale and may thereafter sell the bonds at private sale on such terms and conditions as it deems most advantageous to its own interests, but not at a price below that of the best bid received at the advertised sale. The department may enter into contracts and borrow money through the sale of bonds of the same character as those herein authorized, from the United States or any agency thereof, upon such conditions and terms as may be agreed to and the bonds shall be subject to all the provisions of this chapter, except that any bonds issued hereunder to the United States or any agency thereof need not first be offered at public sale. The department may also provide for the private sale of bonds issued under the provisions of this chapter to the state treasurer of Iowa upon such terms and conditions as may be agreed upon, and in such event said bonds need not first be offered at public sale. Temporary or interim bonds, certificates, or receipts, of any denomination, and with or without coupons attached, signed by such official as the department may direct, may be issued and delivered until the definitive bonds are executed and available for delivery.

313A.14 Proceeds in trust fund.

The proceeds from the sale of all bonds authorized and issued under the provisions of this chapter shall be deposited by the department in a fund designated as the construction fund of the particular interstate bridge or bridges for which such bonds were issued and sold, which fund shall not be a state fund and shall at all times be kept segregated and set apart from all other funds and in trust for the purposes herein set out. Such proceeds shall be paid out or disbursed solely for the acquisition, purchase, or construction of such interstate bridge or bridges and expenses incident thereto, the acquisition of the necessary lands and easements therefor and the payment of interest on such bonds during the period of actual construction and for a period of six months thereafter, only as the need therefor shall arise and the department may agree with the purchaser of said bonds upon any conditions or limitations restricting the disbursement of such funds that may be deemed advisable, for

the purpose of assuring the proper application of such funds. All moneys in such fund and not required to meet current construction costs of the interstate bridge or bridges for which such bonds were issued and sold, and all funds constituting surplus revenues which are not immediately needed for the particular object or purpose to which they must be applied or are pledged may be invested in obligations issued or guaranteed by the United States or by any person controlled by or supervised by and acting as an instrumentality of the United States pursuant to authority granted by the Congress of the United States; provided, however, that the department may provide in the proceedings authorizing the issuance of said bonds that the investment of such moneys shall be made only in particular bonds and obligations within the classifications eligible for such investment and such provisions shall thereupon be binding upon the department and all officials having anything to do with such investment. Any surplus which may exist in said construction fund shall be applied to the retirement of bonds issued for the acquisition, purchase, or construction of any such interstate bridge by purchase or call and, in the event such bonds cannot be purchased at a price satisfactory to the department and are not by their terms callable prior to maturity, such surplus shall be paid into the fund applicable to the payment of principal and interest of said bonds and shall be used for that purpose. The proceedings authorizing the issuance of bonds may provide limitations and conditions upon the time and manner of applying such surplus to the purchase and call of outstanding bonds and the terms upon which they shall be purchased or called and such limitations and conditions shall be followed and observed in the application and use of such surplus. All bonds so retired by purchase or call shall be immediately canceled.

[C71, 73, 75, 77, 79, 81, §313A.14]

313A.15 Toll revenue fund.

All tolls or other revenues received from the operation of any toll bridge acquired, purchased, or constructed with the proceeds of bonds issued and sold hereunder shall be deposited by the department to the credit of a special trust fund to be designated as the toll revenue fund of the particular toll bridge or toll bridges producing such tolls or revenue, which fund shall be a trust fund and shall at all times be kept segregated and set apart from all other funds.

[C71, 73, 75, 77, 79, 81, §313A.15]

313A.16 Funds transferred to place of payment.

From the money so deposited in each separate construction fund as hereinabove provided, at the direction of the department there shall be transferred to the place or places of payment named in said bonds such sums as may be required to pay the interest as it becomes due on all bonds issued and outstanding for the construction of such particular toll bridge or toll bridges during the period of actual construction and during the period of six months immediately thereafter. The department shall thereafter transfer from each separate toll revenue fund to the place or places of payment named in the bonds for which said revenues have been pledged such sums as may be required to pay the interest on said bonds and redeem the principal thereof as such interest and principal become due. All funds so transferred for the payment of principal of or interest on bonds issued for any particular toll bridge or toll bridges shall be segregated and applied solely for the payment of said principal or interest. The proceedings authorizing the issuance of the bonds may provide for the setting up of a reserve fund or funds out of the tolls and other revenues not needed for the payment of principal and interest, as the same currently matures and for the preservation and continuance of such fund in a manner to be provided therein, and such proceedings may also require the immediate application of all surplus moneys in such toll revenue fund to the retirement of such bonds prior to maturity, by call or purchase, in such manner and upon such terms and the payment of such premiums as may be deemed advisable in the judgment of the department. The moneys remaining in each separate toll revenue fund after providing the amount required for the payment of principal of and interest on bonds as hereinabove provided, shall be held and applied as provided in the proceedings authorizing the issuance of said bonds. In the event the proceedings authorizing the issuance of said bonds do not require surplus revenues to be held or applied in any particular manner, they shall be allocated and used for such other

All interest received or earned on money deposited in each and every fund herein provided for shall be credited to and become a part of the particular fund upon which said interest accrues.

Notwithstanding any provision contained in this chapter, the proceeds received from the sale of bonds and the tolls or other revenues received from the operation of any toll bridge may be used to defray any expenses incurred by the department in connection with and incidental to the issuance and sale of bonds for the acquisition, purchase, or construction of any such toll bridge including expenses for the preparation of surveys and estimates, legal, fiscal and administrative expenses, and the making of such inspections and examinations as may be required by the purchasers of such bonds; provided, that the proceedings authorizing the issuance of such bonds may contain appropriate provisions governing the use and application of said bond proceeds and toll or other revenues for the purposes herein specified.

[C71, 73, 75, 77, 79, 81, §313A.19]

313A.20 No diminution of duties while bonds outstanding.

The holder of any bond may by mandamus or other appropriate proceeding require and compel the performance of any of the duties imposed upon any state department, official, or employee or imposed upon the department or its officers, agents, and employees in connection with the acquisition, purchase, construction, maintenance, operation, and insurance of any bridge and in connection with the collection, deposit, investment, application, and disbursement of all tolls and other revenues derived from the operation and use of any bridge and in connection with the deposit, investment, and disbursement of the proceeds received from the issuance of bonds; provided, that the enumeration of such rights and remedies herein shall not be deemed to exclude the exercise or prosecution of any other rights or remedies by the holders of such bonds.

313A.21 Insurance or indemnity bond.

When any toll bridge authorized hereunder is being built by the department it may carry or cause to be carried such an amount of insurance or indemnity bond or bonds as protection against loss or damage as it may deem proper. The department is hereby further empowered to carry such an amount of insurance to cover any accident or destruction in part or in

whole to any toll bridge. All moneys collected on any indemnity bond or insurance policy as the result of any damage or injury to any such toll bridge shall be used for the purpose of repairing or rebuilding of any such toll bridge as long as there are revenue bonds against any such structure outstanding and unredeemed. The department is also empowered to carry insurance or indemnity bonds insuring against the loss of tolls or other revenues to be derived from any such toll bridge by reason of any interruption in the use of such toll bridge from any cause whatever, and the proceeds of such insurance or indemnity bonds shall be paid into the fund into which the tolls and other revenues of the bridge thus insured are required to be paid and shall be applied to the same purposes and in the same manner as other moneys in the said fund. Such insurance or indemnity bonds may be in an amount equal to the probable tolls and other revenues to be received from the operation of such toll bridge during any period of time that may be determined upon by the department and fixed in its discretion, and be paid for out of the toll revenue fund as may be specified in said proceedings. The department may provide in the proceedings authorizing the issuance of bonds for the carrying of insurance as authorized by this chapter and the purchase and carrying of insurance as authorized by this chapter shall thereupon be obligatory upon the department and be paid for out of the toll revenue fund as may be specified in said proceedings.

[C71, 73, 75, 77, 79, 81, §313A.21]

313A.22 Toll charges fixed by department.

The department is hereby empowered to fix the rates of toll and other charges for all interstate bridges acquired, purchased, or constructed under the terms of this chapter. Toll charges so fixed may be changed from time to time as conditions may warrant. The department in establishing toll charges shall give due consideration to the amount required annually to pay the principal of and interest on bonds payable from the revenues thereof. The tolls and charges shall be at all times fixed at rates sufficient to pay the bonds and interest as they mature, together with the creation and maintenance of bond reserve funds and other funds as established in the proceedings authorizing the issuance of the bonds, for any particular toll bridge. The amounts required to pay the principal of and interest on bonds shall constitute a charge and lien on all such tolls and other revenues and interest thereon and sinking funds created therefrom received from the use and operation of said toll bridge, and the department is hereby authorized to pledge a sufficient amount of said tolls and revenues for the payment of bonds issued under the provisions of this chapter and interest thereon and to create and maintain a reserve therefor. Such tolls and revenues, together with the interest earned thereon, shall constitute a trust fund for the security and payment of such bonds and shall not be used or pledged for any other purpose as long as such bonds or any of them are outstanding and unpaid.

Any such city, county, or other political subdivision may, either jointly or separately, at the request of the department advance or contribute money for the purpose of guaranteeing the payment of interest or principal on the bonds issued by the department to finance the bridge. Appropriations for such purposes may be made from any funds available, including county road funds received from or credited by the state, or funds obtained by excess tax levies made pursuant to law or the issuance of general obligation bonds for this purpose. Money or property so advanced or contributed may be immediately transferred or delivered to the department to be used for the purpose for which contribution was made. The department may enter into an agreement with a city, county, or other political subdivision to repay any money

The department may make such repayment to a city, county, or other political subdivision and reimburse the state for any expenditures made by it in connection with the bridge out of tolls and other revenues for the use of the bridge.

314.1 Bidding procedures — basis for awarding contracts.

1. The agency having charge of the receipt of bids and the award of contracts for the construction, reconstruction, improvement, or repair or maintenance of a highway, bridge, or culvert may require, for any highway, bridge, or culvert contract letting, that each bidder file with the agency a statement showing the bidder's financial standing, equipment, and experience in the execution of like or similar work. The statements shall be on standard forms prepared by the department and shall be filed with the agency prior to the letting at which the bidder expects to bid. The agency may, in advance of the letting, notify the bidder as to the amount and the nature of the work for which the bidder is deemed qualified to bid. A bidder who is prequalified under this subsection by the department shall be deemed qualified for a highway, bridge, or culvert contract letting by any other agency and shall submit proof of the prequalification in a manner determined by the department if required to do so by the agency.

2. Notwithstanding any other provision of law to the contrary, a public improvement that involves the construction, reconstruction, or improvement of a highway, bridge, or culvert and that has a cost in excess of the applicable threshold in section 73A.18, 262.34, 297.7, 309.40, 310.14, or 313.10, as modified by the director pursuant to section 314.1B, shall be advertised and let for bid, except such public improvements that involve emergency work pursuant to section 309.40A, 313.10, or 384.103, subsection 2. 314.21 Living roadway trust fund.

1. *a.* The living roadway trust fund is created in the office of the treasurer of state. The moneys in this fund shall be used exclusively for the development and implementation of integrated roadside vegetation plans. Except as provided in subsections 2 and 3, the moneys shall only be expended for areas on or adjacent to road, street, and highway right-of-ways. The state department of transportation in consultation with the department of natural resources shall establish standards relating to the type of projects available for assistance.

b. A city or county which has a project which qualifies for the use of these funds shall submit a request for the funds to the state department of transportation. A city or county may, at its option, apply moneys allocated for use on city or county projects under this subsection toward qualifying projects on the primary road system. The state department of transportation in consultation with the department of natural resources shall determine which projects qualify for the funds and which projects shall be funded if the requests for the funds exceed the availability of the funds. In ranking applications for funds, the department shall consider the proportion of political subdivision matching funds to be provided, if any, and the proportion of private contributions to be provided, if any. In considering the proportion of political subdivision matching funds provided, the department shall consider only those moneys which are in addition to those which the political subdivision has historically provided toward such projects. Funds allocated to the cities, the counties, and the department which are not programmed by the end of each fiscal year shall be available for redistribution to any eligible applicant regardless of the original allocation of funds. Such funds shall be awarded for eligible projects based upon their merit in meeting the program objectives established by the department under section 314.22. The department shall submit a report of all projects funded in the previous fiscal year to the governor and to the general assembly on January 15 of each year.

c. Beginning April 1, 1990, the moneys in the living roadway trust fund shall be allocated between the state, counties, and cities in the same proportion that the road use tax funds are allocated under section 312.2, subsection 1, paragraphs "*a*", "*b*", "*c*", and "*d*". However, after April 1, 1990, a city or county shall not be eligible to receive moneys from the living roadway trust fund unless the city or county has an integrated roadside vegetation management plan in place consistent with the objectives in section 314.22.

2. *a.* The department may authorize projects which provide grants or loans to local governments and organizations which are developing community entryway enhancement and other planting demonstration projects. Planning, public education, installation, and initial maintenance planning and development may be determined by the department to be eligible activities for funding under this paragraph. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

b. The department may authorize projects which provide grants or loans to local governments for the purchase of specialized equipment and special staff training for the

UNOFFICIAL VERSION 2025 RELEASE

establishment of alternative forms of roadside vegetation. Projects approved under this paragraph require a local match or contribution toward the overall project cost.

c. The department, in order to create greater visual effect, shall investigate alternatives for concentrating plantings at strategic locations to gain a greater visual impact and appeal as well as stronger scenic value. Equal attention shall be given to providing safe and effective habitats for wildlife which can coexist with highways.

d. The department may authorize projects which provide grants or loans to local jurisdictions for increased protection through the use of easements, fee title acquisition, covenants, zoning ordinances, or other provisions for protection of vegetation and desirable environment adjacent to the right-of-way. Off-right-of-way projects shall emphasize vegetation protection or enhancement, scenic and wildlife values, erosion control and enhancement of vegetation management projects within the right-of-ways.

3. *a.* Moneys allocated to the state under subsection 1 shall be expended as follows:

(1) Fifty thousand dollars annually to the department for the services of the integrated roadside vegetation management coordinator and support.

(2) One hundred thousand dollars annually for education programs, research and demonstration projects, and vegetation inventories and strategies, under section 314.22, subsections 5, 6, and 8.

(3) All remaining moneys for the gateways program under section 314.22, subsection 7.

b. Moneys allocated to the counties under subsection 1 shall be expended as follows:

(1) For the fiscal year beginning July 1, 1995, and ending June 30, 1996, and each subsequent fiscal year, seventy-five thousand dollars to the university of northern Iowa to maintain the position of the state roadside specialist and to continue its integrated roadside vegetation management program providing research, education, training, and technical assistance.

(2) All remaining money for grants or loans under subsection 2, paragraph *"a"*.

c. Moneys allocated to the cities shall be expended for grants or loans under subsection 2, paragraph *"a"*.

The proportion of funding shall be determined by the department or, in the case of cooperative projects, by agreement between the department and the city councils of participating cities, or boards of supervisors of participating counties, or other participating public agencies or private parties.

315.11 Additional factors and requirements.

In addition to other effects and factors to be considered under section 315.5, for applications submitted after July 1, 1988, the following factors and requirements shall be considered or applied:

1. The impact of the proposed project on other businesses in competition with the business being considered for assistance. The department shall make a good faith effort to identify existing Iowa businesses within an industry in competition with the business being considered for assistance. The department shall make a good faith effort to determine the probability that the proposed financial assistance will displace employees of the existing businesses. In determining the impact on businesses in competition with the business being considered for assistance, jobs created as a result of other jobs being displaced elsewhere in the state shall not be considered direct jobs created.

2. The economic impact to the state of the proposed project. In measuring the economic impact the department shall award more points for the following:

a. A business with a greater percentage of sales out-of-state or of import substitution.

b. A business with a higher proportion of in-state suppliers.

c. A project which would provide greater diversification of the state economy.

d. A business with fewer in-state competitors.

e. A potential for future job growth.

f. A project which is not a retail operation.

3. The quality of jobs to be provided. Jobs that have a higher wage scale, have a lower turnover rate, are full-time, or are career-type positions are considered higher in quality. Businesses that have wage scales substantially below that of existing Iowa businesses in that area should be rated as providing the lowest quality of jobs and should therefore be given the lowest ranking for providing such assistance.

4. If the business has a record of violations of the law over a period of time that tends to show a consistent pattern, the business shall be given the lowest ranking for providing assistance. The department shall make a good faith effort to compile this information.

5. If a business has, within three years of application for assistance, acquired or merged with an Iowa corporation or company, the business shall make a good faith effort to hire the workers of the merged or acquired company.

6. To be eligible for assistance a business shall provide for a preference for hiring residents of the state or the economic development area, except for out-of-state employees offered a transfer to Iowa or the economic development area.

7. All known required environmental permits must be granted and regulations met before moneys are released.

316.2 Effect on acquisitions and condemnations.

1. The provisions of this chapter shall not affect the validity of any property acquisitions by purchase or condemnation.

2. Nothing in this chapter shall be construed as creating in any condemnation proceedings brought under the power of eminent domain, any element of value or of damage not in existence immediately prior to the date of this chapter.

316.3 Declaration of policy — authorization — divisibility of application.

1. The purpose of this chapter is to establish a uniform policy for the fair and equitable treatment of persons displaced as a result of federally assisted programs or projects in order that the persons shall not suffer disproportionate injuries as a result of programs or projects designed for the benefit of the public as a whole and to minimize the hardship of displacement on the persons. The general assembly declares that relocation assistance for persons displaced by programs and projects is a necessary and essential part of the programs and projects. This chapter shall be known and may be cited as the *"Relocation Assistance Law."*

2. If a displacing agency subject to the provisions of the federal Uniform Relocation Act, or if another entity required or electing to provide any of the programs or payments authorized by this chapter, undertakes a project which results in the acquisition of real property or in a person being displaced from the person's home, business, or farm, the displacing agency or other entity may provide relocation assistance, and make relocation payments to the displaced person and do the other acts and follow the procedures and practices as may be necessary to comply with the provisions of the federal Uniform Relocation Act and this chapter. Displacing agencies may provide all or a part of the program and payments authorized under this chapter to persons displaced by any program or project regardless of the funding source. However, to the extent a program or a payment is provided, the program or payment shall be provided on a uniform basis to all displaced persons.

3. If a provision, clause, or phrase of this chapter, or application of this chapter to a person or circumstance is adjudged invalid by any court of competent jurisdiction, the judgment shall not invalidate the remainder of the chapter, and the application of the chapter to other persons or circumstances shall not be affected by the adjudication.

person, upon proper application as approved by the displacing agency, for actual reasonable and necessary expenses incurred in moving the person, the person's family, business, farm operation, or other personal property subject to rules and limits established by the department. The payment may also provide for actual direct losses of tangible personal property, purchase of substitute personal property, business reestablishment expenses, storage expenses, and expenses incurred in searching for a replacement business or farm.

2. A displaced person eligible for payments under subsection 1, who is displaced from a dwelling and who elects to accept the payments authorized by this subsection in lieu of the payments authorized by subsection 1, may receive a moving expense and dislocation allowance determined according to a schedule established by the department.

3. A displaced person, as defined in section 316.1, subsection 2, paragraph "*a*", eligible for payments under subsection 1, who is displaced from the person's place of business or farm operation and who is eligible, may elect to accept the payment authorized by this subsection in lieu of the payment authorized by subsection 1. The payment shall consist of a fixed payment in an amount to be determined according to criteria established by the department. A person whose sole business at the displaced dwelling is the rental of the real property does not qualify for a payment under this subsection.

1. In addition to payments otherwise authorized by this chapter, the displacing agency shall make an additional payment to a displaced person who is displaced from a dwelling actually owned and occupied by the displaced person for not less than one hundred eighty days immediately prior to the initiation of negotiations for the acquisition of the property. All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The additional payment shall include the following elements:

a. The amount, if any, which when added to the acquisition cost of the dwelling acquired by the displacing agency, equals the reasonable cost of a comparable replacement dwelling.

b. The amount, if any, which will compensate the displaced person for any increased interest costs and other debt service costs which the displaced person is required to pay for financing the acquisition of a comparable replacement dwelling. The amount shall be paid only if the dwelling acquired by the displacing agency was encumbered by a bona fide mortgage which was a valid lien on the dwelling for not less than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling.

c. Actual, reasonable, and necessary expenses incurred by the displaced person for evidence of title, recording fees, and other closing costs incident to the purchase of a replacement dwelling, but not including prepaid expenses.

2. The additional payment authorized by this section shall be made only to a displaced person who purchases and occupies a decent, safe, and sanitary replacement dwelling within one year after the date on which the person receives final payment from the displacing agency of all costs of the acquired dwelling, or on the date on which the obligation of the displacing agency under section 316.8 is met, whichever is the later, except that the displacing agency may extend the eligibility period for good cause. If the period is extended, the payment under this section shall be based on the costs of relocating the person to a comparable replacement dwelling within one year of the applicable date.

of negotiations for acquisition of the dwelling, or as a result of the written order of the displacing agency to vacate the real property. All determinations to carry out this section shall be made in accordance with administrative rules adopted by the department. The displaced person may elect either of the following:

1. The amount necessary to enable the displaced person to lease or rent a comparable replacement dwelling. At the discretion of the displacing agency, a payment under this subsection may be made in periodic installments. Computations of a payment under this subsection to a low-income displaced person for a comparable replacement dwelling shall take into account the person's income.

2. The amount necessary to enable the person to make a down payment, including incidental expenses described in section 316.5, subsection 1, paragraph "c", on the purchase of a decent, safe, and sanitary dwelling. The person may, at the discretion of the displacing agency, be eligible under this subsection for the maximum payment allowed under subsection 1, except that, in the case of a displaced homeowner who has owned and occupied the displaced dwelling for at least ninety days but not more than one hundred and eighty days immediately prior to the initiation of negotiations for the acquisition of the dwelling, the payment shall not exceed the payment the person would otherwise have received under section 316.5, subsection 1, had the person owned and occupied the displaced dwelling for one hundred and eighty days immediately prior to the initiation of the negotiations.

316.7 Relocation assistance advisory services.

1. A displacing agency shall ensure that relocation assistance advisory services are made available to all persons displaced by the displacing agency. If the displacing agency determines that a person occupying property adjacent to the real property where the displacing activity occurs, is caused substantial economic injury as a result of the displacing activity, the displacing agency may offer the person relocation assistance advisory services.

2. The displacing agency shall cooperate to the maximum extent feasible with federal, state, or local agencies to ensure that the displaced persons receive the maximum assistance available to them.

3. Each relocation assistance advisory program required by subsection 1 shall include such measures, facilities, or services as may be necessary or appropriate in order to comply with the provisions of the federal Uniform Relocation Act and this chapter.

4. The displacing agency shall provide other advisory services to displaced persons in order to minimize hardships to the displaced persons in adjusting to relocation.

5. The displacing agency shall coordinate relocation activities with project work, and other planned or proposed governmental actions or displacing activities in the community or nearby areas which may affect the carrying out of relocation assistance programs.

316.8 Housing replacement by the displacing agency.

1. If a project cannot proceed on a timely basis because comparable replacement dwellings are not available, and the displacing agency determines that such dwellings cannot otherwise be made available, the displacing agency may take such action as is necessary or appropriate to provide the dwellings by use of funds authorized for the program or project. The displacing agency may let contracts for the construction of the dwellings, approve plans and specifications for the building of the dwellings, and supervise, inspect, and approve the dwellings once constructed in order that the dwellings so constructed comply with the terms and conditions of this chapter. The displacing agency may under this section exceed the maximum amounts which may be paid under sections 316.5 and 316.6 on a case-by-case basis for good cause as determined in accordance with administrative rules adopted by the department.

When the commissioner destroys any weeds under the authority of section 317.16, after failure of the landowner responsible to destroy such weeds pursuant to the order of the board of supervisors, the cost of the destruction shall be assessed against the land and collected from the landowner responsible in the following manner:

1. Annually, after the weed commissioner has completed the program of destruction of weeds by reason of noncompliance by persons responsible for the destruction, the board of supervisors shall determine as to each tract of real estate the actual cost of labor and materials used by the commissioner in cutting, burning, or otherwise destroying the weeds, the cost of serving notice, and of special meetings or proceedings, if any. To the total of all sums expended, the board shall add an amount equal to twenty-five percent of that total to compensate for the cost of supervision and administration and assess the resulting sum against the tract of real estate by a special tax, which shall be certified to the county auditor and county treasurer by the clerk of the board of supervisors, and shall be placed upon the tax books, and collected, with interest after delinquent, in the same manner as other unpaid taxes. The tax shall be due on March 1 after assessment, and shall be delinquent from April 1 after due. However, when the last day of March is a Saturday or Sunday, such amount shall be delinquent from the second business day of April. When collected, the moneys shall be paid into the fund from which the costs were originally paid.

2. Before making any such assessment, the board of supervisors shall prepare a plat or schedule showing the several lots, tracts of land or parcels of ground to be assessed which shall be in accord with the assessor's records and the amount proposed to be assessed against each of the same for destroying or controlling weeds during the fiscal year.

3. Such board shall thereupon fix a time for the hearing on such proposed assessments, which time shall not be later than December 15 of the year, and at least twenty days prior to the time thus fixed for such hearing shall give notice thereof to all concerned that such plat or schedule is on file, and that the amounts as shown therein will be assessed against the several lots, tracts of land or parcels of ground described in said plat or schedule at the time fixed for such hearing, unless objection is made thereto. Notice of such hearing shall be given by one publication in official county newspapers in the county in which the property to be assessed is situated; or by posting a copy of such notice on the premises affected and by mailing a copy by certified mail to the last known address of the person owning or controlling said premises. At such time and place the owner of said premises or anyone liable to pay such assessment, may appear with the same rights given by law before boards of review, in reference to assessments for general taxation.

b. "Electronic communication" means a document provided electronically by the department and includes any of the following:

(1) Sending a document to an electronic mail address or telephone number at which the recipient has specifically given consent to receive documents.

(2) Posting a document on an electronic network provided by the department that is accessible via the internet, a mobile application, computer, mobile device, tablet, or any other electronic device, or on the department's internet site, along with a separate electronic mail notification of the posting sent to the address at which the recipient has consented to receive notification or by any other delivery method to which the recipient has given consent.

The owner of a vehicle purchased pursuant to section 578A.7 shall present documentation that such sale was completed in compliance with that section. The application shall be accompanied by a fee of thirty dollars, and shall bear the owner's signature. A nonresident owner of two or more vehicles subject to registration may make application for initial registration and issuance of a certificate of title for all vehicles subject to registration to any county treasurer. The owner of a mobile home or manufactured home shall make application for a certificate of title under this section from the county treasurer of the county where the mobile home or manufactured home is located. The application shall contain:

If the owner or lessee is a firm, association, or corporation, the application shall contain the bona fide business address and federal employer identification number of the owner or lessee. Up to three owners' names may be listed on the application. If the vehicle is a leased vehicle, the application shall state whether the notice of registration renewal shall be sent to the lessor or to the lessee and whether the lessor or the lessee shall receive the refund of the annual registration fee, if any. Information relating to the lessee of a vehicle shall not be required on an application for registration and a certificate of title for a vehicle with a gross vehicle weight rating of ten thousand pounds or more.

b. A description of the vehicle including, insofar as the specified data may exist with respect to a given vehicle, the make, model, type of body, the number of cylinders, the type of motor fuel used, the vehicle identification number or other assigned number, and whether new or used and, if a new vehicle, the date of sale by the manufacturer or dealer to the person intending to operate the vehicle. If the vehicle is a new low-speed vehicle, the manufacturer's or importer's certificate required to accompany the application under paragraph *"d"* shall certify that the vehicle was manufactured in compliance with the national highway traffic safety administration standards for low-speed vehicles in 49 C.F.R. §571.500.

c. Such further information as may reasonably be required by the department.

d. A statement of the applicant's title and of all liens or encumbrances upon the vehicle and the names and mailing addresses of all persons having any interest in the vehicle and the nature of every such interest. When the application refers to a new vehicle, it shall be accompanied by a manufacturer's or importer's certificate duly assigned as provided in section 321.45.

e. The amount of the fee for new registration to be paid under section 321.105A, the amount of tax to be paid under section 423.26, subsection 1, or the amount of tax to be paid under section 423.26A.

f. contain the bona fide business address and federal employer identification number of the primary user. The primary user's name and address shall not be printed on the registration receipt or the certificate of title.

(2) If the vehicle is owned by a nonresident who owns real property in this state, the vehicle is used primarily at the Iowa property, and the vehicle is subject to issuance of an Iowa certificate of title or registration, the application must include reasonable proof, as determined by the department, that the nonresident owns the property, and may contain the owner's driver's license number or nonoperator's identification card number issued by another state in lieu of both the primary user's information required under subparagraph (1) and the owner's Iowa driver's license number or Iowa nonoperator's identification card number required under paragraph "*a*". The department shall adopt rules regarding acceptable proof of ownership of the property required under this subparagraph.

2. Notwithstanding contrary provisions of this chapter or chapter 326 regarding titling and registration by means other than electronic means, the department shall develop and implement a program to allow for electronic applications, titling, initial registrations, and funds transfers for vehicles subject to registration in order to improve the efficiency and timeliness of the processes and to reduce costs for all parties involved. The program shall also provide for the electronic submission of any statement required by this section, except where prohibited by federal law.

321.20B Financial liability coverage — proof required — violations — penalties — exceptions.

1. *a.* Notwithstanding chapter 321A, which requires certain persons to maintain proof of financial responsibility, a person shall not drive a motor vehicle on the highways of this state unless financial liability coverage, as defined in section 321.1, subsection 24B, is in effect for the motor vehicle and unless the driver has in the motor vehicle the proof of financial liability coverage card issued for the motor vehicle, or if the vehicle is registered in another state, other evidence that financial liability coverage is in effect for the motor vehicle. A proof of financial liability coverage card may be produced in paper or electronic format. Acceptable electronic formats include electronic images displayed on a cellular telephone or any other portable electronic device that has a display screen with touch input or a miniature keyboard.

b. It shall be conclusively presumed that a motor vehicle driven upon a parking lot which is available to the public without charge or which is available to customers or invitees of a business or facility without charge was driven on the highways of this state in order to enter the parking lot, and this section shall be applicable to such a motor vehicle. As used in this section, *"parking lot"* includes access roads, drives, lanes, aisles, entrances, and exits to and from a parking lot described in this paragraph.

c. This subsection does not apply to the operator of a motor vehicle owned by or leased to the United States, this state or another state, or any political subdivision of this state or of another state, or to a motor vehicle which is subject to section 325A.6.

2. *a.* An insurance company transacting business in this state shall issue to its insured owners of motor vehicles registered in this state a financial liability coverage card for each motor vehicle insured. Each financial liability coverage card shall identify the registration number or vehicle identification number of the motor vehicle insured and shall indicate the expiration date of the applicable insurance coverage. The financial liability coverage card shall also contain the name and address of the insurer or the name of the insurer and the name and address of the insurance agency, the name of the insured, and an emergency telephone number of the insurer or emergency telephone number of the insurance agency. An insurance company may issue a financial liability coverage card in either paper format or, if requested by the insured, electronic format.

b. The department shall adopt rules regarding the contents of a financial liability coverage card to be issued pursuant to this section.

(1) Notwithstanding the provisions of this section, a fleet owner who is issued a certificate of self-insurance pursuant to section 321A.34, subsection 1, is not required to maintain in each vehicle a financial liability coverage card with the individual registration number or the vehicle identification number of the vehicle included on the card. Such fleet owner shall be required to maintain a financial liability coverage card in each vehicle in the fleet including information deemed appropriate by the director.

(2) An association of individual members that is issued a certificate of self-insurance pursuant to section 321A.34, subsection 2, is required to maintain in each vehicle of an individual member a financial liability coverage card that complies with the provisions of this section and in addition contains information relating to the association and the association's certificate of self-insurance as is deemed appropriate by the director.

3. If the financial liability coverage for a motor vehicle which is registered in this state is canceled or terminated effective prior to the expiration date indicated on the financial liability coverage card issued for the vehicle, the person to whom the financial liability coverage card was issued shall destroy the card.

4. *a.* If a peace officer stops a motor vehicle registered in this state and the driver is unable to provide proof of financial liability coverage, the peace officer shall do one of the following:

(1) Issue a warning memorandum to the driver.

(2) Issue a citation to the driver.

(3) Issue a citation and remove the motor vehicle's license plates and registration receipt.

(a) Upon removing the license plates and registration receipt, the peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.

UNOFFICIAL VERSION 2024 EARLY RELEASE

(b) The motor vehicle may be driven for a time period of up to forty-eight hours after receiving the citation solely for the purpose of removing the motor vehicle from the highways of this state, unless the driver's operating privileges are otherwise suspended. After receiving the citation, the driver shall keep the citation in the motor vehicle at all times while driving the motor vehicle as provided in this subparagraph, as proof of the driver's privilege to drive the motor vehicle for such limited time and purpose.

(4) (a) Issue a citation, remove the motor vehicle's license plates and registration receipt, and impound the motor vehicle. The peace officer shall deliver the plates for destruction, as appropriate, and forward the registration receipt and evidence of the violation, as determined by the department, to the county treasurer of the county in which the motor vehicle is registered.

(b) A motor vehicle which is impounded may be claimed by a person if the owner provides proof of financial liability coverage and proof of payment of any applicable fine and the costs of towing and storage for the motor vehicle. If the motor vehicle is not claimed within thirty days after impoundment, the motor vehicle may be treated as an abandoned vehicle pursuant to section 321.89.

(c) The holder of a security interest in a motor vehicle which is impounded pursuant to this subparagraph shall be notified of the impoundment within seventy-two hours of the impoundment of the motor vehicle and shall have the right to claim the motor vehicle upon the payment of all fees. However, if the value of the vehicle is less than the security interest, all fees shall be divided equally between the lienholder and the political subdivision impounding the vehicle.

b. An owner or driver of a motor vehicle who is charged with a violation of subsection 1 and issued a citation under paragraph "*a*", subparagraph (3) or (4), is subject to the following:

(1) An owner or driver who produces to the clerk of court, prior to the date of the individual's court appearance as indicated on the citation, proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or, if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited, in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that such proof was provided and be subject to one of the following:

(a) If the person was cited pursuant to paragraph "*a*", subparagraph (3), the owner or driver shall provide a copy of the receipt to the county treasurer of the county in which the motor vehicle is registered and the owner shall be assessed a fifteen dollar administrative fee by the county treasurer who shall issue new license plates and registration to the person after payment of the fee.

(b) If the person was cited pursuant to paragraph "*a*", subparagraph (4), the owner or driver, after the owner provides proof of financial liability coverage to the clerk of court, may claim the motor vehicle after such person pays any applicable fine and the costs of towing and storage for the motor vehicle, and the owner or driver provides a copy of the receipt and the owner pays to the county treasurer of the county in which the motor vehicle is registered a fifteen dollar administrative fee, and the county treasurer shall issue new license plates and registration to the person.

(2) An owner or driver who is charged with a violation of subsection 1 and is unable to show that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited may do either of the following:

(a) Sign an admission of violation on the citation and remit to the clerk of court a scheduled fine as provided in section 805.8A, subsection 14, paragraph "*f*", for a violation of subsection 1. Upon payment of the fine to the clerk of court of the county where the citation was issued, payment of a fifteen dollar administrative fee to the county treasurer of the county in which the motor vehicle is registered, and providing proof of payment of any applicable fine and proof of financial liability coverages to the county treasurer of the county in which the motor vehicle is registered, the treasurer shall issue new license plates and registration to the owner.

(b) Request an appearance before the court on the matter. If the matter goes before the

court, and the owner or driver is found guilty of a violation of subsection 1, the court may impose a fine as provided in section 805.8A, subsection 14, paragraph *"f"*, for a violation of subsection 1, or the court may order the person to perform unpaid community service instead of the fine. Upon the payment of the fine or the entry of the order for unpaid community service, the person shall provide proof of payment or entry of such order and the county treasurer of the county in which the motor vehicle is registered shall issue new license plates and registration to the owner upon the owner providing proof of financial liability coverage and paying a fifteen dollar administrative fee to the county treasurer.

c. An owner or driver cited for a violation of subsection 1, who produces to the clerk of court prior to the date of the person's court appearance as indicated on the citation proof that financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, shall not be convicted of such violation and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

5. If the motor vehicle is not registered in this state and the driver is a nonresident, the peace officer shall do one of the following:

a. Issue a warning memorandum to the driver.

b. Issue a citation. An owner or driver who produces to the clerk of court prior to the date of the person's court appearance as indicated on the citation proof that the financial liability coverage was in effect for the motor vehicle at the time the person was stopped and cited, or if the driver is not the owner of the motor vehicle, proof that liability coverage was in effect for the driver with respect to the motor vehicle being driven at the time the driver was stopped and cited in the same manner as if the motor vehicle were owned by the driver, shall be given a receipt indicating that proof was provided, and the citation issued shall be dismissed by the court. Upon dismissal, the court or clerk of court shall assess the costs of the action against the defendant named on the citation.

6. This section does not apply to a motor vehicle identified in section 321.18, subsection 1, 2, 3, 4, 5, 6, or 8.

7. This section does not apply to a lienholder who has a security interest in a motor vehicle subject to the registration requirements of this chapter, so long as such lienholder maintains financial liability coverage for any motor vehicle driven or moved by the lienholder in which the lienholder has an interest.

8. This section does not apply to a motor vehicle owned by a motor vehicle dealer or wholesaler licensed pursuant to chapter 322.

321.23 Titles to specially constructed and reconstructed vehicles, street rods, replica vehicles, and foreign vehicles.

1. *a.* If the vehicle to be registered is a specially constructed vehicle, reconstructed vehicle, street rod, replica vehicle, or foreign vehicle, such fact shall be stated in the application. A fee of thirty dollars shall be paid by the person making the application upon issuance of a certificate of title by any county treasurer. For a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle subject to registration, the application shall be accompanied by a statement from the department authorizing the motor vehicle to be titled and registered in this state. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, replica vehicle, or foreign vehicle purchased pursuant to section 578A.7 shall present documentation that such sale was completed in compliance with that section.

b. The department shall cause a physical inspection to be made of all specially constructed vehicles, reconstructed vehicles, street rods, and replica vehicles upon application for a certificate of title by the owner, to determine whether the motor vehicle complies with the definition of specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle in this chapter and to determine that the integral component parts are properly identified and that the rightful ownership is established before issuing the owner the authority to have the motor vehicle registered and titled. The purpose of the physical inspection under this section is not to determine whether the motor vehicle is in a condition safe to operate.

c. The owner of a specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle shall apply for a certificate of title and registration for the vehicle at the county treasurer's office within thirty days of the inspection. For a foreign vehicle which has been registered outside this state, the owner shall surrender to the treasurer all registration plates, registration cards, and certificates of title, or if the vehicle to be registered is from a nontitle state, the evidence of foreign registration and ownership as may be prescribed by the department except as provided in subsection 2.

d. Upon completion of every specially constructed vehicle, reconstructed vehicle, street rod, or replica vehicle, the owner shall certify on a form prescribed by the department that such vehicle is in compliance with all equipment specifications required under this chapter.

2. Where in the course of operation of a vehicle registered in another state it is desirable to retain registration of said vehicle in such other state, such applicant need not surrender but shall submit for inspection said evidence of such foreign registration and the treasurer upon a proper showing shall register said vehicle in this state but shall not issue a certificate of title for such vehicle.

3. In the event an applicant for initial registration of a foreign vehicle for which a certificate of title has been issued is able to furnish evidence of being the registered owner of the vehicle to any county treasurer, although unable to surrender such certificate of title, the county treasurer may issue a registration receipt and plates upon receipt of the required annual registration fee and the fee for new registration but shall not issue a certificate of title thereto. Upon surrender of the certificate of title from the foreign state, the county treasurer shall issue a certificate of title to the owner, or person entitled thereto, of such vehicle as provided in this chapter. The owner of a vehicle registered under this subsection shall not be required to obtain a certificate of title in this state and may transfer ownership of the vehicle to a motor vehicle dealer licensed under chapter 322 or an insurance carrier authorized to do business in this state if, at the time of the transfer, the certificate of title is held by a secured party and the dealer or insurance carrier, as applicable, has forwarded to the secured party the sum necessary to discharge the security interest pursuant to section 321.48, subsection 1.

4. A vehicle which does not meet the equipment requirements of this chapter due to the particular use for which it is designed or intended, may be registered by the department upon payment of appropriate fees and after inspection and certification by the department that the

vehicle is not in an unsafe condition. A person is not required to have a certificate of title to register a vehicle under this subsection. If the owner elects to have a certificate of title issued for the vehicle, a fee of thirty dollars shall be paid by the person making the application upon issuance of a certificate of title. If the department's inspection reveals that the vehicle may be safely operated only under certain conditions or on certain types of roadways, the department may restrict the registration to limit operation of the vehicle to the appropriate conditions or roadways. This subsection does not apply to snowmobiles as defined in section 321G.1. Section 321.382 does not apply to a vehicle registered under this subsection which is operated exclusively by a person with a disability who has obtained a persons with disabilities parking permit as provided in section 321L.2, if the persons with disabilities parking permit is carried in or on the vehicle and shown to a peace officer on request.

4. If the prior certificate of title is from another state and indicates that the vehicle was rebuilt, the new certificate of title and registration receipt shall contain the designation "REBUILT" printed on its face together with the name of the state issuing the prior title. The designation shall be retained on the face of all subsequent certificates of title and registration receipts for the vehicle.

5. If the prior certificate of title is from another state and indicates that the vehicle was junked, an Iowa junking certificate shall be issued according to section 321.52, subsections 2 and 3. If the prior certificate of title from another state indicates that the vehicle is salvaged and not rebuilt or is a salvage certificate of title, an Iowa salvage certificate of title shall be issued and a "SALVAGE" designation shall be retained on all subsequent Iowa certificates of title and registration receipts for the vehicle, unless the owner has surrendered the prior certificate of title and a salvage theft examination certificate, as provided under section 321.52, subsection 4, paragraph *"c"*, and the salvage theft examination certificate was properly executed within thirty days of the date the owner was assigned the prior certificate of title. The department may require that subsequent Iowa certificates of title retain other states' designations which indicate that a vehicle had incurred prior damage. The department shall determine the manner in which other states' rebuilt, salvage, or other designations are to be indicated on Iowa titles.

6. If the prior certificate of title is from another state and indicates that the vehicle was returned to the manufacturer pursuant to a law of another state similar to chapter 322G, the new registration receipt and certificate of title, and all subsequent registration receipts and certificates of title issued for the vehicle, shall contain a designation indicating the vehicle was returned to the manufacturer. The department shall determine the manner in which other states' designations are to be indicated on Iowa registration receipts and certificates of title. The department may determine that a "REBUILT" or "SALVAGE" designation supersedes the designation required by this subsection and include the "REBUILT" or "SALVAGE" designation on the registration receipt and certificate of title in lieu of the designation required by this subsection.

7. The certificate shall contain the name of the county treasurer or of the department and, if the certificate of title is printed, the signature of the county treasurer, the deputy county treasurer, or the department director or deputy designee. The certificate of title shall contain upon the reverse side a form for assignment of title or interest and warranty by the owner, for reassignments by a dealer licensed in this state or in another state if the state in which the dealer is licensed permits Iowa licensed dealers to similarly reassign certificates of title. However, titles for mobile homes or manufactured homes shall not be reassigned by licensed dealers. Notwithstanding section 321.1, subsection 17, as used in this subsection,*"dealer"* means every person engaged in the business of buying, selling, or exchanging vehicles of a type required to be registered under this chapter.

8. The original certificate of title shall be delivered to the owner if there is no security interest. Otherwise the certificate of title shall be delivered by the county treasurer or the department to the person holding the first security interest. Delivery may be made using electronic means.

9. The county treasurer or the department, as applicable, shall maintain in the records system the information contained on the certificate of title and the name and address of the previous owner. The information must be accessible by title certificate number for a period of three years from the date of notification of cancellation of title or date that a new title has been issued as provided in this chapter. Information the department requires shall be sent to the department in the manner and at the time the department directs. The department shall designate a uniform system of title numbers to indicate the county of issuance.

10. A vehicle shall be registered for the registration year. A vehicle registered for the first time in this state shall be registered for the remaining unexpired months of the registration year and pay an annual registration fee prorated for the remaining unexpired months of the registration year plus a fee for new registration if applicable pursuant to section 321.105A. Except for a vehicle registered under chapter 326, a vehicle registered for the first time during the eleventh month of the owner's registration year may be registered for the remaining unexpired months of the registration year as provided in this subsection or for the remaining

unexpired months of the registration year and for the next registration year, upon payment of the applicable registration fees.

11. If the county treasurer or department is not satisfied as to the ownership of the vehicle or that there are no undisclosed security interests in it, or if a junking certificate has been issued for the vehicle but a certificate of title will not be reissued under section 321.52, subsection 3, and the vehicle qualifies as an antique vehicle under section 321.115, subsection 1, the county treasurer or department may register the vehicle but shall, as a condition of issuing a certificate of title and registration receipt, require the applicant to first receive approval by the department.

a. If the department determines the value of the vehicle is one thousand dollars or less and the vehicle is twelve model years old or older, the department shall notify the applicant, and the department or county treasurer may issue a certificate of title and registration receipt. The applicant shall apply for a certificate of title and registration within thirty days of the department's notification of determination.

b. If the department determines the value of the vehicle is more than one thousand dollars or the vehicle is less than twelve model years old, the applicant shall file with the department a bond in the form prescribed by the department and executed by the applicant, and either accompanied by the deposit of cash with the department or also executed by a person authorized to conduct a surety business in this state. The owner of a vehicle subject to the bond requirements of this subsection shall apply for a certificate of title and registration for the vehicle at the county treasurer's office within thirty days of issuance of written authorization from the department. The bond shall be in an amount equal to one and one-half times the current value of the vehicle, as determined by the department, and conditioned to indemnify any prior owner and secured party and any subsequent purchaser of the vehicle or person acquiring any security interest in it, and their respective successors in interest, against any expense, loss, or damage, including reasonable attorney fees, by reason of the issuance of the certificate of title for the vehicle or on account of any defect in or undisclosed security interest upon the right, title, and interest of the applicant in and to the vehicle. Any such interested person has a right of action to recover on the bond for any breach of its conditions, but the aggregate liability of the surety to all persons shall not exceed the amount of the bond. The bond, and any deposit accompanying it, shall be returned at the end of three years or earlier if the vehicle is no longer registered in this state and the currently valid certificate of title is surrendered to the department, unless the department has been notified of the pendency of an action to recover on the bond. The department may authorize issuance of a certificate of title as provided in this subsection for a vehicle with an unreleased security interest upon presentation of satisfactory evidence that the security interest has been extinguished or that the holder of the security interest cannot be located to release the security interest as provided in section 321.50.

c. The department may adopt rules pursuant to chapter 17A to implement and administer this subsection.

12. A person who violates this section commits a simple misdemeanor punishable as a scheduled violation under section 805.8A, subsection 2, paragraph *"b"*.

321.25 Application for registration and title — cards attached.

1. A vehicle may be operated upon the highways of this state without registration plates for a period of forty-five days after the date of delivery of the vehicle to the purchaser from a dealer if a card bearing the words "registration applied for" is attached on the rear of the vehicle. The card shall have plainly stamped or stenciled the registration number of the dealer from whom the vehicle was purchased and the date of delivery of the vehicle. In addition, a dealer licensed to sell new motor vehicles may attach the card to a new motor vehicle delivered by the dealer to the purchaser even if the vehicle was purchased from an out-of-state dealer and the card shall bear the registration number of the dealer that delivered the vehicle. A dealer shall not issue a card to a person known to the dealer to be in possession of registration plates which may be attached to the vehicle. A dealer shall not issue a card unless an application for initial registration and certificate of title has been made by the purchaser and a receipt issued to the purchaser of the vehicle showing the fee paid by the person making the application. Dealers' records shall indicate the agency to which the fee is sent and the date the fee is sent. The dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of delivery of the vehicle. However, if the vehicle is subject to a security interest and has been offered for sale pursuant to section 321.48, subsection 1, the dealer shall forward the application by the purchaser to the county treasurer or state office within thirty calendar days from the date of the delivery of the vehicle to the purchaser.

2. The department shall, upon request by any dealer, furnish "registration applied for" cards free of charge. Only cards furnished by the department shall be used. Only one card shall be issued in accordance with this subsection for each vehicle purchased.

321.26 Multiple registration periods and adjustments.

1. There are established twelve registration periods for the registration of vehicles by the county treasurer. Each registration period shall commence on the first day of each calendar month following the month of the birth of the owner of the vehicle and end on the last day of the twelfth month.

2. The county treasurer may adjust the registration renewal or expiration date of vehicles for which the county treasurer is responsible for renewal under section 321.40 when deemed necessary to equalize the number of vehicles registered in each twelve-month period or for the administrative efficiency of the county treasurer's office. The adjustment shall be accomplished by delivery of a written notice to the vehicle owner of the adjustment and allowance of a credit for the remaining months of the unused portion of the annual registration fee, rounded to the nearest whole dollar, which amount shall be deducted from the annual registration fee due at the time of registration. Upon receipt of the notification the owner shall, within thirty days, surrender the registration card and registration plates to any county treasurer, except that the registration plates shall not be surrendered if validation stickers or other emblems are used to designate the month and year of expiration of registration. Upon payment of the annual registration fee, less the credit allowed for the remaining months of the unused portion of the annual registration fee, the county treasurer that adjusted the registration renewal or expiration date of the vehicle shall issue a new registration card and registration plates, validation stickers, or emblems which indicate the month and year of expiration of registration.

3. Except for motor trucks or truck tractors registered by the county treasurer pursuant to sections 321.120, 321.121, and 321.122, vehicles subject to registration which are owned by
